Minors
Economics
Philosophy, Policy, and Economics
Political Economy

Economics is the study of how individuals and societies organize the production and distribution of goods and services. This involves an historical understanding of how economies develop and how various groups and classes of people interact with it and are affected by it.

One of the tools economics provides is the ability to analyze the possible costs and benefits of competing alternatives. It provides a framework through which difficult choices can be analyzed—whether an individual should go to college now or later, or whether a firm should invest its money in more machines or offer a bonus to its labor force, or whether a government should spend money on schools or military hardware.

Training in economics provides excellent preparation for careers in industry, government and many professions including law, education, public administration and management.

Departmental Honors

Departmental honors will be awarded upon graduation to students majoring in economics who have:

1. Earned a 3.5 grade point average in all economics courses attempted at this university;
2. Completed at least half of all work in economics at this university;
3. Been recommended for departmental honors by economics faculty.

Students who qualify for departmental honors are strongly encouraged to discuss with their faculty advisor the possibility of enrolling in ECON 597.

Omicron Delta Epsilon

Students who have completed a minimum of 20 quarter units of economics course work with a grade point average of at least 3.0 ("B") and who also have an overall grade point average of at least 3.0 may join the university's chapter of Omicron Delta Epsilon, the national honor society in economics. Additional information can be obtained from the Department of Economics.

Current Faculty

Parviz Asheghian, Professor
B.A. 1971, Iranian Institute of Advanced Accounting

Environmental Studies

To accomplish its principal objective of promoting an understanding of the interaction of human with their environment, this interdisciplinary degree program includes courses primarily from the natural sciences and social sciences.

Major requirements from the natural sciences develop fundamental principles about the composition and functioning of the earth's ecosystems, principles deemed essential to a sound working knowledge of the environment. Course offerings from the social sciences assess the impact of humans upon the environment and the possibility of creating different environments.

The program is designed for students who desire either to focus on a study of the environment as part of a broader liberal arts curriculum or to prepare for an environmentally related career or graduate school. Professional opportunities for graduates include a wide range of positions in public agencies responsible for developing and enforcing environmental controls, and in business, industry and nonprofit organizations which need qualified individuals to communicate environmental information and to assist in compliance with environmental regulations. Additional opportunities are available in conjunction with other programs of study, such as environmental law, environmental health, education and public administration.

Honors in the Major

Students majoring in environmental studies are eligible to receive department honors in environmental studies at graduation if the following conditions are met:

1. At least one-half of the course work required by the major is completed at this university;
2. At least a 3.5 grade point average in the major, both at this university and overall;
3. An overall undergraduate grade point average of 3.0 (“B”) or better;
4. Completion of GEOG 597.

Students interested in receiving this recognition must initiate the process by making a formal application with the Geography Department administrative support coordinator.

Geography and Global Studies

Geography is concerned with the spatial variations and interrelationships between the natural and cultural features of the earth. Geographers study the earth primarily as the home of humans. As an approach to knowledge, geography forms an interdisciplinary bridge between the physical and cultural worlds, examining both humans and their environment. As a synthesizing discipline, geography is an especially attractive major for liberal arts and science students. Its body of theory and methodologies provides an analytic technique applicable to a wide range of questions. For students planning to end their formal education with a bachelor's degree, it also provides both the regional and world perspective required of responsible citizens. For the same reasons, geography is especially valuable for those who plan to do graduate work. Geography offers job opportunities in teaching, business, government, armed forces, conservation and water resources, planning and market research, geographic information systems (GIS) and international organizations.

Global Studies promotes an understanding of how globalization impacts the physical and human environment. The B.A degree program option is an interdisciplinary program that includes courses from a broad range of Social Science programs. It focuses on three primary concentrations: socio-cultural, political-economical and sustainability. The goal is to better understand how the social, cultural, political and economic spheres of human life effect, and are effected by, globalization.

Students who can meet the qualifications are also encouraged to participate in the California State University's International Programs (p. 14). Such participation will not only contribute immediately to the student’s geographical knowledge and degree program, but may have longer-term educational and career benefits as well.

Departmental Honors

Students majoring in geography and global studies are eligible to receive honors in geography at graduation if they have:

1. Completed at least one-half of the course work required by the major at this university;
2. Earned a grade point average of at least 3.5 in the major, both at this university and overall;
3. Earned an overall undergraduate grade point average of 3.0 or better;
4. Completed GEOG 597.

Students interested in receiving this recognition must initiate the process by making a formal application with the Geography Department Administrative Support Coordinator.

GEOG 202 Introduction to Geographic Information Systems and Cartography 5

Upper-division requirements (50)
GEOG 305 Geographic Statistics and Research Methods 4

Twelve units chosen from:
GEOG 307 Transportation Issues and Development 4
GEOG 320 Geography of Social Issues 4
GEOG 322 United States and Mexico Border Issues 4
GEOG 350 Conservation and Natural Resources 4
GEOG 420 Geography of Economic Activity 4
GEOG 415 Urban Planning and Land Development 4
or GEOG 44 Understanding the City 4

Twelve units chosen from:
GEOG 304 Field Methods in Geography 4
GEOG 360 Weather and Climate 4
or GEOG 36 Climate Change 4
GEOG 370 Landscape Analysis 4
GEOG 470 Hydrology and Water Resources 4
GEOG 480 Geomorphology 4

Eight units chosen from:
GEOG 312 Geography of the Developing World 4
GEOG 313 Geography of the Developed World 4
or GEOG 32 North America 4

Eight units chosen from:
GEOG 306 Remote Sensing of the Environment 4
GEOG 308 Advanced Geographic Information Systems 4
GEOG 315 Spatial Analysis 4
GEOG 402 Geographic Information Systems Applications 4
GEOG 406 Digital Image Processing 4
GEOG 500 Senior Seminar 2

Four units of upper-division course work in geography except GEOG 300 and GEOG 311 which cannot count for the Geography major.

Total Units 68

Certificate in Geographic Information Systems

Requirements (31-32 units)

Four units of upper-division course work in geography except GEOG 300 and GEOG 311 which cannot count for the Geography major.

Total Units 68
Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

A minimum of eight units chosen from:

- GEOG 306 Remote Sensing of the Environment
- GEOG 406 Digital Image Processing
- GEOG 575D-E Internship in Geography

Total Units: 31-32

### Minor in Environmental Studies

Requirements (34 units)

#### Requirements for a minor in Environmental Studies

**Lower-division requirements (14)**

Five units chosen from:

- BIOL 100 Topics in Biology
- BIOL 202 Biology of Populations
- HSCI 120 Health and Society: An Ecological Approach

Five units chosen from:

- GEOG 103 Physical Geography
- GEOG 101 Introductory Geology
- GEOG 201 Map Interpretation

**Upper-division requirements (8)**

- GEOG 350 Conservation and Natural Resources

Four units chosen from:

- ECON 360 Economics of the Environment
- HSCI 478 Environmental Health Management

**Electives (12)**

A minimum of 12 units chosen from the following courses. In consultation with the environmental studies coordinator, a student can choose other courses, besides those listed below, to meet the elective requirement.

- BIOL 349 Biology of Ecosystems
- BIOL 450 Ecology
- ECON 360 Economics of the Environment
- GEOG 202 Introduction to Geographic Information Systems and Cartography
- GEOG 305 Geographic Statistics and Research Methods
- GEOG 360 Weather and Climate
- GEOG 365 Climate Change
- GEOG 370 Landscape Analysis
- GEOG 470 Hydrology and Water Resources
- GEOL 312 Geology of California
- GEOL 375 Groundwater Hydrology
- HSCI 352 Principles of Environmental Health
- HSCI 401 Advanced Environmental Health
- HSCI 478 Environmental Health Management

Total Units: 25

### Certificate in Urban Planning

Not offered in the 2018/19-2019/20 Academic Year

Requirements (25 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Department of History

Department of History

Social and Behavioral Sciences Building, Room 327 (909) 537-5524 Department of History (http://history.csbs.csusb.edu)

Bachelor of Arts

History - Track A (Teaching Track)
History - Track B
History - Track C (Public and Oral History Option)

Teaching Credential Program

Single Subject

Minor

History

History has been called the "extension of memory" which enables one to utilize past experiences. The study of history nurtures and refines a broad spectrum of abilities which make not only for good historians and teachers, but for good contributors in many fields that seek individuals who can read critically, analyze information, and write. Indeed, a multitude of career opportunities exists for those who enjoy historical studies. History majors learn and refine thinking, research, problem defining and solving, speaking, and writing skills. The proficiencies they develop in their studies ideally suit them for positions in public, business, and governmental fields.

The History Department has developed a major that can be completed by taking one of three tracks: Track A (designed for students wishing to be history teachers), Track B (designed for students interested in any of the other fields open to History majors), and Track C (designed to provide skills and training in historical methodologies for public and oral history professionals in museums, archives, libraries, historic houses and such). Each track includes courses that provide surveys of United States and world history, and explores the nature of historical study. To further meet the the requirements for Track A, students are required to take some specialized history courses and a few from among the other social science fields. Track B, students choose from a wide spectrum of courses in an area of concentration. Track C, students choose from a variety of professional courses that prepare individuals for careers in a range of fields such as museums, archives, historic preservation, oral history, historic homes and parks.

Currently, the department consists of faculty specializing in the areas of American, European, African, Asian, Middle Eastern and Latin American history.

Teaching Credential Program

Students wishing to prepare for a single subject teaching credential in history are encouraged to complete Track A of the Bachelor of Arts in History as well as certain prerequisites to the teacher education program. For information about the professional education component, admission to the teacher education program, or specific requirements for the single subject credential (p. 310) contact the Credentials Office, CE-102.

Departmental Honors

Students majoring in history are eligible to receive honors in history at graduation if the following conditions are met:

1. At least one-half of the course work required in the major is completed at this university;
2. Earned a grade point average of at least 3.5 in the major, including courses for the major taken elsewhere;
3. Earned an overall undergraduate grade point average of 3.0 ("B") or better;
4. Successful completion of HIST 597, resulting in a thesis paper.

Applications for candidacy must be made by the beginning of the senior year. Approval of candidacy and of the project and project advisor rests with the department. The project advisor and one other faculty reader from the department will have the responsibility for evaluation of the completed thesis paper.

Phi Alpha Theta

Phi Alpha Theta is an international history honor society. Students who have completed at least 12 units of history (3 courses) at CSUSB, and who have a minimum overall G.P.A. of 3.0 and a minimum G.P.A. in History of 3.1 may join the university's chapter of Phi Alpha Theta. Membership is not limited to History majors.

Current Faculty

Joyce A. Hanson, Professor
B.A. 1990, Central Connecticut State University
M.A. 1992, Ph.D. 1997, University of Connecticut

Isabel Huacuja Alonso, Assistant Professor
B.A. 2005, Cornell University
M.A. 2009, Ph.D. 2015, University of Texas at Austin

Tiffany Jones, Associate Professor, Chair
B.A. 1999, M.A. 2000, Dalhousie University
Ph.D. 2004, Queen's University, Canada

Ryan Keating, Assistant Professor
B.S. 2008, University of California, Davis
M.S. 2012, University of New Mexico
Ph.D., 2013, Fordham University

Kate Liszka, Assistant Professor

Thomas Long, Professor
B.A. 1993, Sonoma State University
M.A. 2001, California State University, Fullerton
Ph.D. 2006, University of California, Riverside

Cherstin Lyon, Professor
Ph.D. 2006, University of Arizona

Jeremy Murray, Associate Professor
B.A. 2001, SUNY at Albany
M.A. 2004, Columbia University in the City of New York
Ph.D. 2011, University of California, San Diego

Timothy E. Pytell, Professor, Chair
B.A. 1985, Colorado Springs College
M.A. 1990, Ph.D. 1999, New York University

Yvette Saavedra, Assistant Professor
B.A. 2001, Pitzer College
M.A. 2003, University of Texas at El Paso
Ph.D. 2013, University of Texas at El Paso

Richard Samuelson, Associate Professor
B.A. 1992, Bates College
M.A. 1995, Ph.D. 2000, University of Virginia

Pedro Santoni, Professor
B.A. 1978, University of Notre Dame
J.D. 1981, University of Puerto Rico
Ph.D. 1987, El Colegio de Mexico

David N. Yaghoubian, Professor
B.A. 1989, University of California, Santa Cruz
M.A. 1994, Ph.D. 2000, University of California, Berkeley

Emeriti
Elliott R. Barkan, Professor
Robert A. Blackey, Professor
Edward J. Erler, Professor
Lanny B. Fields, Professor
Ward M. McAlee, Professor
Jamal Nassar
Stuart M. Persell, Professor
John M. Pfau, Professor
Cheryl A. Riggs, Professor
Kent Schofield, Professor

Undergraduate Degrees

Bachelor of Arts

- History (p. 430) with tracks in:
  - Track A (Teaching Track)
  - Track B
  - Track C (Public and Oral History Option)

Minor

- History (p. 433)

Bachelor of Arts in History

B.A. in History - Track A (Teaching Track)  
(Program Code: HITT)

Requirements (101 units)

Total units required for graduation: 180

All students who are enrolled in the teacher track program should see a faculty advisor for assistance in choosing courses.

ANTH 312  Historical Archaeology
HIST 316  Archival Practices
or ANTH 316  Archival Practices
HIST 318  Introduction to Cultural Resource Management
or ANTH 318  Introduction to Cultural Resource Management
HIST 326  Historic Preservation
HIST 329  Topics in Public History
HIST 330  Topics in Oral History
ANTH 375  Museum Management
or HIST 375  Museum Management
HIST 376  Exhibition Development and Design
HIST 377  Historical Documentaries
HIST 527  Historical Audio-Broadcasting

Four units chosen from:

HIST 575  Internship in History (with advisory approval, may be repeated once for additional elective units)
One four-unit upper-division HIST course (330-599) with advisory approval

Four units chosen from African History:

ANTH 302  African Archaeology
HIST 385  Africa to 1500
HIST 386  Africa 1500 to 1870
HIST 387  Africa 1870 to Present
HIST 388  The Rise, Decline and Legacy of Apartheid South Africa
HIST 389  Images of Africa
HIST 450  History of Southern Africa
HIST 451  The History of Health and Medicine in Africa

Four units chosen from Asian History/Middle East History:

HIST 383  Classical Islamic Civilization
HIST 384  Modern Middle East
HIST 426  Ancient and Early Imperial China
HIST 428  Medieval China
HIST 429  Modern China I, 1644-1911
HIST 431  Modern China II, 1911-1949
HIST 432  Modern China III, 1949-Present
HIST 433  Modern Chinese History in Fiction and Film
HIST 435  World War II in the Pacific
HIST 440  Modern Japanese History
HIST 456  Mughal India and the Early Modern World
HIST 457  Modern India at the Crossroads of Empire
HIST 458  Gandhi: Life and Legacy
HIST 459  Media Cultures of the Indian Subcontinent
HIST 485  Arab-Israeli Conflict
HIST 486  Modern Iran
HIST 487  Topics in Modern Middle Eastern History
HIST 491  Nationalism and Conflict in the Middle East

Four units chosen from European History:

HIST 305  Ancient and Medieval Europe
HIST 306  Early Modern Europe, the Renaissance to 1815
HIST 307  Modern Europe, 1815 to the Present
HIST 320  History of Ancient Greece
HIST 321  History of Rome

Twenty units of history courses, of which 12 units must be upper-division.  

Total Units  32

Department of Political Science

Bachelor of Arts  
Political Science  

Minors  
Philosophy, Policy, and Economics  
Political Science  
Pre-law  

Master of Arts  
National Security Studies  

Master of Science  
National Security Studies Cyber Security Emphasis  

Certificate Programs  
Intelligence Methodology  
International Relations  

The major in political science is designed for students who desire a liberal arts program with an emphasis on politics, government and public policy; plan a career in government service or public administration; seek training for positions in foreign service agencies of the United States government, international organizations or corporations; intend to study law; wish to prepare for teaching in the public schools; or intend to work for advanced degrees in political science in preparation for college or university teaching or for government service.

The department offers courses in the following fields:
- American government and politics  
- Comparative politics  
- International relations  
- Political theory  
- Public law  

Departmental Honors

Students majoring in political science who have a grade point average of at least 3.0 overall and 3.5 in the major are eligible to receive departmental honors at graduation.

Pi Sigma Alpha

Qualified students may join the CSUSB Chapter of Pi Sigma Alpha, the national political science honor society. Student must have completed at least 15 quarter hours or ten semester hours of work in political science including at least one course not open to students in the first two years of collegiate work. The student must have at least 90 credits overall. Seniors must have at least a 3.0 average or higher in all political science courses and at least a 3.0 average overall. Juniors must have at least a 3.25 grade point average overall and in all political science courses. Additional information can be obtained from the Department of Political Science.

National Security Studies

National Security Studies Office  
Social and Behavioral Sciences Building, Room 112  
(909) 537-5534 National Security Studies website (http://nss.csusb.edu)  

The Master of Arts in National Security Studies and the Master of Science in National Cyber Security Studies are professionally oriented, interdisciplinary, graduate-level program housed within the College of Social and Behavioral Sciences. The M.A. program is designed to develop an understanding of the substance and principles of defense policy analysis, intelligence analysis, strategic planning and arms control in relation to the contemporary international environment. Flexibility within elective courses permits the student to emphasize research in national security issues of his or her special interests. The M.S. program is designed to develop an understanding of cyber security and intelligence analysis; the ability to understand and analyze the technical aspects of cyber threats from a geostrategic perspective, and analyze and communicate those threats to non-specialists.

The program is relevant to established career personnel in defense analysis and related specialties, the military services, the civil service, and the intelligence community. Additionally, the program is structured to provide motivated persons holding a Bachelor of Arts degree and/or Bachelor of Science degree from an accredited institution with the higher educational skills necessary for entry into the above mentioned career fields or to pursue doctoral studies.

The programs are intended for evening students primarily and, therefore, classes are predominantly scheduled between 6:00 and 10:00 p.m.  

Headquartered within the National Security Studies program is the California State University Intelligence Community Center of Academic Excellence (IC CAE) that develops students for potential careers in the
intelligence community, national service, or as local first responders through education in foreign affairs, world languages, and security studies.

**Pi Sigma Alpha**

Qualified students may join the CSUSB Chapter of Pi Sigma Alpha, the national political science honor society. Graduate students must be enrolled in a political science graduate program and must have completed at least 12 quarter units of graduate work in political science with a grade no lower than a "B" in any course in their graduate program. Additional information can be obtained from the Department of Political Science.

**Current Faculty**

*Fabian Borges, Assistant Professor*
B.A. 2005, Universidad de Costa Rica
M.A. 2008, Georgetown University
Ph.D. 2014, University of Southern California

*Steven Childs, Assistant Professor*
B.A. 2005, University of Southern California
M.A. 2009, Claremont Graduate University
Ph.D. 2011, Claremont Graduate University

*Mark T. Clark, Professor*
B.A. 1984, California State Polytechnic University
M.A. 1986, Ph.D. 1989, University of Southern California

*Meredith Conroy, Assistant Professor*
B.A. 2005, Whittier College
M.A. 2007, Purdue University
Ph.D. 2010, University of California, Santa Barbara

*Antony Field, Assistant Professor*
B.A. 2000, University of Hull, England
M.S. 2002, Missouri State University
Ph.D. 2010, University of Warwick

*Brian P. Janiskee, Professor, Chair*
B.A. 1989, Western Michigan University
M.A. 1992, Michigan State University
Ph.D. 1996, Michigan State University

*Alemayehu Mariam, Professor*
B.A. 1974, Augusta College
M.A. 1975, University of Northern Iowa
Ph.D. 1984, University of Minnesota
J.D. 1988, University of Maryland

*Christina Villegas, Assistant Professor*
B.A. 2003, California State University, San Bernardino
M.A. 2006 University of Dallas
Ph.D. 2013, University of Dallas

*Scot J. Zentner, Professor*
B.A. 1988, California State University, San Bernardino
M.A. 1991, Michigan State University
Ph.D. 1994, Michigan State University

**Emeriti**

*Richard T. Ackley, Professor*

*Carol F. Goss, Professor*

*Albert K. Karnig, Professor, President Emeritus*

*Brij B. Khare, Professor*

*Michael LeMay, Professor*

*Ralph Salmi, Professor*

*James D. Thomas, Professor*

Bachelor of Arts in Political Science

Requirements (68 units)

Total units required for graduation: 180

Requirements for the B.A. in Political Science (Program Code: PSCI)

PSCI 203  American Government  4
PSCI 204  International Relations  4
PSCI 314  American Political Thought  4

American government and politics. Eight units chosen from: 8
PSCI 320  The Legislative Process
PSCI 326  Political Parties and Interest Groups
PSCI 330  State and Local Politics
PSCI 431  The American Presidency
PSCI 528  Formulation of Public Policy

Comparative government. Eight units chosen from: 8
PSCI 300  Western Political Systems
PSCI 301  African Politics
PSCI 304  East European Political Systems
PSCI 305  East Asian Politics
PSCI 306  Latin American Politics
PSCI 308  Government and Politics of the Middle East

International relations. Eight units chosen from: 8
PSCI 325  American Foreign Policy
PSCI 400  International Politics
PSCI 484  National Security Policy
PSCI 500  International Law
PSCI 510  International Organization

Political theory. Eight units chosen from: 8
PSCI 310  Classical Political Thought
PSCI 311  Foundations of Modern Political Thought
PSCI 313  Modern Political Thought
PSCI 315  Post Modern Political Thought
PSCI 520  War and Politics

Public law. Eight units chosen from: 8
PSCI 328  Judicial Process
PSCI 410  American Constitutional Law
PSCI 411  The Bill of Rights
PSCI 412  Civil Rights
PSCI 525  Constitutional Interpretation

Sixteen additional units of electives in upper-division course work in political science, eight of which must be chosen from:
PSCI 530  Studies in Political Theory
PSCI 535  Seminar in Constitutional Law
PSCI 540  Seminar in Comparative Politics
PSCI 590  Seminar in International Relations
PSCI 592  Seminar in Government

Total Units 68

Note: The following will count as electives only after approval by the department chair: PSCI 575B-E, PSCI 595B-E

With approval of the department chair, up to eight units in related fields may be counted toward the upper-division course requirement in political science

Certificate in Intelligence Methodology

Requirements (26 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Prerequisite:

1. Graduate Standing

Certificate Requirements

PSCI 484  National Security Policy  4
PSCI 592  Seminar in Government  4
PSCI 621  Strategic Intelligence  4
GEOG 202  Introduction to Geographic Information Systems and Cartography  5
GEOG 308  Advanced Geographic Information Systems or GEOG 402  Geographic Information Systems Applications  5

A minimum of four units chosen from:

CJUS 550  Crime and Intelligence Analysis  4
GEOG 406  Digital Image Processing
GEOG 610  Military Geography for National Security
PSCI 590  Seminar in International Relations (when topics are Intelligence and Ethic or techniques of Intelligence Analysis)

PSCI 606  Analysis of International Terrorism
PSCI 620  Understanding Intelligence Failure
MATH 611  Operations Analysis
SSCI 695B-D  Directed Graduate Studies (Research or Intern Project for a maximum of 8 units)

Total Units 26
Certificate in International Relations

Requirements (32 units)

Total Units 28
Departments of Psychology

Department of Psychology

Social and Behavioral Sciences Building, Room 425
(909) 537-5570 Department of Psychology website (http://psychology.csusb.edu)

Bachelor of Arts

- Psychology
- Psychology - Industrial and Organization Psychology
- Psychology - Biological Psychology

Minor

- Psychology

The general objectives of the Bachelor of Arts in Psychology are to present the scientific and professional aspects of psychology to the undergraduate majoring in this field and to provide service courses as electives for students throughout the university. Psychology majors may plan to apply the knowledge and skills provided by a broad psychology background to many diverse employment opportunities which do not require graduate training. The department also offers course work leading to the Master of Arts or the Master of Science in Psychology. Students intending to enroll in these programs or another graduate school will find the undergraduate program provides an excellent base for entry into graduate training. Psychology students have the option of pursuing a B.A. in Psychology or in Biological Psychology. Within the Psychology B.A. Program, students can pursue an Industrial Organizational Psychology concentration. The B.A. in Psychology also allows for informal concentrations in such areas as clinical psychology, social psychology, and developmental psychology.

Courses offered by the department range from the basic scientific courses such as experimental psychology, learning and perception to such applied courses as counseling and behavior modification. Laboratory and training facilities complement a wide variety of courses.

The general objectives of the Bachelor of Arts in Psychology are to present the scientific and professional aspects of psychology to the undergraduate majoring in this field and to provide service courses as electives for students throughout the university. Psychology majors may plan to apply the knowledge and skills provided by a broad psychology background to many diverse employment opportunities which do not require graduate training. The department also offers course work leading to the Master of Arts or the Master of Science in Psychology. Students intending to enroll in these programs or another graduate school will find the undergraduate program provides an excellent base for entry into graduate training.

Courses offered by the department range from the basic scientific courses such as experimental psychology, learning and perception to such applied courses as counseling and behavior modification. Laboratory and training facilities complement a wide variety of courses.

Departmental Honors

Students majoring in psychology are eligible to receive honors in psychology at graduation if the following conditions are met:

1. At least a 3.5 grade point average in the major;
2. An overall grade point average of 3.5 or better*;
3. Completion of SSCI 306 or equivalent with a “B” or better prior to enrollment in the Honors Program (preference given for SSCI 306);
4. Completion of PSYC 311 with a “B+” or better prior to enrollment in the Honors Program;
5. Completion of the Application for Honors Program in Psychology, which includes a statement of purpose and a writing sample;
6. Completion of the three-quarter Honors Program with a grade of “B” (3.0) or better each quarter.

<table>

<td>PSYC 598A</td>
<td>Honors Project I</td>
<td>2</td>
</tr>
<tr>
<td>PSYC 598B</td>
<td>Honors Project II</td>
<td>2</td>
</tr>
</tbody>
</table>

Students interested in this recognition must file a formal application for enrollment in the Psychology Honors Program in their junior year.

*Students with an overall GPA of 3.25-3.49 in their last 90 units will be considered on a case-by-case basis with a mentor letter of reference.

Master of Arts

- Child Development
- Psychological Science

Master of Science

Psychology with concentrations in:

- Clinical Counseling
- Industrial/Organizational

The Psychology Department also offers course work leading to the Master of Arts or the Master of Science in Psychology. Students intending to enroll in these programs or another graduate school will find that the Department’s undergraduate programs provide an excellent base for entry into graduate training.

Each of the Department’s four Master’s programs is designed to be completed in 2 years. The programs combine core and elective course work in psychology with individualized training in research and/or professional practice. Culminating experience options vary with the program, and could consist of a thesis, project, or comprehensive exam.

Human Development

Bachelor of Arts

Human Development with Tracks in:

- Child Development
- Lifespan

The human development major is an interdisciplinary program of study focusing on the processes and changes that characterize human development. The major provides an important advantage of promoting an holistic and interdisciplinary approach to human growth and development that no single discipline can offer. Course offerings are drawn primarily from human development, psychology, sociology and anthropology, with electives available from other departments.

Students selecting the Bachelor of Arts degree in Human Development typically choose careers related to working with people when they graduate, e.g., education, social services, counseling and guidance or in health delivery settings. The major also provides academic
preparation for graduate-level training in related fields, including human or child development, family studies, psychology, social work, law, gerontology, human ecology, and education.

The following two tracks are available for students working toward a Bachelor of Arts in Human Development.

**The Child Development Track** is designed to provide students with a solid background in child growth and development, and includes the option of focusing on early childhood education. This track prepares students for occupations or professions that call for child development specialists, e.g., early childhood education, infant and toddler specialists, and other positions involving work with children and families. This track will also prepare students for graduate level training in related fields (e.g. a multiple subjects teaching credential). The Infant/Toddler Lab and CSUSB Children's Center are integral components of this track, and are used as observation and practicum sites for students. Students selecting this track may also earn Child Development Master Teacher and Site Supervisor Permits (i.e., early childhood teaching and administrative credentials).

**The Lifespan Track** is designed for students who wish to obtain a broad interdisciplinary background in human development and behavior across the life span. Because this track does emphasize adulthood and aging, this would be an ideal track for students pursuing work with late adulthood populations.

A dual-degree program in Psychology and Human Development is also available for students seeking a combined program of study. This program may be especially suited for students planning to pursue careers in working with children and families, adult services, and also for those planning on pursuing graduate study in child or developmental psychology, clinical or counseling psychology, child or human development, or social work. See the human development director or the Psychology department website for more information.

A dual-degree program in Psychology and Human Development is also available for students seeking a combined program of study. This program may be especially suited for students planning to pursue careers in working with children and families, adult services, and also for those planning on pursuing graduate study in child or developmental psychology, clinical or counseling psychology, child or human development, or social work. See the human development director for more information.

**Departmental Honors**

Students majoring in human development are eligible to receive honors in human development at graduation if the following conditions are met:

1. At least a 3.5 grade point average in the major;
2. An overall grade point average of 3.5 or better*;
3. Completion of SSCI 306 or equivalent with a grade of “B” (3.0) or better prior to enrollment in the Honors Program (preference given for SSCI 306);
4. Completion of PSYC 311 with a grade of “B+” or better prior to enrollment in the Honors Program;
5. Completion of the Application for Honors Program in Psychology, which includes a statement of purpose and a writing sample;
6. Completion of the three-quarter Honors Program with a grade of “B” (3.0) or better each quarter:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 597</td>
<td>Honors Seminar</td>

<td>PSYC 598A</td>
<td>Honors Project I</td>
<td>2</td>
</tr>
<tr>
<td>PSYC 598B</td>
<td>Honors Project II</td>
<td>2</td>
</tr>
</tbody>
</table>

Students interested in this recognition must file a formal application for enrollment in the Human Development Honors Program in their junior year.

*Students with an overall GPA of 3.25-3.49 in their last 90 units will be considered on a case-by-case basis with a mentor letter of reference.

**Master of Arts**

- **Child Development**

The objective of the Master of Arts in Child Development is to provide a program of study with courses selected from a variety of basic areas in human development and psychology that pertain to the study of children. Utilizing an interdisciplinary and applied focus, students will take courses in infant, child, and adolescent development; families and parenting; cognitive and language development; applications of developmental theory; and research methods.

**Current Faculty**

Richard Addante, Assistant Professor  
B.A. 2005, Florida Atlantic University  
Ph.D. 2011, UC Davis

Mark D. Agars, Professor  
B.A. 1992, Sienna College  
M.S. 1996, Ph.D. 1999, Pennsylvania State University

Dionisio Amodeo, Assistant Professor  
B.A. 2006, CSU San Bernardino  
M.A. 2009, CSU San Bernardino  
Ph.D. 2015, University of Illinois at Chicago

Manijeh Badiee, Assistant Professor  
B.A. 2002, Austin College  
M.A. 2007, Saint Edward’s University  
Ph.D. 2012, University of Nebraska-Lincoln

Kelly Campbell, Associate Professor  
B.A. 2000, M.A. 2003, University of British Columbia  
Ph.D. 2008, University of Georgia

David V. Chavez, Professor  
A.B. 1982, Harvard  
M.A. 1986, Ph.D. 1993, University of California, Berkeley

Yuchin Chien, Professor, Associate Chair  
B.S. 1975, Chengchi University (Taiwan Intl.)  
M.S. 1979, Ph.D. 1983, Cornell University

John P. Clapper, Professor  
B.A. 1983, State University of New York at Buffalo  
Ph.D. 1988, Stanford University

Cynthia A. Crawford, Professor  
B.A. 1985, Washington University  
M.A. 1989, Ph.D. 1992, University of Kentucky

Robert G. Cupp, Lecturer  
B.A. 1986, M.A. 1989, California State University, San Bernardino
Ismael Diaz, Assistant Professor  
B.A. 2008, University of California, Riverside  
M.S. 2011, Ph.D. 2013, Texas A&M, College Station  

Stacy Forcino, Assistant Professor  
B.A. 2003, University of California, Los Angeles  
M.S. 2008, Ph.D. 2010, Idaho State University  

Donna Garcia, Associate Professor  
B.A. 1999, Wilfrid Laurier University  
M.A. 2001, University of Guelp  
Ph.D. 2006, University of Kansas  

Janelle Gilbert, Associate Professor  
B.A. 1988, New York University  
M.A. 1990, Ph.D. 1994, George Mason University  

Cari Goetz, Assistant Professor  
B.S. 2006, University of California, Los Angeles  
Ph.D. 2014, University of Texas, Austin  

Christina Hassija, Associate Professor  
B.A. 2004, M.A. 2006, California State University, Northridge  
Ph.D., 2011, University of Wyoming  

N. Laura Kamptn, Professor  
B.S. 1976, San Diego State University  
M.S. 1979, University of California, Davis  
Ph.D. 1984, Michigan State University  

Hideya Koshino, Professor  
B.A. 1983, M.A. 1985, International Christian University, Tokyo  
Ph.D. 1994, University of Kansas  

Janet L. Kottke, Professor  
B.A. 1978, Wartburg College  
M.S. 1981, Ph.D. 1985, Iowa State University  

Michael Lewin, Professor  
B.A. 1983, State University of New York, Albany  
M.S. 1987, Ph.D. 1992, Oklahoma State University  

Sanders McDougall, Professor  
B.A. 1979, M.A. 1981, West Washington University  
Ph.D. 1988, University of Kentucky  

Jason Reimer, Professor  
B.A. 1993, M.A. 1996, University of Nebraska at Omaha  
Ph.D. 2001, University of Nebraska-Lincoln  

Robert B. Ricco, Professor, Chair  
B.A. 1980, New York University  
Ph.D. 1987, Temple University  

David M. Refer, Professor, Assistant Dean  
B.A. 1975, University of California, Los Angeles  
Ph.D. 1981, University of California, Irvine  

Matt L. Riggs, Professor  
B.A. 1979, Bethany College, KS  
M.S. 1986, Ph.D. 1989, Kansas State University  

Kenneth S. Shultz, Professor  
B.A. 1984, State University of New York, College at Potsdam  
M.A. 1987, Ph.D. 1992, Wayne State University  

Jodie B. Ullman, Professor  

Amy van Schagen, Assistant Professor  
B.S. 2007, University of North Carolina at Greensboro  
M.S. 2013, University of North Carolina at Greensboro  
Ph.D. 2016, University of North Carolina at Greensboro  

Sharon L. Ward, Professor  
B.A. 1993, California State University, San Bernardino  
Ph.D. 1998, University of California, Riverside  

Joseph Wellman, Assistant Professor  

Amanda S. Wilcox-Herzog, Professor  
B.A. 1988, University of California, Irvine  
M.Ed. 1992, Chapman University  
M.A. 1995, Ph.D. 1999, Purdue University  

Eugene H. Wong, Professor  
B.A. 1986, University of California, Los Angeles  
M.A. 1989, Ph.D. 1991, University of California, Riverside  

Emeriti  
Sybil Carrere, Professor, Associate Professor of Psychology  

Gloria A. Cowan, Professor  

Robert Cramer, Professor  

Stuart Ellins, Professor  

Diane F. Halpern, Professor  

Philip L. Herold, Associate Professor  

Charles D. Hoffman, Professor  

Nikolai E. Khokhlov, Professor  

Kenton L. Monroe, Professor  

Frederick A. Newton, Professor  

M. Jean Peacock, Professor  

Geraldine B. Stahly, Professor  

Faith H. Teyber, Professor  

Edward C. Teyber, Professor  

Joanna Worthley, Professor  

Undergraduate Degrees  

Bachelor of Arts  

- Human Development with tracks in:  
  - Child Development (p. 441)  
  - Lifespan (p. 442)  
- Psychology (p. 443) with concentrations in:  
  - Industrial and Organizational Psychology (p. 444)  
  - Biological Psychology (p. 445)
Applicants to Psychology majors must meet all of the campus’ specified supplementary admission criteria provided in the CSUSB Program Impaction (https://www.csusb.edu/admissions/impaction-information) information.

Graduate Degrees

Master of Arts
• Child Development (p. 446)
• Psychological Science (p. 447)

Master of Science
• Psychology (p. 448) with concentrations in:
  • Clinical Counseling
  • Industrial/Organizational

Minor
• Psychology (p. 451)

Bachelor of Arts in Human Development - Child Development Track

Requirements (95 units)
Total units required for graduation: 180

Requirements to enter the B.A. in Human Development - Child Development Track

General Education Basic Skills in English (A1) (4)
Four units chosen from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Required Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 104A</td>
<td>Stretch Composition III</td>
</tr>
<tr>
<td>ENG 104B</td>

Bachelor of Arts in Human Development - Lifespan Track

Requirements (90 units)

Total units required for graduation: 180

Requirements to enter the B.A. in Human Development - Lifespan Track (Program Code: HDLI)

General Education Basic Skills in English (A1) (4)

Four units chosen from:

- ENG 104A  Stretch Composition III
- ENG 104B  Stretch Composition III for Multilingual Students
- ENG 106A  Accelerated Stretch Composition II
- ENG 106B  Accelerated Stretch Composition II for Multilingual Students
- ENG 107  Advanced First-Year Composition

General Education Basic Skills in Mathematics (A3) (4)

One of the following:

- MATH 110  College Algebra
- MATH 115  The Ideas of Mathematics
- MATH 120  Pre-Calculus Mathematics
- MATH 192  Methods of Calculus
- MATH 211  Basic Concepts of Calculus

Additional Requirements (9)

HD 240  Introduction to Child Development

or PSYC 201  Developmental Psychology

PSYC 210  Psychological Statistics (or its equivalent)

Total Units 17

Students may earn no grade lower than a “C” (2.0) in each of these courses. In addition, students must have a GPA of 2.5 in the Pre-psychology major and an overall University GPA of 2.25.

The Office of the Registrar will change the student's status once the above requirements have been met. Discrepancies should be reported to the Office of the Registrar.

Requirements for the B.A. in Human Development - Lifespan Track

BIOL 100  Topics in Biology

PSYC 100  Introduction to Psychology

PSYC 201  Developmental Psychology

Four units chosen from:

- ANTH 325  Human Biological Variance and the Concept of Race
- ANTH 327  Primate Evolution and Ecology
- HD 205  Diversity in Child Development
- HD 215  Child, Family, and Community
- HD 302  History of Childhood
- HD 520  Intergenerational Aspects of Human Development
- SOC 339  Socialization

Total Units 95

ANTH 331  Anthropology of Human Development

HD 324  Developmental Psychobiology

HD 480  Advanced Human Development

HD 575  Internship

PSYC 303  Parenting and Family Relations

or SOC 340  Sociology of the Family

PSYC 358  Cognitive Development

PSYC 384  Personality and Social Development

Developmental Periods (12)

A minimum of 12 units with one course from each of A, B, and C: 12

- Group A:
  - HD 270  Infant and Toddler Development
  - or HD 280  Early Childhood Development

- Group B:
  - PSYC 320  Psychology of Middle Childhood
  - or PSYC 326  Psychology of Adolescent Development

- Group C:
  - PSYC 329  Psychology of Adulthood and Aging
  - or SOC 330  Social Gerontology

Applications (12)

A minimum of 12 units with one course from each of A, B, and C: 12

- Group A:
  - Four units chosen from:

- Group B:
  - PSYC 350  Development of Exceptional Children
  - or PSYC 391  Psychopathology of Childhood

- Group C:
  - Four units chosen from:

Testing and Assessment (6)

Two units chosen from:

- HD 245  Observation and Methods in Child Development: Early Childhood

- HD 246  Observation and Methods in Child Development: Middle Childhood
HD 247  Observation and Methods in Child Development: Adolescence  
A minimum of four units chosen from:  
HD 400  Child Assessment  
HD 460  Adult Assessment  
PSYC 377  Tests and Measurements  
Statistics/Methodology (15)  
HD 310  Applied Research Methods  
PSYC 210  Psychological Statistics  
PSYC 311  Introduction to Experimental Psychology  
Total Units  90  

Bachelor of Arts in Psychology  
Requirements (64-66 units)  
As prerequisites for acceptance into the B.A. in Psychology, students must complete the following as a "Pre-psychology major." Upon completion of the requirements, student's major will be changed automatically from "Pre-psychology" to "Psychology" status. Following formal entrance to the psychology major, students may proceed with PSYC 311 and 400-level courses. Students enrolled in their pre-psychology course in statistics (e.g. PSYC 210) will be allowed to enroll in PSYC 311 for the following quarter with the understanding that all pre-psychology requirements will be completed successfully. Prior to completing the prerequisites, students who have completed PSYC 100 may proceed with upper division major requirements with the exception of PSYC 311 and the upper division seminars and laboratories.  
Requirements to enter the B.A. in Psychology  
General Education Basic Skills in English (A1) (4)  
One of the following:  
ENG 104A  Stretch Composition III  
ENG 104B  Stretch Composition III for Multilingual Students  
ENG 106A  Accelerated Stretch Composition II  
ENG 106B  Accelerated Stretch Composition II for Multilingual Students  
ENG 107  Advanced First-Year Composition  
General Education Basic Skills in Mathematics (A3) (14)  
One of the following:  
MATH 110  College Algebra  
MATH 115  The Ideas of Mathematics  
MATH 120  Pre-Calculus Mathematics  
MATH 192  Methods of Calculus  
MATH 211  Basic Concepts of Calculus  
PSYC 100  Introduction to Psychology (or its equivalent; also satisfies General Education category D4)  
PSYC 101  Psychology as a Major  
PSYC 210  Psychological Statistics  
Total Units  64-66  
* Note: Students may apply only one of these courses.  

Option I  
Six units chosen from:  
PSYC 431  Experimental Psychology: Developmental  
PSYC 432  Experimental Psychology: Clinical  
PSYC 433  Experimental Psychology: Biological  
PSYC 434  Experimental Psychology: Social  

Students are encouraged to petition for the "Pre-psychology major" and to complete PSYC 101 early in the curriculum.  
Requirements for the B.A. in Psychology (Program Code: PSYC)  
PSYC 100  Introduction to Psychology  
PSYC 101  Psychology as a Major  
PSYC 210  Psychological Statistics  
PSYC 311  Introduction to Experimental Psychology  
Fields of Psychology  
Twelve units chosen from:  
PSYC 201  Developmental Psychology  
PSYC 240  Introduction to Child Development  
PSYC 355  Industrial Psychology  
PSYC 382  Psychology of Social Behavior  
PSYC 385  Personality  
PSYC 390  Abnormal Psychology  
Basic Processes  
Twelve units chosen from:  
PSYC 357  History and Systems of Psychology  
PSYC 360  Cognitive Psychology  
PSYC 362  Learning and Motivation  
PSYC 363  Biological Psychology  
PSYC 364  Perception  
Applications  
Four units chosen from:  
PSYC 315  Communication Processes  
PSYC 318  Health Psychology  
PSYC 351  Behavior Modification: Principles and Applications  
PSYC 377  Tests and Measurements  
PSYC 386  Introduction to Psychotherapy  
PSYC 575  Internship in Psychology  
Sixteen units in upper-division psychology electives. Students intending to apply to doctoral programs in psychology are encouraged to take the following courses:  
PSYC 357  History and Systems of Psychology  
PSYC 377  Tests and Measurements  
PSYC 410  Advanced Psychological Statistics  
PSYC 595B  Independent Study  
PSYC 595C  Independent Study  
PSYC 595D  Independent Study  
Advanced Culminating Experience  
Students must select one of the following options:  

Total Units  64-66  

Students may earn no grade lower than a "C" (2.0) in each of these courses. In addition, students must have a GPA of 2.5 in the Pre-psychology major and an overall University GPA of 2.25.
Bachelor of Arts in Psychology - Industrial and Organizational Psychology Concentration

Requirements (68-70 units)

Total units required for graduation: 180

As prerequisites for acceptance into the B.A. in Psychology with a concentration in Industrial and Organizational Psychology, students must complete the following as a "Pre-psychology major." Upon completion of the requirements, student's major will be changed automatically from "Pre-psychology" to "Psychology" status. Following formal entrance to the psychology major, students may proceed with PSYC 311 and 400-level courses. Students enrolled in their pre-psychology course in statistics (e.g. PSYC 100) will be allowed to enroll in PSYC 311 for the following quarter with the understanding that all pre-psychology requirements will be completed successfully. Prior to completing the prerequisites, students who have completed PSYC 100 may proceed with upper division major requirements with the exception of PSYC 311 and the upper division seminars and laboratories.

Requirements to enter the B.A. in Psychology

General Education Basic Skills in English (A1) (4)

One of the following:

ENG 104A  Stretch Composition III
ENG 104B  Stretch Composition III for Multilingual Students

ENG 106A  Accelerated Stretch Composition II
ENG 106B  Accelerated Stretch Composition II for Multilingual Students
ENG 107  Advanced First-Year Composition

General Education Basic Skills in Mathematics (A3) (14)

One of the following:

MATH 110  College Algebra
MATH 115  The Ideas of Mathematics
MATH 120  Pre-Calculus Mathematics
MATH 192  Methods of Calculus
MATH 211  Basic Concepts of Calculus
PSYC 100  Introduction to Psychology (or its equivalent; also satisfies General Education category D4)
PSYC 101  Psychology as a Major
PSYC 210  Psychological Statistics

Students may earn no grade lower than a “C” (2.0) in each of these courses. In addition, students must have a GPA of 2.5 in the Pre-psychology major and an overall University GPA of 2.25.

Students are encouraged to petition for the "Pre-psychology major" and to complete PSYC 101 early in the curriculum.

Requirements for the B.A. in Psychology - Industrial and Organizational Psychology Concentration (Program Code: PYIO)

PSYC 100  Introduction to Psychology 4
PSYC 101  Psychology as a Major 1
PSYC 210  Psychological Statistics 5
PSYC 302  Management and Organizational Behavior 4
PSYC 310  Applied Research Methods 4
PSYC 311  Introduction to Experimental Psychology 6
PSYC 355  Industrial Psychology 4
PSYC 377  Tests and Measurements 4
PSYC 428  Advanced Seminar in Psychology: Industrial and Organizational 4-6
PSYC 575  Internship in Psychology 4
PSYC 595D  Independent Study

Eight units chosen from:

PSYC 201  Developmental Psychology
PSYC 240  Introduction to Child Development
PSYC 382  Psychology of Social Behavior
PSYC 385  Personality
PSYC 390  Abnormal Psychology

Twelve units chosen from:

PSYC 357  History and Systems of Psychology
PSYC 360  Cognitive Psychology
PSYC 362  Learning and Motivation
PSYC 363  Biological Psychology
PSYC 364  Perception

A minimum of eight units chosen from:
Bachelor of Arts in Psychology - Biological Psychology

Requirements (66 units)

Total units required for graduation: 180

As prerequisites for acceptance into the B.A. in Psychology or Biological Psychology, students must complete the following as a "Pre-biopsychology major." Upon completion of the requirements, student's major will be changed automatically from "Pre-biopsychology" to "Biological Psychology" status. Following formal entrance to the psychology Biological Psychology major, students may proceed with PSYC 311 and 400-level courses. Students enrolled in their Pre-biopsychology course in statistics (e.g. PSYC 210) will be allowed to enroll in PSYC 311 for the following quarter with the understanding that all Pre-biopsychology requirements will be completed successfully. Prior to completing the prerequisites, students who have completed PSYC 100 may proceed with upper division major requirements with the exception of PSYC 311 and the upper division seminars and laboratories.

Requirements to enter the B.A. in Psychology - Biological Psychology

General Education Basic Skills in English (A1) (4)

One of the following:

ENG 104A Stretch Composition III
ENG 104B Stretch Composition III for Multilingual Students
ENG 106A Accelerated Stretch Composition II
ENG 106B Accelerated Stretch Composition II for Multilingual Students
ENG 107 Advanced First-Year Composition

General Education Basic Skills in Mathematics (A3) (14)

One of the following:

MATH 110 College Algebra
MATH 115 The Ideas of Mathematics
MATH 120 Pre-Calculus Mathematics
MATH 192 Methods of Calculus

TOTAL UNITS: 68-70

*Note: Students may apply only one of these courses.

Requirements for the B.A. in Psychology - Biological Psychology (Program Code: PBIO)

PSYC 100 Introduction to Psychology 4
PSYC 101 Psychology as a Major 1
PSYC 210 Psychological Statistics 5
PSYC 311 Introduction to Experimental Psychology 6
PSYC 363 Biological Psychology 4
PSYC 442 Behavioral Neuroscience 4

Fields of Psychology. Twelve units chosen from:

PSYC 210 Developmental Psychology
or PSYC 241 Introduction to Child Development
PSYC 355 Industrial Psychology
PSYC 382 Psychology of Social Behavior
PSYC 385 Personality
PSYC 390 Abnormal Psychology

Basic Processes. Four units chosen from:

PSYC 357 History and Systems of Psychology
PSYC 360 Cognitive Psychology
PSYC 364 Perception

Foundations of Biopsychology. Eight units chosen from:

PSYC 362 Learning and Motivation
PSYC 365 Cognitive Neuroscience
PSYC 538 Introduction to Psychopharmacology
ANTH 327 Primate Evolution and Ecology
or BIOL 306 Human Heredity and Development

Advanced Culminating Experience:

PSYC 433 Experimental Psychology: Biological 6
or PSYC 436 Experimental Psychology: Learning and Motivation

Upper-division biopsychology electives. Twelve chosen units from:

PSYC 318 Health Psychology
PSYC 324 Developmental Psychobiology
PSYC 333 Drugs and Behavior
PSYC 339 Human Psychophysiology
PSYC 362 Learning and Motivation
PSYC 365 Cognitive Neuroscience
PSYC 367 Neuropsychiatric Disorders
PSYC 410 Advanced Psychological Statistics
PSYC 423 Advanced Seminar in Psychology: Biological
PSYC 426  Advanced Seminar in Psychology: Learning and Motivation
PSYC 538  Introduction to Psychopharmacology
ANTH 325  Human Biological Variance and the Concept of Race (if not taken as an upper-division psychology elective)
or ANTH 327: Primate Evolution and Ecology
BIOL 306  Human Heredity and Development

Total Units 66

Students intending to apply to doctoral programs in biopsychology are encouraged to take appropriate course work in biology, chemistry, and physics.

Master of Arts in Child Development

Requirements (50-51 units)

Program Code: CHDV

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree with a major in human development, child development, psychology; or with any other undergraduate major that satisfies the graduate admissions committee of the Department of Psychology that a satisfactory course of study has been pursued in preparation for graduate study in psychology;
2. A cumulative undergraduate grade point average of at least 3.0 (“B”) overall and in the major;
3. Completion of the graduate entrance writing requirement;
4. A brief statement describing preparation for graduate study, the goals of graduate study and professional aspirations, to be submitted to the department;
5. Three letters of recommendation, with at least two from former professors. Letters should come directly from the writers or be included in a placement file. (It is the applicant's responsibility to determine if letters have been received.);
6. Satisfaction of the prerequisites:
   - PSYC 100  Introduction to Psychology (or an equivalent course) 4
   - HD 240  Introduction to Child Development (or a course in child development) 4
   - PSYC 210  Psychological Statistics (or a course in introductory statistics) 5

Advancement to Candidacy

At the end of the spring quarter, all first year graduate students will be evaluated to determine whether or not they will be advanced to candidacy for the Master of Arts degree. Students will be reevaluated each quarter until they are either advanced to candidacy or declassified.

To be formally advanced to candidacy, a student must, to the satisfaction of the chair of the department, have:
1. Achieved classified status;
2. Successfully completed 16 units of course work in the program and maintained a 3.0 (“B”) grade point average in the course work;
3. Selected a graduate advisor to supervise the course of study;
4. Satisfied the ethical requirements of the American Psychological Association;
5. Filed an approved graduate program which must have the approval of the student’s advisor, the department chair or the graduate program director and the Dean of Graduate Studies;
6. Demonstrated successful research participation with a faculty advisor. This requirement can be fulfilled in one of three ways:
   a. Comprehensive Examination. Student will be required to become familiar with the literature in a research area which will be related to their comprehensive examination. This could take the form of a partial literature review, an annotated bibliography and/or a presentation of the literature of interest to faculty/student groups.
   b. Project. Student will be required to become familiar with several related research literatures if their area of interest is currently undeveloped or if specialized knowledge of particular methodologies requires further investigation for the development of a project.
   c. Thesis. Students will be required to become skilled in certain specialized research methods which will pertain to their abilities to gather data for a thesis. Examples of such activities could include gathering pilot data to acquire interview skills, knowledge of survey procedures, assessment skills, advanced statistical skills, understanding of content analysis, skills to work with a special population, or advanced physiological measurement skills.

Requirements for Graduation

1. A minimum of 50 quarter units of approved graduate-level work, with 38 completed in residence at this university;
2. A grade point average of at least 3.0 (“B”) in all courses taken to satisfy the Master of Arts degree, grades of “B-” (2.7) or better in each required course in the program, and grades of “C” (2.0) or better in each elective course;
3. Successful completion of the course work listed below, including a culminating experience consisting of the completion and defense of a comprehensive examination, project or thesis;
4. The graduation writing requirement is met upon successful completion of the culminating experience;
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62);
6. Classified graduate students in the Master of Arts program must complete their degree requirements within seven years of admission to that program;
7. Students in classified status who fail to register for at least one course in the M.A.C.D. program each quarter will automatically be declassified. PSYC 698 (Continuous Enrollment for Graduate Candidacy Standing) may be taken if another course is not taken during a given quarter.

### Master of Arts in Psychological Science

**Requirements (51 units)**

**Program Code:** PYSC  

The objective of the Master of Arts in Psychological Science is to provide a program of study with courses selected from a variety of basic areas in general experimental psychology. The program provides a broad background suitable for entry into doctoral programs in any area of psychology (e.g., social, cognitive, developmental, neuroscience, or clinical); or for employment requiring a Master of Arts degree in Psychology.

### Admission to the M.A. Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree with a major in psychology; or with any other undergraduate major;
   a. Score at least at the 50th percentile on the GRE advanced test in psychology;  
   OR  
   b. Satisfy the graduate admissions committee of the Department of Psychology that a satisfactory course of study has been pursued in preparation for graduate study in psychology;
2. A cumulative undergraduate grade point average of at least 3.0 (“B”) overall and in the major;
3. Submission of scores for the verbal and quantitative portions of the Graduate Record Examination (for the Psychological Science program only);
4. Completion of the graduate entrance writing requirement;
5. A brief statement describing preparation for graduate study (e.g., research experience, academic accomplishments), the goals of graduate study and professional aspirations, to be submitted to the department;
6. Three letters of recommendation, with at least two from former professors. Letters should come directly from the writers or be included in a placement file. (It is the applicant’s responsibility to determine if letters have been received.);
7. Satisfaction of the prerequisites or their equivalent:
   - PSYC 100 Introduction to Psychology  4  
   - PSYC 210 Psychological Statistics  5  
   - PSYC 311 Introduction to Experimental Psychology  6

Students who meet the general requirements of the university for admission to graduate study, but who do not meet the Psychology Department’s specific requirements for admission to classified status or who wish to take course work prior to spring quarter consideration of their application for classified status, may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, with consent of the Psychology Department, in selected graduate courses.

### Advancement to Candidacy

At the end of the spring quarter, all first year graduate students will be evaluated to determine whether or not they will be advanced to candidacy.
Graduate Degree and Program Requirements (p. 62).

Classified graduate students in the Master of Arts program must complete their degree requirements within seven years of admission to that program. Students in classified status who fail to register for at least one course in the Psychology M.A. program each quarter will automatically be declassified. PSYC 698 (Continuous Enrollment for Graduate Candidacy Standing) must be taken if another course is not taken during a given quarter.

Eight units of PSYC 500- or 600-level courses, excluding PSYC 595, PSYC 611, PSYC 612 and PSYC 689.

Total Units 51

Master of Science in Psychology Requirements

Clinical Counseling Concentration Thesis Option (91-92 units) (Program Code: PSCC)

Clinical Counseling Concentration Comprehensive Examination Option (90 units) (Program Code: PSCC)

Industrial/Organizational Concentration Thesis Option (76 units) (Program Code: PSIO)

The areas of concentration for the Master of Science degree program are clinical/counseling psychology or industrial/organizational psychology.

The principal objective of the clinical/counseling program is to provide students with practical skills in counseling, through supervised training and experience, and an understanding of relevant subject matter knowledge and research methodology. The program offers required and elective course work designed to meet the educational requirements for licensure as a Marriage and Family Therapist (MFT) as outlined by the California Board of Behavioral Sciences. The program culminates with a thesis or comprehensive examination and an internship experience.

The principal objective of the industrial/organizational program is to provide students with the skills to apply the principles and methods of psychology to organizations, public and private, and to settings where people are engaged in work. To be successful in this application, the graduate must have developed knowledge and appreciation of psychological theory and research as they apply to organizations and people at work, and mastery of the measurement and research technologies which are commonly used in the discipline.

Admission to the M.S. Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A minimum cumulative undergraduate grade point average of 2.5;
2. A minimum cumulative undergraduate grade point average in the major of 3.0 ("B");
3. A baccalaureate degree in psychology; or one of the following:
   a. A baccalaureate degree in a major other than psychology and score at or above the 50th percentile on the Graduate Record Examination (advanced test in psychology);
   b. A baccalaureate degree in a major other than psychology, including a course of study judged, by the Psychology Department graduate admissions committee, to be satisfactory preparation for graduate study in psychology;
4. Completion of the graduate entrance writing requirement;
5. Submission to the department graduate admissions committee of a brief statement (one or two typewritten pages) of the student's preparation for graduate study, goals in a graduate training program and professional aspirations following receipt of the master's degree;
6. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's likely success in a graduate psychology program. At least two of these letters should be from former professors who are familiar with the student's scholarly activities.

For students seeking admission in the Industrial/Organizational Psychology Concentration, the following also are required for classified status:

Completion of the following prerequisite courses or their equivalent:

Students who meet the general requirements of the university for admission to graduate study, but who do not meet the Psychology Department's specific requirements for admission to classified status or who wish to take course work prior to winter quarter consideration of their application for classified status, may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses, with the instructor's approval.

**Advancement to Candidacy**

In order to be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study;
3. Completed, with the approval of the student's advisor, at least 16 quarter units of graduate course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Filed an approved Advancement to Candidacy form which must have the approval of the student's advisor, the department chair or chair of the graduate program committee and the Dean of Graduate Studies.

**Requirements for Graduation**

**Clinical/Counseling Concentration**

1. Completed at least 90-92 quarter units (depending on the culminating option selected in item 2 below) of course work in an approved graduate program with a grade point average of at least 3.0 ("B") and grades of "C" (2.0) or better in all courses in the program;
2. One of the following:
   a. Completed and defended an original thesis. Students selecting the thesis option take five units of PSYC 611B-E in preparation for the thesis.
   OR
   b. Successful completion of the comprehensive examination. Students selecting the examination option take five units of PSYC 612B-E in preparation for the examination;
3. Received the approval of the student's graduate committee;
4. The graduation writing requirement is met upon successful completion of the thesis or comprehensive examination;
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62).

**Industrial/Organizational Concentration**

1. Completed a minimum of 76 quarter units of approved graduate level work with at least 80 units completed in residence at this university with a grade point average of at least 3.0 ("B") and grades of "C" (2.0) or better in all courses in the program;
2. Completed and defended an original master's thesis (a two-course sequence, PSYC 611B-E and PSYC 699);
3. The graduate writing requirement is met upon successful completion of the thesis.

Classified graduate students in the Master of Science programs must complete their degree requirements within seven years of admission to the program. Students with classified status who fail to register for at least one course in the Psychology M.S. program each quarter will automatically be declassified.

Applications. Four units chosen from:

- PSYC 315  Communication Processes
- PSYC 318  Health Psychology
- PSYC 351  Behavior Modification: Principles and Applications
- PSYC 377  Tests and Measurements
- PSYC 386  Introduction to Psychotherapy
- PSYC 575  Internship in Psychology

Sixteen units of upper-division psychology electives are required.

Social Services

The sociology major offers a balanced program of study for students interested in pursuing graduate study or in the practical application of sociology. The curriculum is designed to expose the student to the scope and methods of sociology and to provide a broad educational background for understanding the structure and functioning of modern society.

The department also offers an alternate program of study for students interested in pursuing a career in the social sciences area and for those interested in enrolling in an M.S.W. graduate program.

As an adjunct to the curriculum, there are two student organizations for sociology majors. The Sociology Club has a varied program of social, community service and academically oriented activities. In addition to general sociology majors, students in human services and students in social services actively participate in the club. A chapter of Alpha Kappa Delta, the sociology honor society, is open to junior sociology majors with a 3.5 grade point average and to seniors and graduate students with a 3.0 grade point average.

Departmental Honors

Students majoring in sociology are eligible to receive honors in sociology at graduation if they have met the following:

1. At least one-half of the course work required by the major is completed at this university;
2. At least a 3.5 grade point average in the major, both at this university and overall;
3. An overall undergraduate grade point average of 3.0 ("B") or better;
4. Completion of a senior honors project (SOC 597) approved in advance by the department.

Current Faculty

Annika Anderson, Assistant Professor
B.A. 2006, Pennsylvania State University
M.A. 2010, Washington State University
Ph.D. 2015, Washington State University

Zeng-yin Chen, Professor
B.A. 1981, Beijing Normal University
M.A. 1988, Dartmouth College

</table>

The sociology major calls for following a sequence through the required core courses of the discipline. After taking the introductory course, students should complete SOC 301, to be followed by the methods courses (SOC 307 and SOC 309) and theory (SOC 311). SOC 590 is intended as a capstone experience and should be taken at the end of one's college career. In addition to these core courses, 36 units of electives complete the major requirements. To insure a broad understanding of the major research areas in the discipline of Sociology, students must take at least two courses from each of the concentrations listed above.

Beyond meeting this breadth requirement in elective courses, concentrating in the areas above provides a deeper understanding of the subarea, preparing the way for further research at the undergraduate or graduate level or for working in a related occupation after graduating. In addition to these concentrations, students are encouraged to develop, in consultation with their departmental advisor, a program of elective courses that is relevant to their future plans.
Bachelor of Arts in Sociology - Social Service Track

Requirements (62 units)

Total units required for graduation: 180

Students majoring in sociology may wish to pursue a course of study that will provide them with appropriate training for working in social service agencies. This track, which generally overlaps with the sociology major requirements, requires that the core courses in sociology be taken. The elective course requirements (at least 36 units) should be met in the categories of Social Service Policy and Practice, Applications in Social Service and the Capstone Experience.

Requirements for the B.A. in Sociology - Social Service Track (Program Code: SSST)

Sociology Core (22)

SOC 100 The Study of Society 4
SOC 301 Qualitative Research 4
SOC 307 Social Research I 5
SOC 309 Social Research II 5
SOC 311 Sociological Theory 4

Social Service Policy and Practice (12)

Twelve units chosen from:

SOC 418 Sociology of Social Welfare
SOC 434 Community Organization
SOC 436 Group Dynamics
SOC 484 Social Casework

Social Structures and Processes (12)

SOC 339 Socialization 4
or SOC 360 Social Psychology

Four units chosen from:

SOC 340 Sociology of the Family
SOC 341 Marriage and Family Among Blacks
SOC 342 The Chicano Family
SOC 344 Sociology of LGBT Families

Four units chosen from:

SOC 410 Sociology of Race and Ethnicity
SOC 422 Sociology of Work
SOC 424 Social Capital and Social Networks
SOC 440 Social Class
SOC 441 Black Social Stratification
SOC 442 Chicano Social Stratification
SOC 444 Sociology of Gender
SOC 445 Latino Health

Applications in Social Services (8)

Eight units chosen from:

SOC 330 Social Gerontology
SOC 335 Population and Society
SOC 343 Sociology of Family Violence
SOC 352 Juvenile Offender
SOC 354 Deviant Behavior
SOC 355 Medical Sociology
SOC 356 Sociology of Mental Illness
SOC 540 Sociology of Education

Certified upper-division courses from Health Science, Psychology, and Social Work may be substituted for these units chosen in consultation with department advisor.

Capstone Experience (8)

Students must choose either A or B

Group A:

SOC 575 Internship in Sociology (or one additional sociology elective from those not chosen in a previous category and in consultation with department advisor)
SOC 590 Seminar in Sociology (or any 500-level SOC course except SOC 595 Independent Study)

Group B:

SOC 575 Internship in Sociology (for a total of 8)

Total Units 62

Certificate in Gerontology

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (28 units)

HSCI 423 Health and Wellness of Older Adults 4
PSYC 329 Psychology of Adulthood and Aging 4
SOC 330 Social Gerontology 4

A minimum of sixteen units of upper-division elective courses, chosen from the following courses with the approval of an academic advisor. Internship or practicum experience is highly recommended, though not required; and it may be substituted for an upper-division elective course in the certificate.

ANTH 331 Anthropology of Human Development
ANTH 332 Cross-Cultural Perspectives on Aging
ANTH 340 Anthropology of Health, Illness and Healing
ANTH 578B-E Internship in Applied Cultural Anthropology
BIOL 306 Human Heredity and Development
BIOL 314 Biology of Human Sexuality
HSCI 310 Health and Human Sexuality
HSCI 342 Nutrition for Your Health
Certificate in Social Services

Requirements (32 units)

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Total Units: 32

Minor in Sociology

Requirements (28 units)

Requirements for a minor in Sociology

Twenty-eight units in sociology course work chosen with the consent of a departmental advisor. Eight of these units may be at the lower-division level.

Total Units: 28

Master of Arts in National Security Studies

Requirements (46 units)

Program Code: NTSS

The Master of Arts in National Security Studies is a professionally oriented, interdisciplinary, graduate-level program housed within the College of Social and Behavioral Sciences. The program is designed to develop an understanding of the substance and principles of defense policy analysis, strategic planning and arms control in relation to the contemporary international environment. Flexibility within elective courses permits the student to emphasize research in national security issues of his or her special interests.

The program is relevant to established career personnel in defense analysis and related specialties, the military services, the civil service and the intelligence community. Additionally, the program is structured to provide motivated persons holding a Bachelor of Arts degree and/or Bachelor of Science degree from an accredited institution with the higher educational skills necessary for entry into the above mentioned career fields or to pursue doctoral studies.

The program is intended for evening students primarily and, therefore, classes are predominantly scheduled between 6 and 10 p.m.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Satisfy the National Security Studies graduate admissions committee that sufficient preparation and a satisfactory course of study has been pursued in preparation for graduate study. The GRE General Test is required;
3. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major;
4. Completion of the graduate entrance writing requirement;
5. Competence in the following prerequisite courses or their equivalents:
   - MATH 110 College Algebra 4
   - PSCI 203 American Government 4
   - PSCI 484 National Security Policy (prerequisite for the core courses

Competence in these areas may be demonstrated by:

a. Formal completion of the course or its equivalent, OR
b. Credit by examination (not applicable to PSCI 484 National Security Policy);
6. Submission to the National Security Studies Admissions Committee of a brief statement (one or two double-spaced typewritten pages) of the student's preparation for graduate study and professional aspirations following receipt of the master's degree;
7. Submission of three letters of recommendation from individuals familiar with the student's academic or professional work and potential to complete the program successfully. Letters must come directly from the writer on National Security Studies forms.
Students who meet the requirements for admission to graduate study, but who do not meet the program requirements, may be admitted to graduate study in unclassified postbaccalaureate status or to the program in conditionally classified graduate standing. When the specified deficiencies are removed, student status is changed from conditionally classified to classified. (Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses.) No more than 20 quarter units of national security studies course work taken as an unclassified or conditionally classified graduate student may be applied to the program as a classified graduate student.

**Advancement to Candidacy**

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Selected a graduate advisor to supervise the course of study;
3. Completed at least 16 quarter units of national security studies program course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Filed a graduate program approved by the student’s advisor, the national security studies program director and the Dean of Graduate Studies.

**Requirements for Graduation**

1. A minimum of 46 quarter units of acceptable graduate-level work, with at least 36 quarter units completed in residence at California State University, San Bernardino. Thirty-two quarter units must be in 600-level courses;
2. A grade point average of at least 3.0 ("B") in all national security studies program courses taken;
3. Choose Option 1 or 2:
   a. Completion of acceptable comprehensive final written and oral examinations;
   b. Completion and defense of an original master’s thesis;
4. The graduation writing requirement will be satisfied by achieving a minimum grade point average of 3.0 ("B") in all three core courses. Each core course will allow the student to develop competence in three forms of writing traditional to the field:
   a. Critical book reviews (PSCI 600),
   b. Chapter length essay (PSCI 601),
   c. Article length essay (PSCI 602) and the process of "peer review";
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62).

Classified graduate students in the Master of Arts program must complete their degree requirements within five years of admission to the program. Students in classified status who fail to register for at least one course in the program each quarter will automatically be declassified. PSCI 698A-Z, Continuous Enrollment for Graduate Candidacy Standing, must be taken if another course is not taken during a given quarter.

The instructor in each 600-level course will complete an evaluation of each student's performance and potential to complete the program successfully. These evaluations will be reviewed by the program director and maintained in the student's file for early consultation with the student about his or her future prospects in the program.

The Master of Arts in National Security Studies is a thesis option course of study requiring either written and oral comprehensive examinations (to be taken in the last quarter of program course work) or a thesis. Students with less than a 3.0 grade point average in the program will not be permitted to take the examinations or propose a thesis. All students are required to take the prerequisite and core courses. In addition, students are required to select a Regional Field (e.g. Eurasia, Middle East) or a Functional Field (e.g. Terrorism, Intelligence, etc.) to be arranged between faculty advisor and student, and approved by the NSS Director.

**Comprehensive Examination**

Comprehensive examinations must be taken in the core and the regional field or functional field. The comprehensive examination committee for each candidate will consist of the core advisor, the advisor of the field and a third faculty member from the department. The examinations will be graded credit/no credit.

An oral examination by the student's committee follows successful completion of the written examination. The oral examination is open for public attendance, but not participation. Should the candidate fail one or more written or oral examination areas, the entire oral or written examination may be repeated one time after remedial course work or study is completed. The scope and deadline for completion of this remedial work will be determined by the student's examination committee at a post-examination conference.

Students must enroll in the Political Science Comprehensive Examination, PSCI 999.

**Thesis**

The criteria for determining who will be allowed to choose the thesis option will be determined by the proposed thesis committee. Students are still required to develop a course of study consistent with the core and one field, as noted above. After completion of a minimum of 30 quarter units, the student will request three faculty to form a preliminary committee, at least two of whom have instructed a course that the student has taken in the program.

Culminating Experience (2)

Students must complete one of the following:

- PSCI 999 Comprehensive Examination
- PSCI 699 Thesis

Forty-four units of course work and two units of thesis must be completed before the degree will be awarded.

Total Units 46-48

Master of Arts in Social Sciences and Globalization

Requirements (46 units)

Program Code: SSGM

The objective of the M.A. in Social Sciences is to provide students with a survey of the concepts and ideas social scientists study with emphasis placed upon the domestic and international impact of globalization. While the program provides course work in the breadth of the social sciences, its emphasis is on history, political science, economics, sociology, anthropology, and geography. This program is especially attractive to those pursuing a career in or seeking advancement in secondary school and community college teaching in the social sciences. Those interested in work in other types of educational and social science related fields may also benefit from this program.

Admission to the M.A. Program

In addition to the general requirements of the university, specific requirements for admission to classified status are:

1. A baccalaureate degree in a social science discipline or in social science itself, or another baccalaureate degree with course work that satisfies the College of Social and Behavioral Sciences that the student has received adequate preparation to undertake the program;
2. A cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 (“B”) in the major;
3. Completion of the graduate entrance writing requirement;
4. A brief 1 to 2 page statement of purpose (not to exceed 1,000 words), describing the applicant’s preparation for graduate study and academic and professional goals, to be submitted to the College of Social and Behavioral Sciences;
5. A writing sample (at least 10 pages but not to exceed 25 pages) that demonstrates the applicant’s ability to write analytical prose, to construct a reasoned argument based upon evidence, and to create a context for assessing the significance of what has been presented. Writing sample should demonstrate preparation for the applicant’s proposed field of study;
6. Three letters of recommendation, with at least two from former professors. Letters should come directly from the recommenders or be included in a placement file. It is the applicant’s responsibility to determine if letters have been received.

Applicants who meet the general requirements of the university for admission to graduate study but do not meet the additional requirements listed above may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, when space permits, in elective graduate courses in the program but not the required graduate seminars. An unclassified postbaccalaureate student should consult with the College of Social and Behavioral Sciences to determine what steps would be necessary to advance to classified status.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:
1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study;
3. Completed, with the approval of the advisor, at least 12 quarter units of graduate course work at this university and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Filed an approved program plan, which must have the approval of the student's advisor and the coordinator of the program.

### Requirements for Graduation

1. Completion of a minimum of 46 quarter units of acceptable graduate-level work, with at least 33 quarter units completed in residence at this university;
2. A grade of at least "B" in all Proseminars, and a grade point average of at least 3.0 ("B") in all courses taken as part of the program;
3. To provide a breadth of content in this graduate program, a 300- or 400-level course may be used to satisfy a program requirement with the expectation that coursework is increased to satisfy the rigors of graduate work. In addition, students are allowed to take a 400- or 500-level course from any University department with the approval of the program coordinator;
4. Successful completion of the comprehensive examination, or a thesis or project;
5. In addition to completion of the graduate writing requirement, classified students enrolled in the M.A. in Social Sciences must satisfy the program's writing requirements by:
   a. Successful completion of the M.A. in Social Sciences with a grade point average of "B" or better in Social Sciences core courses requiring students to write in a manner appropriate to the relevant social science disciplines; and
   b. Successful completion of the Social Science Comprehensive Examination (SSCI 697) requiring acceptable writing skills, or preparation of an acceptable graduate thesis (SSCI 699);
6. At least 23 units of 600-level courses;
7. Any additional requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62).

### Comprehensive Examination

Students who choose the comprehensive examination option must take that examination no earlier than in the second to the last quarter of program course work. These students must enroll in SSCI 697. Students with less than a 3.0 grade point average in the program will not be permitted to take the examination. The comprehensive examination committee for each candidate will consist of the program coordinator and the student's advisor. The comprehensive examination will have two components. The first will be a general examination that covers the areas of social science treated in the course requirements with a special focus on globalization. The second will be a specific field and focus on the student's specialization. The examination will be graded pass/fail, and candidates failing the examination may take it a second time within one year. If a second examination is needed, the student, coordinator, and advisor should discuss what actions may be necessary to remedy the student's shortcomings. No student will be permitted to take the comprehensive examination more than twice.

### Thesis or Project option

A student selecting the thesis or project option must complete a thesis or project that is approved by his or her faculty committee. The thesis or project must reflect original work and show a level of competence appropriate for a master's degree. The faculty committee shall consist of two or three faculty members, including the student's advisor, mutually agreed upon by the student and faculty. By mutual agreement between the student and advisor, an additional member may be added to the committee. At least one member of the thesis committee must also be affiliated with the Graduate faculty. The student must enroll in SSCI 699, Thesis or Cumulative Project, in the quarter when completion of the thesis is anticipated.

### Degree Requirements (46 units)

#### Required Courses (26-28)

#### Electives (20)

Either SSCI 600 and 16 units of electives from one of the following tracks (eight units must be at the 500-level or above) or 20 units of electives from one of the following tracks (eight units must be at the 500-level or above).

**Total Units**: 46-48

### Track A (Disciplinary Concentration)

1. Twenty units chosen from one of the following six disciplines:
   - Anthropology
   - Economics
   - Geography
   - History
   - Political Science
   - Sociology

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

**Total Units**: 20

Independent Study courses will involve research which builds on the methods and theories of the student's disciplinary concentration and contribute to the student's thesis/special field.
All coursework must be chosen in consultation with the disciplinary advisor (members of the affiliated faculty representing the corresponding disciplines). All electives must be 300-level courses or above, and eight units of the elective courses must be at the 500-level or above.

**Track B (Regional Focus)**

1. Twenty units of elective coursework must consist of courses related to a geographical region of emphasis. Eight units can consist of an independent study. Independent Study courses will involve research which focuses on the student's regional emphasis and contribute to the student's thesis/special field.

All coursework must be chosen in consultation with the coordinator of the program. All electives must be 300-level courses or above, and eight units of the elective courses must be at the 500-level or above.

**Electives for Regional focus**

1. Twenty units of elective coursework on a particular topic chosen from the following (based on approval of the graduate coordinator):

### American Studies

- **ANTH 305** North American Prehistory 4
- **ANTH 315** Archaeology of the Southwest 4
- **ANTH 312** Historical Archaeology 4
- **ANTH 323** Native North American Art 4
- **ANTH 351** Indians of North America 4
- **ANTH 352** Indians of the Southwest 4
- **ANTH 365** Asian American Cultures 4
- **ECON 421** Economic History of the United States 4
- **GEOG 322** United States and Mexico Border Issues 4
- **GEOG 323** North America 4
- **GEOG 440** Understanding the City 4
- **HIST 340** African-American History, 1620-1865 4
- **HIST 341** African-American History, 1865-Present 4
- **HIST 344** Women in U.S. History, 1620-1865 4
- **HIST 345** Women in U.S. History, 1865-Present 4
- **HIST 346** Women in the Black Freedom Movement 4
- **HIST 350** The American Colonies, 1607-1783 4
- **HIST 351** The Evolution of American Democracy, 1783-1840 4
- **HIST 354** Civil War and Reconstruction 4
- **HIST 356** The United States, 1877-1917 4
- **HIST 357** The United States, 1917-1945 4
- **HIST 358** United States in World War II 4
- **HIST 359** United States History, Cold War Era 4
- **HIST 540** Constitutional History of the United States 4
- **HIST 541** U.S. Citizenship and the Law 4
- **HIST 560** History of the American West 4
- **HIST 565** Immigration and Ethnic American History 4
- **PSCI 314** American Political Thought 4
- **PSCI 320** The Legislative Process 4
- **PSCI 325** American Foreign Policy 4
- **PSCI 326** Political Parties and Interest Groups 4
- **PSCI 328** Judicial Process 4
- **PSCI 330** State and Local Politics 4
- **PSCI 352A-E** Minority Politics 4
- **PSCI 410** American Constitutional Law 4
- **PSCI 411** The Bill of Rights 4
- **PSCI 412** Civil Rights 4
- **PSCI 431** The American Presidency 4
- **PSCI 528** Formulation of Public Policy 4
- **PSCI 525** Constitutional Interpretation 4
- **PSCI 353** Seminar in Constitutional Law 4
- **SOC 330** Social Gerontology 4
- **SOC 336** Black Women and Feminism 4
- **SOC 341** Marriage and Family Among Blacks 4
- **SOC 342** The Chicano Family 4
- **SOC 425** Asian Americans: Origin and Ethnicity 4
- **SOC 441** Black Social Stratification 4
- **SOC 442** Chicano Social Stratification 4
- **SOC 525** Indian Nations and Native America 4
- **SSCI 515** Model United Nations 4
- **SSCI 590** Seminar in the Social Sciences 4

### African Studies

- **ANTH 302** African Archaeology 4
- **ANTH 357** African Societies 4
- **HIST 385** Africa to 1500 4
- **HIST 386** Africa 1500 to 1870 4
- **HIST 387** Africa 1870 to Present 4
- **HIST 388** The Rise, Decline and Legacy of Apartheid South Africa 4
- **HIST 389** Images of Africa 4
- **HIST 450** History of Southern Africa 4
- **HIST 451** The History of Health and Medicine in Africa 4
- **PSCI 301** African Politics 4
- **PSCI 590** Seminar in International Relations 4
- **SSCI 515** Model United Nations 4
- **SSCI 590** Seminar in the Social Sciences 4

### Asian Studies

- **ANTH 362** Asian Cultures and Societies 4
- **ANTH 365** Asian American Cultures 4
- **HIST 426** Ancient and Early Imperial China 4
- **HIST 428** Medieval China 4
- **HIST 431** Modern China II, 1911-1949 4
- **HIST 432** Modern China III, 1949-Present 4
- **HIST 435** World War II in the Pacific 4
- **HIST 440** Modern Japanese History 4
- **PSCI 305** East Asian Politics 4
- **PSCI 540** Seminar in Comparative Politics 4

### European Studies

- **HIST 305** Ancient and Medieval Europe 4
- **HIST 306** Early Modern Europe, the Renaissance to 1815 4
- **HIST 307** Modern Europe, 1815 to the Present 4
- **HIST 400** Early Medieval Europe 4
- **HIST 401** High Medieval Europe 4
- **HIST 402** Renaissance and Reformation 4
### Latin America

- **ANTH 306** Aztecs, Maya and their Predecessors 4  
- **ANTH 307** Incas and their Predecessors 4  
- **ANTH 324** Pre-Columbian Art 4  
- **ANTH 354** Cultures of Mexico and Central America 4  
- **ANTH 356** Cultures of South America 4  
- **ECON 540** Political Economy of Latin America 4  
- **GEOG 540** Seminar in the Geography of Latin America 4  
- **HIST 390** History of Modern Mexico 4  
- **HIST 465** Modern Central America 4  
- **HIST 466** Foreign Relations of Latin America 4  
- **HIST 467** Latin American History Through Film 4  
- **HIST 469** Colonial Latin America 4  
- **HIST 470** Modern Latin America 4  
- **SSCI 304** Contemporary Latin America 4  
- **SSCI 515** Model United Nations 4  
- **SSCI 590** Seminar in the Social Sciences 4  
- **SOC 590** Seminar in Sociology 4  

### Middle Eastern Studies

- **ANTH 303** Prehistory of the Middle East and Europe 4  
- **ANTH 358** Peoples of the Middle East 4  
- **HIST 383** Classical Islamic Civilization 4  
- **HIST 384** Modern Middle East 4  
- **HIST 485** Arab-Israeli Conflict 4  
- **HIST 486** Modern Iran 4  
- **HIST 487** Topics in Modern Middle Eastern History 4  
- **HIST 491** Nationalism and Conflict in the Middle East 4  
- **HIST 492** U.S. Media and the Middle East 4  
- **HIST 493** Iran-U.S. Relations 4  
- **HIST 495** Politics of Oil 4  
- **PSCI 308** Government and Politics of the Middle East 4  
- **PSCI 540** Seminar in Comparative Politics 4  
- **PSCI 540** Seminar in Comparative Politics 4  
- **SSCI 515** Model United Nations 4  
- **SSCI 516** Model Arab League 4  
- **SSCI 590** Seminar in the Social Sciences 4  

### Track C (Topical Focus)

1. Twenty units of elective coursework must consist of courses related to a topical focus. Eight units can consist of an independent study. Independent study courses will involve research which focuses on the student’s topical focus and contribute to the student’s thesis/special field.  
All coursework must be chosen in consultation with the program coordinator. All electives must be 300-level courses or above, and eight units of the elective courses must be at the 500-level or above.

### Electives for Topical Focus
Twenty units of elective coursework on a particular topic chosen from the following (based on approval of the Graduate Coordinator):

- **ANTH 318** Introduction to Cultural Resource Management  
  or **HIST 318** Historical Archaeology  
- **ANTH 316** Archival Practices  
  or **HIST 316** Archival Practices  
- **ANTH 472** Colonial and Postcolonial Anthropology  
- **ECON 333** Political Economy of Women  
- **ECON 352** Political Economy of Poverty and Discrimination  
- **ECON 360** Economics of the Environment  
- **ECON 430** International Economics  
- **ECON 435** Multinational Corporations  
- **ECON 450** Global Economy  
- **ECON 500** History of Economic Thought  
- **ECON 520** Social Economics  
- **ECON 630** International Economic Issues  
- **GEOG 307** Transportation Issues and Development  
- **GEOG 320** Geography of Social Issues  
- **GEOG 312** Geography of the Developing World  
- **GEOG 313** Geography of the Developed World  
- **GEOG 341** Military Geography  
- **GEOG 350** Conservation and Natural Resources  
- **GEOG 360** Weather and Climate  
- **GEOG 365** Climate Change  
- **GEOG 370** Landscape Analysis  
- **GEOG 415** Urban Planning and Land Development  
- **GEOG 420** Geography of Economic Activity  
- **HIST 312** Historical Archaeology  
  or **ANTH 312** Historical Archaeology  
- **HIST 329** Topics in Public History
Master of Science in National Cyber Security Studies

Requirements (56-58 units)

Program Code: NCSS

The Master of Science in National Cyber Security Studies will prepare students for careers in the new and growing field of cyber security.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Satisfy the National Security Studies graduate admissions committee that sufficient preparation and a satisfactory course of study has been pursued in preparation for graduate study. The GRE General Test is required;
3. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major;
4. Completion of the graduate entrance writing requirement;
5. Competence in the following prerequisite courses or their equivalents:
   - MATH 110 College Algebra 4
   - PSCI 203 American Government 4
   - PSCI 484 National Security Policy (prerequisite for the core courses)

   Competence in these areas may be demonstrated by:
   - a. Formal completion of the course or its equivalent, OR
   - b. Credit by examination (not applicable to PSCI 484 National Security Policy);
6. Submission to the National Security Studies Admissions Committee of a brief statement (one or two double-spaced typewritten pages) of the
student's preparation for graduate study and professional aspirations following receipt of the master's degree;
7. Submission of three letters of recommendation from individuals familiar with the student's academic or professional work and potential to complete the program successfully. Letters must come directly from the writer on National Security Studies forms.

Students who meet the requirements for admission to graduate study, but who do not meet the program requirements, may be admitted to graduate study in unclassified postbaccalaureate status or to the program in conditionally classified graduate standing. When the specified deficiencies are removed, student status is changed from conditionally classified to classified. (Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses.) No more than 20 quarter units of national security studies course work taken as an unclassified or conditionally classified graduate student may be applied to the program as a classified graduate student.

**Advancement to Candidacy**

To be advanced to candidacy, a student must have:
1. Achieved classified status;
2. Selected a graduate advisor to supervise the course of study;
3. Completed at least 16 quarter units of national security studies program course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Filed a graduate program approved by the student's advisor, the national security studies program director and the Dean of Graduate Studies.

**Requirements for Graduation**

1. A minimum of 56 quarter units of acceptable graduate-level work, with at least 40 quarter units completed in residence at California State University, San Bernardino. A minimum of 40 quarter units must be at the 500-600 level, and 32 quarter units must be in 600-level courses;
2. A grade point average of at least 3.0 ("B") in all national security studies program courses taken;
3. Choose Option 1 or 2:
   a. Completion of acceptable comprehensive final written and oral examinations;
   b. Completion and defense of an original master's thesis;
4. The graduation writing requirement will be satisfied by achieving a minimum grade point average of 3.0 ("B") in all three core courses. Each core course will allow the student to develop competence in three forms of writing traditional to the field:
   a. Writing for Intelligence (PSCI 620 or PSCI 621),
   b. Analysis of Cyber Security or Terrorism (PSCI 603 or PSCI 606),
   c. Analysis of either theory or practice of strategy (PSCI 600 or PSCI 602);
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62).

Classified graduate students in the Master of Science program must complete their degree requirements within five years of admission to the program. Students in classified status who fail to register for at least one course in the program each quarter will automatically be declassified. PSCI 698A-Z, Continuous Enrollment for Graduate Candidacy Standing, must be taken if another course is not taken during a given quarter.

The Master of Science in National Cyber Security Studies is a thesis option course of study requiring either written and oral comprehensive examinations (to be taken in the last quarter of program course work) or a thesis. Students with less than a 3.0 grade point average in the program will not be permitted to take the examinations or propose a thesis. All students are required to take the prerequisite, Core and Cyber Security field courses.

**Comprehensive Examination**

Comprehensive examinations must be taken in the Core and the Cyber Security fields. The comprehensive examination committee for each candidate will consist of the Core advisor, one advisor from the Cyber Security field and a third faculty member from either department. The examinations will be graded credit/no credit.

An oral examination by the student's committee follows successful completion of the written examination. The oral examination is open for public attendance, but not participation. Should the candidate fail one or more written or oral examination areas, the entire oral or written examination may be repeated one time after remedial course work or study is completed. The scope and deadline for completion of this remedial work will be determined by the student's examination committee at a post-examination conference.

Students must enroll in the Political Science Comprehensive Examination, PSCI 999.

** Thesis**

The criteria for determining who will be allowed to choose the thesis option will be determined by the proposed thesis committee. Students are still required to develop a course of study consistent with the Core and Cyber Security fields, as noted above. After completion of a minimum of 30 quarter units, the student will request three faculty to form a preliminary committee, at least two of whom have instructed a course that the student has taken in the program in each of the Core and Cyber Security fields.

**Prerequisite courses (12 units)**

MATH 110 College Algebra 4
PSCI 203 American Government 4
PSCI 484 National Security Policy 4

**Degree Requirements (56-58 units)**

**Core courses (20)**

Four units chosen from:
- PSCI 592 Seminar in Government (Research Methods)
- MATH 611 Operations Analysis (Note: Math 611 requires a prerequisite of a statistics course.)

Four units chosen from:
- PSCI 590 Seminar in International Relations (Techniques in Intelligence Analysis)
- PSCI 590 Seminar in International Relations (Intelligence and Ethics)

Four units chosen from:
- PSCI 620 Understanding Intelligence Failure
- PSCI 621 Strategic Intelligence

Four units chosen from:
- PSCI 603 Cyber Security and Cyber Warfare
Four units chosen from:

- PSCI 600 Theory and History of Strategy
- PSCI 602 International Security

**Cyber Security Field (24)**

- IST 511 Cyber Defense 4
- IST 525 Computer Forensics 4
- IST 609 Information Systems and Technology Management 4
- IST 610 Information Assurance Policy and Management 4
- IST 646 Information Systems Planning, Strategy and Policy 4
- IST 647 Information Based Management 4

**Electives (12)**

Twelve units chosen from among courses not used for the core requirements listed below.

- CJUS 550 Crime and Intelligence Analysis
- CJUS 554 Terrorism
- CJUS 555 Homeland Security
- ECON 630 International Economic Issues
- GEOG 610 Military Geography for National Security
- HIST 556 Foreign Relations of the United States
- MATH 611 Operations Analysis (Note: requires a prerequisite of a statistics course)
- PSCI 590 Seminar in International Relations (Techniques in Intelligence Analysis)
- PSCI 590 Seminar in International Relations (Intelligence and Ethics)
- PSCI 592 Seminar in Government (Research Methods in Political Science)
- PSCI 600 Theory and History of Strategy
- PSCI 601 Strategic Systems and Strategic Thought
- PSCI 602 International Security
- PSCI 603 Cyber Security and Cyber Warfare
- PSCI 604 Seminar in International Law
- PSCI 606 Analysis of International Terrorism
- PSCI 609 International Relations Theory (if not taken as part of core requirement)
- PSCI 611 Regional Security of Eurasia
- PSCI 613 Middle East Security
- PSCI 614 Regional Security of East Asia
- PSCI 620 Understanding Intelligence Failure
- PSCI 621 Strategic Intelligence
- PSCI 622 Arms Control
- PSCI 624 Politics of National Security
- PSCI 625 American Foreign Policy
- SSCI 695B Directed Graduate Studies
- SSCI 695D Directed Graduate Studies

**Culminating Experience (0-2)**

Students must complete one of the following:

- PSCI 999 Comprehensive Examination 0-2
- or PSCI 699 Thesis

Fifty-six units of course work and two units of thesis must be completed before the degree will be awarded.

**Total Units 56-58**

---

**Military Science (Army ROTC) Program**

Military Science Office  
Faculty Office Building, Rooms 124 and 125  
(909) 537-5533 Military Science Office website (http://www.csusbarmyrotc.com)

**Military Science Program**

The military science program is designed to provide an on-campus program for qualified students in all academic majors who desire to serve as an Army officer on active duty or in a local Army Reserve or Guard unit. While students may participate in either undergraduate or graduate studies, the program requires at least two years to complete.

Students who have completed at least basic training in any of the armed services may be eligible to enter the advanced course directly. Other students must complete three to six of the courses in the basic course of study or complete a six-week summer camp prior to entering the advanced course.

ROTC students are required to participate in off-campus leadership laboratories one weekend each quarter.

Scholarships are available on a competitive basis. All ROTC students receive $450-500 per month during the final two years of the program.

**Program Requirements**

**Option I (Four Year Program)**

**Program Requirements (48 units)**

**Basic Course of Study (12)**

- MILS 151 Basic Military Skills I 2
- MILS 152 Basic Military Skills II 2
- MILS 153 Basic Military Skills III 2
- MILS 251 Leadership and Management I 2
- MILS 252 Leadership and Management II 2
- MILS 253 Leadership and Management III 2

**Advanced Course of Study (12)**

Twelve units chosen from:

- MILS 351 Small Unit Operations I
- MILS 352 Small Unit Operations II
- MILS 353 Advanced Military Leadership and Management
- MILS 451 Military Law
- MILS 452 Contemporary Military Policy
- MILS 453 Senior Leadership Seminar
- MILS 595 Independent Study

**Leadership Laboratory (12)**

Students must be enrolled in the following each quarter they are enrolled in the ROTC Program:

- MILS 100 Leadership Laboratory (repeat for additional credit)
In addition, a six-week advanced camp is required between the final two years of study.

In addition to the ROTC curriculum, cadets must complete one of each of the following type courses in order to ensure they have an understanding of skills, values, and knowledge beyond the military skills taught by the military science staff and the ROTC curriculum.

These classes do not substitute for any military science classes and are in addition to the required classes for ROTC cadets.

### Additional Requirements (12)

**Computer Literacy.** Four units chosen from the following four options:

- CSE 129 Science, Computing and Society (plus two additional units of a CSE course in consultation with program coordinator)
- IST 101 Introduction to Information Technology

**Written Communications Skills.** Four units chosen from:

- EDUC 306 Expository Writing for Education
- ENG 306 Expository Writing for English
- HUM 306 Expository Writing for the Humanities
- MGMT 306 Expository Writing for Administration
- NSCI 306 Expository Writing for the Natural Sciences
- SSCI 306 Expository Writing for the Social Sciences

**Military History:**
- HIST 603 Seminar in Modern Military History

Total Units 48

Other classes may be substituted for those listed in each category upon approval of the military science staff.

**Note:** Some of these requirements are fulfilled by general education classes.

### Option II (Two Year Program)

**Program requirements (32 units)**

**Program Requirements (2)**

- Basic Course Equivalent: MILS 260 ROTC Basic Camp 2

**Advanced Course of Study (12)**

Twelve units chosen from:

- MILS 351 Small Unit Operations I
- MILS 352 Small Unit Operations II
- MILS 353 Advanced Military Leadership and Management
- MILS 451 Military Law
- MILS 452 Contemporary Military Policy
- MILS 453 Senior Leadership Seminar

**Leadership Laboratory (6)**

Students must be enrolled in the following each quarter they are enrolled in the ROTC program.

- MILS 100 Leadership Laboratory (repeat for additional credit)

**Note:** In addition, a six week advanced camp is required between the final two years of study.

In addition to the ROTC Curriculum, cadets must complete one of each of the following type courses in order to ensure they have an understanding of skills, values, and knowledge beyond the military skills taught by the military science staff and the ROTC curriculum. These classes do not substitute for any military science classes and are in addition to the required classes for ROTC cadets.

### Additional Requirements (12)

**Computer Literacy.** Four units chosen from the following four options:

- CSE 129 Science, Computing and Society (plus two additional units of a CSE course in consultation with program coordinator)
- IST 101 Introduction to Information Technology

**Written Communications Skills.** Four units chosen from:

- EDUC 306 Expository Writing for Education
- ENG 306 Expository Writing for English
- HUM 306 Expository Writing for the Humanities
- MGMT 306 Expository Writing for Administration
- NSCI 306 Expository Writing for the Natural Sciences
- SSCI 306 Expository Writing for the Social Sciences

**Military History:**
- HIST 603 Seminar in Modern Military History

Total Units 32

Other classes may be substituted for those listed in each category upon approval of the military science staff.

**Note:** Some of these requirements are fulfilled by general education classes.

### Minor in Aerospace Studies

**Requirements (18 units)**

The minor in aerospace studies consists of a minimum of 18 units in aerospace studies, 12 of which must be upper division. Courses in the minor may be used to satisfy general education requirements, if applicable. The twelve upper division units must be taken at CSU, San Bernardino.

#### Requirements for a minor in Aerospace Studies

- AS 101 The Air Force Today I 1
- AS 102 The Air Force Today II 1
- AS 103 The Air Force Today III 1
- AS 201 The Development of Air Power I 1
- AS 202 The Development of Air Power II 1
- AS 203 Air Force Ethics 1

Twelve units chosen from:

- AS 301 Air Force Leadership and Management I
- AS 302 Air Force Leadership and Management II
- AS 303 Air Force Leadership and Management III
- AS 401 National Security Forces in Contemporary American Society I
- AS 402 National Security Forces in Contemporary American Society II
Minor in Ethnic Studies

Requirements (28 units)

To earn the minor in ethnic studies, students must complete 28 units of coursework with a concentration to be chosen in consultation with an advisor, in only one of the following five specializations:

- General Ethnic Studies
- African American Studies
- Asian Pacific American Studies
- Chicano(a)/Latino(a) Studies
- Native American Studies

Minor in Ethnic Studies - Chicano(a)/Latino(a) Studies

Requirements (28 units)

Designed to provide increased awareness, knowledge and an in-depth understanding, the minor in Ethnic Studies, Chicano(a)/Latino(a) Studies will address issues of language, history, culture, politics, economics, education, immigration and the creative expression of the Chicano/ Latino presence in this country. Students will examine this growing ethnic group’s experience in a social context and its interdependence with other populations by addressing interracial, intercultural and international understanding.

Undergraduate Degree

Bachelor of Arts

- Social Work (p. 469)

Applicants to Social Work major must meet all of the campus’ specified supplementary admission criteria provided in the CSUSB Program Impaction (https://www.csusb.edu/admissions/impaction-information) information.

Graduate Degree

- Master of Social Work (p. 471)
- Master of Social Work and Master of Public Administration Concurrent Degrees (p. 470)
Bachelor of Arts in Social Work

Requirements (74 units)

Total units required for graduation: 180

The School of Social Work offers courses leading to the Bachelor of Arts in Social Work. This degree prepares baccalaureate students for generalist social work practice and equips them to work in agency settings with individuals, families, groups and communities who are encountering problems related to personal or social circumstance. The program is accredited by the Council on Social Work Education, the national accrediting body for social work programs. The program is intensive and exciting and applies to a wide variety of social work client populations.

Students must apply to the School of Social Work for admission into the B.A. in Social Work.

Admission Requirements

1. Completion of application packet including personal statement of commitment to the social work profession, two references, and transcripts; (Contact the School of Social Work for more information.)
2. Completion of all lower division General Education and additional lower division requirements;
3. An overall grade point average (GPA) of 2.5 or higher
4. Completion of additional lower division requirements with a grade of "C" or better.

General Education requirements to enter the B.A. in Social Work

| Basic Skills in Written Communication (A1) (4) | ENG 104A | Stretch Composition III |
| | ENG 104B | Stretch Composition III for Multilingual Students |
| | ENG 106A | Accelerated Stretch Composition II |
| | ENG 106B | Accelerated Stretch Composition II for Multilingual Students |
| | ENG 107 | Advanced First-Year Composition |

| Basic Skills in Oral Communication (A2) (4) | COMM 120 | Oral Communication |

| Basic Skills in Mathematics (A3) (4) | MATH 110 | College Algebra |
| | MATH 115 | The Ideas of Mathematics |
| | MATH 120 | Pre-Calculus Mathematics |
| | MATH 192 | Methods of Calculus |
| | MATH 211 | Basic Concepts of Calculus |

| Basic Skills in Critical Thinking (A4) (4) | PSYC 105 | Critical Thinking Through Problems Analysis |
| or SOC 180 | Critical Thinking about Social Problems |

| Natural Sciences Breadth Area (B2) (5) | BIOL 100 | Topics in Biology |
| | Humanities Breadth Area (C3) (4) | SPAN 103 | College Spanish III |

| Social and Behavioral Sciences Breadth Area (D4) (8) | PSYC 100 | Introduction to Psychology |

No major courses can be used to satisfy the General Education requirements.

Additional Lower Division Requirements to enter the B.A. in Social Work (12-13)

SW 200 | Introduction to Social Work |

One of the following:

| ECON 250 | Statistics for Economists |
| PSYC 210 | Psychological Statistics |
| ADMN 210 | Applied Business Statistics |
| CJUS 101 | Introduction to the Criminal Justice System |

School Regulations

Students must attain grades of "C" or better in all courses required for the major from the department in order to progress in the program.

Requirements for the B.A. in Social Work (Program Code: BASW)

Upper-division requirements (66)

Four units chosen from the following (which also meets the Multicultural/Gender Requirement (G1)

| HUM 325 | Perspectives on Gender |
| NSCI 325 | Perspectives on Gender |
| SSCI 316 | Race and Racism |
| SSCI 325 | Perspectives on Gender |
| SSCI 350 | Roots of Modern Racism in America |
| PSYC 390 | Abnormal Psychology |
| or PSYC 391 | Psychopathology of Childhood |

Four units chosen from:

| PSYC 382 | Psychology of Social Behavior |
| SOC 339 | Socialization |
| SOC 360 | Social Psychology |
| PSCI 380 | Introduction to Public Administration |
| or PA 380 | Introduction to Public Administration |
| SW 300A | Social Welfare Policy I |
| SW 300B | Social Welfare Policy II |
| SW 301 | Social Work Research |
| SW 302A | Human Behavior and the Social Environment I |
| SW 302B | Human Behavior and the Social Environment II |

Four units chosen from:

| SW 320 | Child Welfare Services |
| SW 325 | Social Work Interventions in Substance Abuse |
| SW 590 | Special Topics |
| SW 400A | Social Work Practice I |
| SW 400B | Social Work Practice II |
| SW 400C | Social Work Practice III |
| SW 401A | Field Work |
| SW 401B | Field Work |
| SW 401C | Field Work |

Discipline requirements (8)

Courses taken to satisfy upper-division requirements cannot count toward the eight units for the discipline requirement.

Eight units in one of the following disciplines

| Total Units | 74 |
The Department of Public Administration and the School of Social Work offer a graduate program leading to a Master of Social Work/Master of Public Administration Concurrent Degrees. The degrees are intended for those with an interest in and promise for a career in social services that will lead to top administrative roles. Degree holders will have skills and knowledge to facilitate well-being and change at all system levels. The faculty of the MSW and MPA program have agreed to a plan of study that would lead to obtaining concurrent MSW/MPA degrees ideal for the educational preparation needed for leadership roles in the social services community.

Prospective concurrent degrees students must be accepted under the admission procedures of each program. The MSW program requires a separate application available through the School of Social Work which will include the additional statement instructions and the Plan of Study form for the concurrent MSW/MPA degrees.

No degree will be conferred until the requirements of the both degrees are fulfilled.

**Admission to the Program**

To be considered for the concurrent MSW/MPA degrees, prospective students must select the concurrent MSW/MPA degrees in CSU Mentor and be accepted to both the MSW and MPA programs. Prospective students must submit a copy an additional application statement with their MSW applications. The application is an additional two-page statement that responds to the following questions:

1. Why do you want to pursue the concurrent degrees? Please include your career goals in this section.
2. What evidence can you offer that you have the potential for an administrative leadership role in a social service or other public agency?
3. What evidence can you offer that you have the potential for leadership that is consistent with the ethics and values of both the social work and public administration professions?
4. What is your understanding of the plan of study and how do you plan to complete all of the required courses?

**Advancement to Candidacy**

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the general university requirements for advancement to candidacy;
3. Selected a thesis committee and gained approval of the thesis topic by the thesis committee if a thesis is chosen;
4. Completed with a grade point average of 3.0 (“B”) at least 36 quarter units of course work;
5. Demonstrated academic and professional competence in field and classroom;
6. Approval of candidacy from Public Administration department and School of Social Work advisors.

**Requirements for Graduation**

1. A minimum of 110 quarter units;
2. Fulfillment of all degree requirements;
3. A grade point average of at least 3.0 ("B") in both the MSW and the MPA courses; Completion of culminating research project or thesis (SW 625B completed);

4. Pass the MPA Comprehensive Exam.

**Concurrent Degrees Requirements (110 units)**

**Total Units** 110

**Master of Social Work**

Also offered through the College of Extended Learning (http://cel.csusb.edu)

**Requirements (90 units)**

**Program Code: SWM**

The School of Social Work offers courses leading to the Master of Social Work (MSW) degree and is designed to provide for the education of advanced social work practitioners. The program is based upon the requirements of the Council on Social Work Education, the national accrediting body for social work programs.

The MSW program is structured into two models: Model (1) offers six quarters of course work leading to the MSW degree within two academic years. This option is intended for students who can devote their time and attention to full-time, intensive study. Model (2) offers the same course work over three academic years. It must be emphasized that an MSW program is very demanding of time and energy and requires 1080 hours of supervised placement in an agency Monday through Friday in the daytime over two academic years. Model (2) is not designed for students who must work 40 hours per week. It is necessary for these students to reduce their hours of employment.

The MSW program comprises a Generalist and Advanced Generalist curriculum. Students must complete all Generalist and Advanced Generalist classes. Both the Generalist and Advanced Generalist curriculum is divided into micro and macro social work practice. The micro practice sequence of courses prepares students to work with individuals, families and groups. The macro practice sequence of courses prepares students to work with organizations and communities with an integrated focus on policy practice.

**Admission to the Program**

1. A baccalaureate degree from an accredited college or university;
2. A grade point average of 3.0 ("B") or better in all course work;
3. A grade point average of 3.0 ("B") or better in the last 90 quarter units or last 60 semester units;
4. An academic background in the liberal arts;
5. Completion of the graduate entrance writing requirement;
6. A year of full-time paid experience, one year internship in a social agency, or relevant volunteer service (this requirement may be waived);
7. Evidence of personal qualifications, motivation and potential that give promise of a successful social worker; an autobiographical statement, three letters of reference from individuals who are familiar with the student's academic work potential and level of maturity;
8. The following courses or their equivalents:
   - SOC 307 Social Research I 5
   - SOC 339 Socialization 4
   - A course in biology or health science, which would give the student an understanding of basic human physiology.

**Course Waivers**

Students are permitted to satisfy course requirements in the foundation year curriculum by passing a challenge assessment in each required course. Courses which are successfully challenged must be substituted with an approved elective so that a total of 90 units is completed for the master's degree. Field work courses are not subject to waiver.

Students with BSW degrees from universities or colleges with accredited BSW programs are required to meet with their faculty advisor prior to beginning course work to determine whether any foundation year MSW courses are redundant with their undergraduate preparation. Such determination may be based on course syllabi, texts, informal evaluation or formal examination. Each course waived for the qualified BSW applicant must be substituted with an approved elective so that a total of 90 units is completed for the master's degree.
Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the general university requirements for advancement to candidacy;
3. Selected a thesis committee and gained approval of the thesis topic by the thesis committee if a thesis is chosen;
4. Completed with a grade point average of 3.0 (“B”), at least 48 quarter units of course work;
5. Demonstrated academic and professional competence in field and classroom.

Requirements for Graduation

1. A minimum of 90 quarter units of designated graduate courses as approved on the petition for advancement to candidacy. Seventy-seven of the quarter units must be completed at this university (with the exception of MSW course work from an accredited program);
2. A grade point average of at least 3.0 (“B”);
3. Completion of a culminating research project or a thesis;
4. Up to one half of the course work (45 quarter units) may be transferred from an accredited MSW program. Only grades of “B” (3.0) or better will be accepted and students must first be accepted and students must first be accepted for admission. Courses not in keeping with program requirements may not be acceptable;
5. Completion of all MSW coursework within a four year period;
6. Completion of SW 625A and SW 625B, which will fulfill the graduation writing requirement;
7. Any additional requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62).

Electives

In lieu of taking all electives in the social work curriculum, students may elect to take up to four units of relevant 500- or 600-level electives from other disciplines with the approval of their advisor.

Accreditation

The program has held full accreditation by the Commission on Accreditation of the Council on Social Work Education since February, 1992. Questions regarding accreditation should be directed to the director of the School of Social Work.

Residency

The student must carry an academic workload of a minimum of eight units of 500- or 600-level course work for three consecutive quarters to achieve the residency requirement of full-time graduate status as defined by the university.

Degree Requirements (90 units)

Required courses leading to the MSW degree cover five curricular areas: Micro Practice, Macro Practice, Human Behavior and the Social Environment (HBSE), Research and Field Work. Courses within each category must be completed in sequence, as they are listed below, and all foundation courses in a category must be completed before registering in the advanced courses in the same category.

Foundation Courses (52)

Foundation Micro Practice:
- SW 602A Foundation Micro Practice I 4
- SW 602B Foundation Micro Practice II 4
- SW 602C Foundation Micro Practice III 2

Foundation Macro Practice:
- SW 606A Foundation Macro Practice I 4
- SW 606B Foundation Macro Practice II 4
- SW 606C Foundation Macro Practice III 2

HBSE:
- SW 604A Human Behavior in the Social Environment I 4
- SW 604B Human Behavior in the Social Environment II 4

Research:
- SW 612 Social Work Research I 4
- SW 613 Social Work Research II 4

Field:
- SW 608A Field Work 4
- SW 608B Field Work 4
- SW 608C Field Work 4

Four units of electives, approved by advisor if taken outside the school.

Advanced Year (38)

Research:
- SW 625A Research Project I 2
- SW 625B Research Project II 2

Field:
- SW 608D Field Work 4
- SW 608E Field Work 4
- SW 608F Field Work 4

Advanced Practice Courses:

Micro Practice:
- SW 645 Social Work Advanced Micro Practice I 4
- SW 646 Social Work Advanced Micro Practice II 4
- SW 647 Social Work Advanced Micro Practice III 2

Macro Practice:
- SW 655 Social Work Advanced Macro Practice I 4
- SW 656 Social Work Advanced Macro Practice II 4
- SW 657 Social Work Advanced Macro Practice III 2

Integrative Seminar:
- SW 660 Advanced Practice Integrative Seminar 2

Total Units 90

Note: The research project represents the culminating graduate experience. A thesis may be done as an expansion of the research project but is optional. The research project is developed in SW 613 and is carried out in the field setting. It must be on a social work practice topic, must use objective analysis and will be presented to faculty and field personnel orally and in writing.

B.A. with Special Major (Program Code: SINT)

Requirements (40 units)

Total units required for graduation: 180

Occasionally, students with specialized educational or professional objectives may find that the existing degree programs offered at the university do not satisfy personal needs or career plans and that a carefully structured, interdisciplinary program of study is more appropriate.

The B.A. with Special Major is an interdisciplinary program intended for students with unusual interests and abilities who have the initiative and desire to design their own major with the aid of faculty advisors. The purpose of these individually-designed special majors is to provide a carefully controlled opportunity for exceptional students to design, with faculty approval, a flexible interdisciplinary course of study that leads to a Bachelor of Arts degree.

Admission normally is limited to students who can design (with the aid of a faculty committee) individualized programs organized around a coherent topic or cross-disciplinary subject that involves two or more departments. Occasionally, short-term interests in interdisciplinary programs may be served by more structure and degree plans organized by faculty for groups of students.

The B.A. with Special Major is not intended to bypass normal graduation requirements or to avoid certain requirements of a regular major offered at CSUSB or at other nearby institutions. The self-designed major should not substantially duplicate any existing degree offered at CSUSB. Likewise, a Special Major cannot be developed in areas such as architecture, agriculture, or engineering where the campus lacks the necessary faculty expertise to guide the student and supervise the culminating project. Students must have an overall grade point average of 3.0 including work taken at all institutions and must maintain a 3.0 average in the courses required for the self-designed major.

Although the Special Major is a unique program that suits individual goals, has potential to combine fields and functions, and can add distinction to the degree, such an interdisciplinary program may pose professional obstacles and be difficult to explain to graduate schools and employers. Career goals and prerequisites for higher degrees should be reviewed before proceeding with this major. In particular, students who will be seeking a teaching credential should consult with faculty in the College of Education to see how a Special Major might impact subject matter requirements for teachers.

Interested students should contact the Associate Vice President of Undergraduate Studies to begin the application and screening process. Prospective majors should be prepared to present a one-page description and justification of the program which outlines the concepts, goals and objectives to be fulfilled by the Special Major. If, after discussing the tentative interdisciplinary interests of the student, the Associate Vice President of Undergraduate Studies believes the student should be encouraged to prepare a formal application and proposal for a Special Major, a packet of information and forms for justifying and submitting the proposed interdisciplinary curriculum will be provided to the student. If the student has not yet found faculty members who are interested in helping the student develop the curriculum and guide their study, the Associate Vice President of Undergraduate Studies will suggest possible faculty committee members.

Requirements for the Major

1. Only regularly matriculated students with a 3.0 overall grade point average may be admitted to the Special Major program.

2. The minimum requirements for a Special Major will be 40 units of carefully structured upper-division work in two or more fields. Additional units beyond the minimum may be required by the faculty committee.

3. The Special Major must be proposed prior to the senior year. A student should have completed no more than 140 units at time of application for the Special Major and have a minimum of 40 units left to complete. While the B.A. degree requires a minimum of 180 units, students seeking approval for a Special Major after reaching upper-division status may find the need for prerequisites and lower-division introductory courses may extend the total number of units completed beyond the minimum of 180.

4. Neither lower-division nor upper-division General Education courses may be counted in the major, though they may supplement, strengthen and provide background for the major.

5. The Special Major is not available as a "double major," nor is it available to students pursuing a second bachelor's degree.

6. A culminating experience (project, research paper or other written documentation) and verification of accomplishment of project is required. Up to four units of credit for this may be built into the requirements of the major.
Application Process

1. Determine the feasibility of pursuing a Special Major by reviewing the requirements and examining available programs and majors to see if the proposed major could be met though any of these. Explore the resources of the campus needed for a Special Major in terms of course offerings, library resources, facilities, and faculty expertise.

2. Develop a statement of goals and objectives and the interdisciplinary program proposal which specifically addresses the following: What is the purpose or focus of this specially designed major? What skills does the student already have? What additional knowledge is needed? What is the best way to reach the goal? What is the student's career objective? Are there plans for advanced training and study?

3. Consult with the Associate Vice President of Undergraduate Studies about the process as well as interests and goals. One week prior to this meeting, the student must submit a written description and justification of the area of study based on goals and objectives. The Associate Vice President will contact departments and faculty members to discuss the feasibility of this area of study. If the draft proposal is acceptable, forms for formally developing and proposing the degree requirements will be provided.

4. A faculty committee will be appointed at this time based on recommendations of the Associate Vice President and appropriate departments. A chair will be elected by the committee. Normally, the faculty committee will be made up of faculty from the departments and disciplines of the interdisciplinary interests, e.g., a program in Arts Management would usually have faculty committee from the arts and business.

5. Work with the faculty committee to determine the best and most appropriate courses to include in the Special Major. Consideration should be given to prerequisites and lower-division courses needed as preparation for the 40 units minimum of upper-division study required in the Special Major.

6. The Special Major proposal must be signed by three faculty members who have worked with the student in developing the proposed course of study. The faculty member who will chair the advisory committee must write a statement of support which includes a brief evaluation of the proposal.

7. On the form provided, list the lower-division support courses which were taken in preparation for the upper-division component. These may include General Education and transfer courses where appropriate and directly related to your planned area of study.

8. List the minimum of 40 units of upper-division work to be included in the Special Major. As an interdisciplinary program, these courses should include work from at least two and usually three or more departments. To avoid later difficulties with key courses that are not offered prior to graduation, reasonable substitutions should be listed where possible.

9. Submit the Special Major proposal along with a copy of transcripts of all college work completed to the Associate Vice President of Undergraduate Studies. This proposal will be forwarded to the University Curriculum Committee for consideration. The committee meets regularly throughout the academic year and applications can be submitted at any time, though every effort should be made to turn in the proposal early enough in the term to receive approval prior to registration for the next term. Applications cannot be considered during the summer quarter. (The application materials should be filled out with great care and accuracy. Hastily done or carelessly prepared proposals are unlikely to convince the Curriculum Committee of the seriousness of the proposal.)

10. In some cases, the University Curriculum Committee may invite students and/or their faculty advisor to discuss the proposal with the committee, especially where clarification or changes are requested.

11. The Associate Vice President of Undergraduate Studies will notify the student in writing of the decision of the University Curriculum Committee. This may be approval, conditional approval based on recommend changes/revisions in curriculum or disapproval.

12. Any change or substitution of courses in the approved program must be approved by the student's faculty committee and the Associate Vice President of Undergraduate Studies.

13. Upon approval of the Special Major proposal, the student may formally declare a Special Major. At graduation, the diploma will show only a B.A. with Special Major, but the transcript will reflect the nature or title of the special interdisciplinary study in this fashion: B.A. with Special Major in (subject area).

Certificate in Health Equity and Health Disparities

Requirements (30-33 units)

This certificate is designed as an interdisciplinary certificate that provides a background in disciplines that relate to the social and behavioral determinants of health. Determinants of health are social, cultural, political, and economic factors coupled with individual factors that impact population as well as individual health outcomes. Socio-economic (upstream) factors are shaped by the distribution of money, power and resources at global, national and local levels, which are themselves influenced by policy choices (e.g. policies to promote economic development and reduce poverty; policies to promote healthier homes, neighborhoods, schools, and workplaces; housing policy; policies affecting access to health care; education policy; social policy; community empowerment; social capital; social inclusion/ exclusion; transportation policy; job training programs; food policy; health system policy and more). Individual (downstream) factors are those of behavior/lifestyle; gender; genes/family history, stress, income, education, food insecurity, access to health care, and housing.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 600-level courses as requirements and/or electives. These 600-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Courses in this program are designed to:

- prepare graduates to participate in community planning and action that will improve the health of an;
• teach students to understand community social, political, and economic factors that affect the
• way people live, their consequent chance of illness, and their risk of premature death.
• educate students about strategies to advance the capacity of local organizations and agencies to tackle the root causes of health inequities through action, their organizational
• structure, and policy and law
• help students become better prepared to engage in research that will enhance the understanding of the causes, processes, consequences and prevention of health disparities.

In this statement the key element is to make the students better consumers and users of research.

At least eight units must be outside one’s major. NOTE: The Certificate Coordinator position will be a rotating position (every 2 years) to promote the interdisciplinary nature of the certificate).

## Certificate Requirements

Total Units: 30-33

Students will complete a “capstone experience” that will integrate and synthesize the health disparities knowledge they gained by completing the certificate coursework. Capstone experience would be supervised and approved by the Certificate Coordinator and Faculty Coordinating Committee. Students will be required to earn 2-5 course credits (minimum of 2 units required) by selecting and completing one of the capstone experiences noted below.

1. Complete a portfolio that includes the course syllabus and course papers from each of the classes taken for credit and a 10-15 page paper that describes what was learned from these courses and integrates the knowledge into an expertise in health equity and health disparities. Guidelines for the portfolio and more details about the paper are available through the Certificate Coordinator. Students can register for 2 units of independent study credit through an approved instructor to complete the portfolio.

2. Complete a one-quarter internship (through an already existing internship program in the student’s major) in a setting relevant to health disparities (approved by the Certificate Coordinator). The internship can be completed for 2-5 units of credit (2 units required as a minimum). In most cases, the internship credit can be counted (with approval) for credit within the student’s major as well as for the Certificate. In addition to completing the requirements of the specific department internship, this option also requires a 10-15 page paper describing what was gained from the internship experience and what was learned about health equity and health disparities. Internships must be approved by the Certificate Coordinator prior to beginning the internship.

3. Complete an approved independent study (between 2-5 units of credit) that results in a paper submitted to a professional or undergraduate journal for publication. Some department’s honors papers might be used to satisfy this option. Students must get approval from the Certificate Coordinator for their plans to complete this option.

Graduate Degrees

Master of Arts
• Interdisciplinary Studies (p. 476)

Master of Arts in Interdisciplinary Studies

Requirements (48 units)
Program Code: INTD

Occasionally a student wishes to pursue special interests or career goals that are not met by existing graduate programs. For this student, the Master of Arts in Interdisciplinary Studies offers the opportunity to create a unique master's degree program or one that is not otherwise substantially available in a current graduate program offered at this university.

This individualized master's degree is designed to be a highly challenging academic program for the self-motivated student who has a clear perception of objectives and a background which will allow advanced study in the disciplines combined in the program. The Interdisciplinary Studies M.A. is designed to accommodate unique student interests or to prepare students for fields which require programs not presently offered at the university. It is not a replacement of existing degree programs but an enrichment of the university's offerings. This program is designed by the student in consultation with the Dean of Graduate Studies and three faculty members. The three faculty members, who comprise the student's faculty committee, are selected from more than one academic discipline. Once the program is approved by the committee, it is then submitted to the University Curriculum Committee for its approval.

Application Process: The procedures listed below are for the individualized M.A. in Interdisciplinary Studies. Students interested in the Integrative Studies Track or the E-Marketing Communication and New Media Option should contact the program coordinators.

