Dr. Reginald Price named first athletic director

Dr. Reginald Price, chair of the Department of Physical Education and Recreation, announced his appointment to the half-time position, effective Jan. 3, is the first major step in the implementation of intercollegiate athletics on campus. He will continue as chair of the Department of Physical Education and Recreation, a position he has held since coming here in September 1978. In order to accommodate the time-consuming activities as athletic director, he will do a limited amount of teaching.

Dr. Price has a diverse background including varied administrative experience, coaching and consulting in the construction of a $4 million education complex. He earned six collegiate varsity letters in three sports, wrestling, track and soccer. He was chair of the Department of Physical Education and Athletics and served as athletic director, he will do a limited amount of teaching.

One of Dr. Price’s top priorities will be the establishment of an on-campus athletics advisory board which will assist in the development of policies and procedures for the selection of part-time coaches. His goal is to appoint the first coaches this spring, so that they may begin recruiting students and preparing for the introduction of athletics next fall.

Appointment of an athletic director is the first step in seeking membership in the National Collegiate Athletic Assn. (NCAA) and the local Division III conference, the Southern California Intercollegiate Athletic Conference (SCIAC). Price will begin developing schedules for 1984-85 for the first sports to be introduced: men’s soccer and cross-country and women’s volleyball and cross country in the fall, men’s and women’s basketball in the winter quarter and men’s and women’s tennis in spring quarter 1985.

Mascot: Coyote or St. Bernard?

by Carol Leish

Here, at Tumbleweed Tech, a race continues between the Coyote and the St. Bernard. Which will win? Or will the Blue Jay or the Jack Rabbit become the school symbol?

For the past several years, there has been a controversy at Cal State concerning the school mascot. Originally the St. Bernard was selected as the school mascot. An alumnus, John Kirwan said, “One of the professors on campus had a St. Bernard and started bringing him to all campus functions.” According to Kirwan, “The Paw Print” was also a natural choice for the school paper. Memories that traditions are made of should be guarded.”

Kathy Fortner, another alumna, is in favor of the Coyote as the mascot. She said, “The college mascot will be a symbol of our future intercollegiate athletic teams and should portray an image favorable to those teams. The Coyote portrays an image of a swift, cunning animal.”

The two alumnae are part of a committee formed by President Evans to resolve the issue of what the school mascot will be when the school starts intercollegiate sports in the fall quarter of 1984.

Barbara Sirotnik developed an opinion survey that was handed out to students, during the previous registration. They were to choose the Coyote, the St. Bernard or an alternative for the school mascot.

Kerry Boykins helped to hand out the surveys in the gym. There were balloons with “Cal State San Bernardino Mascot!” Alson hand to draw attention to the issue were stuffed animals: the Coyote and the St. Bernard. Kerry Boykins said, “We couldn’t get live ones.” He also said that “students should show support.”

According to Dean Tom Rivera, head of the Ad hoc committee for the mascot issue, the faculty and staff members will be polled in 2 weeks. He said, “We are shooting for a resolution of this issue by the end of January.” The committee will turn over their results (recommendation) to President Evans, who has the final word on the matter.
Fountains To Be Restored?

by Rabea Jan

It is just this year that CSCSB has begun to recover from one of the consequences of the Arab oil embargo.

In 1973 King Faisal of Saudi Arabia imposed an Arab embargo on oil exports which provoked a worldwide energy crisis. CSCSB, like the rest of the world, had to cut its energy consumption, and one of the ways proposed was to turn off the fountains around the campus. The reflecting pools were also shut off to conserve fuel. Both stood as empty concrete vessels.

Six months ago, however, CSCSB new president, Mr. Anthony Evans asked: CSCSB's Plant Operations to reconsider how much it actually costs to have the pools and fountains turned on for the aesthetic environment of the campus.

"We found the cost would be $500 a year for the power," said Mr. James Urata, a director of Administrative Affairs and Plant Operations at CSCSB.

"And the cost is not an issue right now. There is a problem however, with the motors. They have to be overhauled. That's not the only one, however. Are the two pools in the Administration Building area inoperable too? "They are operable," said Urata.

"but after having turned them on for a few months, a lot of algae was coming in, and the chief engineer recommended a chlorine light material to be added to the water."

The powder stained the sides and caused the water to turn yellow green. "We thought it was activated algae," Urata said. "It was not. It was the stain from the chlorine powder that caused the surface rubberized paint to stain."

