Welcome to the CSUSB Statistical Factbook!

The version of the Factbook you are now reading reflects significant changes to statistical data reporting implemented with the 2006-07 academic year. Historically a full-time equivalent student (FTES) was defined by 15 units per quarter (45 per year). This year brought a differentiation for students in Master's programs for whom 12 units defined one full-time equivalent. The CSU System has also begun differentiating between California Residents and Non-Residents so a Residency distinction has been included on several tables. While some tables provide historical statistics based on the current coding rules, most tables will reflect the definitions in effect at those past times.

All of the reports have been generated using aggregated statistical databases contained in stand-alone Excel worksheets. Several versions of the Factbook are available to help meet the statistical information needs of a full range of users:

- A paper version designed to address the most common requests for data;
- An Adobe Acrobat (.pdf) version from the Institutional Research web site; and
- Excel Workbooks. The current conversion from the SIS+ information system to the PeopleSoft CSU Common Management System will eventually bring a Data Warehouse which will enable a wide range of *ad hoc* reporting capabilities to the campus community. Until that time, the Office of Institutional Research has been maintaining a series comprehensive databases in Microsoft Excel™ consisting of the tables published here as well as the capability to easily generate customized reports that are not feasible for inclusion in a Factbook for general audiences. These can be downloaded from the Institutional Research web-site. We are also willing to provide technical assistance to casual users who may be unfamiliar with Excel's built-in reporting capabilities.

All of the electronic versions (and more) are available at:
