Will Spring Quarter See S.E.T. in Effect?

"Hopefully by the spring quarter we will be able to implement at least an experimental student evaluation of teaching plan," said Dr. Jesse Hiraoka, chairman of the humanities division, who voiced the sentiments of the faculty, endorsed by the student and faculty participants in the panel discussions on the feasibility of instituting such a program. The panel was held on Nov. 21.

The event, which drew an overflow crowd to the student lounge, aired the aims of an evaluation proposal plus it explored some of the problems inherent in such a plan.

Mark Trenam, who will assume editorship of the Pawprint in January, raps about his future plans for the paper. (Photo by Terry Winter)

Mark Trenam New Editor
For Winter, Spring Terms

"I don't foresee any radical innovations in the structure or content of the Pawprint," Trenam continued, "Until we can conquer our present staff deficiencies. However, we should, under our present method of operation, be able to provide broader and extensive coverage of local cultural events; movies, plays, art exhibits." 

"Also," Trenam stressed, "I would like to see a better communication and involvement of the college with the panel Public. We can't deny the fact that the public maintains a low opinion of our state colleges; the defeat of proposition three is evidence of that. What the future holds for us is to demonstrate to the man-on-the-street, the taxpayer, that the collective college voice can be one of responsibility and constructive criticism. Certainly, the Pawprint can assume some of this responsibility."

The Committee meets at 10:30 each Thursday in L114.
In this quarter's initial edition of the Pawprint we stated that, "This year promises to be one of increased student participation in affairs that are normally left in the province of the faculty or the administration." With plans for the important Autumn meeting of the Student Evaluation of Teaching proposal rapidly reaching completion, this statement is being, at least, partially borne out.

There may be a little glaring incongruity inherent in the manner the S. E. T. is evolving. At present there is only one student (Sandy Bergrstrand) actively involved in shaping an S. E. T. proposal. The majority of the work is being done by the faculty. Certainly, we are not chastising the faculty for working on their proposal for the S. E. T. Thank God someone is doing the work! It does seem strange, however, that the faculty is performing the most actively on a STUDENT evaluation of teaching.

In the future it is hoped that the students will take the initiative to formulate proposals to better the atmosphere at this school. If ideas don't come from the A. S. government or someone is doing the work! It does seem strange, however, that the students body at large then "student power" will, indeed, be only an empty phrase. One that is spoken by idiots and "signifying nothing."

Trustees Propose Restrictions

Editor's Note: The following policy was adopted by the State College Board of Trustees on November 25. The policy is effective immediately. The Trustees adopted this policy with the understanding that the Academic Senate, the Student Body Presidents' Assoc., and the State College Presidents' Council review the document and make recommendations for possible revision. Such recommendations will be considered at the next meeting of the Trustees on January 21.

1. Theft of or damage to state college property or property of any person while that property is on state college or any other controlled property.
2. Obstruction of either pedestrian or vehicular traffic on any state college or owned or controlled property.
3. Physical abuse or detention of any person while that property is on state college owned or controlled property.
4. Theft of or damage to state college property or property of any person while that property is on state college owned or controlled property.
5. Conduct which endangers the health or safety of any person while on state college owned or controlled property or at any state college sponsored or supervised function.
6. Unauthorized entry to or use of any state college facilities, including buildings, grounds and equipment.
7. Failure to comply with directions of college police and any other law enforcement officers while they are acting in the performance of their duties.
8. Illegal possession or use of firearms, explosives, dangerous chemicals or other weapons on state college owned or controlled property.
9. Failure to comply with directions of a State College President or his authorized designes (s) while acting in the performance of his (their) duties.
10. Disorderly conduct, breach of the peace, and aiding, abetting or procuring another to breach the peace on state college owned or controlled property or at any state college sponsored or supervised function.

Charges of apathy fired at students on this campus by the SDS have raised a great deal of printed complaints but there has been no effort to assert an interested attitude. Not only are the students here politically apathetic, they are closely approaching an intellectual apathy.

