This Book is brought to you for free and open access by the Archives – California State University San Bernardino at CSUSB ScholarWorks. It has been accepted for inclusion in Bulletin of Courses (Course Catalog) by an authorized administrator of CSUSB ScholarWorks. For more information, please contact scholarworks@csusb.edu.
It is my great pleasure to welcome you to California State University, San Bernardino, an institution committed to student success both in and out of the classroom.

Our university has a rich tradition of providing quality education in an environment that reflects the dynamic diversity of the region. Our outstanding faculty are award-winning scholars, highly recognized for their academic contributions and teaching. And our experienced staff are caring and courteous, dedicated to assisting with any questions or needs. Together, our faculty and staff foster a culture of excellence that embraces and empowers students.

I invite you to come and tour our spacious campus, nestled in the foothills of the picturesque San Bernardino Mountains. You’ll find it a warm and welcoming place with exceptional facilities and extensive resources that establish a world-class educational experience and which is home to the most diverse student population of any university in the Inland Empire.

With nearly 50 undergraduate majors and more than 25 graduate programs featuring small class sizes and extensive augmented learning opportunities such as internships, research and travel abroad, I am certain CSUSB has a degree program that is right for you.

CSUSB is annually recognized among the nation’s leading educational institutions by some of the premier published ratings, including U.S. News & World Report, Princeton Review and Forbes. The Veteran’s Success Center provides essential resources to military personnel, with our university ranked number one in California and 18th nationally among four-year universities in the 2017 Military Times “Best for Vets” rating.

These are exciting times at Cal State San Bernardino. We are constructing the single largest development project in our history, a 164,000-square foot housing and dining complex that will accommodate 416 additional students and feature a two-level dining commons. It is just part of our new Campus Master Plan, a translation of the university’s mission, goals and vision into a roadmap for physical development and facility enhancement.

Whether you come visit us personally or review us online at www.csusb.edu, I hope you will look close at all we have to offer and reach out to connect with our faculty, staff or students. I assure you it will be time well spent.

I look forward to seeing you on campus.

Sincerely,

Tomás D. Morales, Ph.D.
President

Welcome to the 2017-2018 Bulletin of Courses for California State University San Bernardino.

Although every effort has been made to assure the accuracy of the information, students and others should note that the laws, rules, policies, programs and courses change from time to time and that these changes may alter the information contained in the 2017-2018 Bulletin of Courses.
About the Bulletin

This catalog represents the university's course descriptions and requirements at the undergraduate and graduate levels. California State University, San Bernardino reserves the right to revise catalog provisions in accordance with official actions of the Board of Trustees of the California State University and other governing bodies. Students are advised to consult the appropriate department, college or office for current information for specific programs. Additional information is available in the Changes in Rules and Policies statement. Supplementary bulletins contain additional information about extended learning. The Class Schedule, issued prior to each quarter, lists courses to be offered during that term.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes might alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by The Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as or have the effect of an abridgment or a limitation of any rights, powers, or privileges of The Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the campus or the California State University. The relationship of students to the campus and the California State University is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the Presidents and their duly authorized designees.

Inquiries about admission to the university should be directed to:

The CSU System

Welcome to the California State University (CSU) – the world’s largest comprehensive higher education system in the nation with 23 unique campuses serving more than 474,000 students with 49,000 employees statewide. Each year, the University awards more than 100,000 degrees. CSU graduates now total more than 3 million strong, and are serving as leaders in the industries that drive California’s economy, including business, agriculture, entertainment, engineering, teaching, hospitality and healthcare. Learn more at the Cal State University web site. (http://www.calstate.edu)

More than 50-year tradition of excellence

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to nearly three million graduates around the state of California. While each campus is unique based on its curricular specialties, location and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading-edge programs, superior teaching and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

Facts

- CSU faculty attract nearly $570 million annually in research and education grants, and contracts by federal, state and regional agencies.
- Today, one of every 20 Americans with a college degree is a CSU graduate.
- One in every 10 employees in California is a CSU alumnus.
- The CSU awards 43 percent of the bachelor’s degrees earned in California.
- Almost half of all the nurses in the state earn their degrees from the CSU.
- The CSU awards 95 percent of the hospitality/tourism degrees in the state.
- Nearly half of all of the state’s engineers earn their degrees from the CSU.
- The CSU is the leading provider of teacher preparation programs in the state.
- The CSU offers more than 115 fully online and 96 hybrid degree programs and concentrations.
- The CSU offers 3,253 online courses to provide more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU’s growing online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the system.
- Over the past four years, the CSU has issued nearly 50,000 professional development certificates in education, health services, business and technology, leisure and hospitality, manufacturing, international trade and many other industries.
- Nearly half of the CSU’s 474,000 students are engaged in some type of community service, totaling 32 million hours of service annually.
- More than 13,000 students participate in STEM (science, technology engineering and mathematics) service-learning courses.
- For every $1 that the state invests in the CSU, the University generates $5.43 for California’s Economy.

Governance

The Board of Trustees, most of who are appointed by the governor and serve with faculty and student representatives, govern the system. The CSU Chancellor is the chief executive officer, reporting to the Board. The campus presidents serve as the campus-level chief executive officers. The Trustees, Chancellor and Presidents develop systemwide educational policy. The Presidents, in consultation with the Academic Senate and other campus stakeholder groups, render and implement local policy decisions.

CSU Historical Milestones

The Donahoe Higher Education Act established the individual California State Colleges as a system with a Board of Trustees and a Chancellor in 1960. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University. Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest—CSU Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

In 1963, the State Academic Senate was established to act as the official voice of CSU faculty in systemwide matters. Also, the California State College Student Presidents Association—which was later renamed the California State Students Association—was founded to represent each campus student association on issues affecting students.

Through its many decades of existence, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU’s core mission has always focused on providing high-quality, affordable bachelor’s and master’s degree programs, over time the University has added a wide range of services and programs to support student success—from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full- or part-time, the educational paradigm expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The University also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

The CSU marked another significant educational milestone when it broadened its degree offerings to include doctoral degrees. The CSU independently offers educational doctorate (Ed.D.), Doctor of Physical Therapy (DPT), and Doctor of Nursing Practice (DNP) degree programs. A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

In an effort to accommodate community college transfer students, the CSU, in concert with the California Community Colleges, launched
the Associate Degree for Transfer, which guarantees admission to the
CSU with junior status for transfer students who earn the AA-T or AS-T
degrees.

Always adapting to changes in technology and societal trends to support
student learning and degree completion, the CSU initiated another
milestone in 2013, when it launched CalState Online, a systemwide
collection of services that support the delivery of fully online programs
from campuses. Now, full-time students also have access to fully online
courses offered at other CSU campuses.

By providing an accessible, hands-on education that prepares graduates
for career success, the CSU has created a network of alumni that is
so extensive and renowned that it spans across the globe. In 2014-15,
the CSU celebrated The Class of 3 Million, the year-round campaign
celebrating the 3 million alumni from all of CSU’s campuses, including the
Class of 2015.

The CSU strives to continually develop innovative programs, services and
opportunities that will give students the tools they need to meet their full
potential. With 23 campuses, 474,000 students and 49,000 faculty and
staff, the CSU is committed to providing a quality higher education that
prepares students to become leaders in the changing workforce.

Trustees of the California State University

Ex Officio Trustees
The Honorable Edmund G. Brown, Jr.
Governor of California

The Honorable Gavin Newsom
Lieutenant Governor of California

The Honorable Anthony Rendon
Speaker of the Assembly

The Honorable Tom Torlakson
State Superintendent of Public Instruction

Dr. Timothy P. White
Chancellor of the California State University

Appointed Trustees

Appointments are for a term of eight years, except student, alumni, and
faculty trustees whose terms are for two years. Terms expire in the year in
parentheses. Names are listed alphabetically.

- Silas Abrego (2021)
- Jane W. Carney (2022)
- Adam Day (2023)
- Rebecca D. Eisen (2018)
- Douglas Faigin (2017)
- Debra S. Farar (2022)
- Jean P. Firstenberg (2018)
- Lillian Kimbell (2016)
- Thelma Meléndez de Santa Ana (2017)
- Hugo N. Morales (2020)
- John Nilon (2018)
- J. Lawrence Norton (2019)
- Jorge Reyes Salinas (2018)
- Lateefah Simon (2019)
- Steven Stepanek (2015)
- Peter J. Taylor (2021)

Maggie White (2017)

Officers of the Trustees
- The Honorable Edmund G. Brown, Jr. - President
- Lou Monville - Chair
- Rebecca D. Eisen - Chair
- Framroze Virjee - Secretary
- Steve Relyea - Treasurer

Correspondence with Trustees should be sent to

PROGRAMS LEADING TO LICENSURE AND CREDENTIALING

Admission into programs leading to licensure and credentialing does not guarantee that students will obtain a license or credential. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with the CSU and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., social security number or tax payer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. The CSU will not refund tuition, fees, or any associated costs, to students who determine subsequent to admission that they cannot meet licensure or credentialing requirements. Information concerning licensure and credentialing requirements are available from the International Student Services Office, UH-235, (909) 537-5193.

Career Placement

The Career Development Center may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. Information concerning licensure and credentialing requirements are available from the International Student Services Office, UH-235, (909) 537-5193.

Campus Safety Report

California State University, San Bernardino publishes a "Campus Safety Report" each September 1st in compliance with federal law. The report contains information on campus safety services, policies, procedures and recent crime statistics. This report is available through the university main web page index listing "Campus Safety Report" and copies may be obtained from the Department of Public Safety.

Average Support Cost Per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2016/17 budget amounts were $3,169,425,000 from state General Fund (GF) appropriations and before adding $36.8 million CalPERS retirement adjustment, $1,685,885,000 from tuition fee revenue and after tuition fee discounts (forgone revenue), and $528,555,000 from other fee revenues for a total of $5,383,865,000. The 2016/17 resident FTES target is 361,644 and the nonresident FTES based on past-year actual is 22,552 for a total of 384,196 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and nonresident students. FTES is determined by dividing the total academic student load (e.g. 15 units per semester) (the figure used here to define a full-time student's academic load).

The 2016/17 average support cost per FTES based on GF appropriation and net tuition fee revenue only is $13,152 and when including all sources as indicated below is $14,528, which includes all fee revenue (e.g. tuition fees, application fees, and other campus mandatory fees) in the CSU Operating Fund. Of this amount, the average net tuition and other fee revenue per FTES is $5,764.

Of this amount, the average net tuition and other fee revenue per FTES is $5,764.
students will vary depending on campus, program, and whether a student is part-time, full-time, resident, or nonresident.

**Procedure for the Establishment or Abolishment of Campus-Based Mandatory Fees**

The law governing the California State University provides that specific campus fees defined as mandatory, such as a student association fee and a student center fee, may be established. A student association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The campus President may adjust the student association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Student association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs. A student center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum as established by Executive Order 1102, Section III. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may adjust campus-based mandatory fees but must request the Chancellor to establish a new mandatory fee. The President shall provide to the campus fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the Chancellor a mandatory fees. The campus shall report annually to the Chancellor a report of all campus-based mandatory fees. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may adjust campus-based mandatory fees but must request the Chancellor to establish a new mandatory fee. The President shall provide to the campus fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the Chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the Budget Office in the CSU Chancellor’s Office at (562) 951-4560.

**Student Complaint Procedure**

The California State University takes complaints and concerns regarding the institution very seriously. If you have a complaint regarding the CSU, you may present your complaint as follows:

1. If your complaint concerns CSU’s compliance with academic program quality and accrediting standards, you may present your complaint to the Western Association of Schools and Colleges (WASC) at WASC website (http://www.wascsenior.org/comments). WASC is the agency that accredits the CSU’s academic program.
2. If your complaint concerns an alleged violation by CSU of a state law, including laws prohibiting fraud and false advertising, you may present your claim to the campus president or designee. See Procedure for Student Complaints—Executive Order No. 1063 (http://bulletin.csusb.edu/csu-system%20http://www.calstate.edu/eo/eo-1063.html) for details regarding the complaint requirements and complaint process. The president or designee will provide guidance on the appropriate campus process for addressing your particular issue.

If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by the president or designee, or by WASC, you may file an appeal with the Associate Vice Chancellor, Academic Affairs at the CSU Chancellor’s Office. This procedure should not be construed to limit any right that you may have to take civil or criminal legal action to resolve your complaint.

**International Programs**

CSU International Program website (http://calstate.edu/IP)

CSUSB Center for International Studies and Programs website (http://international.csusb.edu/Default.aspx)

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs (CSU IP) has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 20,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. CSU IP serves the needs of students in over 100 designated academic majors. Affiliated with more than 50 recognized universities and institutions of higher education in 18 countries, CSU IP also offers a wide selection of study abroad destinations and learning environments.

- **Australia** - Griffith University, Macquarie University, Queensland University of Technology, University of Queensland, Western Sydney University, Victoria University
- **Canada** - Concordia University
- **Chile** - Pontificia Universidad Católica de Chile
- **China** - Peking University (Beijing)
- **Denmark** - Danish Institute for Study Abroad
- **France** - Institut Catholique de Paris, Institut Supérieur d’Electronique de Paris, Université d’Aix-Marseille (Aix-en-Provence), Université de Cergy-Pontoise, Universités de Paris I, III, IV, VI, VII, VIII, X, XI, XII, XIII, Université Paris-Est Marne-la-Vallée, Université d’Evry Val d’Essonne, and Université de Versailles Saint-Quentin-en-Yvelines
- **Germany** - University of Tübingen and a number of institutions of higher education in the Federal state of Baden-Württemberg

- **Sweden** - Uppsala University
- **Taiwan** - National Taiwan University
• United Kingdom - University of Bradford, University of Bristol, University of Hull, Kingston University, Swansea University

Students participating in CSU IP pay tuition and program fees, and are responsible for airfare, accommodations, meals and other personal expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students and limited scholarship opportunities are also available. Most programs require students to have upper-division standing at a CSU campus by the time of departure; several programs are open to sophomores or Graduate students. California Community College transfer students admitted to a CSU campus are eligible to apply (to select programs) directly from their community colleges. Students must possess a current cumulative grade point average of 2.75 or 3.0, depending on the program, and must fulfill all coursework prerequisites. Additional program information and application instructions can be found on our website (http://international.csusb.edu/Default.aspx).

Some programs also have language study and/or other coursework prerequisites. Additional information and application materials may be obtained from Elva Salgado, Study Abroad Coordinator, (909) 537-3204, CE-349, or by writing to the California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit us at the Cal State University International Programs web site (http://www.calstate.edu/ip).
About the University

Vision Statement

California State University, San Bernardino will be a leading contributor to the growth and development of the region, in particular, as well as the state and nation.

The university will serve the region, state, and nation by preparing leaders for the 21st century with a global outlook and the skills needed for educational, social, economic, political, environmental and cultural advancement.

Mission and Goals

California State University, San Bernardino offers a challenging and innovative academic environment. The university seeks to provide a supportive and welcoming social and physical setting where students, faculty and staff feel they belong and can excel. The university provides students the opportunity to engage in the life of the campus, interact with others of diverse backgrounds and cultures, as well as participate in activities that encourage growth, curiosity and scholarly fulfillment.

Through its branch campus in Palm Desert, the university mission extends to the Coachella Valley.

Building on a tradition of close student contact with faculty, staff and administrators, the university is committed to making a positive difference in the lives of its students and the communities it serves by providing learning opportunities driven by teaching and research excellence, intellectual interaction and creativity.

The university is a preeminent center of intellectual and cultural activity in Inland Southern California, improving the region’s quality of life through the skills, knowledge, experience and engagement of its faculty, staff, students and alumni.

Strategic Plan

This document represents the ongoing long-range planning efforts which will define the future goals and direction of the university.

This strategic plan follows the foundation set forth by the previous plan, which was developed in 1998. It extends many of the goals and objectives introduced at that time, accommodating changes in the university’s priorities, opportunities, and mandates.

As with most strategic plans, the goals and objectives identified serve as a road map - a guide to what the university hopes to achieve and become. But with maps come detours and changes of direction. Some potential roadblocks and solutions are also noted in the report.

The most significant factor in the success of this plan is funding. The California State University has experienced staggering budget cuts in recent years, and how the university is funded in the future will help determine the extent and scope of many of our objectives and how they are accomplished.

Other issues will also play key roles. For instance, questions of accessibility, environmental sustainability, and internet security are increasingly important facets of today’s decision-making process. Those issues and others are taken into account in the new strategic plan.

Given circumstances associated with the stability of state budget appropriations, the university will seek to reduce its reliance on state funding by enhancing, as appropriate, entrepreneurial initiatives, private and corporate philanthropy, external grants and contracts, and other innovative activities undertaken by university faculty, staff, and students.

This iteration of our long-range planning process doubles the number of goals that formed the heart of the previous three-point plan. However, the new plan maintains the direct focus that will allow the university to concentrate on the broad areas of teaching and learning excellence; student access, retention, and success; excellence in research and creative activities; campus community development; community engagement; and infrastructural improvement.

Much progress has been made since the previous plan’s adoption. This strategic plan takes the next steps and will serve to help the university navigate its future.

I. Teaching and Learning Excellence

Excel as a teaching and learning institution that offers challenging and innovative educational experiences.

• Continue to provide and expand intellectually rigorous educational programs that respond to the diverse and evolving needs of learners in our highly complex region and global community.
• Promote and sustain a teaching-learning environment that emphasizes the importance of the partnership between faculty and students and cultivates each student’s sense of personal responsibility to undertake the work necessary to take full advantage of educational experiences.
• Promote and support teaching excellence and the scholarship of teaching among faculty.
• Expand information, knowledge, and data resources.

II. Student Access, Retention, and Success

Promote student access and degree attainment.

• Invest in student success and quality.
• Manage enrollments to balance regional needs with available state budgetary support.
• Strengthen existing retention efforts and improve the graduation rate.

III. Excellence in Research and Creative Activities

Promote innovative research, scholarly, and creative activities.

• Foster an intellectual environment that promotes active engagement in research, scholarly, and creative activities.
• Attract and retain superb tenure track faculty who engage in the teacher scholar model.
• Enhance student learning by supporting faculty and student excellence in research, scholarly, and creative activities.

IV. Campus Community

Ensure a welcoming and safe, intellectual, social, cultural, accessible, and diverse environment that engages the campus community in the life of the university.

• Maintain and enhance a campus environment that fosters collegiality, diversity, and the intellectual and overall well-being of the campus community.
• Enhance the use of technologies in teaching, learning, accessibility, communications, and administration.
• Foster the active engagement of students in the life of the university to facilitate the development of a vibrant campus community.
• Provide a safe and secure environment on campus.
• Improve accessibility of campus buildings and grounds for persons with disabilities.

V. Community Engagement
Work as a meaningful partner in engaging the communities that the university serves.
• Expand the university’s role as a leading regional center with a proactive agenda for educational, social, economic, political, environmental, and cultural advancement.
• Engage our communities in the life and mission of the university, as well as engage the university and its students, faculty, and staff in the life of our communities.
• Actively increase private and public sector support of the university’s mission through fundraising.
• Build more bridges between and among our communities to create a culture of engagement, inclusion, and belonging.
• Nurture a positive image for the university by providing focused communications to increase awareness of and interest in the university.

VI. Infrastructure
Develop and maintain an administrative, fiscal, and physical environment that supports the university mission.
• Maintain an environment of continuous performance improvement.
• Ensure sound administrative and fiscal practices and policies responsive to the university’s needs.
• Provide opportunities for professional growth, and plan for staff and administrative retention, development, and succession.
• Demonstrate commitment to environmental sustainability.
• Provide superior services to maintain and develop the campus facilities and grounds.
• Maximize the use of auxiliary services through superior customer service and strategic innovation to advance the mission of the university.

Location and History
The city of San Bernardino is situated at the foot of the San Bernardino Mountains, which form the northeastern boundary of the San Gabriel Valley. The valley’s western terminus, 60 miles away, is the Los Angeles basin and the beaches of the Pacific Ocean.

In earlier times the San Bernardino area was the home of Serrano, Luiseno and Cahuilla Indians. The first pioneers from Mexico settled in the San Gabriel Valley in the 1770s. Mission San Gabriel was founded by Fr. Junipero Serra in 1771, ten years before pueblo Los Angeles was established. The mission built a fortified asistencia near modern San Bernardino in 1819, but this was abandoned in 1834 when newly independent Mexico secularized the missions.

In 1842, the Lugo family purchased the 37,000-acre San Bernardino Rancho and built a stockade near the San Gabriel Valley. A group of Mormon colonists came to the valley in 1851, purchased the Lugo Rancho and built a stockade near the present county courthouse. A village developed around the stockade and this, coupled with California statehood, led to the establishment of San Bernardino County in 1853 and the incorporation of the city of San Bernardino in 1854. Connection to the transcontinental railroad in 1885 recognized the valley’s importance and insured its future growth and prosperity.

Inland Southern California
The historic San Bernardino Valley is part of inland Southern California, an area encompassing all of San Bernardino and Riverside counties. The university is within the Riverside-San Bernardino-Ontario metropolitan area and also serves more distant locations in the two counties, the Colorado River communities of Blythe and Needles; the high desert area including Victorville and Barstow; the low desert, Coachella Valley region including Palm Springs, Palm Desert and Indio; the mountain communities of Big Bear, Lake Arrowhead and Idyllwild; the Hemet Valley, including Hemet, San Jacinto and Perris.

Academic Plan
California State University, San Bernardino operates on the quarter system. The fall, winter and spring terms each consist of 10 weeks of instruction plus a final exam week. The university also offers a summer quarter allowing students to accelerate their progress and take summer courses. Summer quarter has two five-week sessions and one 10-week session in the term.

Most lecture/discussion courses are offered for four units of credit and meet four hours per week. Each unit of credit typically requires two hours of out-of-class study and preparation in addition to the hour of direct instruction in the class. Laboratories and activity-based courses, such as studio art, music, physical education, computer science, etc. meet for 2-3 hours of instruction a week for each unit of credit. Students transferring from a semester system campus should note semester courses are five weeks longer (15 weeks versus 10) so that a quarter unit is equal to 2/3 of a semester unit. (Thus, three semester units are equivalent to 4.5 quarter units.)

The minimum number of quarter units required for the Bachelor’s degree is 180. Some bachelor degree programs require additional units. Students planning to graduate in four years need to take an average of 15 units per quarter to reach 180 units. Master’s degrees require a minimum of 45 units, but some professional degrees, such as the M.S.W. in Social Work and M.S. in Psychology, have licensing and/or accreditation standards demanding up to 90 units. The Ed.D. in Educational Leadership requires 92 units for completion. The Ed.D. in Educational Leadership requires 92 units for completion.

Colleges of the University
The academic program of the university is offered through five colleges—Arts and Letters, Business and Public Administration, Education, Natural Sciences, and Social and Behavioral Sciences—organized into departments and schools.

Degree programs are offered by departments, schools, colleges and interdisciplinary committees. Navigate to Programs A-Z (p. 815) for a complete listing of the degrees and programs available at the university.

CSUSB Philanthropic Foundation
(909) 537-7769 CSUSB Philanthropic Foundation website (http://csusbfoundation.csusb.edu)
CSUSB Philanthropic Foundation, formerly known as the Foundation for California State University, San Bernardino, is the officially recognized charitable gift-processing auxiliary organization of California State University, San Bernardino (CSUSB). The Foundation operates as a tax-exempt 501(c)(3) organization and its federal Tax ID number is 45-2255077.

The Foundation encourages gifts and financial support while creating learning opportunities for students, alumni, and the community that complement the University’s teaching, research and public service goals driven by intellectual interaction and creativity.

The CSUSB Philanthropic Foundation is a non-profit corporation chartered solely to support, benefit and advance the mission of California State University, San Bernardino that fosters a supportive and welcoming social and physical setting where students, faculty and staff feel they belong and can excel.

Associate Dean: Doris Wilson, Ed.D.
dwilson@csusb.edu

Mission statement
The Palm Desert Campus will be a community of scholars committed to the teaching-learning process which values diversity, emphasizes quality, and commits to serving the region. It will reach out to students through face-to-face classrooms, distributed learning, and online programs. It will continue to seek collaborative partnerships to integrate educational, cultural, social, technological, and economic life with the region. It will strive to meet critical regional and state needs and provide responsible and creative leadership for the future.

General Information
Over thirty years ago, Coachella Valley civic leaders began to call for a local public four-year college. The group’s efforts lead to California State University, San Bernardino establishing a branch campus on the College of the Desert campus. From the beginning, our efforts were to serve Coachella Valley students locally with programs that met local needs. In 2002 we moved to our permanent location on Cook Street.

We offer our students the resources of a large, comprehensive university through the San Bernardino campus. At the same time, the Palm Desert Campus offers the supportive environment of a small campus with small classes and more opportunities for contact with instructional faculty.

Our schedule operates on the quarter system (fall, winter and spring) with courses 11 weeks long. We also offer a summer term.

Whether you are looking for a 4-year degree, to enhance your professional skills, or complete one of our many degree, credential, or certificate programs, you will find everything you need at the CSUSB Palm Desert Campus. Our commitment to quality and small class sizes allows us to provide an educational experience that is enriching, as well as convenient.

Facilities
The CSUSB Palm Desert Campus is located on a 166-acre site off the I-10 freeway. The first building constructed and occupied in 2002 was the Mary Stuart Rogers Gateway Building, funded by the Mary Stuart Rogers Foundation, the Berger Foundation, the City of Rancho Mirage and Florence Rigdon, a Rancho Mirage resident. Housing the university’s administrative offices, the building also has over 3,000 square feet of classroom space, faculty offices, 120 seat Oliphant Auditorium, book store, the Rancho Mirage Student Center, and distant learning laboratories.

The second and third buildings, the Indian Wells Center for Educational Excellence and Indian Wells Theater, were occupied in 2005 and built largely with funds from the City of Indian Wells, The Annenberg Foundation, the H.N. and Frances C. Berger Foundation, Palm Desert National Bank, and Jean Hahn and John I. Hardy.

The Palm Desert Health Sciences Building, noted as one of the most environmentally sound buildings in the Coachella Valley, opened in 2008. Donors for this building included eight of the Valley’s municipalities as well as the County of Riverside, The Desert Healthcare District, the R.D. and Joan Dale Hubbard Foundation, The Webb Foundation, Palm Desert National Bank, and other community members. This facility houses the Helene A. Nixon Information Resource Center, biology and chemistry labs, nursing labs, the R.D. and Joan Dale Hubbard Student Health and Psychological Counseling Center, as well as additional classrooms and computer labs.

These buildings include state of the art classrooms, faculty offices, video conference classrooms, full computer and internet presentation capabilities in all classrooms, as well as computer laboratories for student research and allows for study individually or in groups.

Admissions
To apply for admission to the CSUSB Palm Desert Campus, students must complete the CSUMentor application online at CSU Mentor website (http://www.csumentor.edu) and have transcripts sent to:

CSUSB Palm Desert Campus Office of Admissions
37500 Cook Street
Palm Desert, CA 92211

You can also watch the admissions video at Palm Desert Campus website (http://www.pdc.csusb.edu) to learn more about CSUSB PDC. For further admissions information, please contact a PDC Admissions Counselor.

Freshman and Transfer Students, please contact Brenda Machuca.
760-341-2883 ext. 78111, bmachuca@csusb.edu

Transfer Students from College of the Desert, please contact Jacob Santiago.
760-341-2883 ext. 78152, jacob.santiago@csusb.edu

Financial Aid & Scholarships
The Palm Desert Campus has a financial aid consultant that is on campus on a weekly basis to assist with questions, applications, and other issues pertaining to financial aid and scholarships.

Deborah McCracken
760-341-2883 ext. 78152, dmccracken@csusb.edu

The Palm Desert Campus offers various scholarships that are limited to PDC students. These include, but are not limited to, the Athena Fund Scholarship, the Coeta & Donald Barker Scholarship for nursing students, and the Betty Barker Scholarship.
Other highlighted scholarships include:

The Mary Stuart Rogers Scholarship awards ten to twenty $3,600 scholarships each to CSUSB Palm Desert Campus students. Students are eligible if enrolled in a major offered at PDC, with a majority of their coursework completed at PDC, maintaining a minimum 3.5 cumulative GPA and demonstrating a commitment to service in the community.

H.N. and Frances Berger Scholarship awards five $5,000 scholarships to Palm Desert Campus students who are studying allied health, including nursing, nutrition, kinesiology or education.

A $10,000 gift from the City of Palm Desert honored President Albert Karnig upon his retirement by establishing the President Albert Karnig Academic Excellence Scholarship. The scholarship provides support for high achieving undergraduate students who are enrolled full time on the Palm Desert Campus with 12 or more units and who have a minimum G.P.A. of 3.5.

The Pathways to Success Program awards scholarships up to $5,000 per year to Coachella Valley undergraduate students who have a minimum 2.0 GPA and have financial need. Students must demonstrate leadership or involvement in their community or school and have the desire and motivation to succeed.

There are many scholarships administered by the CSUSB Financial Aid Office available for PDC students that are . They can be applied for online at Financial Aid website (https://finaid.csusb.edu) beginning January 1st through March 2nd of each year. You can also search for off-campus scholarship opportunities using the “Search” feature on My Coyote.

Commencement

The CSUSB Palm Desert Campus holds its own commencement exercises each spring in the Agua Caliente Casino and Spa at The Show. These exercises occur prior to commencement exercises at the San Bernardino campus.

College of Extended Learning

The College of Extended Learning (CEL) (http://cel.csusb.edu) helps learners of all ages and backgrounds achieve their continuing education goals by providing access to University degrees, certificate programs, professional development and personal enrichment programs. Some classes are offered at the CSUSB Palm Desert Campus, while others are offered at the San Bernardino campus and many courses are offered online.

Osher Lifelong Learning Institute

The Osher Lifelong Learning Institute (http://oshers.csusb.edu) offers non-credit university level courses for mature adults interested in the intellectual challenge of academic subjects without the stress of grades, tests or homework. Through your membership in the Osher Institute, you can experience the joy of learning from university professors and similarly qualified experts within a relaxed campus atmosphere. A wide array of topics will be available each quarter along with a variety of fun member events and interesting educational trips.

Accreditation

California State University, San Bernardino is accredited by the Western Association of Schools and Colleges, the official accrediting body for institutions of higher learning in the West. The teaching credential programs are approved by the California State Board of Education, California Commission on Teacher Credentialing, and the National Council for Accreditation of Teacher Education (NCATE).

The following professional programs have received specialized approval or accreditation from organizations recognized by the National Council on Postsecondary Education:

- Administration (B.A., B.S., M.B.A.) - AACSB International, The Association to Advance Collegiate Schools of Business
- Art (B.A.) - National Association of Schools of Art and Design
- Chemistry (B.S.) - American Chemical Society
- Computer Science (B.S.) - Accreditation Board of Engineering and Technology, Computing Accreditation Commission
- Health Science, Environmental Health (B.S.) - National Environmental Health Science and Protection Accreditation Council; California Department of Health Services, Environmental Health Specialist Registration Committee
- Music (B.A.) - National Association of Schools of Music
- Nursing (B.S.) - Commission on Collegiate Nursing Education
- Nutrition and Food Sciences (B.S.) - Accreditation Council for Education of Nutrition and Dietetics (ACEND) as the Didactic Program in Dietetics (DPD) and individualized Supervised-Practiced Pathway (ISPP) Program.
- Public Administration (M.P.A.) - National Association of Schools of Public Affairs and Administration
- Rehabilitation Counseling (M.A.) - Council on Rehabilitation Education

### Academic Calendar

#### Fall Term 2017

- **May 18-June 9** | Fall Quarter 2017 Priority Registration
- **Sept. 4** | Labor Day Holiday, university and library closed
- **Sept 13** | Beginning of academic year
- **Sept 20** | Last day to withdraw from all classes and receive 100% refund
- **Sept. 21** | Classes begin (Saturday classes begin Sept. 23)
- **Sept 27** | Last day to add classes via My Coyote Self-Service
- **Oct. 9** | Columbus Day, university open (observed 12/30)
- **Oct 11** | CENSUS: Last day to drop classes without record
- **Oct. 23** | Winter Quarter 2018 Advising begins
- **Oct. 30-Nov. 21** | Winter Quarter 2017 Priority Registration
- **Nov. 1** | Last day to file or refill graduation check for Spring 2018 graduation without payment of late fee
- **Nov. 10** | Veteran’s Day Holiday, university and library closed (instructional makeup day December 4)
- **Nov. 23-26** | Thanksgiving recess, university and library closed
- **Dec. 4** | Last day of classes (Saturday classes end Dec. 2)
- **Dec. 5-9** | Final examinations
- **Dec. 9** | Commencement
- **Dec. 23-Jan. 2** | Academic recess, campus closed

#### Winter Term 2018

- **Oct. 30-Nov. 21, 2017** | Winter Quarter 2018 Priority Registration
- **Jan. 2** | Last day to file or refill graduation check for Summer 2018 graduation without payment of late fee
- **Jan. 5** | Last day to withdraw from all classes and receive 100% refund
- **Jan. 8** | Classes begin (Saturday classes begin Jan. 6)
- **Jan. 12** | Last day to add classes via My Coyote Self-Service
- **Jan. 13-15** | Martin Luther King, Jr. Holiday, university and library closed
- **Jan. 29** | CENSUS: Last day to drop classes without record
- **Feb. 1** | Last day to file or refill graduation check for Fall 2018 graduation without payment of late fee
- **Feb. 5** | Spring Quarter 2018 Advising begins
- **Feb. 12** | Lincoln’s Birthday, university open (observed 12/26/2018)
- **Feb. 12-Mar.5** | Spring Quarter 2018 Priority Registration
- **Feb. 22** | Washington’s Birthday, university open (observed 12/27/2018)
- **Mar. 19** | Last day of classes (Saturday classes end March 17)
- **Mar. 20-24** | Final examinations
- **Mar. 26-30** | Academic recess
- **Mar. 27** | Grades due; end of term
- **Mar. 30** | Cesar Chavez Holiday, university and library closed

#### Spring Term 2018

- **Feb. 12-Mar. 5** | Spring Quarter 2018 Priority Registration
- **Mar. 29** | Last day to withdraw from all classes and receive 100% refund
- **April 2** | Classes begin (Saturday classes begin March 31)
- **April 6** | Last day to add classes via My Coyote Self-Service
- **April 20** | CENSUS: Last day to drop classes without record
- **April 23** | Summer Quarter 2018 Advising begins
- **April 30-May 16** | Summer Quarter 2018 Priority Registration
- **May 1** | Last day to file or refill graduation check for Winter 2019 graduation without payment of late fee
- **May 7** | Fall Quarter 2018 Advising begins
- **May 17- June 8** | Fall Quarter 2018 Priority Registration
- **May 26-28** | Memorial Day Holiday, university and library closed
- **June 11** | Last day of classes (Saturday classes end June 9)
- **June 12-16** | Final examinations
- **June 16** | Commencement
- **June 19** | Grades due; end of term

#### Summer Term 2018

- **April 30-May 16** | Summer Quarter 2018 Priority Registration
- **June 19** | Last day for full refund, Sessions 10W and 6W
- **June 20** | Classes begin, Sessions 10W and 6W
- **June 22-Sept. 2** | Campus closed each Friday, Saturday, and Sunday
- **June 21** | Last day to add via MyCoyote, 6W
- **June 26** | Last day to add via MyCoyote, Session 10W
- **June 28** | CENSUS: last day to drop classes without record, Session 6W1
- **July 4** | Independence Day Holiday, university and library closed
- **July 12** | CENSUS: Last day to drop classes without record, Session 10W
- **July 25** | Last day of MW classes, Session 6W1
- **July 26** | Last day of MTWR and TR classes, Session 6W1
- **July 30-31** | Final examinations, Session 6W1
- **July 31** | Last day for full refund, Session 6W2
- **Aug. 1** | Classes begin, Session 6W2
- **Aug. 2** | Grades due, Session 6W1
- **Aug. 2** | Last day to add via MyCoyote, Session 6W2
- **Aug. 9** | CENSUS: Last to drop classes without record, Session 6W2
- **Aug. 29** | Last day of W classes, Session 10W
- **Aug. 30** | Last day of R classes, Session 10W
- **Aug. 27** | Last Day of M classes, Session 10W (9 meetings, no makeup)
- **Aug. 28** | Last Day T classes, Session 10W (9 meetings, no make-up)
- **Aug. 29** | Last day of MW classes, Session 10W
- **Aug. 30** | Last day of MTWR, TR classes, Session 10W
- **Sept. 3** | Labor Day Holiday, university and library closed
- **Sept. 4** | Last day of TR classes, Session 6W2
- **Sept. 5-10** | Final examinations, Session 10W

### Fall Quarter 2018 Priority Registration

- **May 17-June 8**: Fall Quarter 2018 Priority Registration
- **Sept. 3**: Labor Day Holiday, university and library closed
- **Sept. 12**: Beginning of academic year
- **Sept. 19**: Last day to withdraw from all classes and receive 100% refund
- **Sept. 20**: Classes begin (Saturday classes begin Sept. 22)
- **Sept. 26**: Last day to add classes via My Coyote Self-Service
- **Oct. 8**: Columbus Day, university open (observed 12/28)
- **Oct. 10**: CENSUS: Last day to drop classes without record
- **Oct. 22**: Winter Quarter 2019 Advising begins
- **Oct. 29-Nov. 20**: Winter Quarter 2019 Priority Registration
- **Nov. 1**: Last day to file or refile graduation check for Spring 2019 graduation without payment of late fee
- **Nov. 12**: Veteran's Day Holiday, university and library closed (instructional makeup day Dec. 3)
- **Nov. 22-25**: Thanksgiving recess, university and library closed
- **Dec. 3**: Last day of classes (Saturday classes end Dec. 1)
- **Dec. 4-8**: Final examinations
- **Dec. 8**: Commencement
- **Dec. 11**: Grades due; end of term
- **Dec. 25-Jan. 1**: Academic recess, campus closed

For a more detailed calendar of academic dates and deadlines, see the quarterly  [Class Schedule](http://academicscheduling.csusb.edu). The above calendar is not intended to be construed as an employee work calendar.
Admission

Requirements for admission to California State University, San Bernardino are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available at www.calstate.edu/apply.

Electronic versions of the CSU undergraduate and graduate applications are accessible on the web at www.calstate.edu/apply. The www.calstate.edu/apply system allows students to browse through general information about CSU’s 23 campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

Applying online via www.calstate.edu/apply is expected unless electronic submission is impossible. An acknowledgement will be sent when online applications have been submitted. Application in “hard copy” form may be obtained online via www.calstate.edu/apply as a portable data format (PDF). Application forms (in PDF) may also be downloaded from www.calstate.edu/sas/publications. Individuals using paper applications to apply for admission to Cal State San Bernardino should mail or bring the completed application to the campus Office of Admissions and Student Recruitment.

Cal State San Bernardino advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Students who are admitted to the university for a given term but who do not register in that term must file a new application and pay the $55 application fee when they seek admission again to another open term. Current admission requirements and applicable deadlines must be met.

CSU Immunization Requirements

Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment. The immunization requirements are not admission requirements, but are required of students as conditions of enrollment in the CSU.

For more information please call the Student Health Center at: (909) 537-5241.

Measles and Rubella: All new and readmitted students born on or after January 1, 1957 must provide proof of full immunization against measles and rubella prior to enrollment.

Hepatitis B: All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against hepatitis B before enrolling.

Meningitis Information: Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent contracting the disease and indicating whether or not the student has chosen to receive the vaccination.

Note: The CSU anticipates a policy change to the immunization requirements for the 2017-2018 academic year.

Undergraduate Application

www.calstate.edu/apply.

Prospective students applying for part-time or full-time undergraduate programs of study must submit a completed undergraduate application. The $55 nonrefundable application fee should be paid online at the time of application via credit card, e-check, or PayPal and may not be transferred or used to apply to another term. An alternate major may be indicated on the application. The applications of persons denied admission to an impacted campus may be re-routed to another campus at no cost, but only if the applicant is CSU eligible.

CSU Application Filing Periods

Not all campuses/programs are open for admission to every term. Visit www.calstate.edu/apply to determine if a campus is open or still accepting applications for the term.

Students interested in attending only the summer quarter at CSUSB should visit Admissions & Student Recruitment (http://admissions.csusb.edu) around April 1 for information.

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the campus admission office for current information.

Similar information is conveniently available at: www.calstate.edu/apply and Admissions & Student Recruitment (http://admissions.csusb.edu).

Impacted Programs

The CSU designates programs as impacted when more applications from regularly eligible applicants are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus that they are offered; others are impacted only at a few campuses. Candidates for admission must meet all of the campus’ specified supplementary admission criteria if applying to an impacted program or campus.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and program impaction will be available at the following websites:

- www.calstate.edu/impactioninfo.shtml
- www.calstate.edu/sas/impaction-campus-info.shtml

Campuses will communicate supplementary admission criteria for all impacted programs to high schools and community colleges in
their service area and will disseminate this information to the public through appropriate media. This information will also be published at the CSU campus individual website and made available online at www.calstate.edu.

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered in impacted programs at more than one campus should file an application at each campus for which they seek admission consideration.

**Supplementary Admission Criteria**

Each campus with impacted programs or admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on verification of AA-T or AS-T degree, the overall transfer grade point average (GPA), completion of specified prerequisite courses, and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs are required to submit scores on either the SAT or the ACT. For fall admission, applicants should take tests as early as possible, but no later than November or December of the preceding year.

The supplementary admission criteria used by the individual campuses to screen applicants are made available by the campuses to all applicants seeking admission to an impacted program. Details regarding the supplemental admission criteria are published at www.calstate.edu/impactioninfo.shtml.

CSU San Bernardino is impacted for first-time freshman applicants and expects to utilize supplemental admission criteria for admission of first-time freshman applicants to the campus. All first-time freshman applicants must apply for admission during the initial admission application-filing period (October 1 through November 30 for fall) to be considered for admission. All CSU subject matter (a-g) requirements must be complete, in progress, or planned with a grade of "C" or better prior to high school graduation and may not be completed during the summer following high school graduation. CSU eligible first-time freshman applicants graduating from high schools in CSUSB’s defined local area will be admitted based on CSU system wide eligibility criteria. CSU eligible first-time freshman applicants graduating from high schools outside of CSUSB’s defined local area will be “rank ordered” by eligibility index and admission offers will be made in descending order of eligibility index totals until the freshman class target is met.

CSU San Bernardino is also impacted for upper-division transfer students and expects to utilize supplemental criteria for all upper-division transfer admission. All upper-division transfer applicants must apply during the initial filing period (October 1 through November 30 for fall) to be considered for admission. Applicants must be in good standing at the last college or university attended (eligible to re-enroll), have earned 60 or more transferable semester units (90 or more quarter units), and completed all lower division General Education courses in written communication, oral communication, critical thinking, and mathematics with a grade of "C" or better in each course. Outside-the-local area applicants will be selected for admission based on a GPA ranking in descending order until the transfer enrollment target is met.

**Application Acknowledgement**

On-time applicants may expect to receive an acknowledgment from the campuses to which they have applied within two to four weeks of filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impaction, supplemental criteria for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

**Hardship Petitions**

The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write the campus Admission Offices regarding specific policies governing hardship admission.

The university reserves the right to select its students and deny admission to the university or any of its programs as the university, in its sole discretion, determines appropriate based on an applicant's suitability and the best interest of the university.

**Undergraduate Admission Requirements**

**Freshman Requirements.** Generally, applicants will qualify for consideration for first-time freshman admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination (CHSPE);
2. Have a qualifiable minimum eligibility index (see section on Eligibility Index, page 24); and
3. Have completed with grades of C or better each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the “a-g” pattern (see “Subject Requirements”).

**Eligibility Index** – The eligibility index is the combination of the high school grade point average and scores on either the ACT or the SAT. Grade point averages (GPA) are based on grades earned in courses taken during the final three years of high school. Included in calculation of GPA are grades earned in all college preparatory “a-g” subject requirements, and bonus points for approved honors courses. Up to eight semesters of honors courses taken in the last three years of high school, including up to two approved courses taken in the tenth grade can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

A CSU Eligibility Index can be calculated by multiplying your grade point average by 800 and adding your total score on the SAT exam (mathematics and critical reading on the old SAT, or mathematics and Evidence-Based Reading and Writing on the new SAT). For students who took the ACT, multiply the grade point average by 200 and add ten times the ACT composite score. Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2900 using the SAT or 684 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages. The University has no current plans to include the writing scores from either of the admissions tests in the computation of the CSU Eligibility Index. Note: The minimum Eligibility Index requirement for admission to the Fall 2018 term will increase to 2950 using the SAT.

Persons who neither graduated from a California high school nor are a resident of California for tuition purposes, need a minimum index of 3502 (SAT) or 842 (ACT). Note: The minimum Eligibility Index requirement
Admission for admission to the Fall 2018 term will increase to 3570 using the SAT. Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section. An applicant with a grade point average of 3.00 or above (3.61 for nonresidents) is not required to submit test scores. However, all applicants for admission are urged to take the SAT or ACT and provide the scores of such tests to each CSU to which they seek admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses require SAT or ACT scores of all applicants for freshman admission.

</table>
High School Graduation Equivalency

Students who are not high school graduates may satisfy the high school graduation requirement by submitting the California Certificate of Proficiency or the General Education Development (GED) certificate or equivalent certificates awarded by other states.

1. California High School Proficiency Test. A "pass" on the California High School Proficiency Examination is considered equivalent to graduation from high school.

2. Tests of General Educational Development (GED). An applicant submitting scores on the GED has established high school graduation equivalence if the average score for the five tests is 45 or better and each score is at least 40.

### Meeting Admission Requirements

Applicants presenting the high school proficiency test or the GED will be expected to meet the fifteen-unit college preparatory subject requirements and have a qualifying eligibility index. Grades in courses completed after grade nine are used to calculate the grade point average for the eligibility index.

### Subject Requirements

The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government
- 4 years of English
- 3 years of math (algebra, geometry and intermediate algebra)
- 2 years of laboratory science (1 biological & 1 physical, both must have laboratory instruction)
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)
- 1 year of visual and performing arts: art, dance, drama/theater, or music
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU “a-g” list

### Subject Requirement Substitution for Students with Disabilities

Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternate college preparatory courses may be substituted for specific subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant’s academic advisor or guidance counselor in consultation with the director of Services to Students with Disabilities. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. Students should be aware that failure to complete courses required for admission may limit later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, contact the director of Services to Students with Disabilities at CSUSB or at the nearest CSU campus.

### Waiver of High School Language Other Than English Subject Requirement

The high school language other than English subject requirement may be waived for applicants who demonstrate competence in any other language equivalent to or higher than expected of students who complete two years of foreign language study. Consult with a school counselor or any CSU campus admissions or Office of Admissions and Student Recruitment for further information.
California Promise

The California Promise Program enables a specific number of campuses of the California State University (CSU) to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in 4 years. Many campuses have also established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in 2 years. The program is limited to students who are residents of California.

Students who commit to enter either the 4-year or 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or quarter equivalent within each academic year, including summer. Participating campuses may stipulate other important requirements as well. Interested students entering the CSU in the fall 2017 term should contact the campus offices or visit www.calstate.edu/sas/california-promise.

HIGH SCHOOL STUDENTS

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment.

Test Requirements

Freshmen and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit must submit applicable test scores, unless exempt (see “Eligibility Index”) from either the ACT or the SAT of the College Board. Persons who apply to an impacted program will be required to submit test scores regardless of GPA and should take the test no later than November or December. Test scores also are used for advising and course placement. Registration forms and dates for SAT or ACT are available from school or college counselors or from a CSU campus Testing Office or students may write to or contact:

The College Board (SAT)
Registration Unit, Box 6200
Princeton, New Jersey 08541-6200
(609) 771-7588

www.act.org

Transfer Policies of CSU Campuses

Most commonly, college level credits earned from an institution of higher education accredited by a regional accrediting agency are accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (58.5 quarter) units of General Education-Breadth (GE-Breadth) or 37 semester (55.5 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

“Certification” is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE-Breadth and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed at www.assist.org (http://www.assist.org).

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses and any or all of the California Community Colleges, and other regionally accredited institutions. Established CSU and California Community College articulations may be found on assist.org (http://www.assist.org). Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution that does not offer bachelor’s degrees or their equivalents, for example, community colleges. Given the university’s 30-semester (45-quarter) unit residency requirement, no more than a total of 90-semester (135-quarter) units may be transferred into the University from all sources.

Transfer Requirements

Applicants who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower-division transfer students. Applicants who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper-division transfer students. Applicants who have completed college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet the CSU minimum eligibility requirements for first-time freshman admission. Transferable courses are those designated for baccalaureate credit by the college or University offering the courses and accepted as such by the campus to which the applicant seeks admission.

Lower-Division Transfer Requirements

Generally, applicants will qualify for CSU admission consideration as a lower-division transfer if they have a cumulative grade point average of at least 2.0 in all transferable units attempted.

1. Will meet the freshman admission requirements (grade point average and subject requirements) in effect for the term to which they are applying (see “Freshman Requirements” section); or

2. Were eligible as a freshman at the time of high school graduation except for missing college preparatory subject requirements, have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subject requirements with a 2.0 or better GPA.
Applicants who graduated from high school prior to 1988 should contact the admission office to inquire about alternative admission programs.

Lower-division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:

1. Complete appropriate courses with a C or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a C or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations, e.g., SAT subject tests.

Please consult with the CSU campus admission office, to which you are applying for further information about alternative ways to satisfy the subject requirements.

Due to increased enrollment demands, most CSU campuses do not admit lower-division transfer applicants.

**Upper-Division Transfer Requirements.**

Generally, applicants will qualify for consideration as upper-division transfer admission if they meet all of the following requirements:

1. Cumulative grade point average of at least 2.0 in all transferable units attempted;
2. In good standing at the last college or university attended; and
3. Completed at least sixty (60) transferable semester (90 quarter) units of college level coursework with a grade point average of 2.0 or higher and a grade C or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, and quantitative reasoning, e.g., mathematics.

The 60 units must include at least 30 units of courses which meet CSU general education requirements, including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

**Associate Degrees for Transfer (AA-T or AS-T)**

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide California Community College students a clear transfer preparation and admission pathway to those CSU degree majors deemed similar. Those students who complete these transfer degrees and who are admitted to a similar CSU major program or option for that discipline will be able to complete the Baccalaureate Degree within 60 semester or 90 quarter units providing that all remaining required courses are completed successfully without a break in attendance and providing that no supplemental courses for minors or areas of emphasis are undertaken.

California Community College students who earn an associate degree for transfer (AA-T or AS-T) are guaranteed admission with junior standing to the California State University but not to any particular campus or program. Because several CSU campuses are receiving more transfer applications from eligible students than can be accommodated, these campuses have declared impaction resulting in higher admission criteria. See more on impaction at [www.calstate.edu/SAS/impactioninfo.shtml](http://www.calstate.edu/SAS/impactioninfo.shtml).

However, transfer students who earn the AA-T or AS-T degrees, are given priority admission over other transfer applicants when applying to a non-impacted CSU campus or to a non-impacted program from a community college within the local admission area of the campus. These students are also given priority admission consideration when applying from a community college that is outside the local admission area of an impacted CSU campus or when applying to a similar program that is impacted at any CSU campus. A current list of CSU degree programs that have been deemed similar to the associate degrees for transfer can be found at [www.calstate.edu/transfer/adt-search](http://www.calstate.edu/transfer/adt-search).

Those students who earn associate degrees for transfer and apply to a CSU campus but cannot be admitted due to impaction will be redirected to another CSU campus and offered admission for the same term. In order to qualify for the priority admission guarantee, transfer applicants must be conferred an approved Associate Degree for Transfer (AA-T/AS-T) by a California Community College, must apply for admission to California State University campuses for an open term by the published deadline, submit all requested transcripts and documents, meet CSU admission eligibility requirements for the campus and/or program, and must comply with any other prescribed admission requirements. It is the responsibility of these transfer students to provide documentation about the completion of the degree to each CSU campus that has received an application for admission.

**Conditional/Provisional Admission for Transfers**

CSUSB may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Campuses may rescind admission for any student who is found to be ineligible after the final transcript has been evaluated. In no case may such documents be received and validated by the University any later than a student’s registration for their second term of CSU enrollment.

Applicants will qualify for regular (non-provisional/conditional) admission when the university verifies they have earned 60 semester (90 quarter) transferable units, including completing the four basic skills courses with grades of C or better, and, if applying to an impacted program or campus, have met all supplementary criteria.

**Adult Students**

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if he or she meets all of the following conditions:

1. Possesses a high school diploma (or has established equivalence through either the General Educational Development or California High School Proficiency Examinations)
2. Has not been enrolled in college as a full-time student for more than one term during the past five years
3. If there has been any college attendance in the last five years, has earned a C average or better in all college work attempted
Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

To assess these skills, SAT or ACT scores must be presented prior to determination of admission. The ACT is offered on campus through the Testing Office.

Due to enrollment pressures this option is not available at CSUSB. Adult students are encouraged to meet all standards required for regular admission.

International (Foreign) Student Admission Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, “foreign students” include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications. The CSU uses separate requirements and application filing dates in the admission of “foreign students”. Verification of English proficiency (see the section on the English Language Requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Academic records from foreign institutions must be on file for the first term and, if not in English, must be accompanied by certified English translations.

Applicants for admission as either graduates or undergraduates whose education has been in another country should file an application for admission, official certificates and detailed transcripts of record from each secondary school and collegiate institution attended several months in advance of the beginning of the quarter in which the applicant expects to attend. If certificates and transcripts are not in English, they must be accompanied by certified English translations. Credentials. The CSU must assess the academic preparation of foreign students. Applicants for admission as either graduates or undergraduates whose education has been in another country should file an application for admission, official certificates and detailed transcripts of record from each secondary school and collegiate institution attended several months in advance of the beginning of the quarter in which the applicant expects to attend. If certificates and transcripts are not in English, they must be accompanied by certified English translations. Credentials. The CSU must assess the academic preparation of foreign students.

An applicant whose education has been in a language other than English must take the Test of English as a Foreign Language (TOEFL). This test is administered in most countries and official test scores must be received by the university before admission to the university can be granted. Information as to the time and place at which this test is given may be obtained from: Educational Testing Service (TOEFL), Princeton, New Jersey 08540, U.S.A. or TOEFL (http://www.toefl.org).

International applicants must also submit a statement of financial responsibility to the Center for International Studies & Programs (CISP) (http://admissions.csusb.edu/international) to be considered for admission to the university. International students are also required to submit evidence of adequate medical/hospital insurance to the international student advisor in CISP.

Arrangements for housing should be completed before the student's arrival on the campus. Detailed information regarding housing may be obtained from the director of housing at California State University, San Bernardino (http://admissions.csusb.edu/international/e_costs_housing.shtml). Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country.

Upon arrival at California State University, San Bernardino, international students should make an appointment with CISP as early as possible.

Insurance Requirement. Effective August 1, 1995, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of receiving an I-20 or DS-2019 form and for registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAFSA: Association of International Educators. The campus president or designee shall determine which insurance policies meet these criteria. Further information can be obtained from the Center for International Studies & Programs.

English Language Requirement

All undergraduate applicants whose native language is not English, and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must present a score of [campus minimum score] or above on the Test of English as a Foreign Language (TOEFL). Some majors may require a higher score. A few campuses may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS), and the International Test of English Proficiency (ITEP). Each campus will post the tests it accepts on its website and will notify students after they apply about the tests it accepts and when to submit scores.

CSU minimum TOEFL standards are:

<table>
<thead>
<tr>

<th>Internet</th>
<th>Paper</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate</td>
<td>61</td>
<td>500</td>
</tr>
<tr>
<td>Graduate</td>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

Other Applicants

An applicant who is not admissible under one of the above provisions should enroll in a community college or other appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll in the university. Permission is granted only by special action of the university.

The university reserves the right to select its students and deny admission to the university or any of its programs as the university, in its sole discretion, determines appropriate based on an applicant's suitability and the best interest of the university.

Admission as an Auditor

A student who wishes only to audit a course instead of enrolling for credit must complete a statement of residency issued by the Office of the Registrar. Auditors must pay the same fees as would be charged if the courses were taken for credit. See Page 48 for auditing courses.

Admission to Teaching Credential Programs

Admission to the university as a student does not constitute admission to a teaching credential program. Students who intend to pursue work toward credentials should also make application to the College of Education.
Matriculation Policy

An undergraduate student is considered matriculated only if they register, pay fees and do not drop all of their courses prior to census for a given term through the regular campus enrollment. An application and application fee are required if:

1. the student was not matriculated in any of the three terms (not including summer) prior to the term in which they plan to register,
2. the student was enrolled at another four-year institution during an absence from California State University, San Bernardino, and
3. the student has since earned a baccalaureate degree.

Enrollment through Open University, Extended Learning, or a Visitor program does not constitute regular enrollment.

Returning Students

Undergraduate students in good standing may be readmitted to the university after an absence of one term by notifying the Office of the Registrar (http://rre.csusb.edu).

The application and fee of $55 are required if the student was not enrolled in any of the three terms (not including summer) prior to the term for which the student is seeking admission or if the student was enrolled in another institution during the absence from California State University, San Bernardino. Enrollment through Open University or the College of Extended Learning during fall, winter or spring quarters does not constitute enrollment for this purpose. (See Leave of Absence (p. 107).)

Returning students who must reapply must apply during the priority application filing period and be fully eligible as an upper-division transfer student before they will be admitted to CSUSB again.

Readmission of Previously Disqualified Students

After receiving notice of disqualification, a returning student who has applied to CSUSB for a coming term may petition the director of Advising and Academic Services for readmission to the university on probation. All petitions for readmission must be submitted to the director of Advising and Academic Services according to the following schedule:

<table>
<thead>
<tr>
<th>Petition for</th>
<th>Petition on file on or before</th>

<td>June 1</td>
</tr>
</tbody>
</table>

Transfer of Credit

A maximum of 70 transferable semester units (105 quarter units) of work taken at a community college can be applied toward the requirements for a degree from the university. No upper-division credit will be allowed from courses taken at a community college. No more than six semester units (nine quarter units) in education courses taken at a community college may be applied toward the baccalaureate degree or the professional preparation requirements of a teacher education basic credential program.

The Office of the Registrar will evaluate previous college work to determine its applicability to the requirements of the university. All undergraduate degree candidates will be issued a Program Advising Worksheet for Students (PAWS), indicating which requirements remain unfilled. Once issued to a student, the PAWS remains valid as long as the student matriculates for the term specified, pursues the objective specified, and remains in continuous attendance. Students will not be held to additional graduation requirements unless such requirements become mandatory as a result of changes in the California Code of Regulations or the California Education Code.

Credit for work completed at institutions with regional accreditation will be accepted toward the satisfaction of degree requirements at the university within limitations of residency and major requirements, community college transfer maximums, and course applicability.

Concurrent Enrollment. Once a student has matriculated at this university, transfer courses will only be accepted for credit if the courses have prior approval on the Concurrent Enrollment for Equivalent Transfer Course(s) form (http://rre.csusb.edu/misc/documents/ConcurrentEnrollmentOct10.pdf). For complete policy, see Concurrent Enrollment (p. 107).

Students attending CSUSB on I-20 visas are not eligible for concurrent enrollment. They may, however, participate in the CSU Intrasystem Concurrent program or the UCR/CSUSB Cross Registration Program but must be concurrently enrolled in (and complete) at least 12 units at CSUSB and may only enroll in upper-division courses that are not offered at CSUSB. For more information, see Intrasystem and Intersystem Enrollment Programs or UCR/CSUSB Cross Registration Program.

General Information - Admission and Evaluation of Academic Records

Credit for Standardized External Examinations and Systemwide Examinations

The university shall grant four and a half quarter units of credit for each of the following College Level Examination Program (CLEP) examinations passed at the 50th percentile, provided the examination was not taken previously within the past term and that degree credit has not been granted for previous course work at the equivalent or at a more advanced level than for the examination in question.

- American Government
- American Literature
- Analyzing and Interpreting Literature
- Biology
- Calculus
- Chemistry
- College Algebra
- College Algebra - Trigonometry
- English Literature
- French, Levels I and II
- German, Levels I and II
- History, United States I and II
- Human Growth and Development
- Humanities
- Introductory Psychology
- Introductory Sociology
- Natural Sciences
- Pre-Calculus
- Principles of Macroeconomics

California State University, San Bernardino
• Principles of Microeconomics
• Spanish, Levels I and II
• Trigonometry
• Western Civilization I and II

No credit will be granted for CLEP English Composition.

The university may also grant credit and advanced standing for CLEP subject examinations, using as minimum standards:

1. The student submit a score at or above the 50th percentile in the norming group who earned a mark of "C" (2.0) or better;
2. The equivalence to CSUSB courses be determined by the appropriate academic department;
3. College credit shall have not been previously earned in the courses in question.

Questions regarding the acceptance of other standardized external examinations should be directed to the Office of the Registrar (http://rre.csusb.edu).

In no case will credit awarded through external examinations count towards residency credit.

**Credit by Advanced Placement**

CSUSB grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to nine quarter units of college credit. Questions regarding the acceptance of Advanced Placement exams should be directed to the Office of the Registrar (http://rre.csusb.edu).

**Credit by International Baccalaureate**

Students who have successfully completed International Baccalaureate exams at the Higher Level (HL) with a score of 4, 5, 6, or 7 may be granted up to nine quarter units of credit for each successful exam. These units of credit will apply towards graduation, advanced placement in the university's sequence of courses, and credit for curriculum requirements. No credit will be awarded for Subsidiary Level (SL) exams. Test results must be presented to the Office of Admissions and Student Recruitment. Questions regarding the acceptance of International Baccalaureate exams should be directed to the Office of the Registrar (http://rre.csusb.edu).

**Credit for On-line/Distance Learning, and Extension Courses**

A maximum of 36 quarter units of credit earned through extension and on-line courses may be applied to a baccalaureate degree program. A maximum of 13 quarter units of graduate credit earned through extension registration may be accepted toward a master's degree program. No credit so earned may be used to satisfy the university residency requirement.

Matriculated students wanting to take on-line courses must first have the courses approved by following the procedures outlined in the section on Concurrent Enrollment. All examinations for these courses must be proctored by the University Testing Office.

CSUSB accepts only those credits for transfer which are acceptable toward a baccalaureate or master degree or credential at the institution offering the courses.

**Credit for Non-Collegiate Instruction**

CSUSB grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, which has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Students may also challenge courses by taking examinations developed at CSUSB. Credit shall be awarded to those who pass them successfully.

See Credit by Examination under Academic Regulations for more information.

**Credit for Military Service**

The university grants lower-division undergraduate credit for completion of basic training in the armed forces of the United States. This credit is applied to the Lifelong Understanding area of General Education.

A limited amount of additional credit may be granted to students who have completed certain service schools in addition to basic training. Credit will only be evaluated if needed to fulfill admission requirements or for use toward graduation. Credit is allowed on the basis of recommendations of the Commission on Educational Credit and Credentials of the American Council on Education and must be documented on the Member 4 copy of a DD-214, DD-295 or AARTS (Army/American Council on Education Registry Transcript System) transcript. Credit based on military rank (MOS) will not be awarded.

The total amount of credit earned on the basis of externally developed tests and through recommendations of the commission, which may be applied to a baccalaureate degree, shall not exceed 45 quarter units. Advanced placement credit and international baccalaureate credit are excluded from the limit.

**High School-University Program**

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment. For more information, contact the Office of Admissions & Student Recruitment at (909) 537-5188, or visit Freshman Admissions & Student Recruitment (http://admissions.csusb.edu/freshmen).

**Fee Waiver Program for California Residents Sixty Years of Age or Older**

California State University, San Bernardino offers a program which allows California residents, sixty years of age or older, to enroll in regular session courses without payment of certain specified fees. All regular admission requirements and deadlines must be met. The program is required to adhere to the following standards:

1. enrollment shall be limited to persons who are California residents as defined by the Education Code, are 60 years of age or older, and are eligible for admission to the university, and
2. persons enrolling in the program will be able to register on the last day of priority registration.
Intrasystem and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted or desired programs or admission categories are closed. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as elective credit, students must consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from the Office of Residence and Orientation (http://rre.csusb.edu) or the Registrar (http://rre.csusb.edu).

CSU Intrasystem Concurrent Enrollment. Matriculated students in good standing may enroll at both their home campus and a host CSU campus during the same term. Students attending CSUSB on I-20 visas may participate in the Intrasytem Concurrent Enrollment program, but must be concurrently enrolled in (and complete) at least 12 units at CSUSB, and may enroll only in upper-division courses that are not offered at CSUSB. Credit earned at the host campus is reported to the home campus to be included on the student’s transcript at the home campus.

CSU Fully Online Courses. Matriculated students in good standing, with a minimum cumulative and campus GPA of 2.0, who have completed at least one term at CSUSB, earned at least 12 units, and are enrolled full-time at CSUSB may register in CSU Fully Online Courses. Eligible students at CSUSB may enroll at CSU quarter campuses.

The CSU Fully Online program provides an opportunity for eligible matriculated students to enroll in one course per term offered by another CSU campus. The program is aimed to facilitate access to high demand, high success courses as part of the ongoing effort to providing students with access to the courses needed to expedite graduation.

The CSU Fully Online program offers courses from each of the 23 system campuses in a variety of disciplines to accommodate the needs of current CSU students. Included in the offerings is a small number of courses that have gone through an extensive review process, and have been deemed effective, based on the curriculum and student success rates. In addition, these courses carry a small number of guaranteed seats for CSUSB students under this arrangement.

CSU Intrasystem Visitor Enrollment. Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus. Students attending CSUSB on I-20 visas are not eligible for this program.

Intersystem Cross Enrollment. Matriculated CSU, UC or community college students may enroll on a “space available” basis for one course per term at another CSU, UC or community college and request that a transcript of record be sent to the home campus. Students attending CSUSB on I-20 visas are not eligible to attend community college. They may participate in this program and attend a CSU or UC, but must be concurrently enrolled in (and complete) at least 12 units at CSUSB, and may enroll only in upper-division courses that are not offered at CSUSB.

UCR/CSUSB Cross Registration Program

On a limited basis, students may be permitted to take advantage of courses offered at the nearby University of California campus in Riverside. Note: this opportunity is available only for undergraduate courses not normally offered at CSUSB and is subject to availability of space at UC Riverside after their early registration process is completed. The following conditions apply:

1. A limited number of students may participate.
2. A limit of one course per student per quarter.
3. The student is matriculated and currently enrolled in a degree program.
4. Students attending CSUSB on I-20 visas may participate, but must be concurrently enrolled in (and complete) at least 12 units at CSUSB, and may enroll only in upper-division courses that are not offered at CSUSB.
5. Student must pay sufficient (full) tuition fees at the Home Campus. No additional registration fees will be required at the Host Campus.
6. The desired course is not offered at the Home Campus.
7. Student must be in good academic standing.
8. Student must observe all academic deadlines and regulations of the Host Campus.
9. Enrollment is subject to space availability and consent of the instructor.
10. Student must meet course prerequisites of the Host Campus.
11. Records of grades will be maintained by the Host Campus and forwarded to the Home Campus. The Home Campus will include the “transfer” work on the student’s transcript, with a footnote indicating that the course was taken through the exchange program.
12. Residence credit will be granted for courses taken by CSUSB students under this arrangement.
13. Cross-registration students will have the use of library facilities at the Host Campus. The student is not eligible for other student services or facilities.

Determination of Residence

University requirements for establishing residency for tuition purposes are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay University fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68085, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. Residency material can be viewed on the internet by accessing the CSU website (http://www.calstate.edu/sas/residency).

Each campus’ Admissions Office is responsible for determining the residency status of all new and returning students based on the
Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial independence. Financial independence is required, in addition to physical presence and intent, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- Has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent;
- Has not and will not receive more than seven hundred and fifty dollars ($750) per year in financial assistance from his/her parent; and
- Has not lived and will not live longer than six (6) weeks in the home of his/her parent.

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residency requirements are contained in California Education Code sections 68070–68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906–41906.6, 41910 and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three or more years of high school (grades 9-12) in California and graduated from a California high school or attained the equivalent of graduation. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor’s Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Residence determination dates are:

<table>
<thead>
<tr>
<th>Term</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>September 20</td>
</tr>
<tr>
<td>Winter</td>
<td>January 5</td>
</tr>
<tr>
<td>Spring</td>
<td>April 1</td>
</tr>
<tr>
<td>Summer</td>
<td>July 1</td>
</tr>
</tbody>
</table>

CalState TEACH operates on a trimester system. The residence determination dates for CalState TEACH are as follows:

<table>
<thead>
<tr>
<th>Term</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>September 20</td>
</tr>
<tr>
<td>Spring</td>
<td>January 5</td>
</tr>
<tr>
<td>Summer</td>
<td>June 1</td>
</tr>
</tbody>
</table>

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. A campus residency classification appeal must be in writing and submitted to: The California State University, Office of General Counsel, 401 Golden Shore, 4th Floor, Long Beach, CA 90802-4210. The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Reservation

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.
Tours of the Cal State campus are available throughout the year for individuals or groups. Student visitors interested in acquiring firsthand information about the university’s programs or classes may request a meeting with faculty or an admissions counselor. Arrangements can be made to visit the residence halls.

**General Requirements for Admission**

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective. Depending on the objective, the CSU will consider an application for admission as follows:

The minimum requirements for admission to graduate and post baccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.

Specifically, a student shall at the time of enrollment:

1. Have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
2. Be in good academic standing at the last college or university attended;
3. Have earned a grade point average of at least 3.0 on the last degree completed by the candidate or have attained a grade point average of at least 3.0 (A=4.0) in the last 60 semester (90 quarter) units attempted; and
4. Satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe.

Applicants whose grade point average falls between 2.5 and 2.9 will be considered for exceptional admission at the discretion of the graduate program and the Dean of Graduate Studies, following the guidelines outlined in FAM 841.3. Admission to a graduate program involves consideration of multiple criteria.

**Categories of Admission**

Post baccalaureate applicants may apply for a degree, a credential or certificate, depending on their objective.

Students who meet the minimum requirements for graduate and post baccalaureate studies may be considered for admission in one of the following categories:

- **Post baccalaureate Classified.** e.g. admission to an education credential program. Students wishing to enroll in a credential or certificate program will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations prescribed by the campus; or
- **Graduate Conditionally Classified.** Applicants may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, deficiencies may be remedied by additional preparation; or
- **Graduate Classified.** To pursue a graduate degree, applicants are required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.
Graduate Certificate. Students may apply for graduate certificate programs through the College of Extended Learning (http://cel.csusb.edu) (CEL). Students should contact CEL for information on available programs and to apply.

These and other CSU admissions requirements are subject to change as policies are revised and laws are amended. The CSU website Cal State University website (http://www.calstate.edu) and the CSU admissions portal www.calstate.edu/apply (http://www.calstate.edu/apply) are good sources of the most up-to-date information.

Admission of Graduates with Three-Year Baccalaureate Degrees from Foreign Universities

An applicant who has earned a three-year bachelor’s degree from an institution outside of the USA is eligible to apply for admission. The institution must be licensed and/or accredited in its home nation to award diplomas or degrees. Admission is subject to departmental review.

Graduate and Post Baccalaureate English Language Requirement

All graduate and post baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Some programs require a higher score. Several CSU campuses may use alternative methods for assessing fluency in English including Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS), and the International Test of English Proficiency (ITEP).

Admissions Procedures

1. All graduate and post baccalaureate applicants (e.g., Ed.D. applicants, master’s degree applicants, those seeking educational credentials) must file a complete graduate application as described in the graduate and post baccalaureate admission materials at www.calstate.edu/apply (http://www.calstate.edu/apply). Applicants seeking a second bachelor’s degree should submit the undergraduate application for admission unless specifically requested to do otherwise. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for post baccalaureate programs may be limited to the choice of a single campus on each application, re-routing to alternate campuses or later changes of campus choice are not guaranteed. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. Applications submitted by way of www.calstate.edu/apply (http://www.calstate.edu/apply) are expected unless submission of an electronic application is impossible. An electronic version of the CSU graduate application is available at www.csumentor.edu.

2. Former graduate students of the university must apply for readmission if:
   a. they have been absent for more than one quarter including summer term immediately preceding the quarter for which readmission is sought, or
   b. they have attended other colleges during their absences from California State University, San Bernardino. Students who have attended other colleges during their absences must submit official transcripts from those institutions. Students who have been absent for one quarter must again pay the $55 application fee.

Official transcripts and other application materials should be directed to the Office of Graduate Studies, CH-123. Applications are accessible at www.calstate.edu/apply (http://www.calstate.edu/apply).

The university begins accepting applications from new and readmitted students on October 1 for the following fall quarter, June 1 for the following winter quarter, August 1 for the following spring quarter and February 1 for the following summer quarter. Please contact the program for program-specific requirements; some require additional application materials and may have different deadlines.

Applause of Admission Decision

Section 89030.7 of the California Education Code requires that the California State University establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website.

Applicants who are denied admission to CSU San Bernardino as a post baccalaureate student may appeal the decision in writing no more than 15 business days after the date the applicant was or should have reasonably been notified of denial of admission by the Office of Graduate Studies. Applicants are to submit the written appeal to the Dean of Graduate Studies. Appeals will be reviewed and answered within 15 business days after the request for appeal has been received.

Readmission of Previously Disqualified Students

After receiving notice of disqualification, a student may petition for readmission to the university on probation. Contact the Dean of Graduate Studies for format.

Admission by Special Action and Probationary Status

An applicant who does not meet university requirements for admission may be admitted by special action by the graduate coordinator of the program the student wishes to enter, or if unsure, by the Dean of Graduate Studies. Such admission may be in a probationary status, if in the opinion of the graduate coordinator, the student is likely to succeed in the program.

Ordinarily, consideration for probationary status is granted only to mature applicants who, while their total college record does not meet the
admission requirements, have demonstrated sufficient ability through recent academic work or other means.

Students admitted on probationary status are subject to the probation and disqualification regulations as stated under Academic Regulations. A student admitted on probationary status may be restricted by the graduate coordinator to a limited program.
Undergraduate Degrees and Programs

Office of Undergraduate Studies
University Hall, Room 352
(909) 537-5032
(909) 537-7012 (fax)
Undergraduate Studies website (http://www-ugs.csusb.edu)

Bachelor of Arts

Special Major

Undergraduate Studies is responsible for a wide range of programs designed to help students and enhance their academic success. Beginning with pre-college students, Undergraduate Studies hosts the Early Assessment Program, through which high school juniors can assess their readiness for college-level English and mathematics coursework. We help to coordinate developmental education programs in English and mathematics for students who have not demonstrated college-readiness in those subjects by the time they start college, including the Early Start Program and Coyote First STEP (Student Transition Enhancement Program), offered in the summer before first enrollment at CSUSB. For students in the first year of college, Undergraduate Studies offers the Freshman Seminar (USTD 100) and courses in developmental mathematics. Undergraduate Studies coordinates CSUSB’s team-based academic advising system, which includes peer advisors, professional advisors and faculty advisors assigned to every student; we are home to the office of Advising and Academic Services, which is directly responsible for advising students who have yet to declare a major or who find themselves needing to get off of academic probation. The Educational Opportunity Program (EOP) and Student Assistance in Learning (SAIL; a federal TRIO-funded Student Success Services program) are specialized programs that create communities and provide intensive academic and personal assistance for students. Through Supplemental Instruction, the Student Mentoring Program, the Writing Centers, and the Honors Program, Undergraduate Studies provides extensive opportunities to students for academic assistance and enrichment.

The baccalaureate degree that students earn at California State University, San Bernardino will represent work done in three broad areas: General Education, courses in a major and free electives. The General Education program is explained elsewhere in this catalog, and all the courses that comprise the General Education program are listed. It is important to note that not all of these courses will be offered each quarter. Students should consult the Class Schedule to find those courses offered during the current quarter. Following the General Education requirements are several important process requirements that must be fulfilled in order to obtain an undergraduate degree. This catalog also contains the program requirements and course descriptions required of baccalaureate degrees, minors, certificates and credentials with appropriate contact information at the beginning of each section.

Most of the work of Undergraduate Studies involves supporting students, faculty members and the various academic colleges. Undergraduate Studies oversees one degree program, namely the Bachelor of Arts: Special Major, through which qualified students are able to design their own personalized, interdisciplinary degree program.

In addition to programs aimed primarily at undergraduate work, there are several programs that help undergraduate students look forward toward graduate studies. These transitional programs are aimed at preparation for professional schools. These pre-professional programs include pre-engineering, pre-law and pre-professional programs in medicine, veterinary medicine, dentistry and pharmacy.

Undergraduate Studies

FOUR-YEAR GRADUATION PLEDGE PROGRAM

Advising and Academic Services, (909) 537-5034.
GraduateN4@csusb.edu

California State University, San Bernardino is committed to assisting students in earning a baccalaureate degree in the shortest time possible. With careful planning and a commitment to work diligently, many students have been able to graduate in four years (12 quarters).

Who is Eligible?

All ENTERING FRESHMEN who: [Apply by the first day of Fall 2017 classes]

• Have declared a major (and concentration if applicable)
• Are willing to earn 45 units or more per academic year (degree applicable)

NOTE: Majors that require more than 180 units will need to earn more units per year.

• Are eligible to take college-level math (Math 110 or higher) during their first term at CSUSB.
• Have met all entrance requirements for the major.

STUDENT’S OBLIGATION Once Accepted Into the Program:

Students are required to attend an information session where they will sign their Four-Year Graduation Pledge Contract.

1. Students may not have more than one major declared (unless approved by the Four-Year Graduation Pledge Coordinator), as having multiple majors and/or minors will increase the amount of units required and may result in not meeting the four-year graduation deadline.
2. Students may not have more than one minor declared (unless approved by the Four-Year Graduation Pledge Coordinator).
3. Students may not have more than two concentrations declared, including any concentration required for their major (unless approved by the Four-Year Graduation Pledge Coordinator).
4. Students must COMPLETE an average of at least 15 units per quarter (45 units per year) to reach the minimum of 180 units required for a Bachelor of Arts degree in four years.
5. Students are required to submit an Education Plan within their first academic quarter to plan and track their degree coursework and requirements. Education Plans MUST be approved and signed by either a faculty advisor or professional staff advisor (cannot be a peer advisor) within the student’s major/department.
6. Students must enroll each quarter at the assigned on-line registration time. Students enrolling late cannot be assured of getting courses needed.
7. Maintain a 2.0 CSUSB grade point average after each quarter (for students beginning Fall 2017).
8. Meet regularly with their department academic advisor, follow the agreed upon Education Plan each quarter.
9. Impacted majors must be accepted into their major according to the department's established schedule.
10. Take courses at times (day or evening) when they are offered and/or available and in correct sequence. Note: Students who change their major or concentration or who take a leave of absence may not necessarily be able to graduate in four years. Approval from the Four-Year Graduation Pledge Coordinator is required to change majors and for reinstatement into the Four-Year Graduation Pledge after a leave of absence. If approved, a new, advisor-approved, Education Plan demonstrating four-year graduation MUST be submitted to Advising & Academic Services.
11. Demonstrate accountability by complying with all administrative and academic policies and procedures. Non-compliance will result in cancellation of the pledge agreement.
12. Students MUST file their Graduation Check no later than the Fall term of their 4th and final academic year.

What is the University’s Pledge?

- California State University, San Bernardino pledges to provide sufficient classes for the Four-Year Graduation Pledge Program students in order for them to graduate in four years. All Four-Year Graduation Pledge Program students will receive first priority registration (Priority I) based on their quarterly academic progress monitored by Advising & Academic Services, Undergraduate Studies. (909) 537-5034. GraduateN4@csusb.edu

Participants who continue to meet eligibility (see above) must utilize their designated priority registration date and time to ensure timely advancement toward graduation.

Advising and Academic Services

University Hall, Room 380
(909) 537-5034 or (909) 537-5035 Advising and Academic Services website (https://www.csusb.edu/advising) askcsusb@csusb.edu (for advising questions)

The Office of Advising and Academic Services offers proactive leadership and guidance to foster holistic, strengths-based student development focused advising. Services include:

- Academic Probation and Subject to Dismissal Counseling
- Undeclared and General Education Advising
- Excessive Unit (Senior) Advising
- EPT/ELM, Basic Skills and Remediation Compliance
- Coordination of SOAR Advising and Registration
- Student Success Peer Advisors (SSPA)
- Dianna J. Pelletier Resiliency Scholarship Fund for students on probation
- Four-Year Graduation Pledge Program
- USTD 200, USTD 37, USTD 27B
- Coyote Advising Week
- Finals Week Encouragement
- Undergraduate University Petitions (Leave of Absence, Withdrawal Petition for Extenuating Circumstances, GE Course Substitution, and Simultaneous Enrollment).

- Student Academic Grievance (Including Grade Appeals) – University Level

The office reviews and acts on the following petition requests: admission by special action, general education course substitutions, retroactive withdrawals, extension of time to remove “Incomplete” grades beyond one year, leave of absence, academic renewal, simultaneous enrollment, drop after census date for undeclared students, and other waivers of university regulations.

In addition, the office provides general education and degree planning assistance, academic counseling for continuing probation and dismissed students, and supervision for USTD 27B students (individualized study contract). E-mail Advising is available for students, faculty, staff and the community for academically related inquires.

Educational Opportunity Program

University Hall, Room 395
(909) 537-5042 Educational Opportunity Program website (http://www.ugs.csusb.edu/eop)

The Educational Opportunity Program (EOP) is an admissions and comprehensive support services program designed to assist historically low-income, first generation, underrepresented students who meet specific income guidelines and demonstrate the potential to obtain a baccalaureate degree offered by the university.

Through the Educational Opportunity Program, the student receives assistance with admissions, orientation, Summer Bridge, academic advising, financial aid, grants and scholarships, housing, tutoring, counseling, academic and life skills workshops, career planning, graduate school information, and other support services, depending upon individual needs.

Under the umbrella of the Educational Opportunity Program, current and former foster youth can receive additional support services through the EOP Renaissance Scholars Program.

In order for a student to participate in EOP or the Renaissance Scholars Program, students must submit a separate application prior to admission to the university, meet the income criteria and be selected via the EOP application process.

Student Mentoring Program

Pfau Library, Room 208
(909) 537-7765 Student Mentoring Program website (http://www.ugs.csusb.edu/mentor)

Mentors are here to help students navigate their next transition at CSUSB. The Student Mentoring Program (SMP) in the Office of Undergraduate Studies pairs first-year students with experienced CSUSB Student Mentors who have completed additional training to help them connect students with resources and support that are integral to college success. To learn more and get connected, contact our Student Mentors in-person, over the phone, or online.

The First-Year Seminar

University Hall, Room 352
(909) 537-5032

The First-Year Seminar/University Studies 100a (USTD 100A) introduces students to academic and practical skills necessary to succeed at the
Supplemental Instruction

University Hall, Room 401.22
(909) 537-7355 Supplemental Instruction website (http://undergradstudies.csusb.edu/si.html)

Supplemental Instruction (SI) is a research-based, nationally proven method for helping students succeed in challenging courses by providing peer led, subject-matter instruction, support, and guidance to strengthen critical college skills. SI sessions meet twice a week for 50 minutes each (usually just after the content course lecture). SI is open to all students enrolled in the corresponding content course. Each SI session is limited to 20 students to maintain a small group environment. For more information about SI call (909) 537-7355 or email retentionmatters@csusb.edu.

Testing and Tutoring

University Hall, Rooms 387 (testing) and 351 (tutoring)
(909) 537-5045 (inquiries about testing)
(909) 537-5038 (inquiries about tutoring); Testing and Tutoring website (http://undergradstudies.csusb.edu/tnt)

Testing and Tutoring provides a variety of free academic support programs for CSUSB students. These include tutoring for many undergraduate courses, use of computers with pay printing, and general study aids.

Drop in tutoring in selected subjects (Tutoring Schedule (http://undergradstudies.csusb.edu/tnt/Subjects.html)) is available 8am to 8pm Monday through Thursday, and 8am to 5pm on Fridays. The computer lab opens at 7:45am each weekday.

Note that assistance in writing is provided by the Writing Centers, a separate office.

Testing and Tutoring administers tests for admission, academic placement and academic achievement. We administer makeup and proctored exams for CSUSB students and provide proctoring services to students attending distance or on-line schools and professional proctored exams for CSUSB students and provide proctoring services for placement and academic achievement. We administer makeup and proctored exams for CSUSB students and provide proctoring services to students attending distance or on-line schools and professional certiﬁcation examinations via the CASTLE network. The Testing Office provides for the following standardized examinations:

- American College Testing (ACT - Institutional)
- CLA (Collegiate Learning Assessment)
- English Placement Test (EPT)
- Entry Level Mathematics (ELM)
- iSkills (ICT Literacy Test)
- LSAT (Law School Admissions Test)
- MPRE (Multi-State Profession Responsibility Exam)
- TEAS (Test of Essential Academic Skills) for CSU nursing school applicants
- U.S. Constitution, U.S. History and California State and Local Government Exams
- (WREE) Writing Requirement Exemption Exam

SAIL Program

University Hall, Room 386
(909) 537-5921 SAIL Program website (http://undergradstudies.csusb.edu/sail)
sail@csusb.edu

The Student Assistance in Learning (SAIL) program is the university's TRIO Student Support Services (http://www2.ed.gov/programs/triostudsupp) project, which is 100% funded by a grant from the U.S. Department of Education. The goal of SAIL is to increase the retention and graduation rates of undergraduate students who are low-income, first-generation (parents have not earned a bachelor's degree) or who have a disability. Priority is granted to eligible students who have a demonstrated academic need. (Please contact the SAIL office for more information about eligibility.)

SAIL offers a variety supportive services to ensure students’ academic and personal success at CSUSB and their persistence towards graduation. These include:

- Educational planning
- Financial aid counseling
- Personal finance education and planning support
- Career counseling
- Personal counseling
- Assistance with graduate school planning and preparation
- Academic coaching
- 2-unit adjunct support classes to enhance success in selected high-risk general education and major courses
- 2-unit Advanced Notetaking and Organization courses with specific subject area emphases (expository writing, history, mathematics, science, statistics and general study skills)
- 2-unit College Reading and graduate school planning courses
- Workshops addressing student success strategies, student resources and personal growth
- Study Marathons to help students prepare for final exams
- Community service and leadership development opportunities
- SAIL’s First-Gen Community

The enrollment period for the SAIL program is July 1st through September 30th. After that time period, students are admitted on a space-available basis or through a letter of referral from a campus staff or faculty member, or administrator.

Writing Center

College of Education, Room 311
(909) 537-5232 Writing Center website (http://www-ugs.csusb.edu/wc)

Writing consultants work with students who are composing speciﬁc writing projects as well as with faculty members who are incorporating writing as a mode of learning in their courses. Consultants offer individual conferences to students in all disciplines at all stages of their composing processes; conferences focus on interpreting assignments, discovering topics, expanding ideas, clarifying organizational strategies, incorporating counter-arguments, and citing references, as well as on editing and proofreading. Consultants also facilitate English conversation groups for
multilingual and ESL students, helping them to negotiate the linguistic and cultural differences in oral and written composition.

The Writing Center Director and staff members are always available to consult with faculty members who are designing writing components for their courses, conduct in-class writing workshops in courses in all disciplines, and read and respond to manuscripts in preparation.

Undergraduate Degree and Program Requirements

Program Requirements for a Bachelor's Degree

To be eligible for the bachelor's degree, a student must:

1. Complete a minimum of 180 quarter units of college credit. Some majors require more than 180 quarter units, particularly those with integrated teaching tracks.
2. Complete 78-86 quarter units in general education distributed in the manner outlined in the following section titled General Education Program Requirements. Satisfactory score on the Entry Level Mathematics exam are prerequisites for enrollment in the following general education courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 107</td>
<td>Advanced First-Year Composition</td>
<td>4</td>

</table>
3. Complete all requirements for a major, including at least 20 quarter units of upper-division course work in the major.
4. Complete at least 45 quarter units at this university. (Refer to University Residence Requirement for Graduation, below.)
5. Complete at least 60 quarter units of upper-division work.
6. Earn a grade point average of 2.0 ("C") or better in all units used to fulfill the requirements of the major.
7. Earn a grade point average of 2.0 ("C") or better in all units attempted, and in all units attempted at the university.
8. Complete two quarter units of physical education course work as required in the general education program. Note a maximum of 12 units of physical education activity courses (numbered KINE 150A-K and below) may be applied toward graduation.
9. Complete the upper-division writing requirement. (See Upper-Division Writing Requirement (p. 48).)
10. Complete the history, constitution and California government requirement. (See History, Constitution, Government Requirement (p. 48).)
11. Be recommended for graduation by the faculty of the university.
12. Have a graduation requirement check (grad check) on file prior to the end of the term of graduation. (See Graduation Requirement Check (p. 107).)

Early Start Program (ESP)

In order to help students improve their chances of graduating on time, the California State University system requires all new California resident freshmen students who have not demonstrated college readiness in mathematics and English to take action towards proving college readiness before their first term of enrollment through participation in the Early Start Program (ESP). The purpose of ESP is to give students an opportunity to make progress towards fulfilling their mathematics and English requirements early, so that doing so does not interfere with degree progress. Students may establish their level of readiness in English and mathematics in several ways: through the Early Assessment Program test in the junior high year of high school (embedded in the CASPP assessments), through ACT or SAT test scores, through successful grades in Advanced Placement (AP) or International Baccalaureate (IB) courses, or through the ELM (Entry Level Mathematics test) and EPT (English Placement Test). Students who are required to participate in Early Start and who fail to do so will not be eligible to enroll for classes. For complete information about Early Start, please visit the Early Start Program website (http://www.ets.org/csu). Questions about test dates and registration materials may be addressed to Testing and Tutoring, University Hall, Room 387, (909) 537-5045.

If all required first-year English composition or developmental mathematics course work is not completed within the first year of enrollment, students will be dismissed from the university. Dismissed students MUST see an advisor in Advising and Academic Services to develop a reinstatement plan.

English Placement Test (EPT). The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the California State University. The CSU EPT must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 147 or above on the EPT will be placed in college-level composition classes.

Systemwide Placement Test Requirements

The CSU requires each entering undergraduate, except those who are exempt or conditionally exempt, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. Taking these placement tests is not a condition for admission to the CSU, but doing so is a condition for enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. The EPT may be referenced by students during the Directed Self-Placement process through which students enroll in a first-year English composition course. New freshmen students who do not demonstrate college-level skills in mathematics or English will be required to participate in the Early Start Program. Students who are conditionally exempt in English or mathematics, but do not satisfy their conditions, are required to participate in Early Start unless they demonstrate college readiness through achieving a high enough score on the EPT or ELM. Students placed in a developmental program in mathematics must complete all coursework in their first year of enrollment. Failure to complete remediation in mathematics or to complete the first-year English composition course by the end of the first year may result in denial of enrollment for future terms. Students register for the EPT and/or ELM via an on-line portal at the CSU Placement Test website (http://www.ets.org/csu). Questions about test dates and registration materials may be addressed to Testing and Tutoring, University Hall, Room 387, (909) 537-5045.
Exemptions from the EPT are granted only to those who present proof of one of the following:

- A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in English on the CAASPP Early Assessment Program (EAP) exam.
- A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in English on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement.
  - The Conditional requirement may be met by completing an approved English course in the 12th grade and earning a grade of “C” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless exemption was met through one of the following:
    - New SAT: A score between 510 - 540 on the Evidenced Based Reading and Writing Section* Old SAT: A score between 460 - 490 on the Critical Reading section of the old SAT Reasoning Test
    - A score of 19 - 21 on the English section of the ACT Test

In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.

Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of “C” or better New SAT: A score of 550 or above on the Evidenced Based Reading and Writing section* Old SAT: A score of 500 or above on the Critical Reading section of the old SAT Reasoning Test A score of 22 or above on the ACT English Test A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program

Entry Level Mathematics (ELM) Exam.

The Entry Level Mathematics (ELM) Examination is designed to assess and measure the level of mathematics skills acquired through three years of rigorous college preparatory mathematics coursework (Algebra I and II, and Geometry) of students entering the California State University (CSU). The CSU ELM must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 50 or above on the ELM will be placed in college-level mathematics classes.

Exemptions from the ELM are granted only to those who present proof of one of the following:

- A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam.
- A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement.
  - The Conditional requirement may be met by completing an approved math course in the 12th grade and earning a grade of “C” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless exemption was met through one of the following:
    - New SAT: A score between 520-560 on the mathematics section of the new SAT Test*
    - Old SAT: A score between 490 - 540 on the mathematics section of the old SAT Reasoning Test
    - A score between 20 - 22 on the mathematics section of the ACT Test

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.

**Note:** For students who took the ELM before March 23, 2002, the cut score for the Subject Test in Mathematics (levels 1 or 2) remains the same.

Student ELM Scores

The score obtained on the ELM will determine the appropriate level math course for each student. Pre-baccalaureate course work may be required in preparation for the general education math course.

Note the old scores for ELM tests administered before March 23, 2002 are in parenthesis () . ELM scores and required course placement:

- ELM score of (550 or greater) 50 or greater students may enroll in MATH 110, MATH 115, MATH 120, MATH 192, MATH 211.
- ELM score of (480 to 540) 41 to 49, students must enroll in MATH 90.
- ELM score of (350 to 470) 30 to 40, students must enroll in MATH 80.
- ELM score of (330 to 340) 25 to 29, students have two options available:
  a. Enroll in MATH 80 PLUS MATH 79 math lab adjunct;
  b. Enroll in MATH 75B.
- ELM score (280 to 320) 19 to 29, students must enroll in MATH 75B.
- ELM score (below 270) 18 and below, students must enroll in MATH 75A.

COYOTE FIRST STEP

Participation in Coyote First Step (a part of the Early Start Program) may advance your mathematics level course from the original ELM score math course placement.

ALL PREREQUISITE MATH COURSES (MATH 75A, MATH 75B, MATH 75C, MATH 80, MATH 90) MUST BE COMPLETED WITHIN ONE YEAR. The year begins July 1 and ends June 30. If this requirement is not fulfilled within the one-year period, the student MUST attend a
community college to complete the prerequisite coursework and the General Education Math course. Contact Advising and Academic Services at (909) 537-5034 for more information. CSUSB requires students who need pre-baccalaureate level coursework to begin that work in the summer prior to the start of the regular academic school year through participation in the Early Start Program.

The EPT and ELM must be taken at the first opportunity after admission or as soon as possible thereafter and before registering for classes. The Office of Admissions and Student Recruitment will notify all admitted students of their EPT and ELM testing requirements and links to registration information for these exams. For complete information about the EPT and ELM exams, please visit CSU Placement Test website (http://www.ets.org/csu).

Assistance in understanding EPT and ELM test scores and requirements is available at Advising and Academic Services (University Hall, Room 380, (909) 537-5035) or the campus Testing Office (University Hall, Room 387, (909) 537-5045).

University Residence Requirement for Graduation
A minimum of 45 quarter units must be completed at this university. At least 36 of these units must be upper-division, 18 in the major, and 12 in general education. Extension credit, credit by examination or credit by evaluation may not be used to fulfill the minimum residency requirement.

Second Bachelor's Degree Requirements
A student who holds a bachelor's degree from California State University, San Bernardino or another accredited institution and who applies for a second degree must have satisfactorily completed each of the following in order to receive a second bachelor's degree in a different major:

1. General education requirements as stated in the appropriate catalog;
2. Upper-division writing requirement completed with a grade of "B" (3.0) or better;
3. Requirements of the major involved;
4. In addition to whatever work was presented for the first bachelor's degree, a minimum of 45 quarter units of residence work of which a. 18 units must be in the second major,
   b. 12 units must be in general education (international students only),
   c. 36 units must be at the upper-division level;
5. Maintain a 2.5 grade point average in all work attempted;
6. Approval of the faculty of the university.

It is not necessary to complete a second bachelor's degree in order to graduate with a dual major. Students seeking a second bachelor's degree will be subject to the registration policies in effect for unclassified postbaccalaureates. See Fees (p. 89) for further information about fees for a second major.

Multiple Majors/Concentration
A student will normally meet graduation requirements for a degree in one of the major curricula. A student may be granted a bachelor's degree with two or more major/concentrations if the complete requirements of all curricula are satisfied at the same time. Students graduating with one or more degrees will be issued separate diplomas. The fact that the requirements of multiple concentrations with the same degree have been completed will be noted on the transcript. Graduation check/diploma fees will be required for each separate degree.

University Honors

University Honors Office
University Hall, Room 362
(909) 537-7472

The University Honors Program at California State University, San Bernardino offers specialized courses and other enrichment opportunities for highly motivated students who seek an intellectual challenge. Most honors courses fulfill the general education requirements which all students at the university must meet; however, the curriculum is designed to add depth and breadth to the undergraduate course of study. Honors students are encouraged to take an active role in their own learning process, to think about problems they will face in creating the future, and to explore their roles in addressing these problems. Integration of subject matter across the curriculum is a primary goal of the program. Students will be encouraged to develop thinking skills and to use these skills in analyzing and evaluating problems of contemporary society. Honors students will have:

• Special academic advising;
• Priority registration;
• The opportunity to participate in honors activities such as lectures, concerts and art exhibits;
• Honors courses in basic skills such as expository writing, oral communication, critical thinking, and philosophy;
• Honors seminars which promote interaction among students and faculty;
• Honors courses in specific academic disciplines and interdisciplinary areas.

Admission to the Program
Incoming freshmen, sophomores, juniors and transfer students who have shown scholastic ability, intellectual promise, and creativity are encouraged to apply for the University Honors Program. Incoming freshmen should have SAT scores of 1100 and/or ACT scores of 26 and above, a grade point average of at least 3.5, and be in the upper tenth of their graduating class. Sophomores, juniors and transfer students who have remained consistently on the Dean’s List and/or have maintained a 3.5 overall grade point average in previous course work may apply to the program. In addition, any faculty member identifying a student as one who has the potential to profit from the challenge of the program may sponsor a student into the program, with the approval of the Honors Committee.

University Honors Program

Requirements of the Program
To remain in good standing in the Honors Program, students are expected to maintain a grade point average of 3.3 ("B+") overall.

Requirements for students who enter the Honors Program as freshmen (38)

The general education program at California State University, San Bernardino are designed to assure that all graduates of the university, whatever their major, have acquired certain essential skills and a broad range of knowledge appropriate to educated persons in our society.

Lower-division courses are intended to foster an ability to think clearly and logically, to find and critically examine information, and to communicate, at an appropriate level, orally and in writing; to acquaint students with the physical universe and its life forms and to impart an understanding of scientific methodology and of mathematical concepts and quantitative reasoning; to cultivate-through the study of philosophy, literature, languages, and the arts-intellect, imagination, sensibility and sensitivity; and to deal with human social, political and economic institutions and their historical background, with human behavior and the principles of social interaction. Upper-division courses include a further requirement in writing as well as integrative capstone courses designed to provide students with an understanding of the interrelationships among disciplines and their applications to contemporary environments. Multicultural and gender issues are given special attention in these courses.

The purpose of the general education program is not, primarily, to provide students with a number of possible avenues for specialization. Rather it is intended to ensure that all students will have a firm grasp of the basic skills of critical thinking, numerical literacy, and oral and written communication; understand the issues on which they will have to make decisions; and know something about themselves and the world in which they live.

The general education program requires a minimum of 78 quarter units. An additional four units may be required to satisfy the Upper-division Writing Requirement. Also, students who do not complete the Multicultural/Gender Requirement with one of the listed capstone courses (GE-G1) must take one of the courses listed in area GE-G2 for an additional four units.

No substitutions in the general education program are possible without prior approval of a petition submitted to the Office of Advising and Academic Services, UH-380.

Some majors require specific GE courses. Students should consult the catalog for their major’s requirements or contact the department.

Note: Courses in Category A should be completed before a student reaches upper-division standing. For upper-division transfer students, this category should be completed within the first 32 units taken at California State University, San Bernardino.

