Portfolio Review: Guidelines for Participants

Thank you for participating with Community-based Art: PAC! We are excited to have you participate in our Portfolio Review. Please find below guidelines and questions for the review. Read it over and ask us any questions you may have.

Your Site-Lead will divide all participants into even groups and assign each group to a facilitator. From there, please implement these guidelines with your fellow group members. Your assigned facilitator will help guide the Portfolio Review process but this is also an exercise you can practice on your own!

Guidelines

- Establish and maintain a culture of mutual trust and respect with your facilitator and group mates.
- Respect the allotted time provided to each one of you to contribute and be supportive of each person in the group.
- Help create an environment where you and your group members can become active agents in the learning/listening process. Be attentive.

Directions

1. Meet with the facilitator and group assigned for you to join.
2. When instructed, please introduce yourself and the class/classes you were a part of.
3. Your facilitator will introduce the process for the Portfolio Review.
4. Please lay out your artwork from your portfolio for everyone in the group to see. Sketches, sketchbooks and class activities too!
5. Remain aware of the time to be sure that you allow equal time for each person to answer one of the questions.

Questions

1. Choose a project that was the most successful in your experience. What do you like about it? Is there anything you might change or add?
2. Do you see any theme or thread throughout your work overall; what is it?
