VOICE OF AN ISSE

ON EVACUEE TRUST FUND

The proposed creation of the evacuee trust fund out of the earnings of cotton pickers should be reconsidered. The trust fund to be created should have the joint approval of each and every member of workers and if all the worke s give their consent to give up the greater portion of their earnings, it will be quite O.K. But in the case now under discussion; the general consensus of opinion on the question is a negative one. Some people think it quite illogical while others believe it would create some unpleasant feelings among the workers which it turn, might develop into something very sinister in its nature and finally, into

un-American idea like Bolshevism.

If all the balance minus \$19 per month per head turned into the proposed trust fund, whoever getting paid over and above \$12 per month should turn in their dues--\$4 and \$7 according to their monthly allowances. The same principle should be applied also to those workers in sugar beet fields who are now getting more than \$12 per month. TO THE EDITOR

Dear Sir:

We are reminded again that Sadie Hawkins Day is just a few days off (Nov. ?) in the community of Dogpatch, the home of Li'l Abner.

Colleges, high schools and the whole country from the west coast to the east will observe Sadie. Hawkins Day and the rumors have it that Poston girls also will mot be deprived of this joyous holiday on that date.

In behalf of Unit Two's Women Haters club of which I am a loyal member and of which Kaz Ikeda is president and Tom Masamori is vice-president, I will object vigorously to such an injustice and cruelty to the males of this center if Sadie Hawkins Day is decided to be declared legal here.