1. Determine the feasibility of pursuing an Interdisciplinary Studies M.A. by reviewing the requirements and examining available CSUSB master's programs to see if the proposed degree could be met through any of these. Explore the resources of the campus needed for an Interdisciplinary Studies M.A. in terms of course offerings, library resources, facilities, and faculty expertise;
2. Prepare a written proposal eight pages in length to include the following:
   a. Identify by title the proposed interdisciplinary program of study (i.e., Interdisciplinary Studies Master's Degree in [50-space limit]);
   b. Describe the purpose or focus of this specially designed degree program;
   c. Explain why this course of study cannot be pursued within one department with electives from other departments;
   d. Explain how this program relates to the student's educational and career goals;
   e. Indicate student's background, both academic and experiential, for undertaking this study;
   f. List the CSUSB courses appropriate to meeting goals;
3. Submit the proposal to the Office of Graduate Studies for review and approval. If the draft proposal is found promising, and University facilities can support the proposed program of study, the Dean of Graduate Studies will schedule an appointment to discuss the project and provide the forms and guidelines necessary to proceed with formal application to the program as outlined in item 4 below;
4. To complete the formal application for acceptance to an Interdisciplinary Studies Master's program the student must:
   a. Secure the agreement of faculty in the disciplines related to the proposed special program to serve as members of the Interdisciplinary Studies Graduate Committee. This committee must consist of no less than three tenured tenure-track, full-time faculty members at CSUSB;
   b. Convene a meeting of the Interdisciplinary Studies Graduate Committee. At this meeting the committee will: review student's documents (i.e., CSUSB transcripts, Statement of Purpose, etc.); identify the appropriate preparatory course work, completed or to be completed; and formulate with the student an academically sound program of graduate study related to their Statement of Purpose; and develop learning outcomes for the program;
   c. On the form provided, list the five upper-division prerequisite courses, each with a grade of "B" (3.0) or better, in the major discipline of the proposed program. The determination of the major discipline is subject to the approval of the University Curriculum Committee;
   d. On the Approved Study Plan form list the minimum of 48 units of course work, 70% of which must consist of 500- or 600-level courses, to be included in the Interdisciplinary Studies M.A. As an interdisciplinary program, these courses should include work from two or more departments. To avoid later difficulties with key courses that are not offered prior to graduation, reasonable substitutions should be listed where possible;
   e. Secure signatures on the application from the Interdisciplinary Studies Graduate Committee. The Interdisciplinary Studies M.A. proposal must be signed by three faculty members who have worked with the student in developing the proposed course of study. The faculty member who will chair the advisory committee must write a statement explaining the learning outcomes of the program;
5. Submit the completed proposal for the Master's Degree in Interdisciplinary Studies to the Dean of Graduate Studies. The Office of Graduate Studies will attach a copy of current CSUSB transcripts. These materials constitute the Application for a Master's Degree in Interdisciplinary Studies and will be forwarded to the University Curriculum Committee for consideration. The committee meets regularly throughout the academic year and applications can be submitted at any time, though every effort should be made to turn in the proposal early enough in the term to receive approval prior to registration for the next term. Applications cannot be considered during the summer quarter.

The application materials should be filled out with great care and accuracy. Hastily done or carelessly prepared proposals are unlikely to convince the Curriculum Committee of the seriousness
of the proposal. The signature of the Chair of the University Curriculum Committee on the application for the Master’s Degree in Interdisciplinary Studies signals acceptance of an applicant to the program. Subsequent modification of an Approved Study Plan requires approval of the student’s Interdisciplinary Studies Graduate Committee and the Dean of Graduate Studies on an official Change of Study form.

No more than twelve units of proposed course work can be completed prior to submission of the proposal to the University Curriculum Committee;

6. The Dean of Graduate Studies will notify the student in writing of the decision of the University Curriculum Committee. This may be approval or request for resubmission;

7. Any change or substitution of courses in the approved program must be approved by the student’s faculty committee and the Dean of Graduate Studies;

8. Upon approval of the Interdisciplinary Studies M.A. proposal, the student may formally declare an Interdisciplinary Studies M.A. At graduation, the diploma will show only an M.A. in Interdisciplinary Studies, unless the student requests in writing the inclusion of the focus of the interdisciplinary study in this fashion: Master of Arts in Interdisciplinary Studies in (subject area). The transcript will reflect both the degree title and the focus of study.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A cumulative undergraduate grade point average of at least 3.0;

2. Prerequisite of at least five upper-division courses, each with a grade of “B” (3.0) or better, in the major discipline of the proposed program. The determination of the major discipline is subject to the approval of the University Curriculum Committee;

3. A three-member faculty committee, the chair of which serves as primary advisor, to supervise the course of study;

4. An interdisciplinary studies M.A. proposal submitted, on forms available from the Office of the Dean of Graduate Studies, to the University Curriculum Committee; the program of courses must not significantly duplicate any existing degree program on this campus or on any other state college or university campus within a commutable distance; no more than 12 units of proposed coursework can be taken prior to submission of the proposal to the University Curriculum Committee;

5. Approval of the program proposal by the University Curriculum Committee.

If approval is recommended by the University Curriculum Committee, the student is formally admitted into the program in either conditionally classified or classified status.

Requirements for Graduation

1. The program of study should be interdisciplinary, including course work from two or more departments represented at the university;

2. The program of study must include a minimum of 48 quarter units of course work, at least 70% of all course work taken must be in 500- or 600-level courses;

3. The program of study must not include more than eight units of independent study course work, excluding the units allowed for thesis or project; students may use one of the following courses for graduate independent study: ADMN 695, EDUC 601, HUM 695, NSCI 695, SSCI 695.

4. The program must include a synthesizing experience (comprehensive examination, project or thesis). This experience will satisfy the graduation writing requirement. The project or thesis may include an oral defense. Students may register for no more than nine units of thesis or project credit. The project or thesis may include an oral defense;

5. The program of study must include a course in research methods in the major discipline;

6. A grade point average of 3.0 (“B”) must be earned in course work taken to satisfy the Master of Arts degree requirements and grades of “C” (2.0) or better in all courses in the program. Grades of “C-” (1.7) or less cannot be used toward the degree;

7. Completion of the Writing Requirement for Graduate Candidacy (WRGC);

8. When students have completed between 12 and 20 units of course work on an approved study plan, it will be necessary for them to submit a formal letter to the Office of the Dean of Graduate Studies requesting advancement to candidacy;

9. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 62).
Courses A-Z

Course Numbering System

1-99  Nondegree-applicable credit.
100-299  Lower-division courses designed primarily for freshmen and sophomores. Graduate credit is not allowed.
300-499  Upper-division courses of junior and senior level.
500-599  Upper-division courses of junior and senior level; graduate credit may be awarded if course is accepted in a specific graduate program.
600-699  Courses for postbaccalaureate and graduate students only. May not be taken by undergraduates.
700-799  Courses for doctoral candidates only.
990-999  Special comprehensive exams, projects, units not awarded.
X800-X989  Courses offered through extension only. Credit
X1000-X9999  not degree applicable
IP100-IP699  Courses taken by students in the International Programs
e300-e699  Credit earned in a continuing education program for residence credit pursuant to an external degree program.

Accounting (ACCT)

Courses

ACCT 211. Introductory Accounting I. 4 Units.
Fundamentals of recording, analyzing, and communicating financial information including income determination, assets and liability relationships and preparation of financial statements.

ACCT 212. Introductory Accounting II. 4 Units.
Prerequisites: ACCT 211
Continuation of Introductory Accounting I with emphasis on interpretation and uses of financial data for decision-making including cost analysis, budgeting, and control. Includes study of the statement of cash flows and long-term debt.

ACCT 315. Accounting Information Systems and Business Ethics. 4 Units.
Prerequisites: ACCT 212, IST 101 and IST 309
Introduction to the concepts, objectives and importance of properly designed accounting information systems and professional ethics. Extensive study of internal controls including systems documentation. Three hours lecture and two hours activity laboratory.

ACCT 347. Management Accounting and Ethics in Business. 4 Units.
Prerequisites: ACCT 212
Overview of techniques to facilitate business decision-making and professional ethics in business. Models include break-even analysis, differential costing, product cost pricing analyses, capital budgeting and investment analysis techniques. The role of budgeting in management planning and control and an examination of cost and revenue variances. Transfer pricing, management compensation and performance evaluation are reviewed in both domestic and international situations. Formerly ACCT 345.

ACCT 372. Intermediate Accounting. 4 Units.
Prerequisites: ACCT 212
First of a three-course sequence covering an in-depth study of financial accounting. Coverage includes the conceptual framework underlying financial accounting, the application of Generally Accepted Accounting Principles (GAAP) applicable to the preparation of financial statements, accounting for cash, receivables and inventories. The accounting cycle and time value of money will also be reviewed.

ACCT 373. Problem Areas in Intermediate Accounting. 4 Units.
Prerequisites: ACCT 372
Continuation of ACCT 372 with emphasis on the study of long-term assets, equities and earnings per share.

ACCT 374. Reporting Issues in Intermediate Accounting. 4 Units.
Prerequisites: ACCT 373 and the upper-division writing requirement
Study of revenue recognition, deferred taxes, pensions and leases. Formerly ACCT 574.

ACCT 426. Introduction to Taxation. 4 Units.
Prerequisites: ACCT 211 and junior standing
Introduction to the basic concepts of federal income taxation. Includes history and objectives of the tax, along with the treatment of various types of entities, types of income, types of deductions and types of credits. Emphasis is on the individual as a taxpayer.

ACCT 440. Financial Statement Auditing. 4 Units.
Prerequisites: ACCT 315, ACCT 373, and the upper-division writing requirement
Theory and function of the auditor, viewed from the perspective of public accounting. Topics will include standard audit reports, assessing audit risk, auditors legal liabilities, tests of controls, and audit evidence. Three hours lecture and two hours activity laboratory.

ACCT 442. Internal and Operational Auditing. 4 Units.
Prerequisites: ACCT 373
Theory and practice of internal auditing as an operational appraisal activity within firms. Distinction between internal auditing and external, independent auditing. Use of tools to assist management control structures and operations. Focus on evaluating effectiveness, efficiency and compliance of firm activities.
ACCT 468. Accounting for Government and Not-for-Profit Organizations. 4 Units.
Provides students an opportunity to study the specialized the GASB accounting principles applicable to state and local governments. It affords learners an opportunity to acquire proficiency with the FASB financial reporting standards applicable to a variety of tax exempt non-profit organizations encountered in practice with an emphasis on fair value accounting and the basic principles used to record of assets, liabilities, equity, revenues, and expenditures. The course also covers the analysis and interpretation of government financial statements.

ACCT 503. Financial Accounting. 4 Units.
Intensive introduction to applied topics and techniques in financial accounting. Development of accounting information according to U.S. GAAP for external reporting purposes. Economic and financial analysis of financial statements. No credit will be awarded to students who have taken ACCT 211 and 212. May not be counted toward fulfilling requirements for any degree program offered by the College of Business and Public Administration.

ACCT 536. Corporate and Partnership Taxation. 4 Units.
Prerequisites: ACCT 426
The basic concepts of the federal income taxation of corporations and partnerships. Formerly ACCT 436.

ACCT 539. Advanced Accounting. 4 Units.
Prerequisites: ACCT 373
Advanced topics in accounting including business combinations, multinational operations and foreign currency transactions, liquidations, and reorganizations. Includes partnership formation, income distribution and liquidation. Formerly ACCT 439.

ACCT 541. EDP Auditing and Control. 4 Units.
Prerequisites: ACCT 440
Continuation of ACCT 440 with emphasis on audit sampling, test design, impact of electronic data processing (EDP) upon audit planning, and assurance and attestation services other than audit services. Three hours lecture and two hours activity laboratory. Formerly ACCT 441.

ACCT 544. Accounting Law, Ethics and Institutions. 4 Units.
Prerequisites: MGMT 330 or equivalent
Advanced accounting law topics, ethical standards, and institutions for professional accountants. Emphasis on legal problems encountered in the public accounting profession, including an examination of the ethical standards and the political and regulatory institutions that affect the practice of public accounting. Formerly ACCT 444.

ACCT 547. Cost Accounting. 4 Units.
Prerequisites: ACCT 347 or equivalent
Product and service costing with attention to analysis of overhead and multiple allocation techniques. Topics include joint costs, byproducts, spoilage, rework and scrap. Alternative costing systems including operations costing and process costing. Valuation of inventory for decision-making purposes. Procedures for just-in-time inventory management are included. Formerly ACCT 447. (4 units.

ACCT 556. Estates and Gifts, Ethics and other Specialized Taxation Topics. 4 Units.
Prerequisites: ACCT 426
Professional ethics in tax practices and taxation topics not covered in depth in ACCT 426 and 536, including gift and estate tax, income taxation of trusts and estates, tax administration and practice, working with tax law, advanced individual income tax topics, and other special topics. Formerly ACCT 456.

ACCT 575. Internship. 4 Units.
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

ACCT 590. Seminar in Accounting. 4 Units.
An intensive study of some phase of accounting to be developed by the instructor. May be repeated for credit as topics change.

ACCT 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units)

ACCT 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units)

ACCT 604. Accounting for Managerial Decision-Making. 4 Units.
Study and application of the concepts and techniques used by management for planning and controlling business activities.

ACCT 605. Health Care Accounting and Financial Analysis. 4 Units.
Basic concepts, methods, and application of cost and accrual accounting, finance and budgeting techniques and methods applied to health services and health care organizations, with computer application and analysis.
(Also offered as ACCT 605. Students may not receive credit for both.) (4 units.

ACCT 606. Accounting for Managerial Decision-Making. 4 Units.
Study and application of the concepts and techniques used by management for planning and controlling business activities.

ACCT 610. Financial Reporting and Disclosure. 4 Units.
Prerequisites: ACCT 606. MSA Prerequisite: consent of coordinator or department chair
An in-depth study of financial accounting, reporting, and disclosure. Professional accounting and reporting standards will be examined. MBA.
ACCT 615. Controllership and Professional Ethics. 4 Units.
Prerequisites: ACCT 606. MSA Prerequisite: consent of coordinator or department chair
In-depth study of accounting techniques, concepts and procedures related to the functions and responsibilities of the controller. Professional ethics applied to controllers. Consideration of management reporting systems, planning and controlling functions, resource allocation, transfer pricing, the general ledger-based system, departmental expense control and investment planning. MBA.

ACCT 620. Internal Auditing and Management Controls. 4 Units.
Prerequisites: ACCT 610. MSA Prerequisite: consent of coordinator or department chair
Study of the theory and practice of auditing as it applies to the internal and management controls function of the organization. Topics include statements of auditing standards, ethical and legal responsibilities, internal control structure considerations, statistical sampling applications, computer-assisted auditing techniques and regulatory agency requirements. MBA.

ACCT 625. Seminar in Accounting Information Systems. 4 Units.
Prerequisites: ACCT 610 or consent of instructor. MSA Prerequisite: consent of coordinator or department chair
A study of the design and operation of accounting information systems in both mainframe and microcomputer environments. Advanced consideration of internal control and auditing of computer-based systems. Environmental hardware and software implications for security and quality control are examined. MBA.

ACCT 629. Seminar in Tax and Business Decisions. 4 Units.
Prerequisites: ACCT 610 or consent of instructor. MSA Prerequisite: consent of coordinator or department chair
Study of how taxation affects business decisions of both domestic and multinational business. Topics include introduction to tax policy, comparative tax systems, tax effects on investment and financing activities, taxation of multinational transactions, and basic tax research methodology. MBA.

ACCT 630. Advanced Tax Topics: Corporate Taxation. 4 Units.
Prerequisites: Consent of MSA coordinator of department chair
The study of federal tax consequences of the formation operation, reorganization, and liquidation of corporations from the standpoint of the corporation and shareholders, with some reference to the taxation of S corporations. MSA.

ACCT 642. International Accounting. 4 Units.
Prerequisites: ACCT 610 or consent of instructor. MSA Prerequisite: consent of coordinator or department chair
Critical examination of current developments in international accounting; the difficulty of preparing precise and universally accepted accounting principles; social, economical, and political influences on comparative accounting theory and practice. Financial reporting and control of multinational enterprises are also discussed. MBA.

ACCT 675. Internship. 4 Units.
Prerequisites: consent of instructor and department's internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

ACCT 690. Advanced Topics in Accounting. 4 Units.
Intensive study of an advanced topic in accounting. May be repeated for credit as topics change.

ACCT 695A. Graduate Independent Study. 1 Unit.
Prerequisites: graduate standing in accounting, consent of instructor, and approval of a written proposal of the research by the graduate program director
Independent graduate research in accounting. No more than four units in this course may be applied toward the masters degree.

ACCT 695B. Graduate Independent Study. 2 Units.
Prerequisites: graduate standing in accounting, consent of instructor, and approval of a written proposal of the research by the graduate program director
Independent graduate research in accounting. No more than four units in this course may be applied toward the masters degree.

ACCT 695C. Graduate Independent Study. 3 Units.
Prerequisites: graduate standing in accounting, consent of instructor, and approval of a written proposal of the research by the graduate program director
Independent graduate research in accounting. No more than four units in this course may be applied toward the masters degree.

ACCT 695D. Graduate Independent Study. 4 Units.
Prerequisites: graduate standing in accounting, consent of instructor, and approval of a written proposal of the research by the graduate program director
Independent graduate research in accounting. No more than four units in this course may be applied toward the masters degree.

ACCT 697. MSA Project. 4 Units.
Students demonstrate their readiness to enter the accounting profession by completing a series of projects that require application of knowledge and skills learned in the MSA program. Formerly ACCT 997.
ACCT 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
ACCT 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 996. MS Accounting Classified. 0 Units.
Students in the MSA who are now in classified status.

ACCT 998. Comprehensive Project. 0 Units.
In consultation with the MSA Coordinator and/or Department Chair, completion and defense of a written project based on the accounting concentration before a committee of accounting graduate faculty. Open only to students who have advanced to candidacy and with approval of the MSA Coordinator and/or Department Chair.

ACCT 999. MSA Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of MSA coordinator and/or department chair, and in good academic standing
An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter in the concentration. Must be taken in the final quarter of coursework. May be repeated one time with approval of the MSA Coordinator and/or department chair.

Administration (ADMN)

Courses
ADMN 210. Applied Business Statistics. 4 Units.
An introduction to statistical reasoning and application of primary statistical techniques used in solving managerial problems. Covers both descriptive and inferential statistics. Students may not receive credit for more than one of the following courses: PSYC 210 or ADMN 210. Formerly SCM 210.

ADMN 501. Honors Research Methods. 4 Units.
The course introduces the fundamentals of scientific inquiry in business and public administration, and provides the theoretical and practical base for an honors research project. It covers the fundamentals of research proposal, literature review, conceptualization and operationalization, logic of sampling, and qualitative and quantitative methods applicable to business and public administration disciplines.

ADMN 502. Practical Honors Research. 4 Units.
The course provides the students with the opportunity to work intensively on an honors research project of extended duration and depth of analysis. This course introduces the students to conducting business and public administration research on a more advanced level. Under the supervision of a faculty member, students will carry out the research plan developed in ADMN 501, gather and analyze data, present and defend research findings, and develop a research manuscripts. Prerequisite ADMN 501.

ADMN 575. Internship. 4 Units.
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

ADMN 580A. Doing Business Internationally: Asia. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course. Formerly a topic under ADMN 590.

ADMN 580B. Doing Business Internationally: Asia. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course. Formerly a topic under ADMN 590.

ADMN 580C. Doing Business Internationally: India. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course. Formerly a topic under ADMN 590.

ADMN 580D. Doing Business Internationally: India. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course. Formerly a topic under ADMN 590.

ADMN 580E. Doing Business Internationally: Europe. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course. Formerly a topic under ADMN 590.
ADMN 580F. Doing Business Internationally: Europe. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course. Formerly a topic under ADMN 590.

ADMN 580G. Doing Business Internationally: Africa. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580H. Doing Business Internationally: Middle East. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580I. Doing Business Internationally: Latin America. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580J. Doing Business Internationally: Latin America. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580K. Doing Business Internationally: Africa. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580L. Doing Business Internationally: Middle East. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580M. Doing Business Internationally: Korea. 2 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 580N. Doing Business Internationally: Korea. 4 Units.
Introduction to and comparison of the distinctive characteristics of the business environment, business operations, financial institutions, regulations, and culture of different regions of the world. Includes study abroad as the conclusion of the course.

ADMN 590A. Seminar in Administration. 4 Units.
Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 590B. Seminar in Administration. 2 Units.
Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 590C. Seminar in Administration. 3 Units.
Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 590D. Seminar in Administration. 4 Units.
Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 598. Honors Reflective Essay. 0 Units.
Prerequisites: completion of all Honors Program requirements
Submission of a reflective essay based on CBPA Honors Program guidelines. Graded Credit/No Credit.

ADMN 601. Data-Driven Decision Making. 4 Units.
Advanced problem-solving qualitative and quantitative techniques to find, frame and solve difficult issues.

ADMN 602. Advanced Managerial Communications. 4 Units.
Introduces students to the principles of communication strategy and persuasion, with a focus on written and oral presentation assignments to increase student proficiency in managerial communication. Satisfies the graduate writing requirement.

ADMN 604. Managing Cost, Operations, and Financial Reporting. 4 Units.
The main focus of this course is the analysis of the basic financial statements, historical/replacement cost accounting, financial and business environments of the firm, the time value of money and financial analysis, planning and control. The course also covers the identification, understanding and analyses of the fundamental business problems and policies that have financial implications. The course will serve as a prerequisite for ACCT 606 and FIN 602.

ADMN 605. Product Development and Distribution. 4 Units.
Integrative course that acquaints students with the methods of planning, organizing, and controlling for the creation and distribution of goods and services. Topics include: sales forecasting techniques, product planning and pricing, sales and product budgeting, linear programming: transportation and assignment models, inventory planning and control, value chain analysis, materials requirements planning, aggregate capacity planning and scheduling, waiting lines, pricing and promotion strategies, statistical quality control and maintenance, and distribution strategy.
ADMN 675. Internship. 4 Units.
Prerequisites: consent of instructor and department's internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

ADMN 690B. Advanced Topics in Administration. 2 Units.
Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 690C. Advanced Topics in Administration. 3 Units.
Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 690D. Advanced Topics in Administration. 4 Units.
Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 691. Culminating Business Analyst Project. 4 Units.
Capstone course develops the future manager's business analysis skills, integrating knowledge from the MBA Foundation and Essentials courses. Students will develop a comprehensive, written assessment that addresses a real, substantive business problem.

ADMN 695A. Directed Graduate Studies. 1 Unit.
Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

ADMN 695B. Directed Graduate Studies. 2 Units.
Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

ADMN 695C. Directed Graduate Studies. 3 Units.
Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

ADMN 695D. Directed Graduate Studies. 4 Units.
Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

ADMN 695E. Directed Graduate Studies. 5 Units.
Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

ADMN 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ADMN 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ADMN 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. Earned units are not degree-applicable nor will they qualify for financial aid.

ADMN 995. MBA Portfolio. 0 Units.
Prerequisites: completion of 32 units in the program
Preparation and submission of a portfolio containing assignments representing successful work in the MBA program, accompanied by a reflective essay showing how the portfolio demonstrates the accomplishment of the goals of the program. Graded credit/no credit.

ADMN 998. Comprehensive Project. 0 Units.
In consultation with a faculty advisor, completion and defense of a written project based on his or her concentration before a committee of graduate faculty. Open only to students who have been advanced to candidacy and with the approval of the college graduate director.

ADMN 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing. May be taken any fall, winter or spring term after advancement to candidacy
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter in the concentration.

Aerospace Studies (AS)

Courses

AS 90. Leadership Laboratory. 0 Units.
Open only to enrolled Air Force ROTC cadets. Cadets must be concurrently enrolled in aerospace studies courses. Designed to allow students to apply leadership techniques and military skills taught in classroom and to develop their confidence as future military officers. Graded credit/no credit.

AS 101. The Air Force Today I. 1 Unit.
Examines the roles and ethical standards expected of an Air Force officer. Presents the opportunities and benefits of being an Air Force officer.

AS 102. The Air Force Today II. 1 Unit.
The Air Force organization, structure, and mission with emphasis on the basic skills used by military officers.

AS 103. The Air Force Today III. 1 Unit.
Further analysis of ethical standards expected of an Air Force officer with an emphasis on group dynamics.
AS 201. The Development of Air Power I. 1 Unit.
Development of air power technology and tactics from 1900 through the Vietnam War and its impact on military thought.

AS 202. The Development of Air Power II. 1 Unit.
Development of air power technology and tactics from the Vietnam War to present and its impact on military thought.

AS 203. Air Force Ethics. 1 Unit.
In-depth discussion of values and public expectations as they relate to military officers.

AS 301. Air Force Leadership and Management I. 3 Units.
Principles and functions of management and leadership.

AS 302. Air Force Leadership and Management II. 3 Units.
Quality Air Force initiatives, procedures, and applications.

AS 303. Air Force Leadership and Management III. 3 Units.
Ethics in modern society and the military, including the Standards of Conduct and the principles of modern warfare.

Forces and issues that influence policy decisions and application of military force. The impact of the executive branch and Congress on military operations.

Geopolitical influences on U.S. political decision making and the use of military force.

AS 403. National Security Forces in Contemporary American Society III. 3 Units.
Basic knowledge necessary for effective military leadership including consideration of legal issues and the military judicial system.

American Sign Language (ASL)

Courses

ASL 101. American Sign Language I. 4 Units.
Introduction to the language. Fundamentals of signing and language structure designed to develop the ability to use and understand the language.

ASL 102. American Sign Language II. 4 Units.
Prerequisites: ASL 101 or consent of department
Further study in American Sign Language. Fundamentals of signing and language structure to further develop the ability to use and understand the language.

ASL 103. American Sign Language III. 4 Units.
Prerequisites: ASL 102
Intermediate study in American Sign Language. Emphasis on proficiency/competence at the intermediate level. Formerly ASL 150.

ASL 201. American Sign Language IV. 4 Units.
Prerequisites: ASL 103 or equivalent
(GE=C3)
Continued study of American Sign Language at the intermediate level.

ASL 202. American Sign Language V. 4 Units.
Prerequisites: ASL 201 or equivalent
(GE=C3)
Continued study of American Sign Language at the intermediate level.

ASL 203. American Sign Language VI. 4 Units.
Prerequisites: ASL 201 or equivalent
(GE=C3)
Continued study of American Sign Language at the intermediate level.

ASL 232. Introduction to ASL Interpreting. 4 Units.
Prerequisites: ASL 103
Overview and practical application of interpretation. Emphasis on the professional code of ethics and professional concerns. Formerly FLAN 232.

ASL 301. Advanced American Sign Language I. 4 Units.
Prerequisites: ASL 203 or equivalent
Study of ASL at an advanced level.

ASL 302. Advanced American Sign Language II. 4 Units.
Prerequisites: ASL 301 or equivalent
Study of ASL at an advanced level.

ASL 350. Deaf Students and Culture. 4 Units.
Analysis and discussion of Deaf culture through study of the cultural, educational, geographic, and economic factors that influenced the historical evolution of the Deaf community in terms of language, culture and the arts. Taught in English.

American Studies (AMST)

Courses

AMST 300. Introduction to American Studies. 4 Units.
Concepts and methods essential to an interdisciplinary approach to American literature and art in a historical context.

AMST 590. Special Topics in American Studies. 4 Units.
Prerequisites: AMST 300; ART 311; HUM 344; one of the following: ENG 325, 326 or 333; and consent of department
Advanced independent study of selected figures, themes, or periods in American literature and art in a historical context. May be repeated for credit as topics change.

Anthropology (ANTH)
Courses

ANTH 100. Introduction to Anthropology: Human Evolution. 4 Units.
(GE=D4)
Human biological and social evolution through time.

ANTH 102. Introduction to Anthropology: Culture and Society. 4 Units.
(GE=D4)
Structure and dynamics of human cultural experience; comparative analysis of language, religion, economic patterns and social and political organization in traditional and complex societies.

ANTH 140. World Civilizations I, the Rise of Civilization. 4 Units.
(GE=D3)
Activities and achievements of humans through the rise and diffusion of civilizations in Eurasia, Africa, and the Americas to about the dawn of the Christian era. (Offered as ANTH 140 and HIST 140, students may not receive credit for both.).

ANTH 200. Biological Anthropology Laboratory. 1 Unit.
Prerequisite/Corequisite: ANTH 100
Human skeletal anatomy and skeletal biology (osteology and a forensics), reviews of the fossil evidence for primate and human evolution, and exercises in genetics. Three hours laboratory.

ANTH 301. Anthropological Theory. 4 Units.
Examination of major theoretical trends and debates that shaped the discipline of anthropology past and present.

ANTH 302. African Archaeology. 4 Units.
Africa's past from the beginnings of humankind to the period of European contact. An examination of Africa's foremost role in the origins of culture and of anatomically modern humans, as well as the development of African civilizations.

ANTH 303. Prehistory of the Middle East and Europe. 4 Units.
A survey of prehistory spanning the spread of people into the Middle East and Europe, the development of agriculture and the origins and growth of the earliest civilizations.

ANTH 305. North American Prehistory. 4 Units.
Prehistory of North America from earliest times to the dawn of historic contact with the Old World after 1492.

ANTH 306. Aztecs, Maya and their Predecessors. 4 Units.
The origin, spread and decline of pre-Columbian civilizations in Mexico and adjacent areas.

ANTH 307. Incas and their Predecessors. 4 Units.
The origin, spread and decline of pre-Columbian civilizations in Peru and adjacent areas.

ANTH 312. Historical Archaeology. 4 Units.
Use of archaeological methods to study historic peoples. Historical and archaeological methods and their results. Focus will be primarily on North America from A.D. 1492 to modern times. (Offered as ANTH 312 and HIST 312, students may not receive credit for both.).

ANTH 314. Archaeology of California. 4 Units.
The Prehistoric Cultures of California, their origins, character and relationships. (4 units.

ANTH 315. Archaeology of the Southwest. 4 Units.
The prehistoric cultures of the American Southwest, their origins, characteristics and relationships.

ANTH 316. Archival Practices. 4 Units.
Applied approach to archival methods, the accessioning, de-accessioning, cataloging, calendar composition, storage of objects and archival materials, loan procedures, policies and legal issues. Field trips and projects required. Also offered as HIST 316. Students may not receive credit for both.

ANTH 317. Community Engaged Research Methods. 5 Units.
Apply ethnographic research methods such as participant-observation in a classroom and community setting. Students will be required to volunteer for an off-campus organization; however, the faculty member reserves the right to assign an alternate assignment as needed. Four hours lecture and three hours lab. May not be repeated for credit.

ANTH 318. Introduction to Cultural Resource Management. 4 Units.
General overview of the field of Cultural Resource Management in Museum Studies, Anthropology and Public History. Also offered as HIST 318. Students may not receive credit for both.

ANTH 319. Experimental Archaeology and Ethnoarchaeology. 5 Units.
Prerequisites: consent of instructor
Experimental and observational techniques that are important in reconstructing the past. This course has a practical/laboratory component that will assist students in understanding aspects of prehistoric technology and the formation of the archaeological record. Four hours lecture and three hours laboratory.

ANTH 320. Archaeological Survey and Excavation. 5 Units.
Examines techniques and methods used to recover archaeological remains and information. Stresses the importance of research design and its relationship to methodology. Active participation in a field project under the direction of the instructor. Ten hours activity.

ANTH 321. Archaeological Laboratory Analysis. 5 Units.
Examines techniques and methods used to analyze archaeological remains in the laboratory. Active participation in various laboratory projects under the direction of the instructor. Four hours lecture and three hours laboratory.
ANTH 322. Human Osteology and Functional Anatomy. 5 Units.
The identification of human skeletal materials and an introduction to the relationship between form and function in the human skeleton. Four hours lecture and three hours laboratory.

ANTH 323. Native North American Art. 4 Units.
Art of American Indian and Eskimo peoples north of Mexico, from earliest prehistory to modern times. (Also offered as ART 323. Students may not receive credit for both.).

ANTH 324. Pre-Columbian Art. 4 Units.
Art and architecture of pre-Columbian cultures with an emphasis on Mexico and Peru. (Also offered as ART 324. Students may not receive credit for both.).

ANTH 325. Human Biological Variance and the Concept of Race. 4 Units.
(GE=G.2)
An inquiry into past and present interpretations of the significance of human physical differences.

ANTH 326. Human Origins. 4 Units.
Prerequisites: ANTH 100
The archaeological, anatomical and other evidence for human origins examined within their geological and environmental contexts. Discussion of theories that attempt to explain how we became human.

ANTH 327. Primate Evolution and Ecology. 4 Units.
A comparative study of our closest relatives (the apes, monkeys and other primates): their evolution, ecology, behavior, social organization and means of communication. One-day zoo trip required.

ANTH 328. Forensic Anthropology and Crime. 4 Units.
Techniques of biological anthropology as applied to the investigation of crime.

ANTH 330. Cross-Cultural Child-Rearing Practices. 4 Units.
Cross-cultural examination of child-rearing practices from the perspective of major anthropological theories of personality formation and its relationship with culture.

ANTH 331. Anthropology of Human Development. 4 Units.
A cross-cultural perspective on human development and the processes of personality formation and cultural transmission.

ANTH 332. Cross-Cultural Perspectives on Aging. 4 Units.
A cross-cultural examination of aging and the roles, statuses, opportunities, and treatment of the aged, with an emphasis on non-Western societies.

ANTH 333. Sex and Gender in Cross-Cultural Perspective. 4 Units.
(GE=G2)
Examination and analysis of the changing position of women in selected societies around the world, including consideration of the sexual division of labor, marriage systems, male-female relations, and systems of myth and ideology concerning gender roles.

ANTH 334. Anthropology and Film. 4 Units.
Examines feature film from an anthropological perspective, and includes both domestic and international cinema. Topics may include the representation of indigenous peoples; the political-economic structures and social barriers negotiated in producing certain films; Orientalism in Western cinema; and regional cinemas. Formerly a topic under ANTH 390.

ANTH 336. Ancient Egyptian Archaeology. 4 Units.
Examination of ancient Egyptian archaeological contexts that reveal specific themes about their people, history, society, and religion. Incorporates archaeological theory to interpret contexts. Incorporates the history of excavation and removal of objects from Egypt. Includes studying objects at RAFFMA. Offered as ANTH 336 and HIST 336, students may not receive credit for both.

ANTH 340. Anthropology of Health, Illness and Healing. 4 Units.
An anthropological examination of the varying cultural definitions, explanations and experiences of illness and health in a variety of cultures. Strategies which societies have developed to cope with disease and misfortune are investigated, including such things as shamanism and folk medicine. Formerly ANTH 466.

ANTH 341. Globalization and Culture. 4 Units.
An examination and evaluation of the various theories that have been proposed to explain societal change using actual case study materials. formerly ANTH 470.

ANTH 342. Environmental Anthropology. 4 Units.
Examines the social and political dimensions of the environment. Through ethnographic case studies, a range of topics including culture, power, sustainability, resource economies, and the links between race, class, gender and the environment.

ANTH 343. Magic, Religion and Science. 4 Units.
A comparative study of the widely varied attempts by members of human societies to order, control and make predictions about their physical and social environments. Formerly ANTH 480.

ANTH 344. Applied Anthropology and Social Policy. 4 Units.
Use of anthropological knowledge and methods in solving social problems in institutional, national and international settings. Includes consideration of policy-making, funding, sponsorship, establishing goals, project implementation, popular participation, ethics, evaluation and reporting. Formerly ANTH 485.
ANTH 345. Urban Anthropology. 4 Units.
Utilization of ethnographic and cross-cultural materials in an examination of anthropological concepts and methods for the study of urban environments and the processes of urbanization. Formerly ANTH 493.

ANTH 346. Indigenous Politics. 4 Units.
Analysis of contemporary and/or historical aspects of issues relating to indigenous peoples. Topics social movements, rights, representation, genocide, feminism, cultural identity, bilingual education, development, among others may be included.

ANTH 347. Humans, Animals, and Nature. 4 Units.
Cultural contexts of human and animal relationships from different historical, religious, and representational perspectives.

ANTH 351. Indians of North America. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 352. Indians of the Southwest. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 354. Cultures of Mexico and Central America. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 356. Cultures of South America. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 357. African Societies. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 358. Peoples of the Middle East. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 362. Asian Cultures and Societies. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 365. Asian American Cultures. 4 Units.
Emphasis on major problems of current interest to the cultural anthropologist. Topics include language affiliations and culture, history of the area, the local populations, their relations with each other and to outside societies, and the effects of culture change upon them through time.

ANTH 372. Museum Education and Programming. 4 Units.
History of education in museums, reviews theories about how people learn, and introduces best practices for meeting the varied interests and needs of audiences in informal learning environments. Presentation of museum programming through digital formats is also discussed. Offered as ANTH 372 and HIST 372, students may not receive credit for both.

ANTH 373. Visitor Studies and Evaluation. 4 Units.
Focuses on theories, methods, and practical strategies for assessing audience knowledge, interest, and perceptions of museum offerings, particularly public educational programming and exhibitions. Best practices in developing and implementing pre-planning front-end evaluation, formative testing of ideas, and summative post-implementation feedback. Offered as ANTH 373 and HIST 373, students may not receive credit for both.

ANTH 374. Collections Management. 4 Units.
Overview of methods and legal and ethical considerations in the care of objects, standards of acquisition and disposal, collection documentation, storage, handling, loans, and conservation of museum collections, as well as security and emergency planning. Offered as ANTH 374 and HIST 374, students may not receive credit for both. Materials fee may apply.

ANTH 375. Museum Management. 4 Units.
Legal, financial, personnel matters, theories and practices of developing a mission statement, bylaws, various policies and plans that are standard administrative elements of museum operation. Museum departmental organization and staffing hierarchies are also discussed. Offered as HIST 375 and ANTH 375, students may not receive credit for both.

ANTH 376. Exhibition Development and Design. 4 Units.
Introduction to the standards, considerations, and collaborative processes related to developing and designing interpretive museum exhibitions that promote affective and transformative visitor experiences. Coursework may contribute to planning exhibitions for the Anthropology Museum. Field trips and group work may be required. Offered as ANTH 376 and HIST 376, students may not receive credit for both.

ANTH 378. Museum Curation. 4 Units.
Principles and practices relating to core curatorial functions, the relationship of curatorship to museum missions, ethical and other challenges facing museums, acquisition proposals and concepts and curatorial practices.
ANTH 380. Gender and Language. 4 Units.
Examines the role of language in the cultural construction of gender ideology, identities, and relations from both U.S. and cross-cultural contexts. Lexical, conversational, discursive, and narrative approaches are used. Formerly a topic under ANTH 390.

ANTH 381. California Indian Linguistic Anthropology. 4 Units.
Analysis of how California Indian languages inform world view and organize beliefs and how social practices of language use shape communication, social life, and sociocultural identity in general and in California Indian contexts. Formerly a topic under ANTH 390.

ANTH 388. Language and Culture. 4 Units.
Analysis of languages stressing the relationship of language to patterns of human behavior. Formerly ANTH 460.

ANTH 390. Selected Topics in Anthropology: 4 Units.

ANTH 391. Selected Topics in Anthropology. 2 Units.
An anthropological examination of a selected topic. May be repeated for credit as topics change.

ANTH 400. Archaeological Theory and Method. 4 Units.
Prerequisites: one course from section "Archaeology" of the BA in Anthropology or graduate standing
In-depth exploration of archaeological theories and methods and their application to our understanding of the human past. Formerly ANTH 300.

ANTH 410. Late Pleistocene Human Evolution. 4 Units.
Prerequisites: ANTH 326 or graduate standing
Methods and theories applied to analyzing Neanderthals and anatomically modern human skeletal and archaeological remains.

ANTH 420. Human Rights, Violence & Cult. 4 Units.
Prerequisites: ANTH 301 or graduate standing
Explore and critically evaluate a range of controversial topics including cultural violence, ethnic cleansing, human rights, the nation-state and military dictatorships; memory and reconciliation processes; and indigenous justice systems.

ANTH 455. Egyptian Mining Expeditions, Their Buildings, and Their Slaves. 4 Units.
Prerequisites: ANTH 336 or HIST 336 or instructor consent
Uses anthropological and archaeological theory to study the archaeological, textual, and representational evidence for large scale Ancient Egyptian mining expeditions. Looks at how they were organized and supplied and their connections with the Egyptian military. Studies the labors, from administrators to slaves, how they were treated and the gods they worshiped. Incorporates unpublished archaeological data for students to analyze. Offered as ANTH 455 and HIST 455, students may not receive credit for both.

ANTH 472. Colonial and Postcolonial Anthropology. 4 Units.
Prerequisites: ANTH 301 or graduate standing
Historical examination of the ways in which colonial anthropology has been connected to the European understanding of non-European cultures and societies. Analysis of the contributions of contemporary anthropology to postcolonial discourses.

ANTH 500. Senior Seminar in Anthropology. 4 Units.
Prerequisites: ANTH 301 or consent of instructor
Major anthropological theories as applied to a topical area of anthropological study. Perspectives from cultural anthropology, archaeology, bioanthropology, and linguistics will be discussed.

ANTH 575B. Internship in Anthropology. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 575C. Internship in Anthropology. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 575D. Internship in Anthropology. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 575E. Internship in Anthropology. 5 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of 10 units. Graded credit/no credit. (2-5 units.

ANTH 576B. Internship in Museum Studies. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit.
ANTH 576C. Internship in Museum Studies. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 576D. Internship in Museum Studies. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 576E. Internship in Museum Studies. 5 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 577B. Internship in Archaeology. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 577C. Internship in Archaeology. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 577D. Internship in Archaeology. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 577E. Internship in Archaeology. 5 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 578B. Internship in Applied Cultural Anthropology. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 578C. Internship in Applied Cultural Anthropology. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 578D. Internship in Applied Cultural Anthropology. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 578E. Internship in Applied Cultural Anthropology. 5 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit.

ANTH 585. Fieldwork in Cultural Anthropology. 4 Units.
Prerequisites: consent of instructor
Supervised design, execution and analysis of an individualized ethnographic field project.

ANTH 590B. Selected Topics in Anthropology. 2 Units.
An anthropological examination of a selected topic. May be repeated for credit as topics change.

ANTH 590C. Selected Topics in Anthropology. 3 Units.
An anthropological examination of a selected topic. May be repeated for credit as topics change.
ANTH 590D. Selected Topics in Anthropology. 4 Units.
An anthropological examination of a selected topic. May be repeated for credit as topics change.

ANTH 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of eight units in ANTH 595 may be applied toward graduation. Only four of those units may be applied to the major.

ANTH 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of eight units in ANTH 595 may be applied toward graduation. Only four of those units may be applied to the major.

ANTH 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of eight units in ANTH 595 may be applied toward graduation. Only four of those units may be applied to the major.

ANTH 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of eight units in ANTH 595 may be applied toward graduation. Only four of those units may be applied to the major.

ANTH 597. Senior Honors Project. 5 Units.
Original research in an area of anthropological studies, culminating in a major research report receiving approval of the anthropology faculty. Enrollment limited to students whose formal application for departmental honors is approved.

ANTH 600. Proseminar in Anthropology. 4 Units.
Prerequisites: consent of instructor
Survey of the concepts and methods that anthropologists employ to study, describe and analyze globalization.

ANTH 601. Advanced Historical Archaeology. 4 Units.
Advanced study of the use of archaeological methods to study historic peoples. The integration of archaeological research with documentary sources to reconstruct the past.

ANTH 602. Advanced Archaeological Laboratory Analysis. 5 Units.
Advanced study of techniques and methods used to analyze archaeological remains in the laboratory. Active participation in various laboratory projects under the direction of the instructor. Four hours lecture and three hours laboratory.

ANTH 603. Advanced Studies in California Archaeology. 4 Units.
Advanced study of the use of archaeological methods to study historic peoples. The integration of archaeological research with documentary sources to reconstruct the past.

ANTH 611. Cultural Resource Management: Laws, Regulations, and Procedures. 4 Units.
History of American historic preservation; overview of the laws and implementing regulations and case studies at local, state, and federal levels; introduction to Section 106 process, 36CFR 800, ARPA permitting, NAGPRA, protection of historic properties, undertakings, consultation, agreements, implementation; introduction to standard CRM information and development (such as identification, evaluation, mitigation, and site treatment/protection measures).

ANTH 612. Cultural Resource Management in Practice. 4 Units.
Implementation of laws through regulations and agency policies, ARPA damage assessments, recent changes, developments, court cases; international cultural property laws; working with various publics including negotiation and dispute resolutions, international perspectives and interested party/tribal consultation; ethics; report writing and introduction to MOAs and MOUs; curating archaeological collections/cultural property; archival records management and conservation.

ANTH 613. Writing for CRM. 2 Units.
Prerequisites: ANTH 611
Emphasis on writing cultural resource management reports with a focus on regulatory language and techniques of writing site evaluations and project recommendations under Section 106, CEQA, and NEPA.

ANTH 615. Research Design, Methods, and Problems in Archaeology. 4 Units.
In-depth investigation of selected problems in prehistoric and historic archaeology including detailed analysis of the appropriateness of the research design and methods that have been used to address these problems. Consideration will also be given to the paradigms and theories that have underpinned the ways in which these problems have been investigated.

ANTH 616. History and Theory of Archaeology. 4 Units.
An in-depth survey of the history of archaeology from its beginnings to the present day with an emphasis on developments in theory and their relationship to the interpretation of the archaeological record.

ANTH 666. Cultural Resource Management. 2 Units.
Study of cultural resources in the context of planning. Focus will be on data sources, environmental review and historic evaluation.
ANTH 677. Graduate Internship in Applied Archaeology. 4 Units.
Supervised work in public or private organizations providing professional, hands-on experience in applied archaeology. May be repeated for a total of eight units. Graded Credit/No Credit.

ANTH 695B. Independent Graduate Study. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 695C. Independent Graduate Study. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 695D. Independent Graduate Study. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 695E. Independent Graduate Study. 5 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
ANTH 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 699A. Thesis Research I. 2 Units.
Prerequisites: advancement to candidacy and consent of program coordinator
Independent graduate research conducted under the guidance of the major advisor, with assistance from the other members of the student's committee, and resulting in a thesis or a completed project, either of which must be successfully defended. Course must be taken the quarter before thesis filing.

ANTH 699B. Thesis Research II. 4 Units.
Prerequisites: advancement to candidacy and consent of program coordinator
Independent graduate research conducted under the guidance of the major advisor, with assistance from the other members of the student's committee, and resulting in a thesis or a completed project, either of which must be successfully defended.

Arabic (ARAB)

Courses

ARAB 101. College Arabic I. 4 Units.
Introduction to Arabic including fundamentals of grammatical structure, pronunciation and culture. Formerly a topic under FLAN 101.

ARAB 102. College Arabic II. 4 Units.
Prerequisites: ARAB 101 or equivalent
Further study of the fundamentals of grammatical structure, pronunciation and culture. Emphasis in oral communication, reading and writing. Formerly a topic under FLAN 102.

ARAB 103. College Arabic III. 4 Units.
Prerequisites: ARAB 102 (GE=C3)
Emphasis on oral and writing competencies at the intermediate level in a cultural context. Formerly ARAB 150.

ARAB 104. College Arabic IV. 4 Units.
Prerequisites: ARAB 103 or consent of instructor
Extended study of Arabic language for students needing to build proficiency before moving to Intermediate level. Graded credit/no credit.

ARAB 105. College Arabic V. 4 Units.
Prerequisites: ARAB 104 or consent of instructor
Extended study of Arabic language for students needing to build proficiency before moving to Intermediate level. Graded credit/no credit.

ARAB 170. Beginning Arabic Conversation. 2 Units.
Practice of oral Arabic with emphasis on familiar surroundings, immediate needs, and basic survival skills. Graded credit/no credit. May be repeated up to three times for credit.

ARAB 201. Intermediate Arabic I. 4 Units.
Prerequisites: ARAB 103 or equivalent (GE=C3)
First course in an intermediate-level sequence in Arabic. Develops students' oral and written Arabic language skills, as well as knowledge of Arabic-speaking cultures.

ARAB 202. Intermediate Arabic II. 4 Units.
Prerequisites: ARAB 201 or equivalent (GE=C3)
Second course in an intermediate-level sequence in Arabic. Develops students' oral and written Arabic language skills, as well as knowledge of Arabic-speaking cultures.
ARAB 203. Intermediate Arabic III. 4 Units.
Prerequisites: ARAB 202 or equivalent (GE=C3)
Third course in an intermediate-level sequence in Arabic. Develops students' oral and written Arabic language skills, as well as knowledge of Arabic-speaking cultures.

ARAB 204. Intermediate Arabic IV. 4 Units.
Prerequisites: ARAB 203 or consent of instructor
Extended study of Arabic language for students needing to build proficiency before moving to Advanced level. Graded credit/no credit.

ARAB 205. Intermediate Arabic V. 4 Units.
Prerequisites: ARAB 204 or consent of instructor
Extended study of Arabic language for students needing to build proficiency before moving to Advanced level. Graded credit/no credit.

ARAB 210. Arabic Calligraphy. 2 Units.
Prerequisites: ARAB 102 or equivalent
Introduction to Arabic calligraphy: its history and development. Familiarity with the major styles and hands-on application of one or two styles per term. Students need to purchase their own supplies. May be repeated once as styles change.

ARAB 211. Pronunciation Practice. 2 Units.
Prerequisites: ARAB 101 or consent of instructor
Traditional recitation methods to improve pronunciation and articulation of Arabic. May include poetry, passages from the Qur’an, and traditional songs.

ARAB 212. Arabic Composition. 4 Units.
Prerequisites: ARAB 103 or equivalent
Comprehensive review of the principles of Arabic grammar, emphasizing their application to composition.

ARAB 214. Conversation in Arabic. 4 Units.
Prerequisites: ARAB 103 or equivalent (GE=C3)
Practice of oral Arabic including current topics, panel discussions, debates, and oral presentations. Students will become familiar with day-to-day social and business expressions.

ARAB 216. Introduction to Arabic Literary Texts. 4 Units.
Prerequisites: ARAB 103 or equivalent
Techniques of literary study and analysis through readings from various Arab-speaking cultures. Emphasis on vocabulary development, expression and written comprehension.

ARAB 290. Arabic Literature in Translation. 4 Units.
(GE=C3)
Introduction to Arabic literature in English translation.

ARAB 295. Intermediate Assessment. 2 Units.
Prerequisites: 12 units of Arabic courses at the 200-level or equivalent
Assessment of skills in reading, writing, listening, speaking and knowledge of culture based on defined performance standards. Students will be advised on how to improve skills and will also begin their online assessment portfolios. Satisfactory completion is required for enrollment in all upper-division Arabic courses. Graded credit/no credit.

ARAB 301. Advanced Arabic I. 4 Units.
Prerequisites: ARAB 203 or equivalent
First course in an upper-level sequence in Arabic. Develops students' oral and written Arabic language skills, as well as knowledge of Arabic-speaking cultures.

ARAB 302. Advanced Arabic II. 4 Units.
Prerequisites: ARAB 301 or equivalent
Second course in an upper-level sequence in Arabic. Develops students' oral and written Arabic language skills, as well as knowledge of Arabic-speaking cultures.

ARAB 303. Advanced Arabic III. 4 Units.
Prerequisites: ARAB 302 or equivalent
Third course in an upper-level sequence in Arabic. Develops students' oral and written Arabic language skills, as well as knowledge of Arabic-speaking cultures.

ARAB 304. Advanced Arabic IV. 4 Units.
Prerequisites: ARAB 303 or consent of instructor
Extended study of Arabic language for students needing to build proficiency before moving to 400-level language and thematic/content based classes. Graded credit/no credit.

ARAB 305. Advanced Arabic V. 4 Units.
Prerequisites: ARAB 304 or consent of instructor
Extended study of Arabic language for students needing to build proficiency before moving to 400-level language and thematic/content based classes. Graded credit/no credit.

ARAB 312. Advanced Arabic Composition. 4 Units.
Prerequisites: ARAB 212 or consent of instructor
Practice in composition and short essay writing with emphasis on the development of good writing style and expressive vocabulary.

ARAB 314. Advanced Arabic Conversation. 4 Units.
Intensive practice of oral Arabic at the upper-intermediate level leading to higher fluency. Develops a functional and practical vocabulary for students who have formally learned the language in a classroom setting.

ARAB 316. Arabic for the Professions. 4 Units.
Oral and written practice in Arabic terminology used in various professions, with emphasis on cultural context.

ARAB 320. Arabic Phonetics. 4 Units.
Prerequisites: ARAB 295 or consent of instructor
In-depth study of the Arabic sound system. Oral practice and study of general principles of Arabic phonology and dialectology.

ARAB 321. Introduction to Arabic Linguistics. 4 Units.
Prerequisites: ARAB 103 or consent of instructor
The structure of Arabic: morphology, syntax and phonology including the historical development of the language and dialect variations.

ARAB 330. Levantine Arabic Dialect. 4 Units.
Increased student proficiency in the spoken variety of Levantine Arabic. Emphasis will be on functional interactive skills, such as speaking, listening comprehension and vocabulary building while enhancing students cultural competence. May be repeated up to three times for credit.
ARAB 331. Egyptian Arabic Dialect. 4 Units.
Increased student proficiency in the spoken variety of Egyptian Arabic. Emphasis will be on functional interactive skills, such as speaking, listening comprehension and vocabulary building while enhancing students' cultural competence. May be repeated up to three times for credit.

ARAB 332. North African Arabic Dialect. 4 Units.
Increased student proficiency in the spoken variety of North African Arabic. Emphasis will be on functional interactive skills, such as speaking, listening comprehension and vocabulary building while enhancing students' cultural competence. May be repeated up to three times for credit.

ARAB 333. Gulf Arabic Dialect. 4 Units.
Increased student proficiency in the spoken variety of Gulf Arabic. Emphasis will be on functional interactive skills, such as speaking, listening comprehension and vocabulary building while enhancing students' cultural competence. May be repeated up to three times for credit.

ARAB 370. Arabic Film and Culture. 4 Units.
Analysis and historical examination of Arabic cultures, literatures, and themes through Arabic-language films.

ARAB 380. Classical Arabic Literature in Translation. 4 Units.
Introduction to the literature of the pre-Islamic, early Islamic, Umayyad and Abbasid periods. Including the development of classical Arabic poetry and prose, its artistic characteristics and its most important genres while examining the historical, religious, political and sociological contexts.

ARAB 381. Cultures and Writings of Arab-American Women. 4 Units.
Examination of the history and lives of Arab American women through their own writings and essays.

ARAB 399A. Community Service Project. 1 Unit.
Credit for applying previously learned skills in the area of Arabic to academically related tasks in such agencies as governmental, social service, and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit. Prerequisite: consent of department.

ARAB 399B. Community Service Project. 2 Units.
Credit for applying previously learned skills in the area of Arabic to academically related tasks in such agencies as governmental, social service, and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit. Prerequisite: consent of department.

ARAB 401. Fourth Year Arabic I. 4 Units.
Prerequisites: ARAB 303 or consent of instructor
Extended study of Arabic language for students needing to build proficiency for professional setting and advanced thematic classes.

ARAB 402. Fourth Year Arabic II. 4 Units.
Prerequisites: ARAB 401 or consent of instructor
Extended study of Arabic language for students needing to build proficiency for professional setting and advanced thematic classes.

ARAB 403. Fourth Year Arabic III. 4 Units.
Prerequisites: ARAB 402 or consent of instructor
Extended study of Arabic language for students needing to build proficiency for professional setting and advanced thematic classes.

ARAB 404. Fourth Year Arabic IV. 4 Units.
Prerequisites: ARAB 403 or consent of instructor
Extended study of Arabic language for students needing to build proficiency for professional setting and advanced thematic classes.

ARAB 405. Fourth Year Arabic V. 4 Units.
Prerequisites: ARAB 404 or consent of instructor
Extended study of Arabic language for students needing to build proficiency for professional setting and advanced thematic classes.

ARAB 470A. Contemporary Issues in Arab Culture: Emerging Architecture. 4 Units.
Prerequisites: Consent of instructor
Study of prevalent socio-cultural, political, economic and intellectual issues in the Arab world. May be repeated for credit as topics change.

ARAB 470B. Contemporary Issues in Arab Culture: Arab-American Experience. 4 Units.
Prerequisites: Consent of instructor
Study of prevalent socio-cultural, political, economic and intellectual issues in the Arab world. May be repeated for credit as topics change.

ARAB 470C. Contemporary Issues in Arab Culture: Health Care Systems. 4 Units.
Prerequisites: Consent of instructor
Study of prevalent socio-cultural, political, economic and intellectual issues in the Arab world. May be repeated for credit as topics change.

ARAB 470D. Contemporary Issues in Arab Culture: Environmental Aspects. 4 Units.
Prerequisites: Consent of instructor
Study of prevalent socio-cultural, political, economic and intellectual issues in the Arab world. May be repeated for credit as topics change.

ARAB 470E. Contemporary Issues in Arab Culture: Emerging Economies. 4 Units.
Prerequisites: Consent of instructor
Study of prevalent socio-cultural, political, economic and intellectual issues in the Arab world. May be repeated for credit as topics change.

ARAB 471. Media in the Arab World. 4 Units.
Prerequisites: ARAB 301 or equivalent or consent of instructor
In-depth study and analysis of media in the Arab world. Survey of major press, radio, TV, satellite, internet, and alternative publishing outlets. Reading and discussion of freedom of expression and censorship.

ARAB 480. Special Topics in Classical Islamic Texts. 4 Units.
Prerequisites: ARAB 303 or ARAB 312 or consent of instructor
Study, readings and discussion of a wide variety of classical Islamic texts such as the Qur'an, Tafseer (exegesis), Fiqh (jurisprudence), historiography, and philosophy. May be repeated as topics change.
ARAB 481. Special Topics in Contemporary Arabic Literature. 4 Units.
Prerequisites: ARAB 303, 312 or consent of instructor
Special topics in contemporary Arabic literatures such as novels, poetry, essays and drama. May be repeated for credit as topics change.

ARAB 496. Senior Assessment. 2 Units.
Assessment of skills in reading, writing, listening, speaking and knowledge of culture based on defined performance standards. Students will be advised on how to improve skills and will complete online oral and written assessment as well as online portfolios. Course must be taken prior to enrolling in the last 12 units of the major and prior to the student's final quarter at CSUSB. Graded credit/no credit.

ARAB 575A. Internship. 1 Unit.
Prerequisites: ARAB 303 or equivalent or consent of instructor
Supervised work in a public or private organization. May be repeated for credit. No more than six units may be applied toward the degree. Thirty hours of work per unit of credit plus a paper. Graded credit/no credit.

ARAB 575B. Internship. 2 Units.
Prerequisites: ARAB 303 or equivalent or consent of instructor
Supervised work in a public or private organization. May be repeated for credit. No more than six units may be applied toward the degree. Thirty hours of work per unit of credit plus a paper. Graded credit/no credit.

ARAB 575C. Internship. 3 Units.
Prerequisites: ARAB 303 or equivalent or consent of instructor
Supervised work in a public or private organization. May be repeated for credit. No more than six units may be applied toward the degree. Thirty hours of work per unit of credit plus a paper. Graded credit/no credit.

ARAB 575D. Internship. 4 Units.
Prerequisites: ARAB 303 or equivalent or consent of instructor
Supervised work in a public or private organization. May be repeated for credit. No more than six units may be applied toward the degree. Thirty hours of work per unit of credit plus a paper. Graded credit/no credit.

Art (ART)

Courses

ART 112A. Special Topics in Art. 1 Unit.
Study of a selected topic, theme or movement in the visual arts. May be repeated for credit as topics change. Materials fee required.

ART 112B. Special Topics in Art. 2 Units.
Study of a selected topic, theme or movement in the visual arts. May be repeated for credit as topics change. Materials fee required.

ART 120. Introduction to Two Dimensional Design. 4 Units.
An introduction to and exploration of the basic principles, components and terminology of two dimensional design that are common to the visual arts. Included are two-dimensional theory, theories of color and light, and their creative use in visual art and design as a graphic means of expression and communication. Materials fee required. Formerly ART 212. Eight hours activity.

ART 121. Introduction to Three Dimensional Design. 4 Units.
An introduction to and exploration of the elements and principles of three dimensional design and their applications, with emphasis on form in space, design systems, and contemporary art concepts. Experimentation in both natural and synthetic materials such as paper, clay, metal, and wood. Materials fee required. Formerly ART 213 and 214. Eight hours activity.

ART 122. Introduction to Drawing and Life Drawing. 4 Units.
An introduction to techniques of drawing for the purpose of creative expression related to object placement in space, figure placement in space and rendering, as it applies to various fields of art and design. There is an emphasis on form, structure, values, proportions, line, gesture, and systems of perspective and space. Materials fee required. Formerly ART 215 and 216. Eight hours activity.

ART 123. Introduction to Art and Technology. 4 Units.
An introduction to computer based digital technology used by visual artists and designers. Student projects explore the creative potential of the digital environment and its relationship to the studio and design concentrations. Work includes instruction in a Macintosh-based computer laboratory in software programs used by studio artists. Materials fee required. Formerly ART 217 and 218. Eight hours activity.

ART 124. Introduction to Digital Media Design. 4 Units.
Introduction to computer-based digital media design exploring the creative potential of the digital environment, including the interactivity of two-dimensional and three-dimensional design. Eight hours activity. Materials fee required.

ART 125. Freshman Seminar: Art and Society I. 2 Units.
Prerequisites: declared B.A. in Art, Plan I or Plan II
Introduction to the theoretical and practical roles of art, artists, and their audiences, and Art Department resources for creative research. Required of all B.A. in Art, Plan I and Plan II freshmen and all transfer students. Two hours lecture. Graded credit/no credit. Materials fee required.

ART 200. Studies in Art. 4 Units. (GE=C1)
Exploration of the form and content of art. Emphasis on understanding and appreciating painting, sculpture, architecture and other art media. May not be counted toward fulfilling requirements in the Art major. Materials fee required.

ART 221. Art History: Prehistoric Times through the Middle Ages. 4 Units.
Development of early Western art and its historical context. Materials fee required.

ART 222. Art History: Africa, Asia, the Americas and Oceania. 4 Units.
Development of global arts and their historical contexts, including traditions of Africa, Asia, the Americas and Oceania. Materials fee required.
ART 223. Art History: Renaissance to the Present. 4 Units.
Development of later Western art and its historical context. Materials fee required.

ART 232. Introduction to Composition and UI/UX Design. 4 Units.
An introduction to design (and layout) for print, electronic publishing and evaluation of user interfaces to computers - called Human-Computer Interaction (HCI). This course approaches the design, use of typography and theory, of layout and interfaces. Course introduces students to the relevance of design in both static and interactive applications. Software instruction uses industry standard design software. Materials fee required. Eight hours activity.

ART 235. Beginning Painting. 5 Units.
Prerequisites: ART 120 and ART 122
Pictorial functions of formal elements of picture-making such as line, plane, color and light, pattern and edge. Two hours lecture and six hours laboratory. Materials fee required. Formerly ART 335.

ART 238. Intro to 2D Digital Image Creation. 4 Units.
Introduction to digital image processing and editing software. Retouching, color correction, restoring, balancing, filtering and applying special effects will be explored as well as, type effects, patterns, icons, textures, montages and composites. Emphasis will be given to understanding image formats, resolution, workflows, automated processing, and output for multiple applications. Images will be prepared for print and electronic use. Materials fee required. Eight hours activity.

ART 240. Beginning Sculpture. 5 Units.
Prerequisites: ART 121 or consent of instructor
Approaches to sculpture using a variety of materials, tools, processes and concepts. Materials fee required. Two hours lecture and six hours laboratory. Formerly ART 340.

ART 254. Beginning Ceramics. 5 Units.
Beginning techniques of coil, slab building, wheel throwing, and glaze applications of low and high fire surfaces. Two hours lecture and six hours laboratory. Materials fee required. Formerly ART 354.

ART 260. Beginning Printmaking. 5 Units.
Prerequisites: ART 120, ART 122, and ART 123 or consent of instructor
Introduction to the basic processes and materials of printmaking with a thorough exploration of monotypes, color reduction and relief techniques, including wood and linoleum cutting and other processes. Two hours lecture and six hours laboratory. Materials fee required. Formerly ART 360.

ART 268. Beginning Woodworking and Furniture Design. 5 Units.
Explorations in the use of hand and power tools in woodworking. Materials fee required. Formerly ART 368.

ART 270. Beginning Glass. 5 Units.
Prerequisites: ART 121 or consent of instructor
Basic creative glassworking techniques, including working with molten glass (glassblowing, solid sculpting,) coldworking (cutting, grinding, polishing, surface decoration) and kilncasting. Lectures, demonstrations, visiting artists, and field trips as needed. Two hours lecture and six hours laboratory. Materials fee required.

ART 290. Beginning Analog Photography. 5 Units.
Fundamentals of black and white photography including manual camera operation, black and white film developing and printing. Emphasis on composition, content and image-making for creative expression. Two hours lecture and six hours activity. Formerly ART 390. Materials fee required.

ART 291. Beginning Digital Photography. 5 Units.
Fundamentals of digital photography emphasizing theory, aesthetics, and technology for fine art and commercial applications. Instruction includes acquisition techniques (digital cameras and scanning equipment), image correction, cataloging, editing software, and printing. Two hours lecture and six hours activity. Materials fee required.

ART 301. Topics in Studio Art for Non-Majors. 2.5 Units.
Introduction to and experimentation in selected areas of art. Not open to art majors. May be repeated for credit as topics change. Materials fee required.

ART 302. Topics in Studio Art for Non-Majors. 5 Units.
Introduction to and experimentation in selected areas of art. Not open to art majors. May be repeated for credit as topics change. Materials fee required.

ART 304. Advanced Drawing and Life Drawing. 5 Units.
Prerequisites: ART 122 or consent of instructor
Further exploration in techniques of drawing for purposes of creative expression. May be repeated for a maximum of 25 units as content changes. Materials fee required.

ART 305. Gender and Identity in the Visual Arts. 4 Units.
Study of gender and identity as represented in art history and in modern visual culture. Covers conceptions and theories of feminine and masculine identification through visual representations, art and images that have contributed to gender constitution, social construction of gender, and issue of sexuality and race. Materials fee required.

ART 306. Greek and Roman Art. 4 Units.
Architecture, sculpture, painting and decorative arts of ancient Greece and Rome. Materials fee required.

ART 308. Intermediate Woodworking and Furniture Design. 5 Units.
Prerequisites: ART 268 or consent of instructor
Intermediate woodworking and furniture design using a variety of materials, tools, processes, and concepts. May be repeated for credit for a maximum of 10 units as content changes. Materials fee required. Two hours lecture and six hours laboratory.

ART 310. Asian Art. 4 Units.
History and development of selected Asian art traditions in their historical contexts. Materials fee required.
ART 311. Art of the United States to the End of the Nineteenth Century. 4 Units.
Development of American art from the Colonial period to c. 1900. Significant examples from the fields of architecture, sculpture, painting and the decorative arts. Materials fee required.

ART 313. Printing Production. 5 Units.
Foundation of printing production including procedures for operating a two-color offset press and related tools and equipment. Materials fee required.

ART 314. The Art of Indigenous Peoples. 4 Units.
Art of the native cultures of Africa, the South Pacific and North America; post-conquest and contemporary art in Central and South America. Materials fee required.

ART 316. Arts of the Ancient Near East and Egypt. 4 Units.
History and development of the architecture, sculpture and decorative arts of the Ancient Near East and Egypt. Materials fee required.

ART 320. Digital Image Editing. 5 Units.
Introduction to image processing and editing software. Retouching, restoring, color correction, adjusting brightness, contrast and color balance, applying patterns, filters and special effects, create montages, paint and use selection, layering, feathering, and painting tools, gain an understanding of the significance of image formats and resolution for scanning and output, and work with processed images in other software applications. Two hours lecture and six hours laboratory. Materials fee required.

ART 321. Renaissance Art. 4 Units.
Art and architecture of northern and southern Europe in the fifteenth and sixteenth centuries. Materials fee required.

ART 322. Web Design. 5 Units.
A hands-on course on the fundamentals of designing functional Web pages from the graphic designers perspective. Includes general structure and tagging, troubleshooting techniques, and the use of graphically oriented web authoring tools. No prior computer experience required. Two hours lecture and six hours laboratory. Materials fee required.

ART 323. Native North American Art. 4 Units.
Art of American Indian and Eskimo peoples north of Mexico, from earliest prehistory to modern times. (Also offered as ANTH 323. Students may not receive credit for both.) Materials fee required.

ART 324. Pre-Columbian Art. 4 Units.
Art and architecture of pre-Columbian cultures with an emphasis on Mexico and Peru. (Also offered as ANTH 324. Students may not receive credit for both.) Materials fee required.

ART 325. Advanced Digital Image Editing. 5 Units.
Prerequisites: ART 320 or consent of instructor
Advanced uses of image processing software. Multiple masking, controlling color transparency, layers, luminosity, complex image compositing, advanced illustration effects, 3D effects, photo-realistic painting, and montage. Two hours lecture and six hours laboratory. Materials fee required.

ART 326. Interactive Multimedia Design. 5 Units.
An introduction to designing computer-based interactivity. Students combine two-dimensional and three-dimensional graphic imaging and audio and video technology for achieving interactivity from multiple source media. Interface and user design are covered, as well as portfolio and professional presentations online, and/or in CD/DVD/video formats. Two hours lecture and six hours laboratory. Materials fee required.

ART 327. Baroque and Rococo Art. 4 Units.
Art and architecture of seventeenth and eighteenth century Europe. Materials fee required.

ART 328. Mexican Art. 4 Units.
Art and architecture of Mexico from the Conquest to the present. Materials fee required.

ART 329. Chicano Art. 4 Units.
Art and culture of Mexican Americans. Materials fee required.

ART 330. Animation and Web Motion- Graphics. 5 Units.
Prerequisites: ART 322 or consent of instructor
Advanced graphically oriented Web authoring tools. Covers scripting to create database connectivity and exploration of the newest Web innovations in game design and traditional character to contemporary experimental animation. This includes the use of cel, stop-motion, collage, mixed media and 2- and 3-D animation software. Two hours lecture and six hours laboratory. Materials fee required.

ART 333. History of Graphic Design. 4 Units.
Development of graphic communication from pictographs to contemporary design. Materials fee required.

ART 334. History of Animation. 4 Units.
Development of animation in its historical, cultural, political, and social contexts. Emphasis on understanding styles, techniques, theory, and criticism of animation as an art form.

ART 335. Intermediate Painting. 5 Units.
Prerequisites: ART 235 or consent of instructor
Intermediate research in painting introducing the medium's expressive and conceptual possibilities. Includes color theory, composition, and material techniques developed in relation to the medium's historical background and contemporary practices. Two hours lecture and six hours activity. May be repeated for a maximum of 10 units as content changes. Materials fee required.

ART 336. Advanced Painting. 5 Units.
Prerequisites: ten units of ART 335 or consent of instructor
Advanced work in painting. May be repeated for maximum of 25 units as content changes each term. Materials fee required. Two hours lecture and six hours activity.
ART 337. Interactive and Motion-Graphic. 5 Units.
Prerequisites: junior or senior standing in graphic design or consent of instructor
Introduces concepts, production, and aesthetics of motion graphic design.
Integrates components of typography, graphics, photography, video, and audio to create time-based, interactive content for digital, web, and mobile platforms. Explores linear and non-linear interactive forms as they relate to real-world graphic design projects. Training in selected current software. May be repeated for credit as course content changes. Two hours lecture and six hours lab. Materials fee required.

ART 338. Ancient Egyptian Art. 4 Units.
Examination of composition, artists, portraiture, color, technique and the principles of ancient Egyptian art, as seen through statuary, paintings, and wall carvings. Looks at the integration of art and writing. Includes studying objects at RAFFMA. Offered as HIST 338 and ART 338, students may not receive credit for both.

ART 340. Intermediate Sculpture. 5 Units.
Prerequisites: 10 units of ART 240
Intermediate sculpture using a variety of materials, tools, processes, and concepts. May be repeated for a maximum of ten units as content changes. Materials fee required. Two hours lecture and six hours laboratory.

ART 341. Advanced Sculpture. 5 Units.
Prerequisites: ten units of ART 240
Advanced work in sculpture. May be repeated for a maximum of 20 units as content changes. Materials fee required. Two hours lecture and six hours laboratory.

ART 342. Graphic Design I. 5 Units.
Prerequisites: ART 232 and ART 238 or consent of instructor
Fundamentals and principles of typographic design. An examination of the different elements of typography. Instruction also includes coursework in computer-graphics software programs in a Macintosh-based computer laboratory. Two hours lecture and six hours laboratory.

ART 343. Graphic Design II. 5 Units.
Prerequisites: ART 342 or consent of instructor
Principles of photography, illustration, collage and typography applied to posters, games, book covers, magazines, point-of-purchase displays, and promotional materials, and includes instruction in computer-graphics software programs in a Macintosh-based computer laboratory. Two hours lecture and six hours laboratory. Materials fee required.

ART 344. Graphic Design III. 5 Units.
Prerequisites: ART 343 or consent of instructor
Design principles as applied to regional and national, corporate and retail environments. Covers the interactions between business people and designers and the realities of planning, marketing, and strategic positioning of both company and product, and includes instruction in computer-graphics software programs in a Macintosh-based computer laboratory. Two hours lecture and six hours laboratory. Materials fee required.

ART 345. Gallery Management. 2 Units.
Fine art gallery practices including installation, packing and crating, special event coordination and conduct. Preparation of publications and publicity, art handling and security. May be repeated for credit with consent of instructor.

ART 350. Introduction to Digital Illustration. 5 Units.
Prerequisites: ART 123, 235 and 238 or consent of instructor
Introduction to two-dimensional digital illustration techniques in combination with traditional methods. Both vector and pixel-based imagery and current software are explored. Two hours lecture and six hours activity laboratory. Materials fee required.

ART 351. Advanced Digital Illustration. 5 Units.
Prerequisites: ART 350
Advanced digital illustration techniques in combination with traditional methods. Both vector and pixel-based imagery and current software are explored. Two hours lecture and six hours activity laboratory. Materials fee required.

ART 355. Intermediate Ceramics. 5 Units.
Prerequisites: ART 254 or consent of instructor
Intermediate exploration in functional and sculptural approaches to ceramics utilizing slip casting, wheel throwing, hand building techniques, and multiple glazing applications with low fire and high fire surfaces. Two hours lecture and six hours laboratory. May be repeated for a maximum of ten units as content changes each term. Materials fee required.

ART 357. Advanced Ceramics. 5 Units.
Prerequisites: ten units of ART 355 or consent of instructor
Advanced exploration of form/surface relationships combining mold making, wheel throwing, slip casting and hand building techniques. Advanced glaze applications will result in the development of individual styles and ideas. May be repeated for a maximum of 20 units as content changes. Two hours lecture and six hours laboratory. Materials fee required.

ART 359. History of Photography. 4 Units.
Development of the technology and aesthetics of photography. Materials fee required.

ART 361. Intermediate Printmaking. 5 Units.
Prerequisites: ART 120, ART 122 and ART 260
Creative research in intermediate studio printmaking techniques in intaglio methods, including metal, collograph and related materials; methods used to create stencils for multi-color registration and printing including photo processing; lithographic methods on stone or metal plates; black and white and color processes and polymer relief processes. Two hours lecture and six hours laboratory. May be repeated for a maximum of ten units as content changes. Materials fee required.

ART 362. Advanced Printmaking. 5 Units.
Prerequisites: ten units of ART 361 or consent of instructor
Intensive, advanced study of intaglio printmaking including the study of etching, collograph, silkscreen, lithography or experimental processes and combinations stressing individual growth and aesthetic control of imagery and technique. May be repeated for a maximum of 20 units as content changes. Two hours lecture and six hours laboratory. Materials fee required.

ART 365A. Directed Studio Problems. 1 Unit.
Prerequisites: consent of instructor
Study and experimentation in a selected area of art. May be repeated for credit. Materials fee may be required.
ART 365B. Directed Studio Problems. 2 Units.  
Prerequisites: consent of instructor  
Study and experimentation in a selected area of art. May be repeated for credit. Materials fee may be required.

ART 365C. Directed Studio Problems. 3 Units.  
Prerequisites: consent of instructor  
Study and experimentation in a selected area of art. May be repeated for credit. Materials fee may be required.

ART 365D. Directed Studio Problems. 4 Units.  
Prerequisites: consent of instructor  
Study and experimentation in a selected area of art. May be repeated for credit. Materials fee may be required.

ART 365E. Directed Studio Problems. 5 Units.  
Prerequisites: consent of instructor  
Study and experimentation in a selected area of art. May be repeated for credit. Materials fee may be required.

ART 366. Topics in Studio Art. 5 Units.  
Prerequisites: ART 120, 121, 122, and three lower-division studio art courses or consent of instructor  
Studio art covering a range of media, contemporary art practices and focusing on studio work on a selected topic. May be repeated as topics change for a maximum of 20 units. Materials fee required. Two hours lecture and six hours laboratory.

ART 369. Advanced Woodworking and Design. 5 Units.  
Prerequisites: ART 368  
Advanced work in woodworking and furniture design. May be repeated for a maximum of 20 units as content changes. Materials fee required. Two hours lecture and six hours laboratory.

ART 370. Intermediate Glass. 5 Units.  
Prerequisites: ART 270 or consent of instructor  
Intermediate instruction in glass with an emphasis on developing a personal artistic vision. Developing skills with materials with an articulation of artistic ideals/concerns. Demonstrations of more advanced and/or refined techniques in various glassworking areas will supplement visiting artist and slide lectures, field trips, and independent in-studio work time. May be repeated for a maximum of 10 units as content changes. Formerly ART 375. Two hours lecture and six hours laboratory. Materials fee required.

ART 371. Installation Art. 5 Units.  
Prerequisites: Art 121, 122, 123, 124, and successful completion of two lower division studio courses or consent of instructor  
Sculptural practice that incorporates or is characterized by its environment or site. Theoretical and conceptual issues, practical concerns and history of installation art. Art making, lectures, critiques, visiting artists, and field trips as needed. Materials fee required. May be repeated for a maximum of 20 units as content changes. Two hours lecture and six hours laboratory.

ART 382. Computer Animation: 3D Modeling. 5 Units.  
Prerequisites: ART 232 and ART 238 or consent of instructor  
Introduction to 3D computer modeling. Explores additive and reductive model development techniques. Emphasizes creation of multifaceted and articulated parts. Two hours lecture, six hours laboratory. Materials fee required.

ART 383. Computer Animation: Character Modeling. 5 Units.  
Prerequisites: ART 382 or consent of instructor  
Techniques of character modeling and animation including hierarchies, skeletons, forward and inverse kinematics, constraints, muscle, skin, facial animation, dialogue recording, lip-synching and mathematical expressions. Two hours lecture, six hours laboratory. Materials fee required.

ART 384. Digital Motion Imaging. 5 Units.  
Prerequisites: junior standing, or consent of instructor  
Digital motion imaging for graphic, electronic and web designers. Familiarizes students with process and tools of digital motion imaging for conceptual design projects. Successful course completion will result in Apple FinalCut Pro certification. Two hours lecture, six hours lab. Materials fee required.

ART 385. Sound Design for Multimedia. 5 Units.  
Prerequisites: ART 382 or consent of instructor  
Sound design combining theory and practice. Principles of sound design applied to individual multi-media and animation projects with emphasis on sound recording, editing, mixing and special effects. Two hours lecture, six hours lab. Materials fee required.

ART 386. Digital Photography. 5 Units.  
Prerequisites: ART 290 or consent of instructor  
Fundamentals of digital photography with emphasis on theory, aesthetics, and technology for fine art and commercial applications. Instruction includes acquisition techniques (digital cameras and scanning equipment), image correction and manipulation software, and output technologies. Two hours lecture and six hours laboratory. Materials fee required.

ART 387. Video Art. 5 Units.  
Prerequisites: ART 123 or consent of instructor  
Creative research and experimentation in video art including history, theory, production (camera, lighting, sound, and editing techniques), presentation (single channel, multi-channel, projection, and installation), and contemporary practices. May be repeated for a maximum of 20 units as content changes. Two hours lecture and six hours activity. Materials fee required.

ART 388. Digital Lighting. 5 Units.  
Prerequisites: ART 382 or consent of instructor  
Introduction of the mathematical models used in computer graphics to mimic the physical behavior of light in the generation of 3D imagery. Two hours lecture, six hours laboratory. Materials fee required.

ART 389. Intermediate Photography. 5 Units.  
Prerequisites: ART 290 and ART 291 or consent of instructor  
Advanced black and white printing techniques, non-silver and alternative processes, medium and large format photography, intermediate research in contemporary photography as an expressive medium. Two hours lecture and six hours activity. Materials fee required.
ART 395. Art in the Classroom. 3 Units.
Provides basic art skills and experiences and current art education theory and practice for the elementary classroom teacher. Students will learn how to design art lessons and art activities based on works of art in accordance with California and National standards for the visual arts. May not be counted towards fulfilling requirements in the art major. May not be taken for credit by students who have received credit for ART 400. Materials fee required. Six hours of fine arts activity. Materials fee required.

ART 396. New Genres. 5 Units.
Prerequisites: ART 121, ART 122, ART 123, ART 124, and successful completion of two lower division studio courses or consent of instructor Creative research and experimentation in contemporary artistic expression including installation art, performance art, and video art. Two hours lecture and six hours laboratory. Materials fee required. May be repeated for a maximum of 20 units as content changes.

ART 397. Art and Media for the Classroom. 4 Units.
Prerequisites: ART 395
Further development of basic art skills for the elementary classroom teacher. Includes appropriate materials for elementary students, preparing and distributing classroom visual aids, and curriculum planning based on the California Visual and Performing Arts Standards. Two hours lecture and four hours activity. Materials fee required.

ART 400. Teaching Art in the Elementary Classroom. 4 Units.
Prerequisites: ART 200 and a college-level studio art course Provides art skills, current art education theory and practice for the elementary classroom teacher with an elevated interest in visual art. Students will learn how to design art lessons and art activities based on works of art in accordance with California Visual Art Standards. May not be counted towards fulfilling requirements in the art major. May not be taken for credit by students who have received credit for ART 395. Two hours lecture and four hours of fine arts activity. Materials fee required.

ART 401. Advanced Art History. 4 Units.
Study in a selected period or topic in the history of art. May be repeated for credit as topics change. Materials fee required.

ART 410. Studies in Art History. 4 Units.
Prerequisites: senior standing in Department of Art or consent of instructor
The theoretical and practical roles of art, artists and their audience through history to the present.

ART 414. Senior Studio Critique. 4 Units.
Prerequisites: Art major Plan I or II, senior status and 10 units of advanced level studio coursework, or consent of instructor Interdisciplinary art critiques, art writing, readings and discussions relevant to contemporary ideas and issues in art. Materials fee required.

ART 415. Senior Seminar: Art and Society II. 2 Units.
Prerequisites: senior standing in Department of Art or consent of instructor
The theoretical and practical roles of art, artists and their audience through history to the present.

ART 416. Senior Project. 2 Units.
Prerequisites: senior standing in Department of Art or consent of instructor
Preparation of a senior project in the students area of concentration. Documentation of project is required. Graded credit/no credit Materials fee required.

ART 420. Art from 1900 to the Present. 4 Units.
Art from 1900 to the present, with emphasis on Europe and the United States. Materials fee required.

ART 422. Dynamic Web Site Design. 5 Units.
Prerequisites: to computer science students with junior or senior standing, graphic design students or students with consent of instructor
Advanced design for dynamic web sites. Explores use of Content Management systems and Database driven websites. Two hours lecture, six hours laboratory. Materials fee required.

ART 423. Nineteenth Century European Art. 4 Units.
Art of the Nineteenth-century Europe; from neo-Classicism through post-Impressionism. Materials fee required.

ART 440. History, Philosophy, and Theories of Visual Studies. 4 Units.
Prerequisites: junior in Art Dept. or consent of instructor
Students examine historical and contemporary approaches to teaching and learning art; analyze a diversity of perspectives; identify socio-cultural, economic, and political forces impacting equity and access to art; and examine the influence of community and individuality on art and learning.

ART 441. Public Art. 5 Units.
Prerequisites: ART 120, 121, 122 and 123 or consent of instructor
The study and practice of art for public places including the history, theory, conceptualization, production, and professional and business practices. May be repeated for a maximum of 20 units as content changes. Two hours lecture and six hours activity. Materials fee required.

ART 442. Graphic Design IV. 5 Units.
Prerequisites: ART 395 or consent of instructor
Advanced corporate identity, including logo and trademark design and related applications. Instruction includes coursework in computer-graphics software programs in a Macintosh-based computer laboratory. Two hours lecture and six hours laboratory. Materials fee required.

ART 443. Graphic Design V. 5 Units.
Prerequisites: ART 442 or consent of instructor
Design and portfolio workshop: workshop in resume preparation, development of job objectives, mock interviews, and the construction of a portfolio. Instruction includes coursework in computer-graphics software programs in a Macintosh-based computer laboratory. Two hours lecture and six hours laboratory. Materials fee required.

ART 460. Art and Human Development. 4 Units.
Prerequisites: ART 440. Materials fee required
Exploration of the relationship between art and human development. Student learn philosophical, psychological, and methodological perspectives on art and human development with emphasis on the impact of diversity in socio-cultural, communal, linguistic, and other areas on art and learning.
ART 471. Advanced Glass. 5 Units.
Prerequisites: ten units of ART 370 or consent of instructor
This course uses glass as an integral part of the artistic vision. Students observe demonstrations and work independently to develop a cohesive body of work. May be repeated for a maximum of 20 units as content changes. Two hours lecture and six hours laboratory. Materials fee required.

ART 483. Studies in Studio Art. 5 Units.
Prerequisites: ART 120, 121, 122, and 123 or consent of instructor
Study and experimentation in a selected area of art. May be repeated for credit as topics change. Materials fee required.

ART 484. Studies in Studio Art. 2.5 Units.
Prerequisites: ART 120, 121, 122, and 123 or consent of instructor
Study and experimentation in a selected area of art. May be repeated for credit as topics change. Materials fee required.

ART 492. Advanced Photography. 5 Units.
Prerequisites: ART 290, ART 291 and ART 391 or consent of instructor
Advanced work in photography. May be repeated for a maximum of 25 units as content changes. Two hours lecture and six hours activity. Materials fee required. Formerly ART 392.

ART 499. Art Education: Methods and Materials. 4 Units.
Prerequisites: ART 440, ART 460 and ART 540
A synthesis of contemporary art education theory, studio practice, student assessment and topics of classroom teaching. Students experience planning and developing lessons, units and curriculum that are sensitive to contemporary art and art education issues. Materials fee required.

ART 520. Contemporary Art, Theory and Criticism. 4 Units.
Prerequisites: a minimum of 12 units in art history
An examination of selected major movements of contemporary art, and recent art theory and criticism. Formerly ART 459 and ART 625. Materials fee required. (4 units.

ART 525. Seminar in Art History. 4 Units.
Prerequisites: a minimum of 12 units in art history
Historical perspectives on specific art disciplines including research methods in art history for studio artists. Materials fee required.

ART 530. Art Writing. 4 Units.
Prerequisites: completion of the upper division writing requirement and eight units of Art History courses or consent of instructor
Critical and creative approaches to writing about art. Includes study and practice in writing reviews, essays, and reflective responses and consideration of context, audience, voice, editing, and style in writing about art. Materials fee required. May be repeated for a maximum of 8 units.

ART 540. Art and Community. 5 Units.
Prerequisites: senior or graduate student in Art or consent of Instructor
A Service-Learning course where students learn to develop and teach art lessons and participate directly in teaching through a community university partnership. Materials fee required.

ART 575A. Internship. 1 Unit.
Prerequisites: consent of instructor
Supervised work in a private or public setting which provides professional experience in the field of art, design, or visual studies. May be repeated for a maximum of 10 units in the major. Materials fee required. Graded Credit/No Credit.

ART 575B. Internship. 2 Units.
Prerequisites: consent of instructor
Supervised work in a private or public setting which provides professional experience in the field of art, design, or visual studies. May be repeated for a maximum of 10 units in the major. Materials fee required. Graded Credit/No Credit.

ART 575C. Internship. 3 Units.
Prerequisites: consent of instructor
Supervised work in a private or public setting which provides professional experience in the field of art, design, or visual studies. May be repeated for a maximum of 10 units in the major. Materials fee required. Graded Credit/No Credit.

ART 575D. Internship. 4 Units.
Prerequisites: consent of instructor
Supervised work in a private or public setting which provides professional experience in the field of art, design, or visual studies. May be repeated for a maximum of 10 units in the major. Materials fee required. Graded Credit/No Credit.

ART 575E. Internship. 5 Units.
Prerequisites: consent of instructor
Supervised work in a private or public setting which provides professional experience in the field of art, design, or visual studies. May be repeated for a maximum of 10 units in the major. Materials fee required. Graded Credit/No Credit.

ART 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Studio and/or library research conducted under the direction of a faculty member. May be repeated for credit, a total of 10 units may apply toward graduation. Materials fee required.

ART 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Studio and/or library research conducted under the direction of a faculty member. May be repeated for credit, a total of 10 units may apply toward graduation. Materials fee required.

ART 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Studio and/or library research conducted under the direction of a faculty member. May be repeated for credit, a total of 10 units may apply toward graduation. Materials fee required.
ART 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Studio and/or library research conducted under the direction of a faculty member. May be repeated for credit, a total of 10 units may apply toward graduation. Materials fee required.

ART 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Studio and/or library research conducted under the direction of a faculty member. May be repeated for credit, a total of 10 units may apply toward graduation. Materials fee required.

ART 595F. Independent Study. 6 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Studio and/or library research conducted under the direction of a faculty member. May be repeated for credit, a total of 10 units may apply toward graduation. Materials fee required.

ART 596. Strategies for Curriculum and Instruction. 4 Units.
Prerequisites: admission to the Master of Arts in Art, Art Education Emphasis.
Current art education methodologies, research and theory applied to practice, assessment, and classroom management strategies. Design of curriculum units and lesson plans based on state and district standards. Materials fee required.

ART 603. Graduate Studio in Art. 2 Units.
Prerequisites: admission to the M.A. in Art program.

ART 604. Graduate Studio in Art. 5 Units.
Prerequisites: admission to the M.A. in Art or M.F.A. in Studio Art and Design.
Corequisites: For M.A. students concurrent enrollment in ART 615 and ART 620; For M.F.A students concurrent enrollment in ART 620. Investigation of advanced studio problems focusing on the development of individual directions. Materials fee required. Formerly ART 605. May be repeated for credit, corequisite not required after completion of 30 units.

ART 605A. Graduate Studio in Art. 5 Units.
Prerequisites: admission to the M.A. in Art program.
Corequisites: concurrent enrollment in ART 610 and 620. Investigation of advanced studio problems focusing on the development of individual directions. Materials fee may be required.

ART 615A. Graduate Seminar in Art. 1 Unit.
Prerequisites: admission to the M.A. in Art program.
Advanced study in contemporary art and theory with individual and group projects. May be repeated and a maximum of four units may be applied to the M.A. in Art, Studio Art. Materials fee required.

ART 615B. Graduate Seminar in Art. 2 Units.
Prerequisites: admission to the M.A. in Art program.
Advanced study in contemporary art and theory with individual and group projects. May be repeated and a maximum of four units may be applied to the M.A. in Art, Studio Art. Materials fee required.

ART 615C. Graduate Seminar in Art. 3 Units.
Prerequisites: admission to the M.A. in Art program.
Advanced study in contemporary art and theory with individual and group projects. May be repeated and a maximum of four units may be applied to the M.A. in Art, Studio Art. Materials fee required.

ART 615D. Graduate Seminar in Art. 4 Units.
Prerequisites: admission to the M.A. in Art program.
Advanced study in contemporary art and theory with individual and group projects. May be repeated and a maximum of four units may be applied to the M.A. in Art, Studio Art. Materials fee required.

ART 617. Graduate Seminar in Critical Theory and Methodology. 4 Units.
Prerequisites: admission to the M.F.A. in Studio Art or the MA in Art, Studio Art.
Theoretical, critical and methodological approaches with emphasis on contemporary visual arts. Research paper is required in this course. Materials fee required.

ART 618. Graduate Seminar in Contemporary Art Issues and Practices. 4 Units.
Prerequisites: admission to the M.A. in Art, Studio Art or M.F.A in Studio Art.
Current issues and practices and their relevance to contemporary artists. Materials fee required.

ART 620B. Graduate Studio Critique. 2 Units.
Prerequisites: admission to one of the Master's programs in Art.
Weekly critique and discussion of individual student work. May be repeated and a maximum of six units may be applied to the M.A. in Art, Studio Art or four units to the M.A. in Art, Art Education (course units: 2). For the M.F.A in Studio Art and Design, ART 620 must be taken concurrently with ART 604 for 24 units (course units 4) and then may be taken for up to 12 more units for a total of no more than 36 units. Materials fee required. Graded credit/no credit.

ART 620D. Graduate Studio Critique. 4 Units.
Prerequisites: admission to one of the Master's programs in Art.
Weekly critique and discussion of individual student work. May be repeated and a maximum of six units may be applied to the M.A. in Art, Studio Art or four units to the M.A. in Art, Art Education. For the M.F.A. in Studio Art and Design, ART 620 must be taken concurrently with ART 604 for 24 units (course units 4) and then may be taken for up to 12 more units for a total of no more than 36 units. Materials fee required. Graded credit/no credit.

ART 630. Professional Practices in the Visual Arts. 4 Units.
Prerequisites: admission to the M.A. in Art, Studio Art or the M.F.A. in Studio Art.
The various roles of the artist in our society, portfolio development and selection of art markets, legal and financial issues in the production and protection of art, and postgraduate professional development. Writing an extended artist's statement that fulfills the graduate writing requirement. Materials fee required.
ART 630D. Graduate Seminar in Professional Practices. 4 Units.
Prerequisites: admission to the M.F.A. in Studio Art and Design
The various roles of the artist in our society, portfolio development and selection of art markets, legal and financial issues in the production and protection of art, and postgraduate professional development. Materials fee required.

ART 641. Art Education: Survey of Research and Methodologies. 4 Units.
Prerequisites: admission to the M.A. in Art, Art Education program
Survey and examination of existing research in the field of Art Education. Various approaches to qualitative and quantitative research methodologies used in art education and of the history of the field.

ART 643. Art Education: Research Statement and Literature Review. 2 Units.
Prerequisites: ART 641
Development of a research statement and literature review of student's chosen topic. Emphasis on in-class, guided, peer critique, and independent research.

ART 670. Practicum for Teaching Assistants in Art. 2 Units.
Prerequisites: must be a second year classified MFA in Studio Art and Design student
For graduate students interested in gaining teaching experience in art. Designed to facilitate the development of syllabi, teaching methodologies and assessment outcomes. May be repeated for credit, but only 4 units count towards the degree.

ART 695D. Masters Project in Studio Art. 4 Units.
Prerequisites: successful completion of advancement review conducted by the Department of Art graduate committee and graduate coordinator
Preparation and exhibition of works produced by student in the M.A. in Art, Studio Art or the M.F.A. in Studio Art and Design. A report and documentation of the project required. Open only to students who have been advanced to candidacy. Materials fee required.

ART 695E. Masters Project in Studio Art. 5 Units.
Prerequisites: successful completion of advancement review conducted by the Department of Art graduate committee and graduate coordinator
Preparation and exhibition of works produced by student in the M.A. in Art, Studio Art or the M.F.A. in Studio Art. A report and documentation of the project required. Open only to students who have been advanced to candidacy. Materials fee required.

ART 696. Art Education: Master's Project in Art Education. 4 Units.
Prerequisites: admission to the M.A. in Art, Art Education, successful completion of advancement review conducted by the Department of Art graduate committee, graduate coordinator, and art education advisor
Preparation for and participation in a group exhibition of artwork produced in the student's area of studio emphasis, and preparation and presentation of research in art education. A report and documentation of the artwork, and a completed research paper required. Open only to students who have been advanced to candidacy.

ART 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
ART 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Asian Studies (ASIA)

Courses

ASIA 392. Topics in Asian Studies. 4 Units.
Study of selected topics or areas of interest in Asian studies. May be repeated for credit as topics change.

ASIA 575A. Internship in Asian Studies. 1 Unit.
Prerequisites: written consent form a supervising agency within which the internship will take place and consent of the Asian Studies Program Committee coordinator
Supervised internship in Asian Studies.

ASIA 575B. Internship in Asian Studies. 2 Units.
Prerequisites: written consent form a supervising agency within which the internship will take place and consent of the Asian Studies Program Committee coordinator
Supervised internship in Asian Studies.

ASIA 575C. Internship in Asian Studies. 3 Units.
Prerequisites: written consent form a supervising agency within which the internship will take place and consent of the Asian Studies Program Committee coordinator
Supervised internship in Asian Studies.

ASIA 575D. Internship in Asian Studies. 4 Units.
Prerequisites: written consent form a supervising agency within which the internship will take place and consent of the Asian Studies Program Committee coordinator
Supervised internship in Asian Studies.

ASIA 595A. Independent Study in Asian Studies. 1 Unit.
Prerequisites: consent of instructor and approval by the Asian Studies Program coordinator
Independent study in special topics in Asian studies.
ASIA 595B. Independent Study in Asian Studies. 2 Units.
Prerequisites: consent of instructor and approval by the Asian Studies Program coordinator
Independent study in special topics in Asian studies.

ASIA 595C. Independent Study in Asian Studies. 3 Units.
Prerequisites: consent of instructor and approval by the Asian Studies Program coordinator
Independent study in special topics in Asian studies.

ASIA 595D. Independent Study in Asian Studies. 4 Units.
Prerequisites: consent of instructor and approval by the Asian Studies Program coordinator
Independent study in special topics in Asian studies.

Astronomy (ASTR)

Courses

ASTR 103. Descriptive Astronomy. 5 Units.
(GE=B3)
A brief history of the development of astronomy followed by modern descriptions of our planetary system, stars, galaxies, models of the universe and the possibilities of life in the universe. Discussions of methods of extending knowledge of the universe. No previous background in natural sciences is required. Four hours lecture and three hours laboratory. Materials fee required. Formerly PHYS 103.

ASTR 311. A Cosmic Perspective of Earth. 5 Units.
Prerequisites: CHEM 100 and PHYS 100
Formation and evolution of the Earth, including its atmospheres, oceans and internal structure, placed in the context of our solar system. A comparative planetology course focusing on Earth and providing students with an understanding of where Earth fits into our solar system by introducing other solar system objects: planets, asteroids, comets, and moons alike. Fulfills the Earth and Space Science requirement for liberal studies. Four hours lecture and three hours laboratory. Materials fee required. May not count for credit towards the major or minor in Physics. Formerly PHYS 311.

Biology (BIOL)

Courses

BIOL 100. Topics in Biology. 5 Units.
(GE=B2)
Provides a broad understanding of biology, our molecular-organismic-ecological heritage and humankind’s place within the biosphere. Four hours lecture and three hours laboratory. Materials fee required.

BIOL 200. Biology of the Cell. 5 Units.
Provides basic understanding of the process of life and the universality of life processes at the molecular and cellular level. Four hours lecture and three hours laboratory. A strong background equivalent to one year each of high school biology and chemistry is highly recommended. Materials fee required.

BIOL 201. Biology of Organisms. 5 Units.
Prerequisites: BIOL 200 with a grade of C or better
Provides basic understanding of the functional attributes of organisms and their diversity. Includes examination of their comparative and evolutionary relationships. Four hours lecture and three hours laboratory. Materials fee required.

BIOL 202. Biology of Populations. 5 Units.
Prerequisites: BIOL 201 with a grade of C or better
(GE=B2)
Provides a basic understanding of the principles of genetics, evolution and ecology of organisms, populations, and communities. Four hours lecture and three hours laboratory. Materials fee required.

BIOL 216. Genetics and Society. 2 Units.
(GE=B4)
Technological advances in human genetics and their impact on society. Biological and ethical perspectives of the application of genetic research. Two hours lecture.

BIOL 217. Biology of Sexually Transmitted Diseases. 2 Units.
(GE=B4)
The pathogenesis, biology of the agent, treatment and diagnosis of the prominent sexually transmitted diseases. Impact of current biotechnology in relation to vaccine development, experimental treatments, and improved diagnostics and screening. Two hours lecture.

BIOL 218. Disease. 1 Unit.
Prerequisites: one lower-division biology course
Prerequisite: BIOL 217
The disease process, its causes, and prevention. Three hours lecture.

BIOL 220. Principles of Microbiology. 5 Units.
Prerequisites: one lower-division biology course
Morphology, physiology and classification of bacteria, fungi and viruses. Microbiology of air, soil and dairy products; rudiments of infection and immunity. Laboratory training in culture preparation, sterilization, inoculation and identification. Four hours lecture and three hours laboratory Materials fee required. Students enrolling in this course for a third time may do so only with the consent of instructor. (BIOL 100 strongly recommended).

BIOL 223. Human Physiology and Anatomy I. 5 Units.
Prerequisites: BIOL 100 and currently a major in B.S. in Nursing or B.S. in Health Science or B.S. in Nutrition and Food Science or B.S. in Kinesiology or Minor in Kinesiology in consent of instructor
Comprehensive study of human form and function including living chemistry, cells, tissues, skeletal, muscular and nervous systems. Four hours lecture and three hours laboratory. Materials fee required. Students enrolling in this course for a third time may do so only with the consent of instructor.

BIOL 224. Human Physiology and Anatomy II. 5 Units.
Prerequisites: BIOL 223 and currently a major in B.S. in Nursing or B.S. in Health Science or B.S. in Nutrition and Food Science or B.S. in Kinesiology or Minor in Kinesiology in consent of instructor
Continuation of BIOL 223 with coverage of special senses, digestive, respiratory, cardiovascular, urinary, endocrine and reproductive systems. Four hours lecture and three hours laboratory. Materials fee required. Students enrolling in this course for a third time may do so only with the consent of instructor.
Biol 251. Readings in Ecosystem Biology. 1 Unit.
Prerequisite/Corequisite: BIOL 349. Must be completed within two quarters of having completed BIOL 349
Selected assigned readings in ecosystem biology. For students formally enrolled in the University Honors Program and in BIOL 349. One hour of discussion.

Biol 295A. Special Studies in Biology. 1 Unit.
Prerequisites: consent of instructor
Investigation, research, or study of a selected topic, the topic title to be specified in advance. May repeat for credit as topics change.

Biol 295B. Special Studies in Biology. 2 Units.
Prerequisites: consent of instructor
Investigation, research, or study of a selected topic, the topic title to be specified in advance. May repeat for credit as topics change.

Biol 300. Cell Physiology. 5 Units.
Prerequisites: BIOL 200, BIOL 201 and BIOL 202 with grades of C or better; CHEM 215 and CHEM 216
Study of cell properties, organization and activities; consideration of structure-function relationships of cellular membranes, the cell surface and cytoskeletal elements; metabolism of cell growth, maturation, specialized function and reproduction. Four hours lecture and three hours laboratory. Materials fee required.

Biol 301. Biology in the Classroom. 4 Units.
A comprehensive survey of the design and function of living organisms, from the cellular through the ecosystem levels as these relate to instruction in the elementary and middle school classroom. Unifying concepts such as evolution, energetics and the chemical nature of life will be stressed throughout. Three hours lecture and three hours laboratory. Materials fee required. This course does not satisfy any requirements for the B.A. or B.S. major in Biology.

Biol 304. Biology of Cancer. 4 Units.
Prerequisites: BIOL 100
A comprehensive survey of the biological principles underlying the causes and treatment of cancer. Topics include the genetics of cancer, factors affecting tumor growth, host defense against cancer cells, and modern therapeutic protocols. Four hours lecture. This course does not satisfy requirements for the B.A. and B.S. majors in biology.

Biol 305. Biology of the Dinosauria. 4 Units.
Prerequisites: one lower-division biology course
A survey of major groups of dinosaurs, their interrelationships, and biology. Examples from dinosaurs and their close relatives are used to highlight and explain important issues and topics in biology such as anatomy, evolution, biogeography, climate change, ecology, the use of the scientific literature, and popular interpretations of science. This course does not satisfy any requirements for the B.A. or B.S. in Biology. Four hours lecture.

Biol 306. Human Heredity and Development. 4 Units.
Prerequisites: one lower-division biology course
Introductory course in human development. Emphasis on the principles of heredity as they apply to normal human developmental sequences from fertilization to adolescence. Birth defects relating to heredity, and drug or other environmental factors will illustrate how developmental sequences can be modified before birth. This course does not satisfy any requirements for the B.A. or B.S. in Biology.

Biol 314. Biology of Human Sexuality. 4 Units.
Prerequisites: one lower-division biology course
Biological aspects of human anatomy, physiology and behavior as related to sexual reproduction including discussion of fertility, pregnancy, childbirth and birth control; consideration also given to homosexuality, sexually transmitted diseases, sexual intercourse and response. Four hours lecture. This course does not satisfy any requirements for the B.A. or B.S. in Biology.

Biol 319. Local Flora. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better or consent of instructor
Identification of the flora and ecological communities of southern California with a consideration of taxonomic principles. Field collections, four hours lecture and three hours laboratory. Materials fee required.

Biol 320. Microorganisms. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better
Study of microbial organisms: their cell structure and function, metabolism, genetics and ecology with an introduction to bacterial, viral, fungal, and protozoan pathogens. Four hours lecture and six hours laboratory. Materials fee required.

Biol 321. Evolution. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better
Darwin, views of evolution and their implications in various disciplines. Four hours lecture.

Biol 323. Human Anatomy for Biology Majors. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better
Comprehensive study of the human form in the broader context of vertebrate animals. Topics include the anatomy of early development and the following systems: integumentary, skeletal, muscular, nervous, digestive, respiratory, cardiovascular, excretory, reproductive, endocrine and special senses. Four hours lecture and six hours laboratory. Materials fee required.

Biol 324. Human Physiology for Biology Majors. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better
Comprehensive study of the human function in the broader context of vertebrate animals. Topics include the physiology of the following systems: integumentary, skeletal, muscular, nervous, digestive, respiratory, cardiovascular, excretory, reproductive, and endocrine and special senses. Four hours lecture and three hours laboratory. Materials fee required.
BIOL 331. Biology of Invertebrates. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better
The evolution, ecology, physiology and anatomy of invertebrate phyla with emphasis on phylogenetic changes. Four hours lecture and three hours laboratory. Materials fee required.

BIOL 335. Entomology. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better
A study of the evolution, anatomy, classification and habits of insects and related arthropods. Field collections, four hours lecture and three hours laboratory. Materials fee required.

BIOL 340. Comparative Embryology. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better. BIOL 342 strongly recommended
Descriptive survey of developmental patterns of tissue and organ formation to include studies of insects, echinoderms, and amphibian, avian, reptilian, marsupial plus placental mammalian vertebrate embryology. Three hours lecture and three hours laboratory. Materials fee required.

BIOL 342. Biology of Chordates. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better
Structural, developmental and ecological changes in the evolution of the chordate groups with an emphasis on comparative vertebrate anatomy. Four hours lecture and six hours laboratory. Materials fee required.

BIOL 343. Mammalogy. 6 Units.
Prerequisites: BIOL 300 with grade "C" or better
Introduction to the biology of extant mammals (including humans) and their extince synapsid ancestors. Discussion of anatomy, physiology, behavior and ecology in and evolutionary context. Laboratory exercises focused on identification, collection and preparation of specimens, coupled with field observations of diverse local fauna and study of museum specimens. Four hours lecture and six hours laboratory. Materials fee required.

BIOL 344. Herpetology. 6 Units.
Prerequisites: BIOL 300 with grad of "C" or better
Introduction to the biology of extant amphibians (frogs, salamanders and caecilians) and reptiles (turtles, crocodilians, lizards and snakes). Discussion of anatomy, Physiology, behavior and ecology in the context of tetrapod evolution. Laboratory exercises focused on identification, collection and preparation of specimens, coupled with field observations of diverse local fauna and study of museum specimens. Fours hours lecture and six hour laboratory. Materials fee required.

BIOL 345. Ornithology. 6 Units.
Prerequisites: BIOL 300 with grade "C" or better
Introduction to the biology of birds. Course includes study of the functional morphology, ecology and behavior, and the evolutionary relationships among extant taxa. Laboratory exercises will focus on identification, and museum studies, coupled with field observations of avian species diversity and associated habitats with an emphasis on resident and migratory species of southern California. Fours hours lecture and six hours laboratory. Materials fee required.

BIOL 349. Biology of Ecosystems. 5 Units.
Prerequisites: one lower division course in biology
Survey of the heredity and environmental factors that influence the survival and reproduction of the organisms that compose the dynamic ecosystems of planet Earth with a consideration of evolution and extinction. Four hours lecture and three hours laboratory. Materials fee required. This course does not satisfy requirements for the B.A. or B.S. in Biology. Formerly BIOL 250.

BIOL 354. Biology of Higher Plants. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better
Comparative morphology of ferns, fern allies and seed plants, with a consideration of their phylogenetic relationships. Four hours lecture and six hours laboratory. Materials fee required.

BIOL 371. Parasitology. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better
Study of the nature and principles of parasitism with a survey of various groups of animal parasites. Four hours lecture and three hours laboratory. Materials fee required.

BIOL 380. Medical and Economic Botany. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better
Survey of medically and economically important plant species and families. Includes plants harmful and beneficial to humans, with emphasis on vascular species. Four hours lecture.

BIOL 390. Biology Seminar. 1 Unit.
Prerequisites: BIOL 300 with a grade of C or better
Topics of current biological interest, presented by students, faculty, and guest speakers. May be taken once for credit toward the major. May be taken three times for credit toward elective units in the Master of Science in Biology. Lecture only. Formerly BIOL 390. Graded credit/no credit.

BIOL 391. Seminar in Biology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better
Topics of current biological interest, presented by students, faculty, and guest speakers. May be taken once for credit toward the major. May be taken three times for credit toward elective units in the Master of Science in Biology. Lecture only. Formerly BIOL 391. Graded credit/no credit.

BIOL 396A. Directed Study. 1 Unit.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application form filed in advance of the quarter in which the course is to be taken
Reading and library research in an area of biology conducted under the direction of a faculty member in the Department of Biology. No more than two units may be applied toward a biology elective for graduation. Graded credit/no credit.

BIOL 396B. Directed Study. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application form filed in advance of the quarter in which the course is to be taken
Reading and library research in an area of biology conducted under the direction of a faculty member in the Department of Biology. No more than two units may be applied toward a biology elective for graduation. Graded credit/no credit.
BIOL 400. Molecular Biology. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better and CHEM 223 or CHEM 323
A basic course in molecular biology with emphasis on informational macromolecules and how they direct molecular processes in both eukaryotic and prokaryotic cells. Four hours lecture and six hours laboratory. Materials fee required.

BIOL 413. Biology of Stem Cells. 3 Units.
Prerequisites: BIOL 300 with a grade of C or better
Examination of fundamental concepts and themes in stem cell-based regenerative medicine: pluripotency and reprogramming, cell types, organ systems, stem cells and therapeutics an ethics. Experimental approaches and emerging areas in stem cell research addressed in seminars from visiting scholars/scientists and with readings from the primary literature. Three hours lecture.

BIOL 420. Medical Microbiology. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better, and BIOL 320 or consent of instructor
An overview of topics and lab techniques in medical microbiology, emphasizing the biology of medically relevant bacteria, viruses, fungi and protozoa. The course will focus on the host-pathogen interaction, including the actions of the pathogenic microorganism and the immune response, as well as the overall host microbiome as an ecosystem perturbed by infection. Four hours of lecture and six hours laboratory. Materials fee required.

BIOL 423. Genetics. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better
Principles of classical and modern genetics including an introduction to population genetics. Four hours lecture and three hours laboratory. Materials fee required. Formerly BIOL 421 and BIOL 422.

BIOL 424. Comparative Animal Physiology. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better
A comparative analysis of the physiological mechanisms and processes of animals with emphasis on trends of evolutionary specialization. Four hours lecture and six hours laboratory. Materials fee required.

BIOL 427. Functional Microbial Genomics. 4 Units.
Training in microbiology and molecular biology laboratory skills, biotechnology research, and the broader concepts of genomics and genome database bioinformatics/cyber infrastructure applications. Mastering the process of science, experimental design, critical thinking, and real-life research problem solving will be stressed. Materials fee required. Prerequisites: BIOL 300 with grade "C" or better and BIOL 400.

BIOL 431. Comparative Plant Physiology. 6 Units.
Prerequisites: BIOL 300 with a grade of C or better, and CHEM 223 or CHEM 323
Analysis of physiological activity at the various levels of cells, tissues, organs and organisms. Four hours lecture and six hours laboratory. Materials fee required.

BIOL 440. Principles of Development. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better, and CHEM 223 or 323
Comparative analysis of patterns and processes of development of organisms, with emphasis on the role of genetic and biochemical mechanisms. Four hours lecture and three hours laboratory. Materials fee required.

BIOL 450. Ecology. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better; and MATH 120, MATH 192 or MATH 211; or consent of instructor
Analysis of the interrelationships of organisms and their physical and biotic environment with a consideration of the role of the environment in natural selection. Four hours lecture and three hours laboratory/field studies. Materials fee required.

BIOL 455. Marine Biology and Ecology. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better or consent of instructor
Examination of various marine ecosystems with an analysis of the interactions between organisms and their physical and biotic environments. Laboratory emphasizes southern Californian coastal communities. Four hours lecture and three hours laboratory/field studies. Materials fee required.

BIOL 490A. Special Topics. 1 Unit.
Prerequisites: BIOL 300 with a grade of C or better and consent of instructor
Group study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change.

BIOL 490B. Special Topics. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better and consent of instructor
Group study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change.

BIOL 490C. Special Topics. 3 Units.
Prerequisites: BIOL 300 with a grade of C or better or consent of instructor
Group study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change.

BIOL 490D. Special Topics. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better and consent of instructor
Group study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change.

BIOL 491A. Special Laboratory Topics. 1 Unit.
Prerequisites: BIOL 300 with a grade of C or better and 15 units of upper-division biology course work
Group laboratory study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change. Materials fee required.
BIOL 491B. Special Laboratory Topics. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better and 15 units of upper-division biology course work
Group laboratory study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change. Materials fee required.

BIOL 491C. Special Laboratory Topics. 3 Units.
Prerequisites: BIOL 300 with a grade of C or better and 15 units of upper-division biology course work
Group laboratory study of a selected topic, the title to be specified in advance. May be repeated for credit as topics change. Materials fee required.

BIOL 502. Genetic Engineering. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better, BIOL 400, and CHEM 223 or CHEM 323
Basic course on recombinant DNA technology, concentrating on major DNA manipulation methods, use of vectors, genetic probes, construction of libraries, transgenic animals, plant genetic engineering and ethical and safety considerations. Four hours lecture. Formerly BIOL 402.

BIOL 503. Plant Biology for Teachers. 4 Units.
Prerequisites: one college-level biology course and graduate or postbaccalaureate standing, or consent of instructor
Examination of plant anatomy, morphology, physiology, ecology, and human use, as it applies to the Science Content Standards for California Public Schools. Not acceptable for meeting formal course requirements for the B.A., B.S., or M.S. in biology at CSUSB. Three hours lecture and three hours laboratory. Materials fee required.

BIOL 505. Biostatistics. 5 Units.
Prerequisites: BIOL 300 with a grade of "C" or better, MATH 192 or 211, and consent of instructor
Provides an understanding of the design of biological experiments and analysis of data. Topics will include experimental design and sampling protocols, techniques for displaying and describing data, probability, and hypothesis testing. Surveys statistical approaches to the analysis of proportions and frequencies, comparisons of means among numerical variables, regression, and correlation, as well as non-parametric approaches. (Formerly a topic under BIOL 490). Four hours lecture and three hours laboratory.

BIOL 513. Animal Tissue Culture. 3 Units.
Prerequisites: BIOL 300 with a grade of C or better
Introductory theory and concepts of animal tissue culture including fundamentals of tissue culture techniques, sub-culturing and maintenance of cell lines. Strong emphasis on stem cell technology. Two hours lecture and three hours laboratory. Materials fee required.

BIOL 514. Conservation Biology. 4 Units.
Prerequisites: BIOL 300 with a grade of "C" or better, and BIOL 321 or 450
Examination of factors influencing the loss of biological diversity including habitat loss and fragmentation, loss of genetic variation, and species extinction. The science of biological conservation necessarily overlaps with other disciplines including wildlife and resource management, law, economics, and ethics.

BIOL 515. Global Change Biology. 4 Units.
Prerequisites: BIOL 300 with a grade of "C" or better, and an upper-division lab course in ecology (BIOL 349, BIOL 450, or BIOL 455) or consent of instructor
An examination of changing ecological and biogeochemical system interactions at selected times in the earth's history including, but not limited to, the modern era. Class exploration of causes and consequences of contemporary global change for biological systems including displaced populations, disrupted ecological interactions, and altered epidemiological patterns.

BIOL 516. Introduction to Regulatory Affairs in the Life Sciences. 3 Units.
Prerequisites: BIOL 300 with a grade of "C" or better and consent of the instructor
Introduces the pharmaceutical, biotechnology and biologics industries and the laws and regulations of these products. Discussion of company organization, product development, and commercialization-associated activities. Three hours lecture.

BIOL 517. Laboratory in Human Embryonic Stem Cell Culture. 3 Units.
Prerequisites: BIOL 300 with a grade of "C" or better and consent of instructor
Advanced laboratory training in plating and passaging of human embryonic stem cells and human induced pluripotent stem cells. Mastery of a variety of cell culture techniques including isolation and culturing techniques including isolation and culturing of mouse embryonic fibroblasts, PCR and flow cytometry and immunohistochemistry on human embryonic stem cells and embryoid bodies. One hour of lecture 6 hours of lab. Materials fee required.

BIOL 522. Population Genetics. 4 Units.
Prerequisites: BIOL 423 and MATH 192 or 211
Genetic and ecological mechanisms influencing the development, maintenance and evolution of populations. Four hours lecture.

BIOL 524. Advanced Vertebrate Morphology. 3 Units.
Prerequisites: BIOL 342, BIOL 424 and consent of instructor
Advanced techniques in the study of vertebrates, including dissection and specimen preparation. Construction of animal skeletal materials, and detailed study and dissection of vertebrate organ systems will provide the basis for projects designed on an individual student basis. Two hours lecture and three hours laboratory. Materials fee required.

BIOL 525. Vertebrate Field Biology. 5 Units.
Prerequisites: BIOL 300 with a grade of C or better, BIOL 450, and consent of instructor. Three hours lecture and six hours laboratory
Field study of the ecology and natural history of the vertebrate fauna of southern California.

BIOL 528. Concepts of Molecular Genetics. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better, BIOL 400, 423, and CHEM 223 or 323
Chemical nature of genes, their replication and mode of action at the molecular level. Transfer and expression of genetic information; interaction and hybridization of genes, molecular mutagens and molecular evolution. Four hours lecture. Formerly BIOL 428.
BIOL 530. Microscopy. 5 Units.
Prerequisites: senior standing and consent of instructor
Theory and techniques of modern microscopy. Lectures on theory of
optics and imaging for several types of microscopes (Light microscope,
fluorescence microscope, confocal microscope, scanning probe
microscope, and electron microscope). Laboratory includes hands-on
training in the technical aspects of specimen preparation and microscope
use. Three hours lecture and six hours laboratory. Materials fee required.
(Also offered as BIOL 530. Students may not receive credit for both.).

BIOL 555. Comparative Biomechanics. 5
Units.
Prerequisites: BIOL 300 with grade of C or better, PHYS 121, PHYS 122,
or consent of instructor
Examination and quantitative analysis of structure and function of
animals and plants using physical principles. Application of fluid and solid
mechanics to understanding the design and behavior of biologic materials.
Four hours lecture and three hours laboratory. Materials fee required.

BIOL 565. Physiological Ecology. 6 Units.
Prerequisites: BIOL 354 and 424; or 431 and 331 or 342; and 450
Physiological, biochemical and molecular attributes of organisms and their
interactions with the environment. Explanations for distribution, survival
and reproduction. Four hours lecture and six hours laboratory. Materials
fee required.

BIOL 572. Virology. 4 Units.
Prerequisites: BIOL 400 with a grade of “C” or better
Examination of the structure, genetics and modes of replication of
viruses, viroids and other related sub-cellular entities; their implications in
medicine and agriculture, and their use in scientific research. Four hours
lecture.

BIOL 573. Immunology. 5 Units.
Prerequisites: BIOL 400 with a grade of “C” or better
Foundations of immunology and current advances in the study of the
immunological response. Laboratory examination of immunological
assays applied in both research and clinical diagnostics. Four hours
lecture and three hours laboratory. Materials fee required.

BIOL 575A. Internship in Biology: General. 2
Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 575B. Internship in Biology: Pre-Health.
2 Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 575C. Internship in Biology;
Biotechnology. 2 Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 575D. Internship in Biology: Wildlife
Biology. 2 Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 575E. Internship in Biology: Botany. 2
Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 575F. Internship in Biology: Science
Education. 2 Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 575G. Internship in Biology: Museum
Science. 2 Units.
Prerequisites: department approval in the quarter prior to registration
Supervised work and study in work situations involving biological research
and technical skills. May be repeated for a total of six units. Only two units
may be applied towards the biology major requirements. Graded credit/no
credit.