The S. D. S. has been the only organization on campus to encourage intellectual consideration of moral and political issues. The students who object to the philosophies of the S. D. S. have made no effort to find a better approach or organize an equally active group. Many of these same students demand complete neutrality to the exclusion of all political opinions.

Neutrality on campus has no value. It merely discourages formulation of opinion and prevents anyone kind of valuable dialogue that could exist between opposing viewpoints. It is unrealistic; eventually everyone will be forced to form opinions and judge the political system by personal criterion. Every four years citizens find they must decide major issues, often without any valid basis for their choices. If citizens are working with the present political system, they should make an effort to become an effective part of the system rather than asserting to a government by mere credence of its existence. But agreement with the government also means concern for the people who live under its policies.

You cannot reverse the flag as the symbol of American Truth and completely ignore those Americans who are striving for the equality and fair treatment that would exist under the policies of the present government.

The policy was adopted by the State-wide Trustees on November 25. The policy is effective immediately. The Trustees are involved in conducting the evaluation of teaching. The Trustees are also involved in conducting the evaluation of teaching. The Trustees are also involved in conducting the evaluation of teaching.

'Campus No Place For Neutrality'

Recently I attended a meeting of the Freshman Class Council because I was asked to come. Before this time I didn't even realize the Freshman Class had a council. I'm sure there are many of us who don't even know one another. We don't meet and plan activities for the entire class with little or no help from any of the Freshmen.

If these people are willing to take their time for us, couldn't we give a little time for them? Seek out a council member, ask him or her if there is anything that YOU can do to help. If there is anything that YOU can do to help, the Freshmen will be happy to help.

The Freshmen are open, go in and see for yourself, be a freshman for the class, not just for yourself.
Space Problems Move ASB, Paper Lounge

Overcrowding is becoming a very real problem at CSCSB. Next fall, with 1,400 full-time students expected, the A.S. government, student lounge, and Pawprint are going to be moved to make way for added classrooms and cafeteria facilities.

According to Dean of Students Kenton Monroe, "This overcrowding has been foreseen all along. In the 1969-70 Under Proposal, it had passed, would have met the needs for space in 1970. It is perfectly possible, however, that we are going to have space problems next year."

"Next year," Monroe continued, "Due the limiting of enrollment at other state colleges, there will be students diverted to us from other overcrowded campuses. In order to meet our own needs, we are not only going to be forced to use such space as is available, but we are also going to have to diversify class times. We may go to 8:00 a.m. classes and more evening and late-afternoon classes. In fact, there is a possibility that there will be no empty classrooms at all during the day."

Monroe added that then the concern will be with finding room for meetings and events. "Hopefully," he added, "there will be some rooms open at some part of the day."

Because of the space problems the A.S. government offices will be moved to the Central Utilities Plant. P. S. 19 will become the New Student Lounge. The room takes up approximately 1050 square feet of space, a one in the minds of the facilities. The Pawprint will either join the A.S. offices in the Central Utilities Plant or be put into the Student Lounge.

Monroe concluded that there will probably be some relief in 1970 when the new library is opened. That is if some of the new library space turns out to be excess, as it is supposed to. In 1971 the space problems will likely be even greater. In 1972, space will again be at a premium.

State College Student Presidents Stress Unity

By Mark Trenam

Jerry Rohde, A.S.B. president, and A.S.B. Treasurer Barry Thompson, at a meeting of the California State College Board of Trustees and the California State Student Presidents' Association last Nov. 24-26, the Trustees, meeting in the California Federal Bldg. in Los Angeles, were to host the CSCSPA and participate in informal discussions concerning the proposed revision of Title V of the Administrative Code of the State Colleges, which directly affects such areas as power of A.S.B. government and student publications.

Unfortunately, the best laid plans of mice and A.S.B. presidents do not always materialize, for Chancellor Dümke and the Trustees went into executive session early Monday, the 25th, and didn't break until late the next day. Consequently, the CSCSPA was unable to meet with the Trustees, and therefore could not formulate any coherent position with regard to the Title V revision.