"The physical plant personnel drained the pool that day, February 2, 1984, of all water blast the surface," said Urata.

"Why Not Sandblast It?"

"Sand blasting creates a lot of pockets which become home for algae. We are looking for high-pressure water to blow the rubberized material off the line inside the pool, and we have not decided yet if we are going to repaint it or just seal the concrete."

By using water blasting Urata hopes to get the rubberized material off. "If not, we'll try to get the stain out," he said. "Then we will reseal it and fill it with water, and get the pools back in order."

One of the original reflecting fountain pools has no hope of becoming a reflecting pool. It's the one in front of the Creative Arts Building. "The state would not permit us to design a pump in with the building. The pool itself was there, but they did not give us the necessary equipment to circulate the water," said Urata.

"We decided not to worry about buying a pump, but to go ahead and fill the pool with dirt and plant it instead."

News Briefs

Families Sought As Hosts For International Teenage Students

Youth Exchange Service (YES) is in constant need of families all over the United States who will host students from different parts of the world for periods of 3 months, one second school semester or one school year (9 months). The students are carefully screened and oriented before arrival, have excellent medical-accidental insurance, and bring their own spending money. Host families provide a bed and meals and accept the student as a member of the family. Host family may receive a tax deduction of $50 for each month they host the student. For detailed information on opportunities to host a high school student from another land, please contact Youth Exchange Service (YES), 350 South Figueroa St., Los Angeles, California 90071, or phone: 800-848-2121.

Graduate Fellowship Available

The Graduate Opportunity Fellowship Program of the University of California at Davis is offering fellowship support to students from underrepresented groups, including minorities and women, by providing a supportive and productive environment for graduate study. Stipends are $4,800 per academic year plus tuition and fees. These fellowships are available in all areas of study. Application deadline is January 15, 1984. Information and applications are available in the Office of Graduate Programs, AD 122.

For further information, contact Elaine E. Russell, Graduate Division, UC Davis, Davis CA 95616 (916-752-7456).

UCLA Offers Minority Fellowships

UCLA has announced the Dorothy Danforth-Compton Graduate Fellowship Program, which provides financial support to American minorities who seek a Ph.D. and plan careers in college or university teaching. The fellowship carries a stipend of $5,000 a year plus fees and tuition during the first and fourth years of study. In the second and third years, the student will be a Teaching Assistant or Research Assistant.

The UCLA deadline for applications is January 16, 1984 for Fall Quarter 1984 admission.

Contact Cheryl Armstrong-Turner, Assistant Dean, at the Graduate Affirmative Affairs Office, 1242 Murphy Hall, UCLA, Los Angeles, Ca 90024, for further information.

Mid-Year Social For All Administration Majors

All Administration majors are invited to a Free Lunch court to attend. Dr. R. J. Botting (Computer Science) is club advisor.

Human Development Major Approved

Chancellor W. Ann Reynolds has granted approval for Cal State to offer a B.A. in human development effective this year. The human development major provides for broad interdisciplinary study over the life span. Majors may concentrate in child development or aging. The program is an expansion of the present B.A. in child development. Students currently in the child development program may complete the old major or may switch to human development. Dr. Charles Hoffman (Psychology) is coordinator of the program, which is appropriate for individuals working with any age level.

High School Faculty Show Opens Jan. 14

An exhibit of high school faculty art work will open with a reception in the Art Gallery Saturday, Jan. 14. The art and industrial arts departments of the 65 high schools in Cal State's service area were invited to participate. The reception honoring the artists will be from 7 to 10 p.m., Jan. 14. Gallery hours for this show, which will be through Feb. 4, are 9 a.m. to 4 p.m. Monday through Friday and 1-4 p.m. Saturday and Sunday.

Positions open on The Cal State Chronicle Staff

A variety of paid staff positions are available on the newspaper staff. Employment applications can be picked up at the newspaper room in the Student Union.
Weekly Chess Obsession

by Brooke Laning

Are you tired of running out of quarters at the arcade? Would you like a cheaper obsession, with just as much, if not more, brain exercise? Try chess!

That's just what 69 members of "Woodpushers Anonymous," a San Bernardino Community club that meets at CSCSB, have done. Headed by Clark Mayo, chairman of the English Department, the club meets in the Student Union, rooms A, B and Senate on Thursday evenings from approximately 8 p.m. to midnight.