BIOL 576. Endocrinology. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better
Endocrine systems with emphasis on mechanisms for regulating the
biosynthesis, secretion, transport and actions of hormones. Four hours
lecture. Formerly BIOL 486.

BIOL 580. Neurobiology. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better
Study on a cellular level of how neurons function in terms of
structure, physiology and pharmacology. Mechanisms of inter-cellular
communication, perception of sensory information, and development
and aging of the nervous system will be examined. Four hours lecture.
Formerly BIOL 480.

BIOL 590A. Senior Seminar: Molecular. 2
Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15
upper-division units in biology courses supportive of the topic area and
senior standing
Survey of current literature, methods and ethics of scientific inquiry. May
be repeated once as topics change.

BIOL 590B. Senior Seminar: Biosystematics.
2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15
upper-division units in biology courses supportive of the topic area and
senior standing
Survey of current literature, methods and ethics of scientific inquiry. May
be repeated once as topics change.
BIOL 590C. Senior Seminar: Cellular. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590D. Senior Seminar: Physiology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590E. Senior Seminar: Ecology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590F. Senior Seminar: Bioethics. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590G. Senior Seminar: Genetics. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590H. Senior Seminar: Evolution. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590I. Senior Seminar: Microbiology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590J. Senior Seminar: Zoology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590K. Senior Seminar: Botany. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590L. Senior Seminar: Integrative Approach to Biology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 590M. Senior Seminar: Conservation Biology. 2 Units.
Prerequisites: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses supportive of the topic area and senior standing.
Survey of current literature, methods and ethics of scientific inquiry. May be repeated once as topics change.

BIOL 591. Biology Seminar. 1 Unit.
Prerequisites: BIOL 300 with a grade of C or better.
Topics of current biological interest, presented by students, faculty, and guest speakers. May be taken once for credit toward the major. May be taken three times for credit toward elective units in the Master of Science in Biology. Lecture only. Formerly BIOL 390. Graded credit/no credit.

BIOL 592. Recombinant DNA Techniques. 4 Units.
Prerequisites: BIOL 300 with a grade of C or better and BIOL 400 Techniques utilized in genetic engineering and biotechnology areas (mainly methods for isolating and analyzing genes, including bacterial isolation, DNA isolation and restriction analysis, transformation protocols and purification and manipulation of plasmid and chromosomal DNA techniques). A final research report will be required from the student. Two hours lecture and six hours laboratory. Materials fee required. Formerly BIOL 492.

BIOL 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal submitted on a standard application form filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. All students will be required to attend the Biology Department colloquium called by the department chair each quarter until their projects are completed. Laboratory and/or library research in selected areas of biology conducted under the direction of a faculty member in the Department of Biology. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit.
BIOL 596A. Independent Research. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit. Formerly BIOL 595. All students will be required to present research findings at least once per academic year at quarterly Biology Department colloquium until their projects are complete. All students will be required to attend the Biology Department colloquium each quarter until their projects are completed.

BIOL 596B. Independent Research. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit. Formerly BIOL 595. All students will be required to present research findings at least once per academic year at quarterly Biology Department colloquium until their projects are complete. All students will be required to attend the Biology Department colloquium each quarter until their projects are completed.

BIOL 596C. Independent Research. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit. Formerly BIOL 595. All students will be required to present research findings at least once per academic year at quarterly Biology Department colloquium until their projects are complete. All students will be required to attend the Biology Department colloquium each quarter until their projects are completed.

BIOL 596D. Independent Research. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit. Formerly BIOL 595. All students will be required to present research findings at least once per academic year at quarterly Biology Department colloquium until their projects are complete. All students will be required to attend the Biology Department colloquium each quarter until their projects are completed.

BIOL 596E. Independent Research. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit. Formerly BIOL 595. All students will be required to present research findings at least once per academic year at quarterly Biology Department colloquium until their projects are complete. All students will be required to attend the Biology Department colloquium each quarter until their projects are completed.

BIOL 596F. Independent Research. 6 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Consent must be obtained no later than the advisement period preceding the quarter of enrollment. Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of six units in BIOL 596 may be applied toward graduation. Graded credit/no credit. Formerly BIOL 595. All students will be required to present research findings at least once per academic year at quarterly Biology Department colloquium until their projects are complete. All students will be required to attend the Biology Department colloquium each quarter until their projects are completed.

BIOL 597. Directed Study in Science Education. 1 Unit.
Prerequisites: consent of instructor. Graded Credit/no credit. May be repeated for credit as topics change.

BIOL 600. Advanced Topics in Molecular Biology. 2 Units.
Prerequisites: consent of instructor. An in-depth consideration of selected research areas in molecular biology. May be repeated for credit as topics change.

BIOL 601. Teaching Assistant Training in Biology. 2 Units.
Prerequisites: classified standing in Masters Degree Program. Teaching assistant training in biology trains graduate students in techniques and most current presentation and teaching methods of laboratory-based biology. Course is open to graduate students only. Topics include: teaching and discussion techniques specific to biology laboratories, use of equipment-specific laboratories in the biological sciences, presentation strategies, and safety issues in biology. Successful completion of BIOL 601 is required before a student may act as a teaching assistant in the Department of Biology. Enrollment in BIOL 601 concurrent with first assignment as a teaching assistant is allowed with consent of instructor. Graded Credit/no credit.
BIOL 605. Advanced Topics in Cell Biology. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected research areas in cell biology. May be repeated for credit as topics change.

BIOL 620. Advanced Topics in Plant Biology. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected areas of current study in plant biology. May be repeated for credit as topics change.

BIOL 622. Advanced Topics in Zoology. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected research areas in zoology. May be repeated for credit as topics change.

BIOL 624. Advanced Topics in Physiology. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected research areas in physiology. May be repeated for credit as topics change.

BIOL 650. Advanced Topics in Genetics. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected research areas in genetics. May be repeated for credit as topics change.

BIOL 651. Advanced Topics in Molecular Genetics. 2 Units.
Prerequisites: consent of instructor
An in-depth examination of current research in molecular genetics. May be repeated for credit as topics change.

BIOL 660. Advanced Topics in Development. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected research areas in developmental biology. May be repeated for credit as topics change.

BIOL 664. Biosystematics. 2 Units.
Prerequisites: BIOL 423 and one taxonomy-based course; e.g. BIOL 319, 331, 335, 342, 353, or 354. Recommended: MATH 305
Fundamental concepts of classification systems, biometric and experimental taxonomic procedures, nomenclature and systematic literature; both plant and animal materials used.

BIOL 670. Advanced Topics in Ecology. 2 Units.
Prerequisites: BIOL 450 or equivalent
Literature survey of specific topics related to community or ecosystem dynamics. May be repeated for credit as topics change.

BIOL 675. Advanced Topics in Parasitology. 2 Units.
Prerequisites: consent of instructor
An in-depth consideration of selected research areas in parasitology. May be repeated for credit as topics change.

BIOL 677. Advanced Topics in Immunology. 2 Units.
Prerequisites: BIOL 573
An in-depth examination of current research in cellular and molecular immunology. May be repeated for credit as topics change.

BIOL 678. Advanced Topics in Microbiology. 2 Units.
Prerequisites: BIOL 220 or BIOL 320
An in-depth examination of current research in microbiology. May be repeated for credit as topics change.

BIOL 680. Advanced Topics in Evolution. 2 Units.
Prerequisites: consent of instructor
Topics of current research interest in plant or animal evolution. May be repeated for credit as topics change.

BIOL 690. Graduate Seminar in Biology. 2 Units.
Selected topics and reviews of current investigations in the fields of biology. Required of all graduate students in biology. May be repeated for credit as topics change.

BIOL 691. Current Topics in Biology. 1 Unit.
Faculty supervised discussion in journal club format. Students will learn how to interpret, evaluate, present, and critique recently published research articles in various subfields of biology. May be repeated up to three times for credit. Graded credit/no credit.

BIOL 692A. Graduate Research Methods in Biology. 1 Unit.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Specialized topics in research methods including theory and technique. Topics may vary. Two hours laboratory per unit of credit. May be repeated for credit, but no more than six units may be applied toward the degree. Graded credit/no credit.

BIOL 692B. Graduate Research Methods in Biology. 2 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Specialized topics in research methods including theory and technique. Topics may vary. Two hours laboratory per unit of credit. May be repeated for credit, but no more than six units may be applied toward the degree. Graded credit/no credit.

BIOL 692C. Graduate Research Methods in Biology. 3 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Specialized topics in research methods including theory and technique. Topics may vary. Two hours laboratory per unit of credit. May be repeated for credit, but no more than six units may be applied toward the degree. Graded credit/no credit.
BIOL 696A. Directed Graduate Research in Biology. 1 Unit.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Original individual research in biology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
Formerly BIOL 695A, 695B and 695C. The course may be taken up to three times for the maximum number of units specified in each degree track. Graded credit/no credit.

BIOL 696B. Directed Graduate Research in Biology. 2 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Original individual research in biology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
Formerly BIOL 695A, BIOL 695B and BIOL 695C. The course may be taken up to three times for the maximum number of units specified in each degree track. Graded credit/no credit.

BIOL 696C. Directed Graduate Research in Biology. 3 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Original individual research in biology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
Formerly BIOL 695A, BIOL 695B and BIOL 695C. The course may be taken up to three times for the maximum number of units specified in each degree track. Graded credit/no credit.

BIOL 696D. Directed Graduate Research in Biology. 4 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Original individual research in biology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
Formerly BIOL 695A, BIOL 695B and BIOL 695C. The course may be taken up to three times for the maximum number of units specified in each degree track. Graded credit/no credit.

BIOL 696E. Directed Graduate Research in Biology. 5 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Original individual research in biology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
Formerly BIOL 695A, 695B and 695C. The course may be taken up to three times for the maximum number of units specified in each degree track. Graded credit/no credit.

BIOL 696F. Directed Graduate Research in Biology. 6 Units.
Prerequisites: classified standing in Masters Degree Program and consent of instructor
Original individual research in biology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
Formerly BIOL 695A, BIOL 695B and BIOL 695C. The course may be taken up to three times for the maximum number of units specified in each degree track. Graded credit/no credit.

BIOL 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
BIOL 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 699A. Thesis Research and Thesis I. 3 Units.
Prerequisites: advancement to candidacy
Independent graduate research conducted under guidance of the major advisor and resulting in a thesis. BIOL 699A, BIOL 699B and BIOL 699C must be completed for a total of nine units. To retain their classified standing in the masters program, students enrolled in this course must attend the Biology Department colloquium called by the department chair each quarter until their projects are completed and their theses accepted.

BIOL 699B. Thesis Research and Thesis II. 3 Units.
Prerequisites: advancement to candidacy
Independent graduate research conducted under guidance of the major advisor and resulting in a thesis. BIOL 699A, BIOL 699B and BIOL 699C must be completed for a total of nine units. To retain their classified standing in the masters program, students enrolled in this course must attend the Biology Department colloquium called by the department chair each quarter until their projects are completed and their theses accepted.

BIOL 699C. Thesis Research and Thesis III. 3 Units.
Prerequisites: advancement to candidacy
Independent graduate research conducted under guidance of the major advisor and resulting in a thesis. BIOL 699A, BIOL 699B and BIOL 699C must be completed for a total of nine units. To retain their classified standing in the masters program, students enrolled in this course must attend the Biology Department colloquium called by the department chair each quarter until their projects are completed and their theses accepted.

BIOL 980. Biology Colloquium. 0 Units.
Required for all students using department research facilities or completing graduate program graduation requirements. Students are required to attend two meetings per quarter, one meeting in the first week of classes and one during the eighth week.

BIOL 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.
Education-Career and Technical Studies (ECTS)

Courses

ECTS 335. Introduction to Career and Technical Studies. 4 Units.
Prerequisites: consent of instructor
Introduction to the history, philosophy, literature and organizations of comprehensive vocational, technical and occupational workforce development programs. Formerly EVOC 335.

ECTS 435. Trends and Issues in Career and Technical Programs. 4 Units.
Assessment of students ability to integrate knowledge and demonstrate independent critical thinking skills through a capstone project relevant to Career and Technical Program subject matter content. Discussion of current trends and issues relevant to Regional Occupational Programs (ROP), adult education programs, and community college programs. Completion and submission of professional portfolio for Career and Technical Competency Evaluation (CTCE) by qualified faculty for recommended credit toward BCTS degree. Formerly EVOC 435.

ECTS 501. Principles and Methods for Teaching Designated Subjects. 4 Units.
Principles and Methods for Teaching Designated Subjects Formerly EVOC 501.

ECTS 502. Instructional Support for Teaching Designated Subjects. 4 Units.
Prerequisites: ECTS 501 or consent of instructor
Examination of instructional support for designated subjects with emphasis on program advisory committees, student placement, facilities planning, budgeting, student organizations, public relations, career advancement and educational philosophy. Formerly EVOC 502.

ECTS 503. Contemporary Issues in Teaching Designated Subjects. 4 Units.
Prerequisites: ECTS 501 or consent of instructor
Examination of contemporary issues in designated subjects with emphasis on individual education plans, basic skills, school law, multicultural activities, special needs students, safety and performance assessment instruments. Formerly EVOC 503.

ECTS 504. Principles of Career and Technical Education. 4 Units.
History, philosophy and social significance of career and technical education, especially in California; investigation of the theories and application of the principles of career and technical education. Formerly EVOC 504.

ECTS 508. Organization and Structure of Career and Technical Programs. 4 Units.
Corequisites: ECTS 509 and 510
Investigation and application of principles of facility planning, budgeting, funding sources and related topics as they apply to career and technical programs. Formerly EVOC 508.

ECTS 509. Personnel Management in Career and Technical Programs. 4 Units.
Corequisites: ECTS 508 and 510
Principles of personnel selection, evaluation, supervision, school law, and related topics as they apply to career and technical programs. Formerly EVOC 509.

ECTS 510. Field Work in Coordination and Supervision of Career and Technical Programs. 4 Units.
Corequisites: ECTS 508 and 509
Supervised field work in supervision and coordination of career and technical programs. Students will contract to perform administrative tasks related to site-based instructional programs. Formerly EVOC 510.

ECTS 518. Field Work in Designated Subjects. 4 Units.
Prerequisite/Corequisite: ECTS 501 and consent of instructor
Supervised field work for the Designated Subjects Teaching Credential. Includes lesson planning and instructional delivery in an actual teaching environment with evaluation of teaching performance by the on-site supervisor. Formerly EVOC 518.

ECTS 519. Computer Applications for Career and Technical Educators. 4 Units.
Application of personal computers to prepare written, graphic, data base, telecommunication and interactive media materials that accommodate diverse populations in career and technical education with an emphasis on English learner needs. Three hours lecture and two hours laboratory. Lecture and laboratory sections must be taken concurrently. Formerly EVOC 519.

ECTS 520. Curriculum Development for Career and Technical Programs. 4 Units.
Prerequisites: ECTS 501 or its equivalent
Theory and principles of curriculum development as they apply to vocational, occupational and professional courses. Students will develop a complete curriculum for a course that they could teach. Formerly EVOC 520.

ECTS 521. Assessing Student Progress. 4 Units.
Prerequisites: ECTSC 520 or consent of instructor
The development and use of evaluation instruments such as written tests, and criterion-referenced and norm-referenced evaluations. Formerly EVOC 521.

ECTS 522. Directing and Managing Occupational Programs. 4 Units.
Prerequisites: ECTS 520 and MGMT 302 or PSYC 302
Principles and techniques of design, implementation, management and evaluation of training organizations and programs. Formerly EVOC 522.

ECTS 523. Learning Theory and Instructional Research Applied to Adult Learners. 4 Units.
Application of psychological principles to learning processes relevant to adult learners. Focus is on informed decisions about psycho-educational designs which will maximize individual development in cognitive, affective, conative, and psychomotor areas. Formerly EVOC 523.
ECTS 540. Topics in Career and technical Education. 2 Units.
Study of selected areas of education topics to be determined by the instructor. May be repeated for credit with consent of the instructor as topics change up to a maximum of 4 units.

ECTS 542A. Seminar in Vocational Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EVOC 542A.

ECTS 542B. Seminar in Vocational Education. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EVOC 542B.

ECTS 542C. Seminar in Vocational Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EVOC 542C.

ECTS 542D. Seminar in Vocational Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EVOC 542D.

ECTS 637. Foundations of Career and Technical Studies. 4 Units.
Prerequisites: graduate standing
Historical context, philosophy and development of vocational education. Formerly EVOC 637.

ECTS 638. Critical Issues for the Career and Technical Educator. 4 Units.
Prerequisites: ECTS 637 or consent of instructor
Current legislation, program planning, professional development and current issues in vocational education. Formerly EVOC 638.

ECTS 639. Professional Competencies in Career and Technical Studies. 4 Units.
Prerequisites: ECTS 638 or consent of instructor
Roles of professional organizations, research in vocational education, grant writing and strategies for project evaluation. Formerly EVOC 639.

ECTS 640B. Topics in Education. 2 Units.
Prerequisites: graduate standing and consent of instructor
Study of selected areas of advanced education topics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change. Formerly EVOC 640.

ECTS 640C. Topics in Education. 3 Units.
Prerequisites: graduate standing and consent of instructor
Study of selected areas of advanced education topics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change. Formerly EVOC 640C.

ECTS 640D. Topics in Education. 4 Units.
Prerequisites: graduate standing and consent of instructor
Study of selected areas of advanced education topics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change. Formerly EVOC 640D.

ECTS 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Formerly EVOC 999.

Chemistry (CHEM)

Courses

CHEM 100. Chemistry in the Modern World. 5 Units.
Prerequisites: Eligibility to enroll in MATH 110 or MATH 115 or completion of MATH 111A or MATH 116A or MATH 112B or MATH 117B or higher (GE=B.3)
Offered: Fall, Spring and Summer
Examination of chemistry and its value to contemporary society. Topics include atomic and molecular structure, bonding, physical and chemical change, solutions and other important chemical principles related to everyday observable phenomena. In laboratory, the scientific method is employed to design experiments, test hypotheses, formulate chemical principles and interpret experiment results. Designed for those desiring a broad overview of chemistry including liberal studies majors. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 105. Chemicals in Our Environment. 2 Units.
(GE=B4)
Offered: Fall and Winter
Examination of a current issue related to chemicals in our environment with focus on chemical principles and the interplay between chemical technology and society. Lecture only.

CHEM 205. Fundamentals of Chemistry I: General Chemistry. 5 Units.
Prerequisites: Eligibility to enroll in MATH 110 or MATH 115 or completion of MATH 111A or MATH 116A or MATH 112B or MATH 117B or higher (GE=B.3)
Offered: Fall, Winter and Spring
Basic introduction to the concepts of chemistry, including the composition of matter and physical and chemical changes. Designed primarily for the student with little or no chemistry background who plans to take additional chemistry or other science courses. Four hours lecture and three hours laboratory. Materials fee required.
CHEM 206. Fundamentals of Chemistry II: Organic Chemistry. 5 Units.
Prerequisites: CHEM 205 or CHEM 215
Offered: Winter
Introduction to the chemistry of organic compounds. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 207. Fundamentals of Chemistry III: Biochemistry. 5 Units.
Prerequisites: CHEM 206
Offered: Spring
Introduction to the principles of modern biological chemistry and to organic compounds of biological interest. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 215. General Chemistry I: Atomic Structure and Chemical Bonding. 6 Units.
Prerequisites: Completion of, or concurrent enrollment in MATH 110, MATH 111B, MATH 112C, MATH 120, MATH 192, MATH 211, or MATH 212
Offered: Fall, Winter and Summer
Stoichiometry, atomic and molecular structure, chemical bonding, states of matter and solutions. Designed primarily for the student majoring in the biological or physical sciences. Four hours lecture, three hours laboratory, and one hour recitation. Materials fee required. (GE B3).

CHEM 216. General Chemistry II: Principles of Chemical Reactions. 6 Units.
Prerequisites: CHEM 215 with a grade of C or better
Offered: Winter, Spring and Summer
Chemical kinetics and equilibrium, thermodynamics, redox reactions and electrochemistry, and topics in inorganic, organic, biological and environmental chemistry. Four hours lecture and six hours laboratory. Materials fee required.

CHEM 221A. Organic Chemistry I Lecture. 3 Units.
Prerequisites: CHEM 215 with a grade of "C" or better and CHEM 216 with a grade of "C-" or better
Offered: Fall and Winter
Lecture. The chemistry of carbon compounds, including modern concepts of structure, mechanism, and reactivity. Emphasis is placed on compounds and reactions of biological interest; and includes an introduction to selected topics in biochemistry. Taking the lecture sequence (CHEM 221A, CHEM 222A, and CHEM 223A) without the lab sequence (CHEM 221B, CHEM 222B, and CHEM 223B) is inappropriate for premedical, predental and other pre-health professions students and for all majors and minors except the B.A. major in biology. Chemistry majors (except the B.A. in Chemistry, Biochemistry Option) are expected to take the Principles of Organic Chemistry sequence (CHEM 321, CHEM 322 and CHEM 323). Lecture only.

CHEM 221B. Organic Chemistry I Lab. 1 Unit.
Prerequisites: CHEM 215
Prerequisite/Corequisite: CHEM 221A
Laboratory. An introduction to experimental techniques in organic chemistry. Three hours of laboratory. Materials fee required.

CHEM 222A. Organic Chemistry II Lecture. 3 Units.
Prerequisites: CHEM 221A with a grade of "C" or better
Offered: Winter and Spring
Lecture. Continuation of CHEM 221A. Three hours lecture.

CHEM 222B. Organic Chemistry II Lab. 1 Unit.
Prerequisites: CHEM 221B
Prerequisite/Corequisite: CHEM 222A
Offered: Winter and Spring
Laboratory. Continuation of CHEM 221B. Three hours laboratory. Materials fee required.

CHEM 223A. Organic Chemistry III Lecture. 3 Units.
Prerequisites: CHEM 222A or equivalent with a grade of C- or better
Offered: Fall and Spring
Lecture. Continuation of CHEM 222A. Three hours lecture.

CHEM 223B. Organic Chemistry III Lab. 1 Unit.
Prerequisites: CHEM 222B
Prerequisite/Corequisite: CHEM 223A
Offered: Fall and Spring
Laboratory. Continuation of CHEM 222B. Three hours laboratory. Materials fee required.

CHEM 295A. Special Projects in Chemistry. 1 Unit.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Individual investigation, research, study or survey of selected problems. May be repeated for credit as topics change.

CHEM 295B. Special Projects in Chemistry. 2 Units.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Individual investigation, research, study or survey of selected problems. May be repeated for credit as topics change.

CHEM 301. Service Learning in Chemistry. 1 Unit.
Prerequisites: consent of instructor and pertinent course work
Offered: Fall, Winter and Spring
Supervised activities in chemistry or chemical education providing service to campus or community constituents. At least 30 hours required for credit. May be repeated for credit. May not be counted for credit for the chemistry major. Graded credit/no credit.

Prerequisites: CHEM 215 and CHEM 216 with grades of "C" or better in each course
Offered: Fall
Detailed study of organic molecules and their structures, reaction mechanisms, stereochemistry and synthesis. Three hours lecture and six hours laboratory. Materials fee required.
CHEM 322. Principles of Organic Chemistry II. 5 Units.
Prerequisites: CHEM 321 with a grade of C or better
Offered: Winter
Continuation of CHEM 321. Three hours lecture and six hours laboratory.
Materials fee required.

CHEM 323. Principles of Organic Chemistry III. 5 Units.
Prerequisites: CHEM 322 with a grade of C or better
Offered: Spring
Continuation of CHEM 322, including special topics in heterocyclic compounds, fats, carbohydrates, and amino acids and proteins. Three hours lecture and six hours laboratory. Materials fee required.

CHEM 345. Modern Quantitative Analysis. 5 Units.
Prerequisites: CHEM 216 with a grade of "C" or better
Offered: Fall and Spring
Gravimetric and volumetric analysis, chemical equilibria, and modern instrumental methods. Three hours lecture and six hours laboratory. Materials fee required. Formerly CHEM 245.

CHEM 421. Intermediate Organic Chemistry. 5 Units.
Prerequisites: CHEM 223 or equivalent course work
Offered: Spring - Even numbered years
Organic reaction mechanisms, quantitative identification of organic compounds, and instrumental organic analysis. May not be counted as upper-division elective units for a chemistry degree. Three hours lecture and six hours laboratory. Materials fee required.

CHEM 436A. Biochemistry I. 4 Units.
Prerequisites: either CHEM 223 or 323 with grades of "C" or better, and BIOL 200
Offered: Fall and Winter
Lecture. Structure and function of proteins, carbohydrates, and lipids. Four hours lecture. Formerly CHEM 436.

CHEM 436B. Biochemistry I. 1 Unit.
Prerequisite/Corequisite: CHEM 436A
Offered: Fall and Winter
Laboratory. Introduction to experimental techniques in biochemistry and biotechnology. Three hours laboratory. Formerly CHEM 436.

CHEM 437A. Biochemistry II. 3 Units.
Prerequisites: CHEM 436A with a grade of C- or better
Offered: Winter and Spring
Lecture. Mechanism and kinetics of enzymes; metabolism of carbohydrates, lipids, and proteins. Three hours lecture.

CHEM 437B. Biochemistry II. 1 Unit.
Prerequisites: CHEM 436B
Prerequisite/Corequisite: CHEM 437A
Offered: Winter
Laboratory. Continuation of CHEM 436B. Three hours laboratory. Materials fee required.

CHEM 438A. Biochemistry III. 3 Units.
Prerequisites: CHEM 437A with a grade of C- or better
Offered: Spring
Lecture. Structure, function, and metabolism of nucleotides and nucleic acids with an emphasis on molecular mechanisms of nucleotide synthesis and degradation, replication, transcription, translation and regulation of gene expression. Three hours lecture.

CHEM 438B. Biochemistry III. 1 Unit.
Prerequisites: CHEM 437B
Prerequisite/Corequisite: CHEM 438A
Offered: Spring
Laboratory. Continuation of CHEM 437B. Three hours laboratory. Materials fee required.

CHEM 451. Physical Chemistry for Biochemists I. 5 Units.
Prerequisites: CHEM 345, CHEM 436A, and CHEM 436B with grades of "C" or better; MATH 213; and PHYS 123 or PHYS 223
Offered: Winter
Thermodynamics of single and multi-component systems, properties of non-electrolyte and electrolyte solutions with an emphasis on biomolecular systems. May not be counted for upper-division elective units for a B.A. in Chemistry, Chemistry Option or B.S. in Chemistry, ACS Certified Option. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 452. Physical Chemistry for Biochemists II. 5 Units.
Prerequisites: CHEM 451
Offered: Spring
Phase equilibria, transport properties, electron transfer reactions, and reaction kinetics, with an emphasis on biomolecular systems. Quantum mechanical and physical principles as applied to molecular structure and spectroscopy. May not be counted for upper-division elective units for a B.A. or B.S. in Chemistry, Chemistry Option or a B.S. in Chemistry, ACS Certified Option. Fours hours lecture and three hours laboratory. Materials fee required.

CHEM 455. Physical Chemistry I. 5 Units.
Prerequisites: CHEM 345 with a grade of "C" or better; MATH 213; and must have completed PHYS 123 or may take PHYS 223 as a prerequisite or corequisite. Recommended: MATH 251
Offered: Fall
Gas kinetics, thermodynamics, properties of solutions, phase equilibria, electrochemistry, and surface phenomena. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 456. Physical Chemistry II. 5 Units.
Prerequisites: CHEM 455
Offered: Winter
Quantum mechanics, reaction rates and mechanisms, and crystal structure. Four hours lecture and three hours laboratory. Materials fee required.
CHEM 470. Bioinorganic Chemistry. 3 Units.
Prerequisites: CHEM 223 or CHEM 323 and CHEM 216. Recommended: CHEM 436A and CHEM 436B
Offered: Fall
Principles of inorganic chemistry emphasizing metals in biological systems. Course will cover coordination chemistry and physical techniques used to probe activity. A survey of the types of metalloproteins and metalloenzymes and their biological functions. Detailed case studies of selected metalloproteins. May not be counted for upper division elective units for a B.A. in Chemistry, Chemistry Option or B.S. in Chemistry, ACS Certified Option.

CHEM 475. Inorganic Chemistry. 5 Units.
Prerequisite/Corequisite: CHEM 223 or CHEM 323
Offered: Spring
Inorganic compounds and reactions. Special emphasis on symmetry, structure, kinetics, and thermodynamic principles. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 500. Topics in Chemistry. 2 Units.
Prerequisites: consent of instructor
Offered: Winter and Spring
Lecture course on an advanced chemistry topic such as: advanced organic chemistry, computational chemistry, environmental chemistry, literature in chemistry, medicinal chemistry, polymer chemistry, and spectroscopy. May be repeated for credit as topics change. Lecture only.

CHEM 501A. Advanced Laboratory Techniques. 1 Unit.
Prerequisites: the basic course covering the subject of the Advanced Laboratory Techniques course and consent of instructor
Offered: Fall, Winter and Spring
Advanced laboratory course on a subject relative to one of the main divisions of chemistry. May be repeated for credit, however only four units may be counted as upper division elective units for either a major or minor in chemistry. Final written report required.

CHEM 501B. Advanced Laboratory Techniques. 2 Units.
Prerequisites: the basic course covering the subject of the Advanced Laboratory Techniques course and consent of instructor
Offered: Fall, Winter and Spring
Advanced laboratory course on a subject relative to one of the main divisions of chemistry. May be repeated for credit, however only four units may be counted as upper division elective units for either a major or minor in chemistry. Final written report required. Materials fee required.

CHEM 545. Instrumental Analysis. 6 Units.
Prerequisites: CHEM 223 or CHEM 323, CHEM 345 and CHEM 452 or CHEM 456
Offered: Spring
Principles and techniques of modern instrumental analysis, including spectrophotometry, spectroscopy, chromatography, X-ray analysis, mass spectrometry and potentiometry. Four hours lecture and six hours laboratory. Materials fee required.

CHEM 575A. Internship in Chemistry. 1 Unit.
Prerequisites: course work appropriate to the specific internship and consent of department
Offered: Fall, Winter and Spring
Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelors degree and a total of five units may be applied towards obtaining a masters degree. Graded credit/no credit.

CHEM 575B. Internship in Chemistry. 2 Units.
Prerequisites: course work appropriate to the specific internship and consent of department
Offered: Fall, Winter and Spring
Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelors degree and a total of five units may be applied towards obtaining a masters degree. Graded credit/no credit.

CHEM 575C. Internship in Chemistry. 3 Units.
Prerequisites: course work appropriate to the specific internship and consent of department
Offered: Fall, Winter and Spring
Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelors degree and a total of five units may be applied towards obtaining a masters degree. Graded credit/no credit.

CHEM 575D. Internship in Chemistry. 4 Units.
Prerequisites: course work appropriate to the specific internship and consent of department
Offered: Fall, Winter and Spring
Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelors degree and a total of five units may be applied towards obtaining a masters degree. Graded credit/no credit.

CHEM 575E. Internship in Chemistry. 5 Units.
Prerequisites: course work appropriate to the specific internship and consent of department
Offered: Fall, Winter and Spring
Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelors degree and a total of five units may be applied towards obtaining a masters degree. Graded credit/no credit.

CHEM 576. Chemistry of the Elements. 4 Units.
Prerequisites: CHEM 223 or 323
Offered: Fall - Even numbered years
Current developments in inorganic chemistry, including coordination chemistry, non-metals and metalloids. Lecture only.
CHEM 590A. Chemistry Seminar I. 1 Unit.
Prerequisites: twelve upper-division units in chemistry, and NSCI 306 or equivalent. Lecture only. Final written report required
Offered: Fall, Winter and Spring
Topics of current chemical interest, presented by students, faculty and guest speakers. To be taken once for credit toward the major requirements for graduation.

CHEM 590B. Chemistry Seminar II. 1 Unit.
Prerequisites: twelve upper-division units in chemistry, and NSCI 306 or equivalent. Oral presentation required. Prerequisite: CHEM 590A
Offered: Fall, Winter and Spring
Topics of current chemical interest, presented by students, faculty and guest speakers. To be taken once for credit toward the major requirements for graduation.

CHEM 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 2.5, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Offered: Fall, Winter and Spring
Laboratory and/or library research conducted under the direction of a faculty member. Final written report required. A total of six units in CHEM 595 may apply toward the major. Materials fee required.

CHEM 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 2.5, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Offered: Fall, Winter and Spring
Laboratory and/or library research conducted under the direction of a faculty member. Final written report required. A total of six units in CHEM 595 may apply toward the major. Materials fee required.

CHEM 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 2.5, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Offered: Fall, Winter and Spring
Laboratory and/or library research conducted under the direction of a faculty member. Final written report required. A total of six units in CHEM 595 may apply toward the major. Materials fee required.

CHEM 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 2.5, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Offered: Fall, Winter and Spring
Laboratory and/or library research conducted under the direction of a faculty member. Final written report required. A total of six units in CHEM 595 may apply toward the major. Materials fee required.

CHEM 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 2.5, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Offered: Fall, Winter and Spring
Laboratory and/or library research conducted under the direction of a faculty member. Final written report required. A total of six units in CHEM 595 may apply toward the major. Materials fee required.

CHEM 597. Directed Study in Science Education. 1 Unit.
Prerequisites: consent of instructor and departmental approval of a written proposal
Offered: Fall, Winter and Spring
Readings, library research or a directed project on the pedagogical content knowledge of a specific area of chemistry, conducted under the direction of a faculty member. Graded credit/no credit. May be repeated for credit. No more than four units may be applied toward degree requirements for the B.A. in Chemistry, Integrated Teaching Credential Option. May not be counted as elective units for the B.A. in Chemistry, Chemistry Option; B.A. in Chemistry, Biochemistry Option; B.S. in Chemistry, ACS Certified Option, or the B.S. in Chemistry, Biochemistry Option.

CHEM 599. Undergraduate Comprehensive Examination. 0 Units.
Prerequisites: student must be a chemistry major within three quarters of graduation
Assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Graded credit/no credit.

CHEM 610. Advanced Environmental Chemistry. 5 Units.
Prerequisites: one year of introductory work in chemistry including organic nomenclature e.g. CHEM 205, CHEM 206; or CHEM 215, CHEM 216, and any organic; or consent of instructor. Recommended: CHEM 345 Overview of the chemistry and properties of the natural environment, and the effects of human activities thereon. Topics include the behavior of environmental pollutants in air, water, sediments/soils and their potential biological impacts; as well as a discussion of their sources and treatment. Concurrent laboratory studies of common methods used in environmental analyses. Four hours lecture and three hours laboratory. Materials fee required.

CHEM 690. Graduate Seminar in Environmental Sciences. 2 Units.
Selected topics and reviews of current investigations in the fields of environmental chemistry. Two hours seminar.
CHEM 691B. Graduate Independent Study. 2 Units.
Prerequisites: classified standing in master's program and consent of instructor
Independent study of an advanced topic in chemistry or environmental science.

CHEM 691C. Graduate Independent Study. 3 Units.
Prerequisites: classified standing in master's program and consent of instructor
Independent study of an advanced topic in chemistry or environmental science.

CHEM 691D. Graduate Independent Study. 4 Units.
Prerequisites: classified standing in master's program and consent of instructor
Independent study of an advanced topic in chemistry or environmental science.

CHEM 695D. Supervised Graduate Study in Chemistry. 4 Units.
Prerequisites: classified standing in masters program and consent of advisor
Original individual research in environmental chemistry; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee. Materials fee required.

CHEM 695E. Supervised Graduate Study in Chemistry. 5 Units.
Prerequisites: classified standing in masters program and consent of advisor
Original individual research in environmental chemistry; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee. Materials fee required.

CHEM 696A. Graduate Project. 1 Unit.
Prerequisites: classified standing and consent of instructor
Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Materials fee required. Graded credit/no credit.

CHEM 696B. Graduate Project. 2 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Materials fee required. Graded credit/no credit.

CHEM 696C. Graduate Project. 3 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Materials fee required. Graded credit/no credit.

CHEM 696D. Graduate Project. 4 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Materials fee required. Graded credit/no credit.

CHEM 696E. Graduate Project. 5 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded credit/no credit.

CHEM 696F. Graduate Project. 6 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded credit/no credit.

CHEM 697. Advanced Internship. 4 Units.
Prerequisites: CHEM 575 or GEOL 575 and consent of advisor
Supervised work or study in private or public organizations. May be repeated for credit with consent of Environmental Science Graduate Committee.

CHEM 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
CHEM 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 699. Graduate Thesis. 4 Units.
Prerequisites: CHEM 695 or GEOL 695
Independent graduate research conducted under guidance of the major advisor culminating in a written thesis option of the degree requirements. Materials fee required.

CHEM 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and good academic standing
Assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Child Development (CD)

Courses

CD 531. Understanding and Guiding Child Behavior. 2 Units.
Study of child behavior and guidance strategies.

CD 532. Best Practice with Young Children. 2 Units.
Best practice with children and families using evidence-based strategies. Topics may include dual language development, family and community engagement, learning environments and curriculum, and special needs inclusion.
CD 611B. Advanced Independent Study. 2 Units.
Prerequisites: PSYC 640 and consent of psychology department
Advanced research on a specific topic selected by the student with the approval of the student's committee. May be repeated up to two times for a maximum of 15 units credit with approval of the student's committee and the psychology department chair. Only 5 units are required for the master's degree. Formerly HD 611B.

CD 611C. Advanced Independent Study. 3 Units.
Prerequisites: PSYC 640 and consent of psychology department
Advanced research on a specific topic selected by the student with the approval of the student's committee. May be repeated up to two times for a maximum of 15 units credit with approval of the student's committee and the psychology department chair. Only 5 units are required for the master's degree. Formerly HD 611C.

CD 611D. Advanced Independent Study. 4 Units.
Prerequisites: PSYC 640 and consent of psychology department
Advanced research on a specific topic selected by the student with the approval of the student's committee. May be repeated up to two times for a maximum of 15 units credit with approval of the student's committee and the psychology department chair. Only 5 units are required for the master's degree. Formerly HD 611D.

CD 611E. Advanced Independent Study. 5 Units.
Prerequisites: PSYC 640 and consent of psychology department
Advanced research on a specific topic selected by the student with the approval of the student's committee. May be repeated up to two times for a maximum of 15 units credit with approval of the student's committee and the psychology department chair. Only 5 units are required for the master's degree. Formerly HD 611E.

CD 612B. Directed Readings. 2 Units.
Prerequisites: graduate standing and consent of psychology department
Supervised readings of special topics under the direction of a faculty member. Formerly HD 612B.

CD 612C. Directed Readings. 3 Units.
Prerequisites: graduate standing and consent of psychology department
Supervised readings of special topics under the direction of a faculty member. Formerly HD 612C.

CD 612D. Directed Readings. 4 Units.
Prerequisites: graduate standing and consent of psychology department
Supervised readings of special topics under the direction of a faculty member. Formerly HD 612D.

CD 612E. Directed Readings. 5 Units.
Prerequisites: graduate standing and consent of psychology department
Supervised readings of special topics under the direction of a faculty member. Formerly HD 612E.

CD 614. Theories of Child Development. 4 Units.
Prerequisites: classified standing in the M.A. in Child Development and consent of department
Overview of major child development theories. Formerly HD 614.

CD 624. Advanced Developmental Neuroscience. 4 Units.
Survey of the psychobiological foundations of human behavioral development throughout the lifespan. Special emphasis on the neurobiological bases of developmental disorders and the integration of relationships between behavior and biological processes including genes, physiology, and the environment.

CD 645. Advanced Infancy and Early Childhood Development. 4 Units.
Prerequisites: classified standing and consent of psychology department
Research and theory relating to prenatal development through age five. Classic theory and current literature concerning development in physical, cognitive, language, social and emotional domains will be examined. Formerly HD 645 and PSYC 645.

CD 646. Advanced Middle Childhood and Adolescent Development. 4 Units.
Prerequisites: classified standing and consent of department
Theoretical and empirical contributions to understanding physical, cognitive, and social-emotional development during the school-age period (6-12) and adolescence (13-18). Formerly HD 646 and PSYC 646.

CD 648. Social-Emotional Development. 4 Units.
Prerequisites: classified graduate standing in M.A. in Child Development, Psychology M.A. or M.S. degree programs, and consent of psychology department
Research and theories of social and emotional development from birth to adolescence. Emphasis on major facets of social-emotional development. Formerly HD 648 and PSYC 648.

CD 651. Advanced Cognitive Development. 4 Units.
Prerequisites: classified standing and consent of psychology department
Research theory in the development of perception, language, memory, problem solving, reasoning, and other cognitive processes from birth through adolescence. Includes allied disciplines such as the brain sciences and applications to the field of education. Formerly HD 651 and PSYC 651.

CD 659. Early Childhood Assessment. 4 Units.
Prerequisites: classified graduate standing or consent of psychology department
Review of major approaches to early childhood assessment practices. Formerly HD 659.

CD 689B. Externship in Child Development. 2 Units.
Prerequisites: PSYC 640 and consent of psychology department
Supervised field work, relating to child development, in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. Graded credit/no credit. Formerly HD 689B.
CD 689C. Externship in Child Development. 3 Units.
Prerequisites: PSYC 640 and consent of psychology department
Supervised field work, relating to child development, in a public or
private setting for additional training and extension of skills developed
in the graduate program. The externship requires approval by a faculty
supervisor. Graded credit/no credit. Formerly HD 689C.

CD 689D. Externship in Child Development. 4 Units.
Prerequisites: PSYC 640 and consent of psychology department
Supervised field work, relating to child development, in a public or
private setting for additional training and extension of skills developed
in the graduate program. The externship requires approval by a faculty
supervisor. Graded credit/no credit. Formerly HD 689D.

CD 689E. Externship in Child Development. 5 Units.
Prerequisites: PSYC 640 and consent of psychology department
Supervised field work, relating to child development, in a public or
private setting for additional training and extension of skills developed
in the graduate program. The externship requires approval by a faculty
supervisor. Graded credit/no credit. Formerly HD 689D.

CD 690. Families and Planning. 4 Units.
Prerequisites: classified graduate standing
A review of research on selected topics related to family and parenting
issues, and the relation of such to child development. Formerly HD 690.

CD 695. Graduate Project. 5 Units.
Prerequisites: PSYC 611, PSYC 640, advancement to candidacy and
consent of instructor
Preparation and implementation of a project based on a thorough review
of theory and empirical research under the guidance of an advisor in the
Department of Psychology. Includes completion of a written document
containing the elements described above and a formal defense. Formerly
HD 695.

CD 699. Thesis. 5 Units.
Prerequisites: HD 640 or PSYC 641, advancement to candidacy, and
consent of psychology department
Independent graduate research conducted under the guidance of the
major advisor and resulting in a written thesis.

CD 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy and consent of psychology
department, completion of coursework in the M.A. in Child Development,
and in good academic standing
An assessment of the student's ability to integrate the knowledge of the
area, show critical and independent thinking and demonstrate mastery of
the subject matter. Formerly HD 999.

Chinese (CHIN)

Courses

CHIN 101. College Chinese I. 4 Units.
Introduction to beginning level Mandarin Chinese, including the basic
structures of the written language. Emphasis is on listening, speaking,
reading and writing. Formerly MAND 101.

CHIN 102. College Chinese II. 4 Units.
Prerequisites: CHIN 101 or consent of department
Develops listening and active speaking skills in Mandarin Chinese
with further development of reading and writing skills while expanding
vocabulary of daily life. Formerly MAND 102.

CHIN 103. College Chinese III. 4 Units.
Prerequisites: CHIN 102 or consent of department
(GE=C3)
Develops listening and speaking skills in Mandarin Chinese with emphasis
on reading and writing skills. Emphasis on negotiating routine social
situations and more complex tasks. Formerly MAND 103 and 150.

CHIN 170. Beginning Chinese Conversation. 2 Units.
Practice of oral Chinese with emphasis on familiar surroundings,
immediate needs, and basic survival skills. Graded credit/no credit. May
be repeated up to three times for credit.

CHIN 201. Second Year College Chinese I. 4 Units.
(GE=C3)
Further study of the Mandarin Chinese language to attain proficiency in
four language skills: listening, speaking, reading and writing. Students
will improve fluency from class discussion on a variety of topics including
social issues and aspects of Chinese culture. Formerly MAND 201.

CHIN 202. Second Year College Chinese II. 4 Units.
(GE=C3)
Emphasis on the continued vocabulary and syntactic development of the
Mandarin Chinese language to attain proficiency in four language skills:
listening, speaking, reading and writing. Formerly MAND 202.

CHIN 203. Second Year College Chinese III. 4 Units.
(GE=C3)
Integration of reading, writing, listening and speaking skills. Students are
expected to familiarize themselves with the format of writing effective
Mandarin Chinese essays. Chinese philosophy, poetry, history and culture
will be incorporated. Formerly MAND 203.

CHIN 210. Chinese Calligraphy. 4 Units.
Teaches students the seven brush strokes for writers. Students will learn
the evolution of Mandarin Chinese characters from ancient ideograms to
modern written characters. Formerly MAND 210.

CHIN 214. Conversation in Chinese. 4 Units.
Prerequisites: CHIN 103 or equivalent
(GE=C3)
Practice of oral Chinese including current topics, panel discussions,
debates, and oral presentations. Students will become familiar with day-
to-day social and business expressions.

CHIN 290. Chinese Literature in Translation. 4 Units.
Introduction to Chinese literature read in English translation. Selection of
writers and genres from classical and contemporary Chinese literature.
Formerly MAND 290.
CHIN 301. Advanced Chinese I. 4 Units.
Prerequisites: CHIN 203 or equivalent or consent of department
First course in an advanced-level sequence. Develops students' oral and written Chinese language skills, as well as knowledge of Chinese culture.

CHIN 302. Advanced Chinese II. 4 Units.
Prerequisites: CHIN 302 or consent of department
Second course in an advanced-level sequence. Develops students' oral and written Chinese language skills, as well as knowledge of Chinese culture.

CHIN 303. Advanced Chinese III. 4 Units.
Prerequisites: CHIN 302 or consent of department
Third course in an advanced-level sequence in Chinese. Develops students' oral and written language skills, as well as knowledge of Chinese culture.

CHIN 314. Advanced Chinese Conversation. 4 Units.
Prerequisites: CHIN 203 or consent of department
Practice of contemporary spoken Chinese through the reading and discussion of current topics.

CHIN 315. Language in Chinese Society. 4 Units.
Prerequisites: CHIN 203 or equivalent
Study of how language functions in contemporary Chinese society. Analysis of politeness, gender, language attitudes, the mechanics of cross-cultural misunderstandings, and how language incorporates Chinese social constructs.

CHIN 409. Business Chinese. 4 Units.
Prerequisites: CHIN 203 or consent of department
Introduction to business vocabulary, practices, and socioeconomic issues in Chinese-speaking contexts.

Communication Studies (COMM)

Courses

COMM 120. Oral Communication. 4 Units.  
(GE=A2)
Introduction to effective speech communication with emphasis on informative and persuasive public speaking and presentation skills.

COMM 180. Critical Thinking Through Argumentation. 4 Units.  
(GE=A4)
Principles of oral argumentation and forensics: evidence, methods of logical analysis, reasoned discourse demonstrated through argumentative speeches and debates.

COMM 200. Introduction to Communication Studies. 4 Units.
Descriptive overview of how humans communicate in various contexts within the areas of public argumentation and rhetoric, human communication, and mass communication. Includes an introduction to communication processes, theories, and research methodologies.

COMM 204. Introduction to Critical Communication Studies. 4 Units.
Survey of the history and study of rhetoric as it contributes to a critical understanding of the role of communication in society.

COMM 221. Small Group Communication. 4 Units.
Theories of communication applied to small group situations emphasizing decision-making processes.

COMM 225. Fundamentals of Interpersonal Communication. 4 Units.
A skills development course designed to facilitate students acquisition of basic face-to-face communication competencies such as building and maintaining communication climates, listening, perception, self-disclosure, and verbal and non-verbal communication.

COMM 240. Writing for Media. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement and word processing ability
Development of basic writing skills and practices appropriate for print, electronic and digital media.

COMM 243A. Communication Practicum: Print and Online Journalism. 3 Units.
Practical application of communication skills. COMM 243A, COMM 243B, COMM 243C, COMM 243D, or COMM 243E may each be taken twice for credit. For the practicum courses of COMM 243, 382, 399 and 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 243B. Communication Practicum: Radio. 3 Units.
Practical application of communication skills. COMM 243A, COMM 243B, COMM 243C, COMM 243D, or COMM 243E may each be taken twice for credit. For the practicum courses of COMM 243, 382, 399 and 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 243C. Communication Practicum: Video Production for Journalism. 3 Units.
Prerequisites: COMM 243A
Practical application of communication skills. COMM 243A, COMM 243B, COMM 243C, COMM 243D, or COMM 243E may each be taken twice for credit. For the practicum courses of COMM 243, 382, 399 and 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 243D. Communication Practicum: Public Relations. 3 Units.
Practical application of communication skills. COMM 243A, COMM 243B, COMM 243C, COMM 243D, or COMM 243E may each be taken twice for credit. For the practicum courses of COMM 243, 382, 399 and 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.
COMM 243E. Communication Practicum: Human and Organizational Communication. 3 Units.
Practical application of communication skills. COMM 243A, COMM 243B, COMM 243C, COMM 243D, or COMM 243E may each be taken twice for credit. For the practicum courses of COMM 243, 382, 399 and 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 245. Introduction to TV and Video Production. 5 Units.
Introduction to equipment, theory and procedures used in studio production of television and video programming. Camera, VTR, switcher, lighting, audio character generation, and the roles of crew members will be examined. Basic principles of pictorial composition and aesthetics of the video medium for a variety of applications will also be introduced. Four hours lecture and two hours activity laboratory.

COMM 302. Communication, Language and Culture. 4 Units.
Contemporary theories of language as they relate to the communication process, including the coding system of signs, symbols, and meanings of cultural groups.

COMM 304. Intercultural Communication. 4 Units.
(GE=G2)
Description and analysis of cultural and gender factors in communication such as perception, value systems, language codes and nonverbal communication. Overcoming the communication problems that can result when members of different cultures communicate.

COMM 305. Critical Approaches to Communication. 4 Units.
Contemporary approaches to media and rhetorical criticism, with emphasis on television, film and public discourse.

COMM 306. Communication Theory. 4 Units.
Prerequisites: COMM 200
Traditional and contemporary approaches to communication theory, including an examination of the areas of rhetorical, human, and mediated communication.

COMM 307. Rhetorical Theory. 4 Units.
Discussion of rhetorical theories from classical Greeks to the contemporary period. Emphasis on the nature, function, and scope of rhetorical theories.

COMM 308. Argumentation. 4 Units.
Prerequisites: completion of General Education Critical Thinking requirement
Advanced principles of argumentation: perspectives, analysis and practice.

COMM 309. Digital Media and Communication. 4 Units.
Theory, research, and history related to the impact of digital technologies on communication and society. Students will acquire knowledge and think critically about digital media communication processes and cultures in a variety of contexts. Formerly COMM 509.

COMM 311. Business and Professional Communication. 4 Units.
Prerequisites: COMM 120 or equivalent
Presentation skills and techniques used in sales, business, professional and technical fields for the communication of information. Special emphasis on technological resources for corporate communication.

COMM 312. Persuasion. 4 Units.
Study and application of rhetorical, social-psychological and mass behavior principles.

COMM 320. Media History and Institutions. 4 Units.
Prerequisites: COMM 200
A historical examination of media institutions prominent in contemporary culture. Particular attention paid to media industry development and policies and processes of media production, past and present.

COMM 321. Media and Culture. 4 Units.
Prerequisites: completion of COMM 320 or consent of instructor
Analysis of media texts and products as they relate to issues of social impact, identity, representation and economics.

COMM 330. Nonverbal Communication. 4 Units.
Theoretical and applied study of nonverbal communication in the shaping of human communication interactions. Emphasis on the major functions, purposes, and uses of nonverbal communication in a socio-culturally diverse society.

COMM 331. Communication for Training Programs. 4 Units.
Techniques and functions of training programs in professional and technical settings.

COMM 334. Travel Feature Writing. 4 Units.
Mastery of essay, service and destination travel writing, among other travel writing forms. Interpreting, reporting, researching, organizing, drafting and editing travel writing during summer study-abroad program jointly administered by communication studies at CSUSB and communication at CSU Fullerton.

COMM 335. Introduction to Digital Video Editing. 4 Units.
Theory and practice of digital video editing. Developing the narrative language of the live action material, whether fictional, documentary, or musical; composing effective visual/sound design; and establishing pace and rhythm in editing. Training in software applications for moving image editing, program titling, and visual effects. Materials fee required.

COMM 341. Public Relations Theory and Principles. 4 Units.
Introduction to the theoretical perspectives that form the foundation of public relations. Perspectives and principles of the public relations profession in multiple settings. Historical perspectives, current and future trends, and career opportunities explored.
COMM 342. Publication Design and Makeup. 4 Units.
Prerequisites: COMM 240
Designing newspaper, magazine and online publications. Includes concept development, planning and composition, typo-graphics, infographics, mastheads, illustration, and desktop publishing. Ethical considerations discussed.

COMM 343. Nonfiction Reporting and Writing. 4 Units.
Prerequisites: COMM 240
Methods and procedures for reporting and writing long nonfiction in both public and private sectors.

COMM 344. Public Relations Communication. 4 Units.
Prerequisites: COMM 240 and COMM 341 or consent of instructor
Application of public relations theory and principles through the development of public relations communication production skills: message construction and delivery in written, verbal, and visual communication. Includes special events and other communication components used by public relations professionals.

COMM 345. Advanced TV and Video Production. 5 Units.
Prerequisites: COMM 245 with a grade of B (3.0) or better
Advanced techniques and aesthetics of television and video studio production, with emphasis on multicamera shooting and switcher effects. Introduction to video editing and postproduction processes. Four hours lecture and three hours laboratory.

COMM 346. TV and Video Field Production. 5 Units.
Prerequisites: COMM 345 with a grade of B (3.0) or better
Instruction in the use of portable video equipment for use in field and remote production, as well as postproduction processes associated with remote production. Nonfiction applications and theory will be emphasized. Four hours lecture and three hours laboratory.

COMM 347. Fundamentals of Screenwriting. 4 Units.
Focus will be on the screenplay, including structure, characters, dialogue, scene development, conflict and theme. Attention will be given to narrative structure and storytelling for film.

COMM 348. Television News Writing and Reporting. 4 Units.
Reporting and writing for television news and community programming. Will include writing and editing a newscast, field reporting and research techniques, and writing for visual production.

COMM 349. Online Reporting and Writing. 4 Units.
Prerequisites: COMM 240
Advanced writing of online journalism, including reporting, researching, writing and editing of articles for various beats or specialties, including politics, criminal justice, environment, entertainment and arts, sports and business. Materials fee required.

COMM 350. Online Journalism Production. 4 Units.
Prerequisites: COMM 240
Accelerated multimedia design and production of current online journalism. Online storytelling; website planning, organization and production; and creation of comprehensive multimedia news packages combining videography, stills, sound; and written broadcast, online, and print content. Current issues in online publishing and ethics. Materials fee required.

COMM 352. Entertainment Media Management. 4 Units.
Prerequisites: COMM 320, MGMT 302, or consent of instructor
Examines issues in the management of film, radio, television, and internet-based entertainment media in the context of a rapidly evolving entertainment industry environment.

COMM 354. Public Relations Communication. 4 Units.
Prerequisites: COMM 240 and COMM 341 or consent of instructor
Application of public relations theory and principles through the development of public relations communication production skills: message construction and delivery in written, verbal, and visual communication. Includes special events and other communication components used by public relations professionals.

COMM 355. Advanced TV and Video Production. 5 Units.
Prerequisites: COMM 245 with a grade of B (3.0) or better
Advanced techniques and aesthetics of television and video studio production, with emphasis on multicamera shooting and switcher effects. Introduction to video editing and postproduction processes. Four hours lecture and three hours laboratory.

COMM 356. TV and Video Field Production. 5 Units.
Prerequisites: COMM 345 with a grade of B (3.0) or better
Instruction in the use of portable video equipment for use in field and remote production, as well as postproduction processes associated with remote production. Nonfiction applications and theory will be emphasized. Four hours lecture and three hours laboratory.

COMM 357. Fundamentals of Screenwriting. 4 Units.
Focus will be on the screenplay, including structure, characters, dialogue, scene development, conflict and theme. Attention will be given to narrative structure and storytelling for film.

COMM 358. Television News Writing and Reporting. 4 Units.
Reporting and writing for television news and community programming. Will include writing and editing a newscast, field reporting and research techniques, and writing for visual production.

COMM 359. Online Reporting and Writing. 4 Units.
Prerequisites: COMM 240
Advanced writing of online journalism, including reporting, researching, writing and editing of articles for various beats or specialties, including politics, criminal justice, environment, entertainment and arts, sports and business. Materials fee required.
COMM 387. Digital Audio/Radio Production. 4 Units.
Prerequisites: COMM 243B or consent of instructor
Techniques and principles of digital audio recording, editing, mixing for radio programming such as newscasts, commercials, public service announcements and promotional announcements. Three hours lecture and two hours laboratory. Materials fee required.

COMM 388. Topics in Intercultural Communication. 4 Units.
Special topics in intercultural communication. May be repeated for credit as topics change.

COMM 399A. Community Service Project. 1 Unit.
Prerequisites: departmental approval of a written application submitted in advance of the quarter in which the course is to be taken
Credit for applying skills in the area of communication to community service tasks in such agencies as governmental, social services, and educational institutions. May be repeated for a total of two units. For the practicum courses of COMM 243, COMM 382, COMM 399 and COMM 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 399B. Community Service Project. 2 Units.
Prerequisites: departmental approval of a written application submitted in advance of the quarter in which the course is to be taken
Credit for applying skills in the area of communication to community service tasks in such agencies as governmental, social services, and educational institutions. May be repeated for a total of two units. For the practicum courses of COMM 243, COMM 382, COMM 399 and COMM 444, no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 400. Communication Research Methodology. 4 Units.
Prerequisites: COMM 200, 304 and 306
Study and application of basic historical, descriptive, critical and experimental research skills unique to communication. Data analysis. Includes ethical considerations of communication research.

COMM 401. Gender, Race and Media. 4 Units.
(GE=G2)
Critical and historical examination of images and representations of gender and race in the mass media. Course focuses primarily on film, television, advertising, and the press.

COMM 402. Ethnography of Communication. 4 Units.
Prerequisites: COMM 302 and 304 or equivalent or consent of instructor
Ethnographic frameworks and principles for conducting research on communication within and across cultural boundaries. Includes focus on case studies, interviewing and field work.

COMM 403. Interpersonal Relations. 4 Units.
An overview and examination of current concepts, issues and research in the study of human relationships. Primary focus on relational development, maintenance and disengagement in a variety of contexts.

COMM 405. Media Effects. 4 Units.
History of research in understanding media effects on individuals and society.

COMM 409. Latina/os, Media and Culture. 4 Units.
Examines mass media representations of and by Latina/os in the United States and how these representations construct culture and society. Formerly a topic under COMM 584.

COMM 410. Asian Media and Culture. 4 Units.
Critical survey of Asian popular media and their relevance to Asian cultures. Explores Asian films, TV programs, print media, digital media and the extent to which they represent Asian cultures. Topics include (but not limited to) Japanese animation, Chinese martial arts genre, Bollywood films, Korean TB soap operas, and Asian cybercultures.

COMM 411. Gender and Communication. 4 Units.
A critical and sociological examination of how gender is socialized, constructed, communicated and performed in various communicative contexts.

COMM 415. Advertising as Social Communication. 4 Units.
Theories of advertising: social, political and economic roles in modern society.

COMM 421. Organizational Communication. 4 Units.
Study of current organizational communication theory and application to the management of communication within the organization.

COMM 422. Communication and Conflict. 4 Units.
Communication theories and models relevant to analyzing and understanding the causes, functions, styles, and effects of conflict. The skills of negotiation and third party intervention in conflict resolution.

COMM 424. Film Analysis. 4 Units.
Analysis of films using various theoretical frames. Emphasis on understanding and interpreting filmmakers’ uses of form and style in picture and sound, including within-frame composition, image juxtaposition through editing, and sound design.

COMM 425. Film and New Media. 4 Units.
Surveys theories, artistic movements and cultural artifacts that helped set the stage for incorporating new technologies into film production, making the transition to new delivery platforms, and creating a new, post-humanist consciousness in spectators.

COMM 431. Classroom Communication. 4 Units.
Prerequisites: COMM 120 or equivalent
Communication skills in instructional settings, including strategies to facilitate understanding and analysis of classroom behavioral models.

COMM 441. Interviewing. 4 Units.
Prerequisites: COMM 120 or equivalent
Interviewing in formal and informal settings. Understanding of employment, journalistic, informative and persuasive interviews.
COMM 442. Public Relations Campaigns. 4 Units.
Prerequisites: COMM 344
Advanced course in public relations that focuses on informational and persuasive communication campaigns to achieve commercial, political and social goals. Emphasis on case analysis and campaign development and campaign implementation.

COMM 444A. Advanced Communication Practicum: Television. 3 Units.
Advanced application of communication theory and methods. COMM 243A, COMM 243B, COMM 243D, COMM 382, COMM 444A, COMM 444B and COMM 444D may each be taken twice for credit, but no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 444B. Advanced Communication Practicum: Research. 3 Units.
Prerequisites: COMM 306
Advanced application of communication theory and methods. COMM 243A, COMM 243B, COMM 243D, COMM 382, COMM 444A, COMM 444B and COMM 444D may each be taken twice for credit, but no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 444C. Advanced Communication Practicum: Research. 2 Units.
Prerequisites: COMM 306
Advanced application of communication theory and methods. COMM 243A, COMM 243B, COMM 243D, COMM 382, COMM 444A, COMM 444B and COMM 444D may each be taken twice for credit, but no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 444D. Advanced Communication Practicum: Mentoring. 3 Units.
Prerequisites: COMM 225, COMM 331 or COMM 403 or equivalent or permission of instructor
Advanced application of communication theory and methods. COMM 243A, COMM 243B, COMM 243D, COMM 382, COMM 444A, COMM 444B and COMM 444D may each be taken twice for credit, but no more than nine total units from any combination of these courses may be applied toward the major. Graded credit/no credit.

COMM 447. Italian Cinema. 4 Units.
Historical, theoretical and interpretive approaches to Italian cinema, from postwar Neo-realist to Post-modernist millennial era.

COMM 448. Documentary Production. 4 Units.
Prerequisites: COMM 245, 345 and 346
Digital video documentary production course with emphasis on research and pre-production planning, shooting, and editing through lectures, workshops, screenings and field production. Working in crews, students plan, shoot and finish short documentary projects. Recommended that students have completed a draft treatment for a short documentary before the course begins.

COMM 449. Fiction Production. 4 Units.
Prerequisites: COMM 245, 345, and 346
Fiction/dramatic digital video documentary production course with emphasis on producing, shooting, lighting and sound recording through lectures, workshops, screenings and field production. Working in crews, students plan, shoot and edit fiction projects. Recommended that students have completed a draft treatment for a fiction short before the course begins.

COMM 450. Media Audiences. 4 Units.
Methods used for understanding the relationship between media producers, the audience, and other social forces.

COMM 471. International Communication. 4 Units.
Political, economic, and cultural analysis of the structure, context, and impact of communication across national boundaries, including news, entertainment, advertising, corporate communication, transborder data flows and the Internet.

COMM 481. History and Development of Documentary. 4 Units.
Examination of the historical background, economic development, and social influences of documentaries. Theories of cultural representation, rhetorical strategies, and ethical considerations will be studied, with particular emphasis on their application to alternative and experimental documentary forms.

COMM 487. Media Sex and Violence. 4 Units.
Critical and empirical examination of the practices and consequences of portraying human aggression and sexuality in the mass media including television, movies, magazines, video games, and the Internet. Formerly a topic under COMM 587.
COMM 507. Fundamentals of Social Media Management. 4 Units.
Explores how organizations use social media to shape conversations about their products, services, actions and positions. Examines issues of social media planning, campaign management and strategic communication on social media.

COMM 508. Political Economy of Social Media Communication. 4 Units.
Explores how ownership, market strategy and financing considerations on social media platforms intersect with policy and legal issues.

COMM 509. Audience Analysis in Social Media. 4 Units.
An overview of current tools for quantitative and qualitative audience analysis in social media. Explores how the strategic priorities of organizations and their social media strategies relate to campaign performance.

COMM 510. Social Media for Social Good. 4 Units.
Students learn theories, methods and strategies for using social media to grow personal capabilities and civic involvement and to enact change for the social good. Explores issues of ethics and social justice in social media communication.

COMM 511. Feminist Contributions to Communication Theories. 4 Units.
Examination of how diverse feminist theories contribute to an understanding of communication and rhetoric, integrating feminist theories with communication theories, and focusing on how gender distinctions influence our thinking and communication. Will explore diversity in feminism, including ethnicity, relational orientation, religion and class. Formerly a topic under COMM 584.

COMM 520. Advanced Marketing Communication. 4 Units.
Prerequisites: MKTG 305 or consent of instructor
Management of the marketing communication function with emphasis on the integration and coordination of its activities. Advertising, direct marketing, personal selling, public relations, sales promotion, and digital strategies are mastered with consideration given to global, ethical, and technology-related issues. Includes development of an integrated marketing communication plan. Offered as COMM 520 and MKTG 520, students may not receive credit for both.

COMM 522. Mediation Theory and Practice. 4 Units.
Prerequisites: COMM 422 or permission of instructor
Exploration of the theories, methods, and techniques of mediation as a collaborative process of resolving conflicts among individuals, groups, organizations, and nations. Third party intervention skills needed to serve as a mediator are developed through simulation exercises. Formerly a topic under COMM 585.

COMM 542. Issue Management and Crisis Communication. 4 Units.
Prerequisites: COMM 344 or equivalent or consent of instructor
Principles and methods of issue evaluation and crisis management in public relations communication including issue monitoring, issue analysis, policy options, program design, evaluation, and identification.

COMM 543. Environmental Communication. 4 Units.
Examination of communication involving environmental issues in national and international contexts. Emphasis is placed on the relationship between communication and environmental problems and issues. Formerly a topic under COMM 584.

COMM 550. Muslim Women in Media and Society. 4 Units.
A cross-disciplinary and case study-based approach to the subject of Muslim women across several different regions and contexts, focusing particularly on their position in society and their representation in media. Formerly a topic under COMM 365 and 565.

COMM 552. Mediation Theory and Practice. 4 Units.
Prerequisites: COMM 422 or permission of instructor
Exploration of the theories, methods, and techniques of mediation as a collaborative process of resolving conflicts among individuals, groups, organizations, and nations. Third party intervention skills needed to serve as a mediator are developed through simulation exercises. Formerly a topic under COMM 585.

COMM 554. Environmental Communication. 4 Units.
Examination of communication involving environmental issues in national and international contexts. Emphasis is placed on the relationship between communication and environmental problems and issues. Formerly a topic under COMM 584.

COMM 555. Muslim Women in Media and Society. 4 Units.
A cross-disciplinary and case study-based approach to the subject of Muslim women across several different regions and contexts, focusing particularly on their position in society and their representation in media. Formerly a topic under COMM 365 and 565.

COMM 556. Advanced Topics in Human and Organizational Communication. 4 Units.
Prerequisites: junior, senior or graduate standing
Advanced special topics in human and organizational communication. May be repeated for credit as topics change.

COMM 557. Advanced Topics in Public Relations. 4 Units.
Prerequisites: junior, senior or graduate standing
Advanced special topics in public relations. May be repeated for credit as topics change.

COMM 558. Culture and Ethnicity in Language. 4 Units.
Prerequisites: COMM 304 or equivalent
Critical examination of the way language shapes perceptions, behaviors, and attitudes about culture and ethnicity.

COMM 559. Contemporary Theories of Rhetoric. 4 Units.
Study of 20th century conceptualizations of rhetoric and intercultural communication with an emphasis on contemporary public discourse in different cultural settings.

COMM 560. Health Communication. 4 Units.
Examination of communication involving health issues in national and international contexts. Emphasis is placed on the relationship between communication and health problems and issues. Formerly a topic under COMM 584.

COMM 565. Advanced Topics in Human and Organizational Communication. 4 Units.
Prerequisites: junior, senior or graduate standing
Advanced special topics in human and organizational communication. May be repeated for credit as topics change.

COMM 566. Advanced Topics in Public Relations. 4 Units.
Prerequisites: junior, senior or graduate standing
Advanced special topics in public relations. May be repeated for credit as topics change.

COMM 567. Advanced Topics in Media Studies. 4 Units.
Prerequisites: junior, senior or graduate standing
Advanced special topics in media studies. May be repeated for credit as topics change.

COMM 568. Culture and Ethnicity in Language. 4 Units.
Prerequisites: COMM 304 or equivalent
Critical examination of the way language shapes perceptions, behaviors, and attitudes about culture and ethnicity.

COMM 569. Contemporary Theories of Rhetoric. 4 Units.
Study of 20th century conceptualizations of rhetoric and intercultural communication with an emphasis on contemporary public discourse in different cultural settings.

COMM 591B. Internship in Communication. 2 Units.
Prerequisites: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2.5; written consent from a supervising agency within which the internship will take place; departmental approval of a contract between the intern and the supervising agency to be filed the quarter prior to that in which the internship is to take place
Supervised work and study of communication processes in private and public settings. A total of ten units in COMM 591 may be applied toward graduation. Graded credit/no credit.
COMM 591C. Internship in Communication. 3 Units.
Prerequisites: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2.5; written consent from a supervising agency within which the internship will take place; departmental approval of a contract between the intern and the supervising agency to be filed the quarter prior to that in which the internship is to take place.
Supervised work and study of communication processes in private and public settings. A total of ten units in COMM 591 may be applied toward graduation. Graded credit/no credit.

COMM 591D. Internship in Communication. 4 Units.
Prerequisites: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2.5; written consent from a supervising agency within which the internship will take place; departmental approval of a contract between the intern and the supervising agency to be filed the quarter prior to that in which the internship is to take place.
Supervised work and study of communication processes in private and public settings. A total of ten units in COMM 591 may be applied toward graduation. Graded credit/no credit.

COMM 591E. Internship in Communication. 5 Units.
Prerequisites: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2.5; written consent from a supervising agency within which the internship will take place; departmental approval of a contract between the intern and the supervising agency to be filed the quarter prior to that in which the internship is to take place.
Supervised work and study of communication processes in private and public settings. A total of ten units in COMM 591 may be applied toward graduation. Graded credit/no credit.

COMM 593A. Communication Approaches to Area Studies: Africa. 4 Units.
Prerequisites: COMM 304 or equivalent
Examination of communication practices and issues within world regions and among cultural groups which may include the role of communication in political, economic, social and cultural conflict and change. May be repeated for credit as focus area changes.

COMM 593B. Communication Approaches to Area Studies: Asia-Pacific. 4 Units.
Prerequisites: COMM 304 or equivalent
Examination of communication practices and issues within world regions and among cultural groups which may include the role of communication in political, economic, social and cultural conflict and change. May be repeated for credit as focus area changes.

COMM 593C. Communication Approaches to Area Studies: Europe. 4 Units.
Prerequisites: COMM 304 or equivalent
Examination of communication practices and issues within world regions and among cultural groups which may include the role of communication in political, economic, social and cultural conflict and change. May be repeated for credit as focus area changes.

COMM 593D. Communication Approaches to Area Studies: Latin America. 4 Units.
Prerequisites: COMM 304 or equivalent
Examination of communication practices and issues within world regions and among cultural groups which may include the role of communication in political, economic, social and cultural conflict and change. May be repeated for credit as focus area changes.

COMM 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0 (B), consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken, and junior or senior status
Special topics involving library research, experimental or field research, or media production. A total of 10 units in COMM 595 may be applied toward graduation.

COMM 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0 (B), consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken, and junior or senior status
Special topics involving library research, experimental or field research, or media production. A total of 10 units in COMM 595 may be applied toward graduation.

COMM 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0 (B), consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken, and junior or senior status
Special topics involving library research, experimental or field research, or media production. A total of 10 units in COMM 595 may be applied toward graduation.

COMM 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0 (B), consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken, and junior or senior status
Special topics involving library research, experimental or field research, or media production. A total of 10 units in COMM 595 may be applied toward graduation.

COMM 600. Introduction to Graduate Study. 4 Units.
Theory building in communication research. The assumptions, methods, perspectives and theoretical frameworks for advanced research in communication studies. Recommended for first quarter of graduate study, must be taken within first year.

COMM 601. Intercultural Communication Theories. 4 Units.
Study of the relationship between culture and communication with emphasis given to an examination of current quantitative and interpretative theory and research. Implications and applications to various kinds of human relationships and various aspects of those relationships (e.g. interpersonal, organizational, national, international and mediated). Recommended for first quarter of graduate study, must be taken within the first year.
COMM 602. Quantitative Research Methods in Communication Studies. 4 Units.
Prerequisites: COMM 400 and COMM 600, or consent of department
Study, design, data collection, and appropriate multivariate procedures for research through behavioral/quantitative approaches. Emphasis on research conducted in multicultural settings. Extensive work designing research instruments and employing computerized statistical applications.

COMM 603. Qualitative Research Methods in Communication. 4 Units.
Prerequisites: COMM 600 or 605
Survey of study design, data collection and appropriate procedures for research through qualitative and interpretive approaches. Emphasis on research conducted in multicultural settings. Advanced study in such methods include ethnography, interviewing, discourse analysis, and rhetorical and cultural criticism.

COMM 605. Introduction to Graduate Studies in Integrated Marketing Communication. 4 Units.
Theory building in integrated marketing communication research. The assumptions, methods, perspectives, theoretical frameworks and case study analysis for advanced research in communication studies, marketing and advertising. Recommended for first quarter of graduate study, must be taken within first year.

COMM 609. Digital Culture. 4 Units.
Prerequisites: COMM 309 or consent of department
Examination of the interactions among communication technology, new media, and culture with particular focus on intercultural and global communication. (4 units.

COMM 610. Media and Intercultural Relations. 4 Units.
Focus on how media and intercultural communication shape one another, including the relationship between the public and private processes of technologically-mediated interaction, transformations in interpersonal relations, and the social construction of contemporary discourses and lifestyles.

COMM 620. Communication in Multicultural Organizations. 4 Units.
Study and analysis of communication patterns in multinational and multicultural organizational settings. Analysis of intercultural communication theories as sources of explanations and strategies for developing and managing a culturally diverse organization.

COMM 630. Instructional Communication. 4 Units.
Study of educational philosophies, models, approaches, and research in teaching communication, to include course design and student evaluation instruments with emphasis on application of instructional strategies in their teaching presentations. May not be taken in lieu of EDUC 603.

COMM 670. Seminar in Conflict and Conflict Resolution. 4 Units.
Survey course on the origins, history, models and theories of conflict and conflict resolution. Includes cultural issues, nonviolent social movements, and the developing field of online conflict resolution.

COMM 671. International Communication. 4 Units.
Advanced study of issues in international communication in the context of globalization. Examination of the political, economic and cultural impact of communication across national boundaries, including news, entertainment, advertising, corporate communication, transborder data flows, and the Internet.

COMM 672. Intercultural Peacemaking. 4 Units.
Study of communication strategies for international and domestic peacemaking among diverse groups and interests.

COMM 673. Advanced Mediation Skills. 4 Units.
Prerequisites: COMM 522 or equivalent
Application of selected mediation theories and skills such as group facilitation, group development, and language analysis.

COMM 675. Strategic Planning in Public Relations. 4 Units.
Applied research in public relations. Involves conducting research within and for organizations to help them achieve their public relations goals. Course takes a strategic management perspective that is goal oriented and requires planning and research.

COMM 676. Course in Advanced Media and Public Relations. 4 Units.
Prerequisites: COMM 441 or equivalent
In-depth study of advanced topics in media and public relations with an emphasis on research and case study analysis for advanced research in communication studies, marketing and advertising.

COMM 677. Internship in Communication. 4 Units.
For students appointed as teaching associates in communication studies. 1 Unit.

COMM 678. Practicum for Teaching Associates in Communication Studies. 1 Unit.
Prerequisites: COMM 441 or equivalent
Intensive study of selected topics in organizational communication. May be repeated for credit as topics change.

COMM 680. Seminar in Organizational Communication. 4 Units.
Prerequisites: consent of department
Study of study design, data collection and appropriate procedures for research through qualitative and interpretive approaches. Emphasis on research conducted in multicultural settings. Advanced study in such methods include ethnography, interviewing, discourse analysis, and rhetorical and cultural criticism.

COMM 690. Seminar in Organizational Communication. 4 Units.
Prerequisites: consent of department
Study of study design, data collection and appropriate procedures for research through qualitative and interpretive approaches. Emphasis on research conducted in multicultural settings. Advanced study in such methods include ethnography, interviewing, discourse analysis, and rhetorical and cultural criticism.

COMM 691. Seminar in Public Relations. 4 Units.
Prerequisites: COMM 341, or equivalent, or consent of instructor
Intensive study of selected topics in public relations. May be repeated once for credit as topics change.
COMM 692. Seminar in Interpersonal Communication. 4 Units.
Intensive study of selected topics in interpersonal communication. May be repeated for credit as topics change.

COMM 693. Seminar in Media Studies. 4 Units.
Intensive study of selected topics in media studies. May be repeated once for credit as topics change.

COMM 694. Seminar in Intercultural Communication. 4 Units.
Prerequisites: COMM 304 or equivalent
Intensive study of selected topics in intercultural communication. May be repeated for credit as topics change.

COMM 695B. Graduate Independent Study. 2 Units.
Prerequisites: approval by the student's committee
Advanced reading/research on a specific topic relevant to the students program of study.

COMM 695C. Graduate Independent Study. 3 Units.
Prerequisites: approval by the students committee
Advanced reading/research on a specific topic relevant to the students program of study.

COMM 695D. Graduate Independent Study. 4 Units.
Prerequisites: approval by the students committee
Advanced reading/research on a specific topic relevant to the students program of study.

COMM 695E. Graduate Independent Study. 5 Units.
Prerequisites: approval by the students committee
Advanced reading/research on a specific topic relevant to the students program of study.

COMM 696B. Practicum in Intercultural Living. 2 Units.
Prerequisites: COMM 602 or 603, approval of students committee; graduate level status with a minimum overall grade point average of 3.0. Student must secure a written agreement with a sponsoring agency and departmental approval of that agreement
Students will complete academic assignments based on, and during residence in a domestic or foreign community other than their own. Graded credit/no credit.

COMM 696C. Practicum in Intercultural Living. 3 Units.
Prerequisites: COMM 602 or 603, approval of students committee; graduate level status with a minimum overall grade point average of 3.0. Student must secure a written agreement with a sponsoring agency and departmental approval of that agreement
Students will complete academic assignments based on, and during residence in a domestic or foreign community other than their own. Graded credit/no credit.

COMM 696D. Practicum in Intercultural Living. 4 Units.
Prerequisites: COMM 602 or 603, approval of students committee; graduate level status with a minimum overall grade point average of 3.0. Student must secure a written agreement with a sponsoring agency and departmental approval of that agreement
Students will complete academic assignments based on, and during residence in a domestic or foreign community other than their own. Graded credit/no credit.

COMM 696E. Practicum in Intercultural Living. 5 Units.
Prerequisites: COMM 602 or 603, approval of students committee; graduate level status with a minimum overall grade point average of 3.0. Student must secure a written agreement with a sponsoring agency and departmental approval of that agreement
Students will complete academic assignments based on, and during residence in a domestic or foreign community other than their own. Graded credit/no credit.

COMM 697B. Internship in Communication. 2 Units.
Prerequisites: approval of students committee; graduate level status with a minimum overall grade point average of 3.0 (B). Student must secure a written agreement with the supervising agency in which the internship will take place and departmental approval of that agreement
Supervised work experience in which the student completes academic assignments integrated with off-campus paid or volunteer activities. Graded credit/no credit. A maximum of five units of credit in COMM 697 will be accepted toward the M.A. degree.

COMM 697C. Internship in Communication. 3 Units.
Prerequisites: approval of students committee; graduate level status with a minimum overall grade point average of 3.0 (B). Student must secure a written agreement with the supervising agency in which the internship will take place and departmental approval of that agreement
Supervised work experience in which the student completes academic assignments integrated with off-campus paid or volunteer activities. Graded credit/no credit. A maximum of five units of credit in COMM 697 will be accepted toward the M.A. degree.

COMM 697D. Internship in Communication. 4 Units.
Prerequisites: approval of students committee; graduate level status with a minimum overall grade point average of 3.0 (B). Student must secure a written agreement with the supervising agency in which the internship will take place and departmental approval of that agreement
Supervised work experience in which the student completes academic assignments integrated with off-campus paid or volunteer activities. Graded credit/no credit. A maximum of five units of credit in COMM 697 will be accepted toward the M.A. degree.
COMM 697E. Internship in Communication. 5 Units.
Prerequisites: approval of students committee; graduate level status with a minimum overall grade point average of 3.0 (B). Student must secure a written agreement with the supervising agency in which the internship will take place and departmental approval of that agreement. Supervised work experience in which the student completes academic assignments integrated with off-campus paid or volunteer activities. Graded credit/no credit. A maximum of five units of credit in COMM 697 will be accepted toward the M.A. degree.

COMM 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
COMM 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 699. Thesis. 5 Units.
Prerequisites: approval of prospectus by the students advisory committee, advancement to candidacy, completion of all other required courses for the M.A. or consent of department
Independent graduate research culminating in a written thesis.

CSE 122. Bioinformatics. 2 Units.
Introduction to natural sciences and its interplay with computer science. Description of bioinformatics and the application of computer science and problems in the life sciences.

CSE 125. Programming in Visual Basic. 4 Units.
Programming techniques in an event-driven and object-oriented environment. Graphical user interfaces, controls, properties, procedures, and functions. Multiple forms, menus, file access, and applications. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 129. Science, Computing and Society. 2 Units.
Understanding physical science in terms of information and information processing. Use of computer as both a tool and metaphor for understanding life, physics, and existence, and its implications and impact on society and ethics.

CSE 140. Introduction to Game Design. 2 Units.
Elements of games, including theme, game play and presentation. The process by which game concepts are transformed into actual computer games, including the use of scripting languages to incorporate sound and graphics into a game, design documents, project management, evaluation, game play parameters and artificial intelligence. Several examples will be used to demonstrate game design concepts and practice. One hour lecture and two hours laboratory. Material fee required.

CSE 141. Introduction to Game Level Editing. 2 Units.
Basic concepts on level editing of games and how a game is fine-tuned and balanced to improve gameplay and fun. Use of a level editor to demonstrate application of physics and artificial intelligence is included. One hour lecture and two hours laboratory. Materials fee required.

CSE 201. Computer Science I. 4 Units.
Prerequisites: Some prior computer programming experience, or CSE 125
Computer software design, implementation, methods and environments using a current high-level language. Survey of computers, applications and other areas of computer science. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 202. Computer Science II. 4 Units.
Prerequisites: CSE 201 with a grade of C or better
Analysis of problems and the formulation, documentation and implementation of their solutions; an introduction to data structures with abstract data types; software engineering principles for both individual and group projects. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 208. Introduction to Computer Engineering Design. 2 Units.
Prerequisites: Consent of Instructor (GE=B4)
Introduction to the principles in engineering design and design issues of sustainability, environmental impact, human interface, accessibility and inclusive of a product, and effectiveness of the technique. One hour lecture and three hours laboratory. Materials fee required. Formerly CSE 406, CSE 152 and PHYS 152.

CSE 292. JAVA Programming. 4 Units.
Prerequisites: prior course in computer programming
Study of object oriented programming and techniques using JAVA programming language.

CSE 303. Computer Engineering Design. 1 Unit.
Prerequisites: CSE 208
Guided engineering design activity on an ongoing real world problem. Three hours activity. Must be repeated for a total of seven units.

CSE 308. Computer Engineering Design. 4 Units.
Prerequisites: CSE 208
Guided engineering design activity on an ongoing real world problem. Three hours lecture and three hours laboratory. Formerly CSE 407 and CSE 303.
CSE 310. Digital Logic. 5 Units.
Prerequisites: CSE 202 and MATH 272
Boolean algebra, flip-flops, combinational and sequential circuits, arithmetic-logic units, memory devices, and I/O peripherals. Laboratory experiments include bread-board assembly of finite state machine circuits, registers and arithmetic-logic processors. Four hours lecture and three hours laboratory. Materials fee required.

CSE 311. Advanced Digital Design. 4 Units.
Prerequisites: CSE 310
Transistor circuits, MOS and CMOS characteristics, design of logic families, CPLDs and FPGAs, timing, propagation, hazards, bistability and metastability, ASM charts, skew, reliability and testing, and transmission line behavior. Materials fee required. Three hours discussion and three hours laboratory.

CSE 313. Machine Organization. 4 Units.
Prerequisites: CSE 202
Typical components of von Neumann computer architectures; their organization, interrelated activities and control are emphasized and demonstrated using low-level languages. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 320. Programming Languages. 4 Units.
Prerequisites: CSE 202
Topics include formal language specification, data types and their implementation, abstract mechanisms, control structures, run-time representations and storage management. Several high-level languages will be examined. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 322. Web Page Programming. 4 Units.
Prerequisites: CSE 202 or consent of instructor
Current protocols, technology, languages, and methodologies for the browser side of web-based systems; performance issues; human factors, page and site design. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 330. Data Structures. 4 Units.
Prerequisites: CSE 202 with grade of C or better and MATH 272 or MATH 372
Abstract data structures including lists, stacks, queues and trees; their storage allocation and associated application algorithms. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 335. Signals and Systems. 4 Units.
Prerequisites: MATH 213 and MATH 331
Fundamentals of signal and system analysis, including representations of discrete-time and continuous-time signals and representations of linear, time-invariant systems. Topics include complex exponentials and geometrics, differential equations, Fourier representation, Laplace and Z transforms, frequency responses, etc.

CSE 360. Script Programming. 4 Units.
Prerequisites: CSE 201
Getting started; terminal types; e-mail; command line and GUI interfaces; advanced editing; macros; text processing and programmers tools. Two hours lecture and four hours activity laboratory. Materials fee required.

CSE 365. Systems Administration. 4 Units.
Prerequisites: CSE 201
Responsibilities and skills of the system administrator; managing accounts, system files and mail; security, reliability and backups; emergencies; ethics and usability. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 366. Systems Networking. 4 Units.
Prerequisites: CSE 365
Planning and configuring networks; file transfer; network file servers; bridges and routers. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 401. Contemporary Computer Architecture. 5 Units.
Prerequisites: CSE 310 and CSE 313
Design methodology; processor units and control units of von Neumann computer architectures; RISC architectures, including pipelining and parallel-processing. Laboratory experiments consist of the use of computer-aided design tools for VLSI layout and simulation. Four hours lecture and three hours laboratory. Materials fee required.

CSE 403. Circuit Design and Analysis. 4 Units.
Prerequisites: CSE 310, MATH 251, and PHYS 150
Analysis and design of digital and analog circuits, active and passive elements, diodes, FET and BJT transistor circuits, introduction to VLSI, two port networks, transmission lines, three phase circuits, filtering circuits in continuous and discrete time, Laplace and Z transform analysis and design, spectrum and power characterization of signals and systems. Three hours lecture and three hours activity laboratory. Materials fee required.

CSE 405. Server Programming. 4 Units.
Prerequisites: CSE 322
Current operating system technology; languages and methodologies of controlling servers; performance analysis; interfaces to databases; security, monitoring, and maintainability. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 408. Sustainable Engineering Design. 4 Units.
Prerequisites: CSE 308 (GE=B5)
Guided engineering design project on an ongoing real world problem. Examines issues of sustainability, energy, pollution, ethics, accessibility and effects of products on various stakeholders, analysis of designs and failure modes, as well as technical report writing and presentations. Three hours lecture and three hours laboratory. Materials fee required.

CSE 420. Computer Graphics. 4 Units.
Prerequisites: CSE 330 and MATH 331
Survey of computer graphics hardware. Topics include animation, two-dimensional and three-dimensional transformation, hidden surface removal algorithm, business charts and applications.

CSE 431. Algorithm Analysis. 4 Units.
Prerequisites: CSE 330 and MATH 372
Analysis and design of algorithms, including time and space complexity, design methodologies, and taxonomic classification of problems. Formerly CSCI 331.
CSE 440. Game Design. 4 Units.
Prerequisites: CSE 330
Study of game design concepts and game design specification. Topics include principles of user interface layout, game design techniques, game design methodologies, artificial intelligence in gaming, and game design tools.

CSE 441. Game Programming. 4 Units.
Prerequisites: CSE 330
Techniques and technology used to produce games. Topics include game engine design, mathematical foundations of game programming, game physics, artificial intelligence, and application of software engineering principles to a game development environment. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 455. Software Engineering. 4 Units.
Prerequisites: CSE 330
Advanced techniques and technology used to produce large software systems. Laboratory work with a software development environment. Three hours lecture and three hours laboratory. Materials fee required.

CSE 456. Embedded Systems. 4 Units.
Prerequisites: CSE 310 and CSE 313
Theory and practice of software and hardware co-design, including microcontrollers, embedded programs, real-time operating systems, and low-resources system design. Three Hours lecture and two hours activity laboratory. Materials fee required.

CSE 460. Operating Systems. 4 Units.
Prerequisites: CSE 313 and CSE 330
An overview of operating systems. Principles of resource management and control. Multiprogramming, distributed systems and multiprocessor systems will be included. Three Hours lecture and two hours activity laboratory. Materials fee required.

CSE 461. Advanced Operating Systems. 4 Units.
Prerequisites: CSE 460
File systems, I/O systems, Security Distributed systems. Three hours lecture and two hours activity laboratory. Materials fee required. Formerly CSE 350, students may not receive credit for both.

CSE 482. Senior Interdisciplinary Project. 4 Units.
Prerequisites: consent of the department
Analysis, design and implementation of a software system that solves an interdisciplinary problem related to the student's chosen program option or minor field of study. Presentation techniques and communication skills to support project planning and execution.

CSE 488. Ethics and the Computing Professional. 2 Units.
Prerequisites: senior standing
Professionalism, ethics, legal issues and the social impact and role of computer technology.

CSE 489. Senior Seminar. 2 Units.
Prerequisites: completion of all required 300-level computer science courses for the B.S. in Computer Science degree
A series of weekly seminars covering a wide range of computer science topics and formats including presentations from industry and university personnel, and students regarding projects and research work. Graded credit/no credit.
CSE 516. Machine Learning. 4 Units.
Prerequisites: CSE 330
Theory and practice of machine learning techniques, including supervised learning, unsupervised learning, reinforcement learning, and learning in multi-agent systems. Three hours lecture and two hours activity laboratory. Formerly a topic under CSE 594, students may not receive credit for both CSE 516 and CSE 594 for those terms in which Machine Learning was the topic. Materials fee required.

CSE 520. Advanced Computer Graphics. 4 Units.
Prerequisites: CSE 420
Advanced computer graphics concepts, theory and implementation techniques. Topics include shading models, parametric curves and surfaces, hidden edge and surface removal, and anti-aliasing.

CSE 521. Field Programmable Gate Array Design. 4 Units.
Prerequisites: CSE 401
FPGA design rules, timing, latency, optimizations, ASIC conversion, state machines, implementing arithmetic, counters, memory, error detection and correction, simulation, and layout. Materials fee required. Three hours lecture and three hours laboratory.

CSE 524. Supercomputing and Visualization. 4 Units.
Prerequisites: CSE 330 or consent of instructor
Design and implementation of scientific applications on high performance computers emphasizing graphics and visualization techniques. Topics include parallel algorithm development, multiprocessor and multicomputer programming, and real-time visualization programming of computationally intensive problems in the sciences.

CSE 525. Parallel Algorithms and Programming. 4 Units.
Prerequisites: CSE 401
Topics include algorithm design, analysis, and programming of high performance computers. Also covered are control-parallel versus data-parallel approaches, PRAM algorithm design, and selected parallel programming languages. Four hours lecture.

CSE 530. Data Communications and Networks. 4 Units.
Prerequisites: CSE 313 or 598, and 330
Topics include baseband and broadband signals and modulation schemes. Error detecting and correcting codes, ISO protocol standard, packet switching and various local network schemes. Three hours lecture and two hours activity laboratory. Materials fee required. Formerly CSE 430.

CSE 531. High Performance Networks. 4 Units.
Prerequisites: CSE 530 or consent of instructor
High performance network methodologies. Methods to develop network performance measures and models. Introduction to path cost estimation and service reliability issues. Three hours lecture and two hours laboratory. Materials fee required.

CSE 535. Numerical Computation. 4 Units.
Prerequisites: MATH 331
Introduction to scientific computing. Algorithms related to approximations, zero findings, numerical differentiation and integration, data fitting and interpolation, nonlinear equations. Three hours lecture and two hours laboratory. Materials fee required.

CSE 541. Robotics and Control. 4 Units.
Prerequisites: CSE 310 and CSE 313
Theory and practice of robotic modeling, control, programming, and construction. Three hours lecture and three hours laboratory. Materials fee required.

CSE 550. Advanced Bioinformatics I: Sequence Analysis. 4 Units.
Prerequisites: CSE 431 and senior standing or consent of instructor
Pairwise and multiple sequence alignment of strings and relations to biology. Building phylogenetic trees from sequences. Predicting and analyzing RNA secondary structure. Three hours discussion and two hours activity.

CSE 551. Advanced Bioinformatics II: Numerical Modeling. 4 Units.
Prerequisites: CSE 535
Numerical techniques for the modeling and simulation of biological and chemical systems using ordinary and partial differential equations, and stochastic variables. Three hours discussion and two hours activity.

CSE 555. Software Design and Architecture. 4 Units.
Prerequisites: CSE 330
Common patterns of architectural design, tradeoff analysis at the architectural level, domain-specific architectures, automatic support for architectural design, and formal methods of software architecture. Three hours lecture and two hours laboratory.

CSE 557. Computer Systems in Organizations. 4 Units.
Prerequisites: CSE 330, MATH 262, or consent of instructor
General system and information theory. Modeling organizations, activities, hardware, data, and software using current techniques with emphasis on human-computer interaction, systems engineering and project planning. Students will study parts of actual organizations. Formerly CSE 372.

CSE 558. Requirements Analysis and Design. 4 Units.
Prerequisites: CSE 330 or consent of instructor
Requirements analysis, including organizational objectives, functions, use cases, and domain models. The use of objects, patterns, objects and layers in architectural design specifications. Includes analysis, design and implementation of a software system using an agile software process. Three hours lecture and two hours activity laboratory. Materials fee required. Formerly CSE 375.

CSE 565. Systems Programming. 4 Units.
Prerequisites: CSE 460
Concepts of, and implementation techniques for systems software such as assemblers, editors, interpreters, linkers, loaders and operating systems. Formerly CSE 465.
CSE 570. Compliers. 4 Units.
Prerequisites: CSE 313 and CSE 330
Interpreter and compiler structures. Topics include symbol tables, lexical and syntactic analyzers, and object code generation. Three hours lecture and two hours activity laboratory. Materials fee required. Formerly CSCI 470.

CSE 572. Database Systems. 4 Units.
Prerequisites: CSE 330
Basic concepts of database design and theory, including underlying storage structures and alternative approaches to database models (relational, object-relational, network and hierarchical). Hands-on applications with one or more commercial database management systems. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 575. Internship in Computer Science. 4 Units.
Prerequisites: a minimum grade point average of 3.0 and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken. Supervised work and study in private or public organizations. Graded credit/no credit.

CSE 580. Advanced Database Systems. 4 Units.
Prerequisites: CSE 572
Advanced study of components of general database systems and other topics such as implementation methods, query language design, reliability, integrity, performance measures, distributed database systems and database machines. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 594. Topics in Computer Science. 4 Units.
Prerequisites: CSE 330 or consent of instructor
An in-depth consideration of selected areas of computer science. May be repeated for credit as topics change. Formerly CSCI 494, credit may not be received twice for the same topic.

CSE 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Laboratory and/or library research conducted under the direction of a faculty member. A total of four units in CSE 595 may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors.

CSE 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Laboratory and/or library research conducted under the direction of a faculty member. A total of four units in CSE 595 may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors.

CSE 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Laboratory and/or library research conducted under the direction of a faculty member. A total of four units in CSE 595 may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors.

CSE 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Laboratory and/or library research conducted under the direction of a faculty member. A total of four units in CSE 595 may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors.

CSE 602. Computation and Complexity Theory. 4 Units.
Prerequisites: CSE 500 or consent of instructor
Theoretical foundations of computer science: deterministic and non-deterministic Turing machines, models of computation; recursive functions, Church's thesis and undecidable problems; complexity classes P, NP, CO-NP and PSPACE. May not be taken for credit by students who have received credit for CSE 501, CSE 546, CSE 646. Formerly CSE 600.

CSE 603. Advanced Computation and Complexity Theory. 4 Units.
Prerequisites: CSE 602 or consent of instructor
Advanced topics in theoretical foundations of computer science: models of computation; recursive functions; Church's thesis and undecidable problems; complexity classes P, NP, CO-NP and PSPACE. Formerly CSCI 601 and 646.

CSE 610. Modern Computer Architecture. 4 Units.
Prerequisites: CSE 401 or consent of instructor
Study of the elements and construction of advanced computer systems, including parallel systems, vector processors, network scheduling, pipelining, array processors, and systolic arrays. May not be taken for credit by students who have received credit for CSE 510. Three hours lecture and two hours laboratory. Materials fee required.

CSE 611. VLSI Circuit Design. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Fundamental design techniques for Very Large Scale Integrated (VLSI) circuits; physics of semi-conductor devices; design rules and circuit layouts; use of computer-aided design tools for design, layout and testing. Three hours lecture and two hours laboratory. Materials fee required.
CSE 620. Programming Languages Theory. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Theory of programming languages, including implementation details, the required machine and data structures needed for user interfaces, coded parallelism, distributed processing facilities, functional and object oriented programming languages. Three hours lecture and two hours laboratory. Materials fee required.

CSE 621. Contemporary Computer Graphics. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Theory and practice of modern graphics techniques. Topics include 3-D modeling, interaction, ray tracing, object representation, visualization, and animation techniques.

CSE 624. Distributed Computer Systems. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Open Systems Interconnection (OSI) transport, presentation and application layers; distributed control; access methods; reliability; heterogeneity; resilience; applications in network operating systems, distributed operating systems and distributed database systems.

CSE 625. Multiprocessor and Parallel Processing. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Tightly and loosely coupled multiprocessors; interconnection network; parallel programming languages; scheduling; problem decomposition; operating systems; performance; synchronization and communication; user-interface and programming environment; multiprocessor machine programming. May not be taken for credit by students who have received credit for CSE 525.

CSE 630. Theory of Algorithms and Their Analysis. 4 Units.
Prerequisites: CSE 431 or consent of instructor
Algorithmic techniques, construction, time and space complexities, properties of taxonomic classes; survey of processing algorithms for graphs, trees, sets, and sequences; algebraic, numeric and geometric analysis techniques; dynamic programming, randomized algorithms, parallel algorithms; NP.

CSE 631. Advanced Data Communications. 4 Units.
Prerequisites: CSE 530 or consent of instructor
Topics include high bandwidth networks, formal models of network performance, traffic and congestion control, formal routing theory, quality of service, and internet protocol suite adaptations to high bandwidth networks. May not be taken for credit by students who have received credit for CSE 531. Three hours lecture and two hours laboratory. Materials fee required.

CSE 634. Neural Networks. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Theory and applications of neural networks; current developments; perceptrons; Hopfield networks; self-organizing mappings and content-addressable memories; multi-layer networks.

CSE 635. Numerical Algorithms and Simulation. 4 Units.
Prerequisites: CSE 535 or equivalent
Scientific computing and simulation. Systems of liner equations, linear least squares, backward error analysis and numerical stability, stiff equations, simulation, sparse matrices. Three hours lecture and two hours laboratory. Materials fee required.

CSE 640. Artificial Intelligence. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Knowledge representations; heuristics; theory of problem solving; adaptive systems; natural language understanding; automatic theorem proving; learning and robotics systems. Three hours lecture and two hours laboratory.

CSE 655. Software Engineering Concepts. 4 Units.
Prerequisites: CSE 455, 555, or 556 or consent of instructor
Analyses of software requirements definitions, software systems design, implementation issues, verification and validation, and software maintenance techniques; rapid prototyping procedures; operational and transformational paradigms of software development; software engineering models and CASE tools including reverse engineering and module reusability concepts; applications in object-oriented programming languages. Three hours lecture and three hours laboratory. Materials fee required.

CSE 656. Formal Methods, Models and Languages. 4 Units.
Prerequisites: classified status
Applications of logic and mathematics in documenting problems, requirements, specifications, designs, and software. Formal modeling languages. Diagrammatic, algebraic, and tabular models. Model checking. Students prepare, check, and present models using techniques in the literature for a research paper. Students may not receive credit for both CSE 556 and 656. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 660. Operating Systems Concepts and Theory. 4 Units.
Prerequisites: CSE 460 or consent of instructor
Operating system concepts and scheduling practices, including security, real time, multiprocessing, resource sharing, distributed file systems and peripherals access scheduling; distributed processing environments and parallel processes. Three hours lecture and two hours laboratory. Materials fee required.

CSE 670. Compiler Design Theory. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor
Compiler design for block structures, general purpose programming languages; automatic generation of lexical analyzers and parsers; error detection and correction; code optimization. Three hours lecture and two hours laboratory. Materials fee required.
CSE 671. Advanced Compilers. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor. An introductory course in compilers is recommended. Intermediate code generation, optimization, object code generation and architecture and optimized compiler co-design.

CSE 680. Distributed Database Management Systems. 4 Units.
Prerequisites: graduate standing in computer science or consent of instructor. Distributed database issues including methods of data distribution, types of remote database access, concurrency management, extensions to Structured Query Language (SQL) for remote databases, cooperative processing, database machines and intelligent databases. May not be taken for credit by students who have received credit for CSE 580. Three hours lecture and two hours activity laboratory. Materials fee required.

CSE 689. Comprehensive Examination. 1 Unit.
Prerequisites: CSE 600, CSE 610, CSE 630, CSE 655, CSE 660 and consent of graduate coordinator. Unsupervised study in preparation of the comprehensive examination. Topics include the material covered in the core courses: formal language and automata theory, computer architecture, algorithms, software engineering, and operating systems. May be repeated only once. Graded credit/no credit.

CSE 690B. Masters Project. 2 Units.
Prerequisites: advancement to candidacy and consent of department major advisor. Independent graduate project conducted under the guidance of a major advisor; total of at least five units of CSE 690 must be taken in contiguous quarters.

CSE 690C. Masters Project. 3 Units.
Prerequisites: advancement to candidacy and consent of department major advisor. Independent graduate project conducted under the guidance of a major advisor; total of at least five units of CSE 690 must be taken in contiguous quarters.

CSE 690D. Masters Project. 4 Units.
Prerequisites: advancement to candidacy and consent of department major advisor. Independent graduate project conducted under the guidance of a major advisor; total of at least five units of CSE 690 must be taken in contiguous quarters.

CSE 690E. Masters Project. 5 Units.
Prerequisites: advancement to candidacy and consent of department major advisor. Independent graduate project conducted under the guidance of a major advisor; total of at least five units of CSE 690 must be taken in contiguous quarters.

CSE 695B. Graduate Independent Study. 2 Units.
Prerequisites: graduate standing in computer science, consent of instructor, and approval of a written proposal of the research by the department graduate program coordinator. Independent graduate research in computer science. A total of four units in this course may be applied toward the M.S. degree.

CSE 695C. Graduate Independent Study. 3 Units.
Prerequisites: graduate standing in computer science, consent of instructor, and approval of a written proposal of the research by the department graduate program coordinator. Independent graduate research in computer science. A total of four units in this course may be applied toward the M.S. degree.

CSE 695D. Graduate Independent Study. 4 Units.
Prerequisites: graduate standing in computer science, consent of instructor, and approval of a written proposal of the research by the department graduate program coordinator. Independent graduate research in computer science. A total of four units in this course may be applied toward the M.S. degree.

CSE 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
CSE 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 698G. Continuous Enrollment for Graduate Candidacy Standing. 7 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 698H. Continuous Enrollment for Graduate Candidacy Standing. 8 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 698I. Continuous Enrollment for Graduate Candidacy Standing. 9 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
CSE 699F. Thesis. 6 Units.
Prerequisites: advancement to candidacy and consent of department major advisor
Independent graduate research conducted under the guidance of a major advisor; total of at least nine units for CSE 699 must be taken in contiguous quarters.

Education-Correctional and Alternative (EDCA) Courses

EDCA 514. Foundations of Institutional Education: History and Literature. 4 Units.
Historic and current correctional and alternative education delivery structures, the prison reform/correctional education (CE) movement and the classic literature. Emphasis on major CE development in North America, CE paradigms, anomalies, and trends. (Also offered as EDCA 614. Students may not receive credit for both.) Students in EDCA 614 must complete additional requirements. Formerly EDUC 574.

EDCA 516. Teaching the Institutional Student. 4 Units.
Identified student needs, underlying assumptions, curricular components, and instructional methodologies appropriate to institutional education. Relevant traditional and innovative theory, practice and trends in instruction will be considered. (Also offered as EDCA 616. Students may not receive credit for both.) Students in EDCA 616 must complete additional requirements. Formerly EDUC 580.

EDCA 518. Social and Cultural Dynamics of Institutional Education. 4 Units.
Prerequisite/Corequisite: EDCA 514
Interpersonal communication and professional identity issues as they relate to the meanings of everyday events in schools and schooling within confinement institutions. Emphases include post-modernism and approaches of communication and critical theories. Addresses issues such as culture shock, typical experiences of institutional educators, the struggle for recognition and respect, burn-out and coping strategies to help avoid it, and retributive and restorative justice. (Also offered as EDCA 618. Students may not receive credit for both.) Students in EDCA 618 must complete additional requirements. Formerly EDUC 580.

EDCA 520. Educational Change in Institutional Setting. 4 Units.
Prerequisite/Corequisite: EDCA 514
Reforming prisoners and prisons through democratic methods. Emphasizes student learning and personal/professional growth. (Also offered as EDCA 620. Students may not receive credit for both.) Students in EDCA 620 must complete additional requirements. Formerly EDUC 575.

EDCA 528. Special Education in Correctional Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 514
Meeting the statutory/regulatory requirements of Federal- and State-funded education for disabled learners in confinement institutions. Special emphases include the identification of students with disabilities, definitions of a free and appropriate public education, staffing and records maintenance, confidentiality and due process, parental involvement, and the impact of current legislation. Historic and legal case histories are addressed, as well as current trends. (Also offered as EDCA 628. Students may not receive credit for both.) Students in EDCA 628 must complete additional requirements.

EDCA 530. Alternative and Correctional Education. 4 Units.
Prerequisite/Corequisite: EDCA 514
Similarities of alternative and correctional education students, and dissimilarities of organizational configuration and location in government. Introduction to the history and literature of alternative education, its role in selected urban and rural communities, and current trends. Includes the effects of educational reform, innovations consistent with the aspiration for multicultural education, and the teaching implications for the shift from a behavioral to a cognitive psychological base. (Also offered as EDCA 630. Students may not receive credit for both.) Students in EDCA 630 must complete additional requirements.

EDCA 532. Career and Vocational Education in Correctional Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 514
History and specialized literature of vocational education in correctional institutions, linkages between academic/vocational instruction, and strategies for short- and long-term programs. Includes occupational projections, statutory and regulatory prohibitions for ex-felons in the workforce, relationships with the State departments of Education and Labor, and job preparation for traditional and emergent employment opportunities. (Also offered as EDCA 632. Students may not receive credit for both.) Students in EDCA 632 must complete additional requirements.

EDCA 534. Correctional Education Leadership. 4 Units.
Prerequisite/Corequisite: EDCA 514
Principles of educational administration, educational supervision, and theories and processes of educational management, within correctional education. (Also offered as EDCA 634. Students may not receive credit for both.) Students in EDCA 634 must complete additional requirements. (4 units.

EDCA 536. Pedagogy and Andragogy in Correctional Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 514
Historic and current differences between the education of children (pedagogy) and of adults (andragogy). Emphasizes include developmental and transpersonal psychology; rationales and procedures associated with the education of children and adults; the issues of learner motivation, life tasks, and curricular concerns; and the similarities and differences of local school education, correctional and alternative education, and adult education. (Also offered as EDCA 636. Students may not receive credit for both.) Students in EDCA 636 must complete additional requirements.
EDCA 538. Organization of Correctional and Alternative Education Service Delivery. 4 Units.
Prerequisite/Corequisite: EDCA 514
Three current modes of institutional education delivery (decentralized, bureau, correctional school district), the origins of institutional education in moral and religious instruction, and alternative and continuation education as offered by court schools, municipalities, and counties. Includes patterns of organization that were designed to support schooling in settings characterized by resource inadequacy. (Also offered as EDCA 638. Students may not receive credit for both.) Students in EDCA 638 must complete additional requirements.

EDCA 540. Literacy in Adult Confinement Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 514
Concepts of readiness to learn and developmental tasks, family literacy for incarcerates, prevalence of disabling conditions that impact learning, and the establishment of third space alphabetic and cultural literacy strategies. Critique of traditional and current curricular approaches and recent research findings. (Also offered as EDCA 640. Students may not receive credit for both.) Students in EDCA 640 must complete additional requirements.

EDCA 542. Library Services for Alternative and Correctional Students. 4 Units.
Prerequisite/Corequisite: EDCA 514
Historic alliances between the American Correctional Association and the American Library Association; Carnegie Fund and the Adult Education Association; and state, county, and agency library services. Emphases include traditional reading interests of juvenile and adult students in alternative and institutional school programs, readability assessments, various funding sources for library services, and the shift from print-based to digital/online delivery capabilities. (Also offered as EDCA 642. Students may not receive credit for both.) Students in EDCA 642 must complete additional requirements.

EDCA 544. Pre- and Post-Release Transitions for Correctional Students. 4 Units.
Prerequisite/Corequisite: EDCA 514
Rationale, program opportunities, and coping skills for the offender employment continuum. Directed to the different tasks confronting students inside and outside the institution with regard to family life, housing, drug abatement, transportation, community resources, basic domestic requirements and strategies to meet them, and finding and keeping regular employment. (Also offered as EDCA 644. Students may not receive credit for both.) Students in EDCA 644 must complete additional requirements.

EDCA 546. Comparative Correctional Education. 4 Units.
Prerequisite/Corequisite: EDCA 514
Provision of institutional education in rich and poor nations. Comparison of institutional learning opportunities for students with disabilities in various nations, cultural education, the normalization of schooling, and professional networking for institutional educators in selected nations. Various United Nations charges for the development of institutional education, and the European Prison Rules. (Also offered as EDCA 646. Students may not receive credit for both.) Students in EDCA 646 must complete additional requirements.

EDCA 584. Special Topics in Correctional and Alternative Education. 4 Units.
Prerequisite/Corequisite: EDCA 514
Lives and works of the great institutional educators and prison reformers, including the personalities, life conditions, and general programs of these contributors, their writings, social and professional networks, and alignment with successive correctional education paradigms. (Also offered as EDCA 684. Students may not receive credit for both.) Students in EDCA 684 must complete additional requirements. May be repeated for credit.

EDCA 614. Foundations of Institutional Education: History and Literature. 4 Units.
Historic and current correctional and alternative education delivery structures, the prison reform/correctional education (CE) movement and the classic literature. Emphasis on major CE development in North America, CE paradigms, anomalies, and trends. (Also offered as EDCA 514. Students may not receive credit for both.) Students in EDCA 614 must complete additional requirements. Formerly EDUC 674.

EDCA 616. Teaching the Institutional Student. 4 Units.
Prerequisite/Corequisite: EDCA 614
Identified student needs, underlying assumptions, curricular components, and instructional methodologies appropriate to institutional education. Relevant traditional and innovative theory, practice and trends in instruction will be considered. (Also offered as EDCA 516. Students may not receive credit for both.) Students in EDCA 616 must complete additional requirements. Formerly EDUC 680.

EDCA 618. Social and Cultural Dynamics of Institutional Education. 4 Units.
Prerequisite/Corequisite: EDCA 614
Interpersonal communication and professional identity issues as they relate to the meanings of everyday events in schools and schooling within confinement institutions. Emphasizes include post-modernism and approaches of communication and critical theories. Addresses issues such as culture shock, typical experiences of institutional educators, the struggle for recognition and respect, burn-out and coping strategies to help avoid it, and retributive and restorative justice. (Also offered as EDCA 518. Students may not receive credit for both.) Students in EDCA 618 must complete additional requirements.

EDCA 620. Educational Change in Institutional Settings. 4 Units.
Prerequisite/Corequisite: EDCA 614
Reforming prisoners and prisons through democratic methods. Emphasizes student learning and personal/professional growth. (Also offered as EDCA 520. Students may not receive credit for both.) Students in EDCA 620 must complete additional requirements. Formerly EDUC 675.
EDCA 628. Special Education in Correctional Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 614
Meeting the statutory/regulatory requirements of Federal- and State-funded education for disabled learners in confinement institutions. Special emphases include the identification of students with disabilities, definitions of a free and appropriate public education, staffing and records maintenance, confidentiality and due process, parental involvement, and the impact of current legislation. Historic and legal case histories are addressed, as well as current trends. (Also offered as EDCA 528. Students may not receive credit for both.) Students in EDCA 628 must complete additional requirements.

EDCA 630. Alternative and Correctional Education. 4 Units.
Prerequisite/Corequisite: EDCA 614
Similarities of alternative and correctional education students, and dissimilarities of organizational configuration and location in government. Introduction to the history and literature of alternative education, its role in selected urban and rural communities, and current trends. Includes the effects of educational reform, innovations consistent with the aspiration for multicultural education, and the teaching implications for the shift from a behavioral to a cognitive psychological base. (Also offered as EDCA 530. Students may not receive credit for both.) Students in EDCA 630 must complete additional requirements.

EDCA 632. Career and Vocational Education in Correctional Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 614
History and specialized literature of vocational education in correctional institutions, linkages between academic/vocational instruction, and strategies for short- and long-term programs. Includes occupational projections, statutory and regulatory prohibitions for ex-felons in the workforce, relationships with the State departments of Education and Labor, and job preparation for traditional and emergent employment opportunities. (Also offered as EDCA 532. Students may not receive credit for both.) Students in EDCA 632 must complete additional requirements.

EDCA 634. Correctional Education Leadership. 4 Units.
Prerequisite/Corequisite: EDCA 614
Principles of educational administration, educational supervision, and theories and processes of educational management, within correctional education. (Also offered as EDCA 534. Students may not receive credit for both.) Students in EDCA 634 must complete additional requirements.

EDCA 636. Pedagogy and Andragogy in Correctional Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 614
Historic and current differences between the education of children (pedagogy) and of adults (andragogy). Emphases include developmental and transpersonal psychology; rationales and procedures associated with the education of children and adults; the issues of learner motivation, life tasks, and curricular concerns; and the similarities and differences of local school education, correctional and alternative education, and adult education. (Also offered as EDCA 536. Students may not receive credit for both.) Students in EDCA 636 must complete additional requirements.

EDCA 638. Organization of Correctional and Alternative Education Service Delivery. 4 Units.
Prerequisite/Corequisite: EDCA 614
Three current modes of institutional education delivery (decentralized, bureau, correctional school district), the origins of institutional education in moral and religious instruction, and alternative and continuation education as offered by court schools, municipalities, and counties. Includes patterns of organization that were designed to support schooling in settings characterized by resource inadequacy. (Also offered as EDCA 538. Students may not receive credit for both.) Students in EDCA 638 must complete additional requirements.

EDCA 640. Literacy in Adult Confinement Institutions. 4 Units.
Prerequisite/Corequisite: EDCA 614
Concepts of readiness to learn and developmental tasks, family literacy for incarcerates, prevalence of disabling conditions that impact learning, and the establishment of third space alphabetic and cultural literacy strategies. Critique of traditional and current curricular approaches and recent research findings. (Also offered as EDCA 540. Students may not receive credit for both.) Students in EDCA 640 must complete additional requirements.

EDCA 642. Library Services for Alternative and Correctional Students. 4 Units.
Prerequisite/Corequisite: EDCA 614
Historic alliances between the American Correctional Association and the American Library Association; Carnegie Fund and the Adult Education Association; and state, county, and agency library services. Emphases include traditional reading interests of juvenile and adult students in alternative and institutional school programs, readability assessments, various funding sources for library services, and the shift from print-based to digital/online delivery capabilities. (Also offered as EDCA 542. Students may not receive credit for both.) Students in EDCA 642 must complete additional requirements.

EDCA 644. Pre- and Post-Release Transitions for Correctional Students. 4 Units.
Prerequisite/Corequisite: EDCA 614
Rationale, program opportunities, and coping skills for the offender employment continuum. Directed to the different tasks confronting students inside and outside the institution with regard to family life, housing, drug abatement, transportation, community resources, basic domestic requirements and strategies to meet them, and finding and keeping regular employment. (Also offered as EDCA 544. Students may not receive credit for both.) Students in EDCA 644 must complete additional requirements.

EDCA 646. Comparative Correctional Education. 4 Units.
Prerequisite/Corequisite: EDCA 614
Provision of institutional education in rich and poor nations. Comparison of institutional learning opportunities for students with disabilities in various nations, cultural education, the normalization of schooling, and professional networking for institutional educators in selected nations. Various United Nations charges for the development of institutional education, and the European Prison Rules. (Also offered as EDCA 546. Students may not receive credit for both.) Students in EDCA 646 must complete additional requirements.
EDCA 684. Special Topics in Correctional and Alternative Education. 4 Units.
Prerequisite/Corequisite: EDCA 614
Lives and works of the great institutional educators and prison reformers, including the personalities, life conditions, and general programs of these contributors, their writings, social and professional networks, and alignment with successive correctional education paradigms. (Also offered as EDCA 584. Students may not receive credit for both.) Students in EDCA 684 must complete additional requirements. May be repeated for credit.

EDCA 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the Masters program and good academic standing
An assessment of the students ability to integrate the knowledge of Correctional and Alternative Education, show critical and independent thinking and demonstrate mastery of the subject matter. Graded credit/no credit.

Criminal Justice (CJUS)

Courses

CJUS 101. Introduction to the Criminal Justice System. 4 Units.
Prerequisites: Must be declared major or minor in criminal justice or social work
A descriptive overview of the adult and juvenile justice system, from the commission of crimes and offenses through sentencing and appeal procedures. Criminal justice standards and goals and the relationship of the social and behavioral sciences to criminal justice will be emphasized.

CJUS 102. Criminal Law. 4 Units.
Historical development of criminal law and its contemporary application. Focus on the interrelationship between criminal law and the criminal justice system.

CJUS 106. Introduction to Criminal Investigation. 4 Units.
Examination of crime, evidence and police procedures in investigating crime. Investigation of crime, including organized crime, street crime and white collar crime.

CJUS 311. Research Methods in Criminal Justice. 4 Units.
Prerequisites: CJUS 320 and completion of Pre-Criminal Justice requirements must be fulfilled
Introduction to scientific methodology and research designs used to conduct basic and applied research in the criminal justice field. Emphasis on scientific operationalization, survey methodology, and concepts of evaluation design.

CJUS 312. Statistics in Criminal Justice. 4 Units.
Prerequisites: CJUS 311 and MATH 110 or MATH 115 or equivalent and completion of Pre-Criminal Justice requirements must be fulfilled
Introduction to statistical reasoning and social science statistics commonly used in criminal justice. Includes descriptive, inferential and predictive statistics, with emphasis on interpretation rather than calculation.

CJUS 320. Theories of Crime and Delinquency. 4 Units.
Prerequisites: CJUS 101 and CJUS 102 with grade "C" or better and must be a declared Criminal Justice major or minor
Causes of crime and delinquency with emphasis on sociological factors.

CJUS 330. Correctional Theory and Institutions. 4 Units.
Prerequisites: CJUS 320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled
History and theory of punishment; overview of history of correctional institutions; analysis and evaluation of contemporary institutional corrections; consideration of research concerning correctional institutions.

CJUS 340. Police and Police Systems. 4 Units.
Prerequisites: CJUS 320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled
Analysis of police, police systems and the police role; limitations imposed on law enforcement in a democratic society in accordance with the Constitution; problems affecting crime control and the interdependence of police and community.

CJUS 354. Victimology. 4 Units.
Prerequisites: CJUS 320
Victim role, criminal-victim relationships, and societal reaction to victimization, including crisis-intervention centers, court related victim/witness services, restitution and compensation.

CJUS 370. Law and the Courts. 4 Units.
Nature, functions, limitations and objectives of law, criminal courts, civil courts, the grand jury and petit jury, family law, and civil liability for police and correctional officers. Emphasis on practical legal problems confronting criminal justice system workers and administrators.

CJUS 375. Law Enforcement Technologies. 4 Units.
Prerequisites: CJUS 320
Overview of current and developing technologies used by law enforcement to enhance officer safety, control crowds, and prevent crime. Topics may include tactical weapons, body cameras, LED incapacitators, drones, GPS tracking, licenses plate readers, facial recognition systems, cyber investigation tools, and social media. Special emphasis on the functionality, strength, and problems associated with the adopting emerging technologies.

CJUS 430. Correctional Administration. 4 Units.
Prerequisites: CJUS 330 or equivalent
In-depth study of the administration and management of correctional agencies. Emphasis on organizational structure, functions and behavioral processes.

CJUS 431. Community Corrections. 4 Units.
Prerequisites: CJUS 330
Issues and trends in community based corrections; alternatives to incarceration including diversion, restitution, community treatment facilities, halfway houses, probation and parole, and such developments as house arrest and electronic surveillance. Special emphasis on the functions, strengths, and problems of community based programs.
CJUS 435. Correctional Counseling. 4 Units.
Prerequisites: CJUS 330
Examination of the history, theory and practice of counseling services within the correctional setting. Topics include rehabilitation (research and application of findings), limitations of counseling, legal liabilities of counselors, and the integration of treatment with other correctional goals.

CJUS 440. Police Administration. 4 Units.
Prerequisites: CJUS 340 or equivalent
In-depth study of the administration and management of law enforcement agencies. Emphasis on organizational structure, functions and behavioral processes.

CJUS 441. Community Policing. 4 Units.
Prerequisites: CJUS 340 or equivalent
Analysis of law enforcement strategies to secure cooperative police-community ventures aimed at enhancing community order and suppressing crime. Consideration of strategies designed to improve public relations.

CJUS 451. Women and Crime. 4 Units.
(GE=G2)
A critical study of women as offenders, victims and workers within the criminal justice system.

CJUS 452. Occupational and Corporate Crime. 4 Units.
Definition, history, extent, causes, consequences and enforcement methods regarding white collar, occupational and corporate crime in business, the professions, corporations, unions and government.

CJUS 453. Gangs. 4 Units.
Gangs and the effects they have on society. Historical developments and recent trends. Review and evaluation of programs that attempt to prevent, intervene, and suppress gang activity.

CJUS 455. Forensic Profiling. 4 Units.
Forensic techniques used to aid legal authorities in identifying suspects and acquiring evidence toward solving crimes. Forensic profiles in various criminal justice components, such as law enforcement activities and jury selection. Formerly a topic under CJUS 590.

CJUS 460. Alcohol, Drugs, and the Criminal Justice System. 4 Units.
Study of the history and development of criminal justice policy concerning alcohol and illegal drugs; consideration of the manufacture, importation, distribution of illegal drugs; particular emphasis placed on the impact of alcohol and illegal drug use on communities and the criminal justice system.

CJUS 462. Domestic Violence and the Criminal Justice System. 4 Units.
Examination of violence in the family setting, including spousal abuse, child abuse and elder abuse; consideration of legal issues and of short term consequences for individuals, families and the community; response and responsibilities of the criminal justice system.

CJUS 465. Hate Crime and Law Policy. 4 Units.
Analysis of the characteristics, prevalence, causes, and types of hate crimes in the United States. In addition, case law and statutes relating to hate crimes will be examined.

CJUS 466. Justice and the Media. 4 Units.
Examination of the relationship between criminal justice and the media, including consideration of the impact of the media on attitudes and perceptions of crime and criminals, the relationship of the media and crime control, and the impact of the media on the operations of the agencies in the criminal justice system.

CJUS 470. Environmental Crime Prevention. 4 Units.
Crime Prevention Through Environmental Design (CPTED) and Situational Crime Prevention used by criminal justice agencies, community planners and architects, to increase security of public and private facilities.

CJUS 504. Criminal Procedure. 4 Units.
Prerequisites: CJUS 370
Examination of the rules governing criminal procedure. Impact of statutes and case law on criminal justice practitioners including the 4th, 5th, 6th, 8th and 14th Amendments as they affect the accused, the convicted, and the employees working in the criminal justice system. Formerly CJUS 304.

CJUS 550. Crime and Intelligence Analysis. 5 Units.
Prerequisites: CJUS 311 and CJUS 312 or equivalent and CJUS 470
Analysis of crime and intelligence data with current computer applications in order to assist criminal investigations, examine crime patterns and resolve community crime problems. Analytical techniques include centrality and key player metrics (social network analysis), crime hotspots (geographic information technology), telephone toll analysis, crime series investigation, forecasting and temporal analysis.

CJUS 554. Terrorism. 4 Units.

CJUS 555. Homeland Security. 4 Units.
Examination of homeland security events including radiological, biological and chemical events. Emphasis will be given to prevention, preparedness, and response. The roles of local, state and federal agencies are examined.

CJUS 556. Transnational Organized Crime. 4 Units.
Prerequisites: CJUS 320
Overview of transnational crime and corruption and effects on the political, economic, and social development of countries around the world. Topics include international justice, drug trafficking, human trafficking, and war crimes. Formerly a topic under CJUS 590.

CJUS 560. Crime Pattern Detection. 4 Units.
Prerequisites: CJUS 470, CJUS 550
Concepts and applications of geographic information systems and other technologies to investigate and predict spatial-temporal clusters of crimes and high risk places, as well as forecasting emerging crime problems.

CJUS 570. Crime in Public Spaces. 4 Units.
Prerequisites: CJUS 311
Field research on the interrelationship between the built urban environment and crime. Involvement in a community project to study public places that generate and attract crime in order to develop creative solutions.
CJUS 571. Advanced Social Network Analysis. 4 Units.
Prerequisites: CJUS 550
Applied network analysis provides visual and statistical procedures for examining the structural integrity of criminal networks - transnational illicit markets, corporate interlock, terrorism, co-offending and serial crime investigation. Analytic techniques covered include: centrality analysis, network fragmentation methods, egonets, affiliation networks, and advanced, multivariate modeling techniques.

CJUS 575. Internship in Criminal Justice. 4 Units.
Prerequisites: Major in Criminal Justice and consent from Internship Coordinator prior to starting Internship
Supervised work and study in private or public organizations. May be repeated once for credit (only four units of CJUS 575 may be applied to the Criminal Justice major). Graded credit/no credit.

CJUS 580. Juvenile Justice System. 4 Units.
Prerequisites: CJUS 320
History, development and theory of the juvenile justice system.

CJUS 585. Criminality Across the Life Course. 4 Units.
Prerequisites: CJUS 320
Examination of factors influencing criminality across the life span from prenatal to elderly stages of life; emphasis on physiological, developmental, social and environmental factors.

CJUS 590A. Topics in Criminal Justice. 1 Unit.
Prerequisites: junior, senior or graduate standing
Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change.

CJUS 590B. Topics in Criminal Justice. 2 Units.
Prerequisites: junior, senior or graduate standing
Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change.

CJUS 590C. Topics in Criminal Justice. 3 Units.
Prerequisites: junior, senior or graduate standing
Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change.

CJUS 590D. Topics in Criminal Justice. 4 Units.
Prerequisites: junior, senior or graduate standing
Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change.

CJUS 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department chairs approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
In-depth research into special topics concerned with the criminal justice system utilizing readings, library and/or field research. May be repeated for credit for a total of eight units; only four may be used in the major.

CJUS 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department chairs approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
In-depth research into special topics concerned with the criminal justice system utilizing readings, library and/or field research. May be repeated for credit for a total of eight units; only four may be used in the major.

CJUS 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department chairs approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
In-depth research into special topics concerned with the criminal justice system utilizing readings, library and/or field research. May be repeated for credit for a total of eight units; only four may be used in the major.

CJUS 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and department chairs approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
In-depth research into special topics concerned with the criminal justice system utilizing readings, library and/or field research. May be repeated for credit for a total of eight units; only four may be used in the major.

CJUS 596. Peer Advising in Criminal Justice. 2 Units.
Prerequisites: grade point average of 3.0, consent of instructor and department approval
Theory, training, and practice in the basic knowledge, skills, and abilities involved in academic peer advising. Six hours scheduled per week. A total of eight units may be applied toward graduation, four units may be applied as an upper-division elective in the major. Graded credit/no credit.

CJUS 597. Senior Honors Project. 4 Units.
Original research in an area of criminal justice studies, culminating in a major research report receiving approval of the criminal justice faculty. Enrollment limited to students whose formal application for departmental honors is approved.

CJUS 598. Integrative Studies in Criminal Justice. 4 Units.
Prerequisites: CJUS 311 and CJUS 320 and completion of Pre-Criminal Justice requirements must be fulfilled.
Overview and integration of major issues in criminal justice. Cannot be counted toward the M.A. in Criminal Justice; however, it is a prerequisite for graduate students who do not have a bachelor's degree in Criminal Justice. Limited to senior and graduate students.

CJUS 604. Advanced Techniques of Basic and Applied Research in Criminal Justice. 4 Units.
Prerequisites: CJUS 311 with a grade of B- or better or consent of instructor
The application of scientific methods used as a means for inquiry, description and analysis of crime and the behavior of the criminal justice system.
CJUS 605. Proseminar in Criminal Justice. 4 Units.
Overview of contemporary research and literature across the criminal justice field. Topics will include current writings and research on crime, police, courts and corrections.

CJUS 606. Statistical Analysis in Criminal Justice. 4 Units.
Prerequisites: CJUS 312 with a grade of B- or better or consent of instructor
Quantitative analytical techniques for criminal justice data. Emphasis will be placed on using and interpreting nonparametric and multivariate statistics.

CJUS 607. Applying Criminological Theory to Criminal Justice. 4 Units.
Analysis of social, behavioral and biochemical theories of crime, delinquency and victimization as they apply to criminal justice policy decisions. Examination of pertinent theoretical research and critique of theory formation.

CJUS 608. Crime, Criminals and Victims. 4 Units.
Relationships between general crime trends and emerging patterns of criminal activity, and the composition of the offender and victim populations.

CJUS 629. Minorities in the Criminal Justice System. 4 Units.
Roles and treatment of minority populations within the criminal justice system, including historical background, personnel and offender issues, current problems, needs and future directions.

CJUS 630. Legal Issues in Criminal Justice. 4 Units.
Tort actions against representatives of criminal justice agencies based on case law in the areas of general civil liability, prisoner rights, and administrative and management practices.

CJUS 631. Seminar in Corrections. 4 Units.
Exploration of topics in correctional administration including public opinion, civil rights, court intervention, system reform and the management of correctional personnel.

CJUS 632. Seminar in Policing. 4 Units.
Exploration of issues in police administration including public opinion, civil rights, court interventions, system reform and the management of police personnel.

CJUS 640. Justice Policy and Administration. 4 Units.
Legal, philosophical, political and management influences that shape criminal justice policy. Focus on organization and management principles and leadership and human resource development as they apply to the justice system.

CJUS 641. Planning and Evaluation in Criminal Justice. 4 Units.
Prerequisites: CJUS 604 and CJUS 606
Focus on program planning and evaluation, as conducted by executive, managers, and planning oversight agencies. Course examines case studies and traditional evaluation designs including evaluating/assessing policies and programs, sampling techniques, and overviews of data collection techniques and statistical analysis.

CJUS 650A. Directed Area Studies in Criminal Justice. 1 Unit.
Prerequisites: consent of instructor
Advanced study in a specific area selected by the student with the approval of the students committee.

CJUS 650B. Directed Area Studies in Criminal Justice. 2 Units.
Prerequisites: consent of instructor
Advanced study in a specific area selected by the student with the approval of the students committee.

CJUS 650C. Directed Area Studies in Criminal Justice. 3 Units.
Prerequisites: consent of instructor
Advanced study in a specific area selected by the student with the approval of the students committee.

CJUS 650D. Directed Area Studies in Criminal Justice. 4 Units.
Prerequisites: consent of instructor
Advanced study in a specific area selected by the student with the approval of the students committee.

CJUS 686. Graduate Review in Criminal Justice. 1 Unit.
Prerequisites: advancement to candidacy
Assessment of graduate students knowledge and understanding of criminal justice theory and practice. Required of all graduate students in criminal justice masters program. Graded credit/no credit.

CJUS 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
CJUS 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 699A. Thesis I. 4 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts in Criminal Justice under the direction of a faculty member from the students committee. CJUS 6998 must be completed before credit will be awarded for 699A. Graded credit/no credit.

CJUS 699B. Thesis II. 4 Units.
Preparation of the thesis for the Master of Arts in Criminal Justice under the direction of a faculty member from the students committee. CJUS 6998 must be completed before credit will be awarded for 699A. Graded credit/no credit.
CJUS 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing.
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-Curriculum and Instruction (EDCI)

Courses
EDCI 540. Differentiated Curriculum and InstructionCreativity, Thinking and Problem Solving. 4 Units.
Methods of designing curriculum and instruction to accommodate differences and diversity in learners, with an emphasis on utilizing differentiated instructional methodologies to meet needs of all learners in the regular classroom.

EDCI 543. Creativity, Thinking and Problem Solving. 4 Units.
Emphasis on Characteristics, needs and appropriate education of creatively gifted individuals. Strategies for regular classroom applications of creative and critical thinking skills and infusion of problem solving across the curriculum.

EDCI 620. School Curriculum. 4 Units.
History, organization and operation of American K-12 schools; curriculum trends; recent practices in K-12 education. Formerly EELB 622, 640, 662; ESEC 662 and 699.

EDCI 624. Advanced Teaching Methodology. 4 Units.
Development of various advanced teaching methods as well as self and peer coaching for the improvement of teaching. Formerly EELB 580, 624; ESEC 516 and 624.

EDCI 628. Educational Assessment in K-12 Schools. 4 Units.
Development and utilization of educational assessment techniques to obtain reliable and useful information to document student achievement in K-12 schools. Includes the study of traditional assessment measures as well as authentic assessment and outcome-based methods. Formerly EELB 644 and ESEC 644.

EDCI 630. Childrens Literature in the Classroom. 4 Units.
Prerequisites: EELB 345 or consent of instructor
Intensive study of children's literature as it applies in elementary and middle school classrooms with an emphasis on developing familiarity with the variety and wealth of literature available, strategies for classroom instruction and appropriate assessment tools. Formerly EELB 630.

EDCI 632. Mathematics Clinic. 4 Units.
Prerequisites: MATH 301 and four additional quarter units in mathematics Administration of diagnostic instruments and assessment procedures to elementary school students, followed by prescription and initiation of remedial measures to strengthen the mathematics areas. Formerly EELB 632.

EDCI 633. History of Education in the United States. 4 Units.
History of education in the United States for educational professionals, including key events, policy changes and social movements that have shaped contemporary schooling, with an emphasis on social and cultural changes that transformed education.

EDCI 634. Contemporary Issues in Social Studies. 4 Units.
Advanced seminar exploring contemporary issues as well as current research, curriculum, and methods in K-12 social studies instruction.

EDCI 636. Advanced Science Methods. 4 Units.
Prerequisites: consent of instructor
Intensive study of teaching science in elementary school. Exploration, analysis, interpretation and implementation of science process teaching. Intended for experienced teachers. Formerly EELB 636.

EDCI 638. Advanced Educational Psychology. 4 Units.
Prerequisites: an upper-division child development course
Advanced seminar exploring recent theory and research on cognition, personality, and psychosocial development with an emphasis on examining their interactions with the learning process. Formerly EELB 620 and ESEC 620.

EDCI 640. Content Standards in Curriculum, Instruction and Assessment. 4 Units.
Prerequisites: preliminary teaching credential from California Students will incorporate content standards into their curricula, instructional practices and assessment methods. This course may be applied for the Clear credential in multiple and single subjects.

EDCI 641. Curriculum and Policy. 4 Units.
History, organization and operation of American K-12 schools. Particular emphasis on curriculum trends, student assessment, educational policy, and current reform efforts.

EDCI 645. Academic Language Development Strategies K-12. 4 Units.
Presents core readings and an underlying rationale that emphasize the fundamental connection between academic/content area language development and overall academic achievement.

EDCI 650A. Professional Teacher Development: Seminar A. 4 Units.
Designed to support teachers pursuing National Board Certification. Teachers will review research of effective teaching strategies and examine their own practice as a foundation for effective decision making. Emphasis on student learning and development, student motivation, and the influence of context and culture on student learning and behavior. In addition, teachers will examine subject matter knowledge including how disciplinary knowledge is created, organized, linked to other disciplines, and applied to real world settings. Formerly EELB 650A and ESEC 650A.
EDCI 650B. Professional Teacher Development: Seminar B. 4 Units.
Prerequisite/Corequisite: EDCI 650A
Assists teachers pursuing National Board Certification. Examines instructional settings and techniques designed to capture and sustain student interest and ensure academic success. In addition, teachers will examine the use of multiple methods for measuring student growth and understanding. Formerly EELB 650B and ESEC 650B.

EDCI 652. Service Learning in Public Schools. 4 Units.
Study of service learning, a pedagogy that integrates academic curriculum with community service. Examines the principles and best practices of including service learning in classrooms. Includes a field component. Formerly EELB 652 and ESEC 652.

EDCI 653. Supervision and Mentoring of Classroom Teachers. 4 Units.
Emphasizes the skills needed to support and mentor teachers as outlined in the California Standards for the Teaching Profession. Formerly EELB 653 and ESEC 653.

EDCI 655. Early Adolescent Educational Psychology. 4 Units.
Advanced seminar exploring recent theory and research on cognition, personality, and psycho-social development in early adolescents (grades 5-9) with emphasis on examining their interactions with the learning process.

EDCI 656. Curriculum for Early Adolescents. 4 Units.
Prerequisites: EDCI 620 and 628
Curriculum development and alignment to the state standards for grades 5-9, including assessment and accountability methods and measures. Formerly ESEC 517 and 617.

EDCI 657. Instructional Strategies for Early Adolescent Education. 4 Units.
Prerequisites: EDCI 624
Effective instructional methods and evaluation procedures that address the needs of early adolescents in grades 5-9. Formerly ESEC 521 and 621.

EDCI 663. Comprehensive Evaluation in Curriculum and Instruction. 2 Units.
Prerequisites: advancement to candidacy and permission of program coordinator
Review and preparation for the written comprehensive examination as well as the administration of the comprehensive examination. Formerly EELB 633 and ESEC 633. Graded credit/no credit.

EDCI 664. Thesis/Project Design in Curriculum and Instruction. 2 Units.
Prerequisites: completion of all core and required program courses in the M.A. in Education, Curriculum and Instruction Option
Steps and processes involved in the design and development of research proposals with emphasis on masters thesis/project. Formerly EELB 664, 698 and ESEC 664.

EDCI 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Grade credit/no credit.

Dance (DAN)

Courses

DAN 200A. Studies in Dance: Jazz. 2 Units.
Prerequisites: KINE 150F or consent of instructor
Movement study and body conditioning in specific dance styles. May be repeated for credit up to six units per topic. No more than 12 units may be used to satisfy graduation requirements.

DAN 200B. Studies in Dance: Modern. 2 Units.
Prerequisites: KINE 150G or consent of instructor
Movement study and body conditioning in specific dance styles. May be repeated for credit up to six units per topic. No more than 12 units may be used to satisfy graduation requirements.

DAN 200C. Studies in Dance: Tap. 2 Units.
Prerequisites: KINE 150H or consent of instructor
Movement study and body conditioning in specific dance styles. May be repeated for credit up to six units per topic. No more than 12 units may be used to satisfy graduation requirements.

DAN 300A. Dance Techniques: Jazz. 2 Units.
Prerequisites: DAN 200A or equivalent experience and consent of instructor
Complex movement technique and artistic interpretation in specific dance styles. May be repeated for credit up to six units per topic. No more than 20 units may be used to satisfy graduation requirements.

DAN 300B. Dance Techniques: Modern. 2 Units.
Prerequisites: DAN 200B or equivalent experience and consent of instructor
Complex movement technique and artistic interpretation in specific dance styles. May be repeated for credit up to six units per topic. No more than 20 units may be used to satisfy graduation requirements.

DAN 300C. Dance Techniques: Tap. 2 Units.
Prerequisites: DAN 200C or equivalent experience and consent of instructor
Complex movement technique and artistic interpretation in specific dance styles. May be repeated for credit up to six units per topic. No more than 20 units may be used to satisfy graduation requirements.
DAN 300D. Dance Techniques: Ballet. 2 Units.
Prerequisites: DAN 200D or equivalent experience and consent of instructor
Complex movement technique and artistic interpretation in specific dance styles. May be repeated for credit up to six units per topic. No more than 20 units may be used to satisfy graduation requirements.

DAN 300E. Dance Techniques: Musical Theatre. 2 Units.
Prerequisites: DAN 200 or equivalent experience and consent of instructor
Complex movement technique and artistic interpretation in specific dance styles. May be repeated for credit up to six units per topic. No more than 20 units may be used to satisfy graduation requirements.

DAN 310A. World Dance Traditions: African. 2 Units.
Study and application of traditional dance forms from throughout the world. Technique and cultural context will be emphasized. Course may be repeated for credit. One hour lecture and two hours activity.

DAN 310B. World Dance Traditions: South and Central American. 2 Units.
Study and application of traditional dance forms from throughout the world. Technique and cultural context will be emphasized. Course may be repeated for credit. One hour lecture and two hours activity.

DAN 310C. World Dance Traditions: North American. 2 Units.
Study and application of traditional dance forms from throughout the world. Technique and cultural context will be emphasized. Course may be repeated for credit. One hour lecture and two hours activity.

DAN 310D. World Dance Traditions: Asian. 2 Units.
Study and application of traditional dance forms from throughout the world. Technique and cultural context will be emphasized. Course may be repeated for credit. One hour lecture and two hours activity.

DAN 310E. World Dance Traditions: Mediterranean. 2 Units.
Study and application of traditional dance forms from throughout the world. Technique and cultural context will be emphasized. Course may be repeated for credit. One hour lecture and two hours activity.

DAN 355. Dance Notation. 3 Units.
Prerequisites: six units of DAN 300 or consent of instructor
Study and application of written notation for the analysis, reading and preservation of dance. One hour lecture and four hours laboratory.

DAN 360. Dance History. 4 Units.
Chronological study of major styles and personalities in dance.

DAN 450. Choreography. 3 Units.
Prerequisites: six units of DAN 300 or consent of instructor
Study and application of dance composition. May be repeated for credit. Formerly DAN 350. One hour lecture and four hours laboratory.

DAN 481. Creative Dance in the Classroom. 4 Units.
Dance techniques that emphasize concentration, imagination, body awareness and self-expression and are designed to develop creative leadership for parents, recreational leaders, elementary and secondary teachers.

DAN 580. Advanced Creative Dance Methods. 4 Units.
Prerequisites: DAN 481
Advanced methods for teaching dance techniques, emphasizing concentration, imagination, body awareness, and self-expression. Course intended for teachers and recreation and community leaders who will plan lessons with the California Visual and Performing Arts Framework and Standards. Requires a minimum six-hour field component.

Economics (ECON)

Courses

ECON 104. Economics of Social Issues. 4 Units.
(GE=D4)
Economic perspectives on social issues. Cannot be counted toward fulfillment of requirements in the economics major.

ECON 200. Principles of Microeconomics. 4 Units.
Introduction to the economic principles which govern production, exchange, the pricing of goods, services and resources and the distribution of incomes in competitive and noncompetitive markets.

ECON 202. Principles of Macroeconomics. 4 Units.
Introduction to the theory of national income determination with particular emphasis on employment and unemployment, price levels, monetary and fiscal policies, international economic issues and theories of economic growth.

ECON 250. Statistics for Economists. 4 Units.
Prerequisites: MATH 110
Introduction to the statistical tools and data used by economists. Three hours lecture and two hours laboratory.

ECON 300. Intermediate Macroeconomics. 4 Units.
Prerequisites: ECON 200, ECON 202 and MATH 110, MATH 120, MATH 211 or MATH 192
Analysis of the problems of measurement and determination of levels of national income, and investigation of macroeconomic policy issues including inflation and unemployment.

ECON 302. Intermediate Microeconomics. 4 Units.
Prerequisites: ECON 200, ECON 202 and MATH 110, MATH 120, MATH 211 or MATH 192
Detailed analysis of economic behavior of consumers and producers in competitive and noncompetitive markets, and of the criteria for achieving optimality in the allocation and use of resources.

ECON 311. Economics in the Elementary and Middle School. 4 Units.
Introduces liberal studies students to economics in the California History/Social Science Standards. Students learn to integrate economic principles and theories with the other social sciences. May not be counted toward fulfillment of requirements in the economics major.
ECON 322. Managerial Economics. 4 Units.
Prerequisites: ECON 200, ECON 202, ECON 335 and MATH 110, MATH 120, MATH 211 or MATH 192
Application of microeconomic theory and analysis to business and administrative problems.

ECON 333. Political Economy of Women. 4 Units.
Introduction to feminist economics and feminist theory, emphasizing the diversity of feminist approaches. Topics might include the relationship between patriarchy and capital accumulation, women's paid and unpaid work, the care economy, the gendered impacts of economic crises and fiscal austerity, and gender budgeting.

ECON 335. Tools of Economic Analysis. 4 Units.
Prerequisites: ECON 200, ECON 202 and MATH 110, MATH 120, MATH 192, or MATH 211
Using current software and basic economic models to investigate and analyze economic phenomena.

ECON 352. Political Economy of Poverty and Discrimination. 4 Units.
(GE = G2)

ECON 360. Economics of the Environment. 4 Units.
Application of economic theory to environmental problems and issues. Topics include regulatory and market approaches to pollution and natural resource depletion; cost-benefit analysis and its economic and political foundations; and case studies of specific environmental problems such as acid rain, deforestation, and global warming.

ECON 365. Economics of Climate Change. 4 Units.
Economic causes and consequences of climate change. Consideration of the unusual characteristics of human-caused climate change including a combination of global impacts, true uncertainty, large and discontinuous effects, and irreversibility. Policies proposed to mitigate climate change and to facilitate adaption to climate change.

ECON 372. Business Cycles. 4 Units.
Prerequisites: ECON 200, 202, 335 and MATH 110, 120, 192, or 211
Application of macroeconomic theory, study of cyclical indicators, and use of software to examine the causes and origins of short-run fluctuations in aggregate economic activity.

ECON 390. Selected Topics in Economics. 4 Units.
Examination of selected topics of current interest in economics. May be repeated for credit as topics change.

ECON 410. Money and Banking. 4 Units.
Demand for money, creation and manipulation of the money supply, and the role of banking and other financial institutions in the United States in determining the level of employment, prices and international payments equilibrium.

ECON 421. Economic History of the United States. 4 Units.
Economic history of the United States from the founding of the colonies to the present.

ECON 425. Political Economy of Southern California. 4 Units.
Prerequisites: ECON 200 and ECON 202 or consent of instructor
Examination of the economic origins of political, social, and cultural life in Southern California, 1860-present. Topics might include water rights, property law, the real estate market, labor relations, and labor history, as well as their impact on modern social, political, and cultural movements.

ECON 430. International Economics. 4 Units.
Prerequisites: ECON 200 and ECON 202
Theories of the causes and effects of trade between nations. Study of government policies which alter the pattern of trade between nations.

ECON 435. Multinational Corporations. 4 Units.
Multinational corporations and the international economic environment in which they operate. Topics include the international monetary system, balance of payments, international capital movements, foreign direct investment, technology transfer, and conflicts between multinational corporations and host countries.

ECON 443. Origins of Political Economy. 4 Units.
Economic theories of Karl Marx and the intellectual, political, and economic context in which they developed. Formerly a topic under ECON 390.

ECON 445. Political Economy. 4 Units.
Post-1880s developments in political economy. Topics may include the class structure of modern capitalism, theories of the state, imperialism, monopoly capital, the labor process, and globalization.

ECON 450. Global Economy. 4 Units.
Examines factors that give rise to uneven economic growth and economic interdependence among nations. Investigates the organizations and rules of conduct of the global economy. Assesses the costs and benefits of globalization to nations.

ECON 455. Economic Development. 4 Units.
Prerequisites: ECON 200 and ECON 202
Overview of the major theoretical and empirical approaches to economic development. Consideration of fundamental characteristics of developing countries such as poverty and inequality along with the processes of agricultural transformation and population growth. Causes and consequences of trade, industrial, and finance policies. Consideration of globalization, the environment, and issues related to gender in developing countries.

ECON 460. Labor Economics. 4 Units.
Prerequisites: ECON 200
Micro- and macroeconomic aspects of labor markets including the workings of labor markets in competitive and noncompetitive markets, structure and causes of unemployment, incomes policies, and selected institutional topics including the economics of U.S. labor movements.
ECON 475. Public Economics. 4 Units.
Prerequisites: ECON 200 or consent of instructor
Investigation of key government programs and of the role of the government in the economy. Among the topics possibly considered are: the minimum wage, the tax system, the federal deficit and debt, social welfare programs (e.g. Social Security, Temporary Assistance for Needy Families, Earned Income Tax Credit), government regulation of business, government healthcare insurance programs, and environmental policies (including those associated with global warming).

ECON 480. Quantitative Methods in Economics. 4 Units.
Prerequisites: ECON 200, 202, and MATH 110, 120, 211 or 192
Application of mathematical tools and concepts in formulating and solving economic problems.

ECON 490. Introduction to Econometrics. 4 Units.
Prerequisites: ECON 200, 202; MATH 110, 120, 211 or 192; and ECON 250 or ADMN 210, or equivalent
Various statistical methods of testing economic hypotheses.

ECON 500. History of Economic Thought. 4 Units.
Survey of the development of economic doctrines and analyses and concurrent intellectual and social history with emphasis on the ideas of landmark economists from Adam Smith to John Maynard Keynes.

ECON 503. Economic Analysis. 4 Units.
Prerequisites: graduate standing
An intensive introduction to micro- and macroeconomic concepts for graduate students. Not open to students who have received credit for ECON 200 and 202. Formerly ECON 305.

ECON 510. Economics in the Classroom. 4 Units.
Economics method of analysis as it applies to 7th through 12th grade California History/Social Science Standards. Formerly ECON 310.

ECON 520. Social Economics. 4 Units.
Study of the social, cultural, and political context of economic behavior. Primary focus on the work of Social Economists, Institutionalists, and Post Keynesians. Formerly ECON 447.

ECON 530. The Good Economy. 4 Units.
Standards used to judge an economy as good or bad including utilitarian, neoclassical welfare economics, Rawlsian, neo-Aristotelian, and/or postmodernist approaches.

ECON 540. Political Economy of Latin America. 4 Units.
Study of the economic history and contemporary political economy of Latin America. Theories of imperialism and development, common policy prescriptions (import substitution and Neoliberalism), and popular political movements (e.g. Socialist, Sandinista, Bolivarian) will be integrated into an explanation of the region and selected countries. Formerly a topic under ECON 390.

ECON 575. Internship in Economics. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken
Supervised work in public or private organizations emphasizing practical applications of economic concepts and relationships. May be repeated once for credit. Graded credit/no credit.

ECON 590. Seminar in Economics. 4 Units.
Intensive study of some phase of economics. May be repeated for credit as subject matter changes and with consent of instructor.

ECON 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Investigation of special topics not covered by the departments curricular offerings. A total of eight units in ECON 595 may be applied toward the major and graduation.

ECON 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Investigation of special topics not covered by the departments curricular offerings. A total of eight units in ECON 595 may be applied toward the major and graduation.

ECON 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Investigation of special topics not covered by the departments curricular offerings. A total of eight units in ECON 595 may be applied toward the major and graduation.

ECON 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Investigation of special topics not covered by the departments curricular offerings. A total of eight units in ECON 595 may be applied toward the major and graduation.

ECON 597. Senior Honors Project. 4 Units.
Original research in an area of economics, culminating in a major report receiving approval of the economics faculty. Enrollment limited to students whose formal application for admission to the course has been approved by the department chair.

ECON 600. Proseminar in Economics. 4 Units.
Survey of the concepts and ideas that economists study, with emphasis on globalization.

ECON 630. International Economic Issues. 4 Units.
Contemporary international economic issues of relevance in planning and implementing policy.
ECON 690. Advanced Topics in Economics. 4 Units.
Prerequisites: consent of instructor
Advanced study of selected areas of economics. May be repeated for credit as topics change.

ECON 695B. Graduate Independent Study in Economics. 2 Units.
Prerequisites: graduate standing, consent of instructor, and approval of written proposal of the research
Independent graduate research in economics.

ECON 695C. Graduate Independent Study in Economics. 3 Units.
Prerequisites: graduate standing, consent of instructor, and approval of written proposal of the research
Independent graduate research in economics.

ECON 695D. Graduate Independent Study in Economics. 4 Units.
Prerequisites: graduate standing, consent of instructor, and approval of written proposal of the research
Independent graduate research in economics.

EESL 500. Introduction to Teaching English to Speakers of Other Languages. 4 Units.
Practices in teaching English to second-language learners, including strategies for teaching speaking, listening, reading, writing, and grammar; survey of second-language acquisition theory and English-language-development programs.

EESL 501. Foundations of TESOL. 4 Units.
Broad survey of fundamental principles underlying classroom practice across diverse settings. Extensive examination of educational practices for English learners from a global perspective, with a focus on the knowledge, skills, and dispositions to teach both English-language development (ELD) in US contexts and English as a foreign language (EFL) abroad.

EESL 505. Differentiated Curriculum in TESOL. 4 Units.
Simulation and classroom-based practice in teaching methods and materials for students across a broad range of learning styles and academic levels. Emphasis will be placed on developing a balanced approach to reading, writing, speaking, listening, and critical thinking skills. Strategies and implications for English learners at a variety of second-language-acquisition stages.

EESL 521. Technology-Enhanced Language Learning. 4 Units.
Survey of theory and practice in teaching English to speakers of other languages by means of technology, including computer software, mobile applications, web-based tools, and multimedia. Three hours lecture and two hours activity.

EESL 524. Supervised Observation/ Participation in Teaching English to Speakers of Other Languages. 2 Units.
Observation/participation opportunities for candidates in English-as-a-second-language and English-as-a-foreign-language classrooms.

EESL 525. Tutoring Methods in Teaching English to Speakers of Other Languages. 2 Units.
Tutoring and small-group teaching of English to second-language learners, including strategies for tutoring in speaking, listening, reading, writing, and grammar.

EESL 533. TESOL Crosscultural Teaching Practicum. 2 Units.
Practicum in cultural practices in teaching English in English-as-a-foreign-language (EFL) settings.

EESL 536. Crosscultural Teaching. 4 Units.
Methods and teaching techniques for teaching in multicultural and crosscultural settings in both ESL and EFL contexts. Developing cultural awareness of teachers to assist them in relating to and motivating culturally diverse students. May be offered through distance learning. Formerly EELB 536.

EESL 540. Teaching Adult English Learners. 4 Units.
Simulation and classroom-based practice in teaching and tutoring adult second-language learners, including strategies for English-for-special-purpose domains such as business and scientific English, as well as adult primary-language non-literate.

EESL 542D. Special Topics in ESL:. 4 Units.
Intensive study of selected topics in education. May be repeated for credit as topics change.

EESL 543. Listening and Speaking Methods in TESOL. 4 Units.
Survey of contemporary pedagogy for listening and speaking in English-as-a-second-language (ESL) and English-as-a-foreign-language (EFL) classrooms. In-depth analyses of purposes, audiences, and strategies for oral expression; including methods for pronunciation improvement and accent reduction in second-language acquisition. Formerly a topic under EESL 542.

EESL 544. Reading Methods for TESOL. 4 Units.
Reading methods for English language learners, featuring literacy transfer from the first language, explicit instructions in phonetics, and emergent literacy for adults.

EESL 545. Writing Methods in TESOL. 4 Units.
Survey of contemporary approaches to writing, contrasting styles and formats appropriate for creative writing and personal essays with writing intended for purposes of textual analysis and social or cultural expression. Various computer technologies will be used to assist in idea generation, text processing, editing, and desktop publishing. Class will include peer-collaborative tutoring techniques.
EESL 578. Classroom Discourse and Interaction in TESOL. 4 Units.
Discourse analysis of instructional language use by students and teachers in English-as-a-second-language and English-as-a-foreign-language classrooms, with a focus on contemporary research and praxis. Formerly EESL 678.

EESL 613. Cognition and Language Acquisition. 4 Units.
An analysis of the language acquisition process as it emerges from the early grammars of the child and develops into the complex grammatical structures and patterns of the mature individual.

EESL 650. Program Administration for TESOL. 4 Units.
Survey of existing public and private educational institutions for teaching English to speakers of other languages; overview of curriculum and instruction, program management, and staff supervision.

EESL 655. Mentoring and Evaluating TESOL Educators. 4 Units.
Prerequisites: consent of instructor
Fieldwork in supervision and mentoring for administration of programs for Teaching English to Speakers of Other Languages (TESOL), including theory and practice in leadership and faculty/staff in English-language-teaching schools and programs in the United States and abroad.

EESL 660. Second Language Acquisition Classroom Research. 4 Units.
Survey of historical and contemporary theories and methodologies for acquiring a second language, both in English-as-a-second-language (ESL) and English-as-a-foreign-language (EFL) classroom settings. Formerly EESL 515.

EESL 665. Creative Teaching in TESOL. 4 Units.
Survey of creative teaching methods to enhance classroom second-language learning, including use of poetry, drama, art, and audio-video computer-assisted language-learning techniques.

EESL 670. Principles and Practice in TESOL. 4 Units.
Second language acquisition theory, methods for teaching English as a second language (ESL), development and evaluation of materials for ESL instruction. Formerly EELB 607 and EESL 607.

EESL 671. Survey of Methods in Teaching English as a Foreign Language. 4 Units.
Overview of programs, curricula, and resources for the education of English learners in countries where English is taught using foreign-language-acquisition methodologies. Strategies for English language development with an emphasis on vocabulary acquisition, communicative language teaching, and awareness of sociocultural implications of target-culture immersion.

EESL 675. Curriculum Design in TESOL. 4 Units.
Overview of school curriculum and programs in the field of teaching English to speakers of other languages including development and evaluation of materials for ESL/EFL instruction. Formerly EESL 614 and EESL 514.

EESL 679. Fieldwork: Teaching English to Speakers of Other Languages. 4 Units.
Prerequisites: consent of instructor
Supervised field work in selected teaching methods and materials development.

EESL 680. Practicum in Teaching English to Speakers of Other Languages (TESOL). 4 Units.
Prerequisites: consent of instructor
Simulation and classroom-based practice in teaching methods and materials to include planning, teaching performance, classroom organization, student management, and evaluation competencies. Students will use microteaching, structured reports of classroom visitations and observations, and commercially available videotaped case studies to examine and discuss classroom management, lesson design, and instructional delivery.

EESL 685. Research in TESOL. 4 Units.
Offers a perspective on current research principles and investigation across a wide spectrum of topics in teaching English to speakers of other languages, including communicative competence, transfer, modalities of language use, learning styles and strategies, and language acquisition. Formerly EESL 615.

EESL 686. Advanced Research Methods in TESOL. 4 Units.
Analysis of research in English-language development in the classroom, including sociocultural, cognitive, and behavioral approaches to instructional discourses and mediational techniques. Formerly EESL 664.

EESL 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education (EDUC)

Courses

EDUC 201. Introduction to Tutorial Techniques. 2 Units.
Introductory course in individual and small group instruction with emphasis on lesson planning, teaching methods and evaluation for tutorial settings.

EDUC 250. Democracy and Education. 4 Units.
Considers the role of education in a democratic society and introduces some of the themes in the subsequent courses: ideology and schooling, cultural background and education, and contemporary movements in education.
EDUC 302. Education in American Society. 4 Units.
Politics, organization, structure and philosophical concepts of schooling and education including an analysis of significant problems and issues in American education. Open to students in all majors.

EDUC 306. Expository Writing for Education. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement and a minimum of 90 quarter (60 semester) units of college credit
Writing related to education including documented research reports, evaluations, and analytical papers. Revision and rewriting will be required. Course fulfills the upper-division writing requirement. May not be counted for fulfilling major requirements for any degree program offered by the College of Education. No more than one of the expository writing courses (EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be taken for credit. Students who have received a grade of no credit in any combination of the expository writing courses two or more times must meet with the 306 coordinator or a designee to design a developmental writing plan as a condition for enrolling for a third quarter. All students must obtain junior status at the time of registration or the course requested will be cancelled. Formerly EDUC 495. Graded A, B, C/ no credit.

EDUC 310. Education and Contemporary Culture. 4 Units.
Prerequisite/Corequisite: EDUC 250
Exploration of cultural studies, youth culture, digital culture, forces of globalization, and how emerging cultural movements are shaping the nature of public, private and proprietary education institutions.

EDUC 320. Diversity in Education. 4 Units.
Prerequisite/Corequisite: EDUC 250
How issues of race and ethnicity, gender, and sexual orientation have shaped American education and how they continue to do so.

EDUC 330. Education and Special Populations. 4 Units.
Prerequisite/Corequisite: EDUC 250
Special education (including landmark legislation), English language learners, correctional education, and inclusion of special populations.

EDUC 340. Social Class, Poverty, and Education. 4 Units.
Prerequisite/Corequisite: EDUC 250
Exploration into the relationships among (a) social class, economic inequality, interactions of class and race, and (b) statutory, regulatory, and policy decisions as they affect student access and success in education.

EDUC 350. History of Schooling. 4 Units.
Overview of the history of schooling. Includes key events and global and local social movements that have shaped education in United States. Prerequisite or corequisite EDUC 250.

EDUC 360. Education for Peace and Nonviolence. 4 Units.
Exploration of the role of schooling in promoting human rights, resolving conflict, and producing safer schools and a more peaceful world. Prerequisite or corequisite EDUC 250.

EDUC 533. TEACH THE CHICANO. 5 Units.

EDUC 542A. Seminar in Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EDUC 542B. Seminar in Education. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EDUC 542C. Seminar in Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EDUC 542D. Seminar in Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EDUC 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research.

EDUC 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research.

EDUC 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research.

EDUC 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research.

EDUC 600. Masters Degree. 4 Units.
Prerequisites: advancement to candidacy

EDUC 601A. Advanced Independent Study Topics in Education. 1 Unit.
Prerequisites: minimum grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken
Special topics involving application of educational procedures.
EDUC 601B. Advanced Independent Study Topics in Education. 2 Units.
Prerequisites: minimum grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken
Special topics involving application of educational procedures.

EDUC 601C. Advanced Independent Study Topics in Education. 3 Units.
Prerequisites: minimum grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken
Special topics involving application of educational procedures.

EDUC 601D. Advanced Independent Study Topics in Education. 4 Units.
Prerequisites: minimum grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken
Special topics involving application of educational procedures.

EDUC 603. Effective Communication in Education. 4 Units.
Prerequisite: EDUC 306 or equivalent
Varying theoretical approaches with an emphasis on identifying ones personal/professional school of thought. Dynamics of interpersonal communication in educational structures: participation of individuals and small groups from a pluralistic perspective; writing for research purposes and professional speaking.

EDUC 605. Foundations of Education. 4 Units.
Prerequisite/Corequisite: EDUC 603
History and theory of elementary, secondary and postsecondary education within the setting of American society: underlying assumptions, organizational structure, and educational change. Multiculturalism is studied in a balanced context relevant to the educational setting. Students apply what they learn to their school of thought in education, thereby connecting theory to the daily practice in the schools. Formerly EDUC 695.

EDUC 607. Introduction to Educational Research. 4 Units.
Prerequisites: EDUC 603 and 605
Introduction to the vocabulary, design, and sources of quantitative and qualitative methodologies, and program evaluation research in education. Ethical strategies for collecting, treating, and reporting data are emphasized; research reports and identifying, developing and critiquing trends in research communities. Formerly EDUC 663.

EDUC 611. Foundations of Integrative and Holistic Models of Education. 4 Units.
Prerequisites: consent of department
Introduction to constructive post-modernist paradigms, systems theory, theories of meaning, constructivism and holistic theory. Students explore the importance of an engaging learning environment, a facilitative learning community and open-ended processes of problem solving.

EDUC 613. Integration and Meaning in Education. 4 Units.
Prerequisites: consent of department
Investigation of instructional applications of the neuro-sciences, holistic learning and constructivist principles. Emphasizing group processes, collaborative action research, integrating technology, implementing cooperative groups, and developing cultural sensitivity and awareness of social justice issues.

EDUC 615. Exploring Arts, Creativity and Sign Systems. 4 Units.
Prerequisites: consent of department
Application of the research on, and processes of art and creativity to learning. Exploration of the use of multiple modalities and somatic approaches to teaching, and semiotic understandings of disciplines. Introduction of intuitive development into the teaching/learning process.

EDUC 617. Exploring Integrative and Holistic Curriculum Theory. 4 Units.
Prerequisites: consent of department
Exploration of the dominant perspectives on curriculum and introduction to constructive postmodernist curriculum theory as a foundation for integrative and holistic curriculum design. Development and field testing of substantive and engaging curriculum projects.

EDUC 619. Seminar Holistic Education. 4 Units.
Prerequisites: consent of department
Exploration of a variety of selected topics in holistic education through readings, class presentations, discussions, and reflective writing. Selection by student of an approved topic for in-depth exploration. Planning of a mini-conference in holistic education that includes presentations by each student, as well as outside speakers.

EDUC 620. Spiritual Perspectives in Public Education. 4 Units.
Principles and techniques of integrating a nonsectarian spiritual perspective in a public school setting. Theoretical framework consistent with a variety of spiritual traditions, the implications of the new sciences, and current educational psychology (e.g., constructivism). Focus on nonsectarian methods that nourish the inner life of the educator and the student.

EDUC 621. Assessment and Research: Holistic Perspectives. 4 Units.
Prerequisites: consent of department
Focus on the skills, understandings and methodologies of assessment and research design from a holistic perspective. Includes both quantitative and qualitative models, evaluation design and scholarly writing.

EDUC 630. Supportive Learning Environments for All Students. 4 Units.
Classroom and curricular differentiation strategies for diverse classroom and school learning environments. Emphasis on planning and implementing positive academic environments for all students.
EDUC 634. Motivation, Teaching and Learning. 4 Units.
Course focuses on theories, research, and concept of human motivation related to learning and teaching. Explores what motivates students to learn and examine strategies, techniques and interventions that promote and sustain learner motivation. Historical and contemporary research on motivation, teaching and learning will be reviewed, analyzed and discussed.

EDUC 694. Masters Project in Science Education. 4 Units.
Prerequisites: advancement to candidacy and consent of the graduate coordinator.

EDUC 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
EDUC 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 700. Scientific Inquiry. 4 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership
Overview of basic tools and methods required for scientific inquiry. Guided practice in the critical review of current educational literature, hypothesis development, and design of basic quantitative and qualitative methods.
Content coverage to include research designs, sampling techniques, data collection strategies, basic psychometrics, descriptive and inferential statistics, and ethical treatment of research participants.

EDUC 702. Foundations in Education and Leadership. 5 Units.
Examines links between educational theory, research, and practice in the larger context of ethical, philosophical, economic, and political issues, while addressing diversity and equity in the U.S. and worldwide. Provides a context for understanding the current and emerging nature and role of education and educational leaders in contemporary society. Four hours lecture and a two hour per week educational workshop.

EDUC 705. Organization and Administration of School Systems/Community Colleges. 4 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership
Examines educational institutions, leadership, organizational and administrative theory. Developing and sustaining positive relationships with boards and governance issues are emphasized.

EDUC 707. Quantitative Research Methods. 4 Units.
Prerequisites: EDUC 700 and EDUC 705
Guided practice in designing and conducting quantitative research in education. Analyzes quantitative methods, data collection and results.

EDUC 709. Diversity and Equity in Education. 4 Units.
Prerequisites: EDUC 700 and EDUC 705
Prepares educational leaders to promote equity and diversity in PK-20.
Review of theories, interpret policies, and develop inclusive practices.
Fosters various forms of diversity.

EDUC 712. Qualitative Research Methods. 4 Units.
Prerequisites: EDUC 707 and EDUC 709
Guided practice in designing and conducting qualitative research in education. Analyzes qualitative methods, data collection, and results.

EDUC 714. Educational Systems as Cultural and Social Systems. 4 Units.
Prerequisites: EDUC 707 and EDUC 709
Examines the context of schooling as a domain of socio-cultural interaction and interrogates the theoretical perspectives from which this domain can be understood.

EDUC 718. Strategic Planning, Accountability and Change. 5 Units.
Prerequisites: EDUC 712 and EDUC 714
Principles of change, innovation, shared vision, mission and goals in accordance with the principles of strategic planning and accountability, to include the Educational and Facilities Master Plan. Four hours lecture and two hours practicum.

EDUC 720. Advanced Quantitative Research Methods. 4 Units.
Prerequisites: EDUC 707 and EDUC 716
Advanced designs and statistics commonly applied in educational research. Analysis and interpretation of data from designs using covariates (ANCOVA and hierarchical regression), mediation and moderation effects (in ANOVA and multiple regression), hierarchical linear modeling (nested data), factor analysis, structural equation modeling, utility analysis, and meta-analysis. Results writing and discussion sections based on selected data analyses.

EDUC 722. Advanced Qualitative Research Methods. 4 Units.
Prerequisites: EDUC 707 and EDUC 716
Advanced designs and data analysis commonly applied in qualitative study in education on a topic of their choice and to better understand the assumptions of theory, method, and analysis guiding their research choices. Readings will focus on issues involved in the interconnected processes of framing a study, writing a proposal, considering ethical and political issues, collecting data, analyzing and interpreting data, and writing and presenting research for varied purposes.
EDUC 726. Ethical Leadership and Decision Making in Education. 4 Units.
Prerequisites: EDUC 716
Leadership ethics and the utilization of principles of personal balance in daily life and work. Covers decision making theories and how decisions are made at various levels in P-12 and community college to effectuate positive and sustaining change.

EDUC 734. Strategic Human Resource Management. 5 Units.
Examines issues surrounding human resources in PK-20 contexts, including: state and federal laws, union relations, employee hiring and evaluation, professional development, and capacity building. Four hours lecture and two hours practicum. Formerly EADM 734.

EDUC 760. Foundations of Community Colleges and Other Higher Education Systems. 4 Units.
Broad overview of California's higher education system, including its historical, political, philosophical, and social aspects. Emphasizes social responsibility and the relationships between PreK-12 and higher education. Formerly EADM 760.

EDUC 762. Higher Education Strategic Planning, Accountability, and Change. 5 Units.
Engages students in an in-depth exploration of strategic planning in higher education. Focuses on the transformational changes needed to position higher education institutions to address current and future challenges and emphasizes the relationships between PreK-12 and higher education. Four hours lecture and two hours practicum. Formerly EADM 762.

EDUC 764. Fostering Student Learning and Success. 5 Units.
Presents strategies in student persistence and completion that aim to maximize student learning and success. Course will address developmental education, high impact practices, and instructional practices in higher education. Emphasis is placed on best practices in context serving diverse students. Four hours lecture and two hours practicum. Formerly EADM 764.

EDUC 766. Assessment and Evaluation in Higher Education. 5 Units.
Establishes the understanding of assessment and evaluation practices and processes to promote continuous quality and long-term health of higher education institutions and programs. Emphasis will be placed on accreditation, accountability measures, and performance. Four hours lecture and two hours practicum. Formerly EADM 766.

EDUC 768. Higher Education Governance and Policy. 5 Units.
Examines higher education governance and policy at the institutional, state, and federal level. Students gain theoretical and practical understanding of various models of governance, policy development, interpretation, implementation, and stakeholder collaboration. Four hours lecture and two hours practicum. Formerly EADM 768.

EDUC 780. Special Topics in Educational Leadership. 4 Units.
Prerequisites: completion of required courses, with the exception of Dissertation credits, or permission of the director
This is a variable topic course. Students are allowed to take this course two times for credit as topics change. Special topic in current issues is examined in depth. Analyze, evaluate, and reflect a controversial educational leadership issue, such as school reform, organizational studies, curriculum, instruction and supervision, assessment and evaluation, and sociocultural issues.

EDUC 790. Research Seminar. 1 Unit.
Prerequisites: admission to the Ed.D. in Educational Leadership and advancement to candidacy for the Doctoral Degree
Mentors and guides candidates through the dissertation. Members meet and discuss their progress with the cohort and faculty. Faculty supervise dissertation planning, research, and preparation. Must be repeated for a total of five units.

EDUC 795B. Independent Study. 2 Units.
Prerequisites: completion of required courses, with the exception of Dissertation credits, or permission of the director
Advanced material beyond the scope of current course offerings. May be repeated for credit for a maximum of six units. Each course must address a different topic. Graded Credit/no credit.

EDUC 795C. Independent Study. 3 Units.
Prerequisites: completion of required courses, with the exception of Dissertation credits, or permission of the director
Advanced material beyond the scope of current course offerings. May be repeated for credit for a maximum of six units. Each course must address a different topic. Graded Credit/no credit.

EDUC 795D. Independent Study. 4 Units.
Prerequisites: completion of required courses, with the exception of Dissertation credits, or permission of the director
Advanced material beyond the scope of current course offerings. May be repeated for credit for a maximum of six units. Each course must address a different topic. Graded Credit/no credit.

EDUC 799B. Dissertation. 2 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership and advancement to candidacy for the Doctoral Degree
Directed independent study. Candidates prepare their dissertations with faculty support. Must be repeated for a total of 16 units. Graded credit/no credit.

EDUC 799C. Dissertation. 3 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership and advancement to candidacy for the Doctoral Degree
Directed independent study. Candidates prepare their dissertations with faculty support. Must be repeated for a total of 16 units. Graded credit/no credit.

EDUC 799D. Dissertation. 4 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership and advancement to candidacy for the Doctoral Degree
Directed independent study. Candidates prepare their dissertations with faculty support. Must be repeated for a total of 16 units. Graded credit/no credit.
EDUC 799E. Dissertation. 5 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership and advancement to candidacy for the Doctoral Degree
Directed independent study. Candidates prepare their dissertations with faculty support. Must be repeated for a total of 16 units. Graded credit/no credit.

EDUC 799F. Dissertation. 6 Units.
Prerequisites: admission to the Ed.D. in Educational Leadership and advancement to candidacy for the Doctoral Degree
Directed independent study. Candidates prepare their dissertations with faculty support. Must be repeated for a total of 16 units. Graded credit/no credit.

EDUC 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Educational Administration (EADM)

Courses

EADM 514A. School Business Management and Service Functions: Purchasing, Warehousing and Inventory. 2 Units.
A variable topic course on management and service functions in the school business office. May be repeated for credit as topics change.

EADM 514B. School Business Management and Service Functions: Risk Management. 2 Units.
A variable topic course on management and service functions in the school business office. May be repeated for credit as topics change.

EADM 514C. School Business Management and Service Functions: Facilities Planning, Construction. 2 Units.
A variable topic course on management and service functions in the school business office. May be repeated for credit as topics change.

EADM 514D. School Business Management and Service Functions: Facilities Planning, Construction. 2 Units.
A variable topic course on management and service functions in the school business office. May be repeated for credit as topics change.

EADM 514E. School Business Management and Service Functions: Maintenance, Operations and Transportation. 2 Units.
A variable topic course on management and service functions in the school business office. May be repeated for credit as topics change.

EADM 514F. School Business Management and Service Functions: Employee Supervision. 2 Units.
A variable topic course on management and service functions in the school business office. May be repeated for credit as topics change.

EADM 542A. Seminar in Educational Administration. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EADM 542B. Seminar in Educational Administration. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EADM 542C. Seminar in Educational Administration. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EADM 542D. Seminar in Educational Administration. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EADM 601. Educational Leadership and Ethics. 4 Units.
Prerequisites: admission to Educational Administration program or consent of program coordinator
Introduction to school administration including leadership, vision, and ethics. Explores the theory and practice of school administration and restructuring. The leadership focus includes shared decision-making, problem solving, change management, planning, conflict management, evaluation, and school culture and climate. Must be taken during the first quarter of the program concurrently with EADM 603.

EADM 602. Research Methods in Educational Administration. 4 Units.
Prerequisite/Corequisite: EADM 601, EADM 603, and consent of program coordinator
Introduction to qualitative, quantitative and action research for school administrators using APA guidelines. Includes a proposal for an action research project.

EADM 603. Application of Leadership, Ethics and Organizational Theory. 1 Unit.
Prerequisites: admission to Educational Administration program or consent of program coordinator
Introduction to the assessment and fieldwork component of school administration including leadership, vision, and ethics. Initial assessment of candidate competence on the California Standards of Quality and Effectiveness for Preliminary Administrative Services Credentials. Candidates apply concepts of leadership, ethics and organization developed in EADM 601. Must be taken during the first quarter of the program concurrently with EADM 601.
EADM 607. Culture, Politics and Communication in Diverse Society. 4 Units.
Prerequisite/Corequisite: EADM 601 and EADM 603 or consent of program coordinator
Impact of educational administrators and collaboration with families and community members, responding to diverse community interests and needs, and mobilizing community resources. Emphasis on understanding, responding to, and influencing the larger political, social, economic, legal and cultural context.

EADM 610. Supervision and Evaluation of Teachers. 4 Units.
Prerequisite/Corequisite: EADM 601 and EADM 603, or consent of program coordinator
Supervision of classroom instruction including behavior management, using a variety of theories and models including developmental and clinical supervision. Planning and implementing staff development programs, procedures of documenting classroom teacher performance, and techniques of improving achievement of all students.

EADM 613. School Personnel Management. 4 Units.
Prerequisite/Corequisite: EADM 601 and EADM 603 and admission to the Educational Administration program
Recruitment, selection and evaluation of personnel at all levels of employment, including progressive assistance, conflict management, and file building. Laws and policy development in relationship to school district and collective bargaining.

EADM 617. Cultural and Political Experiences. 1 Unit.
Prerequisite/Corequisite: EADM 601, EADM 603 and EADM 607 or consent of program coordinator
Cultural and political experiences in diverse communities. Additional hours entailed.

EADM 619. Policy, Governance and Legal Aspects of Education. 4 Units.
Prerequisite/Corequisite: EADM 601 and EADM 603
Current laws and court decisions affecting public education with special emphasis on the laws of the State of California.

EADM 620. Practicum in Educational Administration. 1 Unit.
Prerequisite/Corequisite: EADM 601 and admission to Preliminary Administrative Services Credential or consent of program coordinator
Practicum for the Preliminary Administrative Services Credential is designed to fulfill the experiences required in the students induction plan. Student must receive approval of the Practicum Application Form and documentation of completion of an entry level administrative experience selected in consultation with instructor and district mentor. Ninety hours of experience is required.

EADM 621A. Fieldwork in Educational Administration I. 2 Units.
Prerequisites: EADM 601, 603, 610, 620, advancement to candidacy and permission of the program coordinator
Administrative fieldwork at the elementary and the secondary school level, coordinated with the district. Consists of a minimum of 60 hours of administrative fieldwork experience at the elementary and repeated at the secondary level for 2 units and 60 hours at each level for a total of 4 units.

EADM 621B. Fieldwork in Educational Administration I. 2 Units.
Prerequisites: EADM 601, EADM 617, EADM 621A and EADM 622
Administrative fieldwork at the elementary and the secondary school level, coordinated with the district. Consists of a minimum of 60 hours of administrative fieldwork experience at the elementary and repeated at the secondary level for 2 units and 60 hours at each level for a total of 4 units.

EADM 622. Curriculum, Instruction and Assessment. 4 Units.
Examines the California and national accountability systems and their impact on curriculum and instruction for both the school district and school site. Includes issues of norm and criteria referenced testing, the role of California state content standards in defining curriculum, instruction and assessment, and how diversity issues relate to accountability, curriculum, and instruction. Practice in use of technology for assessment and instructional decision making. Prerequisites/corequisites: EADM 601 and EADM 603 or consent of program coordinator.

EADM 625. School Finance and Business Management. 4 Units.
Prerequisite/Corequisite: EADM 601 and EADM 603 and admission to the Educational Administration program
Economics of school finances; evolution of the California School Finance Programs; fiscal relationship to county, state and federal agencies; school budget procedures; school accounting; financial management of categorical and special education funds; and the planning, financing, and management of school facilities. Formerly EADM 624.

EADM 626. Issues and Trends in School Administration. 4 Units.
Current theories, research and program in school leadership with an emphasis in practice of social justice, access and student achievement.

EADM 626A. Issues and Trends in School Administration: School Reform. 1 Unit.
Current theories, research and program in school leadership with an emphasis in practice of social justice, access and student achievement.

EADM 626B. Issues and Trends in School Administration: Common Core Standards. 1 Unit.
Current theories, research and program in school leadership with an emphasis in practice of social justice, access and student achievement.

EADM 626C. Issues and Trends in School Administration: S.T.E.M. Programs. 1 Unit.
Current theories, research and program in school leadership with an emphasis in practice of social justice, access and student achievement.
EADM 626D. Issues and Trends in School Administration: Special Education. 1 Unit.
Current theories, research and program in school leadership with an emphasis in practice of social justice, access and student achievement.

EADM 630A. Internship Fieldwork in Educational Administration. 2 Units.
Prerequisites: consent of program coordinator
Field experiences for students enrolled in the Preliminary Administrative Services Credential Program, Internship Option.

EADM 630B. Internship Fieldwork in Educational Administration. 2 Units.
Prerequisites: consent of program coordinator
Field experiences for students enrolled in the Preliminary Administrative Services Credential Program, Internship Option. May be repeated to a maximum of 10 units. Formerly EADM 630.

EADM 660. Advanced Field Studies: Assessment. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program and permission of the program coordinator
The student, university faculty, and selected district personnel will complete a comprehensive assessment of the candidates utilizing multiple assessment measures and develop a plan for addressing identified needs and continued personal growth. This course is a requisite for or can be taken concurrently with EADM 664, 667, 670, 672, 675, and 678.

EADM 664. Principles of Leadership, Organizational Theory and Decision Making. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, completion of, or concurrent enrollment in EADM 660, or permission of program coordinator
Seminar in principles of leadership and organizational theory including a review of leadership styles, a variety of management strategies and human relations skills, dynamics of team building, and effective decision-making are also studied.

EADM 667. Instructional Leadership for Program Development and Evaluation. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, completion of, or concurrent enrollment in EADM 660, or permission of program coordinator
Seminar in practical and theoretical issues related to leadership, including effective schools, teacher supervision and evaluation, staff development, instructional management and support, quality control, and computer technology needs of the administrator. These topics provide an opportunity for reflection and discussion on instructional leadership as it relates to program components and development, program evaluation, and evaluation designs and implementation.

EADM 670. School Law. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, completion of, or concurrent enrollment in EADM 660, or permission of program coordinator
Seminar on the impact of education law upon the educational administrator and how it can facilitate school leadership, including the study of judicial structure and dynamics of law cases and interpretations on administrative settings.

EADM 672. Human Resource Management. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, completion of, or concurrent enrollment in EADM 660, or permission of program coordinator
Seminar in the theory and function of personnel administration as it relates to instructional leadership in schools. School personnel law is reviewed and applied to understanding of political relationships. Fiscal management of personnel resources as related to strategic planning.

EADM 675. School Business and Facility Management. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, completion of, or concurrent enrollment in EADM 660, or permission of program coordinator
Seminar on trends and issues in school finance with emphasis on current and innovative procedures including development of a site-based budget; fiscal issues, attendance and student activity accounting; strategic planning; and the planning and utilization of school facilities.

EADM 678. Social Business and Facility Management. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, completion of, or concurrent enrollment in EADM 660, or permission of program coordinator
Seminar on the political forces that propel public education at the local, state, and national levels, and the social issues that impact the operation of schools and school districts.

EADM 680. Advanced Field Studies: Evaluation. 3 Units.
Prerequisites: admission to Professional Administrative Services Credential program, EADM 660, 664, 667, 670, 672, 675 and 678 or permission of program coordinator
Exit fieldwork structured to provide the student with an evaluation by university faculty and selected district personnel of progress on the initial program assessment plan and development of a plan for continued growth as an effective school leader.

EADM 681. Vision and Student Learning. 3 Units.
Prerequisites: admission to the Administrative Services Professional Credential program or consent of program coordinator
Development, articulation, implementation, and implementation stewardship of a shared vision among diverse stakeholders to address achievement of all student groups.

EADM 682. Instructional Leadership. 3 Units.
Prerequisites: EADM 681
Shaping a collaborative culture of teaching and learning focused on student and professional growth.

EADM 683. Resource Management of the Learning Environment. 3 Units.
Prerequisites: admission to the Administrative Services Professional Credential program or consent of program coordinator
Management of a safe, respectful learning environment with established structures, policies, organization, operations, procedures and alignment of fiscal and human resources to focus on meeting the intellectual, linguistic, cultural, social-emotion, and physical needs of each learner.
EADM 684. Family and Community Engagement. 3 Units.
Prerequisite/Corequisite: EADM 683. Prerequisite: admission to the Administrative Services Professional Credential program or consent of program coordinator. Collaboration with families and other stakeholders to address diverse student and community interests and mobilize community resources.

EADM 685. Ethics and Integrity. 3 Units.
Prerequisites: admission to the Administrative Services Professional Credential program or consent of program coordinator. Demonstrating professionalism, ethics, integrity, justice, and equity through decision-making, modeling and behavior as administrators and expecting staff to hold to same standard.

EADM 686. External Context and Policy. 3 Units.
Prerequisites: admission to the Administrative Services Professional Credential program or consent of program coordinator. Prerequisite/Corequisite: EADM 685. Influencing political, social, economic, legal and cultural contexts affecting education to improve education policies and practices.

EADM 687. Coaching and Assessment Practicum I. 2 Units.
Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSELS). First of six courses in a sequence.

EADM 689. Coaching and Assessment Practicum III. 2 Units.
Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSELS). Third of six courses in a sequence.

EADM 690. Coaching and Assessment Practicum IV. 2 Units.
Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSELS). Fourth of six courses in a sequence.

EADM 691. Coaching and Assessment Practicum V. 2 Units.
Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSELS). Fifth of six courses in a sequence.

EADM 692. Comprehensive Evaluation in Educational Administration. 4 Units.
Prerequisite/Corequisite: EADM 627; advancement to candidacy and permission of program coordinator. Corequisite: EADM 999. Review and preparation for the written comprehensive examination. Formerly EADM 633. Prerequisites EADM 601, EADM 603, EADM 607, EADM 610, EADM 613, EADM 617, EADM 620, EADM 621A and EADM 621B (or EADM 630), EADM 622, and EADM 625.

EADM 693. Coaching and Assessment Practicum VI. 2 Units.
Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSELS). Sixth of six courses in a sequence.

EADM 699. Masters Thesis in Educational Administration. 4 Units.
Prerequisites: advancement to candidacy, EADM 601, EADM 602, EADM 604, EADM 607, EADM 610, EADM 613, EADM 616, EADM 619, EADM 622, EADM 625 and EADM 628 and permission of program coordinator. Independent graduate research conducted under the direction of two program faculty members.

EADM 730. Politics, Legislative Action and Educational Change. 4 Units.
Prerequisites: admission to the Ed.D. program; COMM 522; and PA 662 or MGMT 641. Processes governing the development of educational policy, including significant laws, legal principles, recent litigation, board relationships and labor management relations. Focuses on connections between legislative and judicial action and the social, political and economic forces affecting education. Covers the interactions and relationships between public and charter schools.

EADM 732. Fiscal Planning and Facilities Management. 5 Units.
Prerequisites: admission to the Ed.D. program; COMM 522; and PA 662 or MGMT 641. Methods of financing public education. Identifies budgeting and accounting techniques used by school districts in support of the instructional process and considers legal requirements and public reactions to the financing of education and resource allocation to achieve student outcomes. Explores facilities issues. Four hours lecture and two hours practicum.

EADM 736. Instructional Leadership and Learning Strategies. 4 Units.
Prerequisites: EADM 730 and 732. Covers standards, curriculum, instructional strategies, supervision, trends, and innovations.

EADM 738. Assessment and Evaluation. 5 Units.
Prerequisites: EADM 734 and EADM 736. Assessment and evaluation of student learning, tests and measurements, measurement theory and using data for improvement. Four hours lecture and two hours practicum.

EADM 999. Comprehensive Examination in Education Administration. 0 Units.
Prerequisites: approval of prospectus by the students advisory committee, advancement to candidacy, completion of all other required courses for the M.A. or consent of department. Independent graduate research culminating in a written thesis.
Courses

ECLG 222. College to Career. 4 Units.
Introduction to personal interests, values and abilities as they impact educational and career exploration. Use of technology to help identify career choices and labor market trends. Techniques of job search as it relates to all college majors.

ECLG 531. Introduction to Counseling. 2 Units.
Prerequisites: approval of admission portfolio
Introduction to basic counseling practice, counseling ethics, and career pathways in counseling.

ECLG 536. Social-Emotional Development of the Gifted and Talented. 4 Units.
Social, emotional and related educational needs of gifted and talented children and youth.

ECLG 542A. Seminar in Educational Counseling. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ECLG 542B. Seminar in Educational Counseling. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ECLG 542C. Seminar in Educational Counseling. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ECLG 542D. Seminar in Educational Counseling. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ECLG 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research.

ECLG 607. Research and Program Evaluation for Counseling. 4 Units.
Research and program evaluation methods tailored to the needs of counseling and guidance students.

ECLG 619. Appraisal Procedures in Counseling. 4 Units.
Prerequisites: ECLG 531 with a grade of B (3.0) or better and ECLG 607 for students in the M.S. and P.P.S. credential program in Counseling and Guidance or admission to P.P.S. credential in School Psychology or Ed.S. program. Offered as ECLG 619 and EDSP 619, students may not receive credit for both
Individual and group measurement techniques, behavior observation skills, test interpretation, rights and responsibilities of test takers and administrators, and an introduction to personality, aptitude, achievement and career interest measurements.

ECLG 632. Advanced Psychological Foundations of Education. 4 Units.
Focuses on the interaction of the learning-teaching process. Emphasis on pertinent learning theories of general and special education individual differences in capacities and development of learners, and evaluation of learning and instructional models. Particular attention will be paid to the education of learners with exceptionalities and inclusive classrooms. Theories of motivation and research findings with specific relevance to learning process and human development within the context of educational psychology will be examined. Special attention will be paid to positive behavior interventions and principles of classroom management. Includes 30 hours of practica. Offered as ECLG 632 and EDSP 632, students may not receive credit for both.

ECLG 633. Human Development for Counseling. 4 Units.
Prerequisites: ECLG 531 and 632 or admission to the P.P.S. or Ed.S. programs in School Psychology. Offered as ECLG 633 and EDSP 633, students may not receive credit for both
Recent developments in research and theory of human development, especially as they relate to counseling persons about problems of development. Focus is on cognitive, biological, and social development in the context of family and community development.

ECLG 650. Career Counseling. 4 Units.
Overview of career development, career education and career counseling and guidance in schools, agencies and community settings. Offered as ECLG 650 and EDSP 650, students may not receive credit for both.

ECLG 651. Professional School Counselor. 4 Units.
Theory and practical applications of comprehensive school counseling programs at the elementary, middle, and high school levels. Experience-based approach to program management and guidance curriculum development.

ECLG 654. Legal and Ethical Issues in Counseling and Guidance. 4 Units.
Legal and ethical constraints and considerations in the school counseling profession.

ECLG 655. Multicultural Counseling. 4 Units.
Theory of and practical applications of counseling to serve diverse groups of people in school and community settings. How counseling can contribute to social justice for people from various backgrounds such as different genders, ethnicities, races, social classes, sexual orientations, and religions.
ECLG 656. Counseling Theories. 4 Units.  
Prerequisites: ECLG 531 or admission to P.P.S. credential in School Psychology or Ed.S. program. Offered as ECLG 656 and EDSP 656, students may not receive credit for both  
Theories and practices of counseling; applications to educational settings and community settings.

ECLG 657A. Counseling Practicum I. 4 Units.  
Prerequisites: ECLG 531, ECLG 631 or admission to P.P.S. or Ed.S. program in School Psychology. Offered as ECLG 657A and EDSP 657A, students may not receive credit for both  
Supervised practice in the application of counseling skills, theories and techniques. Includes 30 hours of practice.

ECLG 657B. Advanced Counseling Practice. 4 Units.  
Prerequisites: ECLG 657A with a grade of B or better  
Supervised practice in counseling in a laboratory setting. Includes 30 hours of practice.

ECLG 658. Family Consultation. 4 Units.  
Prerequisites: ECLG 657B or admission to the P.P.S. or Ed.S. program in School Psychology. Offered as ECLG 658 and EDSP 658, students may not receive credit for both  
Family systems theory. Theory and methods of consultation with families. Inclusion of teachers and other professionals in the family system.

ECLG 661. Diagnosis and Treatment Plan. 4 Units.  

ECLG 662. Addictions Counseling. 4 Units.  
Diagnosis of addictions and counseling of persons affected by addiction to legal and illegal substances.

ECLG 663. Gender and Sexuality. 4 Units.  
Human sexuality and gender across the lifespan and counseling interventions addressing gender identity and sexual relationship issues.

ECLG 664. Crisis and Trauma Counseling. 4 Units.  
Crisis and trauma theory and counseling practice for persons who have experienced trauma or crisis events.

ECLG 665. Family Violence. 4 Units.  
Child abuse assessment and reporting. Spousal or partner abuse assessment and intervention strategies.

ECLG 667. Conflict Resolution. 4 Units.  
Understanding and responding to conflict in relationships, schools and communities. Includes conflict coaching, mediation, and conferencing practices.

ECLG 668. Aging Death and Grief. 4 Units.  
Theories and research about aging and dying. Counseling the dying and the bereaved. Includes understanding of relevant pharmacology.

ECLG 669. Psychopharmacology. 4 Units.  
Understanding the purposes and effects of the main pharmaceuticals used in mental health settings.

ECLG 672. Leadership, Advocacy, and Preventive Education in Counseling. 4 Units.  
Prerequisites: ECLG 657B  
The importance and function of leadership, student advocacy, and the role of change agent by pupil personnel service providers. The planning, implementation and evaluation of school counseling and guidance programs that increase student learning and achievement.

ECLG 678. Group Counseling. 4 Units.  
Prerequisites: ECLG 531, ECLG 656 and ECLG 657A or ECLG 657B or admission to the P.P.S. or Ed.S. program in School Psychology. Offered as ECLG 678 and EDSP 678, students may not receive credit for both  
Theory and practice of group counseling in schools or community settings. Includes 30 hours of practice.

ECLG 679. Counseling Field Experience. 4 Units.  
Field practice with direct pupil contact (minimum 150 hours) in an educational setting under supervision of certificated personnel. Graded credit/no credit. Must be repeated for a total of 16 units.

ECLG 693. Special Topics in School Psychology. 4 Units.  
Prerequisites: ECLG 649, ECLG 660 and ECLG 687  
Selected topics in school psychology, such as professional issues, ethics and current practices, applicable State Education Codes and court decisions, use of community resources; in-service training theory and practice. May be repeated for credit as topics change.

ECLG 696. Special Topics in Counselor Education. 2 Units.  
Relevant issues in counselor education. May be repeated for credit as topics change.

ECLG 697. Master's Degree Project. 0 Units.  
Prerequisites: advancement to candidacy, EDUC 607, ECLG 657B, 679A, and permission of program coordinator  
Research project related to counseling and guidance conducted under the direction of two program faculty members.

ECLG 999. Comprehensive Examination. 0 Units.  
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing  
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-Elementary/Bilingual Education (EELB)

Courses

EELB 230. Introduction to Education. 4 Units.  
Perspectives on public school teaching for potential elementary teachers. Awareness of the learning/teaching process; the various roles of teachers; the social, historical, and philosophical foundations of education. Preparation for admission to the credential portion of the B.A. in Liberal Studies, Integrated Track. A minimum of 30 hours of observation/participation in public schools grades K-8.
EELB 285A. Service Learning Experience I. 2 Units.
Supervised intensive work performed in the classroom. Requires 60 hours of work/study, including weekly classes. Two units must be completed in a K-3 classroom setting and another two units completed in a 4-8 classroom setting taken in either order. Graded A,B,C/no credit. Formerly EELB 275 and 575.

EELB 285B. Service Learning Experience II. 2 Units.
Prerequisites: EELB 285A
Continuation of EELB 285A in either a K-3 or 4-8 classroom setting. Formerly EELB 275 and 575. Graded A,B,C/ no credit.

EELB 301. Growth and Development in Socio-Educational Contexts. 6 Units.
Comprehensive introduction to development from birth through adolescence. Emphasis is on physical, cognitive, social, language, and emotional development within social and educational contexts as affected by race, sex, culture, home language, gender, sexual orientation, socioeconomic status, and special needs. Includes learning to use observational and interview methodologies to analyze behaviors and contexts using developmental principles, theories, and current research. Requires a field component in an approved setting. Four units lecture and two units supervision. Formerly EELB 331.

EELB 310. Educational Psychology: Teaching and Learning in Diverse Classrooms. 3 Units.
Corequisites: HD 315
Explores the major educational theories of human learning and cognition, reviews research on effective teaching practices, and examines the use of learning theories and research among students of differing gender, ethnicity, language, socioeconomic status, and handicapping conditions. Five hours of observation/participation in a public elementary school classroom are required. This course cannot be taken in place of EELB 317.

EELB 311. Mathematics Curriculum and Methods in the Elementary School. 4 Units.
Prerequisites: admission to the B.A. in Liberal Studies, Accelerated Track
Corequisites: MATH 301A
Introductory course in curriculum and instruction for implementing meaning-centered elementary mathematics education in a culturally diverse society and in designing instruction to meet academic needs of English language learners. Course requires three hours lecture and two hours activity including observation and participation in approved setting.

EELB 313. Pedagogical Foundations for English Language Learners. 4 Units.
Prerequisites: admission to the Multiple Subject Credential Program Overview of various theories, principles and instructional practices designed to develop the linguistic, social and academic proficiency of English language learners. Key issues and concepts include: linguistic development, first and second language acquisition, and the relationship between first language literacy and second language development. Relevant state and federal laws pertaining to the education of English learners, the impact of these mandates on student placement and school site instructional programs, the importance of students' families, cultural backgrounds and experiences and how these relate to successful school experiences for English learners are examined. Requires field component in an approved setting. Formerly EELB 333. May be taken concurrently with EELB 315 or EELB 316, EELB 317, EELB 510 and EELB 520B.

EELB 315. Reading/Language Arts Curriculum and Pedagogy. 3 Units.
Prerequisites: admission to the Multiple Subject Credential Program Research-based materials, methods, and strategies for teaching reading/language arts, including explicit systematic, meaningful instruction in basic reading skills and comprehension strategies to meet the needs of English learners, proficient English learners, and learners with special needs including learners with varied reading levels and language backgrounds. Emphasis is on emergent reading and writing behaviors, balanced literacy components, and literature. Requires field component including participation with beginning readers in an approved setting. Formerly EELB 445. May be taken concurrently with EELB 313, EELB 317, EELB 510 and EELB 520B.

EELB 316. Reading/Language Arts (Primary Language) Curriculum and Pedagogy. 3 Units.
Prerequisites: admission to the Multiple Subject Credential Program Materials, methods, and strategies for teaching reading/language arts with a focus on substantive research-based instruction, including explicit systematic, meaningful instruction in basic reading skills and comprehension strategies to meet the needs of English learners, proficient English learners with special needs including learners with varied reading levels and language backgrounds. Emphasis is on emergent reading and writing behaviors, balanced literacy components, and literature. Part of the course is taught in Spanish. Requires field component including participation with beginning readers in an approved Multiple Subject BCLAD setting. Formerly EELB 446. May be taken concurrently with EELB 313, EELB 317, EELB 510 and EELB 520B.

EELB 317. Educational Psychology for a Diverse Society. 4 Units.
Prerequisites: admission to the Multiple Subject Credential Program Overview of psychological principles applied to education using a variety of theoretical perspectives from psychology to explore educational practices, student development and characteristics, learning processes, teaching strategies and assessment in the multicultural classroom. Requires a minimum six-hour field component in an approved setting. Formerly EELB 332. May be taken concurrently with EELB 313, EELB 315 or EELB 316, EELB 510, and EELB 520B.
EELB 334. Language Development and Schooling. 4 Units.
First and second language acquisition and the applications of this to developing curriculum and instructional practices of English language learners. Historical, legal and educational foundations of bilingual instruction, English language development (ELD) and Specially Designed Academic Instruction in English (SDAIE) as well as enrichment versus deficit models of schooling. Requires five hours of observation and participation in an approved setting.

EELB 335. Reading/Language Arts Curriculum and Methods in the Elementary School. 4 Units.
Prerequisites: admission to the B.A. in Liberal Studies, Accelerated Track Corequisites: ENG 311
Emphasis on integration of linguistic concepts with appropriate strategies for teaching emergent readers and writers of varied reading levels and language backgrounds. Strategies include developing phonemic awareness; systemic explicit phonics instruction; selection of appropriate materials and assessment measures; making reading and writing connections; supporting comprehension and vocabulary development; and organizing classrooms for a balanced literacy program. Course requires three hours lecture and two hours activity including observation and participation in approved setting.

EELB 342. Curriculum and Methods for Early Childhood Education. 4 Units.
Prerequisites: EELB 301 and 312
Principles, methods and materials of instruction appropriate for young children.

EELB 414. Science Curriculum and Methods in the Elementary School. 4 Units.
Prerequisites: admission to the B.A. in Liberal Studies, Accelerated Track Corequisites: CHEM 304, GEOL 304 or PHYS 304
Introductory course in curriculum and instruction for implementing meaning-centered elementary science education in a culturally diverse society and in designing instruction to meet academic needs of English language learners. Course requires three hours lecture and two hours activity including observation and participation in approved setting.

EELB 422. Classroom Organization, Management and Discipline. 2 Units.
Prerequisites: admission to the Multiple Subject Credential Program and completion of all Phase I courses
Seminar focusing on knowledge, skills and dispositions required to create and maintain a supportive, healthy environment for student learning. Topics include learning about students, encouraging parental involvement and support, understanding multiple factors that influence behavior, using support personnel, establishing procedures which result in using instructional time effectively, and developing a discipline plan based on research and personal educational philosophy. May be taken concurrently with EELB 423, EELB 425 and EELB 520C and either EELB 540A or EELB 560A. If not taken concurrently with EELB 520C and either EELB 540A or EELB 560A, then five hours of fieldwork will be required.

EELB 423. Mathematics Curriculum and Pedagogy. 4 Units.
Prerequisites: admission to the Multiple Subject Credential Program and completion of all Phase I courses
Introductory course in curriculum and instruction in mathematics. Emphasis on implementing state adopted mathematics curriculum standards and skills in an elementary classroom based on an in depth understanding of concepts, skills, and strategies in mathematics. Includes designing instruction to meet the academic needs of all learners in a diverse classroom including English learners and learners with special needs. Formerly EELB 441. May be taken concurrently with EELB 423, EELB 425 and EELB 520C and either EELB 540A or EELB 560A. If not taken concurrently with EELB 520C and either EELB 540A or EELB 560A, then six hours of fieldwork will be required.

EELB 425. Literacy and Second Language Acquisition for the Intermediate Reader and Beyond. 3 Units.
Prerequisites: admission to the Multiple Subject Credential Program and completion of all Phase I courses
Continuation of EELB 315 and 316 which extends the study of literacy development for the intermediate reader and beyond for all learners including English learners, proficient English learners, and learners with special needs. Emphasis on developing higher level academic skills for complex reading, writing, speaking, and thinking; approaches to English language development (ELD); planning for both language and content instruction, literacy in the content areas; development of strategies to build comprehension and fluency; assessment techniques; and transfer of literacy skills from first to second language. Formerly EELB 449. May be taken concurrently with EELB 423, EELB 425 and EELB 520C and either EELB 540A or EELB 560A. If not taken concurrently with EELB 520C and either EELB 540A or EELB 560A, then six hours of fieldwork will be required.

EELB 429. Reading, Writing and Literary Analysis in the Elementary. 4 Units.
Prerequisites: admission to the B.A. in Liberal Studies, Accelerated Track, EELB 235, ENG 306, and 311 Corequisites: ENG 301, 302, 303, 304, 309 or 320
Emphasis on approaches to reading and writing in the content areas; analysis of literature; assessment techniques; and strategies for making reading, writing and literature comprehensible to all students including English language learners. Course builds on process writing concepts including drafting, peer editing, and idea development. Course requires three hours lecture and two hours of activity including observation and participation in approved setting.

EELB 430. Supervised Student Teaching in the Blended Program. 8 Units.
Prerequisites: admission to the B.A. in Liberal Studies, Accelerated Track and admission to student teaching Corequisites: HUM 497
Teaching in elementary grades in the public schools. Graded credit/no credit.
EELB 480. Capstone Seminar. 2 Units.
Prerequisites: EELB 450A, 451 and 533 or 534
Corequisites: EELB 450B, 452 and 511
Seminar on issues in curriculum, instruction and assessment; reflection on all previous course work and experiences; and continuing development of the teaching portfolio to accompany second quarter elementary student teaching. Graded credit/no credit.

EELB 510. Culture and Schooling in Multiple Subject Setting. 4 Units.
Prerequisites: admission to the Multiple Subject Credential Program Capstone course for multiple subject student teachers and interns. Examines current practices in local school districts as related to healthy lifestyles for children as well as appropriate academic practices. Topics include legal and ethical responsibilities of teachers and the identification and use of community resources to support families. Requires field component in an internship or student teaching setting. Formerly EELB 312. Must be taken in the last quarter of enrollment in the credential program.

EELB 512. Spanish Children's Literature for the Bilingual Classroom. 4 Units.
Examines children's literature and how it has the potential to be culturally authentic, interesting and effective in literacy instruction. (Also offered as EELB 611. Students may not receive credit for both.)

EELB 519. Assessment Seminar I. 2 Units.
Prerequisites: admission to the Multiple Subject Credential program Prerequisite/Corequisite: all courses in Phase I Seminar focusing on knowledge, skills and dispositions required of first-year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and learners with special needs, and demonstration of Teacher Performance Expectations 1, 3, 4, 6 and 7. Must be the last course taken in Phase I. Graded credit/no credit.

EELB 520A. Teaching Performance Assessment Seminar: Subject Specific Pedagogy Task I. 1 Unit.
Prerequisites: classified program admission, good standing in program, and EELB 313; EELB 315 or EELB 136; EELB 317 and EELB 423 with a grade of "B-" or better in each course Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit.

EELB 520B. Teaching Performance Assessment Seminar: Designing Instruction Task 2. 1 Unit.
Prerequisites: classified program admission, good standing in program, and EELB 312; EELB 313; EELB 315 or EELB 316; and EELB 317 with a grade of "B-" or better in each course Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit.

EELB 520C. Teaching Performance Assessment Seminar: Assessing Student Learning Task 3. 1 Unit.
Prerequisites: classified program admission and good standing in program, with grades "B-" or better Corequisites: EELB 540A for student teachers and EELB 560B for intern teachers Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit.

EELB 520D. Teaching Performance Assessment Seminar: Culminating Teaching Experience Task 4. 1 Unit.
Prerequisites: classified program admission and good standing in program with grades "B-" or better Corequisites: EELB 540B for student teachers and EELB 560C for intern teachers Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit.

EELB 520E. Assessment Seminar: TPA Cycle 1. 4 Units.
Seminar focusing on knowledge, skills and dispositions required for first year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and students with special needs, and preparation to document parts of teacher performance expectations 1-6. TPA Cycle 1. Graded Credit/No credit.

EELB 520F. Assessment Seminar: TPA Cycle 2. 4 Units.
Seminar focusing on knowledge, skills and dispositions required for first year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and students with special needs, and preparation to document parts of teacher performance expectations 1-6. TPA Cycle 2. Graded Credit/No credit.

EELB 529. Assessment Seminar II. 2 Units.
Prerequisite/Corequisite: EELB 422, 423, 425 for student teachers or EELB 532 for intern teachers. Prerequisite: admission to the Multiple Subject Credential program and all Phase I courses for student teachers or all courses in Phase I and II for intern teachers Corequisites: EELB 540A for student teachers or EELB 560B for intern teachers Seminar focusing on knowledge, skills and dispositions required of first year teachers. Emphasis on connecting instructional planning to student characteristics for academic learning; designing instruction in physical education; and demonstration of Teacher Performance Expectations 1, 4, 6, 7, 8, 9, and 13. Graded credit/no credit.
EELB 532. Science/Health Curriculum and Pedagogy. 4 Units.
Prerequisites: admission to the Multiple Subject Credential Program and completion of all Phase I and II courses
Introductory course in curriculum and pedagogy in science and health. Emphasis on implementing state adopted science and health curriculum standards in an elementary classroom. Includes designing instruction to meet academic needs of all learners including English language learners and learners with special needs. Formerly EELB 443. Student teachers may take concurrently with EELB 533 or EELB 534, EELB 520D and EELB 540B. Intern teachers may take concurrently with EELB 520C and EELB 560B. If not taken concurrently with EELB 540B or EELB 560B, then six hours of fieldwork will be required.

EELB 533. Social Studies and the Arts Curriculum Pedagogy. 4 Units.
Prerequisites: admission to the Multiple Subject Credential Program and completion of all Phase I, II and III courses for intern teachers
Introductory course in curriculum and pedagogy in history/social studies and visual/performing arts. Emphasis on implementing state adopted curriculum standards and skills in an elementary classroom based on an in-depth understanding of concepts, skills, and strategies in history/social studies and the visual/performing arts. Includes designing a teaching unit to meet academic needs of all learners including English language learners and learners with special needs. Formerly EELB 447. Student teachers may take concurrently with EELB 532, EELB 520D and EELB 540B. Intern teachers may take concurrently with EELB 520D and EELB 560C. If not taken concurrently with EELB 540B or 560C, then six hours of fieldwork will be required.

EELB 534. Social Studies and the Arts (Primary Language) Curriculum and Pedagogy. 4 Units.
Prerequisites: admission to the Multiple Subject Credential program and completion of all Phase I and II courses for student teachers or completion of all Phase I, II, and III courses for intern teachers
Corequisites: EELB 540B or EELB 560C
Introductory course in curriculum and pedagogy in history/social studies and the visual/performing arts. Emphasis on implementing state adopted curriculum standards and skills in an elementary school based on an in-depth understanding of concepts, skills, and strategies in history/social studies and the visual/performing arts. Includes designing a teaching unit to meet academic and language needs of all learners including Spanish-speaking learners and learners with special needs. Part of the course will be taught in Spanish. Formerly EELB 448. Student teachers may take concurrently with EELB 532, EELB 520D and EELB 540B. Intern teachers may take concurrently with EELB 520D and EELB 560C. If not taken concurrently with EELB 540B or EELB 560C, then six hours of fieldwork will be required.

EELB 539. Assessment Seminar III. 2 Units.
Prerequisite/Corequisite: EELB 532 and 533 or 534 for student teachers or EELB 533 or 534 for intern teachers. Prerequisites: admission to the Multiple Subject Credential program and Phase I and II for student teachers or Phase I, II and III for intern teachers
Corequisites: EELB 540B for student teachers or EELB 560C for intern teachers
Seminar focusing on knowledge, skills and dispositions required of first year teachers. Emphasis on assessment of learning goals; lesson design, implementation, and reflection after instruction; professional, legal and ethical obligations; and demonstration of Teacher Performance Expectations 1 through 13. Graded credit/no credit.

EELB 540A. Supervised Student Teaching in Multiple Subject I. 6 Units.
Prerequisites: admission to supervision as a student teacher
Teaching practicum in public schools in a multiple subject setting as defined by CCTC. Two quarters of student teaching are required. Graded credit/no credit. Formerly EELB 450. Must be taken concurrently with EELB 520C. Should be taken concurrently with EELB 422, EELB 423, and EELB 425.

EELB 540B. Supervised Student Teaching in Multiple Subject II. 6 Units.
Prerequisites: EELB 422, EELB 423, EELB 425, EELB 520C and EELB 540A
Teaching practicum in public schools in a multiple subject setting as defined by CCTC. Two quarters of student teaching are required. Graded credit/no credit. Formerly EELB 450. Must be taken concurrently with EELB 520D. Should be taken concurrently with EELB 532 and EELB 533 or EELB 534.

EELB 540C. Supervised Student Teaching in Multiple Subject III. 6 Units.
Prerequisites: consent of program director
Teaching practicum in public schools in a multiple subject setting as defined by CCTC. Two quarters of student teaching are required. Graded credit/no credit. Formerly EELB 450.

EELB 542A. Seminar in Elementary/Bilingual Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EELB 542C. Seminar in Elementary/Bilingual Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

EELB 542D. Seminar in Elementary/Bilingual Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.
EELB 545. Teaching Science in Elementary School. 4 Units.
Prerequisites: consent of instructor
Intensive study of teaching science in elementary school. Exploration, analysis, interpretation and implementation of science process teaching. Intended for experienced teachers.

EELB 560A. Supervised Intern Teaching in Multiple Subject I. 8 Units.
Prerequisites: admission to the intern program, completion of EELB 312, EELB 313, EELB 315 or EELB 316, and EELB 317 and admission to supervision
Corequisites: EELB 422, EELB 423, and EELB 425
Full-time teaching in the public schools under the intern credential in a multiple subject setting as defined by CCTC. Three quarters of supervised intern teaching are required. Formerly EELB 455. Graded credit/no credit.

EELB 560B. Supervised Intern Teaching in Multiple Subject II. 8 Units.
Prerequisites: EELB 312, EELB 313, EELB 315 or EELB 316, EELB 317, EELB 422, EELB 423, EELB 425, and EELB 560A
Corequisites: EELB 520C and EELB 532
Full-time teaching in the public schools under the intern credential in a multiple subject setting as defined by CCTC. Three quarters of supervised intern teaching are required. Formerly EELB 455. Graded credit/no credit.

EELB 560C. Supervised Intern Teaching in Multiple Subject III. 8 Units.
Corequisites: EELB 533 or 534 and 520D
Full-time teaching in the public schools under the intern credential in a multiple subject setting as defined by CCTC. Three quarters of supervised intern teaching are required. Formerly EELB 455. Graded credit/no credit.

EELB 605. Curriculum for Specially Designed Academic Instruction in English (SDAIE). 2 Units.
Prerequisites: EELB 312, EESL 536, or ESEC 321; EELB 333 or ESEC 333; and EELB 511 or ESEC 511
Study and practice of the design, implementation, and assessment of specially designed academic instruction in English (SDAIE). Includes selection and use of appropriate SDAIE strategies and materials. (Also offered as EELB 605. Students may not receive credit for both.)

EELB 606. Theory and Practice in Teaching Bilingual Students I. 4 Units.
Prerequisites: consent of instructor
Bilingual/crosscultural teaching strategies and curriculum development; methods of integrating English and Spanish in the instructional program; evaluation of language skills, emphasis on social sciences and language arts.

EELB 608. Research in Bilingual/Cross-Cultural Education. 4 Units.
Survey of current measurements and research in bilingual/cross-cultural education and their applications in the classroom.

EELB 611. Spanish Childrens Literature for the Bilingual Classroom. 4 Units.
Examines childrens literature and how it has the potential to be culturally authentic, interesting and effective in literacy instruction. (Also offered as EELB 512. Students may not receive credit for both.) Graduate students in this course must complete additional assignments.

EELB 612. Social and Cultural Contexts for School Learning. 4 Units.
Examination of the relationship between the sociology of knowledge, social context, cultural norms and school practices with particular attention to language minority student populations.

EELB 616. Advanced Reading/Language Arts (Primary Language) Curriculum and Pedagogy. 4 Units.
Research-based materials, methods, and strategies for teaching reading/language arts, including explicit systematic, meaningful instruction in basic reading skills and comprehension strategies to meet the needs of English learners, proficient English learners, and learners with special needs, including learners with varied reading levels and language backgrounds. Emphasis on emergent reading and writing behaviors, balanced literacy components, and literature. Part of the course will be taught in Spanish. Requires a minimum six-hour field component including participation with beginning readers in an approved Multiple Subject (BCLAD) setting. In addition, students will be required to conduct a case study research project tracking a beginning reader and writers literacy/biliteracy development across time. Fulfills credential requirement for EELB 316. Formerly EELB 646.

EELB 618. Social and Cultural Contexts for Bilingual Teaching and Learning. 4 Units.
The relationship between language and culture will be explored with an emphasis on some of the existent variations within the English language among different social and ethnic groups and how these differences have emerged. Examines the development of mind as social construction. For educators this requires an understanding of the connectedness of social, institutional and interactional factors which foster the cognitive development of bilingual students.

EELB 619. Cognition, Language Acquisition and Biliteracy. 4 Units.
An analysis of the language acquisition process as it emerges from the early grammars of the child and develops into the complex grammatical structures and patterns of the mature individual. Examines sociopsycholinguistic, sociocultural, psychogenetic and sociopolitical traditions and how they relate to the literacy development of students in bilingual and mainstream programs.

EELB 625. Curriculum and Materials for Bilingual and ESL Classrooms. 4 Units.
Provides participants with advanced knowledge of curricular and instructional approaches used in effective bilingual and English as a Second Language (ESL) programs.

EELB 626. Literacy and Bilingual Development. 4 Units.
Examines sociopsycholinguistic, sociocultural, psychogenetic and sociopolitical traditions and how they relate to the literacy development of students in bilingual and mainstream programs. C871.
EELB 627. Innovations in Bilingual Education. 4 Units.
Examines the theoretical bases of innovations in curriculum, instruction and school reform to meet the needs of students in bilingual education.

EELB 628. Bilingualism and the Social Construction of Mind. 4 Units.
Examines the development of mind as social construction. For educators this requires an understanding of the connectedness of social, institutional and interactional factors which foster the cognitive development of bilingual students.

EELB 629A. Special Topics in Elementary Education: Primary Language Literacy. 4 Units.
Relevant issues, techniques, and topics in elementary education.

EELB 639. Advanced Pedagogical Foundations for English Language Learners. 4 Units.
Prerequisites: admission into the BCLAD Credential and M.A. in Education: Language, Literacy and Culture (Primary Language) Option
Comprehensive study of various theories, principles, and instructional practices designed to develop the linguistic, social and academic proficiency of English language learners. Key issues and concepts to be implemented in dual language classrooms include: linguistic development, first and second language acquisition, and the relationship between first language literacy and second language development. Relevant state and federal laws pertaining to the education of English learners, the impact of these mandates on student placement and school site instructional programs, the importance of students families, cultural backgrounds and experiences and how these relate to successful school experiences for English learners are examined. Fulfills the credential requirement for EELB 313. Formerly EELB 654.

EELB 640. The Education of K-12 English Language Learners. 4 Units.

EELB 643. Advanced Social Studies and the Arts (Primary Language) Curriculum and Pedagogy. 4 Units.
Comprehensive course in curriculum and pedagogy in history/ social sciences and visual/performing arts. Emphasis on implementing state adopted curriculum standards and skills in an elementary school based on an in-depth understanding of concepts, skills, and strategies in history/social studies and the visual/performing arts. Includes designing instruction to meet academic and language needs of all learners including Spanish-speaking learners and learners with special needs. Use of bilingual/crosscultural teaching strategies and curriculum development, methods of integrating English and Spanish in the instructional program and evaluation of language skills are presented. Part of the course will be taught in Spanish. Requires a minimum six-hour field component including participation in teaching at an approved dual language setting if not concurrently enrolled in intern teaching. Fulfills credential requirement for EELB 534. Formerly EELB 648.

EELB 649. Advanced Literacy and Second Language Acquisition for the Intermediate Reader and Beyond. 4 Units.
Prerequisites: EELB 616
Advanced study of literacy development for the intermediate reader and beyond for all learners including English learners, proficient English learners, and learners with special needs. Emphasis on developing higher level academic skills for complex reading, writing, speaking, and thinking; approaches to English language development (ELD); planning for both language and content instruction, literacy in the content areas; development of strategies to build comprehension and fluency; assessment techniques; and transfer of literacy skills from first to second language. In addition, a graduate research project will be required that focuses on acquiring English as a second language at the intermediate grade levels. Formerly EELB 655.

EELB 656. Internship Seminar IV: Ethics and Legal Aspects of Teaching-Capstone. 4 Units.
Prerequisites: admission to the Multiple Subject BCLAD Credential program
Seminar for BCLAD Interns focusing on knowledge, skills and attitudes required for a first year teacher. Includes discussion of the issues in continuing development of the teaching work and experiences; and continuing development of the teaching portfolio. Also focuses on the legal and ethical aspects of teaching.

EELB 680. Practicum in Teaching English as a Second Language. 4 Units.
Prerequisites: (for CLAD certificate program only) EELB 312, or EESL 536, or ESEC 321; EELB 333 and 511 or ESEC 313 and 511. May be taken concurrently with ESEC 605 Simulation and classroom-based practice in teaching methods and materials to include planning, teaching performance, classroom organization, student management, and evaluation competencies. Formerly EELB and ESEC 680A.
EELB 697. Implementing Educational Change. 4 Units.
Prerequisites: completion of all COE core courses; curriculum and instruction core courses, eight units of emphasis area and appropriate elective units
Seminar examining the relationships and techniques involved when teachers plan for educational change. The emphasis will be on change theory in the K-12 school setting. (Also offered as EELB 697. Students may not receive credit for both.).

EELB 999A. Comprehensive Examination: Bilingual. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

EELB 999C. Comprehensive Examination: ESL. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Graded credit/no credit.

English (ENG)

Courses

ENG 100. Academic Speaking for Multilingual Students. 4 Units.
Analysis and practice of spoken language in university settings, such as classroom discussions, laboratories, office hours, and other interactions. Builds students' understanding of and fluency in such areas as intonation patterns, grammatical structures, and discourse strategies for particular academic situations.

ENG 102A. Stretch Composition I. 4 Units.
Analysis and use of strategies for critically reading and writing expository texts. Builds students' understandings of the relationships among language, meaning, and context, as well as their abilities to conduct research and evaluate sources, to use writing as a means of critical thinking, and to write essays that reflect a variety of rhetorical approaches. Students will remain with the same cohort of classmates in the same time slot across ENG 102A-ENG 103A-ENG 104A. Graded Credit/No Credit.

ENG 102B. Stretch Composition I for Multilingual Students. 4 Units.
Analysis and use of strategies for critically reading and writing expository texts. Builds students' understandings of the relationships among language, meaning, and context, as well as their abilities to conduct research and evaluate sources, to use writing as a means of critical thinking, and to write essays that reflect a variety of rhetorical approaches. Students will remain with the same cohort of classmates in the same time slot across ENG 102B-ENG 103B-ENG 104B. Students identify themselves for placement in this course through Directed Self-Placement and self-identification as a speaker of a native or home language other than English. Students who meet these two criteria may also opt to take ENG 102A instead of ENG 102B. Graded Credit/No Credit.

ENG 103A. Stretch Composition II. 4 Units.
Prerequisites: ENG 102A. Graded Credit/No Credit
Continued emphasis on the relationships among language, meaning, and context, on conducting research, and on strategies for reading and writing expository texts with varied purposes and audiences. Students will remain with the same cohort of classmates in the same time slot across ENG 103A-ENG 103B-ENG 104A.

ENG 103B. Stretch Composition II for Multilingual Students. 4 Units.
Prerequisites: ENG 102B. Graded Credit/No Credit
Continued emphasis on the relationships among language, meaning, and context, on conducting research, and on strategies for reading and writing expository texts with varied purposes and audiences. Students will remain with the same cohort of classmates in the same time slot across ENG 102B-ENG 103B-ENG 104B.

ENG 104A. Stretch Composition III. 4 Units.
Prerequisites: ENG 103A. Students may not receive credit for more than one of the following: ENG 104A, ENG 104B, ENG 106A, ENG 106B or ENG 107. Graded A through C-/No Credit. A grade of C- or better fulfills GE A1
Further attention to relationships among written language, meaning, and context. Develops students' understandings of writing as a recursive process requiring rethinking and rewriting, as well as their abilities to conduct research, to integrate it into their own arguments, and to use writing as a means of critical thinking. Students will remain with the same cohort of classmates in the same time slot across ENG 102A-ENG 103A-ENG 104A. (GE-A1).

ENG 104B. Stretch Composition III for Multilingual Students. 4 Units.
Prerequisites: ENG 103B. Students may not receive credit for more than one of the following: ENG 104A, ENG 104B, ENG 106A, ENG 106B or ENG 107. Graded A through C-/No Credit. A grade of C- or better fulfills GE A1
Further attention to relationships among written language, meaning, and context. Develops students' understandings of writing as a recursive process requiring rethinking and rewriting, as well as their abilities to conduct research, to integrate it into their own arguments, and to use writing as a means of critical thinking. Students will remain with the same cohort of classmates in the same time slot across ENG 102B-ENG 103B-ENG 104B. (GE-A1).
ENG 105A. Accelerated Stretch Composition I. 4 Units.
Analysis and use of strategies for conducting research and critically reading and writing expository texts. Explores relationships among language, meaning, and context, and emphasizes writing as a recursive process and a means of critical thinking. Students identify themselves for placement in this course through Directed Self-Placement or an NC in 103A or 103B. Students will remain with the same cohort of classmates in the same time slot across ENG 105A - ENG 106A. Graded Credit/No Credit.

ENG 106A. Accelerated Stretch Composition II. 4 Units.
Prerequisites: ENG 105A. Graded A through C-/No Credit. A grade of C- or better fulfills GE A1
Further examination of how written language functions in context. Builds students' abilities to conduct research and to integrate it into their own arguments. Students will remain with the same cohort of classmates in the same time slot across ENG 105A - ENG 106A. (GE-A1).

ENG 105B. Accelerated Stretch Composition I for Multilingual Students. 4 Units.
Prerequisites: ENG 105B. Graded A through C-/No Credit. A grade of C- or better fulfills GE A1
Further examination of how written language functions in context. Builds students' abilities to conduct research and to integrate it into their own arguments. Students will remain with the same cohort of classmates in the same time slot across ENG 105B - ENG 106B. (GE-A1).

ENG 106B. Accelerated Stretch Composition II for Multilingual Students. 4 Units.
Prerequisites: ENG 105B. Graded A through C-/No Credit. A grade of C- or better fulfills GE A1
Further examination of how written language functions in context. Builds students' abilities to conduct research and to integrate it into their own arguments. Students will remain with the same cohort of classmates in the same time slot across ENG 105B - ENG 106B. (GE-A1).

ENG 107. Advanced First-Year Composition. 4 Units.
Concentrated composition course for advanced first-year writers. Examines the ways written language functions in various contexts. Requires students to conduct research, to draw upon their critical readings of texts to develop their own arguments, and to examine and use rhetorical strategies that respond to different situations. Students identifying themselves for placement in this course through Directed Self-Placement or through receiving an NC in ENG 104 or ENG 106. Formerly ENG 101. Graded A through C-/No Credit. A grade of C- or better fulfills GE A1. (GE-A1).

ENG 110. World Literature I. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Readings in world literature to the sixteenth century (in English translation).

ENG 111. World Literature II. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Readings in world literature from the sixteenth century to the contemporary period (in English translation).

ENG 120. English Literature I. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Readings in English literature from the Middle Ages through the Renaissance. Formerly ENG 230.

ENG 121. English Literature II. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Readings in English literature from the Restoration through the eighteenth century. Formerly ENG 231.

ENG 122. English Literature III. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement

ENG 123. English Literature IV. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Readings in English literature from the twentieth century to the present. Formerly ENG 232.

ENG 240. Writing in the Public Sphere. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Consideration of how writers use texts (including visual, digital, and print media) to represent public issues and effect public action. Emphasizes the social and material aspects of public writing and public rhetorics, and includes practice in writing for the public sphere.

ENG 300. English Workshop. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
An intermediate-level refresher course in writing designed to prepare students for advanced work in composition. Concentration on specific techniques. May not be counted toward fulfilling requirements in the English major and does not fulfill the upper-division writing requirement. Not open to students who have already completed EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306 or SSCI 306. Graded A, B, C/no credit.
ENG 301A. Analysis of Poetry. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Literary analysis of selected lyric poems with special emphasis on how to write about literature. Formerly ENG 301.

ENG 301B. Analysis and Writing of Poetry. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Literary analysis of selected lyric poems with special emphasis on how to write about literature, as well as practice in writing poetry. Students seeking recommendation for a teaching credential (English subject matter program) must take ENG 301B.

ENG 302A. Analysis of Drama. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Analysis. Literary analysis of selected plays with special emphasis on how to write about dramatic literature. Formerly TA 302. (Also offered as ENG 302A. Students may not receive credit for both.)

ENG 302B. Analysis and Writing of Drama. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Analysis and Writing. Literary analysis of selected plays with special emphasis on how to write about dramatic literature, as well as integrated practice in writing for performance. (Offered as ENG 302B and TA 302B. Students may not receive credit for both.)

ENG 303A. Analysis of Prose Fiction. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Literary analysis of selected narrative prose with special emphasis on how to write about literature. Formerly ENG 303.

ENG 303B. Analysis and Writing of Prose Fiction. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Literary analysis of selected narrative prose with special emphasis on how to write about literature. Formerly ENG 303B.

ENG 304A. Analysis of Nonfiction Prose. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Literary analysis of selected nonfiction prose with special emphasis on how to write about literature. Formerly ENG 304.

ENG 304B. Analysis and Writing of Nonfiction Prose. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Literary analysis of selected nonfiction prose with special emphasis on how to write about literature as well as practice in writing nonfiction. Students seeking recommendation for a teaching credential (English subject matter program) must take ENG 304B.

ENG 306. Expository Writing for English. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement and a minimum of 90 quarter (60 semester) units of college credit
Advanced expository writing including documented research reports, summaries and analytical papers. Revision and rewriting will be required. Course fulfills the graduation requirement in writing proficiency. No more than one of the Expository Writing courses (EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be taken for credit. Students who have received a grade of no credit in any combination of the expository writing courses two or more times must meet with the 306 coordinator or a designee to design a developmental writing plan as a condition for enrolling for a third quarter. All students must obtain junior status at the time of registration or their course request will be cancelled. Formerly ENG 495. Graded A, B, C/no credit.

ENG 307. Theories Of Writing. 4 Units.
Prerequisites: Upper-division writing requirement or consent of instructor
Survey of major issues in composition and writing studies theory.

ENG 308. Studies in Writing. 4 Units.
Prerequisites: Upper-division writing requirement or consent of instructor
Study of a selected topic in writing studies. May be repeated once for credit as topics change.

ENG 309. Literature in the Classroom. 4 Units.
Approaches to sundry literary genres or themes with an emphasis on adapting them to the elementary classroom. May be repeated for credit as topics change.

ENG 311. The English Language. 4 Units.
Introduction to the structure and development of the English language, including phonetics, phonology, morphology, syntax, pragmatics, sociolinguistics, psycholinguistics, and language acquisition.

ENG 312. Theories of Language Acquisition and Learning. 4 Units.
Prerequisites: ENG 311
Examination of linguistic, psychological and social aspects of language acquisition and learning. Explores connections between first and second language acquisition theories and language teaching.

ENG 314. American Indian Literature. 4 Units.
(GE=G2)
A consideration of the oral traditions and significant literary works of a variety of American Indian cultures in their changing cultural contexts.

ENG 315. Studies in a Literary Genre. 4 Units.
Prerequisites: ENG 301A or ENG 301B; and one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B or consent of instructor
Intensive study of a selected genre. May be repeated for credit as topics change.

ENG 316. Introduction to Creative Writing: Specialized Genres. 4 Units.
Workshop in writing in a specialized genre, with discussion of student writing and of exemplary works by established writers. May be repeated for credit as topics change.
ENG 317. Introduction to Creative Writing: Poetry. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement or consent of instructor
Workshop in writing poetry, discussion of student writing and exemplary works by established poets.

ENG 318. Introduction to Creative Writing: Fiction. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement or consent of instructor
Workshop in writing fiction, discussion of student writing and exemplary works by established authors.

ENG 319. Studies in Literary Diversity. 4 Units.
Intensive study of literature which reflects diversity, especially of race, gender, sexual orientation, class or culture. May be repeated for credit as topics change. May be taken for credit by students who have received credit for ENG 322; credit may not be received twice for the same topic.

ENG 320. Childrens Literature. 4 Units.
Prerequisites: one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B
History and development of children's literature; emphasis on developing skills in analyzing, evaluating and selecting books for children from preschool through junior high school, especially picture books.

ENG 321. Studies in Language and Linguistics. 4 Units.
Intensive study in selected topics in linguistics or language. May be repeated for credit as topics change.

ENG 323. Chicano Literature. 4 Units.
Selected literature by and about Mexican Americans. Emphasis on the uniqueness of the voices that collectively define Chicano literature and on that literature's formal and thematic characteristics.

ENG 324. Studies in Literary Topics. 4 Units.
Prerequisites: ENG 301A or ENG 301B; and one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B
Study of a selected topic in literature. May be repeated for credit as topics change.

ENG 325. American Literature I. 4 Units.
Readings in American literature from the Colonial period through the Civil War. Formerly ENG 330 and 331.

ENG 326. American Literature II. 4 Units.
Readings in American literature from the Civil War to the present. Formerly ENG 332.

ENG 327. Literature for Adolescents and Young Adults. 4 Units.
Prerequisites: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B
History and analysis of literature aimed at the adolescent and young adult audience. Emphasis on literary and cultural values by exploration of the themes and genres appropriate for junior and senior high school readers.

ENG 328. Survey of American Literature. 4 Units.
Prerequisites: ENG 301A or 301B; and one course from ENG 302A, 302B, 303A, 303B, 304A, 304B
Survey of American literature from its oral tradition to the present, with emphasis on literary, historical and cultural contexts.

ENG 329. Issues in Literary and Writing Studies. 4 Units.
Examination of literacy as a historically and socially mediated set of values and practices, with specific consideration of how literacy functions in specific communities. Introduces students to related theories of writing and language use.

ENG 330. Tutoring Writing: Theory and Practice. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement or equivalent and GE upper-division writing (F) requirement; or consent of instructor
Study of theories and methods for tutoring writing in college and secondary school contexts. Those completing this course with a grade of “B” (3.0) or better are eligible to participate in campus writing tutoring programs.

ENG 333. Myth and Epic. 4 Units.
Prerequisites: ENG 301A or 301B; and one course from ENG 302A, 302B, 303A, 303B, 304A, 304B
Myths and epics of folklore and of classical literature, emphasizing relationships to later Western literature.

ENG 335. Studies in the Novel. 4 Units.
Prerequisites: ENG 301A or 301B; and one course from ENG 302A, 302B, 303A, 303B, 304A, 304B
Studies in the novel with emphasis on close reading of specific texts.

ENG 336. Women Writers. 4 Units.
Literary analysis of selected works by women writers, with special emphasis on historical and contemporary issues of women's lives.
(Also offered as ENG and GSS 336. Students may not receive credit for both.)
GSS 336 was formerly WSTD 336.

ENG 339. African American Literature. 4 Units.
Readings in African American literature from the oral tradition to the present, with emphasis on literary, historical and cultural contexts.

ENG 347. Playwriting. 4 Units.
Prerequisites: one course from ENG 302A, ENG 302B, TA 302A, TA 302B; or consent of instructor
Fundamentals of play development, including plot, character, structure, and theme. Classroom exercises will culminate in students creating their own dramatic scenes and short plays. (Also offered as ENG 347. Students may not receive credit for both.)

ENG 385. Literary Theory and Criticism. 4 Units.
Survey of major issues in literary theory and criticism from Plato to the present.

ENG 399A. Community Service Project. 1 Unit.
Prerequisites: departmental approval of a written application submitted in advance of the quarter in which the course is to be taken
Credit for applying previously learned skills in the area of English to academically related tasks in such agencies as governmental, social services and educational institutions. May be repeated for a total of two units. May not be counted toward fulfilling requirements in the English major or minor. Graded credit/no credit.
ENG 399B. Community Service Project. 2 Units.
Prerequisites: departmental approval of a written application submitted in advance of the quarter in which the course is to be taken. Credit for applying previously learned skills in the area of English to academically related tasks in such agencies as governmental, social services and educational institutions. May be repeated for a total of two units. May not be counted toward fulfilling requirements in the English major or minor. Graded credit/no credit.

ENG 401. English Literature of the Middle Ages. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Lyric, drama, prose and verse narrative from the beginnings of English literature through Malory.

ENG 403. English Literature of the Renaissance. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Poetry, prose and drama of the sixteenth century.

ENG 406. Seventeenth Century Literature. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. English prose and poetry from Bacon through Milton.

ENG 409. English Literature of the Restoration and Eighteenth Century. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Poetry and prose of the Restoration and eighteenth century.

ENG 412. Romantic Prose and Poetry. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level courses in the English major; or consent of instructor. Major English romantics such as Blake, Wordsworth, Keats, Coleridge, Shelley and Byron.

ENG 415. Victorian Literature. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Major writers of Victorian England.

ENG 417. Intermediate Creative Writing: Poetry. 4 Units.
Prerequisites: ENG 317 or consent of instructor. Intermediate-level workshop in poetry writing; discussion of student writing and exemplary texts by established poets.

ENG 418. Intermediate Creative Writing: Fiction. 4 Units.
Prerequisites: ENG 318 or consent of instructor. Intermediate-level workshop in fiction writing; discussion of student writing and exemplary texts by established fiction writers.

ENG 420. English Grammar I. 4 Units.
Prerequisites: ENG 311. Study and analysis of grammatical structures of English.

ENG 422. History of the English Language. 4 Units.
Prerequisites: ENG 311. Development of the English language from the beginning to the present.

ENG 423. Studies in a Literary Theme. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major. Intensive study of a selected theme. May be repeated for credit as topics change.

ENG 440. Studies in a Literary Period or Movement. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major. Intensive study of a selected author or authors. May be repeated for credit as topics change.

ENG 441. Studies in a Major Author or Authors. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major. Intensive study of a selected theme. May be repeated for credit as topics change.

ENG 442. Modern Poetry. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Studies in British, American and European poetry from the late nineteenth century to World War II.

ENG 443. Contemporary Poetry. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Studies in British and American poetry from World War II to the present.

ENG 447. Modern Fiction. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor. Fiction from 1900 through World War II. Formerly ENG 446.
ENG 448. Contemporary Fiction. 4 Units.
Prerequisites: ENG 301A or ENG 301B; one course from ENG 302A, ENG 302B, ENG 303A, ENG 303B, ENG 304A, ENG 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major; or consent of instructor
Fiction from World War II to the present. Formerly ENG 446.

ENG 463. Advanced Studies in Literary Topics. 4 Units.
Prerequisites: ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; and 12 additional units of 200-, 300-, and/or 400-level literature courses in the English major or consent of instructor
Advanced study of a topic in literature. May be repeated for credit as topics change.

ENG 475. Shakespeare I. 4 Units.
Prerequisites: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B; or consent of instructor
Comedies and history plays. (Also offered as ENG 475. Students may not receive credit for both.).

ENG 476. Shakespeare II. 4 Units.
Prerequisites: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B; or consent of instructor
Tragedies and romances. (Also offered as ENG 476. Students may not receive credit for both.).

ENG 501. Media Performance Practicum. 4 Units.
Prerequisites: Consent of instructor
Practical application of writing, performance, and production skills. The practicum course is designed for students interested in writing scripts, performing, and producing for radio shows, online and other social media outlets. The course can be taken twice for credit as Eng 501 or TA 501 (cross-listed as ENG 501). Graded credit/No Credit.

ENG 507. Advanced Creative Writing: Poetry. 4 Units.
Prerequisites: ENG 417 or consent of instructor
Advanced-level workshop in poetry writing; discussion of student writing and exemplary texts by established poets. Formerly a topic under ENG 513. May be repeated with consent of M.F.A. graduate poetry coordinator.

ENG 508. Advanced Creative Writing: Fiction. 4 Units.
Prerequisites: ENG 418 or consent of instructor
Advanced-level workshop in fiction writing; discussion of student writing and exemplary texts by established fiction writers. Formerly a topic under ENG 513. May be repeated with consent of M.F.A. graduate fiction coordinator.

ENG 510. English in the Secondary Classroom. 4 Units.
Prerequisites: ENG 301B, ENG 306, ENG 311, ENG 329, ENG 385; and one course from ENG 302A, ENG 303B, ENG 304B
English as a secondary school subject including language, literature and composition. Emphasis on theories and practices associated with reading, writing, and assessment.

ENG 511. Creative Writing in the Secondary Classroom. 4 Units.
Prerequisites: ENG 317 or ENG 318 with consent of instructor or graduate coordinator
Advanced methods for teaching the techniques of creative writing, focusing primarily on poetry and fiction. Intended for future elementary and secondary teachers. Requires a minimum six-hour field component. May be repeated for a total of eight units.

ENG 513. Advanced Creative Writing in Specialized Genres. 4 Units.
Prerequisites: ENG 417 or ENG 418 or consent of instructor
Advanced workshop in writing in a specialized genre, with discussion of student writing and of exemplary works by established writers. May be repeated for credit as subject matter changes.

ENG 515. Senior Seminar in Literature. 4 Units.
Advanced study of a selected literary topic, including consideration of critical theory and methodology. May be repeated for credit as topics change. ENG 301A or 301B; one course from ENG 302A, 302B, 303A, 303B, 304A, 304B; ENG 385; and consent of instructor.

ENG 516. Senior Project. 1 Unit.
Prerequisites: completion of 135 units, including 40 units of the English major
Preparation and submission of a portfolio of appropriate writing samples as the basis of a reflective essay showing how the portfolio demonstrates accomplishment of essential goals of the major. Graded credit/no credit.

