## Portfolio Review: Guidelines for Facilitators

Thank you for collaborating with Community-based Art: PAC! We are excited to implement a portfolio review process for our participants. Please find below guidelines and questions for the review. Read it over and ask us any questions that you have about facilitating a group. Your Site-Lead will divide the participants into even groups and assign one to each facilitator. From there, please implement the Portfolio Review with the group assigned to you by your Site-Lead.

### Guidelines

- Establish and maintain a culture of mutual trust and respect.
- Respect all participants allotted time to contribute and support their participation.
- Create an environment where participants can become active agents in the learning/listening process.

### Directions

1. Meet with the group assigned to you to facilitate.
2. Welcome the participants to the group. Have each participant introduce themselves and the class/classes they were a part of.
3. Introduce the questions below, the allotted time and let them know they can choose one question to answer.
4. Have all participants lay out artwork from portfolio, for everyone in the group to see.
5. Remain aware of the time to be sure that you allow equal time for each participant to answer one of the questions.

### Questions

1. Choose a project that was the most successful in your experience. What do you like about it? Is there anything you might change or add?
2. Do you see any theme or thread throughout your work overall; what is it?

Teachers can use this opportunity to encourage participants to expand on the idea in another piece or body of work.