### Requirements for General Education Program

#### A. Basic Skills Category (12)

1. **Written Communication**
   - Four units chosen from:
     - ENG 104A: Stretch Composition III
     - ENG 104B: Stretch Composition III for Multilingual Students
     - ENG 106A: Accelerated Stretch Composition II
     - ENG 106B: Accelerated Stretch Composition II for Multilingual Students
     - ENG 107: Advanced First-Year Composition

2. **Oral Communication**
   - Four units chosen from:
     - COMM 120: Oral Communication
     - HON 104C: Language and Meaning: Oral Communication

3. **Mathematics**
   - One course listed in the mathematics section of the natural sciences breadth area (category B1)

4. **Critical Thinking**
   - Four units chosen from the following:
     - COMM 180: Critical Thinking Through Argumentation
     - HON 104A: Language and Meaning: Critical Thinking
     - MATH 180: Critical Thinking Through Applications of Mathematical Logic
     - PHIL 105: Critical Thinking Through Argument Analysis
     - PHIL 200: Critical Thinking Through Symbolic Logic
     - PSYC 105: Critical Thinking Through Problems Analysis
     - SOC 180: Critical Thinking about Social Problems

#### B. Natural Sciences Breadth Area (20)

1. **Mathematics**
   - Four units chosen from:
### C. Humanities Breadth Area (20)

#### 1. Arts

4. Philosophy

Four units chosen from:

- HON 104B Language and Meaning: Introduction to Philosophy
- PHIL 190 Introduction to Philosophical Issues
- PHIL 191 Introduction to Ethics
- PHIL 192 Introduction to Philosophy of Religion
- PHIL 193 Introduction to Eastern Philosophy
- PHIL 194 Introduction to Knowledge and Reality

5. Integrative Capstone in the Humanities

Four units chosen from:

- HUM 319 Myth, Metaphor and Symbol
- HUM 325 Perspectives on Gender (also counts in category G1)
- HUM 328 Asian Cultural Traditions (also counts in category G1)
- HUM 330 Arts and Ideas
- HUM 335 The Origin and Contemporary Role of Latino Culture (also counts in category G1)
- HUM 340 Interpretation and Values
- HUM 344 Ideas in American Culture
- HUM 350 The Cultures of American Childhood (also counts in category G1)
- HUM 370 African Heritage in the Arts (also counts in category G1)
- HUM 375 The World of Islam (also counts in category G1)
- HUM 380 Comparative Studies in the Arts: East and West (also counts in category G1)
- HUM 385 A Cultural History of Fashion

Total Units 20

* The following rules apply to challenging a course for credit toward this category:
  1. Only courses at the 103-level or higher may be challenged;
  2. Students wishing to challenge a language not offered at this university must present evidence of an official ACTFL Oral Proficiency Interview (OPI) where they must achieve a level of Intermediate (ACTFL Stage 2) or above. The student must pay all necessary fees and make all necessary arrangements for the taking of the test and for the official reporting of the results to the Department of World Languages and Literatures;
  3. Students whose language of instruction in secondary school was not English may satisfy this category by submitting official academic transcripts that show completion of secondary school in a country in which the language with which they wish to meet the foreign language requirement was the medium of instruction;
  4. Students who satisfy the Foreign Language/Literature in Translation requirement through 2 or 3 above will not receive academic credit and must take four additional units from the Humanities Breadth Area (Category C) to meet the total number of General Education units required for graduation.

** Open only to students accepted into the University Honors Program.

*** Note: Students may receive credit for only one of the following courses: HUM 325, NSCI 325, SSCI 325

D. Social and Behavioral Sciences Breadth Area (20)

1. American History and Civilization

Four units chosen from:

- HIST 146 American Civilization
- HIST 200 United States History to 1877
- HIST 201 United States History, 1877 to the Present

2. American Institutions

Four units chosen from:

- PSCI 203 American Government

3. World Cultures

Four units chosen from:

- ANTH 140 World Civilizations I, the Rise of Civilization
- HIST 140 World Civilizations I, the Rise of Civilization
- HIST 142 World Civilizations II, the Civilizations of the East and West
- HIST 144 World Civilizations III
- SSCI 165 Regions and Peoples of the World

4. Discipline Perspectives

Four units chosen from:

- ANTH 100 Introduction to Anthropology: Human Evolution
- ANTH 102 Introduction to Anthropology: Culture and Society
- ECON 104 Economics of Social Issues
- ES 100 Ethnicity and Race in America
- GEOG 100 Introduction to Human Geography
- GSS 100 Introduction to Women's Studies
- GSS 101 Introduction to Masculinity Studies
- GSS 103 Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
- PSYC 100 Introduction to Psychology
- SOC 100 The Study of Society

5. Integrative Capstone in the Social and Behavioral Sciences

Four units chosen from:

- SSCI 300 Nonwestern World
- SSCI 304 Contemporary Latin America
- SSCI 315 Cultural Adaptation: The Quest for Survival
- SSCI 316 Race and Racism (also counts in category G1)
SSCI 320 Understanding Capitalism
SSCI 321 Urbanization and the Urban Environment
SSCI 325 Perspectives on Gender (also counts in category G1)**
SSCI 345 Religious Expression in America
SSCI 350 Roots of Modern Racism in America (also counts in category G1)

Total Units 20

** Note: Students may receive credit for only one of the following courses: HUM 325, NSCI 325, SSCI 325

E. Lifelong Understanding Category (6)

1. The Whole Person - Physical and Physiological Issues
KINE 205 Foundations for Lifetime Fitness and Wellness 2

2. The Whole Person - Social and Psychological Issues
Two units chosen from:
FIN 101 Financial Choices in Life
PHIL 101 Moral Choices in Life
PSYC 115 Personal and Social Adjustment
SOC 110 Choices in the Life Course

3. Physical Education
Two units chosen from:
KINE 101A-S Individual and Dual Activities
KINE 114A-F Physical Fitness and Conditioning Activities
KINE 120A-L Somatic and Martial Arts Activities
KINE 121A-K Team Activities
KINE 137A-L Aquatic Activities
KINE 147 A Fitness Odyssey
KINE 149 Independent Activity Project
KINE 150A-K Dance Activities

Note: All students are required to complete two units of physical education in this category. Ten additional units of physical education activity courses (numbered 150 and below) for a total of 12 units maximum may be applied toward graduation.

Total Units 6

F. Upper-division Writing Requirement (0-4)

This requirement can be met by completing one of the following two options:
1. Successfully completing one of the following upper-division expository writing courses with a grade of "C" (2.0) or better 4
   EDUC 306 Expository Writing for Education
   ENG 306 Expository Writing for English
   HON 306 Expository Writing for Honors *
   HUM 306 Expository Writing for the Humanities
   MGMT 306 Expository Writing for Administration
   NSCI 306 Expository Writing for the Natural Sciences
   SSCI 306 Expository Writing for the Social Sciences
2. Passing the Writing Requirement Exemption Exam (WREE). 0

No unit credit is awarded for passing the examination. It may be necessary to take additional units to meet minimum residency and graduation unit requirements.

Total Units 0-4

* Open only to students accepted into the University Honors Program.

G. Multicultural/Gender Requirement Category (0-4)

All students must take one upper-division course designated as meeting this requirement. The multicultural/gender requirement can be met by completing one of the following two options:
1. Integrative capstone course in one of the three breadth areas (categories B5, C5 or D5)
   HUM 325 Perspectives on Gender
   HUM 328 Asian Cultural Traditions
   HUM 335 The Origin and Contemporary Role of Latino Culture
   HUM 350 The Cultures of American Childhood
   HUM 370 African Heritage in the Arts
   HUM 375 The World of Islam
   HUM 380 Comparative Studies in the Arts: East and West
   NSCI 325 Perspectives on Gender
   SSCI 316 Race and Racism
   SSCI 325 Perspectives on Gender
   SSCI 350 Roots of Modern Racism in America

2. One upper-division course from the following:
   ANTH 325 Human Biological Variance and the Concept of Race
   ANTH 333 Sex and Gender in Cross-Cultural Perspective
   CJUS 451 Women and Crime
   COMM 304 Intercultural Communication
   COMM 401 Gender, Race and Media
   ECON 352 Political Economy of Poverty and Discrimination
   ENG 314 American Indian Literature
   HUM 460 Cultural Studies
   MUS 308 Women in Music
   MUS 309 Jazz History in America and African-American Culture
   MUS 350 Music of World Cultures
   PA 305 Organizations in Multicultural and Diverse Societies
   PHIL 364 Philosophy of Race and Ethnicity
   PHIL 367 Gender and Philosophy
   TA 462 African-American Theatre and Drama
   TA 463 Asian Theatre

Upper-Division Writing Requirement

All undergraduate students subject to degree requirements of the 1980-81 or subsequent University Bulletins must complete an upper-division writing competency requirement as a condition of graduation through either of two means:

1. Completion with a grade of "C" (2.0) or better of one of the following courses:
EDUC 306  Expository Writing for Education  4
ENG 306  Expository Writing for English  4
HON 306  Expository Writing for Honors (for students in the Honors Program)  4
HUM 306  Expository Writing for the Humanities  4
MGMT 306  Expository Writing for Administration  4
NSCI 306  Expository Writing for the Natural Sciences  4
SSCI 306  Expository Writing for the Social Sciences  4

Prerequisites for 306 courses are: satisfaction of the written communication requirement (A1) and a minimum of 90 quarter (60 semester) units of college credits. (Note: these 306 courses were previously numbered 495.)

2. Satisfactory completion of the Writing Requirement Exemption Examination. No credit is awarded for passing the examination. It may be necessary to take additional units to meet minimum residency and graduation unit requirements.

Students normally shall complete the upper-division writing requirement by the end of the junior year. Further information about the examination (for example, how much it costs, when it is offered, what it covers) is available from the Testing Office, University Hall, Room 368, (909) 537-5045. Contact the Office of the Associate Vice President of Undergraduate Studies, University Hall, Room 368, (909) 537-5032 for questions about the upper-division writing requirement itself.

History, Constitution, Government Requirement

Each student must demonstrate competence in understanding the Constitution of the United States; American history, institutions and ideals; and the principles of state and local government as established in California.

The requirement in the U.S. Constitution may be met by completing one of the following (or both HIST 200 and HIST 201, if taken at CSUSB):

HIST 146  American Civilization  4
HIST 200  United States History to 1877 (and)  4
HIST 201  United States History, 1877 to the Present  4
HIST 540  Constitutional History of the United States  4
PSCI 203  American Government  4
PSCI 410  American Constitutional Law  4
PSCI 411  The Bill of Rights  4

The requirement in U.S. history may be met by completing one of the following:

HIST 146  American Civilization  4
HIST 200  United States History to 1877  4
HIST 201  United States History, 1877 to the Present  4
HIST 540  Constitutional History of the United States  4
PSCI 314  American Political Thought  4

The requirement in state and local government as established in California may be met by completing one of the following:

HIST 270  California History  4
HIST 370  History of California  4
PSCI 203  American Government  4

PSCI 330  State and Local Politics  4
PSCI 332  California Government  2

Note: General Education credit is only granted for the following: HIST 146, HIST 200, HIST 201 and PSCI 203.

A student can meet the entire U.S. Constitution, U.S. history, and California state and local government requirement, while fulfilling general education requirements, by taking PSCI 203 and one of the following: HIST 146 or HIST 200 or HIST 201. The opportunity to meet the requirements by passing an optional examination, which may be repeated once (not in the same quarter), is given to students. However, if this requirement is met by examination, students must still complete 16 lower-division units in the Social and Behavioral Sciences breadth area (category D). Information may be obtained from either the Office of the Registrar or the College of Social and Behavioral Sciences Office. The examinations are administered through the Testing Office.

Undergraduate Degrees

College of Arts and Letters

• Bachelor of Arts in American Studies (not offered in the 2017-18 Academic Year)

Department of Art

• Bachelor of Arts in Art - Plan I (Visual Studies) (p. 141)
• Bachelor of Arts in Art - Plan II (Studio Art) (p. 143)
• Bachelor of Arts in Art - Plan III (Art History) (p. 144)
• Bachelor of Arts in Art - Plan IV (Graphic Design) (p. 145)
• Bachelor of Arts in Art - Plan V (Graphic Design and Marketing) (p. 146)

Department of Communication Studies

• Bachelor of Arts in Communication (p. 154)

Department of English

• Bachelor of Arts in English (p. 166)

Department of Music

• Bachelor of Arts in Music (p. 177)
• Bachelor of Music in Performance (p. 178)

Department of Philosophy

• Bachelor of Arts in Philosophy (p. 183)

Department of Theatre Arts

• Bachelor of Arts in Theatre Arts (p. 188)

Department of World Languages and Literatures

• Bachelor of Arts in Arabic Language, Literature, and Culture (p. 197)
• Bachelor of Arts in French (p. 198)
• Bachelor of Arts in Spanish (p. 199)

Liberal Studies Office

• Bachelor of Arts in Liberal Studies - Arts and Letters Track (Non-credential) (p. 211)
• Bachelor of Arts in Liberal Studies - General Track (Pre-Credential) (p. 212)
• Bachelor of Arts in Liberal Studies - Integrated Track (B.A. and Multiple Subject Credential) (p. 216)
• Bachelor of Arts in Liberal Studies - Spanish Studies Track (p. 219)

College of Business and Public Administration

• B.A. in Administration Accounting Concentration (p. 227)
• B.A. in Administration Business Analytics Concentration (p. 227)
• B.A. in Administration Entrepreneurship Concentration (p. 228)
• B.A. in Administration Finance Concentration (p. 229)
• B.A. in Administration Financial Planning Concentration (p. 230)
• B.A. in Administration Hospitality Management Concentration (p. 230)
• B.A. in Administration Human Resource Management Concentration (p. 231)
• B.A. in Administration Information Systems and Technology Concentration (p. 232)
• B.A. in Administration International Business Concentration (p. 233)
• B.A. in Administration Management Concentration (p. 234)
• B.A. in Administration Marketing Concentration (p. 235)
• B.A. in Administration Public Administration Concentration (p. 236)
• B.A. in Administration Real Estate Concentration (p. 236)
• B.A. in Administration Sports and Entertainment Marketing (p. 237)
• B.A. in Administration Supply Chain and Transportation Management Concentration (p. 238)

Department of Information and Decision Sciences

• B.S. in Information Systems and Technology (p. 254)

College of Education

Department of Educational Leadership and Technology

• Bachelor of Arts in Career and Technical Studies (p. 269)
• Bachelor of Science in Career and Technical Studies (p. 268)

College of Natural Sciences

Department of Biology

• Bachelor of Arts in Biology (p. 340)
• Bachelor of Science in Bioinformatics (p. 341)
• Bachelor of Science in Biology (p. 342)
• Bachelor of Science in Biology - Ecology and Evolution Option (p. 342)
• Bachelor of Science in Biology and Doctor of Osteopathic Medicine Articulation (p. 343)

Department of Chemistry and Biochemistry

• Bachelor of Arts in Chemistry - Biochemistry Option (p. 349)
• Bachelor of Arts in Chemistry - Chemistry Option (p. 350)
• Bachelor of Science in Bioinformatics (p. 341)
• Bachelor of Science in Chemistry - ACS Certified Option (p. 350)
• Bachelor of Science in Chemistry - Biochemistry Option (p. 351)

Department of Geological Sciences

• Bachelor of Arts in Geology (p. 355)
• Bachelor of Science in Geology (p. 356)

Department of Health Science and Human Ecology

• Bachelor of Science in Health Science (p. 359)
• Bachelor of Science in Nutrition and Food Sciences (p. 361)

Department of Kinesiology

• Bachelor of Science in Kinesiology - Exercise Science (p. 367)
• Bachelor of Science in Kinesiology - Pedagogy (p. 367)
• Bachelor of Science in Kinesiology - Allied Health Professions (p. 366)

Department of Mathematics

• Bachelor of Arts in Mathematics (p. 372)
• Bachelor of Arts in Mathematics - Teaching Track (p. 373)
• Bachelor of Science in Mathematics (p. 373)

Department of Nursing

• Bachelor of Science in Nursing (p. 382)
• Bachelor of Science in Nursing - RN to BSN Bridge Program (p. 383)

Department of Physics

• Bachelor of Arts in Physics (p. 387)
• Bachelor of Science in Physics (p. 388)
• Bachelor of Science in Physics - Applied Physics (p. 388)

School of Computer Science and Engineering

• Bachelor of Arts in Computer Systems (p. 391)
• Bachelor of Science in Bioinformatics (p. 341)
• Bachelor of Science in Computer Engineering (p. 392)
• Bachelor of Science in Computer Science (p. 393)

College of Social and Behavioral Sciences

• Bachelor of Arts in Social Sciences - Teaching Track (p. 403)
• Bachelor of Arts in Social Sciences - Multidisciplinary Track (p. 399)

Department of Anthropology

• Bachelor of Arts in Anthropology (p. 407)

Department of Criminal Justice

• Bachelor of Arts in Criminal Justice (p. 413)
• Bachelor of Arts in Criminal Justice - Crime Analysis Option (p. 414)

Department of Economics

• Bachelor of Arts in Economics (p. 418)
• Bachelor of Arts in Economics - Applied Economics (p. 419)
• Bachelor of Arts in Economics - Mathematical Economics (p. 419)
• Bachelor of Arts in Economics - Political Economy (p. 420)
Department of Geography and Environmental Studies
- Bachelor of Arts in Environmental Studies (p. 423)
- Bachelor of Arts in Geography - Geography Option (p. 425)
- Bachelor of Arts in Geography - Global Studies Option (p. 425)

Department of History
- Bachelor of Arts in History (p. 429)

Department of Political Science
- Bachelor of Arts in Political Science (p. 435)

Department of Psychology
- Bachelor of Arts in Human Development - Child Development Track (p. 439)
- Bachelor of Arts in Human Development - Lifespan Track (p. 440)
- Bachelor of Arts in Psychology (p. 441)
- Bachelor of Arts in Psychology - Industrial and Organizational Psychology Concentration, BA (p. 442)
- Bachelor of Arts in Psychology - Biological Psychology (p. 443)

Department of Social Work
- Bachelor of Arts in Social Work (p. 468)

Interdisciplinary Studies
- Bachelor of Arts with Special Major (p. 472)

Minors

The minor is a pattern of courses similar to the major, but less comprehensive. The number of units required for a minor varies with each department. Requirements are listed in each department’s section of the catalog, refer to the page numbers given. Minors can only be granted for the same term in which the student graduates with an undergraduate degree. Minors will not be automatically dropped if the requirements have not been fulfilled by the term for which the student’s graduation is posted. A minor is posted to the official transcript, but does not appear on the diploma.

All minors require a 2.0 grade point average. A minimum of 12 units of the coursework required for the minor must be completed through regular enrollment at CSUSB. Some minors require a higher minimum, check with the department for requirements.

A minor must be declared on the Minor Request Form (http://registrar.csusb.edu/misc/documents/MinorOct2014.pdf), available in the Office of the Registrar. If the requested minor is in the same department as the major, the department chair’s approval will be required on the form.

Accounting Minor (p. 245)
- Department of Accounting and Finance, JB-459, (909) 537-5704.

Anthropology Minor (p. 411)
Department of Anthropology, SB-327J, (909) 537-5502.

Aerospace Studies Minor (p. 463)
Department of Aerospace Studies, FO-144, (909) 537-5440.

Applied Physics Minor (p. 388)
Department of Physics, PS-119, (909) 537-5397.

Arabic Minor (p. 208)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Art History Minor (p. 150)
Department of Art, VA-105, (909) 537-5802.

Asian Studies Minor (p. 160)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Biology Minor (p. 346)
Department of Biology, BI-329, (909) 537-5305.

Business Administration Minor (p. 245)
College of Business and Public Administration, JB-278, (909) 537-5700.

Business Information Mapping Minor (p. 245)
Department of Information Decision Sciences, JB-460, (909) 537-5723.

Career and Technical Education Minor (p. 280)
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Chemistry Minor (p. 354)
Department of Chemistry and Biochemistry, CS-204, (909) 537-5318.

Chicano(a)/Latino(a) Studies, Ethnic Studies Minor (p. 465)
College of Social and Behavioral Sciences, SB-207, (909) 537-7500.

Commercial Music Minor (p. 181)
Department of Music, PA-111, (909) 537-5859.

Communication Minor (p. 161)
Department of Communication Studies, UH-018, (909) 537-5815.

Computer Science Minor (p. 395)
School of Computer Science and Engineering, JB-307, (909) 537-5326.

Criminal Justice Minor (p. 417)
Department of Criminal Justice, SB-209, (909) 537-5506.

Economics Minor (p. 421)
Department of Economics, SB-327D, (909) 537-5511.
Education Minor (p. 326)
Department of Teacher Education and Foundations, CE-261, (909) 537-7405.

English Minor (p. 175)
Department of English, UH-334, (909) 537-5824.

Entrepreneurship Minor (p. 246)
Department of Management, JB-461, (909) 537-5731.

Environmental Studies Minor (p. 426)
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

Ethnic Studies Minor (p. 464)
College of Social and Behavioral Sciences, SB-207, (909) 537-7500.

Film Studies Minor (p. 162)
Department of Communication Studies, UH-018, (909) 537-5815.

Finance Minor (p. 246)
Department of Accounting and Finance, JB-459, (909) 537-5704.

French Minor (p. 209)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Gender and Sexuality Studies Minor (p. 326)
Department of Teacher Education and Foundations, CE-261, (909) 537-7405.

Geography Minor (p. 426)
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

Geography - Global Studies Minor (p. 427)
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

Geology Minor (p. 357)
Department of Geological Sciences, PS-219 (F), BI-113A (WS); (909) 537-5336.

German Minor (not offered in the 2017-2018 Academic Year)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Graphic Design-Print Minor (p. 150)
Department of Art, VA-105, (909) 537-5802.

Graphic Design-Web Minor (p. 150)
Department of Art, VA-105, (909) 537-5802.

History Minor (p. 432)
Department of History, SB-327F, (909) 537-5524.

Hospitality Management Minor (p. 246)
Department of Marketing, JB-458, (909) 537-5759

Human Resources Management Minor (p. 246)
Department of Management, JB-461, (909) 537-5731.

Information Systems and Technology Minor (p. 247)
Department of Information Decision Sciences, JB-460, (909) 537-5723.

Intercultural Communication Minor (p. 162)
Department of Communication Studies, UH-018, (909) 537-5815.

International Business Minor (p. 247)
Department of Management, JB-461, (909) 537-5731.

Islamic and Middle Eastern Studies Minor (p. 465)
Department of History, SB-327F, (909) 537-5524.

Japanese Minor (p. 210)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Jazz Studies Minor (p. 181)
Department of Music, PA-111, (909) 537-5859.

Kinesiology Minor (p. 370)
Department of Kinesiology, HP-120, (909) 537-5349.

Latin American Studies Minor (p. 222)
College of Arts and Letters, UH-201.44, (909) 537-5858.

Law and Philosophy Minor (p. 184)
Department of Philosophy, UH-339, (909) 537-5869.

Management Minor (p. 247)
Department of Management, JB-461, (909) 537-5731.

Marketing Minor (p. 247)
Department of Marketing, JB-458, (909) 537-5749.

Mathematics Minor (p. 378)
Department of Mathematics, JB-370, (909) 537-5361.

Music Minor (p. 182)
Department of Music, PA-111, (909) 537-5859.

Music Technology Minor (p. 182)
Department of Music, PA-111, (909) 537-5859.
Certificates

Philosophical Logic Minor (p. 185)
Department of Philosophy, UH-339, (909) 537-5869.

Philosophy Minor (p. 185)
Department of Philosophy, UH-339, (909) 537-5869.

Philosophy, Policy, and Economics Minor (p. 186)
Department of Economics, SB-327D, (909) 537-5511.
Department of Philosophy, UH-339, (909) 537-5869.
Department of Political Science, SB-112, (909) 537-5535.

Physics Minor (p. 389)
Department of Physics, PS-119, (909) 537-5397.

Political Economy Minor (p. 421)
Department of Economics, SB-327D, (909) 537-5511.

Political Science Minor (p. 436)
Department of Political Science, SB-112, (909) 537-5535.

Pre-Law Minor (p. 436)
Department of Political Science, SB-112, (909) 537-5535.

Psychology Minor (p. 449)
Department of Psychology, SB-425, (909) 537-5570.

Public Administration Minor (p. 248)
Department of Public Administration, JB-456, (909) 537-5758.

Public Relations Minor (p. 162)
Department of Communication Studies, UH-018, (909) 537-5815.

Real Estate Minor (p. 248)
College of Business and Public Administration, JB-278, (909) 537-5700.

Recreation Minor (p. 370)
Department of Kinesiology, HP-120, (909) 537-5349.

Script Writing Minor (p. 162)
Department of Theatre Arts, PA-111, (909) 537-5876.

Sociology Minor (p. 454)
Department of Sociology, SB-327, (909) 537-5541.

Spanish Minor (p. 210)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Sports and Entertainment Marketing Minor (p. 248)
Department of Marketing, JB-458, (909) 537-5749.

Studio Art Minor (p. 150)
Department of Art, VA-105, (909) 537-5802.

Supply Chain Management Minor (p. 248)
Department of Information Decision Sciences, JB-460, (909) 537-5723.

Theatre Arts Minor (p. 191)
Department of Theatre Arts, PA-111, (909) 537-5876.

Certificates

The university offers a variety of programs leading to a certificate of competency in special areas. Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to impart specified professional/vocational/career competencies, or produce mastery of the content of a sub-field of an academic major (discipline), or provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Courses offered for the certificate may be the same ones used to satisfy major, minor, credential or general education requirements. In order to qualify for a certificate, undergraduate candidates must earn a grade point average of 2.0 (“C”) or better in applicable course work. Postbaccalaureate candidates must earn a grade point average of 2.5. Standards for individual programs may exceed this minimum. Candidates must also receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The certificate is awarded upon confirmation that the requirements for that program have been satisfied. The candidate is responsible for filing an application with the Office of the Registrar for granting of the certificate, no later than the last term of certificate-applicable study, and for notifying the coordinator of the certificate program of completion of required course work. The awarding of a certificate will be noted on the student’s transcript.

Further information regarding the certificates offered by the university can be found under the appropriate department.

Certificate Programs Offered

Accounting Certificate (p. 239)
Department of Accounting and Finance, JB-459, (909) 537-5704.

Applied Cultural Anthropology Certificate (p. 408)
Department of Anthropology, SB-327J, (909) 537-5502.

Arabic Certificate (p. 202)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Archaeology Certificate (p. 409)
Department of Anthropology, SB-327J, (909) 537-5502.
Asian Studies Certificate (p. 156)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Bilingual/Cross-Cultural Studies: Spanish/English Certificate (p. 203)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Biotechnology Certificate (p. 346)
Department of Biology, BI-329, (909) 537-5305.

Business Skills for the Artist Certificate (p. 146)
Department of Art, VA-105, (909) 537-5802.

California Indian Languages and Cultures Certificate (p. 204)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Career and Technical Education Certificate (p. 270)
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Coaching Certificate (p. 368)
Department of Kinesiology, HP-120, (909) 537-5349.

Communication Skills Certificate (p. 157)
Department of Communication Studies, UH-018, (909) 537-5815.

Computer Systems and Programming Certificate (p. 395)
School of Computer Science and Engineering, JB-307, (909) 537-5326.

Cyber Security Certificate (p. 239)
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

Cyber Security Professional Certificate (p. 240)
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

Education Certificate (p. 310)
Department of Teacher Education and foundations, CE-261, (909) 537-7405.

Fitness Management Certificate (p. 369)
Department of Kinesiology, HP-120, (909) 537-5349.

French/English Translation Certificate (p. 204)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Gender and Sexuality Studies Certificate (p. 310)
Department of Teacher Education and foundations, CE-261, (909) 537-7405.

Geographic Information Systems Certificate (p. 425)
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

German/English Translators Certificate (p. 202)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Gerontology Certificate (p. 364)
Department of Sociology, SB-327, (909) 537-5541.

Health Care Management Certificate (p. 364)
Department of Health Science and Human Ecology, PS-226, (909) 537-5339.

Healthcare Spanish, Certificate (p. 207)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Hospitality Management, Certificate (p. 240)
Department of Marketing, JB-458, (909) 537-5749.

Information Systems Management Certificate (p. 240)
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

International Relations Certificate (p. 436)
Department of Political Science, SB-112, (909) 537-5535/5534.

Introductory Actuarial Science Certificate (p. 379)
Department of Mathematics, JB-370, (909) 537-5361.

Introductory Mathematics Certificate (p. 379)
Department of Mathematics, JB-370, (909) 537-5361.

Islamic and Middle Eastern Studies Certificate (p. 405)
Department of History, SB-327F, (909) 537-5524.
Japanese Language and Culture Certificate (p. 205)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Museum Studies Certificate (p. 409)
Department of Anthropology, SB-327J, (909) 537-5502.

Native Nations/Indigenous People Certificate (p. 405)
College of Social and Behavioral Sciences, SB-207, (909) 537-7500

Puppetry Certificate (p. 190)
Department of Theatre Arts, PA-111, (909) 537-5876.

Recreation Leadership Certificate (p. 369)
Department of Kinesiology, HP-120, (909) 537-5349.

Real Estate Certificate (p. 241)
Department of Accounting and Finance, JB-459, (909) 537-5704

Social Media Entrepreneurship and Innovation (p. 157)
College of Extended Learning,

Social Services Certificate (p. 454)
Department of Sociology, SB-327, (909) 537-5541.

Spanish for Public Services Certificate (p. 206)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Supply Chain Management Certificate (p. 241)
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

Theatre for Youth Certificate (p. 190)
Department of Theatre Arts, PA-111, (909) 537-5876.

Urban Planning Certificate (not offered in the 2017-18 Academic Year)
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

Writing: Creative Writing Certificate (p. 168)
Department of English, UH-334, (909) 537-5824.

Writing: Professional Writing Certificate (p. 169)
Department of English, UH-334, (909) 537-5824.

The following certificates are restricted to postbaccalaureate/graduate students only

Conflict Management Certificate (p. 157)
Department of Communication Studies, UH-018, (909) 537-5815 or Department of Management, JB-461, 537-5731.

Counseling Certificate (p. 283)
Department of Special Education, Rehabilitation and Counseling, CE-243, (909) 537-5606.

E-Learning Certificate (p. 270)

Rehabilitation Counseling Certificate (p. 284)
Department of Special Education, Rehabilitation and Counseling, CE-243, (909) 537-5606.

School Business Management Certificate (not offered in the 2017-18 Academic Year)
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Teaching English as a Second Language Certificate (p. 167)
Department of English, UH-334, (909) 537-5824.

Credentials

Basic Teaching Credential Programs

Accredited by the National Council for Accreditation of Teacher Education (NCATE)

- Adapted Physical Education Added Authorization (p. 309)
- Autism Spectrum Disorder Added Authorization in Special Education (not offered in the 2017-18 Academic Year)
• Designated Subjects Career and Technical Education (p. 271)
• Early Childhood Special Education Added Authorization(not offered in the 2017-18 Academic Year)
• Internship Education Specialist Credential: Early Childhood Special Education with EL Authorization (p. 290)
• Internship Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization (p. 287)
• Internship Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization (p. 288)
• Multiple Subject (p. 329)
• Multiple Subject Bilingual, Crosscultural, Language and Academic Development (BCLAD) (p. 327)
• Multiple Subject Credential and Multiple Subject Credential with Bilingual Crosscultural, Language and Academic Development Emphasis (BCLAD) (Intern Track) (p. 331)
• Preliminary Education Specialist Credential: Early Childhood Special Education with EL Authorization (p. 298)
• Preliminary Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization (p. 300)
• Preliminary Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization (p. 301)
• Single Subject - Student Teaching Track (p. 335)
• Single Subject - Intern Track (p. 333)

**Programs**

**Preparation for Professional Schools**

The plan of undergraduate study at the California State University, San Bernardino emphasizes a liberal education in preparing for professional or vocational specialization.

Some professions, such as law, stress that candidates for admission to professional schools can best prepare themselves during college by acquiring several fundamental skills. Others, for example, medicine and dentistry, emphasize certain subject matters. A student preparing for either kind of emphasis (skills or specific subjects) has opportunities to do so by selecting, in consultation with an appropriate preprofessional advisor, the kind of curriculum that most soundly meets the standards set by the profession he or she wishes to enter.

**Preprofessional Programs**

**Preprofessional Programs: Medicine, Veterinary Medicine, Dentistry, Pharmacy**

The majority of students entering medical and dental schools in the United States do so after having acquired a B.A. or B.S. degree at an undergraduate college. Possession of an undergraduate degree is especially worthwhile, since professional schools do not offer liberal arts subjects.

Any undergraduate major is appropriate for a preprofessional student as long as certain basic subject areas are included in the program. For specific requirements of professional schools, the student is urged to consult special sources such as "Medical School Admission Requirements" (a publication of the Association of American Medical Colleges) or a preprofessional advisor in the College of Natural Sciences.

In general, medical and dental schools recommend that the undergraduate degree program include: one year of general chemistry, one year of organic chemistry, one year of general biology, with additional course work in developmental biology and/or comparative anatomy and genetics, and one year of physics. Other courses, e.g., mathematics through calculus and physical chemistry, are often recommended as well.

Since preprofessional programs in dentistry place heavy emphasis on biology and chemistry, these are the two majors most often elected by preprofessional students. A preprofessional student majoring in biology should complete the biology core program, supported by courses in chemistry and physics, and should elect MATH 211 and BIOL 342. A preprofessional student majoring in chemistry should complete the chemistry core program, supported by courses in mathematics and physics, and should elect BIOL 342 and 440.

The science and mathematics components of preprofessional programs in veterinary medicine are quite similar to those for medicine.

Admission to a school of pharmacy can also be gained after two years of undergraduate work. Although entrance requirements vary somewhat, they generally include full-year introductory courses in biology, chemistry, mathematics and physics. A course in organic chemistry is sometimes required as well.

**Pre-engineering Program**

Most students earn engineering degrees by attending a university with an accredited program in engineering. Although there are many different engineering disciplines, the first two years of course work is quite similar for most of these fields.

The pre-engineering courses offered allow the student to complete the first two years of courses ranging from generic to engineering. Students may then transfer to an accredited engineering program of their choice.

The advantages to students who enter the pre-engineering program are many. Most engineering schools are very competitive and not all qualified students can be accepted as freshmen. However, it is much easier for a student to qualify as a transfer student. Students with math course deficiencies can enter the pre-engineering program and complete their course work at their own pace. Classes here have smaller enrollments than in large engineering schools and provide students with greater opportunities to interact with the faculty.

The physics faculty, working as pre-engineering advisors, help the student design a course of study specific to the engineering field of interest and to the program to which the student will transfer. For detailed course information, refer to the courses listed under the Department of Physics (p. 386).

**Preprofessional Program: Law**

Applicants for admission to most law schools are expected to have a B.A. or B.S. degree and to have taken the Law School Admission Test. There is no single "prelaw" major required since the successful study of law is more often related to the ability to grasp and solve difficult intellectual problems and to employ disciplined work habits, than it is to any narrow, specialized field of study. However, students headed for law school are well advised to take a small number of selected liberal arts courses in subjects relevant to the law. Accordingly, the College of Social and Behavioral Sciences offers a pre-law minor consisting of such courses. For further information concerning the prelaw minor, refer to the listing under the Department of Political Science (p. 433).

Several broad objectives of prelegal education are set forth by the Association of American Law Schools. These include the oral and written
command of language; an understanding and appreciation of social, political and economic values, institutions, problems and frames of reference; and an ability for creative, innovative, critical and analytical thinking.

For these reasons, every prelaw student should carefully choose, with the aid of appropriate advisors, courses which sharpen the skills and sensitivities previously listed. Since no one major is mandatory, the student should select one which emphasizes the areas mentioned above (administration, economics, English, history, philosophy, political science and sociology, to name a few). For additional information, the student should consult with the prelaw advisor and should be familiar with the Prelaw Handbook.

For additional information, a student should see the bulletins or catalogs of various law schools or the official Prelaw Handbook, current edition, prepared by the Law School Admission Test Council and the Association of American Law Schools. This handbook may be obtained at most college bookstores or ordered from Educational Testing Services, Princeton, N.J. 08540.

**ROTC**

Air Force Reserve Officer Training Corps (AFROTC) is a nationwide program that allows students to pursue commissions (become officers) in the United States Air Force (USAF) while simultaneously attending college. AFROTC consists of four years of Aerospace Studies classes (Foundations of the USAF, Evolution of USAF and Space Power, Air Force Leadership Studies, and National Security Affairs/Preparation for Active Duty), and a corresponding Leadership Laboratory for each year (where students apply leadership skills, demonstrate command and effective communication, develop physical fitness, and practice military customs and courtesies). College students enrolled in the AFROTC program (known as “cadets”) who successfully complete both AFROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty Air Force. Classes are offered at California State University, San Bernardino; however, UCR students may enroll using our cross-town agreement. For more information about Air Force ROTC at CSUSB (http://afrotc.csusb.edu) contact the Aerospace Studies Department, FO-144, (909) 537-5440. AFROTC course descriptions (p. 484) are listed in the Courses A-Z section of this bulletin. Program details are listed under the College of Social and Behavioral Sciences Programs (p. 398).

The Army ROTC is a two or four year program which leads to a commission in the U.S. Army and trains students for positions of responsibility in the active Army, Army Reserve, or National Guard. The university has the only ROTC program in San Bernardino and Riverside counties. Scholarships, simultaneous enrollment in the National Guard or Army Reserve, specialized summer training, and other challenging activities are some of the benefits of the program. Students may attend ROTC classes on this campus, and attend any of the other two- or four-year colleges in the area. For more information about Army ROTC at CSUSB (http://armyrotc.csusb.edu), contact the ROTC Office, FO-124 and 125, (909) 537-5533. Program details are listed under the College of Social and Behavioral Sciences Programs (p. 462).
Graduate Degrees and Programs

Office of Graduate Studies
Chaparral Hall, Room 123

Master of Arts

Interdisciplinary Studies

Postbaccalaureate students are those who already hold a bachelor’s degree and wish to continue their studies; they may be pursuing a certificate, credential, second bachelor’s, master’s, or doctorate degree. At CSUSB, postbaccalaureate students can choose from more than 40 master’s degree programs and concentrations, as well as a wide range of credential and certificate programs. CSUSB is also one of the few California State University campuses to offer a doctoral program in Educational Leadership. As the university grows, its nationally accredited graduate programs continue to gain recognition and garner awards. Most classes are offered at convenient hours for working students. Financial assistance, research and travel funds are available, with some special financial aid programs aimed at creating a more diverse university faculty.

The Office of Graduate Studies encourages graduate education and works to create programs of quality that respond to the needs of students and of the university’s service area. Additionally, the office administers the M.A. in Interdisciplinary Studies, houses the Office of Student Research (OSR), and is responsible for the following functions for all graduate programs:

- Waiver petitions for the Graduate Writing Requirement, the seven-year limit for course work, the 12-unit limit for classification, and leaves of absence
- Petitions by all unclassified postbaccalaureate students
- The CSUSB Student Research Conference (OSR)
- The Graduate Equity Fellowship Program
- The California Pre-Doctoral Program
- The Chancellor’s Doctoral Incentive Program
- Student Research and Travel Grants (OSR)

The university offers the following graduate programs:

- Accountancy, M.S.A.
- Applied Archaeology, M.A.
- Art, MA (not offered in the 2017-2018 Academic Year)
- Biology, M.S.
- Business Administration, M.B.A.
- Child Development, M.A.
- Communication Studies, M.A.
- Computer Science, M.S.
- Counseling and Guidance, M.S.
- Criminal Justice, M.A.
- Earth and Environmental Sciences, M.S.
- Education, M.A.
- Educational Administration, M.A.
- Educational Leadership, Ed.D.
- English Composition, M.A.
- Health Services Administration, M.S.
- Interdisciplinary Studies, M.A.
- Mathematics, M.A.
- Mathematics, M.A.T. (not offered in the 2017-2018 Academic Year)
- National Security Studies, M.A.
- Nursing, M.S.
- Psychological Science, M.A.
- Psychology, M.S.
- Public Administration, M.P.A.
- Public Health, M.P.H.
- Rehabilitation Counseling, M.A.
- Science, Technology, Engineering and Mathematics Education, M.S. (not offered in the 2017-2018 Academic Year)
- Social Sciences, M.A.
- Social Work, M.S.W.
- Spanish, M.A.
- Theatre Arts, M.A. (not offered in the 2017-2018 Academic Year)
- Creative Writing, M.F.A. (not offered in the 2017-2018 Academic Year)
- Studio Art and Design, M.F.A.

Graduate programs at the university are designed to serve a variety of needs. Some students pursue an advanced degree or a credential program in a professional area to enhance their career mobility; others, to expand their knowledge and understanding and to pursue research in a chosen discipline. The university provides for the part-time as well as the full-time student, by offering appropriate course work and research opportunities during the day, late afternoon and evening throughout the calendar year. Detailed requirements of each program are listed by department and/or degree in the Graduate Degrees section of this bulletin.

Graduate Degree and Program Requirements

Students pursuing a doctorate degree in the Educational Leadership program should contact the Office of Doctoral Studies at (909) 537-5651 for information on program requirements.

The following standards apply to all master’s degree approved graduate programs:

1. The program must include at least 45 quarter units of upper-division and graduate course work (i.e., courses numbered 300-699) taken while in post baccalaureate standing. At least 70% of this work must be in courses organized primarily for graduate students (courses numbered 500-699).

2. The program must include 70% or more quarter units of course work taken in residence on this campus. Previous work taken in summer session on this campus may be counted as residence credit. Credit by examination and credit for extension work are not considered as residence study.

3. Except for students with coursework from accredited graduate social work programs, the program may not include more than 30% total program units in extension and transfer credit from other colleges. California State University, San Bernardino will not consider for
transfer credit course work from an institution which will not accept that work in its own advanced degree program.

4. The program must follow the department curriculum in effect at the time the student is officially admitted (classified) in the major program or at the time the program is filed with the graduate coordinator. Recommendations for any substitutions to the program must be approved in writing by the program coordinator and attached to the program.

5. All courses taken to satisfy the requirements for the degree must be completed with a minimum grade point average of 3.0 (“B”) or better, except that a course in which no letter grade is assigned shall not be used in computing the grade point average.

6. The program must include only courses with grades of “C” (2.0) or better. (Grades of “C-” (1.7) or less cannot be used.)

7. The program may not include more than 12 quarter units of work taken in unclassified status or before classified status was attained.

8. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and the completion of all requirements for the degree. Some programs must be completed within a five-year period. (See specific program requirements.)

9. Courses numbered 100 to 299 and in the 1000 to 9999 series cannot be applied toward a master’s degree. Courses taken to satisfy quantitative or qualitative deficiencies cannot be applied toward a master’s degree.

10. A course taken at another college with a grade such as CR, S, or P cannot be accepted on a master’s degree study plan unless such a course with such a grade is accepted by that college or university toward a graduate degree.

11. Writing Requirement for Graduate Candidacy (WRGC) (FAM 841.97). The WRGC must be satisfied before a graduate student is classified or advanced to candidacy. The graduate program shall determine the manner by which a student satisfies the WRGC by requiring one of the following options:
   a. The student shall take an existing 306 course and attain a grade of B or better; or
   b. The student shall achieve an acceptable standardized test score, such as the Analytical Writing subtest of the Graduate Management Admissions Test (GMAT) or the Graduate Record Examination (GRE), or the CSUSB Writing Requirement Exemption Examination (WREE), as determined by the program; or
   c. The student shall complete a program-specific writing intensive course with a grade no lower than a B-; or
   d. The student shall submit a paper(s) that receive(s) a passing score as evaluated by faculty using the program’s rubric.

12. Graduation Requirement in Writing Proficiency. All students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to meet this graduation requirement may be obtained from each program office. Each program has identified what the student must do to satisfy this requirement.

**Advancement to Candidacy**

Students pursuing an advanced degree through the university should, before completing 20 quarter units toward the degree (36 quarter units for programs over 70 units), prepare and file an official document titled “an approved graduate program” with the department from which they plan to receive the degree. This program lists the specific requirements to be completed before the degree can be awarded. It must be approved by the student’s major advisor and the graduate coordinator of the student’s program. Once the program is accepted and approved, and the student has satisfied the WRGC or Graduate Entrance Writing Requirement (depending on the specifications of the program), the student is officially advanced to degree candidacy.

**Standards for Graduate Study**

In general, graduate study deals with more complex ideas and demands more sophisticated techniques, searching analysis and creative thinking than undergraduate study. Extensive research is required in both primary and secondary sources, and high quality writing is expected. The student is advised to consider these factors when deciding the amount of course work to be undertaken during any one quarter. Post baccalaureate students will be held to all prerequisites for all courses.

All students are required to maintain a 3.0 (“B”) grade-point average in all courses taken to satisfy the requirements for the degree, except that a course in which no letter grade is assigned shall not be used in computing the grade point average. Students should check with their program for program-specific requirements.

Basic teaching credentials, single or multiple subject, accept no grade lower than a “B-” in all work attempted with the exception of the designated subjects credential which requires a 2.5 grade point average in all work. Students should check with their program for program-specific requirements.

**Academic Probation.** Failure to maintain the appropriate grade point average will result in the student’s being placed on probation. Students on probation must rectify their grade point deficiencies by the end of the quarter of notification of probationary status, or they automatically will be disqualified. To apply for reinstatement to a graduate degree or credential program after disqualification, the student must petition the appropriate program graduate committee.

A student who has been disqualified from a master’s degree program may be admitted to another program only on the recommendation of the department to which the student has applied and with the approval of the Dean of Graduate Studies.

Nursing students seeking a second bachelor’s degree must maintain a 2.5 grade point average in all work attempted. Students in this category who are dismissed from the university for failure to maintain these standards must petition the Dean of Graduate Studies for readmission to the university.

**Administrative Academic Disqualification**

A graduate student may also be placed on probation or may be disqualified by appropriate campus authorities for unsatisfactory scholastic progress regardless of cumulative grade point average or progress in the program. Such action shall be limited to those arising from repeated withdrawal, failure to progress toward an educational objective...
and noncompliance with an academic requirement and shall be consistent with guidelines issued by the chancellor.

**Retroactive Withdrawal**

Requests for withdrawal from a course(s) following the close of the term (retroactive withdrawal) will be considered only for: accident or illness (physical or mental), serious personal or family problems, or military transfer. Documentation is required. In addition, extenuating circumstances must be shown to have prevented withdrawal in a more timely fashion. Partial withdrawal of grades during a term is not permissible for any reason. All courses must be withdrawn and will be noted with a “W” on the official transcript. Lack of awareness of the withdrawal procedures is not an extenuating circumstance.

Employment-related reasons are not acceptable.

Requests by graduate students, unclassified post baccalaureate and credential candidates must be made in writing to the Dean of Graduate Studies, CH-123.

**Full Time Academic Load**

Full time academic status for a post baccalaureate or graduate student is eight units of 500- or 600-level courses or 12 weighted units, following the unit loads used for veteran certification (see Enrollment Verification).

**Course Overloads:** To enroll in more than 16 units in any one quarter, a student must have approval of the graduate coordinator of his/her graduate program. Course Overload Permit Cards are available at the Office of the Registrar Information Center, UH-171 and from the department office. Additional units may be added once “Late Registration” begins, if classes remain open and the overload is approved. Students who must work to support themselves, who have time-consuming family responsibilities, who commute long distances, or who are in other difficult circumstances should, in conjunction with their advisors, weigh these factors and alter their course loads accordingly. Financial aid recipients should consult the Financial Aid Office for their definition of eligibility.

**Late Registration**

The dates of late registration each term will be announced in the Class Schedule. The Academic Calendar (p. 26) lists registration dates. Late registrants may find themselves handicapped in arranging their programs due to closed classes. A $25 late registration fee is required.

**Adding Classes**

During the Open Enrollment and Schedule Adjustment period (see Class Schedule for specific dates) students may add classes by following the Registration Instructions detailed in the Class Schedule. It is important to note that students who add a class or classes after the first scheduled class session may find themselves at a distinct disadvantage in terms of doing well in the class(es). Students should also be aware that they are responsible for any material they may have missed as a result of adding after the first day.

**Grade/Grievance/Complaint Procedures**

Student Affairs website (https://www.csusb.edu/advising/policies-procedures)

Information concerning academic or nonacademic matters may be obtained from the Office of Advising and Academic Services. Generally, a grade grievance must be initiated by the student within no more than 40 calendar days after the grade is recorded. The complete policy statement is available from the Assistant Vice President of Undergraduate Studies, AD-183.

Information concerning non-academic grievances and discrimination complaints against the university and its employees by a student may be obtained from the Office of the Vice President for Student Affairs, UH-231, the Women’s Resource Center, the Adult Re-Entry Center, the Cross-Cultural Center, Vice Presidents’ offices, and College Deans’ offices. A grievance or complaint must be filed within no more than 40 calendar days after the student learned or reasonably should have learned of the occurrence of the grievance/complaint event.

**Election of Graduation Requirements**

A student remaining in continuous attendance in regular sessions and continuing in the same graduate curriculum in the university may, for the purposes of meeting graduation requirements, elect to meet

1. those requirements in effect at the time the student is admitted into a formal graduate program and enters the curriculum, or
2. those requirements in effect at the time of graduation from the university.

Substitutions for discontinued courses may be authorized or required by the department or college graduate committee and by the Dean of Graduate Studies.

**Changing Master’s Degree Programs and Concentrations**

Each master's program and/or concentration may have its own professional, personal, scholastic, and other standards for graduate study, including qualifying examinations. All graduate students desiring to change (or add) a master’s, concentration or credential program must submit either a Graduate Change of Program form or a new application on CSU Apply. Please contact the Office of Graduate Studies, CH-123, for information regarding changing or adding a specific graduate program.

**Two Master’s Degrees**

Students who wish to secure two different master’s degrees may do so if the program allows it. At the discretion of the program, credits from one master’s degree may be applicable to a second master’s degree up to the maximum number of transfer units allowed within each program. In no case shall a student be awarded a given master’s degree more than once. Students interested in obtaining two master’s degrees should contact Graduate Studies, CH-123.

**Culminating Experience: Examination, Thesis, or Project**

**Comprehensive Examinations.** Each program that offers the comprehensive examination for the master’s degree shall implement and maintain in writing explicit guidelines that address both content and procedures relating to the examination. All comprehensive examinations must conform to the following requirement of Title 5, i.e., “A comprehensive examination is an assessment of the student’s ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. The results of the examination provide evidence of independent thinking, appropriate organization, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained in
Students must fulfill all department/division requirements for the written and/or oral comprehensive examinations. Such requirements include, but are not limited to, the date and time for the comprehensive examinations, length of testing, topics covered, and number of questions for the comprehensive examinations.

Students whose program requires a comprehensive examination must declare to their major department/division, at least one quarter in advance, their intent to take it, obtain department/division permission, and register for the appropriate comprehensive examination course in their major discipline. Students must consult with their program advisor regarding specific requirements for the comprehensive examination. Those who do not pass the comprehensive examination must fulfill any department, division, and/or college requirements for subsequent enrollments in these examinations.

**Continuous Enrollment (Comprehensive Exam).** Students who have completed all course work and are preparing for the comprehensive examination, must remain in continuous enrollment until their degree is granted. To maintain continuous enrollment, students must register each quarter for the 689 course (Continuous Enrollment for Graduate Candidacy Standing) in their major discipline.

**Thesis and Project Requirement.** Students who choose to write a thesis or project as their master's degree culminating experience should consult "A Guide to Graduate Studies: Policies, Procedures and Thesis and Project Format," available in the Graduate Studies Office and on the web at Graduate Studies website (http://gradstudies.csusb.edu). It provides information about the following: procedures, regulations, and responsibilities governing the master's thesis or project; general requirements for thesis/project preparation and acceptance; and format requirements for the thesis/project. In addition, students must obtain specific department/division requirements from their advisor.

**Continuous Enrollment (Thesis and Project).** Students who have completed all course work and are working on the thesis/project must register for the thesis or project course required in their major discipline for the master's degree. **IMPORTANT NOTE:** Students register ONLY ONE TIME for the thesis/project course. If the thesis/project is not completed in the quarter in which the student first registered for the thesis/project course, then the student will receive a grade of RP (Report in Progress) for the course for that quarter. The RP grade in the course remains until the thesis/project is completed and approved by the student's thesis/project advisor and the Dean of Graduate Studies, at which time the student's professor will submit a "Change of Grade" form, replacing the RP grade with a letter grade.

In addition, students who have completed all course work and are enrolled in a thesis/project course must also register every quarter for the 689 course (Continuous Enrollment for Graduate Candidacy Standing) in their major discipline until their degree is granted. Earned units are not degree-applicable nor will they qualify for financial aid. This is a variable unit course, see the fee schedule.

Once officially accepted and processed, master's theses and projects are made available to the public through CSUSB ScholarWorks.

**Writing Center**
College of Education Building, Room 311

The consultants in the CSUSB Writing Center work to serve CSUSB graduate students by offering assistance in learning how to construct writing projects such as thesis proposals, theses, or graduate projects; they work with writers to preserve the integrity of the writers' ideas and plans while simultaneously challenging students to interrogate and contextualize both their own ideas and the documentation supporting them. The CSUSB Writing Center serves graduate students, staff, and faculty from all disciplines at all stages of the composing process, helping writers develop confidence by offering a variety of strategies for interpreting assignments, discovering topics, expanding ideas, clarifying organization, incorporating counter-arguments, citing references, editing, and proofreading.

**Graduation Requirement Check**
Candidates for degrees to be awarded must request a graduation requirement check (http://rre.csusb.edu/evaluations/gradreqcheck.html) at the Office of the Registrar at least one quarter prior to the end of the term of their expected graduation. To avoid late fees, the Graduation Check should be filed by the established deadlines listed under the Academic Regulations and Standards section of this catalog. Graduate students may file the Grad Check by the deadline without being advanced to candidacy, but the Grad Check cannot be completed until the advancement is received in the Office of the Registrar.

Students not completing their degree in the term applied for will need to refile and pay for the later term. Access to registration for terms subsequent to the stated graduation term will not be granted until the graduation check is refiled.

**Commencement**
Special Events and Guest Services- Commencement Office
(909) 537-7360
Participation in commencement activities is voluntary.

For dates and deadlines please visit commencement.csusb.edu.

**Palm Desert Campus**
The Palm Desert Campus holds one commencement exercise in June. In order for all eligible students to obtain information, the deadline to file a graduation check and be included in the Commencement Program is the last working day in April. The non-refundable commencement fee can be paid online. Questions regarding this exercise should be directed to the Palm Desert Campus Administrative Office (760) 341-2883. Palm Desert Campus graduates have the option of also participating in the main campus exercises.

**Master's and Doctoral Students**
In order to participate in commencement, candidates completing a master's or doctoral degree must file a grad check AND meet the eligibility requirements specified by their program. For the specific requirements, candidates should consult their program coordinator or go to Graduate Studies website (http://gradstudies.csusb.edu).

**Credential Students**
Students completing a Multiple Subject, Single Subject, Education Specialist Basic credential, Pupil Personnel Services or Designated Specialist Basic credential, Pupil Personnel Services or Designated
Subjects credential are eligible to participate in a Credential Recognition Ceremony rather than commencement. The Credential Recognition Ceremony on the San Bernardino campus will be held in June. Specific information can be obtained from the College of Education, Student Services Office, CE-102, (909) 537-5609. The Credential Recognition Ceremony on the Palm Desert Campus will be held in May at PDC. Specific information can be obtained from the Palm Desert Campus College of Education Office at (760) 341-2883.

Change in Approved Graduate Program

If during graduate study a master's candidate wishes to change the approved program by adding or removing a course, this may be done under certain circumstances. A request for such a change must be initiated by the student and approved by the graduate coordinator.

Credit by Evaluation (Examination)

A graduate program, while building upon course work previously completed, should be used to acquire new knowledge and skills. Acquisition of units through credit by evaluation, on the other hand, relies inherently on old knowledge and skills. Therefore, prerequisite courses and other requirements outside of the formal program may be challenged, but units gained through credit by evaluation cannot be included within the formal program of study.

In cases where a graduate student may possess the necessary knowledge and skill and wishes to challenge a course within the formal program of study, a petition must be submitted sequentially to the instructor of the specific course, the department or school graduate committee, and the Dean of Graduate Studies. Contingent to approval of the petition by the Dean of Graduate Studies is the condition that an additional course be added to the formal program as elective credit to replace each course that is successfully challenged through credit by evaluation.

Students may not enroll in a course they plan to challenge but must register for credit by examination in the office of the college or department concerned before the first day of classes of the term in which the course is offered. Some presumptive evidence is required to indicate that the student has a reasonable chance of passing the examination. The student must complete the examination within the first two weeks of the term. Those students who are unsuccessful in challenging may add the course subject to the regulations for adding a class printed in the quarterly Class Schedule. A student who passes an examination is given the grade of CR for that course. No official record is made of failures in these examinations. A fee may be charged for these examinations, and they are available only to currently enrolled students.

Phi Kappa Phi

Academic Affairs Office, AD-101
(909) 537-5024 Phi Kappa Phi website (http://pkp.csusb.edu)

The university has an active chapter of the national honor society of Phi Kappa Phi, whose purpose is the recognition and encouragement of superior scholarship in all academic disciplines. Membership is by invitation issued to selected juniors, seniors and graduate students who have excelled in scholarship and who meet the chapter's requirements. Graduating seniors who are members of Phi Kappa Phi have an opportunity to apply for a Fellowship from the national office to be used towards the first year of graduate study.

Graduate Council

Elected faculty from each college, one graduate student, the Dean of Graduate Studies and the Faculty Senate Chair make up the Graduate Council, which is a Faculty Senate committee. This group discusses all issues of policy and practice related to graduate study at the university.

The Guide is updated as needed by the Office of Graduate Studies with information relevant for graduate students. It is available on the Graduate Studies website (http://gradstudies.csusb.edu).

Concurrent Enrollment

A graduate student enrolled at the university may enroll concurrently for additional courses at another institution only with advance written approval from the graduate program coordinator and the Dean of Graduate Studies. Ordinarily, permission will not be granted when the study load in the proposed combined program exceeds 16 quarter units.

Post Baccalaureate Credit for Senior Students

Senior students who need fewer than 16 quarter units to graduate may be permitted to enroll for post baccalaureate credit during the final quarter of their senior year. Post baccalaureate credit is used to signify courses taken after the baccalaureate degree, but does not necessarily mean graduate credit, i.e., credit applicable toward an advanced degree. Only 400- to 600-level courses will be considered. A petition for this purpose is available in the Office of the Registrar. Note: Some 500- and 600-level courses require prerequisites and are open only to students classified in a master's program.

Repeat of Course (Discount of Grade)

Classified and conditionally classified graduate students may be permitted to repeat one course at CSUSB that was taken for graduate credit (i.e. that is applied towards a master's degree) one time only by petition to and approval of the college or department graduate committee. The petition requesting this permission includes an automatic request to discount the first attempt. When approved, the original course grade on the student's permanent record will be discounted. Only the second grade earned shall apply to the student's cumulative post baccalaureate grade point average. The first attempt will show on the transcript with the repeat (discount) noted.

Classified and conditionally classified graduate students may be permitted to repeat a course taken as an undergraduate once with approval of the advisor and only to remove a deficiency. A subsequent repeat must be approved by the college or department graduate committee. In no case shall such credit be counted toward the units required for a master's degree. The second grade earned shall apply toward the student's cumulative post baccalaureate grade point average and shall not replace the grade in the undergraduate record. Subsequent repeats of course will be averaged.

Classified post baccalaureate students (for example, students officially admitted to teaching credential programs) may be permitted to repeat a course taken as an undergraduate only by petition to and approval of the appropriate college or department committee and the grade earned
shall not replace the grade in the undergraduate record. Courses taken for post baccalaureate credit may be repeated at CSUSB only by petition to and approval of the appropriate college or department committee. In both cases the second grade earned shall apply to the student’s cumulative post baccalaureate grade point average. Subsequent repeats of course will be averaged.

**Leave of Absence**

Degree and credential seeking students who plan to be absent from the university must file a leave of absence to preserve their current catalog rights (Title 5, Article 5, See. 40401). A petition, available through the Office of the Dean of Graduate Studies, CH-123, (909) 537-5058, must be filed and approved.

The leave of absence policy covers both involuntary and voluntary interruptions. In most instances, with an approved leave of absence, a student may be absent from the campus without losing their rights to specific degree requirements under an earlier catalog.

Petitions for leaves of absence should be filed in advance of the interruption in enrollment. Each leave commences with the first regular quarter of non-attendance. Medical and military leaves may be considered retroactively if supported by individual circumstances, but those leaves must be filed no later than census date of the first regular quarter of non-attendance. Personal and planned educational leaves cannot be retroactive since they constitute an agreement or “contract” which must be set in advance. The maximum duration for any leave is two calendar years.

Leaves of absence will not be approved for students subject to disqualification or dismissal due to academic deficiencies or disciplinary action.

Other students ineligible for leaves of absence are those who are not completing any degree applicable course work, those who are enrolling only in extension courses, those who are only auditing courses, and those who have not yet completed the first quarter of their current program.

Students who do not return to CSU, San Bernardino at the conclusion of their planned leaves and those who enroll elsewhere without permission of the Office of the Registrar will be considered to have withdrawn from the university at the end of their last quarter of regular enrollment.

International students must submit a copy of the leave of absence petition to the Center for International Studies and Programs (CISP), CE-356. Visa students must be registered as full-time students except, when after one quarter of regular enrollment they decide to take a quarter off. All leave of absence periods must be approved by CISP prior to taking the leave in order to report the students properly to the Bureau of Citizenship and Immigration Services (BCIS). As a general rule, visa students must go back to their home country when applying for a leave of absence, as their primary goal in the U.S. is to obtain an academic degree.

The following Leaves of Absence may be requested:

**Medical Leave of Absence.**

Requests must be accompanied by a statement from a medical doctor explaining why the student must interrupt enrollment. Exceptions to the two-year limit may be granted under extenuating circumstances.

**Military Leave of Absence.**

CSUSB supports students called to active duty in the U.S. Military. The Military Leave Policy and forms are available from the Veterans Success Center (https://www.csusb.edu/veterans).

**Personal and Planned Educational Leaves of Absence.**

These leaves are defined as a planned interruption or pause in a student’s regular education during which the student temporarily ceases formal studies at CSU, San Bernardino. The student must plan to return to CSU, San Bernardino at the end of the leave. Such activities may be for the purpose of clarifying or enriching educational goals or to allow time to address personal matters and thus enhance the prospect of successful completion of the student’s academic program.

Since students usually maintain their catalog rights, courses completed at other institutions must have received prior approval in order to be transferred back to CSU, San Bernardino. Therefore, a student must also file a concurrent enrollment form with the Office of the Dean of Graduate Studies to obtain that approval. Failure to file a concurrent enrollment form may result in coursework not being accepted and revised major requirements being required.

**Returning from Approved Leave of Absence.**

When students plan to return from their leave, a readmission form, available through the Office of the Registrar, UH-171, (909) 537-5200, must be submitted within the filing period for the quarter of return. No application fee will be assessed for leaves of absence that meet the terms of the leave agreement.

**Transcripts**

Applicants must furnish official transcripts from each college or university attended. A separate transcript from each college or university is required even though one transcript may show work taken at another institution. CSUSB graduates do not need to furnish a CSUSB transcript. Some credential and master’s programs may require more than one transcript from each institution. Check with the program for application requirements.

**Admission from Nonaccredited Schools**

Graduates of nonaccredited schools who give evidence of unusual promise and superior background may petition the Dean of Graduate Studies for admission as unclassified post baccalaureate students. Such students who wish to enter a specific graduate program must then petition the appropriate school or department for admission to conditionally classified graduate status. Requirements for admission to conditionally classified status shall be determined by the concerned department and approved by the Dean of Graduate Studies.

**Limitations of Enrollment**

Entrance of post baccalaureate students to any program may be subject to limitations (i.e., each master’s degree or credential program may restrict enrollment whenever limitations of facilities and/or staff warrant).

**Enrollment Verification**

Student enrollment certification is based on the following minimum unit loads for graduate students:
Full Time

12 weighted units determined as follows: 500-, 600-, and 700-level course weighted at 1.5 units, 300- and 400-level course weighted at 1.0 units if no certification unless course is stated condition for admission to a graduate program.

3/4 time

6.0 to 8.5 weighted units as determined above

1/2 time

6.0 to 8.5 weighted units as determined above

Veterans Enrollment Certification

California State University, San Bernardino, is approved for the training of veterans of the military services and their dependents under educational assistance programs, established by the state and federal governments. Applications for educational benefits may be obtained directly from the veterans certification clerk. Student enrollment certification is based on the following unit loads:

Full time

12 weighted units determined as follows: 500-, 600-, and 700-level course weighted at 1.5 units, 300- and 400-level course weighted at 1.0 units if no certification unless course is stated condition for admission to a graduate program.

3/4 time

6.0 to 8.5 weighted units as determined above

1/2 time

6.0 to 8.5 weighted units as determined above

The university will certify course loads to the Veterans Administration based on the criteria above for units which are degree or objective applicable. Veterans enrolled less than half time are eligible for reimbursement of tuition and fees only.

Independent study and self-paced courses will be certified for monthly educational benefits as regular residence courses.

Graduate Degrees

College of Arts and Letters

Department of Art

- Master of Arts in Art - Art Education (not offered in the 2017-18 Academic Year)
- Master of Arts in Art - Studio Art (not offered in the 2017-18 Academic Year)
- Master of Fine Arts in Studio Art (p. 149)

Department of Communication Studies

- Master of Arts in Communication Studies (p. 158)

Department of English

- Master of Arts in English Composition (p. 169)
- Master of Fine Arts in Creative Writing (not offered in the 2017-18 Academic Year)

College of Business and Public Administration

- Master of Business Administration (p. 242)
- Master of Business Administration - Executives Option (p. 244)
- Master of Business Administration - Professionals Option (p. 244)

Department of Accounting and Finance

- Master of Science in Accountancy (3:2 Program Option) (p. 252)
- Master of Science in Accountancy (p. 251)

Department of Information and Decision Sciences

- Master of Science in Information Systems Technology (p. 255)
  (Admission is contingent on final approval of the program by the CSU Chancellor's Office)

Department of Public Administration

- Master of Public Administration (p. 260)
- Master of Social Work and Master of Public Administration Concurrent Degrees (p. 469)

College of Education

Department of Educational Leadership and Technology

- Master of Arts in Education - Career and Technical Education Option (p. 274)
- Master of Arts in Education - Instructional Technology Option (p. 276)
- Master of Arts in Education - Teacher Leadership Option (Offered through the College of Extended Learning) (p. 277)
- Master of Arts in Educational Administration (p. 279)
- Doctor of Education in Educational Leadership (p. 272)

Department of Special Education, Rehabilitation and Counseling

- Master of Arts in Rehabilitation Counseling (p. 294)
- Master of Arts in Education - Special Education Option (not offered in the 2017-18 Academic Year)
- Master of Science in Counseling and Guidance (p. 295)
- Master of Science in Special Education (p. 297)
- Education Specialist Degree in School Psychology (p. 286)
Department of Teacher Education and Foundations

- Master of Arts in Education - Bilingual/Cross-Cultural Option (not offered in the 2017-18 Academic Year)
- Master of Arts in Education - Correctional & Alternative Education Option (not offered in the 2017-18 Academic Year)
- Master of Arts in Education - Curriculum and Instruction Option (not offered in the 2017-18 Academic Year)
- Master of Arts in Education - Holistic and Integrative Education Option (not offered in the 2017-18 Academic Year)
- Master of Arts in Education - Kinesiology Option (p. 317)
- Master of Arts in Education - Reading and Literacy Option (p. 319)
- Master of Arts in Education - STEM Education Option (p. 311)
- Master of Arts in Education - Teaching English to Speakers of Other Languages (TESOL) Option (p. 320)
- Master of Science in Science, Technology, Engineering and Mathematics Education (p. 324) (not offered in the 2017-18 Academic Year)

College of Natural Sciences

Department of Biology

- Master of Science in Biology (p. 344)

Department of Chemistry and Biochemistry

- Master of Science in Earth and Environmental Sciences (p. 352)

Department of Health Science and Human Ecology

- Master of Public Health (p. 362)
- Master of Science in Health Services Administration (p. 363)

Department of Mathematics

- Master of Arts in Mathematics (p. 376)
- Master of Arts in Teaching-Mathematics (not offered in the 2017-18 Academic Year)

Department of Nursing

- Master of Science in Nursing (p. 384)

School of Computer Science and Engineering

- Master of Science in Computer Science (p. 393)

College of Social and Behavioral Sciences

- Master of Arts in National Security Studies (p. 454)
- Master of Science in National Cyber Security Studies (p. 460)
- Master of Arts in Social Sciences and Globalization (p. 456)

Department of Anthropology

- Master or Arts in Applied Archaeology (p. 410)

Department of Criminal Justice

- Master of Arts in Criminal Justice (p. 415)

Department of Psychology

- Master of Arts in Child Development (p. 444)
- Master of Arts in Psychological Science (p. 448)
- Master of Science in Psychology (p. 447)

Department of Social Work

- Master of Social Work (p. 470)
- Master of Social Work and Master of Public Administration Concurrent Degrees (p. 469)

Graduate Studies

- Master of Arts in Interdisciplinary Studies (p. 475)

Certificates

The university offers a variety of programs leading to a certificate of competency in special areas. Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to impart specified professional/vocational/career competencies, or produce mastery of the content of a sub-field of an academic major (discipline), or provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Courses offered for the certificate may be the same ones used to satisfy major, minor, credential or general education requirements. In order to qualify for a certificate, undergraduate candidates must earn a grade point average of 2.0 (“C”) or better in applicable course work. Postbaccalaureate candidates must earn a grade point average of 2.5. Standards for individual programs may exceed this minimum. Candidates must also receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The certificate is awarded upon confirmation that the requirements for that program have been satisfied. The candidate is responsible for filing an application with the Office of the Registrar for granting of the certificate, no later than the last term of certificate-applicable study, and for notifying the coordinator of the certificate program of completion of required course work. The awarding of a certificate will be noted on the student's transcript.

Further information regarding the certificates offered by the university can be found under the appropriate department.

Certificate Programs Offered

Accounting Certificate (p. 239)
Department of Accounting and Finance, JB-459, (909) 537-5704.

Applied Cultural Anthropology Certificate (p. 408)
Department of Anthropology, SB-327J, (909) 537-5502.

Arabic Certificate (p. 202)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Archaeology Certificate (p. 409)
Department of Anthropology, SB-327J, (909) 537-5502.
Asian Studies Certificate (p. 156)  
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Bilingual/Cross-Cultural Studies: Spanish/English Certificate (p. 203)  
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Biotechnology Certificate (p. 346)  
Department of Biology, BI-329, (909) 537-5305.

Business Skills for the Artist Certificate (p. 146)  
Department of Art, VA-105, (909) 537-5802.

California Indian Languages and Cultures Certificate (p. 204)  
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Career and Technical Education Certificate (p. 270)  
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Coaching Certificate (p. 368)  
Department of Kinesiology, HP-120, (909) 537-5349.

Communication Skills Certificate (p. 157)  
Department of Communication Studies, UH-018, (909) 537-5815.

Computer Systems and Programming Certificate (p. 395)  
School of Computer Science and Engineering, JB-307, (909) 537-5326.

Cyber Security Certificate (p. 239)  
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

Cyber Security Professional Certificate (p. 240)  
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

Education Certificate (p. 310)  
Department of Teacher Education and foundations, CE-261, (909) 537-7405.

Fitness Management Certificate (p. 369)  
Department of Kinesiology, HP-120, (909) 537-5349.

French/English Translation Certificate (p. 204)  
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Gender and Sexuality Studies Certificate (p. 310)  
Department of Teacher Education and foundations, CE-261, (909) 537-7405.

Geographic Information Systems Certificate (p. 425)  
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

German/English Translators Certificate (p. 202)  
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Gerontology Certificate (p. 364)  
Department of Sociology, SB-327, (909) 537-5541.

Health Care Management Certificate (p. 364)  
Department of Health Science and Human Ecology, PS-226, (909) 537-5339.

Healthcare Spanish, Certificate (p. 207)  
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Hospitality Management, Certificate (p. 240)  
Department of Marketing, JB-458, (909) 537-5749.

Information Systems Management Certificate (p. 240)  
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

International Relations Certificate (p. 436)  
Department of Political Science, SB-112, (909) 537-5535/5534.

Introductory Actuarial Science Certificate (p. 379)  
Department of Mathematics, JB-370, (909) 537-5361.

Introductory Mathematics Certificate (p. 379)  
Department of Mathematics, JB-370, (909) 537-5361.

Islamic and Middle Eastern Studies Certificate (p. 405)  
Department of History, SB-327F, (909) 537-5524.
Japanese Language and Culture Certificate (p. 205)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Museum Studies Certificate (p. 409)
Department of Anthropology, SB-327J, (909) 537-5502.

Native Nations/Indigenous People Certificate (p. 405)
College of Social and Behavioral Sciences, SB-207, (909) 537-7500

Puppetry Certificate (p. 190)
Department of Theatre Arts, PA-111, (909) 537-5876.

Recreation Leadership Certificate (p. 369)
Department of Kinesiology, HP-120, (909) 537-5349.

Real Estate Certificate (p. 241)
Department of Accounting and Finance, JB-459, (909) 537-5704

Social Media Entrepreneurship and Innovation (p. 157)
College of Extended Learning,

Social Services Certificate (p. 454)
Department of Sociology, SB-327, (909) 537-5541.

Spanish for Public Services Certificate (p. 206)
Department of World Languages and Literatures, UH-314, (909) 537-5847.

Supply Chain Management Certificate (p. 241)
Department of Information and Decision Sciences, JB-460, (909) 537-5723.

Theatre for Youth Certificate (p. 190)
Department of Theatre Arts, PA-111, (909) 537-5876.

Urban Planning Certificate (not offered in the 2017-18 Academic Year)
Department of Geography and Environmental Studies, SB-327J, (909) 537-5519.

Writing: Creative Writing Certificate (p. 168)
Department of English, UH-334, (909) 537-5824.

Writing: Professional Writing Certificate (p. 169)
Department of English, UH-334, (909) 537-5824.

The following certificates are restricted to postbaccalaureate/graduate students only

Conflict Management Certificate (p. 157)
Department of Communication Studies, UH-018, (909) 537-5815 or Department of Management, JB-461, 537-5731.

Counseling Certificate (p. 283)
Department of Special Education, Rehabilitation and Counseling, CE-243, (909) 537-5606.

E-Learning Certificate (p. 270)
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Education of the Gifted and Talented Certificate (not offered in the 2017-18 Academic Year)
Department of Special Education, Rehabilitation and Counseling, CE-243, (909) 537-5606.

Educational Technology Certificate (p. 271)
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Intelligence Methodology Certificate (p. 435)

Reading and Literacy Certificate (p. 311)
Department of Teacher Education and foundations, CE-261, (909) 537-7405.

Rehabilitation Counseling Certificate (p. 284)
Department of Special Education, Rehabilitation and Counseling, CE-243, (909) 537-5606.

School Business Management Certificate (not offered in the 2017-18 Academic Year)
Department of Educational Leadership and Technology, CE-374, (909) 537-7404.

Teaching English as a Second Language Certificate (p. 167)
Department of English, UH-334, (909) 537-5824.

Credentials

Basic Teaching Credential Programs
Accredited by the National Council for Accreditation of Teacher Education (NCATE)

- Adapted Physical Education Added Authorization (p. 309)
- Autism Spectrum Disorder Added Authorization in Special Education (p. 283)
• Designated Subjects Career and Technical Education (p. 271)
• Early Childhood Special Education Added Authorization (p. 285)
• Internship Education Specialist Credential: Early Childhood Special Education with EL Authorization (p. 290)
• Internship Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization (p. 287)
• Internship Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization (p. 288)
• Multiple Subject (p. 329)
• Multiple Subject Bilingual, Crosscultural, Language and Academic Development (BCLAD) (p. 327)
• Multiple Subject Credential and Multiple Subject Credential with Bilingual Crosscultural, Language and Academic Development Emphasis (BCLAD) (Intern Track) (p. 331)
• Preliminary Education Specialist Credential: Early Childhood Special Education with EL Authorization (p. 298)
• Preliminary Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization (p. 300)
• Preliminary Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization (p. 301)
• Single Subject - Student Teaching Track (p. 335)
• Single Subject - Intern Track (p. 333)

Specialist and Services Credential Programs

• Administrative Services Preliminary (p. 267)
• Administrative Services Preliminary (Internship) (p. 267)
• Administrative Services Professional (p. 268)
• Education Specialist Clear Credential (p. 285)
• Professional Clear Level II Education Specialist Credential: Early Childhood Special Education with EL Authorization (p. 304)
• Professional Clear Level II Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization (p. 304)
• Professional Clear Level II Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization (p. 303)
• Pupil Personnel Services Credential: School Counseling (p. 305)
• Pupil Personnel Services Credential: School Psychology (p. 306)
• Reading and Literacy Leadership Specialist Credential (p. 333)
• Supervision and Coordination of Designated Subjects Program (p. 280)

Graduate Degrees and Programs under Development

The university is planning to offer the following programs in the future pending official authorization by the CSU Chancellor's Office.

Course Credits and Study Expectations

Most courses at California State University, San Bernardino carry four quarter units of credit; some carry six units; some two units; and a few variable credit. Course credits are indicated in the course descriptions in this catalog. Since each unit of credit presumes one hour of class time and two hours of preparation, a typical four-unit course would require a minimum of 12 hours per week of the student's time. For purposes of comparison with other colleges, a four quarter-hour course is equivalent to a 2.66 semester-hour course.

Credit Hour

As of July 1, 2011 federal law (Title 34, Code of Federal Regulations, sections 600.2 and 600.4) requires all accredited institutions to comply with the federal definition of the credit hour. For all CSU degree programs and courses bearing academic credit, the “credit hour” is defined as “the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester or trimester hour of credit, or 10 to 12 weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or

2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practice, studio work, and other academic work leading to the award of credit hours.”

A credit hour is assumed to be a 50-minute period. In courses in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

University Honors Program

The University Honors Program stands for an education that will give each student the opportunity to explore ideas and principles underlying the major areas of modern knowledge, the understanding that learning is a continuous lifetime process, and the courage and enthusiasm to participate in the creation of a better world. This program offers integrated courses and other enrichment opportunities for highly-motivated students who seek an intellectual challenge. Most honors courses fulfill the general education requirements which all students at the university must meet.

Students who have shown scholastic ability, intellectual promise, and creativity are encouraged to apply for the program. Further information about the Honors Program can be obtained in UH Room 362, (909) 537-7472.

Phi Kappa Phi

Academic Affairs Office, AD-101
(909) 537-5024 Phi Kappa Phi website (http://pkp.csusb.edu)

The university has an active chapter of the national honor society of Phi Kappa Phi, whose purpose is the recognition and encouragement of superior scholarship in all academic disciplines. Membership is by invitation issued to selected juniors, seniors and graduate students who have excelled in scholarship and who meet the chapter's requirements. Graduating seniors who are members of PKP have an opportunity to
apply for a Fellowship from the national office to be used towards the first year of graduate study. The deadline is April 1st each year.

**Gamma Lambda of Phi Beta Delta**

Phi Beta Delta, founded in 1986, is the first U.S. honor society dedicated to recognizing individuals who have demonstrated scholarly achievement in the areas of international education and exchange. These individuals include: international (visa) students who have demonstrated high scholastic achievement at our university; U.S. students who have completed studies abroad in approved exchange programs with our university; distinguished international faculty at CSUSB; distinguished CSUSB faculty and staff who have been involved in recognized international endeavors (i.e. research, teaching, program development and service). The Gamma Lambda Chapter at CSUSB is a charter chapter of the national organization.

**Cooperative Education**

The university is developing ways in which students may earn course credit through academically related work experience. Currently available are internship courses in accounting, administration, anthropology, art, Asian studies, biology, chemistry, communication, computer science, criminal justice, economics, education, English, environmental studies, ethnic studies, finance, French, gender and sexuality studies, geography, geology, health science, history, human development, humanities, information management, management, marketing, philosophy, physics, public administration, paralegal studies, political science, psychology, social work, sociology, Spanish, supply chain management, and theatre arts. More specific information on special courses can be obtained from the Office of Academic Programs or the appropriate colleges, schools, and departments.

**Facilities Planning & Management**

California State University, San Bernardino blends modern facilities with wide expanses of well-maintained landscapes, and panoramic views. The 430-acre campus features more than 33 fully accessible and air-conditioned buildings. In addition to classrooms and laboratories for course work in the arts, letters, sciences, and social sciences, the university has a number of rather distinctive facilities, such as simulation laboratories, a modern instructional television studio lab, an electronic music studio, glass blowing facilities, a Geographic Information Systems (GIS) Lab, Crime Analysis Lab, Anthropology Museum, Infant/toddler Teaching Lab, the Arrowhead Lab for Security Analysis, Literacy Center, Math and Science Teaching Methods Labs, and state-of-the-art self-instructional computer laboratories located in each of the major instructional buildings.

In 2015, the University began the Master Planning process for the future of campus. The Master Plan addresses the current utilization of academic and service departments, future expansion of facilities to accommodate enrollment growth; parking and circulation; student housing; student life functions; landscape; playgrounds and athletics; safety, lighting and security; and strategies to create a more sustainable campus. This roadmap is set to be presented to the Board of Trustees in 2017. For more information please visit the Master Plan Webpage (https://www.csusb.edu/master-plan).

**University Library**

Library website (http://www.lib.csusb.edu)

The John M. Pfau Library provides essential support for the university's curriculum and strives to motivate and empower people to be life-long learners. The dedicated staff, most of which works behind the scene, acquires excellent resources, develops intellectual access to them, and provides research assistance at the point of need.

The collections include a wealth of materials in a variety of formats. While they are specially built and maintained to support the curriculum, they are not restricted to it. The Special Collections Department collects and preserves artifacts, photographs, and memorabilia on the local and regional history of this area along with the history of the university. The library is also a depository library for both Federal and State of California government documents.

Numerous database subscriptions provide a wealth of digital resources and extend the reach of scholars far beyond our walls. The efficient Interlibrary Loan service provides the means to obtain nearly any book or article not owned by the library.

Benefit from the special expertise of librarians in person at the Reference Desk, on the phone, or online via the web site. Faculty may schedule librarian-taught research instruction sessions for their classes. Individuals may make appointments with a librarian for more in-depth assistance.

There is much more to know about how the library works to enhance the university experience than will comfortably fit in this brief description. Students are invited to come on by and (pun intended!) check us out.

**Academic Technologies and Innovation**

(909) 537-7439 ATI website (http://odl.csusb.edu)

The Department of Academic Technologies and Innovation (ATI), a new department under ITS is focused on fostering and supporting faculty led innovation, student engagement technologies, and growth in hybrid and online learning courses. The ATI Department works closely with the Division of Academic Affairs, the Teaching Resource Center (TRC) and the College of Deans and Department Chairs in identifying and setting priorities and standards on academic technology initiatives. The ATI Department consists of instructional designers, technologists, and classroom/student technology technicians who support online instruction, and classroom technologies including smart classrooms and distance learning systems. The department also works with Academic Technologies and Distributed Learning subcommittee of the Faculty Senate in prioritizing and pursuing various academic technology initiatives.

The Academic Technologies and Innovation (ATI) office provides coordination and oversight of a multitude of distributed learning activities at CSUSB, including state-supported degree programs as well as technology-based extension courses and activities. The ATI provides anytime, anywhere access for students who would otherwise be unable to attain a CSUSB degree.

The concept of distributed learning connotes a system through which CSUSB can more fully “distribute” its academic resources to its diverse and broad-based constituents, locally, nationally and internationally. CSUSB offers several degree programs either fully or partially online or via videoconference, including programs in education, liberal studies, communications, nursing, business, public administration and criminal justice.

Distributed learning techniques engage students actively (or interactively), and focus on helping students achieve class objectives via a number
of state-of-the-art technologies, including on-line, blended (hybrid), and video/Web conference. In addition, courses taught off campus at remote sites are coordinated by the Academic Technologies and Innovation office.

**Assistive Technology and Accessibility Center (ATAC)**

ATI's Assistive Technology and Accessibility Center (ATAC) provides technology solutions (software and hardware) to students, faculty, and staff on the CSUSB and Palm Desert campuses. Assistive technology helps individuals with disabilities overcome barriers put in place by disability that may inhibit equal access to information and resources.

**Classroom Support**

Media equipment is fast becoming the backbone of the instructional environment and ATI's Classroom Support team provides access to a wide variety of instructional technologies in our classrooms and learning spaces. Whether the equipment is already installed in one of our Smart Classrooms or media equipment is delivered to your classroom, our staff will ensure that you have what you need. Equipment for special campus events, meetings or conferences is also available.

Keeping equipment in good operational order requires a thorough preventative maintenance program as well as access to knowledgeable technical staff. Our classroom and instructional support staff are available to provide consultation to faculty and staff in proper operation of classroom technologies. Installation of special software for use in Smart Classrooms is also available upon request.

**OnLine Courses**

Online courses and hybrid courses are identified as such in the Class Schedule by departments and in the distributed learning section. Various departments in all colleges offer online and hybrid courses. Online courses are taught completely on the Internet and are not assigned classroom space. Hybrid courses are assigned classroom space and meeting times which range from once per quarter to weekly, accompanied by significant online materials and activities. Students taking on-line courses should consult the Academic Technologies and Innovation website at ATI website (http://odl.csusb.edu) for minimum hardware and software requirements for taking any courses on the Internet.

For more information on course and program offerings, professional development for faculty, or programs offered by other CSU campuses, contact ATI (909) 537-7439.

**Information Technology Services**

Information Technology Services website (http://www.irt.csusb.edu)

The mission of the division of Information Technology Services (ITS) is to provide best of class technology support services to our students, faculty and staff, to support faculty driven innovation and research, and to improve operational efficiency through business intelligence and analytics.

ITS Division is guided by the following principles:

- Be responsive to the changing information technology needs of a highly diverse student, faculty, and staff community.
- Offer support and leadership through collaborative efforts with faculty, students, and staff.

- In a participative manner, perpetuate information technology integration as a part of the academic and administrative fabric covering all programs.
- Aggressively respond to the tactical objectives set forth by the campus strategic plan.
- Advance CSUSB as one of the foremost teaching/learning environments in higher education by applying, as appropriate, technology solutions.

University wide technology initiatives are governed by the IT Governance Executive Committee (http://its.csusb.edu/governance). Organizationally, ITS has six departments managed under the office of the Vice President and Chief Information Officer for Information Technology Services:

- Academic Technologies & Innovation
- Technology Operations & Customer Support
- Administrative Computing & Business Intelligence
- Project Management & Assessment
- Information Security & Emerging Technologies
- Web Services

**Technology Operations and Customer Support**

Technology Operations and Customer Support website (https://support.csusb.edu)

Technology Operations and Customer Support is led by the Associate Vice President of ITS. Composed of five distinct units, the department operates and maintains the university’s most critical information technology infrastructure, ensures secure and reliable access, and provides world-class customer support on a 24x7x365 basis.

**Technology Support Center**

Technology Support Center (TSC) is the one-stop shop for support, information, and consultation of all technology-related matters. On a 24/7 basis, the technology support center provides the university with effective, timely, and consistent responses to technology support needs.

The TSC is the issuer of Coyote OneCard, the official CSUSB identification card. We provide students, faculty, and staff assistance and training on campus resources such as MyCoyote, Blackboard, campus email systems, Google G Suite, Office 365. We also assist with desktop support and provide access to many campus-licensed software.

The TSC is located in the Pfau Library Addition first floor (PL-1108) and can be reached by phone at 909-537-7677 or email at support@csusb.edu or on the web at http://support.csusb.edu. (https://support.csusb.edu)

**Enterprise and Cloud Services**

Enterprise and Cloud Services (ECS) is primarily responsible for system administration and maintenance of hardware, software, and cloud environment supporting the campus enterprise systems.

ECS manages enterprise resources including Private and Public Cloud Infrastructure, Office 365, Google G Suite, Mailman listserv, OnBase workflow and imaging. Services rendered include: server and desktop virtualization, cloud computing resources configuration and maintenance, backup and recovery. ECS also provide server hosting and co-location.
services, data center management, Scantron exam scoring, and SOTE processing.

**Telecommunications and Network Services**

Telecommunications & Network Services (TNS) plans, supports, manages, maintains, and repairs the campus telecommunication system, the campus wired and wireless data network and supporting servers.

Telecommunication Services is responsible for supplying and repairing telephone equipment, managing the campus operators, campus call centers lines, emergency phone access, cellular accounts, and maintaining the campus VoIP and voicemail system.

Network Services is responsible for installing, managing, and maintaining the campus wired and wireless network infrastructure, various campus-wide network applications, and specific network systems providing campus-wide functions.

**Distributed Technology Services**

Distributed Technology Services (DTS) supports technology initiatives at CSUSB's six distributed Colleges (Arts and Letters, Business and Public Administration, Education, Extended Learning, Natural Sciences, and Social and Behavioral Sciences) and the Library.

DTS is responsible for the overall planning, organizing, and execution of all IT functions at the distributed colleges and library at CSUSB. This includes directing all IT operations to meet customer requirements as well as the support and maintenance of existing applications, systems, infrastructure, and development of new technical solutions that is consistent with campus protocol/standards and the ITS division’s objectives.

**Academic Technologies and Innovation**

Academic Technologies and Innovation Website (https://www.csusb.edu/iti)

Academic Technologies and Innovation (ATI) is CSUSB's instructional design and learning technology function. As the CSUSB leader in online education and academic technologies, ATI strives to promote quality online course design, expand online learning, and support faculty with their course development and academic technology needs. We take pride in providing high-quality instructional and technological solutions. That is why we are committed to helping you find the right solution that fits your needs.

**Administrative Computing and Business Intelligence**

Administrative Computing and Business Intelligence website (http://acs.csusb.edu)

The Department of Administrative Computing and Business Intelligence (ACBI) is a department under ITS. ACBI develops, provides support for, and manages various campus enterprise software applications on a variety of hardware platforms. Support is provided for all CSUSB administrative systems. ACBI strives to be the richest source of support for information technology resource management. To do this, we encourage our teams to work in a collaborative environment and we give them the resources and support they need to bring the best practices to life. At ACBI, we realize that a supportive work environment is crucial to success. We understand that success is about collaborating and maintaining clear communication between partners and technical support.

**Project Management and Assessment**

The purpose of the office of Project Management and Assessment is to support the increase in efficiency and effectiveness of the ITS Division in terms of planning and managing IT projects that are aligned to the strategic objectives of the division and the institutional learning objectives of the university.

**Information Security and Emerging Technologies**

Information Security and Emerging Technologies website (http://iso.csusb.edu)

The Information Security and Emerging Technologies Office (ISET) coordinates the implementation of information security practices and procedures to ensure the confidentiality, integrity and accessibility of university information systems and assesses emerging technologies for campus adoption. The ISET responsibilities includes all aspects of information security management and compliance.

**Web Services**

Our staff has more than 40 years of combined experience in the area of web development and design. Whether you need a brief consultation, a redesign of your existing web site, or implementation of a database-driven page, we are here to provide you with solutions.

**Degree Completion Programs for Part-Time Students**

Increasing opportunities are being developed for part-time students to complete baccalaureate and master's degree programs by attending late-day classes, as well as Friday night and weekend courses with compressed schedules.

Presently offered in the late afternoon and evening is a sufficient range of upper-division course work to complete a major in administration, career and technical studies, criminal justice, economics, geography, health science, history, human development, human services, liberal studies, mathematics, nursing, psychology, social sciences, sociology, and Spanish. At the graduate level, master's degree programs are available in business administration, biology, criminal justice, education, English composition, health services administration, public administration, and rehabilitation counseling.

Students who wish to pursue a late-day degree-completion program in other fields should consult with the department of their proposed major regarding the availability of required courses and then apply for admission to the university in the usual manner.

**National Student Exchange Program**

Badger House, Room 112

(909) 537-5239 National Student Exchange Program website (http://www.nse.org)

California State University, San Bernardino is a member of this cooperative program which allows selected students to spend up to a year at one of 176 U.S. colleges. These campuses are located in 48 states, District of Columbia, Puerto Rico, Guam, Virgin Islands and Canada. The
exchange student pays either normal California State University, San Bernardino fees or "in state" tuition at the host institution.

This exchange encourages students to see another part of their own country, live and work in a different academic environment, and pursue specialized courses not offered at Cal State. All course work taken while on exchange is approved by an advisor and then evaluated by the Office of the Registrar before leaving campus. Thus, there is no loss of time or credits.

Students normally apply in the fall or winter of their freshman or sophomore year and are screened and placed during March for the next academic year. To qualify, students must have a 2.5 grade point average.

**University Enterprises Corporation at CSUSB**

(909) 537-5917 University Enterprises Corporation website [http://uec.csusb.edu](http://uec.csusb.edu)

University Enterprises Corporation at CSUSB ("UEC") supports the university's educational mission by providing quality services that complement the instructional program. The University depends upon UEC to provide services that cannot be supported with state funds. UEC is a legally separate 501(c)(3) nonprofit corporation, works closely with the California State University San Bernardino.

UEC is responsible for business enterprises on campus including, but not limited to, dining services, bookstore, convenience store, and vending services. UEC also serves as the grantee for federal, state and local funding for research and sponsored projects.

**Coyote Bookstore**

The Coyote Bookstore carries all course-required textbooks and offers a textbook rental program, digital options, and year-round book buy-back. The Coyote Bookstore also has hundreds of other items for sale including school and office supplies, backpacks, fashionable CSUSB clothing, gifts, stationery and greeting cards, computers, computer software and supplies, general books, health and beauty aids, and various food, beverage and snack items. A satellite bookstore is operated at the Palm Desert campus to serve students, faculty and staff at that location. Students, faculty and staff enjoy educational discounts on computer hardware, peripherals and software purchases.

**Dining Services**

(909) 537-5917 Dining Services website [http://www.csusbdining.com](http://www.csusbdining.com)

Dining services and convenience stores are provided throughout the University. The Commons Dining Hall, located on the upper floor of the Commons building, is the perfect location to sit down and relax while enjoying a delicious meal. The menu features a variety of breakfast, lunch, and dinner options including pizza, a fresh, build-your-own salad bar, hand-rolled sushi, a soup station, grilled-to-order burgers, a variety of grab-n-go items, a gourmet deli and an array of snacks and drinks. The facility features a wall of windows that offers diners a beautiful view of the mountains for a relaxed, upscale atmosphere.

The Coyote Café is located in the Santos Manuel Student Union. This food-court style eatery features a number of national food chains including Pizza Hut, Taco Bell, and a Starbucks coffee house. In addition, the national brands Wow Café and Wingery, Stirfresh, and Subconnection offer additional appetizing options. The Blue Coyote Pub, located on the second floor, offers a lively ambiance and appealing menu specials.

Sodexo’s Catering Department offers full-service catering for all types of on- and off-campus events including weddings, banquets, retirement dinners, special department luncheons, and private parties.

In addition, the four Coyote Express and Coyote Market convenience stores provide the perfect solution to the busy college lifestyle with a wide variety of pre-packaged sandwiches and salads, cold drinks, coffee, espresso drinks and tempting snacks—perfect for on-the-go dining. Scantrons, bluebooks and other supplies are also stocked for our students’ convenience. Convenience Store locations currently include Jack Brown Hall, the wedge of Pfau Library, the main Library, and the Santos Manuel Student Union.

Cash, credit, and Coyote One Card Flex Cash accepted at all locations.

**Centers & Institutes**

CSUSB maintains a number of officially recognized Institutes and Centers with each of them focusing on leveraging faculty, staff, and student expertise for the benefit of the region we serve. Below is a brief description of all officially approved CSUSB centers and institutes with contact information and website links.

**Approved Centers**

**Aging, Center on**

The Center on Aging at CSUSB is a university-wide interdisciplinary unit sponsored by the College of Social and Behavioral Sciences. It was created in order to unite people and resources at CSUSB to better respond to the needs of a rapidly aging population in the Inland Empire. The goals of the Center on Aging are: (1) build strategic and lasting relationships between CSUSB, community-based organizations, and local governments in order to increase the quality of life for local older adults; (2) educate and train future professionals on the best practices for serving an aging population; and (3) conduct and disseminate world-class gerontology research.

Director: Eric Vogelsang, eric.vogelsang@csusb.edu, Department of Sociology, 909-537-5575
Visit the Center on Aging Website [http://centeronaging.csusb.edu](http://centeronaging.csusb.edu)

**Community Counseling Center, CSUSB**

The Community Counseling Center was established in 1973 as a training clinic to provide low-cost, longer-term counseling services for CSUSB students and staff, and for members of the community as well. The Center provides confidential, one-to-one counseling services for personal and emotional problems. The Center is staffed by faculty and graduate students in the Psychology Department at California State University, San Bernardino. Anyone experiencing problems in relationships, feeling anxious or depressed, or seeking help with other personal problems can receive confidential counseling from the Center.

Director: Christina Hassija, chassija@csusb.edu, (chassija@csusb.edu)Department of Psychology (909) 537-5481.
Visit the CSUSB Community Counseling Center Website [http://ccc.csusb.edu](http://ccc.csusb.edu)
Correctional Justice Research, Center for the Study of

The Center for Criminal Justice Research (CCJR) provides research and training services to communities, criminal justice agencies, and other organizations. Through grants and contracts with local partners, CCJR conducts innovative research activities to address current crime problems and security concerns. These partnerships between academia, practitioners, and the community are what keep the field moving forward.

Director: Carolyn Eggleson eggleson@csusb.edu 909-537-5654
Visit the Center for Criminal Justice Research Website (http://ccjr.csusb.edu)

Criminal Justice Research, Center for

Cyber Security Center

The mission of the Cyber Security Center is to promote and study the application of cyber security, computer forensics and other related information assurance topics. California State University, San Bernardino (CSUSB) is a national leader in cyber security education. Since 2008, the National Security Agency and the Department of Homeland Security have designated CSUSB as a Center of Academic Excellence (CAE) in Cyber Defense. The center runs many grant-funded projects and student scholarship initiatives.

Director: Tony Coulson tcoulson@csusb.edu 909-537-5768
Visit the Cyber Security Center Website (http://iasm.csusb.edu)

Entrepreneurship, Inland Empire Center for

The Inland Empire Center for Entrepreneurship (IECE) is a multifaceted organization that supports and promotes entrepreneurship on campus and in the community through educational programs in entrepreneurship, business assistance services and advocacy. The focus of these efforts is on achieving impact – creating entrepreneurial startups and entrepreneurial managers, helping businesses in the community achieve new levels of success and raising the awareness of and support for entrepreneurship throughout the Inland Empire region. Notable programs include the Spirit of the Entrepreneur Awards, Garner Holt Student Fast Pitch Competition, Small Business Development Center, Women’s Business Center and the Catalyst Student Business Accelerator.

Director: Michael Stull mstull@csusb.edu 909-537-5708
Visit the Inland Empire Center for Entrepreneurship Website (http://entre.csusb.edu)

Global Management, Center for

The Center for Global Management is created in order to facilitate developing programs in international business and public administration and supports regional internationalization efforts for the benefit of the faculty, the students, and the local international communities.

Co-Director: Frank Lin flin@csusb.edu 909-537-5700
Visit the Center for Global Management Website: Coming soon!

Hate and Extremism, Center for the Study of

The Center for the Study of Hate and Extremism at California State University, San Bernardino is a nonpartisan research and policy center that examines the ways that Bigotry, advocacy of extreme methods, or Terrorism, both Domestically and Internationally deny civil or Human Rights to people on the basis of race, ethnicity, religion, gender, sexual orientation, disability or other relevant status characteristic. The center seeks to aid scholars, community activists, government officials, law enforcement, the media and others with objective information to aid them in their examination and implementation of law, education and policy.

Director: Brian Levin blevin@csusb.edu, Department of Criminal Justice, 909-537-7711
Visit the Center for the Study of Hate and Extremism Website (http://hatemonitor.csusb.edu)

Health Equity, Center for

The Center for Health Equity will promote and accelerate faculty research at CSUSB in health disparities through mentorship and training from nationally recognized health disparities scientists. It will also provide a link between health disparities-related community organizations and university members; advance the number of CSUSB students seeking graduate careers in health disparities; and disseminate CSUSB faculty research and scholarship in the area of health disparities.

Director: Teresa Dodd-Butera tbutera@csusb.edu 909-537-7241
Co-Director: Caroline Vickers cvickers@csusb.edu 909-537-5684
Visit the Center for Health Equity Website (http://cphdrt.csusb.edu)

Indigenous Peoples Studies, The Center for

The university offers a certificate program in Native Nations and Indigenous Peoples Studies, overseen by the Center for Indigenous Peoples Studies in the College of Social and Behavioral Sciences. The course work provides students with a broad introduction to Native Nations and Indigenous Peoples, creating a foundation for students to pursue advanced study or possible in employment in related fields. The curriculum is multidisciplinary, bringing together a diverse faculty of specialists. Core courses focus Indigenous cultures, history, cultural resource management and preservation, sovereignty, world systems analysis and the arts. Students then select courses in consultation with the certificate coordinator in order to meet both the certificate requirements and their own individual interests.

Director: James V. Fenelon jfenelon@csusb.edu, Department of Sociology, 909-537-7291
Visit The Center for Indigenous Peoples Studies Website (http://cips.csusb.edu)

International Studies and Programs, Center for

The International Institute develops programs to enhance intercultural communications and understanding. It provides coordination, facilitation, and support of campus-wide faculty and student international program
development and supports regional internationalization efforts, international business and exchange programs.
Director: Paul Amaya pamaya@csusb.edu 909-537-5193
Visit the Center for International Studies and Programs Website (http://ic.csusb.edu)

Islamic and Middle East Studies, Center of
The Center for Islamic and Middle East Studies (CIMES) at CSUSB serves as a flagship for international dialogue and academic excellence for students and faculty as well as the local and international communities. The Center supports research, lecture series, curriculum development and community outreach in order to advance the study of Islam and the Middle East.
Director: Ece Algan, ealgan@csusb.edu, Department of Communication Studies, 909-537-7649
Visit the Center of Islamic and Middle East Studies Website (http://cimes.csusb.edu)

Labor Studies, Center for
The Center for Labor Studies promotes the economic and social advancement in the Inland Empire. The Center develops knowledge about the labor market in the Inland Empire, disseminate this knowledge in a way that contributes to social and economic advancement, and focus on the skills and energies of members of the CSUSB community on issues relevant to labor in the Inland Empire. Importantly, the Center will give CSUSB students opportunities for research and extracurricular activities that will enhance their intellectual and personal development and will permit them to undertake leadership roles in the Inland Empire and beyond.
Director: Eric Nilsson enilsson@csusb.edu, Department of Economics, 909-537-5564
Visit the Center for Labor Studies website (http://labor.csusb.edu)

Leonard Transportation Center
As the world becomes more interconnected through the processes of globalization, domestic and international policies become more intertwined. Transportation and transnational studies are interlinked, especially for areas such as the Inland Empire, through the movement of goods, people, and ideas. These in turn are tied to local communities’ quality of life. The understanding of outside influences (transnational studies) helps to better understand local impacts, which leads to better solutions. The Leonard Transportation Center focuses on transnational and local policy studies and solutions to assist communities, students, faculty, and international partners work together to improve life in the Inland Empire.
Director: Dr. Kimberly Collins kimberly@csusb.edu 909-537-5036
Visit the Leonard Transportation Center Website (http://leonard.csusb.edu)

Mathematics Education, Center for the Enhancement of
The Center for the Enhancement of Mathematics Education identifies, analyzes and addresses the needs of mathematics teachers in the Inland Empire. The Center has taken the lead in developing collaborative grant proposals for mathematics, science and technology education with the San Bernardino Superintendent of Schools and K-12 school districts within the Inland Empire Region and currently manages the Inland Counties Mathematics Project (the regional site of the California Mathematics Project), three National Science Foundation projects (Noyce Scholarships, Noyce Fellowships, and Algebraic Concepts for Elementary Students), and the Department of Education-funded Teaching English Learners Early Mathematics project.
Director: Jeremy Aikin jaikin@csusb.edu, 909-537-5433
Assistant Director: Sarah Zayas szayas@csusb.edu, 909-537-5455
Visit the Center for the Enhancement of Mathematics Education Website (http://ceme.csusb.edu)

Media Arts Center (CAL MAC)
The College of Arts & Letters Media Arts Center is dedicated to the creation, production, and analysis of the media arts. It serves the region, the CSU, and the nation by providing a focus for interdisciplinary activities. The center’s interests encompass film studies, video, photography, design, performance, music, press releases/articles, scripts/screenwriting, and all other print and electronic arts that are used to communicate messages. The CAL-MAC supports the development of cross-disciplinary curricula, scholarship, artistic projects, activities, and outreach.
Visit the Media Arts Center Website (http://artsletters.csusb.edu)

Second Language Acquisition, Center for the Advancement of
The CSUSB Center for the Advancement of Second Language Acquisition provides workshops for Inland Empire teachers to enhance their skills. The center presents programs honoring K-12 student achievements and provides enrichment activities. It also provides scholarships for students and teachers to attend summer seminars at UC Santa Barbara.
Director: World Languages and Literatures Department Chair 909-537-5847
Visit the Center for the Advancement of Second Language Acquisition Website (http://flan.csusb.edu)

Teaching English Learners, Center for
The Center for Teaching English Learners serves as a resource center for prospective and practicing teachers whose classroom teaching is impacted by the presence of culturally and linguistically diverse (CLD) learners and who seek innovative strategies for teaching English; as a materials development laboratory for educational master’s projects in the area of teaching English to speakers of other languages, as a resource and referral service for partnership school districts who seek training for teachers, and as locus for initiation of grant proposals in the area of providing high-quality education for English learners.
Director: Lynne Diaz-Rico diazrico@csusb.edu 909-537-5658
Visit the Center for Teaching English Learners Website (http://www.csusb.edu/coe/centers/CenterforTeachingEnglishLearners.htm)

University Center for Developmental Disabilities
The UCDD provides evaluation, assessment, training, and support for autistic children, their parents and siblings. This is a clinical training program in the College of Education which focuses on Special Education credential programs in cooperation with the departments of Nursing, Social Work, and Psychology. The clinical program is under contract with the County Regional Center for client services.
Director: Dwight Sweeney dsweeney@csusb.edu 909-537-5495
Visit the University Center for Developmental Disabilities Website (http://csusb.edu/coe/centers/ucdd)

Watson and Associates Literacy Center
The Literacy Center offers tutoring in reading, writing and oral language for students across the K-12 grade levels as well as adults seeking...
empowerment and better life opportunities through literacy. Trained staff members pinpoint specific and general needs of children, adolescents and adults then design and implement remedial programs based on each individual's needs. This assessment and instructional emphasis is complemented by a research component.

Director: Catherine Terrell cterrell@csusb.edu 909-537-5697
Visit the Watson and Associates Literacy Center Website (http://literacy.csusb.edu/affiliates_watson.html)

Approved Institutes

Applied Research and Policy Analysis, Institute of

The mission of the ICSI is to promote the study, analysis and policies associated with the region’s commerce and allied security activities. Further, the ICSI will become a center of excellence serving the commerce and security needs and aspirations of our students, faculty and community.

Executive Co-Director: C.E. Tapie Rohm, Jr. trohm@csusb.edu, 909-537-5786
Executive Co-Director: Jay Varzande, jvarzand@csusb.edu, 909-537-5730
Visit the Inland Commerce and Security Institute web site

Learning Research Institute

The CSUSB Learning Research Institute (LRI) promotes an interdisciplinary scholarly focus on the student learning experience and how it may be improved. The Institute supports this focus by sponsoring and conducting research activities that examine the cognitive, neurobiological, and environmental variables that contribute to the academic success of our diverse student body.

Co-Director: Jason Reimer jreimer@csusb.edu, Department of Psychology, 909-537-5578
Co-Director: Hideya Koshino hkoshino@csusb.edu, Department of Psychology, 909-537-5435
Visit the Learning Research Institute Website (http://lri.csusb.edu)

Research, Assessment & Professional Development, Institute for

The Institute for Research, Assessment & Professional Development provides opportunities across the three domains of the institute (i.e., research, assessment, professional development) to enhance collaborations between program areas, faculty, graduate students and partnering activities with community agencies, such as the Department of Rehabilitation, Veterans Affairs, School Districts, Department of Corrections, and related community agencies. Services include (1) Comprehensive Vocational Evaluations and Situational Assessments for individuals receiving services from the Department of Rehabilitation and (2) Neurofeedback interventions for the treatment of ADD/ADHD, anxiety, autism/Aperger's syndrome (mild-moderate), academic/ performance enhancement, cognitive decline, conduct disorder, depression, stroke, post-traumatic stress disorder (PTSD), and other conditions. Neurofeedback (visit the Neurofeedback website (http://neurofeedback.csusb.edu)), also known as cognitive rehabilitation or EEG biofeedback, is a ground-breaking technique that challenges the brain to better function. This powerful brain-based technique has been successfully helping clients around the world for more than 30 years. It is a noninvasive process with dramatic results for a multitude of symptoms. The effectiveness of neurofeedback for adults and children with a wide variety of symptoms has been repeatedly concluded in numerous research studies. Neurofeedback works by training the brain to function at its maximum potential, which is similar to the way the body is exercised, toned and maintained. The technology is safe and effective for children and adults ages 5 to 95.

Director: Connie McReynolds cmcreyno@csusb.edu 909-537-5453 / 909-537-5681
Visit the Institute for Research, Assessment & Professional Development Website (https://coe.csusb.edu/institutional-research-assessment-professional-development)

Water Research Institute

The Water Resources Institute supports, coordinates and conducts regional and state wide policy analysis and research in all water-related areas. It has an extensive collection of current Geographic Information System-based data and historical records related to water, including aspects such as water rights, quantity, quality, treatment,
and management. The institute also provides instruction in the form of federally-funded education programs, workshops, courses, certificates, and degree programs in water resources.
Director: Boykin Witherspoon bwithers@csusb.edu 909-537-7684
Visit the Water Resource Institute Website (http://wri.csusb.edu)

Similar Organizations

Economic Education, California Council on

Statewide headquarters of the California Council on Economics Education which supports and encourages programs that provide K-12 teacher training in the economics method/enhancing K-12 economics curricular offerings to include information on the US economy, the world economic system, and the economic content of various social and political issues.
Director: R. J. Charkins rcharkin@csusb.edu 909-537-5553

Student Life

Office of the Vice President for Student Affairs

University Hall, Room 231
(909) 537-5185 Student Affairs website (https://studentaffairs.csusb.edu)

The Office of the Vice President for Student Affairs provides administrative leadership within the division and the university to assure students in the attainment of their educational goals. This is accomplished through advocacy for the provision of numerous student services as well as the intentional creation of programs and environments that enhance a student’s learning, leadership potential, personal responsibility, and career development. Specific policies regarding student non-academic and discrimination-related grievances, discipline, and emergency calls for students are administered by this office. A more complete statement on student privacy rights is available in the Academic Regulations and Standards (p. 107) section of the Bulletin of Courses.

Activities

The diverse interests and lifestyles of students are reflected in numerous activities sponsored by the university and the Associated Students, Inc. (ASI). These programs include dances, drama productions, choral concerts, quarter festivals, musical concerts, guest lecturers, and small group socials.

The university and ASI encourage and aid the formation of organizations, which enhance the educational opportunities of students. These organizations involve students, faculty, and staff working together in professional, recreational, educational, political, service, religious, and cultural activities. University-recognized groups have full use of campus facilities in planning their programs.

Alumni Association

(909) 537-3700 Alumni Association website (http://alumni.csusb.edu)

All graduates of the university are eligible to join and participate in the activities of the California State University, San Bernardino Alumni Association. Also eligible are those who earn credentials through the university. The purpose of the nonprofit association is to assist alumni in continued cultural and educational development, further the community interests of the university, establish mutually beneficial relationships between the university and its alumni, and promote the educational goals of the university. Additional information may be obtained from the Alumni Relations Office.

Associated Students, Inc. (ASI)

(909) 537-5932 ASI website (http://asi.csusb.edu)

ASI's mission is “For the Students, by the Students.” We are the loud and recognized voice of the student body of CSUSB and our Palm Desert Campus, representing the interest, needs, and concerns to the campus leadership. In support of this mission, ASI advocates the growth and development of student leadership through the many committees on which we serve, the programs and services we support, and the student representation at the local, state, and federal levels. Campus-wide elections held by the students of CSUSB determine their executive leadership and the board of directors who will be responsible for setting internal policy, interacting with campus senior management, and voicing student issues and concerns to the faculty and administration.

In addition to our representation, we offer the following services:

- Box Office
- College Legal Clinic
- Graphic Design Services
- Student Research and Travel Grants
- Club Allocation Budget
- Scholarships to athletes, PAES, and General scholarship fund
- Children’s Center Support

Athletics

(909) 537-5011 Athletics website (http://csusbathletics.com)

CSUSB Athletics began in the fall of 1984 and sponsors 10 athletic programs. It is an National Collegiate Athletic Association (NCAA) Division II program with basketball and soccer for both women and men; cross country, softball, track and field, and volleyball for women; and baseball and golf for men.

The university mascot is the Coyote, and the colors are blue, black, and white.

Career Center

(909) 537-5250 Career Center website (http://career.csusb.edu)

The mission of the Career Center is to support the career readiness of all students and alumni by providing counseling, assessment, workshops, career events, employer networking opportunities, internships, and job opportunities that result in the establishment or advancement of personalized career goals.

Services include:

- On-Campus Recruitment: The Career Center hosts more than 300 employers every year. Visits include job fairs, networking, interviews, workshops, and informational sessions.
- Handshake: A free online platform for CSUSB students and alumni that allows users to schedule appointments for career counseling, view and apply for jobs/internships, and view career development resources.
- Career Counseling: Counselors are available to assist you with choosing or changing your major, clarifying career goals, finding an internship, writing a résumé or cover letter, preparing for interviews, conducting a job search, or preparing for graduate school.
- Internships: We offer resources to find on- and off-campus internships year round.
- Clothing Closet: The Career Center hosts a clothing closet that provides donated professional attire to students at no cost.

Children’s Center

(909) 537-5928 Children’s Center website (http://ccampis.csusb.edu)

The Children’s Center’s mission is to enable parents of young children to attend CSUSB by providing child care in a nurturing environment
which supports the developing child. Services are also available for staff, faculty and community as space permits. The Center is open during the academic year (Monday through Thursday, 7:00 a.m.-8:00 p.m., and Friday, 7:00 a.m.-6:00 p.m.) and during Summer Session (Monday through Thursday, 7:00 a.m.-6:00 p.m., closed Fridays). Ages: 3 years (toilet trained) to 12 years. The school-age program only runs during the summer quarter. Additional information regarding fees and availability may be obtained from the Children’s Center.

Counseling and Psychological Services (CAPS)

Accredited by the International Association of Counseling Services

Accredited by the American Association of Ambulatory Health Care

Student Health Center Building, West Entrance

(909) 537-5040 Counseling and Psychological Services website (http://psychcounseling.csusb.edu)

Support from Counseling and Psychological Services is available to currently enrolled students for assistance with personal issues that may interfere with their efforts to achieve education or life goals, including adjustment to campus life, parenting skills, addictions, relationship or life style issues, mood and anxiety disorders, or any other issue of concern. Couples may be seen as long as one member of the couple is a currently eligible student. An initial session includes assessment of presenting concerns and recommendations for further counseling at the CAPS or referral to a community resource. CAPS is staffed by Licensed Clinical Psychologists, Licensed Marriage and Family Therapists, and supervised graduate and post-graduate interns. Fees for CAPS’ services are covered by the health fee paid at the time of enrollment. Although the demand for counseling services is considerable, appointments are usually made within two weeks of the student's initial contact. In case of emergency, students are seen with minimum delay and can be seen on a walk-in basis. To schedule an assessment, call (909) 537-5040. Open Monday through Friday, call for hours.

Community Engagement

- (909) 537-7483
- Director, Diane Podolske

Office of Community Engagement

Faculty Office Building 228, (909) 537-7483. OCE facilitates service learning, community-based research and volunteer service by engaging students, faculty and community partners in collaborative partnerships that serve the public good. We lead the university-wide culture of community engagement as a high impact practice that contributes to student success.

The DEN - Delivering Emergency Nourishment for CSUSB Students (http://cup.csusb.edu/TheDENFoodPantry.htm)

Faculty Office Building 236, (909) 537-7387, leaveyourpawprint@csusb.edu. The DEN assists currently enrolled CSUSB students who face food insecurity, including undergraduate, credential, graduate, and doctoral students. Weekly bags of food, hygiene items and referrals to community resources are available at The DEN, and daily packs of food are available at various offices throughout the campus. There is no need to go hungry - please contact us!

Coussoulis Arena

Special Events, CO-107
(909) 537-7360

Coussoulis Arena is one of the largest indoor facility in the Inland Empire (nearly 5,000 seats), serving Cal State, San Bernardino with quality facilities for the kinesiology classes, Coyote athletic games and practices, student recreational sports programs and university events such as commencement. Additionally, the arena has hosted several special events including:

- Kevin Hart
- Gabriel Iglesias
- Sesame Street Live
- Ja Rule
- Sammy Hagar
- Sugar Ray and Everlast
- The Harlem Globetrotters
- Howie Mandel
- Dr. Maya Angelou
- BB King
- AFI

Students can gain firsthand knowledge and experience by working part-time in the Arena, learning about all aspects of events management from ticketing, marketing, house operations, sound, lighting and production for concerts.

Housing and Residential Education

(909) 537-4155 Housing and Residential Education website (http://www.housing.csusb.edu)

Students who live on campus at CSUSB have limitless opportunities to make lifelong friends, attend amazing activities, achieve academic success, get involved with clubs and organizations, live with a diverse group of students from around the world, and be a part of the campus living experience! Referred to as the “Villages at CSUSB,” around 1,500 students live on campus in Serrano Village, Arrowhead Village, and University Village. New first-year student housing is currently being planned to open in September of 2018.

Serrano Village. Serrano Village is specifically designed for first-year students interested in living on campus as part of their overall transition to college life. Each of Serrano’s eight residence halls is composed of several suite areas with approximately 10 students in each suite who share a study room and bathroom facility. Double and super single rooms are available in which students can experience the benefits of campus community living. Each residence hall has a main lounge, common kitchen area, laundry facility, and a sun deck. Students living in Serrano Village are required to purchase a campus meal plan.

Arrowhead Village. Arrowhead Village is a living and learning environment available for upper-class students interested in experiencing a more independent style of living. Arrowhead Village features single occupancy rooms with two bathrooms and with up to four students per apartment. There are also a limited number of studio apartments. Each apartment includes a furnished living room and bedroom and is equipped with a full kitchen. Common area facilities within Arrowhead Village include study rooms and lounges. Each building has an elevator and is
accessible for individuals with disabilities. Laundry facilities are available to residents in a separate facility adjacent to the apartments.

**University Village.** University Village is an environment for upper-class students and is considered "premier living" with private bedrooms for each resident. Most apartments are 4 bedrooms with 2 bathrooms or 2 bedrooms with 1 bathroom. There are also a limited number of 4-bedroom, 4-bathroom apartments. Each apartment is equipped with a furnished living room and full kitchen, which is complete with a microwave and dishwasher. Each building has an elevator and is accessible for individuals with disabilities. Laundry facilities are located on each floor.

**Student Leadership.** Getting involved in student leadership opportunities on campus is one of the best ways to get connected to CSUSB. The Residence Hall Association (RHA) is a student-led organization for residential students. RHA seeks to develop leaders within the halls and help create community on campus through activities and advocating for on-campus students’ needs. RHA works with students and Village Councils to develop activities for the campus community and bring together individuals to serve as a governing body for students to help make living on campus an exciting and rewarding experience.

**Housing Team.** Housing and Residential Education has an engaged, diverse, and responsive team dedicated to student success. Our goals are to help our students be academically successful by providing safe, supportive living and learning environments that support students and challenge them to develop holistically. Student staff include Resident Assistants, Program Coordinators, Academic Mentors, and Hall Coordinators who live in the residence halls and apartments. These undergraduate and graduate student staff members have a wide array of training to assist students with personal, academic, and safety needs. They are an important part of the campus living environment, facilitating the community living experience, student success, and community standards. The student staff are supervised by an Area Coordinator of Residential Education (ACORE). These professional, live-on staff bring extensive skills and knowledge to CSUSB and are directly responsible for a specific Village, providing immediate support for residents living on campus. Housing and Residential Education staff are available 24 hours a day to assist students with safety, security, and other needs.

**Advantages of Living on Campus.** Living on campus offers many benefits to CSUSB students. Students living on campus enjoy academic success, high-speed internet and digital cable, priority registration, available parking, being near classes, the Pfau Library, the Rec. Center, and numerous campus activities. Residents of Serrano and Arrowhead Villages have access to the Village Square, which features a large-screen TV; games; and a lounge area. Outdoor recreation includes barbeque grills, patio seating, volleyball court, sun deck, and a swimming pool. Residents of University Village have access to the Community Center, which features a large screen TV, game room, fitness center, computer room, and study areas. Outdoor recreation includes barbeque grills, patio seating, sun deck, and a swimming pool for residents to relax and meet with friends.

**Costs.** Living in the Villages at CSUSB is very reasonably priced when compared to the costs of living off campus, which include commuting to campus, cable, internet, electricity, water, and other costs of living. The Department of Housing and Residential Education works with students and the Office of Financial Aid and Scholarships to make convenient financial arrangements. The cost to live in Serrano Village for the 2017-18 academic year is $6,060 per person for a double room and $11,268 for a single room. These prices include a campus meal plan. Arrowhead Village rates for 2017-18 are $8,514 for a private, single occupancy 4-bedroom and 2-bathroom apartment; $10,266 for a private studio; and $10,464 per person for a private, single occupancy 2-bedroom and 2-bathroom apartment. University Village rates for the 2017-18 academic year are $9,030 per person for a private single occupancy 4-bedroom and 2-bathroom apartment; $10,146 per person for a private single occupancy 2-bedroom and 1-bathroom apartment; $10,320 per person for a private single occupancy 4-bedroom and 4-bathroom apartment. All rates are based on the academic year, September through June.

Spaces are rented on a per-bed basis rather than per apartment, which allows students to be responsible for just their bed space and not for additional rent should one or more roommates move out before the end of the Housing Contract. Campus housing in Serrano Village is guaranteed for first-year students who submit a completed application packet by the priority deadline of May 31 for the next academic year. Students are encouraged to apply for housing as early as possible to ensure priority in the room selection process.

Please contact us at (909) 537-4155 and we will be happy to assist you.

**Office of Ombuds Services**

PL-268

(909) 537-5635 Ombuds website (http://ombuds.csusb.edu)

The term “Ombuds” is a Swedish word which refers to the people’s representative. The office of Ombuds Services is a confidential, independent, impartial, and informal resource for students, faculty, and staff. Services include assisting with conflict resolution, disputes, and complaints, exploring options, facilitating communication between parties in various ways, providing information on policies or procedures and making referrals to other resources which may be helpful. The Ombuds Officer’s goal is to seek constructive and equitable outcomes for any university related concern. The service is provided free of charge and works in cooperation with campus constituencies to help resolve issues.

**Orientation and First Year Experience (OFEY)**

(909) 537-5233 SOAR website (http://orientation.csusb.edu/SOAR)

The Orientation and First Year Experience (OFYE) Office is responsible for developing and implementing welcome and transition programming for newly admitted freshmen and transfer students and their family members. The Student Orientation Advising and Registration (SOAR) program is coordinated through the OFYE Office. SOAR offers dynamic programming for freshmen and transfer students in order to equip them with the information needed to better manage their transitions to the university and help set them up for student success here at CSUSB. These transition programs prepare students for academic success, provide knowledge of university resources, encourage involvement in student activities, and help build meaningful relationships. Each SOAR program is designed to minimize anxiety and to promote positive attitudes about student success at the university. In addition, the OFYE Office coordinates the Ask Me Campaign, New Student Convocation, and the Re-Connect program.

There are also great leadership opportunities for students available with OFYE to serve at student Orientation Leaders and help with a new student’s transition into the Coyote family. OFYE recruits and trains about 50 students to be Orientation Leaders. Applications are available in fall quarter and training is in spring quarter with the majority of work happening during the summer. Once classes begin, the programming
doesn't stop. There are a number of first-year experience programs students can partake in to enhance their university experience.

Santos Manuel Student Union (SMSU)
(909) 537-5940 SMSU website (http://studentunion.csusb.edu)

The Santos Manuel Student Union (SMSU), through its programs and facilities, is a focal point of the campus, where students, faculty, staff, administration, alumni, and guests develop an enduring connection to the university. As a campus social hub, the SMSU assists in the retention and development of students, while encouraging a deeper understanding and appreciation of cultural pluralism, gender equity, and ethnic diversity. We accomplished this by providing a variety of cultural, social, educational, and recreational activities, which create an environment conducive to personal growth and development. Planned activities also provide students with leadership opportunities and employment, which promotes an active learning experience as well as relaxation, entertainment, and social interaction. As the meeting place on campus for students and organizations, the facilities provide a comfortable and relaxing environment that embodies the delivery of services important to the university community. As a bridge between formal learning and life experience, co-curricular activities coordinated by the SMSU serve as a training ground for development of student leaders.

The SMSU facilities include a spacious lobby, relaxation and study lounge areas, meeting rooms, a state-of-the-art theater, multi-purpose Events Center used for major events, an automatic teller machine, graphics services, and Student Union scheduling. Our newest addition to assist our students academically is the laptop checkout program. Other services and departments located within the SMSU are the Coyote Cafe, the Blue Coyote Pub, Starbucks, Coyote Express convenience store, the Associated Students, Inc., DREAMers Resource and Success Center, Title IX & Gender Equity, Orientation and First Year Experience, and the Office of Student Engagement.

The Cross Cultural Center (CCC) focuses on issues of race and ethnicity in its mission to provide a space for all CSUSB students aside from cultural differences. The CCC provides programs and services to aid in students’ personal, educational, cultural, social, political, and professional growth and to foster a sense of community. Its programs and services combine to create a place for students to explore issues of identity, ethnic and cultural diversity, and work toward ending intolerance by the development of understanding.

The CCC has three integrated identity centers on campus, a result of student-led initiatives. The process encompassed many hours of research, meetings, forums, and round tables to discuss how these centers would promote retention and graduation rates for the underrepresented minorities (URMs). The administration and staff welcomed the invitation to be a part of this process and work with a dynamic group of students. These efforts highlight CSUSB’s first strategic goal: Student Success. The identity centers promote and celebrate all cultures with respect and integrity:

- The Pan-African Center (PAC) promotes and supports a sense of self-worth by focusing on developing the following six areas: Academic Excellence, Cultural Awareness, Leadership Development, Personal Development, Proactive Civic and Community Engagement, and Civic Engagement for people of the African Diaspora.
- The First Peoples’ Center is a welcoming, diverse, and cultural sensitive environment to all the student population. This center is dedicated to supporting the academic achievement and personal success of First People students while promoting and celebrating traditional heritage at CSUSB. (Opening February 2017)
- The LatinX Center provides a welcoming and dynamic environment that is supportive and inclusive for Latinos/as/x and allies. It strives to provide leadership and build community through programs that enhance culture, advocacy, and customs that will lead to the continued recruitment, retention, and graduation of Latino/a/x students at CSUSB. (Opening February 2017)

The Gamers Lounge is a great place to hang out with your friends and relieve a little stress through some friendly competition. Its proximity to the Food Court makes it an ideal place to have lunch while playing board games, billiards or video games. Throughout the quarter, they offer a wide variety of competitions and events, some for prizes and others for bragging rights. So bring your “A-Game” if you intend on relaxing in the lounge.

The Interfaith Center is a welcoming space for students of all faiths. This Center provides space for students to study, host meetings, and relax between classes. The center is equipped with a television, refrigerator, and microwave.

The Marketing Department provides multi-channel marketing services to the SMSU affinity centers as well as to on-campus departments. Our services include, but are not limited to, graphic design, photography, and communication/social media strategies. Additionally, our department develops and implements marketing campaign efforts to increase brand awareness of the student union and its services as a whole.

The Osher Adult Re-Entry Student Success Center (OARSSC) offers support for non-traditional students by providing programming that addresses both the academic and social needs of mature students. The OARSSC provides resources and referrals for services both on campus and in the community. The OARSSC is a place where students who have returned to school after a prolonged absence can gather for support, share interests and experiences, and participate in campus life. In addition, the OARSSC is pleased to offer the Osher Foundation and Crankstart Foundation Scholarships each year to qualifying students.

The Pride Center provides a safe, friendly environment for Lesbian, Gay, Bisexual, Transgender, Intersex, Queer, Questioning, and Allied students, faculty, and staff. The Pride Center provides programs and services to aid in students’ personal, educational, cultural, social, political, and professional growth and to foster a sense of community. The Pride Center is committed to providing services to LGBTQIQA students of all cultures, backgrounds, religions, classes, ethnicities, genders, and sexual orientations.

The Student Union Program Board promotes a sense of community at CSUSB through exciting, entertainment-oriented events, such as movie showings, bands, dances, and contests held in the SMSU. Program Board creates learning experiences for its members, which benefit the students of CSUSB as well as foster the personal and professional growth of the students. Members of Program Board develop their overall understanding of event management as it relates to budgets, marketing, negotiating, creativity, statistical reports, and research.

The Women’s Resource Center (WRC) provides support for students by offering a variety of programming, which focuses on issues which affect the lives of women. The WRC is committed to addressing sexism and discrimination in all its forms in order to create a more just environment for all. WRC is a place for students to gather, to gain support, and to learn tools for social change.
Services to Students with Disabilities (SSD)

University Hall, Room 183
(909) 537-5238, TTY (909) 537-7230
Fax: (909) 537-7090, Email: ssd@csusb.edu
Services to Students with Disabilities website (http://ssd.csusb.edu)

The Office of Services to Students with Disabilities (SSD) strives to empower students with disabilities by fostering skills, such as self-advocacy, resourcefulness, and independence. The SSD office works collaboratively with the campus community to remove barriers, promoting an enriched learning environment where students with disabilities can utilize their skills and pursue their academic and personal development goals.

SSD provides academic accommodations to students who have a documented permanent or temporary disability. All students who are registered with the office are provided with an equal opportunity to participate in programs, services, and activities.

Some of the support services available include but not limited to alternate media, notetaking, smartpens, sign language interpreting and real-time captioning services for the hearing impaired, test-taking accommodations, priority registration, mobility assistance, and temporary medical parking permits. The SSD office is also a resource to faculty and staff members who help students with disabilities meet their educational objectives.

The SSD Office, in collaboration with the California State Department of Rehabilitation (DOR), provides the WorkAbility IV program. WorkAbility IV is designed to create career opportunities for CSUSB students with disabilities that are consumers of DOR. Knowledgeable staff assists registered students with résumé writing and cover letter development; job search skills, strategies, and resources; preparation for job fairs and interviews; networking and personal brand development; internships; job leads and placements; and Federal employment advising (Schedule A and Workforce Recruitment Program).

Both prospective and new students to the university are encouraged to contact SSD early in their CSUSB academic program.

Student Clubs and Organizations

Office of Student Engagement
(909) 537-5234 Office of Student Engagement website (http://studentleadership.csusb.edu)

CSUSB is home to more than 150 student clubs and organizations and offers a wide range of roles and responsibilities. Clubs and organizations provide ready-made laboratories for students to strengthen their leadership skills and opportunities to test classroom learning in a real-world setting. They create their very own experiment with different roles, which help identify strengths, weaknesses, and preferences. Academic, cultural, religious, service, and special interest organizations are just a few examples of the types of clubs open to students. Membership in any student club or organization is an excellent way to enjoy all the benefits that college life has to offer, and it is one way to make the campus seem more like home. Students learn how to lead an organization, conduct effective meetings and elections, as well as develop communication, mediation skills, and public-speaking skills.

Fraternity and Sorority Life

Greek Life (https://www.csusb.edu/student-engagement/fraternities-sororities) is a great way to get involved on campus, and CSUSB is home to 21 national fraternities and sororities. Each fraternity and sorority contributes to campus life, supports the surrounding community, and assists in the development of leadership skills for each of its members. Joining a fraternity or sorority is a lifelong commitment. It is a commitment to sisterhood or brotherhood, to high standards of scholarship and moral conduct, and it is a commitment to yourself to strive for ideals created by the founders of each organization, most of which were created over 100 years ago. Greek organizations are rich with tradition, and members are often known for their involvement in philanthropic endeavors (also known as community service). In addition to the fraternities and sororities on campus, governing councils and Greek Honor Societies exist to foster relationships between the organizations and set high scholarship standards.

Leadership Education

The National Society of Leadership & Success (http://studentleadership.csusb.edu/LeadershipAcademy) is a comprehensive program that offers skill-building workshops focused on Individual Development, Organizations and Community, and Diversity Awareness. The NSLS includes a personal assessment of the students’ leadership potential and a strong focus on personal reflection as a tool for growth and development. With over 400 chapters nationwide and over 300,000 members, participation in this organization leads to strong networking skills. Members work closely with high-caliber advisors and national leaders to become inducted. Inductees are recognized at a special ceremony twice per year. NSLS members often describe their experience as life changing by increasing their self-esteem and personal effectiveness. Many students successfully land jobs after graduation and credit the National Society of Leadership & Success with their accomplishments.

Student Conduct and Ethical Development (SCED)

University Hall, Room 346
(909) 537-7172, Email: student-conduct@csusb.edu
Student Conduct and Ethical Development website (https://www.csusb.edu/student-affairs/student-conduct)

The Office of Student Conduct and Ethical Development is responsible for upholding the Standards for Student Conduct and educating students on their social and ethical responsibilities as members of our University community. Student Conduct Administrators facilitate educational conversations, experiences, and programs that promote student success, enhance learning experiences, and seek to engage students in intentional ways with their communities. The staff comprising the Office of Student Conduct and Ethical Development are committed to ensuring students have safe and healthy living and learning environments in which they are able to engage in campus life, interact with people who have a variety of beliefs and lived experiences, and participate in activities that encourage growth and curiosity, as well as scholarly and creative activity. Being a part of the Coyote community includes responsibilities for students to safeguard the academic mission of the institution; abide by federal, state, and local laws; and uphold the Standards for Student Conduct, University policies, and regulations to maintain a culture of integrity both in and out of the classroom.
The Office of Student Conduct and Ethical Development responds to a variety of behavioral concerns, including academic dishonesty and behavioral complaints. Program staff are also available as a resource for consultation and to provide educational workshops or presentations upon request.

Copies of the Standards for Student Conduct and Student Conduct Procedures are available online (https://www.csusb.edu/student-affairs/student-conduct) or via the Office of Student Conduct and Ethical Development, University Hall, Room 346.

Student Health Center (SHC)

Accredited by the American Association of Ambulatory Health Care (909) 537-5241 Student Health Center website (https://www.csusb.edu/student-health-center)

The mission of the Student Health Center is to provide compassionate, accessible and cost effective clinical and preventative health services for the student community to assist students with their academic and professional success. We are staffed with Doctors, Physician Assistants, Nurse Practitioners, Nurses, and Medical Assistants. Our medical services include: primary care, immunizations, and health education. The SHC is also conveniently equipped with a pharmacy and laboratory. For major illnesses, injuries requiring a specialist or hospitalization, or services that are considered beyond the scope of the Student Health Center, students are referred to a local community health facility. It will be the student's responsibility to pay the costs associated with the referral to the outside provider. Though not a condition of enrollment, it is important to carry health insurance.

All regularly enrolled students are eligible for services. Students in the Extended Learning program and those on staff fee waiver are not eligible.

Office hours are:

Monday and Thursday: 8:00 a.m. - 5:00 p.m. - Tuesday and Wednesday: 8:00 a.m. - 6:00 p.m. Friday: 9:00 a.m. - 5:00 p.m.

The Student Health Center is closed on official university holidays. Summer hours may vary.

In case of an on-campus emergency, contact the department of Public Safety by dialing 911.

Immunization Requirements: In accordance with the policy of the California State University, all new students and students applying for re-admission born on or after January 1, 1957 must present proof of measles and rubella immunizations. Hepatitis B vaccine series is also required of first-time enrollees under the age of 19. However, students may be exempt if they graduated from a California Public School during or after 2005. Meningitis vaccine is highly recommended for students living in housing.

Immunization requirements must be fulfilled in advance of or during the first quarter of attendance at CSUSB. Students may fulfill these requirements by bringing, faxing (909) 537-7027, or mailing documentation to the Student Health Center. The Student ID number and date of birth must be on all documents. For those students unable to obtain acceptable proof of immunizations, the Student Health Center will provide the immunizations to all currently enrolled students for a fee. For specific information about required immunizations, visit the Student Health Center website (https://www.csusb.edu/student-health-center/immunizations), or call the Student Health Center at (909) 537-5241.

Student Health Advisory Committee: Students can offer important feedback about services and participate in campus-wide health initiatives through membership on the Student Health Advisory Committee (SHAC). SHAC members work with clinic staff on a variety of critical issues, health education projects, and also act as a liaison between the CSUSB student body and the Student Health Center.

Student Recreation and Wellness Center

(909) 537-BFIT Student Recreation and Wellness Center website (http://recsports.csusb.edu)

The Student Recreation and Wellness Center offers an exciting array of programs in the areas of fitness, group exercise, wellness, intramural and club sports, aquatics, leadership and communication, outdoor adventure, and informal recreation. This 38,000-square-foot complex, located at the south end of campus, houses a 34’ climbing wall, 8,800-square-foot fitness room, multi-purpose athletic court, locker rooms, and two group activity rooms for aerobics, dance, and martial arts classes. The Recreation and Wellness department is dedicated to providing a variety of safe and enjoyable programs and facilities to meet the diverse needs of the CSUSB community by creating a healthy social environment, enriching the quality of life and enhancing the educational experience. All enrolled CSUSB students, staff, faculty, and Alumni Association members regardless of age, gender, experience, and ability are welcomed.

Fitness/Wellness/Group Exercise

The Student Recreation and Wellness Center offers one-on-one training, buddy training, personal training development courses, and fitness assessments as a complement to our state-of-the-art fitness room. The Group Exercise program offers over 40 classes per week. All programs are designed to enhance the participant's experience and facilitate healthy living habits. Equipment and services include:

- Treadmills
- Elliptical Trainers
- Recumbent/Upright Bike
- Steppers
- Weight Trainers
- Functional Training Equipment
- Free Weights
- Plate Loaded Equipment
- Heavy/Speed Bags
- Fitness Assessments
- Cardio Classes
- Cycling Classes
- Dance Classes
- Instructional Classes
- Mind/Body Classes
- Sculpt Classes

Informal Recreation

The hours of the Student Recreation and Wellness Center are designed to meet the demands of the busy lives of our participants with several opportunities from the early opening hours until the late evening. When there is not organized play in the gymnasium or group exercise rooms, drop-in use is allowed. Members can meet up with friends to shoot hoops or practice their hip-hop or martial arts skills. Informal recreation hours will be posted outside of each of the three available rooms.

Climbing Wall
As the centerpiece of the Student Recreation and Wellness Center, a 34' climbing wall offers opportunities for beginner and intermediate classes, open climbing, and social events. All equipment is provided, and a safety orientation and skills test are offered to participants.

Outdoor Trips

The unique location of the campus within close proximity to the Pacific coastline, the wilderness of Baja, the peaks of the Sierra Nevada Mountains, and the High Desert allows for a wide range of activities. Participants on outings will learn how to safely explore the great outdoors, develop an appreciation and understanding of their natural surroundings, experience personal growth, leadership development, learn teamwork and healthy communication skills, and, of course, have fun.

Intramural Sports

The Intramural Sports program offers a variety of sport leagues and tournaments for all skill levels and interests. Opportunities are available for participants who just want to learn a new sport or for the very competitive players who want to own on-campus bragging rights. Intramural sports leagues are designed for players to enjoy themselves in a safe environment. Sports include:

• Basketball
• Flag Football
• Soccer
• Dodgeball
• Softball
• Volleyball
• Indoor Soccer

Sport Clubs

The Sport Club program promotes student participation in a wide range of competitive and recreational sports. Each sport club is managed and run by student leaders. Sport Club participants not only enjoy the rewards of competition, but also gain skills in collaboration, leadership, problem-solving, and financial management. Current clubs include:

• Mixed Martial Arts
• Coyote Running
• Women's Soccer
• Table Tennis
• Men's Soccer
• Women's Volleyball
• Men's Volleyball
• Water Polo
• Pack Tennis Club
• Badminton Club
• Paintball Club
• Archery Club

Aquatics

The swimming pool is located behind the Physical Education building. Hours vary and can be found on the Recreational and Wellness webpage. Services include:

• Lap Swimming
• Certification and Training
• Learn To Swim Instructional Classes
• Aerobics

Leadership Challenge Center

The state-of-the-art Leadership Challenge Center provides unique team-building and leadership development programs for CSUSB students, departments, clubs, and teams. The course also serves the surrounding community for groups such as school districts, military, and corporations alike.

Our programs are designed to help teach people how to appropriately build trust in others, increase individual interpersonal skills, social skills, and physical abilities. The Leadership Challenge Center consists of the 50-foot-high structure, as well as low challenge elements built lower to the ground. The team elements section allows teams of two to eight people to work together and support each other in problem solving, as well as an individual/partner portion that emphasizes support and goal setting. The center's programs provide a safe environment that allows participants to step outside their comfort zone, take a risk, learn, and grow.

University Police

911 for emergencies
(909) 537-5165 or (909) 537-7777 for police business

The University Police Department is a duly authorized law enforcement agency. The mission of the department is to protect the life and property of the campus community. The department provides professional service to the University community through proactive patrol, diligent crime prevention, and disaster preparedness. We provide these services utilizing our core values of safety and service, integrity, and using a community CPOP (Campus Problem Oriented Policing) approach. The Department's mission of campus safety through service is reflected in our motto "Campus Safety Through Service."

All university police officers are fully trained California state peace officers with law enforcement authority throughout the State of California. The officers provide a full range of service, including law enforcement, crime reporting and investigation, crime prevention training, motorist assistance, traffic enforcement, accident investigation, lost and found property, disaster preparedness, escorts, and medical and fire emergency response and coordination. The University Police Department operates 24 hours per day, 7 days per week, and can be reached by dialing 911 for emergencies and (909) 537-5165 or (909) 537-7777 for all other requests.

A complete “Campus Safety Report” is available through the home university web page CSUSB website (http://www.csusb.edu), in a pamphlet from University Police, or from Human Resources. Additional information is available on the university web page under the University Police tab.

Veterans Success Center

(909) 537-5195 Veterans Success Center website (http://veterans.csusb.edu)

Since opening in May 2012, CSUSB’s Veterans Success Center (VSC) has built a strong reputation throughout the Inland Empire for offering innovative leadership opportunities and education programs. The center is ranked a top 20 school in the nation by Military Times and as a top military school in the state of California by two top national college guides for veterans. On Nov. 10, 2014, the VSC opened its second location at the CSUSB-Palm Desert Campus to better serve Coachella Valley veterans and dependents. The center's mission is to provide support services focused on the special needs and requirements of today's military veterans, service members, and dependents to assist them in
transitioning to the university environment and achieving their academic and personal development goals. The VSC is a 1,200-square-foot facility, which houses a computer lab, where student veterans, military members, ROTC cadets, and dependents can work on assignments; a group room for students to congregate between classes and hold study groups; and a lending library, where students can checkout textbooks free of charge. The center offers dynamic programs that are comprehensive in scope and sensitive to the unique needs of service members. Services include new student veterans’ orientation, a monthly seminar series, a weekly support group, STEM tutoring, advocacy and referral services, a military veterans writers group, and arts and crafts.
Financial Information

Students are required to pay tuition in accordance with the instructions provided in the quarterly Class Schedule and via My Coyote Self Service. Non-resident students shall pay tuition in addition to other university fees.

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU must reserve the right, even after tuition or fees are initially charged or initial fee payments are made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory system wide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU-listed tuition and fees should be regarded as estimates that are subject to change upon approval by the Board of Trustees, the Chancellor, or the Presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 – 66028.6 of the Education Code).

Effective fall 2015 Campus Category II Fees charged to students will be adjusted using the Higher Education Price Index (HEPI) on an annual basis. Yearly increases are not to exceed 4% of prior year HEPI. The Associated Students Incorporated fee and the ID fee will not be impacted. Visit the Student Financial Services website at https://www.csusb.edu/student-financial-services for more information.

Fees

Cash, checks and ATM debit cards will be accepted at Student Financial Services. Electronic checks, VISA, MasterCard, Discover, and American Express will be accepted through a third party vendor. There is no fee for electronic checks. A service fee will be assessed for credit card payments. Credit cards are no longer accepted on campus, except in the bookstore, commons. The application fee, identification card fee, enrollment deposit, SOAR fees and late registration fees are nonrefundable.

The following reflects applicable systemwide tuition for quarter campuses that were authorized by the Board of Trustees at their March 2017 meeting. These rates are subject to change.

| All students | 55.00 |
| Application fee (nonrefundable, payable by check or money order at time of applying) |

| Basic Tuition Fees 2017/18 |
| Undergraduate Tuition Fee |
| 0-6 units | 1,110.00 |
| 6.1 or more units | 1,914.00 |
| Credential Tuition Fee |
| 0-6 units | 1,288.00 |
| 6.1 or more units | 2,220.00 |
| Graduate/Post baccalaureate |
| Tuition Fee |
| 0-6 units | 1,388.00 |
| 6.1 or more units | 2,392.00 |

Graduate Business Professional Fee, per unit 180.00

Supplemental Fee: MPA online courses per unit fee 90.00

Doctoral Candidates Tuition Fee* |
| All Students | 3,946.00 |

Western University Exchange Program |
| 0-6 units | 1,665.00 |
| 6.1 or more units | 2,871.00 |

Associated Students, Inc. Fee |
| Fall | 32.00 |
| Winter | 29.00 |
| Spring | 29.00 |
| Summer | 21.00 |
| Coyote One Card | 5.00 |
| Replacement | 10.00 |

Student Success Fee 57.81

Instructionally Related Activities Fee:

| Fall | 53.52 |
| Winter | 51.38 |
| Spring | 51.38 |
| Summer | 19.27 |

Nonresidents (U.S. and foreign)

Tuition (in addition to other fees charged to all students):

| per unit | 264.00 |
| one-half unit | 132.00 |

| Residence Halls (estimated annual costs) |
| Serrano Village |
| Double Residence Hall | $4,437 + mandatory meal plan $2,553.00= 6,990.00 |
| Single Residence Hall | $5,535 + mandatory meal plan $2,553.00= 8,088.00 |
| Super Single Residence Hall | $6,012 + mandatory meal plan $2,553.00= 8,565.00 |
| Arrowhead Village |
| Single B/C apartment, no meal plan required | 6,210.00 |
| Single A/D apartment, no meal plan required | 6,489.00 |

#### State Tuition Fee (STF)

A state tuition fee has been established by the trustees of the California State University to provide financing for various student services programs not covered by state funding.

#### Nonresident Students (U.S. and Foreign)

Nonresident Tuition is in addition to basic tuition and other system wide fees charged to all students. The total nonresident tuition paid per term will be determined by the number of units taken. Mandatory system wide tuition is waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Students are charged campus fees in addition to tuition and system wide fees. Information on campus fees can be found by contacting the individual campus (es).

#### Graduate Business Professional Fee

The Graduate Business Professional Fee is paid on a per unit basis in addition to the basic tuition and campus fees for the following graduate business programs:

- Master of Business Administration (M.B.A.) programs
- Master of Science (M.S.) in Accountancy programs
- Master of Science (M.S.) in Information Systems

#### Fee Waivers and Exemptions

The California Education Code includes provisions for the waiver or exemption of mandatory systemwide tuition as follows:

Section 66025.3 –Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse (who has not remarried) of a member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of service-connected disability.
result of an event that occurred while in the active service of the state; and undergraduate student who is a recipient of a Medal of Honor, or undergraduate student who is a child of a recipient of a Medal of Honor who is no more than 27 years old, meets the income restriction and California residency requirement.

Section 66002 – Qualifying students from the California State University that are appointed by the Governor to serve as Trustees of the California State University for two-year terms.

Section 68120–Surviving spouse or child of a deceased public law enforcement or fire suppression and prevention employee who was a California resident and was killed in the performance of active law enforcement or fire suppression and prevention duties (referred to as Alan Pattee Scholarships), must enroll as an undergraduate student at the California State University and meets income restriction requirement.

Section 68121–Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Students who may qualify for the above benefits should contact the Office of Financial Aid for further information and/or an eligibility determination.

The California Education Code provides for the following nonresident tuition exemptions:

Section 68075.7 – Nonresident students are exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if they (1) reside in California, (2) meet the definition of “covered individual” as defined in subsection (c) of Section 3679 of Title 38 of the United States Code, as that provision read on July 1, 2015; and (3) are eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program or the Post-9/11 GI Bill program as each read on July 1, 2015.

Section 68122 – Students who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 – Students who are not residents of California are exempt from paying nonresident tuition if they (1) attended high school in California for three or more years, or (b) attained credits earned from a California high school equivalent to three or more years of full-time high school coursework and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of those schools; (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus. In addition, students without lawful immigration status will be required to file an affidavit stating that they have filed an application to legalize their immigration status, or will file an application as soon as they are eligible to do so. This exemption from paying nonresident tuition does not apply to students who are non-immigrant aliens within the meaning of 8 United States Code 1101(a)(15), except as provided by Section 68122 above.

### Disabled Student Quarterly Parking Fee Waiver

Disabled students receiving financial aid may qualify for waiver of the campus parking fee.

In order for a student to be eligible for the waiver of their Campus parking fee, a student must:

1. Possess a valid state DMV Handicap Parking Placard or Plates in their name;
2. Have “...demonstrated financial need for parking fee financial assistance according to the need analysis procedure for campus based financial aid authorized by Title IV of the federal Higher Education Act of 1965, as amended (20 U.S.C. 1087kk et seq.).”
3. Submit the CSUSB “Request for Waiver of Campus Parking Fees,” following the proper procedures described on the form. Forms may be obtained at the following offices during their normal office hours: Services to Students with Disabilities (UH-183), Financial Aid Office (UH-150), Parking Services (UH-039).

For additional information on the Disabled Student Quarterly Parking Fee Waiver, visit the Financial Aid Office website, CSUSB Financial Aid website (https://finaid.csusb.edu) and click on Disabled Students.

### Refund of Mandatory Fees Including Nonresident Tuition

Student Financial Services
(909) 537-5162

Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refunds of fees and tuition charges for self-support, special session, and extended education programs or courses at the California State University are governed by a separate policy established by the University, available at the College of Extended Learning.

In order to receive a full refund of mandatory fees, less an administrative charge established by the campus, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available in the Schedule of Classes.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university’s established procedures will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition. For state-supported non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless
a student cancels registration or drops all classes prior to the first day in accordance with the university’s established procedures and deadlines.

Students will also receive a refund of mandatory fees, including nonresident tuition, under the following circumstances:

• The fees were assessed or collected in error;
• The course for which the fees were assessed or collected was cancelled by the university;
• The university makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
• The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances. A university designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Fees and Debts Owed to the University

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may “withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of charges and fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition and processing fees for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the campus business office. The business office, or another office on campus to which the business office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

For more information or questions, contact Director of Accounting Services, Deletta Anderson, at (909) 537-5153 or dranders@csusb.edu.

Federal Refund Policy

Effective September 1, 2000, federal financial aid regulations are very strict concerning dropping classes after receiving Federal Grant Aid. Students are expected to complete a minimum number of units per term. By dropping all classes prior to the 60% mark of the term, students will owe a repayment based on a chart of percentages available in the Financial Aid Office. Once a repayment has been calculated, students have 30 days to repay the funds.

Federal financial aid regulations also state that students may not pay a prior debt with future financial aid. This means that students must repay the amount due prior to receiving future financial aid. Before deciding to drop classes, students should meet with a Financial Aid Advisor in the Financial Aid Office in University Hall to make an appointment with a financial aid advisor. The advisor will calculate the expected repayment of federal grant funds and will explain options.

Parking and Transportation Services

(909) 537-5912; parking@csusb.edu
CSUSB Parking website (http://parking.csusb.edu)

Parking and Transportation Services is located in University Hall Room 039. The office is open during fall, winter, and spring quarters from 8:00 am to 5:00 pm, Monday through Friday.

All vehicles parked on campus must display a valid CSUSB permit. Students may purchase quarterly or annual permits online (https://csusb.t2hosted.com/Account/Portal). Daily parking permits may be purchased from any of the parking permit machines located throughout the campus.

Drivers assume all risks when parking on campus. Neither the University nor the State of California is responsible for loss or damage to vehicles or to personal property within the vehicle when parked on campus.

Parking field staff will provide motorist assistance if you require a battery jump or lock your keys inside of your vehicle. You may phone for service at (909) 537-5165.

Alternative Transportation

CSUSB encourages the use of sustainable modes of transportation by students, faculty and staff. Swipe your CoyoteOne card for free, unlimited rides on the OmniTrans buses. Visit the transportation website (https://commuter.csusb.edu) for more information including vanpool, carpool, partner matching, incentives, and the Palm Desert Campus shuttle.

Availability of Institutional and Financial Assistance Information

The following information regarding student financial assistance may be obtained from the Office of Financial Aid & Scholarships, University Hall 150, (909) 537-5227.

• A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at California State University, San Bernardino.
• The estimated cost of attendance for California State University, San Bernardino which includes tuition and fees; estimated amounts for books and supplies, room and board, personal and transportation costs.
• The rights and responsibilities for students receiving financial aid and the criteria for continued eligibility.
• The Satisfactory Academic Progress (SAP) standards that measure academic progress towards a degree.
• The financial aid disbursement policy that is applied to all students receiving financial aid for every term of the academic year.
• The course repeat policy that reduces financial aid awards for all students receiving federal funds every term of the academic year.
• Information on the Title IV program requirements for the treatment of Title IV funds when a student drops or withdraws or fails to follow official withdrawal procedures.
• The terms and conditions for students who participate in the Federal Work-Study Program.
• The terms and conditions for loans received under the Federal Direct Loan Program.

Information concerning other available campus services is listed below:

• Refund and withdrawal policy for tuition and fees.  
  Student Financial Services, University Hall 034, (909) 537-5162.
• University-related problems, complaints or concerns.  
  Ombuds Services, Pfau Library 268, (909) 537-5635.
• Special facilities and services available to students with disabilities.  
  Services to Students with Disabilities (SSD), University Hall 183, (909) 537-5238.
• Athletic opportunities, resources and personnel available to student athletes.  
  Athletics department, HP-106, (909) 537-5011.
• Teacher preparation programs, including the pass rate on teacher certification examinations.  
  College of Education, CE 221, (909) 537-5600.
• Policies, procedures, and facilities to report criminal activity and other campus emergencies. Information is also available regarding annual campus security and fire safety reports.  
  University Police 125, (909) 537-7138.
• Prevention of drug and alcohol abuse and rehabilitation programs.  
  Student Affairs, University Hall 231, (909) 537-5185.
• Student retention and graduation rates.  
  Student Affairs, University Hall 231, (909) 537-5185.
• Provides policies and complaint procedures regarding Title IX discrimination on the basis of sex, educational, extracurricular and athletic activities.  
  Title IX & Gender Equity, Santos Manuel Student Union 103A, (909) 537-5669
• Grievance procedures for students regarding university policies, practices and procedures.  
  Student Affairs Officer, Office of the Vice President for Student Affairs, University Hall 231, (909) 537-5185.
• Provides comprehensive career services for the advancement of student learning and career success.  
  Career Center, University Hall 329, (909) 537-5250.

Financial Aid

Office of Financial Aid & Scholarships  
(909) 537-5227 Office of Financial Aid & Scholarships website (http://finaid.csusb.edu)

The Office of Financial Aid & Scholarships administers a variety of Federal and State programs to assist eligible students. Sources of aid include the Federal Pell Grant, Supplemental Educational Opportunity Grant (SEOG), Cal Grant A & B, Federal Direct Loans, TEACH Grant and the Federal Work-Study program. Private/alternative loans are also available. The Office of Financial Aid & Scholarships also administers the State University Grant (SUG), Graduate Business Grant (GBG), Ed Doctorate Grant (Ed Doc) and Educational Opportunity Program Grant (EOP). A full description of the university’s financial aid programs is available on the Office of Financial Aid & Scholarships website (http://finaid.csusb.edu).

• The Free Application for Federal Student Aid (FAFSA) must be filed by March 2nd each year to be considered for the Cal Grant Programs. Applications are still accepted throughout the school year to be considered for other types of financial aid as long as funding is available. You may complete the FAFSA online at the FAFSA website (http://fafsa.ed.gov).

• The California Student Aid Commission’s DREAM ACT (http://www.csac.ca.gov) Application is used to determine the financial aid eligibility of students who meet the qualifications of AB540, and who are without a valid immigration status. This application must be filed by March 2nd each year to be considered for the Cal Grant Programs. Applications are still accepted throughout the school year to be considered for other types of financial aid as long as funding is available. The application collects basic personal and income information to determine a student’s eligibility for funding under AB 131.

• The Federal Military Selective Service Act requires most males residing in the United States to register with the Selective Service System within thirty days of their eighteenth birthday to receive financial aid, federal grants and loans. Selective Service registration forms are available at any U.S. Post Office. Applicants may request to be registered directly on the FAFSA or online on the Selective Service System website (http://www.sss.gov).

Federal Work-Study. Work-Study is a federally funded program that provides part-time employment for students who are eligible to participate in need-based financial aid programs. Work-Study students are placed in on and off-campus positions to help offset a portion of their educational expenses. Work-Study at CSUSB also provides opportunities for students to develop job skills and secure academic or career-oriented jobs. For additional information visit the Office of Financial Aid & Scholarships website (http://finaid.csusb.edu) or contact the Student Employment Team at (909) 537-5225.

Financial Aid Chart

You may contact the Office of Financial Aid & Scholarships for questions and assistance with all aid programs. You may need to contact your High School or College Counselor for assistance with local scholarships or Cal Grants.

Other financial assistance programs are available through Veterans Administration, California State Rehabilitation, ROTC, Social Security, Bureau of Indian Affairs and other public assistance agencies. Please visit the Office of Financial Aid & Scholarships website (http://finaid.csusb.edu) for more information.

Scholarships listed below are awarded to new and continuing students attending CSUSB. The CSUSB Office of Financial Aid & Scholarships administers most scholarships on campus. Scholarships administered by the CSUSB Office of Financial Aid & Scholarships can be applied for on-line via MyCoyote (https://mycoyote.cms.csusb.edu) from January 1 through March 2 each year. Applicants need only to complete the on-line scholarship application once to be considered for all scholarships for which they are eligible. For further information, contact the Office of Financial Aid & Scholarships Hotline at (909) 537-7399. Department majors and associations administer some of the scholarships listed below. Applications and further information about them may be obtained by calling the phone numbers listed at the end of each posting.

Scholarships for Incoming Freshmen

Alfred and Chella Moore Scholarship provides scholarships to incoming freshmen with outstanding academic records (3.5 GPA minimum). Some awards may automatically be renewed for an additional three years. No special application is required for renewal.

CSUSB President’s Academic Excellence Scholarship is awarded to San Bernardino County high school students who graduate within the top 1% of their high school graduating class. Students must be nominated by
their high school principal in order to be considered for this award. The scholarship is renewable.

**Harris-Meyers Scholarship** provides scholarships to incoming freshmen from San Bernardino City Schools with outstanding academic records (3.5 minimum GPA). Some awards may be renewed for an additional three years. No special application is required for renewal.

**Joseph K. Thomas Scholarship** is awarded to incoming freshmen or transfer students registered as a full-time music major. Recipient must enter CSUSB with a high school or previous college or university cumulative GPA of 3.25 or better. Must agree to participate fully in the major performing ensemble most appropriate to his/her applied performance emphasis during the entire academic year for which the scholarship is awarded, and with the scholarship application form each candidate must submit a letter summarizing the student’s degree of need for scholarship assistance. Candidates who meet the above criteria will demonstrate their music performance proficiency at an audition to be scheduled about four weeks following the application deadline.

**Robert and Claire Forsythe Scholarship** is awarded to incoming freshmen with a minimum 2.0 GPA. Student must be enrolled at CSUSB with at least 6 quarter units. Preference will be given to Arts and Letters majors.

**San Bernardino Confidential Management Association Scholarship** awards a scholarship to a full-time incoming freshman with a minimum 3.0 GPA with at least one parent employed by the City of San Bernardino. Preference is given to students who are the first person in their immediate family to attend college. If there are no applicants where one parent is employed by the City, students should be a resident of the City of San Bernardino.

Off-Campus Scholarships

Off-campus scholarships are administered by other organizations not affiliated with CSUSB. Organizations such as community organizations, private companies, religious affiliations, etc. Listed below are just a few of the different sources to use when searching for off-campus scholarships. The information below was provided by off-campus organizations. Additional scholarships can also be found on the online Scholarship application by clicking on the “Search Scholarships” link.

Army ROTC Scholarships Through arrangements with Claremont McKenna College and the Department of Military Science at California State University San Bernardino, Army Reserve Officers’ Training Corps programs are available to all qualified CSUSB students. Academic units earned in the program may be counted as elective units toward fulfillment of graduation requirements. Upon graduation and the successful completion of the Army ROTC program leads to a commission as a Second Lieutenant in the United States Army. Subsequent service will follow either as an active duty officer, an Army National Guard officer, or as a Reserve officer. Scholarships for two, three and four years are available to qualified students. Scholarships cover tuition or room and board. A monthly stipend is paid during participation in the program. In addition, participants receive a annual book allowance. Simultaneous participation with an Army National Guard or Reserve unit is also available. Army ROTC students in this program receive additional pay and benefits. There are also additional benefits for veterans. Interested students may obtain more information by calling the Army ROTC Program, California State University, San Bernardino at (909) 537-5533 or the enrollment officer at (909) 286-0113, email jmcb@csusb.edu.

Gates Millennium Scholars Program (GMS) (http://www.gmsp.org) Established in 1999, the program was initially funded by a $1 billion grant from the Bill & Melinda Gates Foundation. The goal of GMS is to promote academic excellence and to provide an opportunity for outstanding minority students with significant financial need to reach their highest potential. The GMS program is more than just a scholarship. The GMS program offers Gates Millennium Scholars with Academic Empowerment (ACE) services to encourage academic excellence; mentoring services for academic and personal development; and an online resource center that provides internship, fellowship and scholarship information.

John Gyles Education Awards are available to U.S. citizens, must have minimum 2.7 GPA and have financial need. Visit the John Gyles Education Awards website (http://www.collegexpress.com/scholarships/john-gyles-education-award/16936) to apply.

SAP America Scholarship Program This program recognizes outstanding undergraduate students pursuing a degree in business, computer science, mathematics, or engineering. To learn more about the program and its requirements, visit their website. To apply for the scholarship program, visit the application site Scholarship Application. To be considered, applicants are required to submit the completed application, current transcript, resume, paper, and letter of recommendation following the directions listed in Program Requirements, to citizenship.usa@sap.com (http://citizenship.usa@sap.com).

The Hispanic Scholarship Fund (HSF) and College Access Foundation have partnered to provide scholarship awards to assist outstanding Latinos who are high school seniors from Inland Empire (California counties of Riverside and San Bernardino) and that are planning to enroll at either the University of California, Riverside or California State University, San Bernardino. Selected students may receive the award for up to four years.

The Pathways to Success Program awards scholarships to Coachella Valley undergraduate students who have a minimum 2.0 GPA, and have financial need. Students must demonstrate leadership or involvement in their community or school and have the desire and motivation to succeed. Students must submit two letters of recommendation from a professor, instructor, counselor, or community leader. Applications are available at The Pathways to Success Program and must be postmarked by the established deadline for the award year.

The National Federation of the Blind is currently accepting scholarship applications. Scholarship awards range from $3,000 to $10,000. Visit the National Federation of the Blind website to apply.

The Paying for College Resource Guide is provided by congresswoman Lucille Roybal-Allard's District office. Constituents of the 34th District may request hardcopies to be mailed to them directly. This directory is updated once a year. Please check with each scholarship contact or website for the most current information.

Other Information Regarding Scholarships

Scholarship Search Engines are tools students can use to locate other scholarship opportunities. Students provide a profile, and the search engine alerts them to scholarship opportunities that match their criteria.
Listed below are just a few examples of Scholarship Search Engines that students may use:

**FastWEB** is one of the largest scholarship search engines on the Internet. It provides access to a searchable database of more than 275,000 private sector scholarships, fellowships, grants, and student loans available to students.

**ScholarshipExperts.com** has been helping parents and students find scholarships for over five years. The database is constantly updated to provide the most accurate scholarship information available.

**Scholarships.com** is a free college scholarship search and financial aid information. It assists parents and students in obtaining scholarship awards for college and in exploring all financial aid for which the student is eligible. It also provides information and resources of local, state, and national scholarships and grant opportunities, in addition to the Federal and private loan options for funding a college education.

The Office of Financial Aid & Scholarships provides students with information on how to find scholarships, and also provides information that educates, such as scholarship scams. Listed below are some additional web sites:

- The Federal Trade Commission (FTC) web site (http://www.ftc.gov) has information on scholarship scams and how to avoid them.
- National Association of Financial Aid Administrators (http://www.nasfaa.org) has consumer scholarship tips.
- The Federal Student Aid (http://studentaid.ed.gov) programs are the largest source of student aid in America, providing over $40 billion a year in grants, loans, and work-study assistance. Students will find help for every stage of the financial aid process, whether in school or out of school.
### Academic Regulations and Standards

All students who register at California State University, San Bernardino in resident study must first be admitted to the university by the Office of Admissions and Student Recruitment.

No student may attend classes unless officially registered and appropriate fees have been paid. Students are required to make all payments on the regularly announced days.

Students are granted credit only for those courses in which they are formally registered and are responsible for completing all courses under their name on the schedule confirmation list, except those courses they officially change through My Coyote Self Service.

### Class Level of Students

Students are classified at the end of each quarter according to total earned credits accepted for transfer and/or completed at California State University, San Bernardino as follows:

<table>
<thead>
<tr>
<th>Status</th>
<th>Units earned</th>

### SOAR (Student Orientation, Advising & Registration)

CSUSB Orientation and First Year Experience website (http://orientation.csusb.edu)

SOAR (Student Orientation, Advising & Registration) is CSUSB's student orientation program that is required for all newly admitted undergraduate students to attend. It is much more than simply choosing classes or taking a campus tour. It is an opportunity to meet other new students, review academic choices with academic advisors, learn how to be a successful student, and learn what it means to be a CSUSB Coyote.

SOAR provides students with key resources and tools to help ease the transition into the CSUSB community as students bond with other new students, fellow upper classmen, and Orientation Leaders. Through workshops, discussions, guest speakers and special events, this experience will prepare students for life as a Coyote.

### Advising

Students must take responsibility for the decisions which affect their academic progress. Faculty, staff and peer advisors at the university are available to assist students by providing academic advisement during their office hours or by appointment.

However, before a student meets with an advisor, the following steps are highly recommended:

1. Become knowledgeable about university policies, procedures and requirements.
2. Bring an updated copy of your PAWS (Program Advising Worksheet for Students) to the advising appointment.
3. Develop a tentative course schedule using the University Bulletin, Class Schedule and PAWS.
4. Gather all relevant decision-making information such as work schedules or other time commitments.
5. Prepare a list of questions or topics to discuss with the advisor. This is a good opportunity to discuss educational and career goals.

### Faculty Advisor

Students have the opportunity to meet with a faculty advisor each term for help in planning their academic programs and schedules of classes. Usually, the faculty advisor is from the student's major field. To make contact with an advisor use Who is My Advisor (https://www.csusb.edu/advising/services/who-my-advisor) or call the appropriate department office as listed in the Class Schedule. Students who have not yet declared a major should contact the office of Advising and Academic Services for an appointment. All students should confer with an advisor on a regular basis.

### Academic Probation

Undergraduate students who are placed on academic probation must confer with an academic advisor in the office of Advising and Academic Services prior to registration and must adhere to the advisor's specific recommendations which are designed to improve the student's grade point average and overall success at CSUSB. Students in EOP (Educational Opportunity Program) must meet with the EOP office for academic probation.

### Academic Course Load

Students planning to finish their undergraduate degree requirements in four years by attending three quarters each academic year must complete a minimum of 15 degree applicable units per quarter. To be considered full-time for veterans benefits and financial aid purposes, an undergraduate student must enroll in a minimum of 12 units. Students may register for up to 17 quarter units per term (seniors may register for up to 19.5).

### Unit Overloads

A student may register for more than 17 units (19.5 for seniors) only upon petition to his or her college dean. Normally, petitions are approved only if both the grade point average for the previous term and the overall...
grade point average are 3.0 or better. Additional units may be added once "Open Enrollment" begins, if classes remain open and the overload is approved. During summer, only 17 max units are allowed for the term.

**Mandatory Basic Skills**

College-level skills in written communication (composition), computation (mathematics), oral communication and critical thinking are basic to success at the university. To qualify for first-year Composition and General Education mathematics courses, all new students who are not exempt must take the English Placement Test (EPT) and the Entry Level Mathematics (ELM) tests before registering for their first quarter of attendance. Students are also required to complete the English Department’s Directed Self-Placement (DSP) assessment in order to select the appropriate English composition course. Students may choose to enroll in any of the five first-year Composition options (ENG 102A - ENG 103A - ENG 104A), (ENG 102B - ENG 103B - ENG 104B), (ENG 105A - ENG 106A), (ENG 105B - ENG 106B) or ENG 107. They must remain enrolled in their chosen option until their General Education requirement has been completed (ENG 104A, ENG 104B, ENG 106A, ENG 106B, or ENG 107). All new students who have not completed the General Education mathematics requirement (or equivalent courses) must enroll in a General Education mathematics course (MATH 110, MATH 115, MATH 120, MATH 165, MATH 192, or MATH 211). They must remain enrolled in these courses until the requirement has been completed. Students who do not qualify for enrollment in those courses must enroll in appropriate developmental courses (MATH 75, MATH 80 or MATH 90, depending on ELM scores) until they are qualified to enroll in the General Education mathematics requirement. Students must complete the first-year composition course and any required developmental work in mathematics during the first year of enrollment unless granted an exception. The academic year begins July 1 and ends June 30. Failure to meet these requirements will result in the ending of matriculation at CSUSB. Contact the office of Advising and Academic Services for special circumstances at (909) 537-5034 or (909) 537-5035.

**Accelerated Progress**

Some students choose to accelerate progress toward completion of their objectives through a program of independent study and registration for additional course credits.

In addition, credit-by-examination procedures permit students to demonstrate their mastery of the content of local courses, as described below, or courses offered through the Advanced Placement Program, International Baccalaureate Program, or the subjects tested by the College Level Examination Programs.

Students wishing to enroll for additional course work during the academic year should follow the procedures described in the section on academic course load, above.

**Credit for Comprehensive Examination Courses**

Any student admitted to this campus may earn degree credit for no more than three comprehensive examination courses regardless of the total units earned in those courses. This maximum is to be counted separately from all other out-of-class curriculum options (for example, credit by examination). The student's major discipline may further restrict the number of comprehensive examination credits acceptable toward the major.

In cases where the subject matter of a comprehensive examination course duplicates that of a course taken previously, the university’s Repeat of Course policy will apply. In no instance will duplicate credit be awarded for a repetition of subject matter.

**Credit by Examination**

A student may petition to receive course credit by examination. In this manner a student who already possesses, or through independent study is able to acquire, the skills or knowledge of the ideas and concepts of a course can accelerate progress through the university. Students must register for the examination in the office of the college or department concerned before the first day of classes of the term in which the course is offered. Some presumptive evidence is required to indicate that the student has a reasonable chance of passing the examination. The student must complete the examination within the first two weeks of the term. Courses may be designated by a college, school, department or appropriate unit as inappropriate to be challenged by examination on the basis that course content is not suited to such examination.

No fee is charged for these examinations. A student who passes an examination is given the grade of CBE for that course, provided that this does not duplicate credit counted for his admission to the university. No official record is made of failures in these examinations.

Examinations for course credit are given under the following restrictions:

1. They may be taken only by students matriculated through regular enrollment at the university in courses other than the one(s) to be challenged.
2. They may not be taken by students who have received credit for work in the subject in advance of the course in which the examination is requested, except where permission is granted by the college or department concerned.
3. They may not be taken to raise grades or remove failures in courses.
4. Once students have successfully challenged a course, they may not subsequently enroll in the course for credit. Units attempted, units earned and grade points for any such enrollment will be disallowed.
5. A maximum of 40 units of credit may be received through such examinations.
6. A student may repeat an examination for credit only upon approval of the associate provost for academic programs.
7. Credit by examination may not be used to fulfill the minimum residency requirement.
8. The course must be offered during the term in which the examination is taken. However, students may not enroll in a course they plan to challenge. If the challenge is unsuccessful, the student may add the course subject to the regulations for adding a class printed in the Class Schedule.

Exact times and places of examinations are announced by the departments concerned. Students who wish to take an examination should consult the departmental office well in advance.

For regulations concerning credit by examination in graduate programs refer to Graduate Degree and Program Requirements (p. 61).
Concurrent Enrollment

A student in good academic standing at California State University who has completed at least 18 quarter units of work at the university, and who is eligible to register as a continuing student for the subsequent term, may enroll concurrently at another college. Note that students attending CSUSB on I-20 visas are not eligible for concurrent enrollment.

Undergraduate students wishing to complete courses at another institution must submit a Concurrent Enrollment contract (http://registrar.csusb.edu/evaluations/concertainment.html) with the Office of the Registrar 2-3 weeks prior to the start of the term. Credit may not be awarded for course work completed without this prior approval. Approval will only be granted for California Community Colleges, or other local institutions with which articulation agreements are in place. Upon completion of the course(s), the student must request that an official transcript be sent to CSUSB.

Courses that use non-traditional off-campus delivery systems, such as self-paced instruction, correspondence courses, or on-line computer instruction and testing may be required to be proctored through the Testing Office.

Intrasystem and Intersystem Enrollment Programs

Fully matriculated students enrolled at any CSU campus have access to courses at other CSU campuses on a space available basis unless those campuses/programs are impacted. This access is offered without students being required to be formally admitted to the host campus and in most cases without paying additional fees. Students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from Office of the Registrar (http://rre.csusb.edu) or the Registrar (http://rre.csusb.edu).

CSU Fully Online Courses

Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated prerequisites. Credit earned at the host campus is electronically reported to the student’s home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment

Matriculated CSU, UC, or community college students may enroll on a “space available” basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

UCR/CSUSB Cross Registration Program

On a limited basis, students may be permitted to take advantage of courses offered at the nearby University of California campus in Riverside. Note: this opportunity is available only for undergraduate courses not normally offered at CSUSB and is subject to availability of space at UC Riverside after their early registration process is completed. The following conditions apply:

1. A limited number of students may participate.
2. A limit of one course per student per quarter.
3. The student is matriculated and currently enrolled in a degree program.
4. Students attending CSUSB on I-20 visas may participate, but must be concurrently enrolled in (and complete) at least 12 units at CSUSB, and may enroll only in upper-division courses that are not offered at CSUSB.
5. Student must pay sufficient (full) tuition fees at the Home Campus. No additional registration fees will be required at the Host Campus.
6. The desired course is not offered at the Home Campus.
7. Student must be in good academic standing.
8. Student must observe all academic deadlines and regulations of the Host Campus.
9. Enrollment is subject to space availability and consent of the instructor.
10. Student must meet course prerequisites of the Host Campus.
11. Records of grades will be maintained by the Host Campus and forwarded to the Home Campus. The Host Campus will include the “transfer” work on the student’s transcript, with a footnote indicating that the course was taken through the exchange program.
12. Residence credit will be granted for courses taken by CSUSB students under this arrangement.
13. Cross-registration students will have the use of library facilities at the Host Campus. The student is not eligible for other student services or facilities.

Class Schedule

An official academic term (http://academicscheduling.csusb.edu) class schedule, prepared each quarter by the university, includes the registration schedule, procedure for registration, fees, classes offered by hours and instructors, and other pertinent registration information. The schedule is available just prior to advisement and priority registration each quarter at the Academic Scheduling (http://academicscheduling.csusb.edu) web site. Students are responsible for being aware of information contained in the academic term (http://academicscheduling.csusb.edu) class schedule.

Registration Procedures

All registration, including schedule adjustments (adds and drops) and late registration, will be accomplished using My Coyote Self Service.

Simultaneous Enrollment

Procedures have been established whereby a student may enroll in two courses that are scheduled to meet at overlapping times. The student should procure a Petition for Waiver of University Regulations from Advising and Academic Services, meet with instructors for both of the courses involved to make special arrangements, and obtain the written approval of both instructors. All other registration procedures apply,
including the use of Add Slips for courses that are closed or for enrollment after the second week of class.

**Late Registration**

The dates of late registration each term will be announced in the academic term (http://academicscheduling.csusb.edu) Class Schedule. The university calendar lists registration dates. Late registrants may find themselves handicapped in arranging their programs due to closed classes. A $25 late registration fee is required for students not already enrolled by the late registration deadline.

**Auditing Courses**

Enrollment in any course as an auditor shall be permitted only after students otherwise eligible to enroll in the course on a credit basis have had an opportunity to do so and only upon consent of the instructor. Auditors are subject to the same fee structure as credit students, and regular class attendance is expected.

Credit for courses audited will not subsequently be granted on the basis of the audit. Transcripts are not issued for audited courses.

Once enrolled as an auditor, a student may not change to credit status unless such a change is requested within the first week of class and is approved by the instructor. Students registered for credit may change their status from that of enrolled student to that of auditor with the approval of the class instructor concerned and within the first three weeks of class.

Forms for such changes may be obtained at the Office of the Registrar in University Hall.

**Class Attendance**

Regular attendance is expected of all students enrolled at the university. The instructor of each class sets specific standards expected of students. A student absent from classes is responsible for arranging to make up missed class work and assignments. In cases of prolonged absence, the student should investigate the feasibility of withdrawal from the university.

**Adding Classes**

During the Open Enrollment and Schedule Adjustment period (see academic term (http://academicscheduling.csusb.edu) Class Schedule for specific dates) students may add classes by following the Registration Instructions detailed in the academic term (http://academicscheduling.csusb.edu) Class Schedule. It is important to note that students who add a class or classes after the first scheduled class session may find themselves at a distinct disadvantage in terms of doing well in the class(es). Students should also be aware that they are responsible for any material they may have missed as a result of adding after the first day.

**Adding an Open Class**

Beginning with the first day of classes, students may add classes if space is available through the first week (five business days) of the quarter via My Coyote Self Service. During the second week of the quarter, classes may be added with the permission of the instructor. During the third week of the quarter, students will need the permission of the instructor and the department chair in order to add a class. Students may not add classes after the end of the third week of the quarter except for serious and compelling reasons and only with the approval of the instructor, the Department Chair, and Dean of the College in which the course resides. For questions concerning this policy, contact the Office of the Registrar at (909) 537-5200.

**Adding a Closed Class**

During the first three weeks of the quarter, students may add a closed class with the permission of the instructor and the department chair. Students may not add closed classes after the end of the third week of the quarter except for serious and compelling reasons and only with the approval of the instructor, the Department Chair, and Dean of the College in which the course resides.

**Retroactive Add**

Requests for adding a class following the close of the term (retroactive add) will only be considered in the event of an error on the part of the university. Petitions for retroactive adds will be considered by the Associate Vice President of Undergraduate Studies for undergraduates or the Dean of Graduate Studies for postbaccalaureate and graduate students and will require documentation from the instructor which will show that the student attended the class and earned a passing grade.

**Drops and Withdrawals**

Beginning Fall quarter 2009, undergraduate students may not exceed 28 quarter units of withdrawals (grade of "W"). Withdrawals completed prior to Fall 2009 are not included in this total. This limit applies only to courses taken at CSUSB, including courses taken through Open University, the College of Extended Learning and special sessions. The policy for all undergraduate students will be available at the CSUSB Undergraduate Advising (http://www-url.csusb.edu/advising) website. For credential, postbaccalaureate, and graduate students, the policy can be found in the Graduate Programs section of the current Bulletin under “Retroactive Withdrawals.”

**Census Date**

Census Date (also known as Census Day) refers to two very important deadlines:

1. Last day a student can add a class (by permit since it is the third week of classes)
2. Last day a student can drop a class without a record on the student's transcript.

Specific Census Dates for each term are listed in the Academic Calendar (p. 26) and in the academic term (http://academicscheduling.csusb.edu) Class Schedule. Census Date falls on the last day of the third week of the Fall, Winter, Spring, and Summer (Regular) Session. Census Date for Summer Session 6W1 and Summer Session 6W2 falls on the sixth day in either session.

**Dropping Classes**

A drop is defined as a withdrawal through Census Date. Drops do not produce a record on the student's transcript.

Students should read this section carefully to understand fully when and for what reasons they may drop a course themselves. Students transferring from other institutions should note that the last day to drop a class without a record of enrollment (i.e., Census Date) takes place much earlier at CSUSB than they may have been accustomed to at other institutions.
It is the students’ responsibility to verify their schedules prior to Census Date. Grades will be assigned for every course in which they are officially registered. It is also the students’ responsibility to drop by Census Date any class which they do not plan to attend and complete. While an instructor may drop students for non-attendance during the first three weeks of classes (see "Administrative Drop Policy"), students should not assume this will be done.

**Dropping classes through Census Date**

During the Open Enrollment and Schedule Adjustment period (see academic term [http://academicscheduling.csusb.edu]/Class Schedule for specific dates) students may drop classes by following the Registration Instructions detailed in the academic term (http://academicscheduling.csusb.edu)/Class Schedule. Students may drop a class during the first three weeks of the Fall, Winter, or Spring quarters (i.e. from the first day of instruction through Census Date), and the course will not appear on their permanent records; however, a refund will not be granted if the drop is beyond the refund deadline date. See the academic term (http://academicscheduling.csusb.edu)/Class Schedule for specific dates for each quarter, including Summer.

**Administrative Drop**

Faculty members may initiate an administrative drop of a student in their courses based on any one of the following criteria:

**Lack of attendance**

Students who fail to attend two consecutive class meetings during the first three weeks of the quarter without contacting the faculty member or making special arrangements may be dropped. Students in on-line or hybrid classes who fail to make contact with the instructor either in person or electronically (via e-mail or Blackboard) within the first four days of the start of the quarter may also be dropped during the first three weeks of the quarter.

**Prerequisites not met**

Students who are unable to show completion of required courses or who do not have the background needed to succeed in the course may be dropped.

**Declared majors**

Students who have not been formally admitted to certain major programs may be dropped from courses that are open only to declared majors in that program. To remain in such classes, permission of the instructor may be required.

Students should not assume they are automatically disenrolled. Instead, they are strongly encouraged to check their MyCoyote to confirm course enrollment and drop every quarter.

If the administrative drop reduces the student’s unit load below 6.1 units, the student may be eligible for a refund of certain fees. However, it is the student’s responsibility to file a request for a refund of fees by the deadline printed in the academic term (http://academicscheduling.csusb.edu)/Class Schedule. Questions regarding refunds should be addressed to the Student Accounts Office at 909-537-5162.

**Withdrawing from Classes**

**Withdrawal from classes after Census Date**

A course dropped after Census Date is defined as a withdrawal and a grade of “W” will be posted to the student's record if the withdrawal is approved. Beginning Fall quarter 2009, undergraduate students may withdraw from no more than 28 quarter units during their entire undergraduate academic career at CSUSB.

Withdrawals after Census Date and through the end of the eighth week of the quarter are permitted only for serious and compelling reasons. See the Summer academic term (http://academicscheduling.csusb.edu)/Class Schedule for withdrawal dates during the summer terms. The student will be required to submit a petition with documentation to support the request to withdraw from the course(s). Poor performance or poor attendance in the course is not an acceptable reason to withdraw from a course during this period.

Petitions to withdraw after Census Date are available in the offices of the five Colleges for declared majors and in Advising and Academic Services (UH-380) for undeclared students. Withdrawals during this period will require written documentation along with the signature of the instructor, the department chair or school director of the class, and the Dean of the College of the student's major. Courses officially withdrawn during this time period will show a grade notation of “W” (withdrawn) on the student's transcript for the dropped course(s). Students receiving a "W" are still subject to fees for the courses. In certain circumstances, withdrawals after Census Date may qualify for an exemption to the 28 unit maximum. Such requests must meet the same standard and be processed in the same manner as described in the next section of this policy.

Withdrawal from classes in weeks nine through the last day of instruction shall not be permitted except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control, and the assignment of an Incomplete is not practicable. Withdrawals of this sort may involve total withdrawal from the campus or may involve one or more courses. Before submitting a petition to withdraw from class, students are strongly advised to discuss with their instructor(s) the possibility of receiving an Incomplete. In cases in which sufficient work has been completed to permit an evaluation to be made, a grade and credit or an Incomplete may be assigned to allow the student to retain credit for work which would otherwise be lost due to complete withdrawal.

Requests for permission to withdraw in weeks nine through the last day of instruction must be made by petition with documentation to support the request to withdraw. These requests will be processed by the Director of Advising and Academic Services, UH-380. If approved, such withdrawals will not count against the 28 units students are allowed to withdraw.

**Excessive or Unauthorized Withdrawal**

Students who do not officially withdraw or who exceed the 28 unit maximum will receive a grade notation of “WU” (withdrawal unauthorized) in the course, which for purposes of grade point averages is equivalent to an “F.” Students receiving a “WU” are still subject to fees for the courses. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses not officially dropped, and the need to petition for readmission before being permitted to enroll in another academic term.
Term Withdrawal from All Classes

Students who find it necessary to withdraw from all classes after enrolling for any academic term are required to follow the University's official Term Withdrawal procedures outlined in the Class Schedule. Withdrawals can be processed by the student over MyCoyote through the designated census date for each quarter. Failure to follow formal University procedures may result in an obligation to pay fees, as well as the assignment of failing grades in all courses, and the need to petition for readmission before being permitted to enroll in another academic term. For further information, contact the Registration Help Desk at 909-537-7671.

Students who receive financial aid funds are strongly encouraged to consult with the Financial Aid Office prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Term Withdrawal through Census Date

During the Open Enrollment and Schedule Adjustment period (see academic term [http://academicscheduling.csusb.edu] Class Schedule for specific dates) students may withdraw from the university by following the registration instructions detailed in the academic term ([http://academicscheduling.csusb.edu] Class Schedule during the first three weeks of the Fall, Winter, or Spring quarters (i.e. from the first day of instruction through Census Date) and will have no record of enrollment listed on their permanent record. A refund will not be granted if the withdrawal is beyond the refund deadline date. See the academic term ([http://academicscheduling.csusb.edu] Class Schedule) for specific dates for each quarter, including Summer.

Term Withdrawal after Census Date

Term Withdrawals after Census Date and through the end of the eighth week of the quarter are permitted only for serious and compelling reasons. See the Summer academic term ([http://academicscheduling.csusb.edu] Class Schedule) for withdrawal dates during the summer terms. The student will be required to submit a petition with documentation to support the request to withdraw from all course(s). Poor performance or poor attendance in the course(s) is not an acceptable reason to withdraw during this period.

Petitions to withdraw after Census Date are available in the offices of the five Colleges for declared majors and in Advising and Academic Services, UH-380, 537-5034, must be filed and approved. Petitions to withdraw after the Census Date will show a grade notation of “W” (withdrawn) on the student's transcript for the dropped course(s). Students receiving a “W” are still subject to fees for the courses.

In certain circumstances, withdrawals after Census Date may qualify for an exemption to the 28 unit maximum. Such requests must meet the same standard and be processed in the same manner as described in the next section of this policy.

Withdrawal from all classes in weeks nine through the last day of instruction shall not be permitted except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable.

Requests for permission to withdraw in weeks nine through the last day of instruction must be made by petition with documentation to support the request to withdraw. These requests will be processed by the Director of Advising and Academic Services. If approved, such withdrawals will not count against the 28 units students are allowed to withdraw.

Retroactive Term Withdrawal

Requests for retroactive term withdrawals shall be permitted for serious and compelling reasons, such as accident or serious illness, where the cause of withdrawal was due to circumstances clearly beyond the student's control and an Incomplete was not assigned. Extenuating circumstances must be shown to have prevented withdrawal in a more timely fashion. Documentation is required. Poor performance or poor attendance in the course(s) is not an acceptable reason to withdraw after the term. Employment-related reasons are also unacceptable. Lack of awareness of the withdrawal procedure is not an extenuating circumstance. All courses must be withdrawn and will be noted with a "W" on the permanent record. If approved, such withdrawals will not count against the 28 units from which students are allowed to withdraw.

Forms for Retroactive Term Withdrawal by undergraduates are available only in the office of the Director of Advising and Academic Services in UH-380. Partial withdrawal of classes during a term is not permissible unless special circumstances exist and the Dean of the student's major grants approval. Requests for Retroactive Term Withdrawal by unclassified post baccalaureate students, credential candidates and graduate students must be made in writing to the Dean of Graduate Studies, CH-123.

Leave of Absence

Degree-seeking undergraduate students who plan to be absent from the university for more than two consecutive quarters must file a leave of absence to preserve their current catalog rights (Title 5, Article 5, See. 40401). A petition, available through the Office of Advising and Academic Services, UH-380, 537-5034, must be filed and approved.

The leave of absence policy covers both involuntary and voluntary interruptions. In most instances, with an approved leave of absence, a student may be absent from the campus without losing rights to specific degree requirements under an earlier catalog.

Petitions for leaves of absence should be filed in advance of the interruption in enrollment. Each leave commences with the first regular quarter of non-attendance. Requests for medical and military leaves may be considered retroactively if supported by individual circumstances, but those requests must be filed no later than Census Date of the third regular quarter of non-attendance. Personal and planned educational leaves cannot be retroactive since they constitute an agreement or "contract" which must be set in advance. The maximum duration for any leave is two calendar years, although exceptions to the two-year limit may be granted under extenuating circumstances.

Leaves of absence will not be approved for students subject to disqualification or dismissal due to academic deficiencies or disciplinary action. Other students ineligible for leaves of absence are those who are not completing any degree applicable course work, those who
are enrolling only in extension courses or those who are only auditing courses.

Students who do not return to CSU, San Bernardino at the conclusion of their planned leaves and those who enroll elsewhere without permission of the Office of the Registrar will be considered to have withdrawn from the university at the end of their last quarter of regular enrollment.

International students must submit a copy of the leave of absence petition to the International Center, UH-235. Visa students must be registered as full-time students except when, after three consecutive quarters of regular enrollment, they decide to take a quarter off. All leave of absence periods must be approved by ISS prior to taking the leave in order to report the students properly to the Bureau of Citizenship and Immigration Services (BCIS). As a general rule, visa students must go back to their home country when applying for a leave of absence, as their primary goal in the U.S. is to obtain an academic degree.

The following Leaves of Absence may be requested:

**Medical Leave of Absence**
Requests must be accompanied by a statement from a medical doctor explaining why the student must interrupt enrollment. Exceptions to the two-year limit may be granted under extenuating circumstances.

**Military Leave of Absence**

**SHORT TERM ABSENCE DUE TO MILITARY COMMITMENT INFORMATION**

California State University, San Bernardino (CSUSB) supports students called to active duty in the U.S. Military. The policies and procedures described in this document apply to CSUSB students who are U.S. Military service members that are voluntarily or involuntarily called to active duty including service in the National Guard or Reserves. Short term absence due to military commitment pertains to those who will miss classes for their military service or necessitates withdrawal for a period not to exceed 2 consecutive quarters (excluding summer).

For absences within the quarter that do not result in a withdrawal from the quarter:

Military service members who will miss classes for short-term military service or for training exercises are encouraged to contact their instructors as soon as they become aware of the need for the absence.

- Faculty members may request a copy of orders, letter from a commanding officer, etc.
- Faculty members are encouraged to make academic accommodations or opportunities for students to complete course assignments and/or exams when possible.

For absences that result in withdrawal from a quarter and/or no enrollment for up to 2 consecutive quarters (excluding summer):

Military service members who are absent from CSUSB for service in the Armed Forces are eligible to return to CSUSB based on the following provisions:

- Absence is due to active service in the Armed Forces, including the National Guard or Reserves, for more than 30 days.
- Students will be asked to submit the SHORT TERM ABSENCE DUE TO MILITARY COMMITMENT FORM (http://veterans.csusb.edu/documents/ShortTermAbsenceFormFillable.pdf) to the Veterans Success Center and documentation that the absence is due to service in the Armed Forces.
  - Examples of such documentation include a copy of orders, letter from a commanding officer
  - Students who do not submit the form and documentation prior to service may provide documentation at the time of return.*

- Students will maintain their program, enrollment and academic status.
- As provided for in the California Education Code 66023, CSUSB will refund fees paid by the student for the term in which he or she was called to active military service.
- Based on federal regulations, institutions have the discretion to determine whether a student is prepared to return to his or her program with the same academic status at the point where the student left off, or will not be able to complete the program. CSUSB will make reasonable efforts at no extra cost to the student to help the student become prepared or to enable the student to complete the program with additional assistance such as providing refresher courses at no extra cost to the student and allowing the student to retake a pretest at no extra cost to the student.

* Students who are unable to provide documentation due to military necessity (for example, because of a classified mission, operation or exercise) may sign a statement attesting that the absence was due to military service.

**Personal and Planned Educational Leaves of Absence**

These leaves are defined as a planned interruption or pause in a student's regular education during which the student temporarily ceases formal studies at CSU, San Bernardino. The student must plan to return to CSU, San Bernardino at the end of the leave. Such activities may be for the purpose of clarifying or enriching educational goals or to allow time to address personal matters and thus enhance the prospect of successful completion of the student's academic program.

Since students on leave maintain their catalog rights, courses completed at other institutions must have received prior approval in order to be transferred back to CSU, San Bernardino. Therefore, a student must also file a concurrent enrollment form (http://registrar.csusb.edu/evaluations/concrollment.html) with the Office of the Registrar to obtain that approval. Failure to file a concurrent enrollment form may result in coursework not being accepted and revised GE and major requirements being required. Official transcripts must be submitted once coursework is completed.

**Returning from Approved Leave of Absence**

When students plan to return from their leave, a readmission form, available through the Office of the Registrar must be submitted within the filing period for the quarter of return. No application fee will be assessed for leaves of absence that meet the terms of the leave agreement. If a student was on an approved educational leave, official transcripts are required.

**Final Examinations**

Written examinations of two hours' duration are held at the close of each term. In courses extending over more than one term, the examination in the concluding term may also cover work done in the preceding term or terms. Examinations may not be taken before or after the scheduled period nor may the time of an examination be changed without authorization by the dean of the appropriate college. Permission to take
Final examination with a different section in the same course may be granted by the dean of the appropriate college with the consent of the instructors concerned. Failure to take or to pass any final or other course examinations will result in such deficiencies as instructors may assign.

Final Grade

Final grades will be available to students within two weeks after the last day of each quarter except for Fall quarter grades which will be available the first business day of the following January. Grades are accessed through My Coyote Self Service.

Student Academic Grievance Procedures

Advising and Academic Services, UH-380

CSUSB Advising and Academic Services website (https://www.csusb.edu/advising)

Questions regarding the Student Academic Grievance Procedures are available from Advising and Academic Services, University Hall, Room 380, 909-537-5034, or from the website (https://www.csusb.edu/advising/policies-procedures/grade-appeals).

A student may appeal a final course grade or a grade on a Comprehensive Examination or a project (e.g. art exhibition) or thesis required for graduation. An appeal may be initiated on the basis of:

1. Clerical error
2. Capricious or prejudicial evaluation
3. Inconsistent or inequitably applied standards for evaluation

Students may also appeal other types of academic decisions. These include, but are not limited to:

1. Denial of Admission to or Dismissal from a course, major or program
2. Placement on Academic Probation
3. Suspension or Dismissal from the university

A simple allegation or unsubstantiated assertion is an insufficient basis for lodging a formal complaint. Students must support their allegations with evidence compelling enough to give the Academic Grievance Committee reason to hold a formal hearing.

Grades

The grade symbols used at the university are as follows:

<table>
<thead>

All courses, except those specifically designated otherwise, will be graded on the A through F basis.

Grade point averages are computed by dividing the number of grade points earned by the number of units attempted. Only units and grade points earned by a student while enrolled at this university are used to compute the resident grade point average. Grades from courses numbered 1-99 are not computed in this average.

The following administrative grades carry no grade points and are, therefore, not used to determine a student's grade point average. However, it should be pointed out that the Incomplete will be changed to an IC (incomplete charged) and calculated as an F if not removed within one calendar year from the date it was assigned, unless the instructor assigned an earlier completion date on the Incomplete form.

Expanded Grade Symbol Definitions

**A (Excellent):** Meeting course requirements with a superior level of performance. A is recognized to be an honors evaluation.

**B (Good):** Meeting course requirements with a high level of performance.

**C (Satisfactory):** Meeting course requirements with an acceptable performance.

**D (Passing):** Meeting course requirements with minimally adequate performance.
F (Failing): Inadequate performance or not meeting course requirements.

CR (Credit): A satisfactory or better level of performance, equivalent to the grade of "C" (2.0) or better, has been demonstrated in meeting course objectives. For graduate courses, equivalent to grade of "B" (3.0) or better.

NC (No Credit): Performance at an unsatisfactory or failing level, equivalent to a grade of "C-" (1.7) or less. For graduate courses, equivalent to a grade of less than "B-" (2.7). Does not award credit for the course or affect grade point average.

CBE (Credit by Exam): This symbol indicates that a student has successfully passed a course through an examination. Awards units earned toward degree. It is not included in the calculation of grade point averages.

CBX (Credit by Exam/Remediation): This symbol indicates that a student has successfully passed a remedial course through an examination. Does not award units earned toward a degree. It is not included in the calculation of grade point average.

I (Incomplete): An Incomplete signifies that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements will be satisfied. A final grade is assigned when the work agreed upon has been completed and evaluated. Students may not re-enroll in a course for which he or she has received an "I" until that "I" has been converted to a grade other than "I", e.g., A-F, IC, or NC. An Incomplete must be made up within one calendar year immediately following the end of the term in which it was assigned or before graduation unless the instructor assigned an earlier completion date on the Incomplete Form. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an Incomplete being converted to an IC (or an NC if applicable) for grade point average computation, unless a specific grade was assigned on the Incomplete form. Note: In some instances the instructor may have indicated on the Incomplete Form a grade to be assigned in the eventuality that the remaining course work is not completed.

Students may not receive an "I" grade in any applicable degree course for the term in which their graduation check is filed. Students will be required to refill their grad check for the term in which the outstanding requirements are fulfilled. An Incomplete in a course not required for the degree must have a final grade assigned at the time of graduation, or the Incomplete will convert to an "IC" (or an "NC" if applicable). At the time of graduation, no Incompletes may remain on a student’s record.

IC (Incomplete Charged): The IC symbol is used when a student who received an authorized incomplete "I" has not completed the required course work within the allowed time limit. The "IC" replaces the "I" and is counted as a failing grade for grade point average and progress point computation.

RP (Report in Progress): The RP symbol is used in connection with courses that extend beyond one academic term. It indicates work in progress but that assignment of a final grade must await completion of additional work. Work is to be completed within one year except for graduate degree theses. (Previously SP.)

W (Withdrawal): The symbol W indicates that the student was permitted to withdraw from the course after the 15th day of instruction with approval of the instructor and appropriate campus officials. It carries no connotation of quality of performance and is not used in calculating grade point average. For withdrawal limits, see the class schedule or CSUSB Undergraduate Advising website (http://www-ugs.csusb.edu/advising). Students who have withdrawn from the maximum 28 units allowed will be assigned a WU grade for any subsequent withdrawals.

WU (Withdrawal Unauthorized): The symbol WU indicates that an enrolled student did not withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. A grade of WU will also be assigned to students who have withdrawn from the maximum of 28 allowed units. For purposes of grade point average and progress point computation this symbol is equivalent to an F. (Previously U.)

Policy on Nontraditional Grading

All courses are graded on an A through F basis, except those specifically designated as follows:

Credit/No credit

Credit is awarded for grades equivalent to C (2.0) or better. For graduate level courses, credit is awarded for grades equivalent to a grade of B (3.0) or better. No credit is awarded for grades equivalent to C- or less. For graduate level courses, no credit is awarded for grades equivalent to B- or less.

ABC/No credit

Grades awarded are A, A-, B+, B, B-, C+ or C. No credit is awarded for grades equivalent to C- or less.

Certain activity courses, independent study projects, and other courses serving special needs are not readily evaluated in the traditional A through F manner. The non-traditional credit/no credit grading allows faculty to award credit for satisfactory performance in an activity, rather than assign a letter grade when such performance cannot be evaluated traditionally.

Courses graded credit/no credit, whether taken at this or at another institution, may not be used to satisfy requirements for the major, except specific courses designated by the department to be graded credit/no credit.