A very small percentage of the members are CSCSB students. Bill Richards is a student at Cal State Fullerton, and lives in Ontario. Donald King is an engineer from Banning. There are four high school students, the youngest of whom is Jim Diamond, 16. Of the older men, the oldest (or at least the only one who would admit his age) is 69 year-old Ernie Draber.

As Richards pointed out, "You're never too old to play. Chess is a lifelong sport. It helps stimulate the mind."

Chess enthusiasts from throughout the Inland Empire match wits each Thursday evening at the Student Union.

Fosdick To Lead Aerobics In SUMP

by Rebecca Lowery

Cal State - Students have got to have heart. Bruce Fosdick, instructor of an aerobic exercise class offered on campus said, "The main objective is to get students involved in a good Health and Fitness Program, which works on the cardiovascular system. The heart is a muscle, which we should build up and make stronger."

Aerobic exercise is a "fun exercise" which involves jogging, muscle tone building, stretching, jumping and cycling, for at least 12 minutes.

"There are students in each class who have reached different levels of fitness. Remember, as much of an incentive as competition is that you're really not competing with anyone, but yourself. The other person isn't stretching, jumping, or cycling, or whatever with your body. You are, and it's up to you to get your body into condition, step by step," Fosdick said.

"If you want to live to become 80 years old, and yet look like 40 years, aerobic exercises are pertinent. Since we have all of these fast foods, and many stress related problems, I feel that we can't do it alone by dieting," said a member Ellen Bueche.

Aerobic class meets on campus in the SUMP, every Monday and Wednesday at 4 p.m., and Tuesday and Thursday at 3:30 p.m.

Aerobic class guarantees you 60 minutes of exercise each session, consisting of 8-10 minutes of warm ups, and 50 minutes of aerobic activity.
Danger in the Parking Lot?

by John Sousa

It is cold and dark. The howling wind twists its path through the maze of parked cars and trees. The moon and dimly lit parking lot lights cast villainous shadows everywhere. Your heart begins to pound rapidly. You anxiously wonder, "is the parking lot safe at night?"

That specific question was put to several CSUSB evening students. Fran Rice gave this concerned reply, "The parking lot is too dark..." Cathy Miller offered a very different response. "Yes, I feel very safe. The parking lot is adequately lit, parking reasonably close to classes, and, as far as I know, there haven't been any occurrences of trouble. Besides, I'm from L.A., and this is very calm in comparison. But I haven't seen the campus police very often."

Are the Campus Police available if needed? Lieutenant Pam Stewart, officer in charge of law enforcement of the Campus Police, spoke to this issue. "The campus patrol increases vehicles at night. This includes two patrol cars, aushman cart, and officers patrolling on foot. The patrol is not always visible because of their mode of travel, but you can be assured they are there. Several students gave Lt. Stewart's statement credibility. Chris Smith said, "I've seen security panning cars. Betty Meeks said, "Campus police have let me into my woodwork classroom to pick up something and they checked out the building to make sure it was safe."

"I've seen campus security patrolling at all hours," Lori Anderson said, "The photography lab is open 24 hours a day for my. The police have safely escorted me to the facility late at night many times."

Besides the duties of surveillance, the Campus Police Department offers an escort service and an Awareness Program. Lt. Stewart elaborated on these services. "Just call our office (887-7555) anytime from a campus phone and request an escort to your vehicle. We will respond immediately." How safe is our campus at night?

There are campus phones located at the edge of the parking lots. Quentin Moses, has an ongoing Awareness Program that periodically gives helpful presentations, at the see page 5.
Welcome Back! The holidays are over and the time has come to get back into the swing of school again. We would like to provide our new students and refresh returning students with some general information about the Student Health Center.

Who can use the Health Center?
Anyone who is a registered student and has an i.d. card that is validated for each quarter.

Do I need to make an appointment?
Yes, unless it is an emergency. Those people who have appointments will be seen first. If you just walk in to the Health Center, you may have to wait.

What should I do if I cannot keep my appointment?
Call the Health Center as soon as possible so that we can give your appointment time to someone else. Our number is 887-7641, or extension 7641 if you are calling from on campus. You may reschedule another appointment at that time.

What services are available to me at the Health Center pharmacy?
All medications prescribed by our staff medical personnel can be filled at the Health Center pharmacy. There is no charge to students for any medication.