ENG 517. Honors Project. 2 Units.
Prerequisites: 3.5 grade point average in the English major
Preparation of a piece of graduate-level writing (which may be an expansion of one of the student's papers or other work) to be presented at an honors colloquium. Required attendance at honors colloquia. Graded credit/no credit.

ENG 522. Independent Study in Writing. 4 Units.
Prerequisites: ENG 513 and departmental approval; students must be enrolled in the Creative Writing track and the project must be approved by an instructor
Projects in advanced writing: fiction, non-fiction, poetry or drama. A total of eight units may apply to the English major or toward graduation.

ENG 523. English Grammar II. 4 Units.
Prerequisites: ENG 311 and ENG 420
Advanced study and analysis of grammatical structures of English.

ENG 524. Sociolinguistics. 4 Units.
Prerequisites: ENG 311 and ENG 420
An examination of language within social and cultural contexts, including ethnic, social and regional dialect variations in the United States.

ENG 525. Seminar in Literary Theory and Criticism. 4 Units.
Advanced study in special topics in literary theory and criticism. May be repeated for credit as topics change.
ENG 526. English Phonetics and Phonology. 4 Units.
Prerequisites: ENG 311
Sounds and sound patterns of spoken English, with special attention to the pronunciation problems encountered by learners of English as a second language.

ENG 535. Images of Culture Through Children's Literature. 4 Units.
Prerequisites: ERDG 620 for students enrolled in the College of Education; consent of instructor for other students
Becoming acquainted with the children's literature of various cultures and organizing this literature for curricular choices. (Also offered as ERDG 642. Student may not receive credit for both.) Graduate students are required to do coursework appropriate for graduate students.

ENG 543A. Literary Publication: Solicitation of Submissions. 4 Units.
Prerequisites: ENG 507 or ENG 508; or current enrollment in the M.F.A. in Creative Writing; or consent of instructor. Solicitation of submissions; selections of materials; gathering, ranking and editing of submissions to the campus literary journal
Principles and methods of literary publication. Students function as a literary staff dealing with key aspects of the production process, including helping to select and edit, and proof read poems, short stories, artwork and plays. Two hours lecture and four hours laboratory. ENG 543A, ENG 543B, and ENG 543C may each be taken once for credit.

ENG 543B. Literary Publication: Production. 4 Units.
Prerequisites: ENG 507 or 508; or current enrollment in the M.F.A. in Creative Writing; or consent of instructor. Production, layout, design and editing of the literary journal
Principles and methods of literary publication. Students function as a literary staff dealing with key aspects of the production process, including helping to select and edit, and proof read poems, short stories, artwork and plays. Two hours lecture and four hours laboratory. ENG 543A, ENG 543B, and ENG 543C may each be taken once for credit.

ENG 543C. Literary Publication: Publicaiton Process. 4 Units.
Prerequisites: ENG 507 or 508; or current enrollment in the M.F.A. in Creative Writing; or consent of instructor. Publication process, organization of readings, and promotion of new issue of literary journal
Principles and methods of literary publication. Students function as a literary staff dealing with key aspects of the production process, including helping to select and edit, and proof read poems, short stories, artwork and plays. Two hours lecture and four hours laboratory. ENG 543A, ENG 543B, and ENG 543C may each be taken once for credit.

ENG 565. Special Studies in Writing. 2 Units.
Prerequisites: consent of instructor
Studies in particular topics in writing, such as assessment, learning theory and research on the teaching of writing. May be repeated for credit as topics change.

ENG 566. Special Studies in Writing. 4 Units.
Prerequisites: consent of instructor
Studies in particular topics in writing, such as assessment, learning theory and research on the teaching of writing. May be repeated for credit as topics change.

ENG 575B. Internship in English. 2 Units.
Prerequisites: junior standing with at least 16 units of course work in English on this campus with an overall grade point average of 3.0 or better; consent of instructor; and departmental approval of a written proposal submitted in advance of the quarter in which the course is to be taken
Supervised learning experience applying English-related skills in a work setting. A total of eight units may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit.

ENG 575C. Internship in English. 3 Units.
Prerequisites: junior standing with at least 16 units of course work in English on this campus with an overall grade point average of 3.0 or better; consent of instructor; and departmental approval of a written proposal submitted in advance of the quarter in which the course is to be taken
Supervised learning experience applying English-related skills in a work setting. A total of eight units may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit.

ENG 575D. Internship in English. 4 Units.
Prerequisites: junior standing with at least 16 units of course work in English on this campus with an overall grade point average of 3.0 or better; consent of instructor; and departmental approval of a written proposal submitted in advance of the quarter in which the course is to be taken
Supervised learning experience applying English-related skills in a work setting. A total of eight units may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit.

ENG 575E. Internship in English. 5 Units.
Prerequisites: junior standing with at least 16 units of course work in English on this campus with an overall grade point average of 3.0 or better; consent of instructor; and departmental approval of a written proposal submitted in advance of the quarter in which the course is to be taken
Supervised learning experience applying English-related skills in a work setting. A total of eight units may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit.

ENG 595B. Independent Study in Literature, Composition, or Linguistics. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Independent study of selected themes, figures, and areas in literature, composition, or linguistics. May be repeated for a maximum of eight units of credit toward the B.A. in English and toward graduation.
ENG 595C. Independent Study in Literature, Composition, or Linguistics. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Independent study of selected themes, figures, and areas in literature, composition, or linguistics. May be repeated for a maximum of eight units of credit toward the B.A. in English and toward graduation.

ENG 595D. Independent Study in Literature, Composition, or Linguistics. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Independent study of selected themes, figures, and areas in literature, composition, or linguistics. May be repeated for a maximum of eight units of credit toward the B.A. in English and toward graduation.

ENG 595E. Independent Study in Literature, Composition, or Linguistics. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Independent study of selected themes, figures, and areas in literature, composition, or linguistics. May be repeated for a maximum of eight units of credit toward the B.A. in English and toward graduation.

ENG 595F. Independent Study in Literature, Composition, or Linguistics. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Independent study of selected themes, figures, and areas in literature, composition, or linguistics. May be repeated for a maximum of eight units of credit toward the B.A. in English and toward graduation. (2-5 units.

ENG 600. Critical Approaches to Literature. 4 Units.
Prerequisites: ENG 385 or consent of instructor.
Study and practice of various critical approaches after the New Criticism, such as deconstructionism, feminism, reader response, and new historicism, with particular attention to their assumptions about the meaning and function of literature. Formerly ENG 650.

ENG 601. Seminar in Poetry. 4 Units.
Advanced study in particular kinds of poetry, with special focus on generic issues or problems. May be repeated for credit as topics change. Prerequisite ENG 600 or consent of instructor.

ENG 602. Seminar in Dramatic Literature for Stage and Film. 4 Units.
Prerequisites: ENG 600 or consent of instructor.
Advanced study in particular kinds of dramatic literature and film with special focus on generic problems and issues. May be repeated for credit as topics change. (Also offered as ENG 602. Students may not receive credit for both.)

ENG 603. Seminar in Fiction. 4 Units.
Prerequisites: ENG 600 or consent of instructor.
Advanced study in particular kinds of fiction, with special focus on generic issues or problems. May be repeated for credit as topics change.

ENG 604. Seminar in Nonfiction Prose. 4 Units.
Prerequisites: ENG 600 or consent of instructor.
Advanced study in particular kinds of nonfiction prose with special focus on generic issues or problems. May be repeated for credit as topics change.

ENG 605. Special Topics in Language Studies. 4 Units.
Prerequisites: ENG 311 and 420.
Seminar in particular aspects of language studies and their empirical application. May be repeated for credit as topics change.

ENG 607. M.F.A. Workshop in Poetry. 4 Units.
Prerequisites: admission to the M.F.A. in Creative Writing, Poetry Concentration.
Graduate-level workshop in poetry with critical discussion of students' work and of poetry from established writers. Students generate new poems for each workshop and work toward developing a book-length manuscript. Students must complete the workshop each quarter of the program for a total of 24 units.

ENG 608. M.F.A. Workshop in Fiction. 4 Units.
Prerequisites: admission to the M.F.A. in Creative Writing, Fiction Concentration.
Graduate-level workshop in fiction with critical discussion of students' work and of narratives from established writers. Students generate new work for each workshop and work toward developing a book-length manuscript. Students must complete the workshop each quarter of the program for a total of 24 units.

ENG 609. Perspectives on Research. 4 Units.
Critical study of research methods and resources in the fields of composition, linguistics and literature. This course satisfies the writing requirement for graduate candidacy for the M.A. in English Composition.

ENG 611. The Western Rhetoric Tradition. 4 Units.
Examination of major texts and movements in the history of rhetoric.

ENG 612. Contemporary Composition and Discourse Theory. 4 Units.
Examination of major texts and movements in contemporary composition and discourse theory.

ENG 613. Seminar in Rhetoric and Composition. 4 Units.
Prerequisites: ENG 612.
Advanced study in a specific area of rhetoric and composition theory. May be repeated for credit as topics change.

ENG 615. Discourse Analysis: Theories and Applications. 4 Units.
Prerequisites: ENG 311 or consent of instructor.
Study and application of various linguistic approaches to analyzing spoken and written discourse.
ENG 616. Contrastive Rhetoric. 4 Units.
Prerequisites: ENG 311 or consent of instructor
Comparison and contrast of the rhetorical conventions of various genres as they are written in a variety of languages and discourse communities.

ENG 617. Linguistics Pragmatics. 4 Units.
Prerequisites: Prerequisites: ENG 311 or consent of instructor
Seminar in the study of how language is used in contexts in relation to the speakers goals and intentions. Application of major theories in the field to the analysis of actual language. Formerly a topic under ENG 605.

ENG 618. Stylistics. 4 Units.
Prerequisites: ENG 311 or consent of instructor
Examination of various linguistic and rhetorical devices that help writers of literary text to convey their messages and to produce intended effects.

ENG 619. Second Language Acquisition. 4 Units.
Prerequisites: ENG 311 or consent of instructor
Examination of competing theories and models of second language acquisition in both children and adults with a special focus on interlanguage studies, transfer, and input and interaction.

ENG 621. Approaches to Imaginative Writing. 4 Units.
Prerequisites: ENG 612 or consent of instructor
Traditional and contemporary approaches to imaginative writing; emphasis on means of encouraging different styles and modes of expression.

ENG 622. Creative Writers on Writing. 4 Units.
Prerequisites: ENG 621 and either ENG 687 or ENG 688
Advanced study in the process of writing and publishing. Examines the artistic, practical and professional aspects of life as a working novelist, poet, screenwriter, or essayist. Other areas covered include literary and commercial magazines, the film industry, and literary agents.

ENG 625. TESL Methods and Materials for Speaking and Listening. 4 Units.
Prerequisites: ENG 311 and ENG 420; or consent of instructor
Seminar in theory, methodology, and techniques in the teaching of listening comprehension, pronunciation and norms of conversation and classroom interchange to non-native speakers of English in an academic context.

ENG 626. TESL Methods and Materials for Reading and Writing. 4 Units.
Prerequisites: ENG 311 and ENG 420; or consent of instructor
Seminar in theory and methodology of teaching reading (including techniques such as skimming and scanning, identifying contextual clues and audience assumptions), and writing (including genre analysis and the teaching of grammar through writing) to non-native speakers of English in an academic context.

ENG 630. Writing Center Studies. 4 Units.
Prerequisites: ENG 612 or consent of instructor
Examination of major texts and issues in contemporary writing center studies, including writing center theory, scholarship, and research; tutoring practice; and administration. Those completing this course with a grade of "B" (3.0) or better are eligible to participate in campus writing tutoring programs. Formerly ENG 530.

ENG 631. Approaches to Professional Writing. 4 Units.
Prerequisites: ENG 612 or consent of instructor
Emphasis on writing and teaching the techniques of composing professional reports, abstracts, reviews, and of editing technical manuals and preparing articles for professional journals.

ENG 633. The Western Rhetorical Tradition I. 4 Units.
Examination of major texts and movements in the history of rhetoric and writing studies, from the Classical period to the 18th century.

ENG 634. The Western Rhetorical Tradition II. 4 Units.
Examination of major texts and movements in the history of rhetoric and writing studies, from the 19th century to the present.

ENG 651. Seminar in a Literary Topic. 4 Units.
Prerequisites: ENG 600 or consent of instructor
Advanced study in particular topics in literature. May be repeated for credit as topics change.

ENG 657. Sites of Praxis. 4 Units.
Prerequisites: ENG 612 or consent of instructor
Study of composition theory, research and pedagogy as practiced in sites such as writing across the curriculum programs, basic writing courses, online courses, writing centers, community college classrooms, and sites of pedagogical intervention, such as student texts. May be repeated for credit as topics change for up to a total of 16 units.

ENG 658. Computers and Writing: Literacy and Technology. 4 Units.
Prerequisites: ENG 612 or consent of instructor
Examination and exploration of the ways in which computer technologies can be integrated into composition courses and literacy contexts of the workplace, and how they alter the understanding, acquisition, and teaching of literacy in our society and culture.

ENG 659. Approaches to Teaching College-Level English Literature. 4 Units.
Study of varied methods and approaches to the teaching of literature in English at the college level.

ENG 660. Issues in Teaching College Composition. 4 Units.
Prerequisites: ENG 612
Study of the theories, principles, and methods of teaching first-year composition.

ENG 662. Internship in Composition. 2 Units.
Prerequisites: ENG 612; two courses from ENG 530, ENG 621, ENG 626, ENG 657, ENG 658, ENG 660; and approval of the graduate coordinator
A practical application of theory and research in composition theory, research, and pedagogy. Includes supervised work experience. May be repeated once for credit.

ENG 663. Internship in Literature. 2 Units.
Prerequisites: ENG 612 and ENG 600; one course from ENG 601, ENG 602, ENG 603, ENG 604, ENG 651; and approval of the graduate coordinator
Practical application of theory and research in literature. Includes supervised work experience. May be repeated once for credit.
ENG 664. Internship in Applied Linguistics and TESL. 2 Units.
Prerequisites: ENG 619 and ENG 626; one course from ENG 523, ENG 615, ENG 616, ENG 617; and approval of the graduate coordinator. Practical application of theory and research in applied linguistics and TESL. Includes supervised work experience. May be repeated once for credit.

ENG 666. Seminar in Writing. 2 Units.
Prerequisites: consent of instructor. Studies in particular topics in writing. May be repeated for credit as topics change; a maximum of eight units of credit may be applied to the Master of Arts in English Composition program.

ENG 670. Creative Writing Internship. 4 Units.
Prerequisites: completion of at least 36 units of coursework required by the program, consent of instructor, and approval of the M.F.A. coordinators. Practical experience in the area of creative writing, such as editing, supervised teaching in a classroom, and other related activities. Designed for students in the second year of the M.F.A. in Creative Writing.

ENG 687. Master's Project Seminar in Poetry. 4 Units.
Prerequisites: completion of 12 units of ENG 607 and at least half of the master's project, and advancement to candidacy. Final development and refinement of a book-length manuscript suitable for publication, and an abstract of the master's project. Must be taken in the Fall and Winter quarters of the second year of the program for a total of eight units.

ENG 688. Master's Project Seminar in Fiction. 4 Units.
Prerequisites: completion of 12 units of ENG 607 and at least half of the master's project, and advancement to candidacy. Final development and refinement of a book-length manuscript suitable for publication, and an abstract of the master's project. Must be taken in the Fall and Winter quarters of the second year of the program for a total of eight units.

ENG 695A. Culminating Experience Preparation: Thesis Preparation. 2 Units.
Prerequisites: ENG 609, completion of 24 units in the program, and consent of the graduate coordinator. May be taken more than once, but only 2 units count toward program. Preparation of thesis proposal or preparation for comprehensive examination.

ENG 695B. Culminating Experience Preparation: Comprehensive Examination Preparation. 2 Units.
Prerequisites: ENG 609, completion of 24 units in the program, and consent of the graduate coordinator. May be taken more than once, but only 2 units count toward program. Preparation of thesis proposal or preparation for comprehensive examination.

ENG 696B. Graduate Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and approval of the graduate coordinator. Proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken. Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. May be repeated for a maximum of eight units toward the M.A. in English Composition and graduation.

ENG 696C. Graduate Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and approval of the graduate coordinator. Proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken. Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. May be repeated for a maximum of eight units toward the M.A. in English Composition and graduation.

ENG 696D. Graduate Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and approval of the graduate coordinator. Proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken. Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. May be repeated for a maximum of eight units toward the M.A. in English Composition and graduation.

ENG 696E. Graduate Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and approval of the graduate coordinator. Proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken. Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. May be repeated for a maximum of eight units toward the M.A. in English Composition and graduation.

ENG 697B. Thesis and Comprehensive Examination Independent Study. 2 Units.
Prerequisites: completion of coursework except for ENG 699A and ENG 699B, or ENG 999 and approval of graduate coordinator. Research for the thesis and comprehensive exam. Cannot be used toward the 48 units in the M.A. in English Composition. Graded credit/no credit. May be repeated.

ENG 697C. Thesis and Comprehensive Examination Independent Study. 3 Units.
Prerequisites: completion of coursework except for ENG 699A and ENG 699B, or ENG 999 and approval of graduate coordinator. Research for the thesis and comprehensive exam. Cannot be used toward the 48 units in the M.A. in English Composition. Graded credit/no credit. May be repeated.
ENG 697D. Thesis and Comprehensive Examination Independent Study. 4 Units.
Prerequisites: completion of coursework except for ENG 699A and ENG 699B, or ENG 999 and approval of graduate coordinator. Research for the thesis and comprehensive exam. Cannot be used toward the 48 units in the M.A. in English Composition. Graded credit/no credit. May be repeated.

ENG 697E. Thesis and Comprehensive Examination Independent Study. 5 Units.
Prerequisites: completion of coursework except for ENG 699A and 699B, or ENG 999 and approval of graduate coordinator. Research for the thesis and comprehensive exam. Cannot be used toward the 48 units in the M.A. in English Composition. Graded credit/no credit. May be repeated.

ENG 697F. Thesis and Comprehensive Examination Independent Study. 6 Units.
Prerequisites: completion of coursework except for ENG 699A and ENG 699B, or ENG 999 and approval of graduate coordinator. Research for the thesis and comprehensive exam. Cannot be used toward the 48 units in the M.A. in English Composition. Graded credit/no credit. May be repeated.

ENG 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
Entrepreneurship (ENTR)

**ENG 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

**ENG 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. Earned units are not degree-applicable nor will they qualify for financial aid.

**ENG 699A. Thesis. 2 Units.**
Prerequisites: graduate committee approval of the thesis proposal, advancement to candidacy, approval of the graduate coordinator, completion of all other required courses for the M.A. in English Composition, and good academic standing
Independent graduate research in English composition and rhetoric, literature, linguistics, applied linguistics, or teaching English as a second language, culminating in a written thesis.

**ENG 699B. Thesis and Research. 2 Units.**
Prerequisites: graduate committee approval of the thesis proposal, advancement to candidacy, approval of the graduate coordinator, completion of all other required courses for the M.A. in English Composition, and good academic standing
Independent graduate research in English composition and rhetoric, literature, linguistics, applied linguistics, or teaching English as a second language, culminating in a written thesis.

**ENG 999. Comprehensive Examination. 0 Units.**
Prerequisites: ENG 695; advancement to candidacy, approval of the graduate coordinator, and good academic standing
Assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. Students may not enroll in ENG 999 before their last quarter of coursework in the M.A. in English Composition. Graded credit/no credit.

**Courses**

**ENTR 100. Exploring Entrepreneurship. 4 Units.**
What is entrepreneurship? Who are entrepreneurs? How does one become an entrepreneur? Course examines the key questions encountered by individuals considering the path of business ownership.
Focus on examining the history and role of entrepreneurs in the economy, characteristics of entrepreneurs, career paths of entrepreneurship and one's personal potential as an entrepreneur.

**ENTR 442. Small Business Management. 4 Units.**
Managerial considerations for the small business entrepreneur. Acquisitions, location, legal considerations, finances, taxation, labor relations and other topics. Formerly MGMT 442.

**ENTR 541. Commercializing Entrepreneurial Innovation. 4 Units.**
Examines the process of commercializing innovations and emerging technologies in entrepreneurial driven companies. Focus on understanding the strategy, tactics and behaviors necessary to manage the transition from basic development stages to commercial venture, examining the role of innovation assessment, intellectual property, technology transfer and licensing. Formerly MGMT 541.

**ENTR 543. New Venture Opportunity Analysis. 4 Units.**
Process of defining and identifying the difference between ideas and opportunities including the role of the entrepreneur, ideas, pattern recognition, and the evaluation and screening process that leads to successful commercialization of business concepts and ideas. Formerly MGMT 543.

**ENTR 544. New Venture Development. 4 Units.**
Prerequisites: ENTR 543
Introduction to the process of developing a new venture concept. Examines key issues in new venture creation, including the role of the entrepreneur in transitioning ideas to business opportunities. Special emphasis on developing a rapid opportunity analysis, identifying a sustainable business model, and business planning. Formerly MGMT 544.

**ENTR 545. New Venture Resource Requirements. 4 Units.**
Strategies and techniques employed by entrepreneurs to identify and access critical resources. Special emphasis on marshaling internal and external resources such as advisors, board of directors, and social networks. Formerly MGMT 545.

**ENTR 547. Managing a Growing Business. 4 Units.**
Study of the basic strategy and tactics to manage growing enterprises while still maintaining an entrepreneurial spirit. Examines the role of management decision making, management control systems, short- and long-term planning, and entrepreneurship in managing growing companies. Formerly MGMT 547.
ENTR 549. Launching the Entrepreneurial Venture. 4 Units.
Process and methods involved in starting and growing new enterprises with emphasis on the attributes of entrepreneurs, entrepreneurial careers and positioning an enterprise for sustainable growth. Formerly MGMT 549.

ENTR 598. Reflective Essay. 0 Units.
Prerequisites: completion of or concurrent enrollment in all courses in the Entrepreneurship concentration or Entrepreneurship minor
Submission of a reflective essay based on specified program guidelines. Graded credit/no credit.

ENTR 620. Business Law for Entrepreneurs. 4 Units.
Critical analysis of the impact of administrative law and policy on entrepreneurial decision-making and strategy. Integrates legal, political, regulatory and ethical issues encountered by entrepreneurs. Formerly MGMT 620.

ENTR 621. Entrepreneurship and New Ventures. 4 Units.
Study of the entrepreneurial process. Focus on the characteristics and mindset of entrepreneurs, ideation and innovation, startup models, analyzing emerging opportunities, resource creativity and managerial challenges for new and growing companies. Formerly MGMT 621.

ENTR 623. Piloting the New Venture. 4 Units.
Prerequisites: ENTR 621
Study of the exploration process for new venture concepts. Focus on examining the tools and processes involved in developing a new venture, including formulation of a sustainable business model, preforming a comprehensive feasibility analysis, and concept testing. Formerly MGMT 623.

ENTR 625. New Venture Planning and Strategy. 4 Units.
Prerequisites: ENTR 621 and ENTR 623
Study of the policies, strategies, and planning processes involved in entrepreneurship. Integrates important technical and innovative considerations with traditional managerial theories to establish a modern approach to the development of business plans, strategies and policies for new ventures. Formerly MGMT 625.

ENTR 998. Reflective Essay. 0 Units.
Prerequisites: completion of or concurrent enrollment in all courses in the Entrepreneurship focus area courses
Submission of a reflective essay based on specified program guidelines. Graded credit/no credit.

Courses

EENV 601B. Graduate Independent Study. 2 Units.
Prerequisites: EENV 635, consent of advisor, and approval of a written proposal by the graduate program coordinator
Graduate level independent study to be conducted under direct supervision of a faculty member. No more than four units may be applied toward the masters degree.

EENV 601D. Graduate Independent Study. 4 Units.
Prerequisites: EENV 635, consent of advisor, and approval of a written proposal by the graduate program coordinator
Graduate level independent study to be conducted under direct supervision of a faculty member. No more than four units may be applied toward the masters degree.

EENV 620. Using Childrens Literature to Teach Environmentally. 4 Units.
In-depth study of childrens literature as it applies to both classroom and outdoor settings. Emphasis on evaluating literature for environmental concepts and utilizing strategies for interdisciplinary instruction. Formerly EENV 670E.

EENV 635. Environmental Education in the Curriculum. 4 Units.
An introductory course on integrating into the curriculum environmental concepts and values concerning the relationship of people with their natural and physical surroundings. Review of curricula, conceptual frameworks, resources and methods.

EENV 636. Teaching Current Environmental Issues. 2 Units.
Prerequisite/Corequisite: EENV 635
Examines local relevant environmental issues and teaching strategies that can assist in understanding and analyzing these issues. Formerly EENV 670A.

EENV 642. Developing the Curriculum through Outdoor Education. 4 Units.
Prerequisites: EENV 635
Procedures and instructional materials for teaching out of doors and the integration of environmental education into the curriculum. Includes program development for resident outdoor school.

EENV 643. Community Resources for Environmental Education. 4 Units.
Prerequisites: EENV 635
Application of teaching resources and environmental issues. Survey of resource agencies. Organized visits to educational sites.

EENV 644A. Seminar in Environmental Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.
EENV 644B. Seminar in Environmental Education. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.

EENV 644C. Seminar in Environmental Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.

EENV 644D. Seminar in Environmental Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.

EENV 650. Selected Topics in Environmental Education. 4 Units.
Prerequisites: EENV 635
Techniques, topics and skills in environmental education, to be developed by the instructor. Formerly EENV 670K.

EENV 651. Historical and Contemporary Readings in Environmental Education. 4 Units.
Prerequisites: EENV 635
Seminar based on selected historical and contemporary readings in environmental education. Formerly EENV 670B.

EENV 652. Nature Study in Environmental Education. 4 Units.
Strategies for designing and implementing nature study in educational settings. Formerly EENV 670L.

EENV 654. Fundraising Fundamentals in Environmental Education. 4 Units.
Techniques and methods for resource acquisition for environmental education programs.

EENV 656. Water Education in Environmental Education. 4 Units.
Strategies for design and implementation of water study in educational settings.

EENV 664. Research in Environmental Education. 4 Units.
Prerequisites: EENV 635 and consent of advisor
Focus on recent developments in the field of environmental education research with emphasis on developing an introduction to a project/thesis and applicable literature review.

EENV 679B. Fieldwork: Environmental Education. 2 Units.
Prerequisites: EENV 635 and consent of program advisor
Field experiences apply academic skills including demonstration of leadership roles in curriculum planning, presentations and professional development related to environmental education. May be repeated as elective for a total of six units. Graded credit/no credit.

EENV 679C. Fieldwork: Environmental Education. 3 Units.
Prerequisites: EENV 635 and consent of program advisor
Field experiences apply academic skills including demonstration of leadership roles in curriculum planning, presentations and professional development related to environmental education. May be repeated as elective for a total of six units. Graded credit/no credit.

EENV 679D. Fieldwork: Environmental Education. 4 Units.
Prerequisites: EENV 635 and consent of program advisor
Field experiences apply academic skills including demonstration of leadership roles in curriculum planning, presentations and professional development related to environmental education. May be repeated as elective for a total of six units. Graded credit/no credit.

EENV 697. Masters Degree Project. 4 Units.
Prerequisites: advancement to candidacy and approval of a project plan by the students advisory committee
Independent graduate study conducted under the guidance of a program advisor and resulting in a written project.

EENV 699. Thesis. 4 Units.
Prerequisites: advancement to candidacy and approval of thesis plan by students advisory committee
Independent graduate research conducted under the guidance of a program advisor and resulting in a written thesis.

EENV 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of program coordinator, in last quarter of coursework or completed coursework for the program, and a 3.0 grade point average or higher in courses in program plan
An assessment of the student's ability to integrate the knowledge of environmental education, show critical and independent thinking and demonstrate mastery of the subject matter.

Ethnic Studies (ES)

Courses

ES 100. Ethnicity and Race in America. 4 Units.
(GE=D4)
Culture, history and politics, and current problems of ethnic and racial minorities. Major groups included will be Black, Chicano, Asian American, and Native American.

ES 102. Chicano(a)/Latino(a) Culture: An Overview. 4 Units.
Introduction to the central concepts and historical experiences that define Chicano(as)/Latino(as) in the United States and an examination of current trends through a multidisciplinary perspective.

ES 300. Research Methods in Ethnic Studies. 4 Units.
Development and implementation of research (quantitative or qualitative) that explores in depth one or more facets of ethnic experience.
ES 392. Topics in Ethnic Studies. 2 Units.
A selected area or issue of ethnic studies. May be repeated for credit as topics change.

ES 394. Topics in Ethnic Studies. 4 Units.
A selected area or issue of ethnic studies. May be repeated for credit as topics change.

ES 595A. Independent Study. 1 Unit.
Prerequisites: consent of instructor and Ethnic Studies Program Committee approval
For students capable of individualized work and in need of advanced or specialized study. May be repeated for credit in the Ethnic Studies minor for a total of no more than eight units.

ES 595B. Independent Study. 2 Units.
Prerequisites: consent of instructor and Ethnic Studies Program Committee approval
For students capable of individualized work and in need of advanced or specialized study. May be repeated for credit in the Ethnic Studies minor for a total of no more than eight units.

ES 595D. Independent Study. 4 Units.
Prerequisites: consent of instructor and Ethnic Studies Program Committee approval
For students capable of individualized work and in need of advanced or specialized study. May be repeated for credit in the Ethnic Studies minor for a total of no more than eight units.

Finance (FIN)

Courses

FIN 101. Financial Choices in Life. 2 Units.
(GE=E1)
An introduction to how financial choices affect lifestyle decisions, economic stress, and wellbeing. Topics include how students deal with credit cards, student loans, leasing vs. buying cars, insurance, employee benefits, housing, investments, and retirement decisions.

FIN 313. Business Finance. 4 Units.
Prerequisites: ACCT 212 or ACCT 312, MATH 110 and ADMN 210
Basic principles of financial analysis for management. Techniques of financial decision-making for liquidity management, financial forecasting, dividend policy and selection of sources of capital.

FIN 314. Corporate Financial Management. 4 Units.
Prerequisites: FIN 313
An advanced study of internal business financial policies and decisions. Includes: capital budgeting, sources and forms of long-term financing, financial structure, cost of capital, equity management, and mergers and acquisitions.

FIN 355. Business and Asian Culture. 4 Units.
Prerequisites: FIN 313 or consent of instructor
An introduction to doing business with Asian countries and communities by introducing their historical, cultural, and business contexts. Topics also include the historical experiences and cultural contributions of Asian Americans to American society, and international business practices including documentation, customs clearance procedures, shipping, the methods and instruments of payment, and international commercial terms. (Also offered as FIN 555. Students may not receive credit for both.) Students in FIN 555 must complete additional requirements.

FIN 360. Financial Planning Process and Insurance. 4 Units.
Prerequisites: FIN 313
Modern money management with discussion of budgeting, banking, real estate, insurance, consumer credit, retirement, and estate planning. The course also examines the identification of risk exposures and the various tools used to address these risks.

FIN 380. Principles of Real Estate. 4 Units.
Prerequisites: FIN 313 or consent of instructor
Basic issues in real estate, including legal concepts, appraisal, financing, investment, brokerage, and management of real estate. This class also contributes toward the state requirements for pre-license education.

FIN 385. Real Estate Accounting. 4 Units.
Introduction to real estate accounting. Topics covered include accounting for operating revenues and expenses, escrow account reconciliation, budgeting, real estate acquisition and disposition costs, financial and closing statements, measures of real estate profitability, tax considerations, etc.

FIN 420. Entrepreneurial Finance. 4 Units.
Prerequisites: FIN 313 and 314 or consent of instructor
Financing business start-ups and entrepreneurial projects. Topics include business plan, venture capital markets, funding cycles, financial statement analysis, financial management, valuation of firms, and exit strategy.

FIN 430. Financial Theory and Practice. 4 Units.
Prerequisites: FIN 313 and FIN 314
Financial management with application to capital markets, financial planning, capital budgeting, capital structure, portfolio selection and managerial problems.

FIN 432. Financial Institutions and Capital Formation. 4 Units.
Prerequisites: FIN 313 and FIN 314
Structure, operations, portfolio compositions and problems of financial intermediaries and markets.

FIN 433. International Business Finance. 4 Units.
Prerequisites: FIN 313
Financial operations of multinational businesses with emphasis on foreign exchange mechanics, funds transmission, financing instruments, institutions and markets, capital investment decisions and special problems facing a firm in this unique environment. Three hours lecture and two hours activity laboratory.
FIN 435. Investment Analysis. 4 Units.  
Prerequisites: FIN 313, FIN 314, FIN 430 and the upper-division writing requirement  
Analysis and forecasting of security markets, industry studies, portfolio construction. Three hours lecture and two hours activity laboratory.

Prerequisites: FIN 430 and the upper-division writing requirement  
Decision-making in financial management. Advanced financial applications and analysis, including reporting and presentations. Students are advised to take this course near the end of their program. Three hours lecture and two hours activity laboratory.

FIN 460. Retirement Planning. 4 Units.  
Prerequisites: FIN 360  
Analysis of key issues in retirement planning: Individual Retirement Accounts, 401ks, defined benefit plans, profit sharing plans, and other retirement planning instruments.

FIN 480. Real Estate Appraisal. 4 Units.  
Prerequisites: FIN 313  
Examines the appropriate methodology for determining the value of real estate, including both theory and practice. A foundation for potential licensing and certification will be developed. Meets requirement for California Broker Credit.

FIN 481. Real Estate Practice. 4 Units.  
Legal, marketing and financial aspects of running a real estate business. Focus will be on the practical application of real estate theory to the operation of the firm. Meets state requirements applicable toward the real estate broker license.

FIN 482. Real Estate Development. 4 Units.  
Aspects of the real estate development process from the location of the property to the best use of the property.

FIN 485. Legal Aspects of Real Estate. 4 Units.  
Legal aspects of real estate transactions will be emphasized. Legal considerations of listing contracts, purchase agreements, disclosure requirements, trust deeds, promissory notes and agency will be the key topics. Liability exposures to all parties will also be explored in the real estate transaction. California Broker credit can also be received.

FIN 503. Financial Management Concepts. 4 Units.  
Prerequisites: ACCT 503  
An introductory course in financial management with an emphasis on concepts, tools and strategies underlying corporate financial decision-making. Topics include techniques used by firms in procuring and allocating capital for short-term and long-term operations. No credit will be awarded to students who have had FIN 313 and 314. May not be counted toward fulfilling requirements for any degree program offered by the College of Business and Public Administration.

FIN 523. Security Trading and Analysis. 4 Units.  
Prerequisites: FIN 313 and 314; or FIN 602; or equivalent  
An applied investment analysis course, emphasizing the application of modern portfolio theory and asset allocation models in selecting and evaluating stocks and bonds. This web-enhanced course utilizes modern computer and data facilities to conduct extensive fundamental and technical analysis, security portfolio tracking, performance measurement, and trading simulation and strategies.

FIN 527. Financial Derivatives. 4 Units.  
Prerequisites: FIN 313 and FIN 314; or FIN 602; or equivalent; or consent of instructor  
Managing individual stock and stock portfolio price risks, interest rate risk, currency exchange-rate risk, and other financial risks using options, futures, forwards, and swaps. Emphasis on hedging risk than on speculative uses of financial derivatives.

FIN 546. Student Managed Investment Fund. 2 Units.  
Prerequisites: consent of department  
Gain hands-on investment experience in managing real money. Learn to be an equity analyst and junior portfolio manager. Build an investment portfolio by selecting securities from the equity and bond markets.

FIN 555. Trade and Business in Asia. 4 Units.  
Practical approach to doing business with Asian countries and communities by introducing their historical, cultural, and business contexts. Topics also include the historical experiences and cultural contributions of Asian Americans to American society, and international business practices including documentation, customs clearance procedures, shipping, the methods and instruments of payment, and international commercial terms. (Also offered as FIN 355. Students may not receive credit for both.)

FIN 575. Internship. 4 Units.  
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator  
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

FIN 585. Real Estate Finance. 4 Units.  
Prerequisites: FIN 313; or FIN 602; or equivalent; or consent of instructor  
Financial aspects of real estate investment, including analysis of investment characteristics, lending environment, financial instruments, and effective loan proposals. Three hours lecture and two hours activity laboratory.

FIN 586. Computer Applications in Real Estate. 4 Units.  
Introduction to computer skills for real estate. Topics covered include use of social media, professional networking, MS Office and Publisher, real estate presentation, contact management software, Multiple Listing Service, and real estate data analysis.
FIN 588. Real Estate Office Administration. 4 Units.
Introduction to real estate office administration. Topics covered include recruiting salespeople for retention, selecting office personnel, written instruments between broker and salespeople, continual training, compensation and benefits, financial systems and records, market analysis, growth of a firm, etc.

FIN 590. Seminar in Finance. 4 Units.
An intensive study of some phase of finance to be developed by the instructor. May be repeated for credit as topics change.

FIN 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

FIN 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

FIN 602. Financial Theory and Corporate Finance. 4 Units.
Modern finance theory and analysis of financial decision making. Topics include agency theory, time value of the money, risk and return, portfolio theory, Capital Asset Pricing Model, capital market efficiency, bond and stock valuation, financial planning, cost of capital, capital budgeting, and short-term financial management.

FIN 622. Entrepreneurial and Venture Finance. 4 Units.
Prerequisites: FIN 602
An overview of the financial and investment of entrepreneurial firms. Focus is on financial and investment strategies available to entrepreneurial firms and the criteria for selecting the appropriate strategy.

FIN 651. Financial Institutions and Markets. 4 Units.
Prerequisites: FIN 313, FIN 314 or FIN 503
Analysis of financial institutions and markets. Term structure of interest rates, portfolio theory and flow-fund analysis, deposit-type intermediaries, insurance, pension funds and investment companies.

FIN 653. Investment Analysis and Portfolio Management. 4 Units.
Prerequisites: FIN 602
Comprehensive introduction to the descriptive and formalized quantitative areas of security analysis and portfolio management. Three hours lecture and two hours activity laboratory.

FIN 654. International Finance. 4 Units.
Prerequisites: FIN 602
Study of international financial environment and problems in operation of multinational enterprises with major focus on theory and practice of foreign exchange transactions, money and capital markets, investment decisions, current asset management and comparative financial systems.

FIN 655. Management of Financial Institutions. 4 Units.
Prerequisites: FIN 651
Concepts and techniques used in management of banks, savings and loans, credit unions and finance companies. Topics include asset, liability and capital management, expense control and productivity analysis.

FIN 661. Ethical and Professional Standard. 4 Units.

FIN 662. Quantitative Method for Finance. 4 Units.
Quantitative techniques employed in finance. Topics include time value of money, probability distributions and descriptive statistics, sampling and estimation, hypothesis testing, regression models, time series analysis, simulation methods, and technical analysis.

FIN 663. Financial Market and Environment. 4 Units.
Identify and analyze the impact of market and environmental factors on investment. Topics include effects of market forces, firm and industry organizations, income and growth, business cycles, inflation, monetary and fiscal policies, and government regulations on investment.

FIN 664. Financial Statement Analysis I. 4 Units.
Principal financial reporting system. Topics include analysis of principal financial statements, inventories and long lived assets, taxes, debt, and off balance sheet.

FIN 665. Financial Statement Analysis II. 4 Units.
Advanced financial reporting system. Topics include analysis of pensions, stock compensation, and other employee benefits; inter-corporate investments; business combinations; global operations; and ratio.

FIN 666. Advance Corporate Finance. 4 Units.
The optimal strategic decision-making in finance. Topics include corporate governance, dividend policy, capital investment decisions, business and financial risk, capital structure decisions, working capital management, mergers and acquisitions, and corporate restructuring.

FIN 667. Portfolio Management. 4 Units.
Modern portfolio management. Topics include investment policy, behavioral finance, management of portfolios, investment manager selection, tax efficiency strategies, asset allocation, portfolio construction and revision, risk management, execution of portfolio decisions, and performance evaluation.
FIN 668. Global Equity Investment. 4 Units.
Equity Investment in global context. Topics include currency exchange rates, international trade and capital flows, types of equity securities and their characteristics, equity markets: characteristics and institutions, equity portfolio benchmarks, valuation of individual equity securities, fundamental analysis, equity market valuation and return analysis, closely held companies and inactively traded securities, and equity portfolio management strategies.

FIN 669. Fixed Income. 4 Units.
Fixed income investment. Topics include types of fixed-income securities and their characteristics, fixed-income markets, fixed-income portfolio benchmarks, fixed-income valuation and return analysis, term structure, analysis of interest rate risk, analysis of credit risk, valuing bonds with embedded options, structured products, fixed-income portfolio management strategies, and duration.

FIN 670. Derivative and Alternative Investment. 4 Units.
Derivative Alternative Investment Instruments. Topics include forward markets, futures markets, options markets, swaps markets, credit derivatives markets, real estate, private equity, venture capital, hedge fund, distressed securities, and commodities.

FIN 675. Internship. 4 Units.
Prerequisites: consent of instructor and department's internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

FIN 680. Corporate Financial Strategy. 4 Units.
Prerequisites: FIN 602 or consent of instructor
Advanced topics in the field of corporate finance such as mergers and acquisitions, capital structure policy, dividend policy, and corporate restructuring. Emphasizes financial strategy and includes lecture and case study.

FIN 690. Advanced Topics in Finance. 4 Units.
Intensive study of an advanced topic in finance. May be repeated for credit as topics change.

FIN 695. Graduate Project. 4 Units.
Prerequisites: advancement to candidacy, written approval of student's graduate project committee, department chair and graduate director
Independent graduate research in finance. Project will be under direction of a faculty member.

FIN 696. Comprehensive Investment Analysis. 4 Units.
Comprehensive course develops the future investment manager's analysis skills and integrating knowledge from the Master of Science in Finance courses. Topics cover a wide range of investment tools and portfolio management, and asset valuation.

FIN 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Foreign Language (FLAN)

Courses

FLAN 100. English as a Second Language. 4 Units.
Prerequisites: consent of instructor
Self-paced course designed to help students gain mastery of the English language at beginning, intermediate and advanced levels. No more than 10 units are applicable to a baccalaureate degree. Open only to foreign students for whom English is a second language.

FLAN 101C. Language Study I: Italian. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101D. Language Study I: Portuguese. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101E. Language Study I: Greek. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101F. Language Study I: Latin. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101G. Language Study I: Russian. 4 Units.
Russian. Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.
FLAN 101H. Language Study I: Turkish. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101L. Language Study I: Vietnamese. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101M. Language Study I: Hebrew. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101N. Language Study I: Hindi. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101O. Language Study I: Tagalog. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101Q. Language Study I: Luiseño. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101R. Language Study I: Cahuilla. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101S. Language Study I: Serrano. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101T. Language Study I: Cupeño. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 101U. Language Study I: Nahuatl. 4 Units.
Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102C. Language Study II: Italian. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102D. Language Study II: Portuguese. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102E. Language Study II: Greek. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102F. Language Study II: Latin. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102G. Language Study II: Russian. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102H. Language Study II: Turkish. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.

FLAN 102L. Language Study II: Vietnamese. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the chosen language. May be repeated for credit as topics change.
FLAN 102M. Language Study II: Hebrew. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102N. Language Study II: Hindi. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102O. Language Study II: Tagalog. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102Q. Language Study II: Luiseño. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102R. Language Study II: Cahuilla. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102S. Language Study II: Serrano. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102T. Language Study II: Cupeño. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 102U. Language Study II: Nahuatl. 4 Units.
Prerequisites: FLAN 101 in the chosen language
Further study in a language not offered as a major or minor.
Fundamentals of pronunciation, structure and culture designed to develop
the ability to use and understand the chosen language. May be repeated
for credit as topics change.

FLAN 103C. Language Study III: Italian. 4 Units.
Prerequisites: two years of high school study in the chosen language or
equivalent (GE=C3)
Intermediate study in a language not offered as a major or minor.
Emphasis on oral and written competency at the intermediate level in a
cultural context. May be repeated for credit as topics change. Formerly
FLAN 150.

FLAN 103D. Language Study III: Portuguese. 4 Units.
Prerequisites: two years of high school study in the chosen language or
equivalent (GE=C3)
Intermediate study in a language not offered as a major or minor.
Emphasis on oral and written competency at the intermediate level in a
cultural context. May be repeated for credit as topics change. Formerly
FLAN 150.

FLAN 103E. Language Study III: Greek. 4 Units.
Prerequisites: two years of high school study in the chosen language or
equivalent (GE=C3)
Intermediate study in a language not offered as a major or minor.
Emphasis on oral and written competency at the intermediate level in a
cultural context. May be repeated for credit as topics change. Formerly
FLAN 150.

FLAN 103F. Language Study III: Latin. 4 Units.
Prerequisites: two years of high school study in the chosen language or
equivalent (GE=C3)
Intermediate study in a language not offered as a major or minor.
Emphasis on oral and written competency at the intermediate level in a
cultural context. May be repeated for credit as topics change. Formerly
FLAN 150.

FLAN 103G. Language Study III: Russian. 4 Units.
Prerequisites: two years of high school study in the chosen language or
equivalent (GE=C3)
Intermediate study in a language not offered as a major or minor.
Emphasis on oral and written competency at the intermediate level in a
cultural context. May be repeated for credit as topics change. Formerly
FLAN 150.

FLAN 103H. Language Study III: Turkish. 4 Units.
Prerequisites: two years of high school study in the chosen language or
equivalent (GE=C3)
Intermediate study in a language not offered as a major or minor.
Emphasis on oral and written competency at the intermediate level in a
cultural context. May be repeated for credit as topics change. Formerly
FLAN 150.

Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103N. Language Study III: Hindi. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103O. Language Study III: Tagalog. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103Q. Language Study III: Luiseño. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103R. Language Study III: Cahuilla. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103S. Language Study III: Serrano. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103T. Language Study III: Cupeño. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 103U. Language Study III: Nahuatl. 4 Units.
Prerequisites: two years of high school study in the chosen language or equivalent
(GE=C3)
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Formerly FLAN 150.

FLAN 111C. Directed Language Study I: Italian. 4 Units.
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 111G. Directed Language Study I: Russian. 4 Units.
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 111H. Directed Language Study I: Turkish. 4 Units.
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 111L. Directed Language Study I: Vietnamese. 4 Units.
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 111M. Directed Language Study I: Hebrew. 4 Units.
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.
FLAN 111N. Directed Language Study I: Hindi. 4 Units.
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 112C. Directed Language Study II: Italian. 4 Units.
Prerequisites: FLAN 111 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 112G. Directed Language Study II: Russian. 4 Units.
Prerequisites: FLAN 111 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 112H. Directed Language Study II: Turkish. 4 Units.
Prerequisites: FLAN 111 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 112L. Directed Language Study II: Vietnamese. 4 Units.
Prerequisites: FLAN 111 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 112M. Directed Language Study II: Hebrew. 4 Units.
Prerequisites: FLAN 111 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 112N. Directed Language Study II: Hindi. 4 Units.
Prerequisites: FLAN 111 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 113C. Directed Language Study III: Italian. 4 Units.
Prerequisites: FLAN 112 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 113G. Directed Language Study III: Russian. 4 Units.
Prerequisites: FLAN 112 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 113H. Directed Language Study III: Turkish. 4 Units.
Prerequisites: FLAN 112 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 113L. Directed Language Study III: Vietnamese. 4 Units.
Prerequisites: FLAN 112 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 113M. Directed Language Study III: Hebrew. 4 Units.
Prerequisites: FLAN 112 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 113N. Directed Language Study III: Hindi. 4 Units.
Prerequisites: FLAN 112 or consent of instructor
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 114C. Directed Language Study IV: Italian. 4 Units.
Prerequisites: FLAN 113 or consent of department
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 211.

FLAN 114G. Directed Language Study IV: Russian. 4 Units.
Prerequisites: FLAN 113 or consent of department
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 211.

FLAN 114H. Directed Language Study IV: Turkish. 4 Units.
Prerequisites: FLAN 113 or consent of department
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 211.

FLAN 114L. Directed Language Study IV: Vietnamese. 4 Units.
Prerequisites: FLAN 113 or consent of department
Independent language study under supervision of a faculty member. Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 211.
FLAN 114M. Directed Language Study: Hebrew. 4 Units.
Prerequisites: FLAN 113 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 211.

FLAN 114N. Directed Language Study IV: Hindi. 4 Units.
Prerequisites: FLAN 113 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 211.

FLAN 115C. Directed Language Study V: Italian. 4 Units.
Prerequisites: FLAN 114 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 212.

FLAN 115G. Directed Language Study V: Russian. 4 Units.
Prerequisites: FLAN 114 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 212.

FLAN 115H. Directed Language Study V: Turkish. 4 Units.
Prerequisites: FLAN 114 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 212.

FLAN 115L. Directed Language Study V: Vietnamese. 4 Units.
Prerequisites: FLAN 114 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 212.

FLAN 115M. Directed Language Study V: Hebrew. 4 Units.
Prerequisites: FLAN 114 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 212.

FLAN 115N. Directed Language Study V: Hindi. 4 Units.
Prerequisites: FLAN 114 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction,
as well as weekly conversation practice with a native speaker. Formerly
FLAN 212.

immediate needs and basic survival skills. Graded credit/no credit. May be
repeated up to three times for credit.
FLAN 170O. Beginning Conversation: Tagalog. 2 Units.
Practice of oral language with emphasis on familiar surroundings, immediate needs and basic survival skills. Graded credit/no credit. May be repeated up to three times for credit.

FLAN 170P. Beginning Conversation: Persian. 2 Units.
Practice of oral language with emphasis on familiar surroundings, immediate needs and basic survival skills. Graded credit/no credit. May be repeated up to three times for credit.

FLAN 201C. Second Year Language Study I: Italian. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201D. Second Year Language Study I: Portuguese. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201E. Second Year Language Study I: Greek. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201F. Second Year Language Study I: Latin. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201G. Second Year Language Study I: Russian. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201H. Second Year Language Study I: Turkish. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201I. Second Year Language Study I: Vietnamese. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201J. Second Year Language Study I: Hebrew. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201K. Second Year Language Study I: Hindi. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201L. Second Year Language Study I: Tagalog. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201M. Second Year Language Study I: Luiseño. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201N. Second Year Language Study I: Cahuilla. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201O. Second Year Language Study I: Serrano. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201P. Second Year Language Study I: Cupeño. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 201Q. Second Year Language Study I: Nahuatl. 4 Units.
Prerequisites: FLAN 103 or consent of department (GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.
FLAN 202D. Second Year Language Study II:
Portuguese. 4 Units.
Prerequisites: FLAN 201D or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202E. Second Year Language Study II:
Greek. 4 Units.
Prerequisites: FLAN 201E or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202F. Second Year Language Study II:
Latin. 4 Units.
Prerequisites: FLAN 201F or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202G. Second Year Language Study II:
Russian. 4 Units.
Prerequisites: FLAN 201G or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202H. Second Year Language Study II:
Turkish. 4 Units.
Prerequisites: FLAN 201H or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202L. Second Year Language Study II:
Vietnamese. 4 Units.
Prerequisites: FLAN 201L or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202M. Second Year Language Study II:
Hebrew. 4 Units.
Prerequisites: FLAN 201M or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202N. Second Year Language Study II:
Hindi. 4 Units.
Prerequisites: FLAN 201N or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202O. Second Year Language Study II:
Tagalog. 4 Units.
Prerequisites: FLAN 201O or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202Q. Second Year Language Study II:
Luiseño. 4 Units.
Prerequisites: FLAN 201Q or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202R. Second Year Language Study II:
Cahuilla. 4 Units.
Prerequisites: FLAN 201R or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202S. Second Year Language Study II:
Serrano. 4 Units.
Prerequisites: FLAN 201S or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 202T. Second Year Language Study II:
Cupeño. 4 Units.
Prerequisites: FLAN 201T or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203C. Second Year Language Study III:
Italian. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203D. Second Year Language Study III:
Portuguese. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203E. Second Year Language Study III:
Greek. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203F. Second Year Language Study III:
Latin. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.
FLAN 203G. Second Year Language Study III: Russian. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203H. Second Year Language Study III: Turkish. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203L. Second Year Language Study III: Vietnamese. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203N. Second Year Language Study III: Hindi. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203P. Second Year Language Study III: Persian. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203Q. Second Year Language Study III: Luiseño. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203R. Second Year Language Study III: Cahuilla. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203S. Second Year Language Study III: Serrano. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203T. Second Year Language Study III: Cupeño. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 203U. Second Year Language Study III: Nahuatl. 4 Units.
Prerequisites: FLAN 202 or consent of department
(GE=C3)
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis.

FLAN 221C. Second Year Directed Language Study I: Italian. 4 Units.
Prerequisites: FLAN 115 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 213.

FLAN 221G. Second Year Directed Language Study I: Russian. 4 Units.
Prerequisites: FLAN 115 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 213.

FLAN 221H. Second Year Directed Language Study I: Turkish. 4 Units.
Prerequisites: FLAN 115 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 213.

FLAN 221L. Second Year Directed Language Study I: Vietnamese. 4 Units.
Prerequisites: FLAN 115 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 213.

FLAN 221M. Second Year Directed Language Study I: Hebrew. 4 Units.
Prerequisites: FLAN 115 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 213.
FLAN 221N. Second Year Directed Language Studies I: Hindi. 4 Units.
Prerequisites: FLAN 115 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker. Formerly FLAN 213.

FLAN 222C. Second Year Directed Language Studies II: Italian. 4 Units.
Prerequisites: FLAN 221 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 222G. Second Year Directed Language Studies II: Russian. 4 Units.
Prerequisites: FLAN 221 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 222H. Second Year Directed Language Studies II: Turkish. 4 Units.
Prerequisites: FLAN 221 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 222L. Second Year Directed Language Studies II: Vietnamese. 4 Units.
Prerequisites: FLAN 221 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 222M. Second Year Directed Language Studies II: Hebrew. 4 Units.
Prerequisites: FLAN 221 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 222N. Second Year Directed Language Studies II: Hindi. 4 Units.
Prerequisites: FLAN 221 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 223C. Second Year Directed Language Studies III: Italian. 4 Units.
Prerequisites: FLAN 222 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 223G. Second Year Directed Language Studies III: Russian. 4 Units.
Prerequisites: FLAN 222 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 223H. Second Year Directed Language Studies III: Turkish. 4 Units.
Prerequisites: FLAN 222 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 223L. Second Year Directed Language Studies III: Vietnamese. 4 Units.
Prerequisites: FLAN 222 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 223M. Second Year Directed Language Studies III: Hebrew. 4 Units.
Prerequisites: FLAN 222 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 223N. Second Year Directed Language Studies III: Hindi. 4 Units.
Prerequisites: FLAN 222 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 224C. Second Year Directed Language Studies IV: Italian. 4 Units.
Prerequisites: FLAN 223 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 224G. Second Year Directed Language Studies IV: Russian. 4 Units.
Prerequisites: FLAN 223 or consent of department
Independent language study under supervision of a faculty member.
Involves textbook, online and multimedia materials for self-instruction, as well as weekly conversation practice with a native speaker.

FLAN 224H. Second Year Directed Language Studies IV: Turkish. 4 Units.
Prerequisites: FLAN 223 or consent of department

Intermediate-level course in French culture and in the four language skills-oral comprehension, speaking, reading, and writing-designed to prepare students for the required courses in the core.

FREN 201. Culture and Communication II. 4 Units.
Prerequisites: FREN 150 or FREN 200 or consent of department (GE=C3)
Second-year course to build proficiency in listening, speaking, reading and writing while enhancing knowledge of French-speaking world. May not be taken for credit by students who have received credit for FREN 104 and FREN 212.
FREN 202. Culture and Communication III. 4 Units.
Prerequisites: FREN 201 or consent of department
(GE=C3)
Second-year course to increase proficiency in listening, speaking, reading and writing while enhancing knowledge of the French-speaking world. Formerly FREN 214.

FREN 250. Reading and Interpretation. 4 Units.
Prerequisites: FREN 202 or consent of department
Concentration on reading and interpretive writing skills in preparation for upper-division coursework in French.

FREN 270B. Introduction to French Culture. 2 Units.
Written research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit.

FREN 270C. Introduction to French Culture. 3 Units.
Written research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit.

FREN 270D. Introduction to French Culture. 4 Units.
Written research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit.

FREN 275. Introduction to French Business Culture. 4 Units.
Analysis of French business etiquette and culture. Focus on French business practices, traditions, values, and communication styles, including practical tips for doing business in France.

FREN 290. French Literature in English. 4 Units.
(GE=C3)
Introduction to French literature read in English translation.

FREN 295. Intermediate Assessment. 2 Units.
Assessment of skills in reading, writing, listening, speaking and knowledge of culture based on defined performance standards. Students will be advised on how to improve skills and will also begin their on-line assessment portfolios. Satisfactory completion is required for enrollment in all upper-division French courses except FREN 303 and 307. Graded credit/no credit.

FREN 301. French for Reading I. 4 Units.
Students read French and translate from French to English. No prior knowledge of French is necessary. Students move from a novice level of reading skill to an intermediate level. This course is not applicable towards the French major, minor or certificate.

FREN 302. French for Reading II. 4 Units.
Building on the French reading skills of FREN 301, students move from an intermediate level of reading skill to an advanced level; by the end of the course students will be able to translate scholarly articles in French from a variety of disciplines into English. This course is not applicable towards the French major, minor or certificate.

FREN 303. Contemporary Spoken French. 4 Units.
Prerequisites: FREN 202 or consent of department
Practice of contemporary spoken French through the reading and discussion of current topics in the French-speaking world. Formerly FREN 340.

FREN 307. Phonetics. 4 Units.
Prerequisites: FREN 202 or consent of department
In-depth study of the French sound system. Oral practice and study of general principles of French phonology and dialectology. Formerly FREN 306.

FREN 310. Approaches to Literature. 4 Units.
Prerequisites: FREN 295 or consent of department. FREN 350 strongly recommended
Introduction to a variety of approaches to literature; how to read, interpret, understand, and explain a variety of literary genres (short stories, novels, poetry, theatre).

FREN 321. French for Translation I. 4 Units.
Prerequisites: FREN 202 and 295 or consent of department
Techniques of translation with extensive practice from French into English and English into French.

FREN 322. French for Translation II. 4 Units.
Prerequisites: FREN 321 or consent of department
Advanced translation techniques and practice across disciplines from French into English and English into French.

FREN 323. Commercial Translation. 4 Units.
Prerequisites: FREN 321 and 322 or consent of department
Methods and techniques for translating business-related texts from French into English and English into French.

FREN 324. Technical Translation. 2 Units.
Prerequisites: FREN 321 and 322 or consent of department
Extensive practice in translating texts from a variety of technical and scientific disciplines from French into English and from English into French.

FREN 336. Francophone Women Writers. 4 Units.
Prerequisites: FREN 295; and 250 or 310; or consent of instructor
Exploration of selected works by Francophone women writers, with emphasis on issues in women's lives.

FREN 350. Advanced French Composition. 4 Units.
Prerequisites: FREN 295 or consent of department
Improvement of written expression in a variety of genres, including narrative, correspondence, summaries and research reports. Frequent writing required. Course may be repeated once for credit. Formerly FREN 302.
FREN 360. Contemporary French Fiction. 4 Units.
Prerequisites: FREN 295; and 250 or 310; or consent of instructor
Exploration of fictional works by Francophone authors published since 1980. Particular attention will focus on how contemporary issues are revealed through these novels.

FREN 370. Francophone Film and Culture. 4 Units.
Prerequisites: FREN 295; and FREN 250 or FREN 310; or consent of instructor
Analysis and historical examination of Francophone cultures, literatures and themes through French-language films.

FREN 381. French Civilization I. 4 Units.
Prerequisites: FREN 295 or consent of department
Explores the national identity of the French people, as reflected in the arts and social and political institutions, from the Middle Ages to the Enlightenment.

Prerequisites: FREN 295 or consent of department. FREN 350 strongly recommended
Issues affecting the contemporary Francophone world, such as colonialism, regionalism, women's issues, intellectual movements, education and the arts.
FREN 470B. Special Topics in Francophone Cultures. 2 Units.
Prerequisites: FREN 295; and 250 or 310; and 381 or 382; or consent of instructor
Critical examination of selected Francophone works focusing on a particular aspect of Francophone society or historical period. May be repeated for credit as topics change.

FREN 470D. Special Topics in Francophone Cultures. 4 Units.
Prerequisites: FREN 295; and 250 or 310; and 381 or 382; or consent of instructor
Critical examination of selected Francophone works focusing on a particular aspect of Francophone society or historical period. May be repeated for credit as topics change.

FREN 471. Culture and Identity. 4 Units.
Prerequisites: FREN 295; and 250 or 310; and 381 or 382; or consent of instructor
Exploration of how Francophone literature, film, and histories can reveal cultural identities as well as analyses of how authors express their identities through these media. Particular attention will be paid to the development of post-colonial issues.

FREN 496. Senior Assessment. 2 Units.
Assessment of proficiency and performance in five skill areas: listening, speaking, reading, writing and culture. Submission of a student portfolio. Students who have not yet demonstrated the required proficiencies in all areas will not pass the course. Additional coursework may be assigned before the course can be repeated; therefore, students should take this course at least two quarters prior to their anticipated graduation. Students planning on entering a teacher credential program should take FREN 500 concurrently. Graded credit/no credit.

FREN 500. Advanced Performance Assessment. 2 Units.
Corequisites: FREN 496
Students performance in the five skills assessments of FREN 496 and the portfolio will be measured according to the outcomes expectations for teacher credential candidates. Minimum required performance in all areas is advanced-low with a required overall average of advanced-mid. Students will have additional required items in their assessment portfolios, including an official oral proficiency interview (additional fees required). Graded credit/no credit.

FREN 514. Seminar in French Language, Literature or Civilization. 4 Units.
Prerequisites: one 400-level French course
Advanced study of a single author, a literary movement, linguistics or civilization. May be repeated for credit as topics change.

FREN 575A. Internship. 1 Unit.
Prerequisites: FREN 250 and FREN 295, and consent of department
Internship offers students wishing to pursue careers using French opportunities to observe and work with professionals in the field. Requires 30 hours of work/study per unit of credit plus a report documenting their activities and reflecting on their experiences. Graded credit/no credit. May be repeated for credit for a maximum of four units.

FREN 575B. Internship. 2 Units.
Prerequisites: FREN 295, and consent of department
Internship offers students wishing to pursue careers using French opportunities to observe and work with professionals in the field. Requires 30 hours of work/study per unit of credit plus a report documenting their activities and reflecting on their experiences. Graded credit/no credit. May be repeated for credit for a maximum of four units.

FREN 575C. Internship. 3 Units.
Prerequisites: FREN 295, and consent of department
Internship offers students wishing to pursue careers using French opportunities to observe and work with professionals in the field. Requires 30 hours of work/study per unit of credit plus a report documenting their activities and reflecting on their experiences. Graded credit/no credit. May be repeated for credit for a maximum of four units.

FREN 575D. Internship. 4 Units.
Prerequisites: FREN 295, and consent of department
Internship offers students wishing to pursue careers using French opportunities to observe and work with professionals in the field. Requires 30 hours of work/study per unit of credit plus a report documenting their activities and reflecting on their experiences. Graded credit/no credit. May be repeated for credit for a maximum of four units.

Gender and Sexuality Studies (GSS)

Courses

GSS 100. Introduction to Women’s Studies. 4 Units.
(GE=D4)
An introduction to the growing body of women's studies scholarship. Includes feminist theories of gender stratification and introduces women's issues, experiences and achievements in a variety of fields. Formerly WSTD 100 and 200.

GSS 101. Introduction to Masculinity Studies. 4 Units.
(GE=D4)
Different ways that masculinity is constructed, understood, and represented historically and contemporarily. Social and personal meanings of masculinity across multiple contexts including the definitions of masculinity held by people as shaped by sex, culture, nationality, social class, physicality, race/ethnicity, age and sexual orientation.

GSS 103. Introduction to Lesbian, Gay, Bisexual, and Transgender Studies. 4 Units.
(GE=D4)
Interdisciplinary overview of the field of lesbian, gay, bisexual, and transgender studies. Explores both historical events and contemporary issues related to LGBT studies, drawing readings from various academic disciplines including anthropology, the arts, communication studies, history, literature, philosophy, psychology, the sciences, sociology and women’s studies. Addresses multiple aspects of diversity among LGBT people, their histories, and experiences. Formerly WSTD 103.

GSS 300. Feminist Research Methods. 4 Units.
Development and implementation of research (quantitative or qualitative) informed by feminist theory.
GSS 336. Women Writers. 4 Units.
Literary analysis of selected works by women writers, with special emphasis on historical and contemporary issues of women's lives. (Offered as ENG and GSS 336. Students may not receive credit for both.) GSS 336 was formerly WSTD 336.

GSS 390. Topics in Gender and Sexuality Studies. 4 Units.
Examination of selected topics of current interest in gender and sexuality studies. May be repeated for credit as topics change. Formerly WSTD 390.

GSS 420. Feminist Theory. 4 Units.
Survey of feminist theory. Formerly WSTD 420.

GSS 425. Women as Agents of Social Change. 4 Units.
Prerequisites: GSS 100 or consent of instructor. Formerly WSTD 425 Historical and contemporary analysis of women as agents of social change, including responses to gender-based discrimination, consideration of feminist theories of social change and debates over desired directions for the future of societies.

GSS 450. Queer Theory. 4 Units.
Introduction to queer theory through an examination of key theoretical texts, providing an interdisciplinary survey of theories of sexual diversity within changing historical and cultural contexts. Formerly WSTD 450.

GSS 575B. Internship in Gender and Sexuality Programs and Services. 2 Units.
Prerequisites: consent of the Gender and Sexuality Studies Program Committee coordinator. Formerly WSTD 575 Supervised work and study in private or public organizations involving gender and sexuality issues. May be repeated once for credit, a total of eight units may apply toward graduation. Graded credit/no credit.

GSS 575C. Internship in Gender and Sexuality Programs and Services. 3 Units.
Prerequisites: consent of the Gender and Sexuality Studies Program Committee coordinator. Formerly WSTD 575 Supervised work and study in private or public organizations involving gender and sexuality issues. May be repeated once for credit, a total of eight units may apply toward graduation. Graded credit/no credit.

GSS 575D. Internship in Gender and Sexuality Programs and Services. 4 Units.
Prerequisites: consent of the Gender and Sexuality Studies Program Committee coordinator. Formerly WSTD 575 Supervised work and study in private or public organizations involving gender and sexuality issues. May be repeated once for credit, a total of eight units may apply toward graduation. Graded credit/no credit.

GSS 595B. Independent Study. 2 Units.
Prerequisites: junior standing, consent of instructor and approval by the Gender and Sexuality Program Committee coordinator. Formerly WSTD 595 Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than eight units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

GSS 595C. Independent Study. 3 Units.
Prerequisites: junior standing, consent of instructor and approval by the Gender and Sexuality Program Committee coordinator. Formerly WSTD 595 Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than eight units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

GSS 595D. Independent Study. 4 Units.
Prerequisites: junior standing, consent of instructor and approval by the Gender and Sexuality Program Committee coordinator. Formerly WSTD 595 Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than eight units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

GSS 595E. Independent Study. 5 Units.
Prerequisites: junior standing, consent of instructor and approval by the Gender and Sexuality Program Committee coordinator. Formerly WSTD 595 Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than eight units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

Geography (GEOG)

Courses

GEOG 100. Introduction to Human Geography. 4 Units.
(GE=D4) Introduction to the global patterns and dynamics of such human activities as population growth and movements, politics, religion, language, urbanization, industrialization, and economic development. The course emphasizes the processes that produce regional and environmental differences.

GEOG 103. Physical Geography. 5 Units.
(GE=B.3) Systematic approach to the physical environment of man stressing the relationships between the atmosphere, land, life forms and water. Four hours lecture and three hours laboratory. Materials fee required.

GEOG 104. Physical Geography Laboratory. 1 Unit.
Prerequisites: The transferable equivalent of Introductory Physical Geography lecture and permission of department Physical geography laboratory course designed to supplement a physical geography lecture course taken elsewhere without an accompanying laboratory. Materials fee required.
GEOG 201. Map Interpretation. 4 Units.
Introduction to maps as a communication tool, focusing on map fundamentals, such as scale, symbols and design, as well as using maps as a practical device for navigation and spatial measurement. Participation in a weekend outdoor map reading exercise is required. Formerly GEOG 300.

GEOG 202. Introduction to Geographic Information Systems and Cartography. 5 Units.
An introduction to the fundamental principles and theories involved in working with geographic data within a geographic information system (GIS). Basic mapping concepts of scale, generalization, classification, map projections, coordinate systems, and spatial analysis are covered. Four hours lecture and three hours laboratory. Materials fee required. Formerly GEOG 301.

GEOG 300. Geography in the Elementary and Middle School Classroom. 4 Units.
Introduces liberal studies students to geography in the California/Social Science Standards. Students learn to integrate geographic principles and theories with the other social sciences. May not be counted toward fulfillment of requirements in the geography major or minor.

GEOG 302. Geography of California. 4 Units.
Systematic and regional study of California geography stressing general geographical concepts to explain sequential human settlement patterns in relation to the natural environment.

GEOG 303. Introduction to Global Studies. 4 Units.
Prerequisites: SSCI 165 or consent of instructor
Examination of the causes and consequences of globalization, including climate change, migration, cultural conflicts, and economics.

GEOG 304. Field Methods in Geography. 4 Units.
Prerequisites: GEOG 103 and 201
Introduction to methods and techniques for the acquisition of geographic data from direct field measurement and observations. One hour lecture and six hours field activity. Materials fee required.

GEOG 305. Geographic Statistics and Research Methods. 4 Units.
Introduction to basic statistical concepts and quantitative methods used in geography, including spatial analysis and the writing of geographic research reports. A computer statistical program is used.

GEOG 306. Remote Sensing of the Environment. 4 Units.
Prerequisites: GEOG 103 or consent of instructor
Interpretation of environmental phenomena recorded by satellite and aerial multispectral sensing systems, especially conventional aerial photography.

GEOG 307. Transportation Issues and Development. 4 Units.
Transportation geography using both theory and applications. Topics include historical, economic, political, social and environmental aspects of road, rail, water, and air transportation. Examples will be global but will largely focus on the United States and the Inland Empire.

GEOG 308. Advanced Geographic Information Systems. 5 Units.
Prerequisites: GEOG 202 or consent of instructor
Advanced study of the principles and theories involved when working with geographic information systems (GIS). Emphasis on the input, storage, manipulation, and analysis of geographic data. Four hours lecture and three hours laboratory. Materials fee required. Formerly GEOG 401.

GEOG 311. The Dynamic Earth. 5 Units.
Prerequisites: a college-level chemistry course and a college-level physics course, or consent of instructor
Tailored to students intending to teach grades K-8. A systematic survey of Earths physical environment, including the spatial and temporal interrelationships among the Earths atmosphere, oceans and land. Students will be introduced to selected methods and tools of scientific inquiry and analysis used in the earth and space sciences. May not be counted towards fulfillment of requirements in the geography major or minor. Four hours lecture and three hours laboratory.

GEOG 312. Geography of the Developing World. 4 Units.
Geographic exploration of the developing regions of the world, including economic, political, social, and cultural issues. Emphasis will be on comparative analysis and spatial distribution.

GEOG 313. Geography of the Developed World. 4 Units.
Geographic exploration of the developed regions of the world, including economic, political, social, and cultural issues. Emphasis will be on comparative analysis and spatial distribution.

GEOG 315. Spatial Analysis. 4 Units.
Prerequisites: GEOG 202 or consent of instructor
Concepts and applications of modern spatial analysis, information systems and spatial statistics.

GEOG 320. Geography of Social Issues. 4 Units.
Description and analysis of the causes of socially derived geographic variation in the United States and the world. Emphasis is on political, economic, gender and ethnic group characteristics and interactions.

GEOG 322. United States and Mexico Border Issues. 4 Units.
Introduction to U.S.-Mexico border issues, including the social interactions and processes that distinguish the area. Analysis will focus on the characteristics of everyday life as shaped by political, economic, and cultural issues from inside and outside the region.

GEOG 323. North America. 4 Units.
Systematic examination of the physical and cultural geography of North America, stressing the relationships between the natural environment and human settlement and economic patterns.

GEOG 325. Political Geography. 4 Units.
Prerequisites: GEOG 100
Examination of the interactions between political processes, space, place and environment at geographic scales ranging from international to local. Topics include nation-state formation, geopolitics, imperialism and colonialism, the environment, elections and representation and the role of the contemporary state. Formerly a topic under GEOG 390.
GEOG 341. Military Geography. 4 Units.
Examination of terrain, climate, and other physical geography factors that influence military operations. Formerly a topic under GEOG 390.

GEOG 350. Conservation and Natural Resources. 4 Units.
Principles of resource utilization and ecology as they involve human development and politico-economic policy.

GEOG 360. Weather and Climate. 4 Units.
Prerequisites: GEOG 103 or consent of instructor
An examination of atmospheric processes and the relationships between the atmosphere, hydrosphere, lithosphere and biosphere that influence local, regional and global patterns of weather and climate. Relationships between human activity, vegetation patterns, weather and climate will be discussed.

GEOG 365. Climate Change. 4 Units.
Prerequisites: GEOG 103 or GEOL 101
An examination of past climates, modern climates and evidence for future climate change. Students are required to attend two weekend field trips. Formerly a topic under GEOG 390.

GEOG 370. Landscape Analysis. 4 Units.
Prerequisites: BIOL 100 or HSCI 120; and GEOG 103; or consent of instructor
Analysis of the earth as a mosaic of varying size habitat patches. Principles of geography, ecology, and biogeography are used to examine the characteristics and processes that work within and between patches. The application of landscape concepts to land use planning will be discussed, as will methods for determining spatial patterning. Formerly GEOG 460.

GEOG 390. Selected Topics in Geography. 4 Units.
Examination of selected topics of current interest in geography. May be repeated for credit as topics change.

GEOG 392. Selected Topics in Geography. 2 Units.
Examination of selected topics of current interest in geography. May be repeated for credit as topics change.

GEOG 402. Geographic Information Systems Applications. 5 Units.
Prerequisites: GEOG 202 or consent of instructor
An examination of case studies in which geographic information systems (GISs) have been used to address environmental problems. Individual and/or group projects required. Four hours lecture and three hours laboratory. Materials fee required. Formerly a topic under GEOG 390.

GEOG 406. Digital Image Processing. 4 Units.
Prerequisites: GEOG 306 or consent of instructor
Geographic manipulation and interpretation of multispectral scanner data from satellites, radar and other digital image sources with the aid of computers.

GEOG 415. Urban Planning and Land Development. 4 Units.
Comprehensive urban planning and land use controls. Emphasis on impact of urban development in North America.

GEOG 420. Geography of Economic Activity. 4 Units.
Analysis of concepts of location, interaction and regionalization as they apply to economic activity. Special emphasis on economic growth and modernization.

GEOG 440. Understanding the City. 4 Units.
A study of the physical and social attributes of the North American city. Emphasis is placed on urban planning and policy making.

GEOG 470. Hydrology and Water Resources. 4 Units.
Prerequisites: GEOG 103 or consent of instructor
Basic principles of hydrology: relationships between atmospheric, surface and groundwater phenomena; streamflow and flood prediction; water supply and quality.

GEOG 480. Geomorphology. 4 Units.
Prerequisites: GEOG 103 or GEOL 101 or consent of instructor
Landforms and the processes that create them. Multi-day field trip required.

GEOG 500. Senior Seminar. 2 Units.
Prerequisites: senior standing in geography or environmental studies and permission of Geography Department
An assessment of academic progress, required of all geography and environmental studies majors, will be made by assembling an academic portfolio of completed coursework. Graded credit/no credit.

GEOG 575D. Internship in Geography. 4 Units.
Prerequisites: consent of instructor and department
Supervised work in public or private organizations emphasizing practical applications of geographic concepts. Approximately 120 hours are required for four units of credit and at least 150 hours are required for five units of credit. May be taken only once for credit. Graded credit/no credit.

GEOG 575E. Internship in Geography. 5 Units.
Prerequisites: consent of instructor and department
Supervised work in public or private organizations emphasizing practical applications of geographic concepts. Approximately 120 hours are required for four units of credit and at least 150 hours are required for five units of credit. May be taken only once for credit. Graded credit/no credit.

GEOG 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
A total of eight units in GEOG 595 may be applied toward the major and graduation.

GEOG 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
A total of eight units in GEOG 595 may be applied toward the major and graduation.
GEOG 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. A total of eight units in GEOG 595 may be applied toward the major and graduation.

GEOG 597. Senior Honors Project. 4 Units.
Original research in Geography and Environmental Studies, culminating in a significant research report. Enrollment limited to students whose formal application for departmental honors is approved. Graded credit/no credit.

GEOG 600. Proseminar in Geography. 4 Units.
Prerequisites: consent of instructor
Survey of the concepts and ideas that geographers employ to study, describe and analyze globalization.

GEOG 605. Spatial Data Presentation. 4 Units.
An integrated study of geographic techniques used in land use planning, including: computer graphics, geographic information systems, and remote sensing. Three hours lecture and two hours laboratory. Materials fee required.

GEOG 610. Military Geography for National Security. 4 Units.
Examination of the terrain, climate and other physical geography factors that affect national security.

GEOG 615. Foundations of Planning I. 4 Units.
An intensive study of the social and ethical bases of urban planning, and the fundamental skills and understanding needed by urban planners. The course will include an overview of the legal, economic and political bases of urban planning.

GEOG 616. Foundations of Planning II. 4 Units.
Standards and issues associated with the development of general planning, zoning ordinances, and land subdivision are examined.

GEOG 617. Planning Within the Local Power Structure. 4 Units.
Examination of the interrelationships between local urban power structures and modes of decision-making and planning, with the purpose to explore ways in which the professional urban planner can work effectively.

GEOG 621. Seminar in the Geography of Latin America. 4 Units.
A geographic perspective of Latin America, including such topics as population, economic development, environment and foreign relations.

GEOG 650. Environmental Issues of Land Management. 4 Units.
Study of multiple-use management of non-urban land by local government. Emphasis will be placed on recreation, mining, and the maintenance of open space, biotic habitat, and air and water quality. The California Environmental Quality Act (CEQA) and related issues will also be addressed.

GEOG 680. Advanced Demographic Analysis. 4 Units.
Advanced study of demographic techniques with particular emphasis on those relevant to urban planning. An examination of various data sources is included.

GEOG 695C. Planning Colloquium. 2 Units.
Subdivision Review and Site Design. Discussion of the application of planning techniques in public and private agencies.

GEOG 695D. Supervised Graduate Study in Geography. 4 Units.
Prerequisites: classified standing in the master's program and consent of instructor
Original individual research in geography or environmental studies; to be conducted under the direct supervision of a faculty member of the student's committee, and if desired in collaboration with other members of the student's master's committee.

GEOG 695E. Supervised Graduate Study in Geography. 5 Units.
Prerequisites: classified standing in the master's program and consent of instructor
Original individual research in geography or environmental studies; to be conducted under the direct supervision of a faculty member of the student's committee, and if desired in collaboration with other members of the student's master's committee.

GEOG 695A. Graduate Project. 1 Unit.
Prerequisites: classified standing and consent of instructor
Original individual research in geography and environmental studies, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded Credit/No Credit.

GEOG 695B. Graduate Project. 2 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geography and environmental studies, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded Credit/No Credit.

GEOG 695C. Graduate Project. 3 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geography and environmental studies, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded Credit/No Credit.

GEOG 695D. Graduate Project. 4 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geography and environmental studies, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded Credit/No Credit.
GEOG 696E. Graduate Project. 5 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geography and environmental studies, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded Credit/No Credit.

GEOG 696F. Graduate Project. 6 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geography and environmental studies, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. May be repeated for credit for a maximum of 12 units. Graded Credit/No Credit.

GEOG 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
GEOL 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 699. Graduate Project or Thesis. 4 Units.
Prerequisites: CHEM 695, GEOG 695 or GEOL 695
Independent graduate project or research under guidance of the major advisor culminating in a written project or thesis in satisfaction of the extended project option of the degree requirements.

**Geology (GEOL)**

**Courses**

GEOL 101. Introductory Geology. 5 Units.
(GE=B3)
Offered: Fall, Winter, Spring, Summer
An introduction to the study of the earth, particularly the structure, composition, distribution, and modification of earth materials, and processes that shape the surface of the earth. Four hours lecture and three hours laboratory. Materials fee required.

GEOL 102. Introductory Geology Laboratory. 1 Unit.
Prerequisites: The transferable equivalent to the Introductory Geology lecture and permission of department
Offered: Fall, Winter, Spring, Summer
Designed for students who have taken an introductory geology lecture elsewhere. Hands-on introduction to the structure, composition, distribution, and modification of earth materials, and processes that shape the surface of the earth. Three hours laboratory. Materials fee required.

GEOL 205. Volcanic Hazards, Surveillance and Prediction. 2 Units.
(GE=B4)
An introduction to the study of volcanic eruptions; assessment of their hazards; methods used in their surveillance and in the prediction of eruptions. Effects of volcanic eruptions on humans, buildings, economic activities, and world climate. Two hours lecture.

GEOL 210. Earthquakes: Science and Public Policy. 2 Units.
(GE=B4)
Offered: Fall, Winter, Spring, Summer
An introduction to the scientific study of earthquakes, the assessment of seismic hazards, earthquake engineering, and the physical and sociological effects of earthquakes. Various public policies aimed at mitigating earthquake hazards and attempts at earthquake prediction will also be examined.

GEOL 250. Historical Geology. 5 Units.
Offered: Spring
Study of the origin and evolution of the earth and its life forms as interpreted from the rock and fossil record. Four hours lecture and three hours laboratory. Materials fee required. Overnight field trips may be required.

GEOL 295A. Special Projects in Geology. 1 Unit.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Individual investigation, research, study or survey of selected problems.

GEOL 295B. Special Projects in Geology. 2 Units.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Individual investigation, research, study or survey of selected problems.

GEOL 301. Introduction to Geologic Mapping. 4 Units.
Prerequisites: GEOL 101 or GEOG 103
Offered: Fall
Field identification of igneous, sedimentary, and metamorphic rock units, sample collection, making rock descriptions, use of Brunton compass, pace and compass technique, topographic map reading, location determination, measuring geological features (e.g., strike and dip of bedding, lineation and foliation in metamorphic rocks), plotting geologic features on a topographic map, geologic symbol and notation conventions, topographic profile construction, geologic cross section construction and interpretation, geologic field note taking, and preparing geologic reports. Overnight field trips may be required. Two hours lecture and six hours laboratory. Materials fee required.

GEOL 307A. Service Learning in the Earth Sciences. 1 Unit.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Supervised activities in geology or geological education providing service to campus or community constituents. Minimum of 30 hours required per unit of credit. May be repeated for credit. Graded credit/no credit.
GEOL 307B. Service Learning in the Earth Sciences. 2 Units.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Supervised activities in geology or geological education providing service to campus or community constituents. Minimum of 30 hours required per unit of credit. May be repeated for credit. Graded credit/no credit.

GEOL 309. Earth: The Blue Planet. 5 Units.
Prerequisites: a college-level chemistry course and a college-level physics course, or consent of instructor
Offered: Fall
Tailored for students intending to teach grades K-8. Planet Earth studied as a whole, comprising many separate but interacting systems. Earths place and role in the solar system; what the planet is made of and how it is changing; surface processes that shape its exterior; influences on its habitable envelope. Four hours lecture and three hours laboratory. Materials fee required.

GEOL 310. Regional Field Geology. 2 Units.
Prerequisites: GEOL 101 or consent of instructor
Investigation of geologic features and their interpretation based on field observations of selected region or locality. Overnight field trips may be required. May be repeated for credit as topics change.

GEOL 312. Geology of California. 4 Units.
Prerequisites: GEOL 101
Offered: Winter
Interpretation of the geological features and evolution of California. Four hours lecture. Overnight field trips may be required. Formerly GEOL 440.

GEOL 320. Mineralogy and Crystallography. 5 Units.
Prerequisites: GEOL 101
Prerequisite/Corequisite: CHEM 205 or CHEM 215
Offered: Fall
Introduction to crystal symmetry, crystallography, crystal chemistry, mineral classification, mineral genesis, physical and chemical properties of minerals, and laboratory identification of important ore and rock-forming minerals. Three hours lecture and six hours laboratory. Materials fee required. Field trips may be required.

GEOL 321. Optical Mineralogy. 3 Units.
Prerequisites: GEOL 320 with a grade of "C" or better
Offered: Winter
Theory and application of petrographic microscopy for the analysis and identification of minerals. One hour lecture and six hours laboratory. Materials fee required.

GEOL 322. Introduction to Geochemistry. 4 Units.
Prerequisites: GEOL 320 with a grade of "C" or better
Offered: Spring
Distribution, migration, and reactions of chemical elements within the earth through space and time. Recommended as an elective for students of chemistry, environmental studies, and life sciences. Four hours lecture.

GEOL 325. Igneous and Metamorphic Petrology. 5 Units.
Prerequisites: GEOL 321 with a grade of "C" or better
Offered: Spring
Description and genesis of igneous and metamorphic rocks, their mineralogic and chemical composition, internal structure, and mode of occurrence. Three hours lecture and six hours laboratory. Materials fee required. Overnight field trips may be required.

GEOL 330. Sedimentary Geology I: Principles and Applications. 5 Units.
Prerequisites: GEOL 101 or equivalent.
Offered: Winter
General processes of sedimentary geology including provenance, sediment production, modification, and transportation; principles of fluid dynamics of water, air, and ice; and introduction to major continental sedimentary systems associated with fluid flow, including fluvial/alluvial, glacial, and aeolian systems. Laboratory work focuses on description, analytical techniques and interpretation of sedimentary materials including both unconsolidated sediment as well as sedimentary rocks. Techniques introduced include petrographic preparation/observations of both sediment and sedimentary rock; production of stratigraphic sections and the taxonomy of stratigraphic units; representative detrital mineralogy of sedimentary materials; textural analyses and associated descriptive statistics; description, taxonomy, and interpretation of representative sedimentary structures; and introduction to sediment and rock classifications. Four hours lecture and three hours laboratory. Materials fee required.

GEOL 340. Sedimentary Geology II: Principles and Applications. 5 Units.
Prerequisites: GEOL 330 with a grade of "C" or better
Offered: Spring
Introduction to subaqueous sedimentary systems, including deltaic, shallow marine, lacustrine, carbonate, shelf/slope, and deep marine depositional environments. Other course topics include facies relationships; principles of stratigraphic change; correlation methodologies; sequence stratigraphy; the development of stratigraphic thought; biostratigraphic principles and applications; and geophysical/geochemical stratigraphic methodologies and analysis. Laboratory work includes analysis of carbonate and other biogenic/chemically precipitated sediments and rocks; lithostratigraphic and biostratigraphic correlation and analysis, and seismic and sequence stratigraphic analysis. Four hours lecture/discussion and three hours laboratory. Materials fee required.

GEOL 350. Introductory Paleontology. 5 Units.
Prerequisites: an introductory course in either geology, physical geography, chemistry, or biology
Offered: Fall - Even numbered years
Introduction to basic paleontological concepts and the systematic study of important fossil groups. Course concepts include organization and nature of the biosphere, fossilization, taxonomy and systematics, paleoecology, and evolution as exemplified by commonly represented fossil groups in the rock record. Materials fee required.
GEOL 360. Structural Geology. 5 Units.  
Prerequisites: GEOL 101 and PHYS 121 or PHYS 221  
Offered: Winter  
Mechanics and characteristics of rock deformation and analytical techniques for the solution of structural relationships. Four hours lecture and three hours laboratory. Materials fee required. Overnight field trips may be required.

GEOL 370. Tectonics. 4 Units.  
Prerequisites: GEOL 325, 330 and 360  
Offered: Spring - Odd numbered years  
Interpretation of the geological evidence for plate tectonics; the mechanisms that control it; the structures it produces; its control on igneous, metamorphic, sedimentologic, and biological processes; and plate interactions. Four hours lecture.

GEOL 375. Groundwater Hydrology. 4 Units.  
Prerequisites: GEOL 101  
Offered: Fall  
Occurrence, distribution, and movement of groundwater; properties of aquifers; principles of groundwater flow; effects of well extraction; regional groundwater flow; water quality and contamination. Four hours lecture.

GEOL 376. Field Methods in Hydrology. 4 Units.  
Prerequisites: GEOL 375 with a grade of "C" or better  
Offered: Winter  
Measurement methods and analysis associated with the evaluation of water movement in the field. Sampling methods and use of data loggers and other sampling equipment are emphasized. Two hours lecture and six hours laboratory. Materials fee required. Field trips are required.

GEOL 390. Field Camp. 8 Units.  
Prerequisites: GEOL 301, 325, 340, and 360 with a grade of "C" or better in each course and consent of instructor  
Geological field work at selected areas in the western United States. Techniques of geologic mapping and structural, petrologic, stratigraphic, and paleontologic interpretation will be used to interpret the geological history and significance of those areas through reports, maps, cross-sections, and diagrams. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Materials fee required.

GEOL 391. Advanced Field Geology. 2 Units.  
Prerequisites: GEOL 301 with a grade of "C" or better and consent of instructor  
Offered: Fall, Winter and Spring  
Techniques of field geology as applied to selected disciplines within the broad field of geosciences. May be repeated for credit with departmental consent. A total of ten units may be applied towards the degree. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Field trip fee required.

GEOL 391C. Advanced Field Geology. 3 Units.  
Prerequisites: GEOL 301 with a grade of "C" or better and consent of instructor  
Offered: Fall, Winter and Spring  
Techniques of field geology as applied to selected disciplines within the broad field of geosciences. May be repeated for credit with departmental consent. A total of ten units may be applied towards the degree. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Field trip fee required.

GEOL 391D. Advanced Field Geology. 4 Units.  
Prerequisites: GEOL 301 with a grade of "C" or better and consent of instructor  
Offered: Fall, Winter and Spring  
Techniques of field geology as applied to selected disciplines within the broad field of geosciences. May be repeated for credit with departmental consent. A total of ten units may be applied towards the degree. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Field trip fee required.

GEOL 391E. Advanced Field Geology. 5 Units.  
Prerequisites: GEOL 301 with a grade of "C" or better and consent of instructor  
Offered: Fall, Winter and Spring  
Techniques of field geology as applied to selected disciplines within the broad field of geosciences. May be repeated for credit with departmental consent. A total of ten units may be applied towards the degree. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Field trip fee required.

GEOL 391F. Advanced Field Geology. 6 Units.  
Prerequisites: GEOL 301 with a grade of "C" or better and consent of instructor  
Techniques of field geology as applied to selected disciplines within the broad field of geosciences. May be repeated for credit with departmental consent. A total of ten units may be applied towards the degree. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Field trip fee required.

GEOL 395A. Directed Studies. 1 Unit.  
Prerequisites: consent of the instructor  
Offered: Fall, Winter and Spring  
Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit.

GEOL 395B. Directed Studies. 2 Units.  
Prerequisites: consent of the instructor  
Offered: Fall, Winter and Spring  
Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit.
GEOL 395C. Directed Studies. 3 Units.
Prerequisites: consent of the instructor
Offered: Fall, Winter and Spring
Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit.

GEOL 395D. Directed Studies. 4 Units.
Prerequisites: consent of the instructor
Offered: Fall, Winter and Spring
Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit.

GEOL 398. Geological Research Methods and Design. 1 Unit.
Prerequisites: NSCI 306 and consent of instructor
Offered: Spring
Students are advised and guided in research methods and design. Critical reasoning and the scientific method are used to develop and write a research proposal, following departmental guidelines, to undertake a project for GEOL 399 and/or GEOL 597. Graded credit/no credit.

GEOL 399. Undergraduate Geological Research. 3 Units.
Prerequisites: GEOL 398
Offered: Fall
Laboratory and/or field research in geological sciences under the direction of a faculty advisor. Results will be presented as a research paper. Grade is consensus grade of geology faculty.

GEOL 430. Engineering Geology. 5 Units.
Prerequisites: GEOL 301 and 360 with a grade of "C" or better in each course
Offered: Spring
A survey of issues and techniques pertinent to geology as it applies to engineering of structures. Soil and rock mechanics; mass wasting processes; water-related issues; land subsidence; seismic hazards. Field trips are required. Three hours lecture and six hours laboratory, some of which will be conducted in the field. Materials fee required.

GEOL 460. Topics in Applied Geology. 4 Units.
Prerequisites: GEOL 360 or consent of instructor
A selected topic of applied geology such as engineering geology, groundwater, environmental geology, resource management, well-log analysis, and geological hazards. Four hours lecture. May be repeated for credit as topics change.

GEOL 510. Scientific Issues in Surface and Groundwater Management. 4 Units.
Overview of groundwater concepts and issues, including groundwater origins and behavior; response to wells; water chemistry; water quality and contamination; development and management. Emphasis is given to applications and case studies. This course does not satisfy requirements for the B.A. and B.S. degrees in geology. Four hours lecture.

GEOL 520. Readings in Classical Geology. 2 Units.
Prerequisites: consent of instructor
Directed readings of important geologic literature that have shaped our understanding of the earth and its history. May be repeated for credit.

GEOL 530. Microscopy. 5 Units.
Prerequisites: senior standing and consent of instructor
Theory and techniques of modern microscopy. Lectures on theory of optics and imaging for several types of microscopes (Light microscope, fluorescence microscope, confocal microscope, scanning probe microscope, and electron microscope). Laboratory includes hands-on training in the technical aspects of specimen preparation and microscope use. Three hours lecture and six hours laboratory. Materials fee required. (Also offered as BIOL 530. Students may not receive credit for both.)

GEOL 540. Advanced Topics in Geology. 4 Units.
Prerequisites: consent of instructor
An advanced geologic topic, such as geophysics, carbonate petrology, seismic stratigraphy, biostratigraphy, advanced igneous and metamorphic petrology, volcanic processes, geochemistry, paleocology, Quaternary geology, geostatistics, micropaleontology, vertebrate paleontology, paleobotany, marine geology, and rock mechanics. Overnight field trips may be required. May be repeated for credit as topics change.

GEOL 545A. Laboratory for Advanced Topics in Geology. 1 Unit.
Prerequisites: consent of instructor
Laboratory work to accompany some topics offered in GEOL 540. Three hours laboratory per unit enrolled. Materials fee required. May be repeated for credit as topics change. Overnight field trips may be required.

GEOL 545B. Laboratory for Advanced Topics in Geology. 2 Units.
Prerequisites: consent of instructor
Laboratory work to accompany some topics offered in GEOL 540. Three hours laboratory per unit enrolled. Materials fee required. May be repeated for credit as topics change. Overnight field trips may be required.

GEOL 550. Earth Resources. 5 Units.
Prerequisites: GEOL 322 with a grade of "C" or better
An overview of the geology, distribution, and occurrence of many types of ore deposits, and the methods of their extraction. Topics include metallic resources, industrial minerals, building materials, and energy resources. Weekend field trip(s) may be required. Four hours lecture and three hours laboratory. Materials fee required.

GEOL 551. Neotectonics and Seismic Hazard Analysis. 5 Units.
Prerequisites: GEOL 301 and GEOL 360 with a grade of "C" or better in each course
State-of-the-art methods for studying active faults. Topics include basic seismology, significant historic earthquakes, identifying active faults, estimating fault slip rates, types of evidence for prehistoric earthquakes, models for earthquake recurrence, and evaluating the potential for and likely effects of future earthquakes. Four hours lecture and three hours laboratory. Materials fee required. Formerly a topic under GEOL 540.
GEOL 552. Volcanology and Volcanic Hazard Assessment. 5 Units.
Prerequisites: GEOL 325 with a grade of "C" or better
Concepts in modern volcanology and assessment of volcanic hazards. Topics include magma properties; eruptive styles; lava flows; pyroclastic and volcaniclastic deposits; volcanoes and climate; volcanic hazards and their assessment and mitigation; case studies of classic volcanic eruptions. Four hours lecture and three hours laboratory. Weekend field trip(s) will be required. Materials fee required. Formerly a topic under GEOL 540.

GEOL 553. Advanced Structural Geology. 5 Units.
Prerequisites: GEOL 325, 330 and 360 with a grade of "C" or better.
Recommended: GEOL 370
Advanced topics in theory and analysis of stress and strain; examination of deformation mechanisms; geometry, kinematics, and mechanisms of orogenic belts. Four hours lecture and three hours laboratory. Materials fee required. Overnight field trips may be required.

GEOL 554. Geochemical Thermodynamics. 4 Units.
Prerequisites: CHEM 216 and MATH 212. Geology majors are recommended to take GEOL 320 and GEOL 322 before taking this course.
Application of equilibrium thermodynamics to understand geological, geochemical, and other natural systems. Mathematics of thermodynamics and equations of state, use of thermodynamic datasets and extraction of data from experiments, interpretation of geochemical phase equilibria, introduction to geochemical modeling.

GEOL 555. Site Investigation Methodologies in Engineering Geology. 5 Units.
Prerequisites: GEOL 430 or consent of instructor. Recommended prerequisites: GEOL 301, GEOL 360, GEOL 370
Discussion and practice of methods and strategies to investigate sites for the purpose of engineered or other human designed improvement. Use of aerial photography, mapping, reconnaissance site visits, geophysics, and exploration borings to obtain data at sites; discussion of guidelines and methods to describe rock and soil borings. Discussion of use of geologic site conditions to develop the scope and strategy of site investigation. Discussion of siting of critical facilities. Field trips required. Materials fee required.

GEOL 556. Case Histories in Engineering Geology Practice. 4 Units.
Prerequisites: GEOL 430. Recommended prerequisites: GEOL 301, GEOL 360, GEOL 370
Class focuses on the practice of engineering geology through the analysis of case histories of successful projects and failed projects. Class will cover projects such as dams, tunnels, foundations, and natural hazards through time and show how the field of engineering geology has developed in the United States and internationally.

GEOL 575C. Internship in Geology. 3 Units.
Prerequisites: Prerequisite: consent of instructor and department chair
Offered: Fall, Winter and Spring
Work experience off and on campus in geologically related work. Supervised by a member of Geological Sciences faculty. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelor's degree and a total of five units may be applied towards obtaining a master's degree. Graded credit/no credit.

GEOL 575D. Internship in Geology. 4 Units.
Prerequisites: consent of instructor and department chair
Offered: Fall, Winter and Spring
Work experience off and on campus in geologically related work. Supervised by a member of Geological Sciences faculty. May be repeated for credit with department consent. A total of four units may be applied towards obtaining a bachelor's degree and a total of five units may be applied towards obtaining a master's degree. Graded credit/no credit.

GEOL 590. Senior Seminar. 2 Units.
Prerequisite/Corequisite: GEOL 399 with a grade of "C" or better
Offered: Spring
Assessment of student learning through a standardized test and oral presentation of a research project, which may have been initiated as part of another course. This course should be taken in the spring quarter immediately prior to graduation.

GEOL 591. Digital Mapping and GIS for Scientists. 4 Units.
Prerequisites: GEOG 202. Recommended: GEOL 301
Emphasis on real-time field data collection in direct digital form, and manipulation of these data using GIS. Scientific application to geologic and/or environmental problems will be stressed. Two hours lecture and six hours laboratory. Previously offered as Geol 620; students may not receive credit for both courses. Materials fee required.

GEOL 595A. Independent Study. 1 Unit.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Laboratory, field or library research conducted under the direction of a faculty member. A total of four units in GEOL 595 may be applied towards the major in geology.

GEOL 595B. Independent Study. 2 Units.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Laboratory, field or library research conducted under the direction of a faculty member. A total of four units in GEOL 595 may be applied towards the major in geology.

GEOL 595C. Independent Study. 3 Units.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Laboratory, field or library research conducted under the direction of a faculty member. A total of four units in GEOL 595 may be applied towards the major in geology.

GEOL 595D. Independent Study. 4 Units.
Prerequisites: consent of instructor
Offered: Fall, Winter and Spring
Laboratory, field or library research conducted under the direction of a faculty member. A total of four units in GEOL 595 may be applied towards the major in geology.
GEOL 595E. Independent Study. 5 Units.  
Prerequisites: consent of instructor  
Offered: Fall, Winter and Spring  
Laboratory, field or library research conducted under the direction of a faculty member. A total of four units in GEOL 595 may be applied towards the major in geology.

GEOL 595F. Independent Study. 6 Units.  
Prerequisites: consent of instructor  
Offered: Fall, Winter and Spring  
Laboratory, field or library research conducted under the direction of a faculty member. A total of four units in GEOL 595 may be applied towards the major in geology.

GEOL 597B. Senior Honors Research. 2 Units.  
Prerequisites: GEOL 399 with a grade of "C" or better  
Offered: Fall, Winter and Spring  
Original research in the geological sciences Work will be conducted in consultation with a faculty advisor, and will culminate in a written paper and an oral presentation. Grade is consensus grade of the geology faculty.

GEOL 597C. Senior Honors Research. 3 Units.  
Prerequisites: GEOL 399 with a grade of "C" or better  
Offered: Fall, Winter and Spring  
Original research in the geological sciences Work will be conducted in consultation with a faculty advisor, and will culminate in a written paper and an oral presentation. Grade is consensus grade of the geology faculty.

GEOL 597D. Senior Honors Research. 4 Units.  
Prerequisites: GEOL 399 with a grade of "C" or better  
Offered: Fall, Winter and Spring  
Original research in the geological sciences Work will be conducted in consultation with a faculty advisor, and will culminate in a written paper and an oral presentation. Grade is consensus grade of the geology faculty.

GEOL 610. Environmental Geosciences. 5 Units.  
Application of earth science principles to environmental issues.  
Topics include applications of fundamentals of physical geology to geohazards, engineering geology, surface and groundwater, erosion, and environmental geochemistry. Atmospheric and climate topics will include global change issues. Labs will feature hands-on-experience with earth materials, maps, analytical techniques and environmental problem solving. Four hours lecture and three hours laboratory. Prerequisites: GEOG 103, or GEOL 101 or equivalent.

GEOL 621. Graduate Geological Mapping. 4 Units.  
Prerequisites: GEOL 301, GEOL 325, GEOL 330, GEOL 340, and GEOL 360 or equivalents, classified standing, and consent of instructor  
Application of geologic techniques and principles to selected field problems. Includes geologic mapping, data collection, analysis, and presentation, and report writing. Overnight field work may be required. One hour lecture and nine hours laboratory.

GEOL 630. Environmental Geochemistry. 4 Units.  
Prerequisites: GEOL 610  
Contemporary problems in environmental geochemistry, such as fate and transport of inorganic and organic pollutants in the terrestrial environment covering both equilibrium and kinetic descriptions of the processes.

GEOL 635. Low-temperature Geochemistry. 4 Units.  
Prerequisites: GEOL 610  
Low-temperature geochemistry including sedimentary systems, weathering, and aqueous geochemistry. Includes discussion of thermodynamics of aqueous reactions, elemental speciation, activity diagrams, the carbonate system, water-rock reactions and stable isotopes. Two hours lecture and six hours laboratory.

GEOL 690. Graduate Seminar in Environmental Sciences. 2 Units.  
Selected topics and reviews of current investigations in the fields of environmental geology.

GEOL 691B. Graduate Independent Study. 2 Units.  
Prerequisites: classified standing in master's program and consent of instructor  
Independent study of an advanced topic in geology or environmental science.

GEOL 691C. Graduate Independent Study. 3 Units.  
Prerequisites: classified standing in master's program and consent of instructor  
Independent study of an advanced topic in geology or environmental science.

GEOL 691D. Graduate Independent Study. 4 Units.  
Prerequisites: classified standing in master's program and consent of instructor  
Independent study of an advanced topic in geology or environmental science.

GEOL 695D. Supervised Graduate Study in Geology. 4 Units.  
Prerequisites: classified standing in masters program and consent of advisor  
Original individual research in environmental geology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.

GEOL 695E. Supervised Graduate Study in Geology. 5 Units.  
Prerequisites: classified standing in masters program and consent of advisor  
Original individual research in environmental geology; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee.
GEOL 696A. Graduate Project. 1 Unit.
Prerequisites: classified standing and consent of instructor
Original individual research in geology, to be conducted under the
guidance of the student's graduate advisor, and if desired, in collaboration
with other members of the student's master's committee. May be repeated
for credit for a maximum of 12 units. Graded credit/no credit.

GEOL 696B. Graduate Project. 2 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geology, to be conducted under the
guidance of the student's graduate advisor, and if desired, in collaboration
with other members of the student's master's committee. May be repeated
for credit for a maximum of 12 units. Graded credit/no credit.

GEOL 696C. Graduate Project. 3 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geology, to be conducted under the
guidance of the student's graduate advisor, and if desired, in collaboration
with other members of the student's master's committee. May be repeated
for credit for a maximum of 12 units. Graded credit/no credit.

GEOL 696D. Graduate Project. 4 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geology, to be conducted under the
guidance of the student's graduate advisor, and if desired, in collaboration
with other members of the student's master's committee. May be repeated
for credit for a maximum of 12 units. Graded credit/no credit.

GEOL 696E. Graduate Project. 5 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geology, to be conducted under the
guidance of the student's graduate advisor, and if desired, in collaboration
with other members of the student's master's committee. May be repeated
for credit for a maximum of 12 units. Graded credit/no credit.

GEOL 696F. Graduate Project. 6 Units.
Prerequisites: classified standing and consent of instructor
Original individual research in geology, to be conducted under the
guidance of the student's graduate advisor, and if desired, in collaboration
with other members of the student's master's committee. May be repeated
for credit for a maximum of 12 units. Graded credit/no credit.

GEOL 697. Advanced Internship. 4 Units.
Prerequisites: CHEM 575 or GEOL 575 and consent of advisor
Supervised work or study in private or public organizations. May be
repeated for credit with consent of Environmental Science Graduate
Committee.

GEOL 698A. Continuous Enrollment for
Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

GEOL 698B. Continuous Enrollment for
Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

GEOL 698C. Continuous Enrollment for
Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

GEOL 698D. Continuous Enrollment for
Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.
GEOL 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.  
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies program major, consent of the Dean of Graduate Studies.  
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.  
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies program major, consent of the Dean of Graduate Studies.  
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.  
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies program major, consent of the Dean of Graduate Studies.  
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 699. Graduate Thesis. 4 Units.  
Prerequisites: CHEM 695 or GEOL 695.  
Independent graduate research conducted under guidance of the major advisor culminating in a written thesis option of the degree requirements.

GEOL 999. Comprehensive Examination. 0 Units.  
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and good academic standing.  
Assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

German (GER)

Courses

GER 101. College German I. 4 Units.  
Fundamentals of pronunciation, structure and German culture designed to develop the ability to use and understand basic spoken German.

GER 102. College German II. 4 Units.  
Further study of the fundamentals of pronunciation, structure and German culture designed to develop the ability to use and understand basic spoken German. Continuation of GER 101.

GER 103. College German III. 4 Units.  
Prerequisites: two years of high school German or equivalent (GE=C3)  
Emphasis on oral and written competency at the intermediate level in a cultural context. Formerly GER 150.

GER 212. Composition. 4 Units.  
Prerequisites: GER 103 or equivalent (GE=C3)  
Comprehensive review of the principles of German grammar, emphasizing their application to composition.

GER 214. Conversation. 4 Units.  
Prerequisites: GER 103 or equivalent (GE=C3)  
Practice of oral German stressing the discussion of current topics, panel discussions, debates, short talks and skits.

GER 216. Introduction to Literary Texts. 4 Units.  
Prerequisites: GER 103 or equivalent (GE=C3)  
Techniques of literary study and analysis. Vocabulary development.

GER 218. Culture. 4 Units.  
Introduction to the culture and traditions of the German-speaking countries (principally Germany, Austria and Switzerland) as reflected in the arts and other social institutions. Course taught in German.

GER 290. German Literature in English. 4 Units.  
(GE=C3)  
Introduction to German literature read in English translation.

GER 308. Readings in German Literature. 4 Units.  
Prerequisites: one of the following: GER 212, 214, 216 or consent of instructor  
Selected literary genre or writer. May be repeated for credit as topics change.

GER 309. Advanced German Composition. 4 Units.  
Prerequisites: GER 212 or 216 or consent of instructor  
Practice in composition and short essay writing with emphasis on the development of good writing style and expressive vocabulary. Practical application in writing.
GER 310. Advanced German Conversation. 4 Units.
Prerequisites: GER 214 or consent of instructor
Advanced practice of oral German stressing the discussion of topics based in part on current newspapers and periodicals.

GER 311. Survey of German Literature. 4 Units.
Prerequisites: GER 212, 214, 216 or consent of instructor
Survey course designed to introduce the student to the major literary movements and representative writers of German speaking cultures.

GER 312. Business German. 4 Units.
Prerequisites: GER 212 or 216 or consent of instructor
Practice in writing German business letters and translation from German to English of materials useful in business, politics and tourism.

GER 313. Technical and Scientific Translation. 4 Units.
Prerequisites: GER 212 or 216 or consent of instructor
Translation from German to English of technical and scientific material.

GER 399A. Community Service Project. 1 Unit.
Prerequisites: consent of department
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

GER 399B. Community Service Project. 2 Units.
Prerequisites: consent of department
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

Health Science (HSCI)

Courses

HSCI 100. Concepts in Health. 2 Units.
Standards and guidelines for coordinated school health programs and comprehensive health education are introduced. Course content is formulated for those planning a career in K-8 education. Does not qualify as a Health Science elective, nor as a clear credential course for post-baccalaureate credential candidates.

HSCI 120. Health and Society: An Ecological Approach. 5 Units.
Prerequisites: CHEM 205
Nature and function of health in society through study of the fundamental concepts of living systems and their implication in the processes of health and illness in the human organism. Major health problems are analyzed to contribute to the students understanding of his or her role as an individual and as a member of the community. Four hours lecture and three hours laboratory.

HSCI 216. Reproductive Health. 2 Units.
Provides an overview of reproductive health issues facing men and women today, including but not limited to: human reproductive anatomy; self-care and medical examinations; commonly occurring reproductive disorders; symptoms and treatment including fertility-related disorders; birth control methods; abortion; threats to health during pregnancy; access to quality health care. Formerly HSCI 335.

HSCI 218. Stress Management. 2 Units.
Examines the history of stress-related research, sources of stress in modern society, the body's response to stress, and recent advances in psycho-neuro-immunology. Also included is the exploration of a variety of stress control techniques applicable to both personal and professional settings. Formerly HSCI 305.

HSCI 225. Introduction to the Dietetic Profession. 1 Unit.
An overview of the dietetic profession and careers in dietetics. Includes historical perspectives of the dietetic profession, professional organizations, ethics, future outlook of the profession, and traditional/nontraditional career options in nutrition and dietetics.

HSCI 244. Introduction to Culinary Arts. 2 Units.
The basics of food preparation and culinary skills; students will learn about shopping, preparation and handling of food, food safety, and selection and use of kitchen equipment and tools. Provides students with basic food preparation and culinary techniques, appropriate for non-majors. One hour lecture and three hours laboratory.

HSCI 245. Introduction to Food Science. 5 Units.
Prerequisites: CHEM 205
Application of scientific principles to the study of food; role of carbohydrates, lipids and proteins in food; principles of food safety. Four hours lecture and three hours laboratory.

HSCI 271. Introduction to Public Health. 4 Units.
An interdisciplinary overview of the public health field infrastructure and unique features and responsibilities of public health, the history and accomplishments of Public Health officials and agencies, various Public Health institutions, and an in-depth examination of the core Public Health disciplines. These include epidemiology of infectious and chronic disease, environmental health, health promotion, global health (including health disparities), health policy, and health services management. Formerly HSCI 371.

HSCI 273. Software Applications in the Health Sciences. 4 Units.
Overview and application of a variety of software applications currently utilized in health science-related programs, including but not limited to assessment, planning, program implementation and management software; statistical packages; regional and national databases; and integrated applications. Formerly HSCI 373. Materials fee required.

HSCI 295A. Special Projects in Health Science. 1 Unit.
Prerequisites: consent of department
Individual investigation, research, study or survey of selected problems.
HSCI 295B. Special Projects in Health Science. 2 Units.
Prerequisites: consent of department
Individual investigation, research, study or survey of selected problems.

HSCI 301. Foundations of Public Health Education. 4 Units.
Examines the profession of public health education in various settings and
selected historical, cultural, philosophical, professional, and ethical issues
in the practice of health education. Emphasis is placed on leadership,
professionalism, career development, professional organizations, and
interrelationships among physical, social, and cultural forces in the
practice of health promotion and education.

HSCI 303. AIDS and Society. 4 Units.
The HIV/AIDS epidemic continues to threaten the cultural, economic and
political stability of affected populations. This course uses HIV/AIDS as
an example for exploration of the local, national and world community’s
historical, current and future social and political response to this and
similar health problems.

HSCI 310. Health and Human Sexuality. 4 Units.
Relationship between health and human sexuality with a theme of
prevention of disease, disorder and dysfunction through education.

HSCI 311. Organization and Management of
Long-Term Care Facilities. 4 Units.
Prerequisites: HSCI 271 and MGMT 302 or PSYC 302, or consent of
instructor
Examination of the professional administrative role and managerial
concepts in long-term facilities, including nursing homes. Formerly HSCI
511.

HSCI 315. Statistics for the Health Sciences. 4 Units.
Prerequisites: MATH 110
Introduction to the analysis, interpretation, and presentation of data
acquired for health sciences and public health. Emphasis will be on
application rather than theory. Four hours lecture.

HSCI 322. Air Pollution. 2 Units.
Prerequisites: college-level courses in biology and chemistry
Principles of air quality management, including health implications
of polluted air, applicable fundamentals of meteorology, air quality
regulations and current concepts in air pollution control technology.

HSCI 324. Radiological Health and Safety. 2 Units.
Prerequisites: college-level courses in biology, chemistry and physics
ionizing radiation and its effects on health. Methods of identification,
evaluation and control are emphasized.

HSCI 332. Health Education in the Elementary
School. 4 Units.
Prerequisites: HSCI 120 or consent of instructor
Health education concepts and content applied specifically to grades
K-6. Stresses communication and instruction in health education for the
teacher/school nurse, emphasizing the uniqueness and personal nature
of health; techniques of health education; recognition of health education
and other aspects of normal health and diseases/disorders common in
children. Conforms with the State Framework for Education in the Health
Sciences.

HSCI 342. Nutrition for Your Health. 4 Units.
Application of basic nutrition principles including functions of food and
nutrients in health and disease prevention through the life cycle; the
impact of food choices and lifestyle on health; discussion of current
trends, fads and fallacies in nutrition. May not be counted towards fulfilling
requirements in the major or minor in the Nutrition and Food Sciences
program.

HSCI 344. International Perspectives on
Nutrition. 4 Units.
Study and comparison of the incidence and causes of malnutrition in
developing and industrialized nations. Discussion of political, economic,
ecological, and cultural factors influencing malnutrition.

HSCI 345. Advanced Food Science. 5 Units.
Prerequisites: CHEM 206 or equivalent and HSCI 245
Study of food processing technology including thermal processing,
dehydration, heat removal, and osmotic preservation. Food product
development and sensory evaluation of food. Fours hours lecture and
three hours laboratory.

HSCI 350. Principles of Nutrition. 4 Units.
Prerequisites: CHEM 207, or a one-term GOB (General, Organic,
Biochemistry) course, BIOL 223 and BIOL 224, or consent of instructor
Physiological and chemical roles of carbohydrates, lipids, proteins,
vitamins, minerals, and water in the human body. Understanding of
nutrition standards and relationship between foods and nutrients. Factors
affecting absorption, utilization, and the need for nutrients.

HSCI 352. Principles of Environmental Health. 4 Units.
Prerequisites: college-level course in biology
Introduction to the effects of the physical, chemical, and biological
environments and their impacts on human health and well-being.
Emphasis is placed on the principles of assessment, evaluation, and
control of environmental risks related to public health. Discussion topics
include air, water, and solid waste pollution plus food protection, radiation,
hazardous wastes, and environmental impacts.

HSCI 354. Solid Waste Management. 2 Units.
Prerequisites: HSCI 352, college-level coursework in biology and
chemistry, or consent of instructor
Principles of solid waste management from generation and collection
to disposal. Includes evaluation of methods of waste disposal, and
discussion of relevant legislation. The contribution of solid waste to air,
water and soil pollution.

HSCI 356. Housing and Institutions. 2 Units.
Basic health principles and environmental quality considerations
associated with housing and institutions (for example, health care,
educational, penal). Relationship of housing quality to physical, socio-
economic and ethnic factors and their influence on health.
HSCI 358. Water Quality and Pollution. 4 Units.
Prerequisites: HSCI 352, college-level coursework in biology and chemistry, or consent of instructor
Major sources and control of water pollution. Includes discussion of water legislation, wastewater treatment, quality control criteria for safe drinking water and their impact on aquatic life.

HSCI 359. Global Health. 4 Units.
Explores the main principles of global health within the social, cultural, geographic, environmental, political, and economic contexts that determine population-level health and illness, including factors that account for variations in and patterns of health outcomes. Topics include health policies, programs, health systems, identifying and interpreting current data sources, diseases, and interventions.

HSCI 360. Medical Care Organizations. 4 Units.
Prerequisites: HSCI 271 or consent of instructor
Analysis of the organization of health and medical care services, resources, facilities, financial aspects, and other related topics. Formerly HSCI 415.

HSCI 361. Principles of Accident Prevention. 2 Units.
Ecological and medical aspects of accident prevention in residential, work, educational, medical and recreational environments. Legal aspects and governmental organizations involved in accident prevention.

HSCI 364. Drug and Alcohol Use and Abuse. 4 Units.
Analysis of factors influencing human use or abuse of drugs, alcohol and other substances and their effects on the health and well-being of the individual, family and society.

HSCI 365. Nutrition Throughout the Life Cycle. 4 Units.
Prerequisites: HSCI 350
Nutritional needs through the life cycle. Factors that affect cultural, ethnic and religious food preferences in individuals and groups.

HSCI 367. Human Disease Mechanisms. 4 Units.
Prerequisites: either BIOL 223 and BIOL 224 or BIOL 200, BIOL 201, and BIOL 202
Ecological and medical aspects of human disease and the body’s response to the disease process and the effects on normal function.

HSCI 370. Health Behavior. 4 Units.
Theoretical foundation for the development, analysis, and interpretation of individual and community influences on decisions which impact health status. Strategies for health behavior modification. Formerly HSCI 470.

HSCI 378. Peer Education Training in Health Science. 4 Units.
Content and methods related to peer education in Health Science. Small group process, techniques in health counseling, accessing resources and referrals and the development of presentation skills will be emphasized.

HSCI 379. Peer Education Supervision in Health Science. 2 Units.
Prerequisites: HSCI 378
Ongoing supervision for those students previously trained as peer educators in health science who are currently providing services to the CSUSB Peer Education Program. May be repeated once for credit. Graded credit/no credit.

HSCI 380. Toxicology. 4 Units.
Prerequisites: college-level biology and chemistry courses
Principles of chemical toxicity and relationship to public health, including principles, intoxication, disease, dose-response measurement, mechanisms of action and principles of antidotal therapy. Specific toxicologic studies as related to various food, drug, consumer, industrial and environmental problems. Studies of various classes of chemical intoxicants.

HSCI 381. Occupational Safety. 4 Units.
Principles of industrial safety, including general principles; accident control; industrial, mechanical, electrical, chemical and flammability hazards; fire and explosion protection; accident investigation; industrial safety inspections; record keeping; safety training and emergency planning; methods of industrial safety management as a unifying theme.

HSCI 382. Nutrition for Health, Fitness and Sports. 4 Units.
Addresses nutrition needs of active people and athletes. Topics include, but not limited to macro and micro nutrient requirements for fitness and sport, popular nutrition supplements and ergogenic aids. (Offered as HSCI 382 and KINE 382. Students may not receive credit for both.) Four hours lecture. Recommended: BIOL 224.

HSCI 384. Nutrition Assessment and Research Methodology. 4 Units.
Prerequisites: HSCI 315, HSCI 350 or consent of instructor
Integration and application of experimental designs and methods employed in nutritional science research. Students will gain an understanding of interactions among nutrients and metabolic functions through data collection and analysis. Students will perform experiments and participate in discussions of nutritional assessment methods involving anthropometric, dietary, clinical, and biochemical tests. Three hours lecture and three hours laboratory.

HSCI 385. Food and Culture: Traditions and Trends. 4 Units.
Prerequisites: HSCI 244 or consent of instructor
Understanding of relationships among cultural, religious and geographical locations to food consumed by people around the world. Comparison of differences and similarities in types of food and cuisines. Exploration of factors that affect types of food consumed and their effects on nutrition and health status. Three hours lecture and three hours laboratory.

HSCI 399A. Community Service Project. 1 Unit.
Prerequisites: consent of department
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.
HSCI 399B. Community Service Project. 2 Units.
Prerequisites: consent of department
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

HSCI 401. Advanced Environmental Health. 5 Units.
Prerequisites: HSCI 352, college-level course work in biology, chemistry and physics is recommended or consent of instructor
An integrated view of the factors that contribute to illness, injury, or death, and that affect the health status of individuals and populations. Topics include epidemiology, demographics and statistics on health status, determinants of health and illness, behavioral aspects of health and preventive care. Environmental health laws and regulations as well as compliance with current regulations are emphasized. The laboratory emphasizes methods of measuring and evaluating environmental health risks as well as field experience. Topics include: environments within buildings, food sanitation, water sanitation and control, solid and hazardous waste and control, air pollution and control, community noise and control. Four hours lecture and three hours laboratory. Formerly HSCI 353.