Students who, because of a change of major or because of transfer from another institution or for any other reason, present courses in the major field which have been graded on a credit/no credit basis may, at the discretion of the department or other appropriate academic unit, be required to pass competency examinations at an acceptable level or to take prescribed alternate courses before being allowed to continue in the major.
A student may offer no more than 36 quarter units of work graded credit/no credit in satisfaction of the total units required in the student's baccalaureate degree program at California State University, San Bernardino. This number includes any combination of units graded credit/no credit earned at California State University, San Bernardino and any other institution or institutions, excepting that all units accepted for transfer credit from another institution at the time of the student's admission to the university may be used toward the satisfaction of the total units required for the baccalaureate degree. Acceptance for transfer credit by California State University, San Bernardino of 36 quarter units or more graded credit/no credit at another institution or institutions precludes the student from taking courses graded credit/no credit at California State University, San Bernardino, for satisfaction of units required for the baccalaureate degree.

Course grades of credit received under a credit-by-examination program are exempt from the 36-unit limitation.

**Retention, Academic Probation and Disqualification**

For purposes of determining a student’s eligibility to remain at the university, quality of academic performance toward the student’s objective shall be considered. Such eligibility shall be determined by the use of grade point average. Also see the Student Conduct Code for other regulations governing expulsion, suspension, and probation. This policy is in effect beginning Spring 2009 following the Minimum Requirements for Probation and Disqualification established by Executive Order No. 1038.

**Academic Probation**

An undergraduate student is subject to academic probation if at any time the cumulative grade point average in all college work attempted or the cumulative grade point average at California State University, San Bernardino falls below 2.0 (Title 5, California Code of Regulations, Section 41300 (a)). The student shall be advised of probation status promptly.

An undergraduate student shall be removed from academic probation when the cumulative grade point average in all college work attempted and the cumulative grade point average at California State University, San Bernardino is 2.0 or higher.

**Academic Disqualification**

An undergraduate student on academic probation is subject to academic disqualification (as authorized by Section 41300 (b) of Title 5) when:

1. As a freshman (fewer than 45 quarter units of college work completed) the student falls below a grade point average of 1.50 in all units attempted or in all units attempted at the campus where enrolled.
2. As a sophomore (45 through 89.9 quarter units of college work completed) the student falls below a grade point average of 1.70 in all units attempted or in all units attempted at the campus where enrolled.
3. As a junior (90 through 134.9 quarter units of college work completed) the student falls below a grade point average of 1.85 in all units attempted or in all units attempted at the campus where enrolled.
4. As a senior (135 or more quarter units of college work completed) the student falls below a grade point average of 1.95 in all units attempted or in all units attempted at the campus where enrolled.

The President (as authorized by Section 41300 (c) of Title 5) has designated the Director of Advising and Academic Services to act to disqualify an individual when the following circumstance exists:

1. At the end of any term, the student has a cumulative grade point average below 1.0, and
2. The cumulative grade point average is so low that in view of the student's overall educational record, it seems unlikely that the deficiency will be removed within a reasonable period, as defined by campus academic policy.

**Notice of Disqualification**

Students who are disqualified from further attendance at the end of any quarter under any of the provisions of this policy should be notified before the beginning of the next consecutive regular quarter. Students disqualified from further attendance at the beginning of a summer enrollment break should be notified at least one month before the start of the fall term. In cases where a student ordinarily would be disqualified from further attendance at the end of a term, save for the fact that it is not possible to make timely notification, the student may be advised that the disqualification is to be effective at the end of the next term. Such notification should include any conditions which, if met, would result in permission to continue in enrollment. Failure to notify students does not create the right of a student to continue enrollment.

**Probation and Disqualification**

Probation and Disqualification of postbaccalaureate and graduate students are subject to Section 41300 (d), (e), and (f) of Title 5 and criteria established by the Office of Graduate Studies. See Standards for Graduate Study (p. 61).

**Administrative-Academic Probation**

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials (as authorized by Section 41300.1 of Title 5) for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms. (Note: A student whose withdrawal is directly associated with a chronic or recurring medical condition or its treatment is not to be subject to Administrative-Academic probation for such withdrawal.)
2. Repeated failure to progress toward the stated degree objective or other program objective, including that resulting from assignment of 15 units with grades of NC, when such failure appears to be due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation, as defined by campus policy, which is routine for all students or a defined group of students (examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to comply with professional standards appropriate to the field of study, failure to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program).

When such action is taken, the student shall be notified in writing and shall be provided with the conditions for removal from probation and the circumstances that would lead to disqualification, should probation not be removed.
Administrative-Academic Disqualification
A student who has been placed on administrative-academic probation may be disqualified from further attendance (as authorized by Section 41300.1 of Title 5) if:

1. The conditions for removal of administrative-academic probation are not met within the period specified.
2. The student becomes subject to academic probation while on administrative-academic probation.
3. The student becomes subject to administrative-academic probation for the same or similar reason for which he has been placed on administrative-academic probation previously, although not currently in such status.

When such action is taken, the student shall receive written notification including an explanation of the basis for the action.

Administrative Contract Appeal and Readmission Process
An undergraduate student placed on academic probation may appeal this action by contacting the Director of Advising and Academic Services. An undergraduate student placed on academic probation may be required to meet with an academic advisor for academic probation advising in the office of Advising and Academic Services. Failure to meet with an advisor or failure to meet the terms of the Administrative Contract will result in a registration service indicator hold for future enrollment.

An undergraduate student subject to disqualification will not be permitted to enroll in any regular term and may be denied admission to other educational programs operated or sponsored by the university. The student must contact the office of Advising and Academic Services at (909) 537-5034 or (909) 537-5035 in order to receive the guidelines to petition for readmission.

Repeat of Courses: Undergraduate Students

1. Undergraduate students may only repeat courses if they earned grades lower than a "C." This policy (which went into effect as of Fall 2009) applies to any grade earned at CSUSB at any time. A maximum of twenty-four (24) units may be repeated for grade forgiveness (formerly called grade discounting). An additional eighteen quarter units may be repeated with both grades averaged into the grade point average calculation. Students are allowed a maximum of three (3) attempts per non-repeatable course. No repeats will be allowed beyond these limits.

Course Repeats with Grade Forgiveness

Grade forgiveness (discounting a grade) for a repeated course is by petition only. If the petition for grade forgiveness is approved, the new grade replaces the former grade in terms of GPA calculation. Petitions should be filed after the completion of the course used to discount the previous course. Students are strongly encouraged to speak with an advisor before repeating a course for grade forgiveness to ensure that the student is eligible to repeat that course to discount the grade.

1. Grade forgiveness (or discounting), as used in these guidelines, means that when computing grade point averages required for graduation with a baccalaureate degree, "units attempted," "units passed," and "grade points" for the first attempt shall be excluded. The first attempt will remain on the transcript with the repeat (discount) noted. Course repeats with discounting or "grade forgiveness" are permissible for undergraduate students subject to the following provisions:
   a. Undergraduate students may repeat a maximum of 24 quarter units with grade forgiveness. This maximum includes any repeats taken at any time at CSUSB.
   b. Undergraduate students may repeat an individual course for grade forgiveness no more than two times. In other words, if a student earns a grade of "C" or lower in a first attempt at a class, the student may repeat that class to replace the grade. If the grade earned the second time is still lower than a "C," the student may repeat the course a final time. No subsequent attempts will be allowed.
   c. Grade forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty.

Course Repeats with Grades Averaged

1. Undergraduate students may repeat an additional 18 quarter units in which the repeated grade will be averaged with the most recent grade provided the original grade was lower than a "C." These units are in addition to the 24 quarter units described above for which grade forgiveness is permitted. In such instances the repeat grade shall not replace the original grade. Units earned will be removed from the first attempt, and both grades shall be calculated into the student's overall grade point average.
2. A course may not be repeated for the purpose of removing an Incomplete. Incompletes that have changed to an "IC" or a letter grade lower than a "C" may be discounted on repeat.
3. If a course which was taken at CSUSB is repeated elsewhere, the grades will be averaged in determining a student's overall grade point average. Repeating a course elsewhere will not affect a student's CSUSB grade point average but will affect the cumulative GPA. Units earned will be removed from the first attempt.
4. Grades for courses taken at one institution (other than CSUSB) and repeated at another institution (other than CSUSB) will be averaged when determining a student's cumulative transfer grade point average. Units earned will be removed from the first attempt.
5. Grades for courses taken at one institution (other than CSUSB) and repeated at CSUSB will be averaged when determining a student's cumulative grade point average. Units earned will be removed from the first attempt.
6. For transfer work, CSUSB will honor the repeat-of-course policy in effect at the institution issuing the transfer transcript.
7. Courses taken for undergraduate credit may not be repeated for discount as a postbaccalaureate student.
8. Unclassified postbaccalaureate students may be permitted to repeat a course taken as an undergraduate. However, the grade earned shall not replace the grade in the undergraduate record.
9. Credit by Examination (CBE) may not be used to discount a course taken previously.
10. Students on approved Leaves of Absence or dismissal may repeat a course through the College of Extended Learning's Open University program in order to improve their CSUSB grade point average and petition for grade forgiveness. To take advantage of this provision, the student must first have a Leave of Absence approved by the Office of Advising and Academic Services. Once that is approved, the student must petition to repeat a course with a grade of "C" or better. If that is approved, the student can file a petition for grade forgiveness
Plagiarism and Cheating

Plagiarism and cheating are violations of the STANDARDS FOR STUDENT CONDUCT Code and may be dealt with by both the instructor and the STUDENT CONDUCT ADMINISTRATOR.

Procedures for addressing cheating and plagiarism are found below. Questions about academic dishonesty and the policy should be addressed to the OFFICE OF STUDENT CONDUCT AND ETHICAL DEVELOPMENT.

Plagiarism is the act of presenting the ideas and writing of another as one's own. Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means.

Cheating includes but is not limited to:

- Copying, in part or in whole, from another's test, software, or other evaluation instrument;
- Submitting work previously graded in another course unless this has been approved by the course instructor or by departmental policy;
- Submitting work simultaneously presented in two courses, unless this has been approved by both course instructors or by the department policies of both departments;
- Using or consulting during an examination sources or materials not authorized by the instructor;
- Altering or interfering with grading or grading instructions;
- Sitting for an examination by a surrogate, or as a surrogate;
- Any other act committed by a student in the course of his or her academic work, which defrauds or misrepresents, including aiding or abetting in any of the actions defined above.

Plagiarism is academically dishonest and subjects the offending student to penalties up to and including expulsion. Students must make appropriate acknowledgements of the original source where material written or compiled by another is used.

Procedure

Allegations of academic dishonesty may be handled directly by the instructor AND MUST BE REFERRED BY THE INSTRUCTOR TO THE OFFICE OF STUDENT CONDUCT AND ETHICAL DEVELOPMENT, IN ACCORDANCE WITH CSU SYSTEMWIDE STUDENT CONDUCT PROCEDURES.

If handled by the instructor, the instructor has the following responsibilities:

- To preserve the evidence in support of the allegation;
- To notify the student of the allegation and of the evidence on which it is based;
- To provide the student a reasonable opportunity to challenge or rebut the allegation;
- To notify the student of the action being taken.

The instructor may employ any of the following sanctions:

- Verbal or written reprimand;
- Assignment of appropriate task or examination;
- Change of grade, including assigning a punitive grade to the work involving the dishonesty, or for the course, project, thesis, or any other summary evaluation of the student's academic work.

If the student does not wish to accept the sanction proposed by the instructor, the student may request and require that the allegation be referred to the OFFICE OF STUDENT CONDUCT AND ETHICAL DEVELOPMENT. In that event, the procedures specified under EXECUTIVE ORDER - STUDENT CONDUCT PROCEDURES of the California State University shall be observed. The instructor shall not impose any sanction other than the sanction(s) imposed through the disciplinary procedure.

Civil and Criminal Penalties for Violation of Federal Copyright Laws

Anyone who is found to be liable for copyright infringement may be ordered to pay either actual damages suffered as a result of the
infringement along with any profits of the infringer attributable to the infringement that are not already taken into account in computing the actual damages, or “statutory” damages between $750 and $30,000 per work infringed. In the case of a “willful” infringement, a court may award up to $150,000 per work infringed (see 17 U.S.C. §504). Courts also have discretion to award costs and attorneys’ fees to the prevailing party (see 17 U.S.C. §505). Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense. Criminal penalties may vary depending on the nature of the offense and whether the infringer has previously been convicted of criminal copyright infringement under 18 U.S.C. §2319 (see 17 U.S.C. §506 and 18 U.S.C. §2319).

Declaring (or Changing) a Major

Work in a major field of study is designed to afford students the opportunity to engage in intensive study of a discipline. Because there is a strong correlation between having a declared major and persistence at the university, all students are strongly encouraged to declare a major as quickly as possible. Students may declare a major at the time of admission. For some students, there will be a period of time early in their academic careers when they are unsure of the course of study they wish to pursue, and those students may take longer to declare a major. All CSUSB students with fewer than 70 quarter units must declare a major by the time they achieve junior class status (90 quarter units). Students transferring to CSUSB with 70 or more quarter units are strongly encouraged to declare a major when they matriculate.

In order to declare or change a major, students should process a Change of Major form (http://rre.csusb.edu/misc/documents/ChangeofMajorMay2011.pdf) through the Office of the Registrar. Before submitting the Change of Major, students should contact an advisor in the new major for advising. Students who declare a major or change from one major to another following admission will be held to either:

1. The current catalog for requirements of the major and to the catalog under which they entered for other college requirements (for example, general education), or
2. The catalog in effect at the time of graduation for all requirements.

Note that dual concentrations within the same major will require approval from the Department Chair.

Students who are applying to an impacted major must complete the Application for Impacted Majors (http://registrar.csusb.edu/misc/documents/ApplicationforImpactedMajors2015.pdf) form. Impacted majors are noted in the Bulletin of Courses. A complete list is also posted in the Office of the Registrar.

A processing fee will be assessed each time a student files a Change of Major form. (See Class Schedule for fee.)

Required Declaration of a major

A non-transfer CSUSB student who has not declared a major will receive a notice from the office of Advising and Academic Services when the student has 70 units (this will count work in progress). The notice will require that the student come into the office of Advising and Academic Services and meet with an advisor to talk about selecting a major. A registration service indicator hold will be placed on the student’s file, and the student will not be allowed to register for a subsequent term until he or she has come in for that appointment. Counseling regarding the selection of a major will be the focus of that appointment leading to referral to an academic department or, in some cases, to the Career Development Center. A student who does not declare a major by the time he or she has completed 90 quarter units will not be allowed to register without the approval of the Director of Advising and Academic Services.

The procedure for transfer students will depend on the total number of units CSUSB counts toward the student’s degree. Students who receive credit for fewer than 70 quarter units will be held to the same timeline for declaring a major as students who began at CSUSB as first-time freshmen. Students who come in with 70 or more quarter units will be required to declare a major after they have completed 20 units at CSUSB. If a major is not declared at admission, the transfer student will receive a notice from the Office of Advising and Academic Services. The notice will require that the student come into the office of Advising and Academic Services and meet with an advisor to talk about selecting a major. A registration hold will be placed on the student’s file, and the student will not be allowed to register for a subsequent term until he or she has come in for that appointment. Counseling regarding the selection of a major will be the focus of that appointment leading to referral to an academic department or, in some cases, to the Career Development Center. A student who does not declare a major by the time he or she has completed 90 quarter units will not be allowed to register without the approval of the Director of Advising and Academic Services.

Electing of Graduation Requirements

A student remaining in continuous attendance in regular sessions and continuing in the same major in this university, in any of the California community colleges, or in any combination of California community colleges and campuses of the California State University, may, for purposes of meeting graduation requirements, elect to meet the graduation requirements in effect at this university either at the time of entering the program or at the time of graduation from this university, except that substitutions for discontinued courses may be authorized or required by the proper university authorities. (See the section on Leave of Absence.)

University Honors

University Honors for graduation

To be considered for University Honors for graduation, an undergraduate student must have completed a minimum of 45 units of work at CSUSB in courses for which letter grades (A, B, C and D) were received. University Honors for commencement are based on the student’s units and GPA through the end of the quarter prior to commencement (i.e. winter for spring commencement and summer for fall commencement).

• **Summa Cum Laude**: an overall cumulative undergraduate grade point average of 3.9 or above and a grade point average of 3.9 or above in all work attempted at this university.
• **Magna Cum Laude**: an overall cumulative undergraduate grade point average of 3.75 or above and a grade point average of 3.75 or above in all work attempted at this university.
• **Cum Laude**: an overall cumulative undergraduate grade point average of 3.5 or above and a grade point average of 3.5 or above in all work attempted at this university.

In determining eligibility for graduation with University Honors with a second bachelor’s degree, all baccalaureate-level coursework completed past high school will be used in the GPA calculation.
Dean’s List
An undergraduate student completing 12 or more units for which letter grades (A, B, C and D) were received, and who earns a 3.5 or above in any regular academic term will be placed on a Dean’s List.

- **Dean’s Letter of Recognition.** Any full-time undergraduate student, meeting the above requirements, who earns a 4.0 in any regular academic term will receive a letter of special recognition from the appropriate dean.
- **Presidential Letter of Recognition.** Any full-time undergraduate student, meeting the above requirements, who earns a 4.0 in three consecutive regular academic terms will receive a letter of special recognition from the president of the university.

Departmental Honors
Individual departments may award departmental honors at graduation, recognizing distinguished students majoring in that field. The requirements to be met to earn honors are specified by the respective departments. Departmental honors are currently awarded in accounting and finance, anthropology, Arabic, art, biology, chemistry, communication, computer engineering, computer science, criminal justice, economics, English, environmental studies, French, geography, geology, health science, history, human development, human services, information and decision sciences, kinesiology, liberal studies, management, marketing, mathematics, music, nursing, philosophy, physics, political science, psychology, public administration, sociology and Spanish.

Graduation Requirement Check
Undergraduate students must request a Graduation Requirement Check (Grad Check) (http://re.csusb.edu/misc/documents/gradcheckformOct2013.pdf) at the Office of the Registrar (UH-171) when they have completed 135 units towards their degree. Graduate students must request a Grad Check at least one term prior to their expected graduation.

To avoid late fees, the Grad Check should be filed by the established deadlines listed below. Graduate students may file the Grad Check by the deadlines below without being advanced to candidacy, but the Grad Check cannot be completed until the advancement is received in the Office of the Registrar.

<table>
<thead>
<tr>
<th>Graduation Term</th>
<th>Filing Date (first business day)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer Quarter</td>
<td>January</td>
</tr>
<tr>
<td>Fall Quarter</td>
<td>February</td>
</tr>
<tr>
<td>Winter Quarter</td>
<td>May</td>
</tr>
<tr>
<td>Spring Quarter</td>
<td>November</td>
</tr>
</tbody>
</table>

The fee for filing the Grad Check is $25 for each major/option requested. If the Grad Check is filed after the deadline, an additional $20 late fee for each major/option will be charged. Students who do not complete the requirements in the term for which the Grad Check was filed must re-file and pay a $20 fee for a second Grad Check for each major/option. If the re-filed Grad Check is submitted after the deadline date, an additional $20 late fee will be charged for each major/option.

Access to subsequent registration will not be allowed until the Grad Check has been re-filed or a graduate application is submitted for readmission.

The Office of the Registrar will mail the official Grad Check to the address listed on the Grad Check Request form.

Conferral of Degree Upon Completion of Requirements
The CSU Chancellor has authorized campus presidents to confer degrees upon students as soon as they have completed all degree requirements. To ensure that students do not take unnecessary units beyond those required for the degree, the Office of the Registrar will monitor progress toward the degree based, in part, on units completed. Particular attention will be paid to those students who have completed 120% of the units required for a degree. If it is determined that a student has completed all requirements for a degree and has not filed a graduation check, the student will be notified by the Office of the Registrar that appropriate fees will be assessed and the degree will be conferred.

Students may petition the Associate Vice President of Undergraduate Studies to delay conferral of the degree. Such petitions must be filed within two weeks of receipt of the notice referred to above. Such petitions will only be considered when there is a compelling academic reason to allow the student additional time. Petitions will not be granted for additional time to improve a GPA, nor will petitions be granted for time beyond one term to complete a second undergraduate degree.

In the event that a student does not petition to delay conferral of the degree within the two-week grace period, the degree will be posted to the student’s transcript for the term in which all requirements were completed. Additionally, a hold will be placed on the student record that will prevent the student from registering for classes, obtaining a diploma, transcripts, or enrollment verification. Students enrolled in the subsequent term will be disenrolled from all classes. The student will also be assessed the graduation check fee and any late fees to which they are subject.

Diplomas
Diplomas are issued for a specific degree. Minors are not included on the diploma but are recorded on the student's university transcript.

Students earning a Special Major will automatically receive a diploma stating “Special Major.” Students wishing to have a diploma reflect the field of study will need to purchase a duplicate diploma requesting this additional information. Duplicate diploma forms are available in the Office of the Registrar and require a $25 processing fee.

Commencement
Special Events and Guest Services- Commencement Office (909) 537-7360

Participation in commencement activities is voluntary.

For dates and deadlines please visit commencement.csusb.edu.

Palm Desert Campus
The Palm Desert Campus holds one commencement exercise in June. In order for all eligible students to obtain information, the deadline to file a graduation check and be included in the Commencement Program is the last working day in April. The non-refundable commencement fee can be paid online. Questions regarding this exercise should be directed to the Palm Desert Campus Administrative Office (760) 341-2883. Palm Desert Campus graduates have the option of also participating in the main campus exercises.
Master's and Doctoral Students

In order to participate in commencement, candidates completing a master’s or doctoral degree must file a grad check AND meet the eligibility requirements specified by their program. For the specific requirements, candidates should consult their program coordinator or go to Graduate Studies website (http://gradstudies.csusb.edu).

Credential Students

Students completing a Multiple Subject, Single Subject, Education Specialist Basic credential, Pupil Personnel Services or Designated Subjects credential are eligible to participate in a Credential Recognition Ceremony rather than commencement. The Credential Recognition Ceremony on the San Bernardino campus will be held in June. Specific information can be obtained from the College of Education, Student Services Office, CE-102, (909) 537-5609. The Credential Recognition Ceremony on the Palm Desert Campus will be held in May at PDC. Specific information can be obtained from the Palm Desert Campus College of Education Office at (760) 341-2883.

Postbaccalaureate Credit for Senior Students

Upon approval, senior students who need fewer than 16 quarter units to graduate may be permitted to enroll for postbaccalaureate credit during the final quarter of their senior year. Postbaccalaureate credit is used to signify courses taken after the baccalaureate degree, but does not necessarily mean graduate credit, i.e., credit applicable toward an advanced degree. Only 300- to 600-level courses will be considered. Note: Some 500- and 600-level courses require prerequisites and are open only to students classified in a master’s program. A petition for this purpose is available in the Office of the Registrar.

Information for Issuance of Transcripts

Single transcripts are issued at a cost of $6 per copy, payable in advance. (Refer to the fee schedule in the Class Schedule or the Fees page (p. 89) of this catalog.) Copies are normally mailed two weeks after receipt of request. However, if the request specifies inclusion of grades just earned or verification of a degree just awarded, two to three weeks must be allowed beyond the end of the term for a transcript to be issued.

All transcripts will be complete as of the date of issuance showing all work attempted at California State University, San Bernardino.

The university will not issue transcripts to the student, another educational institution or a third party if there is a transcript service indicator hold in place. The student must contact the Office of the Registrar once the hold has been lifted so that the transcript request can be processed.

Access to Records

All student records, including recommendations, are kept by the university in accordance with the Family Educational Rights and Privacy Act of 1974, which allows students access to their records. Inquiries and concerns about this federal regulation should be directed to the Office of the Vice President for Student Services for further information.

Enrollment Verification

Student enrollment certification is based on the following minimum unit loads for undergraduate students:

<table>
<thead>
<tr>
<th>Type</th>
<th>Minimum Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full time</td>
<td>12 weighted units</td>
</tr>
<tr>
<td>3/4 time</td>
<td>9-11 units</td>
</tr>
<tr>
<td>1/2 time</td>
<td>6-8.5 units</td>
</tr>
</tbody>
</table>

Veterans Enrollment Certification

California State University, San Bernardino, is approved for the training of veterans of the military services and their dependents under educational assistance programs, established by the state and federal governments. Applications for educational benefits may be obtained directly from the veterans certification clerk in the Office of the Registrar.

Student enrollment certification is based on the following minimum unit loads for undergraduates:

<table>
<thead>
<tr>
<th>Type</th>
<th>Minimum Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full time</td>
<td>12 quarter units</td>
</tr>
<tr>
<td>3/4</td>
<td>9-11.5 quarter units</td>
</tr>
<tr>
<td>1/2 time</td>
<td>6-8.5 quarter units</td>
</tr>
</tbody>
</table>

The university will certify course loads to the Veterans Administration based on the criteria above for units which are degree or objective applicable. Veterans enrolled less than half time are eligible for reimbursement of tuition and fees only.

Student Email Policy

The University intends to replace many of the letters sent to students via the U.S. Postal Service with email communications. As a result, it is strongly recommended that students check their email accounts daily. The consequences of not checking email are the same as those for not checking a U.S. Postal mailbox. Some of these consequences include missing payment deadlines, missing registration deadlines, missing immunization deadlines, missing out on opportunities for financial aid, and missing requirements and deadlines for graduation.

Students are responsible for the consequences of not reading university-related communications sent to their email account. Students have the responsibility to recognize that certain communications may be time-critical. Errors in forwarding email to a personal email address or failure to read emails regularly are not acceptable reasons for missing university deadlines.

Students have the responsibility to clean their email accounts and avoid emails being rejected due to limited space in their account.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. The law provides that the campus must give students access to most records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student’s written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies
and procedures may be obtained at the office of the vice president for student services. Among the types of information included in the campus statement of policies and procedures are:

1. the types of student records maintained and the information they contain;
2. the official responsible for maintaining each type of record;
3. the location of access lists indicating persons requesting or receiving information from the record;
4. policies for reviewing and expunging records;
5. student access right to their records;
6. the procedures for challenging the content of student records;
7. the cost to be charged for reproducing copies of records, and
8. the right of the student to file a complaint with the Department of Education.

The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington, D.C. 20202-5920.

The campus is authorized under the Act to release “directory information” concerning students. “Directory information” may include the student’s name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. The above-designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to the office of the vice president for student services.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus’s academic, administrative or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

Student Conduct

Title 5, California Code of Regulations, § 41301. Standards for Student Conduct

Campus Community Values

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences. The following are the grounds upon which student discipline can be based:

1. Dishonesty, including:
   a. Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   b. Furnishing false information to a University official, faculty member, or campus office.
   c. Forgery, alteration, or misuse of a University document, key, or identification instrument.
   d. Misrepresenting one’s self to be an authorized agent of the University or one of its auxiliaries.
2. Unauthorized entry into, presence in, use of, or misuse of University property.
3. Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.
4. Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.
5. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus University related activity.
6. Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.
7. Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
8. Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term “hazing” does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.
10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.
11. Theft of property or services from the University community, or misappropriation of University resources.
12. Unauthorized destruction or damage to University property or other property in the University community.
13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.
14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
15. Misuse of computer facilities or resources, including:
   a. Unauthorized entry into a file, for any purpose.
   b. Unauthorized transfer of a file.
   c. Use of another’s identification or password.
   d. Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University community.
   e. Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   f. Use of computing facilities and resources to interfere with normal University operations.
   g. Use of computing facilities and resources in violation of copyright laws.
   h. Violation of a campus computer use policy.
16. Violation of any published University policy, rule, regulation or presidential order.
17. Failure to comply with directions or interference with, any University official or any public safety officer while acting in the performance of his/her duties.
18. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community, or property within the University community or poses a significant threat of disruption or interference with University operations.
19. Violation of the Student Conduct Procedures, including:
   a. Falsification, distortion, or misrepresentation of information related to a student discipline matter.
   b. Disruption or interference with the orderly progress of a student discipline proceeding.
   c. Initiation of a student discipline proceeding in bad faith.
   d. Attempting to discourage another from participating in the student discipline matter.
   e. Attempting to influence the impartiality of any participant in a student discipline matter.
   f. Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   g. Failure to comply with the sanction(s) imposed under a student discipline proceeding.
20. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

Procedures for Enforcing This Code
The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code. [Note: At the time of publication, such procedures are set forth in California State University Executive Order 1098 (Revised June 23, 2015) (http://www.calstate.edu/eo/EO-1098.pdf)]

Application of This Code
Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

Title 5, California Code of Regulations, § 41302. Disposition of Fees: Campus Emergency; Interim Suspension.
The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

TITLE IX & GENDER EQUITY office
The office of Title IX & Gender Equity oversees the Title IX responsibilities on campus, including the End Sexual Violence Training, which is mandatory for every student once per academic year. Title IX is government legislation from the Department of Education's Office of Civil Rights.

Notice of Non-Discrimination on the Basis of Gender or Sex
The California State University does not discriminate on the basis of gender, which includes sex and gender identity or expression, or sexual orientation, in its education programs or activities. Title IX of the Education Amendments of 1972, and certain other federal and state laws, prohibit discrimination on the basis of gender or sexual orientation in employment, as well as in all education programs and activities operated by the University (both on and off campus). The protection against discrimination on the basis of gender or sexual orientation includes sexual harassment, sexual misconduct, gender-based dating and domestic violence and stalking. The
following persons have been designated to handle inquiries regarding the non-discrimination policies:

**Campus Title IX Coordinator**

**Cristina Martin**, Director for Title IX & Gender Equity  
Duties: receiving complaints against faculty, staff, administrators, students and Third Parties; monitoring and oversight of overall implementation of Title IX compliance, including coordination of training, education and communication.  
California State University, San Bernardino  
5500 University Parkway  
Santos Manuel Student Union, 103  
San Bernardino, CA 92407-2393  
Email: titleix@csusb.edu (%20titleix@csusb.edu) or cristina.martin@csusb.edu  
Website: https://www.csusb.edu/title-ix  
Phone: (909) 537-5669  
Regular office hours: Monday-Friday, 8:00 AM-4:30 PM  
Summer office hours: Monday-Thursday, 7:00 AM-5:30 AM (closed Fridays)

**Campus Title IX Deputy Coordinator**

**Krysten Newbury**, Assistant Director for Title IX & Gender Equity  
Duties: assisting the Title IX Coordinator in addressing Title IX complaints, as well as training, education and communication.  
California State University, San Bernardino  
5500 University Parkway  
Santos Manuel Student Union, 103  
San Bernardino, CA 92407-2393  
Email: titleix@csusb.edu (%20titleix@csusb.edu) or krysten.newbury@csusb.edu  
Website: https://www.csusb.edu/title-ix  
Phone: (909) 537-5669  
Regular office hours: Monday-Friday, 8:00 AM-4:30 PM  
Summer office hours: Monday-Thursday, 7:00 AM-5:30 AM (closed Fridays)

The Title IX Coordinator and Deputy Title IX Coordinator implement the CSU protocol regarding Title IX by: (1) upholding the university’s obligation to respond to or investigate sexual misconduct, gender harassment and sexual violence; (2) following CSU policies and complaint procedures; (3) working with designated CSUSB personnel; (4) offering resources and remedies for victims; and (5) providing education, raising awareness and offering training for the campus at large.

A campus administrative investigation of complaints or allegations of sexual misconduct utilizes a variety of CSU Executive Orders (EO-1095, Revised 6-23-2015 (http://www.calstate.edu/EO/EO-1095-rev-6-23-15.html); EO-1096 (http://www.calstate.edu/EO/EO-1096-rev-6-23-15.html); EO-1097 (http://www.calstate.edu/EO/EO-1097-rev-6-23-15.html); EO-1098, Revised 6-23-2015 (http://www.calstate.edu/EO/EO-1098-rev-6-23-15.html)), and certain federal laws (The Violence Against Women Reauthorization Act (VAWA) and the Campus SaVe Act) and state laws (Senate Bill No. 967).

Any acts of criminal sexual activity and incidents of sexual violence, such as sexual assault, sexual coercion and dating or domestic violence should be reported immediately by dialing 9-1-1 or contacting University Police at (909) 537-7777. The Title IX Coordinator will work with the police on cases which are reported to them. A campus administrative investigation may occur concurrently with a criminal investigation.

**What to Report**

All allegations of discrimination, harassment or retaliation based on sex, gender, gender identity or expression, or sexual orientation which are made against staff, faculty, students, applicants or other Third Parties associated with the campus. The Title IX Coordinator will discuss the situation and explain the campus process, including what complaint procedures are available. **If you would like to submit a complaint, or a concern, go to our website (http://titleix.csusb.edu) and click on the “File a report” button on the left panel navigation, or you may come to our office (Santos Manuel Student Union, Room 103) for a hard copy of the report form, or send an email to titleix@csusb.edu, or call us at (909) 537-5669.**

For Employee or Third Party complaints regarding discrimination, harassment, retaliation, sexual misconduct, dating and domestic violence, and stalking allegations not on the basis of sex, please see Executive Order 1096, Revised 10-5-2016 (http://www.calstate.edu/EO/EO-1096-rev-10-5-16.html) and its Attachments, or contact César Portillo, Associate Vice President for Human Resources, Sierra Hall, Room 110, (909) 537-5138, or visit our website (https://www.csusb.edu/title-ix) for additional information.

Check with our office first to ensure that your case is handled appropriately and that you are utilizing the correct complaint procedure. Additionally, if you have any questions, need clarification, need resources, on or off campus (listed below, as well as on our website (https://www.csusb.edu/title-ix)), or are interested in upcoming events (https://www.csusb.edu/title-ix/events) and trainings (https://www.csusb.edu/title-ix/training), please get in touch with us:

**Other Assistance, Questions or Concerns**

**Campus Advocate**

**Marina Wood**, Advocate Services  
Counseling & Psychological Services, HC-165  
California State University, San Bernardino  
5500 University Parkway  
San Bernardino, CA 92407-2393  
Email: marina.wood@csusb.edu  
Website: https://www.csusb.edu/survivor-advocacy-services  
Phone: (909) 537-5040

**University Police**

**University Police Department**  
California State University, San Bernardino  
5500 University Parkway  
San Bernardino, CA 92407  
policerecords@csusb.edu (additional information & services)  
9-1-1 Emergencies; Non-emergencies (909) 537-7777 (TDD available)

**Local Police**

**San Bernardino Police Department**  
710 North "D" Street, San Bernardino, CA 92401  
Phone: (909) 384-5742; Non-Emergency 24-Hour: (909) 383-5311
Palm Desert Police Department
73705 Gerald Ford Drive, Palm Desert, CA 92260
Phone: (760) 836-1600

U.S. Department of Education, Office for Civil Rights
(800) 421-3481 or email OCR@ed.gov

• If you wish to fill out a complaint form online with the OCR, you may do so here (http://www2.ed.gov/about/offices/list/ocr/complaintintro.html).

End Sexual Violence Training
All California State University, San Bernardino students are required to complete mandatory End Sexual Violence Training—one training per academic year, during the fall term. Federal and state laws and the CSU Chancellor’s Office Executive Orders mandate this yearly training for all students (including graduating students, online students and employees who are also enrolled students).

Completing one of two options before a deadline each year (updated on our website, on the Training (https://www.csusb.edu/title-ix/training) page) will ensure a smooth registration process for spring term. After the deadline, a Registration hold will be placed on the student’s account until the Training is completed. Choices include:

1. Attend a qualifying In-Person Event -- for the current offerings and more information, visit our Events (https://www.csusb.edu/title-ix/events) page. Look for the “Let's Get it Done” approval stamp of the events that are sanctioned.

2. Complete the Online Training Program, “Not Anymore” -- for login instructions and more information, visit the Not Anymore (https://www.csusb.edu/title-ix/training/not-anymore) page. CSUSB has partnered with vendor, Student Success™, for a secure online option.

Status Link
There is a link in MyCoyote, in the Self Service section, to check the status of training for each academic year, “End Sexual Violence Training Status.” At any time, students can look under the academic year column and find the current year to review their record. Verifying that the yearly mandatory training has been completed by the deadline (updated on our website, on the Training (https://www.csusb.edu/title-ix/training) page) will ensure a smooth process for spring registration.

Additional Questions
Please visit our FAQs (https://www.csusb.edu/title-ix/training/faqs) page or email titleix@csusb.edu (%20titleix@csusb.edu).

Nondiscrimination, Harassment or Retaliation Policy

Ethnicity, National Origin, Age, Genetic Information, Religion and Veteran Status
The California State University does not discriminate on the basis of Age, Genetic Information, Marital Status, Medical Condition, Nationality, Race or Ethnicity (including color and ancestry), Religion (or religious creed), and Veteran or Military Status in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination. César Portillo, Associate Vice President for Human Resources has been designated to coordinate the efforts of CSUSB to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to him at Human Resources, Sierra Hall, Room 110, (909) 537-5138. CSU Executive Order 1097, Revised October 5, 2016 (http://www.calstate.edu/OE/OE-1097-rev-10-5-16.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a Third Party.

Disability
The California State University does not discriminate on the basis of Disability (physical and mental) in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. César Portillo, Associate Vice President for Human Resources, has been designated to coordinate the efforts of CSUSB to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to him at Human Resources, Sierra Hall, Room 110, (909) 537-5138. CSU Executive Order 1097, Revised October 5, 2016 (http://www.calstate.edu/OE/OE-1097-rev-10-5-16.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a Third Party.

Gender/Gender Identity/Gender Expression/Sexual Orientation
The California State University does not discriminate on the basis of gender (or sex), gender identity (including transgender), gender expression or sexual orientation in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination. Cristina Martin, Director for Title IX and Gender Equity and Title IX Coordinator has been designated to coordinate the efforts of CSUSB to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to her at Title IX and Gender Equity, Santos Manuel Student Union, Room 103, (909) 537-5699. The California State University is committed to providing equal opportunities to all CSU students in all campus programs, including intercollegiate athletics (both on and off campus).

Title IX of the Education Amendments of 1972 protects all people regardless of their gender, gender identity or gender expression from sex discrimination, which includes sexual harassment and violence:

• Gender discrimination means an adverse act taken against an individual because of gender or sex (including sexual harassment, sexual misconduct, domestic violence, dating violence, and stalking) that is perpetrated against an individual on a basis prohibited by Title IX of the Education Amendments of 1972, 20 U.S.C. §1681 et seq., and its implementing regulations, 34 C.F.R. Part 106 (Title IX); California Education Code §66250 et seq., and/or California Government Code §§11135.

Sexual Harassment: a form of sex discrimination, is unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, and any other conduct of a sexual nature where:

1. Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a Complainant's
Sexual Assault: is a form of sexual misconduct and is an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person’s gender or sex.

Sexual Battery: is a form of sexual misconduct and is any willful and unlawful use of force or violence upon the person of another because of that person’s gender or sex as well as touching an intimate part of another person against that person’s will and for the purpose of sexual arousal, gratification or abuse.

Rape: is a form of sexual misconduct and is non-consensual sexual intercourse that may also involve the use of threat of force, violence, or immediate and unlawful bodily injury or threats of future retaliation and duress. Any sexual penetration, however slight, is sufficient to constitute rape. Sexual acts including intercourse are considered non-consensual when a person is incapable of giving consent because s/he is incapacitated from alcohol and/or drugs, is under 18 years old, or if a mental disorder or developmental or physical disability renders the person incapable of giving consent. The respondent’s relationship to the person (such as family member, spouse, friend, acquaintance or stranger) is irrelevant.

Acquaintance Rape: is a form of sexual misconduct committed by an individual known to the victim. This includes a person the victim may have just met; i.e., at a party, introduced through a friend, or on a social networking website.

Affirmative Consent: means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that s/he has the affirmative consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean consent nor does silence mean consent. Affirmative consent must be voluntary, and given without coercion, force, threats or intimidation.

• The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of affirmative consent. A request for someone to use a condom or birth control does not, in and of itself, constitute affirmative consent.
• Affirmative consent can be withdrawn or revoked. Consent to one form of sexual activity (or sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion. There must always be mutual and affirmative consent to engage in sexual activity. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after penetration. Once consent is withdrawn or revoked, the sexual activity must stop immediately.
• A person who is incapacitated cannot give affirmative consent. A person is unable to consent when s/he is asleep, unconscious or is incapacitated due to the influence of drugs, alcohol, or medication so that s/he could not understand the fact, nature or extent of the sexual activity. A person is incapacitated if s/he lacks the physical and/or mental ability to make informed, rational decisions. Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person’s decision-making capacity, awareness of consequences, and ability to make fully informed judgments. A person’s own intoxication or incapacitation from drugs or alcohol does not diminish that person’s responsibility to obtain affirmative consent before engaging in sexual activity.
• A person with a medical or mental disability may also lack the capacity to give consent.
• Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving legal consent due to age.
• It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the respondent knew or reasonably should have
known that the person was unable to consent to the sexual activity under any of the following circumstances:
• The person was asleep or unconscious;
• The person was incapacitated due to the influence of drugs, alcohol or medication, so that the person could not understand the fact, nature or extent of the sexual activity;
• The person was unable to communicate due to a mental or physical condition
• It shall not be a valid excuse that the respondent believed that the person consented to the sexual activity under either of the following circumstances:
  • The respondent’s belief in affirmative consent arose from the intoxication or recklessness of the respondent;
  • The respondent did not take reasonable steps, in the circumstances known to the respondent at the time, to ascertain whether the person affirmatively consented.

Consensual Relationships: Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the University community may begin as consensual, they may evolve into situations that lead to discrimination, harassment, retaliation, sexual misconduct, dating or domestic violence, or stalking.

• A University employee shall not enter into a consensual relationship with a student or employee over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each campus shall develop a procedure to reassess such authority to avoid violations of policy.
• This prohibition does not limit the right of an employee to make a recommendation on the personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

Domestic Violence: is abuse committed against someone who is a current or former spouse, current or former cohabitant, someone with whom the abuser has a child, someone with whom the abuser has or had a dating or engagement relationship, or a person similarly situated under California domestic or family violence law. Cohabitan means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as husband and wife, (5) the continuity of the relationship, and (6) the length of the relationship. For purposes of this definition, “abuse” means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Stalking: means a repeated course of conduct directed at a specific person that would cause a reasonable person to fear for his/her or others’ safety or to suffer substantial emotional distress. For purposes of this definition:
• Course of conduct means two or more acts, including but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person’s property;
• Reasonable person means a reasonable person under similar circumstances and with the same protected status as the complainant;
• Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

Consensual Relationships: Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the University community may begin as consensual, they may evolve into situations that lead to discrimination, harassment, retaliation, sexual misconduct, dating or domestic violence, or stalking.

• A University employee shall not enter into a consensual relationship with a student or employee over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each campus shall develop a procedure to reassess such authority to avoid violations of policy.
• This prohibition does not limit the right of an employee to make a recommendation on the personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

Domestic Violence: is abuse committed against someone who is a current or former spouse, current or former cohabitant, someone with whom the abuser has a child, someone with whom the abuser has or had a dating or engagement relationship, or a person similarly situated under California domestic or family violence law. Cohabitan means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as husband and wife, (5) the continuity of the relationship, and (6) the length of the relationship. For purposes of this definition, “abuse” means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Stalking: means a repeated course of conduct directed at a specific person that would cause a reasonable person to fear for his/her or others’ safety or to suffer substantial emotional distress. For purposes of this definition:
• Course of conduct means two or more acts, including but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person’s property;
• Reasonable person means a reasonable person under similar circumstances and with the same protected status as the complainant;
• Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

See further information in CSUSB’s sexual violence prevention and education statement, Title IX Notice of Nondiscrimination (which includes facts and myths about sexual violence), and Victim’s Rights and Options Notice, at https://www.csusb.edu/title-ix/resources. (https://www.csusb.edu/title-ix)

Whom to Contact If You Have Complaints, Questions or Concerns
Title IX requires the university to designate a Title IX Coordinator to monitor and oversee overall Title IX compliance. Your campus Title IX Coordinator is available to explain and discuss your right to file a criminal complaint (for example, in cases of sexual misconduct); the university’s complaint process, including the investigation process; how confidentiality is handled; available resources, both on and off campus; and other related matters.

If you are in the midst of an emergency, please call the police immediately by dialing 9-1-1.

Campus Title IX Coordinator
Cristina Martin, Director for Title IX & Gender Equity
California State University, San Bernardino
5500 University Parkway
Santos Manuel Student Union, 103
San Bernardino, CA 92407-2393
Email: titleix@csusb.edu (%20titleix@csusb.edu) or cristina.martin@csusb.edu
Website: https://www.csusb.edu/title-ix
Phone: (909) 537-5669
Regular office hours: Monday-Friday, 8:00 AM-4:30 PM
Summer office hours: Monday-Thursday, 7:00 AM-5:30 AM (closed Fridays)

Campus Title IX Deputy Coordinator
Krysten Newbury, Assistant Director for Title IX & Gender Equity
California State University, San Bernardino
5500 University Parkway
Santos Manuel Student Union, 103
San Bernardino, CA 92407-2393
Email: titleix@csusb.edu (%20titleix@csusb.edu) or krysten.newbury@csusb.edu
Website: https://www.csusb.edu/title-ix
whether confidentiality is appropriate given the circumstances of each. The Title IX Coordinator will determine if an employee's name remain confidential. These employees are required to disclose all information including the names of the parties, any employee who knows or has reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator. Employees are required to disclose all information including the names of the parties, any employee who knows or has reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator.

**Privileged and Confidential Communications**

- Physicians, Psychotherapists, Professional Licensed Counselors, Licensed Clinical Social Workers, and Clergy
- Physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy who work or volunteer on or off campus, acting solely in those roles or capacities as part of their employment, and who provide medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in their centers and offices) including those who act in that role who know or have reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that his/her name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident. (See confidential reporting options outlined below.)

**Safety of the Campus Community is Primary**

The university's primary concern is the safety of its campus community members. The use of alcohol or drugs never makes the victim at fault for gender discrimination, harassment or misconduct; therefore, victims should not be deterred from reporting incidents of sexual misconduct out of a concern that they might be disciplined for related violations of drug, alcohol or other university policies. Except in extreme circumstances, victims of sexual misconduct shall not be subject to discipline for related violations of the Student Conduct Code.

**Information Regarding Campus, Criminal and Civil Consequences of Committing Acts of Sexual Violence**

Individuals alleged to have committed sexual misconduct may face criminal prosecution by law enforcement and may incur penalties as a result of civil litigation. In addition, employees and students may face discipline at the university, up to including suspension or expulsion. Employees may face sanctions up to and including dismissal from employment, pursuant to established CSU policies and provisions of applicable collective bargaining unit agreements.

Students who are charged by the university with gender discrimination, harassment or misconduct will be subject to discipline, pursuant to the California State University Student Conduct Procedures (see Executive Order 1098 at [http://www.calstate.edu/EO-1098-rev-6-23-15.html](http://www.calstate.edu/EO-1098-rev-6-23-15.html) or any successor executive order) and will be subject to appropriate sanctions. In addition, during any investigation, the university may implement interim measures in order to maintain a safe and nondiscriminatory educational environment. Such measures may include but not be limited to: immediate interim suspension from the university; a required move from university-owned or affiliated housing; adjustments to course schedule; and/or prohibition from contact with parties involved in the alleged incident.

**Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence and Stalking**

The University encourages victims of sexual misconduct, dating violence, domestic violence, or stalking (collectively sexual misconduct) to talk to someone about what happened – so they can get the support they need, and so the University can respond appropriately.

- If you wish to fill out a complaint form online with the OCR, you may do so at: [http://www2.ed.gov/about/offices/list/ocr/complaintintro.html](http://www2.ed.gov/about/offices/list/ocr/complaintintro.html).
- Title IX requires the university to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct, as well as provide training, education and preventive measures related to sex discrimination. [CSU Executive Order 1097, Revised 10-5-2016](http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

- Except as provided below under Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence, and Stalking, any University employee who knows or has reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that his/her name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident. (See confidential reporting options outlined below.)

**Campus Advocate**

**Marina Wood, Advocate Services**
Counseling & Psychological Services, HC-165
California State University, San Bernardino

- If you wish to fill out a complaint form online with the OCR, you may do so at: [http://www2.ed.gov/about/offices/list/ocr/complaintintro.html](http://www2.ed.gov/about/offices/list/ocr/complaintintro.html).

Title IX requires the university to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct, as well as provide training, education and preventive measures related to sex discrimination. [CSU Executive Order 1097, Revised 10-5-2016](http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.
role under their supervision) may not report any information about an incident of sexual misconduct to anyone else at the University, including the Title IX Coordinator, without the victim’s consent. A victim can seek assistance and support from physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy without triggering a University investigation that could reveal the victim’s identity or the fact of the victim’s disclosure. However, see limited exceptions below regarding when health care practitioners must report to local law enforcement agencies. Health care practitioners should explain these limited exceptions to victims, if applicable.

Sexual Assault and Domestic Violence Counselors and Advocates – Sexual assault and domestic violence counselors and advocates who work or volunteer on or off campus in sexual assault centers, victim advocacy offices, women’s centers, and health centers (including those who act in that role under their supervision, along with non-professional counselors or advocates who volunteer in sexual assault centers, victim advocacy offices, women’s centers, gender equity centers, or health centers) all individuals who work or volunteer in these centers and offices, as well as non-professional counselors or advocates, and those who act in that role under their supervision) may talk to a victim without revealing any information about the victim and the incident of sexual misconduct to anyone else at the University, including the Title IX Coordinator, without the victim’s consent. A victim can seek assistance and support from these counselors and advocates without triggering a University investigation that could reveal his/her identity or that a victim disclosed an incident to them. However, see limited exceptions below regarding when sexual assault and domestic violence counselors and advocates must report to local law enforcement agencies. Counselors and advocates should explain these limited exceptions to victims, if applicable.

The University will be unable to conduct an investigation into a particular incident or pursue disciplinary action against a perpetrator if a victim chooses to (1) speak only to a physician, professional licensed counselor, licensed clinical social worker, clergy member, sexual assault counselor, domestic violence counselor or advocate; and (2) maintain complete confidentiality. Even so, these individuals will assist victims in receiving other necessary protection and support, such as victim advocacy, disability, medical/health or mental health services, or legal services, and will advise victims regarding their right to file a Title IX complaint with the University and a separate complaint with local or University police. If a victim insists on confidentiality, such professionals, counselors and advocates will likely not be able to assist the victim with: University academic support or accommodations; changes to University-based living or working schedules; or adjustments to course schedules. A victim who at first requests confidentiality may later decide to file a complaint with the University or report the incident to the police, and thus have the incident fully investigated. These counselors and advocates can provide victims with that assistance if requested by the victim. These counselors and advocates will also explain that Title IX includes protections against retaliation, and that the University will not only take steps to prevent retaliation when it knows or reasonably should know of possible retaliation, but will also take strong responsive action if it occurs.

EXCEPTIONS: Under California law, any health practitioner employed in a health facility, clinic, physician’s office, or local or state public health department or clinic is required to make a report to local law enforcement if he or she provides medical services for a physical condition to a patient/victim who he or she knows or reasonably suspects is suffering from (1) a wound or physical injury inflicted by a firearm; or (2) any wound or other physical injury inflicted upon a victim where the injury is the result of assaultive or abusive conduct (including sexual misconduct, domestic violence, and dating violence). This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, professionals described above (physicians, psychotherapists, professional counselors, licensed clinical social workers, clergy, and sexual assault and domestic violence counselors and advocates) are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to (1) local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger; or (2) to the court if compelled by court order or subpoena in a criminal proceeding related to the Sexual Violence Incident. If applicable, these professionals will explain this limited exception to victims.

REPORTING TO UNIVERSITY OR LOCAL POLICE

If a victim reports to local or University Police about sexual misconduct, violence, the police are required to notify victims that their names will become a matter of public record unless confidentiality is requested. If a victim requests that his/her identity be kept confidential, his/her name will not become a matter of public record and the police will not report the victim’s identity to anyone else at the University, including the Title IX Coordinator. University Police will, however, report the facts of the incident itself to the Title IX Coordinator being sure not to reveal to the Title IX Coordinator victim names/identities or compromise their own criminal investigation. The University is required by the federal Clery Act to report certain types of crimes (including certain sex offenses) in statistical reports. However, while the University will report the type of incident in the annual crime statistics report known as the Annual Security Report, victim names/identities will not be revealed.

REPORTING TO THE TITLE IX COORDINATOR AND OTHER UNIVERSITY EMPLOYEES

Most University employees have a duty to report sexual misconduct violence incidents when they are on notice of it. When a victim tells the Title IX Coordinator or another University employee about a sexual misconduct violence incident, the victim has the right to expect the University to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the University strongly encourages victims to report sexual misconduct violence directly to the campus Title IX Coordinator.

As detailed above, in the Privileged and Confidential Communications section of this policy, all University employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any sexual violence incidents of which they become aware. The University will need to determine what happened – and will need to know the names of the victim(s) and the perpetrator(s), any witnesses, and any other relevant facts, including the date, time and specific location of the incident.

To the extent possible, information reported to the Title IX Coordinator or other University employees will be shared only with individuals responsible for handling the University’s response to the incident. The
University will protect the privacy of individuals involved in a sexual misconduct violence incident except as otherwise required by law or University policy. A sexual misconduct violence report may result in the gathering of extremely sensitive information about individuals in the campus community. While such information is considered confidential, University policy regarding access to public records and disclosure of personal information may require disclosure of certain information concerning a report of sexual misconduct violence. In such cases, efforts will be made to redact the records, as appropriate, in order to protect the victim’s identity and privacy and the privacy of other involved individuals. Except as detailed in the section on Privileged and Confidential Communications above, no University employee, including the Title IX Coordinator, should disclose the victim’s identity to the police without the victim’s consent or unless the victim has also reported the incident to the police.

If a victim requests of the Title IX Coordinator or another University employee that his/her identity remain completely confidential, the Title IX Coordinator will explain that the University cannot always honor that request and guarantee complete confidentiality. If a victim wishes to remain confidential or request that no investigation be conducted or disciplinary action taken, the University must weigh that request against the University’s obligation to provide a safe, non-discriminatory environment for all students, employees, and third parties, including the victim. Under those circumstances, the Title IX Coordinator will determine whether the victim’s request for complete confidentiality and/or no investigation can be honored under the facts and circumstances of the particular case, including whether the University has a legal obligation to report the incident, conduct an investigation or take other appropriate steps. Without information about a victim’s identity, the University’s ability to meaningfully investigate the incident and pursue disciplinary action against the perpetrator may be severely limited. See Executive Order 1095 for further details around confidential reporting, and other related matters (http://www.calstate.edu eo/EO-1095-rev-6-23-15.html).

Extended Learning (CEL)

College of Extended Learning

Sierra Hall, Room 134
(909) 537-5975 College of Extended Learning website (http://cel.csusb.edu)

The College of Extended Learning (CEL) at California State University, San Bernardino offers a variety of programs and serves as the main outreach arm of the University to extend its educational services to local communities and audiences across the region, nation and internationally.

California State University, San Bernardino considers its Extended Learning credit and noncredit programs as an integral part of the University. These programs are an extension of the University’s educational services and are in concert with its overall mission and purpose. Academic programs and courses offered through CEL meet the standards of quality, which the University sets for all its programs and courses in terms of resources, faculty, level of instruction, evaluation and support services.

The College of Extended Learning serves a wide variety of audiences that range from school age youth, young adults and working professionals, by offering programs that meet their educational needs for academic preparation, professional growth, career advancement or personal enrichment. All programs offered through the College of Extended Learning are offered on a self-supporting basis without any state funds.

Academic Degree Programs and Courses

In partnership with academic colleges within the University, the College of Extended Learning offers degree and certificate programs to students who cannot access CSUSB programs on campus. These programs, known as “Special Sessions,” are fully self-supporting. Programs may be offered at off-campus locations nationally and internationally, as well as online. Special Sessions degree and/or certificate programs meet the same quality standards as those offered on campus. Students must be admitted to the University in order to enroll. Through Special Sessions, the College of Extended Learning, extends the University’s high quality academic programs to audiences that otherwise could not be served. For more information on Special Sessions available through the College of Extended Learning, call (909) 537-5976.

Continuous Enrollment

Graduate students who are preparing for the comprehensive exam must remain in continuous enrollment until their degree is granted. Students can meet the continuous enrollment requirement by enrolling in the Graduate Continuous Enrollment course through the College of Extended Learning. No credit is earned, however students are allowed to maintain their status in their graduate degree program.

Open University

Most courses listed in the University catalog are open to non-matriculated students through the Open University program on a space-available basis. Students can apply up to 36 units earned through Open University toward a bachelor’s degree and 13 units toward a master’s degree (subject to approval by the appropriate department).

Open University is designed for those who:

- Want to examine a particular field before seeking admission to the University and enrolling in a degree program;
- Want to update professional skills;
- Missed the deadline for admission to CSUSB;
- Have stopped attending CSUSB and wish to re-enter;
- Want to improve their GPA in order to reenter an academic program;
- Wish to take selected CSUSB courses that will transfer to another university and or;
- Want to take a course for the enjoyment of learning.

Students who desire to enroll in Open University classes are required to obtain a registration form from the College of Extended Learning and approval of the instructor. Graduate-level and education credential courses are not available through Open University, and certain other courses are restricted and require departmental approval. Matriculated students are not allowed to enroll concurrently in the Open University program. For more information, call (909) 537-5975.

Professional and Continuing Education (PACE)

A variety of credit and noncredit courses and programs are offered to meet educational needs of residents in the Inland Empire and beyond. Taught by university faculty and academically qualified practitioners, many of these courses provide professional development in business, management, education, healthcare, human services and other fields, with the aim of improving one’s effectiveness on the job or opening doors to new careers.

The College of Extended Learning offers many certificate programs, online and in the classroom, that can help participants gain a competitive edge for upward mobility in their workplace. Current certificate programs and workshops include topic areas such as:

- Business/Management:
  - Administrative Professional with Microsoft Office Specialist 2016
  - Administrative Professional with Microsoft Office Specialist 2013
  - Administrative Professional with Microsoft Office Master 2016
  - Certified Green Supply Chain Professional
  - Chartered Tax Professional for California Residents
  - Executive Assistant
  - Food and Customer Service Skills Training
  - Freight Broker/Agent Training
  - Grant Writing
  - Human Resources Professional
  - Management Certificate in Public Procurement
  - Paralegal
  - Payroll Practice and Management
  - Professional Bookkeeping with QuickBooks 2015
  - Professional Interpreter
  - Purchasing and Supply Chain Management
  - Technical Writing
  - Travel Agent Training Online Certificate

- Education:
  - CPR (Clear Credential CPR Requirements)
  - Courses for Educators
• Early Orientation for Designated Subjects
• Online Certificate in Reading Fundamentals
• STEM Certificate for Educators

• Health Service Industry Training:
  • Activity Director
  • Administrative Dental Assistant
  • Basic Audiometry and Hearing Problems
  • Clinical Dental Assistant
  • Clinical Medical Assistant Program with a Clinical Externship
  • ICD–10 For ICD-9 Coders
  • Medical Administrative Assistant Certificate (online or face-to-face)
  • Medical Administrative Assistant with E.H.R.
  • Medical Billing
  • Medical Billing and Coding Professional
  • Medical Transcription and Editing
  • Optician Certification Training
  • Pharmacy Technician
  • Pharmacy Technician Certificate Program with a Clinical Externship
  • Physical Therapy Aide
  • Professional Medical Coding and Billing Certificate with PCS

  • Home Inspection Certificate
  • HVACR Technician
  • Solar Power Professional

• Technology:
  • Cloud Computing Training Program
  • Computer Technician
  • CompTIA™ Certification Training: A+, Network+, Security+
  • Help Desk Analyst: Tier 1 Support Specialist

• Introduction to C++ Programming
• Introduction to Java Programming
• Systems Security Certified Practitioner (SSCP) Training
• Video Game Design and Development

• Test Preparation:
  • SAT
  • GRE
  • U.S. Constitutional Challenge Examination

Extension courses offered through The College of Extended Learning are designed with professional growth in mind and, in most cases, apply toward continuing education requirements and salary advancement for teachers.

PACE also offers numerous online career training programs and personal enrichment classes in areas such as test preparation, local history and recreation. For more information, call (909) 537-5976.

In-service Credit for Training Programs

Schools, school districts, municipalities and other organizations interested in planning special staff development programs may contact the College of Extended Learning to arrange for university credit. Training programs that meet academic criteria set forth by CSUSB can provide participants with CEU hours or extension credit (non-degree applicable credit) that can be used toward school district requirements for professional development. The application process is simple and quick. For more information, call (909) 537-5976.

Workplace Training / Contract Programs / Customized Training

The College of Extended Learning provides training development programs, certificate programs and educational components for grants on a contractual basis for business (large and small), private industry, health care organizations, not-for-profit organizations and government agencies.

In direct consultation with the participating organization, the College of Extended Learning will develop custom-designed professional development programs, to improve the professional effectiveness, productivity and problem-solving skills of the organization's staff. For more information, call (909) 537-3982.

Online Career Training Programs

The College of Extended Learning provides training programs, certificate programs and educational components for grants on a contractual basis for businesses, healthcare organizations, not-for-profit organizations and government agencies.

In direct consultation with the participating organization, the College of Extended Learning will develop custom-designed professional development programs, to improve the professional effectiveness, productivity and problem-solving skills of the organization's staff. For more information, call (909) 537-3982.

Online Career Training Programs

The College of Extended Learning offers online continuing education programs and courses designed to provide the workforce skills necessary to acquire professional skills needed in many in-demand occupational areas such as business, education, health care, health sciences, education, electronic arts and information technology. The programs are
designed to develop expertise in desired fields and/or prepare participants for industry certification exams.

In addition, Extended Learning offers hundreds of individual online personal enrichment, skill building and training courses in many subject areas. For more information, call (909) 537-5976.

**Osher Lifelong Learning Institute**

The College of Extended Learning offers online continuing education programs and courses designed to provide the workforce skills necessary to acquire professional skills needed in many in-demand occupational areas such as business, education, healthcare, health sciences, education, electronic arts and information technology. The programs are designed to develop expertise in desired fields and/or prepare participants for industry certification exams.

In addition, Extended Learning offers hundreds of individual online personal enrichment, skill building and training courses in many subject areas. For more information, call (909) 537-5976.

**International Extension Programs**

International Extension Programs (IEP) is a division within the College of Extended Learning that offers programs for international students. Participants from across the world attend IEP credit or non-credit courses and programs that can be customized in content and length.

IEP offers numerous program options in the area of Intensive English Language training, Teaching English to Speakers of Other Languages (TESOL) Programs, International Training & Education Programs, and Study Abroad in the USA Programs.

**The English Language Program (ELP)**

The English Language Program (ELP) is designed for international students, professionals or those seeking an intensive English experience focusing on reading, writing and listening/speaking, as well as an introduction to American culture. The program focuses on providing the academic English language skills needed to meet the requirements for admission into the university’s undergraduate or graduate programs. All students are required to take a three-part placement test upon entrance. The placement test consists of an oral interview, written composition and a standardized multiple choice exam. Students are placed in a level of instruction based on the test results. ELP consists of 6 levels:

**Level 1 Beginner**

Students will study basic grammar concepts, develop writing skills, and become familiar with new vocabulary and spelling through reading, listening and speaking exercises.

**Level 2 Pre-Intermediate**

Students will continue to develop their use of English structures through grammar, reading, writing and speaking exercises. In addition, they will develop essay writing and conversational skills.

**Level 3 Intermediate**

Students will transition into the use of free expression to continue to acquire English skills used in intermediate writing assignments, conversation and reading.

**Level 4 Upper-Intermediate**

Students will understand and accurately use basic and complex English structures and build on the writing process as they continue to develop their analysis, critically thinking and summarizing skills.

**Level 5 Advanced**

Through the improvement of their critical thinking skills as applied to written and oral academic research and argument, as well as the use of more complex vocabulary, students will attain the language needed for university study. Successful completion will waive the TOEFL requirement for undergraduate admission into CSUSB.

**Level 6 Graduate Program Preparation**

With a graduate program preparation focus, this level is designed to increase English proficiency through advanced research and essay writing, test intensive reading and oral presentations. Successful completion will waive the TOEFL requirement for admission to most graduate programs at CSUSB.

**Gateway USA**

In this program, participants learn to speak and understand English with more confidence by immersing themselves in American culture and the California lifestyle. They acquire language skills as they focus on their listening, speaking, reading and writing while practicing in real-life situations.

**Academic Pathway Program (APP)**

Academic Pathway program (APP) provides an excellent opportunity for students who are serious about their academic goals, but do not meet admission requirements for California State University, San Bernardino (CSUSB) based on their high school Grade Point Average (GPA).

The program allows students to be conditionally admitted to a CSUSB undergraduate program with their high school GPA between 2.00 and 2.49. Students who successfully complete APP with a GPA of 2.75 or higher will be admitted to bachelor degree programs at CSUSB.

The APP is comprised of up to 36 units of academic credit classes. These classes are to fulfill general education requirements at CSUSB. Students typically enroll in nine classes over one academic year (three terms of study). Classes will transfer towards undergraduate degree requirements.

**Study Abroad in the USA**

Study Abroad in the USA program gives international students an opportunity to take university courses that can be transferred to their home university. Participants come to CSUSB for one or several terms and take courses with American students.

**TESOL Programs**

The TESOL programs are designed for individuals who have a desire to work with children and/or adults who are learning English as a second language. IEP offers TESOL Teacher Training, 120-Hour TESOL Certificate Programs and Advanced TESOL Certificate Programs.

While the TESOL Teacher Training program is a one-month noncredit practice focused program, the advanced TESOL Certificate Program provides an excellent foundation in TESOL practices, research, and theory. If participants decide they would like to pursue a master's in
TESOL at CSUSB, the coursework in this advanced certificate program applies towards their degree.

International Training & Education Programs
The International Training and Education Programs (ITEP) offer custom designed programs for a variety of international participants ranging from high school students to government and corporate executives. Executives and managers in the public and private sectors from around the world attend management training and educational programs. Through these programs, ITEP promotes business cooperation and educational and cultural exchanges for the mutual interests of both the United States and other countries. Many ITEP programs are designed for mid-career professionals and executives seeking training in various academic disciplines in topics such as U.S culture and values, English language, business and social etiquette, organizational practices and protocol, and corporate and government culture.

ITEP also offers advanced technology training for engineers and technicians in various industrial fields. ITEP training programs are designed to help international participants advance their career while they obtain workforce skills necessary to acquire professional positions in many in-demand occupations. IEP can also design programs tailored to individual group’s specific needs. Programs are customized based on length, subjects, specific interests, needs and budget. Programs in English for specific purposes can be arranged to meet industry or academic needs.

MBA Preparatory Program
This program is designed for international students preparing for admission into the MBA degree program in order to study at CSUSB. The program is 9 months long and has three main areas of focus including English language skills, GMAT preparation and academic skills.

Camp Programs
These programs are designed for international students, professionals or those just seeking to enhance their English language experience. It is focused on conversation and communication skills with a cultural immersion component such as field trips to nearby areas of interest.

Tribal Management
This program is a 2-week, custom-designed training program in Tribal/ Hospitality Management. The program consists of five hours of lecture per day, five days per week and tours to nearby Native American reservations.

E-Government
This 2-week program helps introduce participants to the cutting edge information on cyber security. It is customized to prepare participants to meet the cyber security threats of tomorrow with topics such as Security in the Cloud: Fact or Fiction? And Bring Your Own Device (BYOD) and Consumerization.

Summer Intensive Business English Program
The Summer Intensive Business English program is for learners seeking an intensive English language experience to enhance language skills and business knowledge. The program combines business English, industry visits and American culture.

Entrepreneurial Management
Entrepreneurial Management is an intensive summer program designed for business students with a focus on process and methods involved in starting and growing enterprises including accessing capital and positioning an enterprise for sustainability.

China Programs
The China Programs Office (CPO) at CSUSB offers a one-stop resource for global management training, professional development, intercultural exchange and educational programs. It is designed to host educational training programs for mid-career professionals and executives from China in various academic disciplines as well as programs in U.S. culture and values, English language, business and social etiquette, organizational practices and protocol, and corporate and government culture.

The CPO training programs will build cultural and business bridges between the United States, and China and foster increased exchange among organizations and individuals in economic, governmental, academic, and civic sectors. To ensure the success of these programs, IEP works closely with faculty and with expert professionals in California companies and government agencies at the state, city, and national levels.

Oil & Gas Programs
Driven by learning outcomes, Oil & Gas Programs at IEP are designed to meet the educational and training needs for oil and gas sector professionals while introducing content that is suitable for upstream, midstream and downstream functions. While custom designed programs are available for client companies as per their specific operations and objectives, there are five standard programs available: (1) Executive Project Management for Oil & Gas Professionals, (2) Oil & Gas Operations, (3) Mechanical & Compressor Maintenance, (4) Supply Chain Management, (5) Programmable Logic Controllers & Digital Circuits, (6) Electrical Operations & Maintenance, (7) Health, Safety & Environment.

Executive Project Management for Oil & Gas Professionals
This program is suitable for all field and administration employees and supervisors who are hoping to gain a strong understanding of project management. Content includes classes in Project Integration Management, Project Scope Management, Project Time Management, Project Cost Management, Project Quality Management, Project Human Resource Management, Project Communication Management, Project Risk Management, Project Procurement Management, and Project Stakeholder Management. Participants with good statistical background are also introduced to Six Sigma problem solving using the DMAIC model.

Oil & Gas Operations
This extensive program covers principal areas in practical drilling and production engineering in the oil and gas industry. Classes are comprised of a wide spectrum of topics including well control, drilling basics, casing, cementing, discovery wells, PVT, pressure transient analysis, EOR, accelerated recovery versus maximizing ultimate recovery, proper well construction, zone isolation, squeezing, artificial lift, casing and wellhead design, completions overview, shallow versus deep, troubleshooting poor performing offset wells, stimulation, fracturing and acidizing, fracture design choices, monitoring acid diversion with fiber optic, facilities design, oil and gas measurement and sales.
Mechanical & Compressor Maintenance

The program includes classes on the following topics: Introducing Mechanical Maintenance: Maintenance Types & Strategies (Breakdown Maintenance, Preventive Maintenance, Predictive Maintenance, and Proactive Maintenance), Compressors: Methods & Types (Reciprocating [Single-Acting, Double-Acting, Single-Stage, and Two-Stage], Ejectors, and Dynamic [Centrifugal and Axial Compressors]), Pumps: Operation, Maintenance & Troubleshooting (Reciprocating, Centrifugal, Turbines, and Rotary), Valves: Types, Purposes & Flow Calculation [Gas and Oil], Gas Turbines: Description, Principles of Operation, Components, Industrial Types – Categories [Single-Dual-Twin Shaft] and Cycles. Depending on participants’ background and previous training, this program may expand to topics such as Vibration Analysis for Predictive Maintenance, Advance Techniques in Preventive Maintenance, Advanced Valve Selection, Maintenance & Repair, Advance Operation and Maintenance of Rotating Equipment, Lubrication, Welding Technology, and Corrosion.

Oil & Gas Supply Chain Management

The ultimate objective of this program is to equip participants with sound skills for domestic and international logistics and supply chain management. This program provides skills and knowledge in enterprise resource planning, decision making in supply chain and transportation management, transportation systems management, quality management, logistics strategy, transportation issues and development, information mapping and data visualization, and international logistics. Logistics management involving oil and gas products within and across borders are included as well as international business environment, international transportation, intermediaries, import/export regulations, payment and risks, and cultural differences of the global supply chain.

Programmable Logic Controllers & Digital Circuits

This program focuses on programmable logic controllers and digital circuits used in oil & gas facilities. Content is designed to revise the basics and gradually advance in level to advanced PLC topics and functions. Modules in this program are designed to include, PLC fundamentals, analogue controllers, digital controllers, control performance, ladder logic diagrams, advanced PLC functions, open and closed loop systems, Proportional Integral Derivate (PID), Allen Bradley ControlLogix, and Siemens S7-300/400. More modules are added as they relate to participants’ backgrounds and instrumentation used in their company fields.

Electrical Operations & Maintenance

While this program is designed primarily for technical works, electrical engineers in oil and gas facilities can also benefit from a refresher and updates on the advances in the field. Modules in this program are designed to include cathodic protection, lighting and small power, electrical faultfinding and troubleshooting, hazardous areas classification and installation, earthing systems, protection systems and equipment, power generation systems and equipment, low voltage distribution systems and equipment, high voltage distribution systems and equipment, electrical transformers, power quality and management, uninterruptable power suppliers and battery banks, electrical pumps, motors and MCC.

Health, Safety & Environment

The Health, Safety and Environment (HSE) in Oil & Gas Industry Program is designed to promote the knowledge and skills of professionals responsible for safety in oil and gas facilities. Modules in this program are designed to include current technology and practices that increase trainees’ effectiveness and raise awareness of the various aspects of HSE functions in oil and gas facilities. These include such topics as HSE tools, standards, measurement, competency requirements, permit-to-work systems, startup and shut down of hydrocarbon involving operations, HSE management context, oil spill and explosion response, risk assessment, incident investigation, extraction and processing hazards, risk management techniques, safety case management, medical emergencies, HSE auditing, environment management, radiation, NORM (regulations and processes), and HSE technical report writing.

Homestay Program

Homestay is a housing option for international students who want to improve their English in an immersion setting and learn how American families live. Host families allow students to become members of their families. This means spending time with the family in the evenings and on weekends, having fun with them and participating in daily family activities. Homestay program provides a room (single or double), three meals a day and transportation to and from school.

For information on ELP, ITEP, Homestay or any of the international programs offered through the College of Extended Learning’s International Extension Programs office, call IEP at (909) 537-5978.

- Asian Studies
- Latin American Studies

Undergraduate Degrees

Bachelor of Arts

- American Studies (p. 139) (not offered in the 2017-18 Academic Year)

  Coordinator: David Carlson

The American Studies major provides students with a broad introduction to American culture. The major incorporates course work from a variety of disciplines, and it encourages students to recognize the diversity of our culture. Consequently, American Studies is an appropriate program for those students who wish to be informed citizens as well as for those who also are looking for a useful context for careers in education, government, law, library work and related fields.

The major consists of a basic set of requirements in American literature, art and history. These requirements provide students with a historical overview of the culture as well as the investigative methods for understanding that culture. Related electives allow students to pursue their individual interests. This degree totals 72 units. Students who are interested in earning a teaching credential should consult either multiple subject or a single subject credential information in the Basic Teaching Credential Programs (p. 309) in the Department of Teacher Education and Foundations section (p. 308) of the catalog.

Minor

- Minor in Latin American Studies (p. 222)

Department of Art

Accredited by the National Association of Schools of Art and Design

Department of Art

Visual Arts Center, Room 105
(909) 537-5802 Department of Art website (http://art.csusb.edu)

Bachelor of Arts

- Art - Plan I (Visual Studies)
- Art - Plan II (Studio Art)
- Art - Plan III (Art History)
- Art - Plan IV (Graphic Design)
- Art - Plan V (Graphic Design and Marketing)

Teaching Credential Program

Art - Plan I, Emphasis A (Visual Studies: Art Education/Art Therapy)

Minor

- Art History
- Film Studies
- Graphic Design: Print
- Graphic Design: Web
- Studio Art

Certificate Program

Business Skills for the Artist

Master of Arts in Art

- Art Education (not offered in the 2017-18 Academic Year)
- Studio Art (not offered in the 2017-18 Academic Year)

Master of Fine Arts

Studio Art

The Department of Art offers a multiplicity of perspectives on art, design and visual culture that include but are not limited to: creative ecstasy, critical incisiveness, historical consciousness, political activism, professional know-how, punk refusal, corporate ingenuity, refined craft, social engagement, stylish design, and oftentimes that which approaches personal enlightenment.

Art students are immersed in a supportive and creative climate where they gain a rigorous foundation in art history, theory, criticism, and studio practice. The curriculum thoroughly integrates technical skills and conceptual exploration, fostering insight and imagination that encourages students to challenge and evolve the boundaries of their disciplines and those of their world. Students are prepared for an array of career opportunities that utilize their talents, passion, knowledge, critical thinking, and artistic skills.

As a major in art, students working toward a Bachelor of Arts in Art, select from these plans: art education, studio arts (including ceramics, digital arts, glass, painting and drawing, photography, printmaking, sculpture, and woodworking and furniture making), art history, graphic design, and graphic design and marketing. Students seeking a minor in art choose from art history, studio art, graphic design (print or web), and film studies.

The Department of Art is housed with the world-class Robert and Francis Fullerton Museum of Art in the 100,000 sq. ft. Visual Arts Center, considered the finest art facility in the California State University system.

Five-unit studio courses meet for eight scheduled hours per week and require an additional seven hours per week outside of class. Field trips are mandatory in most art history courses and several studio courses. Materials fees are required in all art courses.

Teaching Credential Program

The Bachelor or Art in Art - Plan I is an approved single subject teaching credential preparation program in art. For information about prerequisite courses, professional education component of the credential program, admission to the teacher education program and specific requirements for the single subject waiver program contact the Credentials Office, CE-102 for information.

Honors Program

To be awarded Honors in Art, an art major must:

1. Achieve a university grade point average of 3.25;
2. Achieve a grade point average of 3.5 in the major;
3. Be recommended by three faculty, at least one of whom is in their plan and specialization;
4. In special circumstances, the department may grant honors to students who fail to meet some or all the above requirements, but have in some other way demonstrated exceptional achievement in the field of art.

Students interested in receiving honors must initiate the process by making a formal application to the Art Department prior to their final term of study.

Current Faculty

Annie Buckley, Associate Professor
B.A. 1990, University of California, Berkeley
M.F.A. 2003, Otis College Of Art & Design

Jane Chin Davidson, Associate Professor
Ph.D, 2007, University of Manchester

Kurt Collins, Professor
B.A. 1995, University of Colorado
M.S. 1996, Ferris State University

Ed Gomez, Assistant Professor
B.F.A. 1999, Arizona State University
M.F.A. 2003, Otis College of Art and Design

Katherine Gray, Professor
B.A. 1989, Ontario College of Art
M.F.A. 1991, Rhode Island School of Design

Richard M. Johnston, Professor
B.A. 1966, California State University, Long Beach
M.F.A. 1968, Cranbrook Academy of Art

Jiong Li, Assistant Professor
Undergraduate Degrees

Minors

- Art History (p. 150)
- Film Studies (p. 162) (The Department of Art participates in the interdisciplinary minor in Film Studies.)
- Graphic Design: Print (p. 150)
- Graphic Design: Web (p. 150)
- Studio Art (p. 150)

Certificate Program

- Business Skills for the Artist (p. 146)

Bachelor of Arts in Art - Plan I
(Visual Studies)

Requirements (97 units)

Total units required for graduation: 180

This interdisciplinary program is designed for students seeking a liberal arts education with an emphasis in art. It is recommended for those who wish to pursue teaching, writing, curating, and/or other ways of facilitating art and art experiences in the public realm. After completion of the core program, students will choose from one of the three emphases.

Emphasis A is designed for students who wish to pursue either a Single Subject Teaching Credential in Art or a graduate studies in Art Education or Art Therapy and is an approved subject matter competency waiver in the area of Art by the California Commission on Teacher Credentialing.

Emphasis B is designed for students who wish to pursue careers and/or graduate studies in Art Writing and Criticism.

Emphasis C is designed for students who wish to pursue interdisciplinary paths in curating, writing, community-based art, participatory art and/or other areas in which art and the public intersect.

Upper-division requirements (23)
History of Art

ART 420 Art from 1900 to the Present 4

Chose one of the following courses: 4

- ART 305 Gender and Identity in the Visual Arts
- ART 310 Asian Art
- ART 314 The Art of Indigenous Peoples
- ART 323 Native North American Art
- ART 324 Pre-Columbian Art
- ART 328 Mexican Art
- ART 329 Chicano Art
- ART 396 New Genres 5
- ART 415 Senior Seminar: Art and Society II 2
- ART 416 Senior Project 2
- ART 440 History, Philosophy, and Theories of Visual Studies 4
- ART 575B Internship 2

Total Units 68

Visual Studies Majors choose one of the following three emphases:

**Emphasis A:**

Art Education/Art Therapy (Program Code: ARVA) (29)

- ART 460 Art and Human Development 4
- ART 540 Art and Community 5

Choose two courses from the following (not to be repeated from lower division studio art course above) for a total of 10 units:

- ART 235 Beginning Painting
- ART 240 Beginning Sculpture
- ART 254 Beginning Ceramics
- ART 260 Beginning Printmaking

Choose two courses from the following from two different areas of specialization for a total of 10 units (Note: some courses listed require lower-division prerequisites):

- Ceramics
  - ART 355 Intermediate Ceramics
  - ART 357 Advanced Ceramics
- Graphic Design
  - ART 320 Digital Image Editing
  - ART 322 Web Design
  - ART 325 Advanced Digital Image Editing
- Media Arts
  - ART 326 Interactive Multimedia Design
  - ART 350 Introduction to Digital Illustration
  - ART 387 Video Art
- New Genres
  - ART 366 Topics in Studio Art
  - ART 373 Installation Art
  - ART 387 Video Art
  - ART 441 Public Art
- Painting
  - ART 304 Advanced Drawing and Life Drawing
  - ART 335 Intermediate Painting
  - ART 336 Advanced Painting
- Photography

Total Units 29

**Emphasis B:**

Art Writing and Criticism (Program Code: ARVB) (29)

- ART 414 Senior Studio Critique 4
- ART 520 Contemporary Art, Theory and Criticism 4
- ART 530 Art Writing 4
- ART 540 Art and Community 5
  - or ART 595E Independent Study 12

Three upper division Art History courses from the following two groups totaling 12 units.

Choose two courses from the following (not to be repeated from courses selected above):

- ART 305 Gender and Identity in the Visual Arts
- ART 306 Greek and Roman Art
- ART 310 Asian Art
- ART 314 The Art of Indigenous Peoples
- ART 316 Arts of the Ancient Near East and Egypt
- ART 321 Renaissance Art
- ART 323 Native North American Art
- ART 324 Pre-Columbian Art
- ART 327 Baroque and Rococo Art
- ART 328 Mexican Art
- ART 329 Chicano Art

Choose one course from the following:

- ART 333 History of Graphic Design
- ART 334 History of Animation
- ART 359 History of Photography

Total Units 29

**Emphasis C:**

Public Practices in Art (Program Code: ARVC) (29)

Chose five courses totaling 19 units from the following:

- ART 345 Gallery Management
- ART 440 History, Philosophy, and Theories of Visual Studies
- ART 520 Contemporary Art, Theory and Criticism
- ART 530 Art Writing
- ART 540 Art and Community

Choose from the following list of courses for a total of 10 units:

- ART 373 Installation Art
- ART 387 Video Art
- ART 441 Public Art
California State University, San Bernardino

ART 595A  Independent Study
ART 595B  Independent Study
ANTH 341  Globalization and Culture
ANTH 375  Museum Management
ANTH 376  Exhibition Development and Design
COMM 380  Visual Communication
COMM 409  Latina/os, Media and Culture
COMM 410  Asian Media and Culture
COMM 411  Gender and Communication

Total Units  29

Bachelor of Arts in Art - Plan II (Studio Art)

Requirements (96 units)

Total units required for graduation: 180

This program is designed for the student with a strong professional interest in art who may wish to pursue graduate studies.

Total Units 96

Certificate in Business Skills for the Artist

Requirements (32 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Master of Arts in Art - Art Education

Not offered in the 2017-18 Academic Year

Requirements (45 units)

The Master of Arts, Art Education emphasis is designed for K-12 art teachers with at least one year of teaching experience who wish to further develop their studio practice, art education pedagogy and teaching skills. The program offers a progressive perspective on art education that encourages innovative approaches and leadership in the field. Curriculum is balanced between theory and practice including; studio work, art education theory, art history and art criticism. Students receive intensive interaction with faculty and other students.

Admission to the Program

In addition to the general requirements of the University, specific requirements for admission to classified graduate standing are:

1. A baccalaureate degree from an accredited institution with a minimum of 30 quarter units of upper-division art comparable to those required

Total Units 99
of a major in art at this University. (The Art Department determines which courses are comparable);  
2. Completion of a minimum of 10 quarter units of upper-division studio work in a single area of specialization;  
3. Completion of a minimum of 20 quarter units in art history, a minimum of eight to be upper-division units;  
4. A grade-point average of 3.0 ("B") or better in all art courses taken;  
5. Completion of the graduate entrance writing requirement;  
6. Completion of one year, K-12 art teaching experience  
7. Admission to the program will additionally be based upon evaluations by the Art Department graduate committee of the following items:  
   a. A portfolio review displaying a comprehensive body of work with strong technical abilities and potential for a clear direction in graduate study within the studio area. A portfolio consists of 12–20 images of the applicant's artworks and 12-20 images of applicant students' work in the form of jpeg or on a CD. The portfolio must be accompanied by a typed list of artworks with the applicant's name, and title, medium, size and date for each artwork.  
   b. A two- to three-page typed “Statement of Purpose” describing the conceptual and technical aspects of the artwork in the portfolio and the applicant's reason for seeking graduate studies in art education. This statement should also demonstrate applicant's knowledge of historical and contemporary art in relation to their work. This statement should be carefully crafted and will be used by the committee to evaluate the student's writing and critical thinking skills.  
   c. Three letters of recommendation supporting the student's application. Letters should be from professionals and/or educators in art and/or related fields who are able to assess the student's competence and to make relevant comments on the student's likely success in a graduate art program.  
   d. Applicants will submit a current Vitae and an interview will be arranged by the art education faculty and/or the Graduate Coordinator. During this interview, applicants will write a short response paper on selected issues in art education.

Applicants who have satisfied the general requirements for admission, but who have deficiencies in prerequisite preparation which can be met by specified additional preparation may be admitted to the program with conditionally classified standing. They will be advanced to classified standing when the Art Department graduate coordinator certifies that they have satisfied all appropriate requirements. Deficiencies must be made up as early in the program as possible, normally within the first 20 units after conditional admission.

Applications to the M.A. in Art, Art Education program are reviewed annually for Fall admission. The completed application deadline is March 15 for both the university and M.A. in Art, Art Education Program.

Contact the Art Department graduate coordinator to request a program application and further information.

**Advancement to Candidacy**

Candidacy denotes that the student is fully qualified to complete the final stages of the Master of Arts program in Art with an emphasis in Art Education, and is thus eligible to enroll in ART 696. To be formally advanced to candidacy, the student must have:

1. Completed the graduate entrance writing requirement. Students are urged to complete this requirement as early in their program as possible, and prior to taking any art history course work in the department;  
2. Achieved classified status;  
3. Been accepted by an art education advisor to supervise the course of study;  
4. Completed, with the approval of the Art Department graduate coordinator, at least 15 quarter units of applicable course work at this university, and achieved a minimum grade of "B" (3.0) in these courses;  
5. Successfully completed an advancement review conducted by the Department of Art graduate committee and art education advisor;  
6. Filed a program of graduate course work prepared in consultation with the student's art education advisor and approved by the Art Department graduate coordinator.

**Requirements for Graduation**

1. A minimum of 45 quarter units of approved graduate-level work, with at least 32 completed at this university;  
2. A grade of at least 3.0 ("B") in all courses taken to satisfy the Master of Arts degree requirements;  
3. Completion and exhibition of an acceptable art project, a report and documentation of the project approved by the student's graduate committee and the Art Department graduate coordinator, and a substantial art education research paper that will be presented during a public forum;  
4. The graduation writing requirement is met upon successful completion of the art education research paper that accompanies the master's project in ART 696;  
5. Any general requirements not cited above for graduate degrees and noted in Graduate Degree and Program Requirements (p. 61).

Four units of electives appropriate to the student's goals. Courses may be chosen from upper-division and graduate offerings of any department in the university subject to prior approval by the student's area advisor and the Art Department graduate coordinator.

**Total Units**

45
Master of Arts in Art - Studio Art

Not offered in the 2017-2018 Academic Year

Requirements (45 units)

The Master of Arts - Studio Art is designed to provide opportunities for further study in one or more of the studio areas within the department. The objectives of the program are to foster the artistic growth and competence of the individual, to provide the preparation for a professional career in the visual arts, and to provide a basis for further graduate study in the field.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate standing are:

1. A baccalaureate degree from an accredited institution with a minimum of 45 quarter units of upper-division art comparable to those required of a major in art at this university;
2. Completion of a minimum of 20 quarter units of upper-division work in the area of specialization for the Master of Arts degree program;
3. Completion of a minimum of 20 quarter units in art history, a minimum of eight to be upper-division units;
4. A grade-point average of 3.0 (“B”) or better in all art courses taken;
5. Completion of the graduate entrance writing requirement;
6. Admission to the program will additionally be based upon evaluations by the Art Department graduate committee of the following:
   a. A portfolio review displaying a comprehensive body of work with strong technical abilities and potential for a clear direction in graduate study within the studio area. A portfolio consists of 12–20 images of the applicant's artworks in the form of jpegs on a CD. The portfolio needs to be accompanied by a typed list of artworks with the applicant's name, title, medium, size and date for each artwork;
   b. A “Statement of Purpose” one to two typed pages in length describing the conceptual and technical aspects of the artwork and the applicant's reason for seeking graduate studies in art. This statement should also demonstrate the applicant's knowledge of historical and contemporary art in relation to their work;
   c. Three letters of recommendation supporting the student's application. Letters should be from professionals and/or educators in the field of art who are able to assess the student's competence and make relevant comments on the student's likely success in a graduate art program.

Applicants who have satisfied the general requirements for admission, but who have deficiencies in prerequisite preparation which can be met by specified additional preparation, may be admitted to the program with conditionally classified standing. They will be advanced to classified standing when the Art Department graduate coordinator certifies that they have satisfied all appropriate requirements.

Applications to the M.A. in Art program are reviewed annually for Fall admission. The completed application deadline is March 15 for both the university and M.A. in Art Program. Contact the Art Department graduate coordinator to request a program application and further information.

Advancement to Candidacy

Candidacy denotes that the student is fully qualified to complete the final stages of the Master of Arts program in Art, and is thus eligible to enroll in ART 695D. To be formally advanced to candidacy, the student must have:

1. Completed the graduate entrance writing requirement. Students are urged to complete this requirement as early in their program as possible, and prior to taking any art history course work in the department;
2. Achieved classified status;
3. Been accepted by an area advisor to supervise the course of study;
4. Completed, with the approval of the Art Department graduate coordinator, at least 15 quarter units of applicable course work at this university, and achieved a minimum grade of “B” (3.0) in these courses;
5. Successfully completed an advancement review conducted by the Department of Art graduate committee and graduate coordinator;
6. Filed a program of graduate course work prepared in consultation with the student's area advisor and approved by the Art Department graduate coordinator.

Requirements for Graduation

1. A minimum of 45 quarter units of approved graduate-level work, with at least 32 completed at this university;
2. A grade of at least 3.0 (“B”) in all courses taken to satisfy the Master of Arts degree requirements;
3. Completion and exhibition of an acceptable project, and submission of a report and documentation of the project approved by the student's graduate committee and the Art Department graduate coordinator;
4. The graduation writing requirement is met upon successful completion of the written report that accompanies the master's project in ART 695;
5. Any general requirements not cited above and noted in Graduate Degree and Program Requirements (p. 61).

Deficiencies must be made up as early in the program as possible, normally within the first 20 units after conditional admission.

Four units of upper-division art history courses chosen with prior approval of the student's area advisor and the art department graduate coordinator.

Four units of electives and/or independent study appropriate to the student's goals. Courses may be chosen from upper-division and graduate offerings of any department in the university subject to prior approval by the student's area advisor and the Art Department graduate coordinator.

Total Units 45
Master of Fine Arts in Studio Art

Requirements (90 units)

Program Code: STAR

The Master of Fine Arts in Studio Art provides rigorous study for students with a strong direction and focus in art and/or design and a high level of technical proficiency. The program provides advanced study and practice in preparation for professional careers in studio art and design or teaching in higher education. Graduates will be prepared to take their places in the visual arts community and make significant contributions to our visual culture. The program focuses on creative studio work, supplemented by art history and theory, professional and critical writing, graduate studio critiques, studio electives, professional development and independent study.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate standing are:

1. A baccalaureate degree from an accredited institution with a minimum of 45 quarter units of upper-division art courses comparable to those required of a major in art at this university. The Art Department determines which courses are comparable;
2. Completion of a minimum of 20 quarter units of upper-division studio art;
3. Completion of a minimum of 20 quarter units in art history; a minimum of eight should be upper-division units, and at least one course in Contemporary Art Criticism and Theory that is equivalent to Art 520;
4. A grade point average of 3.0 ("B") or better in all art courses taken;
5. Completion of the graduate entrance writing requirement;
6. Admission to the program will additionally be based upon evaluations by the Art Department graduate committee of the following items:
   a. A portfolio displaying a comprehensive body of work with strong technical abilities and potential for a clear direction in graduate study. A portfolio consists of 12–20 images of the applicant's artworks in the form of jpegs or pdf on a CD. The portfolio needs to be accompanied by a typed list of artworks with the applicant's name, and title, medium, size and date for each artwork.
   b. A three- to four-page typed "Statement of Purpose" describing the conceptual and technical aspects of the artwork and the applicant's reason for seeking graduate studies in art. This statement should also demonstrate applicant's knowledge of historical and contemporary art in relation to their course work. This statement should be carefully crafted and will be used to evaluate the student's writing ability and critical thinking skills.
   c. Three letters of recommendation supporting the student's application. Letters should be from professionals and/or educators in the field able to assess the student's competence and to make relevant comments on the student's likely success in a graduate art program.

Applicants who have satisfied the general requirements for admission, but who have deficiencies in prerequisite preparation which can be met by specified additional preparation may be admitted to the program with conditionally classified standing. Deficiencies must be made up as early in the program as possible, normally within the first 20 units after conditional admission.

They will be advanced to classified standing when the Art Department graduate coordinator certifies that they have satisfied all appropriate requirements.

Applications to the M.F.A. in Studio Art program are reviewed annually for Fall admission. The completed application deadline is January 15 for both the university and M.F.A. in Studio Art program. Contact the Art Department graduate coordinator to request a program application and further information.

Graduate Teaching Assistantships

Students interested in university teaching are encouraged to apply for Graduate Teaching Assistantships. The program offers second year students teaching assistant opportunities with professors in lower division studio and foundation courses. After the practicum is successfully completed, the second and third year students have the opportunity for a paid Graduate Teaching Assistantship.

Advancement to Candidacy

Candidacy denotes that the student is fully qualified to complete the final stages of the Master of Fine Arts program in Studio Art and is thus eligible to enroll in ART 695. To be formally advanced to candidacy, the student must have:

1. Completed the graduate entrance writing requirement. Students are urged to complete this requirement as early in their program as possible, and prior to taking any art history course work in the department;
2. Achieved classified status;
3. Been accepted by an advisor to supervise the course of study;
4. Completed, with the approval of the Art Department graduate coordinator, at least 30 quarter units of applicable course work at this university, and achieved a minimum grade point average of "B" (3.0) or better;
5. Successfully completed an advancement review conducted by the Department of Art graduate committee and graduate coordinator;
6. Filed a program of graduate course work prepared in consultation with the student's advisor and approved by the Art Department graduate coordinator.

Requirements for Graduation

1. A minimum of 90-quarter units of approved graduate-level work, with at least 63 completed at this university;
2. A GPA of at least 3.0 ("B") in all courses taken to satisfy the Master of Fine Arts degree requirements;
3. Completion and exhibition of an acceptable project, and submission of a report and documentation of the project approved by the student's graduate committee and the Art Department graduate coordinator;
4. The graduation writing requirement is met upon successful completion of the written report that accompanies the master's project in ART 695;
5. Any general requirements not cited above for graduate degrees and noted in Graduate Degree and Program Requirements (p. 61).

Department of Communication Studies

Bachelor of Arts

- Communication
- with concentrations in
  - Human and Organizational Communication
  - Media Studies
  - Public Relations

Teacher Preparation Program

English - Communication Studies Concentration

Minors

- Asian Studies
- Communication
- Film Studies
- Intercultural Communication
- Public Relations
- Script Writing

Certificate Programs

- Asian Studies
- Communication Skills
- Conflict Management

Master of Arts

- Communication Studies with tracks in
  - Communication Studies
  - Integrated Marketing Communication
- Defined as “the creation, transmission and evaluation of messages,” communication is a multifaceted discipline combining both academic and professional interests.

Through courses in communication, students learn to describe, interpret and evaluate the communication processes as they occur within and among individuals, groups, organizations and societies. Students explore problems in diverse media (platform, conference, print, radio, television, film, digital media), settings (family, industrial, professional, governmental) and contexts (racial, cultural, international).

The educational objectives established for the degree program in communication are the following terminal competencies: understand relationships between symbols and culture, discover information from its sources, describe characteristics of potential audiences, translate information into an audience’s conceptual framework, transmit information/messages clearly in media appropriate to the audience, evaluate messages and their effects on audiences and appreciate the ethics of communication.

By the mid-1980s more than half of the country’s gross national product was spent on information products and services. Communication is the means by which information is shared. The growth of communication studies reflects, in part, a growing technology permitting spoken language to move from the forum of Greece to the surface of the moon and around the planet in mere moments.

Communication majors enter careers in business and industry, government and social services, education, media and the professions in positions of public relations, marketing, teaching, sales, media production, writing, personnel, on-air media, advertising and training. Men and women across the ages have testified how the study of communication aided their personal and professional lives, whether they be persuaders, conciliators, diplomats, teachers and scholars, or researchers.

In today’s world of changing and integrated communications technology, the department’s curriculum reflects the belief that communication should be studied as a single discipline integrated into the liberal arts. Practica and internships support but do not substitute for a sound theoretical base. Internships are available on and off campus in the full range of communication professions.

Departmental Honors

Students majoring in communication are eligible to receive honors in communication at graduation if the following conditions are met:

1. At least one-half of the course work required by the major is completed at this university;
2. At least a 3.5 grade point average in the major;
3. An overall grade point average of 3.5 or better;
4. An independent study course that culminates in a research presentation to the department;
5. Recommendation for departmental honors by the Communication Studies faculty.

Students interested in this recognition must file a formal application with the department at least three quarters prior to graduation.

Current Faculty

Ece Algan, Associate Professor
B.S. 1994, Istanbul Teknik University
M.A. 1996, Marmara University-Istanbul
Ph.D. 2003, Ohio University

C. Mo Bahk, Professor
B.A. 1980, Yonsei University, Seoul, Korea
M.A. 1983/1990, State University of New York, Albany
Ph.D. 1994, Michigan State University

Mariam Betlemidze, Assistant Professor
B.A. 2007, Tbilisi State University Georgia
M.S. 2010, University of Utah-Salt Lake
Ph.D. 2016, University of Utah-Salt Lake

Rueyling Chuang, Professor, Associate Dean
B.A. 1987, Tamkang University, Taiwan
M.S. 1992, California State University, Hayward
Ph.D. 1996, Ohio University, Athens
Undergraduate Degrees

Bachelor of Arts

- Communication with concentrations in (p. 154)
  - Human Communication and Organizational Communication

Teacher Preparation Program
English Teacher Preparation Program - Communication Studies Concentration

In order to complete the English teacher preparation program (for students who wish to be recommended for a single subject English teaching credential) with a concentration in Communication Studies, students must complete the courses listed in the core of the B.A. in English (p. 166) as well as the following:

COMM 304  Intercultural Communication  4
COMM 382  Intercollegiate Forensics  3
COMM 431  Classroom Communication  4

Four units chosen from:

COMM 305  Critical Approaches to Communication  4
COMM 308  Argumentation
COMM 312  Persuasion
COMM 401  Gender, Race and Media
COMM 411  Gender and Communication

Four units chosen from:

COMM 306  Communication Theory
COMM 403  Interpersonal Relations
COMM 422  Communication and Conflict

Four units chosen from:

COMM 309  Digital Media and Communication
COMM 342  Publication Design and Makeup
COMM 344  Public Relations Communication
COMM 381  The Development of Motion Pictures
ENG 240  Writing in the Public Sphere  4
ENG 312  Theories of Language Acquisition and Learning  4
ENG 327  Literature for Adolescents and Young Adults  4
ENG 329  Issues in Literacy and Writing Studies  4
ENG 420  English Grammar I  4
ENG 510  English in the Secondary Classroom  4

Students must take ENG 306 or HUM 306 to satisfy the upper-division writing requirement of the university.

Students must include the following among their General Education Requirements:

ENG 110  World Literature I  4
or ENG 111  World Literature II
TA 260  Introduction to Theatre  4

Prior to student teaching, students must demonstrate subject matter competence as assessed by the Department of English. For information about the professional education component, prerequisites for and admission to the teacher education program, or specific requirements for the single subject (p. 308) credential program, contact the Credentials Office, CE-102.

Note: Completing the requirements of the teaching credential in English with a concentration in Communication Studies does NOT in itself satisfy the requirements for the major in either Communication or English.

