THE BATTLE AGAINST IN-FLATION

Nations at war discover that they are fi ghting not only on the battlefields, but also at home. The battle of armies depends upon the battle of production. And the battle of production depends upon waging a successful battle against inflation.

Money by itself, of course, has no value; value consists in what it can only In wartime money tends to lose in purchasing power because more money is in circu lation as a result of vast government spending. If it were possi ble to increase the supply o f civilian goods to keep up with the growing supply of money, inflation could be prevented.

The purchase, of war bonds is one method of taking money out of circulation. Increased taxes provide another The limiting cre dit through restrictions on charge accoun s and installment buy ing is another.

Still the cost of liv ng has gone up. From January to May it inreased fifteen perent, and it is still ·ising.

The largest item in nost family budgets is for food. So long as farm prices are allowed to rise beyond parity, vorkers will demand in creased wages to meet their rising cost.

In his recent editorial he tried to convey to his reader about the Athletic Division of Rec. Dept. being over crowded. He also tried to stress the fact that these athletic energy should be used in Agriculture. The over-all project of 3 Units. The importance in Agricul ture to the community is very vital but I conwhether these recreation be tried through Art, Music, Drams, Wood-carving, and club workers of the Athletic Div., and the past troubles in the minds of our citizens must be adjusted and begin a new life. Unless the various dept. and Rec. do not achieve their ends I assure you the Agriculture or any other project will greatly be curtailed. The Athletic Div. of the Rec. Dept. has tried to do its part in adjustment of the community by providing a program for the majority in the least possible time. We have become confronted with the problems of lack of machinery, lack of equipment. We admit, we made mistakes, but you must

realize that we are also adjusting ourselves to the work before us. If where failed to do a better job you must excuse us, we have had no education along this work, but you will not and cannot take away our sincerity and any effort and our aim to carry out this program.

PERSONAL TOUR TO LINIATURE PARK BY AN OUTDOOR REPORTER

Approaching Blk. 19 from the north on an excursion to the ministure Park, the first thing that caught my eyes was a colorful friendly sign, "ELCOLE TO BIK19" From the mainland I could see

the miniature ocean, and in the calm waters I saw a fish swim into the shadow of a light house Beyond perched on a rocky mass. the freshly painted bridge that connects the Island to the mainland, I can see a house on a pierand next to the pier, a rowboat. ! radio station stands on a high hill overlooking the sea and a fishing boat can be seen near the shore of the second Island.

toving on, I saw an entirely different scene, from a beautiful ocean view to a picturesque desert of various shape tree stumps and cactus on a circular mound. the desert I wondered to the fish ponds; one of heart shape with an arrow, the other the shape of a figure 8. pond was being constructed by the Blk. gardeners and residents, it was learned.