HSCI 402. Principles of Occupational Health. 5 Units.
Prerequisites: HSCI 352 or consent of instructor. College-level course work in chemistry and physics is recommended
Principles of occupational health risks including anticipation, recognition, evaluation, and control. Influence of workplace risks on human health and their relationship to occupational medicine. Study of occupational health laws and regulations as well as methods of compliance with current regulations. Laboratory and field experience in topics that include: toxic and hazardous chemicals, airborne chemicals, materials of biological origin, noise, and electromagnetic radiation. Four hours lecture and three hours of laboratory per week. Formerly HSCI 353.

HSCI 403. Vector-borne Disease Control. 5 Units.
Prerequisites: HSCI 352, college-level coursework in biology and chemistry, or consent of instructor
Identification and control of insect and other vectors of diseases. Discussion of major topics in vector ecology including natural and chemical control methods and their impact on health and environmental quality. Four hours lecture and three hours laboratory. Formerly HSCI 458.

HSCI 404. Womens Health Issues. 4 Units.
Examination of programs, policies, and services that affect the health of girls and women across the lifespan. Emphasis on social, political, economic, environmental, personal, and behavioral factors associated with women’s health.

HSCI 405. Health Issues of Men. 4 Units.
Exploration of men’s health issues from an ecologic perspective, e.g., physical, mental, social, intellectual, financial, spiritual, sexual, and other related dimensions. Emphasis is on balance as well as intersections of biological sex, gender concerns, racial considerations, and other diverse factors; personal responsibility for maintaining and promoting health; self-care and access to appropriate healthcare.

HSCI 421. Community Mental Health. 4 Units.
Mental health care delivery system with emphasis on a community approach to prevailing problems and issues. Methods of evaluating community and school mental health education programs; survey of available resources.

HSCI 422. Health Planning. 4 Units.
Prerequisites: HSCI 271 or consent of instructor
Health planning systems and procedures.

HSCI 423. Health and Wellness of Older Adults. 4 Units.
The physiological, sociological and psychological aspects of the aging process. Disease prevention and health promotion concepts related to the quality of life of older adults.

HSCI 424. Health Facilities Planning. 4 Units.
Activities in health care facilities planning, for example, architectural, engineering, contractual, environmental and other regulatory aspects. Facility planning processes, environmental forces, administrative coordination and historical development.

HSCI 425. Hearing Conservation and Noise Measurement. 2 Units.
Principles of audiology and noise measurements and their application to environmental and industrial hearing conservation programs.

HSCI 432. School Health Administration and Planning. 4 Units.
Philosophical framework and history of the school health education program, including organization, funding, administration, and legal aspects. Emphasis on the roles of health teachers and school nurses within the context of a coordinated school health program, including parent-community advisory groups. Formerly HSCI 334 and 434.

HSCI 433. School Health Education. 4 Units.
Prerequisites: HSCI 120 or consent of instructor
Health education concepts and content applied specifically to grades 7-12. Stresses instruction in health education for the teacher/school nurse, within the context of a coordinated school health system; teaching strategies and their adaptation to special populations; the identification and assessment of instructional resources; alignment with state and federal standards for health education. Formerly HSCI 333.

HSCI 435. Health and Human Development. 4 Units.
Issues regarding the health and well-being of children and adolescents will be emphasized including physical, cognitive, emotional, and social development from an applied perspective.

HSCI 436. Human Resources Management in Health Care. 4 Units.
Principles of effective human resource management in the medical care setting. Issues involving wage and hour laws, state and federal regulations of the work place, recruitment and retention of staff, training, compensation and benefits, professional credentialing, licensure, and continuing education. Formerly a topic under HSCI 452.
HSCI 437. Information Systems as Applied to Ambulatory Care/Group Practice Management. 4 Units.
Prerequisites: HSCI 120 or consent of instructor
Information system needs of medical group/ambulatory care organizations including the selection of software and hardware for an integrated information system. Solve problems related to the integration of clinical and financial data, understand the development of electronic medical records, patient scheduling systems, disease state management and HIPAA regulations. Previously offered as a topic under HSCI 452.

HSCI 438. Financial Management in Health Care. 4 Units.
Prerequisites: ACCT 211 or consent of instructor
Financial requirements in medical care settings, including the selection of software and hardware for an integrated information system. Solve problems related to the integration of clinical and financial data, understand the development of electronic medical records, patient scheduling systems, disease state management, and HIPAA regulations. Previously offered as a topic under HSCI 452.

HSCI 440. Family Health Issues for Educators. 4 Units.
Factors which influence the overall health status of today's adolescents, their families and communities, including fitness, nutrition, substance abuse, suicide, stress and sexuality issues. The role of the secondary classroom teacher within the school health services and referral system is emphasized. Course conforms with the State Framework for Education in the Health Sciences for middle school and high school teacher candidates. May not be taken for elective credit in school health or community health concentrations.

HSCI 441. Nutritional Biochemistry and Metabolism. 4 Units.
Prerequisites: HSCI 365 and 384, or consent of instructor
Study of metabolic roles of macro- and micronutrients in the body using an integrated approach to explore the roles of nutrients in biochemical, physiological, and metabolic functions. Includes effects of metabolic diseases on physiological and biochemical functions of the body. Formerly HSCI 351.

HSCI 442. Advanced Human Nutrition. 4 Units.
Prerequisites: HSCI 441 or consent of instructor
Nutritional biochemistry and relevant topics in nutrition and dietetics. Emphasis on integration, interpretation, and application of nutrition research. Formerly HSCI 383 and HSCI 447.

HSCI 443. Medical Nutrition Therapy I. 4 Units.
Prerequisites: HSCI 441, or consent of instructor
Development of skills and knowledge necessary for nutrition and dietary intervention in disease processes. Special emphasis on interrelationships between pathophysiology of disease processes and the dietary modifications required to recover from the disease condition and/or to improve the quality of life. Formerly HSCI 368.

HSCI 444. Medical Nutrition Therapy II. 4 Units.
Prerequisites: HSCI 442 and 443, or consent of instructor
Continuation of Medical Nutrition Therapy I. Further development and skills and knowledge necessary for nutrition and dietary intervention in disease processes. Special emphasis on interrelationships between pathophysiology of disease processes and dietary modifications that are part of the treatment of disease/disability and/or to improve the quality of life. Formerly HSCI 369. Three hours lecture and three hours activity.

HSCI 445. Community Nutrition. 4 Units.
Prerequisites: HSCI 273, 442, and 443, or consent of instructor
The role of public and private agencies in nutrition programs. Application of nutrition principles to the improvement of the health status of individuals and groups in the community. Emphasis on program development, planning, and evaluation of community programs and educational methods.

HSCI 446. Senior Seminar in Dietetic Education. 1 Unit.
Prerequisites: HSCI 225 and senior standing in the Nutrition and Food Science program
Current and future trends in dietetic education, dietetic internship programs, and application processes.

HSCI 451. Principles of Epidemiology. 4 Units.
Distribution and dynamics of human health problems; principles and procedures used to determine circumstances under which disease occurs or health prevails. The broadened scope of epidemiology is examined through case studies and community health approach.

HSCI 452. Special Topics in Health Science and Human Ecology. 4 Units.
Prerequisites: consent of instructor
Examination of selected topics of current interest in health science. May be repeated for credit as topics change.

HSCI 455. Health Policy and Law. 4 Units.
Health policy, law, and regulations and their impact on public health, including health care. Considers the role of the legal system in resolving public health and health care issues through the legislature, the courts, and administrative agencies. Formerly HSCI 355.

HSCI 460. Strategic Planning and Marketing in the Health Care System. 4 Units.
Strategy-oriented management planning process, basic approaches and methodologies employed in strategic planning and health care marketing; economic and political forces which give form and shape to the health care marketplace.

HSCI 465. Foodservice Production and Procurement. 5 Units.
Prerequisites: HSCI 345 and 350, or consent of instructor
Principles and procedures of menu planning, quantity food production, production scheduling, recipe adaptation, equipment operation, sanitation and formula costing. Principles of procurement including purchasing, selection, storage of equipment and quantity foods. Three hours lecture and six hours laboratory.
HSCI 467. Foodservice Systems Management. 4 Units.
Prerequisites: HSCI 465 and either MGMT 302 or PSYC 302, or consent of instructor
Distribution and management of resources in food service management: personnel, facilities, materials, time and money.

HSCI 468. Research Methodology in Health Science. 4 Units.
Prerequisites: HSCI 315, MATH 262 or MATH 305; or consent of instructor
Entry-level research methods and application to contemporary health problems. Health data analysis and development of skills for determining appropriate analytical techniques and procedures. Materials fee required. Formerly HSCI 498 and HSCI 598.

HSCI 471. Health Program Planning and Implementation. 4 Units.
Critically examines models and processes for the identification of population-based public health needs, development of programs to meet those needs, and plans for implementation of public health interventions. The course integrates several knowledge and skill areas, including research methods, epidemiology, biostatistics, proposal writing, budget planning, and project management. Includes an overview of effective public health interventions using the socio-ecologic framework (individual/behavioral, environmental/social/community, and policy) as a foundation to explore various levels of interventions.

HSCI 472. Program Evaluation. 4 Units.
Prerequisites: prior or concurrent enrollment in HSCI 468 and 471 or consent of instructor
Theory of and practice in a variety of program evaluation strategies in the school, community agency, and/or health care settings.

HSCI 473. Strategies and Methods in Health Education. 4 Units.
Application of a wide-range of strategies and methods for promoting health in various community health education practice settings including community organizations and agencies, clinical settings, and schools. Formerly HSCI 302.

HSCI 474. Advanced Audiology. 4 Units.
Prerequisites: HSCI 374 or 425 or equivalent
Hearing tests, their objectives and uses for diagnostic and rehabilitative purposes. Techniques for administering auditory tests and the interpretation of their results emphasizing pure-tone audiometry.

HSCI 477. Environmental Health Engineering. 4 Units.
Prerequisites: HSCI 120 and 352
Methods used in designing systems which mitigate environmental contamination of air, soil, and water. Topics include stream re-aeration, kinetics of biological degradation, soil mechanics, adsorption and other principles related to environmental media protection and renovation.

HSCI 478. Environmental Health Management. 4 Units.
Prerequisites: HSCI 120
Methods of management for promoting optimum environmental health, emphasizing land use planning, environmental impact reporting, facility planning and risk assessment.

HSCI 480. Health Services Administration. 4 Units.
Introduction to management theory and practice as they apply to the management of health services programs. Emphasis is placed on the planning, analysis, organizing, staffing, directing, and evaluation functions necessary to the management of health service organizations. Budgeting functions and processes are discussed as they relate to health services management. Formerly HSCI 490.

HSCI 489. Pre-Field Experience. 2 Units.
Prerequisites: senior standing; all 100- and 200-level courses completed; grade of “C” or better in all upper division courses in the major
Prepares students for a practical, professional-level field experience through class discussion and assignments, interaction with guest preceptors, preparing a portfolio, satisfying requirements of the field placement, and completing necessary coursework to identify and establish a field experience project.

HSCI 492A. Field Study I: Action/Research in Human Ecology and Health. 5 Units.
Prerequisites: HSCI 489 or consent of instructor
Individual and team field studies and research in agencies with activities relevant to career goals and interests. Graded credit/no credit. One hour seminar and twelve hours field study per week.

HSCI 492B. Field Study II: Action/Research in Human Ecology and Health. 5 Units.
Prerequisites: HSCI 489 or consent of instructor
Individual and team field studies and research in agencies with activities relevant to career goals and interests. Graded credit/no credit. One hour seminar and twelve hours field study per week.

HSCI 492C. Field Study III: Action/Research in Human Ecology and Health. 5 Units.
Prerequisites: HSCI 489 or consent of instructor
Individual and team field studies and research in agencies with activities relevant to career goals and interests. Graded credit/no credit. One hour seminar and twelve hours field study per week.

HSCI 493. Field Experience Seminar. 1 Unit.
Prerequisites: HSCI 489
Analyzes the field experience, examines trends in the profession, and prepares students for formal presentation of their internship project to department faculty, agency preceptors and other students. Must be taken concurrently with HSCI 495 until completion of field experience. May be repeated for credit.

HSCI 494A. Internship in Health Science. 1 Unit.
Prerequisites: consent of instructor
Internship option for students completing a second area of concentration in health sciences or student teaching experience for school nurses.

HSCI 494B. Internship in Health Science. 2 Units.
Prerequisites: consent of instructor
Internship option for students completing a second area of concentration in health sciences or student teaching experience for school nurses.
HSCI 494C. Internship in Health Science. 3 Units.
Prerequisites: consent of instructor
Internship option for students completing a second area of concentration in health sciences or student teaching experience for school nurses.

HSCI 494D. Internship in Health Science. 4 Units.
Prerequisites: consent of instructor
Internship option for students completing a second area of concentration in health sciences or student teaching experience for school nurses.

HSCI 494E. Internship in Health Science. 5 Units.
Prerequisites: consent of instructor
Internship option for students completing a second area of concentration in health sciences or student teaching experience for school nurses.

HSCI 495. Field Experience. 4 Units.
Prerequisites: HSCI 498; concurrent enrollment in HSCI 493; and signed consent of program advisor
Structured practical pre-professional culminating experience of a minimum 120 hours to be completed in one ten-week quarter in an approved public health agency, community-based organization, tribal health site, or health care setting. Meant to be taken at the end of the program by senior level students. Graded credit/no credit.

HSCI 496. Internship in Environmental Health. 4 Units.
Prerequisites: HSCI 352, health science majors with concentration in environmental health science and senior class standing or consent of advisor
Individual studies in environmental health. Students will be placed with public agencies to gain applied and/or research experience. Graded credit/no credit.

HSCI 499A. Directed Reading. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0 and completion of basic course work in topic area. A written plan of study must be submitted to and approved by the supervising faculty prior to registration in the course
Library/literature research of special topic under the direction of a faculty member. May be repeated for credit, a maximum of eight units may be applied toward graduation. Units from Directed Reading may not be used by student for departmental honors.

HSCI 499B. Directed Reading. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0 and completion of basic course work in topic area. A written plan of study must be submitted to and approved by the supervising faculty prior to registration in the course
Library/literature research of special topic under the direction of a faculty member. May be repeated for credit, a maximum of eight units may be applied toward graduation. Units from Directed Reading may not be used by student for departmental honors.

HSCI 499C. Directed Reading. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0 and completion of basic course work in topic area. A written plan of study must be submitted to and approved by the supervising faculty prior to registration in the course
Library/literature research of special topic under the direction of a faculty member. May be repeated for credit, a maximum of eight units may be applied toward graduation. Units from Directed Reading may not be used by student for departmental honors.

HSCI 499D. Directed Reading. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0 and completion of basic course work in topic area. A written plan of study must be submitted to and approved by the supervising faculty prior to registration in the course
Library/literature research of special topic under the direction of a faculty member. May be repeated for credit, a maximum of eight units may be applied toward graduation. Units from Directed Reading may not be used by student for departmental honors.

HSCI 505. School Nurse Credential Program Orientation. 2 Units.
Prerequisites: admission to the School Nurse Credential Program Overview of the School Nurse Credential Program including coursework, expectations, timelines and basic skills needed to provide screening for vision, scoliosis, and dental needs. Graded credit/no credit.

HSCI 510. Hospital Administration. 4 Units.
Prerequisites: HSCI 271 and MGMT 302 or PSYC 302, or consent of instructor
Organization and administration of hospital facilities including planning and evaluation of services. Role of the hospital as part of the community. Formerly HSCI 427.

HSCI 512. Clinical Operations of Ambulatory Care/Group Practices. 4 Units.
Prerequisites: HSCI 120 or consent of instructor
The management of physician practices, medical groups, and ambulatory care organizations such as imaging centers, outpatient surgery centers and other outpatient services. Students will develop an understanding of issues and acquire skills in the management of non-acute care organizations owned or substantially controlled by physicians. Previously offered as a topic under HSCI 452.

HSCI 513. Managed Care Systems. 4 Units.
Principles and process of utilization management, risk contracting, capitation, provider contracting, contract negotiations, division of financial responsibility, and Health Maintenance Organization (HMO) relationships, including quality outcomes measurements, patient satisfaction, and the specialist referral process. Formerly a topic under HSCI 452.

HSCI 525. Health Data Analysis and Demography. 4 Units.
Prerequisites: HSCI 451 and MATH 305 or consent of instructor
Introduction to analysis of health data using statistical procedures, development of skills for determining analytical techniques and procedures for interpretation and presentation of resultant data; examination of sources and evaluation of demographic data and relationships to such topics as fertility, morbidity, mortality, population projection, life tables and migration.
HSCI 530. Food-Borne Illnesses and Their Prevention. 4 Units.
Prerequisites: HSCI 352 or consent of instructor
Food-borne illnesses and food poisoning of microbial and chemical origins, causation and environmental control measures; proper environmental control measures; and proper environmental health conditions involved in storage, transportation and service of foods in order to minimize health dangers. Formerly HSCI 430.

HSCI 531. Bioterrorism. 4 Units.
Prerequisites: college level biology and chemistry or consent of instructor
History, identification, properties and mode of transmission of agents of bioterrorism, including preventive, control and treatment measures against bioterrorism.

HSCI 540. School Health Programs and Practices. 4 Units.
Prerequisites: must be a 2042 or Ryan credential candidate, or consent of instructor
Advanced examination of the teachers role within a coordinated school health program. State and national guidelines are also reviewed.

HSCI 550. Health Aspects of Death and Dying. 4 Units.
Investigation into how the realities of death and loss influence the quality of a person’s life and personal health status. The focus is on assisting students and professionals to develop the skills necessary to assist individuals deal with death, loss, grief, bereavement, and mourning in the healthiest ways possible. Formerly a topic under HSCI 452.

HSCI 557. Hazardous Material Control. 4 Units.
Prerequisites: college-level biology and chemistry courses
Major methods for the control of hazardous wastes from generation through disposal, including disease, environmental and legal aspects of hazardous wastes as well as discussion of various disposal techniques. Formerly HSCI 357.

HSCI 558. Management of Water Quality. 4 Units.
Prerequisites: prior or concurrent enrollment in HSCI 358 or consent of instructor
Survey of water quality parameters and pollution control techniques. Includes in-depth discussion on current topics in water legislation, water pollution, and its impact on public health, flood impacts, water conservation options, and drought management.

HSCI 561. Maternal and Child Nutrition. 2 Units.
Significance and role of nutrition during pregnancy, lactation, and childhood including conditions that result from undernutrition.

HSCI 562. Issues in International Nutrition. 2 Units.
Incidence of malnutrition in developing and industrialized countries. Focus on the multiple causes of malnutrition around the world, including food production and distribution, politics and economic policies.

HSCI 590. Current Topics in Health Administration and Planning. 2 Units.
Presentation and analysis of a particular issue or topic in health services administration or planning. May be repeated for credit as topics change.

HSCI 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics or projects including literature review for laboratory and/or applied research under the direction of a faculty member. A written report of the end product must be submitted and approved by a committee of faculty. Review of literature alone on a specific topic may not be used for independent study. A total of eight units may apply toward graduation. Graded credit/no credit.

HSCI 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics or projects including literature review for laboratory and/or applied research under the direction of a faculty member. A written report of the end product must be submitted and approved by a committee of faculty. Review of literature alone on a specific topic may not be used for independent study. A total of eight units may apply toward graduation. Graded credit/no credit.

HSCI 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics or projects including literature review for laboratory and/or applied research under the direction of a faculty member. A written report of the end product must be submitted and approved by a committee of faculty. Review of literature alone on a specific topic may not be used for independent study. A total of eight units may apply toward graduation. Graded credit/no credit.

HSCI 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics or projects including literature review for laboratory and/or applied research under the direction of a faculty member. A written report of the end product must be submitted and approved by a committee of faculty. Review of literature alone on a specific topic may not be used for independent study. A total of eight units may apply toward graduation. Graded credit/no credit.

HSCI 600. Seminar in Health and Human Ecology. 4 Units.
Philosophical foundations of health and human ecology. Historical, contemporary and professional perspectives.

HSCI 601. Administration of Health Care Programs. 4 Units.
Economic forces which impact on health and health delivery systems and an assessment of the distribution of financial resources required to sustain these systems. Emphasis on trends in financing health care and the economic influence of reimbursement policies on financial decision-makers. Formerly HSCI 630.
HSCI 602. Management, Organization and Planning. 4 Units.
Organizational, environmental, socio/political, and behavioral aspects of health and health delivery systems. Ecological perspectives related to management and planning of health programs, including strategies to facilitate communication, decision-making, and problem solving and planning and administrative approaches in developing, modifying and sustaining modern health systems.

HSCI 603. Health Economics and Financial Systems. 4 Units.
Micro- and macroeconomic aspects of health services, various payment approaches, third-party reimbursement systems, budgeting and financial analysis, decision-making and planning in health services and organizations. Formerly HSCI 655.

HSCI 604. Theory and Practice of Interventions. 4 Units.
Prerequisites: HSCI 470 or consent of instructor
Review of current theories and practices of effective prevention and intervention programs, including intervention mapping, program planning, and implementation in schools and community settings with youth.

HSCI 605. Health Care Accounting and Financial Analysis. 4 Units.
Basic concepts, methods, and application of cost and accrual accounting, finance and budgeting techniques and methods applied to health services and health care organizations, with computer application and analysis. (Also offered as ACCT 605. Students may not receive credit for both.) (4 units.

HSCI 606. Advanced Program Evaluation. 4 Units.
Prerequisites: HSCI 471; and HSCI 690 or EDUC 663; or consent of instructor
Advanced topics in health and human services program evaluation models, data collection, quantitative, and qualitative methods, data analysis and data interpretation.

HSCI 607. Cross Cultural Aspects of Health. 4 Units.
Prerequisites: consent of instructor
Roles of cultures and their relationships to health status, health practices, and health-seeking behaviors. Influence of culture on research, statistics, and interventions, and provision of health services.

HSCI 608. Health Research Methods. 4 Units.
Prerequisites: consent of applicable MPH or MSHSA program coordinator
Social and behavioral research methods used in Public Health and Health Services Administration, including research design and methodological issues, qualitative and quantitative data collection strategies, and research proposal writing. Practical application of health data.

HSCI 609. Grant Writing for Health Sciences. 4 Units.
Prerequisites: HSCI 612 and HSCI 617 or consent of instructor
Provide an overview of the principles and practice of grantsmanship from a public health and healthcare management perspective. Course will help students develop proficiency in the processes, factors, and required elements of a successful grant, including identifying granting bodies, formulating objectives, appropriate research questions, evaluation methods, budgeting, sustainability plans.

HSCI 610. Social and Behavioral Influences on Public Health. 4 Units.
Social and behavioral determinants of health status, and identification and solution of public health problems including preventive care. Formerly HSCI 501.

HSCI 611. Public Health System Organization and Delivery. 4 Units.
Public health system organization, function, financing and public policy. Includes an examination of the relationship between the public health system and medical care systems. Formerly HSCI 502.

HSCI 612. Public Health Statistics. 4 Units.
Statistical methods commonly used in the collection and analysis of public health data. Includes methods for descriptive data analysis, fundamentals of probability and sampling distributions, methods for statistical inference, and hypothesis tests based on one or two samples, basic concepts of regression, non parametric statistics, and introduction to qualitative data analysis, and the use of statistical software. Hands-on experience, and interpretations of statistical findings of health research data. Formerly HSCI 503.

HSCI 613. Principles of Health Behavior. 4 Units.
Prerequisites: HSCI 607, and classified status or consent of instructor
Application of psychological and behavioral sciences to health promotion and disease prevention strategies. Examination of factors that predispose, enable and reinforce health-related behaviors, including the significance of social support, provider-client interactions, and the media.

HSCI 614. Health Education Practice. 4 Units.
Prerequisites: consent of instructor
Effective public health interventions using the socio-ecologic framework as a foundation to explore various levels of intervention. Practical applications in planning, implementing, and evaluating public health programs. Applying theory in diagnosing the nature of health and social problems, interpreting empirical research results, and planning health education and promotion interventions to improve public health.

HSCI 615. Health Education Program Planning and Evaluation. 4 Units.
Prerequisites: classified status, prior or concurrent enrollment in HSCI 607, 613 and 614 or consent of instructor
Theory and practice of community health programs including strategic planning, community analysis and needs assessment, setting goals and objectives, implementation strategies, program evaluation and grant writing.

HSCI 616. Environmental and Occupational Health. 4 Units.
Sources, routes, media, and health outcomes associated with chemical, physical, and biological agents in the environment; affects on water quality, air quality, food safety, land resources, and disease in community and occupational settings. Includes methods to identify and evaluate hazard sources and framework used to effect hazard control. Public health issues, research designs, factors important to the development of monitoring programs. Current federal legal framework, policies, and practices associated with environmental issues and intended to improve public health. Formerly HSCI 504.
HSCI 617. Epidemiology. 4 Units.
Prerequisites: HSCI 610, HSCI 611, and HSCI 612
Examination of epidemiologic concepts in relation to specific public health issues. Disease investigation techniques, causal factors, case histories, and related biostatistics are examined, including implications for public health policy and intervention. Formerly HSCI 506.

HSCI 620. Advanced Topics in Epidemiological Methodology. 4 Units.
Prerequisites: HSCI 451 and 690
Concepts and methodologies of contemporary epidemiology and their relationship to managing and planning health and environmental systems.

HSCI 621. Individual and Small Group Interventions in Health Promotion. 4 Units.
Prerequisites: HSCI 604 or consent of instructor
Theories and strategies of individual and group intervention in behaviors related to premature morbidity and mortality. Includes assessment, intervention, planning and follow-up, referral skills for the health education/health promotion specialist. Formerly HSCI 560.

HSCI 622. Health Education Curriculum and Instruction. 4 Units.
Prerequisites: completion of HSCI 432 and 433
Health education curriculum development and implementation, including the parent-community advisory process, curriculum selection and alignment with state standards, course design, student grading and assignments, units of study and lesson plans, lesson presentations, and course evaluation methods. Formerly HSCI 591.

HSCI 623. Health Teaching Practicum. 4 Units.
Prerequisites: HSCI 622
Classroom-based practice in teaching methods and materials used in secondary health education, including planning, class management and student evaluation. One hour lecture and six hours laboratory. Formerly HSCI 592.

HSCI 632. Health Policy and Decision-Making. 2 Units.
Prerequisites: HSCI 271 and 600
Issues and problems in the area of health administration. Emphasis on quality assurance, legal aspects, policy development and decision-making as related to health care planning operations.

HSCI 635. Communication and Human Relations in Health Services. 4 Units.
Techniques for effective written and oral communication at the interpersonal and organizational levels. Particular emphasis is placed upon enhancing human relations skills in health services settings.

HSCI 640. Administration of Health Education Programs. 4 Units.
Prerequisites: classified status, prior or concurrent enrollment in HSCI 615 or consent of instructor
Current developments in health education related to management and planning of health promotion programs, including strategies to facilitate communication, decision-making and problem solving.

HSCI 645. Information and Technology Systems Management in Health Services. 4 Units.
Prerequisites: consent of instructor
Information systems, networks, and computer software systems, used in health services setting.

HSCI 650. Administration of Environmental Management Programs. 4 Units.
Prerequisites: HSCI 352 and 600
Analysis of local, state and national environmental and occupational health programs including program planning and evaluation. Comparative study of international environmental management problems, styles and techniques.

HSCI 651. Air Quality Management. 4 Units.
Prerequisites: classified graduate status and HSCI 617 or consent of instructor
Advanced concepts of air pollution and analysis of relationship among sources, meteorology, health effects, monitoring and emission control systems. Laws and regulations with interpretation and application to the industry.

HSCI 652. Industrial Hygiene. 4 Units.
Prerequisites: classified graduate status and HSCI 617 or consent of instructor
Principles and practices applied in industrial hygiene with regulations applicable to recognition, evaluation and control of work place hazards including risk assessment, advanced techniques and instrumentation used in the solution of work place hazards.

HSCI 653. Health Law and Medical Ethics. 4 Units.
Legal and ethical issues and practices related to health care delivery and health services administration. Ethical administrative behavior, standard of care, tort law and professional liability, negligence and liability law, contracts, lawsuits and civil liability process, corporate law and liability, antitrust, case law and related health law issues are covered.

HSCI 654. Applied Vector Control. 4 Units.
Prerequisites: classified graduate status and HSCI 617 or consent of instructor
Principles and practices used in vector control programs, including advances in chemical and non-chemical control methods, environmental dynamics and impacts of pesticides on public health and environmental quality, pesticide resistance in target species, pesticide legislation and program funding.

HSCI 659. Research Methods in Environmental Health Science. 4 Units.
Prerequisites: HSCI 612 or consent of instructor
Research methods and application to contemporary environmental health problems. Data analysis and development of skills for determining appropriate analytical techniques and procedures.

HSCI 660A. Advanced Topics in Health Science and Human Ecology. 2 Units.
Analysis of current literature, practices, procedures and issues in health science and human ecology at local, state, national and international levels. May be repeated for credit as topics change.
HSCI 660C. Advanced Topics in Health Science and Human Ecology. 3 Units.
Analysis of current literature, practices, procedures and issues in health science and human ecology at local, state, national and international levels. May be repeated for credit as topics change.

HSCI 660D. Advanced Topics in Health Science and Human Ecology. 4 Units.
Analysis of current literature, practices, procedures and issues in health science and human ecology at local, state, national and international levels. May be repeated for credit as topics change.

HSCI 661. General Nutrition. 4 Units.
Prerequisites: classified graduate standing and prior or concurrent enrollment in HSCI 617 or consent of instructor
Application of the principles of physiology to the study of nutrition emphasizing nutrient functions, nutrient requirements and impact of diet on health and disease, including both macronutrients and micronutrients.

HSCI 663. Principles of Public Health Nutrition. 4 Units.
Prerequisites: classified graduate standing in one of the departments graduate programs, HSCI 661, or consent of instructor
Major nutrition-related diseases and their prevention, including effects of public policy on health status.

HSCI 664. Nutrition in Health and Disease. 4 Units.
Prerequisites: classified graduate standing in one of the departments graduate programs, prior or concurrent enrollment in HSCI 617 and 661, or consent of instructor
Descriptive epidemiology of several major chronic diseases, especially type-2 diabetes, cardiovascular disease, cancer, and AIDS. Focus on understanding the role, strengths, and limitations of nutritional epidemiology in researching the etiology of these diseases, and of public health nutrition as one avenue of response.

HSCI 665. Strategic Planning and Evaluation. 4 Units.
Community analysis including generating goals and objectives to implement effective community interventions. Logic models and program evaluation methodologies will be utilized to set parameters and to assure delivery of appropriate health services programs and outcomes. Organizational strategy evaluation, formulation, tactics, and development.

HSCI 667. Nutritional Assessment. 4 Units.
Prerequisites: classified standing in the departments graduate program, prior or concurrent enrollment in HSCI 506 and 661 or consent of instructor
Assessment of nutritional status of both individuals and populations for purposes of etiologic research and disease prevention and control. Use of biochemical, anthropometric, and questionnaire methods for assessment of diet, body composition, physical activity, and biochemical characteristics. Emphasis on methods appropriate for measurement of any exposure in epidemiological or population studies.

HSCI 670A. Directed Readings. 1 Unit.
Prerequisites: graduate standing and consent of graduate coordinator
Directed independent study of classic and contemporary writings in a defined area combined with scheduled individual and small group conferences with supervising faculty member. May be repeated for credit.

HSCI 670B. Directed Readings. 2 Units.
Prerequisites: graduate standing and consent of graduate coordinator
Directed independent study of classic and contemporary writings in a defined area combined with scheduled individual and small group conferences with supervising faculty member. May be repeated for credit.

HSCI 670C. Directed Readings. 3 Units.
Prerequisites: graduate standing and consent of graduate coordinator
Directed independent study of classic and contemporary writings in a defined area combined with scheduled individual and small group conferences with supervising faculty member. May be repeated for credit.

HSCI 670D. Directed Readings. 4 Units.
Prerequisites: graduate standing and consent of graduate coordinator
Directed independent study of classic and contemporary writings in a defined area combined with scheduled individual and small group conferences with supervising faculty member. May be repeated for credit.

HSCI 675. Health Services Administration Leadership, Team and Quality Development. 4 Units.
Leadership skill development, including interface within public, private, and non-profit health organizations. Collaborative partnerships, issues of diversity in leadership, negotiation, conflict resolution, continuous quality improvement process and management, and attributes of leaders and leadership. Health administration team behaviors, actions, and approaches along with team development are analyzed.

HSCI 685. Health Services Administration Capstone Seminar. 4 Units.
Prerequisites: HSCI 601, 602, 603, 604, 605, 606, 610, 611, 690, and concurrent enrollment in HSCI 645 and 675
Integration and application of leadership theory and administrative skills and approaches as applied to the organizational and team management process and management of health services organizations.

HSCI 689B. Field Experience. 2 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.

HSCI 689C. Field Experience. 3 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.
HSCI 689D. Field Experience. 4 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.

HSCI 689E. Field Experience. 5 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.

HSCI 689F. Field Experience. 6 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.

HSCI 689G. Field Experience. 7 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.

HSCI 689H. Field Experience. 8 Units.
Prerequisites: consent of advisor
A minimum of 30 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and faculty advisor to be filed in department office prior to beginning the field experience. May be repeated. Graded credit/no credit.

HSCI 690. Graduate Research Methodology in Health Science. 5 Units.
Prerequisites: HSCI 315 or consent of instructor
Graduate-level research methods and application to contemporary health problems in health services administration. Health data analysis and development of skills for determining appropriate analytical techniques and procedures. Four hours seminar and three hours data analysis laboratory. Materials fee required. Formerly HSCI 598.

HSCI 695. Capstone Seminar. 4 Units.
Prerequisites: advancement to candidacy, completion of a minimum of 16 units in the students advisement area, and concurrent enrollment in HSCI 696, 699, or 999
Synthesis and integration of knowledge acquired in coursework. Special emphasis on the multidisciplinary analysis of complex public health issues.

HSCI 696. Project.. 4 Units.
Prerequisites: completion of HSCI 608, HSCI 612, and at least 24 units of approved coursework; an officially appointed project committee; and advancement to candidacy
Preparation of a project for the master's degree. Includes formal defense or professional presentation. Graded credit/no credit.

HSCI 697. Administrative Residency. 4 Units.
Prerequisites: advancement to candidacy and consent of department Supervised internship of 400 hours in sites such as hospitals, health plans, HMOs, medical groups, managed care organizations, private or public health services or agencies. Requires a rotation in administrative organization and function. Requires formal written report and presentation. Graded credit/no credit.

HSCI 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
HSCI 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 699. Thesis. 4 Units.
Prerequisites: completion of HSCI 608, HSCI 612 and at least 24 units of approved coursework; an officially appointed thesis committee; and advancement to candidacy
Preparation of a thesis for the master's degree. Includes formal oral defense. Graded credit/no credit.

HSCI 699B. Thesis II. 4 Units.
Prerequisites: successful completion of HSCI 699A
Research, Writing and Defense. Independent graduate research conducted under the guidance of an advisor in the Department of Health Science and Human Ecology.

HSCI 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, completion of a minimum of 16 units, approval of department, and good academic standing
Assessment of student's ability to integrate the knowledge of the discipline, show critical and independent thinking, and demonstrate mastery of the subject matter. Graded credit/no credit.

History (HIST)
Courses

HIST 140. World Civilizations I, the Rise of Civilization. 4 Units.  
(GE=D3)  
Activities and achievements of humans through the rise and diffusion of civilizations in Eurasia, Africa, and the Americas to about the dawn of the Christian era. (Offered as ANTH 140 and HIST 140, students may not receive credit for both.).

HIST 142. World Civilizations II, the Civilizations of the East and West. 4 Units.  
(GE=D3)  
Major civilizations of the past, including the Mediterranean world, ancient India and China, the Byzantine, Islamic, sub-Saharan African and Amerindian Empires, Europe in the Middle Ages and the connections between and among some of these societies from approximately 100 B.C.E. to about 1450 C.E.

HIST 144. World Civilizations III. 4 Units.  
(GE=D3)  
The economic, ecological, and political global processes, social interactions, international frameworks, and cross-cultural exchange of the world's history from c1400s to the present.

HIST 146. American Civilization. 4 Units.  
(GE=D1)  
Historical development of the fundamental values of the American culture and the influences of these in selected areas of American life. This course meets the state code requirements in the U.S. Constitution and in U.S. history.

HIST 200. United States History to 1877. 4 Units.  
(GE=D1)  
Survey of the history of the United States from the colonial beginnings to 1877. This course meets the state code requirement in U.S. history. It also meets the state code requirement in the U.S. Constitution when taken in conjunction with HIST 201.

HIST 201. United States History, 1877 to the Present. 4 Units.  
(GE=D1)  
Survey of the history of the United States from 1877 to the present. This course meets the state code requirement in U.S. history. It also meets the state code requirement in the U.S. Constitution when taken in conjunction with HIST 200.

HIST 270. California History. 4 Units.  
Cultural and political history of California from pre-Columbian times to the present. Topics will include Native cultures, Spanish colonization, the mission system, Mexican rule, the Mexican war, the gold rush, the state constitution, Progressive-era political reforms, and immigration. Meets the subject matter requirements for the Liberal Studies degree, in preparation for teaching grades K-8. This course meets the state code requirement in state and local government.

HIST 305. Ancient and Medieval Europe. 4 Units.  
Institutions, culture and political development of Europe in the ancient and medieval periods from circa the eighth century B.C.E. to 1350.

HIST 306. Early Modern Europe, the Renaissance to 1815. 4 Units.  
Institutions, culture, and political development of Europe from the Renaissance to the end of the Napoleonic Wars. Formerly HIST 300.

HIST 307. Modern Europe, 1815 to the Present. 4 Units.  
Institutions, culture, and political development of Europe from the Congress of Vienna to the present. Formerly HIST 301.

HIST 312. Historical Archaeology. 4 Units.  
Use of archaeological methods to study historic peoples. Historical and archaeological methods and their results. Focus will be primarily on North America from A.D. 1492 to modern times. (Offered as ANTH 312 and HIST 312, students may not receive credit for both.).

HIST 316. Archival Practices. 4 Units.  
Applied approach to archival methods, the accessioning, de-accessioning, cataloging, calendar composition, storage of objects and archival materials, loan procedures, policies and legal issues. Field trips and projects required. (Also offered as ANTH 316. Students may not receive credit for both.) Formerly HIST 322.

HIST 318. Introduction to Cultural Resource Management. 4 Units.  
General overview of the field of Cultural Resource Management in Museum Studies, Anthropology and Public History. Also offered as ANTH 318. Students may not receive credit for both.prerequisite: HIST 323 or consent of instructor.

HIST 320. History of Ancient Greece. 4 Units.  
Greek history from the Minoan and Mycenaean civilizations to the reign of the Roman Emperor Justinian in 527-565 C.E.

HIST 321. History of Rome. 4 Units.  
Roman history from earliest times to the end of the Roman Empire in the West.

HIST 323. Introduction to Public History. 4 Units.  
Introduction to public history, focusing on museums, historic sites, libraries, and archives, and the diverse media employed in the production of public history. Projects and field trips are required.

HIST 324. Introduction to Oral History. 4 Units.  
Introduction to oral history, focusing on the origins of the oral history movement, the issues involved in oral history, interviewing techniques, and the diverse media and technologies employed in the production of oral history. Oral history projects are required.

HIST 326. Historic Preservation. 4 Units.  
Prerequisites: HIST 324 and 325, or consent of instructor  
Examination of the methods, theories, and issues in historic preservation. Field trips and projects are required.

HIST 329. Topics in Public History. 4 Units.  
Prerequisites: HIST 323 and 325, or consent of instructor  
Examination of topics in public history, including local history, conservation, historic architecture, living history and material culture. May be repeated for credit as topics change.
HIST 330. Topics in Oral History. 4 Units.
Prerequisites: HIST 324 and 325, or consent of instructor
Examination of topics in oral history, including regional or ethnic groups, World War II, the Civil Rights movement, or the Vietnam War. May be repeated for credit as topics change.

HIST 335. Modern Ireland. 4 Units.
Survey of Ireland from 1798 to the present, with specific focus on the political, social, and economic consequences or English colonialism and modern nation building.

HIST 336. Ancient Egyptian Archaeology. 4 Units.
Examination of ancient Egyptian archaeological contexts that reveal specific themes about their people, history, society, and religion. Incorporates archaeological theory to interpret contexts. Incorporates the history of excavation and removal of objects from Egypt. Includes studying objects at RAFFMA. Offered as ANTH 336 and HIST 336, students may not receive credit for both.

HIST 338. Ancient Egyptian Art. 4 Units.
Examination of composition, artists, portraiture, color, technique and the principles of ancient Egyptian art, as seen through statuary, paintings, and wall carvings. Looks at the integration of art and writing. Includes studying objects at RAFFMA. Offered as HIST 338 and ART 338, students may not receive credit for both.

HIST 339. Culture and Society in Ancient Egypt. 4 Units.
Examination of cultural, economic, social, and religious structures in ancient Egypt. Includes topics such as women, daily life, mummification, fortification, and religion.

HIST 340. African-American History, 1620-1865. 4 Units.
History of African-American people in the United States during the slave era. Examines the lives of slaves, the slave owners, and the system that bound them together as well as the place of free blacks in American society.

HIST 341. African-American History, 1865-Present. 4 Units.
Social, cultural, political and economic history of African-American people from emancipation to the present. Places special emphasis on African-American agency, self-development and self-determination.

HIST 342. American Indian History. 4 Units.
Social, cultural, political, and economic history of American Indians. Special emphasis placed on American Indian agency, sovereignty and diversity.

HIST 344. Women in U.S. History, 1620-1865. 4 Units.
Examines women’s roles in American history from colonial times through the Civil War. Special emphasis on the diversity among the lives of women. Formerly HIST 513.

HIST 345. Women in U.S. History, 1865-Present. 4 Units.
Examines women’s roles in American history from 1865 to the present. Examines the diversity of women’s experiences and their struggles for social, economic, political and cultural equality. Formerly HIST 513.

HIST 346. Women in the Black Freedom Movement. 4 Units.
Examines the roles of women in the struggle for social justice and black equality in America. Treats the historical background to the movement including the key women activists of the civil rights decade, 1954-1964.

HIST 349. Early American Biography. 4 Units.
Early American history through the medium of biography and related primary source documents.

HIST 350. The American Colonies, 1607-1783. 4 Units.
The thirteen colonies from European origins to the attainment of independence.

HIST 351. The Evolution of American Democracy, 1783-1840. 4 Units.
Analysis of the development of American society, politics and economy during the Confederation, Federalist, Jeffersonian and Jacksonian Eras.

HIST 354. Civil War and Reconstruction. 4 Units.
Background and causes of the Civil War and the problems of Reconstruction.

HIST 356. The United States, 1877-1917. 4 Units.
Transformation of the nation between the end of Reconstruction and entrance into World War I.

HIST 357. The United States, 1917-1945. 4 Units.
Principal developments in American life from World War I to the end of World War II.

HIST 358. United States in World War II. 4 Units.
The United States homefront during World War II, focusing on social, economic and constitutional issues.

HIST 359. United States History, Cold War Era. 4 Units.
Major changes in the United States between in the Cold War Era, 1945 to 1991.

HIST 360. American History Through Film. 4 Units.
Explores the cultural, social and economic issues that have shaped American history through the study and analysis of feature films. (Not a course in film studies or criticism.) Formerly a topic under HIST 395.

HIST 361. Chicana/o History Through Film. 4 Units.
General survey of the history of Chicanas/os in the United States from the mid-eighteenth century to the present through films, documentaries and selected historical works. Topics include Spanish conquest, Manifest Destiny, labor activism, education, the Chicano Movement, and other forms of political activism.
HIST 362. LGBT History. 4 Units.
Social, cultural, and political history of LGBT communities in the U.S. from the nineteenth century to the present. Topics include pre-Stonewall communities, political mobilization, and the contemporary LGBT rights movement.

HIST 368. The United States, 1960s. 4 Units.
Examines political, social, and cultural changes in the United States during the turbulent decade of the 1960s.

HIST 370. History of California. 4 Units.
Political, economic, social and cultural development of California from Spanish times to the present. This course meets the state code requirement in state and local government.

HIST 371. California Indian History. 4 Units.
Social, cultural, political, and economic history of California Indians. Special emphasis placed on California Indian agency, sovereignty and diversity.

HIST 372. Museum Education and Programming. 4 Units.
History of education in museums, reviews theories about how people learn, and introduces best practices for meeting the varied interests and needs of audiences in informal learning environments. Presentation of museum programming through digital formats is also discussed. Offered as ANTH 372 and HIST 372, students may not receive credit for both.

HIST 373. Visitor Studies and Evaluation. 4 Units.
Focuses on theories, methods, and practical strategies for assessing audience knowledge, interest, and perceptions of museum offerings, particularly public educational programming and exhibitions. Best practices in developing and implementing pre-planning front-end evaluation, formative testing of ideas, and summative post-implementation feedback. Offered as ANTH 373 and HIST 373, students may not receive credit for both.

HIST 374. Collections Management. 4 Units.
Overview of methods and legal and ethical considerations in the care of objects, standards of acquisition and disposal, collection documentation, storage, handling, loans, and conservation of museum collections, as well as security and emergency planning. Offered as ANTH 374 and HIST 374, students may not receive credit for both. Materials fee may apply.

HIST 375. Museum Management. 4 Units.
Legal, financial, personnel matters, theories and practices of developing a mission statement, bylaws, various policies and plans that are standard administrative elements of museum operation. Museum departmental organization and staffing hierarchies are also discussed. Offered as HIST 375 and ANTH 375, students may not receive credit for both.

HIST 376. Exhibition Development and Design. 4 Units.
Introduction to the standards, considerations, and collaborative processes related to developing and designing interpretive museum exhibitions that promote affective and transformative visitor experiences. Coursework may contribute to planning exhibitions for the Anthropology Museum. Field trips and group work may be required. Offered as ANTH 376 and HIST 376, students may not receive credit for both.

HIST 377. Historical Documentaries. 4 Units.
Examination of the development and role of historical documentaries in American society, focusing on the role of the historian in the research and production of the documentaries as well as a critical analysis of the individual productions and their historical, material and intellectual content.

HIST 379. The History of Madness. 4 Units.
Concepts of "madness" from an historical, global and comparative perspective from the eighteenth century to the present day, including the social construction of madness and views of mad people themselves.

HIST 383. Classical Islamic Civilization. 4 Units.
Introduction to the classical Islamic period in the Central and Western (North African and Ottoman) Islamic lands. Considers the development of Islam as a religion and civilization, the expansion of the Islamic world, and the rise of the Ottoman empire.

HIST 384. Modern Middle East. 4 Units.
Prerequisites: HIST 383 or consent of instructor
Survey of the history of the Middle East since the eighteenth century, emphasizing the political and social history of Turkey, Iran, Iraq, Egypt, and the Levant (Lebanon, Palestine/Israel, Syria, Jordan).

HIST 385. Africa to 1500. 4 Units.
Deals with the main themes of African history to 1500: Ancient Egypt, the Mediterranean intercommunicating zone during the Phoenician, Greek and Roman empires, Christianity, trans-Saharan and other intra-African trading and exchange networks, Indian Ocean trading system, Islam and Islamization, development of African state systems and stateless sociopolitical constructs.

HIST 386. Africa 1500 to 1870. 4 Units.
Deals with the main themes of African history in the period following western European expansion and the developing world trade system that resulted. Topics covered include African political development, development and abolition of trans-Atlantic slave trade, discussion of trans-Saharan and Indian ocean slave and commodity export trades, and comparison of various social systems that developed on the continent.

HIST 387. Africa 1870 to Present. 4 Units.
Deals with the main themes of African history since 1870, including European partition of the continent, resistance to partition and colonial rule, systems of colonial rule in Africa, Christianity and Islam during the colonial period, independence movements, post-colonial states and development issues.

HIST 388. The Rise, Decline and Legacy of Apartheid South Africa. 4 Units.
Development of racial segregation and apartheid policies in twentieth century South Africa. Explores the causes and consequences of the rise and collapse of apartheid.

HIST 389. Images of Africa. 4 Units.
Examination of cultural construction of Africa through various forms of media created by Africans and non-Africans from the 17th Century to the present.

HIST 390. History of Modern Mexico. 4 Units.
Survey of Mexican history from the nineteenth century wars of independence to the present.
HIST 391. Chicano History. 4 Units.  
Mexican-Americans in the United States from the Colonial period to the present, with special emphasis on the Southwest.

HIST 395. Topics in History. 4 Units.  
Examination of topics of interest in history. May be repeated for credit as topics change.

HIST 396. Topics in History. 2 Units.  
Examination of topics of interest in history. May be repeated for credit as topics change.

HIST 399A. Community Service Project. 1 Unit.  
Prerequisites: a project proposal must be approved by the department in advance of enrollment.  
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of four units. No more than four units of credit for community service project courses may be applied toward degree requirements. Graded credit/no credit.

HIST 399B. Community Service Project. 2 Units.  
Prerequisites: a project proposal must be approved by the department in advance of enrollment.  
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of four units. No more than four units of credit for community service project courses may be applied toward degree requirements. Graded credit/no credit.

HIST 400. Early Medieval Europe. 4 Units.  
Survey of the political, economic, and social transformation of Europe from the fall of Rome through the eleventh century.

HIST 401. High Medieval Europe. 4 Units.  
Survey of the political, economic, and social transformation of Europe during the high Middle Ages, from the eleventh century to the fourteenth century.

HIST 402. Renaissance and Reformation. 4 Units.  
Principal political, economic, intellectual and religious developments in Europe from about 1300 to 1648.

HIST 403. The Age of Absolutism and Enlightenment. 4 Units.  
The period from 1648 to 1789, emphasizing the development of the modern state, the new scientific movement and the growth of revolutionary ideas.

HIST 405. Nazi Germany and the Holocaust. 4 Units.  
The rise of Nazi Germany with a focus on the intertwined worlds of perpetrators and victims of the Holocaust.

HIST 406. European Intellectual History. 4 Units.  
The intellectual history of Europe from the Renaissance to the present.

HIST 409. Twentieth Century Europe. 4 Units.  
Political and cultural history of Europe from the rise of fascism to the fall of communism.

HIST 410. Hitlers Europe. 4 Units.  
Development of totalitarian ideologies focusing primarily on the theory and practice of National Socialism in Germany during the period 1918-1945.

HIST 422. 20th Century Americans. 4 Units.  
Biographical focus on key American leaders who affected the course of 20th century American history.

HIST 426. Ancient and Early Imperial China. 4 Units.  
Political, social, economic, and cultural developments of China from earliest times to the founding of the Sui Dynasty (589 C.E.).

HIST 432. Modern China III, 1949-Present. 4 Units.  
Political, social, economic, and cultural developments in China from 1949 to the present.

HIST 433. Modern Chinese History in Fiction and Film. 4 Units.  
Retrospective and contemporary film and fiction are used as a window onto the political and cultural developments of China in the twentieth century.

HIST 435. World War II in the Pacific. 4 Units.  
Major themes surrounding World War II in the Pacific, its context and impact (1931-1945) Formerly HIST 434.

HIST 437. Modern Japanese History. 4 Units.  
Political, social, economic, and cultural developments in Japan from the late Tokugawa era and the Meiji Restoration (1868) through the present.

HIST 449. Gender and Development in Africa. 4 Units.  
Using gender as a central category of analysis, the course interrogates underlying assumptions, theories, and empirical issues related to economic development and globalization on the continent from the nineteenth century to present day in Africa.

HIST 450. History of Southern Africa. 4 Units.  
History of the region of Southern Africa, including early African settlement, including early African settlement, colonization, apartheid, independence and contemporary developments.
HIST 451. The History of Health and Medicine in Africa. 4 Units.
Health and disease in Africa from the pre-colonial period to present day, the connection between science, medicine, colonialism, the construction of difference, and responses to western bio-medicine.

HIST 452. Ancient Egypt, Origins to c. 1700 B.C.E.. 4 Units.
Studies the political, economic, and social past of ancient Egypt from the Predynastic Period through the end of the Middle Kingdom. Incorporates themes such as the origins of writing, state formation, pyramid building, bureaucratic shifts, civil war, and governmental collapse.

HIST 453. Ancient Egypt, c. 1700 B.C.E. to 1000 B.C.E. 4 Units.
Studies the political, economic, and social past of ancient Egypt during the Second Intermediate Period and the New Kingdom. Incorporates themes such as international war, empire, colonization, Queenship, administration, religious heresy, international relations, foreigners in Egypt, civil war, tomb robbing, and governmental collapse.

HIST 454. Ancient Egypt, c. 1000 B.C.E. to 495 C.E.. 4 Units.
Studies the political, economic, and social past of ancient Egypt from the Third Intermediate Period through the Roman Period. Incorporates changes in each due to foreign powers ruling including the Libyans, Nubians, Persians, Assyrians, Greeks, and Romans. Examines themes such as archaism, international relations, founding of Alexandria, multiculturalism, dual Egyptian and Greek governmental systems, and Cleopatra.

HIST 455. Egyptian Mining Expeditions, Their Buildings, and Their Slaves. 4 Units.
Prerequisites: ANTH 336 or HIST 336 or instructor consent
Uses anthropological and archaeological theory to study the archaeological, textual, and representational evidence for large scale Ancient Egyptian mining expeditions. Looks at how they were organized and supplied and their connections with the Egyptian military. Studies the labors, from administrators to slaves, how they were treated and the gods they worshiped. Incorporates unpublished archaeological data for students to analyze. Offered as ANTH 455 and HIST 455, students may not receive credit for both.

HIST 456. Mughal India and the Early Modern World. 4 Units.
Studies Mughal India within the context of the early modern world, the history and historiography of establishment of the Mughal Empire in the Indian subcontinent and the rise of European trading companies in this region.

HIST 457. Modern India at the Crossroads of Empire. 4 Units.
Late colonial and early post-colonial periods of South Asian history; the climax of anti-colonial movements in South Asia, WWII as it developed in South and Southeast Asia, the partition of British India, the two Indo-Pakistan wars, and the 1971 Bangladesh War.

HIST 458. Gandhi: Life and Legacy. 4 Units.
The life and political work of Indian anti-imperial leader Mohandas K. Gandhi, the ways his memory shaped politics in India and around the globe after his death with attention given to both supporters and opponents of Gandhi's methods and message(s).

HIST 459. Media Cultures of the Indian Subcontinent. 4 Units.
Aural, visual, and print media cultures of the Indian subcontinent as evidenced in the political and cultural developments from the 19th century forward.

HIST 465. Modern Central America. 4 Units.
Survey of the political, economic, and social history of the five major Central American nations-Nicaragua, El Salvador, Guatemala, Honduras, and Costa Rica-from their independence in the early 19th century to the present.

HIST 466. Foreign Relations of Latin America. 4 Units.
Survey of the foreign relations of the nations of Latin America with special emphasis on U.S.-Latin American relations.

HIST 467. Latin American History Through Film. 4 Units.
Cultural, social, political and economic issues that have shaped Latin America through the study and analysis of feature films and associated readings.

HIST 469. Colonial Latin America. 4 Units.
Survey of Spanish colonial system beginning with discovery of America and continuing to the independence period.

HIST 470. Modern Latin America. 4 Units.
Survey of the development and interaction of modern Latin American institutions in the major nations of Central and South America.

HIST 480. History of Christianity I. 4 Units.
Historical development of early Christianity from its origins to the fall of Rome.

HIST 481. History of Christianity II. 4 Units.
Historical development of Christianity from the fall of Rome to the eve of the Protestant Reformation.

HIST 485. Arab-Israeli Conflict. 4 Units.
Survey of the history of the Arab-Israeli conflict, concentrating on the evolution of political Zionism and Palestinian nationalism, the Palestinian Mandate, and the wars and peace negotiations between Israel and neighboring Arab nations, and between Israel and the Palestinians since 1948. Formerly a topic under HIST 395.

HIST 486. Modern Iran. 4 Units.
Prerequisites: HIST 383 or consent of instructor
Examines the political, economic, and social history of Iran from the fall of the Safavid Empire in 1722 to the present, with emphasis on the Pahlavi era and the Islamic Revolution of 1979. Formerly a topic under HIST 395.

HIST 487. Topics in Modern Middle Eastern History. 4 Units.
Prerequisites: HIST 383 or consent of instructor
Examines the modern political, economic, and social history of either Iraq, Turkey, Egypt, Syria or Saudi Arabia. May be repeated for credit as topics change.
HIST 491. Nationalism and Conflict in the Middle East. 4 Units.
Prerequisites: HIST 383 and 384 or consent of instructor.
Investigates the origins and evolution of nationalism and national identity in the Middle East, and the relationship between nationalism and conflict in the region. Course utilizes a variety of materials that include explanatory theories of nationalism, secondary monographs, primary writings of Middle Eastern nationalists, and social biographical portraits of the lives and experiences of ordinary non-elite Middle Eastern men and women.

HIST 492. U.S. Media and the Middle East. 4 Units.
Prerequisites: HIST 383 and 384 or consent of instructor.
Explores the evolution of U.S. news media coverage of events in the Middle East during the twentieth century and the complex links between news reporting, public opinion, and American foreign policy in the region. Formerly a topic under HIST 395.

HIST 493. Iran-U.S. Relations. 4 Units.
Prerequisites: HIST 383 and 384 or consent of instructor.
Explores the evolution of the relationship between Iran and the United States from 1857 to the present. Readings will draw from primary and secondary sources, including documents, memoirs, biographies, and monographs emphasizing political and diplomatic encounters.

HIST 494. Proseminar in History. 4 Units.
Prerequisites: HIST 394 or consent of instructor.
Historiographical seminar introducing advanced junior-level students to a specific topic or sub-field of history. Provides training and introduction to historical argumentation and criticism with an emphasis on secondary works and contrasting interpretations.

HIST 495. Politics of Oil. 4 Units.
Survey of the history of the petroleum industry and its impact on global politics and economics, with an emphasis on the Middle East and United States foreign policy.

HIST 500. Tudor and Stuart England. 4 Units.
Principal political, social, economic and religious developments of England from 1485 to 1668.

HIST 501. Britain, 1688-1901. 4 Units.
Principal political, social, economic and religious developments in Britain in the age of revolution and reform, from the Glorious Revolution to the death of Queen Victoria.

HIST 503. Europe Since 1945. 4 Units.
Europe since 1945, emphasizing the evolution of supranational political, economic, diplomatic, and military institutions in the Cold War and post-Cold War eras.

HIST 511. Akhenaten and the City of Amarna. 4 Units.
Examination of the religious fanatic Akhenaten and the city that he built for his one god the Aten. Studies the rise, manifestation, and collapse of his ideas and how they affected ancient Egyptian history, culture, religion, and archaeology.

HIST 525. Editing and Publishing in History. 4 Units.
Editing and document layout for publishing in print and online. Focus on a wide array of historical and technical editing practices, particularly as applied to publication of an academic journal of history. Graded credit/no credit. Instructor approval required.

HIST 526. Sound History: Can We Hear the Past. 4 Units.
The relationship between sound and history, its historiography and how historians and historically-oriented scholars have studied past sound and listening cultures around the globe and how scholars have made use of sound archives and how they have accessed past sound cultures when aural sources have been limited or entirely unavailable.

HIST 527. Historical Audio-Broadcasting. 4 Units.
Using sound to compose non-textural histories. Analyzes and produces audio broadcasts and radio documentaries about past events and cultures and discusses alternative ways of creating aural narratives about the past.

HIST 535. Studies in European National History. 4 Units.
Historical development of individual European nations (for example, Germany, France, Great Britain, Russia, Spain) in the modern period. May be repeated for credit as topics change.

HIST 540. Constitutional History of the United States. 4 Units.
Prerequisites: HIST 200 or HIST 201, or PSCI 410 or consent of instructor.
American constitutional development from English and European origins to the present day. This course meets the state code requirement in U.S. history and U.S. Constitution.

HIST 541. U.S. Citizenship and the Law. 4 Units.
History of citizenship in the United States from colonial period to the present including global and comparative perspectives. Formerly a topic under HIST 395.

HIST 550. Senior Assessment. 2 Units.
Prerequisites: senior standing.
Assessment of the student's academic progress through preparation and submission of a portfolio of completed coursework. Composition of a reflective essay providing evidence of acquired skills. Graded credit/no credit.

HIST 556. Foreign Relations of the United States. 4 Units.
Survey of American foreign policy with special emphasis on Americas rise to world power in the 20th century.

HIST 560. History of the American West. 4 Units.
Survey of the western expansion of the American nation.
HIST 561. Gender, Sex, and Conquest in the American West. 4 Units.
Examines the links between gender and sexuality to the ideologies of White Supremacy, Nationalism, Manifest Destiny, and Domesticity during the nineteenth and twentieth centuries. Emphasis on Chicanas/os, but course also covers Native Americans, African Americans, and Asians in the U.S. West.

HIST 563. Gender Chaos in the California Borderlands. 4 Units.
Social and cultural history of California during the Mexican Period from 1810-1848. Examines Mexican Nationalism, masculinity, femininity, domesticity, and Patriarchal Authority. Pays specific attention to people who challenged and/or redefined Mexican identity through their gender behavior.

HIST 564. Chicana/Mexicana Feminisms. 4 Units.
Surveys the development of Chicana and Mexican women's feminism of the nineteenth and twentieth centuries in both the U.S. and Mexico. Topics include resistance strategies in colonization, labor activism, the Mexican Revolution, the Chicano Movement, and contemporary Chicana/Mexicana transnational political activism.

HIST 565. Immigration and Ethnic American History. 4 Units.
Comparison of the major ethnic groups in American history, and processes of immigration, migration, and ethnic identity formation.

HIST 568. History of the U.S. - Mexico Borderlands. 4 Units.
Social, cultural, economic, and political history of the U.S. - Mexico borderlands from the Spanish colonial period to the contemporary period. Topics include colonialism, nationalism, globalization and immigration, citizenship, gender, sexuality, and violence and how they shape Chicana/o identity in the region.

HIST 575. Internship in History. 4 Units.
Prerequisites: major in history and consent of the internship coordinator or department chair. Supervised work and study in work situations involving historical skills. May be repeated once for credit. Graded credit/no credit.

HIST 594. Research Seminar in History. 4 Units.
Prerequisites: HIST 494 or consent of instructor. Senior-level seminar focused on the use of historical primary sources with the final goal of producing a substantial research paper. Includes seminar discussions and individual meetings with instructor.

HIST 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Special topics in historical research. A total of four units in HIST 595 may be applied toward the history major and eight units in HIST 595 may be applied toward graduation.

HIST 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Special topics in historical research. A total of four units in HIST 595 may be applied toward the history major and eight units in HIST 595 may be applied toward graduation.

HIST 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Special topics in historical research. A total of four units in HIST 595 may be applied toward the history major and eight units in HIST 595 may be applied toward graduation.

HIST 597. Senior Honors Project. 5 Units.
Original research in an area of historical studies, culminating in a major research report receiving approval of the history faculty. Enrollment limited to students whose formal application for departmental honors is approved.

HIST 600. Proseminar in History. 4 Units.
Prerequisites: consent of instructor. Survey of the concepts and ideas that historians employ to study, describe and analyze globalization.

HIST 603. Seminar in Modern Military History. 4 Units.
Analyses of selected military operations since World War II. May be repeated once for credit, as topics change, with consent of students advisor.

HIST 616. Advanced Archival Practices. 4 Units.
Advanced approach to archival methods, the accessioning, de-accessioning, cataloging, calendar composition, storage of objects and archival materials, loan procedures, policies and legal issues. Field trips and projects are required. Formerly HIST 516.

HIST 618. Advanced Cultural Resource Management. 4 Units.

HIST 623. Advanced Public History. 4 Units.
Advanced study of public history, focusing on museums, historic sites, libraries, archives and the diverse media employed in the production of public history. Projects and field trips are required. Formerly HIST 523.

HIST 624. Advanced Oral History. 4 Units.
Advanced study of oral history, focusing on the origins, issues involved in oral history, interviewing techniques and the diverse media and technologies employed in the production of oral history. Advanced oral history projects are required. Formerly HIST 524.

HIST 630. California Water History. 4 Units.
History of the development of water policy in California from pre-colonization times to present.
HIST 675. Advanced Museum Management. 4 Units.
Advanced theories and methods used in all aspects of contemporary museum management. Field trips are required.

HIST 676. Advanced Exhibit Design. 4 Units.
Advanced examination of the theories and methods used in designing exhibits, focusing on interpretation and exhibit creation. Field trips and projects are required. Formerly HIST 576.

HIST 678. Advanced Museum Curation. 4 Units.
Advanced principles and practices relating to core curatorial functions, the relationship of curatorship to museum missions, ethical and other challenges facing museums, acquisition proposals and concepts and curatorial practices.

HIST 690. Advanced Topics in History. 4 Units.
In depth study of an advanced topic in history. May be repeated for credit as topics change.

Honors (HON)

Courses

HON 104A. Language and Meaning: Critical Thinking. 4 Units.
Prerequisites: acceptance into the Honors Program (GE=A4, C2, A2)
An integrated course in the Honors Program meeting General Education requirements for basic skills in critical thinking, philosophy and communication. Emphasizes using the various basic skills in the process of exploring specific current issues.

HON 104B. Language and Meaning: Introduction to Philosophy. 4 Units.
Prerequisites: acceptance into the Honors Program (GE=A1, A2, A4)
An integrated course in the Honors Program meeting General Education requirements for basic skills in composition, critical thinking, and communication. The course emphasizes using the various basic skills in the process of exploring specific current issues.

HON 104C. Language and Meaning: Oral Communication. 4 Units.
Prerequisites: acceptance into the Honors Program (GE=A4, C2, A2)
An integrated course in the Honors Program meeting General Education requirements for basic skills in critical thinking, philosophy and communication. Emphasizes using the various basic skills in the process of exploring specific current issues.

HON 105A. Honors Colloquium. 1 Unit.
Prerequisites: acceptance into the Honors Program
Analysis and discussion of current ideas and events. Freshman students admitted to the Honors Program are required to enroll in the colloquium each of the three quarters of their freshman year. Graded credit/no credit.

HON 105B. Honors Colloquium. 1 Unit.
Prerequisites: acceptance into the Honors Program
Analysis and discussion of current ideas and events. Freshman students admitted to the Honors Program are required to enroll in the colloquium each of the three quarters of their freshman year. Graded credit/no credit.

HON 105C. Honors Colloquium. 1 Unit.
Prerequisites: acceptance into the Honors Program
Analysis and discussion of current ideas and events. Freshman students admitted to the Honors Program are required to enroll in the colloquium each of the three quarters of their freshman year. Graded credit/no credit.

HON 205A. Honors Seminar. 1 Unit.
Prerequisites: acceptance into the Honors Program
Research and discussion of current events and ideas. Sophomore students continuing in the Honors Program, as well as students entering the program as sophomores or juniors, are required to enroll in the seminar each of the three quarters. Graded credit/no credit.

HON 205B. Honors Seminar. 1 Unit.
Prerequisites: acceptance into the Honors Program
Research and discussion of current events and ideas. Sophomore students continuing in the Honors Program, as well as students entering the program as sophomores or juniors, are required to enroll in the seminar each of the three quarters. Graded credit/no credit.

HON 205C. Honors Seminar. 1 Unit.
Prerequisites: acceptance into the Honors Program
Research and discussion of current events and ideas. Sophomore students continuing in the Honors Program, as well as students entering the program as sophomores or juniors, are required to enroll in the seminar each of the three quarters. Graded credit/no credit.

HON 306. Expository Writing for Honors. 4 Units.
Prerequisites: acceptance into the Honors Program, satisfaction of the GE written communication (A1) requirement and a minimum of 90 quarter (60 semester) units of college credit
Advanced expository writing workshop for students in the Honors Program. Writing will include documented research reports, summaries, and analytical papers. Papers and research will be directed toward developing and preparing a final draft report for the senior project. Course fulfills the graduation requirement in writing proficiency. No more than one of the expository writing courses (EDUC 306, ENG 306, HON 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be taken for credit. Students who have received a grade of no credit in any combination of the expository writing courses two or more times must meet with the 306 coordinator or designee to design a developmental writing plan as a condition for enrolling for a third quarter. All students must obtain junior status at the time of registration or their course request will be cancelled. Formerly HON 495. Graded A, B, C/no credit.

HON 315. Special Topics. 4 Units.
Prerequisites: acceptance into the Honors Program
Examination of selected topics for students in the Honors Program. May be repeated for credit as topics change.

HON 598. Honors Senior Project. 4 Units.
Prerequisites: acceptance into the Honors Program and senior standing
Provides an opportunity for students to conduct an independent project under faculty supervision. Project may be a lengthy research paper, a public performance, a laboratory experiment, a work of art, or may take other forms.
Human Development (HD)

Courses

HD 205. Diversity in Child Development. 4 Units.
Prerequisites: HD 240, PSYC 201 or 240
Theories of cultural and ethnic diversity and their applications to child development. Emphasis will be given to the impact of diversity in professional settings involving children. Formerly HD 305.

HD 215. Child, Family, and Community. 4 Units.
Prerequisites: HD 240, PSYC 201 or 240
An examination of children in a societal context focusing on the interrelationship between school, family, and community. Emphasis will be given to historical and cultural factors which influence the family and children's subsequent socialization.

HD 240. Introduction to Child Development. 4 Units.
Comprehensive introduction to child development from conception through adolescence. Emphasis is on physical, cognitive social, emotional and language development. (Offered as HD 240 and PSYC 240. Students may not receive credit for both.).

HD 245. Observation and Methods in Child Development: Early Childhood. 2 Units.
Prerequisite/Corequisite: HD 240
Introduction to observational methodologies and techniques used in the study of early childhood behavior. Students will observe, record, analyze and interpret early childhood behavior as they relate to developmental principles, theories and current research.

HD 246. Observation and Methods in Child Development: Middle Childhood. 2 Units.
Prerequisite/Corequisite: HD 240
Introduction to observational methodologies and techniques used in the study of middle childhood behavior. Students will observe, record, analyze and interpret middle childhood behavior as they relate to developmental principles, theories and current research.

HD 247. Observation and Methods in Child Development: Adolescence. 2 Units.
Prerequisite/Corequisite: HD 240
Introduction to observational methodologies and techniques used in the study of adolescent behavior. Students will observe, record, analyze and interpret adolescent behavior as they relate to developmental principles, theories and current research.

HD 270. Infant and Toddler Development. 4 Units.
Prerequisites: PSYC 100 and current TB test
Prenatal, neonatal, infant, and toddler development through age two. Formerly PSYC 270.

HD 271. Group Education and Care of Infants and Toddlers. 4 Units.
Prerequisites: HD 270
Issues related to group care of infants and toddlers, with an emphasis on relationships and appropriate interactions between infants/toddlers and their caregivers. Health, safety, nutrition, family-caregiver relationships, and components of physical space will also be addressed.

HD 272. Curriculum and Programs for Infants and Toddlers. 4 Units.
Prerequisites: HD 270, 271 and 291
Methods, materials and activities in group care settings for infants and toddlers.

HD 278. Early Childhood Development. 4 Units.
Prerequisites: PSYC 100
Physical, social, emotional, and intellectual development of the young child from ages two to eight.

HD 280. Guidance of Young Children. 4 Units.
Prerequisites: HD 280
Child guidance theories and their implications for communicating and interacting with young children, for guiding child behavior, and for designing early childhood settings. Formerly HD 281A.

HD 282. Early Childhood Curriculum and Programs. 4 Units.
Prerequisites: HD 281 and HD 291
Methods, materials, and activities in early childhood education. Formerly HD 282A.

HD 291. Interactions with Young Children: Laboratory. 2 Units.
Prerequisites: HD 270 or HD 280, concurrent or prior enrollment in either HD 271 or HD 281, and current TB test
Supervised experience focusing on developmentally appropriate practices in communicating and interacting with young children and guiding child behavior. Six hours laboratory. Formerly HD 281B.

HD 292. Curriculum and Program: Laboratory. 2 Units.
Prerequisites: HD 271 or HD 281, concurrent enrollment in HD 272 or HD 282, and current TB test
Supervised experience focusing on planning, implementing, and evaluating curriculum activities with young children. Six hours laboratory. Formerly HD 282B.

HD 302. History of Childhood. 4 Units.
Historical survey of childhood within the contexts of family and society.

HD 304. Theories of Play. 4 Units.
Prerequisites: PSYC 201 (or equivalent) or HD 280 or PSYC 280
Interdisciplinary survey of theories of play and their applications to child development.
HD 310. Applied Research Methods. 4 Units.
Prerequisites: PSYC 100 and PSYC 210
Overview of applied research methods in psychology and the behavioral sciences. Emphasis on the use of applied methods, their analyses, and scientific writing. Topics may include quasi-experimental design, correlational design, behavioral observation, archival analysis, single-case methodology, survey methodology, research ethics, library research strategies, and writing research reports. (Offered as HD 310 and PSYC 310. Students may not receive credit for both.)

HD 315. The School-Aged Child. 3 Units.
Corequisites: EELB 310
An interdisciplinary perspective of school-aged childrens (5-12 years old) physical, cognitive, social and emotional development in educational settings. Emphasis will be placed on linking childrens developmental characteristics with the school environment and developmentally-appropriate classroom practices. Requires five hours of observation and participation in a public elementary school classroom.

HD 324. Developmental Psychobiology. 4 Units.
Prerequisites: PSYC 100
Psychobiological bases of human behavioral development throughout the life span. Offered as HD 324 and PSYC 324. Students may not receive credit for both.

HD 372. Psychology of Death and Dying. 4 Units.
Prerequisites: PSYC 201 or equivalent
A review of current theory and research on the psychology of grief, death and dying. Offered as HD 372 and PSYC 324. Students may not receive credit for both.

HD 400. Child Assessment. 5 Units.
Prerequisites: one of the following: HD 240, HD 280, PSYC 201 or PSYC 240; and one of the following: HD 245, HD 246 or HD 247
Theory and procedures for assessing cognitive, social, and motor abilities in infants and children. Includes a practicum in administering and interpreting selected developmental screening tests. Four hours lecture and three hours practicum. (Also offered as PSYC 400. Students may not receive credit for both.)

HD 460. Adult Assessment. 4 Units.
Prerequisites: PSYC 329 or SOC 330 or HSCI 423, or consent of instructor
Theory, issues, and procedures in assessment of physical, cognitive, social and emotional functioning in adulthood and old age.

HD 480. Advanced Human Development. 4 Units.
Prerequisites: senior standing, 12 units of course work in human growth and development
Theory and research on physical, social, psychological and cultural aspects of human development from an interdisciplinary perspective. Formerly HD 580.

HD 513. Motivation and Behavior Management of Children. 3 Units.
Prerequisites: senior standing, EELB 310 and HD 315 or equivalent
Addresses developmentally-appropriate practices in motivating and sustaining school-aged children's interest, involvement, and appropriate conduct. Topics of achievement, motivation and research on student involvement will be addressed as they apply to classrooms where students differ in culture, gender, language, ethnicity, socioeconomic status, and handicapping conditions. Approaches to management of classroom resources and student behavior will be analyzed as students develop their own discipline plans. Five hours of observation/participation in a public elementary school classroom are required.

HD 520. Intergenerational Aspects of Human Development. 4 Units.
Theory and research on the processes through which family members of different generations influence one another's development.

HD 530. Issues in Early Childhood Education. 4 Units.
Prerequisites: upper-division or graduate status
Current theories, research and methodology in early childhood education with an emphasis on practice with children and families. Formerly a topic under HD 582D.

HD 540. Work, Retirement and Leisure. 4 Units.
Prerequisites: PSYC 100
Theory and research on work, retirement and leisure during the adult years. Offered as HD 540 and PSYC 540. Students may not receive credit for both.

HD 550. Development of Intimate Relationships. 4 Units.
Prerequisites: upper division or graduate standing in Human Development/Child Development or Psychology
Exploration of intimate relationship formation, maintenance, and termination with emphasis on theory and empirical research. Topics include attraction, communication, love, sex, power, and conflict. Formerly a topic under HD 580.

HD 575. Internship. 4 Units.
Prerequisites: consent of instructor and department
Supervised work and study in private and public organizations. May be repeated once for credit. Only four units may be applied to upper-division credit in the Human Development major. Arrangements for the internship must be made during the quarter preceding the quarter in which the student plans on enrolling in this course. (See Human Development coordinator). Graded credit/no credit.

HD 582A. Special Topics in Human Development. 1 Unit.
Prerequisites: upper-division or graduate standing
An intensive study of selected topics related to human development. May be repeated for credit as topics change.

HD 582B. Special Topics in Human Development. 2 Units.
Prerequisites: upper-division or graduate standing
An intensive study of selected topics related to human development. May be repeated for credit as topics change.
HD 582C. Special Topics in Human Development. 3 Units.
Prerequisites: upper-division or graduate standing
An intensive study of selected topics related to human development. May be repeated for credit as topics change.

HD 582D. Special Topics in Human Development. 4 Units.
Prerequisites: upper-division or graduate standing
An intensive study of selected topics related to human development. May be repeated for credit as topics change.

HD 582E. Special Topics in Human Development. 5 Units.
Prerequisites: upper-division or graduate standing
An intensive study of selected topics related to human development. May be repeated for credit as topics change.

HD 585. Student Teaching in Early Childhood Education. 4 Units.
Prerequisites: HD 272 or 282, and 292, consent of instructor and department and current TB test
Supervised teaching in early childhood education programs. Formerly HD 585D. Graded credit/no credit.

HD 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving literature or field study. A total of eight units of HD 595 may be applied toward graduation, of which a maximum of four units can be applied toward upper-division elective requirements in the major.

HD 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving literature or field study. A total of eight units of HD 595 may be applied toward graduation, of which a maximum of four units can be applied toward upper-division elective requirements in the major.

HD 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving literature or field study. A total of eight units of HD 595 may be applied toward graduation, of which a maximum of four units can be applied toward upper-division elective requirements in the major.

HD 597. Honors Seminar. 4 Units.
Prerequisites: PSYC 311 and consent of department
Provides an opportunity for students to develop an independent project under faculty supervision. Students will meet as a class to discuss their projects, as well as various advanced topics. Enrollment is limited to students whose formal application for departmental honors is approved. (Offered as HD 597 and PSYC 597. Students may not receive credit for both.).

HD 598A. Honors Project I. 2 Units.
Prerequisites: PSYC 597 and consent of department
Provides an opportunity for students to conduct an independent project under faculty supervision. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major. (Offered as HD 598A and PSYC 598A. Students may not received credit for both.).

HD 598B. Honors Project II. 2 Units.
Prerequisites: PSYC 598A and consent of department
Provides an opportunity for students to conduct an independent project under faculty supervision. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major. (Offered as HD 598B and PSYC 598B. Students may not received credit for both.).

Human Resource Management (HRM)

Courses

HRM 455. Human Resources Management. 4 Units.
Prerequisites: MGMT 302 or PSYC 302, and the upper-division writing requirement
Policies related to human resources; human resources planning, employee selection and development, performance appraisal, compensation, relationships with unionized employees, collective bargaining. Formerly MGMT 455.

HRM 456. Developing an Effective Workforce. 4 Units.
Prerequisites: HRM 455 or PSYC 355
Theory and practice of employee selection, training, and performance appraisal. Formerly MGMT 456.

HRM 457. Industrial and Labor Relations. 4 Units.
Prerequisites: HRM 455 or PSYC 355
Analysis of historical, political, legal, economic and managerial forces which lead to the development of labor unions and collective bargaining. Focus on legal rights of employees and managerial rights of employer. Involves case law and bargaining simulation. Formerly MGMT 457.

HRM 458. Fair Employment Practices. 4 Units.
Prerequisites: HRM 455 or PSYC 355
An examination of fair employment practices in employment. Course emphasizes antidiscriminatory legislation and its application to employer-employee relationships. Formerly MGMT 458.

HRM 460. Compensation and Performance. 4 Units.
Prerequisites: HRM 455 or PSYC 355
An examination of reward systems, both financial and non-financial, in the business enterprise. Financial rewards include the process of job analysis, job evaluation, and the market surveys with an emphasis on the firm's competitive strategy. Benefit administration and compensation systems for special groups are also presented. Various systems of performance management are studied, including individual employee performance appraisals. Formerly MGMT 460.
HRM 470. Strategic Human Resource Management. 4 Units.
Prerequisites: HRM 455 or PSYC 355 and HRM 456 and HRM 458
Capstone course integrating human resource management materials acquired through the required concentration courses and addressing the strategic role of HR professionals in organizations. Formerly MGMT 470.

Humanities (HUM)

Courses

HUM 180. The Art of Film. 4 Units.
(GE=C1)
Developing critical appreciation of film as a mode of artistic expression. Explores creative applications of photography, literature, performance, music and scripting through screening of films ranging from productions of major studios to works of avant-garde artists.

HUM 197. Assessment Preparation I in Liberal Studies. 1 Unit.
Introduction to the Liberal Studies major and the requirements leading to a multiple subjects teaching credential. Procedures and preparation for the senior assessment. Graded ABC/no credit.

HUM 306. Expository Writing for the Humanities. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement and a minimum of 90 quarter (60 semester) units of college credit
Writing related to the humanities including documented research reports, summaries and analytical papers. Revision and rewriting will be required.
Course fulfills the graduation requirement in writing proficiency. No more than one of the expository writing courses (EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be taken for credit.

HUM 319. Myth, Metaphor and Symbol. 4 Units.
Prerequisites: junior or senior standing
Nature and function of myth and mythmaking; ways in which figurative language is used in different disciplines to create models for understanding the world and human experience.

HUM 325. Perspectives on Gender. 4 Units.
Prerequisites: junior or senior standing
This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender roles in Western culture are established, maintained and changed. (Offered as HUM 325, SSCI 325 and NSCI 325. Students may receive credit for only one of these courses.).

HUM 328. Asian Cultural Traditions. 4 Units.
Prerequisites: junior or senior standing
(GE=C5, C1)
Cultural issues in Asia, such as religion and philosophy, literature, the arts and expressive traditions, as well as gender and identity.

HUM 330. Arts and Ideas. 4 Units.
Prerequisites: junior or senior standing
(GE=C5)
An interdisciplinary exploration of the interaction between fundamental ideas (truth, goodness, beauty, freedom, equality, justice) and the arts (music, literature, painting, sculpture) in various Western cultures, as seen from philosophical, religious and historical perspectives.

HUM 335. The Origin and Contemporary Role of Latino Culture. 4 Units.
Prerequisites: junior or senior standing
(GE=C5, G1)
An exploration of the birth of Latino culture in Spain and its continued development in Latin America and the United States as seen in literature, art, music, and philosophy.

HUM 340. Interpretation and Values. 4 Units.
Prerequisites: junior or senior standing
(GE=C5)
Investigation of different ways in which people find the meaning, or meanings, in texts or events. Alternative theoretical approaches applied to specific literary, artistic, legal, religious and historical examples.

HUM 344. Ideas in American Culture. 4 Units.
Prerequisites: junior or senior standing
(GE=C5)
An examination of recurring ideas in American culture, from Colonial times to the present, as seen in literature, art and thought.

HUM 350. The Cultures of American Childhood. 4 Units.
Prerequisites: junior or senior standing
(GE=C5, G1)
An exploration of the ways childhood has been defined by biological, theoretical, cultural and social means in the United States. Special emphasis on the changing notions of childhood in terms of pop culture and the increasingly multiethnic landscape of America.

HUM 370. African Heritage in the Arts. 4 Units.
Prerequisites: junior or senior standing
(GE=C5, G1)
The various threads of African culture (religion, myth, philosophy, literature, painting, sculpture, music) are traced from their origin on the African continent through their impact in the Americas from the 16th century to the present.

HUM 375. The World of Islam. 4 Units.
Prerequisites: junior or senior standing
(GE=C5, G1)
Exploration of Islam as a religion, a philosophy and value system, indeed, as a way of life in a variety of cultures, totaling more than one billion people around the globe, including the arts and literature as well as theological, philosophical, and social perspectives.
HUM 380. Comparative Studies in the Arts: East and West. 4 Units.
Prerequisites: junior or senior standing
(GE=C5, G1)
Explores the interplay of key ideas of religion and philosophy in literature, painting, music and film in selected Asian cultures as contrasted with analogous ideas and artistic genres in the West.

HUM 385. A Cultural History of Fashion. 4 Units.
Prerequisites: junior or senior standing
(GE=C5)
The history of clothing and its relation to other arts as a form of self-expression within shifting sociocultural circumstances.

HUM 397. Assessment Preparation II in Liberal Studies. 1 Unit.
Prerequisites: HUM 197 and completion of at least 90 units in the B.A. in Liberal Studies
Continuation of assessment planning in Liberal Studies. Includes initial assessment of General Education requirements and selection of a concentration and its integration into the program of study. Review of progress on portfolios. Graded ABC/no credit.

HUM 425. Integrative Seminar in Asian Studies. 4 Units.
Advanced interdisciplinary and integrative study of issues in Asian philosophy, literature, the arts and other aspects of culture.

HUM 450. Aspects of Chicana/o Culture. 4 Units.
An exploration of the cultural, political and social values of the Chicana/o community as reflected in Chican/a/o literature, fine and public arts, music, teatro and film. Formerly IS 460.

HUM 460. Cultural Studies. 4 Units.
(GE=G2)
Examines the ways in which cultural and sub-cultural groups use art, music, film, television, literature, behavior, and other expressive forms to construct their identities and to impose identities upon other cultural groups.

HUM 496. Selected Topics in Humanities. 4 Units.
Seminar in special topics chosen from arts or humanities. May be repeated for credit as topics change.

HUM 497. Senior Assessment. 1 Unit.
Prerequisites: senior standing
Written examination of selected topics covered in the upper-division courses of the major. Generally assumes 30 hours of preparation and supervised review. May be repeated twice for credit. Graded credit/no credit.

HUM 499A. Methods and Materials in the Teaching of Humanities: Art. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the single subject credential program
Integration of educational philosophy and pedagogical concepts with the specific teaching materials of disciplines in the humanities. This course may not be counted toward fulfilling requirements of courses in the majors below. May be repeated for credit as topics change.

HUM 499B. Methods and Materials in the Teaching of Humanities: Foreign Languages. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the single subject credential program
Foreign LanguagesIntegration of educational philosophy and pedagogical concepts with the specific teaching materials of disciplines in the humanities. This course may not be counted toward fulfilling requirements of courses in the majors below. May be repeated for credit as topics change.

HUM 499C. Methods and Materials in the Teaching of Humanities: English. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the single subject credential program
EnglishIntegration of educational philosophy and pedagogical concepts with the specific teaching materials of disciplines in the humanities. This course may not be counted toward fulfilling requirements of courses in the majors below. May be repeated for credit as topics change.

HUM 499D. Methods and Materials in the Teaching of Humanities: Music. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the single subject credential program
Integration of educational philosophy and pedagogical concepts with the specific teaching materials of disciplines in the humanities. This course may not be counted toward fulfilling requirements of courses in the majors below. May be repeated for credit as topics change.

HUM 499E. Methods and Materials in the Teaching of Humanities: Theatre Arts. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the single subject credential program
Integration of educational philosophy and pedagogical concepts with the specific teaching materials of disciplines in the humanities. This course may not be counted toward fulfilling requirements of courses in the majors below. May be repeated for credit as topics change.

HUM 499F. Methods and Materials in the Teaching of Humanities: Humanities. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the single subject credential program
HumanitiesIntegration of educational philosophy and pedagogical concepts with the specific teaching materials of disciplines in the humanities. This course may not be counted toward fulfilling requirements of courses in the majors below. May be repeated for credit as topics change.

HUM 500A. Current Ideas and Issues in Latin America. 4 Units.
Prerequisites: consent of instructor or completion of 16 units of interdisciplinary studies or Latin American Studies Minor. Taught in English
An interdisciplinary exploration of the cultural, social, historical, and political contexts of Latin America in the 20th century. Serves as a culminating experience in the Latin American Studies Minor. Topics include the relationship between high and popular cultures, the role of history in the interplay between the various regions of the continent, the impact of mass media on cultural production, and recent political developments.
HUM 500B. Current Ideas and Issues in Latin America. 4 Units.
Prerequisites: consent of instructor or completion of 16 units of interdisciplinary studies or Latin American Studies Minor. Taught in Spanish.
An interdisciplinary exploration of the cultural, social, historical, and political contexts of Latin America in the 20th century. Serves as a culminating experience in the Latin American Studies Minor. Topics include the relationship between high and popular cultures, the role of history in the interplay between the various regions of the continent, the impact of mass media on cultural production, and recent political developments.
HUM 575A. Internship in Service Learning. 1 Unit.
Prerequisites: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 30 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Graded credit/no credit.
HUM 575B. Internship in Service Learning. 2 Units.
Prerequisites: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 30 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Graded credit/no credit.
HUM 575C. Internship in Service Learning. 3 Units.
Prerequisites: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 30 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Graded credit/no credit.
HUM 575D. Internship in Service Learning. 4 Units.
Prerequisites: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 30 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Graded credit/no credit.
HUM 575E. Internship in Service Learning. 5 Units.
Prerequisites: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 30 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Graded credit/no credit.
HUM 575F. Internship in Service Learning. 6 Units.
Prerequisites: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 30 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Graded credit/no credit.
HUM 576A. International Experience: Latin American Studies. 1 Unit.
Prerequisites: junior standing or consent of instructor. Written research project based on traveling or living in a Spanish- or Portuguese-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit. (1-6 units).
HUM 576B. International Experience: Latin American Studies. 2 Units.
Prerequisites: junior standing or consent of instructor. Written research project based on traveling or living in a Spanish- or Portuguese-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit. (1-6 units).
HUM 576C. International Experience: Latin American Studies. 3 Units.
Prerequisites: junior standing or consent of instructor. Written research project based on traveling or living in a Spanish- or Portuguese-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit. (1-6 units).
HUM 576D. International Experience: Latin American Studies. 4 Units.
Prerequisites: junior standing or consent of instructor. Written research project based on traveling or living in a Spanish- or Portuguese-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit. (1-6 units).
HUM 576E. International Experience: Latin American Studies. 5 Units.
Prerequisites: junior standing or consent of instructor. Written research project based on traveling or living in a Spanish- or Portuguese-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit. (1-6 units).
HUM 576F. International Experience: Latin American Studies. 6 Units.
Prerequisites: junior standing or consent of instructor. Written research project based on traveling or living in a Spanish- or Portuguese-speaking country. Research for the project will be completed in the country of choice. Approval of a written proposal for the project will be submitted on a standard application form filed in advance of the quarter in which the project is to be completed. Graded credit/no credit. (1-6 units).
HUM 577A. International Experience: Spanish. 1 Unit.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 577B. International Experience: Spanish. 2 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 577C. International Experience: Spanish. 3 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 577D. International Experience: Spanish. 4 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 577E. International Experience: Spanish. 5 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 577F. International Experience: Spanish. 6 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 578A. International Experience: Asian Studies. 1 Unit.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 578B. International Experience: Asian Studies. 2 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 578C. International Experience: Asian Studies. 3 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 578D. International Experience: Asian Studies. 4 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 578E. International Experience: Asian Studies. 5 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 578F. International Experience: Asian Studies. 6 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.
HUM 579A. International Experience: French. 1 Unit.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 579B. International Experience: French. 2 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 579C. International Experience: French. 3 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 579D. International Experience: French. 4 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 579E. International Experience: French. 5 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 579F. International Experience: French. 6 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 580A. International Experience: Arabic. 1 Unit.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 580B. International Experience: Arabic. 2 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 580C. International Experience: Arabic. 3 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 580D. International Experience: Arabic. 4 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 580E. International Experience: Arabic. 5 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 580F. International Experience: Arabic. 6 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.
HUM 581A. International Experience: Portuguese. 1 Unit.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 581B. International Experience: Portuguese. 2 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 581C. International Experience: Portuguese. 3 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 581D. International Experience: Portuguese. 4 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 581E. International Experience: Portuguese. 5 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 581F. International Experience: Portuguese. 6 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project must be submitted for approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 582A. International Experience: European Studies. 1 Unit.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project will be submitted for the approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 582B. International Experience: European Studies. 2 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project will be submitted for the approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 582C. International Experience: European Studies. 3 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project will be submitted for the approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 582D. International Experience: European Studies. 4 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project will be submitted for the approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 582E. International Experience: European Studies. 5 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project will be submitted for the approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.

HUM 582F. International Experience: European Studies. 6 Units.
Prerequisites: junior standing or consent of instructor
Written research project based on student's international experience. Research for the project will be completed in the country of choice. A written proposal for the project will be submitted for the approval to program coordinator or instructor in advance of the quarter in which the project is to be completed. Graded credit/no credit.
HUM 595A. Independent Study in the Humanities. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, including approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. A total of ten units may be applied toward graduation. Advanced study in the Humanities. May be repeated for credit.

HUM 595B. Independent Study in the Humanities. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, including approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. A total of ten units may be applied toward graduation. Advanced study in the Humanities. May be repeated for credit.

HUM 595C. Independent Study in the Humanities. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, including approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. A total of ten units may be applied toward graduation. Advanced study in the Humanities. May be repeated for credit.

HUM 595D. Independent Study in the Humanities. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, including approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. A total of ten units may be applied toward graduation. Advanced study in the Humanities. May be repeated for credit.

HUM 595E. Independent Study in the Humanities. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, including approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. A total of ten units may be applied toward graduation. Advanced study in the Humanities. May be repeated for credit.

HUM 597. Senior Assessment in Liberal Studies. 2 Units.
Prerequisites: HUM 397 and completion of at least 135 units in the B.A. in Liberal Studies and completion of a minimum of three courses in the concentration Liberal Studies students will complete and submit their portfolios for evaluation. A reflective essay on required aspects of subject matter preparation is a required component and is used to introduce the portfolio. Required for graduation. Graded ABC/no credit.

HUM 628A. Special Projects. 1 Unit.
Prerequisites: graduate standing and consent of instructor Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. A total of eight units may apply toward graduation.

HUM 695A. Directed Graduate Studies. 1 Unit.
Graduate-level independent study under the direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of dean of graduate studies. A total of eight units may apply toward graduation.

HUM 695B. Directed Graduate Studies. 2 Units.
Graduate-level independent study under the direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of dean of graduate studies. A total of eight units may apply toward graduation.

HUM 695C. Directed Graduate Studies. 3 Units.
Graduate-level independent study under the direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of dean of graduate studies. A total of eight units may apply toward graduation.

HUM 695D. Directed Graduate Studies. 4 Units.
Graduate-level independent study under the direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of dean of graduate studies. A total of eight units may apply toward graduation.

HUM 695E. Directed Graduate Studies. 5 Units.
Graduate-level independent study under the direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of dean of graduate studies. A total of eight units may apply toward graduation.

HUM 695F. Directed Graduate Studies. 6 Units.
Graduate-level independent study under the direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of dean of graduate studies. A total of eight units may apply toward graduation.

HUM 699A. Thesis. 1 Unit.
Prerequisites: advancement to candidacy Preparation of Master of Arts thesis under the direction of a faculty member approved by the committee on graduate education. Maximum of nine credits applicable toward the Master of Arts, with a special major.

HUM 699B. Thesis. 2 Units.
Prerequisites: advancement to candidacy Preparation of Master of Arts thesis under the direction of a faculty member approved by the committee on graduate education. Maximum of nine credits applicable toward the Master of Arts, with a special major.
HUM 699C. Thesis. 3 Units.
Prerequisites: advancement to candidacy
Preparation of Master of Arts thesis under the direction of a faculty member approved by the committee on graduate education. Maximum of nine credits applicable toward the Master of Arts, with a special major.

Information Systems and Tech (IST)

Courses

IST 101. Introduction to Information Technology. 4 Units.
Introduction to information technology concepts and skills. Survey of current computer hardware and software, their use in organizations, and attending ethical issues. An introduction to popular software applications (word processing, spreadsheets, and presentation graphics). No prior computer experience required. May not be taken for credit by students who have received credit for both INFO 102 and 103. Three hours lecture and two hours activity laboratory.

IST 150. Web Publishing. 4 Units.
Prerequisites: IST 101 or consent of instructor
Basic web page development and web site planning. Topics include web site planning, web page design and HTML. Students will demonstrate proficiency in web design tools, skills and practices.

IST 160. Computer Graphics for the Internet. 4 Units.
Prerequisites: IST 101 or consent of instructor
Introduction to computer graphic design and tools for web page development. Topics include digital photography, graphic design, animation and digital sound for the Internet. Students will demonstrate proficiency in graphic design tools, skills and practices.

IST 215. Cyber Security. 4 Units.
Prerequisites: IST 101 or consent of instructor
Study in information assurance and systems security for information systems professionals. Creates a sensitivity to the threats and vulnerabilities to information systems, recognition of the need to protect data, and information for processing them. Topics include concepts of systems security, network infrastructure, access control, assessment and audits, cryptography and organizational security. Formerly IST 410.

IST 274. Data Base Management and Policies. 4 Units.
Prerequisites: IST 101 or consent of instructor
Fundamentals of data base design and use. Topics include data base application in organizations, end user needs analysis, logical data base design, data integrity and data base security. Students design and create working applications using a popular business data base program. Information classification, management and disposal practices are explored.

IST 275. Information Networking and Security. 4 Units.
Prerequisites: IST 101 or consent of instructor
Data communications field for the business student including the introductory topics of hardware, software, protocols, channels, modems, local area networks, wide area networks and various applications. Students will gain hands-on experience with current popular data communication systems. Security concepts including policies, access control and network assessment are covered.

IST 276. Systems Analysis and Design. 4 Units.
Prerequisites: IST 101 or consent of instructor
Traditional systems analysis and design methods and tools, including the role of the systems analyst, feasibility studies, modeling technique systems design, reporting and documentation, documentation standards, certification testing and system accreditation practices, and implementation strategies. Students will develop conceptual, analytical and practical skills in modeling organizational processes.

IST 280. Information Mapping and Data Visualization. 4 Units.
Prerequisites: IST 101 or consent of instructor
Introduction to concepts and tools of data visualization. Together with traditional charting and graphing methods, students are introduced to the use of geographic information systems (GIS). Using spatial modeling tools and quantitative methods, the course provides students with practical applications for converting data into information.

IST 282. Business Systems I. 4 Units.
Prerequisites: IST 101 or consent of instructor
An introduction to business system development in an object-oriented environment. Emphasizes object-oriented programming in a graphical user interface environment. Object-oriented concepts are applied to computer problem solving. Knowledge of computer programming is not essential.

IST 305. Enterprise Systems. 4 Units.
Prerequisites: IST 101
Foundation for enterprise systems resource planning and implementation, including supply chain management modeling and operations planning. Students will learn to configure and apply an enterprise systems software. (Also offered as SCM 305. Students may not receive credit for both.)

IST 309. Information Systems and Technology. 4 Units.
Prerequisites: IST 101
Application of computer systems in organizations. Topics include information systems planning, information forecasting, information technology, information processing, information assurance and security, risk assessment, allocating resources and legal concepts.

IST 372. Information Technology. 4 Units.
Prerequisites: IST 309 or consent of instructor
Basic computer hardware, software, maintenance and training technologies including hardware components, operating system functions, information systems maintenance strategies for the organization, and end-user training options. Security practices such as network access, data disposal, introductory forensics and facilities planning are also explored. Hands-on experience with different computer hardware, operating systems and software utilities. Formerly INFO 472.
IST 378. Problem Solving and Risk Management. 4 Units.
Prerequisites: IST 309 or consent of instructor
Systematic approaches to problem solving and decision making. Students will learn behavioral and organizational decision making processes relating to their roles as both manager and information systems designer. Topics include recognizing and defining the problem, troubleshooting, individual and group decision making, risk management, incident handling, threat assessment, allocating resources, and implementation strategies. Formerly INFO 478.

IST 415. Security Systems Management. 4 Units.
Prerequisites: IST 215 or consent of instructor
Advanced study in the theory and practice of security systems management and the process of approval to operate. Analyze and judge information for the validity and reliability to ensure the system will operate at the proposed level of trust. Topics include information systems architecture, system security measures, system operations policy, system security management planning, legal and ethical considerations, and provisions for system operator and end user training. Course meets Senior Systems Manager (SSM) standards established by the federal government (CNSS 4012).

IST 474. Advanced Data Base Management and Information Assurance. 4 Units.
Prerequisites: IST 274 and IST 309, or consent of instructor
Advanced computer data base concepts and skills including: data modeling, Structured Query Language (SQL), and client-server applications. Also covers Data Base System Administration issues: data certification/classification, life cycle, access control, and legal requirements. Students will create applications using an advanced data base program package.

IST 475. Advanced Information Networking and Security. 4 Units.
Prerequisites: IST 275 and IST 309, or consent of instructor
Advanced computer networking and their application in organizations. Students will learn current computer network strategies and create advanced network applications. Security emphasis includes threats and countermeasures, wireless security, security requirements, access control practices.

IST 476. Advanced Systems Analysis and Design. 4 Units.
Prerequisites: IST 276 and IST 309, or consent of instructor
Advanced analysis, design and implementation of information systems for organizations, including data, process and network modeling techniques; structured, information engineering and object-oriented approaches to systems design; systems testing methods; documentation standards, certification testing and system accreditation practices; copyright and legal issues; implementation strategies and project management.

IST 480. Advanced Information Mapping and Visualization. 4 Units.
Prerequisites: IST 280 and 309, or consent of instructor
Advanced study in and implementation of data visualization methods. Integration of information mapping, forecasting and data base tools and concepts to solve problems and support decision making. Students will learn and apply a popular geographic information system (GIS) to typical organizational problems.
**IST 590. Seminar in Information Systems and Technology. 4 Units.**
Prerequisites: the upper-division writing requirement
An intensive study of some phase of information systems and technology to be developed by the instructor. May be repeated for credit as topics change.

**IST 595B. Independent Study. 2 Units.**
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

**IST 595D. Independent Study. 4 Units.**
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

**IST 609. Information Systems and Technology Management. 4 Units.**
Advanced applications of computer and information systems in organizations. Topics include information management planning, information technologies, information assurance and security, risk assessment, resource allocation and information based management.

**IST 610. Information Assurance Policy and Management. 4 Units.**
Information security from a system-wide perspective, beginning with a strategic planning process. Includes policies, procedures and functions necessary to organize and administer ongoing security functions in an organization. Topics include security practices, architecture and models, continuity planning and disaster recovery. Designed to incorporate the Committee for National Security Systems (CNSS) 4011 and 4012 standards.

**IST 623. Entrepreneurial Information Management. 4 Units.**
Prerequisites: IST 609
Explores the use of current personal computing technology upon entrepreneurial organizations and management. Topics will include e-commerce, web-based business strategies, commerce security and privacy, and computer software used by entrepreneurs.

**IST 645. Information Systems Analysis and Design. 4 Units.**
Prerequisites: IST 609
Managerial perspective of the methods used in the design and maintenance of computer based information systems. Issues in systems design, from project identification to implementation and maintenance, documentation standards, certification testing and system accreditation practices, copyright and legal issues will be presented. Tools and principles related to newer techniques such as joint application development and object oriented data base design.

**IST 646. Information Systems Planning, Strategy and Policy. 4 Units.**
Prerequisites: IST 609
Information systems planning, strategy and policy are necessary for an organization to deploy, manage and control its information resources. Takes the view of the Chief Information Officer integrating information systems with the business strategy and information needs of the organization through the process of information systems strategic planning and policy development. Information and security architecture theory, tools, assessments, methodologies and practice are applied.

**IST 647. Information Based Management. 4 Units.**
Prerequisites: IST 609
Advanced theory and application of data base management in organizations. Topics include managers need for information, elements of a data base, types of data bases, difference in data bases, administration issues, data certification/classification, life cycle, access control, and legal requirements.

**IST 648. Information Networking Systems and Security. 4 Units.**
Prerequisites: IST 609 or consent of instructor
Advanced study of developing, implementing, securing and managing information networks. Topics include use of hardware, software, routers, wireless communications, and Voice over IP. Management issues such as access control, privacy, protocol security and policies are also explored.

**IST 650. Information Decision Systems. 4 Units.**
Prerequisites: IST 609 and SCM 607
Concepts, principles, practices and tools needed to support the management decision making process. Both static and dynamic models of information management related to decision making will be explored. Specific topics include risk management, incident handling, threat assessment, allocating resources and system certification. (Also offered as SCM 650. Students may not receive credit for both.).

**IST 670. Business Geographical Information Systems Strategies. 4 Units.**
Prerequisites: IST 609 or consent of instructor
Advanced studies in the use of geographical information systems (GIS) for developing solutions to business problems. Topics include the role of location on various organizational performance measures, how to analyze, interpret and display business related spatial data, and various methodological issues in deploying GIS in an organizational environment.

**IST 675. Internship. 4 Units.**
Prerequisites: consent of instructor and department's internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.
IST 678. Risk Management and Problem Solving. 4 Units.
Advanced study to critical thinking, problem solving, decision making and risk management. Students will learn behavioral and organizational decision making processes relating to their roles as both information systems analyst, designer, and risk manager. Topics include recognizing and defining the problem using structured analysis techniques, troubleshooting, individual and group decision making, the NIST risk management framework, risk analysis, incident handling, threat assessment, allocating resources, and implementation strategies.

IST 680. International Electronic Commerce. 4 Units.
Prerequisites: IST 609
Information technology in international business including: electronic data interchange, information technology in transnational firms. Managing information through international strategic alliances, corporate factors affecting global IT requirements, transnational information technology policy issues, transborder data flows and IT architecture for electronic commerce.

IST 684. Data Warehousing and Business Intelligence. 4 Units.
Design and management of data warehouse (DW) and business intelligence (BI) systems. Using DW tools to collect, integrate, and mine the organization’s big data. Focus is on aggregation of data to enhance visualization, Extract, Transform, Load (ETL), data schema design, data security, on demand data access, ERP systems, report generation, managing the ERP project, OLAP, cube design, and understanding big data.

IST 691. MSIST Culminating Project. 4 Units.
Prerequisites: completion of 40 units in the program or the consent of the College of Business and Public Administration Director of Graduate Programs
Culminating experience course provides the student an opportunity to become skilled practitioners and managers by applying knowledge gained from the MSIST program to solve a substantive business problem. Only full-time tenured and tenure-track faculty are allowed to serve as the chairs of the student’s MSIST culminating project. Two hours seminar and two hours business assessment project.

IST 695. Graduate Project. 4 Units.
Prerequisites: advancement to candidacy, written approval of students graduate project committee and graduate director
Independent graduate research in information systems and technology. Project will be under direction of a faculty member.

IST 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
IST 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 995. MSIST Portfolio. 0 Units.
Prerequisites: completion of 32 units in the program
Preparation and submission of a portfolio containing assignments representing successful work in the MSIST program, accompanied by a reflective essay showing how the portfolio demonstrates the accomplishment of the goals of the program. Graded Credit/no credit.

Education-Instructional Technology (ETEC)

Courses

ETEC 500. Foundations in Instructional Education. 4 Units.
Introduction to instructional technology and its foundations. Includes electronic media, operating systems, networks and multimedia in educational and corporate environments. This is a prerequisite for all other ETEC courses; an IT orientation with program faculty/advisors will be part of the first week of the course. Formerly ETEC 547.

ETEC 501. Foundations of e-Learning. 4 Units.
Introduction to theoretical and practical foundations of e-Learning. Explorations of history, trends, current issues, and practices of e-Learning.

ETEC 537. Computer Based Technology in Education I. 4 Units.
Operations, terminology and components of computing systems. Emphasis on the appropriate use of computer-based technology for information collection, analysis and management in the instructional setting. No programming or previous computer experience required. With program approval, students may take CSE140 or CSE 141 in lieu of ETEC 537. One hour lecture and two hours laboratory. Meets Level I competencies for the preliminary credential.

ETEC 541. E-Learning Design and Development. 4 Units.
Examination and application of e-Learning design and development principles and practices.
ETEC 542A. Seminar in Instructional Technology. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Graded credit/no credit.

ETEC 542B. Seminar in Instructional Technology. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Graded credit/no credit.

ETEC 542C. Seminar in Instructional Technology. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Graded credit/no credit.

ETEC 542D. Seminar in Instructional Technology. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Graded credit/no credit.

ETEC 543. Technology and Learning I. 4 Units.
Prerequisites: ETEC 500
Explores connections between technology and the teaching and learning process through current research in instructional technology and learning theories.

ETEC 544. Design and Development of Instructional Materials I. 4 Units.
Prerequisites: ETEC 500
Examination of various models of instructional design and procedures used in the production of instructional materials.

ETEC 546. Computer Based Technology in Education II. 4 Units.
Application of computer-based technology for information collection, analysis and management to support teaching, learning and learning environments. Meets technology competencies for the professional credential. Three hours lecture and two hours laboratory.

ETEC 614. Needs Assessment: Issues and Techniques. 4 Units.
Prerequisites: ETEC 500, 543, and 544 or consent of instructor
Principles and techniques in identifying needs and discrepancies between status quo and ideal status from the perspectives of organizational and instructional development. Formerly ETEC 612.

ETEC 617. Instructional Development and Change Process. 4 Units.
Prerequisites: ETEC 500, 544, and 614 or consent of instructor
Theories and methods for evaluating each stage of instructional product development processes and change theory relate to adoption of instructional products. Formerly ETEC 611.

ETEC 621. Reading/Language Arts with Technology Integrations. 4 Units.
Prerequisites: ETEC 546 or equivalent
Using technology to enhance teaching of literacy and language. Emphasis is on building curriculum that effectively uses computers and other technology. Staff development and leadership in designing models of integration into language arts will be explored. Three hours lecture and two hours laboratory.

ETEC 623. Technology for Educational Leaders. 4 Units.
Prerequisites: ETEC 500 or consent of instructor
Assisting educational leaders in developing the knowledge and skills needed to apply computer technology to educational settings.

ETEC 624. Website Design and Development. 4 Units.
Prerequisites: ETEC 500. Formerly a topic under ETEC 676D
Planning, designing and developing dynamic websites for learning.

ETEC 625. Interactive Animation Design and Development. 4 Units.
Prerequisites: ETEC 500
Planning, designing, and developing vector graphics, animation and interactive multimedia for learning. Formerly a topic under ETEC 676D.

ETEC 634. Information Systems in Education. 4 Units.
Information systems providing history, current development and future potential of on-line and off-line data bases. Methods of search and retrieval of on-line and off-line information will be explored. Three hours lecture and two hours laboratory.

ETEC 643. Technology and Learning II. 4 Units.
Prerequisites: EDUC 607, ETEC 500 and 543
Explores connections between technology and the teaching and learning process through a study of research design, data collection and analysis. Emphasis on conducting research in instructional technology and learning theories for M.A. research project.

ETEC 644. Design and Development of Instructional Materials II. 4 Units.
Prerequisites: ETEC 500 and ETEC 544
Advanced application of instructional design models and procedures to produce instructional materials for the M.A. project.

ETEC 648. E-Learning Delivery and Evaluation. 4 Units.
Examination of various models, strategies, and issues of e-Learning delivery. Exploration of assessment on student learning and e-Learning effectiveness.

ETEC 674. E-Learning Technology and Media. 4 Units.
Examination of current technology tools and instructional methods for effective instruction on e-Learning.
ETEC 676B. Advanced Topics in Instructional Technology. 2 Units.
Intensive study of advanced topics such as multimedia, interactive communication technology, networking and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly ETEC 675.

ETEC 676C. Advanced Topics in Instructional Technology. 3 Units.
Intensive study of advanced topics such as multimedia, interactive communication technology, networking and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly ETEC 675.

ETEC 676D. Advanced Topics in Instructional Technology. 4 Units.
Intensive study of advanced topics such as multimedia, interactive communication technology, networking and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly ETEC 675.

ETEC 676E. Advanced Topics in Instructional Technology. 5 Units.
Intensive study of advanced topics such as multimedia, interactive communication technology, networking and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly ETEC 675.

ETEC 676F. Advanced Topics in Instructional Technology. 6 Units.
Intensive study of advanced topics such as multimedia, interactive communication technology, networking and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly ETEC 675.

ETEC 676G. Advanced Topics in Instructional Technology. 7 Units.
Intensive study of advanced topics such as multimedia, interactive communication technology, networking and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly ETEC 675.

ETEC 692. Practicum in Educational Technology. 4 Units.
Prerequisites: ETEC 500 or consent of instructor
Application of educational technology theories in field settings. Directed experiences in educational or corporate settings. Requires a written agreement with a sponsoring agency and departmental approval of that agreement. Graded credit/no credit.

ETEC 699. Masters Degree Project. 4 Units.
Assisting Instructional Technology Masters students in completing their M.A. project.

ETEC 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Interdisciplinary Studies (IS)

Courses

IS 387B. ARTS&SCI HUM ACTI. 7.5 Units.
IS 400. Research Ethics. 4 Units.
Covers Research Ethics (also known as Responsible Conduct of Research) and will include a Visiting Scholar seminar series and will cover use of animals and humans as research subjects, intellectual property, authorship, and research misconduct. The Visiting Scholars will talk about 1) their research project, 2) their career background (how and why did they choose this career path), and 3) advice on developing their scientific career. Open to all students. Meets the Responsible Conduct of Research training requirement for NIH and NSF grants.

IS 696A. Graduate Project. 1 Unit.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696B. Graduate Project. 2 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696C. Graduate Project. 3 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696D. Graduate Project. 4 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696E. Graduate Project. 5 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.
IS 696F. Graduate Project. 6 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696G. Graduate Project. 7 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696H. Graduate Project. 8 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 696I. Graduate Project. 9 Units.
Prerequisites: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the M.A.

IS 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
IS 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter during the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 699A. Graduate Thesis. 1 Unit.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699B. Graduate Thesis. 2 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699C. Graduate Thesis. 3 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699D. Graduate Thesis. 4 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699E. Graduate Thesis. 5 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699F. Graduate Thesis. 6 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699G. Graduate Thesis. 7 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699H. Graduate Thesis. 8 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

IS 699I. Graduate Thesis. 9 Units.
Prerequisites: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of nine credits applicable toward the Master of Arts.

Japanese (JAPN)

Courses

JAPN 101. College Japanese I. 4 Units.
Introduction to beginning level Japanese, including the basic structures of the written language. Emphasis is on listening, speaking, reading and writing. Formerly a topic under FLAN 101.

JAPN 102. College Japanese II. 4 Units.
Prerequisites: JAPN 101 or consent of department
Develops listening and active speaking skills with further development of reading and writing skills while expanding vocabulary of daily life. Formerly a topic under FLAN 102.

JAPN 103. College Japanese III. 4 Units.
Prerequisites: JAPN 102 or consent of department
(GE=C3)
Develops listening and speaking skills with emphasis on reading and writing skills. Emphasis on negotiating routine social situations and more complex tasks. Formerly JAPN 150.

JAPN 170. Beginning Japanese Conversation. 2 Units.
Practice of oral Japanese with emphasis on familiar surroundings, immediate needs, and basic survival skills. Graded credit/no credit. May be repeated up to three times for credit.
JAPN 201. Second Year College Japanese I. 4 Units.
Prerequisites: JAPN 103 or consent of department (GE=C3)
Further study of the language to attain proficiency in four language skills: listening, speaking, reading and writing. Students will improve fluency from class discussion on a variety of topics including social issues and aspects of Japanese culture.

JAPN 202. Second Year College Japanese II. 4 Units.
Prerequisites: JAPN 201 or consent of department (GE=C3)
Emphasis on the continued vocabulary and syntactic development of the language to attain proficiency in four language skills: listening, speaking, reading and writing.

JAPN 203. Second Year College Japanese III. 4 Units.
Prerequisites: JAPN 202 or consent of department (GE=C3)
Further development of proficiency in speaking, listening, reading, and writing. Further expansion of vocabulary enhances ability of students to understand and express more complex ideas and concepts.

JAPN 210. Japanese Calligraphy. 2 Units.
Prerequisites: JAPN 102 or equivalent
Instruction to Japanese calligraphy, its history and its development. Learn proper techniques as well as stylistic elements of calligraphy. May be repeated once for a total of 4 units.

JAPN 214. Conversation in Japanese. 4 Units.
Prerequisites: JAPN 103 or equivalent (GE=C3)
Practice of oral Japanese including current topics, panel discussions, debates, and oral presentations. Students will become familiar with day-to-day social and business expressions.

JAPN 275. Japanese Business Culture. 2 Units.

JAPN 290. Japanese Literature in Translation. 4 Units.
(GE=C3)
Introduction to Japanese literature read in English translation. Selection of writers and genres from classical and contemporary Japanese literature.

JAPN 301. Third-Year College Japanese. 4 Units.
Prerequisites: JAPN 203 or consent of department
First course in an upper-level sequence. Develops students' oral and written Japanese language skills, as well as knowledge of Japanese culture.

JAPN 302. Third-Year College Japanese II. 4 Units.
Prerequisites: JAPN 301 or consent of department
Second course in an upper-level sequence. Develops students' oral and written Japanese language skills, as well as knowledge of Japanese culture.

JAPN 303. Third-Year Japanese III. 4 Units.
Prerequisites: JAPN 302 or consent of department
Third course in an upper-level sequence in Japanese. Develops students' oral and written language skills, as well as knowledge of Japanese culture.

JAPN 310. Introduction to Japanese Literature. 4 Units.
Prerequisites: JAPN 203 or consent of department
Techniques of literary study and analysis. Emphasis on vocabulary development, written expression and comprehension.

JAPN 314. Advanced Conversation. 4 Units.
Prerequisites: JAPN 203 or consent of department
Practice of contemporary spoken Japanese through the reading and discussion of current topics.

JAPN 315. Language in Japanese Society. 4 Units.
Prerequisites: JAPN 203 or consent of department
Study of how language functions in contemporary Japanese society. Politeness, gender, language attitudes, the mechanics of cross-cultural misunderstanding, how language incorporates Japanese social constructs.

JAPN 370. Analysis of Japanese Culture through the Study of Film. 4 Units.
Analysis of selected classical and contemporary Japanese films. Taught in English, students will watch Japanese films with English subtitles. Explores Japanese culture as well as significant directors and their unique use of photography, music, literature, and scripting.

JAPN 399A. Community Service Project. 1 Unit.
Prerequisites: consent of department
Credit for applying previously learned skills in Japanese to academically related tasks in agencies as governmental, social service, and educational institutions. May be repeated for a total of six units towards the degree. Graded credit/no credit.

JAPN 399B. Community Service Project. 2 Units.
Prerequisites: consent of department
Credit for applying previously learned skills in Japanese to academically related tasks in agencies as governmental, social service, and educational institutions. May be repeated for a total of six units towards the degree. Graded credit/no credit.

JAPN 409. Business Japanese. 4 Units.
Prerequisites: JAPN 303 or consent of department
Introduction to business vocabulary of practices and socioeconomic issues in Japanese-speaking contexts.

Kinesiology (KINE)
Courses

KINE 101A. Individual and Dual Activities: Archery. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101B. Individual and Dual Activities: Badminton. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101C. Individual and Dual Activities: Bicycling. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101D. Individual and Dual Activities: Bowling. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101F. Individual and Dual Activities: Golf. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101G. Individual and Dual Activities: Gymnastics. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101N. Individual and Dual Activities: Racquetball. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101P. Individual and Dual Activities: Skiing-Alpine. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101Q. Individual and Dual Activities: Skiing-Nordic. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 101S. Individual and Dual Activities: Tennis. 2 Units.

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Graded ABC/no credit.

KINE 114A. Physical Fitness and Conditioning Activities: Body Conditioning. 2 Units.

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Graded ABC/no credit.

KINE 114B. Physical Fitness and Conditioning Activities: Circuit Training. 2 Units.

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Graded ABC/no credit.

KINE 114C. Physical Fitness and Conditioning Activities: Jogging. 2 Units.

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Graded ABC/no credit.

KINE 114E. Physical Fitness and Conditioning Activities: Weight Training. 2 Units.

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Graded ABC/no credit.

KINE 114F. Physical Fitness and Conditioning Activities: Yoga. 2 Units.

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Graded ABC/no credit.

KINE 120A. Somatic and Martial Arts Activities: Aikido. 2 Units.

Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120B. Somatic and Martial Arts Activities: Tai Chi. 2 Units.

Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.
KINE 120C. Somatic and Martial Arts Activities: Capoeira. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120D. Somatic and Martial Arts Activities: Judo. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120E. Somatic and Martial Arts Activities: Karate. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120F. Somatic and Martial Arts Activities: Self-Defense. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120G. Somatic and Martial Arts Activities: Cardio-Arts. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120H. Somatic and Martial Arts Activities: Fencing. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120I. Somatic and Martial Arts Activities: Wrestling. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Graded ABC/no credit.