Bachelor of Arts in Communication

Requirements (77 units)
Total units required for graduation: 180

Requirements for the B.A. in Communication

Core Courses (21)

COMM 200  Introduction to Communication Studies  4
COMM 304  Intercultural Communication  4
COMM 306  Communication Theory  4
COMM 400  Communication Research Methodology  4
COMM 401  Critical Approaches to Communication  4
COMM 499  Senior Project  1

Note: Students transferring from a California community college who received credit for an intercultural communication course may substitute COMM 302, COMM 401, COMM 471, or COMM 580 for COMM 304 with consent of Department Chair.

Communication Practica (8)

Students must choose eight units from at least two of the following:

COMM 243A  Communication Practicum: Print and Online Journalism
COMM 243B  Communication Practicum: Radio
COMM 243C  Communication Practicum: Video Production for Journalism
COMM 243D  Communication Practicum: Public Relations
COMM 243E  Communication Practicum: Human and Organizational Communication
COMM 382  Intercollegiate Forensics
COMM 399A  Community Service Project
COMM 399B  Community Service Project
COMM 444A  Advanced Communication Practicum: Television
COMM 444B  Advanced Communication Practicum: Research
COMM 444C  Advanced Communication Practicum: Research
COMM 444D  Advanced Communication Practicum: Mentoring
COMM 591B-E  Internship in Communication

Electives (20)

Twenty units in addition to those chosen in the concentration, of which 12 must be upper-division, selected in consultation with an advisor and, in the case of non-departmental electives, the approval of the chair. COMM 120 and COMM 180 may not be applied toward the major.

Concentration (28)

See concentration.

A minimum of 28 units from one of the following concentrations below to be chosen in consultation with an advisor.

Total Units 77

Note: Students transferring from a California community college who received credit for an intercultural communication course may substitute...
COMM 302, COMM 401, COMM 471, or COMM 580 for COMM 304 with consent of department chair.

Total Units 28

Individualized Concentration (Program Code: CMIP)

Students may propose a unique, individualized 28-unit concentration if the proposed concentration has curricular integrity and if it fulfills objectives that cannot be met through one of the concentrations listed above. Proposals, which require departmental approval, must be submitted no later than the student's junior year. Only 12 units of course work completed prior to such approval can be applied toward an individualized concentration. Consult the department chair for exceptions that may apply to students at the Palm Desert campus.

Certificate in Asian Studies

Requirements (20 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Program

1. Students must meet general university admission requirements.
2. Students in all majors are eligible to participate in this program.

Certificate in Communication Skills

Requirements (32 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements

Required course (4)
COMM 491 Ethical Aspects of Communication 4

Electives (28)
Public speaking. Four units chosen from:
COMM 120 Oral Communication 4
COMM 180 Critical Thinking Through Argumentation
COMM 311 Business and Professional Communication

Intercultural communication
COMM 304 Intercultural Communication 4
or COMM 411 Gender and Communication

Interpersonal communication. Four units chosen from:
COMM 221 Small Group Communication 4
COMM 225 Fundamentals of Interpersonal Communication
COMM 331 Communication for Training Programs
COMM 403 Interpersonal Relations
COMM 441 Interviewing

Public relations:
COMM 341 Public Relations Theory and Principles 4
or PA 307 Public Relations in the Public Sector

Journalism. Eight units chosen from:
COMM 240 Writing for Media 8
COMM 342 Publication Design and Makeup
COMM 343 Nonfiction Reporting and Writing

Media. Two courses for a minimum of four units chosen from:
ART 290 Beginning Analog Photography 4
COMM 381 The Development of Motion Pictures
MUS 266 Introduction to Computer and Electronic Music
MUS 267 Introduction to Studio Recording Techniques

Total Units 32

Certificate in Conflict Management

Requirements (24 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

This certificate can also be used by students in the Master of Business Administration and Master in Public Administration.

Admission to the Program

Postbaccalaureate standing.

Certificate Requirements

COMM 522 Mediation Theory and Practice 4
COMM 670 Seminar in Conflict and Conflict Resolution 4
MGMT 645 Negotiation and Bargaining 4

Twelve units chosen from:
COMM 672 Intercultural Peacemaking 12
COMM 673 Advanced Mediation Skills
MGMT 642 Communication and Interpersonal Processes
MGMT 644 Industrial Relations
or PA 557 Public Sector Labor Relations

Total Units 24

Certificate in Social Media Entrepreneurship and Innovation

Requirements (24 units)

Offered online through the College of Extended Learning

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:
1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. Master of Arts in Communication Studies

Requirements (51-55 units)

The M.A. in Communication Studies is designed for students who wish to advance from this degree to further graduate work and for those wishing to apply advanced communication perspectives, methodologies, and competencies in their careers. This program is unique in its distinct intercultural orientation, cultivating an understanding of national, racial, ethnic, gender and other cultural differences in a wide range of communication settings and activities. Students are encouraged to develop focused programs of study (e.g., organizational communication, media studies, communication education). Whatever focus the student may achieve, however, will be contextualized by an understanding and application of intercultural communication theory and practice.

Admission to the Program

Applicants must fulfill all the general requirements for admission to graduate studies at this university. All students must meet the Graduate Entrance Writing Requirement. The department welcomes applications from international students and advises them that the Department of Communication Studies has its own requirements regarding the Entrance Writing Requirement. The department welcomes applications of intercultural communication theory and practice. The student may achieve, however, will be contextualized by an understanding and application of intercultural communication theory and practice.

Requirements for Graduation

1. Students must complete an approved program of 47 to 50 units with an overall grade point average of 3.0.
2. Students must receive a "B-" or higher in all required courses.
3. No more than 8 units at the 500 level or below may count towards the degree.
4. No course may be counted for which a grade of "C-" or less was received.

2. The applicant must have completed the undergraduate work specified below:
   a. The equivalent of 12 quarter units of the following courses, or their equivalents: COMM 304, COMM 306, COMM 400;
   b. Applicants for the Integrated Marketing Track must complete COMM 341 or its equivalent;

3. Complete ONE of the following research methods courses: COMM 400 or MKTG 416 (Note: COMM 400 may be included in the 12 units communication coursework, but MKTG 416 may not).

4. The applicant must have earned an undergraduate grade point average of 3.0 overall and/or 3.0 for the last 90 quarter units (60 semester units) of undergraduate work.

5. International students must have received a TOEFL score of 575 (computer-based score of 233 or internet-based score of 89) or higher.

Successful applicants are admitted to the program as conditionally classified graduate students. Advancement to classified status is conditional upon the completion of all prerequisites, as well as completion (after admission) of one of the following courses with a grade of "B-":

- COMM 600 Introduction to Graduate Study
- COMM 605 Introduction to Graduate Studies in Integrated Marketing Communication

Advancement to Candidacy

1. During the first quarter of enrollment, the student shall, with the consent of the faculty member chosen and the approval of the graduate coordinator, select an advisor.
2. Prior to completion of 16 units, the student and advisor shall form the student's graduate advisory committee. The committee shall consist of the advisor and two faculty members, one of whom may be from a related discipline. The committee shall function to:
   a. approve the student's program of study;
   b. compose and evaluate the student's comprehensive examination (if applicable); and
   c. evaluate and approve the student's thesis or project (if applicable).
3. Upon establishing the committee, and prior to completion of 20 units, the student shall forward for the committee's approval a program of study listing course work to be taken and the capstone experience chosen to complete the degree.
4. Upon approval of the plan by the advisory committee, the program of study shall be sent to the graduate coordinator for departmental approval resulting in advancement to candidacy.
5. The student is responsible for fulfilling all other requirements for graduation established by the Dean of Graduate Studies.

Degree Requirements (51-55 units)

Communication Studies Track (51 units) (Program Code: COMS)

**Note:** Students must receive a grade of "B-" or higher in all required courses.

</table>

**Electives:**

The student shall, with the advice and approval of the advisory committee and the graduate coordinator, develop a program of study to fulfill the remaining unit requirements for the degree. The program should reflect some unifying theme. Graduate level courses among which the student may choose include:

- COMM 502: Communication Law and Policy
- COMM 506: Media Sex and Violence
- COMM 511: Feminist Contributions to Communication Theories
- COMM 520: Advanced Marketing Communication
- COMM 522: Mediation Theory and Practice
- COMM 542: Issue Management and Crisis Communication
- COMM 543: Environmental Communication
- COMM 560: Health Communication
- COMM 564: Advanced Topics in Human and Organizational Communication
- COMM 565: Advanced Topics in Media Studies
- COMM 567: Advanced Topics in Public Relations
- COMM 580: Culture and Ethnicity in Language
- COMM 581: Contemporary Theories of Rhetoric
- COMM 593A-D: Communication Approaches to Area Studies
- COMM 601: Intercultural Communication Theories
- COMM 601: Media and Intercultural Relations
- COMM 620: Communication in Multicultural Organizations
- COMM 630: Instructional Communication
- COMM 670: Seminar in Conflict and Conflict Resolution
- COMM 671: International Communication
- COMM 672: Intercultural Peacemaking
- COMM 673: Advanced Mediation Skills
- COMM 689: Practicum for Teaching Associates in Communication Studies
- COMM 690: Seminar in Organizational Communication
- COMM 691: Seminar in Public Relations
- COMM 692: Seminar in Interpersonal Communication
- COMM 693: Seminar in Media Studies
- COMM 694: Seminar in Intercultural Communication
- COMM 695B-E: Graduate Independent Study

**Total Units:** 32

---

**Comprehensive Examination.**

Students may, with the approval of their advisory committee and graduate coordinator, fulfill the capstone requirement through a comprehensive examination. The examination tests the student’s mastery of perspectives and competencies in the core curriculum as well as those associated with the individual student’s program of study. The examination will be developed and evaluated by the student’s advisory committee, administered during the student’s final quarter in residence, and carry no academic credit.

**Thesis.**

Students may, with the approval of their advisory committee and the graduate coordinator, fulfill the capstone requirement through developing and executing an original research project designed to extend or apply our understanding of communication in important and unique ways. The prospectus must be approved by the advisory committee, and filed with the Graduate Coordinator. The student will make a public defense of the thesis during the last quarter of residence. The completed thesis must be approved by the advisory committee and the Dean of the Graduate School. Students choosing this option must register for five units of COMM 699.

**Project.**

Students may, with the approval of their advisory committee and the graduate coordinator, fulfill the capstone requirement through developing and executing a project with a significant written component. The project shall be developed between the student and the advisor. The prospectus must be approved by the advisory committee, and filed with the Graduate Coordinator. The written component of the project must follow specified guidelines, be approved by the advisory committee, and will be presented publicly during the student’s last quarter in residence. The completed project must be approved by the advisory committee and the Dean of Graduate Studies. Students choosing this option must register for five units of COMM 686.

Students cannot apply any course previously applied to another degree or track.

### Culminating Experience:

Students will choose one of the following culminating experiences to complete their program with the advice of their advisory committee and the graduate coordinator. See Culminating Experience in the Communication Studies Track for an explanation of these options.

- COMM 686 Graduate Project
- COMM 699 Thesis
- COMM 999 Comprehensive Examination (plus 5 additional elective units chosen from list above)

**Total Units:** 55

---

### Graduate Assistantships

A limited number of graduate assistantships are available, on a competitive basis, for students who wish to pursue the degree full-time. Interested applicants should contact the graduate coordinator in the Department of Communication Studies for further information.

---

## Minor in Asian Studies

### Requirements (32 units)

#### Admission to the Program

1. Students must meet general university admission requirements.
2. Students in all majors are eligible to participate in this program.

### Requirements for a minor in Asian Studies

#### Core Requirements (20)

Eight units chosen from:

- ANTH 362 Asian Cultures and Societies
- FIN 355 Business and Asian Culture
- HUM 328 Asian Cultural Traditions

Four units of foreign language study chosen from:

- CHIN 103 College Chinese III
- JAPN 103 College Japanese III
- KOR 103 College Korean III

International Experience

Four units from any combination of:

- ASIA 575D Internship in Asian Studies
- ASIA 595D Independent Study in Asian Studies

## Requirements for a minor in Script Writing

**Lower-division requirement (4)**
- HUM 180  The Art of Film  4
- or TA 260  Introduction to Theatre  4

**Upper-division requirements (24)**
- COMM 347  Fundamentals of Screenwriting  4
- ENG 302B  Analysis and Writing of Drama  4
  - or TA 302B  Analysis and Writing of Drama  4
- TA 347  Playwriting  4
- Four units chosen from:
  - ENG 316  Introduction to Creative Writing: Specialized Genres  4
  - ENG 317  Introduction to Creative Writing: Poetry  4
  - ENG 318  Introduction to Creative Writing: Fiction  4
  - ENG 513  Advanced Creative Writing in Specialized Genres  4
- Four units chosen from:
  - COMM 343  Nonfiction Reporting and Writing  4
  - COMM 380  Visual Communication  4
  - COMM 381  The Development of Motion Pictures  4
  - ENG 315  Studies in a Literary Genre  4
  - ENG 463  Advanced Studies in Literary Topics  4
  - TA 465  Ethnic Films and Film Makers  4

Note: Students are able to receive credit for summer arts courses pertaining to the minor.

**Total Units:** 28
Department of English

Bachelor of Arts

- English
  - Literature Track
  - Creative Writing Track
  - Linguistics Track

Teacher Preparation Program

Minor

- English
- Film Studies
- Script Writing

Master of Arts

- English Composition
  - English Literature
  - Applied Linguistics and Teaching English as a
    - Second Language

Master of Fine Arts

- Creative Writing (not offered in the 2017-2018 Academic Year)
  - Fiction
  - Poetry

Certificate Programs

- Teaching English as a Second Language
- Writing: Creative Writing
- Writing: Professional Writing

Like English departments in most colleges and universities, the English Department at California State University, San Bernardino is devoted to the study of literature and language. The major in English consists of a common core and three tracks. The core provides background for more advanced courses, with offerings in English literature, American literature, noncanonical literature, as well as analysis of particular genres, literary theory, and introduction to linguistics.

The Literature Track offers courses focused on particular themes, genres, authors, topics, and periods. The Creative Writing Track gives students the opportunity to do extensive, sequenced work in poetry or fiction writing and exposes them to the writing of other genres. The Linguistic Track enables students to understand human language in its many facets: its history, its structure, its variation, its relationship with society and culture, and how it is acquired by children and adults.

The English Department also sponsors The Pacific Review, a literary journal mingling professional and student contributions. Work on this journal provides excellent training for students in editorial work.

As language and culture are understood best in a global context, the English Department encourages students to participate in the California State University’s International Programs (p. 14).

Departmental Honors

Students majoring in English are eligible to receive honors in English at graduation if they have:

1. Completed at least one-half of the course work required in the major at this university;
2. Earned a grade point average of at least 3.5 in all courses attempted in the major at this university;
3. Earned an overall undergraduate grade point average of at least 3.0;

Current Faculty

Jennifer L. Andersen, Professor
B.A. 1988, University of California, Los Angeles
M.A. 1991, Ph.D. 1996, Yale University

Mary Boland, Professor
B.A. 1984, State University of New York, Albany
M.A. 1996, Ph.D. 2002, University of Rochester

James Brown, Professor
B.A. 1980, San Francisco State University

Undergraduate Degrees
Bachelor of Arts
- English (p. 166) with tracks in:
  - Literature
  - Creative Writing
  - Linguistics

Graduate Degrees
Master of Arts

English Composition (p. 169) with concentrations in:
- English Composition
- English Literature
• Applied Linguistics and Teaching English as a Second Language

**Master of Fine Arts** (not offered in the 2017-18 Academic Year)

Creative Writing (p. 173) with concentrations in:
- Fiction
- Poetry

**Minors**
- English (p. 175)
- Film Studies (p. 162) (The Department of English participates in the interdisciplinary minor in Film Studies.)
- Script Writing (p. 162)

**Certificate Programs**
- Teaching English as a Second Language (p. 167)
- Teaching Writing (p. 168)
- Writing: Creative Writing (p. 168)
- Writing: Professional Writing (p. 169)

**English Teacher Preparation Program**

To apply for a post-baccalaureate, single-subject teaching credential in English, students must complete the BA and either take the California Subject Examination for Teachers of English (CSET) or qualify for a CSET waiver. In order to be recommended for the waiver, students must take the teaching preparation coursework listed below.

1. Students must take the following:
   - ENG 240 Writing in the Public Sphere 4
   - ENG 312 Theories of Language Acquisition and Learning 4
   - ENG 327 Literature for Adolescents and Young Adults 4
   - ENG 329 Issues in Literacy and Writing Studies 4
   - ENG 420 English Grammar I 4
   - ENG 510 English in the Secondary Classroom 4

   **Note:** Students can apply these courses toward the elective units in their track.

2. Students must take ENG 306 or HUM 306 to satisfy the upper-division writing requirement of the university.

3. Students must include the following among their General Education Requirements:
   - ENG 110 World Literature I 4
   - ENG 111 World Literature II 4
   - TA 260 Introduction to Theatre 4

   Students must demonstrate subject matter competence as assessed by the Department of English. For information about the professional education component, prerequisites for and admission to the teacher education program, or specific requirements of the single subject (p. 308) teaching credential program, see contact the Credentials Office, CE-102. For subject matter programs in English with concentrations in Communication or Theatre Arts, see listings under the Communication Studies or Theatre Arts Departments, respectively.

Sixteen units of electives in English at least twelve units of which must be upper-division and may include up to eight units of upper-division foreign literature or upper-division literature in translation. 16

Total Units 36

It is strongly recommended that students majoring in English take ENG 306 to satisfy the upper-division writing requirement of the university; however, ENG 306 is not applicable toward the English major.

Students planning to do graduate work in English literature are strongly advised to acquire a reading knowledge of at least one foreign language.

To apply for a post-baccalaureate, single-subject teaching credential in English, students must complete the BA in English and either take the California Subject Examination for Teachers of English (CSET) or qualify for a CSET waiver. In order to be recommended for the waiver, students must take the English Teacher Preparation Program (p. 166).

Certificate in Teaching English as a Second Language

Requirements (30 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Certificate

Contact the English Department graduate coordinator for information about the certificate program.

1. Postbaccalaureate standing;
2. A minimum grade point average of 3.0 in undergraduate upper-division coursework;
3. A minimum score of 575 (computer-based score of 233; internet-based score of 90) on the Test of English as a Foreign Language (TOEFL) for students who do not possess a bachelor's degree from
Certificate in Teaching Writing

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Certificate

Contact the English Department graduate coordinator for information about the certificate program.

### Recommendation for the Certificate

1. Completion of the certificate coursework with a minimum grade point average of 3.0;
2. Completion of the certificate within a seven-year period. Students who have taken any required course that expires because it exceeds the seven-year limitation will be required to retake the course or its equivalent, as designated by the English Department graduate coordinator. Petitions to waive this requirement will not be approved.

Master of Arts in English Composition

Requirements (48 units)

The Master of Arts in English Composition is designed for students interested in pursuing studies in the fields of composition, literature and linguistics. The concentration in English Composition focuses on writing —how written texts work rhetorically and stylistically; how historical and social conditions affect what we write and how we construct meaning as we read; and how to teach people to write effectively. The literature concentration allows students an option to focus on advanced studies in literature as well as composition. The concentration in Applied Linguistics and TESL emphasizes the application of current linguistic theories to ESL pedagogy and familiarizes students with a wide range of teaching approaches and methods.

The program is firmly grounded in theory and research, with a strong emphasis on pedagogy. The internship component gives students practical classroom experience. Students also have opportunities to tutor in the Writing Center and to work as teaching assistants. In addition to teaching, graduates may go on to Ph.D. and M.F.A. programs as well as careers involving writing, editing, and researching.

The Graduate Committee, under the leadership of the coordinator, has general supervision of the program and the work of students, including approval of thesis proposals. Students are required to consult regularly with the Graduate Coordinator for advising. Petitions for waiver of requirements must be approved by the Graduate Coordinator and the Dean of Graduate Studies when appropriate. Note: Effective Fall 2010, students may not be concurrently enrolled in the M.A. in English Composition and M.F.A. in Creative Writing.

Admission to the Program

The Graduate Committee cannot act on applications until they have been reviewed by the Office of Admissions and Student Recruitment and have met university admissions requirements. The following schedule of dates has been established for Graduate Committee decisions.

Application and other materials must be received by:

A student who meets all entrance requirements except one or more course prerequisites or the minimum grade requirements may be admitted to the program as a conditionally classified graduate student. Conditionally classified students must fulfill certain conditions (such as taking or retaking prerequisite courses) within a specified period of time. Prerequisite courses cannot be counted toward the units required for the master's degree.

The specific requirements for admission as a classified graduate student in the English Department are:

1. A grade point average of 3.0 ("B") in all undergraduate upper-division courses;

2. Applicants who do not possess a bachelor's degree from a postsecondary institution in a country where English is the principal language of instruction must receive a minimum score of 575 (computer-based score of 233 or internet-based score of 90) on the Test of English as a Foreign Language (TOEFL); or receive a minimum score of 6.5 on the International English Language Testing System (IELTS)

3. Three letters of recommendation supporting the student's application. Letters should be from people able to make relevant comments on the student's likely success in English Composition with a Concentration in Composition, English Literature, or Applied Linguistics and Teaching English as a Second Language, and on the student's competence in speaking and writing English;

4. A one-page, typed statement of purpose briefly explaining the student's reasons (i.e. career objectives and research interests) for pursuing a graduate degree in English Composition with a Concentration in Composition, English Literature, or Applied Linguistics and Teaching English as a Second Language;

5. One writing sample (5-10 pages) that reflects the student's ability to write in edited English a balanced, well-reasoned argument or a clear, coherent presentation of information, such as a college term paper or a work-related report;

6. Fulfillment of the graduate entrance writing requirement by passing, with a "B" (3.0) or better, ENG 306 (or an equivalent course) or the Writing Requirement Equivalency Exam (WREE), within seven years prior to acceptance into the program. Students who do not satisfy this requirement may be conditionally classified and required to take or repeat the course or exam;

7. The following undergraduate courses or their equivalent with a minimum grade of "B" in each, taken in conjunction with a major in English or some other major:
   a. For the Concentrations in English Composition and English Literature:
      ENG 311 The English Language 4
      ENG 312 Theories of Language Acquisition and Learning 4
      ENG 420 English Grammar I
      ENG 422 History of the English Language
   b. For the Concentration in Applied Linguistics and Teaching English as a Second Language (TESL):
      ENG 311 The English Language 4
      ENG 312 Theories of Language Acquisition and Learning 4
      ENG 420 English Grammar I 4

**Advancement to Candidacy**

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Completed at least 16 units of coursework required by the program with a grade point average of at least 3.0 ("B");
3. Filed a program plan approved by the Graduate Coordinator.

**Requirements for Graduation**

1. A minimum of 48 quarter units of acceptable graduate-level work in the formal program, with no fewer than 35 completed at this university and with at least 34 units gained from 600-level courses in English. Students must gain approval in advance from the Graduate Coordinator to count 300-, 400- or 500-level courses as electives;
2. Advancement to candidacy;
3. A grade point average of at least 3.0 ("B") in all graduate course work and research fulfilling the requirements of the student's concentration and grades of "C" (2.0) or better in all courses in the program;
4. For students in the English Composition Concentration, English Literature Concentration and Applied Linguistics and teaching English as a Second Language Concentration, demonstrated minimal competence in a language other than English at the level of a foreign language 103 course given by the Department of World Languages and Literatures. Can be fulfilled by one of the following, but note that courses taken to fulfill the language requirement cannot be applied toward any graduate degree unit requirements:
   a. One year of college course work (with a grade of A, B, C, or CR) studying a language other than English,
   b. Passage of a language competency exam in a language other than English at a level of Intermediate (ACTFL Stage 2) or above equivalent,
5. The graduation writing requirement is met upon successful completion of the thesis or comprehensive examination;
6. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and the completion of all requirements for the degree. Students who have taken any required or elective course that expires because it exceeds this seven-year limitation will be required to retake the course or its equivalent as designated by the Graduate Coordinator, regardless of the grade.
originally earned. Petitions to waive this requirement will not be approved.

**Note:** Students interested in pursuing dual concentrations should contact the Graduate Coordinator about dual concentration requirements.

## Degree Requirements (48 units)

**Electives. Students who are completing the Thesis Option under Culminating Experience below must take four units of electives; students completing the Comprehensive Examination option must take eight units of electives. Electives must be approved in advance by the Graduate Coordinator.**

**Culminating Experience. Choose one of the following two options:**

**Thesis Option:**

- ENG 699A Thesis
- ENG 699B Thesis and Research

**Comprehensive Examination Option:**

- ENG 999 Comprehensive Examination

**Total Units:** 48
ENG 612  Contemporary Composition and Discourse Theory
ENG 633  The Western Rhetorical Tradition I
ENG 634  The Western Rhetorical Tradition II
ENG 615  Discourse Analysis: Theories and Applications  4
ENG 616  Contrastive Rhetoric  4
or ENG 617  Linguistics Pragmatics
ENG 619  Second Language Acquisition  4
ENG 626  TESL Methods and Materials for Reading and Writing

Four units chosen from:
- ENG 630  Writing Center Studies
- ENG 657  Sites of Praxis
- ENG 658  Computers and Writing: Literacy and Technology
- ENG 660  Issues in Teaching College Composition
- ENG 664  Internship in Applied Linguistics and TESL
- ENG 695A  Culminating Experience Preparation: Thesis Preparation
  or ENG 695B  Culminating Experience Preparation: Comprehensive Examination Preparation

Electives. Students who are completing the Thesis Option under Culminating Experience below must take four units of electives; students completing the Comprehensive Examination option must take eight units of electives. Electives must be approved in advance by the Graduate Coordinator.

Culminating Experience. Choose one of the following two options: 0-4
- Thesis Option:
  - ENG 699A  Thesis
  - ENG 699B  Thesis and Research
- Comprehensive Examination:
  - ENG 999  Comprehensive Examination

Total Units 48

Culminating Experience

Students select either the Thesis Option or the Comprehensive Examination Option. Successful completion of either option satisfies the graduation writing requirement.

Thesis Option

Students electing the Thesis option must select from among two thesis project models and are required to complete a thesis project appropriate to their concentration: English composition and rhetoric, literature, or applied linguistics and teaching English as a second language. Dual concentration students must devise a thesis project relevant to both concentrations.

The first thesis model option is a traditional thesis: an independent project that demonstrates mastery of both the subject matter and the written discourse of the discipline and results in an original manuscript of approximately 60 pre-formatted pages plus bibliography.

To pursue this option, students develop an acceptable thesis project and prepare a proposal in accordance with program guidelines, consisting of a 1000-word proposal and an annotated bibliography. To develop a proposal and obtain approval of it, students carry out the following steps:

1. Complete ENG 695A with a grade of "B" or better;
2. Gain the support of a committee of two English Department faculty members (the thesis reading committee) and acquire a letter of endorsement in support of the proposal;
3. Submit the Thesis Proposal and annotated bibliography to the full graduate committee (8-10 members) and carry out any revisions requested to achieve its approval.

The second thesis model option is an interrelated sequence of scholarly texts that demonstrate mastery of both the subject matter and the written discourse of the discipline and includes: a) a 25-30 page article of publishable quality suitable for post-graduation submission to a scholarly journal in the student's field of study; b) an 8-10 page conference paper on the same subject, suitable for delivery at an identified professional conference; c) an abstract or conference proposal for the selected conference. Students complete this work by presenting their conference papers at an English department sponsored event.

To pursue this option, students develop an acceptable thesis project from work begun in one of the M.A. program seminar classes and prepare a 500 word thesis proposal that: a) announces the article project and purpose and explains how the work contributes to the field; b) identifies an appropriate professional journal to which this work might be submitted; c) identifies and appropriate professional conference at which a conference paper related to this work might be presented.

To develop a thesis proposal for this project and obtain approval of it, students carry out the following steps:

1. Complete ENG 695A with a grade of "B" or better;
2. Gain the support of a committee of two English Department faculty members (the thesis reading committee) and acquire a letter of endorsement in support of the proposal;
3. Submit the Thesis Proposal and letter of endorsement to the full graduate committee (8-10 members) and carry out any revisions requested to achieve its approval.

Note: To undertake the Thesis Option, a student must have minimum GPA of 3.7 overall in degree-applicable courses or the permission of the graduate coordinator.

Comprehensive Examination Option

Students electing the Comprehensive Examination Option must take the examination no earlier than in the last quarter of program coursework, and after successful completion (with a grade of "C" or better) of ENG 695B.

Students must declare their intent to take the examination at least one quarter in advance and register for ENG 999. The comprehensive examination is offered twice yearly, in fall and spring quarters.

The reading committees for the comprehensive examination in each concentration will be established annually by the graduate program, and will consist of two English Department faculty members and the graduate coordinator or associate coordinator responsible for each concentration.

The comprehensive examination addresses both the program's core curriculum and the student's concentration. The examination will be graded pass/fail. No student will be permitted to take the comprehensive examination more than twice. Candidates who re-take the examination must do so within one calendar year.
Master of Fine Arts in Creative Writing

Not offered in the 2017-18 Academic Year

Requirements (72 units)

The Master of Fine Arts (M.F.A.) in Creative Writing is a two-year program offered to writers of considerable promise and commitment in the genres of poetry and fiction writing. A terminal studio arts degree, the M.F.A. assumes that the best education for the artist includes training in literature and extensive practice in the craft of poetry, or the short story and novel. For most college-level teaching positions in Creative Writing, the M.F.A. is the preferred terminal degree. The degree prepares students for career opportunities in editing at publishing firms, newspapers and magazines, professional writing, and working at foundation and arts organizations. The second year of this 72-unit program is heavily concentrated on the final development of a book-length manuscript of publishable quality.

The M.F.A. program has two concentrations: Poetry and Fiction. Students in either concentration must choose the Teaching Focus or the Literature Focus. The Teaching Focus allows students to study instructional approaches in the areas of creative writing and composition for community college and university settings. The Literature Focus allows students to take courses in the study of fiction, poetry, drama and creative nonfiction. Note: Effective Fall 2010, students may not be concurrently enrolled in the M.A. in English Composition and the M.F.A. in Creative Writing.

Admission to the Program

To apply for admission to the M.F.A. Program, applicants must have all of their transcripts and the Postbaccalaureate Graduate Application form forwarded to the Office of Admissions and Student Recruitment. In addition to meeting the general requirements for admission to the university, a student must satisfy the following requirements in order to be admitted with classified graduate standing:

1. Admission to the M.F.A. Program is based largely on the quality of the writing sample(s) submitted with the application. Students must choose a concentration in Fiction or Poetry. Applicants must apply via CSUMentor (http://www.csumentor.edu). For additional information go to english.csusb (http://english.csusb.edu). Students who are admitted must begin the program in the following Fall quarter;
2. The applicant must submit the following:
   a. A sample of creative work consisting of ten poems or two short stories or a short story and a novel chapter. The poetry submissions should not exceed twenty pages; the prose submissions should not exceed thirty pages;
   b. An autobiographical statement in which the applicant states his or her literary and academic goals;
   c. Three letters of recommendation which describe the applicant’s maturity as a student writer who can receive and give constructive criticism, and his or her ability to be academically successful in the M.F.A. program.
   d. A course statement that includes a summary of the applicant’s college-level course work in literature and creative writing;
3. The following undergraduate courses or their equivalents with a minimum grade of "B" in each, taken in conjunction with a major in English or some other major:

<table>

</tr>
</tbody>
</table>

A student who has not met one or more of the course prerequisites above or the minimum grade requirements may be admitted to the program as a conditionally classified graduate student. Conditionally classified students must fulfill certain conditions before beginning the M.F.A. program with their cohort in the Fall quarter. If conditionally classified students do not meet the conditions, they cannot begin taking the M.F.A. sequence of courses, which start each Fall quarter, and they must reapply to the program;
4. The Graduate Record Examination is not required;
5. The graduate entrance writing requirement if fulfilled by passing, with a "B" (3.0) or better, ENG 306 (or an equivalent course) or the Writing Requirement Equivalency Exam (WREE), within seven years prior to acceptance into the program. Students who do not satisfy this requirement may be conditionally classified and required to take or repeat the course or exam;
6. Applicants who do not possess a bachelor's degree from a post-secondary institution in a country where English is the principal language of instruction must receive a minimum score of 575 (computer-based score of 233) on the Test of English as a Foreign Language (TOEFL).

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Completed at least 36 units of coursework required by the program, with a minimum grade point average of 3.0 and no grade lower than "B-" in any course in the program; (Students will be permitted to repeat and discount only one course to achieve these results.)
2. Completed at least half of the master's project, verified by the M.F.A. coordinator;
3. Filed a program plan approved by the M.F.A. coordinator.

Requirements for Graduation

1. Students must have a minimum of 72 quarter units of graduate-level work in the M.F.A. program with a minimum of 60 units completed in residence at this university;
2. Students must gain approval in advance from the M.F.A. Coordinator to count 400- or 500-level courses as electives;
3. Students must be advanced to candidacy;
4. Students must have a grade point average of at least 3.0 ("B") in the program's coursework;
5. Students meet the graduation writing requirement with the successful completion of the master’s project;
6. Students must file a Leave of Absence to preserve their current catalog rights if they are going to be absent from the program one or more quarters;
7. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and the completion of all requirements for the degree. Students who have taken any required or elective course that expires because it exceeds this seven-year limitation will be required to retake the course or its equivalent as designated by the M.F.A. coordinators, regardless of the grade originally earned. Petitions to waive this requirement will not be approved.

Department of Music

Accredited by the National Association of Schools of Music (NASM)

Department of Music
Performing Arts Building, Room 111
(909) 537-5859 Department of Music (http://music.csusb.edu)

Bachelor of Arts

• Music

• Bachelor of Music
  Performance
  • with concentrations in:
    • Voice
    • Instrumental
    • Piano
    • Guitar

Teaching Preparation Program

Music

Minors

• Commercial Music
• Jazz Studies
• Music
• Music Technology

• The CSUSB Department of Music provides students with a rigorous musical education as a foundation for a lifelong understanding and love of music, as well as preparation for a wide variety of careers in music. We accomplish this through an emphasis on undergraduate education, small class size, and close interactions between faculty and students, all with a continual focus on artistic expression. Consistent with the university’s mission, the department is also committed to serving the campus and Inland Empire communities through on-going performance and educational initiatives.

• CSUSB’s Bachelor of Arts in Music provides a broad study of music balanced with significant general studies in the humanities, natural sciences, and social sciences. The core of required music courses provides a foundation in music theory, history, and performance, while General Education courses balance musical study with significant exposure to many other disciplines. Additionally, the degree’s free electives allow students to pursue study in areas of particular interest, including, with the permission of a music advisor, the substitution of courses from disciplines outside of music. Students are encouraged to consider completion of a minor as part of their elective study.

CSUSB’s Bachelor of Music in Performance program prepares students for careers as professional performers of classical art music. Students must meet rigorous academic and artistic standards to enter and continue in the program, and after graduation the majority of them will pursue advanced music degrees or similar post-baccalaureate training. The program puts particular focus on real world performing as a supplementary learning experience, with emphasis on auditions for professional engagements and competitions, service learning, and formation of ad hoc ensembles. The BM in Performance program does have entrance requirements. For specific requirements, see the degree information below or the department’s handbook, available online at http://music.csusb.edu/

Teaching Credential Program

Students wishing to be recommended for the single subject teaching credential in music must complete the BA in Music degree, the Music Teacher Preparation Program, and certain other prerequisites to the teacher education program. For information about the professional education component of the credential program, admission to the teacher education program, and specific requirements for the single subject waiver program contact the Credentials Office, CE-102.

Honors in Music

To be awarded honors in Music, music majors must meet all of the following criteria:

1. Achieve a university grade point average of 3.6 or higher;
2. Achieve a Music Department grade point average of 3.8 or higher;
3. Demonstrate superior ability in musical performance, composition or scholarship as determined by judgment of Music Department faculty. This may be based on a project, performance, competition, teaching or other activity on or off campus;

Current Faculty

Catherine (Stacey) Fraser, Professor
B.M. 1994, University of Toronto
M.M. 1996, Manhattan School of Music
D.M.A. 2003, University of California, San Diego

Erik Jester, Assistant Professor
B.M. 2005, M.M. 2008, Pennsylvania State University Main Campus
D.M.A., University Of Wisconsin, 2011

Todd Johnson, Professor, Chair
B.M./B.S. 1988, Central Michigan University
M.M. 1989, Northwestern University
D.M.A. 1999, University of Oklahoma

Robert J. Knop, Professor
B.M. 1971, Roosevelt University
M.M. 1998, Northern Illinois University
D.A. 2002, University of Northern Colorado

Lesley Leighton, Lecturer
B.A. 1984, Loyola Marymount University
M.M. 1991, University of Southern California
D.M.A. 2012, University of Southern California

Lucy Lewis, Assistant Professor
B.M./B.S. 2008, Andrews University
M.M. 2011, University of Cincinnati
D.M.A. 2014, University of Iowa

Allen Menton, Associate Professor
Ph.D., University of California, Los Angeles, 2009

James V. Radomski, Professor
B.M., B.A. 1976, Oberlin College
M.A. 1981, University of California, Berkeley
Ph.D. 1992, University of California, Los Angeles

John Russell, Assistant Professor
Ph.D., 2013, University of Southern California

Emeriti
Edward J. Bostley, Professor
Loren Filbeck, Professor
Larry E. McFatter, Professor
Jerrold Pritchard, Professor

Bachelor of Arts in Music

Requirements (96-97 units)

Total units required for graduation: 180

Any student accepted for admission to CSUSB can declare music as major and pursue the BA in Music degree. Examinations and auditions are available for advanced placement only, not as an entrance requirement.

Applied instruction is available only to declared music majors. Students interested in applied composition (MUS 246) will be required to complete one year of applied vocal or instrumental music instruction (MUS 140-MUS 145) as a prerequisite. Students in applied music technology (MUS 348) will be required to complete two years of applied vocal or instrumental music instruction. (MUS 140-MUS 145 and MUS 240-MUS 245) as a prerequisite.

Students may enroll in a maximum of six quarter units at any one collegiate level of applied instruction (MUS 140- MUS 145, MUS 240-MUS 246, MUS 340-MUS 348, or MUS 440-MUS 448). After six quarters at one level, students unable to satisfy completion requirements for that level will be counseled to select a major in a different discipline and will be denied enrollment in any higher level of applied instruction.

All students enrolled as full-time music majors in the BA in Music are required to participate each quarter until graduation in a major performing ensemble most appropriate to a student’s applied emphasis.

Placement in the B.A. in Music is based on:

1. a theory placement examination (proficiency in music fundamentals equal to that of MUS 100 and MUS 101),
2. a piano proficiency audition, and
3. an applied music audition (performance proficiency equal to collegiate applied music at the 140-145 level).

The Bachelor of Music in Performance program prepares students for careers as professional performers of classical art music. Students must meet rigorous academic and artistic standards to enter and continue in the program, and after graduation the majority of them pursue advanced music degrees or similar post-baccalaureate training. The program puts particular focus on real world performing as a supplementary learning experience, with emphasis on auditions for professional engagements and competitions, service learning, and formation of ad hoc ensembles.

Entrance to Bachelor of Music in Performance requires a demonstration of significant academic, performance, and intellectual achievement.

Students may apply at any time for entrance to the Bachelor of Music in Performance, but freshmen students usually apply to enter the program after the completion of three quarters of CSUSB coursework, and transfers usually apply immediately before their first quarter of enrollment. Students whose initial application does not result in acceptance into the program may apply a maximum of one additional time.

Applied instruction is available only to declared music majors. Students interested in applied composition (MUS 246) will be required to complete one year of applied vocal or instrumental music instruction (MUS 140-MUS 145) as a prerequisite. Students in applied music technology (MUS 348) will be required to complete two years of applied vocal or instrumental music instruction. (MUS 140-MUS 145 and MUS 240-MUS 245) as a prerequisite.

Only Bachelor of Music students may enroll in applied repertoire courses (MUS 239, 339, and 439), and they may enroll for a maximum of four quarters at each level. After four quarters at one level, a student unable to satisfy completion requirements cannot continue in the BM in Performance degree and will be counseled to instead pursue the BA in Music or a degree in some other discipline.

Students may enroll in a maximum of six quarter units at any one collegiate level of applied instruction (MUS 140-MUS 145, MUS 240-MUS 246, MUS 340-MUS 349, or MUS 440-MUS 448). After six quarters at one level, students unable to satisfy completion requirements for that level will be counseled to select a major in a different discipline and will be denied enrollment in any higher level of applied instruction.

All students enrolled as full-time music majors in the BM in Performance are required to participate each quarter until graduation in a major performing ensemble most appropriate to a student's applied emphasis.

As prerequisites for acceptance into the Bachelor of Music in Performance, students must complete the following as a Pre-Music Performance major:

1. Complete the following courses with a minimum grade of B- in each:

Music in Performance program immediately after acceptance to CSUSB. Performance requirements listed below should apply to the Bachelor of 537-5859. Transfer students who have already completed the Pre-Music department office in Performing Arts room 111, and by phone at (909) application process is available in the Department of Music's handbook objective to the Bachelor of Arts in Music. More information about the or who decide not to pursue it, can seamlessly change their degree are not accepted to the Bachelor of Music in Performance degree, are also requirements for the Bachelor of Arts in Music. Students who Performance. The requirements for the Pre-Music Performance major be changed from Pre-Music Performance to Bachelor of Music in 3. Pass a diagnostic test of music theory knowledge;
4. Pass a performance audition. Students must demonstrate a high potential for success as a professional musician based on a performance audition for a committee of music faculty. Students must perform two contrasting works of significant repertoire for their audition; vocalists must include works in two different languages;
5. Submit a written essay as part of a formal application process. More information about the essay's expected content is available in the Department of Music's handbook (http://music.csusb.edu/ Students/departmentHandbook.html).

Upon acceptance into the new program, the student's major will be changed from Pre-Music Performance to Bachelor of Music in Performance. The requirements for the Pre-Music Performance major are also requirements for the Bachelor of Arts in Music. Students who are not accepted to the Bachelor of Music in Performance degree, or who decide not to pursue it, can seamlessly change their degree objective to the Bachelor of Arts in Music. More information about the application process is available in the Department of Music's handbook (http://music.csusb.edu/Students/departmentHandbook.html), the department office in Performing Arts room 111, and by phone at (909) 537-5859. Transfer students who have already completed the Pre-Music Performance requirements listed below should apply to the Bachelor of Music in Performance program immediately after acceptance to CSUSB.

Continuation in and graduation from the program require the following:

1. A minimum GPA of 2.75 in all CSUSB coursework, and a minimum GPA of 3.0 in all CSUSB music coursework. Students whose academic achievement falls below either GPA minimum for two or more consecutive quarters in a row cannot continue in the program;
2. Normally three quarters are required in each of MUS 239, MUS 339, and MUS 439, and a maximum of four quarters of enrollment are allowed in each of the three courses. Students not able in four quarters to complete requirements for one of those three courses cannot continue in the BM program.

Additionally, before enrolling in MUS 499 Junior Recital, students must satisfy the piano proficiency requirement (see below), pass all “core” music theory and musicianship courses (MUS 120 through 125 and MUS 250 through 255), and complete all core history courses (MUS 304 through 307 and MUS 350). Approval to give a performance for MUS 499 Junior Recital or MUS 599 Senior Recital requires completion of a recital hearing at least four weeks before the planned performance date. Recital hearings are played for a faculty committee that includes a student's studio teacher and at least two other faculty members. For MUS 599, students must submit written program notes at their hearings that meet writing, formatting, and content standards published in the Department of Music handbook (http://music.csusb.edu/Students/ departmentHandbook.html). If program notes do not meet the department’s minimum standards, the hearing committee can deny the student permission for the recital performance. The department’s handbook is published online at the Music department website (http://music.csusb.edu).

Department of Philosophy

Department of Philosophy
University Hall, Room 339
(909) 537-5869 Department of Philosophy (http://philosophy.csusb.edu)

Bachelor of Arts
Philosophy

Minor
- Law and Philosophy
- Philosophical Logic
- Philosophy
- Philosophy, Policy, and Economics

Philosophy is excellent preparation for a career in law, business, government, journalism and a wide variety of professional areas; and it is excellent preparation for different sorts of graduate and professional study. Philosophy focuses on clear thinking and critical evaluation of ideas. Thus it is excellent training for anyone whose job requires broad perspectives and new and creative ideas. Philosophy does not provide training in specific job tasks; rather, it focuses on basic skills that will prepare students for the more challenging jobs they will encounter as their career advances.

Philosophy’s range of application is particularly broad. Through philosophy one may think about and develop perspectives on topics as diverse as god, science, language, logic, truth, ethics, politics and law. Typically philosophy leaves aside the doing of the religion, science etc. and asks fundamental questions about the nature of and justification for the various perspectives.

Departmental Honors
To attain departmental honors, a student must write a successful honors thesis under the guidance of a faculty committee. To qualify for the honors program a student must have:

1. An overall grade point average of 3.0 ("B");
2. A grade point average of 3.5 in philosophy courses;
3. At least five philosophy courses must have been taken at California State University, San Bernardino, one of which may be lower-division, not counting courses satisfying the general education requirements.

Application for the honors program must be made in writing to the department three quarters before graduation.

Current Faculty
Matthew Davidson, Professor, Chair
B.A. 1994, University of Illinois
M.A. 1997, Ph.D. 2000, University of Wisconsin

Beverly Gallo, Lecturer
B.A. 1971, M.A. 1984, San Jose State University
Ph.D. 1989, University of California, Riverside

John Mumma, Assistant Professor
Ph.D., Carnegie Mellon University, 2006

Chris Naticchia, Professor
B.A. 1985, Cornell University

M.A. 1987, New York University, New York
Ph.D. 1995, University of Virginia, Charlottesville

Tony D. Roy, Professor
B.A. 1979, M.A. 1988, University of California, San Diego
Ph.D. 1991, University of California, Davis

William Vanderburgh, Professor
B.A. 1993, University of Western Ontario
M.A. 1994, University of Western Ontario
Ph.D. 2001, University of Western Ontario

Emeriti
B. Jill Buroker
Susan M. Finsen, Professor
Paul J. Johnson, Professor
Thomas E. Moody, Associate Professor

</tbody>
</table>
PHIL 361A  Social and Political Philosophy: Classical Political Theories
or PHIL 361B  Social and Political Philosophy: Themes in Social and Political Philosophy

Electives (16)
Sixteen units chosen from (if not taken above):
PHIL 300  Predicate Logic
PHIL 314  History of Modern Philosophy: Ethics and Politics
PHIL 350  Ethics
PHIL 351  Topics in Moral and Political Philosophy
PHIL 353  Topics in Applied Ethics
PHIL 355  Contemporary Ethical Issues
PHIL 361A  Social and Political Philosophy: Classical Political Theories
or PHIL 361B  Social and Political Philosophy: Themes in Social and Political Philosophy
PHIL 362  Philosophy of Law
PHIL 363  Jurisprudence
PHIL 460  Advanced Issues in Value Theory
PHIL 575B  Internship in Philosophy
PHIL 595B  Independent Study

Total Units 28

The Law and Philosophy minor is open to students in any major. However, only core requirements PHIL 200 and PHIL 350 or PHIL 361A or PHIL 361B, will count toward satisfaction of the philosophy major.

Students who fulfill the GE Critical Thinking (A4) requirement with PHIL 200 will be credited with satisfying that core requirement for the minor.

With department approval, students may count two units of PHIL 575 and two units of PHIL 595 toward the minor (students may count two units of PHIL 575 toward the minor through participation in a judicial internship, which the department offers in conjunction with the San Bernardino County courts).

Minor in Philosophical Logic

Requirements (24 units)

Requirements for a minor in Philosophical Logic

Core requirements (16)
PHIL 200  Critical Thinking Through Symbolic Logic 4
PHIL 300  Predicate Logic 4
PHIL 381  Philosophy of Logic 4
or PHIL 383  Philosophy of Mathematics 4

Four units chosen from:
PHIL 400  Advanced Issues in Logic (Introductory Metalogic) 4
PHIL 400  Advanced Issues in Logic (Incompleteness and Computability) 4

Electives (8)
Eight units chosen from:
PHIL 306  Inductive Logic 4
PHIL 308  Alternative Logics 4
PHIL 381  Philosophy of Logic 4

Total Units 24

NOTE: PHIL 400 may be repeated for elective credit as topics change; however elective credit is available only for topics other than the 400 topic that satisfies the core requirement.

The Minor in Philosophical Logic is open to students in any major. However, except for PHIL 200 and PHIL 300, courses taken for credit in the Minor in Philosophical Logic do not count toward satisfaction of the Philosophy major or minor.

Minor in Philosophy

Requirements (32 units)

Requirements for a minor in Philosophy

History of Philosophy (8)
Eight units chosen from:
PHIL 311  Ancient Philosophy 4
PHIL 313  History of Modern Philosophy: Knowledge and Reality 4
PHIL 314  History of Modern Philosophy: Ethics and Politics 4
PHIL 410  Advanced Issues in History of Philosophy 4

Metaphysics/Knowledge (8)
Eight units chosen from:
PHIL 380  Metaphysics 4
PHIL 385  Theory of Knowledge 4
PHIL 386  Philosophy of Science 4
PHIL 387  Philosophy of Language 4
PHIL 485  Advanced Issues in Metaphysics and Knowledge 4

Value theory (16)
Four units chosen from:
PHIL 350  Ethics 4
PHIL 361A  Social and Political Philosophy: Classical Political Theories 4
PHIL 361B  Social and Political Philosophy: Themes in Social and Political Philosophy 4
PHIL 460  Advanced Issues in Value Theory 4

Twelve units of electives chosen from philosophy courses; with at most four elective units at the 100- or 200-level; PHIL 200 must be included among these courses unless taken to satisfy the GE Critical Thinking (A4) requirement.

Total Units 32

No 100- or 200-level course used to satisfy a General Education requirement will be included among courses which count toward the minor. No course counts in more than one category of the minor; however, for courses such as the Advanced Issues courses which can be repeated with different topics, the different topics may apply in different categories.
Minor in Philosophy, Policy, and Economics

Requirements (24-36 units)

Requirements for a minor in Philosophy, Policy and Economics

Students must complete 28 units from the courses listed below with a minimum of eight units in each of the fields. Students who major in philosophy, political science or economics must earn 20 units outside their major from the courses listed below.

Total Units 24-36
Department of Theatre Arts

Performing Arts Building, Room 111
(909) 537-5876 Department of Theatre Arts website (http://theatre.csusb.edu)

Bachelor of Arts
• Theatre Arts
  • with emphases in:
    • Acting
    • Dance
    • Design/Technical
    • Drama Education
    • Musical Theatre

Teaching Credential Program
English with a Theatre Arts Concentration

Minor
• Film Studies
• Script Writing
• Theatre Arts

Certificate Program
• Puppetry
• Theatre for Youth

Master of Arts
• Theatre Arts (not offered in the 2017-18 Academic Year)

The theatre arts major is a practical liberal arts degree. The broad range of subjects studied enable the theatre student to qualify for a wide variety of fields. Theatre majors are found in the professional areas of live theatre, film, television, corporate and media training, radio, public relations, advertising, business law, teaching, and higher education.

The diverse nature of theatre explores expressions of human interactions and conflict. This study develops intellectual awareness about the human condition. It helps develop skills for working as a theatre artist and as an individual who understands team work.

Liberal studies majors will benefit from a departmental philosophy that good theatre training is also excellent teacher training. Many courses in the department have no prerequisites, and they will help liberal studies students to prepare for careers in teaching.

The Theatre Arts Department produces five major plays during the academic year. The department also presents several student directed/designed productions. In addition, the department has touring groups including The Imagination Players, an elementary school tour; and the Sun Tour, multiethnic theme plays for high school and community college students.

In addition to acting and backstage opportunities, theatre students are encouraged to work with faculty as assistant directors, designers, stage managers, and in theatre administration. Theatre faculty encourage highly motivated and qualified students to develop their own creative efforts. New student play scripts and innovative approaches to theatre are strongly encouraged.

Theatre arts majors choose to concentrate in one of five areas once they have completed a common core of courses: acting, design/technical, drama education, dance, or musical theatre. Students interested in Theatre for Youth, see certificate program (p. 190).

Current Faculty
Carol Damgen, Lecturer
B.A. 2003, M.A. 2006, California State University, San Bernardino

Kathryn Ervin, Professor, Chair
B.F.A. 1978, Wayne State University
M.F.A. 1980, Illinois State University

Andre Harrington, Associate Professor
B.S. 1986, University of Maryland, College Park
M.F.A. 2005, The University of Iowa, Iowa City

Jason Mann, Assistant Professor
B.A. 1994, Gettysburg College
MFA 2001, George Washington University

Margaret A. Perry, Professor, Chair
B.A. 1975, M.F.A. 1985, San Diego State University

Thomas E. Provenzano, Professor
B.A. 1978, University of California, Berkeley
M.F.A. 1992, University of California, Los Angeles

Johanna L. Smith, Professor
B.A. 1994, Miami University, Ohio
M.F.A. 1998, Arizona State University

Terry D. Smith, Professor, Chair
B.F.A. 1974, Virginia Commonwealth University, Richmond
M.A. 1993, California State University, Northridge
Ph.D. 1996, University of Washington, Seattle

Emeriti
Lee A. Lyons, Professor
Amanda Sue Rudisill, Professor
William L. Slout, Professor

Undergraduate Degrees

Bachelor of Arts
• Theatre Arts (p. 188) with emphases in:
  • Acting
  • Dance
  • Design/Technical
  • Drama Education
  • Musical Theatre

Graduate Degree

Master of Arts
• Theatre Arts (p. 191) (not offered in the 2017-18 Academic Year)
Minors

• Film Studies (p. 162) (The Department of Theatre Arts participates in the interdisciplinary minor in Film Studies.)
• Script Writing (p. 162)
• Theatre Arts (p. 191)

Certificate Programs

• Puppetry (p. 190)
• Theatre for Youth (p. 190)

Teaching Credential Program

Teaching Credential Program in English - Theatre Arts Concentration

Note: This program is being revised to meet the new CCTC standards. The requirements below apply only to students under the 2004-2005 or earlier catalog.

In order to be recommended for the teaching credential in English with a concentration in Theatre Arts (English subject matter program), students must complete the courses listed in the core of the B.A. in English (p. 166) (lower-division requirements and upper-division requirements 1-7), as well as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<td></td>
</tr>
</tbody>
</table>

Total Units: 34

Prior to student teaching, students must demonstrate subject matter competence as assessed by the Department of English. For information about the professional education component, prerequisites for and admission to the teacher education program, or specific requirements for the single subject (p. 308) credential program, contact the Credentials Office, CE-102.

Note: Completing the requirements of the teaching credential in English with a concentration in Theatre Arts does NOT in itself satisfy the requirements for the major in either English or Theatre Arts.

Note: Completing the requirements of the teaching credential in English with a concentration in Theatre Arts does NOT in itself satisfy the requirements for the major in either English or Theatre Arts.
Emphases

Acting Emphasis (Program Code: TACT)

Two units chosen from the following courses, which were not chosen as part of the lower-division core:

- DAN 200A-D: Studies in Dance
- TA 245: Beginning Theatre Movement
- TA 253: Voice for the Stage
- TA 345: Advanced Voice and Movement
- TA 351: Acting III: Scene Study

Twelve units chosen from:

- TA 352: Acting IV: Modern Repertory
- TA 353: Acting V: Styles of Acting
- TA 354: Acting VI: Acting Shakespeare
- TA 355: Acting VII: Acting Musicals
- TA 357: Acting for the Camera
- TA 446: Directing II
- TA 459: Performance for New Media

Dance Emphasis (Program Code: TDAN)

Twelve units (at least six of which must be upper-division) chosen from:

- DAN 200A: Studies in Dance: Jazz
- DAN 200B: Studies in Dance: Modern
- DAN 200C: Studies in Dance: Tap
- DAN 200D: Studies in Dance: Ballet
- DAN 300A: Dance Techniques: Jazz
- DAN 300B: Dance Techniques: Modern
- DAN 300C: Dance Techniques: Tap
- DAN 300D: Dance Techniques: Ballet
- DAN 300E: Dance Techniques: Musical Theatre
- DAN 310A: World Dance Traditions: African
- DAN 310B: World Dance Traditions: South and Central American
- DAN 310C: World Dance Traditions: North American
- DAN 310D: World Dance Traditions: Asian
- DAN 310E: World Dance Traditions: Mediterranean

Seven units chosen from:

- DAN 355: Dance Notation
- DAN 360: Dance History
- DAN 450: Choreography
- DAN 481: Creative Dance in the Classroom

Design/Technical Emphasis (Program Code: TDES)

TA 130: Computer Applications for Technical Theatre (for a total of 2)
TA 334: Theatrecrafts (for a total of 6)

Three units chosen from:

- TA 131: Makeup for Stage and Screen
- TA 231: Sound for Stage and Screen
- TA 232: Lighting for Stage and Screen
- TA 233: Costume Construction
- TA 239: Stagecraft

Six units chosen from:

- TA 332: Stage Lighting Design
- TA 333: Stage Sound Design
- TA 337: Design: Costume Design
- TA 338: Design: Scene Design

Two units chosen from:

- TA 321A: Technical Practicum
- TA 321B: Technical Practicum
- TA 535B: Independent Project

Drama Education Emphasis (Program Code: TDED)

DAN 481: Creative Dance in the Classroom
TA 481: Creative Drama in the Classroom

Twelve units chosen from:

- DAN 580: Advanced Creative Dance Methods
- TA 320B: Performance Practicum: Imagination Players
- TA 320C: Performance Practicum: Touring Theatre
- TA 347: Playwriting
- TA 446: Directing II
- TA 479: Theatre in the Elementary Classroom
- TA 483: Childrens Theatre
- TA 484: Readers Theatre in the Classroom
- TA 580: Advanced Creative Drama in the Classroom
- TA 581: Theatre in the Secondary Classroom

Musical Theatre Emphasis (Program Code: TMUS)

Emphasis requires a placement examination administered by the Department of Music (proficiency in music fundamentals equal to that of MUS 100 and MUS 101).

- DAN 300E: Dance Techniques: Musical Theatre
- TA 340: Singing for Musical Theatre

Four units chosen from:

- DAN 481: Creative Dance in the Classroom
- MUS 140: Lower-Division Voice I
### Certificate in Puppetry

**Requirements (32 units)**

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Total Units 32

**Master of Arts in Theatre Arts**

**Not offered in the 2017-18 Academic Year**

**Requirements (45 units)**

The M.A. in Theatre Arts is designed for students who wish to apply advanced theories, methodologies, and technologies of theatre in their careers as theatre artists and educators, and for those who wish to advance from this degree to further graduate work. The program is unique in its flexibility, wide range of theatre education opportunities, and specialized faculty. Students are required to develop focused programs of study.

**Admission to the Program**

Students must fulfill all the general requirements for admission to graduate studies at this university. Applications for admission to the program should be sent to the department graduate coordinator and must include:

1. A resume describing relevant professional and educational experience in Theatre and classroom teaching;
2. Three letters of recommendation attesting to academic aptitude and creative accomplishments;
3. A one-page essay describing life/career goals and the role the applicant sees this degree playing in accomplishing these goals;
4. Completion of the graduate entrance writing requirement.

**Advancement to Candidacy**

In order to be advanced to candidacy, a student must have:

1. Selected an advisor with the consent of the faculty member and the approval of the graduate coordinator;
2. Formed a three member advisory committee prior to completion of 16 units;
3. Secured approval from student’s advisory committee and graduate coordinator of a course of study, prior to completion of 20 units.

**Requirements for Graduation**

1. Advancement to candidacy;
2. A minimum of 45 quarter units of acceptable graduate level work with no fewer than 32 of these units at the 500- or 600-level;
3. A grade point average of at least 3.0 ("B") in all graduate course work and grades of "C" (2.0) or better in all courses in the program;
4. A capstone experience of a project or internship approved by the student's advisory committee and graduate coordinator;
5. Successful completion of TA 695 or TA 699 which also meets the department’s graduation writing requirements.

**Total Units** 18
The Department of World Languages & Literatures offers a wide variety of courses in the world languages, including American Sign Language, Arabic, French, German, Japanese, Korean, Mandarin Chinese, Portuguese, and Spanish, as well as a number of California Indian languages: Cahuilla, Luiseño, and Serrano. Master's degree is available in Spanish; Bachelor's degrees are available in Arabic, French, and Spanish; minors are available in Arabic, French, German, Japanese, and Spanish, as well as Asian Studies and Latin American Studies.

Our classes will teach you to understand, speak, read and write the language you are studying. Our courses promote an understanding of world civilizations and an appreciation of their literatures. This background will prepare you for jobs in a variety of professions such as international trade, librarian, interpreter, translator, foreign service officer, foreign trade specialist, diplomacy, intelligence, teaching and law enforcement.

Study of another language truly places the world in your hands: you will be prepared to meet and work with people from other cultures. With the advancement of technology and the global marketplace, study of another language enhances job opportunities for everyone. Be prepared for the world of tomorrow by studying another language today.

Certificate Program

- California Indian Languages and Cultures

Arabic

Bachelor of Arts

- Arabic Language, Literature and Culture

Minor

- Arabic

Certificate Program

- Arabic

The study of Arabic at CSUSB combines training in language, literature, culture and contemporary affairs of the Arab world. It develops students' understandings, perspectives and attitudes of Arab-speaking cultures and people. The program is carefully crafted to allow participants to enrich and broaden their academic training by drawing from disciplines related to and in high-need in the Arab World such as Anthropology, Communication, Comparative Literature, Computer Science, Criminal Justice, Health Care, History, International Business and Law, Linguistics, Political Science, Social Studies, etc.

A major in Arabic provides a strong and competitive professional background and opens career opportunities especially when combined with an appropriate second major, a teaching credential or a specialized graduate degree.

Graduates with Arabic have found employment in education, international business, foreign trade and banking, government services, science and technology, and the tourism industry. Some careers require additional education or experience yet many positions are available for graduates regardless of academic discipline.

Departmental Honors

A graduating senior will be awarded departmental honors in Arabic after meeting the following requirements:

1. Earned a minimum 3.5 grade point average in the major.
2. Completed at least 45 units of the major at this university.
3. Successfully completed an oral and written honors evaluation.

Qualified students should apply for honors recognition during the first week of the quarter in which they are enrolled in ARAB 496. The honors evaluation will take place during ARAB 496. Exceptional performance on the oral and written evaluation may result in the waiving of requirements 1 and 2 above.

French

Bachelor of Arts

- French with tracks in:
  - French and Francophone Studies Track
  - Teacher Track
  - Business Track

Teaching Credential Program

- French

Minor

Certificate Program

- French/English Translation

The study of French combines training in world studies with language, literature and culture. These studies contribute to the basis of any program of liberal education, affording insight into foreign attitudes and methods and permitting free communication, written and oral, among people.

In addition to the traditional preparation of teachers in the subject, a major in French can provide a good background for advanced professional or business programs, especially when combined with an appropriate second major.

Teaching Credential Program

The B.A. in French, Teacher Track, is designed to prepare students for the CSET exam (required for the single subject teaching credential in French in California). For information about the professional education component, admission to the teacher education program or specific requirements of the single subject waiver program, contact the Credentials Office, CE-102.

German

Minor

Certificate Program

- German/English Translators
The German program, open to all interested students, offers courses that develop language capabilities and an appreciation and comprehension of the literature and culture of Germany, Austria and Switzerland. Information on the special interdisciplinary major in German area studies may be obtained from the Department of World Languages and Literatures.

**Japanese**

**Minor**

- Japanese

The Japanese program, open to all interested students, offers courses that develop language capabilities and an appreciation and comprehension of the literature and culture of Japan. Information on the special interdisciplinary major in Japanese area studies may be obtained from the Department of World Languages and Literatures.

**Spanish**

**Bachelor of Arts**

- Spanish
  - Business Track
  - Communication Track
  - Hispanic Cultural Studies Track
  - Hispanic Literature, Language, and Civilization Track

**Teaching Credential Program**

- Spanish

**Minor**

- Spanish

**Certificate Programs**

- Bilingual/Cross-Cultural Studies: Spanish/English
- Healthcare Spanish
- Hispanic Literatures
- Spanish Applied Linguistics
- Spanish for Public Services

**Master of Arts**

- Spanish
  - Hispanic Literature, Linguistics and Civilization

The study of Spanish at California State University, San Bernardino is based on the recognition that the Hispanic culture in the United States forms an integral part of American society, and that the Spanish language, far from being “foreign,” is spoken in nearly all sections of our nation alongside of English. In some areas of Southern California as well as other parts of the United States, speakers of Spanish outnumber those who speak English. Moreover, the importance of the Hispanic culture in the United States is increasing daily as additional immigrants arrive from Latin America.

The knowledge of Spanish for those seeking employment in our region is critical for the fields of teaching, journalism, publishing, advertising, writing, business, law, law enforcement, government, health services, as well as other career opportunities. Even a basic knowledge of Spanish at the SPAN 103 level may increase the probability of employment for these and other fields.

For the non-major of Spanish, the Spanish faculty of the Department of World Languages and Literatures recommends that the student fulfill the general education requirement in the foreign language section by taking:

- **SPAN 103** College Spanish III (for those who had two years of high school Spanish) 4 units

For those advanced students of Spanish, one of the following courses would be an appropriate course to satisfy the general education requirement:

- **SPAN 201** Intermediate Spanish I 4 units
- **SPAN 202** Intermediate Spanish II 4 units
- **SPAN 203** Intermediate Spanish III 4 units

Additional opportunities for the non-major of Spanish are also available. The Certificate in Spanish for Public Services provides critical skills in Spanish in the areas of speaking, translating and communication. The Certificate in Bilingual/Cross-Cultural Studies: Spanish/English familiarizes the student with the Hispanic culture in and outside of the United States. The Liberal Studies degree, for those prospective teachers of elementary children K-6, can be enhanced by taking the Spanish Studies Emphasis. This track allows the student to teach in both English and bilingual classrooms. The minor in Spanish, which can be combined with any non-Spanish major, gives the student additional experience in Hispanic culture, literature and linguistics. A double major of Spanish and another subject is also an option.

For the Spanish major, the study of all aspects of Hispanic civilization is available, in both lower and upper-division classes. Those desiring to teach Spanish at the high school level as well as all other students in the program will receive a solid preparation in the culture and language of Spain and Latin America, as well as the Hispanic community within the United States.

**Teaching Credential Program**

The Bachelor of Arts in Spanish is approved as a single subject teaching credential program. In addition to the requirements of the major, credential candidates must complete certain prerequisites to the teacher education program. For information about the professional education component, admission to the teacher education program or specific requirements of the single subject waiver program, contact the Credentials Office, CE-102.

**Departmental Honors**

1. Earned a 3.5 grade point average in the major.
2. Completed at least 45 units of the major at this university.
3. Successful completion of an oral and written honors evaluation.

Qualified students should apply for honors recognition during the first week of the quarter in which they are enrolled in SPAN 496. The honors evaluation will take place during SPAN 496. Exceptional performance on the oral and written evaluation may result in the waiving of requirements one and two above.

**Course Offerings**

Students may petition to receive course credit by examination (CBE) for no more than 12 units towards the major, minor or certificate. Exact times and places of examinations are announced by the departments.
concerned, students should make arrangements with the department office or coordinator well in advance. A materials fee is required for all undergraduate lecture/seminar courses offered by World Languages and Literatures.

**Current Faculty**

Ruth E. Burke, Associate Professor  
B.A. 1972, Loma Linda University  
M.A. 1975, Ph.D. 1984, University of California, Riverside

---

### B.A. in Spanish - Hispanic Literature, Language and Civilization Track (Program Code: SHLL)

**Requirements (82 units)**

Total units required for graduation: 180
Certificate for German/English Translators

Requirements (36 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements

Proficiency in Arabic equal to ARAB 103 or equivalent. Entering students with previous training in Arabic or those who are native speakers should contact the Department of World Languages and Literatures or the Arabic program coordinator for information about placement and credit by examination. Students with no prior exposure to Arabic need to take ARAB 101, ARAB 102, and ARAB 103 which will not count toward the 32-unit requirement for the certificate.

Lower-division requirements (12)

Certificate in French/English Translation

Requirements (20 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by
undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements

Proficiency in French equal to that of FREN 103, College French III or equivalent.

Total Units: 30

Certificate in Hispanic Literatures

Requirements (28 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Program

In addition to the general requirements of the university, which include a baccalaureate degree from an accredited college, specific requirements for classification in the program are:

1. Completion of an undergraduate major in Spanish from an accredited institution consisting of at least 30 semester units, or 45 quarter units, or equivalent, of upper-division course work;
2. A cumulative undergraduate grade point average of at least 3.0 ("B"), and a minimum grade point average of 3.0 in all Spanish classes;
3. Submission of official transcripts from all previous college work to the department's graduate committee;
4. Students who do not meet the above criteria may be admitted as Unclassified Postbaccalaureate students per approval by the graduate committee and may be required to take additional upper-division Spanish undergraduate courses. Students who do not possess a B.A. in Spanish (but have a degree in another discipline) may be required to take selected upper-division undergraduate courses (earning a minimum grade of "B" (3.0) in each assigned class).

Certificate in Japanese Language and Culture

Requirements (28 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements

Proficiency in Japanese equal to JAPN 103 or equivalent. Entering students with previous training in Japanese or those who are native speakers should contact the Department of World Languages and Literatures for information about placement and credit by examination. Students with no prior exposure to Japanese must complete JAPN 101, JAPN 102, and JAPN 103 which will not count toward the 28-unit requirement for the certificate.

Master of Arts in Spanish

Requirements (46 units)

The M.A. in Spanish focuses on the strengthening of the knowledge of Spanish teachers as well as of the intensive study of literature, linguistics, and culture for those students who will be continuing their advanced studies. The degree is also appropriate for those students seeking employment in the public or private sector in positions that serve the Latino community or require knowledge of Spanish at an advanced level.

Admission to the Program

In addition to the general requirements of the university, which include a baccalaureate degree from an accredited college, specific requirements for classification in the program are:

1. Completion of an undergraduate major in Spanish from an accredited institution consisting of at least 30 semester units, or 45 quarter units, or equivalent, of upper-division course work;
2. A cumulative undergraduate grade point average of at least 3.0 ("B"), and a minimum grade point average of 3.0 in all Spanish classes;
3. Good standing at the last college attended (verified by student transcripts, see below);
4. Three letters of recommendation;
5. A one- to two-page statement describing the student’s professional goals in the area of Spanish;
6. Submission of official transcripts from all previous college work to the department’s graduate committee;
7. Verification of oral and written proficiency in Spanish at the ACTFL level of advanced mid or higher as determined by an entrance exam given by the Department of World Languages and Literatures, CSUSB. (This requirement is waived for candidates who received their B.A. in Spanish from CSUSB within the last five years of application to the M.A. in Spanish.);
8. Students who do not meet the above criteria may be admitted as conditionally classified graduate students per approval by the Graduate Committee and may be required to take additional upper-division Spanish undergraduate courses. Students who do not possess a B.A. in Spanish (but have a degree in another discipline) may also be required to take selected upper-division undergraduate courses (earning a minimum grade of "B" (3.0) in each assigned class).

Advancement to Candidacy

To be advanced to candidacy, the student must have:
Requirements for Graduation

1. Advancement to candidacy;
2. Successful completion of 46 quarter units of acceptable graduate work with at least 36 units completed at CSUSB. All course work taken at other institutions must be approved by the Graduate Committee;
3. An overall GPA of at least 3.0 ("B") in all graduate-level course work;
4. Successful completion of SPAN 696;
5. Successful completion of SPAN 697 (based on core courses in either option as well as a reading list prepared by the Department of Foreign Languages and Literatures);
6. The graduation writing requirement is met upon the successful completion of SPAN 697.

Degree Requirements (46 units)

Hispanic Literature, Linguistics, and Civilization (Program Code: SLLC)

Designed for students who wish to pursue an in-depth study of Spanish, Spanish American, and Latino literatures along with Spanish linguistics, and to prepare students for further advanced study.

Bachelor of Arts

- Liberal Studies - Integrated Track
- Liberal Studies - General Track
- Liberal Studies - Spanish Studies Track
- Liberal Studies - Arts and Letters Track

The Bachelor of Arts in Liberal Studies is a multidisciplinary degree program designed for students whose needs or interests require a more broadly based liberal arts curriculum than is possible through existing disciplines.

Most students pursuing this major intend to become teachers in K-8 classrooms. To facilitate achieving this goal, the Liberal Studies program provides the subject matter content required by the California Commission on Teacher Credentialing (CCTC).

The Liberal Studies Integrated Track leads to both a Bachelor of Arts degree in Liberal Studies and Multiple Subject Credential. It is designed for students who plan to become elementary, K-8, school teachers and who want to save time (about 2 quarters or 27 units) by working on the credential along with their B.A. degree.

The General Track degree prepares students to enter the Multiple Subject (Elementary School) teaching credential program, generally during a fifth year of post-graduate study in the College of Education. This option is best for those seeking credentials other than the Multiple Subject credential, such as special education.

Our Spanish Studies Track will soon be phased out. Students considering this track should meet with an advisor to discuss choosing instead the General Track with a Spanish concentration.

The Arts and Letters Track is available for those seeking a well-rounded undergraduate major but who do not plan to become teachers. This program is useful for careers requiring a broad educational background and strong communication, computer, research, and critical thinking skills.

Departmental Honors

The Liberal Studies student will be eligible for departmental honors upon verification of the following three requirements:

1. Earned a 3.5 grade point average in the major;
2. Completed at least 45 units of Liberal Studies courses at this university;
3. Successful completion of oral and written honors evaluations.

Requirements for the B.A. in Liberal Studies - Arts and Letters Track (Program Code: LBAL)

1. Arts and Letters Interdisciplinary Concentration Requirements (36 units)

Thirty-six units required to be selected from one of the following five groupings of courses offered by the departments and disciplines listed. Within the selected grouping, no more than 20 units may be taken in any one discipline and a minimum of 18 units must be at the 300-level or above. Courses must be selected and approved with the assistance of an advisor. A list of recommended courses approved for use in each category and department can be obtained from the Liberal Studies program office.

a. Fine Arts: Art, Dance, Music, Theatre
b. Literature: English, World Languages and Literatures
c. Languages and Linguistics: English and Foreign Languages
d. Media Arts: Communications Media, Graphic Design, Music Technology, Photography
e. Humanities: Must include courses from a minimum of three of the following areas: Communication Studies, English, Humanities, Philosophy, World Languages and Literatures, or any of the areas in Fine Arts (art, dance, music, theatre)

2. Skills Requirements (12 units)

A minimum of four units from each of the following three categories:

1. Communication Skills (4)

Four units chosen from:

<table>

**Total Units**: 173

All Liberal Studies students should give special attention to the following points before they begin their course work:

1. Since the Liberal Studies program contains a variety of choices, students should seek advisement as early as possible at the Liberal Studies Peer Advising Center (PALS), CE-114;
2. By completing the Liberal Studies program, students also can fulfill the general education requirements of the university;
3. A course only can be counted once within the Liberal Studies program; for example, a course taken in the Concentration, category J, cannot be taken in a breadth area, categories A through I;
4. The Liberal Studies, General Track program is designed especially for students who wish to enter elementary school teaching;
5. Assessment is a required component of the Liberal Studies major and is found under category I. All entering freshmen must enroll in HUM 197 at the earliest possible date. After 90 units are completed, students must enroll in HUM 397. After 135 units are completed, students must enroll in HUM 597 in either of their last two quarters. Transfer students must enroll in HUM 197 during their first quarter if they have not had an equivalent course elsewhere, immediately followed by HUM 397. They will then take HUM 597 in either of their last two quarters;
6. All graduating Liberal Studies students must maintain a grade point average of at least 2.0 ("C"). Students who plan to seek their multiple subjects in the area of Concentration or Minor and summarizing the student’s accomplishments in the Liberal Studies major. Students will enroll in the appropriate independent study course offered by the department of the faculty member who has agreed to supervise this project.

### 5. Free Electives

To be used if needed to reach minimum of 180 total units for the BA degree.

### Bachelor of Arts in Liberal Studies - General Track (Pre-Credential)

**Total units required for graduation**: 180

#### Basic Program (157)

### 5. Free Electives

To be used if needed to reach minimum of 180 total units for the BA degree.
subject teaching credential at CSUSB should achieve a minimum GPA of at least 2.7.

Requirements for the B.A. in Liberal Studies - General Track (Program Code: LBST)

**Group A: Reading, Language, and Literature**

1. **Freshman Composition (G.E.) (4)**
   - Four units chosen from:
     - ENG 104A Stretch Composition III
     - ENG 104B Stretch Composition III for Multilingual Students
     - ENG 106A Accelerated Stretch Composition II
     - ENG 106B Accelerated Stretch Composition II for Multilingual Students
     - ENG 107 Advanced First-Year Composition

2. **Oral Communication (4)**
   - COMM 120 Oral Communication
   - HON 104C Language and Meaning: Oral Communication (open only to Honors Program students)

3. **Lower division Literature (G.E.) (4)**
   - Four units chosen from:
     - ENG 110 World Literature I
     - ENG 111 World Literature II
     - ENG 160 World Drama
     - ENG 170 Studies in Literature
     - TA 160 World Drama
     - TA 212 Oral Interpretation of Literature

4. **Upper division Writing (G.E.) (4)**
   - Four units chosen from:
     - EDUC 306 Expository Writing for Education
     - ENG 306 Expository Writing for English
     - HON 306 Expository Writing for Honors (open only to Honors Program students)
     - HUM 306 Expository Writing for the Humanities
     - MGMT 306 Expository Writing for Administration
     - NSCI 306 Expository Writing for the Natural Sciences
     - SSCI 306 Expository Writing for the Social Sciences

5. **Analysis of Literature (4)**
   - Four units chosen from:
     - ENG 301A Analysis of Poetry
     - ENG 302A Analysis of Drama
     - ENG 303A Analysis of Prose Fiction
     - ENG 304A Analysis of Nonfiction Prose
     - TA 302A Analysis of Drama

6. **Linguistics (4)**
   - ENG 311 The English Language

7. **Children’s Literature (4)**
   - ENG 320 Childrens Literature
   - or ENG 327 Literature for Adolescents and Young Adults

- **Note:** This requirement also can be met by passing a proficiency examination. No unit credit is awarded for passing the examination. It may be necessary to take additional units to meet minimum residency and graduation unit requirements.

- **Note:** Students must maintain a “C-” or better in this course.

**Group B: History and Social Science**

1. **World Civilization I (G.E.) (4)**
   - ANTH 140/4 World Civilizations I, the Rise of Civilization
   - or HIST 140 World Civilizations I, the Rise of Civilization

2. **World Civilization II (4)**
   - HIST 142 World Civilizations II, the Civilizations of the East and West

3. **American Civilization (G.E.) (4)**
   - HIST 146 American Civilization
   - or HIST 200 United States History to 1877

   - PSCI 203 American Government

5. **California History (4)**
   - HIST 270 California History

6. **Economics (4)**
   - ECON 311 Economics in the Elementary and Middle School

7. **Geography (4)**
   - GEOG 300 Geography in the Elementary and Middle School Classroom

- **Total Units 28**

**Group C: Mathematics**

1. **Ideas of Mathematics (G.E.) (4)**
   - MATH 115 The Ideas of Mathematics

2. **Fundamental Concepts of Mathematics for Educators (12)**
   - MATH 301A Fundamental Concepts Mathematics Educators: Fundamental Concepts Arithmetic and Geometry
   - MATH 301B Fundamental Concepts Mathematics Educators: Transition Concrete to Abstract Algebra and Geometry
   - MATH 301C Fundamental Concepts Mathematics Educators: Further Developments in Algebra and Geometry

3. **Problem Solving in Mathematics (2)**
   - MATH 308 Problem Solving Through Theory and Practice

- **Total Units 18**

- **Note:** All MATH courses must be passed with a grade of “C” or better.

**Group D: Science**

1. **Life Sciences (G.E.) (5)**
   - BIOL 100 Topics in Biology

2. **Physical Science (G.E.) (10)**
   - CHEM 100 Chemistry in the Modern World
   - & PHYS 100 and Physics in the Modern World

3. **Earth and Space Science (G.E.) (5)**
   - Five units chosen from:
     - ASTR 311 A Cosmic Perspective of Earth
     - GEOG 311 The Dynamic Earth
Bachelor of Arts in Liberal Studies - General Track (Pre-Credential)

GEOL 309  Earth: The Blue Planet

4. Technology (G.E.) (2)
CSE 129  Science, Computing and Society  2

**Total Units**  22

**Group E: Visual and Performing Arts**

1. Art Appreciation (G.E.) (4)
Four units in the arts chosen from:

- ART 200  Studies in Art
- MUS 180  Studies in Music
- TA 260  Introduction to Theatre

2. Music Activity (3)
MUS 370  Music for Elementary Classroom Teachers  3

3. Theatre Activity (3)
Three units chosen from:

- TA 481  Creative Drama in the Classroom
- TA 484  Readers Theatre in the Classroom
- TA 486  Puppetry in the Classroom

4. Visual Arts Activity (3)

- ART 395  Art in the Classroom  3
- or ART 400  Teaching Art in the Elementary Classroom

**Total Units**  13

**Note:** Students must maintain a "C-" or better in this course.

**Group F: Physical Education and Health**

1. Physical Education (G.E.) (2)
Two units chosen from:

- KINE 101A-S  Individual and Dual Activities:
- KINE 114A-F  Physical Fitness and Conditioning Activities
- KINE 120A-L  Somatic and Martial Arts Activities:
- KINE 121A-K  Team Activities:
- KINE 137A-L  Aquatic Activities:
- KINE 147  A Fitness Odyssey
- KINE 149  Independent Activity Project
- KINE 150A-K  Dance Activities:

2. Physical Fitness (G.E.) (2)

- KINE 205  Foundations for Lifetime Fitness and Wellness  2

3. Movement Skills (4)

- DAN 481  Creative Dance in the Classroom  4
- or KINE 352  Movement for Children

4. Health (2)

- HSCI 100  Concepts in Health  2

**Total Units**  10

**Note:** Students must maintain a "C-" or better in this course.

**Group G: Human Development**

1. Child Development (6)
Students must choose 6 units from A or B below:

**Group A:**

- HD 240  Introduction to Child Development

Two units to be taken concurrently with or after HD 240 chosen from:

HD 246  Observation and Methods in Child Development: Middle Childhood
HD 247  Observation and Methods in Child Development: Adolescence

**Group B:**

- EELB 301  Growth and Development in Socio-Educational Contexts

2. Exceptional Child (4)
PSYC 350  Development of Exceptional Children  4

**Total Units**  10

**Note:** Students must maintain a "C-" or better in this course.

**Group H: Additional General Education Requirements**

1. Critical Thinking (G.E.) (4)
Four units chosen from:

- COMM 180  Critical Thinking Through Argumentation
- HON 104A  Language and Meaning: Critical Thinking (open only to Honors Program students)
- MATH 180  Critical Thinking Through Applications of Mathematical Logic
- PHIL 105  Critical Thinking Through Argument Analysis
- PHIL 200  Critical Thinking Through Symbolic Logic
- PSYC 105  Critical Thinking Through Problems Analysis
- SOC 180  Critical Thinking about Social Problems

2. Philosophy (G.E.) (4)
Four units chosen from:

- HON 104B  Language and Meaning: Introduction to Philosophy (open only to Honors Program students)
- PHIL 190  Introduction to Philosophical Issues
- PHIL 191  Introduction to Ethics
- PHIL 192  Introduction to Philosophy of Religion
- PHIL 193  Introduction to Eastern Philosophy
- PHIL 194  Introduction to Knowledge and Reality

3. Foreign Language (G.E.) (4)
Four units chosen from:

- ARAB 103  College Arabic III
- ARAB 201  Intermediate Arabic I
- ARAB 202  Intermediate Arabic II
- ARAB 203  Intermediate Arabic III
- ARAB 214  Conversation in Arabic
- ASL 103  American Sign Language III
- ASL 201  American Sign Language IV
- ASL 202  American Sign Language V
- ASL 203  American Sign Language VI
- CHIN 103  College Chinese III
- CHIN 201  Second Year College Chinese I
- CHIN 202  Second Year College Chinese II
- CHIN 203  Second Year College Chinese III
- FLAN 103C-U  Language Study III:
- FREN 103  College French III
- FREN 200  Culture and Communication
### Group I: Additional Liberal Studies Requirements

#### 1. Assessment (4)
- HUM 197 Assessment Preparation I in Liberal Studies  
- HUM 397 Assessment Preparation II in Liberal Studies  
- HUM 597 Senior Assessment in Liberal Studies

#### 2. Classroom Experiences (4)
- EELB 230 Introduction to Education

**Total Units:** 8

*Note: Must be taken during the first quarter of enrollment.*

**Note: Must be taken in either of last two quarters before graduation.*

### Group J: Concentration

The concentration requires a minimum of 16 units. However, two of those units may be a course required of all Liberal Studies majors. Concentrations noted with an (*) are in areas that do not meet this rule and will require 18 units minimum of specific coursework. Students should get a list of courses approved for use or required in concentration from the Liberal Studies Office or at the website Liberal Studies website (http://liberalstudies.csusb.edu) concentrations:

- Anthropology*
- Art
- Art, Music and Theatre for Teachers
- Biology
- Chemistry
- Chicano/a and Latino/a Studies*
- Communication Studies
- Computer Science
- Dance
- Economics
- Education
- English
- French*
- Gender/Sexuality Studies
- Geography
- Geology*
- German*
- Health Science for Teachers
- History
- Human Development
- Kinesiology (no activity courses)
- Latin American Studies*

---

*Note: A placement test must be taken prior to registering for SPAN 101, SPAN 102, or SPAN 103. For more information about the Spanish Placement Test or offerings in foreign languages, contact the Department of World Languages and Literatures (909) 537-5847, UH-314.**

**Meets the Multicultural Requirement for GE. Students should choose one * course in category H4 or H5. Credit can be received once for HUM 325, NSCI 325, or SSCI 325.**

Bachelor of Arts in Liberal Studies - Integrated Track (B.A. and Multiple Subject Credential)

Requirements (201 units)

Total units required for graduation: 201

Subject Matter Program (153)

Group A: Reading, Language, and Literature 24
Group B: History and Social Science 28
Group C: Mathematics 18
Group D: Science 22
Group E: Visual and Performing Arts 13
Group F: Physical Education and Health 10
Group G: Human Development 18
Group H: Additional General Education (GE) Requirements 12
I. Additional Liberal Studies Requirements 8

Multiple Subject Credential Program (48)

Group J: Phase I 15
Group K: Phase II 17
Group L: Phase III 16

Total Units 201

Integrated Track Total (201 units)

1. The Liberal Studies Integrated Track is designed specifically for students who wish to enter elementary school teaching AND who want to save time by working on credential preparation along with their B.A. degree.
2. The Integrated Track will not suit the needs of all students and, since the Liberal Studies program has several tracks from which to choose, students should seek advisement as early as possible at the Liberal Studies Peer Advising Center (PALS), CE-114.
3. Grades in categories A (with exception of A1 and A4), B, D, E, F, G, and I must be a "C-" or better.
4. Grades in categories A1, A4, and C must be a "C" or better.
5. Grades in categories J, K and L must be a "B-" or better with an overall GPA of 3.0 in those categories.
6. Requirements for entering the Multiple Subject Credential program:
   a. Junior status (90 quarter units),
   b. Cumulative grade point average of 2.67 or higher,
   c. Completion of lower division coursework,
   d. Verification of a negative tuberculin examination within the last four years,
e. Submission of an application for a Certificate of Clearance,
f. Written verification that the California Basic Educational Skills Test (CBEST) has been taken or a passing score on the CBEST,
g. Submission of a Program Admission File (PAF) to the Credentials Office, CE-102, at least one quarter prior to enrollment in Credential courses (Phase I);

7. Assessments are a required component of the Integrated Track and are found under categories I through L. All entering freshmen must enroll in HUM 197 during the first quarter of enrollment. After 90 units are completed, students must enroll in HUM 397 and HUM 597 in either of their last two quarters before graduation. Transfer students must enroll in HUM 197 during the first quarter of enrollment if they have not had an equivalent course elsewhere, followed by HUM 397 the next quarter and HUM 597 in either of their last two quarters before graduation;

8. Requirements for admission to supervision (EELB 540A):
   a. Passing score on CBEST;
   b. Passing score on California Subject Examination for Teachers (CSET);
   c. Completion of Phase I courses (EELB 313, EELB 315, EELB 317, EELB 510, and EELB 519).

9. Additional requirements for the Multiple Subject Credential
   a. Current and valid CPR certification that includes infant, child and adult;
   b. Reading Instruction Competency Assessment (RICA).

Requirements for the B.A. in Liberal Studies - Integrated Track (Program Code: LBIT)

Group A: Reading, Language, and Literature

1. Freshman Composition (4)
   Four units chosen from:
   - ENG 104A Stretch Composition III
   - ENG 104B Stretch Composition III for Multilingual Students
   - ENG 106A Accelerated Stretch Composition II
   - ENG 106B Accelerated Stretch Composition II for Multilingual Students
   - ENG 107 Advanced First-Year Composition

2. Oral Communication (G.E.) (8)
   COMM 120 Oral Communication
   HON 104C Language and Meaning: Oral Communication (open only to Honors Program students)

3. Lower Division Literature (G.E.) (4)
   Four units chosen from:
   - ENG 110 World Literature I
   - ENG 111 World Literature II
   - ENG 160 World Drama
   - ENG 170 Studies in Literature
   - TA 160 World Drama
   - TA 212 Oral Interpretation of Literature

4. Upper Division Writing (G.E.) (4)
   Four units chosen from:
   - EDUC 306 Expository Writing for Education
   - ENG 306 Expository Writing for English

Bachelor of Arts in Liberal Studies - Integrated Track (B.A. and Multiple Subject Credential)

3. Movement Skills (4)
   DAN 481 Creative Dance in the Classroom 4
   or KINE 352 Movement for Children

4. Health (2)
   HSCI 100 Concepts in Health 2

Total Units 10

Group G: Human Development

1. Child Development (6)
   Students must choose 6 units from A or B below:
   Group A:
   HD 240 Introduction to Child Development *
   Two units to be taken concurrently with or after HD 240 chosen from:
   HD 246 Observation and Methods in Child Development: Middle Childhood
   HD 247 Observation and Methods in Child Development: Adolescence
   Group B:
   EELB 301 Growth and Development in Socio-Educational Contexts *

2. Exceptional Child (4)
   PSYC 350 Development of Exceptional Children * 4

3. Integrative Capstone in the Humanities (G.E.) (4)
   Four units chosen from:
   HUM 319 Myth, Metaphor and Symbol
   HUM 325 Perspectives on Gender **
   HUM 328 Asian Cultural Traditions **
   HUM 330 Arts and Ideas
   HUM 335 The Origin and Contemporary Role of Latino Culture **
   HUM 340 Interpretation and Values
   HUM 344 Ideas in American Culture
   HUM 350 The Cultures of American Childhood **
   HUM 370 African Heritage in the Arts **
   HUM 375 The World of Islam **
   HUM 380 Comparative Studies in the Arts: East and West **
   HUM 385 A Cultural History of Fashion

4. Integrative Capstone in the Social and Behavioral Sciences (G.E.) (4)
   Four units chosen from:
   SSCI 300 Nonwestern World
   SSCI 304 Contemporary Latin America
   SSCI 315 Cultural Adaptation: The Quest for Survival
   SSCI 316 Race and Racism **
   SSCI 320 Understanding Capitalism
   SSCI 321 Urbanization and the Urban Environment
   SSCI 325 Perspectives on Gender **
   SSCI 345 Religious Expression in America

SSCI 350 Roots of Modern Racism in America **

Total Units 18

* Note: Students must maintain a "C-" or better in this course.
** Meets the multicultural/gender requirement for G.E. Students should choose one ** course in either categories G4 or G5. Credit can be received for either HUM 325 or SSCI 325 but not both.

Group H: Additional General Education Requirements

1. Critical Thinking (G.E.) (4)
   Four units chosen from:
   COMM 180 Critical Thinking Through Argumentation
   HON 104A Language and Meaning: Critical Thinking (open only to Honors Program students)
   MATH 180 Critical Thinking Through Applications of Mathematical Logic
   PHIL 105 Critical Thinking Through Argument Analysis
   PHIL 200 Critical Thinking Through Symbolic Logic
   PSYC 105 Critical Thinking Through Problems Analysis
   SOC 180 Critical Thinking about Social Problems

2. Philosophy (G.E.) (4)
   Four units chosen from:
   HON 104B Language and Meaning: Introduction to Philosophy (open only to Honors Program students)
   PHIL 190 Introduction to Philosophical Issues
   PHIL 191 Introduction to Ethics
   PHIL 192 Introduction to Philosophy of Religion
   PHIL 193 Introduction to Eastern Philosophy
   PHIL 194 Introduction to Knowledge and Reality

3. Foreign Language (G.E.) (4)
   Four units chosen from:
   ARAB 103 College Arabic III
   ARAB 201 Intermediate Arabic I
   ARAB 202 Intermediate Arabic II
   ARAB 203 Intermediate Arabic III
   ARAB 214 Conversation in Arabic
   ASL 103 American Sign Language III
   ASL 201 American Sign Language IV
   ASL 202 American Sign Language V
   ASL 203 American Sign Language VI
   CHIN 103 College Chinese III
   CHIN 201 Second Year College Chinese I
   CHIN 202 Second Year College Chinese II
   CHIN 203 Second Year College Chinese III
   FLAN 103C-U Language Study III:
   FREN 103 College French III
   FREN 200 Culture and Communication
   FREN 201 Culture and Communication II
   FREN 202 Culture and Communication III
   GER 103 College German III
   GER 212 Composition
   GER 214 Conversation
Group I: Additional Liberal Studies
Requirements

1. Assessment (4)
HUM 197  Assessment Preparation I in Liberal Studies  1
HUM 397  Assessment Preparation II in Liberal Studies  1
HUM 597  Senior Assessment in Liberal Studies  2

2. Classroom Experiences (4)
EELB 230  Introduction to Education  4

Multiple Subject Credential Program (0)

Total Units 8

* Note: Must be taken during the first quarter of enrollment
** Note: Must be taken in either of last two quarters before graduation.

Bachelor of Arts in Liberal Studies - Spanish Studies Track

Requirements (178 units)

Total units required for graduation: 180

A multiple-subject credential candidate can pursue a Spanish Studies track within the liberal studies major. This track is especially designed for those students interested in teaching English as a second language to children whose first language is Spanish. This track also prepares students to work in a bilingual/Spanish classroom setting. See the general information provided under the General Track, items 1 to 6, which applies also to the Spanish Studies track.

Basic Program (178)
Group A: Reading, Language, and Literature  28
Group B: History and Social Science  28
Group C: Mathematics  18
Group D: Science  22
Group E: Visual and Performing Arts  13
Group F: Physical Education and Health  10
Group G: Human Development  10
Group H: Additional General Education (GE) Requirements  20
Group I: Additional Liberal Studies Requirements  8
Group J: Spanish Studies  21

Total Units 178

Requirements for the B.A. in Liberal Studies - Spanish Studies Track (Program Code: LSSS)

Group A: Reading, Language, and Literature

1. Freshman Composition (4)
Four units chosen from:

<table>

</tr>
</tbody>
</table>
Bachelor of Arts in Liberal Studies - Spanish Studies Track

2. Oral Communication (G.E.) (4)

ENG 107 Advanced First-Year Composition

COMM 120 Oral Communication 4
HON 104C Language and Meaning: Oral Communication (open only to Honors Program students)

3. Lower Division Literature (G.E.) (4)

Four units chosen from:

ENG 110 World Literature I
ENG 111 World Literature II
ENG 160 World Drama
ENG 170 Studies in Literature
TA 160 World Drama
TA 212 Oral Interpretation of Literature

4. Upper Division Writing (G.E.) (4)

Four units chosen from:

EDUC 306 Expository Writing for Education
ENG 306 Expository Writing for English
HON 306 Expository Writing for Honors (open only to Honors Program students)
HUM 306 Expository Writing for the Humanities
MGMT 306 Expository Writing for Administration
NSCI 306 Expository Writing for the Natural Sciences
SSCI 306 Expository Writing for the Social Sciences

5. Analysis of Literature (4)

ENG 323 Chicano Literature 4

6. Linguistics (4)

ENG 311 The English Language ** 4

7. Children's Literature (4)

ENG 320 Childrens Literature 4
or ENG 327 Literature for Adolescents and Young Adults

Total Units 28

* Note: This requirement also can be met by passing a proficiency examination. No unit credit is awarded for passing the examination. It may be necessary to take additional units to meet minimum residency and graduation unit requirements

** Note: Students must maintain a "C-" or better in this course.

Group B: History and Social Science

1. World Civilization I (G.E.) (4)

ANTH 140 World Civilizations I, the Rise of Civilization 4
or HIST 140 World Civilizations I, the Rise of Civilization

2. World Civilization II (4)

HIST 142 World Civilizations II, the Civilizations of the East and West 4

3. American Civilization (G.E.) (4)

HIST 146 American Civilization 4
or HIST 200 United States History to 1877

PSCI 203 American Government 4

5. California History (4)

HIST 270 California History 4

6. Economics (4)

ECON 311 Economics in the Elementary and Middle School 4

7. Geography (4)

GEOG 300 Geography in the Elementary and Middle School Classroom 4

Total Units 28

Group C: Mathematics

1. Ideas of Mathematics (G.E.) (4)

MATH 115 The Ideas of Mathematics 4

2. Fundamental Concepts of Mathematics for Educators (12)

MATH 301A Fundamental Concepts Mathematics Educators: Fundamental Concepts Arithmetic and Geometry 4
MATH 301B Fundamental Concepts Mathematics Educators: Transition Concrete to Abstract Algebra and Geometry 4
MATH 301C Fundamental Concepts Mathematics Educators: Further Developments in Algebra and Geometry 4

3. Problem Solving in Mathematics (2)

MATH 308 Problem Solving Through Theory and Practice 2

Total Units 18

Note: All MATH courses must be passed with a grade of "C" or better.

Group D: Science

1. Life Sciences (G.E.) (5)

BIOL 100 Topics in Biology 5

2. Physical Science (G.E.) (10)

CHEM 100 & PHYS 100 Chemistry in the Modern World and Physics in the Modern World 10

3. Earth and Space Science (G.E.) (5)

Five units chosen from:

ASTR 311 A Cosmic Perspective of Earth
GEOG 311 The Dynamic Earth
GEOL 309 Earth: The Blue Planet

4. Technology (G.E.) (2)

CSE 129 Science, Computing and Society 2

Total Units 22

Group E: Visual and Performing Arts

1. Art Appreciation (4)

Four units in the arts chosen from:

ART 200 Studies in Art
MUS 180 Studies in Music
TA 260 Introduction to Theatre

2. Music Activity (3)

MUS 370 Music for Elementary Classroom Teachers 3

3. Theatre Activity (3)

Three units chosen from:

TA 481 Creative Drama in the Classroom
TA 484 Readers Theatre in the Classroom
TA 486 Puppetry in the Classroom

4. Visual Art Activity (3)

ART 395 Art in the Classroom 3
**Group F: Physical Education and Health**

1. **Physical Education (G.E.) (2)**
   
   Two units chosen from:
   
   - KINE 101A-S Individual and Dual Activities:
   - KINE 114A-F Physical Fitness and Conditioning Activities
   - KINE 120A-L Somatic and Martial Arts Activities:
   - KINE 121A-K Team Activities:
   - KINE 137A-L Aquatic Activities:
   - KINE 147 A Fitness Odyssey
   - KINE 149 Independent Activity Project
   - KINE 150A-K Dance Activities:

2. **Physical Fitness (G.E.) (2)**

3. **Movement Skills (4)**

   - DAN 481 Creative Dance in the Classroom
   - or KINE 352 Movement for Children

4. **Health (2)**

   - HSCI 100 Concepts in Health

   **Total Units**: 13

* **Note**: Students must maintain a "C-" or better in this course.

**Group G: Human Development**

1. **Child Development (6)**

   Students must choose 6 units from A or B below:

   **Group A**:
   
   - HD 240 Introduction to Child Development
   
   Two units to be taken concurrently with or after HD 240 chosen from:
   
   - HD 246 Observation and Methods in Child Development: Middle Childhood
   - HD 247 Observation and Methods in Child Development: Adolescence

   **Group B**:
   
   - EELB 301 Growth and Development in Socio-Educational Contexts

2. **Exceptional Child (4)**

   - PSYC 350 Development of Exceptional Children

   **Total Units**: 10

* **Note**: Students must maintain a "C-" or better in this course.