Is there a doctor in attendance?
Yes. The Health Center staff includes two doctors, a nurse practitioner, a registered nurse, a pharmacist, two clerical personnel, and a student assistant.

What kinds of health services does the Health Center provide?
We can diagnose and treat a wide variety of illnesses and injuries such as colds, flu, acne, strains, sprains, etc. We offer family planning services, including pap smears, pelvic examinations, birth control, and pregnancy testing. We can provide nutrition and diet information and counseling. Immunizations, such as tuberculin skin testing and tetanus shots are also available. Laboratory and x-ray services are provided at off-campus facilities. There are many other services too numerous to mention here, so please call or stop by to become better acquainted with us.

Chess Obsession continued from page 3
Evidently one is almost never too young to play either. Richards said he has been playing "since I was about three or four and joined my first chess club at the age of 12." Another member, Jack Lambert, 55, claims he's played "all my life. I can't remember when I didn't play." Lambert is a member of all three local clubs, including the Inland Empire Chess club and the Riverside Chess Club.

Richards said all club members who participate in tournaments must also be members of the USCF (United States Chess Federation) because the tournaments are not just played locally. All results are sent to the USCF in order to get ratings for each players.

Of the approximately 55,000 rated members in the state (California is the state with the highest membership), Bill Richards is in the top two percent nationally. Nationally and internationally he is rated a "Master." Below "Master" comes "Expert," then "Class A," "Class B," on all the way down to "Class E."

Richards, who is studying to be an accountant, has time to play only once a week. He chose this club because "of the three out here, this one has a $100 first prize. I'm competing to get a shot at that."

ARE YOU MOTIVATED, POISED, WORK WELL WITH PEOPLE?

APPLY NOW FOR
- BUSINESS MANAGER OF THE COLLEGE NEWSPAPER
- MUST ENJOY SALES WORK

Applicant should enjoy sales work, work well with people, have supervisory talents, and have basic accounting knowledge.
Record Rack: "Born Again"

by Greg Timpany

Just when all the music seems to be about the simple and pretty things in life, along comes a new Black Sabbath album. The Masters of Reality are back in force with their new album "Born Again." They also have enlisted a not so new vocalist, in the form of ex-Deep Purple screamer Ian Gillian.

Gillian's vocals are part of a new sound for Black Sabbath. They have abandoned the studio clean sound of their last three albums, in favor of a brash, hard-hitting sound. "Born Again" slows down on occasion, but the rest of the album plods along like a locomotive. Instrumentally, Sabbath is in fine form. Iommi's guitar work has never been better. The opening track, "Trashed," features one of Tony's most blistering solos to date. His addition of Mesa-Bogie amplifiers to his set up gives him a very biting, compressed sound, which really makes his solos reach out after you.

The rhythm section, consisting of Geezer Butler and Bill Ward, drives Iommi like never before. The return of Bill Ward to the line up, after a three year leave of absence, gives Sabbath back their hard driving beat, which had been missing in their last two albums.

Side one preserves Black Sabbath's tradition of looking into the dark side of life. "Trashed" comes on hard and fast and sets the general tempo of the Album. Next in line is "Stonehenge," which is one of two short instrumental cuts on the record. "Disturbing the Priest" follows and is a true example of why Black Sabbath can be called the "Master of Dungeon Rock." Closing side one is an ominous epic entitled "Zero the Hero." This cut features some interesting work by Geezer on the bass guitar.

Side two opens with "Digital Bitch." The title track, "Born Again" follows. This is one of the slower songs on the album. Bill Ward stands out on this track. His use of percussion instruments adds much to the song. "Hot Line" follows and immediately throws the album back into high gear. Ian Gillian lets loose some impressive vocal tracks on this cut. Closing the album is "Keep it Warm." Black Sabbath will be bringing its version of Stonehenge to the Long Beach Area on January 26.

Next week I plan on doing the long awaited review of John Cougar-Mellenkamp's new album "Un-Huh." Till then don't forget to "Rock till you Drop!"

Take Charge At 22.

In most jobs, at 22 you're near the bottom of the ladder.

In the Navy, at 22 you can be a leader. After just 16 weeks of leadership training, you're an officer. You'll have the kind of job your education and training prepared you for, and the decision-making authority you need to make the most of it.

As a college graduate and officer candidate, your Navy training is geared to making you a leader. There is no boot camp. Instead, you receive professional training to help you build the technical and management skills you'll need as a Navy officer.