Reference of the CSCSPA's frustration and resulting indecision, they were able, to exchange and evaluate solutions to the problems of the individual state college campuses. From these discussions emerged two areas which are directly relevant to the development of Cal State San Bernardino: (1) Our involvement in the CSCSPA functioning as a united voice. (2) Our awareness of specific concerns of the smaller, growing state college campuses.

Out of the mounting dissatisfaction which the CSCSPA felt toward the Trustees arose this proposed course of action: if a system wide convocation of all eighteen state college presidents could be realized, the CSCSPA could draw together divergent needs and views into a unifying, coincident voice. Only with the weapon of unity could the CSCSPA hope to combat effectively the bureaucracy and diversity of opinion exhibited by the Board of Trustees. Hopefully, the next meeting of the CSCSPA in January will produce a definite plan to achieve this unity. From that point the major emphasis will then fall on formulating a cohesive position with regard to the Title V revision.

In spite of the CSCSPA'S indecision, they were able, to formulate the CSCSPA'S frustration and resulting indecision, they were able, to exchange and evaluate solutions to the problems of the state college campuses. From these discussions emerged two areas which are directly relevant to the development of Cal State San Bernardino: (1) Our involvement in the CSCSPA functioning as a united voice. Hopefully, the next meeting of the CSCSPA in January will produce a definite plan to achieve this unity. From that point the major emphasis will then fall on formulating a cohesive position with regard to the Title V revision.

In January, the Board of Trustees failed to be realized, the value of the conference was to be found in those areas of student government to which all of the A.S.B. presidents could agree. First and foremost was the realization that the CSCSPA could only function as a strong political voice if they embodied the unified support of all the state college campuses. With this kind of support, the CSCSPA could then act as a state wide coordinating group which could initiate active programs such as sending speakers and representatives to all the eighteen campuses to inform students of problems confronting the state campuses. Finally, there was an awareness of the need for the Board of Trustees to fully understand the plans of the CSCSPA that they must push toward an activist-oriented body, involved in constructive programs of distributing information and providing concrete media for deliberation, rather than simply making policy statements in reaction to decisions by the Board of Trustees.

150 Attend 'The 400 Blows' Froh Hoot

By MARK TRENAM

The increasing attendance to CSCSB's Lectures and Public Affairs' presentations reached its high water mark so far last Nov. 22. Some 150 people showed up in PS 10 to see Francois Truffaut's "The Four Hundred Blows," and at least two-thirds of them as some of the ASBs of California State College Board of Trustees.

Bernardo: (1) Our involvement with the Trustees arose this proposed course of action: if a system wide convocation of all eighteen state college presidents could be realized, the CSCSPA could draw together divergent needs and views into a unifying, coincident voice. Only with the weapon of unity could the CSCSPA hope to combat effectively the bureaucracy and diversity of opinion exhibited by the Board of Trustees. The Prickly Pear do-it-yourself-stored wine is now scheduled for December 6 at the Cork. The Prickly Pear is generously providing his domicile for a workshop. ALL CIRCUS is doing its best to get him to join in a little serious and not-quit-so-pretty creating. The Prickly Pear staff wants to see what can come out of a free association, group-therapy type of situation. The union will be taped in order that all the little gems, spoken up unexpectedly, will not be lost. It is the staff's desire that the write-in remain as unstructured as possible. Located in the Humanities Division Office, stating who he is and how he may be contacted. Thank you.

Maddox argued that mental illness has increased because marijuana has not been legalized. "Marijuana makes a person less aggressive. This would help keep people from running amok. Further, economic disaster might not be a bad thing, said Maddox. However, he noted, there is widespread use of marijuana among all classes of people, which has not caused an economic disaster.

Maddox countered by noting that in a study made of a group of Wallace supporters a majority was against pot. As to the studies that had been made showing marijuana's apparent harmlessness were valid. Muner Hanafi then claimed that a very high percentage of street criminals results from marijuana, that marijuana has been dangerous is not a question, and that the goods effect from grass legalization would be harmful. The legalization of marijuana at this time is obviously out of the question," he said.
