A high-level policy meeting described by its participants as "very encouraging" was held with Governor Brown by members of the Board of Trustees in Sacramento, January 5.

Present at the lengthy session along with the Governor and Trustees Albert J. Ruffo, George D. Hart, Theodore Meriam, Charles Luckman and Mrs. Philip Conley were Chancellor Glenn S. Dumke; Hale Champion, the state's director of finance; and Les Cohen, director of governmental affairs for the college system.

Capital Outlay and support budget needs for the Colleges were explained by the Trustees. Special emphasis was given to their recommendations for early action on faculty and staff salary increases. They also pointed out the immediate necessity for correcting pay lags in non-academic classifications of the clerical field. The Trustees' position on year-round operation was also discussed. The Governor and Mr. Champion both expressed full support for the plan to establish an office in Washington, D. C. to coordinate federal programs with the California State Colleges.

"Governor Brown was most impressed by the facts we presented," Chancellor Dumke said. He reported, too, that Director of Finance Hale Champion would soon launch a major study of fringe benefits at both the University and the State Colleges. The Governor said he hoped the Colleges and their constituents would continue to develop public support for the needs of higher education because of the impact of education on the economy of the state.

Dr. Robert G. Fisk, Dean of Students spoke last week at an open meeting of The San Bernardino Inter-Racial Advisory Council. One of the many lively and pertinent features of the talk was Dr. Fisk's point that the time had come for workshops where school teachers could achieve better understanding of their minority group students, thus improving teacher-student relationships and enabling the students to better adjust to educational requirements. Dr. Fisk is Chairman of the Council, the purpose of which is to serve as a meeting place where people of all groups can come and discuss racial problems in the San Bernardino area--and help resolve them.

Governor Brown announced recently that his Education Secretary, Mr. Ron Moskowitz, has resigned to accept a position with the newly created Interstate Compact on Higher Education as Association Director at Duke University in North Carolina. Dr. Gregg has been working in the Governor's office under a foundation grant and presently is on a leave-of-absence from the College.

Later in the year a San Bernardino chapter of the Association of California State College Professors may be formed. Information about this organization and membership applications are available in the office of Dr. Fernando Penalosa, Sociology, Room A-168.

Dr. Leo Kreter, Music, served as a consultant to a conference sponsored by MENC (Music Educators National Conference) and the Ford Foundation at USC last Wednesday which met to discuss plans for establishing a regional center for the study of contemporary techniques in music education. This is a national project started 3 years ago and Dr. Kreter was asked to be a consultant as he conducted two pilot projects for the conference while he was on the music staff of Wichita State University in Wichita, Kansas. Later in the week, on Friday, Dr. Kreter attended a meeting in Whittier of the California Music Executives, a group made up of the heads of all music departments in California.