**Group H: Additional General Education Requirements**

1. **Critical Thinking (G.E.) (4)**

   Four units chosen from:

   - COMM 180 Critical Thinking Through Argumentation
   - HON 104A Language and Meaning: Critical Thinking
   - MATH 180 Critical Thinking Through Applications of Mathematical Logic
   - PHIL 105 Critical Thinking Through Argument Analysis
   - PHIL 200 Critical Thinking Through Symbolic Logic
   - PSYC 105 Critical Thinking Through Problems Analysis
   - SOC 180 Critical Thinking about Social Problems

2. **Philosophy (G.E.) (4)**

   Four units chosen from:

   - HON 104B Language and Meaning: Introduction to Philosophy
   - PHIL 190 Introduction to Philosophical Issues
   - PHIL 191 Introduction to Ethics
   - PHIL 192 Introduction to Philosophy of Religion
   - PHIL 193 Introduction to Eastern Philosophy
   - PHIL 194 Introduction to Knowledge and Reality

3. **Foreign Language (G.E.) (4)**

   Four units of a SPAN course chosen in consultation with program coordinator

4. **Integrative Capstone in the Humanities (G.E.) (4)**

   - HUM 335 The Origin and Contemporary Role of Latino Culture (Students must maintain a grade of "C" or above in this course.) (Meets Multicultural/ Gender Category G1 in G.E.)

   **Total Units**: 20

**Group I: Additional Liberal Studies Requirements**

1. **Assessment (4)**

   - HUM 197 Assessment Preparation I in Liberal Studies
   - HUM 397 Assessment Preparation II in Liberal Studies
   - HUM 597 Senior Assessment in Liberal Studies

2. **Classroom Experiences (4)**

   - EELB 230 Introduction to Education

   **Total Units**: 8

* **Note**: Must be taken during the first quarter of enrollment

**Group J: Spanish Studies**

1. **Upper division Spanish language skills (9)**

   - SPAN 302 Theory and Practice in Composition
   - SPAN 295 Intermediate Skills Assessment
   - SPAN 415 Comparative Linguistics: Spanish/English (Students must maintain a grade of "C" or above in this course.)

2. **Spanish Studies Electives (12)**

   Twelve units chosen from any upper-division Spanish classes not taken under another category and from the following:

   - ANTH 330 Cross-Cultural Child-Rearing Practices
   - ANTH 354 Cultures of Mexico and Central America
   - ANTH 356 Cultures of South America
   - ANTH 388 Language and Culture
   - ART 328 Mexican Art

Total Units 21

## Minor in Latin American Studies

### Admission to the Program

1. Students must meet general university admission requirements;
2. Students should discuss this minor with their academic advisors. All majors are eligible to participate in this minor.

### Requirements for Graduation

1. Minors can only be granted for the same term in which students graduate;
2. CSUSB will not consider for transfer credit coursework from an institution that will not accept that coursework in its own degree program.

### Requirements for a minor in Latin American Studies

**Core requirements (8)**

- HIST 470 Modern Latin America 4
- or HUM 335 The Origin and Contemporary Role of Latino Culture 4
- FLAN 103D Language Study III: Portuguese 4
- or SPAN 103 College Spanish III

**International experience (4)**

- HUM 576B-F International Experience (for a total of 4 units) 4

**Electives (16)**

Sixteen units, with at least one course each from groups A, B, and C: 16

**Group A. Social Sciences:**

- ANTH 306 Aztecs, Maya and their Predecessors
- ANTH 307 Incas and their Predecessors
- ANTH 324 Pre-Columbian Art
- ANTH 346 Indigenous Politics
- ANTH 354 Cultures of Mexico and Central America
- ANTH 356 Cultures of South America
- ECON 540 Political Economy of Latin America
- GEOG 312 Geography of the Developing World
- GEOG 322 United States and Mexico Border Issues
- HIST 390 History of Modern Mexico
- HIST 395 Topics in History (when topic relates to Latin America)
- HIST 465 Modern Central America
- HIST 466 Foreign Relations of Latin America
- HIST 467 Latin American History Through Film
- HIST 469 Colonial Latin America
- HIST 470 Modern Latin America
- HIST 494 Proseminar in History
- PSCI 330 State and Local Politics
- SOC 342 The Chicano Family
- SOC 442 Chicano Social Stratification
- SOC 525 Indian Nations and Native America
- SOC 590 Seminar in Sociology
- SSCI 304 Contemporary Latin America

**Group B. Arts, Languages, Literature and Education:**

- ART 324 Pre-Columbian Art
- ART 328 Mexican Art
- ART 329 Chicano Art
- EELB 512 Spanish Childrens Literature for the Bilingual Classroom
- ENG 319 Studies in Literary Diversity
- ENG 323 Chicano Literature
- HUM 335 The Origin and Contemporary Role of Latino Culture
- HUM 460 Cultural Studies (when topic relates to Latin America)
- HUM 500A Current Ideas and Issues in Latin America
- HUM 500B Current Ideas and Issues in Latin America
- MUS 351 Latin American Music
- SPAN 314 Advanced Conversation
- SPAN 316A Spanish for the Professionals: Communications
- SPAN 316B Spanish for the Professionals: Health Science
- SPAN 316C Spanish for the Professions: Education
- SPAN 316D Spanish for the Professions: Business
- SPAN 316E Spanish for the Professions: Criminal Justice
- SPAN 322 Origin and Contemporary Role of Hispanic Dialects
- SPAN 412 Latin American Civilization
- SPAN 435 Chicano Literature in Spanish
- SPAN 440 Mexican Literature
- SPAN 442 Literature of the Southern Cone
- SPAN 516A-G Seminar in Spanish American Literature, Culture or Film

**Group C. Business, Management, Communication, Health and Nutrition:**

- COMM 365 Topics in Media Studies (when the topic is Media and Social Change in Latin America)
- ADMN 590D Seminar in Administration (when topic is Doing Business in Latin America)
- COMM 364 Topics in Human and Organizational Communication
- COMM 409 Latina/os, Media and Culture
- COMM 471 International Communication
- COMM 593D Communication Approaches to Area Studies: Latin America
- HSCI 344 International Perspectives on Nutrition
- HSCI 359 Global Health
- HSCI 385 Food and Culture: Traditions and Trends
MGMT 405  Managing Across Borders
MKTG 470  International Marketing Management

Total Units  28

*  **Note**: Students may receive credit for only one of the following courses: ANTH 324, ART 324

**  **Note**: Spanish courses at the 300-level and above are taught in Spanish.

**Note**: In the electives categories, those courses not specifying a topic, are applicable only when the student's project/research focuses on Latin America.

**Foreign Language Requirement for Spanish or Portuguese**

The following rules apply to challenging a language course for credit in this minor:

1. Only courses at the 103-level or higher may be challenged.
2. Students whose language of instruction in secondary school was Spanish or Portuguese may satisfy this category by submitting official academic transcripts showing that either language was, indeed, the medium of instruction in the school from which they graduated.
3. Providing documentation of significant foreign language experience such as the successful completion of two years of Peace Corps experience in a Spanish- or Portuguese-speaking country.

Master of Public Administration
• Accredited by NASPAA, the Network of Schools of Public Affairs, Policy and Administration
• with concentrations in:
  • Leadership
  • Public Financial Management
  • Cyber Security
• The College also offers concurrent degrees of Master of Public Administration and Master of Social Work
The College of Business and Public Administration offers a major in administration designed to prepare students for careers in business, government service, institutions and related fields.

Within the mission of the university, the College of Business and Public Administration has three central objectives:

1. provide high quality business and public administration programs which will prepare our students for successful careers in business and government;
2. participate in scholarly activities which will assist in keeping our students, faculty, and our constituent businesses and governments abreast of current developments in their respective disciplines; and
3. provide professional service to our university, community and professional organizations.

The curriculum, with its core requirements and areas of specialization, provides the student with a broad-based behavioral and quantitative understanding of the concepts of management. The managerial function and decision-making processes are studied with coverage in methods of analysis of quantitative information; judgment and appraisal of social, economic and human relations issues; and effective communication.

Areas of commonality among various public and private systems of institutional management constitute the core material of the administration major, while variations which distinguish management practices in different functional areas are subjects for optional specialization.

### Departmental Honors

Students majoring in administration are eligible to receive departmental honors if the following conditions are met:

1. At least four courses in the concentration are completed at this university;
2. -3.5 minimum GPA in major;
3. -3.25 minimum GPA in concentration/option

### CBPA Honors Program

#### Requirements for the CBPA Honors Program

(24 units)

1. GPA 3.5 or higher in all CPBA courses, OR students with a GPA below 3.5 can make an appeal to the Program Manager;
2. Have a declared concentration in the CBPA;
3. Must complete 90 units before taking Honors classes or activities;
4. Successful completion of the upper division writing requirement with at least an A-grade (appealable if the student has not taken a 306 class at the beginning of the junior year, to ensure no time delays for students who aspire to participate in the Honors Program);
5. Must maintain a 3.5 GPA in CBPA courses throughout the program. If GPA falls below 3.5, students have two quarters on probation to bring the GPA back up to 3.5;
6. Total Units 8-12
   a. ADMN 501 (4 units)
   b. An Honors student is required to complete an Honors project or course the senior year (to choose only one from the following) for 4 units
      i. ADMN 502
      ii. CBPA-approved paid internship

#### Beta Alpha Psi

Founded in 1919, Beta Alpha Psi is a national scholastic and professional accounting fraternity. The primary objective of the fraternity is to encourage and give recognition to scholastic and professional excellence in the field of accounting. This includes promoting the study and practice of accounting; providing opportunities for self-development and association among members and practicing accountants; and encouraging a sense of ethical, social and public responsibility. The letters Beta, Alpha and Psi denote Scholarship, Social Responsibility and Practicality, respectively.

#### Beta Gamma Sigma

The university has an active chapter of Beta Gamma Sigma, a national organization that encourages and honors academic achievement and personal excellence in the study and practice of business. Membership is by invitation extended to undergraduate and graduate business students of high scholarship and good moral character.

#### Emeritus

Margaret K. Gibbs, Professor

### Undergraduate Degrees

#### Bachelor of Arts in Administration with concentrations in:

- Accounting Concentration (p. 227)
- Business Analytics Concentration (p. 227)
- Entrepreneurship Concentration (p. 228)
- Finance Concentration (p. 229)
- Financial Planning Concentration (p. 230)
- Hospitality Management Concentration (p. 230)
- Human Resource Management Concentration (p. 231)
- Information Systems and Technology Concentration (p. 232)
- International Business Concentration (p. 233)
- Management Concentration (p. 234)
- Marketing Concentration (p. 235)
- Public Administration Concentration (p. 236)
- Real Estate Concentration (p. 236)
• Sports and Entertainment Marketing Concentration (p. 237)
• Supply Chain and Transportation Management Concentration (p. 238)

Graduate Degrees

Master of Business Administration (p. 242)
• with focus areas in:
  • Accounting
  • Business Intelligence and Information Technology
  • Cyber Security
  • Entrepreneurship
  • Finance
  • Global Supply Chain Management
  • Management
  • Marketing Management
• with options in:
  • Executives (p. 244)
  • Professionals (p. 244)

Minors
• Minor in Accounting (p. 245)
• Minor in Business Administration (p. 245)
• Minor in Business Information Mapping (p. 245)
• Minor in Entrepreneurship (p. 246)
• Minor in Finance (p. 246)
• Minor in Hospitality Management (p. 246)
• Minor in Human Resources Management (p. 246)
• Minor in Information Systems and Technology (p. 247)
• Minor in International Business (p. 247)
• Minor in Management (p. 247)
• Minor in Marketing (p. 247)
• Minor in Public Administration (p. 248)
• Minor in Real Estate (p. 248)
• Minor in Sports and Entertainment Marketing (p. 248)
• Minor in Supply Chain Management (p. 248)

Certificates
• Accounting (p. 239)
• Cyber Security (p. 239)
• Cyber Security Professional (p. 240) (Offered through the College of Extended Learning)
• Information Systems Management (p. 240)
• Hospitality Management (p. 240) (Offered through the College of Extended Learning)
• Real Estate (p. 241) (Offered through the College of Extended Learning)
• Supply Chain Management (p. 241)
B.A. in Administration Accounting Concentration

Requirements (92-100 units)

Total units required for graduation: 180

Requirements for the B.A. in Administration

Students are encouraged to check that they have met the prerequisite requirements for each course in the College of Business and Public Administration in which they are planning to enroll. Prerequisite requirements listed for each course are strictly enforced.

Enrollment in 300-, 400- and 500-level courses in the College of Business and Public Administration is restricted to students who have completed at least 90 quarter units (i.e., at least junior class level) and all lower-division courses listed below. Course prerequisites are strictly enforced.

Students who do not meet the stated requirements may be disenrolled from the course(s).

Students must earn a grade of "C" (2.0) or better in all lower division, upper-division and concentration courses required to fulfill a B.A. in Administration.

Lower-division core requirements (32)

Total Units 30-32

Accounting Concentration (30-32 units)

Program Code: ACCT

B.A. in Administration Business Analytics Concentration

Requirements (92-100 units)

Total units required for graduation: 180

Requirements for the B.A. in Administration

Students are encouraged to check that they have met the prerequisite requirements for each course in the College of Business and Public Administration in which they are planning to enroll. Prerequisite requirements listed for each course are strictly enforced.

Enrollment in 300-, 400- and 500-level courses in the College of Business and Public Administration is restricted to students who have completed at least 90 quarter units (i.e., at least junior class level) and all lower-division courses listed below. Course prerequisites are strictly enforced.

Note: The concentration electives should be chosen from the electives listed for each concentration or, with the prior approval of the department chair, the student may substitute other courses for these electives. With prior approval, up to two of the concentration electives may be chosen from other academic disciplines. In planning their career goals, students should review course offerings of other departments to determine if specific courses fit their career plans.
Students who do not meet the stated requirements may be disenrolled from the course(s).

Students must earn a grade of "C" (2.0) or better in all lower division, upper-division and concentration courses required to fulfill a B.A. in Administration.

Total Units 28

B.A. in Administration Hospitality Management Concentration

Requirements (92-100 units)

Total units required for graduation: 180

Requirements for the B.A. in Administration

Students are encouraged to check that they have met the prerequisite requirements for each course in the College of Business and Public Administration in which they are planning to enroll. Prerequisite requirements listed for each course are strictly enforced.

Enrollment in 300-, 400- and 500-level courses in the College of Business and Public Administration is restricted to students who have completed at least 90 quarter units (i.e., at least junior class level) and all lower-division courses listed below. Course prerequisites are strictly enforced.

Students who do not meet the stated requirements may be disenrolled from the course(s).

Students must earn a grade of “C” (2.0) or better in all lower division, upper-division and concentration courses required to fulfill a B.A. in Administration.

Lower-division core requirements (32)

Eight units of 200-level or higher course work in the same approved foreign language.

Eight units chosen from one of the following three specialties: 8

Total Units

32
Foreign languages acceptable for this program are Arabic, Chinese, French, German, Italian, Japanese, Korean, Russian, and Spanish. Additional foreign languages may be approved by the Chair of the Department of Marketing. Courses must not be taught in English. Students proficient in Arabic, Chinese, French, German, Japanese, Korean, or Spanish languages may receive Credit by Examination for the language requirements. Exact times and places of examinations are announced by the Department of World Languages and Literatures; students should make arrangements with the Department of World Languages and Literatures office or chair well in advance. Students proficient in any foreign language at 200-level or equivalent level courses have an option for any or all of their foreign language courses to be waived. Responsibility for determining this proficiency rests with the Chair of the Marketing Department, after consultation with the World Languages and Literatures Department Chair. Students having any of these foreign language courses waived must substitute an equal number of units chosen from the electives listed below.

Specialties

Study Abroad Specialty (8 units) (Program Code: INBS)

Eight units of upper-division courses in business taken abroad. The courses must be approved by the Global Management Center and Marketing Department Chair before the student goes on the study abroad program.

Functional Specialty (8 units)

Eight units of upper-division courses in a functional specialty within Marketing, Management, IDS, Finance, or Accounting.

Students pursuing a functional specialty in Marketing must take 8 units of upper division courses in MKTG. Students pursuing a functional specialty in Management must take 8 units of upper division courses in MGMT, HRM, or ENTR. Students pursuing a functional specialty in IDS must take 8 units of upper division courses in SCM or IST in addition to SCM 445 above. Students pursuing a functional specialty in Finance must take 8 units of upper division courses in FIN in addition to FIN 433 above. Students pursuing a functional specialty in Accounting must take ACCT 372 and ACCT 373 in addition to FIN 433 above.

Regional Specialty (8 units) (Program Code: INBR)

Eight units of regional courses chosen from one of the following categories:

Asia

B.A. in Administration Management Concentration

Requirements (92-100 units)

Total units required for graduation: 180

Requirements for the B.A. in Administration

Students are encouraged to check that they have met the prerequisite requirements for each course in the College of Business and Public Administration in which they are planning to enroll. Prerequisite requirements listed for each course are strictly enforced.

Enrollment in 300-, 400- and 500-level courses in the College of Business and Public Administration is restricted to students who have completed at least 90 quarter units (i.e., at least junior class level) and all lower-division courses listed below. Course prerequisites are strictly enforced.

Students who do not meet the stated requirements may be disenrolled from the course(s).

Students must earn a grade of "C" (2.0) or better in all lower division, upper-division and concentration courses required to fulfill a B.A. in Administration.

Lower-division core requirements (32)

Requirements for the B.A. in Administration

Students are encouraged to check that they have met the prerequisite requirements for each course in the College of Business and Public Administration in which they are planning to enroll. Prerequisite requirements listed for each course are strictly enforced.

Enrollment in 300-, 400- and 500-level courses in the College of Business and Public Administration is restricted to students who have completed at least 90 quarter units (i.e., at least junior class level) and all lower-division courses listed below. Course prerequisites are strictly enforced.

Students who do not meet the stated requirements may be disenrolled from the course(s).
Students must earn a grade of "C" (2.0) or better in all lower division, upper-division and concentration courses required to fulfill a B.A. in Administration.

Note: The concentration electives should be chosen from the electives listed for each concentration or, with the prior approval of the department chair, the student may substitute other courses for these electives. With prior approval, up to two of the concentration electives may be chosen from other academic disciplines. In planning their career goals, students should review course offerings of other departments to determine if specific courses fit their career plans.

Total Units 24

Certificate in Accounting

Requirements (36 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Total Units 36

Certificate in Cyber Security

Requirements (32 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Students completing the Cyber Security Certificate meet the Committee on National Security Systems (CNSS) standards for Information Systems Security Professionals (CNSS 4011) and Senior System Managers (CNSS 4012).

Certificate Requirements

Certificate in Supply Chain Management

Requirements (32 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.
Master of Business Administration

Requirements (60 units)

The Master of Business Administration (M.B.A.) program provides postbaccalaureate students with a high-quality master-level education in the field of business administration. The program is designed to prepare promising students for positions of increasing responsibility and leadership through education in the broad scope of business. It is open to all qualified students regardless of undergraduate major. The degree program has three options:

MBA - Traditional Option (60 units): For qualified applicants seeking to develop in-depth, graduate-level knowledge in one or more specialized business areas.

MBA - Professionals Option (48-60 units): For qualified applicants possessing early- or mid-career experience who seek to expand their professional knowledge and skills through graduate business education.

MBA - Executives Option (48 units): For senior-level managers or executives who seek advanced business instruction to help them become more effective decision makers.

Admission to the M.B.A. Program

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. Bachelor’s Degree: A bachelor’s degree from an accredited college or university, with required minimum GPA of 3.0 calculated using the entire degree or the last 90 quarter (60 semester) units, which may include post baccalaureate work. Students with significant GMAT/GRE scores and/or professional experience may be permitted to join with a 2.5 GPA;

2. Work Experience Requirement for Professionals and Executives Options: Minimum five years substantive work experience as indicated above for “Professionals” and “Executives” (There is no work experience requirement for the Traditional MBA). Students with substantive work experience may be permitted to join with a GPA of 2.5 calculated using the entire degree or the last 90 quarter (60 semester) units, which will include post baccalaureate work;

3. Personal Statement: Academic motivation and personal qualifications demonstrated through submission of a 200-250 word statement of reasons for wishing to pursue the MBA at California State University, San Bernardino, and personal qualifications that will contribute to successful completion of the program;

4. English Proficiency for International Students: All international applicants who have not completed three years of full-time study at the secondary or post-secondary level where English was the language of instruction must also achieve an acceptable score, as determined by the MBA committee, ratified by the College Curriculum Committee, and in alignment with the Office of Graduate Studies requirements on the Test of English as a Foreign Language (TOEFL), the IELTS exam or complete CSUSB’s ESL program. The current minimum acceptable TOEFL score is 550/PBT, 213/CBT, 79-80/IBT taken within the past two years; IELTS score of 6.5 taken within the past two years; or complete level 6 of CSUSB’s Intensive English Program;

5. Resume: Submission of a current resume;

6. Letters of Recommendation: Three letters of recommendation are required;

Business Aptitude Requirement Applicants for MBA must meet the Business Aptitude Requirements or its waiver conditions as indicated below:

A. Submission of an acceptable score on the Graduate Management Aptitude Test (GMAT) or Graduate Record Exam (GRE) as determined by the MBA committee, ratified by the College Curriculum Committee, and conforming with Office of Graduate Studies requirements. The current acceptable GMAT or GRE score must meet a minimum GMAT score of 470 (minimum 10% on GMAT Verbal Ability and Quantitative Ability percentile rankings) or a minimum GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings).

B. Proof of completion of and accredited graduate degree (e.g. J.D., Ph.D., M.D) from an accredited college or university with a minimum GPA of 3.0 in the graduate program; or

C. Minimum five years of post-undergraduate professional (defined as exempt level) and/or managerial (defined as responsibility for scheduling, hiring, firing, evaluating, developing and/or rewarding employees) experience; or

D. 3.5 cumulative GPA from an AACSB accredited undergraduate business program.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing.

2. Successfully completing the Foundation courses (ADMN 601 with a C or better and ADMN 602 with a B or better;

3. Successfully completed the MBA Boot Camps;

4. Successfully completed 16 units with a minimum of a 3.0 grade point average in the program;

5. Completed an approved graduate program plan in consultation with the Graduate coordinator;

6. Secured approval of the Graduate director in charge of the MBA program.

Requirements for Graduation

1. A grade point average of 3.0 (“B”) in all course work taken after admission to conditionally classified or classified status, and grades of “C” (2.0) or better in all courses in the program;

2. After advancement to candidacy, students must complete ADMN 691, an experiential course integrating the MBA core, in addition to what may be required by their focus area (e.g. thesis, project or comprehensive exam);

3. Successful completion of ADMN 691 meets the culminating experience requirement and successful completion (a grade of B, 3.0, or better) in ADMN 602 meets the graduate writing requirement;

4. Students are expected to complete online MBA Business Boot Camp before the start of their second quarter, unless later completion is approved by the MBA program. Prior to enrolling in each Essential
Business Administration (60 units)

Degree Requirements for the Master of Business Administration (60 units)

Foundation (8)
- ADMN 601 Data-Driven Decision Making 4
- ADMN 602 Advanced Managerial Communications 4

Department of Accounting and Finance

Department of Accounting and Finance

Jack Brown Hall, Room 459

(909) 537-5704 Department of Accounting and Finance website (https://accountingfinance.csusb.edu)

The university offers concentrations in accounting within the Bachelor of Arts in Administration (p. 227) and the Master of Business Administration (p. 242). A Certificate in Accounting (p. 239) is also available. Accounting and Finance courses are offered in support of these programs. Further information is available from the Department of Accounting and Finance.

Master of Science in Accountancy

The M.S. in Accountancy prepares students for a wide range of employment opportunities in public accounting, industry and finance, government and nonprofit organizations. The program is designed to produce individuals who are qualified with knowledge and skills in Professional Accounting and Accounting Information Systems. Graduates of the program are prepared to successfully challenge a professional examination for entry into the selected area; committed professional and career development beyond their formal education into highest executive levels of the selected area; capable of becoming leaders who exhibit high standards of ethical conduct within the profession; and prepared for doctoral and research positions.

• Accountancy 3:2 Program Option (p. 252)

Master of Science in Accountancy

Requirements (48 units)
Program Code: ACPR
Program Code for Online Option: ACCO

Admission to the program
In addition to the general requirements of the university, specific requirements for admission to classified graduate status are

1. A bachelor’s degree from an accredited college or university;
2. Submission of an acceptable Graduate Management Admission (GMAT) score unless the GMAT score is waived by the coordinator of the MSA program or the chair of the department based on waiver guidelines set by the department. The following formula shall be used to determine an acceptable GMAT score: (GPA x 200) + GMAT score ≥ 1,050, with a minimum 470 GMAT score and 2.75 GPA; GPA is based on the last 90 quarter (60 semester) units and may include postbaccalaureate work;
3. Submission of GMAT score by deadline for that term; if test result is not submitted on time, admission status will be unclassified postbaccalaureate unless the GMAT has been waived; an applicant may request waiver of the GMAT upon proof of completion of graduate work (e.g., J.D., Ph.D., M.D., etc.) from an accredited U.S. college or university, upon proof of having passed the U.S. Uniform Certified Public Accountant Examination (CPA Examination), or upon meeting other GMAT waiver criteria as set by the department. Recent CSUSB accounting graduates who meet admission requirements for the 3:2 Program option may request a GMAT waiver. Contact the MSA Coordinator or department chair for details;
4. Completion of the graduate entrance writing requirement;
5. Competence in the following prerequisite courses or their equivalents;
   - ACCT 211 Introductory Accounting I 4
   - ACCT 212 Introductory Accounting II 4
   - ACCT 347 Management Accounting and Ethics in Business 4
   - ACCT 372 Intermediate Accounting 4
   - ACCT 373 Problem Areas in Intermediate Accounting 4
   - ACCT 374 Reporting Issues in Intermediate Accounting 4
   - ACCT 426 Introduction to Taxation 4
   - ACCT 440 Financial Statement Auditing 4
   - MGMT 230 Business Law 4

   NOTE: Competence in the above prerequisite courses may be demonstrated by:
   a. Formal completion of the course or its equivalents
   b. Credit by examination
   c. Waiver based on specialized work experience; must have documentation of work directly related to course to be waived; and must be approved by the MSA Coordinator or department chair. (Students requesting waiver of any prerequisite courses must petition the MSA Coordinator or department chair. Inquiries about a challenge examination or substitution for MGMT 306 should be directed to the Dean of Graduate Studies.)
6. Academic motivation and personal qualification demonstrated through submission of a 200-250 word statement of reasons for wishing to pursue the M.S. degree in Accountancy at California State University, San Bernardino, and personal qualifications that will contribute to successful completion of the program.

Students who meet all entrance requirements except course prerequisites may be admitted to the program in a conditionally classified status until those prerequisite deficiencies are removed, at which time they will be advanced to classified graduate standing in the program. Only fully classified students, however, may enroll in 600-level courses unless they have written consent from the MSA Coordinator or department chair.

Advancement to Candidacy
To be advanced to candidacy, a student must have
1. Achieved classified standing;
2. Completed at least 16 quarter units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B");
3. Completed an approved graduate program plan in consultation with the MSA Coordinator or department chair after completion of five 500-level accounting electives.

Requirements for Graduation
1. A minimum of 48 quarter units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 34 units completed at the university;
2. At least 24 quarter units of 600-level course work;
3. At least 20 quarter units of credit taken after advancement to candidacy for the degree;
4. Successful completion of the required core courses and elective option as outlined in the curriculum section;
5. A grade point average of 3.0 (“B”) or better in all course work taken after admission to conditionally classified or classified status, and grades of 2.0 (“C”) or better in all courses in the program;
6. After advancement to candidacy and completion of all course requirements except the culminating experience and one of MSA required courses, students must complete ACCT 697;
7. The graduation writing requirement is met upon successful completion of the culminating experience;
8. Any additional general requirements not cited above and listed in the Graduate Degree and Program Requirements (p. 61) section of this bulletin.

A "No credit" (NC) designation will be entered on the student's transcript if they fail the culminating experience requirement. Students who do not receive a passing grade on the culminating experience requirement on the first attempt must petition the MSA Coordinator or department chair for permission to retake the culminating experience requirement. Only students who are in classified status, have been advanced to candidacy, have obtained approval of the MSA Coordinator or department chair, and are not on probation may retake the culminating experience requirement.

**Total Units:** 48

Graduate-level elective courses offered by other departments within the College of Business and Public Administration require approval of the MSA Coordinator or department chairperson for course substitution.

Students may not take more than a total of eight quarter units in any combination of College of Business & Public Administration 590, 675, and 690 courses. The program may not include more than 14 units in transfer credit from other universities. CSUSB will not consider for transfer, credit course work from any institution which will not accept that work in its own advanced degree program.

### Master of Science in Accountancy (3:2 Program Option)

#### Requirements (48 units)

The Master of Science in Accountancy (MSA) 3:2 Option is a variant of the regular MSA program. It provides CSUSB accounting students with an accelerated route to a graduate degree, with simultaneous awarding of both bachelor's and master's degrees. The 3:2 Option allows students to earn graduate credit for several elective courses taken during the junior and senior years, effectively decreasing the summed unit requirement for both degrees. The 3:2 Option provides a seamless process whereby students can progress from undergraduate to graduate status.

Admission to the MSA 3:2 Option is by invitation from the Department of Accounting and Finance.

#### Admission to the Program

In addition to the general requirements of the university, specific requirements for being invited into the MSA 3:2 Option are:

1. Invitee must be a CSUSB accounting student with at least a junior year academic standing;
2. Invitee must have completed the four course performance review sequence (ACCT 315, ACCT 347, ACCT 372 and ACCT 373) with an average grade point for the course sequence of 3.0 or higher;
3. Invitee's overall CSUSB grade point average (GPA) should be 2.75 or higher.

Students who accept invitation into the MSA 3:2 Option program shall be considered as achieving conditionally classified status and shall get a waiver from the GMAT exam requirement for admission to the MSA degree program. Conditionally classified status will become classified status upon the completion of requirements for the BA in Accounting degree.

#### Advancement to Candidacy

To be advanced to candidacy, a student must have

1. Achieved classified standing;
2. Completed at least 16 quarter units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 (“B”):
3. Completed an approved graduate program plan in consultation with the MSA coordinator or the department chair after completion of five 500-level accounting electives.
Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate-level work (500 and 600 level courses) consistent with the program plan with a grade point average of 3.0 ("B"), with at least 34 units completed at the university;
2. At least 24 quarter units of 600-level course work;
3. At least 20 quarter units of credit taken after advancement to candidacy for the degree;
4. Successful completion of the required core courses and an elective option outlined in the degree requirements section;
5. A grade point average of 3.0 ("B") or better in all course work taken after admission to classified status, and grades of "C" or better in all courses in the program;
6. After advancement to candidacy and completion of all course requirements except the culminating experience and one of MSA required courses, students must complete ACCT 697;
7. The graduate writing requirement is met upon successful completion of the culminating experience;
8. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61) section of this bulletin.

A "No credit" (NC) designation will be entered on the student's transcript if they fail the culminating experience requirement. Students who do not receive a passing grade on the culminating experience requirement on the first attempt must petition the MSA Coordinator or department chair for permission to retake the culminating experience requirement. Only students who are in classified status, have advanced to candidacy, have obtained approval of the MSA Coordinator and/or the department chair, and are not on probation may retake the culminating experience.

Undergraduate Degree

Bachelor of Science

• Information Systems and Technology (p. 254) with options in:
  • Computer Information Systems
  • Cyber Security
  • Intelligence
  • Public Administration

Graduate Degree

Master of Science

• Information Systems and Technology (p. 255) (Admission is contingent on final approval of the program by the CSU Chancellor's Office)

Bachelor of Science in Information Systems and Technology

Requirements (92 units)

Total units required for graduation (180)

Requirements for the B.S. in Information Systems and Technology

Students must earn a grade of C (2.0) or better in all lower-division, upper-division and option courses required to fulfill a B.S. in Information Systems and Technology

Lower-division requirements (36)

- IST 525 Computer Forensics 4
- PSCI 204 International Relations 4
- PSCI 325 American Foreign Policy 4
- PSCI 484 National Security Policy 4
- PSCI 590 Seminar in International Relations 4

The Master of Science in Information Systems Technology (MSIST) prepares students for leadership positions in the areas of (1) cyber security, and (2) business intelligence and information systems technology career tracks. The main objective is to graduate students who have the ability to identify and solve business problems, manage organizational risk, secure and manage computer network systems, ensure business continuity, design and implement data warehouses, and use business intelligence tools to collect, integrate, analyze, and use analytics tools to mine big data for the purpose of supporting managerial decision making at all control levels: frontline, managerial, and strategic. Graduates of both career tracks are able to use their analytics knowledge to fully exploit the opportunities provided by big data, i.e. nurture data-based, evidence driven organizations. Specific positions for the cyber security career track include: information security analyst, security manager, forensics manager, computer network analyst, database administrator, and computer network architect. Specific positions for the business intelligence and information systems technology career track include management analyst, business intelligence analysts, computer system analysts, business continuity planners, research analysts, IT project managers, and business application managers. The cyber security and in business intelligence and information technology career paths can also lead to strategic positions such as Chief Information Officer, Chief Information Security Officer, Chief Analytics Officer, Chief Data officer, or Chief Business Architect. The program is open to all qualified students with a postbaccalaureate degree (major or minor) from an accredited college or university in any field. Students must have a keen interest in pursuing careers in cyber security, business intelligence, data analytics, and information systems technology.

**Admission to the Program**

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A bachelor's degree (major or minor) from an accredited college or university;
2. Submission of official transcripts in sealed envelopes from all institutions attended to CSUSB Graduate Admissions Office. CSUSB students are not required to submit any CSUSB transcripts. If your
transcript is not in English, then you must also send a certified literal English translation of the transcripts along with the official original-language transcripts with proof of degree to: CSUSB Graduate Admissions Office, 5500 University Parkway, San Bernardino, CA 91761

3. Submission of an acceptable Graduate Management Admission (GMAT) or GRE score unless the GMAT or GRE score is waived by the coordinator of the MSIT program or the chair of the department based on waiver guidelines set by the department.

4. Submission of GMAT or GRE score by deadline for that term; if test result is not submitted on time, admission status will be unclassified postbaccalaureate unless the GMAT or GRE requirement has been waived. Additionally, an applicant may request waiver of the GMAT upon proof of completion of graduate work (e.g., J.D., Ph.D., M.D., etc.) from an accredited U.S. college or university, or upon meeting other GMAT waiver criteria as set by the department. If your Bachelor’s degree was not taught principally in English, then you must take the TOEFL or IELTS (score of 7) or complete Level 6 of CSUSB’s ESL program and have official scores sent to CSUSB Graduate Admissions Office.

5. Submission of a 200 – 250 word statement that demonstrates academic motivation, reasons for wishing to pursue the MSIT at CSUSB, and personal qualifications that will contribute to the successful completion of the program. Although work experience is not required, at least two years of professional work experience will make an application more competitive. Any letters of recommendation or a résumé are optional.

6. Additional requirement for international students: International students must also submit a completed affidavit of financial support form.

Students who meet all entrance requirements may be admitted to the program in a conditionally classified status until the Foundational Course requirements are met. Once students meet the minimum passing level of “B” for each of the two foundational courses (ADMN 601 & ADMN 602) they will be advanced to classified graduate standing in the program. Only fully classified students, however, may enroll in the other 600-level core courses unless they have written consent from the college graduate director.

Advancement to Candidacy
To be advanced to candidacy, a student must have:

1. Achieved fully classified standing;
2. Completed, at least 20 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 (“B”);
3. Completed an approved graduate program plan in consultation with an MSIST advisor
4. Secured approval of the Graduate Director of the College of Business and Public Administration.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 36 units completed at the university;
2. At least 28 quarter units of 600-level course work;
3. Successful completion of the required core courses and career track concentration courses as outlined in the program curriculum section;
4. After advancement to candidacy, students must compile an MSIST Portfolio and complete a culminating experience project course (4 units). Students will not be allowed to do the project or compile an MSIST Portfolio if grade point average is below 3.0 (“B”);
5. IST 691 MSIST Culminating Project (4 Units): In consultation with a faculty advisor, complete and defend a written project based on his or her career track concentration before a committee of graduate faculty;
6. IST 995 MSIST Portfolio (0 units): Successful completion of IST 995 (MSIST Portfolio) which includes preparation and submission of a portfolio of course work. The portfolio includes a reflective essay showing how the portfolio demonstrates accomplishment of essential goals for the program. Students register for this 0-unit course after advancement to candidacy, completion of 40 units of coursework, and are eligible for the project;
7. The graduation writing requirement is met upon successful completion of ADMN 602;
8. Any additional general requirements not cited above and listed on the university bulletin.
9. Career track concentrations are available in (1) Cyber Security, and (2) Business Intelligence and Information Systems Technology. Prior to advancement to candidacy, a student must select one of these career tracks (with the consultation of a faculty career track advisor). Only students who are currently classified, have completed all foundational and core courses, have been advanced to candidacy, have obtained approval of the graduate director, have grades of “B” or better, no “incomplete” grades, and are not on probation may do the project.
10. A “no credit” (NC) designation will be entered on the student’s transcript if he/she fails the IST 691 Culminating Project course. Students who do not receive a passing grade on the first attempt must petition the college’s director of graduate studies for permission to retake the culminating experience.

Degree Requirements (48 units)
The 48 units Master of Science in Information System Technology degree program begins with two foundational courses ADMN 601 and ADMN 602 (8 units) which are provided to develop the students’ communication (oral & writing), analytical, and evidence based decision making skills. The graduation writing requirement is met upon successful completion of ADMN 602.

Five core courses (20 units) are required for all MSIST students to develop a deeper understanding of IST and business issues. This is followed with specialized (16 units) career track courses for Cyber Security or Business Intelligence and Information Technology through electives. Prior to advancement to candidacy, a student must select one of the two career tracks. The specific courses a student will take will jointly be undertaken by the student in consultation with an assigned faculty career track mentor. Similarly, selection of the student’s MSIST Culminating Experience Project topic (4 units) will be decided by the student in consultation with an assigned faculty career track mentor.

Department of Management

Jack Brown Hall, Room 461
(909) 537-5731 Department of Management (http://management.csusb.edu)

The university offers concentrations in management within the Bachelor of Arts in Administration (p. 225) and the Master of Business Administration (p. 226). Concentrations are offered under the B.A.in Administration in Management (p. 234), Entrepreneurship (p. 228), Human Resource Management (p. 231), and International Business (p. 233). Management courses are offered in support of these programs. Further information is available from the Department of Management.

The Management Department encourages its majors to take part in the California State University's International Programs (p. 14). This program provides opportunity for CSUSB students to study in a foreign country and earn full resident credit for these studies. Participation in this program will enhance the student's ability to study and work in an international business setting.

For students in management, International Programs are particularly useful in an increasingly competitive global environment where knowledge of diverse cultures, beliefs and societies is essential for success in business. By joining the California State University's International Programs (p. 14) students will have taken a major step in preparing themselves for rewarding careers in the business world of the future.

Department of Marketing

Jack Brown Hall, Room 458
(909) 537-5749 Department of Marketing (http://marketing.csusb.edu)

The university offers a concentration in marketing, sports & entertainment marketing and international business within the Bachelor of Arts in Administration (p. 225). The department also offers a concentration in Marketing for the Master of Business Administration (p. 226). Marketing courses are offered in support of these programs. Further information is available from the Department of Marketing.

In today’s business world, growing numbers of U.S. companies both large and small are getting involved in international marketing. Because of this increased involvement in international business, marketing students are encouraged to participate in the California State University’s International Program (p. 14).

Upper Division

Enrollment in upper-division courses restricted to students who have met all prerequisites and have completed at least 90 quarter units (junior class level). Students who do not meet these requirements will be disenrolled.

Graduate Degrees

Master of Public Administration (p. 260)
with concentrations in:

- Cyber Security
- Leadership
- Public Financial Management

Master of Social Work and Master of Public Administration Concurrent Degrees (p. 469)

Master of Public Administration

Requirements (48-56 units)

The Master of Public Administration (M.P.A.) is a broad program designed to prepare students for a career in administration in the public sector. The major objective is to provide the student with a generalist perspective of public administration, including tools of decision-making, an understanding of the total public administrative system, and a capacity for working within the public environment.

This degree is intended for graduate students and career employees seeking to develop and strengthen academic and professional skills for admission and advancement in the professional practice of public administration.

The program is open to all students, regardless of undergraduate major.

Admission to the M.P.A. Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A bachelor's degree from an accredited college or university;
2. A grade point average of 3.0 or above for the last 90 quarter units (or 60 semester units) of course work including post-baccalaureate courses. Students with a gpa of 2.75-2.99 may be conditionally admitted with submission of scores from the Graduate Record Examination (GRE).
3. Competence in the following prerequisite courses or their equivalents:
Requirements for Graduation

To be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed at least 20 quarter units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B")
3. Completed an approved graduate program plan in consultation with an M.P.A. advisor after achieving classified status;
4. Secured the approval of candidacy from the M.P.A. Graduate Director and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 36 units completed at this university;
2. Successful completion of the required core and elective courses as outlined in the curriculum section;
3. A grade point average of 3.0 ("B") in all course work taken after admission to conditionally classified or classified status, and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of an integrative comprehensive examination. Students with a grade point average below 3.0 ("B") will not be permitted to take the examination. A "no credit" (NC) designation will be entered on the student's transcript if he/she fails the examination. Students who do not receive a passing grade may repeat the examination, one additional time only, with the written approval of the M.P.A. Graduate Coordinator. The examination will be offered fall, winter and spring quarters. Only students who are currently classified, have been advanced to candidacy, have completed their core classes, and are not on probation may take the examination.
5. In addition to satisfactory completion of the graduate entrance writing requirement, classified MPA students must satisfy the graduation writing requirement by completion of all M.P.A. core courses with a grade point average of "B" or better and successful completion of either the comprehensive examination or the graduate research project.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed at least 20 quarter units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B")
3. Completed an approved graduate program plan in consultation with an M.P.A. advisor after achieving classified status;
4. Secured the approval of candidacy from the M.P.A. Graduate Director and the Dean of Graduate Studies.

Competence in the above prerequisite courses may be demonstrated by:

a. Waiver based on specialized work experience; must have documentation of work directly related to course to be waived; and must be approved by the department’s M.P.A. Graduate Director.
   (Students requesting waiver of any prerequisite courses must petition the M.P.A. Graduate Director.)

b. Credit by examination.

c. Formal completion of the course or its equivalent.

Select one of the following groups: 12

Group A:

Twelve units of electives to be chosen from any Department of Public Administration 500- or 600-level courses in consultation with an advisor or from related fields with advance approval from the MPA Graduate Coordinator. At least four units must be taken from 600-level courses.

Group B:

Eight units of electives to be chosen from any Department of Public Administration 500- or 600-level courses in consultation with the MPA Graduate Coordinator.

Total Units 48
Only conditionally classified and classified students (or those who have the consent of the college director of graduate studies) may enroll in 600-level courses.

Students may not include more than 12 quarter units in transfer credit from other colleges. California State University San Bernardino will not consider for transfer credit course work from any institution which will not accept that work in its own advanced degree program.

Students may not take more than a total of eight quarter units in any combination of College of Business and Public Administration 575, 590, 595, 675, and 690 courses.

The program includes development of an individual induction plan for each candidate based on a needs assessment and includes a mentoring component.

Students with five or more years experience in educational administration must register for courses but may document proficiency on administrative services standards as an alternative to completing course assignments with consent of the program coordinator.

Alternative Assessment Program (8 units)
As an alternative to the regular program, students with four or more years of administrative experience may, with consent of the coordinator, verify competency by demonstrating knowledge, skills, and abilities through an assessment/evaluation component by completing an independent study with a designated faculty member. This option is available only at the discretion of the program coordinator.

Bachelor of Science in Career and Technical Studies

Requirements (74 units)

Total units required for graduation: 180

Admission to the Program
As prerequisites for acceptance into the B.S. in Career and Technical Studies, students must complete the following as a “Pre-Career and Technical Studies major.” Upon acceptance into the program, a student’s major will be changed from “Pre-CTS” to “Career and Technical Studies” status.
Requirements to enter the B.S. in Career and Technical Studies:

1. An earned AA or AS degree in a technical field or consent of the department advisor;
2. Completed CSU GE-Breadth Certification from a California Community College, including the American Institutions requirements (U.S. History, U.S. Constitution, and California State and Local Government);
3. A minimum of 90 earned quarter units;
4. A minimum GPA of 2.0;
5. A formal application submitted to the program advisor. Please see the Department of Science, Math, and Technology Education for forms.

Requirements for the B.S. in Career and Technical Studies (Program Code: CTEC)

**Career and Technical Studies (26)**

Students must complete 18 required units and 8 elective units from this area as specified in a program plan developed with a program advisor.

| ECTS 501 | Principles and Methods for Teaching Designated Subjects | 4 |
| ECTS 502 | Instructional Support for Teaching Designated Subjects | 4 |
| ECTS 503 | Contemporary Issues in Teaching Designated Subjects | 4 |
| ECTS 504 | Principles of Career and Technical Education | 4 |
| ECTS 540 | Topics in Career and technical Education | 2 |

Eight units chosen from:

| ECTS 508 | Organization and Structure of Career and Technical Programs |
| ECTS 509 | Personnel Management in Career and Technical Programs |
| ECTS 510 | Field Work in Coordination and Supervision of Career and Technical Programs |
| ECTS 518 | Field Work in Designated Subjects |
| ECTS 519 | Computer Applications for Career and Technical Educators |
| ECTS 520 | Curriculum Development for Career and Technical Programs |
| ECTS 521 | Assessing Student Progress |
| ECTS 522 | Directing and Managing Occupational Programs |
| ECTS 523 | Learning Theory and Instructional Research Applied to Adult Learners |

**Instructional Technology (24)**

Students will complete 12 required units and 12 elective units from this area as specified in a program plan developed with a program advisor.

| ETEC 501 | Foundations of e-Learning | 4 |
| ETEC 541 | E-Learning Design and Development | 4 |
| ETEC 542D | Seminar in Instructional Technology | 4 |

Twelve units chosen from:

| ETEC 500 | Foundations in Instructional Education |
| ETEC 537 | Computer Based Technology in Education I |
| ETEC 543 | Technology and Learning I |
| ETEC 544 | Design and Development of Instructional Materials |

**Entrepreneurship (24)**

Students will complete 16 required units and 8 elective units from this area as specified in a program plan developed with a program advisor.

| ENTR 543 | New Venture Opportunity Analysis | 4 |
| ENTR 544 | New Venture Development | 4 |
| ENTR 545 | New Venture Resource Requirements | 4 |
| ENTR 549 | Launching the Entrepreneurial Venture | 4 |

Eight units chosen from:

| FIN 420 | Entrepreneurial Finance |
| ENTR 442 | Small Business Management |
| HRM 455 | Human Resources Management |
| MGMT 515 | Business Consulting |
| ENTR 541 | Commercializing Entrepreneurial Innovation |
| ENTR 547 | Managing a Growing Business |
| MGMT 575 | Internship |
| MKTG 430 | Professional Selling and Sales Management |
| MKTG 460 | Retailing |

Total Units: 74

Note: In order to qualify for the Designated Subjects Career and Technical Education Teaching Credential, students should have at least three years of verifiable work experience directly related to each industry sector named on the credential. One year must equal a minimum of 1000 clock hours for ROP or 1500 hours for adult education. Students pursuing the credential must also earn a "B" or better in all professional education courses attempted (those with the ECTS prefix).

**Bachelor or Arts in Career and Technical Studies**

Requirements (74-85 units)

Total units required for graduation: 180

**Admission to the Program**

The Bachelor of Arts in Career and Technical Studies (BCTS) is designed to provide candidates with significant occupational and teaching experience the opportunity to have that experience count as partial credit toward a baccalaureate degree. Applicants must possess a high school diploma or its equivalent and five years of work experience and/or education directly related to each subject the candidate teaches.

In order to qualify for a Career and Technical Evaluation of Competency (CTEC) applicant must have at least three years of full-time work experience, at least 1500 clock hours of teaching experience.

Applicants must be admitted to the university and should take ECTS 335. Introduction to Career and Technical Studies within the first academic year.

**Requirements for Graduation**

1. Students must complete a minimum of 180 quarter units of college credit:
a. At least 45 of these units must be completed as a regularly enrolled student at this university;

   **Note:** Up to 105 quarter units of lower-division course work may be accepted as transfer credit from an accredited community college or other accredited postsecondary educational institutions.

b. At least 60 of these units must be in upper-division course work;

c. Eighty-two of these units must be in the area of general education as specified in the general education requirements;

d. Thirty-four to 45 of these units must result from Career and Technical Evaluation of Competency (CTEC) of the applicant's occupational and teaching experience;

e. Forty of these units must be in the Career and Technical Studies courses;

f. Twenty-four of these units will consist of electives;

2. Students must earn a grade point average of 2.0 ("C") or better in all work attempted and 3.0 ("B") or better in all professional education courses attempted;

3. Students must complete the upper-division writing requirement (EDUC 306);

4. Students must complete the history, constitution and government requirements;

5. Students must be recommended for graduation by the faculty of the university.

### Requirements for the B.A. in Career and Technical Studies (Program Code: CTEC)

**Career and Technical Evaluation of Competency (CTEC) (34-45)**

The equivalent of 34-45 quarter units of experience must be verified through written examinations, portfolios, personal interviews, demonstrations, and/or other appropriate means of documentation.

**Total Units** 74-85

### Certificate in E-Learning

**Requirements (16 units)**

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

This certificate constitutes recognition of teacher preparation in the area of Career and Technical Education. Although it partially satisfies the Commission on Teacher Credentialing, it is not a teaching credential.

Total Units 28

Designated Subjects Career and Technical Education Credential

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements: 24 units

Admission to the Program

Preliminary Designated Subjects Credential requirements or Program Coordinator's permission. Complete Early Orientation requirement prior to or within the first month of teaching or document one year teaching experience under a California Teaching Credential.

Credential Requirements

Appropriate work experience and a high school diploma (or the equivalent) are required for admission to the Designated Subjects Career and Technical (CTE) Teaching Credential Program. Applicants should have at least three years of verifiable work experience directly related to each industry sector named on the credential. One year must equal a minimum of 1000 clock hours. The experience may be full-time or part-time, paid or unpaid. One year of work experience must be within the last five years or two years of work experience must be within the last ten years in the area listed on the credential. Contact the Jim and
Committee will oversee the specific admissions processes for the program, review candidate applications and make admissions decisions. The graduate admissions standards of the university shall apply to all Ed.D. candidates.

The Ed.D. program requires the following of applicants for admission to the doctoral program:

1. A completed application;
2. An earned baccalaureate degree and master's degree from an accredited institution of higher education with a cumulative grade point average of 3.0 or higher in upper-division and graduate study combined;
3. Official transcripts from each college or university attended since high school graduation (no exceptions);
4. Submission of Graduate Record Examination (GRE) scores from three sections of the General Test taken within the last five years with a recommended total score of 1000 or higher;
5. Three letters of recommendation from professionals in the field attesting to the leadership ability and scholarship potential of the candidate; included shall be one letter from a school site or university administrator and at least one letter from a university faculty member preferably with a doctoral degree that addresses the applicant's potential for academic success in a doctoral program. Letters must be sent directly to the Office of Doctoral Studies.
6. A written statement of purpose reflecting an understanding of the challenges facing the public schools or community colleges/institutions of higher education in California;
7. A written detailed plan indicating his/her plan for meeting the demands of the program and his/her professional responsibilities.
8. Sufficient preparation and experience to benefit from the program;
9. Demonstrated educational leadership potential and skills including successful experience in school, postsecondary, community, and/or policy leadership;
10. Demonstrated academic excellence, problem-solving ability, technology proficiency, and interest in critically assessing and bringing about improvements to current educational policies and practices; and
11. A personal interview.

Requirements for Graduation

1. A minimum of 76 units of the total 94 units required must be at the doctoral (700) level. The remaining 18 units must be at the 500-700 level;
2. At least 70 units required for the degree shall be completed in residence;
3. The overall grade point average must be at least a 3.0, and grades in individual courses must be a "C" or better. Courses in which no letter grade is assigned shall not be used in computing the grade point average. Students with a grade point average below 3.0 in two successive terms will be disqualified from the program;
4. The Ed.D. program is designed to be completed in three calendar years, including three required summer sessions. However, students are allowed five years for completion. Extensions of up to two additional years may be granted if there are compelling individual circumstances;
5. After completion of all course work and successful completion of the qualifying examination, the student will advance to candidacy and undertake the dissertation. No more than 16 quarter units shall be allowed for a dissertation;
6. Continuous enrollment is a requirement of the program. If extenuating circumstances require that the student leave the program for a period of time, the student must file a Leave of Absence. The doctoral faculty will consider an adjusted schedule and an individualized plan;

7. Ed.D. students may be permitted to repeat one course one time only by petition to and approval of the Ed.D. Faculty Program Assessment and Evaluation Committee. When approved, the original course grade on the student’s permanent record will be discounted. Only the second grade earned shall apply to the student’s cumulative post baccalaureate grade point average. The first attempt will show on the transcript with the repeat (discount) noted. Subsequent repeats of a course will be averaged.

8. Generally, a grade grievance must be initiated by the student within no more than 40 calendar days after the grade is recorded. Non-academic grievances and complaints must be filed within no more than 40 calendar days after the student learned or reasonably should have learned of the occurrence of the grievance/complaint event.

Examinations

The Ed.D. Program includes rigorous classes, a qualifying examination, and written and oral defense of both a Dissertation Proposal and Dissertation, passage of which is required for student progression to program completion and degree conferral

1. Qualifying Examination.
   The qualifying examination is based on the student’s approved literature review and is a rigorous assessment of student knowledge in response to questions generated by the Qualifying Examination Committee.

2. Written and Oral Qualifying Examinations.
   The qualifying examinations are administered at a time in the program sequence when the candidate's mastery of the majority of the core leadership and methodological elements can be fairly evaluated and when the candidate is ready to begin his/her dissertation research. Once students have passed their qualifying examination, a proposal for the dissertation is written and defended orally during the third year in the program. Once the student's proposal (both written and oral) has been approved, they bridge the transition from coursework to the actual writing of the dissertation. The final step in the program is the written dissertation and oral defense.

3. Dissertation Proposal and Dissertation Final Examination (Written)
   The dissertation proposal examination is ordinarily conducted by a three member committee that includes (a) two tenured or tenure-track members of the Ed.D. program faculty and (b) one member from the affiliated core faculty. The committee reviews the dissertation proposal and communicates formally in writing to the student its (a) approval, (b) approval with modifications, or (c) lack of approval. In the case of approval with modifications or lack of approval, the committee will communicate to the student in writing the process and expectations for resubmission. If the student is required to resubmit the proposal, the committee will review the revised proposal and communicate the outcome to the student in writing. The student must receive written approval of the proposal by the committee and written notification by the Institutional Review Board that human subjects review requirements have been met in order to proceed with the formal conduct of the dissertation research.

   The dissertation is the written product of the research undertaken in accordance with the approved proposal. The dissertation will state the research problem and question(s), describe the primary theoretical perspectives of the research, identify the major assumptions, explain the significance of the undertaking and relate it to the relevant scholarly and professional literature, describe the research methods, the sources for and methods of gathering data, the approaches used for analyzing the data, the findings based on the analysis of the data, and the conclusions or recommendations. The dissertation will reflect original analysis and independent, critical thought.

   Final Examination (Oral)
   The student is required to present the proposal orally to the committee and respond to committee members’ questions about the proposal. The proposal defense must be completed prior to the end of the first quarter (fall quarter) in Year III of the program. This examination will be administered by the dissertation committee. Unanimous agreement of the dissertation committee is required for approval of the dissertation and recommendation that the Ed.D. degree be conferred. In the event that the dissertation committee requires substantive changes to the dissertation, the final vote of the committee will be postponed until the changes are completed. Submission of the approved dissertation is the last step in the program leading to the awarding of the Ed.D. degree. The dissertation must be submitted by the specified deadline. The dissertation format must conform to CSUSB's approved dissertation manuscript requirements as outlined in the Student Handbook. The final copy of the dissertation must be approved by the dissertation committee and the Office of Graduate Studies.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel involved in technology, development, and other technology-related settings, as well as business settings. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education-related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate's content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (45 units)
Program Code: CTED
**Admission to the Program**

Applicants must possess a baccalaureate degree from an accredited college or university. Prior to being admitted to the Master of Arts program in the College of Education, applicants must be admitted to the university as an unclassified graduate student. Application for admission to the university should be made at least three months prior to the date the applicant would like to begin taking courses.

**Advancement to Candidacy**

In order to be formally advanced to candidacy, applicants must have:

1. Been accepted to the College of Education as a classified graduate student;
2. Completed the graduate entrance writing requirement;
3. Filed an approved graduate program form for completion of the degree.

As the Career and Technical Education core consists of three sequential courses; ECTS 637, ECTS 638 and ECTS 639, students should start with the EDUC 306 writing requirement, then complete Emphasis areas and the Education core courses, EDUC 603, EDUC 605 and EDUC 607.

**Requirements for Graduation**

1. A minimum of 45 quarter units of acceptable work, with 32 completed in residence at this university;
2. A minimum of 22 units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 (“B”) in course work taken to satisfy the Master of Arts degree requirements and grades of “C” (2.0) or better in all courses in the program;
4. Registration and successful completion of a master’s degree project (EDUC 600) or comprehensive examination (ECTS 999);
5. The graduation writing requirement is met upon successful completion of the master’s degree project or comprehension examination;
6. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

A satisfactory project is one which can be reported in the form of a paper and/or through other media. The project proposal must be approved by the student’s advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project.

Students will be encouraged to present projects in a variety of media. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to the traditional forms. All projects will be planned in consultation with the student’s advisor. The program may not include more than 13 quarter units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

California State University, San Bernardino 275
Master of Arts in Education - Instructional Technology Option

Master of Arts in Education

The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate's content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (48 units)

Program Code: ETEC

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A cumulative grade point average of 3.0 (“B”) in all upper-division courses;
2. Completion of the graduate entrance writing requirement;
3. Three letters of recommendation, from individuals familiar with the applicant’s work history or educational background.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 20 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed with a grade point average of 3.0 (“B”), at least 16 quarter units of applicable course work in graduate standing, at least 12 of which have been taken at this campus and approved by an advisor in the College of Education;
3. Satisfactorily completed EDUC 607, ETEC 500, ETEC 543 and ETEC 544;
4. Secured approval of candidacy from the College of Education;
5. Filed an approved graduate program for completion of the degree.

This must be prepared in consultation with an advisor in the College of Education and approved by the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate-level work, with a minimum of 34 completed in residence at this university;
2. A minimum of 28 quarter units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of a master's degree project or comprehensive examination. The project, part of a course or courses other than independent study, normally in the candidate's teaching area, can be reported in the form of a paper and/or other media. The project must be approved by the instructor and the advisor and submitted in the approved format. Both media and non-media projects require a final written report. The project proposal and the project must be approved by the student's advisor and two other professors, at least one of whom must be from the College of Education. Further information is available from the College of Education regarding an approved format for the project proposal and project.

The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to traditional forms. All projects will be planned in consultation with the student's advisor. The written comprehensive examination is designed to test the student's knowledge in the field of instructional technology. Before taking the comprehensive examination, students need to present their e-portfolio and successfully complete a presentation in ETEC 692, a required course in the program. Students may not take the examination more than twice;
5. The graduation writing requirement is met upon successful completion of the Master's Degree Project;
6. A minimum of 26 units in courses numbered 600 or above included as part of the approved graduate program;
7. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61). The program may not include more than 14 quarter units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Master of Arts in Education - Teacher Leadership Option

Offered through the College of Extended Learning (http://cel.csusb.edu)

Master of Arts in Education

The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing
educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate’s content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

### Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified status follow:

1. A valid teaching credential or teaching experience, or related experience with coordinator approval;
2. A baccalaureate degree from an accredited college or university with a minimum undergraduate grade point average of at least 3.0 (“B”) overall and 3.0 in the major;
3. Completion of the graduate entrance writing requirement;
4. Three letters of recommendation, one from the institution where the candidate has most recently taught or is currently teaching, to be evaluated by faculty members in the program;
5. A typewritten statement of purpose of no more than 500 words including the applicant’s personal goals for the graduate education program.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the program coordinator.

No more than 20 quarter units may be used to demonstrate fitness to complete the program.

### Advancement to Candidacy

In order to be advanced to candidacy a student must have the following:

1. Achieved classified standing;
2. Completed with a grade point average of 3.0 (“B”), at least 16 quarter units of applicable course work in graduate standing, at least 12 of which have been taken in this program and approved by the program coordinator;
   **Note:** Between the time of completing 15 and 23 units of applicable course work the student is required to apply for advancement to candidacy.
3. Satisfactorily completed EDUC 603 and EDUC 605;
4. Secured approval of candidacy from the College of Education;
5. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor in the College of Education.

### Requirements for Graduation

1. A minimum of 34 quarter units of acceptable graduate level work completed in residence at this university;
2. A minimum of 23 units taken after the student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 (“B”) in course work taken to satisfy the Master of Arts degree requirements and grades of “C” (2.0) or better in all courses in the program;
4. Comprehensive Examination EDCI 999. Students may take the examination twice;
5. The graduation writing requirement is met upon successful completion of the Comprehensive Examination;
6. A minimum of 26 units in courses numbered 600 or above included as part of the approved graduate program

Master of Arts in Educational Administration

Requirements (45 units)

Program Code: EADM

Admission to the Program

In addition to the general requirements of the university for admission as a postbaccalaureate student, specific requirements for admission to the Master of Arts in Educational Administration are:

1. An application for admission to the program must be submitted;
2. A valid California teaching, pupil personnel or health services credential or full-time designated subject credential (with B.A.);
3. A cumulative grade point average of 3.0 ("B") in all courses taken in education;
4. One year of documented full-time teaching, counseling, or nursing experience in a school setting under a valid credential; substitute teaching does not apply;
5. Successful completion of the California Basic Educational Skills Test (CBEST);
6. Completion of the graduate entrance writing requirement.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 20 quarter units may be used to demonstrate fitness to complete the program. Normally, a student is expected to be working concurrently for a credential in administrative services.

Note for International Applications: A TOEFL requirement exists at this university.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified graduate standing;
2. Completed, with a grade point average of 3.0 ("B"), 16 quarter hours of course work, at least 12 of which must have been at this university and approved by an advisor in the Educational Administration program;
   Note: Between the time of completing 15 units and 23 units of applicable course work the student is required to apply for advancement to candidacy.
3. Filed an approved graduate program for completion of the degree.
   This must be prepared in consultation with an advisor in the College of Education and approved by the Dean of the College of Education and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 45 quarter units of acceptable work with 32 completed in residence at this university;
2. A minimum of 24 quarter units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of the Comprehensive Evaluation in Educational Administration (EADM 692) or Master's Thesis in Educational Administration (EADM 699) which will complete the graduation writing requirement;
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

Degree Requirements (45 units)

Admission and the program requirements in order to be admitted to BOTH the general requirements of the university for postbaccalaureate the Autism Spectrum Disorder Added Authorization. Applicants must meet complete Program Admission File (PAF) to be considered for admission to Applicants must apply online to CSUMentor in addition to submitting a Admission to the Program

Applicants must apply online to CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Autism Spectrum Disorder Added Authorization. Applicants must meet BOTH the general requirements of the university for postbaccalaureate admission and the program requirements in order to be admitted to the university and classified. In preparation for admission, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the admissions desk in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Submission of an Education Specialist credential with an authorization under the 1997 standards (i.e. Level I and Level II credentials) in Mild to Moderate Disabilities, Physical and Health Impairments, Deaf and Hard of Hearing, and Visual Impairments;
3. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
4. Verification of a negative tuberculin examination within the last four years;
5. Verification of attendance at a Special Education Information Session;
6. PAF application fee receipt from the Bursar's office.

Upon admission to the university and the Autism Spectrum Disorder Added Authorization Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Certificate in Counseling

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their...
Certificate in Education of the Gifted and Talented

Admission to the Certificate in Counseling

Admission to the Certificate in Counseling depends upon the same academic standards required by the university for admission to graduate status. In addition to these general requirements, the following specific requirements for admission apply:

1. Submission to the program of transcripts from a master's degree in Counseling or Marriage and Family Therapy (MFT) with a cumulative GPA of 3.0 or higher.
2. Submission of an application portfolio as specified by the program, including a resume, statement of professional intent, proof of successful completion of the CBEST, evidence of a current negative TB test, evidence of a Certificate of Clearance, three letters of recommendation from persons having knowledge of the applicant's counseling potential, and a proposed program of study.

Applicants' files will be reviewed by a committee of the Counseling Program faculty which will decide whether the applicant will be admitted. The admission committee will also approve the proposed program of study and may stipulate further coursework if required.

Certificate in Counseling Requirements (20 units)

Completion of at least five courses (20 units) from the following list. Students may take more than the required number of units up to a maximum of 48 units if these are required by the proposed program of study to meet requirements from the State of California. No guarantee of the decision of the decision that might be made by the Board of Behavioral Sciences in any individual application for a license is implied by completion of this certificate program.

A grade point average of 3.0 ("B") in course work taken to satisfy the certificate requirements must be maintained, including a minimum of a "B" in ECLG 657A and ECLG 657B, and no grade below a "C" (2.0) in all other courses in the program.

Complete at least five of the following:

- ECLG 619 Appraisal Procedures in Counseling
- ECLG 633 Human Development for Counseling
- ECLG 650 Career Counseling
- ECLG 654 Legal and Ethical Issues in Counseling and Guidance
- ECLG 655 Multicultural Counseling
- ECLG 656 Counseling Theories
- ECLG 657A Counseling Practicum I
- ECLG 657B Advanced Counseling Practice

Certificate in Education of the Gifted and Talented

Not offered in the 2017-2018 Academic Year

Requirements (20 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Total Units 28

**Early Childhood Special Education Added Authorization Credential**

**Not offered in the 2017-18 Academic Year**

**Basic Teaching Credentials**

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

**Requirements (16 units)**

The Early Childhood Special Education Added Authorization may be added to Education Specialist credentials with authorizations under the 1997 standards (i.e. Level I and Level II credentials) and the 2004 standards (i.e. Preliminary or Clear credentials). Individuals with a valid Education Specialist credential with the Early Childhood Special Education Added Authorization may serve students with disabilities between the ages of birth and pre-kindergarten.

**Admission to the Program**

Applicants must apply online to CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Early Childhood Special Education Added Authorization. Applicants must meet BOTH the general requirements of the university for postbaccalaureate admission and the program requirements in order to be admitted to the university and classified. In preparation for admission, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the admissions desk in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Submission of an Education Specialist credential;
3. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
4. Verification of a negative tuberculin examination within the last four years;
5. Verification of attendance at a Special Education Information Session;
6. PAF application fee receipt from the Bursar's office.

Upon admission to the university and the Early Childhood Special Education Added Authorization Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

**Education Specialist Clear Credential**

**Requirements (16 units)**

**Admission to the Program**

The Education Specialist Clear Credential has been developed in compliance with the changes required by the Commission on Teacher Credentialing (CTC). In addition to meeting the general requirements of the university for admission as a postbaccalaureate student, admission to the Education Specialist Clear Credential Program requires the following:

1. Official admission to the university;
2. Submission of a valid Preliminary Education Specialist Credential;
3. Application to the Education Specialist Clear Credential Program. Applications can be obtained from the Special Education Student Services Office, CE-102. (909)-537-7406.
Recommendation for the Credential

In addition to the program admission requirements and credential course work, the candidate must successfully complete the following requirements in order to be recommended for the Education Specialist Clear Credential:

1. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than a "B-;"
2. Education Specialist Clear Credential Courses (16 units). All courses will be offered online.

Education Specialist Degree in School Psychology

Requirements (90 units)

Program Code: SPSY

The Ed.S. in school Psychology is a 90-quarter hour unit sequence program designed for students who have an appropriate undergraduate degree in human development or related field. In addition to the two years of coursework in developmental science, neuroscience, evidence-based intervention, legal and ethical issues, multicultural counseling, research, measurement and cognitive assessment, students must complete 450 hours of applied practica and a 1200 hour internship in a school setting the third year. A comprehensive examination given by NASP consistent with Nationally Certified School Psychologists must be passed during the third year.

Students admitted to the School Psychology Credential Program will design a two-year schedule with their advisor to complete any coursework needed to comply with the common and generic standards for the Pupil Personnel Services Credential as well as advanced coursework (51-quarter unit-sequence) which meets the state standards for school psychology specialization. Included in this sequence are 1200 hours of applied practica and a 1200 hour internship in a school setting the third year. A comprehensive examination given by NASP consistent with Nationally Certified School Psychologists must be passed during the third year.

In order to be formally advanced to candidacy a student must have:

1. Passing of the CBEST. This can be accomplished anytime during the first two years of coursework, and can be taken multiple times;
2. Completion of all coursework with a grade of B or better;
3. Approval of advisors in program who know the student's work.
4. Official transcripts;
5. Personal statement of why candidate wants to pursue graduate degree in school psychology;
6. Two reference forms and letters of recommendation from persons having knowledge of the applicant's potential as a school psychologist;
7. Evidence of current negative TB test.
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;

Advancement to Candidacy

Requirements for Graduation

1. Completion of all coursework with a grade of B or better;
2. Completion of 1200 hour internship;
3. Comprehensive examination that consists of a passing score on the Praxis exam put out by ETS for the National Association of School Psychologists, which indicates student knowledge level is equivalent to programs across the country. A passing score is one-half standard deviation below the national mean of 147. The Praxis exam can be taken any time after the student advances to candidacy. Students who do not receive a passing score may petition the College of Education to retake the examination. Students who do not receive a passing score the second time must petition the Dean of Graduate Studies to retake the exam. Approval to retake the examination may be, at any time, contingent on completion of additional designated courses;
4. Completion of a graduation requirement check with Department Graduate Committee and Major Advisor;

Complete Program Admission File (PAF) to be considered for admission. Applicants must apply online via CSUMentor in addition to submitting an Admission to the Program. The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (112 units)

The Early Childhood Special Education Intern Program is an alternative certification program in which interns are employed full-time as Special Education teachers for children with disabilities between the ages of birth and pre-kindergarten while earning the Preliminary Education Specialist Credential for Early Childhood Special Education with English Language (EL) Authorization and the Master of Arts in Education, Special Education option. All requirements must be completed in two years. Candidates will be admitted to this program beginning in the Winter Quarter 2011.

According to the CTC, candidates completing the Preliminary Education Specialist Credential in Early Childhood Special Education are authorized to conduct assessments, provide instruction, and special education related services to children from birth to pre-kindergarten, with a primary disability of specific learning disability, mild/moderate mental retardation, traumatic brain injury, other health impairment, autism spectrum disorders, moderate/severe mental retardation, deaf-blindness, serious emotional disturbance, and multiple disabilities. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Interns earn tenure credit in their districts and receive ongoing supervision/support from a university supervisor and district support provider. Interested applicants should contact the Early Childhood Special Education Intern Coordinator for program information, including the two-year program course sequence and program costs. Grant funds may be available for additional financial support.

Admission to the Program

Applicants must apply online via CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Preliminary Education Specialist Credential program in Early Childhood Special Education. Applicants must meet BOTH the general requirements of the university for Graduate Admission and the program requirements in order to be admitted to the university and classified as a graduate/credential candidate. In preparation for admission to the basic program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at CSU Special Education Program website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the Admissions staff in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the credential program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Original written verification of passing score for the California Basic Educational Skills Test (CBEST);
3. Two written recommendations by persons who can address scholastic performance and suitability for teaching (recommendation forms are available in the Special Education Credential Program Admission Booklet);
4. A written personal narrative to be reviewed and approved by the Special Education Program Director;
5. Verification of a negative tuberculin examination within the last four years;
6. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
7. Documentation of 45 hours of experience in programs designed to provide educational services to children and/or families from birth to pre-K;
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
9. Verification of attendance at a Special Education Information Session;
10. Satisfactory completion of prerequisite courses with a grade of “B” or better:

Eligibility for the Internship Program (16 units)

In addition to meeting the general requirements for admission to the university and the Special Education Credential program, eligibility for the Internship program requires the following:

1. Submission of application for the Internship Education Specialist Credential; Early Childhood Special Education;
2. Satisfactory completion of program pre-requisite AND pre-service course work requirements with a grade of "B-" or better unless otherwise specified:
   - ESPE 514 Curriculum and Methods for Diverse Learners with Disabilities 4
   - ESPE 530 Introduction to Special Education (requires grade B or better) 4
   - ESPE 531 Methods and Procedures in Special Education (requires grade B or better) 4
   - HD 240 Introduction to Child Development (or equivalent child development course) 4

   Note: These courses may be included in Internship Program Requirements if pre-service requirements are met through possession of valid California Multiple Subjects or Single Subject Teaching credential.

3. Preparation to teach English learners must be verified by one of the following:
   - a. Pre-service EL coursework/instruction;
   - b. Valid California Credential with EL Authorization;
   - c. CLAD/BCLAD Certification;
   - d. Interview by university/school district representatives at the discretion of the Intern Program Coordinator.

Recommendation for the Internship Education Specialist Credential: Early Childhood Special Education

In addition to classified program admission and successful verification of eligibility for the internship program, the candidate must successfully complete the following requirements in order to be recommended for the Internship Education Specialist Credential in Early Childhood Special Education:

1. Employment as a special day class teacher for pupils with moderate/severe disabilities in a participating school district, verified by a copy of the contract indicating the beginning date of employment as an intern (Month/Day/Year) with the authorized signature as designated by the school district personnel office. The recommended credential issuance date will be the date the employing school district specifies on this contract as the beginning date of service;
2. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services;
3. Completion of the U.S. Constitution requirement by one of the following:
   - HIST 146 American Civilization 4
   - HIST 200 United States History to 1877 4
   - HIST 540 Constitutional History of the United States 4
   - PSCI 203 American Government 4

   Successful completion of an examination administered through the College of Extended Learning:

Internship Program Requirements (80 units)

All requirements must be met within the term of the internship credential (two years). Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-:

- ESPE 610 Introduction to Autism Spectrum Disorders 4
- ESPE 611 Assessment Methods in Special Education 4
- ESPE 612 Supportive Methods in Special Education 4
- ESPE 615 Seminar on Language and Literacy in Early Childhood Special Education 4
- ESPE 622C Supervised Intern Teaching in Special Education: Early Childhood Special Education (8 for a total of 48)
- ESPE 625 Collaboration and Consultation in Special Education 4

- ESPE 673 Methods in Early Childhood Special Education II 4

Total Units 80

Recommendation for the Preliminary Education Specialist Credential: Early Childhood Special Education

In addition to credential and degree course work, candidates must successfully complete the following exit requirements to be recommended for the Preliminary Education Specialist Credential: Early Childhood Special Education:

1. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than a "B-:
2. Completion of the upper-division writing requirement;
3. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services.

Internship Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student’s best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.
Requirements (100 units)

The Moderate/Severe Disabilities Intern Program is an alternative certification program in which interns are employed full-time as Special Education teachers for pupils with moderate/severe disabilities while earning the Preliminary Education Specialist Credential in Moderate/Severe Disabilities with English Language (EL) Authorization and the Master of Arts in Education, Special Education option. All requirements must be completed in two years. Candidates will be admitted to this program beginning in the Winter Quarter 2011.

According to the CTC, candidates completing the Preliminary Education Specialist Credential in Moderate/Severe Disabilities are authorized to conduct assessments, provide instruction, and special education related services to individuals with a primary disability of autism, moderate/severe/profound mental retardation, deaf-blind, emotional disturbance, and multiple disabilities in kindergarten, grades 1 through 12, to age 22, and classes organized for adults. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Interns earn tenure credit in their districts and receive ongoing supervision/support from a university supervisor and district support provider. Interested applicants should contact the Moderate/Severe Disabilities Intern Coordinator for program information, including the two-year program course sequence and program costs. Grant funds may be available for additional financial support.

Admission to the Program

Applicants must apply online via CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Preliminary Education Specialist Credential program in Moderate/Severe Disabilities. Applicants must meet BOTH the general requirements of the university for Graduate Admission and the program requirements in order to be admitted to the university and classified as a graduate/credential candidate. In preparation for admission to the basic program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the Admissions staff in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the credential program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Original written verification of passing score for the California Basic Educational Skills Test (CBEST);
3. Original written verification of a passing score on the CSET examination or appropriate subject matter competency;
4. Two written recommendations by persons who can address scholastic performance and suitability for teaching (recommendation forms are available in the Special Education Credential Program Admission Booklet);
5. A written personal narrative to be reviewed and approved by the Special Education Program Director;
6. Verification of a negative tuberculin examination within the last four years;
7. Academic Achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergradate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
8. Documentation of 45 hours of experience in K-12 classrooms;
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
10. Verification of attendance at a Special Education Information Session;
11. Satisfactory completion of prerequisite courses with a grade of “B” or better:

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student’s best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (112 units)

The Early Childhood Special Education Intern Program is an alternative certification program in which interns are employed full-time as Special Education teachers for children with disabilities between the ages of birth and pre-kindergarten while earning the Preliminary Education Specialist Credential for Early Childhood Special Education with English Language (EL) Authorization and the Master of Arts in Education, Special Education option. All requirements must be completed in two years. Candidates will be admitted to this program beginning in the Winter Quarter 2011.

According to the CTC, candidates completing the Preliminary Education Specialist Credential in Early Childhood Special Education are authorized to conduct assessments, provide instruction, and special education related services to children from birth to pre-kindergarten, with a primary disability of specific learning disability, mild/moderate mental retardation, traumatic brain injury, other health impairment, autism spectrum disorders, moderate/severe mental retardation, deaf-blindness, serious emotional disturbance, and multiple disabilities. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Interns earn tenure credit in their districts and receive ongoing supervision/support from a university supervisor and district support provider. Interested applicants should contact the Early Childhood Special Education Intern Coordinator for program information, including the two-
year program course sequence and program costs. Grant funds may be available for additional financial support.

**Admission to the Program**

Applicants must apply online via CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Preliminary Education Specialist Credential program in Early Childhood Special Education. Applicants must meet BOTH the general requirements of the university for Graduate Admission and the program requirements in order to be admitted to the university and classified as a graduate/credential candidate. In preparation for admission to the basic program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at CSU Special Education Program website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the Admissions staff in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the credential program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Original written verification of passing score for the California Basic Educational Skills Test (CBEST);
3. Two written recommendations by persons who can address scholastic performance and suitability for teaching (recommendation forms are available in the Special Education Credential Program Admission Booklet);
4. A written personal narrative to be reviewed and approved by the Special Education Program Director;
5. Verification of a negative tuberculin examination within the last four years;
6. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
7. Documentation of 45 hours of experience in programs designed to provide educational services to children and/or families from birth to pre-K;
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
9. Verification of attendance at a Special Education Information Session;
10. Satisfactory completion of prerequisite courses with a grade of "B" or better:

</tbody>
</table>

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

**Eligibility for the Internship Program (16 units)**

In addition to meeting the general requirements for admission to the university and the Special Education Credential program, eligibility for the Internship program requires the following:

1. Submission of application for the Internship Education Specialist Credential: Early Childhood Special Education;
2. Satisfactory completion of program pre-requisite AND pre-service course work requirements with a grade of "B-" or better unless otherwise specified:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Note:** These courses may be included in Internship Program Requirements if pre-service requirements are met through possession of valid California Multiple Subjects or Single Subject Teaching credential.

3. Preparation to teach English learners must be verified by one of the following:
   a. Pre-service EL coursework/instruction;
   b. Valid California Credential with EL Authorization;
   c. CLAD/BCLAD Certification;
   d. Interview by university/school district representatives at the discretion of the Intern Program Coordinator.

**Recommendation for the Internship Education Specialist Credential: Early Childhood Special Education**

In addition to classified program admission and successful verification of eligibility for the internship program, the candidate must successfully complete the following requirements in order to be recommended for the Internship Education Specialist Credential in Early Childhood Special Education:

1. Employment as a special day class teacher for pupils with moderate/severe disabilities in a participating school district, verified by a copy of the contract indicating the beginning date of employment as an intern (Month/Day/Year) with the authorized signature as designated by the school district personnel office. The recommended credential issuance date will be the date the employing school district specifies on this contract as the beginning date of service;
2. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services;
3. Completion of the U.S. Constitution requirement by one of the following:

The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate's content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.
Requirements (48 units)

Program Code: ESPE

The Special Education Program recommends that all students pursuing the M.A. in Education, Special Education Option be enrolled concurrently in an Educational Specialist Credential program. Students pursuing only the M.A. degree must have permission from their faculty advisor.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified status are:

1. Application and official admission to the university for the M.A. in Education, Special Education Option;
2. Completion of prerequisite courses ESPE 530 and ESPE 531 with grades of “B” or better;
3. Two letters of recommendation, one from the school where the candidate has most recently taught or is currently teaching, to be evaluated by faculty members in the program;
4. Personal Academic Statement describing candidate’s purpose for graduate education program and preparation for graduate study in special education;
5. Applicants must meet the graduate entrance writing requirement by one of the following:
   a. Completion, with a grade of “B” (3.0) or better, of one of the following courses: EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, or SSCI 306 at this university or an equivalent course;
   b. Satisfactory completion of the Writing Requirement Exemption Examination (WREE) offered at this university;
6. Applicants must possess a minimum grade point average of at least 2.75 from all baccalaureate and post baccalaureate course work or at least 3.0 in the last 90 quarter units attempted.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 20 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In addition to the above program admission requirements, master’s degree candidates must successfully complete the following requirements in order to be advanced to candidacy:

1. Achieved full admission to the M.A. in Education, Special Education Option (Early Childhood, Mild/Moderate, Moderate/Severe, or Autism Spectrum Disorders);
2. Secured approval of candidacy from the College of Education;
3. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an assigned advisor in the College of Education and approved by the director of the Special Education program.

Note: Advancement to candidacy must be processed prior to completion of 20 quarter units of master’s degree course work. Students will not be permitted to take the comprehensive examination in the same quarter they are advanced to candidacy.

Requirements for Graduation

In addition to requirements listed in Graduate Degree and Program Requirements (p. 61), candidates must meet the following requirements for graduation:

1. A minimum of 48 quarter units of acceptable work, with a minimum of 35 units completed at this university;
   Note: The program may not include more than 13 quarter units in approved CSUSB extension or transfer courses from other colleges/universities. CSUSB will not consider the transfer of course work from an institution which will not accept that work towards its own advanced degree program.
2. A grade point average of 3.0 (“B”) in course work taken to satisfy the Master of Arts degree requirements with no grade lower than a “B-” in all courses in the program;
3. Successful completion of the project/thesis and/or comprehensive examination to meet the university graduation writing requirement.

A satisfactory project is one which must be reported in the form of a paper. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to traditional forms. The project proposal and the project must be approved by the student’s project advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project. Students who elect to complete a project are not required to take a comprehensive examination.

The comprehensive examination is of an integrative nature and is designed to test the student’s knowledge of a specific field, rather than subject matter of courses taken. The examination is offered only once each quarter. The student may enroll in the examination no earlier than the last quarter in which course work is taken. The student must complete a graduation check with the Office of Records, Registration and Evaluations before permission to take the examination can be granted. Students who do not receive a passing score may petition the College of Education to retake the examination or any part of it. Students who do not receive a passing score the second time must petition the Dean of Graduate Studies to take it again. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

Prerequisite courses to be completed with a grade of “B” or better:

  - ESPE 643 Methods in Mild/Moderate Disabilities II
  - ESPE 653 Seminar on Moderate/Severe Disabilities

- Autism Spectrum Disorders (ASD)
  - ESPE 610 Introduction to Autism Spectrum Disorders
  - ESPE 627 Education of Students with Autism Spectrum Disorders
  - ESPE 653 Seminar on Moderate/Severe Disabilities
  - ESPE 662 Methods for Students with Moderate/Severe Disabilities I
  - ESPE 663 Methods for Students with Moderate/Severe Disabilities II

**Culminating Experience (4)**

Candidates must choose one of the following options:

- A. Thesis or Project
  - EDUC 600 Masters Degree
- B. Written Comprehensive Exam
  - ESPE 999 Comprehensive Examination

Four units chosen in consultation with an advisor which may include one of the following:

- ESPE 610 Introduction to Autism Spectrum Disorders (Note: not an elective for ASD Emphasis)
- ESPE 627 Education of Students with Autism Spectrum Disorders (Note: not an elective for ASD Emphasis)
- ESPE 642 Methods in Mild/Moderate Disabilities I (Note: not an elective for Mild/Moderate)
- ESPE 643 Methods in Mild/Moderate Disabilities II (Note: not an elective for Mild/Moderate)
- ESPE 662 Methods for Students with Moderate/Severe Disabilities I (Note: not an elective for Moderate/Severe)
- ESPE 663 Methods for Students with Moderate/Severe Disabilities II (Note: not an elective for Moderate/Severe)

**Master of Arts in Rehabilitation Counseling**

**Requirements (72 units)**

**Program Code: EREH**

The Master of Arts in Rehabilitation Counseling offered by the College of Education is designed to prepare students to work with individuals with disabilities in public and private rehabilitation agencies, hospitals, industry and related fields. The graduate program, a three-year course of study, will train students in rehabilitation counseling, vocational evaluation and job placement of persons with disabilities. Graduates of the program will be prepared to take the certified rehabilitation counselor examination.

Rehabilitation counseling is a growing field in the mental health and allied health professions. A rehabilitation counselor helps persons with disabilities achieve their optimal social, psychological and vocational potential. Whenever possible, the final goal of rehabilitation is job placement. The rehabilitation counselor works with people who have different disabilities. The handicaps may be physical, intellectual, emotional or sociocultural.

Students will be encouraged to develop areas of specialization by completing research of individual interest and field work experiences in specialization areas. The rehabilitation counseling program also may offer a bilingual rehabilitation counseling experience. The purpose for having a bilingual experience is that there is a demand in the rehabilitation profession for counselors to have the skills to speak and work with Hispanic clients. The mission of the bilingual rehabilitation counseling experience will be to educate students to be rehabilitation counselors who will be able to speak conversational Spanish with Hispanic clients, have an understanding of Hispanic culture and be aware of the special needs of Hispanic persons with disabilities.

**Admission to the Program**

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:
1. A baccalaureate degree with a major preferably in education psychology, sociology, or a related social service field;
2. A cumulative undergraduate grade point average of 3.0 ("B") overall;
3. Completion of the graduate entrance writing requirement;
4. A cumulative grade point average of 3.0 ("B") in all previous graduate work;
5. Completion of an interview with two faculty members to assess competence in interpersonal skills and aptitudes for the rehabilitation counseling profession;
6. Participation in a continual evaluation process which will assess personality, character, professional ethics, aptitudes, counseling skills, dispositions, oral and written language usage and other interests;
7. Students need to pass EREH 615 and EREH 616A with a grade of "B" or better in each course.

**Advancement to Candidacy**

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified graduate standing;
2. Satisfactorily completed EREH 615 and EREH 616A with a grade of "B" (3.0) or better in each;
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor in the College of Education and approved by the College and the Dean of Graduate Studies.

**Requirements for Graduation**

1. A minimum of 72 quarter units of acceptable work, with 59 completed in residence at this university;
2. A minimum of 48 quarter units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements, including a minimum of a "B" in EREH 615 and EREH 616A and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of the Certified Rehabilitation Counselor (CRC) Examination, which is a national Certification examination given by the Commission on Rehabilitation Counselor Certification in Shaumburg, Illinois, 60173. The exam is given in March, July and October with usual available sites in California. Students need to apply on an individual basis and pay a fee to take the Certified Rehabilitation Counselor (CRC) Examination. Students need to provide evidence of registration for the CRC Exam no later than the second quarter of their third year in the program. Students must take the CRC Exam no later than one year after the completion of all required coursework for the master's degree in Rehabilitation Counseling. Student's scores will be sent to the Coordinator of the Rehabilitation Counseling Master's Program, and will be credited to EREH 999. If a student does not pass the CRC on the first attempt, they need to retake the exam the next time the CRC exam is given. If after the second attempt they do not pass the examination, the student needs to petition both the Dean of Graduate Studies and the Coordinator of the Rehabilitation Counseling Program, for permission to develop a plan of remediation in order to retake the CRC exam.

If a student does not pass the CRC on the first attempt, they need to retake the exam the next time the CRC exam is given. If after the second attempt they do not pass the examination, the student needs to petition both the Dean of Graduate Studies and the Coordinator of the Rehabilitation Counseling Program, for permission to develop a plan of remediation in order to retake the CRC exam.

**Master of Science in Counseling and Guidance**

**Requirements (90 units)**

**Program Code: ECLG**

The M.S. in Counseling and Guidance is a professional program preparing students to apply to the California Board of Behavioral Sciences to become Licensed Professional Clinical Counselors. It also prepares students to become educational counselors in grades K-12. Students who complete the requirements of the MS in Educational Counseling will concurrently be eligible to receive the M.S. and apply for the California Pupil Personnel Services Credential.

**Admission to the Program**

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. Attend a Counseling and Guidance Program information meeting (call the Department of Special Education, Rehabilitation and Counseling for an information meeting schedule);
2. Submission of an Admissions Portfolio following criteria and guidelines provided at the orientation meeting. Portfolios will be evaluated according to the Counseling & Guidance Program portfolio rubric. Students will be notified as to the status of their application to enroll in ECLG 531. A completed portfolio contains:
   a. Application and current vitae/resume;
   b. Transcripts of all higher education coursework;
   c. Written Personal Statement;
   d. Three positive recommendations from persons having knowledge of applicant’s counseling potential (forms provided by program);
   e. Proof of successful completion of the CBEST;
   f. Evidence of current negative TB skin test;
   g. Evidence of possession of a valid California teaching credential or a Certificate of Clearance for eligibility to participate in fieldwork;
   h. Completion of EDUC 306 (or its equivalent) with a grade of “B” or better (fulfills the graduate entrance writing requirement);
   i. Evidence of technological literacy in six areas: word processing, database, computer presentation, downloading, internet and email;

Upon completion of the above requirements, the student’s file will be reviewed by an admission committee composed of at least three members of the Counseling faculty. Students will be notified about the result of their application and invited to enroll in ECLG 531

3. Completion of ECLG 531 with a grade of “B” (3.0) or better. Upon completion of the above requirements, the student’s file will be reviewed by an admission committee composed of at least three members of the Counseling and Guidance faculty. This committee will evaluate the admission folder and decide on the student’s admission status. Students who do not meet admissions criteria will be notified of their deficiencies.

Advancement to Candidacy

In order to be formally advanced to candidacy a student must have:

1. Achieved classified graduate standing;
2. Completed 20 quarter units of coursework with a grade point average of 3.0 (“B”), to include ECLG 619, ECLG 654 and ECLG 656;
3. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with a program advisor and approved by the program coordinator.

Requirements for Graduation

1. A minimum of 90 quarter units of graduate-level work, with a minimum of 64 units completed in residency at this university;
2. A minimum of 25 quarter units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 (“B”) in course work taken to satisfy the degree requirements, including a minimum of a “B” in ECLG 531, ECLG 657A, ECLG 657B, and no grade below a “C” (2.0) in all other courses in the program;
4. The graduation writing requirement is met either through demonstrated competence by comprehensive examination, or through completion of a Master’s degree project;
5. Completion of a graduation requirement check;
6. Any additional requirements not cited above and listed in the requirements for a Master’s Degree listed in Graduate Degree and Program Requirements (p. 61).

The comprehensive examination is designed to test the student’s knowledge of the field of counseling and guidance. The examination is a standardized national exam, the Counselor Preparation Comprehensive Examination (CPCE). The student will take the examination during the fourth fieldwork experience course. The student must be advanced to candidacy one quarter before taking the comprehensive examination. The student must complete a graduation check with the Office of Records, Registration and Evaluations before permission to take the examination can be granted. Students who do not receive a passing score may petition the College of Education to retake the examination. Students who do not receive a passing score the second time must petition the Dean of Graduate Studies to retake the exam. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

A Master’s research project can be reported in the form of a paper, which could include other media. The project proposal and the project must be approved by the student’s advisor and one other professor in the College of Education and submitted in an approved format. Further information is available in the Graduate Thesis and Project handbook available through the Graduate Studies Office. Students who elect to complete a project are not required to take a comprehensive exam or submit a portfolio.

The program may not include more than 26 quarter units in extension and transfer credit from other universities. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Twelve units of field experience made up by enrolling three times in:

- ECLG 679 Counseling Field Experience

Culminating Experience. Students must choose one of the following:
Sessions may be obtained on the CSUSB Special Education webpage:

coe.csusb.edu/programs/specialEducation/mastersDegreeStudents)  and
the Special Education Credential Program Admission Booklet which
In preparation for admission to the basic program, applicants must review
Admission to the Program

Options for concentration in Early Childhood Special Education, Mild to Moderate Disabilities, and Moderate to Severe Disabilities are available. The Special Education program recommends that students pursuing the Master of Science degree in Special Education be concurrently enrolled in an Education Specialist credential program. Students pursuing the degree only must have permission from the Special Education Program Coordinator.

Admission to the Program

In preparation for admission to the basic program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at CSU Special Education Program website (http://coe.csusb.edu/programs/specialEducation/mastersDegreeStudents) and attend a mandatory Information Session. The schedule for Information Sessions may be obtained on the CSUSB Special Education webpage:

1. Original written verification of passing score for the California Basic Educational Skills Test (CBEST);
2. Two written recommendations by persons who can address scholastic performance;
3. Verification of a negative tuberculin examination within the last four years;
4. Academic Achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 3.0 in all baccalaureate and postbaccalaureate course work or at least 3.0 in the last 90 quarter units attempted;
5. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
6. Applicants must meet the graduate entrance writing requirement by one of the following:
   a. Completion, with a grade of “B” (3.0) or better, of one of the following courses: EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, or SSCI 306 at this university or an equivalent course;
   b. Satisfactory completion of the Writing Requirement Exemption Examination (WREE) offered at this university;

7. Satisfactory completion of prerequisite courses, ESPE 530 and ESPE 531, with a grade of “B” or better.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 20 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In addition to the above program admission requirements, master's degree candidates must successfully complete the following requirements in order to be advanced to candidacy:

1. Achieved full (classified) admission to the M.S. in Special Education program;
2. Secured approval of candidacy from the College of Education;
3. Filed an approved graduate program for completion of the degree.
   This must be prepared in consultation with an assigned advisor in the College of Education and approved by the coordinator of the Special Education program.

Note: Advancement to candidacy must be processed prior to completion of 20 quarter units of master's degree course work. Students will not be permitted to take the comprehensive examination in the same quarter they are advanced to candidacy.

Requirements for Graduation

In addition to requirements listed in Graduate Degree and Program Requirements, candidates must meet the following requirements for graduation:

1. A minimum of 52 quarter units of acceptable work, with a minimum of 37 units completed at this university; Note: The program may not include more than 13 quarter units in approved CSUSB extension or transfer courses from other colleges/universities. CSUSB will not consider the transfer of course work from an institution which will not accept that work towards its own advanced degree program.
2. A grade point average of 3.0 (“B”) in course work taken to satisfy the Master of Science degree requirements with no grade lower than a “B-” in all courses in the program;
3. Successful completion of the project/thesis and/or comprehensive examination to meet the university graduation writing requirement.

A satisfactory project is one which must be reported in the form of a paper. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to traditional forms. The project proposal and the project must be approved by the student's project advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project. Students who elect to complete a project are not required to take a comprehensive examination.

The comprehensive examination is of an integrative nature and is designed to test the student's knowledge of a specific field, rather than subject matter of courses taken. The examination is offered once each quarter. The student may enroll in the examination no earlier than the last quarter in which course work is taken. The student must complete a graduation check with the Registrar's Office before permission to take the
examination can be granted. Students who do not receive a passing score may petition the College of Education to retake the examination or any part of it. Students who do not receive a passing score the second time must petition the Dean of Graduate Studies to take it again. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

Preliminary Education Specialist Credential: Early Childhood Special Education with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (52 units)

The Preliminary Education Specialist Program has been developed in compliance with the changes required by the Commission on Teacher Credentialing (CTC). Candidates will only be admitted to this program beginning in the Winter quarter 2011. According to the CTC, candidates completing the Preliminary Education Specialist credential in Early Childhood Special Education are authorized to conduct assessments, provide instruction, and special education related services to children from birth to pre-kindergarten, with a primary disability of specific learning disability, mild/moderate mental retardation, traumatic brain injury, other health impairment, autism spectrum disorders, moderate/severe mental retardation, deaf-blindness, serious emotional disturbance, and multiple disabilities. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Admission to the Program

Applicants must apply to CSUSB via CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Preliminary Education Specialist Credential Program in Early Childhood Special Education. Applicants must meet BOTH the general requirements of the university for postbaccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the admissions desk in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Original written verification of passing score on the California Basic Educational Skills Test (CBEST);
3. Two written recommendations by persons who can address scholastic performance and suitability for teaching (recommendation forms are available in the Special Education Credential Program Admission Booklet);
4. A written personal narrative to be reviewed and approved by the Special Education Program Director;
5. Verification of a negative tuberculin examination within the last four years;
6. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
7. Documentation of 45 hours of experience in Early Childhood and special education settings;
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
9. Verification of attendance at a Special Education Information Session;
10. Satisfactory completion of prerequisite courses with a grade of "B" or better:

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

**Admission to Supervised Student Teaching**

One quarter in advance of the time candidates intend to enroll in supervised student teaching (ESPE 620 and ESPE 621), they must submit an application for supervision. This application is due by Friday of the third week of the quarter prior to enrolling in supervised student teaching (no applications are accepted in the summer).

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form submitted to the College of Education Student Services Supervision desk;
2. Verification of an approved Coursework Plan including documentation of approved course substitutions;
3. Verification of complete PAF with official written verification that the applicant has passed the California Basic Educational Skills Test (CBEST);
4. Satisfactory completion of program prerequisites and credential coursework (ESPE 610, ESPE 611, ESPE 612, ESPE 613 and ESPE 514) with a grade point average of 3.0 ("B") and no course grade lower than "B-";
5. Verification of a negative tuberculin examination within the last four years.

All coursework taken at another college and substituted for credential program requirements is subject to approval by the director of the Special Education Program. No more than 12 units of the credential program may be substituted. Student teaching is never transferable.

Student teaching for the credential is a full-time assignment for one quarter each of ESPE 620C (concurrent with no more than two required credential courses) and ESPE 621C (concurrent with no more than the final two required credential courses). No concurrent course work should be taken beyond the required Preliminary Education Specialist credential courses in Early Childhood Special Education without permission of the program director. Students who fail to complete any required credential program coursework or ESPE 620C or ESPE 621C will be denied continuation in the program.

**Recommendation for the Credential**

In addition to the program admission requirements and successful completion of required credential coursework and student teaching, the candidate must successfully complete the following requirements in order to be recommended for the Preliminary Education Specialist Credential in Early Childhood Special Education:

1. Completion of the upper-division writing requirement by ONE of the following:
   a. Completion, with a grade of "B" (3.0) or better, of an equivalent advanced expository writing course at another college or university;
   b. A passing score on the written portion of the CBEST,
   c. Satisfactory completion of the Writing Requirement Examination (WREE) offered at this university;
   d. A passing score on the written portion of the CBEST. **Note:** CBEST exam does not meet the graduate writing requirement for the Master of Arts degree;

2. Completion of the U.S. Constitution requirement by one of the following:
<table>

Preliminary Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (44-52 units)

The Preliminary Education Specialist Program has been developed in compliance with the changes required by the Commission on Teacher Credentialing (CTC). Candidates will be admitted to this program beginning in the Winter quarter 2011. According to the CTC, candidates completing the Preliminary Education Specialist credential in Mild to Moderate Disabilities are authorized to conduct assessments, provide instruction, and special education related services to individuals with a primary disability of specific learning disabilities, mild to moderate mental retardation, other health impairment, emotional disturbance, and autism spectrum disorders in kindergarten, grades 1 through 12, and classes organized for adults. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Admission to the Program

Applicants must apply to CSUSB Graduate Admissions in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Preliminary Education Specialist Credential Program in Mild/Moderate Disabilities. Applicants must meet BOTH the general requirements of the university for postbaccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the Admissions staff in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Original written verification of passing score on the California Basic Educational Skills Test (CBEST);
3. Original written verification of a passing score on the CSET examination or appropriate subject matter competency;
4. Two written recommendations by persons who can address scholastic performance and suitability for teaching (recommendation forms are available in the Special Education Credential Program Admission Booklet);
5. A written personal narrative to be reviewed and approved by the Special Education Program Director;
6. Verification of a negative tuberculin examination within the last four years;
7. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
8. Documentation of 45 hours of experience in K-12 classrooms;
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
10. Verification of attendance at a Special Education Information Session;
11. Satisfactory completion of prerequisite courses with a grade of "B-" or better:

- ESPE 530 Introduction to Special Education 4
- ESPE 531 Methods and Procedures in Special Education 4
- ONE of the following with a grade of "B-" or better: 4-6
  - EELB 301 Growth and Development in Socio-Educational Contexts
  - HD 240 Introduction to Child Development

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Admission to Supervised Student Teaching

One quarter in advance of the time candidates intend to enroll in supervised student teaching (ESPE 620 and ESPE 621), they must submit an application for supervision. This application is due by Friday of the third week of the quarter prior to enrolling in supervised student teaching (no applications are accepted in the summer).