This training is designed to instill confidence by first-hand experience. You learn by doing. On your first sea tour, you're responsible for managing the work of up to 30 men and the care of sophisticated equipment worth millions of dollars.

As a Navy officer, you grow, through new challenges, new tests of your skills, and new opportunities to advance your education, including the possibility of attending graduate school while you're in the Navy.

Don't just take a job. Become a Navy officer, and take charge. Even at 22.

Navy Officers Get Responsibility Fast.

FORD DIVISION CONGRATULATES
**Whose Paper is it?**

Unlike the A.S. Board of Directors’ action to vote on the Intercollegiate Sports issue before consulting the general student body, The Publications Board decided to ask the student body’s opinion before taking a stand on whether to change the name of the newspaper or not. After spending almost $100 and countless hours put in by the Activities Director and the Editor-in-Chief ascertaining the preference of the students, the Pub Board members exercised their oligarchical powers and voted their own personal preference anyway.

The majority of the students that participated in the poll and the majority of Pub Board student members voted for the change, thereby mandating the change. As this paper is primarily for the students, and is subsidized by student fees, the decision to change the name should rest with the students, and not a seven member board. After all, just whose paper is it?

Hopefully the members of The Publications Board will keep in mind that the newspaper belongs to the students of this campus when they decide on formal guidelines for changes in the name. As the makeup of the student body changes, the character of this campus changes, and as such, symbols and traditions must be subject to change. In the early 1970’s the paper changed from The Communiqué to The Paw Print because the character of the campus had changed. The results of the Pub Board initiated poll indicates that the character of the campus has changed again, thereby prompting the name to change again.

**CSCSB INQUIRY**

**Glenn ‘Comes Out’ Against National Gay Rights Act**

Last week, Democratic presidential candidate John Glenn stated that he would not support a national gay rights act if he were elected. He also said that he does not think that homosexuals should be allowed to teach, be soldiers, or be spies.

Do you agree or disagree with Glenn? Do you think his comments will hurt or help his chances for the Democratic nomination?

**Anonymous**

I tend to agree with Glenn concerning a National Gay Rights Act. There are more than enough laws on the books to protect the rights of people. If the gay people can refrain from showing their feelings, then they should be allowed to teach, be soldiers, or spies. This may not be that easy! There are so many splinter groups within the Democratic Party that no matter what Glenn says or does it will hurt his chances.

**Kevin Colton, Biology**

Gays should not be allowed to be soldiers, as it may disrupt the team spirit necessary in so many vital operations. It’s hell to be stuck in a fox hole with a gay.

They should be allowed to teach or be spies. Sexual preference should have no bearing on these job performances.

**Letter to the Editor**

Now that the headaches of registration are over, it is time to look back and ask if it was worth it all. Although the lines inside the gym were not quite as long as they were for Fall registration, they still moved at a snail’s pace. Equally annoying was being told over and over again to have our Emergency cards filled out.

Once inside the gym, the fun continues. The whole scene is reminiscent of a beehive, with people instead of bees scurrying around. Still the ultimate frustration is yet to come. Finding that none of your classes are open is like being stabbed in the back. Worse yet is when the person on the other side of the desk will not let you petition for the class. These people must enjoy seeing students pull out their hair and shred their class schedules.

The agony is far from over. For those of us who could not get what we wanted, or needed, there are still a few last ditch options. There is the add/drop procedure, but this usually leads to less desirable results. On the other hand, you can scream and holler at someone in the department that offers the course you want. This works sometimes, but generally leads to wasted breath and not much more. A final option is to home, take two aspirin, a shot of whiskey, or whatever does it. Then you can sit down and wonder if it is worth it all.

**Trish Grimes, A.S. Treasurer**

I feel that Mr. Glenn’s outward expression of homophobia clearly represented his narrow minded political stance. I can’t help but think that he is silencing his own prejudice towards groups such as women and blacks because he fears the action of their voting power. I don’t think that anyone with concern for civil liberties could possibly support John Glenn.

**Frustrations of Registration**

Once inside the gym, the fun continues. The whole scene is reminiscent of a beehive, with people instead of bees scurrying around. Still the ultimate frustration is yet to come. Finding that none of your classes are open is like being stabbed in the back. Worse yet is when the person on the other side of the desk will not let you petition for the class. These people must enjoy seeing students pull out their hair and shred their class schedules.