KINE 120J. Somatic and Martial Arts Activities: Pilates. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected somatic and martial arts movement forms. Graded ABC/no credit.

KINE 120K. Somatic and Martial Arts Activities: Tae Kwon Do. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected somatic and martial arts movement forms. Graded ABC/no credit.

KINE 120L. Somatic and Martial Arts Activities: Sampler. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected somatic and martial arts movement forms. Graded ABC/no credit.

KINE 121A. Team Activities: Basketball. 2 Units.
(GE=E3)
Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Graded ABC/no credit.

KINE 121C. Team Activities: Flag Football. 2 Units.
(GE=E3)
Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Graded ABC/no credit.

KINE 121F. Team Activities: Soccer. 2 Units.
(GE=E3)
Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Graded ABC/no credit.

KINE 121G. Team Activities: Softball. 2 Units.
(GE=E3)
Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Graded ABC/no credit.

KINE 121J. Team Activities: Team Handball. 2 Units.
(GE=E3)
Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Graded ABC/no credit.

KINE 121K. Team Activities: Volleyball. 2 Units.
(GE=E3)
Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Graded ABC/no credit.

KINE 137A. Aquatic Activities: Lifeguard Training. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit. (Red Cross certification available.).

KINE 137C. Aquatic Activities: Basic and Emergency Water Safety. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit. (Red Cross certification available.).

KINE 137D. Aquatic Activities: Boating and Canoeing. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit. (Field trips required. Red Cross certification available.).
KINE 137F. Aquatic Activities: Scuba Diving. 2 Units.
Prerequisites: skin diving or consent of instructor (GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit. (Field trips required. NAUI certification available. Doctors physical examination required.)

KINE 137G. Aquatic Activities: Skin Diving. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit. (Field trips required. NAUI certification available.)

KINE 137H. Aquatic Activities: Springboard Diving. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit.

KINE 137J. Aquatic Activities: Swimming. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit.

KINE 137K. Aquatic Activities: Water Polo. 2 Units.
(GE=E3)
Instruction and practice of basic skills and techniques used in aquatic activities. Graded ABC/no credit.

KINE 137L. Advanced Swimming for Fitness. 2 Units.
(GE=E3)
Instruction and practice in the basic skills and techniques utilized in selected somatic and martial arts movement forms. Graded ABC/no credit. Intended for those who have already taken an introductory swim class or who have prior swimming ability. Advanced swimming drill and lap swim workouts.

KINE 137F. Outdoor Skills Activities: Backpacking. 2 Units.
Introduction to and practice of basic skills, equipment and safety techniques common to the spectrum of outdoor/wilderness activities. Field trips required. Graded ABC/no credit.

KINE 137B. Outdoor Skills Activities: Camping. 2 Units.
Introduction to and practice of basic skills, equipment and safety techniques common to the spectrum of outdoor/wilderness activities. Field trips required. Graded ABC/no credit.

KINE 137C. Outdoor Skills Activities: Mountaineering. 2 Units.
Introduction to and practice of basic skills, equipment and safety techniques common to the spectrum of outdoor/wilderness activities. Field trips required. Graded ABC/no credit.

KINE 146D. Outdoor Skills Activities: Orienteering. 2 Units.
Introduction to and practice of basic skills, equipment and safety techniques common to the spectrum of outdoor/wilderness activities. Field trips required. Graded ABC/no credit.

KINE 146E. Outdoor Skills Activities: Survival Skills. 2 Units.
Introduction to and practice of basic skills, equipment and safety techniques common to the spectrum of outdoor/wilderness activities. Field trips required. Graded ABC/no credit.

KINE 147. A Fitness Odyssey. 2 Units.
(GE=E3)
A self-paced exercise program and/or plan of study for the mature adult. Programs designed to fit individual life style needs on a contract basis following examination of past and present activity patterns. Graded ABC/no credit.

KINE 148. Leisure Sports. 2 Units.
Mild to moderately active leisure activities suited to the capabilities and interests of the mature adult. Graded ABC/no credit.

KINE 149. Independent Activity Project. 2 Units.
Prerequisites: consent of department chair (GE=E3)
Activity project designed to satisfy individual needs of students who cannot meet requirements of a regular activity class due to a medical, physical or other conflict; under the supervision of a faculty member. Graded ABC/no credit.

KINE 150A. Dance Activities: Aerobic. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150B. Dance Activities: Low-Impact Aerobic. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150C. Dance Activities: Step Aerobic. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150D. Dance Activities: Ballet. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150E. Dance Activities: Ethnic. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.
KINE 150F. Dance Activities: Jazz. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150G. Dance Activities: Modern. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150H. Dance Activities: Tap. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150I. Dance Activities: Country and Western. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150J. Dance Activities: Sampler. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 150K. Dance Activities: Social. 2 Units.
(GE=E3)
Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Graded ABC/no credit.

KINE 160. Women's Intercollegiate Activities. 2 Units.
Enrollment limited to members of intercollegiate sports teams. The intercollegiate activity units may not be substituted for physical education activity units in the undergraduate degree requirements. Volleyball, cross country, basketball, tennis, softball, water polo, soccer. Graded ABC/no credit. May be repeated.

KINE 190. Men's Intercollegiate Activities. 2 Units.
Enrollment limited to members of intercollegiate sports teams. The intercollegiate activity units may not be substituted for physical education activity units in the undergraduate degree requirements. Soccer, basketball, golf, baseball. Graded ABC/no credit. May be repeated.

KINE 200. First Aid. 2 Units.
Introduction to the emergency care and treatment of illnesses and injuries including training in cardiopulmonary resuscitation (CPR). May lead to certification in Standard First Aid from the American Red Cross and/or CPR from the American Heart Association.

KINE 203. Introduction to Recreation. 4 Units.
Orientation to recreation as a profession. Meaning, content, history, philosophy and scope of the field of recreation. Formerly PE 203.

KINE 205. Foundations for Lifetime Fitness and Wellness. 2 Units.
(GE=E1)
Introduction and discussion of the interrelationship of physical fitness and wellness. Benefits associated with physical activity, and how exercise on a regular basis contributes to the development of healthier lifestyles. Topics include: components of physical fitness (including assessment techniques), weight control, nutrition, stress management, health benefits of active lifestyles, and exercise guidelines for each area of fitness.

KINE 210. Introduction to Kinesiology. 2 Units.
Provides an overview of the discipline of kinesiology. Formerly KINE 210A. Two hours lecture.

KINE 237. Water Safety Instruction. 2 Units.
Prerequisites: KINE 137A or 137C or equivalent Materials and methods in organizing school, community and camp aquatic programs. Supervised practice in teaching aquatics. Meets standards for Red Cross certification. One hour lecture and three hours laboratory.

KINE 240. Exercise Science Software. 2 Units.
Examination and analysis of computer software utilized in exercise science, physical education and athletics. Content is consistent with skills necessary to prepare students as health fitness instructors by the American College of Sports Medicine. Four hours activity.

KINE 254. Field Experience. 2 Units.
Supervised off-campus observational field experience in a teaching, fitness or recreation setting. One hour lecture and three hours of observation.

KINE 261A. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Archery. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261B. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Badminton. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261C. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Dance. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261E. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Golf. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261F. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Gymnastics. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.
KINE 261G. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Racquetball. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261H. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Swimming. 2 Units.
Prerequisites: one of the following: KINE 137A, KINE 137C, KINE 137J, KINE 137K or KINE 137L
The development of the fundamental techniques and skills for teaching these activities.

KINE 261J. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Tennis. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261K. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Track and Field. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261L. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Aerobic Exercise. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261M. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Martial Arts. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261N. Professional Activity Prep in Individual and Dual Sports/Movement Forms: Strength and Conditioning. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 261O. Professional Activity Preparation in Individual and Dual Sports/Movement Forms: Yoga. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 263A. Professional Activity Preparation of Team Sports: Basketball. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 263B. Professional Activity Preparation of Team Sports: Football (Flag). 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 263C. Professional Activity Preparation of Team Sports: Soccer. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 263D. Professional Activity Preparation of Team Sports: Softball. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 263E. Professional Activity Preparation of Team Sports: Volleyball. 2 Units.
The development of the fundamental techniques and skills for teaching these activities.

KINE 267. Sports Officiating. 2 Units.
An introduction to contest rules and mechanics of officiating for selected sports. Personal and philosophical bases for successful officiating are examined.

KINE 270. Introduction to Fitness and Testing. 2 Units.
Understanding the scientific basis for assessing physical conditional, fitness, and strength development. Acquisition of the skills and techniques necessary for designing and evaluating fitness programs for specific applications. Four hours activity. Formerly KINE 261D.

KINE 271. Recreation Leadership. 4 Units.
Organization, supervision and administration of recreation programs and practical experience in recreation situations which provide the opportunity to develop leadership skills.

KINE 277. Recreation Programming. 4 Units.
Prerequisites: KINE 203 or 271
Materials and methods used in planning and conducting programs in recreation, such as social recreation, dramatics, arts and sports.

KINE 301. Service Learning in Kinesiology. 2 Units.
Prerequisites: KINE 210
Supervised activities in Kinesiology that provide service to campus or community constituents based on field experiences for students to link their coursework with the discipline of Kinesiology. Graded ABC/no credit. May be repeated for credit.

KINE 305. Prevention and Treatment of Sports Injuries. 4 Units.
Prerequisites: BIOL 223 and BIOL 224
Theories and methods in the prevention, assessment, treatment and rehabilitation of sports injuries. Four hours lecture, laboratory experiences included. KINE 280. Materials fee required.

KINE 310. History and Philosophy of Physical Activity. 4 Units.
The evolution of sport and physical activity including historical and philosophical influences from ancient societies through the present. Formerly PE 310. Four hours lecture.

KINE 311. Introduction to Adapted Physical Education. 4 Units.
Provides an overview of adapted physical education. May not be taken for credit by students who have received credit for KINE 210B. Three hours lecture and two hours field experiences with individuals with disabilities.
KINE 323. Sociology of Physical Activity. 4 Units.
Sociocultural aspects of sport and physical activity, including socialization process, social issues, reflection of social values and interaction with other social institutions. Four hours lecture.

KINE 324. Psychology of Physical Activity. 4 Units.
A behavioral science perspective is used to examine sport and physical activity, including motivation, personality, anxiety, aggression, group cohesion. Includes theoretical foundations and practical application. Four hours lecture.

KINE 325. Motor Development Across the Lifespan. 4 Units.
Concepts of growth and motor development of human beings throughout the lifespan. Major emphasis on the period of birth through adolescence. Four hours lecture with demonstrations.

KINE 330. Movement Skill Assessment for Individuals with Disabilities. 4 Units.
Prerequisites: KINE 311
Analysis of motor skills for the purpose of conducting meaningful assessment for individuals with disabilities.

KINE 332. The Nature and Issues Concerning Individuals with Disabilities. 4 Units.
Key initial adapted physical education core competencies about the nature and issues associated with disabling conditions across the lifespan. Course required for the California Adapted Physical Education Specialist Credential.

KINE 333. Applied Behavior Management. 4 Units.
Applied behavior management strategies that have relevance and application to teaching physical education. Strategies to manage, motivate, and teach responsible behaviors in a variety of physical activity settings for individuals with and without disabilities. Emphasis is on single-subject applied research design. Course required for the California Adapted Physical Education Specialist Credential.

KINE 334. Seminar in Adapted Physical Activity. 4 Units.
Selected topics and personalities, both enduring and contemporary and significant to adapted physical activity (APA) and adapted physical education (APE). Course required for the California Adapted Physical Education Specialist Credential.

KINE 343. Methods and Techniques of Coaching. 4 Units.
Strategies, practice organization and planning for coaching of athletic teams. The purpose of school athletics, public relations responsibilities and personal qualities for success are examined.

KINE 352. Movement for Children. 4 Units.
The study and analysis of movement for children. Includes the structure of movement, the integration of movement activities and the human development aspects of movement.

KINE 360. Physical Activity and Aging. 4 Units.
Examination of the neurological and physiological changes associated with the aging process from post-adolescence through the senior years. Includes information concerning special planning, implementing and evaluation of adult oriented physical activity programs. Content is consistent with skills necessary to prepare students as a health and fitness specialist by the American College of Sports Medicine. Two hours lecture.

KINE 365. Outdoor Education and Camp Leadership. 4 Units.
Knowledge, concepts and techniques for the administration and organization of camps and for working with people in the out-of-doors. Includes a supervised leadership experience and field trips to observe camp facilities, programs and resources.

KINE 370. Measurement and Statistics in Kinesiology. 4 Units.
Prerequisites: completion of the general education requirement in mathematics
Selection, application and interpretation of evaluative measures used in pedagogical and in exercise science settings. Includes both descriptive and inferential statistics. Specific attention will be given to parametric techniques. Four hours lecture.

KINE 380. Advanced Assessment and Rehabilitation of Athletic Injuries. 4 Units.
Prerequisites: KINE 305
Study of specific techniques of injury evaluation and assessment. Development and application of rehabilitation programs. Four hours lecture plus eight hours of arranged fieldwork per week.

KINE 382. Nutrition for Health, Fitness and Sports. 4 Units.
Addresses nutrition needs of active people and athletes. Topics include, but not limited to macro and micro nutrient requirements for fitness and sport, popular nutrition supplements and ergogenic aids. (Offered as HSCI 382 and KINE 382. Students may not receive credit for both.) Four hours lecture. Recommended: BIOL 224.

KINE 385. Diversity Issues in Sport and Physical Activity. 4 Units.
Exploration of how historical and contemporary forces in society have shaped the opportunities and experiences of various cultural groupings in American sport and physical activity settings. Focuses primarily on diversity issues related to race, gender, social class, sexuality, religion and physical ability/disability in American sport.

KINE 410. Motor Control and Skill Learning. 4 Units.
A psychological and neurological level of analysis of the factors that influence the acquisition and retention of gross motor skills with emphasis on the role of the sensory and motor control reflexes. Content is consistent with skills necessary to prepare students as a health and fitness specialist by the American College of Sports Medicine. Four hours lecture. Formerly KINE 320.

KINE 454. Field Experience II. 3 Units.
Prerequisites: KINE 254 or consent of instructor
Supervised leadership experience in a teaching or fitness setting.
KINE 471. Exercise Science Program Management. 4 Units.
Management and supervisory philosophies involved in administering fitness facilities. Includes scheduling, budgeting, public relations, legal liability, planning, supervision of personnel, and evaluation of programs and personnel. Four hours lecture.

KINE 472. Program Design in Physical Education. 4 Units.
Prerequisites: KINE 210
Basic skills necessary to design, implement and evaluate effective physical education programs in public schools. Formerly KINE 470. Four hours lecture.

KINE 473. Instructional Strategies in Physical Education. 4 Units.
Prepares future physical educators with skills to translate goals and objectives in the teaching-learning process into effective teaching behaviors. Four hours lecture. Formerly KINE 355.

KINE 479. Qualitative Biomechanics. 5 Units.
Prerequisites: BIOL 223, BIOL 224 and MATH 110
Analysis of movement and application of physical laws to human performance from a qualitative perspective. Four hours lecture and three hours laboratory.

KINE 480. Biomechanics. 5 Units.
Prerequisites: BIOL 223 and BIOL 224 and MATH 110 or MATH 120, OR MATH 211. Recommended: MATH 120 and PHYS 100
Application of physical laws to human performance; analytical and quantitative processes emphasized. Four hours lecture and three hours laboratory.

KINE 481. Exercise Physiology. 5 Units.
Prerequisites: BIOL 223 and BIOL 224
Effects of physical activity on the physiological systems of the human body. Four hours lecture and three hours laboratory.

KINE 482. Contemporary Fitness Programs. 4 Units.
Analysis of contemporary methods and technologies used in fitness programs. Critiques made in light of research findings and practical applications. Formerly PE 420 and 482.

KINE 483. Exercise Prescription. 4 Units.
Prerequisites: KINE 481, KINE 485, and KINE 486
Development of assessment skills, exercise prescription modules and training schedules for normal, high level fitness and special populations. Content is consistent with skills necessary to prepare students as a health and fitness specialist by the American College of Sports Medicine. Three hours lecture and three hours laboratory. Materials fee required.

KINE 485. EKG Interpretation. 2 Units.
Prerequisites: KINE 481
Introduction to electrocardiography. Basic concepts of EKG interpretation including electro-physiology, arrhythmia, electrode placement for both resting and graded exercise testing. Content is consistent with skills necessary to prepare students as a health and fitness specialist by the American College of Sports Medicine. Materials fee required. Four hours activity. Laboratory included.

KINE 486. Instrumentation in Exercise Science. 2 Units.
Prerequisites: KINE 481
Prepares students to calibrate and operate basic physiological equipment used in fitness assessment. Content is consistent with skills necessary to prepare students as a health and fitness specialist by the American College of Sports Medicine. One hour lecture and three hours laboratory. Materials fee required.

KINE 490. Senior Seminar in Kinesiology. 2 Units.
Prerequisites: senior standing or consent of instructor
Selected topics significant to the discipline of kinesiology. Two hours seminar.

KINE 493. Observational Field Experience in Exercise Science and Allied Health Professions. 2 Units.
Prerequisites: consent of instructor
Observational field experience (on or off-campus) in exercise testing, monitoring, and programming. Observation of professional and standard of care practices is consistent with American College of Sports Medicine practitioners is expected. One hour lecture and three hours of observation.

KINE 499. Methods and Materials in the Teaching of Physical Education. 4 Units.
Prerequisites: ESEC 332, senior or graduate standing and admission to the Single Subject Credential Program or consent of the College of Natural Sciences
Individualized instruction in the methods and materials for the teaching of physical education.

KINE 580. Exercise, Energy and Human Performance. 4 Units.
Prerequisites: KINE 481
Energy demands and dietary adjustments required in physical performance with emphasis on high intensity activities. Consideration of climactic factors, ergogenic aids and synthetic substance ingestion.

KINE 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Experimental effort, field or library research conducted under the direction of a faculty member. A total of six units may apply toward graduation.

KINE 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Experimental effort, field or library research conducted under the direction of a faculty member. A total of six units may apply toward graduation.
KINE 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Experimental effort, field or library research conducted under the direction of a faculty member. A total of six units may apply toward graduation.

KINE 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Experimental effort, field or library research conducted under the direction of a faculty member. A total of six units may apply toward graduation.

KINE 600. Graduate Seminar. 2 Units.
Examination of selected disciplinary and professional issues in physical education through critical analysis of literature and research findings.

KINE 623. Sport and Social Issues. 4 Units.
Social aspects of sport including social values, race, gender, ethnicity and social deviance. Formerly PE 623 and 630.

KINE 624. Sport Psychology. 4 Units.
The study of underlying psychological factors in sports. To include educational implications, strategies with young athletes, and dynamics of the sport group.

KINE 630. Physical Education for Special Populations. 4 Units.
Physical activity assessment, and program development for individuals with disabilities.

KINE 670. Leadership in Physical Education. 4 Units.
Theory and analysis of leadership behavior in physical education. Emphasis on developing leadership knowledge, qualities, and skills applicable to diverse physical activity settings.

KINE 681. Exercise and Sport Science. 4 Units.
Includes discussion of physical activity and fitness across the lifespan, adaptations in exercise testing protocol and exercise prescription for individuals with disabilities, and epidemiological research of health benefits associated with physical activity and fitness. Emphasis on issues of childrens fitness and assessment.

KINE 685. Analysis of Human Movement. 4 Units.
Theory and application of techniques used to analyze and describe human movement.

KINE 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing.
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Korean (KOR)

Courses

KOR 101. College Korean I. 4 Units.
Introduction to beginning level Korean, including the basic structures of the written language. Emphasis is on listening, speaking, reading and writing. Formerly FLAN 101K.

KOR 102. College Korean II. 4 Units.
Prerequisites: KOR 101 or consent of department.
Develops listening and active speaking skills with further development of reading and writing skills while expanding vocabulary of daily life. Formerly FLAN 102K.

KOR 103. College Korean III. 4 Units.
Prerequisites: KOR 102 or consent of department (GE=C3)
Develops listening and speaking skills with emphasis on reading and writing skills. Emphasis on negotiating routine social situations and more complex tasks. Formerly Flan 150K.

KOR 170. Beginning Korean Conversation. 2 Units.
Practice of oral Korean with emphasis on familiar surroundings, immediate needs, and basic survival skills. Graded credit/no credit. May be repeated up to three times for credit.

KOR 201. Second Year College Korean I. 4 Units.
Prerequisites: KOR 103 or consent of department (GE=C3)
Second year course in modern Korean. Develops proficiency in listening, speaking, reading and writing, with a cultural emphasis. Students learn useful expressions and communication strategies for everyday situations in the language.

KOR 202. Second Year College Korean II. 4 Units.
Prerequisites: KOR 201 or consent of department (GE=C3)
Continuation of second year Korean. Provides students with further conversational and grammatical skills beyond those learned in KOR 201. Emphasis on communicative skills, speaking, reading, and writing with more complex structures in Korean.

KOR 203. Second Year College Korean III. 4 Units.
Prerequisites: KOR 202 or consent of department (GE=C3)
Further development of proficiency in speaking, listening, reading, and writing. Further expansion of vocabulary enhances ability of students to understand and express more complex ideas and concepts.

KOR 214. Conversation in Korean. 4 Units.
Prerequisites: KOR 103 or equivalent (GE=C3)
Practice of oral Korean including current topics, panel discussions, debates, and oral presentations. Students will become familiar with day-to-day social and business expressions.
KOR 301. Advanced Korean I. 4 Units.
Prerequisites: KOR 203 or equivalent or consent of department
First course in an advanced-level sequence. Develops students' oral and written Korean language skills, as well as knowledge of Korean culture.

KOR 302. Advanced Korean II. 4 Units.
Prerequisites: KOR 302 or consent of department
Second course in an advanced-level sequence. Develops students' oral and written Korean language skills, as well as knowledge of Korean culture.

KOR 303. Advanced Korean III. 4 Units.
Prerequisites: KOR 302 or consent of department
Third course in an advanced-level sequence in Korean. Develops students' oral and written language skills, as well as knowledge of Korean culture.

KOR 314. Advanced Korean Conversation. 4 Units.
Prerequisites: KOR 203 or consent of department
Practice of contemporary spoken Korean through the reading and discussion of current topics.

KOR 315. Language in Korean Society. 4 Units.
Prerequisites: KOR 203 or equivalent
Study of how language functions in contemporary Korean society. Analysis of politeness, gender, language attitudes, the mechanics of cross-cultural misunderstandings, and how language incorporates Korean social constructs.

KOR 409. Business Korean. 4 Units.
Prerequisites: KOR 203 or consent of department
Introduction to business vocabulary, practices, and socioeconomic issues in Korean-speaking contexts.

Management (MGMT)

Courses

MGMT 100. Introduction to Business and Public Administration. 4 Units.
Introduction to the administrative process. Strategies to achieve success in business and public careers. Includes the development of administrative theories and practices and provides an overview of the functional areas of business and public administration. Examines the questions of ethics, small business management and the global aspects of administration.

MGMT 230. Business Law. 4 Units.
An introduction to statutory and common law developments impacting commercial transactions. Emphasizes principles of contract law and sale of goods under the Uniform Commercial Code. Additional topics include business organizations, commercial paper and secured transactions.

MGMT 302. Management and Organizational Behavior. 4 Units.
Introduction to management as it affects operations and the behavior of people in relation to the functional fields of administration. Selected behavioral concepts analyzed with respect to applications in management. Offered as MGMT 302 and PSYC 302. Students may not receive credit for both.

MGMT 306. Expository Writing for Administration. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement and a minimum of 90 quarter (60 semester) units of college credit
Writing related to business and public administration including documented research reports, summaries and analytical papers. Revision and rewriting will be required. Course fulfills the graduation requirement in writing proficiency. May not be counted for fulfilling concentration requirements for any degree program offered by the College of Business and Public Administration. No more than one of the expository writing courses (EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be taken for credit. Students who have received a grade of no credit in any combination of the expository writing courses two or more times must meet with the 306 coordinator or designee to design a developmental writing plan as a condition for enrolling for a third quarter. All students must obtain junior status at the time of registration or their course request will be cancelled. Formerly MGMT 495. Graded A, B, C/no credit.

MGMT 330. Legal Environment of Business. 4 Units.
Prerequisites: MGMT 230
Study of the legal system; nature and source of law as applied to business activity; statutes and significant cases involving business policies; effect of public policies on private enterprise system.

MGMT 335. Business, Ethics, and Society. 4 Units.
Prerequisites: the upper-division writing requirement
Social and legal factors influencing business; social expectations for ethical conduct and corporate social responsibility (CSR); role of business in alleviating societies problems; problems and issues of current concern regarding women and minorities in management; business and society in a global context.

MGMT 350. Administrative Communications. 4 Units.
Prerequisites: the upper-division writing requirement
Introduction to communication theory. Concepts, analysis and methods of improvement for interpersonal communication, communication within organizations and communication between organizations and their external environments.

MGMT 402. Studies in Organizational Behavior. 4 Units.
Prerequisites: MGMT 302 or PSYC 302
Review and presentation of selected areas of behavioral science research and its application to management practices. Selected subjects may include: motivation, communication, change and leadership.

MGMT 405. Managing Across Borders. 4 Units.
Prerequisites: MGMT 302 or PSYC 302
Identification of the diverse factors and actors that shape the global business environment. Comparative analysis of management practices in various cultures with emphasis on sociocultural, political and economic influences. Balancing of local responsiveness and global integration, and decision-making skills for managing across borders are emphasized.
MGMT 406. International Business Law. 4 Units.
Comparison and contrast of the various dimensions of international business transactions. General legal framework in which international business is conducted; competing national laws and courts systems with respect to a variety of typical international business problems; international institutions and prospects for internationalizing the legal treatment of transnational business operations.

MGMT 407. Comparative Management Systems of the Americas. 4 Units.
Comparative analysis of private and public sector organizations and corresponding management systems currently operating throughout the Americas. Examination of the structure and management systems of private and public sector organizations in different American countries and the trade patterns among these nations.

MGMT 408. Managing in Europe. 4 Units.
Identification of the diverse factors and actors that shape the business environment in one or more nations in Europe. Comparative analysis of management practices and leadership challenges and approaches for navigating sociocultural, political and economic contexts.

MGMT 451. Organization and Management Theory. 4 Units.
Prerequisites: MGMT 302 or PSYC 302
Development and analysis of organization and management theory. Comparative analysis seeking patterns and systematic explanation of differences among organizations. Dynamics of interaction between organizations and environment.

MGMT 452. Leading Effectively and Ethically. 4 Units.
Prerequisites: MGMT 302 or PSYC 302
Relevant theories and concepts for leading individuals and groups effectively and for developing ethical awareness to respond appropriately to ethical dilemmas.

MGMT 459. Work Group Management. 4 Units.
Prerequisites: MGMT 302 or PSYC 302
Examination of the dynamics of task-oriented groups in American and international environments, utilizing both conceptual and experiential learning.

MGMT 490. Strategic Management. 4 Units.
Prerequisites: completion of the upper-division administration core courses (one course may be taken concurrently), the upper-division writing requirement, and senior standing
This college capstone course develops an overall general manager's perspective of strategic management and competitive strategy integrating knowledge from accounting, finance, information and decision sciences, management, marketing, public policy, and supply chain management. Coverage includes competitive strategy for global, national and regional/local business and managerial concerns regarding social and environmental issues.

MGMT 515. Business Consulting. 4 Units.
Prerequisites: senior status, consent of instructor and college
Supervised consulting assignments designed to provide meaningful business assistance to businesses.

MGMT 520. Legal Regulation of Intellectual Property. 4 Units.
Prerequisites: MGMT 230 and 330
Analysis of federal, state and international law on intellectual property and technology, including principles of contract law, intellectual law, taxation law, tort law, anti-trust law and criminal law with respect to technology and intellectual property.

MGMT 526. Global Entrepreneurship. 5 Units.
Entrepreneurial process in a global context as it relates to recognizing ideas, marshaling resources, developing networks and creating the strategy for a new cross-border venture.

MGMT 575. Internship. 4 Units.
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

MGMT 590B. Seminar in Management. 2 Units.
Intensive study of some phase of management to be developed by the instructor. May be repeated for credit as topics change.

MGMT 590C. Seminar in Management. 3 Units.
Intensive study of some phase of management to be developed by the instructor. May be repeated for credit as topics change.

MGMT 590D. Seminar in Management. 4 Units.
Intensive study of some phase of management to be developed by the instructor. May be repeated for credit as topics change.

MGMT 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MGMT 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MGMT 601. Organization Theory and Behavior. 4 Units.
A critical analysis of theories for viewing organizations and an examination of the common models for understanding human behavior, including executive behavior, within the constraints of a complex social system.
MGMT 626. International New Venture Development. 4 Units.
Entrepreneurial process in a global context examining the complexity of international entrepreneurship as it relates to recognizing ideas, marshaling resources, developing networks and creating the strategy for a new venture.

MGMT 641. Managing Human Resources. 4 Units.
Analysis of specific areas and problems in the administration of human resource systems and policies. Topics include employment law, job analysis, recruitment, selection, performance appraisal, and compensation administration.

MGMT 642. Communication and Interpersonal Processes. 4 Units.
Study of interpersonal processes, communication, and conflict as they relate to organizational efficiency and effectiveness, as well as a consideration of the organization as a communication system.

MGMT 644. Industrial Relations. 4 Units.
Analysis of industrial relations systems in major industries, collective bargaining institutions, processes, legal environment and problems.

MGMT 645. Negotiation and Bargaining. 4 Units.
Theory and practice of negotiation and bargaining including the analytical skills necessary to prepare, plan, and present advocacy positions, anticipate opposing positions, envision and achieve optimal resolutions of disputes. Course participants will simulate, negotiate, debrief, discuss, and evaluate negotiation problems, strategies and tactics.

MGMT 650. Managing and Leading Global Business. 4 Units.
Prerequisites: MGMT 601 or consent of instructor
Management and leadership of organizations in global environments. Emphasis on economic, political and sociocultural influences.

MGMT 655. Leadership for Modern Organizations. 4 Units.
An overview of leadership emphasizing an understanding and analysis of the research on classical and contemporary theories in the field of organizational leadership.

MGMT 660. Managing Teams in the Workplace. 4 Units.
Overview to understand the dynamics present and best practices to manage high performance work teams. Topics include methods for self awareness, interviewing, stress management, supportive communication, problem solving, influencing and motivating others, managing conflict, empowering, delegating, and team building. Formerly a topic under MGMT 690.

MGMT 675. Internship. 4 Units.
Prerequisites: consent of instructor and department's internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

MGMT 685. Corporate Strategy in a Global Economy. 4 Units.
Long-term strategy of the business organization in the context of the global economy from the perspective of the General Manager who has overall responsibility for the performance of the firm. Course integrates corporate social responsibility in all the topics covered, including strategy formulation and implementation, industry competitive analysis, core competencies and key success factors, diversification and strategic alliances, among other.

MGMT 690. Advanced Topics in Management. 4 Units.
Intensive study of an advanced topic in management. May be repeated for credit as topics change.

MGMT 695. Graduate Project. 4 Units.
Prerequisites: advancement to candidacy, written approval of the student's graduate project committee and approval of the graduate (MBA) director
Independent graduate research for the management concentration or the concentration in entrepreneurship. Project will be under the direction of a faculty member.

MGMT 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
MGMT 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 998. Baccalaureate Reflective Essay. 0 Units.
Prerequisites: completion of or concurrent enrollment in all courses in student's area of concentration
Submission of a reflective essay based on departmental guidelines.

Marketing (MKTG)

Courses

MKTG 305. Marketing Principles. 4 Units.
Prerequisites: junior standing
Overview of the field of marketing and its interactions with other aspects of business. Includes consumer and industrial buying behavior; target marketing, segmentation, positioning, and differentiation; marketing research; product, distribution, promotion, and pricing decisions; industrial, services, and international marketing as well as legal and ethical dimensions.

MKTG 410. Consumer Behavior. 4 Units.
Prerequisites: MKTG 305
Consumer decision processes in the consumptive role including internal and external influences on consumer behavior and marketing strategies.
MKTG 415. Product Management. 4 Units.
Prerequisites: MKTG 305
Techniques and processes of product development and product management. Topics include idea generation, screening, design, testing and commercialization. Introduces basic product management techniques such as brand switching, product adoption forecasting, and customer preference specification.

MKTG 416. Marketing Research. 4 Units.
Prerequisites: MKTG 305
Marketing research as an activity of information gathering, analysis and interpretation for input into management decision making. Application of current practices and techniques in the marketing research industry. Requires the use of statistical software.

MKTG 420. Introduction to Marketing Communications. 4 Units.
Prerequisites: MKTG 305 and the upper-division writing requirement
The role of communication in the marketing process. Integration of advertising, personal selling, sales promotion, packaging, digital media, and public relations, as well as their social, economic, and legal impact. Emphasis on the influence of marketing communications on consumer information processing and decision making processes and determination and evaluation of marketing communication opportunities, objectives, messages, and effort.

MKTG 430. Professional Selling and Sales Management. 4 Units.
Prerequisites: MKTG 305 and the upper division writing requirement
Develops interpersonal communication skills used in the selling of products and services. Skills in prospecting, questioning and listening, understanding needs, demonstrating and explaining products, overcoming objections and closing the sale. Introduces managerial techniques used to supervise a sales force and to analyze company sales. Emphasis on recruitment, training, motivation and evaluation of salespeople.

MKTG 436. Marketing Decision-Making. 4 Units.
Prerequisites: MKTG 305
Reinforcing concepts learned in Marketing Principles, students will analyze, evaluate and develop product, price, promotion and physical distribution marketing programs. Emphasis is placed on analytical techniques and case studies to develop effective student decision-making skills in the major functional areas of marketing.

MKTG 446. Integrated Marketing Communications. 4 Units.
Prerequisites: MKTG 420
Development of an integrated marketing communications campaign for a client's regional or national product or service.

MKTG 460. Retailing. 4 Units.
Prerequisites: MKTG 305
History, development, organization and management of retail institutions. Emphasis is on retail store operations, such as location, layout, planning, control of budgets, human resource planning, pricing and customer service.

MKTG 470. International Marketing Management. 4 Units.
Prerequisites: MKTG 305
Marketing strategies for developing global markets including the cultural, political, and economic infrastructure of foreign markets and their impact on traditional marketing decisions.

MKTG 496. Marketing Planning and Strategy. 4 Units.
Prerequisites: MKTG 410, 416, 436, and the upper-division writing requirement
An integrative approach to strategic marketing management including the planning, design and execution of a comprehensive situation analysis, identification and evaluation of strategic marketing alternatives, and the implementation of marketing plans and programs and an applied knowledge of SPSS or any other data analysis software package.

MKTG 520. Advanced Marketing Communication. 4 Units.
Prerequisites: MKTG 305 or consent of instructor
Management of the marketing communication function with emphasis on the integration and coordination of its activities. Advertising, direct marketing, personal selling, public relations, sales promotion, and digital strategies are mastered with consideration given to global, ethical, and technology-related issues. Includes development of an integrated marketing communication plan. Offered as COMM 520 and MKTG 520, students may not receive credit for both.

MKTG 525. Sports and Entertainment Marketing. 4 Units.
Prerequisites: MKTG 305 or MKTG 605
Examination of the theoretical and practical aspects of marketing management in the sports and entertainment industry. Formerly a topic under MKTG 590.

MKTG 550. Advanced Sports Marketing Planning and Strategy. 4 Units.
Prerequisites: MKTG 525
An integrative approach to strategic sports marketing management providing theoretical and practical aspects of marketing management in the sports industry. Topics include the planning, design and execution of a comprehensive situation analysis, identification and evaluation of strategic marketing alternatives, and the implementation of marketing plans and programs. Three hours lecture and two hours computer laboratory.

MKTG 555. Advanced Entertainment Marketing Planning and Strategy. 4 Units.
Prerequisites: MKTG 525
An integrative approach to strategic entertainment marketing management providing theoretical and practical aspects of marketing management in the entertainment industry. Topics include the planning, design and execution of a comprehensive situation analysis, identification and evaluation of strategic marketing alternatives, and the implementation of marketing plans and programs.

MKTG 560. Services Marketing. 4 Units.
Prerequisites: MKTG 305 or MKTG 605
The process of designing and marketing intangible services for profit and non-profit organizations. Emphasis on customer-focused strategies for developing, promoting, pricing and evaluating service mixes in a global context. Formerly a topic under MKTG 590.
MKTG 570. Introduction to Hospitality Management. 4 Units.
Focuses on hospitality operations while offering a broad, comprehensive foundation of current knowledge about the world’s largest industry. Course focuses on the five areas: the hospitality industry and tourism; lodging; restaurants, managed services, and beverages; recreation, theme parks, clubs, and gaming entertainment.

MKTG 573. Hospitality Marketing Management. 4 Units.
Integrative approach to strategic hospitality marketing problem-solving and decision-making including the planning, design and execution of a comprehensive situation analysis, identification and evaluation of strategic marketing alternatives, and the implementation of marketing plans and programs. Focus is on the interacting effects of such factors as selling, advertising, pricing, consumer behavior and channels of distribution (course substitution for MKTG 496 with Department Chair permission).

MKTG 575B. Internship in Marketing. 2 Units.
Prerequisites: consent of instructor and the department’s internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

MKTG 575D. Internship. 4 Units.
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

MKTG 575H. Internship. 8 Units.
Prerequisites: senior standing preferred; consent of instructor and department
Supervised work and study in private or public organization with online learning component. Graded credit/no credit.

MKTG 590. Seminar in Marketing. 4 Units.
An intensive study of some phase of marketing to be developed by the instructor. May be repeated for credit as topics change.

MKTG 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MKTG 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MKTG 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MKTG 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MKTG 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

MKTG 605. Marketing Management. 4 Units.
Problem-solving and decision-making in marketing and the interacting effects of such factors as selling, advertising, pricing, consumer behavior and channels of distribution.

MKTG 610. Consumer and Organizational Buying Behavior. 4 Units.
Prerequisites: MKTG 605
Influences on the purchasing behavior of individual consumers and organizational buyers. Use of theories, concepts and research findings in management and public policy decisions.

MKTG 620. Advertising Management. 4 Units.
Prerequisites: MKTG 605
Emphasis on the managerial approach to advertising in its relationship to marketing management, including consumer behavior, audience analysis, research, advertising media, appeals, campaign development, as well as legal, ethical, and international aspects of advertising. Also examines communication processes and other promotional activities.

MKTG 640. Advanced Marketing Research. 4 Units.
Prerequisites: MKTG 605
Advanced study of current marketing research methods used to gather, analyze and transform data into information required for managerial decision-making. Includes qualitative and quantitative approaches to problem definition, research design, data collection and analysis, interpretation and presentation of research results. Requires use of statistical software. Three hours lecture and two hours activity laboratory.
MKTG 670. Global Marketing Strategies. 4 Units.
Prerequisites: MKTG 605
Advanced marketing strategies for developing global markets. Includes the emerging changes in international markets and their impact on general marketing strategies. Formerly a topic under MKTG 690.

MKTG 675. Internship. 4 Units.
Prerequisites: consent of instructor and department’s internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

MKTG 686D. Graduate Project. 4 Units.
Prerequisites: advancement to candidacy
Preparation of a graduate project under the direction of a faculty member, with the approval of the graduate director, and if an interdisciplinary study major, with the approval of the graduate program coordinator. Maximum of eight units applicable toward the M.B.A. or M.A. in Interdisciplinary Studies.

MKTG 686E. Graduate Project. 5 Units.
Prerequisites: advancement to candidacy
Preparation of a graduate project under the direction of a faculty member, with the approval of the graduate director, and if an interdisciplinary study major, with the approval of the graduate program coordinator. Maximum of eight units applicable toward the M.B.A. or M.A. in Interdisciplinary Studies.

MKTG 686F. Graduate Project. 6 Units.
Prerequisites: advancement to candidacy
Preparation of a graduate project under the direction of a faculty member, with the approval of the graduate director, and if an interdisciplinary study major, with the approval of the graduate program coordinator. Maximum of eight units applicable toward the M.B.A. or M.A. in Interdisciplinary Studies.

MKTG 686G. Graduate Project. 7 Units.
Prerequisites: advancement to candidacy
Preparation of a graduate project under the direction of a faculty member, with the approval of the graduate director, and if an interdisciplinary study major, with the approval of the graduate program coordinator. Maximum of eight units applicable toward the M.B.A. or M.A. in Interdisciplinary Studies.

MKTG 686H. Graduate Project. 8 Units.
Prerequisites: advancement to candidacy
Preparation of a graduate project under the direction of a faculty member, with the approval of the graduate director, and if an interdisciplinary study major, with the approval of the graduate program coordinator. Maximum of eight units applicable toward the M.B.A. or M.A. in Interdisciplinary Studies.

MKTG 690. Advanced Topics in Marketing. 4 Units.
Intensive study of an advanced topic in marketing. May be repeated for credit as topics change.

MKTG 696. Marketing Strategy. 4 Units.
Prerequisites: MKTG 605 and at least four additional units of 500- or 600-level coursework in marketing
A strategy planning approach to marketing management from conceptual and applications perspectives. Focus is on the strategic decision-making process supported by self-analysis and external analysis. Legal, ethical and international aspects are also considered.

MKTG 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
Financial Information section of the Bulletin of Courses. Earned units are
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Project in Graduate Degree and Program Requirements section of the
of all university facilities. See Culminating Experience: Exam, Thesis, or
passed. Students who enroll in 698 through the university have full use
the project or thesis is accepted or the comprehensive examination
the master's program, a student must enroll in 698 each quarter until

not degree-applicable nor will they qualify for financial aid.

Mathematics (MATH)

Courses

MATH 110. College Algebra. 4 Units.
Prerequisites: Placement determined by campus placement standards
and consultation with an advisor. Graded A through C-/No Credit
Offered: Fall, Winter and Spring
Functional notation, graphs and inverses of linear, polynomial, and
rational functions, rational exponents, arithmetic and geometric
progressions, logarithmic and exponential functions, systems of linear
equations. (GE-B1).

MATH 110L. College Algebra Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH
110. Activities include problem solving; may include computer-aided
instruction. Placement determined by campus placement standards and
advising. Corequisite: MATH 110. Graded Credit/No credit.

MATH 111A. Accelerated Stretch College Algebra A. 4 Units.
Function notation, graphs and inverses of linear, polynomial, and rational
functions, linear equations. First quarter of a two-quarter version of
MATH 110. Placement determined by campus placement standards and
advising. Graded A through C-/No Credit.

MATH 111AL. Accelerated Stretch College Algebra A Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH
111A. Activities include problem solving; may include computer-aided
instruction. Placement determined by campus placement standards and
advising. Graded Credit/No credit. Corequisite: MATH 111A.

MATH 111B. Accelerated Stretch College Algebra B. 4 Units.
Prerequisites: Passage of MATH 111A
Continued emphasis on functions and function notation. Topics include
rational exponents, arithmetic and geometric progressions, logarithmic
and exponential functions. Second quarter of a two-quarter version of
MATH 110. Graded A through C-/No Credit. (GE-B1).
MATH 111BL. Accelerated Stretch College Algebra B Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 111B. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement standards and advising. Graded Credit/No credit. Co-requisite: MATH 111B.

MATH 112A. Stretch College Algebra A. 4 Units.
Function notation, graphs and inverses of linear functions, linear equations. First quarter of a three-quarter version of MATH 110. Placement determined by campus placement standards and advising. Graded A through C-/No Credit. 4 (units).

MATH 112AL. Stretch College Algebra A Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 112A. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement standards and advising. Graded Credit/No credit. Co-requisite: MATH 112A.

MATH 112B. Stretch College Algebra B. 4 Units.
Prerequisites: Passage of MATH 112A
Continued emphasis on functions and function notation. Topics include polynomial functions, rational functions, rational exponents, logarithmic and exponential functions. Second quarter of a three-quarter version of MATH 110. Graded A through C-/No credit.

MATH 112BL. Stretch College Algebra B Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 112B. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement standards and advising. Graded Credit/No credit. Co-requisite: MATH 112B.

MATH 112C. Stretch College Algebra C. 4 Units.
Prerequisites: Passage of MATH 112B
Further work in functions and function notation, including study of rational exponents, arithmetic and geometric progressions, as well as continued modeling with linear, polynomial, logarithmic and exponential functions. Third quarter of a three-quarter version of MATH 110. Graded A through C-/No credit. (GE-B1).

MATH 112CL. Stretch College Algebra C Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 112C. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement standards and advising. Graded Credit/No credit. Co-requisite: MATH 112C.

MATH 115. The Ideas of Mathematics. 4 Units.
Prerequisites: Placement determined by course placement standards and consultation with an advisor. Graded A through C-/No Credit
Offered: Fall, Winter and Spring
Topics in college mathematics applied to daily life. Personal finance, statistics and probability. (GE-B1).

MATH 115L. Ideas of Math Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 115. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement and standard advising. Graded Credit/No credit. Co-requisite: Math 115.

MATH 116A. Accelerated Stretch Ideas of Math A. 4 Units.

MATH 116AL. Accelerated Stretch Ideas of Math A Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 116A. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement and standard advising. Graded Credit/ No credit. Co-requisite: Math 116A.

MATH 116B. Accelerated Stretch Ideas of Math B. 4 Units.
Continued emphasis on topics in college mathematics applied to daily life. Personal finance, statistics and probability. Second quarter of a two-quarter version of Math 115. Graded A through C-/ No credit. Prerequisite: MATH 116A (GE B1).

MATH 116BL. Accelerated Stretch Ideas of Math B Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 116B. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement and standard advising. Graded Credit/ No credit. Co-requisite: Math 116B.

MATH 117A. Stretch Ideas of Math A. 4 Units.

MATH 117AL. Stretch Ideas of Math A Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 117A. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement and standard advising. Graded Credit/ No credit. Co-requisite: Math 117A.

MATH 117B. Stretch Ideas of Math B. 4 Units.
Prerequisites: MATH 117A
Continued emphasis on topics in college mathematics applied to daily life. Personal finance, statistics and probability. Second quarter of a three-quarter version of Math 115. Graded A through C-/ No credit.

MATH 117BL. Stretch Ideas of Math B Lab. 1 Unit.
Additional instruction in college algebra for students registered in MATH 117B. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement and standard advising. Graded Credit/ No credit. Co-requisite: Math 117B.
MATH 117C. Stretch Ideas of Math C. 4 Units.
Prerequisites: MATH 117B
Further work in college mathematics applied to daily life. Personal finance, statistics and probability. Third quarter of a three-quarter version of Math 115. Graded A through C-/No credit. (GE B1).

MATH 117CL. Stretch Ideas of Math C Lab. 1 Unit.
Additional instruction in college algebra for students registered in Math 117C. Activities include problem solving; may include computer-aided instruction. Placement determined by campus placement and standard advising. Graded Credit/No credit. Co-requisite: Math 117C.

MATH 120. Pre-Calculus Mathematics. 4 Units.
Prerequisites: Placement determined by campus placement standards and consultation with an advisor or passage of MATH 110. Graded A through C-/No Credit Offered: Fall, Winter and Spring
Trigonometric functions, trigonometric identities, right angle trigonometry, complex numbers, conic sections, binomial theorem, induction. (GE-B1).

MATH 165. Introductory Statistics and Hypothesis Testing. 4 Units.
Prerequisites: Placement determined by campus placement standards and consultation with an advisor. Graded A through C-/No Credit Offered: Fall, Winter and Spring
Introductory statistics with applications to a variety of disciplines. Topics will include descriptive statistics, correlation, distribution or random variables, sampling distributions, interval estimation, hypothesis testing, and elementary Bayesian theory. (GE-B1).

MATH 180. Critical Thinking Through Applications of Mathematical Logic. 4 Units.
Offered: Fall, Winter and Spring
Analysis of logical implication, logical equivalence and valid argument using symbolic logic. Applications drawn from a wide variety of practical examples. Emphasis on problem solving techniques.

MATH 192. Methods of Calculus. 4 Units.
Prerequisites: MATH 110. This course does not substitute for any course in the calculus sequence MATH 211, MATH 212, MATH 213, MATH 251, MATH 252 required for majors in chemistry, computer science, mathematics or physics
Offered: Fall, Winter and Spring
A short course in calculus with emphasis on applications.

MATH 199. Problem Solving for Teachers Using Technology. 3 Units.
Offered: Winter and Spring
Exploration of central ideas in secondary school mathematics through problem solving using technology. Introduction to technological and software tools for teaching and learning geometry, algebra, and additional topics relevant to secondary school mathematics. Prerequisite: MATH 120 or equivalent.

MATH 211. Basic Concepts of Calculus. 4 Units.
Prerequisites: Satisfactory score on a department placement exam or grade of C or better in MATH 120 (GE-B1)
Offered: Fall, Winter and Spring
An introduction to limits and continuity, differentiation of functions in one variable (including trigonometric functions) and antiderivatives with applications.

MATH 212. Calculus II. 4 Units.
Prerequisites: MATH 211 (or MATH 200) with a grade of C or better Offered: Fall, Winter and Spring
Techniques and applications of integration, differentiation and integration of transcendental functions.

MATH 213. Calculus III. 4 Units.
Prerequisites: MATH 212 (or MATH 201) with a grade of C or better Offered: Fall, Winter and Spring
Sequences and series, numerical techniques, polar coordinates, parametric equations.

MATH 229. Geometry in Two and Three Dimensions. 4 Units.
Prerequisites: completion of the general education requirement in mathematics Offered: Spring
Axiomatic foundations of Euclidean geometry and their relation to absolute, affine, and ordered geometry. Isometry and similarity in the Euclidean plane and three-space. Inversive transformations and construction of the real projective plane. Formerly MATH 129.

MATH 241. Problem Solving in Calculus. 2 Units.
Prerequisites: some programming experience and MATH 212.
Recommended: MATH 213
Offered: Fall, Winter and Spring
An approach to solving calculus-based problems incorporating a computer algebra system. Projects will include interpolation, numerical methods, differential equations and graphical approaches. One hour lecture and three hours laboratory.

MATH 251. Multivariable Calculus I. 4 Units.
Prerequisites: MATH 212 with a grade of C or better Offered: Fall, Winter and Spring
Vectors and vector geometry in two and three dimensions. Elementary linear algebra. Multivariable functions. Parametrization of space curves.

MATH 252. Multivariable Calculus II. 4 Units.
Prerequisites: MATH 251, and MATH 213 with a grade of C or better Offered: Fall, Winter and Spring
Differentiation and integration of vector functions with applications, multiple integration, line and surface integrals. Partial and directional derivatives. Theorems of Green and Stokes.
MATH 262. Applied Statistics. 4 Units.
Prerequisites: MATH 120
Prerequisite/Corequisite: MATH 211
Offered: Fall, Winter and Spring
Basic concepts of probability and statistics. Important probability models such as the binomial, Poisson and normal. Statistical procedures, particularly in relation to estimation, hypothesis testing and modeling. Computer simulations and computations. May not be taken for credit by students who have received credit for MATH 305.

MATH 270. Elementary Differential Equations. 4 Units.
Prerequisites: MATH 252
Offered: Fall and Spring
First order equations, second order linear equations, linear equations with constant coefficients, variation of parameters, applications.

MATH 272. Discrete Mathematics. 4 Units.
Prerequisites: completion of the general education requirement in mathematics
Offered: Fall, Winter and Spring

MATH 299. Problem Solving and Mathematical Reasoning for Teachers I. 4 Units.
Prerequisites: Math 120 or equivalent
Development of problem solving skills, mathematical habits of mind, and mathematical practices, for secondary teachers. Introduction to algebraic thinking through a problem solving approach using multiple approaches. Topics include proportional reasoning and structure of number systems with connections to geometry. Graded ABC/NC.

MATH 301A. Fundamental Concepts Mathematics Educators: Fundamental Concepts Arithmetic and Geometry. 4 Units.
Prerequisites: completion of MATH 115 and the general education requirements in written communication, oral communication, and critical thinking. Graded ABC/no credit
Offered: Fall, Winter and Spring
A course sequence for future teachers that develops knowledge of mathematics related to the K-8 curriculum, but that is considerably deeper than the standard K-8 content. Students completing the sequence will develop conceptual understanding, problem solving skills, and communication skills in mathematics. May not be counted toward fulfilling requirements in the mathematics major. Further Developments in Algebra and Geometry. Development of algorithmic and algebraic thinking. Investigation of linear and proportional relationships through multiple representations. Introduction to geometric reasoning about figures in 2 and 3 dimensions.

MATH 301B. Fundamental Concepts Mathematics Educators: Transition Concrete to Abstract Algebra and Geometry. 4 Units.
Prerequisites: completion of MATH 301A with a grade of C or better. Graded ABC/no credit
Offered: Fall, Winter and Spring
A course sequence for future teachers that develops knowledge of mathematics related to the K-8 curriculum, but that is considerably deeper than the standard K-8 content. Students completing the sequence will develop conceptual understanding, problem solving skills, and communication skills in mathematics. May not be counted toward fulfilling requirements in the mathematics major. Transition from Concrete to Abstract in Algebra and Geometry. Development of algorithmic and algebraic thinking. Investigation of linear and other nonlinear functions. Extended geometric reasoning about figures in 2 and 3 dimensions, including concepts of congruence, similarity, and geometric transformations.

MATH 301C. Fundamental Concepts Mathematics Educators: Further Developments in Algebra and Geometry. 4 Units.
Prerequisites: completion of MATH 301B with a grade of C or better. Graded ABC/no credit
Offered: Fall, Winter and Spring
A course sequence for future teachers that develops knowledge of mathematics related to the K-8 curriculum, but that is considerably deeper than the standard K-8 content. Students completing the sequence will develop conceptual understanding, problem solving skills, and communication skills in mathematics. May not be counted toward fulfilling requirements in the mathematics major. Further Developments in Algebra and Geometry. Conceptual foundations of advanced algebra, including polynomial and other nonlinear functions. Extended geometric reasoning about figures in 2 and 3 dimensions, including concepts of congruence, similarity, and geometric transformations.

MATH 302. Problem Solving in Mathematics. 4 Units.
Prerequisites: completion of the general education requirements in mathematics, written communication, oral communication and critical thinking
Offered: Fall, Winter and Spring
Use of heuristic techniques, such as analogy and induction, in problem solving. Elementary and recreational problems selected from algebra, logic, number theory, combinatorics and probability. May not be counted toward fulfilling requirements in the mathematics major.

MATH 308. Problem Solving Through Theory and Practice. 2 Units.
Prerequisites: MATH 301C with a grade of at least C or consent of instructor
Offered: Fall, Winter and Spring
Heuristic techniques in solving contextual problems from algebra, number theory, geometry, logic, probability and statistics. May not be counted toward fulfilling requirements in the mathematics major. May not be taken for credit by students who have completed MATH 302. Two hours seminar.
MATH 320. Mathematical Interest Theory. 4 Units.
Prerequisites: MATH 213 and 241
Offered: Spring
Development of the mathematical theory of interest in both finite and continuous time, including the accumulation function and special cases of simple and compound interest, valuation of the discrete and continuous streams of payments, and nominal and effective interest and discount rates. Application of the theory, with computer applications, to actuarial science, including amortization of lump sums, fixed income securities, and depreciation.

MATH 329. Transformation Geometry. 4 Units.
Prerequisites: MATH 251 and high school geometry or equivalent
Offered: Fall, Winter and Spring
Development of Euclidean plane geometry in terms of congruence and similarity transformations. Classification of affine transformations with applications to classical theorems. Introduction to inversive transformations and related constructions.

MATH 331. Linear Algebra. 4 Units.
Prerequisites: MATH 251 or consent of instructor
Offered: Fall, Winter and Spring
Vector spaces over a field, linear dependence, dimension; matrices and systems of linear equations; the theory of linear transformations; characteristic values and vectors; applications.

MATH 345. Number Theory and Proof. 4 Units.
Prerequisites: MATH 213
Offered: Fall, Winter and Spring
Introduction to ideas and techniques of proof and historical topics in classical number theory. Theory of divisibility, primes and linear congruences. Theorems of Fermat, Euler and Wilson. Primitive roots and indices. Number theoretic functions.

MATH 355. Analysis and Proof. 4 Units.
Prerequisites: MATH 213
Offered: Fall, Winter and Spring
Introduction to ideas and techniques of proof with an emphasis on analysis. Topics chosen from: logic, set theory, functions, cardinality and analysis.

MATH 372. Combinatorics. 4 Units.
Prerequisites: MATH 213, or MATH 211, MATH 262 and MATH 272
Offered: Fall, Winter and Spring
Permutations and combinations, recurrence relations with applications and topics in graph theory.

MATH 395A. Directed Study. 1 Unit.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in mathematics conducted under the direction of a faculty member. A total of four units may apply toward the major.

MATH 395B. Directed Study. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in mathematics conducted under the direction of a faculty member. A total of four units may apply toward the major.

MATH 395C. Directed Study. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in mathematics conducted under the direction of a faculty member. A total of four units may apply toward the major.

MATH 395D. Directed Study. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in mathematics conducted under the direction of a faculty member. A total of four units may apply toward the major.

MATH 399. Mathematics and Teaching: Observation and Reflection. 2 Units.
Prerequisites: MATH 299 and MATH 329. MATH 329 may also be taken concurrently
Offered: Fall and Winter
Supervised learning experience in the secondary mathematics classroom. Observation and participation that provides future teachers with first-hand experience and the opportunity to analyze and reflect on the teaching and learning of mathematics as well as to link their undergraduate mathematics course work with classroom experience. Includes weekly meetings on campus and observations of a secondary classroom. Graded ABC/no credit.

MATH 455. Fourier Analysis. 4 Units.
Prerequisites: MATH 270 and MATH 355
Offered: Winter

MATH 465. Probability Theory. 4 Units.
Prerequisites: MATH 252 and MATH 372
Offered: Fall, Winter and Spring
Probability spaces, independence, conditional probability, densities, mass and distribution functions, moments, joint and marginal distributions, moment generating functions, Chebychev's inequality, law of large numbers and other topics.

MATH 470. Ordinary Differential Equations. 4 Units.
Prerequisites: MATH 270 and 331
Offered: Winter
Topics from among: first order equations, linear equations, systems of equations, iterative methods, series solutions, Laplace transformations, applications.

MATH 474. Numerical Methods. 4 Units.
Prerequisites: CSE 201 and MATH 331
Introduction to numerical methods for finding solutions of non-linear equations, systems of linear equations and ordinary differential equations. Discussion of errors and numerical instabilities; numerical differentiation; numerical integration.
MATH 480. Topics in History of Mathematics. 4 Units.
Prerequisites: MATH 252, MATH 329, MATH 345 and MATH 355
Offered: Fall, Winter and Spring
Exploration of the historical and topical development of interconnected areas of mathematics, such as algebra, geometry and analysis. Discussion of the influence of culture and society on the development of mathematical ideas and discovery will be included.

MATH 485. Differential Geometry. 4 Units.
Prerequisites: MATH 252, 331 and 355
An introduction to the differential geometry of curves and surfaces, including first and second fundamental forms, curvatures, geodesics, minimal surfaces, and Gauss-Bonnet Theorem.

MATH 499. Problem Solving and Mathematical Reasoning for Teachers II. 4 Units.
Prerequisites: MATH 199, MATH 329, MATH 331 and MATH 399
Offered: Winter and Spring
Continued development of problem solving skills using multiple approaches, mathematical habits of mind, and mathematical practices, for secondary teachers. Includes topics from algebra and geometry as related to secondary mathematics. Emphasizes communication, argumentation, mathematical structure and connections. Graded ABC/no credit.

MATH 510. Topics in Mathematics. 4 Units.
Prerequisites: senior or graduate standing
Study of selected areas of advanced mathematics. May be repeated for credit with consent of instructor as topics change.

MATH 529. Advanced Geometry. 4 Units.
Prerequisites: MATH 329, MATH 331 and MATH 345
Offered: Fall, Winter and Spring
Topics in affine and projective geometry with applications to Euclidean 2 and 3 space and to modern algebra.

MATH 531. Advanced Linear Algebra. 4 Units.
Prerequisites: MATH 331
Inner product spaces; duality of vector spaces; canonical forms; spectral theory; quadratic forms.

MATH 545. Abstract Algebra I. 4 Units.
Prerequisites: MATH 331, MATH 345 and MATH 355
Offered: Fall, Winter and Spring
An introduction to algebraic structures, including groups, rings and fields.

MATH 546. Abstract Algebra II. 4 Units.
Prerequisites: MATH 545
Offered: Spring
Continuation of MATH 545.

MATH 553. Analysis I. 4 Units.
Prerequisites: MATH 252 and MATH 355
Offered: Fall, Winter and Spring
Continuous and differentiable functions, infinite series. Uniform convergence, computation with series, functions represented by integrals, theory of integration.

MATH 554. Analysis II. 4 Units.
Prerequisites: MATH 553
Offered: Spring
Continuation of MATH 553.

MATH 555. Introduction to Point-Set Topology. 4 Units.
Prerequisites: MATH 355
Topics to include topological and metric spaces, compactness, product spaces, connectedness, separation properties.

MATH 557. Complex Variables. 4 Units.
Prerequisites: MATH 252 and 355
Analytic and harmonic functions, power series, Cauchy’s Theorem and Cauchy’s Formula.

MATH 565. Mathematical Statistics. 4 Units.
Prerequisites: MATH 465
Likelihood ratio, estimators, distributions of estimators, theory of hypothesis testing, linear statistical models.

MATH 570. Partial Differential Equations. 4 Units.
Prerequisites: MATH 270 and MATH 355. MATH 241 recommended
Classification of partial differential equations; heat equation, Laplace’s equation, boundary value-problems; separation of variables. Applications of Fourier and Laplace transforms, numerical methods.

MATH 576. Introduction to Mathematical Methods. 4 Units.
Prerequisites: CSE 201, MATH 331 and MATH 465
Topics from linear and probabilistic models, computer simulation, difference and differential equation models.

MATH 595A. Independent Study. 1 Unit.
Prerequisites: MATH 331 and 553, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted in advance of the quarter in which the course is to be taken
An independent study course for senior mathematics majors. A total of four units may apply toward the major.

MATH 595B. Independent Study. 2 Units.
Prerequisites: MATH 331 and 553, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted in advance of the quarter in which the course is to be taken
An independent study course for senior mathematics majors. A total of four units may apply toward the major.

MATH 595C. Independent Study. 3 Units.
Prerequisites: MATH 331 and 553, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted in advance of the quarter in which the course is to be taken
An independent study course for senior mathematics majors. A total of four units may apply toward the major.

MATH 595D. Independent Study. 4 Units.
Prerequisites: MATH 331 and 553, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted in advance of the quarter in which the course is to be taken
An independent study course for senior mathematics majors. A total of four units may apply toward the major.
MATH 599. Senior Seminar for Future Mathematics Educators. 2 Units.
Prerequisites: MATH 480 and MATH 499
Offered: Fall and Spring
Culminating experience in problem solving for secondary mathematics teachers. Each student will complete a reflective portfolio that is representative of their undergraduate work and makes connections to secondary mathematics. Graded A,B,C/no credit.

MATH 601. Assessment Portfolio. 0 Units.
Prerequisites: advancement to candidacy
Preparation of an acceptable student portfolio assessing and documenting academic progress. For detailed requirements see the MAT graduate coordinator.

MATH 604. Seminar in Problem Solving I. 4 Units.
Prerequisites: MATH 329, MATH 331, MATH 345, MATH 355 and MATH 372
A problem solving seminar emphasizing induction and analogy in the style of George Polya.

MATH 605. Seminar in Problem Solving II. 4 Units.
Prerequisites: MATH 604 Continuation of MATH 604.

MATH 610. Topics in Mathematics. 4 Units.
Prerequisites: graduate standing
Study of selected areas of advanced mathematics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change.

MATH 611. Operations Analysis. 4 Units.
Scientific approach to the resolution of operational problems. Structure and function of models and decision strategy commonly used in national policy analysis including measures of effectiveness, uncertainty and the misuse of modeling. May not be counted toward fulfilling the requirements in the mathematics major.

MATH 614. Studies in Geometry. 4 Units.
Prerequisites: MATH 529, MATH 545 and admission to the M.A. in Mathematics program
Advanced topics in affine, projective, elliptic, and hyperbolic geometry. Comparison of synthetic and analytic methods of proof.

MATH 616. Studies in Algebra. 4 Units.
Prerequisites: MATH 546 and admission to the M.A. in Mathematics program
Advanced topics in algebra to include constructability, transcendence and solvability of groups and equations.

MATH 618. Studies in Analysis. 4 Units.
Prerequisites: MATH 553; either MATH 554, MATH 555, or MATH 557; and admission to the M.A. in Mathematics program
Theory of multivariable calculus with applications, to include the Inverse Function Theorem, as well as Stokes and Greens theorems.

MATH 631. Algebra from a Teaching and Problem Solving Perspective. 6 Units.
Prerequisites: admission to the MAT in Mathematics program and MATH 345, or consent of instructor
Algebraic structure and its development. Equations and systems of equations. Teaching strategies and curriculum issues. Applications and problem solving will be stressed throughout. Students will adapt methods from this course to a teaching setting and report on this experience.

MATH 632. Geometry from a Teaching and Problem Solving Perspective. 6 Units.
Prerequisites: MATH 329 and admission to the MAT in Mathematics program, or consent of instructor
The transition from geometry as an empirical study first to local proofs and then to axiomatic systems. Comparisons of traditional approaches to geometric proof with those of analytic geometry. Focus on construction to illustrate and motivate teaching strategies and curriculum issues. Students will adapt methods from this course to a teaching setting and report on this experience.

MATH 633. Trigonometry from a Teaching and Problem Solving Perspective. 6 Units.
Prerequisites: MATH 213, MATH 251, and admission to the MAT in Mathematics program, or consent of instructor. MATH 631 and MATH 632 are recommended
Trigonometric functions, identities and equations as foundation for study of the complex numbers, the complex plane, polar coordinates, de Moivres theorem, and definition of trigonometric functions in terms of exponential functions. Geometric and analytic properties of the conic sections. Problem solving, curricular and pedagogical issues emphasized throughout. Students will adapt methods from this course to a teaching setting and report on this experience.

MATH 634. Calculus from a Teaching and Problem Solving Perspective. 6 Units.
Prerequisites: MATH 213, 251, and admission to the MAT in Mathematics program, or consent of instructor. Math 631, 632, and 633 are recommended
Focus on non-standard problems and theoretical issues in calculus that lend themselves to multiple problem-solving approaches and pedagogical strategies. Students will adapt methods from this course to a teaching setting and report on this experience.

MATH 635. Statistics and Probability from a Teaching and Problem Solving Perspective. 6 Units.
Prerequisites: MATH 213, 251, and admission to the MAT in Mathematics program, or consent of instructor. MATH 631, 632, and 633 are recommended
Basic probability and descriptive and inferential statistics emphasizing active learning teaching strategies. Students will design and carry out an investigative project. Students will adapt methods from this course to a teaching setting and report on this experience.

MATH 664. Project Design in Teaching Mathematics. 2 Units.
Prerequisites: advancement to candidacy and consent of instructor
Steps and processes involved in the design and development of research proposals with emphasis on the master's project. Graded credit/no credit.
MATH 678. Teaching Practicum. 2 Units.
Prerequisites: admission to the masters program in teaching with a major in mathematics
Supervised practice in individual and/or classroom teaching. May be repeated for a total of four units.

MATH 695B. Graduate Independent Study. 2 Units.
Prerequisites: advancement to candidacy in the M.A. or M.A.T. in Mathematics program; a grade point average of at least 3.5 in courses in the program; consent of the instructor and approval by the graduate committee. A written proposal for a project must be submitted to the graduate committee no later than the ninth week of the quarter preceding that in which the independent study is to be pursued
An independent study course for graduate students in mathematics.

MATH 695C. Graduate Independent Study. 3 Units.
Prerequisites: advancement to candidacy in the M.A. or M.A.T. in Mathematics program; a grade point average of at least 3.5 in courses in the program; consent of the instructor and approval by the graduate committee. A written proposal for a project must be submitted to the graduate committee no later than the ninth week of the quarter preceding that in which the independent study is to be pursued
An independent study course for graduate students in mathematics.

MATH 695D. Graduate Independent Study. 4 Units.
Prerequisites: advancement to candidacy in the M.A. or M.A.T. in Mathematics program; a grade point average of at least 3.5 in courses in the program; consent of the instructor and approval by the graduate committee. A written proposal for a project must be submitted to the graduate committee no later than the ninth week of the quarter preceding that in which the independent study is to be pursued
An independent study course for graduate students in mathematics.

MATH 696. Masters Degree Project I. 3 Units.
Prerequisites: graduate standing, consent of instructor, approval of the project proposal by the graduate committee and approval of at least five contributions to the assessment portfolio of the seven listed under 6b and 6c in the requirements for graduation
Dissertation preparation and assessment portfolio completion. A written proposal for a project must be submitted to the graduate committee no later than the ninth week of the quarter preceding enrollment in MATH 696.

MATH 697. Masters Degree Project II. 1 Unit.
Prerequisites: MATH 696 and consent of instructor
Finalizing the masters project including approval of the dissertation format by the Office of Graduate Studies, an oral presentation of the project to the department, and formal acceptance of the completed dissertation.

MATH 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
MATH 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 699. Master of Arts in Teaching Mathematics Thesis. 4 Units.
Prerequisites: graduate standing, consent of the instructor, approval of the thesis proposal by the graduate committee and submission of at least three contributions to the Assessment Portfolio. A written proposal for a thesis following departmental guidelines must be submitted to the graduate committee no later than the ninth week of the quarter preceding enrollment in MATH 699. Formerly MATH 600
Written thesis, an oral presentation of the thesis to the department and a complete Assessment Portfolio. May not be counted toward fulfilling the requirements of the Master of Arts in Mathematics. Graded credit/no credit.

MATH 999A. Comprehensive Examination: Written. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the master's program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

MATH 999B. Comprehensive Examination: Oral. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Military Science (MILS)

Courses

MILS 100. Leadership Laboratory. 1 Unit.
Practicum in those skills taught in the classroom during other military science classes in the quarter. To include Small Unit Operations, such as patrolling, air mobile operations, rappelling and weapons qualification. Some training is conducted on weekends. This course is only open to enrolled Army ROTC cadets. The course must be taken each quarter the student is enrolled in the Military Science program.
MILS 151. Basic Military Skills I. 2 Units.
Introduction to the role of the officer, the noncommissioned officer, and organization of the total Army. Formerly MILS 120.

MILS 152. Basic Military Skills II. 2 Units.
Prerequisites: MILS 151 or consent of instructor
A continuation of basic military skills. Formerly MILS 146D.

MILS 153. Basic Military Skills III. 2 Units.
Prerequisites: MILS 151 and MILS 152 or consent of instructor
A continuation of basic military skills. Formerly MILS 146E.

MILS 251. Leadership and Management I. 2 Units.
Prerequisites: MILS 151, MILS 152, and MILS 153 or consent of instructor
Introduction to leadership and management which develops technical skills that must be learned in order to perform as a leader. Students master technical aspects that are specific to the military profession.

MILS 252. Leadership and Management II. 2 Units.
Prerequisites: MILS 251 or consent of instructor
Continuation of leadership and management skills.

MILS 253. Leadership and Management III. 2 Units.
Prerequisites: MILS 251 and MILS 252 or consent of instructor
Continuation of leadership and management skills.

MILS 260. ROTC Basic Camp. 2 Units.
Prerequisites: consent of Military Science Department advisor
ROTC Basic Camp is a six week course at FT Knox, KY. The basic camp offers students with no prior military training, or ROTC classes, the chance to enter the ROTC advanced program, if the student has two or more years of undergraduate or graduate study remaining. It is comparable to the first two years of the ROTC program.

MILS 351. Small Unit Operations I. 2 Units.
Prerequisites: consent of instructor
Current tactical doctrine as applied to small unit operations.

MILS 352. Small Unit Operations II. 2 Units.
Prerequisites: MILS 351
Continuation of current tactical doctrine as applied to small unit operations, with special attention to the leaders role.

MILS 353. Advanced Military Leadership and Management. 2 Units.
Prerequisites: MILS 352
Leadership skills required of an ROTC cadet at advanced camp and as a junior officer in the armed forces.

MILS 451. Military Law. 2 Units.
Prerequisites: consent of instructor
Military justice system, including a history of military law, philosophy and structure of the military justice system, courts-martial and alternatives to courts-martial.

MILS 452. Contemporary Military Policy. 2 Units.
Prerequisites: consent of instructor
Contemporary military policy and related subjects of topical military interest, including personal ethics, relevant to the training of junior-level officers.

MILS 453. Senior Leadership Seminar. 2 Units.
Prerequisites: consent of instructor
Leadership and management problems encountered in a company-sized unit, both in garrison and in the field, with emphasis on role of the junior officer.

MILS 595. Independent Study. 2 Units.
Prerequisites: completion of all advanced military science courses and consent of instructor
A directed reading and research course in contemporary military issues oriented towards a students transition from cadet to commissioned officer. May be repeated twice for credit.

Music (MUS)

Courses

MUS 80. Preparatory Voice. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 140. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 81. Preparatory Piano. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 141. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 82A. Preparatory String Instrument: Violin. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 142. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 82B. Preparatory String Instrument: Viola. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 142. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 82C. Preparatory String Instrument: Cello. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 142. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 82D. Preparatory String Instrument: Bass. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 142. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.
MUS 82E. Preparatory String Instrument: Guitar. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 142. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 82F. Preparatory String Instrument: Harp. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 142. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 83A. Preparatory Wind Instrument: Flute. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 143. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 83B. Preparatory Wind Instrument: Clarinet. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 143. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 83C. Preparatory Wind Instrument: Oboe. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 143. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 83D. Preparatory Wind Instrument: Bassoon. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 143. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 83E. Preparatory Wind Instrument: Saxophone. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 143. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 84A. Preparatory Brass Instrument: Trumpet. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 144. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 84B. Preparatory Brass Instrument: Horn. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 144. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 84C. Preparatory Brass Instrument: Trombone. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 144. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 84D. Preparatory Brass Instrument: Tuba. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 144. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 85. Preparatory Percussion. 1 Unit.
One-half hour per week of private instruction. Open only to prospective music majors whose performance proficiency is below the collegiate level of MUS 145. Credit does not apply toward the degree or major. May be repeated for a maximum of three units. Graded credit/no credit.

MUS 100. Fundamentals of Music Theory. 3 Units.
Prerequisites: declared major in Music, minor in Music, minor in Jazz Studies, or minor in Recording Arts
Rudiments of music theory: pitch, rhythm, scales, key and time signatures, intervals, triads, inversion. Must be taken concurrently with MUS 101.

MUS 101. Basic Musicianship. 1 Unit.
Applied musicianship experience including sight-singing, solfege, and dictation. Credits may not be counted toward fulfilling the requirements of the music major. Must be taken concurrently with MUS 100.

MUS 120. Theory I. 3 Units.
Prerequisites: MUS 100 and 101 or equivalent, or department placement examination or consent of instructor
Introduction of basic concepts of tonal harmony and form. Diatonic triads, non-harmonic tones, chord progressions, and melodic form. Must be taken concurrently with MUS 121.

MUS 121. Musicianship I. 1 Unit.
Continuation of MUS 101. Applied musicianship experience including sight-singing, solfege, and dictation Must be taken concurrently with MUS 120.

MUS 122. Theory II. 3 Units.
Prerequisites: MUS 120 and MUS 121 or equivalent or consent of instructor
Continuation of MUS 120. Introduction of diatonic seventh chords, secondary dominants, and modulation. Must be taken concurrently with MUS 123.

MUS 123. Musicianship II. 1 Unit.
Prerequisites: MUS 120 and MUS 121 or equivalent
Continuation of MUS 121. Applied musicianship experience including sight-singing, solfege, and dictation. Must be taken concurrently with MUS 122.
MUS 142C. Lower-Division String Instrument I: Cello. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142D. Lower-Division String Instrument I: Bass. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142F. Lower-Division String Instrument I: Harp. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 141A. Lower-Division Keyboard Instrument I: Piano. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 141B. Lower-Division Keyboard Instrument I: Organ. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 141C. Lower-Division Keyboard Instrument I: Harpsichord. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 141D. Lower-Division Wind Instrument I: Flute. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 141E. Lower-Division Wind Instrument I: Clarinet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 141F. Lower-Division Wind Instrument I: Oboe. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142A. Lower-Division String Instrument I: Violin. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142B. Lower-Division String Instrument I: Viola. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142C. Lower-Division String Instrument I: Cello. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142B. Lower-Division String Instrument I: Violin. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142D. Lower-Division String Instrument I: Bass. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142E. Lower-Division String Instrument I: Guitar. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 142F. Lower-Division String Instrument I: Harp. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 141A. Lower-Division Keyboard Instrument I: Piano. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 141B. Lower-Division Keyboard Instrument I: Organ. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 141C. Lower-Division Keyboard Instrument I: Harpsichord. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.
MUS 144C. Lower-Division Brass Instrument I: Trombone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 144D. Lower-Division Brass Instrument I: Tuba. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 145. Lower-Division Percussion Instrument I. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 180. Studies in Music. 4 Units.
(GE=C1)
Exploration of the elements of music and the nature of meaning and
musical style, with emphasis on listening and analysis.

MUS 200. Large Music Ensemble. 1 Unit.
Lower-division course for participation in large music ensembles such as
band, choir, orchestra, or jazz band. May repeat for credit for a total of 6
units.

MUS 201A. Class Strings I. 1 Unit.
Beginning study on violin, viola, cello and bass. A minimum of one
additional hour per quarter of guided field experience at an approved
setting is required.

MUS 201B. Class Strings II. 1 Unit.
Prerequisites: MUS 201A
Continued study on violin, viola, cello and bass. A minimum of one
additional hour per quarter of guided field experience at an approved
setting is required.

MUS 202A. Class Woodwinds I. 1 Unit.
Beginning study on selected woodwinds. A minimum of one
additional hour per quarter of guided field experience at an approved
setting is required.

MUS 202B. Class Woodwinds II. 1 Unit.
Prerequisites: MUS 202A
Continued study on selected woodwinds. A minimum of one additional
hour per quarter of guided field experience at an approved setting is
required.

MUS 203A. Class Brass I. 1 Unit.
Beginning study on selected brass instruments. A minimum of one
additional hour per quarter of guided field experience at an approved
setting is required.

MUS 203B. Class Brass II. 1 Unit.
Prerequisites: MUS 203A
Continued study on selected brass instruments. A minimum of one
additional hour per quarter of guided field experience at an approved
setting is required.

MUS 204A. Class Percussion I. 1 Unit.
Beginning study of percussion instruments. A minimum of one additional
hour per quarter of guided field experience at an approved setting is
required.

MUS 204B. Class Percussion II. 1 Unit.
Prerequisites: MUS 204A
Continued study of percussion instruments. A minimum of one additional
hour per quarter of guided field experience at an approved setting is
required.

MUS 205A. Class Guitar I. 1 Unit.
Beginning study of guitar.

MUS 205B. Class Guitar II. 1 Unit.
Continued study of guitar.

MUS 206. Class Voice. 1 Unit.
Fundamentals of singing, voice production and diction. A minimum of
one additional hour per quarter of guided field experience at an approved
setting is required.

MUS 208. Vocal Music Literature. 1 Unit.
A survey of major works of solo and ensemble vocal literature.

MUS 209. Instrumental Music Literature. 2 Units.
A survey of major works of solo and ensemble instrumental literature.

MUS 210. Conducting. 2 Units.
Prerequisites: MUS 122 and MUS 123 or equivalent
Introduction to basic conducting techniques. A minimum of two additional
hours per quarter of guided field experience at an approved setting is
required.

MUS 211A. Diction for Singers I. 2 Units.
A study of the International Phonetic Alphabet and how it applies to
the proper usage of lyric diction for the Latin, Italian and English vocal
literature. Examples drawn from standard sacred, operatic and song
literature.

MUS 211B. Diction for Singers II. 2 Units.
A study of the International Phonetic Alphabet and how it applies to the
proper usage of lyric diction for the French and German vocal literature.
Examples drawn from standard operatic and song literature.

MUS 212. Choral Music Literature. 2 Units.
A survey of major works of ensemble vocal literature.

MUS 214. Introduction to Music Education. 2 Units.
Orientation to the field of music education. Course will cover history,
philosophy, current practices and trends, music curricula, professional
characteristics, and interpersonal skills required of music educators.

MUS 220. Class Piano I. 1 Unit.
Prerequisites: permission of department
Basic keyboard techniques, including music reading, keyboard
harmony and improvisation. Credit may not be counted toward fulfilling
requirements of the music major.
MUS 221. Class Piano II. 1 Unit.
Prerequisites: MUS 220 and permission of the department
Basic keyboard techniques, including music reading, keyboard
harmony and improvisation. Credit may not be counted toward fulfilling
requirements of the music major.

MUS 222. Class Piano III. 1 Unit.
Prerequisites: MUS 221 and permission of the department
Basic keyboard techniques, including music reading, keyboard harmony
and improvisation.

MUS 225. Music in the Theatre. 4 Units.
A survey of music as it is allied with drama, dance and film.

MUS 230. Introduction to Jazz Improvisation. 2 Units.
Prerequisites: MUS 122, MUS 123, MUS 221 or equivalent, or consent of
instructor
Techniques of jazz improvisation including melodic construction,
functional jazz harmonies, practice techniques, primary chord types,
auxiliary tones, chromaticism and 12-bar blues form. May be repeated for
credit.

MUS 235. Popular Music Literature. 4 Units.
A survey of the contributions of operetta, show-tune styles, gospel
music, the blues, standards of the 30s and 40s, folk and country music,
rhythm-and-blues, early rock-and-roll, and the more contemporary and
progressive styles of rock, pop and new wave music to twentieth century
American popular culture.

MUS 239. Applied Repertoire I. 1 Unit.
Prerequisites: placement audition and permission of department
Corequisites: one of the following - MUS 240, MUS 241, MUS 242, MUS
243, MUS 244, or MUS 245
One-half hour per week of supplementary repertoire study for sophomore-
level applied students in the Bachelor of Music in Performance degree.
May be repeated for a maximum of four units.

MUS 240. Lower-Division Voice II. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with either MUS 385 or 386. May be repeated for a maximum of six units.

MUS 241A. Lower-Division Keyboard Instrument II: Piano. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for
a maximum of six units.

MUS 241B. Lower-Division Keyboard Instrument II: Organ. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for
a maximum of six units.

MUS 241C. Lower-Division Keyboard Instrument II: Harpsichord. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with one of MUS 380, 381, 385, or 386. May be repeated for a maximum of six units.

MUS 242A. Lower-Division String Instrument II: Violin. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 242B. Lower-Division String Instrument II: Viola. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 242C. Lower-Division String Instrument II: Cello. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 242D. Lower-Division String Instrument II: Bass. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 242E. Lower-Division String Instrument II: Guitar. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 242F. Lower-Division String Instrument II: Harp. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 243A. Lower-Division Wind Instrument II: Flute. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 243B. Lower-Division Wind Instrument II: Clarinet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 243C. Lower-Division Wind Instrument II: Oboe. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.

MUS 243D. Lower-Division Wind Instrument II: Bassoon. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 380. May be repeated for a maximum of six units.
MUS 243E. Lower-Division Wind Instrument II: Saxophone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 244A. Lower-Division Brass Instrument II: Trumpet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 244B. Lower-Division Brass Instrument II: Horn. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 244C. Lower-Division Brass Instrument II: Trombone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 244D. Lower-Division Brass Instrument II: Tuba. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 245. Lower-Division Percussion Instrument II. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 246. Lower-Division Composition. 1 Unit.
Prerequisites: MUS 122 and MUS 123 or equivalent, at least one year of applied vocal or instrumental instruction at the collegiate level (MUS 140-145), a placement audition, and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 250. Theory IV. 3 Units.
Prerequisites: MUS 124 and MUS 125 or equivalent or consent of instructor
Continuation of MUS 124. Melody, Harmony, and texture as they inform musical structure in the Classical era; sonata and rondo forms; Neapolitan and Augmented sixth chords; analysis of representative compositions. Must be taken concurrently with MUS 251. Formerly MUS 322.

MUS 251. Musicianship IV. 1 Unit.
Prerequisites: MUS 124 and MUS 125 or equivalent or consent of instructor
Continuation of MUS 125. Applied musicianship experience including sight-singing, solfege, and dictation. Formerly MUS 323. Must be taken concurrently with MUS 250.

MUS 252. Theory V. 3 Units.
Prerequisites: MUS 250 and MUS 252 or equivalent or consent of instructor
Continuation of MUS 250. Melody, Harmony, and texture as they inform musical structure in the Romantic era; chromatic mediants, altered dominants, extended tertian chords, enharmonic modulations; analysis of representative compositions. Must be taken concurrently with MUS 253. Formerly MUS 324.

MUS 253. Musicianship V. 1 Unit.
Prerequisites: MUS 250 and MUS 251 or equivalent or consent of instructor
Continuation of MUS 251. Applied musicianship experience including sight-singing, solfege, and dictation. Formerly MUS 325. Must be taken concurrently with MUS 252.

MUS 254. Theory VI. 3 Units.
Prerequisites: MUS 252 and 253 or equivalent, or consent of instructor
Continuation of MUS 252. Melody, Harmony, and texture as they inform musical structure in the twentieth century; Impressionism, Primitivism (Stravinsky and Bartok), German Expressionism and Set Theory, twelve-tone serialism, post-war techniques; analysis of representative compositions. Must be taken concurrently with MUS 255.

MUS 255. Musicianship VI. 1 Unit.
Prerequisites: MUS 252 and 253 or equivalent, or consent of instructor
Continuation of MUS 253. Applied musicianship experience including sight-singing, solfege, and dictation. Must be taken concurrently with MUS 254.

MUS 260. Commercial Songwriting. 2 Units.
Prerequisites: MUS 122, MUS 123, and consent of department
Introduction to the harmony, melody, form, and lyrics used in commercial song and jingle composition. Students will compose original songs and jingles as part of the course requirements.

MUS 266. Introduction to Computer and Electronic Music. 4 Units.
An introduction to the history, development and practice of computer and electronic music. Non-majors are encouraged to enroll.

MUS 267. Introduction to Studio Recording Techniques. 4 Units.
Introductory course dealing with microphone techniques, aspects of recording, multi-tracking, mix-down and editing.

MUS 270. Introduction to Music Technology. 2 Units.
Prerequisites: MUS 122, MUS 123, and consent of department
A survey for music majors of common software and hardware resources used in music. Study includes musical notation software, recording technology, digital audio editing and manipulations, and MIDI.

MUS 301. Choral Conducting. 1 Unit.
Prerequisites: MUS 210
Techniques and skills employed in the performance of choral literature. A minimum of two additional hours per quarter of guided field experience at an approved setting is required.
MUS 302. Music Theatre Production. 2 Units.
Preparation and performance of major musical theater productions, including Broadway-styled musicals, opera, opera scenes, madrigal feasts, variety shows, and the like. May be repeated for credit. Total credit units that apply to any degree emphasis area are outlined in the specific catalog description for that emphasis.

MUS 303. Instrumental Conducting. 1 Unit.
Prerequisites: MUS 210
Techniques and skills employed in the performance of instrumental literature. A minimum of two additional hours per quarter of guided field experience at an approved setting is required.

MUS 304. History of Music I. 4 Units.
Prerequisites: MUS 122 and MUS 123 or consent of instructor
Development of Western music from antiquity through the Renaissance, with emphasis on analysis, listening and individual study.

MUS 305. History of Music II. 4 Units.
Prerequisites: MUS 122 and MUS 123 or consent of instructor
Continuation of MUS 304. Baroque to the late nineteenth century.

MUS 306. History of Music III. 4 Units.
Prerequisites: MUS 122 and MUS 123 or consent of instructor
Continuation of MUS 305. Late Romantic to the present.

MUS 307. Music of 20th and 21st Centuries. 4 Units.
Prerequisites: MUS 306 or consent of instructor
Intensive study of musical currents in the 20th and 21st centuries.

MUS 308. Women in Music. 4 Units.
(GE=G2)
Contributions of women to the occidental and non-Western musical heritage in the areas of composition, performance and dance.

MUS 309. Jazz History in America and African-American Culture. 4 Units.
(GE=G2)
Chronological study of jazz in the United States and the study of African American musical culture in the U.S. Addresses cultural, racial, social, musical, and gender-related influences of jazz on current American arts, pop culture, language, and entertainment demographics.

MUS 311. Performance Literature. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS 343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or MUS 445
A survey of musical literature most applicable to a student's applied study.

MUS 330. Advanced Jazz Improvisation. 2 Units.
Prerequisites: MUS 230 or equivalent, or consent of instructor
Continuation of MUS 230. Studies of advanced techniques including chromatic harmony, tritone substitutions, substitute harmonic idioms, polyharmony, modal jazz, quartal jazz, and rhythm changes.

MUS 339. Applied Repertoire II. 1 Unit.
Prerequisites: placement audition and permission of department
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS 343, MUS 344, or MUS 345
One-half hour per week of supplementary repertoire study for junior-level applied students in the Bachelor of Music in Performance degree. May be repeated for a maximum of four units.

MUS 340. Upper-Division Voice I. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with either MUS 385 or 386. May be repeated for a maximum of six units.

MUS 341A. Upper-Division Keyboard Instrument I: Piano. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 341B. Upper-Division Keyboard Instrument I: Organ. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, 381, 385, or 386. May be repeated for a maximum of six units.

MUS 341C. Upper-Division Keyboard Instrument I: Harpsichord. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, 381, 385, or 386. May be repeated for a maximum of six units.

MUS 342A. Upper-Division String Instrument I: Violin. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 342B. Upper-Division String Instrument I: Viola. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 342C. Upper-Division String Instrument I: Cello. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 342D. Upper-Division String Instrument I: Bass. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 342E. Upper-Division String Instrument I: Guitar. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 342F. Upper-Division String Instrument I: Harp. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.
MUS 343A. Upper-Division Wind Instrument I: Flute. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 343B. Upper-Division Wind Instrument I: Clarinet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 343C. Upper-Division Wind Instrument I: Oboe. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 343D. Upper-Division Wind Instrument I: Bassoon. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 343E. Upper-Division Wind Instrument I: Saxophone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 344A. Upper-Division Brass Instrument I: Trumpet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 344B. Upper-Division Brass Instrument I: Horn. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 344C. Upper-Division Brass Instrument I: Trombone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 344D. Upper-Division Brass Instrument I: Tuba. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 345. Upper-Division Percussion Instrument I. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 346. Upper-Division Composition I. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with one of MUS 380, 381, 385, or 386. May be repeated for a maximum of six units.

MUS 348. Applied Technology I. 1 Unit.
Prerequisites: MUS 416 or MUS 427 and approval of music faculty
Individual instruction in applied music technology and directed study in
characteristic repertoire, live performance, digital programming, and/or
creative layering of sound. One-half hour per week of private instruction.
Formerly MUS 447. Must be taken concurrently with one of MUS 380,
MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 350. Music of World Cultures. 4 Units.
(GE=G2)
A study of the major musical traditions of the world in their cultural
context.

MUS 351. Latin American Music. 4 Units.
An overview of the history and current performance practices of classical,
folk, and popular music of Latin America.

MUS 352. African American Music. 4 Units.
Historical development of the African American musical heritage.

MUS 356. Music in the United States. 4 Units.
Primarily concerned with music not directly related to Western European
classical traditions: folk heritage and blues tradition.

MUS 360. Music for Elementary Classroom Teachers. 3 Units.
Basic elements of music, including teaching strategies for using music in
the elementary classroom. Class activities will include singing, movement,
listening, playing classroom instruments, and musical composition.
Students will also develop proficiency on the soprano recorder. Each
student will develop and present a lesson plan integrating teaching
of musical skills with other areas of the elementary curriculum, in
accordance with the California and National Standards of Visual and
Performing Arts. Two hours lecture and two hours activity.
MUS 372. Music Materials for Classroom Teachers. 4 Units.
Prerequisites: MUS 100 or 370 or consent of instructor
Extension of the concepts of music education in the elementary school as developed in MUS 370. Practical strategies for integration of computer technologies into the curriculum are explored as well as the evaluation of elementary music textbooks and software. Writing projects include short- and long-term lesson plans to assist the child in becoming musically literate as outlined in the California Standards for Visual and Performing Arts. Special emphasis will be given to preparation for the CSET Music Subject Matter Examination. Open to liberal studies majors, music majors, and others with sufficient background.

MUS 374. Music Methods for Classroom Teachers. 4 Units.
Prerequisites: MUS 100 or 370 or consent of instructor
Major methodological approaches to teaching the basic elements of music. Methods studied will include, but not be limited to the following: Orff-Schulwerk, Kodaly, Dalcroze, Gordon Learning Theory and Suzuki. An understanding of each approach, its history, and application to classroom music instruction at both the elementary and secondary levels, along with continued proficiency on the soprano recorder. This course is designed in accordance with the California Standards for Visual and Performing Arts. Open to liberal studies majors, music majors, and others with sufficient background.

MUS 375. Music Theatre Internship. 2 Units.
Prerequisites: DAN 300, MUS 340, and either MUS 302, MUS 387 or TA 302
Supervised work in a public or private setting that includes primarily professional auditioning and performing experience in the field of music theater. May be repeated twice for credit. Generally assumes 30 hours of work per unit of credit. Graded credit/no credit.

MUS 380. Chamber Orchestra. 1 Unit.
Prerequisites: consent of instructor
Performance of representative orchestral literature.

MUS 381. Symphonic Band. 1 Unit.
Performance of representative symphonic band literature.

MUS 382A. Chamber Music: Woodwinds. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382B. Chamber Music: Percussion. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382C. Chamber Music: Flute Choir. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382D. Chamber Music: Brass Quintet. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382E. Chamber Music: Saxophone. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382F. Chamber Music: Guitar Ensemble. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382G. Chamber Music: Clarinet Ensemble. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382H. Chamber Music: Jazz Combo. 1 Unit.
Prerequisites: MUS 230 or consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382I. Chamber Music: World Music. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382J. Chamber Music: Early Music. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382K. Chamber Music: Collaborative Piano. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 382L. Chamber Music: Strings. 1 Unit.
Prerequisites: consent of instructor
Performance of small ensemble music as determined by available instrumentation.

MUS 385. Concert Choir. 1 Unit.
Performance of representative choral literature.

MUS 386. Chamber Singers. 1 Unit.
Prerequisites: consent of instructor
MUS 387. Opera Theatre I. 1 Unit.
Prerequisites: consent of instructor
Preparation and rehearsal of major music theatre productions, including opera, operetta, and opera scenes. May be repeated for credit. Total credit units apply to any degree emphasis are outlined in the specific catalog description for that emphasis. Students admitted into this course must also register for MUS 397 in the Spring quarter of the same academic year.

MUS 388. Women’s Chorus. 1 Unit.
Performance of representative choral literature for women’s ensemble.

MUS 389. Chamber Winds. 1 Unit.
Prerequisites: consent of instructor
Performance of representative literature for wind ensemble.

MUS 391. Jazz Ensemble. 1 Unit.
Prerequisites: consent of instructor
Performance of representative jazz ensemble literature.

MUS 392. Vocal Jazz. 1 Unit.
Prerequisites: consent of instructor
A select vocal ensemble dedicated to the performance of American vocal jazz, emphasizing vocal jazz improvisation and jazz styles. Active performance schedule can be expected.

MUS 393. Collegium Musicum. 1 Unit.
Prerequisites: consent of instructor
Performance of representative vocal and instrumental literature from the Medieval and Renaissance periods. Four hours activity per week.

MUS 395. Symphonic Choir. 1 Unit.
Prerequisites: consent of instructor
Performance of major works for large choral ensemble. Will present at least one public performance per quarter. Open to all students by audition.

MUS 396. Reverence Singers. 1 Unit.
Performance of vocal literature from the Afro-American tradition.

MUS 397. Opera Theatre II. 2 Units.
Prerequisites: MUS 387 in the same academic year
Continuation of MUS 387. Preparation and performance of major music theatre productions, including opera, operetta, and opera scenes. May be repeated for credit. Total units may apply to any degree emphasis area outlined in the specific catalog description for that emphasis.

MUS 399A. Community Service Project. 1 Unit.
Prerequisites: consent of instructor
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

MUS 399B. Community Service Project. 2 Units.
Prerequisites: consent of instructor
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

MUS 400. Studies in Composers. 4 Units.
Prerequisites: MUS 306 or consent of instructor
Intensive study in the life and works of a particular composer. Content will vary. May be repeated for credit as topics change.

MUS 401. History of Musical Theatre. 4 Units.
History of musical theatre literature and production. Also offered as MUS 401; students may not receive credit for both.

MUS 402. Topics in Music History. 2 Units.
Prerequisites: MUS 306 or consent of instructor
Selected topics in the field of Music History. May be repeated for credit as topics change.

MUS 406. Orchestration. 2 Units.
Prerequisites: MUS 122 and MUS 123 or consent of instructor
Instrumental literature and orchestration, including study of the instruments of the orchestra and writing for instrumental groups.

MUS 410. Music in the Elementary Schools. 4 Units.
Prerequisites: MUS 214 or consent of instructor
Materials and objectives in teaching music at the elementary school, including specialized instrumental and choral programs, singing and listening activities, and the use of simple instruments appropriate to child growth and development. Field work is included.

MUS 414. Commercial Arranging and Scoring. 2 Units.
Prerequisites: MUS 260 and MUS 406 or consent of instructor
Arranging and scoring techniques for groups of varied instrumentation, and for various commercial applications, including traditional songs, jingles, and video scoring.

MUS 416. Advanced Computer and Electronic Music. 4 Units.
Prerequisites: MUS 266 or consent of instructor
Intensive study in the history, development and practice of computer and electronic music.

MUS 417. Composition for Films and Television. 4 Units.
Prerequisites: MUS 414 or consent of instructor
Study of the aesthetic, psychological and practical techniques involved in composing music for films and television.

MUS 426. Studies in Music History. 4 Units.
Prerequisites: MUS 304, 305 and 306 or consent of instructor
Intensive study in selected style periods of music. May be repeated for credit as topics change.
MUS 427. Advanced Studio Recording Techniques. 4 Units.
Prerequisites: MUS 267 or consent of instructor
Intensive course dealing with microphone techniques, aspects of recording, multi-tracking, mix-down and editing.

MUS 429. Topics in Music Technology. 4 Units.
Prerequisites: MUS 416 or consent of instructor
Areas of special interest in the field of music technology. May be repeated for credit as topics change.

MUS 439. Applied Repertoire III. 1 Unit.
Prerequisites: placement audition and permission of department
Corequisites: one of the following - MUS 440, MUS 441, MUS 442, MUS 443, MUS 444, or MUS 445
One half-hour per week of supplementary repertoire study for senior-level applied students in the Bachelor of Music in Performance degree. May be repeated for a maximum of four units.

MUS 440. Upper-Division Voice II. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with either MUS 385 or 386. May be repeated for a maximum of six units.

MUS 441A. Upper-Division Keyboard Instrument II: Piano. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, 381, 385, or 386. May be repeated for a maximum of six units.

MUS 441B. Upper-Division Keyboard Instrument II: Organ. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 441C. Upper-Division Keyboard Instrument II: Harpsichord. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, 381, 385, or 386. May be repeated for a maximum of six units.

MUS 442A. Upper-Division String Instrument II: Violin. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 442B. Upper-Division String Instrument II: Viola. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 442C. Upper-Division String Instrument II: Cello. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 442D. Upper-Division String Instrument II: Bass. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 442E. Upper-Division String Instrument II: Guitar. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 442F. Upper-Division String Instrument II: Harp. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 380. May be repeated for a maximum of six units.

MUS 443A. Upper-Division Wind Instrument II: Flute. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 443B. Upper-Division Wind Instrument II: Clarinet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 443C. Upper-Division Wind Instrument II: Oboe. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 443D. Upper-Division Wind Instrument II: Bassoon. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 443E. Upper-Division Wind Instrument II: Saxophone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.

MUS 444A. Upper-Division Brass Instrument II: Trumpet. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently with MUS 381. May be repeated for a maximum of six units.
MUS 444B. Upper-Division Brass Instrument II: Horn. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 444C. Upper-Division Brass Instrument II: Trombone. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 444D. Upper-Division Brass Instrument II: Tuba. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 445. Upper-Division Percussion Instrument II. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with MUS 381. May be repeated for a maximum of six units.

MUS 446. Upper-Division Composition II. 1 Unit.
Prerequisites: placement audition and approval of music faculty
One-half hour per week of private instruction. Must be taken concurrently
with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated
for a maximum of six units.

MUS 448. Applied Technology. 1 Unit.
Prerequisites: MUS 348 or consent of instructor
Advanced individual instruction in applied music technology, with directed
study in characteristic repertoire, live performance, digital programming,
and creative layering of sound. One-half hour per week of private
instruction. Must be taken concurrently with one of MUS 380, MUS 381,
MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 450A. Applied Music Pedagogy: Voice. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 450B. Applied Music Pedagogy: Piano. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 450C. Applied Music Pedagogy: Orchestral Strings. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 450D. Applied Music Pedagogy: Guitar. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 450E. Applied Music Pedagogy: Woodwinds. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 450F. Applied Music Pedagogy: Brass. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 450G. Applied Music Pedagogy: Percussion. 2 Units.
Corequisites: one of the following - MUS 340, MUS 341, MUS 342, MUS
343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or
MUS 445
An examination of physiology, primary sources, and methodical
literature used in applied music teaching. Assigned work will include a
peer teaching requirement or equivalent field work with secondary or
elementary age students.

MUS 475. Internship in Music. 1 Unit.
Prerequisites: permission of department and senior standing
Supervised work in a commercial, industry, or arts managements setting.
May be repeated twice for a maximum of 2 units. Assumes 30 hours of
work per unit of credit. Graded credit/no credit.

MUS 498. Junior Project. 1 Unit.
Prerequisites: junior standing and consent of department. Formerly MUS
992
Independent study with applied instructor or principal instructor in area of
emphasis.
MUS 499. Junior Recital. 1 Unit.
Prerequisites: junior standing, attained 300-level in applied study, and consent of department. Formerly MUS 995
Preparation for recital with applied instructor.

MUS 510. Special Topics in Music. 4 Units.
Prerequisites: consent of instructor
Areas of special interest in the various fields of music selected for special presentation and development. May be repeated for credit as topics change.

MUS 513. Orff Schulwerk Level I. 4 Units.
Prerequisites: consent of instructor
Music learning and teaching through the application of the Orff Schulwerk approach.

MUS 514. Orff Schulwerk Level II. 4 Units.
Prerequisites: MUS 513
Music learning and teaching through the application of the Orff Schulwerk approach.

MUS 516. Teaching Recorder in the Elementary Classroom I. 2 Units.
Development of personal performance skills on the soprano and tenor recorders as well as developing instructional skills in teaching these recorders in the elementary schools.

MUS 517. Teaching Recorder in the Elementary Classroom II. 2 Units.
Prerequisites: MUS 516
Development of personal performance skills on the alto and bass recorders as well as developing instructional skills in teaching these recorders in the elementary school.

MUS 519. Audio Production. 2 Units.
Methods for creating appropriate musical/audio instructional materials using basic audio production equipment. Does not count toward the music major.

MUS 528A. Special Projects. 1 Unit.
Prerequisites: consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit.

MUS 528B. Special Projects. 2 Units.
Prerequisites: consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit.

MUS 528C. Special Projects. 3 Units.
Prerequisites: consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit.

MUS 528D. Special Projects. 4 Units.
Prerequisites: consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit.

MUS 535. Computer Studies for Music Teachers. 2 Units.
This course is intended for music teachers who wish to become familiar not only with hardware, music software, and basic computer music operations, but also with the specific uses of computer technology in the music classroom.

MUS 542. Studies in Musical Organization. 4 Units.
Prerequisites: satisfactory completion of MUS 315 or equivalent
Intensive study of aspects of musical organization: tonal, melodic and rhythmic.

MUS 575. Internship in Music Technology. 4 Units.
Prerequisites: MUS 347, MUS 429, and consent of instructor
Supervised work in a public or private setting that provides professional experience in the field of music technology. May be repeated once for credit. Generally assumes 30 hours of work per unit of credit. Graded credit/no credit.

MUS 598. Senior Project. 1 Unit.
Prerequisites: senior standing, completion of 300-level applied study requirements, and consent of department. Formerly MUS 993
Independent study with applied music instructor or principal instructor in area of emphasis.

MUS 599. Senior Recital. 1 Unit.
Prerequisites: senior standing, attained 400-level in applied study, and consent of department Formerly MUS 996
Preparation for recital with applied instructor.

MUS 602. Foundations of Music Education. 4 Units.
History of music education in America including the various music philosophies and national trends that have influenced the current music teaching profession.

MUS 603. Music Learning Theories. 4 Units.
Prerequisites: completion of MUS 315 or equivalent, or consent of instructor
Learning sequences in musical development including an understanding of music aptitude, rhythm and tonal audition, and the development of music literacy.

MUS 604. Advanced Instrumental Music Teaching. 4 Units.
Prerequisites: MUS 603 or consent of instructor
Development of teaching strategies and techniques for band and orchestral instruments.

MUS 628A. Special Projects. 1 Unit.
Prerequisites: graduate standing and consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. A total of eight units may apply toward graduation.

MUS 628B. Special Projects. 2 Units.
Prerequisites: graduate standing and consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. A total of eight units may apply toward graduation.
MUS 628C. Special Projects. 3 Units.  
Prerequisites: graduate standing and consent of instructor  
Individual projects in orchestration, conducting and score reading, theory,  
history, composition, electronic music. A total of eight units may apply  
toward graduation.

MUS 628D. Special Projects. 4 Units.  
Prerequisites: graduate standing and consent of instructor  
Individual projects in orchestration, conducting and score reading, theory,  
history, composition, electronic music. A total of eight units may apply  
toward graduation.

MUS 990. Music Comprehensive Assessment.  
0 Units.  
To be taken by seniors during the final quarter of the B.A. program.

MUS 998. Concert Attendance. 0 Units.  
Attendance at at least eight Music Department concerts, recitals, and  
related programs. Required of all music majors.

MUS 999. Comprehensive Examination. 0  
Units.  
Prerequisites: advancement to candidacy, approval of department,  
completion of course work in the masters program, and in good academic  
standing  
An assessment of the students ability to integrate the knowledge of the  
area, show critical and independent thinking and demonstrate mastery of  
the subject matter.

Natural Sciences (NSCI)

Courses

NSCI 295A. Special Projects in Natural  
Science. 1 Unit.  
Prerequisites: consent of instructor  
Individual investigation, research, study or survey of selected problems.

NSCI 295B. Special Projects in Natural  
Science. 2 Units.  
Prerequisites: consent of instructor  
Individual investigation, research, study or survey of selected problems.

NSCI 296A. Special Projects in Natural  
Science. 1 Unit.  
Prerequisites: consent of instructor  
Individual investigation, research, study or survey of selected problems.

NSCI 296B. Special Projects in Natural  
Science. 2 Units.  
Prerequisites: consent of instructor  
Individual investigation, research, study or survey of selected laboratory  
problems.

NSCI 300. Science and Technology. 4 Units.  
Prerequisites: junior or senior standing  
(GE=B5)  
Relationship between science and technology-past, present and future- 
with case studies of the energy crisis, the technology of pollution control  
and recycling, automation, computers, technology assessment and other  
contemporary issues.

NSCI 301. Introduction to STEM and STEM  
Research. 2 Units.  
Prerequisites: Permission of the instructor  
Introduction to resources for upper division transfer students, including the  
library, financial aid, Office of Student Research, and the Career Center.  
Presents expectations for and tools to help achieve success for students,  
including active/collaborative learning, reflective learning, and how to  
pursue undergraduate research and internships. Graded Credit/No credit.

NSCI 306. Expository Writing for the Natural  
Sciences. 4 Units.  
Prerequisites: satisfaction of the GE written communication (A1)  
requirement and a minimum of 90 quarter (60 semester) units of college  
credit  
Writing on topics related to the natural sciences, including documented  
research reports, summaries and analytical papers. Revision and rewriting  
will be required. Course fulfills the graduation requirement in writing  
proficiency. No more than one of the expository writing courses (EDUC  
306, ENG 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be  
taken for credit. Students who have received a grade of no credit in any  
combination of the expository writing courses two or more times must  
meet with the 306 coordinator or designee to design a developmental  
writing plan as a condition for enrolling for a third quarter. All students  
must obtain junior status at the time of registration or their course request  
will be cancelled. Formerly NSCI 495. Graded A, B, C/no credit.

NSCI 310. The Environment and Human  
Survival. 4 Units.  
Prerequisites: junior or senior standing  
(GE=B5)  
Consideration of the environment and environmental problems generated  
by the interactive effects of our biological heritage, the impact of science  
and technology, and our cultural attitudes.

NSCI 314. Life in the Cosmos. 4 Units.  
Prerequisites: junior or senior standing  
(GE=B5)  
Life in the cosmos is discussed using the findings of astronomy, biology,  
chemistry and physics. Topics include the development of life and its  
environment, the search for life, interstellar communications and travel  
and the effects of contact.

NSCI 315. Natural Disasters. 4 Units.  
Prerequisites: junior or senior standing  
(GE=B5)  
A consideration of natural processes such as volcanic eruptions,  
earthquakes, global sea level rise, slope failures, floods, wildland fires,  
meteoric impacts and severe forms of weather, that have had or may  
have disastrous consequences on both humans and the environment.

NSCI 320. Energy. 4 Units.  
Prerequisites: junior or senior standing  
(GE=B5)  
Present and future energy sources, including fossil fuels, hydroelectric  
power, nuclear energy and solar energy. Scientific principles and  
technological requirements for developing energy sources, economic  
factors and environmental problems associated with energy production  
and consumption.
NSCI 325. Perspectives on Gender. 4 Units.
Prerequisites: junior or senior standing (GE=B5, G1)
This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender roles in Western culture are established, maintained and changed. (Also offered as HUM 325 and SSCI 325. Students may receive credit for only one of these courses.)

NSCI 351. Health and Human Ecology. 4 Units.
Prerequisites: junior or senior standing (GE=B5)
A survey of the impact of physical, social and biological environments on health related issues such as poor housing, drug abuse, juvenile delinquency, radiation and pesticide exposure, food quality, noise, air and water resources and their relation to human settlements.

NSCI 360. Legacy of Life. 4 Units.
Prerequisites: junior or senior standing (GE=B5)
History of life on earth and the processes that govern its genesis, evolution, extinction, ecology, and preservation.

NSCI 368. MARC Seminar I. 2 Units.
A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 368, PSYC 368, and SSCI 368 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

NSCI 395A. Directed Study. 1 Unit.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in one of the natural sciences disciplines conducted under the direction of a faculty member.

NSCI 395B. Directed Study. 2 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in one of the natural sciences disciplines conducted under the direction of a faculty member.

NSCI 395C. Directed Study. 3 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in one of the natural sciences disciplines conducted under the direction of a faculty member.

NSCI 395D. Directed Study. 4 Units.
Prerequisites: consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Reading and library research in one of the natural sciences disciplines conducted under the direction of a faculty member.

NSCI 468. MARC Seminar II. 2 Units.
Prerequisites: NSCI 368, PSYC 368 or SSCI 368
A selected examination of original research articles in behavioral and biomedical sciences focusing on improving scientific writing skills, shaping long-term research projects, and the development of research funding proposals. Offered as NSCI 468, PSYC 368, and SSCI 468 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

NSCI 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics including library studies, field and/or laboratory work in one of the natural sciences disciplines under the direction of a faculty member. A maximum of five units in NSCI 595 may be applied toward graduation.

NSCI 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics including library studies, field and/or laboratory work in one of the natural sciences disciplines under the direction of a faculty member. A maximum of five units in NSCI 595 may be applied toward graduation.

NSCI 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics including library studies, field and/or laboratory work in one of the natural sciences disciplines under the direction of a faculty member. A maximum of five units in NSCI 595 may be applied toward graduation.

NSCI 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in special topics including library studies, field and/or laboratory work in one of the natural sciences disciplines under the direction of a faculty member. A maximum of five units in NSCI 595 may be applied toward graduation.

NSCI 604. The Nature and History of Science. 4 Units.
Brief survey of the development of science from myth through Greek thought to selected topics in contemporary sciences.

NSCI 695A. Directed Graduate Studies. 1 Unit.
Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of Dean of Graduate Studies.
Nursing (NURS)

Courses

NURS 200. Foundations of Nursing Process, Roles and Skills. 4 Units.
Prerequisites: sophomore standing, admission to nursing major; NURS 202, NURS 316, and NURS 380
Corequisites: NURS 201 and NURS 382
Introduction to nursing process and nursing role, including: dynamic followership, basic cognitive, psychomotor, interpersonal, and assessment skills.

NURS 201. Foundations of Nursing Process, Roles and Skills: Laboratory. 3 Units.
Prerequisites: sophomore standing, admission to nursing major; NURS 202, NURS 316 and NURS 380
Corequisites: NURS 200 and NURS 382
Introduction to nursing process and nursing role, including basic cognitive, psychomotor, interpersonal, and assessment skills. Application of knowledge and skills from NURS 200. Clinical experience in various settings emphasizing dynamic followership in physical and emotional care of the middle-aged and older adults needing basic to moderate nursing care. Materials fee required.

NURS 202. Concepts in Professional Nursing. 2 Units.
Prerequisites: admission to the nursing major. Co-requisites: NURS 316 and NURS 380
Nursing Professional Role Development introduces students to professional concepts and theories. Integrate concepts of multi-dimensional care and skills of inquiry and analysis to inform clinical decision making and professional judgment through dynamic followership.

NURS 220. Intermediate Nursing Process, Roles and Skills. 4 Units.
Prerequisites: NURS 200, NURS 201, and NURS 382
Corequisites: NURS 221
Principles of assessment and care of moderately to acutely ill individuals, incorporating pathophysiology, intermediate nursing process and roles, including: collaboration, cultural competence, and inclusivity, intermediate cognitive, psychomotor, psychosocial, interpersonal, assessment skills, and critical decision-making.

NURS 221. Intermediate Nursing Process, Roles and Skills: Laboratory. 4 Units.
Prerequisites: NURS 200, NURS 201, NURS 382 and consent of department
Corequisites: NURS 220
Application of knowledge and skills from NURS 220. Care of clients in sub-acute and acute care settings emphasizing collaboration, and cultural inclusivity/competence and critical decision-making in physical, emotional, and psychosocial care of the middle-aged and older adults needing moderate to acutely ill nursing care. Materials fee required.

NURS 302. Technological Assessment I. 1 Unit.
Prerequisites: NURS 332 and NURS 333
Corequisites: NURS 400 and NURS 415
Assists students to enhance clinical reasoning in functional areas of nursing (e.g. Nutrition, Communication, and Gerontology), using a technological learning system approach to meet Quality and Safety Education in Nursing (QSEN) standards and Nursing Certification and Licensure Examination (NCLEX) competencies.

NURS 305. Secrets of Success. 2 Units.
This course is intended to decrease the effects of stressors found in nursing education by improving personal overall wellness. The focus is on coping and other wellness strategies to address the multifaceted causes of stress.
NURS 310. Transition to Baccalaureate Nursing Education. 2 Units.
Prerequisites: consent of the nursing department, active CA RN license
Concepts related to transitioning from ADN to BSN nursing roles.
Explores learning and technology skills, and competencies required of the professional nurse.

NURS 316. Health Assessment. 4 Units.
Prerequisites: acceptance to the program. Corequisite: NURS 202 and NURS 380
Determining and measuring variables relevant to assessment of psychosocial and physical health. Formerly NURS 223. Two hours lecture and six hours laboratory. Materials fee required.

NURS 320. Advanced Nursing Process, Roles and Skills: Theory. 4 Units.
Prerequisites: NURS 302, NURS 400, NURS 401 and NURS 415
Continuation of principles of assessment and care of acutely ill individuals of various ages and psychosocial and cultural backgrounds.
Advances the path to leadership and proficiency in nursing science; with pathophysiology as basis of nursing assessment and care.

NURS 322. Advanced Nursing Process, Roles and Skills. 3 Units.
Prerequisites: NURS 400, NURS 401 and consent of department
Corequisites: NURS 323
Continuation of principles of assessment and care of acutely ill individuals of various ages and psychosocial and cultural backgrounds.
Pathophysiology as basis of nursing assessment and care.

NURS 323. Advanced Nursing Process, Roles and Skills: Laboratory. 4 Units.
Prerequisites: NURS 302, NURS 400, NURS 415 and consent of department
Corequisites: NURS 322 and NURS 422
Application of knowledge and skills from NURS 322. Care of clients in subacute and acute care settings, emphasizing the path to leadership and proficiency in nursing science, with Pathophysiology as the basis of nursing assessment and care. Materials fee required.

NURS 332. Nursing Care of Families and Children. 4 Units.
Prerequisites: NURS 334, NURS 335 and NURS 340
Corequisites: NURS 333
Theory and application of nursing process, nursing roles in collaboration with the multi-member health care team, cultural competencies observed within the family unit with children. Formerly NURS 330.

NURS 333. Nursing Care of Families and Children: Laboratory. 3 Units.
Prerequisites: NURS 334, NURS 335, NURS 340 and department consent
Corequisites: NURS 332
Clinical experience emphasizing application of nursing process, nursing roles, collaboration, and cultural competence and inclusivity with families and their children. Materials Fee Required.

NURS 334. Maternal Child and Women’s Health. 4 Units.
Prerequisites: NURS 220 and NURS 221
Corequisites: NURS 335 and NURS 340
Theory and application of nursing process, nursing roles, collaboration, cultural competence, and inclusivity, with childbearing families. Formerly NURS 330.

NURS 335. Maternal Child and Women’s Health: Laboratory. 3 Units.
Prerequisites: NURS 220, NURS 221 and consent of department
Corequisites: NURS 334 and NURS 340
Clinical experience emphasizing application of nursing process, nursing roles, collaboration, cultural competence, and inclusivity with care of childbearing families. Materials fee required. Formerly NURS 331.

NURS 340. Theories of Nursing. 2 Units.
Prerequisites: NURS 220 and NURS 221. Corequisites: NURS 334 and NURS 335
Introduction to nursing theories, various conceptual models of nursing, and adopted theories. Emphasizes implications of these models on the nursing process, nursing role, collaboration, cultural competence, and inclusivity in healthcare. Formerly NURS 450.

NURS 341A. Professional Writing: Introduction. 2 Units.
Introductory course for the RN working toward a BSN degree. Research and Best Evidence Practices will be introduced. APA foundations and guidelines for professional writing explored. Students will begin the writing of the nursing senior project in small groups.

NURS 341B. Professional Writing: Project Identification. 2 Units.
Adding to the written project or research paper for the senior project. Written work will include Best Evidence findings, purpose of the study, and methodology.

NURS 341C. Professional Writing: Study Design. 2 Units.
Further additions to the senior project or research paper. Additions will include assessment tools or tests, outline of pilot, and writing of IRB requests if necessary.

NURS 341D. Professional Writing: Project Completion. 2 Units.
Project Completion. Introduction to sources for nursing publications and assistance in the final additions to the senior project paper or to the senior research paper including results of the pilot, conclusions and recommendations. Practice of oral presentations of the findings and will be given assistance in professional poster preparation and presentation.

NURS 343. The Nurse as a Researcher. 4 Units.
Introduction of the foundations of medical and nursing research. Focus is on identifying, collecting, analyzing and disseminating evidenced based practice. Seminars will assist small groups in selection of the senior project that runs throughout the program.
NURS 344. The Nurse as a Leader. 4 Units.
Review of basic principles of leadership and management pertaining to healthcare settings. Contemporary issues as well as requisite changes in nursing healthcare delivery and nursing education. Beginning fiscal management and budgeting will be introduced and discussed.

NURS 345. The Nurse as an Advocate: Family Concepts. 4 Units.
Overview of family concepts focused upon the relationship between client & family and the healthcare provider. Family assessment will be introduced and practiced. Special attention will be given to end-of-life issues and caregiver support.

NURS 346. The Nurse as a Member of the Community. 4 Units.
Principles of population assessment in any healthcare setting will be introduced. Care of individuals and families in diverse settings will be emphasized. Health promotion and wellness will be examined and practiced.

NURS 347. The Nurse as a Member of the Community: Activity. 4 Units.
Application of knowledge and skills related to population assessment will be experienced in a variety of healthcare settings. These clinical hours will allow the student to apply for a Public Health Nurse Certificate.

NURS 350. Nursing Theories. 4 Units.
Introduction to various conceptual models of nursing. Implications of these models for nursing practice. Students will identify a model for use in their senior research project.

NURS 352. The Nurse as a Teacher. 4 Units.
Presentation of teaching-learning theories and application upon those methods to promote health and disease prevention across the lifespan. Focuses upon: illiteracy, caregivers and those with physical impairments. Students will present individual, family and group classes.

NURS 353. Global Nursing. 4 Units.
International health concerns affecting the delivery of nursing care at home and abroad. Credit will be arranged for nursing projects pertaining to international concerns.