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form submitted to the College of Education Student Services Supervision desk;
2. Verification of an approved Coursework Plan including documentation of approved course substitutions;
3. Verification of complete PAF with official written verification that the applicant has passed the California Basic Educational Skills Test (CBEST) and subject matter competency;
4. Satisfactory completion of program prerequisites and credential coursework (ESPE 610, ESPE 611, ESPE 612, ESPE 613, and ESPE 514) with a grade point average of 3.0 ("B") and no course grade lower than "B-";
5. Verification of a negative tuberculin examination within the last four years.

All coursework taken at another college and substituted for credential program requirements is subject to approval by the director of the Special Education Program. No more than 12 units of the credential program may be substituted. Student teaching is never transferable.

Student teaching for the credential is a full-time assignment for one quarter each of ESPE 620A (concurrent with no more than two required credential courses) and ESPE 621A (concurrent with no more than the final two required credential courses). No concurrent course work should be taken beyond the required Preliminary Education Specialist credential courses in mild/moderate disabilities without permission of the program director. Students who fail to complete any required credential program coursework or ESPE 620A or ESPE 621A will be denied continuation in the program.

Recommendation for the Credential

In addition to the program admission requirements and successful completion of required credential coursework and student teaching, the candidate must successfully complete the following requirements in order to be recommended for the Preliminary Education Specialist Credential in Mild/Moderate Disabilities:

1. Completion of the upper-division writing requirement by one of the following:
   a. Completion, with a grade of "B" (3.0) or better, in an expository writing course (306) taken at this university;
   b. Completion, with a grade of "B" (3.0) or better, of an equivalent advanced expository writing course at another college or university;
   c. Satisfactory completion of the Writing Requirement Exemption Examination (WREE) offered at this university;
   d. A passing score on the written portion of the CBEST;  
      Note: CBEST exam does not meet the graduate writing requirement for the Master of Arts degree;
2. Completion of the U.S. Constitution requirement by one of the following:
   HIST 146 American Civilization 4
   HIST 200 United States History to 1877 4
   HIST 540 Constitutional History of the United States 4
   PSCI 203 American Government 4
   PSCI 410 American Constitutional Law 4
   PSCI 411 The Bill of Rights 4
   Successful completion of an examination administered through the College of Extended Learning;
   Approved U.S. Constitution course substitution from another university;
3. Verification of passing status and scores on the California Basic Educational Skills Test (CBEST);
4. Verification of a passing score on the RICA (Reading Instruction Competence Assessment);
   Note: Holders of a valid California teaching credential based on a baccalaureate degree and completion of a teacher education program including student teaching, will be exempt from RICA. Call the Credentials Office, (909) 537-5609, for further information.
5. A grade point average of 3.0 ("B") in professional education coursework, with no course grade lower than "B-"; no candidate may be recommended for the credential who has received a grade lower than "B-" in professional education coursework including prerequisites; in the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement.

Preliminary Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (44-52 units)
The Preliminary Education Specialist Program has been developed in compliance with the changes required by the Commission on Teacher Credentialing (CTC). Candidates will be admitted to this program beginning in the Winter quarter 2011. According to the CTC, candidates completing the Preliminary Education Specialist credential in Moderate/Severe Disabilities are authorized to conduct assessments, provide instruction, and special education related services to individuals with a primary disability of autism, moderate/severe/profound mental retardation, deaf-blind, emotional disturbance, and multiple disabilities in kindergarten, grades 1 through 12 to age 22, and classes organized for adults. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Admission to the Program

Applicants must apply to CSUSB via CSUMentor in addition to submitting a complete Program Admission File (PAF) to be considered for admission to the Preliminary Education Specialist Credential Program in Moderate/Severe Disabilities. Applicants must meet BOTH the general requirements of the University for Postbaccalaureate Admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Program website (http://www.csusb.edu/coe/programs/special_ed) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their PAF. Applicants must submit a PAF to the Admissions staff in the College of Education Student Services according to the deadlines published for the quarter of admission. Admission to the program is based on the following requirements included in the PAF:

1. Completion of an application form;
2. Original written verification of passing score on the California Basic Educational Skills Test (CBEST);
3. Original written verification of a passing score on the CSET examination or appropriate subject matter competency;
4. Two written recommendations by persons who can address scholastic performance and suitability for teaching (recommendation forms are available in the Special Education Credential Program Admission Booklet);
5. A written personal narrative to be reviewed and approved by the Special Education Program Director;
6. Verification of a negative tuberculin examination within the last four years;
7. Academic achievement, verified through official transcripts from ALL institutions of higher education attended; applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted
8. Documentation of 45 hours of experience in K-12 classrooms;
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
10. Verification of attendance at a Special Education Information Session;
11. Satisfactory completion of prerequisite courses with a grade of "B" or better:

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Admission to Supervised Student Teaching

One quarter in advance of the time candidates intend to enroll in supervised student teaching (ESPE 620 and ESPE 621), they must submit an application for supervision. This application is due by Friday of the third week of the quarter prior to enrolling in supervised student teaching (no applications are accepted in the summer).

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form submitted to the College of Education Student Services Supervision desk;
2. Verification of an approved Coursework Plan including documentation of approved course substitutions;
3. Verification of complete PAF with official written verification that the applicant has passed the California Basic Educational Skills Test (CBEST) and subject matter competency;
4. Satisfactory completion of program prerequisites and credential coursework (ESPE 610, ESPE 611, ESPE 612, ESPE 613 and ESPE 514) with a grade point average of 3.0 ("B") and no course grade lower than "B-;"
5. Verification of a negative tuberculin examination within the last four years.

All coursework taken at another college and substituted for credential program requirements is subject to approval by the director of the Special Education Program. No more than 12 units of the credential program may be substituted. Student teaching is never transferable.

Student teaching for the credential is a full-time assignment for one quarter each of ESPE 620B (concurrent with no more than two required credential courses) and ESPE 621B (concurrent with no more than the final two required credential courses). No concurrent course work should be taken beyond the required Preliminary Education Specialist credential courses in Moderate/Severe Disabilities without permission of the program director. Students who fail to complete any required credential program coursework or ESPE 620B or ESPE 621B will be denied continuation in the program.

Recommendation for the Credential

In addition to the program admission requirements and successful completion of required credential coursework and student teaching, the candidate must successfully complete the following requirements in order to be recommended for the Preliminary Education Specialist Credential in Moderate/Severe Disabilities:
1. Completion of the upper-division writing requirement by one of the following:
   a. Completion, with a grade of "B" (3.0) or better, in an expository writing course (306) taken at this university;
   b. Completion, with a grade of "B" (3.0) or better, of an equivalent advanced expository writing course at another college or university;
   c. Satisfactory completion of the Writing Requirement Exemption Examination (WREE) offered at this university;
   d. A passing score on the written portion of the CBEST;
      Note: CBEST exam does not meet the graduate writing requirement for the Master of Arts degree;

2. Completion of the U.S. Constitution requirement by one of the following:
   HIST 146  American Civilization  4
   HIST 200  United States History to 1877  4
   HIST 540  Constitutional History of the United States  4
   PSCI 203  American Government  4
   PSCI 410  American Constitutional Law  4
   PSCI 411  The Bill of Rights  4
   Successful completion of an examination administered through the College of Extended Learning;
   Approved U.S. Constitution course substitution from another university;

3. Verification of passing status and scores on the California Basic Educational Skills Test (CBEST);

4. Verification of a passing score on the RICA (Reading Instruction Competence Assessment);
   Note: Holders of a valid California teaching credential based on a baccalaureate degree and completion of a teacher education program including student teaching, will be exempt from RICA. Call the Credentials Office, (909) 537-5609, for further information.

5. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than "B-"; no candidate may be recommended for the credential who has received a grade lower than "B-" in professional education course work including prerequisites; in the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement.

Professional Clear Level II Education Specialist Credential:

Moderate/Severe Disabilities with EL Authorization

Not offered in the 2017-18 Academic Year

Requirements (28-32 units)

Admission to the Program

The State of California requires students to enroll in the Professional Clear Level II Education Specialist Credential program within 120 working days of completion of the preliminary credential program requirements and issuance of the Preliminary Level II Education Specialist Credential. Within five years of issuance of the preliminary credential, students must complete the Level I Education Specialist Program requirements in order to obtain the Professional Clear Level II Education Specialist Credential.

Unconditional admission to the Professional Clear Level II Education Specialist Credential: Moderate/Severe Disabilities program requires the following:

1. Official admission to the university;
2. Submission of a valid Preliminary Level I Education Specialist Credential;
3. Application to ESPE 633. Applications are available in the Special Education Office, CE-102, (909) 537-7406.

Recommendation for the Credential

In addition to the program admission requirements and credential course work, the candidate must successfully complete the following requirements in order to be recommended for the Professional Clear Level II Education Specialist Credential:

1. One of the following to fulfill the health education requirement (with a grade of "C" or better):
   HSCI 332  Health Education in the Elementary School  4
   HSCI 540  School Health Programs and Practices  4
2. Verification of current and valid CPR certification for infants/adolescents/adults;
3. The following are required to fulfill the computer literacy requirement (with a grade of "B-" or better):
4. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than a "B-;"
5. Verification of a minimum of two years of successful full-time teaching experience while holding the Preliminary Level I Education Specialist Credential.

Level I Credential Courses (28-32 units)
Completion of the following courses with a grade point average of 3.0 ("B") or better and no grade lower than "B-":

- **EELB 640** The Education of K-12 English Language Learners 4
- **ESPE 633** Effective Communication with Professionals and Families 4
- **ESPE 649** Curriculum and Methods in Special Education: Secondary Transition and Career/Vocational Preparation 4
- **ESPE 656** Curriculum and Methods in Special Education: Core Subjects 4
- **ESPE 685** Advanced Behavior Management 4
- **ESPE 694** Special Education Leadership Evaluation and Outcomes II 4

**Pupil Personnel Services Credential: School Counseling**

Requirements (74 units)

The program for the Pupil Personnel Services Credential is designed to fulfill all the requirements for the State of California to counsel in grades K-12. This 74-unit credential program is designed for students who do not wish to enroll in the M.S. in Counseling and Guidance program that prepares students to apply for the LPCC license but who do wish to obtain a credential to practice as a school counselor.

**Admission to the Program**

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. Attend a Counseling and Guidance Program information meeting (call the Department of Special Education, Rehabilitation and Counseling for an information meeting schedule);
2. Submission of an Admissions Portfolio following criteria and guidelines provided at the orientation meeting. Portfolios will be evaluated according to the Counseling & Guidance Program portfolio rubric. Students will be notified as to the status of their application to enroll in ECLG 531. A completed portfolio contains:
   a. Application and current vitae/resume;
   b. Transcripts of all higher education coursework;
   c. Written Personal Statement;
   d. Three positive recommendations from persons having knowledge of applicant’s counseling potential (forms provided by program);
   e. Proof of successful completion of the California Basic Educational Skills Test (CBEST);
   f. Evidence of current negative TB skin test;
   g. Evidence of possession of a valid California teaching credential or a Certificate of Clearance for eligibility to participate in fieldwork;
   h. Completion of EDUC 306 (or its equivalent) with a grade of “B” or better (fulfills the graduate entrance writing requirement);
   i. Evidence of technological literacy in six areas: word processing, database, computer presentation, downloading, internet and email;
3. Completion of ECLG 531 with a grade of “B” (3.0) or better.

Upon completion of the above requirements, the student’s file will be reviewed by an admission committee composed of at least three faculty members of the Counseling & Guidance program. This committee will evaluate the admission folder and decide on the student’s admission status. Students who do not meet admissions criteria will be notified of the reasons.

**Recommendation for the Credential**

In order to be recommended for a credential, the student must have:

1. A minimum of 74 quarter units of graduate-level work, with a minimum of 32 units completed in residency at this university;
2. A grade point average of “B” (3.0) in the course work taken to satisfy the credentialing requirements, including a minimum grade of “B” in ECLG 531, and no grade below a “C” (2.0) or better in all other courses in the program;
3. Completion of a credential program plan of study, certified by a program advisor and the credentialing office of the university;
4. Completion of a final competency check demonstrated by completion of the Student Outcome Assessment Professional Portfolio.

to ascertain how thoroughly previous graduate work complies with the
programs and universities will have transcripts individually evaluated
Counseling and Guidance degree will have already taken the common,
standard courses (46 units) as well as the school psychology
specialization standards courses (46 units). The sequence also includes a
1200-hour internship in a school setting.

Students who have graduated from CSU, San Bernardino with an M.S. in
Counseling and Guidance degree will have already taken the common,
standard coursework as part of their program. Candidates from other
programs and universities will have transcripts individually evaluated
to ascertain how thoroughly previous graduate work complies with the
common and generic standards which are required by the state for
certification. Previous course work will be substituted with appropriate
verification using transcripts and course catalog descriptions from the
college or university where this course work was completed. Students
admitted to the School Psychology Credential Program will design a two-
year schedule with their advisor to make up any course work needed to
comply with the common and generic standards for the Pupil Personnel
Services Credential as well as advanced coursework (46-unit sequence)
which meets the state standards for school psychology specialization.
Included in this sequence are 1200 hours of internship in a school setting
(K-12). Students must have evidence of completing 450 clock hours of
practica prior to beginning 1200 hours of internship. Supervision is
provided on site a minimum of two hours per week by a credentialed
school psychologist with at least three years of experience in the field.
The student is also supervised on the university site two hours per week
by a university faculty member during the internship. If a student intends
to obtain a paid internship in school psychology, they must apply for the
internship credential from the Credentials Office following the first year of study.

Admission to the Program
In addition to the general requirements of the university, specific
requirements for admission to the PPS in School Psychology are:
1. Admission and acceptance to CSU, San Bernardino;
2. Current vitae resume;
3. Current sealed transcript which verifies an M.A., M.S. or Ph.D. in
   Counseling or a related field;
4. Writing sample (include an APA-style graduate level paper which
   indicates the applicant's competency in writing);
5. Application and personal statement;
6. Two reference forms and letters of recommendation from
   persons having knowledge of the applicant's potential as a school
   psychologist, sent independently to the program director;
7. Proof of passing the California Basic Educational Skills Test (CBEST);
8. Evidence of possession of professional liability insurance (may be
   provided once accepted into program);
9. Evidence of possession of a valid California teaching credential, PPS
   in School Counseling, or a Certificate of Clearance for eligibility to
   participate in fieldwork;
10. Evidence of current negative TB skin test;
11. Evidence of technological literacy in six areas: word processing, database, computer presentation, downloading, internet, and email.

Upon completion of the above requirements, the student's file will
be reviewed by an admission committee composed of at least three
members of the educational counseling/school psychology faculty. This
committee will evaluate the admissions folder and decide on the student's
admission status. Students admitted to the program will meet with their
advisor and design their schedule for the two-year program, including any
work needed to complete the common and generic standards for the PPS
Credential. Students who are not chosen for the cohort will be notified of
the admission decision.

Recommendation for the Credential
In order to be recommended for a credential, a student must have:
1. Completed all prescribed coursework with a grade of "B" (3.0) or
   better;
2. Completed all requirements for the 1200-hour internship including the
   specific competencies in the program as mandated by the California
   Commission for Teacher Credentialing.

Pupil Personnel Services Credential: School Psychology

Requirements (92 units)
The School Psychology program at California State University, San
Bernardino provides professional preparation for the Pupil Personnel
Services Credential with Specialization in School Psychology. This
program is designed to meet the mandates for the Pupil Personnel
Services Credential in School Psychology (PPS) established by the
California Commission on Teacher Credentialing (CCTC). The program is
also designed to meet the national accreditation standards of the National
Association of School Psychologists (NASP) as adopted in 1984-1985
and revised in 2001.

The School Psychologist Credential program is a 46-quarter unit
sequence of training designed for professionals who already possess
a master’s or doctoral degree in Educational Counseling, Psychology,
Special Education, Education, Marriage/Family Therapy, and Social Work,
or are in the final stages of training for such a discipline (e.g. final year
of coursework, thesis to complete, etc.). Students must complete the
common, standard courses (46 units) as well as the school psychology
specialization standards courses (46 units). The sequence also includes a
1200-hour internship in a school setting.

Students who have graduated from CSU, San Bernardino with an M.S. in
Counseling and Guidance degree will have already taken the common,
standard coursework as part of their program. Candidates from other
programs and universities will have transcripts individually evaluated
to ascertain how thoroughly previous graduate work complies with the
common and generic standards which are required by the state for
certification. Previous course work will be substituted with appropriate
verification using transcripts and course catalog descriptions from the
college or university where this course work was completed. Students
admitted to the School Psychology Credential Program will design a two-
year schedule with their advisor to make up any course work needed to
comply with the common and generic standards for the Pupil Personnel
Services Credential as well as advanced coursework (46-unit sequence)
which meets the state standards for school psychology specialization.
Included in this sequence are 1200 hours of internship in a school setting
(K-12). Students must have evidence of completing 450 clock hours of

- Reading and Literacy (p. 311)

Basic Teaching Credential Programs

- Adapted Physical Education Added Authorization (p. 309)
- Multiple Subject (p. 329)
- Multiple Subject Bilingual, Crosscultural, Language and Academic Development (BCLAD) (p. 327)
- Multiple Subject Credential and Multiple Subject Credential with Bilingual Crosscultural, Language and Academic Development Emphasis (BCLAD) (Intern Track) (p. 331)
- Single Subject - Student Teaching Track (p. 335)
- Single Subject - Intern Track (p. 333)

Specialist and Services Credential Program

- Reading and Literacy Leadership Specialist Credential (p. 333)

Adapted Physical Education Added Authorization Credential

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student’s best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (20 units)

For information on the added authorization, contact the Credential Office, CE-102, (909) 537-7401.

Admission to the Program

In addition to meeting the general requirements of the university for admission as a postbaccalaureate student, admission to the Added Authorization in Adapted Physical Education program requires the following:

1. A valid California teaching credential authorizing the teaching of physical education.

Recommendation for the Added Authorization in Adapted Physical Education:

In addition to meeting the general requirements of the university for admission as a post baccalaureate student, admission to the Added Authorization in Adapted Physical Education requires one of the following:

1. A valid preliminary, clear, professional clear, or life California general education teaching credential based on a baccalaureate degree, and
a program of professional preparation including student teaching that
authorizes the teaching of physical education in any grades K-12;
2. A valid preliminary, professional clear, Level I, Level II, clear or life
special education teaching credential with completion of a minimum
of twelve semester units, or the equivalent quarter units, in physical
education content courses with a minimum of three semester
units, or the equivalent quarter units, in both kinesiology and motor
development.

Requirements (20 units)

KINE 311 Introduction to Adapted Physical Education 4
KINE 330 Movement Skill Assessment for Individuals with Disabilities 4
KINE 332 The Nature and Issues Concerning Individuals with Disabilities 4
KINE 333 Applied Behavior Management 4
KINE 334 Seminar in Adapted Physical Activity 4

Total Units 20

Certificate in Education

Requirements (24 units)

Certificates may be earned by regularly matriculated or extended learning
students and denote successful completion of a prescribed program of study designed to:
1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

A minimum of twelve units of coursework for this certificate must be completed at CSUSB. Substitution of courses may occur only after application to the program coordinator.

Certificate in Reading and Literacy

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Program

In addition to meeting the general requirements of the university for admission as a postbaccalaureate student, admission to the reading certificate requires the following:

1. A valid California teaching credential with an English learner authorization; or a clear, full-time designated subjects teaching credential with an English learner authorization, and at least one year of full-time teaching experience;
2. A 3.0 grade point average in all course work taken in education;
3. Application packet (obtained from the Department of Language, Literacy and Culture or the College of Education Master's Program Office) which includes information to complete:
   a. Program application;
   b. Letter of interest which includes experiences working with diverse populations;
   c. Three letters of recommendation: one from the candidate's school principal, and two from other district professionals who can speak to the strengths of the applicant's personal qualities and professional qualifications;
4. Upon completing the application packet, meet with the Reading and Literacy Coordinator to complete the program plan.

Recommendation for the Certificate

In order to be recommended for the certificate, the candidate must have:

1. Completed all of the prescribed course work with a grade point average of 3.0 (“B”) or better;
2. Verified that all California Commission on Teacher Credentialing Standards have been met;
3. Verified at least three years of successful full-time teaching experience in any grades, preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency credential or permit;
4. Obtain a letter of recommendation from the coordinator of the program.

Master of Arts In Education - STEM Education Option

Master of Arts in Education

The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in
subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning. The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development. The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning. The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate's content knowledge in science. The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (48 units)

Program Code: ESTM

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A valid California Teaching Credential or related teaching experience;
2. A cumulative grade point average of 3.0 ("B") in all courses taken in education, science and mathematics;
3. Completion of the graduate entrance writing requirement;

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Change to classified standing can be made only with approval of the Department of Teacher Education and Foundations.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed, with a grade point average of 3.0 ("B"), 16 quarter units of course work, at least 12 of which must have been on this campus and approved by an advisor in the College of Education;
3. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with a program advisor from the Department of Teacher Education and Foundations.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate level work, with at least 34 completed in residence at this university, and 34 of the 48 units be taken at the 500- to 600-level;
2. Completion of 44 units of required core courses;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of A or B below:

   Group A: Masters Degree Thesis/Project Option
   - ESTM 699  STEM Education: Master's Thesis/Project  4
   Group B: Comprehensive Examination Option
   - ESTM 634  Research in STEM Education  4
   - ESTM 999  STEM Education: Comprehensive Examination  0

Culminating Experience (4)

Students must complete one of the following tracks: 4

Master's Thesis/Project Option:
- EDSC 699  Masters Degree Project

Comprehensive Examination Option:
Master of Arts in Education -
Bilingual/Cross-Cultural Option
Not offered in the 2017-18 Academic Year

Master of Arts in Education
The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to provide advanced and specialized education to personnel working in a variety of settings related to technology-related education and offers world-wide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (48 units)

Admission to the Program
In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A valid teaching credential, teaching experience, or departmental approval;
2. A grade point average of at least 2.5 in the last 90 quarter units and a 3.0 (“B”) in all bilingual/crosscultural courses;
3. Demonstrated proficiency in Spanish;
4. Completed the graduate entrance writing requirement.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 20 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy
In order to be formally advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed, with a grade point average of 3.0 (“B”), 16 quarter units of course work, at least 12 of which must have been on this campus and approved by an advisor in the College of Education;
3. Filed an approved graduate program for completion of the degree.

Note: Between the time of completing 15 units and 23 units of applicable course work the student is required to apply for advancement to candidacy.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate-level work, with a minimum of 34 units completed in residence at this university;
2. A minimum of 23 quarter units taken after the student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 (“B”) in course work taken to satisfy the Master of Arts degree requirements, and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of EDUC 600 Masters Degree, which also satisfies the graduation writing requirement;
5. A minimum of 26 units in courses numbered 600 or above included as part of the approved program;
6. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

A satisfactory project is one which can be reported in the form of a paper and/or through other media. The project proposal and the project must be approved by the student’s advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project.

Students must register for EDUC 600 and these units must be part of the required 48 units.

Students will be encouraged to present projects in a variety of media. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to the traditional forms. All projects will be planned in consultation with the student’s advisor.

The program may not include more than 14 quarter units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

---

**Master of Arts in Education - Curriculum and Instruction Option**

**Not offered in the 2017-18 Academic Year**

**Master of Arts in Education**

The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate’s content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will
provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (46 units)

Program Code: CURR

Admission to the Program

In addition to the general requirements of the university specific requirements for admission to classified graduate status are:

1. A valid teaching credential or one year of teaching experience;
2. A baccalaureate degree from an accredited college or university with a minimum undergraduate grade point average of at least 3.0 overall and 3.0 in the major;
3. Completion of the graduate entrance writing requirement;
4. Three letters of recommendation, one from the school where the candidate has most recently taught or is currently teaching, to be evaluated by faculty members in the program;
5. A typewritten statement of purpose of no more than 150 words including the applicant's personal goals for the graduate education program.

No more than 20 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed with a grade point average of 3.0 ("B"), at least 16 quarter units of applicable course work in graduate standing, at least 12 of which have been taken at this campus and approved by an advisor in the College of Education;
3. Satisfactorily completed EDUC 603 and EDUC 605;
4. Secured approval of candidacy from the College of Education;
5. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor in the College of Education.

Requirements for Graduation

1. A minimum of 46 quarter units of acceptable graduate-level work, with a minimum of 33 completed in residence at this university;
2. A minimum of 23 quarter units taken after the student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Comprehensive Examination (2 units)
   EDCI 663 Comprehensive Evaluation in Curriculum and Instruction  2
   EDCI 999 Comprehensive Examination  0

The written comprehensive examination is designed to test the student's knowledge in the field of curriculum and instruction. The examination will be given in the fall and spring quarters. Students may take the examination twice. Students who choose the comprehensive option and Curriculum and Instruction Emphasis must enroll in 12 units in the electives category with approval of an advisor. Students who choose the Gifted and Talented Education Emphasis must complete EDCI 663 and EDCI 999, and will not enroll in any elective courses;
5. The graduation writing requirement is met upon successful completion of the Comprehensive Examination;
6. A minimum of 26 units in courses numbered 600 or above included as part of the approved graduate program;
7. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

The program may not include more than 13 quarter units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Degree Requirements (46 units)

Core courses (12)
EDUC 603 Effective Communication in Education  4
EDUC 605 Foundations of Education  4
EDUC 607 Introduction to Educational Research  4

Curriculum and Instruction Core (12)
EDCI 620 School Curriculum  4
EDCI 624 Advanced Teaching Methodology  4
EDCI 628 Educational Assessment in K-12 Schools  4

Emphasis Area (12)
Twelve units chosen from:
EDCI 540 Differentiated Curriculum and InstructionCreativity, Thinking and Problem Solving  4
EDCI 633 History of Education in the United States  4
EDCI 634 Contemporary Issues in Social Studies  4
EDCI 640 Content Standards in Curriculum, Instruction and Assessment  4
EDCI 645 Academic Language Development Strategies K-12  4
ERDG 649 Assessment and Intervention in PreK-12 Literacy  4

Electives (8)
Students may select from the following list or consult with their advisor for additional elective possibilities. (Courses previously taken to complete a Bachelor's degree may not be selected.)
EADM 619 Policy, Governance and Legal Aspects of Education  8
EDCI 633 History of Education in the United States  8
EELB 532 Science/Health Curriculum and Pedagogy  8
The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (48 units)

This is an innovative program for creative educators interested in entering a dialog with a cohort of master's students and a team of professors to explore ways to develop and implement innovative and meaningful curriculum. The major objective is to help each teacher become clearer about their vision of education and how to implement that vision in their classroom and professional life. The program has been recognized nationally for its transformative approach to the education process.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified status are:

1. Official admission to the university;
2. Application for admission to the College of Education for the M.A. in Education, Holistic and Integrative Education Option;
3. Completion of the graduate entrance writing requirement;
4. Completion of an interview with the program coordinator.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Change to classified standing can be made only with approval of the program coordinator.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:
1. Achieved classified standing;
2. Completed at least 16 quarter units of acceptable course work at this university, with the approval of the program coordinator and with a minimum grade point average of 3.0 ("B") or better;
3. Filed an approved graduate program for completion of the degree.
   This must be prepared in consultation with the program coordinator.

Requirements for Graduation
1. A minimum of 48 quarter units of acceptable work, with a minimum of 35 units completed at this university;
2. Successful completion of the six required program courses;
3. Successful completion of a M.A. project/thesis or comprehensive examination.
4. Any additional general requirements not cited above and listed on Page 368.

A satisfactory project is one which must be reported in the form of a paper. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to traditional forms. The project proposal and the project must be approved by the student's advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project.

Master of Arts in Education - Kinesiology Option

Master of Arts in Education
The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate's content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.
The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (46 units)

Program Code: EKIN

The M.A. in Education with an option in Kinesiology is designed for people with an undergraduate degree in kinesiology with a specialization in pedagogy or a closely related field, such as physical education, who have professional teaching experience in a public school or associated community agency setting. Includes preparing professionals in effective teaching behaviors, curriculum theory, and leadership skills necessary to lead school districts and community agencies in the development, implementation and evaluation of model pedagogical kinesiology programs for children, teens and young adults as well as the coordination of health-related physical education programs in public school settings and advocacy for a life-long physical activity across the life-span.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A valid teaching credential, teaching experience or related experience;
2. An undergraduate major in kinesiology and physical education or related discipline;
3. Completion of the graduate entrance writing requirement;
4. Three letters of recommendation, to be evaluated by faculty members in the program. Students who do not meet these criteria may be admitted as conditionally classified graduate students. Change to classified standing can be made only with approval of the College of Education and the Department of Kinesiology. No more than 20 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed at least 16 quarter units of acceptable course work at this university, with the approval of the advisors and with a minimum grade point average of 3.0 ("B"). At least eight units must be in kinesiology, and four units in education;
   **Note:** Between the time of completing 15 units and 23 units of applicable course work the student is required to apply for advancement to candidacy.
3. Satisfactorily completed EDUC 605 and EDUC 607;
4. Secured the approval of candidacy from the College of Education and the Department of Kinesiology;
5. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with advisors in the College of Education and in the Department of Kinesiology and approved by the college, the department and the Dean of Graduate Studies.

Each student will have an advisor from the College of Education and one from the Department of Kinesiology. Dual signatures are necessary for registration for the initial quarter.

Requirements for Graduation

1. A minimum of 46 quarter units of acceptable graduate-level work, with 33 completed in residence at this university;
2. At least 23 quarter units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Six specified courses in education and seven courses in kinesiology;
5. Successful completion of the following:
   EDUC 600 Masters Degree (4 s.h.)
   A satisfactory project is one which can be reported in the form of a paper and/or through other media. Students will be encouraged to present projects in a variety of media. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to traditional forms. All projects will be planned in consultation with the Graduate Coordinator in the Department of Kinesiology. The project proposal and the project must be approved by the Graduate Coordinator in the Department of Kinesiology and submitted in an approved format.

The program may not include more than 13 quarter units in extension and transfer credit from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Master of Arts in Education - Reading and Literacy Option

Master of Arts in Education

The M.A. in education with an option in bilingual/crosscultural education is designed to give advanced training to personnel involved in bilingual programs in grades K-12. The program should also meet the needs of community college personnel who are involved in the training of classroom aides and other paraprofessionals.

The M.A. in education with an option in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to vocational education such as secondary, postsecondary and private schools. The program should also meet the requirements for leadership positions in these facilities.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other education related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate’s content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

Requirements (48 units)

Program Code: ERDL

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A valid basic California teaching credential or teaching experience;
2. A cumulative grade point average of 3.0 ("B") in all courses taken in education;
3. Completion of the graduate entrance writing requirement.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 16 quarter units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed with a grade point average of 3.0 ("B"), 12 quarter units of course work at least eight of which must have been on this campus and approved by an advisor in the College of Education;  
   Note: Between the time of completing 15 units and 23 units of applicable course work the student is required to apply for advancement to candidacy.
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree.

This must be prepared in consultation with an advisor in the College of Education and approved by the program coordinator.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable work, with 35 completed in residence at this university;
2. A minimum of 23 quarter units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Successful completion of Group A or B below:

   Group A:
   ERDG 999 Comprehensive Examination
   ERDG 656 Contemporary Issues in Literacy

   Group B:
   EDUC 600 Masters Degree
5. The graduation writing requirement is met upon successful completion of ERDG 647.
6. Any additional University requirements for a Master’s Degree Program.

A satisfactory Master’s Degree Project is one that is reported in the form of a paper and/or through other media. The project proposal and the project must be approved by the student’s advisor and one other professor in the College of Education and submitted in an approved format. Further information is available in the Graduate Thesis and Project Handbook available in the Coyote Bookstore. Students who elect to complete a project are not required to take a comprehensive examination.

Students will be encouraged to present projects in a variety of media. The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors; therefore, students should not feel bound to the traditional forms. All projects will be planned in consultation with the student's advisor.

The comprehensive examination is of an integrative nature and is designed to test the student's knowledge of the field of reading/language arts rather than the subject matter of courses taken. The examination in reading/language arts is offered once each quarter. The student may enroll in the examination no earlier than the last quarter in which course work is taken. The student must have advanced to candidacy and completed a graduation check with the Office of Records, Registration and Evaluations before permission to take the examination can be granted. Students who do not receive a passing score may petition the College of Education to retake the examination or any part of it. Students who do not receive a passing score the second time must petition the Dean of Graduate Studies to take it again. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

The program may not include more than 13 quarter units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider transfer credit course work from any institution which that does not accept that work in its own advanced degree program.

The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.

**Requirements (48 units)**

**Program Code: EESL**

**Admission to the Program**

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A cumulative grade point average of 3.0 ("B");
2. Completion of the Writing Requirement for Graduate Classification (WRGC);
3. EESL 521;
4. A maximum of 14 quarter units or equivalent semester units may be transferred from other colleges and universities.

**Advancement to Candidacy**

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Satisfactorily completed EDUC 603, EDUC 605 and EDUC 607;
   **Note:** Between the time of completing 12 units and 19 units of applicable course work the student is required to apply for advancement to candidacy.
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree.
   This must be prepared in consultation with an advisor and approved by the Dean of the College of Education;
5. Native speakers of English must have two semesters or three quarters of study in one or more foreign languages at the post secondary level. Non-native speakers of English must have two semesters or three quarters of study in one or more foreign languages (not English) at the post secondary level or take COMM 120.

**Requirements for Graduation**

1. A minimum of 48 quarter units of acceptable graduate-level work, with a minimum of 34 units completed in residence at this university;
2. A grade point average of 3.0 ("B") in all course work taken to satisfy the Master of Arts degree requirements, and grades of "C" (2.0) or better in all courses in the program;
3. Successful completion of one of the following:
   a. EDUC 600
      The Master's Project is designed for those wishing to perform research leading to potential doctoral study. A score of 5/6 on the Analytic Writing portion of the Graduate Record Examination is a prerequisite, plus recommendation from the instructor of EESL 685. Permission to write a project must be granted by the student's advisor and one other professor in the College of Education and submitted in the approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project.
   OR
   b. Written comprehensive exam.
      The written comprehensive examination is designed to test the student's knowledge of the field of ESL/EFL instruction. The examination is offered once each quarter and during the summer session. The student may enroll in the examination no earlier than the last quarter in which course work is taken. The student may take the examination (or any part of it) three times. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.
4. The graduation writing requirement is met upon successful completion of 4A or 4B above;
5. Completion of the Candidate Assessment Portfolio. Details of the Candidate Assessment Portfolio approval process are outlined in the program information materials. The Portfolio must be completed prior to enrollment in EDUC 600 or EESL 999.

The program may not include more than 14 quarter units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

**Note:** Enrollment in any course in the program is subject to approval of the program coordinator.

The M.A. in education with an option in curriculum and instruction is designed for both elementary and secondary teachers. The program provides opportunities for teachers to gain expertise and knowledge in subject matter content and pedagogy or to teach gifted and talented students.

The M.A. in education with an option in environmental education is designed to prepare individuals to teach environmental education effectively in indoor and outdoor settings and to all grade/age levels and enables graduates to assume leadership in environmental education in schools, nature centers, and other interpretative situations. Admission to the program requires teaching experience, but not a teaching credential.

The M.A. in education with an option in holistic and integrative education is a program for creative educators in a nontraditional format emphasizing educational innovation, integrative learning, and meaning-centered learning.

The M.A. in education with an option in instructional technology is designed to meet the needs of technology professionals in schools and other related settings, as well as business settings. The program has two emphases: research and design/development.

The M.A. in education with an option in reading/language arts meets the needs of the candidate who is interested in increasing skills in the effective teaching of reading/language arts. The program is competency based and places emphasis on the models and methods that enhance the strategic processing of language arts.

The M.A. in education with an option in teacher leadership has been developed in collaboration with Academic Partnerships, an entity that has a proven track record of marketing innovative online education programs with established institutions of higher learning.

The M.A. in education with an option in science education meets the needs of the candidate who is interested in developing her/his pedagogical content knowledge in the teaching and learning of science and develop his/her background to become a science education leader in their school, district, or region. The program also provides the opportunity to increase the candidate's content knowledge in science.

The M.A. in education with an option in special education will provide advanced preparation for teaching individuals with disabilities, and will provide training for those persons interested in administrative positions or leadership positions in special education.

The M.A. in education with an option in teaching English to speakers of other languages prepares educators to meet the needs of English language learners in K-12 classrooms in the United States and abroad. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in ESL teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social cultural influences on language learning, and strengthen the mastery of classroom techniques.
Requirements (48 units)

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified status follow:

1. A valid teaching credential or teaching experience;
2. A cumulative grade point average of 3.0 ("B") in all courses taken in education;
3. Completion of the graduate entrance writing requirement;
4. Three letters of recommendation, one from the school where the candidate has most recently taught or is currently teaching, to be evaluated by faculty members in the program.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. No more than 20 quarter units may be used to demonstrate fitness to complete the program (to move from conditional to classified status).

Advancement to Candidacy

In order to be advanced to candidacy a student must have the following:

1. Achieved classified standing;
2. Completed with a grade point average of 3.0 ("B"), at least 16 quarter units of applicable course work in graduate standing, at least 12 of which have been taken at this campus and approved by an advisor in the College of Education;
3. Satisfactorily completed EDCA 614 and EDUC 603;
4. Secured approval of candidacy from the College of Education;
5. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor in the College of Education and approved by the program coordinator.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate level work, with a minimum of 35 completed in residence at this university;
2. A minimum of 23 units taken after the student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. The graduation writing requirement is met upon successful completion of the Master's Degree Thesis/Project;
5. Successful completion of one of the following two tracks:

   Track A. Master's Thesis/Project (8)

   - EDUC 600. Master's Degree Project

The purpose of the thesis/project is twofold. First, it demonstrates that the student has adopted a research agenda consistent with the needs of both the professional community and the researcher or scholar. Second, it demonstrates willingness and ability to direct one's effort to completion of a salient initiative. A satisfactory thesis/project is one which reflects original works and shows a level of competence appropriate for a master's degree. A thesis/project can be reported in the form of a paper and/or through other media. Students who plan to go on to doctoral studies are encouraged to discuss the thesis/project option with their advisor. A thesis/project will be planned in consultation with the student's advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding the approved format. Students who choose the thesis/project option must enroll in four units in the elective category with approval of an advisor.

   - The graduation writing requirement is met upon successful completion of EDUC 600 or EDCA 999.

A minimum of 26 units in courses numbered 600 or above must be included in the graduate program. The program may not include more than 13 quarter units in approved extension and transfer courses from other colleges or universities. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program. Any additional general requirements not cited above are listed in Graduate Degree and Program Requirements (p. 61).

Electives (12)

Twelve units in the student's area of specialization, chosen in consultation with advisor.

Culminating Experience (8)

Student must take one of the following two tracks:

- Track A. Master's Thesis/Project option

  - EDUC 600. Masters Degree 4

  Four units of electives chosen from the list below:
  - EDCA 628. Special Education in Correctional Institutions 4
  - EDCA 630. Alternative and Correctional Education
  - EDCA 632. Career and Vocational Education in Correctional Institutions
  - EDCA 634. Correctional Education Leadership
  - EDCA 636. Pedagogy and Andragogy in Correctional Institutions

Total Units 48
In order to be advanced to candidacy a student must have the following:

Advancement to Candidacy

1. Achieved classified standing;
2. Satisfactorily completed 16 units in the program including ESTM 510, ESTM 511, ESTM 512 and ESTM 680, with a grade of "B" or better in each course;
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree.
This must be prepared in consultation with an advisor in the College of Education and approved by the program coordinator;
5. Satisfaction of the graduate entrance writing requirement.

Requirements for Graduation

1. A minimum of 48 quarter units of acceptable graduate level work, with a minimum of 36 completed in this program;
2. A minimum of 24 units taken after the student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. The graduation writing requirement is met upon successful completion of the Master’s Degree Project or Thesis, ESTM 699, or the Comprehensive Examination ESTM 999;
5. Successful completion of one of the following three tracks.

Thesis Preparation, Presentation and Examination

The purpose of the thesis is twofold. First, it demonstrates that the student has articulated a Science, Technology, Engineering, and Mathematics Education design and development of research agenda consistent with the needs of both the professional community and the researcher or scholar. Second, it demonstrates willingness and ability to direct one's effort to completion of an appropriate culminating experience.

The student must conduct a research study, and from these efforts, write a thesis acceptable to the student's thesis committee and the Dean of Graduate Studies. The student's thesis committee shall be chaired by the major advisor and two other faculty members who are chosen by the student upon consultation with the major advisor and the graduate coordinator. One faculty member on a committee may come from another college in the university. The thesis topic and major advisor must be included on the program of graduate study submitted with the application to candidacy, although this may be amended. The student shall enroll in ESTM 699 and the students, who do not complete the thesis in the quarter they registered, must be in continuous enrollment until the completion of their thesis. The student, upon completion of the thesis, must give a public presentation of the research at ESTM 681. The student is given a maximum of five years from the time the student was advanced to candidacy to finish the degree.

EDM 690     STEM Education: Advanced Research
EDM 699     STEM Education: Master's Thesis/Project

A satisfactory thesis is one which reflects original works and shows a level of competence appropriate for a master's degree. A thesis is reported in the form of a paper. A thesis will be planned in consultation with the student's thesis committee and submitted in an approved format. Students must successfully complete EDM 690. Further information is available from the Graduate Studies Office regarding the approved format.

Project Preparation, Presentation and Examination

The purpose of the project is twofold. First, it demonstrates that the student has articulated a Science, Technology, Engineering, and Mathematics Education design and development or research agenda consistent with the needs of both the professional community and the researcher or scholar. Second, it demonstrates willingness and ability to direct one's effort to completion of an appropriate culminating experience.
The student must implement and complete a project acceptable to the student's project committee and the Dean of Graduate Studies. The student's project committee shall be chaired by the major advisor and two other faculty members who are chosen by the student after consultation with the major advisor and the graduate coordinator. One faculty member on a committee may come from another college in the university. The project topic and major advisor must be included on the program of graduate study submitted with the application to candidacy, although this may be amended. The student shall enroll in ESTM 699 and the students, who do not complete the project in the quarter they registered, must be in continuous enrollment until the completion of their project. The student, upon completion of the project, must give a public presentation of the research at ESTM 681. The student is given a maximum of five years from the time the student was advanced to candidacy to finish the degree.

**Comprehensive Written Examination**

The written comprehensive examination is designed to test the student's ability to integrate the knowledge of the field of Science, Technology, Engineering, and Mathematics Education, to show critical and independent thinking, and to demonstrate mastery of the subject matter. Students may take the examination twice. Students who choose the comprehensive examination option must successfully complete eight units in the electives category with approval of an advisor. The student shall enroll in ESTM 999 after consultation with the graduate coordinator and during their last quarter for completion of the degree.

NSCI 604  The Nature and History of Science 4

Minor in Education
Requirements (24 units)
The minor in Education addresses the academic study of education in a social and cultural context. The minor is open to students in any major and is intended to be of value to students interested in becoming teachers or pursuing graduate study in Education but also for students interested in social policy issues in general. It does not focus on methods of teaching, which are addressed in post-baccalaureate credential programs in the College of Education.

Requirements for a minor in Education

Lower division requirement (4)
EDUC 250  Democracy and Education 4

Upper division requirements (20)
Twenty units chosen from:
EDUC 310  Education and Contemporary Culture
EDUC 320  Diversity in Education
EDUC 330  Education and Special Populations
EDUC 340  Social Class, Poverty, and Education
EDUC 350  History of Schooling
EDUC 360  Education for Peace and Nonviolence
Total Units 24

Minor in Gender and Sexuality Studies
Requirements (28 units)
Requirements for a minor in Gender and Sexuality Studies

Eight units chosen from:

- GSS 100 Introduction to Women's Studies
- GSS 101 Introduction to Masculinity Studies
- GSS 103 Introduction to Lesbian, Gay, Bisexual, and Transgender Studies

Sixteen units chosen from:

- ANTH 333 Sex and Gender in Cross-Cultural Perspective
- ANTH 380 Gender and Language
- ART 305 Gender and Identity in the Visual Arts
- BIOL 314 Biology of Human Sexuality
- COMM 364 Topics in Human and Organizational Communication (when the topic is Gay/Lesbian Relationships)
- COMM 401 Gender, Race and Media
- COMM 411 Gender and Communication
- COMM 511 Feminist Contributions to Communication Theories
- COMM 550 Muslim Women in Media and Society
- CJUS 451 Women and Crime
- CJUS 462 Domestic Violence and the Criminal Justice System
- ECON 333 Political Economy of Women
- ENG 319 Studies in Literary Diversity (Gay Literature)
- ENG 319 Studies in Literary Diversity (Lesbian Literature)
- ENG 321 Studies in Language and Linguistics
- ENG 336 Women Writers
- or GSS 336 Women Writers
- FLAN 320 Masterpieces of Literature
- FREN 336 Francophone Women Writers
- GSS 100 Introduction to Women's Studies (if not taken in category above)
- GSS 101 Introduction to Masculinity Studies (if not taken in category above)
- GSS 103 Introduction to Lesbian, Gay, Bisexual, and Transgender Studies (if not taken in category above)
- GSS 300 Feminist Research Methods
- GSS 390 Topics in Gender and Sexuality Studies
- GSS 420 Feminist Theory
- GSS 425 Women as Agents of Social Change
- GSS 450 Queer Theory
- GSS 575B-D Internship in Gender and Sexuality Programs and Services (for a total of 4 units)
- GSS 595B-E Independent Study (for a total of 8 units)
- HSCI 310 Health and Human Sexuality
- HSCI 404 Womens Health Issues
- HSCI 405 Health Issues of Men
- HIST 344 Women in U.S. History, 1620-1865
- HIST 345 Women in U.S. History, 1865-Present
- PHIL 367 Gender and Philosophy
- PSCI 340 Sex and Politics
- PSYC 301 Psychology of Human Sexuality
- PSYC 331 The Psychology of Women
- PSYC 341 Women and Violence
- PSYC 349 The Psychology of Gays and Lesbians
- SOC 336 Black Women and Feminism
- SOC 444 Sociology of Gender
- SOC 590 Seminar in Sociology
- TA 466 Issues in Gay, Lesbian, Bisexual, and Transgender Theatre

Note: Special Topic courses: Students may receive credit toward an elective for special topic courses offered in other departments that take gender, gender identity, or sexual orientation as the main focus of the course. Contact the coordinator of the Gender and Sexuality Studies Program for permission.

Four units chosen from:

- HUM 325 Perspectives on Gender
- NSCI 325 Perspectives on Gender
- SSCI 325 Perspectives on Gender

Total Units 28

Multiple Subject Bilingual, Crosscultural, Language and Academic Development (BCLAD) Credential

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student’s best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (48 units)

Students must apply to the program via CSU Mentor (http://www.csumentor.edu). In preparation for admission to the basic credential program, students must attend an orientation session scheduled through the College of Education’s Watson Student Services Office. At this orientation, students will be assigned an education advisor and receive instructions for completing their Program Admission File (PAF). For admission to the program, students must have successfully completed the prerequisite courses and successfully completed or be currently enrolled in the pre/corequisite courses.

Admission to the Program

Students must submit a Program Admission File (PAF) to the Credentials Office, CE-102, at least one quarter prior to enrolling in credential courses. For unconditional admission to the program students must submit a completed Program Admissions File including, but not limited to:

1. Completion of application form for early fieldwork and supervised student teaching placement;
2. Written verification of a passing score on the CSET examination (credential must be completed within five years of passing the CSET examination);
3. Written verification of a passing score on the California Basic Educational Skills Test (CBEST);
4. Two written recommendations by persons who can address scholastic performance and suitability for teaching;
5. Present a written, personal narrative to the assigned education advisor, complete the teacher education interview and obtain signature of the advisor. The following criteria are used to assess the interview: oral and written English and Spanish language usage, professional aptitude, personality and character;
6. Verification of a negative tuberculin examination within the last two years;
7. Academic achievement, verified through transcripts:
   a. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
   b. Applicants must maintain a grade point average of 3.0 in professional education course work, with no course grade in this area lower than "B-.
      No candidate may be recommended for the credential who has received a grade lower than "C" (2.0) in any non-education course required for the credential, such as the prerequisite courses. In the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement.
   c. All course work taken at another college, or more than seven years ago, is subject to approval by the coordinator of the multiple subject program. No more than 14 units of the credential program may be transferred. Student teaching is never transferable.
8. Documentation of 45 hours of experience in K-12 classrooms;
   (Information about this requirement is available in the Handbook for the Multiple Subject Credential Programs.)
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
10. Completion of a community college or university computer course or an on-line technology skills assessment;
11. Satisfactory completion of prerequisite courses:
   a. ENG 311  The English Language  4
   b. EELB 301 Growth and Development in Socio-Educational Contexts  6
   c. HD 240 Introduction to Child Development
12. Satisfactory completion of or current enrollment in:
   a. HSCI 100 Concepts in Health  2
   b. ESPE 350 Introduction to Special Populations for General Education Teachers  4
   c. PSYC 350 Development of Exceptional Children

Admission to Supervised Student Teaching

One quarter in advance of the time students intend to enroll in student teaching (EELB 540A), they must submit an application for supervision. This application is due by Friday of the third week of the quarter prior to enrolling in supervised student teaching. (No applications are accepted in the summer quarter.)

Admission to supervised student teaching requires:

1. Completion of Phase I coursework (EELB 313, EELB 316, EELB 317 and EELB 422) with a grade point average of 3.0 (B) and no course grade lower than a B- and no non-education course grade lower than a C (2.0);
2. Satisfactory completion of HSCI 100 and either PSYC 350 or ESPE 350;
3. Verification of a negative tuberculin examination within the last two years;

Each applicant is reviewed in terms of all of the above criteria and conditions and must be at least of senior standing. Student teaching for the credential is a full-time assignment for one quarter each of EELB 540A (and EELB 423, EELB 425, EELB 532, EELB 520B and EELB 520C) and EELB 540B (and EELB 510, EELB 534, EELB 520A and EELB 520D).

Students who fail to complete any of the following courses will be denied continuation in the program. An appeal process is available. Consult the program coordinator for details.

**Credential Requirements (48 units)**

Completion of the following course work with a grade point average of 3.0 ("B") with no course grade lower than "B-."
Additional Requirements
Students must successfully complete:

**HUM 335** The Origin and Contemporary Role of Latino Culture (or written verification of passing CSET: Spanish Subtest V (258))

**SPAN 415** Comparative Linguistics: Spanish/English (or written verification for passing CSET: Spanish Subtest III (147))

One of the following to fulfill the United States Constitution requirement (or successful completion of an examination administered through the College of Extended Learning):

**HIST 146** American Civilization

**HIST 200** United States History to 1877

**HIST 540** Constitutional History of the United States

**PSCI 203** American Government

**PSCI 410** American Constitutional Law

**PSCI 411** The Bill of Rights

The Reading Instruction Competence Assessment (RICA) exam with a passing score:

One of the following to fulfill the professional pedagogy requirement:

**EELB 510** Culture and Schooling in Multiple Subject Setting

**EELB 534** Social Studies and the Arts (Primary Language) Curriculum and Pedagogy

**EELB 520A** Teaching Performance Assessment Seminar: Subject Specific Pedagogy Task 1

**EELB 520D** Teaching Performance Assessment Seminar: Culminating Teaching Experience Task 4

**EELB 540B** Supervised Student Teaching in Multiple Subject II

Total Units 48

**Multiple Subject Credential**

**Basic Teaching Credentials**

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

**Requirements (48 units)**

Students must apply to the program via CSU Mentor (http://www.csumentor.edu). In preparation for admission to the basic credential program, students must attend an orientation session scheduled through the Teacher Education Office, CE-102. At this orientation, students will be assigned an education advisor and receive instructions for completing their Program Admission Files (PAF). For admission to the program, students must have successfully completed the prerequisite courses and successfully completed or be currently enrolled in the pre/corequisite courses.

**Admission to the Program**

Students must submit a Program Admission File (PAF) to the Credentials Office, (CE-102) at least one quarter prior to enrolling in credential courses.

Students are advised to complete the required California Basic Educational Skills Test (CBEST). Students must provide verification of passing scores on this exam when they apply for admission to supervision.

Admission to the basic credential program as part of the PAF is based on the following criteria and conditions:

1. Completion of an application form;
2. Written verification of a passing score on the CSET examination (credential must be completed within five years of passing the CSET examination);
3. Two written recommendations by persons who can address scholastic performance and suitability for teaching;
4. Present a written, personal narrative to the assigned education advisor, complete the teacher education interview and obtain the signature of the advisor. The following criteria are used to assess the interview: oral and written English language usage, professional aptitude, personality and character;
5. Verification of a negative tuberculin examination within the last four years;
6. Academic achievement, verified through transcripts:
   a. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted,
   b. Applicants must maintain a grade point average of 3.0 in professional education course work, with no course grade in this area lower than "B-.
   No candidate may be recommended for the credential who has received a grade of lower than "C" (2.0) in any non-education professional course work, with no course grade in this area lower than "B-.

7. Documentation of 45 hours of experience in K-12 classrooms;
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
9. Completion of a community college or university computer course or an on-line technology skills assessment;
10. Written verification that the California Basic Educational Skills Test (CBEST) has been taken or passing score on CBEST;
11. Satisfactory completion of prerequisite courses:
Admission to Supervised Student Teaching

One quarter in advance of the time students intend to enroll in supervised student teaching (EELB 540A), they must submit an application for supervision. This application is due by Friday of the third week of the quarter prior to enrolling in supervised student teaching. (No applications are accepted in the summer quarter.)

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form;
2. Verification that the applicant has passed the California Basic Educational Skills Test (CBEST);
3. Satisfactory completion of HSCI 100 and either PSYC 350 or ESPE 350 and Phase I coursework (EELB 313, EELB 315, EELB 317, EELB 510 and EELB 520B) with a grade point average of 3.0 (“B”) and no course grade lower than “B-” and no non-education course grade lower than a “C” (2.0);
4. Verification of a negative tuberculin examination within the last four years;
5. Completion of the upper-division writing requirement at this university, or the equivalent graduation requirement at another accredited institution, or a passing score on the CSUSB Writing Requirement Exemption Evaluation (WREE), or a passing score on the written portion of the CBEST. (CBEST examination does not meet the graduate entrance writing requirement for the Master of Arts degree.)

All coursework taken at another college more than seven years ago, is subject to approval by the director of the Multiple Subject Program. No more than 14 units of the credential program may be transferred. Student teaching is never transferable.

Each applicant is reviewed in terms of all of the above criteria and conditions and must be at least of senior standing. Student teaching for the credential is a full-time assignment for one quarter each of EELB 520A and EELB 520B). No concurrent course work should be taken beyond the required elementary education courses without permission of the program director.

Students who fail to complete the following courses will be denied continuation in the program. An appeal process is available. Consult the program director for details.

Additional Requirements
Students must successfully complete:

1. One of the following to fulfill the United States Constitution requirement (or successful completion of an examination administered through the College of Extended Learning):
   - HIST 146 American Civilization 4
   - HIST 200 United States History to 1877 4
   - HIST 540 Constitutional History of the United States 4
   - PSCI 203 American Government 4
   - PSCI 410 American Constitutional Law 4
   - PSCI 411 The Bill of Rights 4

2. The Reading Instruction Competence Assessment (RICA) exam with a passing score;
3. The teacher performance assessment with a passing score.

Upon successfully completing the program and additional requirements above, candidates are eligible to apply for the preliminary credential.

Requirements for the Professional Clear Credential may be obtained from the employing school district.

Note: Students must consult the current information sheet for this credential in the Teacher Education Office, CE-102. In addition, students may be eligible for SB 57 Early Completion Internship Option. See information in the Teacher Education Office.

Multiple Subject Credential and Multiple Subject Credential with Bilingual Crosscultural, Language and Academic Development Emphasis (BCLAD) (Intern Track)

Basic Teaching Credentials
The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (60 units)

The multiple subject internship is an alternate track for those students who have been placed in an employment setting. Specific admission requirements must be met beyond those of the basic credential program and additional course work for students in this track is required.

Students must apply to the program via CSU Mentor (http://www.csumentor.edu). In preparation for admission to the basic credential program, students must attend an orientation session scheduled through the Teacher Education Office. At this orientation, students will be assigned an education advisor and receive instructions for completing their Program Admission File (PAF).

For admission to the program, students must have successfully completed the prerequisite courses and successfully completed or be currently enrolled in the pre/corequisite courses.

Admission to the Program
Students must submit a Program Admission File (PAF). The PAF is to be submitted to the Credentials Office, CE-102, at least one quarter prior to enrolling in program courses.

Admission to the intern track, as part of the PAF is based on the following criteria and conditions:

1. Completion of an application form;
2. Written verification of a passing score on the CSET examination (credential must be completed within five years of passing the CSET examination);
3. Three written recommendations by persons who can address the scholastic performance and suitability for teaching, at least one from the current employer;
4. Present a written, personal narrative to the assigned education advisor, complete the teacher education interview and obtain the signature of the advisor. The following criteria are used to assess the interview: oral and written English and Spanish language usage for the BCLAD interns, professional aptitude, personality and character;
5. Verification of a negative tuberculin examination within the last four years;
6. Academic achievement verified through transcripts:
   a. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
   b. Applicants must maintain a grade point average of 3.0 in professional education course work, with no course grade in this area lower than "B;"
   No candidate may be recommended for the credential who has received a grade of less than "C" (2.0) in any non-education course required for the credential, such as the prerequisite courses. In the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement;
7. Documentation of 45 hours of experience in K-12 classrooms such as instructional aide or substitute teacher; (Information about this requirement is available in the Handbook for the Multiple Subject Credential Programs.)
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
9. Completion of a community college or university computer course or an on-line technology skills assessment;
10. Written verification of a passing score on the California Basic Educational Skills Test (CBEST);
11. Completion of the upper-division writing requirement at the university or the equivalent graduation requirement at another accredited institution, or a passing score on the CSUSB Writing Requirement Exemption Evaluation (WREE), or a passing score on the written portion of the CBEST; (CBEST examination does not meet the graduate entrance writing requirement for the Master of Arts degree.)
12. One of the following to fulfill the United States Constitution requirement (or successful completion of an examination administered through the College of Extended Learning):
   - HIST 146 American Civilization 4
   - HIST 200 United States History to 1877 4
   - HIST 540 Constitutional History of the United States 4
   - PSCI 203 American Government 4
   - PSCI 410 American Constitutional Law 4
   - PSCI 411 The Bill of Rights 4

13. Completion of a bachelor's degree;

14. Satisfactory completion of prerequisite courses:
   - ENG 311 The English Language 4
   - EELB 301 Growth and Development in Socio-Educational Contexts 6
   - or HD 240 Introduction to Child Development

15. Satisfactory completion of or current enrollment in:
   - HSCI 100 Concepts in Health 2
   - ESPE 350 Introduction to Special Populations for General Education Teachers 4
   - or PSYC 350 Development of Exceptional Children

Each applicant is reviewed in terms of all of the above criteria. The final step involves obtaining employment from one of the approved cooperating school districts. (A listing of these districts is in the Handbook for Multiple Subject Credential Programs.)

Candidates apply for an intern credential once they are admitted to the program. Admission to supervised intern teaching is based on the following criteria and conditions:

1. Completion of an application form;
2. Satisfactory completion of HSCI 100 and either ESPE 350 or PSYC 350 and Phase I course work with a grade point average of 3.0 ("B") and no course grade lower than "B-;"
3. Verification that applicant holds an internship credential.

All course work taken at another college, or more than seven years ago, is subject to approval by the Director of the Multiple Subject Credential Program. No more than 14 units of the credential program may be transferred. Student/Intern teaching is never transferable.

The intern is employed full time in a teaching assignment in an approved cooperating school district while enrolled in program coursework. The CSUSB Intern Track may begin in any quarter and continues for a maximum timeline of two years. If a candidate does not secure a job, he/she may pursue the basic credential program as a student teacher.

**Admission to Supervised Intern Teaching**

One quarter in advance of the time students intend to enroll in Phase II courses (EELB 422, EELB 423, EELB 425, and EELB 560A, they must submit an application for supervision. This application is due by Friday of the third week of the quarter prior to enrolling in supervised intern teaching. (No applications are accepted in the summer quarter.)

Admission to supervised intern teaching is based on the following criteria and conditions:

1. Completion of an application form;
2. Satisfactory completion of HSCI 100 and either ESPE 350 or PSYC 350 and Phase I course work with a grade point average of 3.0 ("B") and no course grade lower than "B-;"
3. Verification that applicant holds an internship credential.

All course work taken at another college, or more than seven years ago, is subject to approval by the Director of the Multiple Subject Credential Program. No more than 14 units of the credential program may be transferred. Student/Intern teaching is never transferable.

The intern is employed full time in a teaching assignment in an approved cooperating school district while enrolled in courses at CSUSB. The study plan is as follows:

</tbody>
</table>

For Multiple Subject and Multiple Subject BCLAD interns:

1. The Reading Instruction Competence Assessment (RICA) exam with a passing score.
2. The teacher performance assessment with a passing score.

Upon successfully completing the program and additional requirements above, candidates are eligible to apply for a the preliminary credential.

Requirements for the Professional Clear Credential may be obtained from the employing school district.

Note: Students must consult the current information sheet for this credential in the Teacher Education Office, CE-102. In addition, students may be eligible for SB 57 Early Completion Internship Option. See information in the Teacher Education Office.

Reading and Literacy Leadership Specialist Credential

Requirements (48 units)

Admission to the Program

In addition to meeting the general requirements of the university for admission as a postbaccalaureate student, admission to the Reading and Literacy Leadership Specialist Credential program requires the following:

1. A valid California teaching credential with an English learner authorization; or a clear, full-time designated subjects teaching credential with an English learner authorization, and at least one year of full-time teaching experience;
2. A 3.0 grade point average in all course work taken in education;
3. Application packet (obtained from the Department of Language, Literacy and Culture or the College of Education Master's Program Office) which includes the following:
   a. Program application form;
   b. Letter of interest which includes experiences working with diverse populations;
   c. Three letters of recommendation: one from the candidate's school principal, and two from other district professionals who can speak to the strengths of the applicant's personal qualities and professional qualifications;
4. Upon completing the application packet, meet with the Reading and Literacy Coordinator to complete the program plan.

Recommendation for the Credential

In order to be recommended for a credential, the candidate must have:

1. Completed all of the prescribed course work with a grade point average of 3.0 ("B") or better;
2. Verified that all California Commission on Teacher Credentialing Standards have been met;
3. Verified at least three years of successful full-time teaching experience;
4. Obtain a letter of recommendation from the coordinator of the program.

Total Units 48

Single Subject - Intern Track Credential

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

Requirements (56 units)

The single subject internship is an alternate program for those student teachers who have been placed in an employed setting. This is a five-quarter program that begins in the Fall or Winter Quarter.

Admission to the Program and Student Teaching

In addition to the general admission requirements for the university, students must meet the following requirements prior to enrolling in the student teaching track:

1. Successfully complete the California Basic Educational Skills Test (CBEST);
2. Demonstrate Subject Matter Competency (SMC) in the content area they plan to teach. Subject Matter Competency can be demonstrated by having a degree from a California Commission on Teacher Credentialing (CCTC) waiver program or passing (if necessary) the appropriate CSET examination as early as possible in order to be able to provide verification of passing scores with their application for admission to the program.

3. Successfully complete the U.S. Constitution requirement, CPR examination and be employed in a district that has an internship contract with the Division of Teacher Education.

**Admission to the Program**

Interns must turn in a Program Application File (PAF) with all the information to the Credentials Office, CE-102. Candidates will not be considered until all the following information is provided:

1. Two letters from faculty members in the student's major department and at least one from a principal or teacher who can attest to the applicant's teaching skills in classroom settings;
2. Meeting with education advisor and signed advising form or attend a program advisory meeting to determine requirements of the program;
3. Verification of a negative tuberculin examination within the last 24 months;
4. Academic Achievement
   a. Applicants must possess the following minimum grade point averages:
      i. A grade point average of 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;
      ii. A grade point average of 3.0 ("B") in professional education course work with no course grade in this area lower than "B-.

   Students can only discount one grade in the program courses. They can repeat a total of two courses in the program;
   b. Written verification of CCTC waiver program or passing the California Subject Examinations for Teachers (CSET), and/or the Single Subject Assessment for Teaching (SSAT) in the content area in which the candidate is planning to teach.
5. Completion of one of the following approved subject matter preparation programs within one of these majors at this university. Note: A list of the required grade point averages for each subject matter area is available from the Credentials Office and the Teacher Education Office.

**Total Units:** 56

Applications for intern candidacy must be submitted in the quarter prior to the commencement of the internship. It is the responsibility of the intern candidate to obtain employment. The university provides the names of school districts that have intern contracts. Applicants who are accepted to intern candidacy, but who do not find a position, are qualified for regular student teaching.

### Additional Requirements

Passage of the four California Teacher Performance Assessment Tasks. Three of these tasks are completed through courses ESEC 512, ESEC 513 and ESEC 514. Candidates are required to complete the Subject Specific Pedagogy Task independently after successful completion of ESEC 405, ESEC 407 and ESEC 410.

Upon completing the requirements for the internship program, candidates may apply for a preliminary credential. Within two years candidates must complete an induction program in the district in which they are employed to meet additional CCTC requirements to obtain a professional clear credential.

**Note:** Pending state legislation may require curricular changes. Students must consult the current information sheet for this credential in the Teacher Education Office, CE-102. In addition, students may be eligible for SB 57 Early Completion Internship Option. See information in the Teacher Education Office.

### Single Subject - Student Teaching Track Credential

#### Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

#### Requirements (48 units)

Admission to the university must precede admission to the credential program. This is a three-quarter program that begins in the Fall Quarter.
for full-time students. Part-time students can complete the program in two years (or five quarters) and can enroll in the program in the Fall or Winter Quarter.

**Admission to the Program and Student Teaching**

In addition to the general requirements for the university, students must meet specific requirements for admission to the student teaching track prior to enrolling in the program:

1. Successfully complete the California Basic Educational Skills Test (CBEST);
2. Demonstrate Subject Matter Competency (SMC) in the content area they plan to teach. Subject Matter Competency can be demonstrated by having a degree from a California Commission on Teacher Credentialing (CCTC) waiver program or passing (if necessary) the appropriate CSET and/or Single Subject Assessment for Teaching (SSAT) examination as early as possible in order to be able to provide verification of passing scores with their application for admission to the program;
3. Complete the Program Application File (PAF) and submit to the Credentials Office, CE-102;
4. Two written recommendations, at least two from faculty members in the student's major department;
5. Meet with and obtain signature of a Secondary Education faculty member on an advising form or attend a program advisory meeting to determine requirements of the program;
6. Verification of a negative tuberculin examination within the last 24 months;
7. Academic Achievement
   a. Applicants must possess the following minimum grade point averages:
      i. A grade point average of 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted.
      ii. A grade point average of 3.0 ("B") in professional education course work with no course grade in this area lower than "B-.
      Students can only discount one grade in the program courses. They can only repeat a total of two courses in the program.
   b. If necessary, written verification of registration for or passage of subject matter competence in the appropriate single subject credential area.
      No candidate may be recommended for the credential who has received a grade less than "C" (2.0) in any other course required for the credential, such as health science courses.
8. Complete A or B below:
   a. Completion of one of the following approved subject matter preparation programs or these majors at this university:
      | Single Subject Credential | Degree Major         |
      |---------------------------|----------------------|
      | Art                       | B.A. Art (Plan I)    |
      | English                   | B.A. English         |
      | Foreign Language          | B.A. Spanish or B.A. French |
      | Foundational Mathematics  | B.A. Mathematics      |
      | Mathematics               | B.S. Mathematics      |
      | Music                     | B.A. Music (Music Education) |
      | Physical Education        | B.S. Kinesiology      |
      | Sciences                  | B.A. in the Sciences  |
   b. Completion of one of the following approved subject matter preparation programs or these majors at this university:
      | Degree Major         |
      |----------------------|
      | B.A. Social Sciences |

   For further information on other majors, supplementary authorizations, examinations and waivers, students should contact the Teacher Education Office and/or the appropriate major department.

b. Completion of the CSET (California Subject Examination for Teachers) and/or the Single Subject Assessment for Teaching (SSAT) in the specialty teaching area the student is planning to teach:

9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
10. Completion of or concurrent enrollment in the upper-division writing requirement at the university or the equivalent graduation requirement at another accredited institution, or a score of 39 or better on the written portion of the CBEST; (CBEST exam does not meet the graduate entrance writing requirement for the Master of Arts degree.)
11. Written verification a passing score on the CBEST;
12. In addition, the following criteria are used: professional aptitude, personality and character, oral and written language usage, and interest in multicultural education;
13. All course work taken at another institution, or more than seven years ago, is subject to approval by the director of the Single Subject Program. No more than 14 quarter units of the credential program may be transferred. Student teaching is never transferable. Students transferring units from another institution may be required to take HSCI 100 and ESPE 350.

Each applicant must complete SMC and have a B.A. degree in the content area they are planning to teach before student teaching and internship teaching and associated courses. Student teaching for the preliminary credential is a full-time assignment for three quarters (ESEC 550A, ESEC 550B and ESEC 550C) that only begins in the fall or winter quarters. No concurrent course work should be taken beyond the required for that quarter without permission from the director of the Single Subject Program. Students who fail to successfully complete any program courses will be denied continuation in the program. An appeals process is available. Consult the Teacher Education Office for details.

**Credential Requirements for Student Teaching One Year Program**

Once admission to the program has been granted and program requirements have been successfully completed, students may enroll in the following courses. Students must successfully complete all the courses in each quarter before enrolling in subsequent quarters.

<table>

ESEC 512 Assessment Seminar: Designing Instruction

ESEC 550B Student Teaching II
Additional Information

Students who fail to successfully complete any program course with a "B-" or better will be denied continuation in the program. An appeal process is available. Consult the Teacher Education Office for details.

Upon completing all requirements for the single subject program, the candidate will be awarded a certificate of completion from California State University, San Bernardino and may apply for a preliminary credential.

Within two years candidates must complete an Induction Program that is offered by the school district in which they secure employment. Preliminary credential students may obtain a professional clear credential by meeting the Induction Program of the school district.

College of Natural Sciences

Kirsty Fleming, Dean
Peter Williams, Associate Dean

Biological Sciences Building, Room 107
(909) 537-5300 College of Natural Sciences website (http://nsci.csusb.edu)

The university offers courses of an interdisciplinary nature but no degree program under the natural sciences designation.

  - Doctor of Osteopathic Medicine Articulation

Minor
- Biology

Certificate Program
- Biotechnology

Master of Science
- Biology

The major in biology emphasizes the relationship between structure and function in living systems and the concept that biological processes can be studied at different levels of organization. The program provides a balanced blend of traditional and modern biology, incorporating the important generalizations of traditional biology and the more recent advances essential to the successful biologist or medical practitioner of the future.

The excellent facilities and equipment of the department are readily available to all students enrolled in biology courses. Qualified seniors are encouraged to engage in research projects through the independent study program. Field trips are a normal and required part of a number of courses.

Many career opportunities are available to the student majoring in biology. The undergraduate program provides an excellent background for further work in medicine, dentistry, veterinary medicine and graduate programs. It can also serve for entry into a career in education, industry and governmental organizations.

Teaching Credential Program

Teaching Credential Preparation Subject Matter Preparation Program in Science: Biology

Bioinformatics

Department of Biology

Department of Chemistry and Biochemistry

School of Computer Science and Engineering

Honors in Biology

Candidacy for departmental honors in biology is voluntary. To be eligible a student must fulfill the following requirements:

1. Achieve a minimum grade point average of 3.5 for all courses satisfying the requirements for the major (as defined above);
2. Take at least five courses in the major at this university;
3. Satisfactorily complete BIOL 596. Independent Research;
4. Satisfactorily complete the departmental comprehensive examination.

Application for candidacy must be made at the beginning of the senior year. Approval of candidacy and of the project and project advisor rests with the department. The project advisor will have sole responsibility for acceptance of the completed project.

The department may grant honors to exceptional students who fail to meet the above requirements, but who have in the judgment of the department brought distinction upon themselves and the department in some other appropriate manner.

Bioinformatics

Bioinformatics is essentially the interdisciplinary study of biology and biochemical systems using mathematics and computer science. Bioinformatics is a growing area, with many definitions and descriptions. Bioinformatics is the use of computers and statistics to make sense out of the huge mounds of data that are accumulating from high-throughput biological and chemical experiments, such as sequencing of whole genomes, DNA microarray chips, two-hybrid experiments, and tandem mass spectrometry.

There are three different approaches to bioinformatics:

ASTR 103  Descriptive Astronomy  5
GEOL 101  Introductory Geology  5
GEOL 250  Historical Geology  5

In addition, certain prerequisites and professional education courses are required. For information about admission to the teacher education program, education courses required, or the specific requirements of the single subject teaching credential in science program, contact the Department of Teacher Education and Foundations in the College of Education.
1. Tool building. Creating new programs and methods for analyzing and organizing data.
2. Tool using. Using existing programs and data to answer biologically interesting questions.
3. Tool maintenance. Setting up databases, translating biologists’ questions into ones that programs can answer, keeping the tools working and the databases up to date.

The main goal of the degree is to prepare the students for graduate studies in bioinformatics. A secondary goal is to provide the students with very relevant bioinformatics skills that will be useful for Research and Development in the growing biotechnology industries.

The degree is jointly administered by the Department of Biology, the Department of Chemistry and Biochemistry, and the School of Computer Science and Engineering. The program is housed in the School of Computer Science and Engineering.

**Current Faculty**

Nicole Bournias-Vardiabasis, Professor  
B.S. 1975, University of California, Irvine  
Ph.D. 1978, University of Essex, United Kingdom  

Michael Y. Chao, Professor, Chair  
Ph.D. 2001, University of Texas Southwestern Medical Center  

Jeremy Dodsworth, Assistant Professor

Note: CHEM 436A and CHEM 436B may be counted as 5 of the 31 units in upper-division elective course work in Biology.

Total Units 108-113
Bachelor of Science in Biology and Doctor of Osteopathic Medicine Articulation

Requirements (116-121 units)

Total units required for graduation: 186

An articulation program that guarantees admission to the Doctor of Osteopathic Medicine Program at Western University of Health Sciences is available on a competitive basis to a limited number of students. Biology majors may apply for admission to the program after completing BIOL 200, BIOL 201 and BIOL 202 at CSUSB. Applicants will be screened by a joint committee from CSUSB and Western University of Health Sciences, and up to four students will be admitted annually. Candidates of the program who maintain a minimum grade point average of 3.3 in the required courses for the major, take the Medical College Admission Test (MCAT), and complete the specified course work will:

1. satisfy the requirements for the B.S. in Biology and
2. have a position reserved for them in the Doctor of Osteopathic Medicine program at Western University of Health Sciences for the year following completion of the B.S. degree. Additional information regarding application and admission to the program is available in the Biology Department Office.

Students majoring in Biology may repeat an upper-division Biology course no more than once. Failing any two upper-division Biology courses disqualifies the student from continuation as a Biology major.

BIOL 450 Ecology 5

or BIOL 455 Marine Biology and Ecology
CHEM 436A Biochemistry I 4
CHEM 437A Biochemistry II 3
CHEM 438A Biochemistry III 3

Other courses which may be use for preparation for the program include:

BIOL 342 Biology of Chordates
BIOL 371 Parasitology
BIOL 380 Medical and Economic Botany
BIOL 572 Virology
BIOL 573 Immunology
BIOL 576 Endocrinology
BIOL 580 Neurobiology

Master of Science in Biology

Requirements (45 units)

Program Code: BIOM

The Master of Science in Biology is designed to provide the flexibility required to develop specific course programs and acceptable thesis research proposals based upon the individual graduate student's interests and background. The general goal of the program is to provide the student with opportunity for improvement of competence, development of the ability to continue self-directed study, and development of intellectual responsibility in preparation for professional leadership in biology.

The graduate program in biology provides training in various concentrations of current research interest in molecular and population genetics, physiology, immunology, molecular biology, population and systematic ecology, neurobiology, plant and animal developmental biology, cellular biology, vertebrate morphology and paleontology, microbiology, parasitology, cancer biology and science education.

Admission to the M.S. Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Completion of an undergraduate major in biology or associated fields (e.g., microbiology, botany, zoology or chemistry with at least 30 quarter units of upper-division biology course work);
3. One year each of laboratory courses in: general biology, general chemistry, organic chemistry and physics;
4. One full-term course in basic calculus or methods in calculus;
5. Upper division courses in cellular or molecular biology, genetics, ecology, and organismal biology. Students lacking one of these courses may be admitted to the program, but must make up the deficiency in their first year. Students will not be permitted to enroll in 600-level biology courses without the appropriate prerequisite course. Graduate-level courses may have additional prerequisites;
6. A cumulative undergraduate grade point average of at least 3.0 ("B") in all courses used for credit in the major;
7. Completion of the graduate entrance writing requirement;
8. Submission of scores from the Graduate Record Examination (GRE) to the Department of Biology Graduate Committee;
9. Submission to the Department of Biology Graduate Committee a one-page, typewritten statement of the student’s preparation for graduate study, goals in the graduate training program, potential area of research and possible advisor (for thesis option) and professional goals following completion of the M.S.;
10. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student’s intent and potential for success in the M.S. program. At least two of the letters should be from current or former college or university faculty familiar with the student’s scholarship and related activities.

Application deadlines for fall, winter and spring quarter admission are May 1, October 1, and January 15, respectively.

Advancement to Candidacy

In order to be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the Department of Biology;
3. Completed at least 15 quarter units of work applicable to the degree program as a graduate student at this university with the approval of the Department of Biology Graduate Committee, and with a minimum grade point average of 3.0 ("B");
4. Received recommendations for advancement to candidacy from the major advisor and from the Department of Biology Graduate Committee;
5. Submitted a formal program of graduate course work prepared in consultation with and approved by the Department of Biology Graduate Committee;
6. Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.
Requirements for Graduation

1. A minimum of 45 quarter units of acceptable graduate-level work included in the formal program, with no less than 32 units completed in residence at this university and with at least 24 units gained from 600-level courses in biology;

2. Advancement to candidacy for the degree and approval of the specific program of courses;

3. A grade point average of 3.0 ("B") in all graduate course work fulfilling the requirements of the Master of Science in Biology and grades of "C" (2.0) or better in each course in the program;

4. Completion of a final oral examination concluded by acceptance of the thesis;

5. The graduation writing requirement is met upon successful completion of the thesis;

6. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

Department Graduate Committee and Major Advisor

The Department of Biology Graduate Committee consists of the graduate program coordinator and two or more Biology faculty members. This committee has general supervision over the work of students progressing toward the Master's degree, and will determine whether students are adequately prepared for graduate study in biology.

Each new graduate student will consult with the graduate program coordinator for academic advising until the student has been accepted by a major advisor. Students are responsible for contacting potential major advisors. Students may not advance to candidacy until they are accepted by a major advisor. The major advisor in consultation with the student will develop a program of specific courses and an acceptable thesis research proposal based on the student’s interests, abilities and preparation. The major advisor will select a thesis committee including the major advisor, and at least two other faculty from the Biology Department. The student is responsible for setting regular meetings with the thesis committee members. Once a research plan has been formed, the student will provide a formal written and oral proposal of their planned research to the thesis committee. Upon completion of the original research and the thesis, a final oral examination consisting primarily of discussion of the thesis and the thesis research is required. Official examiners will include the thesis committee and other members of the academic community. Successful completion of the final oral examination includes acceptance of the thesis by the thesis committee.

The student should consult the Department of Biology for details on preparing the thesis manuscript.

A. Cellular and Molecular Biology
B. Physiology and Organismal Biology
C. Ecology and Evolutionary Biology

Twenty units of electives to be chosen from biology or related courses at the 600-, 500- and 400-levels. A minimum of 7 units of electives must be taken at the 500-600 level (excluding BIOL 601). A maximum of 12 units from any combination of BIOL 596, BIOL 692, and BIOL 696 may be applied toward the student's degree. Courses taken outside the department to fulfill this requirement require prior approval of the Graduate Committee and thesis advisor.

Certificate in Biotechnology

Requirements (28 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Program

One of the following:

Group A:

Completion of the following core program of courses for students majoring in biology, chemistry or biochemistry:

<table>

  - Chemistry
  - Biochemistry Option

**Bachelor of Science**
- Bioinformatics
- Chemistry
  - ACS Certified Option
  - Biochemistry Option

**Master of Science**
- Earth and Environmental Sciences

**Minor**
- Chemistry

The Department of Chemistry and Biochemistry provides:

1. Undergraduate training in chemistry and biochemistry for students planning professional careers in chemistry and allied professions such as medicine, dentistry, pharmacy, health sciences and veterinary medicine and for those contemplating graduate work for advanced degrees;
2. Appropriate courses for the teacher credential program;
3. Fundamental chemical science courses required by students majoring in related fields such as biology, physics, health science, and geology;
4. An understanding of the achievements and contributions of chemistry as a science.

The Bachelor of Science in Chemistry (ACS Certified Option) satisfies the requirements for certification by the American Chemical Society.

The Bachelor of Arts in Chemistry provides greater elective flexibility for double majors and for preprofessional, interdisciplinary or other programs involving substantial preparation in chemistry.

Preprofessional students of medicine, dentistry or other science-based fields seeking a major in chemistry should See Page 65 of this catalog and consult with a departmental advisor.

Students interested in fields such as environmental science, environmental law, business, and clinical chemistry can pursue these by following the minimum requirements of the major and appropriate electives.

**Departmental Honors**

A graduating senior will be awarded departmental honors in chemistry after meeting the following requirements:

1. At least a 3.5 average in all chemistry course work taken at the university with a minimum being five chemistry courses;
2. At least a 3.0 ("B") average on the comprehensive examinations;
3. An "A" in CHEM 595 or another demonstration of ability to do independent work in chemistry, for example an oral or poster presentation at a conference or symposium.

Kenneth A. Mantei, Professor
Dennis M. Pederson, Professor

Undergraduate Degrees

Bachelor of Arts

- Chemistry- Chemistry Option (p. 350)
- Chemistry - Biochemistry Option (p. 349)

Bachelor of Science

- Bioinformatics (p. 341)
- Chemistry - ACS Certified Option (p. 350)
- Chemistry - Biochemistry Option (p. 351)

Graduate Degree

Master of Science

- Earth and Environmental Sciences (p. 352) with concentrations in:
  - Professional Science Masters
  - Geology

Minor

- Chemistry (p. 354)

Teaching Credential Program

Teaching Credential Subject Matter Preparation Program in Science: Chemistry

Chemistry majors pursuing a single subject teaching credential in science with a chemistry specialization will need to take the CSET Exam to verify subject matter competence. To prepare for the CSET exam, the following courses are recommended as part of, or in addition to the chemistry degree.

Bachelor of Arts in Chemistry - Biochemistry Option

Requirements (102-109 units)

Total units required for graduate: 180

Requirements for the B.A. in Chemistry - Biochemistry Option (Program Code: CBIO)

Lower-division requirements (64-66)

<table>

Additional Requirements (4)

Applied mathematics. Four units chosen from:
- MATH 252 Multivariable Calculus II
- MATH 270 Elementary Differential Equations
- MATH 331 Linear Algebra
- CHEM 599 Undergraduate Comprehensive Examination (covering the major field of study, to be taken during the senior year.)

Total Units 108

Ten units choose Group A or B below:

Group A:
- CHEM 451 Physical Chemistry for Biochemists I
- CHEM 452 Physical Chemistry for Biochemists II

Group B:
- CHEM 455 Physical Chemistry I
- CHEM 456 Physical Chemistry II
- CHEM 470 Bioinorganic Chemistry 3-5
- CHEM 475 Inorganic Chemistry
- CHEM 590A Chemistry Seminar I
- CHEM 590B Chemistry Seminar II
- BIOL 300 Cell Physiology 5

One course chosen from:
- BIOL 320 Microorganisms
- BIOL 324 Human Physiology for Biology Majors
- BIOL 400 Molecular Biology
- BIOL 413 Biology of Stem Cells
- BIOL 423 Genetics
- BIOL 424 Comparative Animal Physiology
- BIOL 431 Comparative Plant Physiology
- BIOL 440 Principles of Development
- BIOL 576 Endocrinology
- BIOL 580 Neurobiology
Specific requirements for admission to classified graduate status are:

Admission to the Program

The Master of Science in Earth and Environmental Sciences is designed to provide strong preparation in applied science as well as social, political, and economic aspects needed for critical decision-making for environmental issues. The program has two options, PSM and Geology. The Professional Science Masters (PSM) includes a core curriculum including an internship, and participation in a basic or applied research project related to the internship. To accommodate working professionals, internships may be completed at their place of business if deemed appropriate by their faculty advisor. The program is designed so that it can potentially be completed in two years and every effort will be made to offer courses at times convenient for working professionals. The required internship program will be offered during the summer between the first and second years and the supervised graduate study in the following quarter. Additional internship courses are included as electives, as a number of local companies have expressed an interest in having interns for extended periods. The Geology Option focuses directly on geological study and research. This option is intended for students who wish to pursue graduate level work as a prelude for doctoral studies, or as professional preparation for careers in geological fields.

The culminating experience in the M.S. in Earth and Environmental Sciences is an extended project or a research thesis. This committee will determine whether students are adequately prepared for graduate study, goals in the graduate program, option (PSM or Geology) applied for, potential area of research and possible advisor (for thesis option) and professional goals following completion of the M.S.;

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the earth and environmental science program;
3. Completed at least 15 quarter units of work applicable to the degree program as a graduate student at this university with the approval of the earth and environmental sciences graduate committee, and with a minimum grade point average of 3.0 ("B");
4. Gained a recommendation for advancement to candidacy from the graduate committee;
5. Submitted a formal program of graduate course work prepared in consultation with and approved by the graduate committee;
6. Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. For the Professional Science Master's Option, a minimum of 49 quarter units of acceptable graduate level work included in the formal program, with no less than 35 units completed in residence at this University and with at least 35 units gained from 500- and 600-level courses approved by the program;
2. For the Geology Option, a minimum of 45 quarter units of acceptable graduate level work included in the formal program, with no less than 32 units completed in residence at this University and with at least 32 units gained from 500- and 600-level courses approved by the program;
3. Advancement to candidacy for the degree and approval of the specific program of courses;
4. A grade point average of 3.0 ("B") in all graduate course work fulfilling the requirements of the program and grades of "C" (2.0) or better in each course in the program;
5. Completion and presentation of an extended project or thesis;
6. The graduation writing requirement is met upon successful completion of the project or thesis;
7. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

Department Graduate Committee and Major Advisor

The Earth and Environmental Sciences Graduate Committee consists of the graduate program coordinator and two or more faculty members. This committee will determine whether students are adequately prepared for graduate study in earth and environmental sciences, and has general supervision over the work of students progressing toward the master's degree.

Each new graduate student should consult with the graduate program coordinator for advice in selection of the appropriate graduate program.
All students are responsible for selecting their major advisor and, in turn, must be accepted by the major advisor. The major advisor in consultation with the student will develop a program of specific courses and an acceptable project research proposal based on the student's interests, abilities and preparation. The major advisor in consultation with the student will develop a program of specific courses and an acceptable project/research proposal based on the student's interests, abilities and preparation. The major advisor will direct the research and, where appropriate, supervise the internship. The program of courses and the project/research topic, as well as any subsequent modification of these, are subject to approval by the earth and environmental sciences graduate committee and the Dean of Graduate Studies.

Students enrolled in the graduate program wishing to take courses off campus and include them in the degree program must petition the earth and environmental sciences graduate committee and the Dean of Graduate Studies.

Minor in Chemistry

Requirements (56-61 units)

Requirements for a minor in Chemistry

CHEM 215 General Chemistry I: Atomic Structure and Chemical Bonding 6

CHEM 216 General Chemistry II: Principles of Chemical Reactions 6

A minimum of twelve units, choose Group A or B below: 12-15

Group A:

CHEM 221A Organic Chemistry I Lecture
CHEM 221B Organic Chemistry I Lab
CHEM 222A Organic Chemistry II Lecture
CHEM 222B Organic Chemistry II Lab
CHEM 223A Organic Chemistry III Lecture
CHEM 223B Organic Chemistry III Lab

Group B:

CHEM 321 Principles of Organic Chemistry I
CHEM 322 Principles of Organic Chemistry II

CHEM 345 Modern Quantitative Analysis 5

CHEM 501A Advanced Laboratory Techniques
CHEM 501B Advanced Laboratory Techniques
CHEM 545 Instrumental Analysis

GEOL 540 Advanced Topics in Geology
GEOL 545A Laboratory for Advanced Topics in Geochemistry
GEOL 545B Laboratory for Advanced Topics in Geochemistry

GEOL 550 Earth Resources
GEOL 551 Neotectonics and Seismic Hazard Analysis
GEOL 552 Volcanology and Volcanic Hazard Assessment
GEOL 553 Advanced Structural Geology
GEOL 575B-D Internship in Geology

GEOL 591 Digital Mapping and GIS for Scientists
GEOL 595A-F Independent Study

GEOL 621 Graduate Geological Mapping
GEOL 630 Environmental Geochemistry
GEOL 635 Low-temperature Geochemistry
GEOL 691B-D Graduate Independent Study

GEOL 696A-F Graduate Project

Total Units 56-61
Department of Geological Sciences

Bachelor of Arts
- Geology

Bachelor of Science
- Geology
  - General Geology Option
  - Environmental Geology Option

Master of Science
- Earth and Environmental Sciences

Minor
- Geology

The study of geology includes working to understand the chemical, physical and biological processes that affect and are recorded in rocks, minerals, and earth materials, and using that information to decipher the development of our planet. In addition, understanding geology is essential for locating necessary earth resources (oil, minerals, water) and solving those environmental problems that affect the Earth's surface. Much of the information geologists use is obtained by careful, systematic field work and laboratory work, the former being an inherent requirement for geological studies.

The mission of the department is to provide high-quality training in the science of geology so as to equip our students (undergraduate and graduate) to successfully enter the geological workforce, and to contribute to the science of geology through faculty and students conducting and disseminating research in this field. Geology is a broad science that integrates with other classical sciences and disciplines such as astronomy, biology, chemistry, computer science, geography, mathematics, and physics. Course work in those disciplines, integrated within a geological framework, provides students with a broad marketable understanding.

The B.S. degree is recommended for students planning to become professional geologists employed by environmental and geo-technical firms, governmental agencies, oil and mining companies and for those students planning to pursue a graduate degree in geology.

Both the B.S. and B.A. degrees are suitable for students planning a career in K-12 science teaching or environmental law. The B.A. in Geology Integrated Teaching Track will be phased out within the next year.

Geology majors must earn a grade of "C" or better in all required geology courses for those courses to satisfy the degree requirements for a B.A or B.S. degree in Geological Sciences.

Departmental Honors

Students majoring in geological sciences are eligible to earn honors in geological sciences at graduation if the following conditions are met:

1. The student applies to the department for candidacy at the beginning of their senior year;
2. A minimum grade-point average of at least 3.5 in all geology courses has been earned, with a minimum of five geology courses taken at this university.
3. Satisfactory completion of at least 2 units of GEOL 597.

Granting of departmental honors rests with the department faculty.

Current Faculty

Joan E. Fryxell, Professor
B.A. 1977, Earlham College
M.A. 1980, University of Texas
Ph.D. 1984, University of North Carolina

W. Britt Leatham, Associate Professor
B.A. 1981, Weber State College
M.Sc. 1984, The Ohio State
Ph.D. 1987, The Ohio State University

Sally McGill, Professor, Interim Chair
A.B. 1985, Harvard and Radcliffe
M.S. 1989, Ph.D. 1992, California Institute of Technology

Erik B. Melchiorre, Professor
B.S. 1990, University of Southern California
M.S. 1993, Arizona State University
Ph.D. 1998, Washington University

Alan L. Smith, Professor, Chair
B.Sc. 1963, University of London (Kings College)
Ph.D. 1968, University of California, Berkeley

Emeritus

Louis A. Fernández, Professor, Provost and Vice President for Academic Affairs

A minimum of 15 units of upper-division geology courses. These units may not include GEOL 309.

| Total Units | 35-36 |
Department of Health Science and Human Ecology

- Accredited as a Didactic Program in Dietetics (DPD) and individualized Supervised-Practiced Pathway (ISPP) Program by the Accreditation Council for Education in Nutrition and Dietetics (ACEND)

Department of Health Science and Human Ecology

Physical Sciences Building, Room 226
(909) 537-5339 Department of Health Science and Human Ecology (http://health.csusb.edu)

Bachelor of Science

- Health Science with concentrations in:
  - Environmental Health Science
  - Health Care Management
  - Public Health Education
  - Nutrition and Food Sciences

Teaching Credential Preparation Program

Health Science

Master of Public Health

Master of Science

- Health Services Administration

Certificate Programs

- Gerontology
- Health Care Management

Audiometrist Certification

Offered through the College of Extended Learning, HSCI 374 leads to a certificate of registration as a school audiometrist issued by the California Department of Health Services.

The Department of Health Science and Human Ecology provides courses of instruction for personal growth, community service, intellectual stimulation, and professional career opportunities in the public health and environmental fields. The department emphasizes an ecological approach to health and attempts to provide students with the tools necessary to understand factors contributing to the promotion of general health and well-being, and elimination of population health disparities.

The Department of Health Science and Human Ecology offers a Bachelor of Science in Health Science and a Bachelor of Science in Nutrition and Food Sciences. In addition, the department offers a Master of Science in Health Services Administration, and a Master of Public Health. The department also offers certificates in several specialized areas.

A Bachelor of Science in Health Science with a given concentration is appropriate for students preparing to become health professionals, those who want to be health educators or health administrators, or those desiring to work in environmental protection agencies, private businesses, industrial hygiene, and safety. The program also is designed to provide a career ladder opportunity for persons currently engaged in public health and environmental occupations or preparing for graduate work in medicine, public health, allied health, and social or natural sciences.

The department offers a blend of traditional and modern approaches to education and career development in the health science field. It encourages multidisciplinary orientation, community interaction, and a social outlook, and provides appropriate instruction in the health-related areas of science. In their senior year, students intern in community agencies such as health departments, hospitals, industrial plants, environmental improvement agencies, and consumer affairs offices, thus combining theory and practice.

The Environmental Health Science Concentration is the appropriate choice for students who want to become health inspectors (i.e., Registered Environmental Health Specialists), industrial hygienists, or hazardous waste control experts. For those who plan on becoming Registered Environmental Health Specialists, this concentration is approved by the Environmental Specialist Registration Committee of the California Department of Public Health. Students who are certified by the environmental health coordinator will have met the academic and experience requirements for admittance to the State Environmental Health Specialist Registration Examination.

The Public Health Education concentration prepares graduates for professional positions in county health departments and other public health agencies, community-based organizations, health care, tribal health, or international organizations, and for graduate programs in physician assistant, occupational therapy, and other allied health programs.

Pre-professional students of medicine, dentistry, veterinary medicine, or other science-related fields seeking a major in health science should consult with a department advisor.

Students interested in fields such as health or environmental law, clinical chemistry, business, health physics, or any other academic discipline should complete the minimum requirements of the major and select appropriate electives in consultation with a department advisor.

Departmental Honors

A graduating senior will be awarded departmental honors in Health Science after meeting the following requirements:

1. At least a 3.5 grade point average in all courses required for the major taken at California State University, San Bernardino;
2. At least a 3.0 ("B") grade point average overall;
3. An "A-" or better in HSCI 595. Independent Study (at least four units).

Nutrition and Food Sciences

Approved as a Didactic Program in Dietetics by the American Dietetic Association (ADA)

Department of Health Science and Human Ecology

Physical Sciences Building, Room 226
(909) 537-5340 Department of Health Science and Human Ecology (http://health.csusb.edu)

The Bachelor of Science in Nutrition and Food Sciences is appropriate for students preparing for careers dealing with foods, nutrition, or dietetics. After graduation, students are eligible to apply and complete...
an ACEND accredited internship/supervised-practice programs. After completion of 1,200 hours of supervised-practice, they are eligible to take the registration to become a registered dietitian/nutritionist (RDN). Also, graduates with Verification Statement may take the exam for Diet Technician Registered (DTR) to become Nutrition and Dietetic Technician Registered (NDTR). Graduates may also work as Certified Dietary Manager (CDM), dietary aides, School Nutrition Specialists (SNS), and in many other food- and nutrition-related jobs.

**Current Faculty**

Monideepa Becerra, Assistant Professor of Health Science and Human Ecology  
B.S. 2008, University of California, Riverside  
M.P.H. 2011, Loma Linda University  
D.P.H. 2014, Loma Linda University  

Dorothy C. Chen-Maynard, Associate Professor, Chair  
B.S. 1978, University of Southern California  
M.S. 1981, California State University, Los Angeles  
Ph.D. 1994, University of California, Davis.

Ted Coleman, Professor  
B.A. 1979, M.H.Ed. 1980, Brigham Young University  
Ph.D. 1983, Purdue University  

Marsha Greer, Associate Professor of Health Science and Human Ecology  
B.A. 1973, University of Northern Colorado  
M.S. 1977, Washington State University  
M.U.P. 1990, University of Oregon  
Ph.D. 1995, Oregon State University  

Nicole Henley, Assistant Professor  
B.B.A. 1997, University Of Wisconsin-Whitewater  
M.B.A. 2000, University Of Wisconsin-Whitewater  
Ph.D. 2007, University of California, Los Angeles  

Joe S. Hughes, Assistant Professor  
B.A. 1978, George Washington University  
M.S. 1985, Ph.D. 1989, Washington State University  

Sue Kim, Assistant Professor  
Ph.D., 2013, University of California Berkeley  

Robert LaChausse, Lecturer  
B.A. 1995, M.A. 1998, California State University, San Bernardino  

Christopher H. Lindfelt, Associate Professor  
B.A. 1989, Lawrence University  

Paulchris Okpala, Assistant Professor  
B.S. 2005  
M.S. 2007  
DPH 2010  

Robert N. Phalen, Associate Professor  
B.A. 1995, California State University, Fullerton  
Ph.D. 2006, University of California, Los Angeles  

Dimitri Tamalis, Professor, Chair  
B.S. 1990, McPherson College  
Ph.D. 1997, Kansas State University  

Angie Verissimo, Assistant Professor  
B.A. 2005, University of Redlands  
M.P.H. 2007, Ph.D. 2011, University of California, Los Angeles  

**Emeriti**  
Kim R. Clark  
Richard Eberst, Professor  
Daniel F. Fahey, Professor  
Joseph E. Lovett, Professor  
Lal S. Mian, Professor  
Cynthia Paxton, Professor  
Thomas C. Timmreck, Professor  

**Undergraduate Degrees**

**Bachelor of Science**

- Health Science (p. 359) with concentrations in:  
  - Environmental Health Science  
  - Health Care Management  
  - Public Health Education  
  - Nutrition and Food Sciences (p. 361)

**Graduate Degrees**

**Master of Public Health** (p. 362)

**Master of Science**

- Health Services Administration (p. 363)

**Certificate Programs**

- Gerontology (p. 364)  
- Health Care Management (p. 364)

**Bachelor of Science in Health Science**

Requirements (104-112 units)

Total units required for graduation: 180-183

**Environmental Health Science**

The Environmental Health Science Concentration is the appropriate choice for students who want to become health inspectors (i.e., Registered Environmental Health Specialist), industrial hygienists, or hazardous waste control experts. For those who plan on becoming Registered Environmental Health Specialists, this concentration is approved by the Environmental Specialist Registration Committee of the California Department of Public Health.

Students who are certified by the Environmental Health Coordinator will have met the academic and experience requirements for admittance to the State Environmental Health Specialist Registration Examination.

**Health Care Management**

Health care management is concerned with the planning, organization, financing, delivery, and evaluation of public and personal health services.
The health services administration concentration prepares students for careers in health services delivery organizations such as hospitals, clinics, managed care organizations, long-term care facilities, and medical offices. Graduates may also enter careers in governmental health care as local and state departments of health, the U.S. Public Health Service, or international health organizations. Management and staff opportunities for the trained baccalaureate include consulting firms, durable medical equipment, pharmaceutical companies, and healthcare information systems vendors.

The B.S. in Health Science with a concentration in Health Care Management may be combined with a minor in business.

**Public Health Education**

Students pursuing careers in school health education are encouraged to enroll in the B.S. in Health Science, Integrated Teaching Track.

The Public Health Education concentration prepares graduates for professional positions in county health departments and other public health agencies, community-based organizations, health care, tribal health, international organizations, and for graduate programs in physician assistant, occupational

**Requirements for the B.S. in Health Science**

**Note:** All Health Science concentrations require grades of “C” (2.0) or better in all upper-division coursework with an HSCI prefix or any course approved for upper-division Health Science substitutions required in the major. Certain required courses also apply in the university’s general education program (p. 48).

### Lower-division requirement (5)
- HSCI 120 Health and Society: An Ecological Approach 5

### Upper-division requirements (20)
- HSCI 315 Statistics for the Health Sciences 4
- HSCI 352 Principles of Environmental Health 4
- HSCI 367 Human Disease Mechanisms 4
- HSCI 370 Health Behavior 4
- HSCI 451 Principles of Epidemiology 4

### Concentration (79-87)
One of the following concentrations is required for the major: 79-87

**Total Units** 104-112

### Environmental Health Concentration (Program Code: HSEH)

Fifteen units chosen from Group A or B below: 15

**Group A:**
- BIOL 200 Biology of the Cell
- BIOL 201 Biology of Organisms
- BIOL 202 Biology of Populations

**Group B:**
- BIOL 100 Topics in Biology
- BIOL 223 Human Physiology and Anatomy I
- BIOL 224 Human Physiology and Anatomy II
- BIOL 220 Principles of Microbiology
  or BIOL 320 Microorganisms

**Total Units** 87

Four units of upper division elective from SOC, ANTH, PA, GEOG, PSYC, HSCI as approved by advisor.

Total Units: 79

---

**Bachelor of Science in Nutrition and Food Sciences**

Requirements (123 units)

Total units required for graduation: 180

**Requirements for the B.S. in Nutrition and Food Sciences**  
(Program Code: NTFS)

**Note:** All upper-division courses with an HSCI prefix or any course approved for upper-division Health Science substitutions require a grade of "C" (2.0) or better. Certain required courses also apply in the university’s general education program (p. 48).

In order to receive the Verification Statement from the DPD, graduates must have an overall GPA of 2.8 or higher; and must receive a grade of B- or higher in the 300 and 400-level DPD courses. This Verification Statement is required for dietary internship or supervised-practice program as well as to take the DTR exam.

Total units for graduation (180) includes 22 GE units.

**Lower-division requirements - includes 18 GE units (60)**

Master of Public Health

Requirements (56 units)

Program Code: PHLT

The Master of Public Health program is appropriate for health professionals furthering their careers as educators, supervisors, leaders, and administrators in public health settings including county, state, and federal health agencies, community-based organizations, healthcare organizations, and public institutions dedicated to the improvement of population health. The purpose of the MPH program is to prepare professionals to develop knowledge and skill to identify, assess, evaluate, and resolve public health problems with competence in program planning, implementation, and evaluation.

Specific entrance requirements have been established by the University and the Department of Health Science and Human Ecology. Further information and application materials are available on the department web pages.

Admission to the Program

In addition to the general requirements of the University, specific requirements for admission to classified graduate status are:

1. A minimum grade point average of 3.0 (“B”) in the last 90 quarter units of undergraduate coursework and in all post-graduate coursework;
2. Undergraduate coursework in the natural and social sciences, including those focused on cultural and ethnic diversity;
3. A copy of most recent resume or curriculum vitae;
4. Three letters of recommendation, including one from the school where applicant most recently completed coursework, or from someone who can attest to the applicant’s academic ability and professional promise in the graduate degree program;
5. A statement of purpose, double-spaced and 2-3 pages maximum, describing those experiences, including academic, which have shaped the applicant’s interest in public health, immediate and long-term professional goals, reasons for being interested in the MPH program, strengths the applicant brings to the program, and skills which the applicant would like to improve.
6. Writing sample based on a public health topic of interest to the applicant, typed, approximately 1,000 words, double-spaced.

Students with less than 3.0 GPA (but 2.5 or higher) in the last 90-quarter units, may be admitted as conditionally classified, if all other areas are satisfactorily met. To attain fully classified status, students must complete at least 16 quarter units of MPH core coursework with a minimum grade point average of 3.0 (“B”) and must remove any deficiencies stated as conditions for acceptance into the program or otherwise set by the department’s graduate committee.

Advancement to Candidacy

To be advanced to candidacy, the student must:

1. Achieve classified status;
2. Candidacy will be granted upon completion of 20 quarter units towards the MPH with a minimum grade point average of 3.0 (“B”) and a B or higher in all required coursework;
3. Submit a formal program of study of graduate coursework prepared in consultation with the MPH graduate coordinator;
4. Be recommended for advancement to candidacy by the MPH graduate coordinator;
5. The Writing Requirement for Graduate Candidacy (WRGC) will be completed by a student submitting paper(s) that receive(s) a passing score as evaluated by program specific rubric.

Requirements for Graduation

1. Advancement to candidacy for the degree and approval of the specific program of study;
2. A cumulative grade point average of 3.0 (“B”) or better, in all graduate course work fulfilling the requirements of the Master of Public Health and grades of “B” or better in all coursework;
3. A minimum of 56 units of approved graduate-level coursework included in the form program, with no more than the required core courses transferred from an accredited MPH program elsewhere, and at least half of the units required for the degree gained from 600-level courses in Health Science and Human Ecology (HSCI);
4. Completion of a professional field experience and final report or, in exceptional rare cases as approved by the MPH graduate coordinator, substitution with another integrative course or comprehensive examination.

Elective chosen in consultation with MPH graduate coordinator. 4

Total Units 56
Master of Science in Health Services Administration

Requirements (61 units)

Program Code: HSAD

The Master of Science in Health Services Administration is appropriate for students preparing to become health service administrators or managers in hospitals, health maintenance organizations, medical group clinics, nursing homes, public health departments, state and federal health agencies, military health services, or other health service organizations.

Specific entrance requirements have been established by the university and the Department of Health Science and Human Ecology. Information about entrance requirements is available at the department website: Department of Health Science website (http://health.csusb.edu).

Students who wish to design a specific, individualized master's degree related to health science should also consider the M.A. in Interdisciplinary Studies (p. 475). Students can successfully combine courses from several relevant fields to build interdisciplinary programs serving their career goals in such areas as Community Health Education, Health Promotion, Environmental Health, Occupational Health/Industrial Hygiene, Public Health, and Gerontology.

Students may also earn a certificate in Finance, Accounting, and Information Systems along with the Master of Science in Health Services Administration.

Admission to the MSHSA Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A minimum grade point average of 3.0 ("B") for the major or for the last 90 quarter units of undergraduate coursework and in all postgraduate coursework;
2. A copy of most recent resume or curriculum vitae;
3. A statement of purpose, double-spaced and 2-3 pages maximum, describing those experiences which have shaped the applicant’s interest in the MSHSA program. Comment on your current knowledge, skills, experience, and preference areas of work in the field of health services administration, one academic experience which has meant the most to your professional career, immediate and long-term professional goals, reasons for being interested in the MSHSA program, strengths the applicant brings to the program, skills which the applicant would like to improve, how MSHSA degree will help you grow professionally;
4. Writing sample based on a health services management topic of interest to the applicant, typed, approximately 1,000 words, double spaced;
5. Gained a recommendation for advancement to candidacy from the Graduate Coordinator of the Department of Health Science and Human Ecology.

Students who meet the above criteria may be admitted as conditionally classified graduate students. To attain fully classified status, students must complete at least 16 quarter units of MSHSA core coursework with a minimum grade point average of 3.0 ("B") and must remove any deficiencies stated as conditions for acceptance in the program or otherwise set by the department's graduate committee.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Candidacy will be granted upon completion of 20 quarter units towards the MSHSA with a minimum grade point average of 3.0 ("B");
2. Submit a formal program of study of graduate coursework prepared in consultation with the MSHSA graduate coordinator;
3. Be recommended for advancement to candidacy by the MSHSA graduate coordinator;
4. Completion of a 306 writing course.

Requirements for Graduation

In addition to the general requirements of the university and the department, graduation requirements include:

1. Advancement to candidacy for the degree and approval of the specific program of study;
2. A grade point average of 3.0 ("B"), or better, in all graduate course work and research fulfilling the requirements of the Master of Science in Health Services Administration and grades of "B-" or better in all coursework.

Classified and conditionally classified graduate students in the Master of Science program must complete their degree requirements within seven years.

Elective chosen in consultation with graduate coordinator (4)

Completion of one of the following Culminating Experience/ Application of Learning

| HSCI 999 | Comprehensive Examination |

California State University, San Bernardino 363
Certificate in Gerontology

Requirements (28 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The Department of Health Science and Human Ecology participates in the interdisciplinary certificate in Gerontology. Details concerning this certificate are found under Sociology Certificate Programs (p. 453).

Certificate in Health Care Management

Requirements (33 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Total Units 33
Department of Kinesiology

Bachelor of Science
- Kinesiology
- Allied Health Professions
- Exercise Science
- Pedagogy

Teaching Credential Programs
- Adapted Physical Education Added Authorization
- Single Subject
- (Offered through the College of Education.)

Minor
- Kinesiology
- Recreation

Certificate Programs
- Coaching
- Fitness Management
- Recreation Leadership

The Department of Kinesiology offers a curriculum leading to a Bachelor of Science degree with a major in kinesiology. In addition, a minor in kinesiology, a minor in recreation, an adapted physical education added authorization and a single subject teaching credential are offered. The added authorization and credential are offered through the College of Education.

The major in kinesiology is designed for the student preparing to:
1. Become a physical education teacher;
2. Select a career in nonteaching fields related to physical activity, such as commercial physical fitness, sport business, research and development, or commercial leisure services;
3. Pursue graduate work in kinesiology or related disciplines.

Single Subject Teaching Credential
The Bachelor of Science in Kinesiology is approved as a single subject matter teaching credential program. In addition to the requirements of the major, students must complete certain prerequisites to the teacher education program. For information about the professional education component, admission to the teacher education program or specific requirements for the single subject matter waiver program, contact the Credentials Office, CE-102.

Departmental Honors
A graduating senior will be awarded departmental honors in kinesiology after meeting the following requirements:
1. Earned a 3.5 grade point average in all kinesiology course work;
2. Earned a 3.0 ("B") grade point average overall;
3. Over one-half of the course work for the kinesiology major must be taken at California State University, San Bernardino;
4. Recommendation by the kinesiology faculty.

Current Faculty
Michelle Alencar, Assistant Professor
Ph. D., 2013, University of New Mexico - Main Campus

Pablo Costa, Assistant Professor
B.S. 2004, Estacio De Sa', Costa Rica
M.S. 2007, Florida Atlantics University
Ph.D. 2011, University of Oklahoma

Nicole Dabbs, Assistant Professor
Ph.D., 2013, University of Mississippi - Main Campus

Guillermo Escalante, Assistant Professor
B.S. 1997, M.B.A. 1999, University of LaVerne, CA
D.S.C 2012, Rocky Mountain University of Health Professions

Chris Gentry, Assistant Professor
B.S. 2005, M.S. 2011, Southern Illinois University

Bryan Haddock, Professor
B.A. 1986, The Master's College
M.S. 1988, Ph.D. 1998, Loma Linda University

Aaron C. Moffet, Associate Professor
B.A. 1999, George Washington University
M.A. 2001, University of Texas, Austin
Ph.D. 2005, Michigan State University

Jason Ng, Assistant Professor
B.S. 2009, California State University, Fullerton
M.S. 2011, California State University, Fullerton

Undergraduate Degrees
Bachelor of Science
• Kinesiology with concentrations in:
  • Allied Health Professions (p. 366)
  • Exercise Science (p. 367)
  • Pedagogy (p. 367)

Minors
• Kinesiology (p. 370)
• Recreation (p. 370)

Certificate Programs
• Coaching (p. 368)
• Fitness Management (p. 369)
• Recreation Leadership (p. 369)

Kinesiology - Basic Instruction Activity Program
Kinesiology 101-150
The basic instruction program offers a wide variety of courses that provides students an opportunity to: participate in physical activity on a regular basis; develop, improve and maintain physical fitness; learn and practice lifetime sports skills; and acquire the knowledge that physical exercise is essential for healthful adult living in current society. Not all courses listed are offered each academic year.

Kinesiology - Intercollegiate Athletics (160 and 190)
These courses are designed for those students participating in intercollegiate sports. If a student does not become a member of a team, they will be dropped from the course.

General education requirement for graduation
All students are required to complete a basic instruction activity course chosen from any one of the following categories:

KINE 101A-S Individual and Dual Activities 2
KINE 114A-F Physical Fitness and Conditioning Activities 2
KINE 120A-L Somatic and Martial Arts Activities 2
KINE 121A-K Team Activities 2
KINE 137A-L Aquatic Activities 2
KINE 147 A Fitness Odyssey 2
KINE 149 Independent Activity Project 2
KINE 150A-K Dance Activities 2

Ten additional units of basic instruction activity courses (numbered 150 and below) for a total of twelve units maximum may be applied toward graduation. These units may be from courses in the same category.

Bachelor of Science in Kinesiology - Allied Health Professions Concentration

Requirements (94 units)

Total units required for graduation (180)
The concentration in Allied Health Professions (AHP) is for people interested in eventual graduate education in allied health professions (viz., physical therapy, occupational therapy, physician’s assistant, medical or dental school) after graduation from CSUSB. CSUSB Kinesiology AHP students will engage in a rigorous course of study in Kinesiology, Biology, Chemistry, and Physics. This concentration offers undergraduate students essential pre-requisite courses for eventual graduate study in a preferred AHP. Students are strongly encouraged to review admission requirements at accredited universities to which they may apply for specific allied health professions graduate programs. (Formerly PRE-PHYSICAL THERAPY)

Minimum Admission Requirements for First Year Students
Listed below are requirements for high school applicants interested in the AHP program.

<table>
<thead>
<tr>

Total Units: 91

Certificate in Coaching

Requirements (33 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

- Mathematics - Teaching Track

Bachelor of Science
Mathematics

Teaching Credential Program
Mathematics

Minor
- Mathematics
- Applied Mathematics

Master of Arts
- Mathematics

Master of Arts in Teaching
- Mathematics (not offered in the 2017-18 Academic Year)

Certificate Programs
- Introductory Actuarial Science
- Introductory Mathematics

Departmental Honors
The department faculty will determine whether a student is to be awarded departmental honors upon graduation. The criteria will be:

1. A grade point average of at least 3.5 in all mathematics courses taken at this university and counted toward fulfilling requirements of the mathematics major.
2. At least four units of MATH 595, completed with a grade of "A-" or better, and culminating in a presentation to the department.

Current Faculty
Susan L. Addington, Professor
B.S. 1976, Marlboro College
M.A. 1978, Ph.D. 1981, State University of New York at Stony Brook

Joyce C. Ahlgren, Lecturer
B.A. 1972, University California at Santa Barbara
M.A. 2003, California State University, San Bernardino

Jeremy Aikin, Assistant Professor
B.S. 2013, University of California, Riverside
M.S. 2005, Ph.D. 2009, Louisiana State University

Joseph D. Chavez, Professor
B.S. 1982, University of San Francisco
M.S. 1985, Ph.D. 1987, University of California, Riverside

Corey M. Dunn, Professor
B.S. 2000, Pacific Lutheran University
M.S. 2002, Ph.D. 2006, University of Oregon

Nadia Dyakevich, Professor
M.Sc. 1997, Moscow State Institute of Electronics and Mathematics
M.Sc. 1998, Ph.D. 2002, University of Louisiana at Lafayette

Hajrudin Fejzic, Professor
B.S. 1987, University of Sarajevo, Sarajevo, Bosnia and Herzegovina
Ph.D. 1992, Michigan State University

Davida D. Fischman, Professor
B.S. 1976, M.S. 1978, Ph.D. 1989, Ben Gurion University

Kirsten Fleming, Professor, Dean
Ph.D. 1989, University of Birmingham

Christopher F. Freiling, Professor
B.S. 1975, University of San Francisco
Ph.D. 1981, University of California, Los Angeles

Ilseop Han, Professor
B.A. 1986, M.S. 1988, Korea University

In many ways mathematics functions as a universal language in today's global culture. Upper-division students are encouraged to participate in the California State University's International Programs (p. 14).

Teaching Credential Program
In order to be recommended for the teaching credential students must complete the requirements of the B.A. in Mathematics, Teaching Track as well as certain prerequisites of the teacher education program. For information about the professional education component, admission to the teacher education program or specific requirements for the single subject waiver program contact the Credentials Office, CE-102.

As the role of mathematics in society continues to grow, the value of a solid foundation in mathematics increases. The Department of Mathematics offers four bachelor degrees. The Bachelor of Arts, Teaching Track is recommended by the department for prospective secondary mathematics teachers. Exceptionally well prepared students may undertake the integrated teaching track option, which includes the course work for a Single Subject Teaching Credential. The Bachelor of Science in Mathematics is particularly suitable for students contemplating graduate work, either in mathematics or a related field. The Bachelor of Arts (non teaching track) degree is appropriate for students pursuing a mathematics-related career other than teaching.

Additionally, double majors are not uncommon since the Department of Physics and School of Computer Science and Engineering work closely with the Department of Mathematics in structuring their mathematically based courses.

The department offers two graduate degrees. The Master of Arts degree emphasized mathematical content courses and is appropriate for those planning a career in teaching at the junior college level, or those considering further graduate work. The Master of Arts in Teaching offers a curriculum of combined mathematics and pedagogy courses, making it ideal for middle and high school mathematics teachers. The emphasis is on deepening and broadening the student's knowledge of the mathematics that underlies the high school curriculum. Core courses for both programs are offered in the evening to accommodate the working student.

In many ways mathematics functions as a universal language in today’s global culture. Upper-division students are encouraged to participate in the California State University's International Programs (p. 14).
Bachelor of Arts in Mathematics

Wenxiang Wang, Professor
B.A. 1982, Tsinghua University, Beijing, China
M.A. 1984, Ph.D. 1988, Princeton University

Peter D. Williams, Professor, Associate Dean
B.S. 1979, Ph.D. 1983, University of St. Andrews, Scotland

**Total Units:** 89
Bachelor of Science in Mathematics

MATH 329 Transformation Geometry 4
MATH 331 Linear Algebra 4
MATH 345 Number Theory and Proof 4
MATH 355 Analysis and Proof 4
MATH 372 Combinatorics 4
MATH 465 Probability Theory 4
MATH 545 Abstract Algebra I 4
MATH 553 Analysis I 4

Concentration (40-56)

Students must choose either the general track or one of the applied concentrations which follow:

Total Units 40-56

General Track (Program Code: MAGT)

Lower-division requirement (5)
PHYS 221 General Physics I 5

Electives (36)
Thirty-six units of mathematics electives selected from the following, with at least eight units chosen from 500-level courses. At least twelve units must be chosen from group A, and at least twelve units must be chosen from group B below.

Group A (Applied Mathematics):
MATH 320 Mathematical Interest Theory
MATH 455 Fourier Analysis
MATH 470 Ordinary Differential Equations
MATH 474 Numerical Methods
MATH 557 Complex Variables
MATH 565 Mathematical Statistics
MATH 570 Partial Differential Equations
MATH 576 Introduction to Mathematical Methods

Group B (Pure Mathematics):
MATH 480 Topics in History of Mathematics
MATH 485 Differential Geometry
MATH 510 Topics in Mathematics
MATH 529 Advanced Geometry
MATH 531 Advanced Linear Algebra
MATH 546 Abstract Algebra II
MATH 554 Analysis II
MATH 555 INTRO TO TOPOLOGY
MATH 557 Complex Variables
MATH 570 Partial Differential Equations
MATH 595D Independent Study

Total Units 41

Concentration in Biology (56-58 units)
(Program Code: MABC)

Lower-division requirements (27)
BIOL 200 Biology of the Cell 5
BIOL 201 Biology of Organisms 5
BIOL 202 Biology of Populations 5
CHEM 215 General Chemistry I: Atomic Structure and Chemical Bonding 6
CHEM 216 General Chemistry II: Principles of Chemical Reactions 6

Upper-division requirements (17)

BIOL 300 Cell Physiology 5
MATH 470 Ordinary Differential Equations 4
MATH 565 Mathematical Statistics 4
MATH 576 Introduction to Mathematical Methods 4

Electives (12-14)
A minimum of eight units chosen from:
BIOL 321 Evolution
BIOL 423 Genetics
BIOL 450 Ecology
BIOL 522 Population Genetics
BIOL 572 Virology
BIOL 573 Immunology

Four units chosen from:
MATH 320 Mathematical Interest Theory
MATH 455 Fourier Analysis
MATH 474 Numerical Methods
MATH 480 Topics in History of Mathematics
MATH 485 Differential Geometry
MATH 510 Topics in Mathematics
MATH 529 Advanced Geometry
MATH 531 Advanced Linear Algebra
MATH 546 Abstract Algebra II
MATH 554 Analysis II
MATH 555 INTRO TO TOPOLOGY
MATH 557 Complex Variables
MATH 570 Partial Differential Equations
MATH 595D Independent Study

Total Units 56-58

Concentration in Computer Science (40 units)
(Program Code: MACS)

Lower-division requirement (4)
CSE 202 Computer Science II 4

Upper-division requirements (8)
CSE 320 Programming Languages 4
CSE 330 Data Structures 4

Electives (28)
Twelve units chosen from:
CSE 420 Computer Graphics
CSE 431 Algorithm Analysis
CSE 500 Introduction to Formal Languages and Automata
CSE 501 Introduction to Theory of Computation
CSE 512 Introduction to Artificial Intelligence
CSE 513 Advanced Artificial Intelligence
CSE 515 Automated Reasoning
CSE 520 Advanced Computer Graphics
CSE 524 Supercomputing and Visualization
CSE 535 Numerical Computation
CSE 550 Advanced Bioinformatics I: Sequence Analysis
CSE 551 Advanced Bioinformatics II: Numerical Modeling

Sixteen units of mathematics electives selected from the following, with at least eight units chosen from 500-level courses:

Total Units 41
MATH 320  Mathematical Interest Theory
MATH 455  Fourier Analysis
MATH 470  Ordinary Differential Equations
MATH 474  Numerical Methods
MATH 480  Topics in History of Mathematics
MATH 485  Differential Geometry
MATH 510  Advanced Geometry
MATH 529  Advanced Geometry
MATH 531  Advanced Linear Algebra
MATH 546  Abstract Algebra II
MATH 554  Analysis II
MATH 555  INTRO TO TOPOLOGY
MATH 557  Complex Variables
MATH 565  Mathematical Statistics
MATH 570  Partial Differential Equations
MATH 576  Introduction to Mathematical Methods
MATH 595D  Independent Study

Total Units 40

Concentration in Economics (40 units) (Program Code: MAEC)

Lower-division requirements (8)
- ECON 200  Principles of Microeconomics 4
- ECON 202  Principles of Macroeconomics 4

Upper-division requirements (12)
- MATH 320  Mathematical Interest Theory 4
- MATH 565  Mathematical Statistics 4
- MATH 576  Introduction to Mathematical Methods 4

Electives (20)
Sixteen units chosen from:
- ECON 300  Intermediate Macroeconomics
- ECON 302  Intermediate Microeconomics
- ECON 360  Economics of the Environment
- ECON 410  Money and Banking
- ECON 430  International Economics
- ECON 435  Multinational Corporations
- ECON 475  Public Economics
- ECON 480  Quantitative Methods in Economics
- ECON 490  Introduction to Econometrics

Four units chosen from:
- MATH 455  Fourier Analysis
- MATH 470  Ordinary Differential Equations
- MATH 474  Numerical Methods
- MATH 480  Topics in History of Mathematics
- MATH 485  Differential Geometry
- MATH 510  Topics in Mathematics
- MATH 529  Advanced Geometry
- MATH 531  Advanced Linear Algebra
- MATH 546  Abstract Algebra II
- MATH 554  Analysis II
- MATH 555  INTRO TO TOPOLOGY
- MATH 557  Complex Variables

Total Units 40

Concentration in Geographic Information Systems (48 units) (Program Code: MAGI)

Lower-division requirements (14)
- GEOG 103  Physical Geography 5
- GEOG 201  Map Interpretation 4
- GEOG 202  Introduction to Geographic Information Systems and Cartography 5

Upper-division requirements (14)
- GEOG 308  Advanced Geographic Information Systems 5
- GEOG 402  Geographic Information Systems Applications 5
- MATH 470  Ordinary Differential Equations 4

Electives (20)
At least eight units to be chosen from:
- GEOG 306  Remote Sensing of the Environment
- GEOG 406  Digital Image Processing
- GEOG 575D-E Internship in Geography

Twelve units selected from the following with at least eight units chosen from 500-level courses:
- MATH 320  Mathematical Interest Theory
- MATH 455  Fourier Analysis
- MATH 474  Numerical Methods
- MATH 480  Topics in History of Mathematics
- MATH 485  Differential Geometry
- MATH 510  Topics in Mathematics
- MATH 529  Advanced Geometry
- MATH 531  Advanced Linear Algebra
- MATH 546  Abstract Algebra II
- MATH 554  Analysis II
- MATH 555  INTRO TO TOPOLOGY
- MATH 557  Complex Variables
- MATH 565  Mathematical Statistics
- MATH 570  Partial Differential Equations
- MATH 576  Introduction to Mathematical Methods
- MATH 595D  Independent Study

Total Units 48

Concentration in Physics (49 units) (Program Code: MAPC)

Lower-division requirements (21)
- PHYS 221  General Physics I 5
- PHYS 222  General Physics II 5
- PHYS 223  General Physics III 5
- PHYS 224  General Physics IV 3
- PHYS 225  General Physics V 3

Upper-division requirement (4)
- PHYS 373  Mathematical Methods of Physics I 4

Electives (24)
Twelve units chosen from:
- MATH 570  Partial Differential Equations
- MATH 595D  Independent Study

Total Units 40
Admission to the Program

In addition to the general requirements of the university, which include a baccalaureate degree from an accredited college, specific requirements for admission to the program are:

1. Successful completion with a grade of at least "B" (3.0) of course work in calculus, abstract algebra, analysis, geometry, number theory and probability deemed equivalent to the core of the mathematics major at California State University, San Bernardino.

2. Students who do not meet these criteria may be admitted as conditionally classified graduate students following review by the Department of Mathematics Graduate Committee.

3. Submission of a completed M.A. in Mathematics application form;

4. Completion of the graduate entrance writing requirement;

5. Three letters of recommendation;

6. A letter of not more than three pages, outlining background, experience admission to this program and career goals.

Advising

Each graduate student should seek advising from the graduate coordinator or other departmental faculty before enrolling in their program. In consultation with their advisor, they will develop an appropriate course of study based on their preparation and interests. The specific program must be approved by the department graduate committee prior to Advancement to Candidacy.

In the latter part of the program, a student will also need a project advisor. Such an advisor should be selected two or three quarters before enrolling in MATH 696, which is required of all master's candidates.

Advancement to Candidacy

In order to be advanced to candidacy, the student must:

1. Achieve classified status;

2. Complete at least 15 quarter units and not more than 20 units of applicable work as a graduate student at this university, with a grade point average of at least 3.0 ("B");

3. Begin assembling their portfolio by contributing at least one exemplary problem solution or one proof as described in item 6 of "Requirements for Graduation;"

4. Submit a formal program of graduate work prepared in consultation with and approved by the departmental graduate committee;

5. Gain final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. Advancement to candidacy for the degree;

2. A minimum of 48 quarter units of acceptable graduate level work as specified below in the formal program;

3. No less than 34 units completed in residence at this university;

4. Completion of a graduate project (MATH 696 and MATH 697). A project proposal must be approved by the departmental graduate committee no later than the quarter preceding enrollment in MATH 696. The written project satisfies the graduation writing requirement. Successful completion of MATH 697 also includes an oral presentation of the project to the department. Guidelines for submitting a project proposal and for the project itself are available from the department office;
5. A grade point average of at least 3.0 ("B") in the core courses as well as an overall grade point average of at least 3.0 ("B") in the program, with no course grade being less than "B-;"

6. Submit a portfolio containing the following items:
   a. A copy of the approved Advancement to Candidacy form,
   b. Three examples of exemplary solutions to problems in the student's classes,
   c. Four examples of proofs that the student has written in classes in the program, explaining the significance to the material studied,
   Note: Each of the seven examples above should be from a different course. Name and number must identify the course.
   d. An announcement of the seminar at which the student presents the project,
   e. An abstract of the thesis,
   f. A completed student questionnaire;

7. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

**Master of Arts in Teaching-Mathematics**

Not offered in the 2017-18 Academic Year

Requirements (48 units)

Program Code: MATM

The Master of Arts in Teaching Mathematics (MAT) program is designed for single subject credential teachers who wish to obtain a deeper understanding of mathematics and the teaching of mathematics as it applies to the secondary level.

**Admission to the Program**

In addition to the general requirements of the university, which include a baccalaureate degree from an accredited college, specific requirements for classification in the program are:

1. Successful completion with a grade of "B" (3.0) or better in course work deemed equivalent to the following courses at California State University, San Bernardino:
   - MATH 211 Basic Concepts of Calculus 4
   - MATH 212 Calculus II 4
   - MATH 213 Calculus III 4
   - MATH 251 Multivariable Calculus I 4
   - MATH 329 Transformation Geometry 4
   - MATH 345 Number Theory and Proof 4
   - MATH 372 Combinatorics 4

2. A teaching credential;

3. Submission of a completed Master of Arts in Teaching with a major in Mathematics (MAT) application form;

4. Completion of the graduate entrance writing requirement;

5. Three letters of recommendation;

6. Submission of a one- or two-page typewritten statement of the student's area of interest, preparation for study in this program and professional goals;

7. Approval by the Graduate Coordinator.

Students who do not meet these criteria may be admitted as conditionally classified graduate students following review by the Department of Mathematics and the College of Education.

**Advising**

Each graduate student must be advised by the graduate coordinator or other MAT faculty before enrolling in the program. Students will develop an appropriate course of study based on their preparation and interests in consultation with an advisor. The specific program must be approved by the MAT Graduate Committee prior to advancement to candidacy.

In the latter part of the program, a student will need a project advisor and two additional members of a project committee, at least one committee member from the department of mathematics and at least one from the College of Education. The student will enroll in EDUC 600 or MATH 699 depending on the affiliation of the project advisor. Members of the project committee should be selected as early as possible in the program, and at least two or three quarters before enrolling in the graduate project course.

**Advancement to Candidacy**

In order to be advanced to candidacy, the student must:

1. Achieve classified status;

2. Submit a formal program of graduate work prepared in consultation with an advisor and approved by the MAT Graduate Committee;

3. Complete at least 15 quarter units and not more than 20 units of applicable work as a graduate student at this university, with a grade point average of at least 3.0 ("B");

4. Gain final approval of the program and of the candidacy itself by the Dean of Graduate Students.

**Requirements for Graduation**

1. Advancement to candidacy for the degree;

2. A minimum of 48 quarter units of acceptable graduate level work as specified below in the formal program;

3. No fewer than 34 units completed in residence at this university;

4. Completion of a graduate thesis. A thesis proposal must be approved by the MAT Graduate Committee no later than the quarter preceding
enrollment in EDUC 600 or MATH 699. The written thesis satisfies the graduation writing requirement. Successful completion of the thesis includes an oral presentation of the thesis to the faculty. Guidelines for submitting a thesis proposal and for the thesis itself are available from the offices of the Department of Mathematics;

5. Submission and approval of a student portfolio assessing and documenting academic progress. Portfolio guidelines are available from the Department of Mathematics;

6. A grade point average of at least 3.0 (“B”) in the core courses as well as an overall grade point average of 3.0 (“B”) in the program, with no course grade being less than “B-“;

7. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

Four units chosen from upper-division elective course work in mathematics courses applicable to the major.

Total Units 34
Certificate in Introductory Actuarial Science

Requirements (50 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

This program is designed to prepare students for the preliminary examinations given by the Society of Actuaries. Completion of those exams is normally considered the prerequisite for internships and entry-level positions in the field of actuarial science. For more information contact the Department of Mathematics.

Certificate Requirements

Courses must be completed with a grade of "C" or better.

Component Areas (20)

Select at least one course from each of the following five areas, with no course used to satisfy more than one area:

A1: Algebra
- MATH 110 College Algebra
- MATH 192 Methods of Calculus
- or MATH 211 Basic Concepts of Calculus

A2: Advanced Algebra
- MATH 120 Pre-Calculus Mathematics
- MATH 192 Methods of Calculus
- or MATH 211 Basic Concepts of Calculus
- MATH 212 Calculus II

A3: Geometry
- MATH 192 Basic Concepts of Calculus
- MATH 229 Geometry in Two and Three Dimensions

A4: Probability and Statistics
- MATH 115 The Ideas of Mathematics
- MATH 262 Applied Statistics
- or MATH 229 Geometry in Two and Three Dimensions

A5: Development of the Real Number System
- MATH 192 Methods of Calculus
- or MATH 211 Basic Concepts of Calculus
- MATH 212 Calculus II

Certificate in Introductory Mathematics

Requirements (48 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The Certificate in Introductory Mathematics has been approved by the California Commission on Teaching Credentialing to meet the required components for the Subject Matter Authorization: Introductory Mathematics. Completion of this program allows students to apply for the Subject Matter Authorization: Introductory Mathematics for teaching the content matter up through the ninth grade mathematics.

Holders of a valid California teaching credential who satisfy the following requirements in algebra, geometry, and development of the real number system and who complete at least thirty units of this certificate may apply to the California Commission on Teacher Credentialing for a supplementary authorization in mathematics.

Certificate Requirements

Courses must be completed with a grade of "C" or better.

Component Areas (20)

Select at least one course from each of the following five areas, with no course used to satisfy more than one area:

A1: Algebra
- MATH 110 College Algebra
- MATH 192 Methods of Calculus
- or MATH 211 Basic Concepts of Calculus

A2: Advanced Algebra
- MATH 120 Pre-Calculus Mathematics
- MATH 192 Methods of Calculus
- or MATH 211 Basic Concepts of Calculus
- MATH 212 Calculus II

A3: Geometry
- MATH 192 Basic Concepts of Calculus
- MATH 229 Geometry in Two and Three Dimensions

A4: Probability and Statistics
- MATH 115 The Ideas of Mathematics
- MATH 262 Applied Statistics
- or MATH 229 Geometry in Two and Three Dimensions

A5: Development of the Real Number System
- MATH 192 Methods of Calculus
- or MATH 211 Basic Concepts of Calculus
- MATH 212 Calculus II
### Electives (28)

Department of Nursing
Health and Physical Education, Room 215
(909) 537-5380 Department of Nursing website (http://nursing.csusb.edu)

Bachelor of Science
• Accredited by the Commission on Collegiate Nursing Education (CCNE)
• Nursing
• RN to BSN Bridge Program

Master of Science in Nursing
The Department of Nursing offers a program leading to the Bachelor of Science degree with a major in nursing. The program is approved by the Board of Registered Nursing of California, accredited by the Commission on Collegiate Nursing Education (CCNE), and meets requirements for public health nursing certification in California.

Courses are provided that include theory and clinical experience in caring for clients across the life span who are from diverse psychosocial and cultural backgrounds. A wide range of health care agencies is used for clinical experience. The intent of the program is to graduate generalists in nursing who are concerned with promoting optimum health in a variety of settings.

The B.S. in Nursing is an impacted program. Students are screened for admission to the program prior to the first nursing course, NURS 200. The major factor in screening is the student's grades in courses prerequisite to NURS 200. Only California permanent residents are eligible for admission. All pre-nursing majors should attend a general advising session with the Nursing Department. Contact the Department of Nursing for more information or visit the website.

Students in the nursing program must carry malpractice insurance, personal health insurance, and workers compensation (as required by clinical agencies). Low-cost insurance is available through the Student Nurses Association of California and through professional organizations for registered nurses or through many independent companies. Nursing students must have a valid California driver’s license and access to an automobile covered by appropriate automobile insurance. Prior to entering the first quarter of classes, students must have a current American Heart Association CPR-Healthcare Provider card, proof of a physical examination, proof of immunity to rubella, hepatitis B and other specified infectious diseases, and a two-step Mantoux skin test, or a chest x-ray if there is proof of a positive TB skin test.

Additional immunizations may be required. Proofs of bi-annual renewal of CPR certification and annual PPD testing or chest x-ray, if indicated, will be required. Information about professional behavior, clinical attire, picture identification and other regulations can be found in the undergraduate student handbook. All nursing students are required to complete a background check upon admission to the program. Additional background checks, including drug screen testing may be required by certain clinical agencies at the student's expense. All convictions must be reported, except for minor traffic violations. When applying for licensure with the Board of Registered Nursing (BRN), all prior convictions will be reviewed as related to the qualifications, functions or duties of a registered nurse. Each application is evaluated on a case-by-case basis. The BRN considers the nature, severity, and recency of the offenses, as well as rehabilitation and other factors. When applying for licensure with the BRN, prospective nursing students are advised that they will have to disclose their social security number.

Registered Nurse Applicants
Nurses possessing an associate degree or diploma in nursing and holding current California licensure as a registered nurse may apply for admission as a transfer student at the junior level. Diploma graduates may enter the university as “natural sciences undeclared (nursing) majors” while completing lower-division requirements.

RN to BSN
The RN to BSN program is hybrid-online administered through the Palm Desert Campus. Students meet once a month at PDC for each Nursing course and participate online for the rest of each quarter.

Departmental Honors
A graduating senior will be awarded departmental honors in nursing after meeting the following requirements:
1. Achieve a minimum grade point average of 3.6 in all upper-division courses taken at the university;
2. A clear demonstration of the ability to do independent work in nursing and recommendation by the faculty of the Department of Nursing.

- Nursing (p. 384) with concentrations in
  - Nurse Educator
  - Advanced Community/Public Health Nursing
  - Population-Based Nursing

Bachelor of Science in Nursing
Requirements (127 units)

Total units required for graduation: 180

Admission Requirements
1. Application must be submitted by March 1 for Fall term and October 1 for Winter term;
2. Completion of the ATI-TEAS pre-admission examination by admission application deadline;
3. A minimum grade point average of 3.0 overall and 3.0 on prerequisite courses listed below;
4. Additional supplemental requirements for impacted programs include health care experience, second language competence and local service area residency.

Department Regulations
1. Students in the Nursing major must earn grades of "C" or better in all courses prerequisite or corequisite to the major. If a grade less than "C" is earned in any nursing major course, the student will be dropped from the Nursing program. Upon successful re-application to the Nursing major, Nursing courses for which the student has earned less than a grade of "C" may be attempted or repeated only one time. Students may not enroll in any course that requires other nursing prerequisites unless the prerequisite courses are completed with grades of "C" or better. Additional academic policies can be found in the Department of Nursing BSN Nursing Student Handbook.
2. Students are responsible for all information and performance of all policies in the Department of Nursing BSN Nursing Student Handbook including annual updates.
3. Students on academic probation must remove grade-point deficiencies before progressing further in the nursing program.
4. Nursing students must carry malpractice insurance in the amount of not less than $1,000,000 per occurrence and $3,000,000 per year or more in order to be admitted to clinical courses.
5. Prior to the first quarter of classes, students must submit a report of a recent physical examination, including tuberculosis skin testing, indicating that they are able to engage in activities required to meet the expectations of the program. Exams are available by appointment through the Student Health Center for a fee. Immunizations and/or proofs of immunity are required. Contact the Department of Nursing for more information.
6. Students must have current Health Insurance. See Department for instructions.
7. Students must have a current background check prior to their clinical experience. See Department for instructions.
8. Students must have access to insured transportation for their clinical experience.
9. Clothing required by the clinical facility appropriate for that setting must be provided by the students with appropriate identification by name and school. (Name pin and arm patch are available for purchase at the Coyote Bookstore.)
10. Advisement with a faculty member is recommended prior to registration each quarter. Advisement is required prior to registration for spring quarter.
11. Students must participate in the department competency assessment program.
12. Students must obtain and wear Nursing Student Name Badges to: all orientation events, clinical laboratories, SIM labs, open labs, and exams throughout the program.
13. Students are required to participate in new student orientation, admissions boot-camp and boot camps as assigned annually.
14. The nursing program courses begin with NURS 202.

Degree Requirements (Program Code: NRSG)

One critical thinking course that satisfies category A4 in the General Education Program.

Freshman Composition (G.E.). Four units chosen from:
Bachelor of Science in Nursing - RN to BSN Bridge Program

Requirements (180 units)

Total units required for graduation: 180

RN to BSN (Program Code: RNBS)

The RN to BSN program is hybrid-online administered through the Palm Desert Campus. Students meet once a month at PDC for each Nursing course and participate online for the rest of each quarter.

Department Regulations

1. Admission requirements
   a. A grade point average of 3.0 or better in prerequisite support courses listed below;
   b. A grade point average of 3.0 or better in the A.D.N. program or diploma program;
   c. Submission of an active California Registered Nurse (RN) License;
   d. Submission of RN screening form and all transcripts;
   e. Application to CSUSB with second set of transcripts;
   f. Students who are close to these standards may be admissible upon remediation.

2. This program assumes all lower-division general education requirements have been met. The IGETC is valuable, but not required. Some lower division general education courses can be completed while the B.S. in Nursing program is in progress, but this will extend time to graduation.

3. Sixteen units of upper-division General Education courses are required (see General Education Program (p. 48) for further information).

4. Students may transfer in a maximum of 105 lower-division coursework units towards the major.

5. Students may need to take additional units at CSUSB to satisfy the 180-unit requirement.

6. NURS 310 is the prerequisite course for all courses required in the B.S. in Nursing program.

7. Prior to participating in the program, RN students must provide proof of immunity to certain infectious diseases, personal health insurance, workers compensation (as required by certain clinical agencies), a valid California driver's license and access to an automobile covered by appropriate automobile insurance. Also required are a current American Heart Association Healthcare Provider CPR card, a background check, and other immunizations. The specifics of requirements may change, contact the Department of Nursing for additional requirements.

Total Units: 90

**Master of Science in Nursing**

**Requirements:**

**Nurse Educator (65 units) (Program Code: NRNE)**

**Advanced Community/Public Health Nursing (71 units) (Program Code: NCNS)**

**Population-Based Nursing (57 units) (Program Code: NPBA)**

The Department of Nursing offers a graduate program leading to a Master of Science in Nursing with a clinical focus in population-based (advanced public/community health) nursing. The program is designed to educate professional nurses for leadership and service in culturally diverse, pluralistic communities.

Graduates of the MS program will work collaboratively with other health care providers and participate effectively in interdisciplinary models of health care delivery. They are prepared to assume leadership roles in the creation of health care systems which will provide equality of access, high standards of care and caring, and the cost-effective use of resources.

As with all Masters’ Programs at CSUSB, a B average is required to be in good standing. A B- is required to pass a masters’ nursing course.

The Nurse Educator concentration prepares Nursing Faculty to teach in Nursing Programs at both community and four-year universities. This program is also appropriate for advanced practice nurses interested in population health education and health education programming.
Graduates who complete the Advanced Public/Community Health Option are prepared for National Board Certification (AACN) in Advanced Public Health Nursing.

Admission to the Program
In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree in nursing from an accredited program, OR a baccalaureate degree in a discipline related to nursing. Applicants with non-nursing baccalaureate degrees must meet competencies in research, leadership, and community health. Competency may be verified through coursework, testing or certification;
2. A grade point average of 3.0 (“B”) in the last 60 semester (90 quarter) units attempted;
3. Current licensure to practice nursing in California (RN);
4. Professional and/or academic competence in nursing attested through three personal recommendations;
5. Successful completion of an upper-division undergraduate statistics course;
6. Completion of NURS 601 Preparation for MSN Learning with Technology;
7. Completion of the graduate entrance writing requirement.

Department Regulations
1. MSN students must carry malpractice insurance in the amount of not less than $1,000,000 per occurrence and $3,000,000 per year or more in order to be admitted to clinical courses;
2. Prior to the first clinical course and yearly thereafter, students must submit a medical report of a recent physical examination, including tuberculosis skin testing, indicating that they are able to engage in activities required to meet the expectations of the program. Exams are available through the Student Health Center for a fee. Immunizations are required. Contact the Department of Nursing for more information;
3. Students must have current Health Insurance. See Department for instructions;
4. Students must have a current background check prior to their clinical experience. See Department for instructions;
5. Students must have access to insured transportation for their clinical experience;
6. A current Cardiopulmonary Resuscitation card, American Heart Association (AHA) Health Care Provider. Students pursuing the School Nurse Credential must also meet the following requirements:
7. A current First Aid card;
8. Completion of state approved audiometry course.

Advancement to Candidacy
In order to be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Completed at least 30 quarter units of course work with a minimum grade point average of 3.0 (“B”);
3. Been accepted by a major advisor for the Department of Nursing who will also accept chairing the student’s project/thesis committee;
4. Filed an approved program for completion of the graduate degree. This program must be prepared in consultation with the major advisor and approved by the Program Coordinator and the Dean of Graduate Studies;
5. Demonstrated professional competence and integrity in academic and clinical practice settings.

Requirements for Graduation
In addition to the general requirements of the university:

1. Advancement to candidacy for the MS degree in nursing;
2. A minimum of 45-63 quarter units of designated courses depending on the concentration(s) selected, as approved on the petition for advancement to candidacy;
3. For the Nurse Educator concentration, a minimum of 46 units completed in residence at this University and at least 46 units earned from 500- and 600-level courses approved by the program;
4. For the Advanced Community/Public Health Nursing concentration, a minimum of 50 units completed in residence at this University and at least 50 units earned from 500- and 600-level courses approved by the program;
5. For the Population-Based Nursing concentration, a minimum of 40 units completed in residence at this University and at least 40 units earned from 500- and 600-level courses approved by the program;
6. A grade point average of at least 3.0 (“B”) in all graduate course work fulfilling the requirements for the M.S. in Nursing, and grades of “C” (2.0) or better in all elective courses;
7. Choose A, B or C below as required by the concentration:
   a. Completion and presentation of an acceptable clinical project;
   b. Completion and defense of an acceptable thesis;
   c. Completion of NURS 999 and NURS 690.

The written comprehensive examination is designed to test the student’s knowledge of the field of advanced community health nursing practice. Students may enroll in the examination no earlier than the last quarter in which coursework is taken and must be advanced to candidacy one quarter before taking the comprehensive examination. The student must complete a graduation check with the Office of Records, Registration and Evaluations before permission to take the examination can be granted. Students who do not receive a passing score may petition the MSN Graduate Committee to retake the exam within one year. After an exam failure, the candidate and advisor will discuss actions necessary for remediation of shortcomings. For more information related to the comprehensive examination process and scheduling contact an MSN program faculty.

Minor

• Physics
• Applied Physics

Traditionally, physics majors have gone on to graduate work in physics, high school teaching, or employment in industrial or government laboratories. Other opportunities which have recently become interesting for physics graduates include atmospheric physics (including air pollution studies), geophysics, radiation safety, oceanography, astrophysics, technical administration, biophysics, computer science and medical instrumentation development.

The program for a bachelor of arts degree in physics provides basic knowledge in the main subject areas of physics as well as an opportunity for students to elect a considerable number of courses in other disciplines. This is a good choice for students planning careers in high school teaching. The bachelor of science program includes additional course work in physics and related fields which further prepares a student for employment or graduate work.

The Applied Physics option is designed to prepare students for direct employment in high-technology firms upon graduation. For traditional design tasks, high-technology firms typically hire applied physicists with a flexible and creative technical ability who can address a wide range of technical problems and develop an experimental system to attack problems. A solid understanding of theoretical physics across the curriculum is required and the ability to design, interface and control experimental apparatus. Because the tasks that applied physicists perform in the industrial environment are primarily experimental in nature, this option includes a number of laboratory courses in addition to the theory curriculum core: PHYS 150. Introductory Electronics; CSE 201. Computer Science I; PHYS 350. Data Acquisition and Control; PHYS 352. Advanced Electronics; and PHYS 430. Advanced Physics Laboratory.

The courses in the applied physics option prepare students to function effectively in the computer-based experimental environment that they face in research and development, testing or process control.

Pre-engineering - The campus provides a pre-engineering program that enables students to complete the first two years of courses generic to engineering. Students may then transfer to an accredited engineering program of their choice. The following courses have been recommended as appropriate transfer courses:

<table>

Selected courses in computer science and general education

Students considering a physics or pre-engineering major should call the department office for advising.
Departmental Honors

To be awarded departmental honors in physics a student must:

1. Achieve at least a 3.5 minimum grade point average in courses required for the major taken at California State University, San Bernardino and at least a 3.0 grade point average overall;
2. Conduct advanced research on a topic approved by a faculty member who will serve as project director;
3. Obtain written approval upon successful completion of the project from the project director and the chair, and present the results of the research to the department or at a research conference, and/or publish the results in a peer-reviewed scientific journal.

B.S. 1977, Michigan State University
Ph.D. 1983, State University of New York at Stony Brook

Paul A. Renteln, Professor
B.A. 1981, University of California, Berkeley
Ph.D. 1988, Harvard University

Javier Torner, Professor, Director
B.S. 1978, J.P.M. Mexico
M.S. 1972, Ph.D. 1985, Illinois Institute of Technology

Timothy D. Usher, Professor
B.S. 1981, Appalachian State University
Ph.D. 1990, University of South Carolina

Laura M. Woodney, Professor
B.A. 1993, John Hopkins University
M.S. 1997, Ph.D. 2000, University of Maryland

Emeritus

Leo P. Connolly, Professor

Undergraduate Degrees

Bachelor of Arts

• Physics (p. 387)

Bachelor of Science

• Physics (p. 388)
• Applied Physics (p. 388)

Minors

• Physics (p. 389)
• Applied Physics (p. 388)

Bachelor of Arts in Physics

Requirements (89 units)

Total units required for graduation: 180

Requirements for the B.A. in Physics
(Program Code: PHYS)

Lower-division requirements (53)

Total Units 65
School of Computer Science and Engineering

Accredited by ABET (B.S. in Computer Science, BS in Computer Engineering)

School of Computer Science and Engineering

Jack Brown Hall, Room 307
(909) 537-5326 Computer Science and Engineering website (http://cse.csusb.edu)

Bachelor of Arts

• Computer Systems
  • With options in:
    • General Interdisciplinary
    • Game Development
    • Graphics Programming
    • Web Programming
    • System Administration

Bachelor of Science

• Bioinformatics
• Computer Engineering
• Computer Science

Minor

Computer Science

Certificate Program

Computer Systems and Programming

Master of Science

• Computer Science

Computer science is a discipline with historical foundations in science, mathematics and engineering. It is concerned with the study of a variety of topics including computer design, computer programming, information processing, data communication, machine intelligence, robotics, the algorithmic solution of problems, and the various representations of information including numeric, alphabetic, visual, audio, and sensory. This discipline deals with effective ways to represent and manipulate information, algorithms to process information, hardware systems and technologies to run software, design methodologies for hardware and software systems, and engineering techniques for ensuring the accuracy and cost effectiveness of these processes.

The Bachelor of Science in Computer Engineering is accredited by ABET/EAC. Computer engineering is a discipline with historical foundations in computer science and electrical engineering. It is concerned with the study of a variety of topics including circuit design, programmable logic, computer design, computer programming, software engineering, data communication, machine intelligence, robotics, the algorithmic solutions of problems, and the various representations of information including numeric, alphabetic, visual, audio, and sensory. This discipline deals with effective ways to represent and manipulate information, algorithms to process information, hardware systems and technologies to run software, design methodologies for hardware and software systems, and engineering techniques for ensuring the accuracy and cost effectiveness of these processes.

The Bachelor of Science in Bioinformatics provides students with a background and skills useful for research and development in the growing biotechnology industries. Bioinformatics is the interdisciplinary study of biology and biochemical systems using mathematics and computer science. It involves the use of computers and statistics to make sense out of large amounts of data that are accumulating from high-throughput biological and chemical experiments, such as sequencing of whole gnomes, DNA microarray chips, two-hybrid experiments, and tandem mass spectrometry. The bioinformatics degree program is a collaboration between the School of Computer Science and Engineering, the Department of Biology and the Department of Chemistry and Biochemistry.

The Bachelor of Arts in Computer Systems program emphasizes the application of principles to practical problem solving in a domain of interest. Students complete a core set of foundation courses and coursework in one of the following concentrations: web programming, system administration, game development, graphics programming. Students also have the ability to combine the study of computer systems with another field of study through the general interdisciplinary option.

The Bachelor of Science in Computer Systems program emphasizes the application of principles to practical problem solving in a domain of interest. Students complete a core set of foundation courses and coursework in one of the following concentrations: web programming, system administration, game development, graphics programming. Students also have the ability to combine the study of computer systems with another field of study through the general interdisciplinary option.

Departmental Honors

Candidacy for honors in your major voluntary and must be applied for at the beginning of the senior year. The department will determine whether a student is to be awarded departmental honors based upon the following criteria. Other factors may also be taken into account when designating honors.

Departmental Honors in Computer Science or Computer Systems

1. Demonstration of independent work by achieving a grade of "C" (2.0) or better in a four-unit CSE 595. Independent Study or credit in CSE 575. Internship in Computer Science;
2. Attainment of a minimum overall grade point average of 3.0 ("B") in all university courses attempted and a minimum grade point average of 3.5 in all computer science courses required by the major (as defined above);
3. At least five upper-division computer science courses required by the major must be taken at this university.
Departmental Honors in Computer Engineering

1. Demonstration of independent work by achieving a grade of "C" or better (2.0) in any one of the following:
   a. CSE 575. Internship in Computer Science (4)
   b. CSE 595. Independent Study (4)
   c. PHYS 585. Internship in Physics (4)
   d. PHYS 595. Independent Study (4)

2. Attainment of a minimum overall grade point average of 3.0 ("B") in all university courses attempted and a minimum grade point average of 3.5 in all computer science courses required by the major.

3. At least five upper-division computer engineering courses required by the major must be taken at this university.

Departmental Honors in Bioinformatics

1. Demonstration of independent work by completing an internship or independent study through the School of Computer Science and Engineering, Department of Biology or Department of Chemistry and Biochemistry.

2. Attainment of a minimum overall grade point average of 3.0 ("B") in all university courses attempted and a minimum grade point average of 3.5 in all courses required by the major.

3. At least five upper-division courses required by the major must be taken at this university.

Current Faculty

Arturo I. Concepcion, Professor
B.S. 1969, University of Santo Tomas, Manila
M.S. 1981, Washington State University
Ph.D. 1984, Wayne State University, Detroit

George M. Georgiou, Professor
B.S.E.E. 1985, Louisiana Tech University
M.S.E.E 1987, M.S. 1988, Louisiana State University
M.S. 1990, Ph.D. 1992, Tulane University

Ernesto Gomez, Associate Professor
B.A. 1969, Cornell University
M.S. 1975, Universidad de Puerto Rico
Ph.D. 2005, University of Chicago

Yasha Karant, Professor
B.A. 1975, Immaculate Heart/Cal Tech
Ph.D. 1981, University of California, Berkeley

Josephine G. Mendoza, Professor
B.S. 1974, M.Eng. 1977, University of the Philippines
Ph.D. 1984, University of Illinois

Owen J. Murphy, Professor
B.A. 1979, Holy Cross
M.S. 1982, Worcester Polytechnic Institute
Ph.D. 1985, Syracuse University

Haiyan Qiao, Associate Professor
B.S. 1993, Huanzhong University, China
M.S. 2002, North Dakota State University
Ph.D. 2007, University of Arizona

David A. Turner, Professor
B.S. 1980, Wichita State University
M.S. 1983, University of Massachusetts
Ph.D. 2001, Institute Eurecom, Sophia Antipolis, France

Kerstin Voigt, Professor, Director
Vordiplom 1981, Johann-Wolfgang-Goethe University of Frankfurt, Germany
M.S. 1984, Ph.D. 1994, Rutgers University

Tong L. Yu, Professor
B.S. 1977, Chinese University of Hong Kong
M.S.E. 1982, Ph.D. 1986, Johns Hopkins University

Kay Zemoudeh, Professor
B.S. 1981, M.S. 1984, University of Southwestern Louisiana
Ph.D. 1990, University of South Carolina

Emeriti

Richard J. Botting, Professor

Dennis Ikenberry, Professor

### Master of Science in Computer Science

#### Requirements (45 units)

**Program Code:** CSCM

The Master of Science in Computer Science degree program provides a technically oriented postbaccalaureate scientific education for those who wish to acquire or extend their knowledge in the field of computer science. The program combines both the study of modern computer devices and their applications along with the study of the philosophical foundations which underlie the discipline.

In addition to the above goals and objectives, the program is also committed to improving the writing and communication skills of the student.

#### Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:
1. An acceptable score on the GRE (general examination only);
2. Three letters of recommendation;
3. Completion of the graduate entrance writing requirement;
4. A statement of purpose from the student; and
5. Either A or B below:
   a. A baccalaureate degree in computer science;
   b. A baccalaureate degree in a related field with a cumulative grade point average of "B" (3.0) or better with no grade lower than "C +" (2.3) in a selection of program preparatory courses including:
      The equivalent of a one-year sequence of "Introduction to Computer Science" courses, as defined by the ACM Curriculum Committee as courses CS1 and CS2. This can be satisfied by the successful completion of:
      - CSE 201 Computer Science I 4
      - CSE 202 Computer Science II 4
      - CSE 330 Data Structures 4
      Courses in calculus and discrete mathematics equivalent to:
      - MATH 211 Basic Concepts of Calculus 4
      - MATH 212 Calculus II 4
      - MATH 213 Calculus III 4
      - MATH 272 Discrete Mathematics 4
      - MATH 372 Combinatorics 4
      Courses in computer science equivalent to:
      - CSE 310 Digital Logic 5
      - CSE 313 Machine Organization 4
      - CSE 401 Contemporary Computer Architecture 5
      - CSE 431 Algorithm Analysis 4
      - CSE 455 Software Engineering 4
      - CSE 460 Operating Systems 4
      - CSE 500 Introduction to Formal Languages and Automata 4

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Secured a major advisor from the School of Computer Science and Engineering for the preparation of the thesis or the implementation of a project;
3. Completed at least 12 quarter units and no more than 20 quarter units of work applicable to the degree program as a graduate student at this university with a minimum grade point average of 3.0 ("B");
4. Submitted a formal program of graduate study prepared in consultation with and approved by the School of Computer Science and Engineering graduate committee and/or the major advisor. This program of graduate study should include an abstract to serve as a thesis research proposal for thesis option or a tentative title and description of the project for the project option, or enrollment in CSE 689 for the exam option;
5. For students choosing the project option, satisfactory passage of the comprehensive oral examination to be administered by the graduate committee;
6. Obtained final approval of the program and of the candidacy itself by the School of Computer Science and Engineering graduate committee and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 45 quarter units of acceptable graduate-level work included in the formal program with 500- and 600-level courses in computer science. No more than eight units may be earned from 500-level courses;
2. Advancement to candidacy and approval of the specific program of study;
3. A public presentation for the thesis or project option;
4. Completion of a final oral examination concluded by acceptance of the thesis, for the thesis option; satisfactory completion of the comprehensive oral examination and completion of the project, for the project option; or satisfactory completion of the comprehensive written examination, for the examination option;
5. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and completion of all requirements for the degree;
6. A grade point average of at least 3.0 ("B") in all graduate course work fulfilling the requirements of the Master of Science in Computer Science and grades of "C" (2.0) or better in all courses in the program;
7. For the thesis option, the student will submit the written thesis in bound form to the department. For the project option, the student will submit the written software engineering documentation in bound form to the department;
8. The graduation writing requirement is met upon successful completion of term papers in the graduate courses taken by the student and the writing of the thesis or software engineering documentation of the project;
9. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

Department Graduate Committee and Major Advisor

The School of Computer Science and Engineering graduate committee consists of the graduate coordinators and two or more faculty members from the School of Computer Science and Engineering. The committee has general supervision over the work of students progressing towards the master's degree and will determine whether students are adequately prepared for graduate study. Each new graduate student should consult with the graduate coordinator for advice in the selection of the appropriate program of graduate study.

Students enrolled in the thesis or project option must choose and be accepted by a major advisor prior to their advancement to candidacy and the initiation of a thesis or project. The major advisor in consultation with the student will develop a program of graduate study consisting of specific courses and an acceptable thesis abstract or project proposal based on the student's interest, abilities and preparation. The major advisor will direct this research.

The program of graduate study as well as any subsequent modification of the thesis or project are subject to the approval of the School of Computer Science and Engineering graduate committee and the Dean of Graduate Studies.

Students enrolled in the exam option are advised by the graduate coordinator. The program of study for the exam option consists of
declaring and choosing the exam option and may not be modified to the thesis or project option.

**Thesis Preparation, Presentation and Examination**

The student must conduct a research study, and from these efforts, write a thesis acceptable to the student's thesis committee and the Dean of Graduate Studies. The student's thesis committee shall be chaired by the major advisor and two other faculty members who are chosen by the student upon consultation with the major advisor and the graduate coordinator. The thesis topic and major advisor must be included on the program of graduate study submitted with the application to candidacy, although this may be amended.

The student shall enroll in CSE 699 at a rate of two to six units per quarter for all contiguous academic year quarters starting from the time of advancement to candidacy until the thesis is completed and accepted. Over that period, nine units of CSE 699 will count toward the degree.

The student, upon completion of the thesis, must give a public presentation of the research and stand for the defense of the thesis before the faculty made up of the thesis committee and any other faculty members who wish to attend. The student is given a maximum of five years from the time the student was advanced to candidacy to finish the degree.

**Project Preparation, Presentation and Examination**

The student must implement and complete a project acceptable to the student's project committee and the Dean of Graduate Studies. The student's project committee shall be chaired by the major advisor and two other faculty members who are chosen by the student after consultation with the major advisor and the graduate coordinator.

The project topic and major advisor must be included on the program of graduate study submitted with the application to candidacy, although this may be amended.

The student shall enroll in CSE 690 at the rate of two to five units per quarter for all contiguous academic quarters starting from the time of advancement to candidacy until the project is completed and accepted. Over that period, five units of CSE 690 will count toward the degree.

The student, upon completion of the project, must give a public presentation. The student is given a maximum of five years from the time the student was advanced to candidacy to finish the degree.

**Comprehensive Written Examination**

The student shall enroll in CSE 689 after consultation with the graduate coordinator and completion of the last core course(s). CSE 689 is an independent study course in preparation of the comprehensive examination and may be repeated only once. Students enrolled in CSE 689 must take and pass a written examination on the material in the core courses.

**Certificate in Computer Systems and Programming**

**Requirements (28 units)**

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Ethnicity is an interdisciplinary study of American nationality and race, and utilizes knowledge from the humanities and social sciences to explore issues and experiences. Faculty teaching in the program represent the wide diversity of these disciplines. The study of American ethnicity and race is designed to enhance the understanding of a multicultural and multiracial society in the United States.

The Ethnic Studies Coordinator oversees the program including academic advising and mentoring of students. Collaborative efforts between students and faculty may result in research proposals, data compilation, joint professional papers for academic conferences, and joint publications.

Governed by the College of Social and Behavioral Sciences, the coordinator works closely with an Advisory Council whose members are drawn from the faculty of several colleges as well as students and staff.

- Islamic and Middle Eastern Studies (p. 465)
  
  **Coordinator:** Kevin Grisham

The university offers a minor and certificate program in Islamic and Middle Eastern Studies, overseen by the Center for Islamic and Middle Eastern Studies in the College of Social and Behavioral Sciences. The course work provides students with a broad introduction to Middle Eastern Studies, creating a foundation for students to pursue advanced study or possible employment in related fields. The curriculum is multidisciplinary, bringing together a diverse faculty of specialists from the departments of Anthropology, Communication Studies, History, Humanities, Political Science and World Languages and Literatures. Core courses focus on the politics, culture and history of the Middle East. Students then select courses in a variety of fields that reflect the dynamic inter-relationship of cultures in the Middle East.

Aerospace Studies (Air Force ROTC) Program

Aerospace Studies Office
Faculty Office Bldg, Room 143
(909) 537-5440 Aerospace Studies Office website (http://afrotc.csusb.edu)

Aerospace Studies Program

Air Force ROTC is a college-level program designed to select and train highly qualified men and women to become commissioned Air Force officers. After graduation from college and completion of all Air Force ROTC requirements, cadets are commissioned as second lieutenants in the U.S. Air Force. Typical service is four years; however, service duration for some career fields (i.e. pilots, navigators, air battle managers) is longer. These individuals serve in a broad range of careers to include flying, engineering, administration and a host of other fields, depending on the needs of the Air Force.

To enter Air Force ROTC, an individual must have at least three years of college left, which may include 1 year of graduate study. In addition, the individual must be a United States citizen prior to entering the last two years of the program, be able to pass an Air Force medical exam, be of high moral character and be in good academic standing in school with a cumulative GPA of 2.0 or higher. Entry into the last two years of the program is on a competitive basis.

Students are required to graduate with a bachelor's degree, in any academic major, and complete one of the two program options. AFROTC offers 2, 3, and 4-year scholarships (some of which cover ALL tuition and fees), but scholarships are not required to participate in the program. AFROTC cadets under scholarship and all juniors and seniors receive a $300-$500 per month tax-free stipend, plus a $600 textbook allowance each year. No military commitment is incurred until entering the last two years of the program (Professional Officer Course) or accepting an AFROTC scholarship.

Classes consist of one hour of academics plus two hours of leadership laboratory for freshmen and sophomores. Juniors and seniors will have three hours of academics plus two hours of leadership laboratory. The academic hours earned can normally be counted as elective credit toward graduation. All AFROTC classes and laboratories are held on Fridays to better accommodate students commuting from other colleges and universities.

More information is available at the Air Force ROTC website (http://www.afrotc.com).

Program Requirements

Option I (Four Year Program)

Program Requirements (24 units)

The four year program is available to students with three to four years of undergraduate/graduate study remaining. Entry into the program requires university course enrollment and consultation with the AFROTC admissions officer in the department. The program consists of three parts: General Military Course (academics and laboratory), Field Training, and the Professional Officer Course (academics and laboratory).

General Military Course (GMC) (6)

Total Units: 24

Option II (Two Year Program)

Program Requirements (18 units)

Application for the two-year program is made in the fall and winter quarters for Field Training attendance, during the summer, and prior to entry into the POC. Field Training selection is based on a number of highly competitive criteria. For an application and selection criteria contact the department. The two year program is available to students with two years of undergraduate/graduate study remaining. The program consists of two parts: Field Training and the Professional Officer Course (academics and laboratory).

Field Training

Prerequisite for entry into the two-year program. A five-week, noncredit course conducted at an Air Force base during the summer before entry into the Professional Officer Course. Successful completion is required before continuing in the program.

Total Units: 18
Bachelor of Arts in Social Sciences - Multidisciplinary Track

Requirements (72 to 78 units)

Total units required for graduation: 180

Two core SSCI courses, SSCI 100 and SSCI 499, for a total of 8 units, a minimum of 32 to 36 units (primary) in one of the following fields, plus 16 to 17 units each (secondary) in two others:

- Anthropology
- Economics
- Ethnic Studies
- Geography
- History
- Islamic and Middle Eastern Studies
- Political Science
- Psychology
- Sociology

Of the 32 to 36 units comprising the primary field, no more than 14 units may be from the lower-division courses. In each secondary field, no more than 8 units may be from lower-division courses. Within the social sciences major, cross-listed courses cannot be counted both in a primary field and in a secondary field.

Those courses which will be required and allowed for use in this track, both in the primary and secondary fields, are listed below. It is the responsibility of both the student and the student’s advisor to construct a program in line with these requirements. Once agreed to, the program is filed in the student’s permanent folder in the Office of the Registrar but is subject to revision by mutual consent. No more than 34 units may be selected from any one department. Additionally, students may elect to complete up to 8 units of SSCI 575 Internship and 4 units of SSCI 595 Independent studies, with the consent of the program coordinator. A special topics primary or secondary field may be contracted with Coordinator of the Social Sciences BA or the dean of the College of Social and Behavioral Sciences.

ANTH 501  Internship in Anthropology
ANTH 502  Internship in Museum Studies
ANTH 503  Internship in Archaeology
ANTH 504  Internship in Applied Cultural Anthropology
ANTH 505  Fieldwork in Cultural Anthropology
ANTH 506  Selected Topics in Anthropology:
ANTH 507  Independent Study

Economics

(Primary Field 32 units, Secondary Field 16 units)

Primary Field (32)

ECON 200  Principles of Microeconomics
ECON 202  Principles of Macroeconomics
ECON 500  History of Economic Thought

Twelve units chosen from applied field courses:

ECON 333  Political Economy of Women
ECON 360  Economics of the Environment
ECON 352  Political Economy of Poverty and Discrimination
ECON 410  Money and Banking
ECON 421  Economic History of the United States
ECON 430  International Economics
ECON 435  Multinational Corporations
ECON 445  Political Economy
ECON 460  Labor Economics
ECON 450  Global Economy
ECON 475  Public Economics
ECON 520  Social Economics

Eight units of additional upper-division economics course work. 8

Secondary Field (16)

ECON 200  Principles of Microeconomics
ECON 202  Principles of Macroeconomics

Eight units of additional upper-division economics course work. 8

Ethnic Studies

(Primary Field 32 units, Secondary Field 16 units)

Note: No course can be used in a primary or secondary field which has been used in any other part of the Social Science major.

Primary Field (32)

ES 100  Ethnicity and Race in America
ES 300  Research Methods in Ethnic Studies
ES 394  Topics in Ethnic Studies

Twenty units chosen from:

ES 595A-D  Independent Study
HIST 340  African-American History, 1620-1865
HIST 341  African-American History, 1865-Present
HIST 342  American Indian History
HIST 371  California Indian History
HIST 391  Chicano History
HIST 565  Immigration and Ethnic American History
PSYC 340  Stereotyping, Prejudice and Discrimination
PSYC 345  Cross-Cultural Psychology
SOC 410  Sociology of Race and Ethnicity
SOC 425  Asian Americans: Origin and Ethnicity
SOC 441  Black Social Stratification
SOC 442  Chicano Social Stratification
SOC 525  Indian Nations and Native America

Secondary Field (16)

ES 100  Ethnicity and Race in America
ES 394  Topics in Ethnic Studies  4
Eight units chosen from:  8
ANTH 306  Aztecs, Maya and their Predecessors
ANTH 307  Incas and their Predecessors
ANTH 323  Native North American Art
ANTH 325  Human Biological Variance and the Concept of Race
ANTH 330  Cross-Cultural Child-Rearing Practices
ANTH 331  Anthropology of Human Development
ANTH 332  Cross-Cultural Perspectives on Aging
ANTH 333  Sex and Gender in Cross-Cultural Perspective
ANTH 340  Anthropology of Health, Illness and Healing
ANTH 351  Indians of North America
ANTH 352  Indians of the Southwest

SOC 425  Asian Americans: Origin and Ethnicity
SOC 441  Black Social Stratification
SOC 442  Chicano Social Stratification
SOC 525  Native Americans and Native America

History
(Primary Field 32 units, Secondary Field 16 units)

Primary Field (32)
HIST 200  United States History to 1877  4
HIST 201  United States History, 1877 to the Present  4
Eight units chosen from:  8
HIST 342  American Indian History
HIST 351  The Evolution of American Democracy, 1783-1840
HIST 354  Civil War and Reconstruction
HIST 356  The United States, 1877-1917
HIST 357  The United States, 1917-1945
HIST 359  United States History, Cold War Era
Eight units chosen from:  8
HIST 305  Ancient and Medieval Europe
HIST 306  Early Modern Europe, the Renaissance to 1815
HIST 307  Modern Europe, 1815 to the Present
HIST 400  Early Medieval Europe
HIST 401  High Medieval Europe
HIST 402  Renaissance and Reformation
HIST 403  The Age of Absolutism and Enlightenment
HIST 503  Europe Since 1945
Eight units of upper-division history course work.

Secondary Field (16)
HIST 200  United States History to 1877  4
HIST 201  United States History, 1877 to the Present  4
Eight units of upper-division history course work  8

Islamic and Middle Eastern Studies
(Primary Field 32 units, Secondary Field 16 units)

Note: No course can be used in a primary or secondary field which has been used in any other part of the Social Sciences major

Primary Field (32)
ANTH 358  Peoples of the Middle East  4
HIST 383  Classical Islamic Civilization  4
HUM 375  The World of Islam  4
PSCI 308  Government and Politics of the Middle East  4
Sixteen units chosen from:  16
ANTH 303  Prehistory of the Middle East and Europe
ARAB 370  Arabic Film and Culture
ARAB 470D  Contemporary Issues in Arab Culture: Environmental Aspects
ARAB 471  Media in the Arab World
HIST 330  Topics in Oral History
HIST 384  Modern Middle East
HIST 480  History of Christianity I
HIST 485  Arab-Israeli Conflict
HIST 486  Modern Iran
HIST 487  Topics in Modern Middle Eastern History
HIST 491  Nationalism and Conflict in the Middle East

Geography
(Primary Field 33 units, Secondary Field 16 to 17 units)

Primary Field (33)
GEOG 100  Introduction to Human Geography  4
GEOG 103  Physical Geography  5
GEOG 420  Geography of Economic Activity  4
Twenty units of upper-division geography course work, except GEOS 300 or GEOG 311. Also, no more than eight of these sixteen units of upper-division elective course work can be an area study.

Secondary Field (16-17)
GEOG 100  Introduction to Human Geography  4-5
or GEOG 103  Physical Geography
GEOG 420  Geography of Economic Activity  4
Eight units of upper-division geography course work, except GEOS 300 or GEOG 311. Also, only four of these eight units of upper-division elective course work can be an area study.
Bachelor of Arts in Social Sciences - Multidisciplinary Track

Secondary Field (16)

Eight units chosen from:

- ANTH 358 Peoples of the Middle East
- HIST 383 Classical Islamic Civilization
- HUM 375 The World of Islam
- PSCI 308 Government and Politics of the Middle East

Eight units chosen from:

- ANTH 303 Prehistory of the Middle East and Europe
- ARAB 370 Arabic Film and Culture
- ARAB 470D Contemporary Issues in Arab Culture: Environmental Aspects
- ARAB 471 Media in the Arab World
- HIST 330 Topics in Oral History
- HIST 384 Modern Middle East
- HIST 480 History of Christianity I
- HIST 485 Arab-Israeli Conflict
- HIST 486 Modern Iran
- HIST 487 Topics in Modern Middle Eastern History
- HIST 491 Nationalism and Conflict in the Middle East

Political Science

(Primary Field 32 units, Secondary Field 16 units)

Primary Field (32)

- PSCI 203 American Government 4
- PSCI 204 International Relations 4

Twenty-four units of upper-division course work with at least four units from each of the following five fields:

American Government and Politics. Four units chosen from:
- PSCI 320 The Legislative Process
- PSCI 326 Political Parties and Interest Groups
- PSCI 431 The American Presidency
- PSCI 528 Formulation of Public Policy

Comparative Government. Four units chosen from:
- PSCI 300 Western Political Systems
- PSCI 304 East European Political Systems
- PSCI 306 Latin American Politics

International Relations. Four units chosen from:
- PSCI 325 American Foreign Policy
- PSCI 400 International Politics
- PSCI 484 National Security Policy
- PSCI 500 International Law
- PSCI 510 International Organization

Political Theory. Four units chosen from:
- PSCI 310 Classical Political Thought
- PSCI 311 Foundations of Modern Political Thought
- PSCI 313 Modern Political Thought

Public Law. Four units chosen from:
- PSCI 328 Judicial Process
- PSCI 410 American Constitutional Law
- PSCI 411 The Bill of Rights

Four units of upper-division Political Science course work

Secondary Field (16)

PSCI 204 International Relations 4

Twelve units of upper-division course work, four units chosen from three of the five fields listed below:

American Government and Politics. Four units chosen from:
- PSCI 320 The Legislative Process
- PSCI 326 Political Parties and Interest Groups
- PSCI 431 The American Presidency
- PSCI 528 Formulation of Public Policy

Comparative Government. Four units chosen from:
- PSCI 300 Western Political Systems
- PSCI 304 East European Political Systems
- PSCI 306 Latin American Politics

International Relations. Four units chosen from:
- PSCI 325 American Foreign Policy
- PSCI 400 International Politics
- PSCI 484 National Security Policy
- PSCI 500 International Law
- PSCI 510 International Organization

Political Theory. Four units chosen from:
- PSCI 310 Classical Political Thought
- PSCI 311 Foundations of Modern Political Thought
- PSCI 313 Modern Political Thought

Public Law. Four units chosen from:
- PSCI 328 Judicial Process
- PSCI 410 American Constitutional Law
- PSCI 411 The Bill of Rights

Psychology

(Primary Field 33 units, Secondary Field 16 units)

Primary Field (33)

- PSYC 100 Introduction to Psychology 4
- PSYC 210 Psychological Statistics 5

Eight units chosen from:

- PSYC 201 Developmental Psychology
- PSYC 382 Psychology of Social Behavior
- PSYC 385 Personality
- PSYC 390 Abnormal Psychology

Four units chosen from:

- PSYC 360 Cognitive Psychology
- PSYC 362 Learning and Motivation
- PSYC 363 Biological Psychology
- PSYC 364 Perception

Four units chosen from:

- PSYC 315 Communication Processes
- PSYC 318 Health Psychology
- PSYC 351 Behavior Modification: Principles and Applications
- PSYC 355 Industrial Psychology
- PSYC 377 Tests and Measurements
- PSYC 386 Introduction to Psychotherapy
- PSYC 387 Community Psychology
- PSYC 575 Internship in Psychology

Eight units of upper-division psychology electives. 8
Bachelor of Arts in Social Sciences - Teaching Track

Requirements (101-102 units)

Total units required for graduation: 180

This program is designed for students who wish to teach social science subjects in California’s secondary schools. In addition to this coursework, students will have to pass the California Subject Examination for Teachers (CSET), which encompasses knowledge and understanding primarily of history, but also geography, economics, and political science. The core discipline in the program is history, as that is the most widely taught social science subject in secondary schools. In addition to this concentration, students have options in the other three disciplines of geography, economics, or political science. Any of these options would add 32-36 units to the 101-102 units needed for the core history program.

Students in the Teaching Track are encouraged to see their Social Science advisor early in their program for assistance in choosing courses. For information about the professional education component or admission to the teacher education program, contact the Credentials Office, CE-102.

Additionally, students may elect to complete up to 8 units of SSCI 575 Internship and 4 units of SSCI 595 Independent studies, with the consent of the program coordinator.

Requirements for the B.A. in Social Sciences - Teaching Track (Program Code: )

Social Science required core courses (8)
SSCI 100 Introduction to the Social Sciences 4
SSCI 499 Senior Seminar 4

Lower-division requirements (45)
ANTH 140 World Civilizations I, the Rise of Civilization 4
or HIST 140 World Civilizations II, the Civilization of the East and West
ECON 200 Principles of Microeconomics 4
ECON 202 Principles of Macroeconomics 4
GEOG 100 Introduction to Human Geography 4
GEOG 103 Physical Geography 5
HIST 142 World Civilizations II, the Civilizations of the East and West 4
HIST 144 World Civilizations III 4
HIST 200 United States History to 1877 4
HIST 201 United States History, 1877 to the Present 4
PHIL 192 Introduction to Philosophy of Religion 4
or PHIL 193 Introduction to Eastern Philosophy
PSCI 203 American Government 4

Upper-division requirements (48-49)
GEOG 302 Geography of California 4
HIST 370 History of California 4

Four units chosen from:
HIST 305 Ancient and Medieval Europe
HIST 306 Early Modern Europe, the Renaissance to 1815
HIST 307 Modern Europe, 1815 to the Present

Four units chosen from:
HIST 320 History of Ancient Greece
HIST 321 History of Rome
HIST 400 Early Medieval Europe
HIST 401 High Medieval Europe
HIST 402 Renaissance and Reformation
HIST 403 The Age of Absolutism and Enlightenment

Eight units chosen from:
HIST 383 Classical Islamic Civilization
HIST 384 Modern Middle East
HIST 385 Africa to 1500
HIST 386 Africa 1500 to 1870
HIST 387 Africa 1870 to Present
HIST 390  History of Modern Mexico
HIST 426  Ancient and Early Imperial China
HIST 428  Medieval China
HIST 431  Modern China II, 1911-1949
HIST 432  Modern China III, 1949-Present
HIST 435  World War II in the Pacific
HIST 440  Modern Japanese History
HIST 450  History of Southern Africa
HIST 465  Modern Central America
HIST 466  Foreign Relations of Latin America
HIST 467  Latin American History Through Film
HIST 469  Colonial Latin America
HIST 470  Modern Latin America
HIST 487  Topics in Modern Middle Eastern History

Eight units chosen from:

HIST 350  The American Colonies, 1607-1783
HIST 351  The Evolution of American Democracy, 1783-1840
HIST 354  Civil War and Reconstruction
HIST 356  The United States, 1877-1917
HIST 357  The United States, 1917-1945
HIST 359  United States History, Cold War Era
HIST 540  Constitutional History of the United States

Eight units chosen from:

HIST 340  African-American History, 1620-1865
HIST 341  African-American History, 1865-Present
HIST 342  American Indian History
HIST 344  Women in U.S. History, 1620-1865
HIST 345  Women in U.S. History, 1865-Present
HIST 346  Women in the Black Freedom Movement
HIST 371  California Indian History
HIST 391  Chicano History
HIST 541  U.S. Citizenship and the Law
HIST 565  Immigration and Ethnic American History
PSCI 330  State and Local Politics

Four units chosen from:

PSCI 320  The Legislative Process
PSCI 326  Political Parties and Interest Groups
PSCI 431  The American Presidency
PSCI 528  Formulation of Public Policy

Data Collection and Analysis

A minimum of four units chosen from:

ECON 250  Statistics for Economists
GEOG 305  Geographic Statistics and Research Methods
PSYC 210  Psychological Statistics
ADMN 210  Applied Business Statistics
HIST 316  Archival Practices

Total Units 93-94

Disciplinary Options

Students who wish to be considered a highly qualified teacher in another discipline should complete the coursework listed below in addition to those taken above:

Economics Option

Sixteen units from the following Economics courses: 16
ECON 333  Political Economy of Women
ECON 335  Tools of Economic Analysis
ECON 352  Political Economy of Poverty and Discrimination
ECON 360  Economics of the Environment
ECON 372  Business Cycles
ECON 390  Selected Topics in Economics
ECON 410  Money and Banking
ECON 430  International Economics
ECON 435  Multinational Corporations
ECON 445  Political Economy
ECON 450  Global Economy
ECON 475  Public Economics
ECON 500  History of Economic Thought
ECON 510  Economics in the Classroom

Sixteen additional units of upper-division Economics courses 16

Total Units 32

Geography Option

GEOG 312  Geography of the Developing World 4
GEOG 313  Geography of the Developed World 4
GEOG 320  Geography of Social Issues 4
GEOG 322  United States and Mexico Border Issues 4
GEOG 323  North America 4
GEOG 350  Conservation and Natural Resources 4
GEOG 420  Geography of Economic Activity 4
GEOG 415  Urban Planning and Land Development 4
or GEOG 440  Understanding the City

Total Units 32

Political Science Option

PSCI 204  International Relations 4
PSCI 314  American Political Thought 4

Four units chosen from:

PSCI 300  Western Political Systems
PSCI 304  East European Political Systems
PSCI 306  Latin American Politics
PSCI 308  Government and Politics of the Middle East

Four units chosen from:

PSCI 310  Classical Political Thought
PSCI 311  Foundations of Modern Political Thought
PSCI 313  Modern Political Thought
PSCI 315  Post Modern Political Thought

Four units chosen from:

PSCI 328  Judicial Process
PSCI 410  American Constitutional Law
PSCI 411  The Bill of Rights
PSCI 412  Civil Rights

Four units chosen from:

PSCI 325  American Foreign Policy
PSCI 400  International Politics
Certificate in Islamic and Middle Eastern Studies

Requirements (36 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements

Core Courses (16)

- ANTH 358: Peoples of the Middle East
- HIST 383: Classical Islamic Civilization
- HUM 375: The World of Islam
- PSCI 308: Government and Politics of the Middle East

Electives (20)

Twenty units chosen from:

- ANTH 303: Prehistory of the Middle East and Europe
- ANTH 334: Anthropology and Film
- ARAB 216: Introduction to Arabic Literary Texts
- ARAB 290: Arabic Literature in Translation
- ARAB 370: Arabic Film and Culture
- ARAB 470A-E: Contemporary Issues in Arab Culture
- ARAB 471: Media in the Arab World
- ARAB 480: Special Topics in Classical Islamic Texts
- ARAB 481: Special Topics in Contemporary Arabic Literature
- COM 565: Advanced Topics in Media Studies (when the topic is Islamic/Middle East)
- ENG 319: Studies in Literary Diversity (when the topic is Contemporary Middle Eastern Literature, Contemporary Middle Eastern Fiction, Non-western Women Writers)
- HIST 330: Topics in Oral History (when the topic is Middle Eastern)
- HIST 384: Modern Middle East
- HIST 480: History of Christianity I
- HIST 485: Arab-Israeli Conflict
- HIST 486: Modern Iran
- HIST 487: Topics in Modern Middle Eastern History
- HIST 491: Nationalism and Conflict in the Middle East
- HIST 492: U.S. Media and the Middle East
- HIST 493: Iran-U.S. Relations
- PSCI 540: Seminar in Comparative Politics (when the topic is Islamic/Middle East)
- PSCI 605: Topics in Strategy: (when the topic is Islamic/Middle East)
- SSCI 575D: Social Science Internship
- SSCI 595D: Social Science Independent Study

Total Units: 36

NOTE: 600-level courses are not available for undergraduate students.

Certificate in Native Nations/Indigenous Peoples Studies

Requirements (20 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Program

1. Students must meet general university admission requirements.
2. Students in all majors are eligible to participate in this program.

**Total Units**: 20

Up to four units of outside coursework may be substituted with the approval of a certificate coordinator.
Department of Anthropology

Bachelor of Arts
- Anthropology

Minor
- Anthropology

Certificate Programs
- Applied Cultural Anthropology
- Archaeology
- Museum Studies

Master of Arts
- Applied Archaeology

The study of anthropology promotes an understanding of self and all humankind by exploring the human condition at all times and in all places. In the modern world in which every society depends upon other societies, ignorance of the goals, values and ways of life of others may become a fear leading to discrimination and racism in the community or to war and oppression between nations. The challenges of desert life for the Australian Aborigine and the problems of contemporary ghetto existence are of equal interest to the anthropologist, and courses in these topics and world ethnography are offered by the Anthropology Department. Human physical and cultural evolution, the distribution and significance of cultural differences, the history and ecology of specific areas, and the role of language in culture are treated in courses in physical anthropology, cultural anthropology, archaeology and prehistory, and linguistics.

Participation in The California State University's International Programs (p. 14) is one way students can experience other cultures first-hand.

Departmental Honors
Students majoring in anthropology are eligible to receive honors in anthropology at graduation if the following conditions are met:

1. At least one-half of the course work required by the major is completed at this university;
2. A grade point average of at least 3.5 in the major, both at this university and overall;
3. An overall undergraduate grade point average of 3.0 ("B") or better;
4. Successful completion of ANTH 597, resulting in a thesis paper.

Applications for candidacy must be made by the beginning of the senior year. Approval of candidacy and of the project and project advisor rests with the department. The project advisor and one other faculty reader from the department will have responsibility for evaluation of the completed thesis paper.

### Certificate in Applied Cultural Anthropology

#### Requirements (33 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

#### Admission to the Certificate

Consultation with a faculty advisor in anthropology is required before enrolling in upper-division courses.

Certificate in Archaeology

Requirements (35 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements

- ANTH 320 Archaeological Survey and Excavation 5
- or ANTH 577B-E Internship in Archaeology 5
- ANTH 319 Experimental Archaeology and Ethnoarchaeology 5
- or ANTH 321 Archaeological Laboratory Analysis 5
- ANTH 400 Archaeological Theory and Method 4

Eight units chosen from:

- ANTH 302 African Archaeology 4
- ANTH 303 Prehistory of the Middle East and Europe 4
- ANTH 305 North American Prehistory 4
- ANTH 306 Aztecs, Maya and their Predecessors 4
- ANTH 307 Incas and their Predecessors 4
- ANTH 312 Historical Archaeology 4
- or HIST 312 Historical Archaeology 4
- ANTH 314 Archaeology of California 4
- ANTH 315 Archaeology of the Southwest 4
- GEOG 201 Map Interpretation 4
- GEOG 202 Introduction to Geographic Information Systems and Cartography 5

A minimum of four units chosen from:

- GEOG 306 Remote Sensing of the Environment 4
- GEOG 308 Advanced Geographic Information Systems 4
- GEOG 480 Geomorphology 4
- GEO 301 Introduction to Geologic Mapping 4

Total Units: 35

Certificate in Museum Studies

Requirements (32 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

- HIST 324 Introduction to Oral History 4
- HIST 326 Historic Preservation 4

Total Units: 32
Master of Arts in Applied Archaeology

Requirements (45-46 units)

Program Code: AARC

The Master of Arts in Applied Archaeology is a professionally oriented program designed to prepare students for middle and upper-level careers in the archaeological sector of the cultural resource management (CRM) industry. The core of the program comprises courses in archaeology with an emphasis on combining practical experience in field and laboratory studies with an internship and research project undertaken in collaboration with a government agency or private firm that conducts archaeological investigations in the context of CRM. Students will also obtain an in-depth understanding of archaeological theory, California archaeology, and the laws, regulations, and procedures relevant to archaeology and CRM in our region. Elective courses will enable students to pursue an interest further in history, archaeology, or historic preservation. The program is intended for evening students primarily and, therefore, classes are predominantly scheduled between 6 and 10 p.m.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree in anthropology or a closely related field from an accredited college or university;
2. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major;
3. Completion of the graduate entrance writing requirement;
4. EITHER:
   A. Completion of the following prerequisite course or its equivalent, completed with a grade of B or better: ANTH 320
   OR
   B. Documented Field experience in archaeology under professional supervision that is deemed by the Admissions Committee as being equivalent to successful completion of ANTH 320;
5. A brief statement (one to two double-spaced typewritten pages) describing the applicant's preparation for graduate study and professional goals;
6. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's likely success in the program. At least one of the letters should be from a former professor who is familiar with the student's scholarly abilities.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study;
3. Completed, with the approval of the advisor, at least 12 quarter units of graduate coursework at this university and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Filed a graduate program approved by the student's advisor and the coordinator of the program.

Requirements for Graduation

1. A minimum of 45 quarter units of acceptable graduate-level work, with at least 32 quarter units completed in residence at California State University, San Bernardino. Thirty-two quarter units must be in 500- and 600-level courses;
2. A minimum grade point average of at least 3.0 ("B") in all courses;
3. To provide a breadth of content in this graduate program, 300- or 400-level courses may be used to satisfy some program requirements with the expectation that coursework is increased to satisfy the rigors of graduate work;
4. Successful completion of a thesis or project (ANTH 699).

Thesis/Project: Under normal circumstances, a student must complete a thesis that is approved by his or her thesis committee. The thesis must reflect original work and show a level of competence appropriate for a master's degree. The thesis committee shall consist of two or three faculty members, including the student's advisor, mutually agreed upon by the student and faculty. By mutual agreement between the student and advisor, the third committee member may be recruited from archaeologists in the southern California CRM community holding PhDs from accredited institutions. The student should enroll in (ANTH 699) in the quarter when completion of the thesis is anticipated. On occasion a student may be allowed to substitute a completed project for the thesis. Such a project must have a completed product and would reflect at least the same amount of work as a thesis and be completed to the same standard. The content and appropriateness of the project will be determined by a project committee constituted in the same way as a thesis committee.

Twenty upper-division units chosen in consultation with an advisor. 20

**Total Units** 28
Department of Criminal Justice

Bachelor of Arts
- Criminal Justice
- Criminal Justice - Crime Analysis Option

Minor
- Criminal Justice

Master of Arts
- Criminal Justice

A system of criminal justice must meet the needs of each citizen as well as the needs of complex social, economic and governmental institutions. The Bachelor of Arts degree program in criminal justice was developed with these needs in mind and is appropriate for both career-bound pre-service students and in-service personnel in law enforcement, probation, parole, corrections, social service agencies and related areas.

In addition, the program is designed to provide students with an appropriate academic background for continuing their graduate studies in criminal justice, criminology or other areas such as law.

The criminal justice major is an interdisciplinary program with enough flexibility to permit students to pursue their own interests. For example, students wishing to emphasize law enforcement may select appropriate courses within the major. Students directed toward probation, parole or corrections work are advised to select courses accordingly.

Crime Analysis is a rapidly growing field offering exciting employment opportunities. Increasingly, criminal justice agencies--at the local and state level--are hiring people with advance analytic and technological capabilities. The drive to engage in more proactive, evidence-based policing founded upon sound analysis is a national trend that is unlikely to slow. Courses are organized into several tracks allowing students to specialize in specific analytic techniques (i.e. geographic analysis or network analysis). In addition to research-based instruction, students are offered a range of elective subject areas, from cyber-security to gang prevention strategies, to enhance the practice utility of this program option.

Departmental Honors

Students majoring in criminal justice are eligible to receive honors in criminal justice at graduation if the following conditions are met:

1. At least one-half of the course work required by the major is completed at this university;
2. At least a 3.5 grade point average in the major;
3. An overall undergraduate grade point average of 3.0 ("B");

The process for identifying students receiving this recognition is done automatically by the department.

B.S. 1988, Loyola University of Chicago
M.A. 1990, Rutgers University
Ph.D. 1996, Michigan State University

Stephen G. Tibbetts, Professor
B.A. 1991, University of Florida
M.A. 1994, Ph.D. 1997, University of Maryland

Douglas Weiss, Assistant Professor
B.S. 2002, Illinois Institute of Technology
Undergraduate Degrees

Bachelor of Arts

- Criminal Justice (p. 413) with additional option in:
  - Crime Analysis (p. 414)

Graduate Degrees

Master of Arts

- Criminal Justice (p. 415)

Minor

- Criminal Justice (p. 417)

Bachelor of Arts in Criminal Justice

Also offered through the College of Extended Learning (http://cel.csusb.edu)

Requirements (68 units)

Total units required for graduation: 180

As prerequisite for acceptance into the B.A. in Criminal Justice, students must complete the following as a “Pre-criminal justice major.” Upon successful completion of the requirements, student’s major will be changed automatically from “Pre-criminal justice” to “Criminal Justice” status. Following formal entrance to the criminal justice major, students may proceed with upper-division CJUS courses.

Requirements to enter the B.A. in Criminal Justice

Completion of the following:

General Education Basic Skills in English (4)

One (1) of the following:

Total Units: 16

Students are encouraged to take the above classes prior to taking the Criminal Justice classes below.

CJUS 101  Introduction to the Criminal Justice System 4
CJUS 102  Criminal Law 4
CJUS 320  Theories of Crime and Delinquency (with a grade no lower than “C-“ (1.7)) 4

With the exception of CJUS 320, the grade earned in each of the above courses must be no lower than “C” (2.0) and a GPA in the pre major no lower than a 2.3

A student may enroll in a criminal justice class three times. If a student does not successfully complete the course after three enrollments, the student must change majors if the course is a required course. Students may appeal to the department academic standards committee.

Criminal Justice is an impacted major with GPA entry requirement. The Criminal Justice Department will determine entry standards annually based on enrollments.

Requirements for the B.A. in Criminal Justice (Program Code: CJUS)

Bachelor of Arts in Criminal Justice - Crime Analysis Option

Requirements (103-105 units)

Total units required for graduation: 180

Students are unable to enroll in the Crime Analysis Option until they have completed the program admission criteria. Students must earn a grade no lower than a "C+" (2.3) in the following six (6) courses in order to be admitted into the Crime Analysis option.

<table>
<thead>
<tr>

Total Units 37

Note: Technical proficiency options have additional requirements if you desire to obtain profession certifications. Consult the relevant department.

Master of Arts in Criminal Justice

Requirements (45 units)

Program Code: CJUM

The Master of Arts in Criminal Justice is designed to serve the growing number of individuals in the criminal justice system who desire postbaccalaureate education, as well as those in more traditional public and private employment who may wish to acquire further education in criminal justice.

The degree program offers two options. One is a thesis option designed for students who intend to pursue graduate studies beyond the M.A. level and those students who have special research interests in the criminal justice system. The examination option is for those with administrative and management goals.

The program can serve a variety of student interests. It has been designed with a limited prerequisite requirement to enable students with baccalaureate degrees in related fields such as psychology, administration, anthropology, sociology or social sciences to enroll along with students with undergraduate degrees in criminal justice.

Admission to the Program

The Graduate Committee cannot act on applications until they have been reviewed by the Office of Graduate Admissions, CH-123, and have met university admissions requirements. Completed applications for admission must be received by the graduate coordinator by April 1. Applications will be evaluated on a competitive basis and enrollment is limited.

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Completion of an undergraduate major in criminal justice, criminology, sociology, or in an allied field such as psychology, administration, or another social science, or recommendation for admission to the program by the Graduate Admissions Committee. Competence in the following prerequisite areas: criminological theory, law enforcement, institutional and community corrections, research methods and statistics is expected;
3. Completion of the graduate entrance writing requirement;
4. A minimum undergraduate grade point average of at least 3.0 overall and 3.0 (“B”) in the major;
5. Submission of any available GRE or MAT (Miller Analogies Test) scores, in the event the applicant feels that such scores would enhance their chances of admission. Submission of such scores is not mandatory;
6. Submission to the criminal justice program of three letters of recommendation from individuals who are familiar with the student’s academic work and potential to complete the program successfully. Letters must come directly from the writer or be included in a
Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Traditional Thesis M.A. Option:
   Completed all required course work except thesis, or
   Professional M.A. Option:
   Completed all required course work except Comprehensive Examination;
3. Completed all course work taken before advancement to candidacy with a minimum grade point average of 3.0 (“B”). Completed all course work with no more than one course with a grade as low as “C.” If a second such grade is earned, the student will be dismissed from the program, but may petition the graduate admission committee for readmission. After reviewing the petition, the committee may allow readmission under such conditions as it deems appropriate. A third grade of “C” or lower will result in permanent dismissal from the program with no recourse to petition;
4. For the traditional thesis option: made arrangements for three faculty members, in consultation with the criminal justice graduate coordinator, to serve as the student’s graduate advisory committee, with one member designated to chair the committee;
5. Submitted a formal program of graduate studies to the criminal justice graduate coordinator as approved by the graduate committee. This should be done no later than the end of the second quarter of graduate work;
6. Petitioned the graduate committee, during the quarter in which all course work is to be completed, for formal advancement.

The graduate committee will then consider the student’s scholastic performance and other circumstances and either grant advancement to candidacy, specify necessary preparatory studies, or recommend other courses of action.

Requirements for Graduation

1. A minimum of 45 units of acceptable graduate level work, with at least 32 quarter units completed in residence at this university;
2. Completion of course work and an acceptable thesis and final oral defense, or Completion of course work and registration in and completion of the comprehensive examination with a grade of credit (Plan II below);
3. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 61).

Total Units 28
Economics is the study of how individuals and societies organize the production and distribution of goods and services. This involves an historical understanding of how economies develop and how various groups and classes of people interact with it and are affected by it.

One of the tools economics provides is the ability to analyze the possible costs and benefits of competing alternatives. It provides a framework through which difficult choices can be analyzed—whether an individual should go to college now or later, or whether a firm should invest its money in more machines or offer a bonus to its labor force, or whether a government should spend money on schools or military hardware.