NURS 375. Cooperative Education. 2 Units.
Prerequisites: NURS 200, NURS 201 and departmental approval of a standard application filed in advance of the quarter in which the course is to be taken.
Application of nursing concepts and skills through supervised work in a hospital or other health care agency. Sixteen hours of supervised work and a two-hour group meeting are required each week. Open only to non-licensed nursing majors. May be taken quarterly, but only four units may be applied toward the degree. Graded credit/no credit.

NURS 380. Pathophysiological Concepts Applied to Nursing Practices. 4 Units.
Prerequisites: admission to the nursing major. Corequisite NURS 202 and NURS 316
Pathophysiological concepts as applied to nursing practice with an emphasis on the body's response to the disease process.

NURS 382. Pharmacology and Therapeutics for Nursing Practice. 4 Units.
Prerequisites: NURS 202, NURS 316, NURS 380
Corequisites: NURS 200 and NURS 201
Emphasis on principles of pharmacology and therapeutic use of drugs in humans; and nursing roles and responsibilities in drug therapy, with a focus on select drug classifications. Formerly a topic under NURS 396.

NURS 396. Selected Topics in Nursing. 2 Units.
Prerequisites: consent of department chair prior to registration
Selected nursing topics with specific focus. May be repeated for credit as topics change.

NURS 399A. Community Service Project. 1 Unit.
Prerequisites: submission of a project proposal and consent of department chair prior to registration
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of four units. No more than four units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

NURS 399B. Community Service Project. 2 Units.
Prerequisites: submission of a project proposal and consent of department chair prior to registration
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of four units. No more than four units of credit for Community Service Project courses may be applied toward degree requirements. Graded credit/no credit.

NURS 400. Psych/Mental Health Nursing. 4 Units.
Prerequisites: NURS 332, NURS 333, and PSYC 201
Corequisites: NURS 302 and NURS 415
Collaboration, cultural competence, and inclusivity, health promotion and chronic illness care with mentally and physically ill middlescent and older adults in community, clinic, and inpatient sites.

NURS 401. Psych/Mental Health Nursing: Activity. 4 Units.
Prerequisites: NURS 332, NURS 333, NURS 334, NURS 335, PSYC 201, and consent of department
Corequisites: NURS 400
Application of knowledge and skills from NURS 400. Clinical experience in various ambulatory care settings with mentally and physically ill middlescent and older adults via recovery, resilience, and wellness philosophy. Materials fee required.

NURS 402. Technological Assessment II. 2 Units.
Prerequisites: NURS 322 and NURS 323, and NURS 422. Corequisites: NURS 406 and NURS 417
Enhances content mastery and clinical reasoning in functional areas in nursing, using a technological learning approach in the context of lifetime learning and leadership. Must pass this course with a C to progress and graduate.
NURS 404. Leadership and Management in Nursing. 4 Units.
Prerequisites: NURS 402, NURS 406 and NURS 417
Corequisites: NURS 408 and NURS 409
Synthesis of knowledge and skills in critical thinking, communication and therapeutic nursing interventions as a leader and change agent on the interdisciplinary health team.

NURS 405. Leadership in Nursing: Clinical. 4 Units.
Prerequisites: NURS 406, NURS 407 and consent of department
Corequisites: NURS 404
Clinical experience focusing on innovative nursing roles in various settings. Materials fee required.

NURS 406. Community/Public Health Nursing. 4 Units.
Prerequisites: NURS 322, NURS 323, NURS 422
Corequisites: NURS 402 and NURS 407
Principles of health promotion and health equity; care of individuals, families, and communities; review of systems leadership and nursing care for communities of diverse psychosocial and cultural backgrounds. Formerly NURS 324.

NURS 407. Community/Public Health Nursing: Clinical. 4 Units.
Prerequisites: NURS 322, NURS 323, NURS 400, NURS 401 and consent of department
Corequisites: NURS 406
Application of knowledge and skills from NURS 406. Clinical experience in community health agencies with young individuals and families. Materials fee required. Formerly NURS 325.

NURS 408. Capstone Seminar. 1 Unit.
Prerequisites: NURS 402, NURS 406 and NURS 417
Corequisites: NURS 404 and NURS 409
Assists students to organize and implement their learning objectives for their Preceptor Capstone Lab, and guide their evidenced-based project, demonstrating leadership role.

NURS 409. Preceptor Capstone Lab. 4 Units.
Corequisites: NURS 404 and NURS 408
Precepted clinical and leadership experiences focusing on graduate nurse and innovative nursing roles in various settings. Materials fee required.
Prerequisites: NURS 402, NURS 406, NURS 417 and consent of Nursing Department.

NURS 410. Transitional Concepts for Professional Nursing. 2 Units.
Prerequisites: NURS 310 and consent of the department. Materials fee required.
Corequisites: NURS 411
Socialization and development into professional nursing roles. Exploration of current theories, concepts and health issues for populations with diverse psychosocial and cultural backgrounds.

NURS 411. Transitional Concepts for Professional Nursing: Laboratory. 4 Units.
Prerequisites: Active RN license, professional malpractice insurance and consent of the department
Corequisites: NURS 410
Practice of professional nursing roles with populations of diverse psychosocial and cultural backgrounds.

NURS 415. Psych/Mental Health Nursing: Clinical Laboratory. 3 Units.
Prerequisites: NURS 332, NURS 333, PSYC 201 and consent of department
Corequisites: NURS 302 and NURS 400
Application of knowledge and skills from NURS 406. Clinical experience at multiple levels of care with mentally and physically ill middle-aged and older adults. Collaboration, cultural competence, and inclusivity are integral components of community, clinic, and inpatient care. Clinical hours and locations may vary. Materials fee required.

NURS 417. Community and Public Health Nursing. 3 Units.
Prerequisites: NURS 322, NURS 323, NURS 422 and consent of department
Corequisites: NURS 402 and NURS 406
Application of knowledge, skills and leadership from NURS 406. Clinical application of principles of health promotion and health equity; care of individuals, families, and communities; review of systems leadership and communities of diverse psychosocial and cultural backgrounds. Clinical hours and locations may vary. Materials fee required. Formerly NURS 325.

NURS 422. Introduction to Nursing Research. 4 Units.
Prerequisites: NURS 302, NURS 400 and NURS 401 or NURS 415 and MATH 165 or equivalent. Corequisites: NURS 322 and NURS 323
Introduction to the research process and analysis of studies relevant to nursing.

NURS 425. Issues and Trends in Nursing and Health Care. 2 Units.
Prerequisites: NURS 422 and consent of department

NURS 443. The Nurse as a Counselor. 4 Units.
Exploration of assessment interviewing and counseling techniques focused upon those with healthcare issues. Differentiate between therapy and counseling and how to recognize when to refer. Identification of referral sources for follow-up.

NURS 444. Nurse as Expert Clinician. 4 Units.
Supports the students self-evaluation of skills and knowledge in clinical expertise. Assists the individual student to go beyond with advanced clinical skills and expertise. Opportunities to expand knowledge and skills will be explored including expansion of nursing roles such as manager of care, informatics, clinical management and quality assurance.
NURS 445. The Nurse as a Change Agent. 4 Units.
Nurses are always in a position to make changes in individuals, families and communities. This course will explore theories related to change focusing on health promotion and disease prevention.

NURS 446. The Nurse as a Mentor: Activity. 4 Units.
Supports the student's self-evaluation of skills and knowledge in clinical expertise. Assists the individual student to go beyond the advanced clinical skills and expertise. Opportunities to expand knowledge and skills will be explored including expansion of nursing roles such as Manager of care, informatics, clinical management and quality assurance.

NURS 483. The Nurse as a Lifelong Learner: Advanced Practice Models. 4 Units.
Designed to introduce learners to the opportunities in pursuit of a master's and doctoral degrees in nursing. Advanced practice models will be explored via classroom, online and Seminar.

NURS 494. Senior Seminar. 4 Units.
This course is the culmination of the program's emphasis upon research and professional writing. Students will present their two-year study in small groups, will complete the research paper and will present a professional poster session.

NURS 500. Advanced Topics in Nursing. 4 Units.
Prerequisites: upper-division standing or consent of instructor
Selected advanced nursing topics with specific focus within relatively narrow content areas. May be repeated for credit as topics change.

NURS 502. Advanced Physical/Health Assessment of Children and Adolescents. 4 Units.
Prerequisites: consent of department
Seminar presents techniques related to physical and health assessment, in the school or community setting, including vision, scoliosis, and dental screenings. Emphasis is on the common morbidities and mortalities of these age groups and the interrelationship of the physical, emotional, and socioeconomic causes of health problems and illnesses. Two hours lecture and six hours laboratory. Materials fee required.

NURS 503. Principles of School Nursing Practice. 4 Units.
Prerequisites: consent of department
Role of the school nurse in relation to current accepted practice in school health programs as pertaining to the health needs of school children and their communities.

NURS 504. School Nursing Internship. 4 Units.
Prerequisites: consent of department
Supervised practice in public school nursing working with credentialed school nurses at the elementary and secondary level. Course taken at the completion of the program. Graded credit/no credit.

NURS 541. Advanced Health Assessment Across the Life Span. 4 Units.
Prerequisites: Permission of the Nursing Department
Focus is to ensure competency in performing a quality health assessment to include: health history, interview, review of systems, and a comprehensive physical examination for persons across the lifespan; Based on a foundation of anatomy, physiology, pathophysiology, oral and written communication skills, and clinical application of the nursing process for nurses in the advanced role;

NURS 542. Advanced Pathophysiology. 4 Units.
Prerequisites: permission of the Nursing Department
Principles of advanced physiology and pathophysiology to guide a practitioner in understanding healthy physiological function, and to appropriately interpret changes in normal function, including symptom recognition and diagnostic markers of illness; Topics include pathophysiology of cardiovascular, psychiatric, endocrine, respiratory, renal, gastrointestinal, integumentary, bone and joint, lymphatic, musculoskeletal, hematologic, immunologic, and neurologic systems.

NURS 543. Advanced Pharmacology and Toxicology. 4 Units.
Prerequisites: permission of the Nursing Department
Pharmacologic and toxicologic principles for diverse populations across the lifespan, with application to advanced clinical nursing practice; Topics: clinical toxicology, pathology and pharmacotherapy of cardiovascular, psychiatric, endocrine, respiratory, gastrointestinal, bone and joint, infectious, reproductive, and dermatological disorders.

NURS 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research conducted under the direction of a faculty member. A total of six units in NURS 595 may be applied toward graduation.

NURS 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research conducted under the direction of a faculty member. A total of six units in NURS 595 may be applied toward graduation.

NURS 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research conducted under the direction of a faculty member. A total of six units in NURS 595 may be applied toward graduation.

NURS 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research conducted under the direction of a faculty member. A total of six units in NURS 595 may be applied toward graduation.
NURS 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Research conducted under the direction of a faculty member. A total of six units in NURS 595 may be applied toward graduation.

NURS 595F. Independent Study. 6 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.
Research conducted under the direction of a faculty member. A total of six units in NURS 595 may be applied toward graduation.

NURS 600. Population Health Assessment. 6 Units.
Prerequisites: classified graduate standing in MSN program and current RN licensure and consent of department.
Examines the health of communities and the process of assessment, including environmental health. Analysis of theoretical frameworks, assessment models, health care delivery systems, and special populations as they relate to current health issues. Three hours seminar and nine hours laboratory (90 clinical hours). Materials fee required.

NURS 601. Preparation for MSN Learning with Technology. 1 Unit.
Prerequisites: consent of department.
Introduces returning students to methods of effective learning. Methods will include learning skills in a traditional classroom, and virtual instructional methods. Lecture, computer and web based activities. Graded credit/no credit.

NURS 610. Program Planning and Evaluation. 6 Units.
Prerequisites: NURS 600, current RN licensure and consent of department.
Program planning, implementation and evaluation for effective advanced public/community health nursing to improve health and meet health care needs of populations. Includes fiscal management and grant writing. Three hours seminar and nine hours laboratory (90 clinical hours). Materials fee required.

NURS 620. Health Policy Leadership. 6 Units.
Prerequisites: NURS 610, current RN licensure and consent of department.
Social, ethical, political, economic, and ideological forces that shape health policy and law. Informed participation in interdisciplinary policy-making processes and the impact of health policy on professional practice. Develops leadership skills to champion solutions for health. Three hours seminar and nine hours laboratory (90 clinical hours). Materials fee required.

NURS 630. Advanced Nursing Roles. 3 Units.
Prerequisites: current RN licensure and consent of department.
Considers the advanced nursing component roles of: expert clinical nursing practice, education, research, consultation and clinical leadership to study the health of populations within diverse settings. Disease prevention/health promotion topics include nutrition, addictive substances/behaviors, and strategies such as cultural competence and health education. Three hours seminar.

NURS 635. Biostatistics for Public/Community Health Nursing. 4 Units.
Prerequisites: consent of department.
Statistical knowledge and tools including the basic concepts of biostatistics, quantitative methodology in epidemiology, clinical applications for evidence based practice, and statistical utility for decision making. Introduction to statistical analysis software; the process of instrument development, validity and reliability assessment, and pilot testing; decision theory; the analysis and evaluation of the methods, results and discussion sections of a research report. Formerly a topic under NURS 500.

NURS 645. Advanced Nursing Research. 4 Units.
Prerequisites: consent of department.
Overview of the research process, the composition of a literature review, ethical issues, research design, and data evaluation. Meta-analysis, odds ratio, and risk ratio methods are applied to practice with populations. Formerly NURS 625.

NURS 646. Epidemiology. 4 Units.
Prerequisites: consent of the department.
Examination of the distribution and determinants of health and illness; factors contributing to health promotion and disease prevention; and factors influencing the use of health services. Examination of the terms and methods used to describe the health status of populations and investigate disease. Emphasizes a local to global perspective including implications for health care delivery, evaluation, and health policy.

NURS 654. Transcultural Healthcare. 4 Units.
Prerequisites: consent of department.
Overview of assessment, planning, implementation and evaluation strategies for disease prevention and health promotion in cultural communities considering the specific behaviors and views unique to cultural populations which directly impact health. Formerly a topic under NURS 500.

NURS 655. Advanced Nursing Theory. 4 Units.
Prerequisites: classified standing in the MSN program or consent of department.
Examines nursing knowledge in the context of the history, philosophical perspectives, major influences, and current controversies. Theoretical foundations of nursing as applied to select community issues emphasizing intervention development and outcomes evaluation. Formerly NURS 615.

NURS 656. Management Skills for Advanced Public/Community Health Nursing. 4 Units.
Prerequisites: consent of department.
Overview of management concepts and skills necessary for advanced public/community health nursing. Focus is on effective management of health care systems, programs and resources in the community. Formerly a topic under NURS 500.

NURS 657. Nursing Case Management. 4 Units.
Prerequisites: consent of department.
Foundations of case management. Health care delivery system, managed care, case management concepts, and the case management process are discussed with emphasis on legal and ethical issues, leadership skills, and case management tools and technology. Formerly NURS 640.
NURS 658. Nursing Education: Curriculum and Instruction. 4 Units.
Prerequisites: consent of department
Teaching-learning theory as a basis for curricular development. Advanced practice nursing education in academic and community settings focusing on program and curriculum development and instructional methodology. Formerly NURS 650.

NURS 659. Assessment and Evaluation in Nursing Education. 4 Units.
Prerequisites: NURS 658 and consent of department
Teaching-learning theory as a basis for assessment and evaluation of learner outcomes. Accreditation standards discussed and analyzed. Participants develop an evaluation plan and strategies in preparation for the role of educator in an educational institution or health care setting. Focus is on higher education or K-12 depending on concentration. Four hours seminar.

NURS 660. Instructional Technology in Nursing Education. 4 Units.
Prerequisites: NURS 658 and consent of department
Computer and other instructional technologies supporting the teaching learning process. Includes principles of distance learning, use of the internet, and how to integrate computer technologies into the teaching-learning process. Focus is on higher education or K-12 depending on concentration. Seminar, computer and web based activities. Four hour seminar.

NURS 681. Advanced Public/Community Health Internship I. 3 Units.
Prerequisites: NURS 600, NURS 610, and NURS 630, consent of the department, and current RN licensure
Clinical application of advanced community/public health nursing in diverse settings allowing for a population-focused practice. Formerly NURS 680. Graded credit/no credit.

NURS 682. Advanced Public/Community Health Internship II. 3 Units.
Prerequisites: NURS 600, NURS 610 and NURS 630, consent of department and current RN licensure. Formerly NURS 680
Clinical application of advanced community/public health nursing in diverse settings allowing for a population-focused practice. Formerly NURS 680. Graded credit/no credit.

NURS 688. Advanced Role Practicum. 2 Units.
Prerequisites: NURS 600, NURS 610, and NURS 630 and consent of department. May be taken concurrently with NURS 620
Application of advanced nursing concepts in the core and concentration, and identification of researchable problems. Activities will demonstrate mastery of the advanced nursing component areas: expert clinical nursing practice, education, research, consultation, and clinical leadership. Participants must have access to a clinical site and a preceptor in their concentration. 60 hours clinical practicum. Graded credit/no credit.

NURS 690. Preparation for Comprehensive Examination. 2 Units.
Prerequisites: advancement to candidacy
Corequisites: NURS 999
Independent study conducted under the direction of a faculty member to prepare for comprehensive examinations in the Master of Science in Nursing.

NURS 697. Clinical Project in Nursing. 6 Units.
Prerequisites: advancement to candidacy and NURS 645
Independent clinical project conducted under the direction of a major program faculty advisor.

NURS 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
NURS 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 699. Thesis Research in Nursing. 6 Units.
Prerequisites: advancement to candidacy and NURS 625 Independent graduate research conducted under the direction of a major program faculty advisor.

NURS 999. Comprehensive Examination. 0 Units.
Prerequisites: consent of department
An integrative, written examination covering course work required for the major. The comprehensive exam committee for each candidate will consist of the students advisor and one other faculty member teaching in the program. Candidates failing must retake the exam within one year, and must consult with their advisor to discuss actions necessary for remediation of shortcomings. Graded credit/no credit.

Paralegal Studies (PLST)

Persian (PERS)

Courses

PERS 101. College Persian I. 4 Units.
Introduction Persian including fundamentals of grammatical structure, pronunciation and culture. Formerly a topic under FLAN 101.
PERS 102. College Persian II. 4 Units.
Prerequisites: PERS 101 or equivalent
Further study of the fundamentals of grammatical structure, pronunciation and culture. Emphasis in oral communication, reading and writing. Formerly a topic under FLAN 102.
PERS 103. College Persian III. 4 Units.
Prerequisites: PERS 102 or equivalent
Emphasis on oral communication and writing competencies at the intermediate level in a cultural context. Formerly a topic under FLAN 103.
PERS 201. Intermediate Persian I. 4 Units.
Prerequisites: PERS 103 or equivalent
(GE=C3)
First course in an intermediate-level sequence in Persian. Develops students oral and written Persian language skills, as well as knowledge of Persian-speaking cultures.
PERS 202. Intermediate Persian II. 4 Units.  
Prerequisites: PERS 201 or equivalent  
(GE=C3)  
Second course in an intermediate-level sequence in Persian. Develops 
students oral and written Persian language skills, as well as knowledge of 
Persian-speaking cultures. (4 units.  

PERS 290. Persian Literature in Translation. 4 
Units.  
Introduction to Persian literature in English translation.

Philosophy (PHIL)  

Courses  

PHIL 101. Moral Choices in Life. 2 Units.  
(GE=E2)  
Fundamentals of ethical reasoning. Introduction to moral theories and 
methods of moral decision making. Focus on such issues as ethics in the 
workplace, responsible citizenship, euthanasia, and responsibilities to the 
homeless, the environment and animals.  

PHIL 105. Critical Thinking Through 
Argument Analysis. 4 Units.  
(GE=A4)  
Analysis of various kinds of reasoning employed in everyday life and in 
more specialized contexts, to develop each students skill in understanding 
and using carefully constructed arguments. Illustrations will include 
materials drawn from contemporary issues.  

PHIL 190. Introduction to Philosophical 
Issues. 4 Units.  
Prerequisites: satisfaction of the GE written communication (A1) 
requirement or equivalent  
(GE=C4)  
An introduction to philosophical thinking by means of reading, discussing 
and writing about selected philosophical works. Students are encouraged 
to develop their own philosophical views in a critical exchange with the 
views of the philosophers studied.  

PHIL 191. Introduction to Ethics. 4 Units.  
Prerequisites: satisfaction of the GE written communication (A1) 
requirement or equivalent  
(GE=C4)  
An introduction to ethics and moral theory. Philosophical approaches to 
questions of right and wrong, duty and obligation, good and evil. Deals 
with both individual morality and social morality.  

PHIL 192. Introduction to Philosophy of 
Religion. 4 Units.  
Prerequisites: satisfaction of the GE written communication (A1) 
requirement or equivalent  
(GE=C4)  
Introductory treatment of philosophical issues raised by religion and 
religious belief; discussion of issues such as relations between faith, belief 
and knowledge, arguments for the existence of god, the problem of evil, 
and immortality.  

PHIL 193. Introduction to Eastern Philosophy. 
4 Units.  
Prerequisites: satisfaction of the GE written communication (A1) 
requirement or equivalent  
(GE=C4)  
Introduction to the ways in which Buddhism, Hinduism, Taoism and 
Confucianism view human life and reality.  

PHIL 194. Introduction to Knowledge and 
Reality. 4 Units.  
Prerequisites: satisfaction of the GE written communication (A1) 
requirement or equivalent  
(GE=C4)  
Inquiry into philosophical presuppositions underlying common sense 
and scientific views of knowledge and reality. Possible topics include: Was 
the universe created? Is the world as it appears to us? Are humans merely 
complex machines or do they have souls? How do we know what we 
know?.  

PHIL 200. Critical Thinking Through Symbolic 
Logic. 4 Units.  
Prerequisites: Mathematics GE requirement  
(GE=A4)  
Introduction to logic and its application to everyday reasoning. Emphasis 
on formal methods and modern symbolic logic. A grade of C- or better is 
required to receive GE credit.  

PHIL 206. Critical and Analytic Reasoning. 4 
Units.  
Prerequisites: satisfaction of the General Education Critical Thinking (A4) 
and Philosophy (C4) requirements  
Review of logical notions and combinatorial methods introduced in many 
critical reasoning courses (e.g. PHIL 200); extension of those notions and 
methods to increasingly complex problems, including problems of the sort 
encountered in analytic portions of the GRE and LSAT exams. Formerly 
PHIL 305.  

PHIL 300. Predicate Logic. 4 Units.  
Prerequisites: PHIL 200 or consent of instructor  
Introduction to the standard predicate calculus. Some metatheory. This 
course requires some basic mathematical or logical background.  

PHIL 306. Inductive Logic. 4 Units.  
Prerequisites: PHIL 200 and satisfaction of the GE Philosophy (C4) 
requirement  
Principles of reasoning underlying the scientific method. Topics include 
thesis formation and testing, foundations and philosophical 
interpretation of probability and decision theory. Formerly a topic under 
PHIL 400.  

PHIL 308. Alternative Logics. 4 Units.  
Prerequisites: PHIL 200 or consent of instructor  
Formal systems possibly including modal logics, conditional logics, many-
valued logics and relevant logics alternative to classical symbolic logic. 
Formerly a topic under PHIL 400.
PHIL 310. Introduction to Philosophical Methodology. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Intensive introduction to philosophical methods: identification and analysis of philosophical arguments, analytical reading of philosophical texts, and techniques for constructing and evaluating philosophical theories and arguments. May be repeated for credit, only four units may count toward the major.

PHIL 311. Ancient Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Introduction to the origin of Western philosophy, as represented in the works of the Pre-Socratics, Plato, Aristotle, the Stoics, Epicureans, Skeptics and Mystics.

PHIL 312. Medieval Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of philosophical thought from the Neoplatonists up to Descartes.

PHIL 313. History of Modern Philosophy: Knowledge and Reality. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Major philosophical developments in Western philosophy from Descartes through Kant, focusing on the nature of knowledge and reality. Formerly PHIL 318.

PHIL 314. History of Modern Philosophy: Ethics and Politics. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Major philosophical developments in Western philosophy from Machiavelli to Mill, focusing on ethics and political theory. Formerly PHIL 319.

PHIL 315. History of Modern Philosophy: Knowledge and Reality II. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Major philosophical developments in the Modern period of Western philosophy, focusing on the nature of knowledge and reality. A continuation of PHIL 313 featuring figures such as Locke, Leibniz and Berkeley.

PHIL 320. Philosophy of Education. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Inquiry into the nature of education and its role in human life, and the role of individual and social values. Readings from classical and contemporary philosophers.

PHIL 350. Ethics. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
The nature of the meaningful life and its relation to concepts of right and wrong explored through various moral theories.

PHIL 351. Topics in Moral and Political Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Consideration of select problems in moral and political theory. May be repeated for credit as topics change.

PHIL 352. Metaethics. 4 Units.
Study of the metaphysical, epistemological, and semantic underpinnings of moral claims and judgments.

PHIL 353. Topics in Applied Ethics. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of different issues in applied ethics and political theory such as environmental ethics, business ethics, global ethics, international justice, international human rights, ethics in the helping professions, and philosophical economics. May be repeated for credit as topics change.

PHIL 355. Contemporary Ethical Issues. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
An examination of contemporary moral issues such as abortion rights, capital punishment, animal treatment, environmental protection, business ethics, and military intervention. Specific topics will be determined by cases that universities nationwide are examining during the year the course is offered. Students who take this course will become eligible to represent CSUSB in state and national academic competitions.

PHIL 359. Philosophy and Economics. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of issues at the intersection of economics and moral and political philosophy, e.g., classic accounts of the nature of value, the nature of justice, the nature of rationality, the measurability of human well-being.

PHIL 361A. Social and Political Philosophy: Classical Political Theories. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
An examination of major perspectives on how societies should be organized. Study of central issues such as legitimacy of government, and rights versus obligations; or of major concepts such as justice, equality, rights, class, patriarchy and power.

PHIL 361B. Social and Political Philosophy: Themes in Social and Political Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
An examination of major perspectives on how societies should be organized. Study of central issues such as legitimacy of government, and rights versus obligations; or of major concepts such as justice, equality, rights, class, patriarchy and power.
PHIL 362. Philosophy of Law. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
A study of philosophical problems raised by the law, such as the obligation to obey the law; concepts of justice; and justifications for legal rights.

PHIL 363. Jurisprudence. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Addresses the classic question, “What is law?” and considers whether the criteria for identifying valid legal rules in a legal system refer exclusively to their origin or pedigree or whether they must also satisfy valid moral principles.

PHIL 364. Philosophy of Race and Ethnicity. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of theories of equality and justice as they apply to justice, affirmative action, multiculturalism, group differences and the intersections of race with gender and class.

PHIL 367. Gender and Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Philosophical theories of male and female nature, their implications concerning equality and rights, the nature of the family, and social roles of men and women.

PHIL 372. Philosophy of Religion. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Problems concerned with the existence and attributes of God or gods, the significance of religious experience and its varieties, and the rationality of faith.

PHIL 375. Non-Western Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of various philosophical issues that arise within non-Western world views such as Buddhism, Hinduism, Taoism, and Islam.

PHIL 380. Metaphysics. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Problems relating to existence. Includes issues such as realism and anti-realism, the nature of modal truth, free-will and determinism, the mind-body problem, and the nature of identity.

PHIL 381. Philosophy of Logic. 4 Units.
Prerequisites: PHIL 200 and satisfaction of the Philosophy (C4) requirement
Philosophical issues raised by logic, such as the nature of logical truth and logical consequences, the relation between logic and the world, and justifications for logical systems. Formerly PHIL 382 and a topic under PHIL 485.

PHIL 383. Philosophy of Mathematics. 4 Units.
Prerequisites: MATH 110 or equivalent, PHIL 200, and satisfaction of the Philosophy (C4) requirement
Philosophical issues raised by mathematics, such as the nature of mathematical truth, the relation between mathematics and the world, and justifications for mathematical systems. Formerly a topic under PHIL 485, formerly PHIL 382.

PHIL 384A. Philosophy of Mind. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Various theories about the nature of the mind and the relation of the mind to the body and behavior. Focus will be on different approaches to psychology (behaviorism, functionalism, etc.) or on the consequences of theories of the mind for the question of whether computers can think. May be repeated for credit as topics change.

PHIL 384B. Philosophy of Mind. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Various theories about the nature of the mind and the relation of the mind to the body and behavior. Focus will be on different approaches to psychology (behaviorism, functionalism, etc.) or on the consequences of theories of the mind for the question of whether computers can think. May be repeated for credit as topics change.

PHIL 385. Theory of Knowledge. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Problems concerning acquiring and justifying knowledge, including the roles of sense perception and reason, the distinction between knowledge and belief, the nature of evidence, and the concepts of truth and certainty.

PHIL 386. Philosophy of Science. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Foundations of science, including the nature of scientific methodology, explanation, concept formation, and the structure of theories, using case studies from the natural sciences and social sciences.

PHIL 387. Philosophy of Language. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Inquiry into the syntactic, semantic and pragmatic dimensions of language, focusing on different theories of these components, and the philosophical implications of these theories.

PHIL 390. Topics in Philosophy. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of a specially-selected figure, movement, problem, or theory in philosophy. May be repeated for credit as topics change.

PHIL 400. Advanced Issues in Logic. 4 Units.
Prerequisites: PHIL 300 or consent of instructor
Discussion of issues such as axiomatic logic, proofs of soundness and completeness, multi-valued logics, modal logics and/or other alternative logics. May be repeated for credit as topics change.
PHIL 410. Advanced Issues in History of Philosophy. 4 Units.
Prerequisites: at least two 300-level philosophy courses and satisfaction of the GE upper-division writing requirement
An intensive study of one or more philosophical figures. May be repeated for credit as topics change.

PHIL 460. Advanced Issues in Value Theory. 4 Units.
Prerequisites: at least two 300-level philosophy courses and satisfaction of the GE upper-division writing requirement
Intensive study of topics in ethics, social philosophy and/or political philosophy. May be repeated for credit as topics change.

PHIL 472. Advanced Issues in Philosophy of Religion. 4 Units.
Prerequisites: at least two 300-level philosophy courses and satisfaction of the GE upper-division writing requirement
Intensive study of topics in philosophy of religion. May be repeated for credit as topics change.

PHIL 485. Advanced Issues in Metaphysics and Knowledge. 4 Units.
Prerequisites: at least two 300-level philosophy courses and satisfaction of the GE upper-division writing requirement
Intensive study of topics in metaphysics, philosophy of language, theory of knowledge and/or philosophy of science. May be repeated for credit as topics change.

PHIL 490. Philosophical Topics. 4 Units.
Prerequisites: satisfaction of the GE Critical Thinking (A4) and Philosophy (C4) requirements
Study of a specially selected figure, movement, problem or theory in philosophy. May be repeated for credit as topics change.

PHIL 516. Senior Project. 1 Unit.
Prerequisites: completion of 135 units, including 36 units of the philosophy major. Graded credit/no credit
Preparation and submission of a portfolio of writing representing successful work in the philosophy major, accompanied by a reflective essay showing the extent to which the student has satisfied the objectives and goals of the major.

PHIL 575B. Internship in Philosophy. 2 Units.
Prerequisites: consent of instructor
Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of eight units may be applied toward graduation; a total of four units may be applied to the major. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

PHIL 575C. Internship in Philosophy. 3 Units.
Prerequisites: consent of instructor
Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of eight units may be applied toward graduation; a total of four units may be applied to the major. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

PHIL 575D. Internship in Philosophy. 4 Units.
Prerequisites: consent of instructor
Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of eight units may be applied toward graduation; a total of four units may be applied to the major. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

PHIL 575E. Internship in Philosophy. 5 Units.
Prerequisites: consent of instructor
Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of eight units may be applied toward graduation; a total of four units may be applied to the major. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

PHIL 595B. Independent Study. 2 Units.
Prerequisites: a minimum grade point average of 3.0, consent of instructor and departmental approval of a project submitted on a standard application filed no later than the end of the first week of classes
Intensive study of topics not offered in other existing philosophy courses. No more than four units of PHIL 595 can apply towards the philosophy major without departmental approval.

PHIL 595C. Independent Study. 3 Units.
Prerequisites: a minimum grade point average of 3.0, consent of instructor and departmental approval of a project submitted on a standard application filed no later than the end of the first week of classes
Intensive study of topics not offered in other existing philosophy courses. No more than four units of PHIL 595 can apply towards the philosophy major without departmental approval.

PHIL 595D. Independent Study. 4 Units.
Prerequisites: a minimum grade point average of 3.0, consent of instructor and departmental approval of a project submitted on a standard application filed no later than the end of the first week of classes
Intensive study of topics not offered in other existing philosophy courses. No more than four units of PHIL 595 can apply towards the philosophy major without departmental approval.

Physics (PHYS)

Courses

PHYS 100. Physics in the Modern World. 5 Units.
Prerequisites: completion of the general education requirement in mathematics, category B1 (GE=B3)
Examination of physics and its contemporary use, including topics of: mechanics, electricity, optics, sound, heat and radioactivity. This course is intended for students with little background in science. Four hours lecture and three hours laboratory. Materials fee required.

PHYS 121. Basic Concepts of Physics I. 5 Units.
Prerequisites: MATH 192 or 211, with a grade of C- or better (GE=B3)
First course of a three-course sequence surveying the basic concepts of physics, primarily for students entering fields relating to the biological sciences. This course will cover the basic principles of mechanics. Four hours lecture and three hours laboratory. Materials fee required.
PHYS 122. Basic Concepts of Physics II. 4 Units.
Prerequisites: PHYS 121
Continuation of PHYS 121. Topics include electricity, electric circuits and magnetism. Three hours lecture and three hours laboratory. Materials fee required.

PHYS 123. Basic Concepts of Physics III. 4 Units.
Prerequisites: PHYS 122
Continuation of PHYS 122. Topics include optics, waves and modern physics. Three hours lecture and three hours laboratory. Materials fee required.

PHYS 150. Introductory Electronics. 5 Units.
Prerequisites: a knowledge of trigonometry and exponential functions
Introduces electronics for the sciences and engineering. Assumes no experience in electronics and can be taken prior to introductory physics. Focus is on analog electronics: practical circuits, passive and active circuit elements, signal conditioning, test and measurement skills, and a brief introduction to digital electronics. Four hours lecture and three hours laboratory. Materials fee required.

PHYS 221. General Physics I. 5 Units.
Prerequisites: MATH 211
Prerequisite/Corequisite: MATH 212
(GE=B3)
First course of a five-course sequence in introductory physics for scientists and engineers. This sequence is intended for students with a strong background in mathematics and the sciences. Mechanics. Four hours lecture and three hours laboratory. Materials fee required.

PHYS 222. General Physics II. 5 Units.
Prerequisites: PHYS 221 and MATH 212. Recommended: MATH 213
Second course in a five-course sequence in introductory physics for scientists and engineers. Electromagnetism. Four hours lecture and three hours laboratory. Materials fee required.

PHYS 223. General Physics III. 5 Units.
Prerequisites: PHYS 222
Third course of a five-course sequence in introductory physics for scientists and engineers. Waves and optics. Four hours lecture and three hours laboratory. Materials fee required.

PHYS 224. General Physics IV. 3 Units.
Prerequisite/Corequisite: PHYS 223 or consent of instructor
Fourth course of a five-course sequence in introductory physics for scientists and engineers. An introduction to special relativity, kinetic theory and thermodynamics. Three hours lecture.

PHYS 225. General Physics V. 3 Units.
Prerequisites: PHYS 224 or consent of instructor
Fifth course of a five-course sequence in introductory physics for scientists and engineers. An introduction to the photon theory of electromagnetic radiation, atomic physics, nuclear physics, elementary particle physics, and quantum mechanics. Three hours lecture.

PHYS 295A. Special Projects in Physics. 1 Unit.
Prerequisites: consent of instructor
Individual investigation, research, study or survey of selected problems. May be repeated for credit.

PHYS 295B. Special Projects in Physics. 2 Units.
Prerequisites: consent of instructor
Individual investigation, research, study or survey of selected problems. May be repeated for credit.

PHYS 303. Astronomy for Educators. 3 Units.
An introductory course in the modern description of our planetary system, stars, galaxies, and models of the universe followed by basic principles and ideas in space science. Three hours lecture.

PHYS 304. Physics in the Classroom. 2 Units.
Prerequisites: one college level course in chemistry or earth science
Basic concepts of physics as related to the elementary and middle school classroom. Concepts include mechanics, electricity and magnetism, optics, thermodynamics, and modern physics. One hour lecture and three hours laboratory. Materials fee required.

PHYS 305. Demonstration Laboratory in Physics. 1 Unit.
Prerequisite/Corequisite: PHYS 304
A demonstration laboratory exploring the basic principles of physics through individual student demonstration. Three hours laboratory. Materials fee required.

PHYS 306. Classical Mechanics I. 4 Units.
Prerequisites: PHYS 225 and one of the following: MATH 373, PHYS 373 with a grade of "C" or better in each course
A continuing study of dynamics with an introduction to advanced formulations. Four hours lecture.

PHYS 307. Classical Mechanics II. 4 Units.
Prerequisites: PHYS 306 with a grade of "C" or better
A continuation of PHYS 306 with emphasis in Lagrangian and Hamiltonian formulation in classical mechanics. Four hours lecture. Formerly PHYS 406.

PHYS 313. Electrodynamics I. 4 Units.
Prerequisites: PHYS 225 and 373 with a grade of "C" or better in each course
Derivation and applications of Maxwell's equations. Four hours lecture.

PHYS 314. Electrodynamics II. 4 Units.
Prerequisites: PHYS 313 with a grade of "C" or better
A continuation of PHYS 313 with advanced applications of Maxwell' equations and electromagnetic waves. Four hours lecture. Formerly PHYS 414.

PHYS 315. Introduction to Modern Optics. 4 Units.
Prerequisites: PHYS 313 with a grade of "C" or better
An introduction to geometrical optics, physical optics and lasers. Four hours lecture.

PHYS 318. Materials Science and Engineering. 4 Units.
Prerequisites: CHEM 215, PHYS 224 and PHYS 373
Fundamental materials science concepts with applications. Topics include structural, electrical and thermal properties of materials, phase diagrams, interfaces, and electronic band structure. Four hours lecture.
PHYS 324. Statistical and Thermal Physics. 4 Units.
Prerequisites: MATH 252 and PHYS 225 with a grade of "C" or better in each course
Basics of equilibrium thermodynamics including statistical description of physical systems, entropy and temperature, classical and quantum statistical ensembles, thermodynamics, and selected applications. Four hours lecture. Formerly PHYS 424.

PHYS 350. Data Acquisition and Control. 4 Units.
Prerequisites: CSE 201, PHYS 150 and PHYS 222
An introduction to computer-based data acquisition, control and analysis. Topics include instrument control, graphical programming, algorithm development, feedback control algorithms, and computer-based data analysis. Three hours lecture and three hours laboratory. Materials fee required.

PHYS 352. Advanced Electronics. 4 Units.
Prerequisites: PHYS 350 and PHYS 373 with a grade of "C" or better in each course
Advanced analog electronics techniques for science and engineering. Topics include computer-aided circuit design, high frequency techniques, modular circuit design, and computer-experiment interfacing. Three hours lecture and three hours laboratory. Materials fee required.

PHYS 370. Introduction to Astrophysics. 4 Units.
Prerequisites: PHYS 225 and 373 with a grade of "C" or better in each course
Basic principles of stellar structure and evolution, galactic structure, extragalactic astronomy and cosmology. Four hours lecture.

PHYS 373. Mathematical Methods of Physics I. 4 Units.
Prerequisite/Corequisite: MATH 331
Vector calculus, Fourier analysis, and ordinary differential equations. Emphasis on techniques applicable to the problems of physics. Prerequisites: PHYS 222 and MATH 252 and.

PHYS 398. Junior Assessment. 1 Unit.
Prerequisites: PHYS 306 and PHY 313 with a grade of "C" or better
Students will review the foundational subjects in physics (primarily classical mechanics, electrodynamics, thermodynamics and statistical mechanics, special relativity, and quantum mechanics) at the intermediate level and apply that knowledge to problem-solving. Graded credit/no credit.

PHYS 421. Quantum Mechanics I. 4 Units.
Prerequisites: MATH 331, PHYS 225 and PHYS 306 with a grade of "C" or better in each course
Introduction to quantum mechanics. Topics include the origins of quantum theory, angular momentum, the Dirac formalism, 2-level systems and the harmonic oscillator. Four hours lecture. Formerly PHYS 322.

PHYS 422. Quantum Mechanics II. 4 Units.
Prerequisites: PHYS 306, PHYS 314, and PHYS 421 with a grade of "C" or better in each course
Continued study of the principles of quantum mechanics introduced in PHYS 421. Topics include the axiomatic formulation of quantum mechanics, spin and orbital angular momentum, the Schrödinger equation in three dimensions, approximation methods, and scattering.

PHYS 430. Advanced Physics Laboratory. 4 Units.
Prerequisites: PHYS 313 with a grade of "C" or better. Recommended: PHYS 421
Selected advanced experiments appropriate to a students previous preparation. May be repeated for credit. Two hours lecture and six hours laboratory. Materials fee required.

PHYS 450. Solid State Physics. 4 Units.
Prerequisites: PHYS 318, 421, and 473 with grades of "C" or better
A lecture course exploring selected topics in condensed matter physics. May be repeated for credit as topics change. Four hours lecture.

PHYS 461. Introduction to Nuclear Physics. 4 Units.
Prerequisites: PHYS 306 and 422 with a grade of "C" or better in each course
Basic concepts of nuclear structure and reactions, including accelerators and detectors, the nucleon-nucleon force, basic nuclear properties, the shell model, radioactivity, heavy ion reactions and quarks. Four hours lecture.

PHYS 463. Introduction to Elementary Particle Physics. 4 Units.
Prerequisites: PHYS 306 and 422 with a grade of "C" or better in each course
A survey of elementary particle physics, including accelerators, relativistic kinematics, conservation laws, quarks, the standard model, and quantum field theories. Four hours lecture.

PHYS 473. Mathematical Methods of Physics II. 4 Units.
Prerequisites: PHYS 373, MATH 331 and PHYS 225 are strongly recommended
A continuation of MATH/PHYS 373. Topics covered include functions of a complex variable and partial differential equations.

PHYS 480A. Topics in Classical Physics: Mechanics. 4 Units.
Prerequisites: PHYS 307 with a grade of "C" or better
Further treatment of topics in physics introduced in previous courses.

PHYS 480B. Topics in Classical Physics: Electrodynamics. 4 Units.
Prerequisites: PHYS 314 with a grade of "C" or better
Further treatment of topics in physics introduced in previous courses.

PHYS 485A. Topics in Contemporary Physics. 1 Unit.
A lecture course on a current topic or on new developments in physics. May be repeated for credit as topics change.

PHYS 485B. Topics in Contemporary Physics. 2 Units.
A lecture course on a current topic or on new developments in physics. May be repeated for credit as topics change.

PHYS 485C. Topics in Contemporary Physics. 3 Units.
A lecture course on a current topic or on new developments in physics. May be repeated for credit as topics change.
PHYS 485D. Topics in Contemporary Physics. 4 Units.
A lecture course on a current topic or on new developments in physics. May be repeated for credit as topics change.

PHYS 573. Mathematical Methods of Physics III. 4 Units.
Prerequisites: MATH 331, and MATH 473 or PHYS 473
A continuation of MATH/PHYS 473 with emphasis on advanced topics relevant to physics.

PHYS 585B. Internship in Physics. 2 Units.
Prerequisites: consent of instructor and department
Supervised work and study in physics in private or public setting. May be repeated for up to six units of credit. Graded credit/no credit.

PHYS 585C. Internship in Physics. 3 Units.
Prerequisites: consent of instructor and department
Supervised work and study in physics in private or public setting. May be repeated for up to six units of credit. Graded credit/no credit.

PHYS 585D. Internship in Physics. 4 Units.
Prerequisites: consent of instructor and department
Supervised work and study in physics in private or public setting. May be repeated for up to six units of credit. Graded credit/no credit.

PHYS 590. Physics Seminar. 1 Unit.
Prerequisites: senior standing and consent of department
Provides a vehicle for assessing the subject matter competency of physics graduates. May be repeated for credit. A total of two units may be applied towards the major requirements for graduation. Lecture only.

PHYS 595A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in physics conducted under the direction of a faculty member. A total of six units in PHYS 595 may be applied toward graduation.

PHYS 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in physics conducted under the direction of a faculty member. A total of six units in PHYS 595 may be applied toward graduation.

PHYS 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in physics conducted under the direction of a faculty member. A total of six units in PHYS 595 may be applied toward graduation.

PHYS 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in physics conducted under the direction of a faculty member. A total of six units in PHYS 595 may be applied toward graduation.

PHYS 595E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in physics conducted under the direction of a faculty member. A total of six units in PHYS 595 may be applied toward graduation.

PHYS 595F. Independent Study. 6 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Research in physics conducted under the direction of a faculty member. A total of six units in PHYS 595 may be applied toward graduation.

PHYS 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Political Science (PSCI)

Courses

PSCI 203. American Government. 4 Units.
(GE=D2)
Political structure and processes of the American governmental system.
This course meets the state code requirements in U.S. Constitution and state and local government.

PSCI 204. International Relations. 4 Units.
A survey of major regions and ideologies of the world, and of the basic concepts of foreign and security policies, international political economy, international law, and international organizations.

PSCI 300. Western Political Systems. 4 Units.
Major Western political systems.

PSCI 301. African Politics. 4 Units.
Comparative examination of domestic and foreign politics of African governments.

PSCI 304. East European Political Systems. 4 Units.
Comparative examination of the domestic and foreign policies of East European states.

PSCI 305. East Asian Politics. 4 Units.
Comparative examination of domestic and foreign politics of East Asian governments.

PSCI 306. Latin American Politics. 4 Units.
Comparative examination of domestic and foreign policies of Latin American governments.
PSCI 308. Government and Politics of the Middle East. 4 Units.
Governmental and political structures of representative states in the Middle East, including Turkey, Israel, and the Arab States.

PSCI 310. Classical Political Thought. 4 Units.
Classical political thought through a consideration of representative political thinkers such as Plato, Aristotle, Thucydides, Cicero, Lucretius.

PSCI 311. Foundations of Modern Political Thought. 4 Units.
Major political ideas of the early modern period ranging from Machiavelli through Hobbes, Locke, Rousseau and Burke.

PSCI 313. Modern Political Thought. 4 Units.
Major political ideas of the nineteenth century.

PSCI 314. American Political Thought. 4 Units.
American political ideas from the colonial period to the present. This course meets the state code requirement in U.S. history.

PSCI 315. Post Modern Political Thought. 4 Units.
Major political ideas of the twentieth century.

PSCI 320. The Legislative Process. 4 Units.
Law-making processes in the United States and/or other selected political systems.

PSCI 325. American Foreign Policy. 4 Units.
Political analysis of American foreign policy with emphasis on foreign policy making in the nuclear age.

PSCI 326. Political Parties and Interest Groups. 4 Units.
Organization, objectives and activities of political parties and political interest groups and their functions in modern political systems.

PSCI 328. Judicial Process. 4 Units.
Process of judicial decision-making with emphasis on factors influencing that process and concepts of judicial roles.

PSCI 330. State and Local Politics. 4 Units.
Comparison of state and local political systems within the American Federal System. This course meets the state code requirement in state and local government.

PSCI 332. California Government. 2 Units.
The California Constitution, government and political institutions. This course is specifically designed to meet the state code requirement in state and local government.

PSCI 340. Sex and Politics. 4 Units.
Emphasis will be on sex roles in traditional and modern political systems, sex stereotypes in politics; effects of changing technology on conventional male and female roles; dynamics of change affecting the woman’s place in the political world.

PSCI 342. The Politics of Environment. 4 Units.
Environmental problems in their political context, including air, water, thermal and noise pollution, solid waste, population growth, resource management, and the political costs and benefits of environmental protection.

PSCI 352A. Minority Politics: Ethnic Politics. 4 Units.
Minority groups in the American political system. May be repeated as topics change.

PSCI 352B. Minority Politics: African American Politics. 4 Units.
Minority groups in the American political system. May be repeated as topics change.

PSCI 352C. Minority Politics: Latino Politics. 4 Units.
Minority groups in the American political system. May be repeated as topics change.

PSCI 352D. Minority Politics: Asian American Politics. 4 Units.
Minority groups in the American political system. May be repeated as topics change.

PSCI 352E. Minority Politics: Native American Politics. 4 Units.
Minority groups in the American political system. May be repeated as topics change.

PSCI 375. Introduction to Political Science Research. 4 Units.
Prerequisites: PSCI 314 and MATH 110
Basic ideas and research topics used by political scientists with topics to include theory construction, research design, quantitative methods and philosophy of science.

PSCI 380. Introduction to Public Administration. 4 Units.
An introduction to the purposes, methods and characteristics of public management, including organization of public services, roles and relationships of public administrators, accountability and the achievement of public goals. (Offered as PA 380 and PSCI 380. Students may not receive credit for both.).

PSCI 400. International Politics. 4 Units.
Selected theories and evolving patterns of international politics as developed within the nation-state system.

PSCI 410. American Constitutional Law. 4 Units.
Principles of the American Constitution as announced by the Supreme Court in selected cases. Judicial review, separation of powers, presidential power, federalism and commerce are included. This course meets the state code requirement in the U.S. Constitution.
PSCI 411. The Bill of Rights. 4 Units.
Limitation on federal and state power arising out of the provisions of the first eight and the 14th Amendments to the Constitution. Modern developments are stressed. This course meets the state code requirement in the U.S. Constitution.

PSCI 412. Civil Rights. 4 Units.
Jurisprudence of the 13th, 14th and 15th Amendments as articulated by the U.S. Supreme Court.

PSCI 431. The American Presidency. 4 Units.
Office and institution of the presidency of the United States.

PSCI 484. National Security Policy. 4 Units.
Introduction to concepts and principles of national security policy through an examination of topics in international relations, foreign policy, arms control, strategic thought and alliance strategy.

PSCI 500. International Law. 4 Units.
Historical basis and present trends in the development of international law.

PSCI 510. International Organization. 4 Units.
History, structure and dynamics of the United Nations and other multinational organizations.

PSCI 520. War and Politics. 4 Units.
The study of the origins and political consequences of war.

PSCI 525. Constitutional Interpretation. 4 Units.
Examination of theories and approaches to constitutional interpretation.

PSCI 528. Formulation of Public Policy. 4 Units.
Approaches to public policy analysis, emphasizing interaction between substance and process in policy development. Formerly PSCI 428.

PSCI 530. Studies in Political Theory. 4 Units.
Concentrated study of one political theorist or one subject in political theory. May be repeated for credit as topics change.

PSCI 535. Seminar in Constitutional Law. 4 Units.
Prerequisites: one of the following: PSCI 328, PSCI 410, PSCI 411, HIST 540 or consent of instructor. Intensive study in one or more aspects of constitutional law. May be repeated as topics change.

PSCI 540. Seminar in Comparative Politics. 4 Units.
Theories, methods, and paradigms of comparative politics. May be repeated as topics change.

PSCI 560. Intergovernmental Relations. 4 Units.
Administrative and political dynamics of relationships among national, state and local units of government.

PSCI 571. Organization of U.S. Intelligence. 1 Unit.
A self-paced study course providing detailed information about the structure, procedures and organizational principles behind the U.S. intelligence community.

PSCI 575B. Internship in Political Science. 2 Units.
Prerequisites: consent of instructor and department. Supervised work and study in public and private organizations. May be repeated once for credit. Graded credit/no credit.

PSCI 575C. Internship in Political Science. 3 Units.
Prerequisites: consent of instructor and department. Supervised work and study in public and private organizations. May be repeated once for credit. Graded credit/no credit.

PSCI 575D. Internship in Political Science. 4 Units.
Prerequisites: consent of instructor and department. Supervised work and study in public and private organizations. May be repeated once for credit. Graded credit/no credit.

PSCI 590. Seminar in International Relations. 4 Units.
Intensive study of some phase of foreign policy-making or international relations to be developed by instructor with class. May be repeated for credit as topics change.

PSCI 592. Seminar in Government. 4 Units.
An intensive study of some phase of government to be developed by instructor with class. May be repeated for credit as topics change.

PSCI 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted by the first week of the quarter in which the course is to be taken. Special topics involving library and/or field research. A total of eight units in PSCI 595 may be applied toward graduation.

PSCI 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted by the first week of the quarter in which the course is to be taken. Special topics involving library and/or field research. A total of eight units in PSCI 595 may be applied toward graduation.

PSCI 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted by the first week of the quarter in which the course is to be taken. Special topics involving library and/or field research. A total of eight units in PSCI 595 may be applied toward graduation.

PSCI 597. Senior Honors Thesis. 4 Units.
In-depth research culminating in a written thesis. Written proposals may be submitted by seniors with a 3.5 grade point average in all political science courses. Enrollment is limited to those students whose proposals are approved by a faculty member with consent of the chair.
PSCI 600. Theory and History of Strategy. 4 Units.
Prerequisites: PSCI 484 or equivalent
Examination of the literature on strategy, from ancient to modern times and from various cultures. Both theoretical and practical methods will be covered.

PSCI 601. Strategic Systems and Strategic Thought. 4 Units.
Prerequisites: PSCI 484 or equivalent
Evolution of strategic thought, policy, doctrine and force structure relative to national security objectives.

PSCI 602. International Security. 4 Units.
Prerequisites: PSCI 484 or equivalent
Seminar on various conceptions of international security, with emphasis on current crises in international politics.

PSCI 603. Cyber Security and Cyber Warfare. 4 Units.
Examination of cyberspace as a domain of war and conflict used by state and non-state actors.

PSCI 604. Seminar in International Law. 4 Units.
Survey of the literature and a study of the Law of the Sea, Aerospace Law, and International Regulation of the Use of Force.

PSCI 605. Topics in Strategy. 4 Units.
Intensive study of a specific phase or area of defense strategy developed by the instructor. May be repeated once for credit, as topics change, with consent of students advisor.

PSCI 606. Analysis of International Terrorism. 4 Units.
Examination of the methods used to analyze terrorist groups and patterns of international terrorism.

PSCI 609. International Relations Theory. 4 Units.
An examination of the theoretical literature on international relations, including issues of war and peace, foreign relations, and international security.

PSCI 610. Proseminar in Political Science. 4 Units.
Prerequisites: consent of instructor.
Survey of the concepts and ideas that political scientists study, with emphasis on globalization.

PSCI 611. Regional Security of Eurasia. 4 Units.
Strategic factors in Russia and other post-Soviet states, with emphasis on the relations between the military and society.

PSCI 612. African Security. 4 Units.
Examination of security and defense issues of Africa.

PSCI 613. Middle East Security. 4 Units.
Middle East security, including its political, military, ideological, and economic components.

PSCI 614. Regional Security of East Asia. 4 Units.
Strategic factors in East Asia, with emphasis on the relationships between politics and military factors. Formerly a topic under PSCI 605.

PSCI 620. Understanding Intelligence Failure. 4 Units.
Examination of surprise attacks and the problem of intelligence failure.

PSCI 621. Strategic Intelligence. 4 Units.
The development and practice of national intelligence estimates and reporting. Formerly a topic under PSCI 605.

PSCI 622. Arms Control. 4 Units.
The background, history, development, and theory of arms control. Formerly a topic under PSCI 605.

PSCI 624. Politics of National Security. 4 Units.
Examination of the influence of American political institutions and processes on U.S. national security strategy. Formerly a topic under PSCI 605.

PSCI 625. American Foreign Policy. 4 Units.
Seminar on contemporary American foreign policy. May be repeated once as topics change.

PSCI 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
PSCI 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 699. Thesis. 2 Units.
Prerequisites: completion of coursework and consent of thesis committee.

PSYC 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing.
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Psychology (PSYC)

Courses

PSYC 100. Introduction to Psychology. 4 Units.
(GE=D4)
A survey of the field of modern psychology.

PSYC 101. Psychology as a Major. 1 Unit.
Prerequisites: PSYC 100
A survey of different areas of specialization and professional activities of psychologists. Graded credit/no credit.
PSYC 105. Critical Thinking Through Problems Analysis. 4 Units.
(GE=A4)
Development of basic skills in critical thinking including identifying and understanding common fallacies, recognizing techniques of persuasion and propaganda, problem solving strategies, and applying skills of critical thinking to the complex issues of everyday life.

PSYC 115. Personal and Social Adjustment. 2 Units.
(GE=E2)
Application of psychological principles to predictable challenges and problems over the life span. Explores opportunities for adjustment and growth in a variety of circumstances, such as family and college life. May not be counted toward fulfillment of requirements in the psychology major.

PSYC 120. Career Development. 2 Units.
Examination of the world of work and individual self-assessments, including exploration of career aspirations and goals.

PSYC 201. Developmental Psychology. 4 Units.
Prerequisites: PSYC 100
Introduction to the psychological development of the person from the prenatal period through old age.

PSYC 210. Psychological Statistics. 5 Units.
Introduction to statistical reasoning and application of basic statistical procedures in psychology. Includes both descriptive and inferential statistics with emphasis on parametric techniques. Credit may not be received for more than one of the following courses: ADMN 210, PSYC 210, or SSCI 215. Four hours lecture and three hours of laboratory.

PSYC 240. Introduction to Child Development. 4 Units.
Comprehensive introduction to child development from conception through adolescence. Emphasis is on physical, cognitive, social, emotional and language development. (Offered as HD 240 and PSYC 240. Students may not receive credit for both.)

PSYC 300. Positive Psychology. 4 Units.
Exploration of theories and empirical research related to positive psychology. Topics include values, human strengths, health, positive thinking, happiness, gratitude, and close relationships.

PSYC 301. Psychology of Human Sexuality. 4 Units.
Theory and empirical findings from the areas of social, developmental, physiological, and clinical psychology as they apply to human sexual behavior.

PSYC 302. Management and Organizational Behavior. 4 Units.
Introduction to management as it affects operations and the behavior of people in relation to the functional fields of administration. Selected behavioral concepts analyzed with respect to applications in management. Offered as MGMT 302 and PSYC 302. Students may not receive credit for both.

PSYC 203. Parenting and Family Relations. 4 Units.
Prerequisites: PSYC 100 and PSYC 201 or equivalent
Effects of parenting and intra-family relations on child and life-span psychological development.

PSYC 305. Language Development. 4 Units.
Prerequisites: HD 240 or PSYC 201 or 240
An introduction to theory and research on the psychological study of language, first language acquisition, and the relation of language to thought and culture.

PSYC 308. Psychology and the Movies. 4 Units.
Exploring psychology through the movies. Movies will be screened during class and used as a vehicle for discussing such psychological topics as mental illness, the portrayal of psychiatry and therapy, creativity, relations between different ethnicities and cultures, gender issues, biases and prejudices, and other essential topics.

PSYC 310. Applied Research Methods. 4 Units.
Prerequisites: PSYC 100 and PSYC 210
Overview of applied research methods in psychology and the behavioral sciences. Emphasis on the use of applied methods, their analyses, and scientific writing. Topics may include quasi-experimental design, correlational design, behavioral observation, archival analysis, single-case methodology, survey methodology, research ethics, library research strategies, and writing research reports. (Offered as HD 310 and PSYC 310. Students may not receive credit for both.)

PSYC 311. Introduction to Experimental Psychology. 6 Units.
Prerequisites: PSYC 100 and 210; restricted to psychology majors, human development majors, human services majors or consent of department
Design and execution of psychological research. Four hours lecture and six hours laboratory.

PSYC 315. Communication Processes. 5 Units.
Prerequisites: PSYC 100
Introduction to the nature of the helping process with emphasis on strategies of behavior change, interpersonal communication and basic helping skills. Four hours lecture and two hours laboratory.

PSYC 318. Health Psychology. 4 Units.
Prerequisites: PSYC 100
Examination of psychological aspects of health related behaviors with emphasis on the effects of interpersonal and social psychological factors on physical health and effective medical care.

PSYC 320. Psychology of Middle Childhood. 4 Units.
Theories and their applications to physical, cognitive, social and emotional development during the middle childhood years. A field based component will be required.
PSYC 324. Developmental Psychobiology. 4 Units.
Prerequisites: PSYC 100
Psychobiological bases of human behavioral development throughout the life span. Offered as HD 324 and PSYC 324. Students may not receive credit for both.

PSYC 328. Psychology of Adolescent Development. 4 Units.
Theory and empirical literature concerning the physical, cognitive, social, and emotional changes from puberty to adulthood. A field based component will be required.

PSYC 329. Psychology of Adulthood and Aging. 4 Units.
Prerequisites: PSYC 100 and PSYC 201, or consent of instructor
An examination of physical, social, cognitive, and personality development from young adulthood through death. Special attention is given to theory, research, and applications in the area of gerontology.

PSYC 331. The Psychology of Women. 4 Units.
Prerequisites: PSYC 100
A critical study of theory and data on the psychological development of females; their attitudes, behaviors, psychopathologies, abilities and self-images.

PSYC 333. Drugs and Behavior. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Analysis of drugs from psychological, behavioral and physiological viewpoints. Topics include drug classification, altered states of consciousness, addiction, chemical nature and treatment of mental illness.

PSYC 334. Addiction and Recovery. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Research and theories related to the psychological, behavioral and physiological basis of addiction and recovery. A variety of common addictive disorders will be considered including eating, smoking, gambling, work, sex and drugs.

PSYC 339. Human Psychophysiology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An examination of the human psychophysiological literature with emphasis on research findings, clinical applications and theory related to the analysis of the relationships between bodily processes, psychological states and behavior.

PSYC 340. Stereotyping, Prejudice and Discrimination. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Psychological underpinnings of stereotyping, prejudice, and discrimination are examined. Implicit and explicit attitudes of bias such as sexism, racism, and homophobia, and the effects of these attitudes on the self and health, and interventions that reduce attitudes are studied.

PSYC 341. Women and Violence. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Issues of women and violence, combining empirical and theoretical work with community training in agencies dealing with violence against women; including service learning. Formerly a topic under PSYC 375. Two hours lecture and 40 hours of volunteer training.

PSYC 345. Cross-Cultural Psychology. 4 Units.
Cross-cultural psychology focusing on cultural variability in basic psychological processes and the cultural limits of traditional psychological theories.

PSYC 349. The Psychology of Gays and Lesbians. 4 Units.
Analysis of theories and research on homosexuality, social reactions to homosexuality, and gay and lesbian cultural adaptations.

PSYC 350. Development of Exceptional Children. 4 Units.
Prerequisites: HD 240, HD 280, or PSYC 201
Review of theory, assessment, management, and rehabilitation of exceptional children. Includes developmental implications of specific medical conditions, retardation, and learning/cognitive dysfunctions.

PSYC 351. Behavior Modification: Principles and Applications. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Analysis of the theory, techniques and ethics of behavior modification.

PSYC 355. Industrial Psychology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Practices of modern industrial and personnel psychology. Includes selection, placement, training, motivation, job analysis, evaluation and human factors.

PSYC 357. History and Systems of Psychology. 4 Units.
Prerequisites: PSYC 100
A historical framework for integrating basic orientations in contemporary psychology, including the development of the major schools of thought in psychology.

PSYC 358. Cognitive Development. 4 Units.
Prerequisites: PSYC 100 and PSYC 201
Survey of the major theories, issues and research in the development of perceptual and cognitive capacities from childhood through adulthood.

PSYC 359. Evolutionary Psychology. 4 Units.
Prerequisites: PSYC 100
Exploration of the theories and empirical research related to evolutionary psychology. Topics include mating, status, cooperation, aggression and warfare, kin relationships, and sexual conflict.

PSYC 360. Cognitive Psychology. 4 Units.
Prerequisites: PSYC 100
Research and theories concerning human information processing; topics include sensory processes, attention, memory, language and other higher mental processes.

PSYC 361. Intelligence and Creativity. 4 Units.
Introduction to intelligence and creativity with an emphasis on theories, measurement and current debates, including among others, the Bell Curve, the link between creativity and mental illness, and role of IQ tests and creativity in school and work assessment. Formerly a topic under PSYC 375.
PSYC 362. Learning and Motivation. 4 Units.
Prerequisites: PSYC 100
Survey of research and major theories in animal and human learning and motivation. Applications of learning and motivational principles.

PSYC 363. Biological Psychology. 4 Units.
Prerequisites: PSYC 100
Overview of the biological basis of behavior with emphasis on the relationship between brain function and thought, emotion, perception, language, learning, memory and motivation.

PSYC 364. Perception. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Selected topics in the field of perceptual processes. Includes review of contemporary theories and research. Class demonstrations and mini-projects.

PSYC 365. Cognitive Neuroscience. 4 Units.
Prerequisites: PSYC 363 or consent of instructor
Examination of the neural foundations of human mental functioning, including perception, attention, memory, language, thinking and consciousness. Special emphasis on human neuroimaging as well as behavioral and cognitive impairments from brain injury.

PSYC 366. Neuropsychiatric Disorders. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An examination of brain systems involved in psychiatric syndromes and neurological disorders, including Parkinson’s disease, Alzheimer’s disease, schizophrenia, depression, and bipolar disorders. Provides a basic understanding of brain dysfunctions that contribute to these disorders and rationales for pharmacological treatments.

PSYC 367. MARC Seminar I. 2 Units.
A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 368, PSYC 368, and SSCI 368 (students may receive credit for only one of these courses). Enrollment limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

PSYC 368. Topics in Psychology. 2 Units.
Prerequisites: PSYC 100
Selected psychology topics with specific focus within relatively narrow content areas. May be repeated for credit as topics change.

PSYC 369. Psychology of Death and Dying. 4 Units.
Prerequisites: PSYC 201 or equivalent
A review of current theory and research on the psychology of grief, death and dying. Offered as HD 372 and PSYC 324. Students may not receive credit for both.

PSYC 370. Seminar in Psychology. 4 Units.
Prerequisites: PSYC 100
Selected topics which encompass areas of current theoretical and/or research interest in psychology. May be repeated for credit as topics change.

PSYC 371. Tests and Measurements. 4 Units.
Prerequisites: PSYC 100 and PSYC 210
Administration of psychological tests and scales; interpretation and use of the data which they yield.

PSYC 372. Psychology of Death and Dying. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Overview of the psychological concepts and research related to death and dying. Offered as HD 372 and PSYC 324. Students may not receive credit for both.

PSYC 373. Seminar in Psychology. 4 Units.
Prerequisites: PSYC 100
Selected topics which encompass areas of current theoretical and/or research interest in psychology. May be repeated for credit as topics change.

PSYC 374. Tests and Measurements. 4 Units.
Prerequisites: PSYC 100 and PSYC 210
Administration of psychological tests and scales; interpretation and use of the data which they yield.

PSYC 375. Forensic Psychology. 4 Units.
Prerequisites: PSYC 100
Major issues relevant to the field of forensic psychology. Current research and theory in psychology applicable to the understanding and practice of forensic science in areas including law enforcement, criminal justice, and human services, such as child and adult protective services. Formerly a topic under PSYC 375.

PSYC 376. Psychology of Social Behavior. 4 Units.
Prerequisites: PSYC 100
Major concepts, issues and psychological research regarding social influence on individual behavior.

PSYC 377. Personality and Social Development. 4 Units.
Prerequisites: PSYC 100 and PSYC 201 or equivalents
Development of personality, emotions and social behavior from childhood through adulthood.

PSYC 378. Personality. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Survey of the major theories of personality.

PSYC 379. Introduction to Psychotherapy. 4 Units.
Prerequisites: PSYC 100
Introduction to theories, methods and research in psychotherapy.

PSYC 380. Abnormal Psychology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An introduction to psychopathology, emphasizing the major interpretations and treatments of emotional and behavioral disorders.

PSYC 381. Psychopathology of Childhood. 4 Units.
Prerequisites: PSYC 100 and PSYC 201
Psychological and emotional disorders of children with special emphasis on diagnostic and clinical treatment.

PSYC 382. Psychology of Consciousness. 4 Units.
Prerequisites: PSYC 100
Human consciousness from the perspectives of the experiential, behavioral and physiological psychology literatures. Includes survey of research and theory on topics such as waking consciousness, dreams, meditation and altered states of consciousness.

PSYC 383. Community Psychology. 4 Units.
Prerequisites: PSYC 100
Comprehensive study of the discipline of community psychology which emphasizes the relationship of community resources to individual mental health needs.

PSYC 384. Psychology of Social Behavior. 4 Units.
Prerequisites: PSYC 100 and PSYC 201 or equivalents
Development of personality, emotions and social behavior from childhood through adulthood.

PSYC 385. Personality. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Survey of the major theories of personality.

PSYC 386. Introduction to Psychotherapy. 4 Units.
Prerequisites: PSYC 100
Introduction to theories, methods and research in psychotherapy.

PSYC 387. Community Psychology. 4 Units.
Prerequisites: PSYC 100
Comprehensive study of the discipline of community psychology which emphasizes the relationship of community resources to individual mental health needs.

PSYC 388. Abnormal Psychology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An introduction to psychopathology, emphasizing the major interpretations and treatments of emotional and behavioral disorders.

PSYC 389. Psychopathology of Childhood. 4 Units.
Prerequisites: PSYC 100 and PSYC 201
Psychological and emotional disorders of children with special emphasis on diagnostic and clinical treatment.

PSYC 390. Psychology of Consciousness. 4 Units.
Prerequisites: PSYC 100
Human consciousness from the perspectives of the experiential, behavioral and physiological psychology literatures. Includes survey of research and theory on topics such as waking consciousness, dreams, meditation and altered states of consciousness.

PSYC 391. Community Psychology. 4 Units.
Prerequisites: PSYC 100
Comprehensive study of the discipline of community psychology which emphasizes the relationship of community resources to individual mental health needs.

PSYC 392. Personality. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Survey of the major theories of personality.

PSYC 393. Introduction to Psychotherapy. 4 Units.
Prerequisites: PSYC 100
Introduction to theories, methods and research in psychotherapy.

PSYC 394. Community Psychology. 4 Units.
Prerequisites: PSYC 100
Comprehensive study of the discipline of community psychology which emphasizes the relationship of community resources to individual mental health needs.

PSYC 395. Psychopathology of Childhood. 4 Units.
Prerequisites: PSYC 100 and PSYC 201
Psychological and emotional disorders of children with special emphasis on diagnostic and clinical treatment.

PSYC 396. Psychology of Consciousness. 4 Units.
Prerequisites: PSYC 100
Human consciousness from the perspectives of the experiential, behavioral and physiological psychology literatures. Includes survey of research and theory on topics such as waking consciousness, dreams, meditation and altered states of consciousness.

PSYC 397. Community Psychology. 4 Units.
Prerequisites: PSYC 100
Comprehensive study of the discipline of community psychology which emphasizes the relationship of community resources to individual mental health needs.

PSYC 398. Personality. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Survey of the major theories of personality.

PSYC 399. Introduction to Psychotherapy. 4 Units.
Prerequisites: PSYC 100
Introduction to theories, methods and research in psychotherapy.
PSYC 410. Advanced Psychological Statistics. 5 Units.
Prerequisites: ADMN 210 or PSYC 210 or consent of instructor
Coverage of advanced statistical reasoning and application of statistical procedures in psychology. Includes both parametric and nonparametric techniques with an introduction to multivariate statistics. Statistical computer packages will be introduced. Four hours lecture and three hours laboratory.

PSYC 421. Advanced Seminar in Psychology: Developmental. 4 Units.
Prerequisites: PSYC 201 and PSYC 311 or consent of instructor
A review of selected research areas in the fields of child and life-span developmental psychology. Students will develop an advanced project.

PSYC 422. Advanced Seminar in Psychology: Clinical. 4 Units.
Prerequisites: PSYC 311, PSYC 386, and PSYC 390
Contemporary topics in clinical psychology, such as integrative treatment approaches, outcome research, psychopathology, adaptation and coping, health promotion, cultural factors in diagnosis and treatment, and common factors in effective treatment such as the working alliance and other relationship factors. Students will develop an advanced project.

PSYC 423. Advanced Seminar in Psychology: Biological. 4 Units.
Prerequisites: PSYC 311 and 363 or consent of instructor
A review of the literature regarding the neural and endocrine processes underlying brain function and behavior. Students will develop an advanced project.

PSYC 424. Advanced Seminar in Psychology: Social. 4 Units.
Prerequisites: PSYC 311 and PSYC 382 or consent of instructor
A review of theories and empirical results of experimental social psychology in selected areas such as group dynamics, social perception, communication and attitudes. Students will develop an advanced project.

PSYC 425. Advanced Seminar in Psychology: Personality. 4 Units.
Prerequisites: PSYC 311 and 385
A review of contemporary personality theories and the relationship of personality to behavior. Students will develop an advanced project.

PSYC 426. Advanced Seminar in Psychology: Learning and Motivation. 4 Units.
Prerequisites: PSYC 311 and 362, or consent of instructor
A review of selected theories and research in areas of learning and motivation. Students will develop an advanced project.

PSYC 427. Advanced Seminar in Psychology: Cognition and Perception. 4 Units.
Prerequisites: PSYC 311 and either PSYC 360 or PSYC 364
A review of human information processing, memory, thinking and perceptual processes. Students will develop an advanced project.

PSYC 428. Advanced Seminar in Psychology: Industrial and Organizational. 4 Units.
Prerequisites: PSYC 311, PSYC 377 and one of the following: MGMT 302, PSYC 302 or PSYC 355
A review of industrial/organizational psychology, in selected areas such as work motivation, performance evaluation, training techniques, and selection approaches. Students will develop an advanced project.

PSYC 431. Experimental Psychology: Developmental. 6 Units.
Prerequisites: PSYC 201 and PSYC 311 or consent of instructor
Selected research areas in the fields of child and life-span developmental psychology. Includes review of current literature and experimental techniques in developmental research. Four hours lecture and six hours laboratory.

PSYC 432. Experimental Psychology: Clinical. 6 Units.
Prerequisites: PSYC 311, and either PSYC 386 or 390
Empirical studies in clinical psychology. Study options include experimental psychopathology, adaptation and coping, health promotion, anxiety/stress, mood/emotion and cultural factors in diagnosis and treatment. Four hours lecture and six hours laboratory.

PSYC 433. Experimental Psychology: Biological. 6 Units.
Prerequisites: PSYC 311 and PSYC 363 or consent of instructor
Introduction to the neural processes underlying brain function and behavior. Particular emphasis will be placed on neuroanatomy and the actions of drugs on brain and behavior. Students will receive practical training in advanced neuroscience techniques. Four hours lecture and six hours laboratory.

PSYC 434. Experimental Psychology: Social. 6 Units.
Prerequisites: PSYC 311 and 382
Methods, theories and empirical results of experimental social psychology in selected areas such as group dynamics, social perception, communication and attitudes. Four hours lecture and six hours laboratory.

PSYC 435. Experimental Psychology: Personality. 6 Units.
Prerequisites: PSYC 311, 377 and 385
Empirical study of personality theories and the relationship of personality to behavior. Four hours lecture and six hours laboratory.

PSYC 436. Experimental Psychology: Learning and Motivation. 6 Units.
Prerequisites: PSYC 311 and PSYC 362
Selected theories and research in areas of learning and motivation. Includes literature review and experimental analysis. Four hours lecture and six hours laboratory.

PSYC 437. Experimental Psychology: Cognition and Perception. 6 Units.
Prerequisites: PSYC 311 and either PSYC 360 or 364
Empirical study of human information processing, memory, thought and perceptual processes. Four hours lecture and six hours laboratory.
PSYC 438. Experimental Psychology: Industrial and Organizational. 6 Units.
Prerequisites: PSYC 311, 377 and one of the following: MGMT 302, PSYC 302 or 355
Methods and empirical study of industrial-organizational psychology, in
selected areas such as work motivation, performance evaluation, training
techniques, and selection approaches. Four hours lecture and six hours
laboratory.

PSYC 442. Behavioral Neuroscience. 4 Units.
Prerequisites: HD 324, PSYC 324, or PSYC 363, or consent of instructor
Intensive review of the neural mechanisms underlying behavior.
Considerable emphasis is placed on sensory, motor, and homeostatic
functioning. Higher-order functioning, including learning and memory, will
also be covered.

PSYC 468. MARC Seminar II. 2 Units.
Prerequisites: NSCI 368, PSYC 368 or SSCI 368
A selected examination of original research articles in behavioral and
biomedical sciences focusing on improving scientific writing skills, shaping
long-term research projects, and the development of research funding
proposals. Offered as NSCI 468, PSYC 368, and SSCI 468 (students
may receive credit for only one of these courses). Enrollment is limited
to students whose formal application to the Minority Access to Research
Careers (MARC) program is approved.

PSYC 530. Instructional Assistant Practicum. 2 Units.
Prerequisites: For undergraduates, Psychology major status and
consent of the department; for graduate students, classified standing in
Psychology M.S. or M.A.
Training in a variety of skills necessary to serve as an Instructional
Student Assistant (ISA) supporting a college-level instructor in the use of
high impact practices. Required for students applying to be an ISA for the
Psychology Department. degree program.

PSYC 538. Introduction to Psychopharmacology. 4 Units.
Prerequisites: HD 324, PSYC 324, 333 or 363, or consent of instructor
Examination of the basic pharmacological principles of psychoactive
drugs. Particular emphasis is placed on neuronal functioning,
mechanisms of drug action, and behavioral outcomes.

PSYC 540. Work, Retirement and Leisure. 4 Units.
Prerequisites: PSYC 100
Theory and research on work, retirement and leisure during the adult
years. Offered as HD 540 and PSYC 540. Students may not receive credit
for both.

PSYC 575. Internship in Psychology. 4 Units.
Prerequisites: consent of instructor and department
Supervised work and study in private or public organizations. May be
repeated once for credit. (Only four units of PSYC 575 may be applied to
the psychology major.) Graded credit/no credit.

PSYC 581A. Seminar in Industrial/ Organizational Psychology: Current Professional Issues. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option
candidates are required to take all seven topics. Same topic may not be
repeated for credit.

PSYC 581B. Seminar in Industrial/ Organizational Psychology: Organizational Leadership. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option
candidates are required to take all seven topics. Same topic may not be
repeated for credit.

PSYC 581C. Seminar in Industrial/ Organizational Psychology: Processes of Work Groups. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option
candidates are required to take all seven topics. Same topic may not be
repeated for credit.

PSYC 581D. Seminar in Industrial/ Organizational Psychology: Training and Executive Development. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option
candidates are required to take all seven topics. Same topic may not be
repeated for credit.

PSYC 581E. Seminar in Industrial/ Organizational Psychology: Ethical Issues in Organizations. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option
candidates are required to take all seven topics. Same topic may not be
repeated for credit.

PSYC 581F. Seminar in Industrial/ Organizational Psychology: Diversity in Organizations. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option
candidates are required to take all seven topics. Same topic may not be
repeated for credit.
PSYC 581G. Seminar in Industrial/Organizational Psychology: Legal Issues for Organizational Professionals. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department.
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Special topics involving literature and/or experimental effort. A total of eight units of PSYC 595 may be applied toward graduation, of which a maximum of four units can be applied toward the upper-division requirements in the psychology major.

PSYC 598A. Honors Project I. 2 Units.
Prerequisites: PSYC 597 and consent of department. Provides an opportunity for students to conduct an independent project under faculty supervision. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major. (Offered as HD 598A and PSYC 598A. Students may not receive credit for both.)

PSYC 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Special topics involving literature and/or experimental effort. A total of eight units of PSYC 595 may be applied toward graduation, of which a maximum of four units can be applied toward the upper-division requirements in the psychology major.

PSYC 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Special topics involving literature and/or experimental effort. A total of eight units of PSYC 595 may be applied toward graduation, of which a maximum of four units can be applied toward the upper-division requirements in the psychology major.

PSYC 597. Honors Seminar. 4 Units.
Prerequisites: PSYC 311 and consent of department. Provides an opportunity for students to develop an independent project under faculty supervision. Students will meet as a class to discuss their projects, as well as various advanced topics. Enrollment is limited to students whose formal application for departmental honors is approved. (Offered as HD 597 and PSYC 597. Students may not receive credit for both.)

PSYC 598B. Honors Project II. 2 Units.
Prerequisites: PSYC 598A and consent of department. Provides an opportunity for students to conduct an independent project under faculty supervision. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major. (Offered as HD 598B and PSYC 598B. Students may not receive credit for both.)

PSYC 601. Performance Assessment. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department. Current research and methods of performance appraisal. Topics include the study of job analysis, performance appraisal process and instrumentation, and job evaluation. Formerly PSYC 661.

PSYC 602. Organizational Development. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department. Critical review of current psychological theories and methods of organizational change. Topics include organization processes and interventions at the organizational and group levels. Formerly PSYC 660.

PSYC 603. Personnel Selection and Validation. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department. Principles and methods of personnel selection, including validation strategies and the effects of governmental and legal issues on personnel actions. Formerly PSYC 662.

PSYC 604. Work Motivation and Organizational Reward Systems. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department. Review and critical discussion of major theories and current research of motivation in the workplace, including examination of research on reward and compensation systems, and a review and discussion of their application in work organizations.

PSYC 609B. Graduate Research in Psychology. 2 Units.
Prerequisites: classified standing and consent of instructor. Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.

PSYC 609C. Graduate Research in Psychology. 3 Units.
Prerequisites: classified standing and consent of instructor. Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.
PSYC 609D. Graduate Research in Psychology. 4 Units.
Prerequisites: classified standing and consent of instructor
Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.

PSYC 609E. Graduate Research in Psychology. 5 Units.
Prerequisites: classified standing and consent of instructor
Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.

PSYC 611B. Advanced Independent Study. 2 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 611C. Advanced Independent Study. 3 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 611D. Advanced Independent Study. 4 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 611E. Advanced Independent Study. 5 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 612B. Directed Readings. 2 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 612C. Directed Readings. 3 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 612D. Directed Readings. 4 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 612E. Directed Readings. 5 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 613. Short-term Counseling. 4 Units.
Prerequisites: classified standing and consent of department
Counseling skills and strategies for short-term therapeutic intervention.

PSYC 614. Couples Counseling. 4 Units.
Prerequisites: classified standing and consent of department
Theory and practice of counseling with couples.

PSYC 615. Group Counseling. 4 Units.
Prerequisites: classified standing and consent of department
Theory and practice of group counseling.

PSYC 616. Child and Spousal/Partner Abuse. 4 Units.
Prerequisites: classified standing and consent of department

PSYC 617. Clinical Psychopharmacology. 4 Units.
Theory and application of psychotropic principles for the major DSM psychiatric disorders, including the examination of the effects of the psychotropic medications on experience, behavior and symptoms.

PSYC 618. Community and Public Mental Health. 4 Units.
Prerequisites: classified standing and consent of department
Provision of marriage and family therapy in community and public mental health, including recovery-oriented principles, client advocacy, case management, and systems of care as well as strategies for therapeutic intervention consistent with recovery-oriented, strengths-based practice.

PSYC 619. Community Disaster, Trauma and Resilience. 4 Units.
Prerequisites: classified standing and consent of department
Community disaster and trauma response as well as training in resiliency models for recovering from trauma.

PSYC 630. Teaching of Psychology. 2 Units.
Prerequisites: classified graduate status in psychology and consent of department
Instructional methods for teaching of psychology at the college level.

PSYC 631. Academic Research in Psychology. 2 Units.
Professional issues related to academic research. Topics include how to review a journal article, submit an article, present a talk and summarize one’s research.
PSYC 633. Professional Ethics and Law. 4 Units.  
Prerequisites: classified standing in Psychology M.S. degree program and consent of department  
Ethical and legal considerations involved in counseling practice, including statutory law, legal trends, and ethical behavior in the mental health profession.

PSYC 636. Cross-Cultural Counseling. 4 Units.  
Prerequisites: classified standing in Psychology M.S. or M.A. degree program and consent of department  
Study of how cultural values and ethnic backgrounds influence counseling process and outcome, with focus on counseling with Blacks, Hispanics, Asians, and Native Americans.

PSYC 638. Substance Abuse: Detection, Assessment and Treatment. 4 Units.  
Prerequisites: classified standing in Psychology M.S. or M.A. degree programs and consent of department  
Assessment and treatment of substance abuse, including alcoholism and other forms of chemical dependency with a focus on etiological factors and relapse prevention.

PSYC 640. Advanced Methods in Psychological Research. 4 Units.  
Prerequisites: classified standing and consent of department  
Those aspects of philosophy of science and methods of inquiry as applied to procedures for obtaining and evaluating data as well as issues in experimental design.

PSYC 641. Analysis of Variance. 5 Units.  
Prerequisites: classified standing and consent of department  
Review of concepts of statistical inference. Applications of statistical techniques to the design and interpretation of experimental research with an emphasis on Analysis of Variance (ANOVA). Statistical computer packages will be introduced in the laboratory section. Four hours lecture and three hours laboratory. Formerly PSYC 570.

PSYC 642. Regression and Nonparametric Statistics. 4 Units.  
Prerequisites: classified standing and consent of department  
Review of concepts of statistical estimation. Applications of statistical techniques to the design and interpretation of applied correlational and quasi-experimental research with an emphasis on correlation, regression, and nonparametric techniques. Statistical computer packages will be introduced in the activity section. Three hours lecture and two hours activity.

PSYC 643. Multivariate Methods. 4 Units.  
Prerequisites: PSYC 641 or equivalent, classified standing and consent of department  
Multivariate models used in psychological research, including multiple regression, discriminant function analysis, factor analysis, canonical analysis, and multiple analysis of variance. Three hours lecture and two hours activity.

PSYC 644. Applied Psychological Measurement. 4 Units.  
Prerequisites: classified graduate standing in M.A. or M.S. program or consent of department  
Theories, methods, and issues of psychological measurement and assessment. Topical coverage will include test construction, test evaluation, survey development, ethics, and testing in applied settings. Formerly PSYC 663. Three hours lecture and two hours activity.

PSYC 647. Advanced Adulthood and Aging Development. 4 Units.  
Prerequisites: PSYC 654 and classified graduate status  
Key topics in developmental psychology concerning young, middle aged and older adults. Specialized methodological and measurement concerns will be discussed as well as age-related changes and theoretical/empirically based applications.

PSYC 650. Advanced Cognitive Psychology. 4 Units.  
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department  
Research and theories in the psychology of thinking, knowing and remembering.

PSYC 652. Advanced Learning and Motivation. 4 Units.  
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department  
Major theories and research in learning and motivation with emphasis on current issues.

PSYC 654. Advanced Life-Span Developmental Psychology. 4 Units.  
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department  
Examination of the developmental processes, theories, issues and research in life-span developmental psychology.

PSYC 655. Advanced Seminar in Developmental Psychology. 4 Units.  
Prerequisites: classified standing and consent of department  
Selected current issues and advanced topics of theoretical, research or applied interest in developmental psychology.

PSYC 656. Advanced Biological Psychology. 4 Units.  
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department  
Study of biological bases of behavior with emphasis on recent research.

PSYC 658. Advanced Personality and Social Psychology. 4 Units.  
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department  
Major theories, methods and empirical findings in personality and social psychology.

PSYC 664. Applied Life-Span Developmental Psychology. 4 Units.  
Prerequisites: classified standing and consent of department  
Conceptual, methodological and policy related issues in the application of developmental psychology to applied settings.
PSYC 665. Psychopathology. 4 Units.
Prerequisites: classified standing in Psychology M.S. degree program and consent of department; or PSYC 390, classified standing in Psychology M.A. degree program and consent of department; or PSYC 390 and consent of department
Major types of human psychopathology, including descriptive symptomatology, etiological factors and treatment considerations.

PSYC 667. Family Processes. 4 Units.
Prerequisites: classified standing and consent of department
Normal and dysfunctional family processes, including analysis of family systems, family communication and strategies for therapeutic intervention. Formerly PSYC 666.

PSYC 671. Marriage and Family Therapy Skills I. 5 Units.
Prerequisites: classified standing in the Psychology M.S. degree program; concurrent enrollment in PSYC 687A and consent of department
Foundational skills in counseling, the therapeutic alliance, crisis management and treatment planning. Three hours lecture and six hours laboratory.

PSYC 672. Marriage and Family Therapy Skills II. 5 Units.
Prerequisites: grade of no less than B in PSYC 671; concurrent enrollment in PSYC 687B and consent of department
Advanced counseling skills used to identify and modify familial, relational, emotional, cognitive and behavioral aspects of individual, couple and family functioning. Three hours lecture and six hours laboratory.

PSYC 673. Marriage and Family Therapy Skills III. 5 Units.
Prerequisites: classified standing in the M.S. in Psychology, grade of no less than B- in PSYC 672 and PSYC 687B; concurrent enrollment in PSYC 687C and consent of department
Advanced counseling skills used with children, adolescents and their families. Three hours lecture and six hours laboratory.

PSYC 675. Practicum in Applied Psychology. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program and consent of department
Training in the application of methods and theories of psychology to the solution of practical problems within organizations. The course will include both a classroom component and practical applications.

PSYC 678. Advanced Topics in Psychology. 2 Units.
Prerequisites: classified standing and consent of department
Selected advanced psychology topics with specific focus within relatively narrow content area. Credit may not be received twice for the same topic.

PSYC 679. Theories of Counseling and Psychotherapy. 4 Units.
Prerequisites: classified standing and consent of department
Comparative analysis of major theories related to current practice of counseling and psychotherapy.

PSYC 680. Advanced Seminar in Psychology. 4 Units.
Prerequisites: classified standing and consent of department
Selected advanced topics which encompass areas of current theoretical and/or research interest in psychology.

PSYC 682. Clinical Assessment. 4 Units.
Prerequisites: classified standing and consent of department
Methods of intellectual, vocational and personality assessment with children and adults. May not be taken for credit by students who have received credit for PSYC 683.

PSYC 684. Topics in Counseling Psychology. 4 Units.
Prerequisites: classified standing and consent of department
Selected topics within counseling psychology. May be repeated for credit as topics change.

PSYC 687A. Marriage and Family Therapy Practicum I. 2 Units.
Prerequisites: consent of department
Corequisites: concurrent enrollment in PSYC 671
Supervised counseling practicum. Graded credit/no credit.

PSYC 687B. Marriage and Family Therapy Practicum II. 2 Units.
Prerequisites: consent of department
Corequisites: concurrent enrollment in PSYC 672
Supervised counseling practicum. Graded credit/no credit.

PSYC 687C. Marriage and Family Therapy Practicum III. 2 Units.
Prerequisites: consent of department
Corequisites: concurrent enrollment in PSYC 673
Supervised counseling practicum. Graded credit/no credit.

PSYC 688. Evidence Based Practice in Marriage and Family Therapy. 4 Units.
Prerequisites: classified standing and consent of department
Selected evidence based therapy practices in Marriage and Family Therapy. Coursework will include coverage of human sexuality and treatment; psychopharmacological treatment of DSM mental disorders; brief empirically supported psychotherapies for DSM mental disorders and problems warranting clinical attention.

PSYC 689B. Externship in Applied Psychology. 2 Units.
Prerequisites: PSYC 640 and consent of department
Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of five units may apply toward the I/O Option. Graded credit/no credit.

PSYC 689C. Externship in Applied Psychology. 3 Units.
Prerequisites: PSYC 640 and consent of department
Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of five units may apply toward the I/O Option. Graded credit/no credit.
**PSYC 689D. Externship in Applied Psychology. 4 Units.**
Prerequisites: PSYC 640 and consent of department
Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of five units may apply toward the I/O Option. Graded credit/no credit.

**PSYC 689E. Externship in Applied Psychology. 5 Units.**
Prerequisites: PSYC 640 and consent of department
Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of five units may apply toward the I/O Option. Graded credit/no credit.

**PSYC 691. Human Sexuality and Treatment. 4 Units.**
Prerequisites: classified standing and consent of department
Study of human sexuality with emphasis on both healthy sexuality and sexual dysfunction. Clinical interventions to enhance sexual functioning and to treat sexual dysfunctions will be presented. Formerly PSYC 591.

**PSYC 697A. Advanced Practicum in Counseling Psychology I. 4 Units.**
Prerequisites: classified standing in the Psychology M.S. degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; a grade of A or B in PSYC 673; and consent of department
Supervised counseling field work in private or public mental health agencies. Designed to be taken three times (year long) for maximum of 12 units of credit. Graded credit/no credit.

**PSYC 697B. Advanced Practicum in Counseling Psychology II. 4 Units.**
Prerequisites: classified standing in the Psychology M.S. degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; a grade of A or B in PSYC 673; and consent of department
Supervised counseling field work in private or public mental health agencies. Designed to be taken three times (year long) for maximum of 12 units of credit. Graded credit/no credit.

**PSYC 697C. Advanced Practicum in Counseling Psychology III. 4 Units.**
Prerequisites: classified standing in the Psychology M.S. degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; a grade of A or B in PSYC 673; and consent of department
Supervised counseling field work in private or public mental health agencies. Designed to be taken three times (year long) for maximum of 12 units of credit. Graded credit/no credit.

**PSYC 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

**PSYC 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

**PSYC 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
PSYC 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 699. Thesis. 5 Units.
Prerequisites: PSYC 640 and/or PSYC 641; PSYC 611; advancement to candidacy and consent of department
Independent graduate research conducted under the guidance of the major advisor and resulting in a written thesis.

PSYC 999A. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

PSYC 999B. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Public Administration (PA)

Courses

PA 305. Organizations in Multicultural and Diverse Societies. 4 Units.
Prerequisites: junior or senior standing (GE=G2)
Integrative, multicultural exploration of the challenge of ensuring that business and government organizations as they pursue their economic or public policy missions also promote societal goals of democratic process and full inclusion of women and minorities. Examines the roles and powers of business and government organizations in meeting or failing to meet the rights and needs of citizens of all genders and ethnicities.

PA 307. Public Relations in the Public Sector. 4 Units.
Public relations as an inherent aspect of management in the public sector. Problems and techniques of administration of programs to manage and improve public relations.
PA 315. Government-Business Relations. 4 Units.
Description and analysis of government policies affecting business development at local, state and national levels. Discussion of major international trade treaties, trading blocs, and international financial institutions and the impact of globalization on governments involvement with business.

PA 380. Introduction to Public Administration. 4 Units.
An introduction to the purposes, methods and characteristics of public management, including organization of public services, roles and relationships of public administrators, accountability and the achievement of public goals. (Offered as PA 380 and PSCI 380. Students may not receive credit for both.).

PA 462. Public Personnel Administration. 4 Units.
Prerequisites: PA 380 and the upper division writing requirement
Definition, description and evaluation of government personnel systems; classification, compensation, recruitment, examination, training, working conditions, incentives, performance ratings, public employee organizations and organizational development in the public service. Formerly PA 562.

PA 463. Governmental Budgeting. 4 Units.
Prerequisites: the upper division writing requirement
Role of the budgetary process in government management, the public sector environment of budgeting, budget formulation and administration.

PA 472. Administrative Law. 4 Units.
Prerequisites: the upper division writing requirement
Processes of administrative rule making, regulation, adjudication and appeal procedures; duties and liabilities of public officials, trends in regulation, overview of regulatory agencies.

PA 490. Senior Assessment Seminar in Public Administration. 4 Units.
Prerequisites: senior standing, the upper division writing requirement, PA 307, PA 315, PA 380, PA 462, PA 463 and PA 472, or consent of instructor
This senior-level capstone course develops an overall general perspective on the field of public administration. It reviews and integrates knowledge from the Public Administration upper-division core and concentration courses. The class assesses and documents students academic progress in the Public Administration concentration to demonstrate evidence of learning the core theories and practices of public administration as applied to topical areas.

PA 501. Administrative Leadership. 4 Units.
Prerequisites: the upper division writing requirement
Theory and practice of leading public sector organizations. Topics include leader traits, skills, styles, behaviors, development and evaluation. Formerly a topic under PA 590.

PA 514. Management of Private Nonprofit Organizations. 4 Units.
Prerequisites: the upper division writing requirement
Analyzes the specific problems of management in private nonprofit organizations, including planning, personnel, financial and policy issues.

PA 516. Public and Non-Profit Project Management. 4 Units.
Prerequisites: the upper division writing requirement
Aspects of project management, including needs and feasibility assessment, project design, proposal writing, contract negotiation, funding, developing project teams, managing team conflict, monitoring, and evaluation.

PA 521. Principles of Planning. 4 Units.
Prerequisites: the upper division writing requirement
Introduction to local and regional community planning; includes methods of adoption and interorganizational relationships.

PA 557. Public Sector Labor Relations. 4 Units.
Prerequisites: the upper division writing requirement
Analyzes issues created by collective bargaining and unionism in public sectors. Examples: selection of bargaining agents, bargaining scope and obligation, impasse resolution and grievance procedure.

PA 564. Local Public Administration. 4 Units.
Prerequisites: the upper division writing requirement
Administrative characteristics and problems of public management in the urban area, including city, county, school and special district organization and functions.

PA 568. Accounting for Government and Not-for-Profit Organizations. 4 Units.
Provides students an opportunity to study the specialized GASB accounting principles applicable to state and local governments. It affords learners an opportunity to acquire proficiency with the FASB financial reporting standards applicable to a variety of tax exempt non-profit organizations encountered in practice with an emphasis on fair value accounting and the basic principles used to record of assets, liabilities, equity, revenues, and expenditures. The course also covers the analysis and interpretation of government financial statements.

PA 573. Public Transportation Planning, Policy and Regulation. 4 Units.
Prerequisites: the upper division writing requirement
Study of the impacts of local, state and federal planning, policies, rules, regulations, and programs on surface, marine and air transportation systems. The focus is on interrelationships between business and the public sector in the strategic management of transportation applications. Formerly PA 473.

PA 575. Internship. 4 Units.
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

PA 590. Seminar in Public Administration. 4 Units.
An intensive study of some phase of public administration to be developed by the instructor. May be repeated for credit as topics change.
PA 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

PA 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

PA 603. Research Methods in Administration. 4 Units.
Prerequisites: ADMN 210 or equivalent
Introduces concepts of scientific research, particularly as applicable to public managers, as well as evaluation of research. Addresses issues of research design, sampling, data collection and analysis of basic quantitative and qualitative methods.

PA 611. Public Administration Theory and Practice. 4 Units.
A critical analysis of major theories of public administration and their application, including development of the discipline, evolution of institutional forms both in the United States and in international settings, concepts of decision-making, ethics in the public sphere, and role of public administration in society.

PA 615. Public Financial Management. 4 Units.
Management of financial resources in public organizations with emphasis on local government. Topics include evaluation and monitoring of financial condition and trends, capital financing strategies, debt administration, cash management, retirement systems, risk management, and managing purchasing functions.

PA 617. Management of Local Economic Development. 4 Units.
An introduction to the forms, processes and effects of economic development. Topics include: the dynamics of urban change and revitalization; the planning and financing of community economic development programs and projects; the role of public, neighborhood, advocacy and not-for-profit organizations, and social and environmental impacts of economic change.

PA 619. Managing Diversity in Organizations. 4 Units.
Exploration of the diversity challenges facing organizations as they pursue their missions. Topics include: theories of diversity, its benefits and challenges, legal managerial and ethical obligations.

PA 620. Regulatory Structure, Policies, and Process in Water Law. 4 Units.
Legal authority of water agencies, the procedures employed to exercise and limit that authority, the structure and process of administrative law, and the sharing of power in a federal system. Topics include powers and liabilities of water agencies, administrative procedures act, due process of law, licensing, environmental laws, rulemaking, negotiated rulemaking, interstate compacts, emergency powers, property condemnation, allocation of water resources, uses of water, and legal aspects of financing water projects.

PA 628. Intergovernmental Administration. 4 Units.
Administration of governmental programs in an intergovernmental context. Development of the federal system, relationships among federal, state and local governments, intergovernmental fiscal arrangements, practical problems in setting and implementing policies in an intergovernmental context.

PA 630. Program Evaluation. 4 Units.
Prerequisites: MATH 305 or ADMN 210
Purposes and methods of program evaluation in public and nonprofit organizations. Topics include selection of programs for evaluation, delineation of frame of reference, gathering of information, techniques of reporting, data analysis, comparative approaches of evaluation and ethical issues.

PA 650. Public Management Information Systems. 4 Units.
Prerequisites: the upper division writing requirement Fundamentals of Management Information Systems. Analysis of common MIS problems in the context of public organizations and solutions implemented to address them. Specific areas of study include technical foundations of information systems, strategic use of information resources, system development, system applications, information security, change management, and social and ethical issues involved with public information systems. Formerly PA 550 and a topic under PA 590.

PA 655. Strategic Planning for Government and Non-profit Organizations. 4 Units.
Description and analysis of public sector and non-profit strategic planning, including key planning components, the planning process, the organizational environment and leadership. Topics include organizational mission, vision, goal setting, environmental assessment, prioritization, strategy development and implementation and performance measurement.

PA 661. Principles of Public Procurement. 4 Units.
Theory and practice of public procurement including the legal framework, concepts, practices, and processes employed by leading public agencies.

PA 662. Human Resource Management in the Public Sector. 4 Units.
Analysis of the human resource management function as it applies to public sector organizations. Topics include development of modern public service, functions of personnel management, professionalism and ethics, and contemporary challenges facing human resources management.
PA 663. Public Budgeting and Finance. 4 Units.
Budget concepts and their application in varied settings including federal, state and local governments. Includes economic, management, and political approaches to appropriation and revenue decision making processes, as well as ethics and major issues in contemporary budgeting.

PA 664. Management of Public Organizations. 4 Units.
Issues in public management, including the role of the public executive, theories of public organizations, human behavior in public organizations, innovation and policy change, and ethics.

PA 670. Emergency Management. 4 Units.
Covers basic theory and practice in emergency management. Topics include approaches to emergency management, the political and administrative environment, administration of complex systems, behavioral aspects, and establishing and implementing community wide policies.

PA 672. Administrative Regulation. 4 Units.
Discretionary authority of regulatory agencies, the manner in which power is exercised by such agencies, and the administrative structure of the regulatory process.

PA 675. Internship. 4 Units.
Prerequisites: consent of instructor and department's internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

PA 680. Public Policy Analysis. 4 Units.
Prerequisites: PA 611, PA 662, and PA 663
Theoretical and practical issues to the development, application, and management of policy issues in public administrative systems. The emphasis is upon the development of critical thinking and evaluative skills for applied decision making in the workplace. Selected contemporary policy challenges and solutions, such as but not limited to globalization, ethics, and emergency management are explored.

PA 690. Advanced Topics in Public Administration. 4 Units.
Intensive study of an advanced topic in public administration. May be repeated for credit as topics change.

PA 695. Graduate Research Project. 4 Units.
Prerequisites: completion of, or concurrent enrollment in, all other courses for the Master of Public Administration; and consent of instructor and college
Required field study in public administration, including both literary and empirical research.

PA 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
PA 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-Reading Education (ERDG)

Courses
ERDG 542A. Seminar in Reading Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ERDG 542B. Seminar in Reading Education. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ERDG 542C. Seminar in Reading Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ERDG 542D. Seminar in Reading Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ERDG 619. Literacy Assessment and Evaluation. 4 Units.
Investigation of literacy assessments, strategies for their use in literacy instruction and early intervention. Research and evaluation for literacy instruction. Formerly ERDG 640.
ERDG 626. Foundations of Literacy. 4 Units.
Survey of theories of literacy development and learning, methods of literacy instruction and assessment. Formerly ERDG 620.

ERDG 627. Literacy and Language Processes. 4 Units.
Methods for integrating the language development processes that underlie effective literacy curriculum. Formerly ERDG 658.

ERDG 629. Special Topics in Literacy. 2 Units.
Prerequisites: ERDG 626
Relevant issues, techniques and topics in literacy. May be repeated for credit as topics change.

ERDG 633. Multi-modal Meaning Systems in Literacy. 4 Units.
Prerequisites: ERDG 626
How various meaning systems, including the arts, affect literacy learning.

ERDG 636. Critical Approaches to a Culture of Literacy. 4 Units.
Prerequisites: ERDG 626
Exploration of concepts of diversity and culture as they affect literacy learning. Using multicultural literature in the literacy curriculum.

ERDG 637. Basic Materials and approaches to Literacy. 4 Units.
Prerequisites: ERDG 627
Investigating, creating and making critical judgments about curriculum approaches and materials, including software and digital resources, appropriate to different theoretical perspectives. Formerly ERDG 622.

ERDG 639. Practicum in Reading and Literacy. 4 Units.
Prerequisites: ERDG 619
Supervised experience applying reading and literacy instructional strategies; implementing, analyzing and interpreting diagnostic assessments; planning for and delivering tutorial and intervention. Formerly ERDG 625.

ERDG 641. Multicultural Perspectives and Issues of Literacy. 4 Units.
Prerequisites: ERDG 626
Understanding multicultural perspectives and issues within the contexts of literacy with diverse populations.

ERDG 646. Socio-psycholinguistics and Literacy. 4 Units.
Prerequisites: ERDG 626, 636, 637, 639, 647, 649
Social and linguistic processes of literacy learning and the implications for instruction. Formerly ERDG 624.

ERDG 647. Curriculum Perspectives in Literacy. 4 Units.
Prerequisites: ERDG 627
Examination of theoretical approaches that affect literacy curriculum. Formerly ERDG 631. Meets graduate entrance writing requirement for the M.A.

ERDG 649. Assessment and Intervention in PreK-12 Literacy. 4 Units.
Prerequisites: ERDG 619
Strategies for literacy assessment, assessment design, and intervention in Pre-K through 12th grade classrooms. Advanced clinical experience with assessment. Meeting the literacy needs of all learners. Formerly ERDG 632.

ERDG 656. Contemporary Issues in Literacy. 4 Units.
Prerequisites: ERDG 626
Advanced critical and contemporary perspectives affecting literacy and literacy education for grades PreK-12. Advanced professional competencies for the literacy leader and educator. Formerly ERDG 643.

ERDG 657. Leadership Roles in Reading and Literacy. 4 Units.
Prerequisites: ERDG 626, 627, 619, 636, 637, 647, and consent of coordinator
Investigation of leadership roles in schools and districts. Responsibilities of a reading and literacy specialist. Includes program planning and evaluation, leadership skills, knowledge of standards-based education, responding to state mandates, analyzing and applying research, meeting the needs of all students. Formerly ERDG 630.

ERDG 659. Field Work for the Reading and Literacy Specialists. 4 Units.
Prerequisites: ERDG 626, ERDG 627, ERDG 619, ERDG 636, ERDG 637, ERDG 639, ERDG 647, ERDG 649, ERDG 657 and consent of the coordinator
Field experiences including demonstration of leadership roles in curriculum planning, inservice presentations and professional development. Graded credit/no credit. Formerly ERDG 679.

ERDG 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-Rehabilitation Counseling (EREH)

Courses

EREH 542A. Seminar in Rehabilitation Counseling. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.

EREH 542B. Seminar in Rehabilitation Counseling. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.
EREH 542C. Seminar in Rehabilitation Counseling. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.

EREH 542D. Seminar in Rehabilitation Counseling. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with the consent of the instructor.

EREH 610. Research and Assessment in Rehabilitation. 4 Units.
Principles of research, research design, methods of data collection, introduction to personality, aptitude, achievement measurements relating to issues of significance to the field of rehabilitation. Observation data and measurement collection. Formerly EDUC 610.

EREH 615. Introduction to Rehabilitation Counseling. 4 Units.
Fundamental processes and practices of rehabilitation counseling including examination and analysis of the historical, philosophical, organizational, economic and legal basis of rehabilitation. Orientation and field visits to community rehabilitation counseling agencies required.

EREH 616A. Multiple Aspects of Disability: Medical. 4 Units.
Orientation to community resources providing services to disabled persons. Multiple aspects of disabilities. Implications of disabilities for vocational adjustments and rehabilitation processes.

EREH 616B. Multiple Aspects of Disability: Vocational. 4 Units.
Orientation to community resources providing services to disabled persons. Multiple aspects of disabilities. Implications of disabilities for vocational adjustments and rehabilitation processes.

EREH 617. Vocational Assessment and Development. 4 Units.
Prerequisites: EREH 615, EREH 616A and EREH 616B or consent of instructor
Survey of methods of vocational assessment of disabled persons. Vocational development theories, occupational and career information systems and psychology of work.

EREH 618. Applied Job Placement. 4 Units.
Prerequisites: EREH 615, EREH 616A, EREH 616B and EREH 617 or consent of instructor
Survey of methods and techniques of job placement with different client populations in rehabilitation settings. Job analysis, job seeking training skills, placement and follow-up for rehabilitation clients.

EREH 649. Organizational Development of Rehabilitation Services. 4 Units.
Prerequisites: EREH 615, EREH 616A, EREH 616B, EREH 617 and EREH 618 or consent of instructor
Various types of training, administration, developmental and job placement programs used in industry, public and private rehabilitation agencies and insurance companies.

EREH 652. Dynamics of Human Behavior. 4 Units.
Theories of learning and human growth and development using lifespan approach from a rehabilitation counseling perspective. Includes effects of racial, lifestyle, and sex stereotyping in the community. Formerly ECLG 652.

EREH 655. Multicultural Counseling in Rehabilitation. 4 Units.
Theory and techniques of counseling skills to serve multi-ethnic populations relating to individuals with disabilities. Analysis of differing socio-economic, racial, and social backgrounds of individuals with disabilities. Includes 20 hours of related practicum experience. May not be taken for credit by students who have received credit for ECLG 655.

EREH 656. Counseling Theories and Techniques in Rehabilitation. 4 Units.
Theories and techniques of counseling, application to rehabilitation settings; experiential orientation in working with individuals with disabilities. May not be taken for credit by students who have received credit for ECLG 656.

EREH 657. Counseling Practicum in Rehabilitation. 4 Units.
Prerequisites: EREH 615, 616A, and 656 or permission of the program coordinator
Supervised practice in the application of counseling skills, theories and techniques working with individuals with disabilities. Includes 30 hours of related practice with individuals with disabilities. May not be taken for credit by students who have received credit for ECLG 657A.

EREH 667. Practicum in Rehabilitation Counseling. 4 Units.
Prerequisites: EREH 657 or consent of instructor
Supervised practice in individual rehabilitation counseling in a laboratory setting.

EREH 672. Seminar Topics in Rehabilitation Counseling. 4 Units.
Seminar topics include research in rehabilitation, casework management, multicultural issues in rehabilitation and current issues in rehabilitation counseling. Students will complete a research paper which will meet the graduation writing requirement. May be repeated for credit as topics change. Formerly EREH 652.

EREH 678. Theory and Practice of Group Counseling in Rehabilitation. 4 Units.
Prerequisites: EREH 615, 616A, 656 and 657 or permission of program coordinator
Theories and techniques of group counseling in rehabilitation settings with individuals with disabilities. May not be taken for credit by students who have received credit for ECLG 678.

EREH 679. Fieldwork in Rehabilitation Counseling. 4 Units.
Prerequisites: consent of program coordinator
Field experience in Rehabilitation Counseling. Students will take fieldwork in segments of four units for a total of 12 units. Students will be allowed to take up to two segments in one quarter. Graded credit/no credit.
EREH 695. Certified Rehabilitation Counselor Examination Preparation. 4 Units.
Prerequisites: completion of 48 units in the program and/or consent of the program coordinator.
Preparation for the Certified Rehabilitation Counselor Examination.
Graded credit/no credit.

EREH 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing.
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-School Business Management (ESBM)

Courses

ESBM 311. School Business Management. 4 Units.
Analysis of various approaches to school business administration, current trends, use of technology models of organization and management, relationship to county, state, and federal agencies, and functions of business management in relation to the size of school districts. Formerly EADM 511.

ESBM 312. School Finance and Budgeting. 4 Units.
Legal considerations in finance and budgeting, evaluation of California school finance program, fiscal relationship to county, state and federal agencies, budget control, school revenues and expenditures and budgetary procedures and processes and risk management. Formerly EADM 512.

ESBM 313. School Accounting and Fiscal Operations. 4 Units.
School fund accounting, attendance accounting, organization and review of student body accounts, state and federal project funding, and certificated and classified payroll laws and regulations pertaining to school accounting procedures. Formerly EADM 513.

ESBM 314. Business Support and Service Operations; Purchasing Warehousing and Inventory. 2 Units.
Purchasing, warehousing, logistics and inventory in the educational setting.

ESBM 315. Facilities Planning, Construction and Risk Management. 2 Units.
School facility planning and construction in the educational setting.

ESBM 316. School Maintenance, Operations and Transportation. 2 Units.
Maintenance, operations and transportation in the educational setting.

ESBM 317. Legal Aspects of Classified Personnel Administration. 4 Units.
Current laws and court decisions affecting public school education with a focus on classified personnel administration and laws of California. Formerly EADM 519.

ESBM 318. Classified Personnel Administration and Supervision. 4 Units.
Recruitment, selection, induction, training, evaluation and contract negotiations involving classified employees under merit and non-merit systems. Formerly EADM 525.

ESBM 320. Fieldwork in School Business Management. 2 Units.
Prerequisites: ESBM 311, 312, 313, 314, 315, 316, 317, 318
Practicum experience at the district level that allows the candidate to observe and learn multiple responsibilities of the Chief Business Official.

Education-School Psychology (EDSP)

Courses

EDSP 607. Research in School Psychology. 4 Units.
Research methods for conducting research as well as reading, interpreting and applying empirical research in school psychology and related disciplines to the practice of school psychology. Required to meet the Writing Requirement for Graduate Classification for the Ed.S. in School Psychology.

EDSP 619. Appraisal Procedures in Counseling. 4 Units.
Prerequisites: ECLG 531 with a grade of B (3.0) or better and ECLG 607 for students in the M.S. and P.P.S. credential program in Counseling and Guidance or admission to P.P.S. credential in School Psychology or Ed.S. program. Offered as ECLG 619 and EDSP 619, students may not receive credit for both
Individual and group measurement techniques, behavior observation skills, test interpretation, rights and responsibilities of test takers and administrators, and an introduction to personality, aptitude, achievement and career interest measurements.

EDSP 632. Advanced Psychological Foundations of Education. 4 Units.
Focuses on the interaction of the learning-teaching process. Emphasis on pertinent learning theories of general and special education individual differences in capacities and development of learners, and evaluation of learning and instructional models. Particular attention will be paid to the education of learners with exceptionalities and inclusive classrooms. Theories of motivation and research findings with specific relevance to learning process and human development within the context of educational psychology will be examined. Special attention will be paid to positive behavior interventions and principles of classroom management. Includes 30 hours of practica. Offered as ECLG 632 and EDSP 632, students may not receive credit for both.
EDSP 633. Human Development for Counseling. 4 Units.
Prerequisites: ECLG 531 and 632 or admission to the P.P.S. or Ed.S. programs in School Psychology. Offered as ECLG 633 and EDSP 633, students may not receive credit for both.
Recent developments in research and theory of human development, especially as they relate to counseling persons about problems of development. Focus on cognitive, biological, and social development in the context of family and community development.

EDSP 647. Individual Testing and Case Study Techniques I. 4 Units.
Prerequisites: ECLG 619, EDSP 619 or equivalent.
Intensive practice in administration and interpretation of the Wechsler Scales: Wechsler Preschool and Primary Scale of Intelligence, Wechsler Adult Intelligence Scale and Wechsler Intelligence Scale for Children Revised. Three hours lecture and three hours activity per week. Materials fee required. Formerly ECLG 647.

EDSP 648. Individual Testing and Case Study Techniques II. 4 Units.
Prerequisites: EDSP 647.
Intensive practice in administration and interpretation of Stanford-Binet, memory scales, cognitive processing scales, and selected personality measures with attention to integration of results in case studies. Three hours lecture and three hours activity per week. Materials fee required. Formerly ECLG 648.

EDSP 649. Ecological Assessment and Case Study Techniques. 4 Units.
Prerequisites: EDSP 648 (formerly ECLG 648).
Curriculum-based and play-based authentic assessment techniques. Use of ecological and alternative methods of assessing students and their needs. Three hours lecture and three hours activity per week. Materials fee required. Formerly ECLG 649.

EDSP 650. Career Counseling. 4 Units.
Overview of career development, career education and career counseling and guidance in schools, agencies and community settings. Offered as ECLG 650 and EDSP 650, students may not receive credit for both.

EDSP 654. Legal and Ethical Issues in School Psychology. 4 Units.
Legal, ethical, and professional considerations in the school psychology profession.

EDSP 656. Counseling Theories. 4 Units.
Prerequisites: ECLG 531 or admission to P.P.S. credential in School Psychology or Ed.S. program. Offered as ECLG 656 and EDSP 656, students may not receive credit for both.
Theories and practices of counseling; applications to educational settings and community settings.

EDSP 657A. Counseling Practicum I. 4 Units.
Prerequisites: ECLG 531, ECLG 631 or admission to P.P.S. or Ed.S. program in School Psychology. Offered as ECLG 657A and EDSP 657A, students may not receive credit for both.
Supervised practice in the application of counseling skills, theories and techniques. Includes 30 hours of practica.

EDSP 658. Family Consultation. 4 Units.
Prerequisites: ECLG 657B or admission to the P.P.S. or Ed.S. program in School Psychology. Offered as ECLG 658 and EDSP 658, students may not receive credit for both.
Family systems theory. Theory and methods of consultation with families. Inclusion of teachers and other professionals in the family system.

EDSP 660. Seminar in Child/Adolescent Psychopathology and Treatment. 4 Units.
Prerequisites: completion of introductory course in child development or equivalent or admission to P.P.S. or Ed.S. program in School Psychology.
Interdisciplinary approach to understanding abnormal child development within the context of multicultural settings. Use of taxonomical approach including IDEA (Individuals with Disabilities Education Act) and DSM (Diagnostic Statistical Manual) and standard treatment protocol. Formerly ECLG 660.

EDSP 678. Group Counseling. 4 Units.
Prerequisites: ECLG 531, ECLG 656 and ECLG 657A or ECLG 657B or admission to the P.P.S. or Ed.S. program in School Psychology. Offered as ECLG 678 and EDSP 678, students may not receive credit for both.
Theory and practice of group counseling in schools or community settings. Includes 30 hours of practice.

EDSP 686A. School Psychology Practicum I. 4 Units.
Study and experience relative to the practice of school psychology; an emphasis is placed on assessment of students for disabilities, psycho-educational report writing, and the development of Individual Education Plans. Study of theories and techniques in interventions with parents and children. Emphasis on methodology and application of assessment, academic and social interventions, and counseling skills. Formerly ECLG 686A. Graded Credit/No Credit.

EDSP 686B. School Psychology Practicum II. 4 Units.
Study and experience relative to the practice of school psychology; an emphasis is placed on assessment of students for disabilities, psycho-educational report writing, and the development of Individual Education Plans. Study of theories and techniques in interventions with parents and children. Emphasis on methodology and application of assessment, academic and social interventions, and counseling skills. Formerly ECLG 686B.

EDSP 687. School Psychologists as Change Agents: Theory and Practice. 4 Units.
Prerequisites: Pupil Personnel Services credential.
Organizational models, systems analysis, powers and change theories and strategies as applied to educational institutions. Includes 20 hours of practica. Formerly ECLG 687.

EDSP 688. Advanced Behavioral Intervention and School Consultation. 4 Units.
Examination of the central elements of behavioral intervention including monitoring progress of intervention that is empirically validated. Incorporates behavioral as well as systems consultation models. Formerly ECLG 688.
EDSP 689. Seminar/Internship in School Psychology. 6 Units.
Prerequisites: ECLG 649, ECLG 660, and ECLG 687
Supervised practice in school psychology with emphasis on case presentation. Total of 1200 hours (in either paid or unpaid positions) in a school setting. Repeated for credit three times for a total of 18 units. Formerly ECLG 689A-D. Materials fee required. Graded Credit/no credit.

EDSP 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing. Graded Credit/No credit
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-Sci, Tech, Engineering, Math (ESTM)

Courses

ESTM 510. Foundations of STEM Education. 4 Units.
Overview of philosophy, perspectives, and standards of Science, Technology, Engineering, and Mathematics (STEM) education that contribute to an integrated view of STEM education.

ESTM 511. Technology and Engineering Design in STEM Education. 4 Units.
Prerequisites: ESTM 510 or consent of instructor
Examination of the technology and engineering design process models that result in effective Science, Technology, Engineering and Mathematics (STEM) Education.

ESTM 512. Foundations of Research in STEM Education. 4 Units.
Prerequisites: ESTM 510 or 511 or consent of program coordinator
Fundamentals of planning, designing, and conducting a research study. Will emphasize research methods including qualitative and quantitative in Science, Technology, Engineering, and Mathematics (STEM) education, frame research questions, review literature and library resources, and include descriptive and inferential statistics.

ESTM 514. STEM Education: Technology Tools. 4 Units.
Prerequisites: ESTM 510
Introduction to various technology tools useful for use in STEM education. (4 units)

ESTM 535. STEM Education: Exploration of Technology. 4 Units.
Prerequisites: ESTM 510 or consent of coordinator
Use of technology and technological systems for the understanding of the relationship between natural and human-made world.

ESTM 548. STEM Education: Green Technology. 4 Units.
Prerequisites: ESTM 510 or consent of instructor
Green technology with an emphasis in wind turbines, hydroelectric power, bio-fuels, environmental monitoring solar power, fuel cells, green construction, other related technologies and career paths.

ESTM 613. Assessment in Stem Education. 4 Units.
Prerequisites: ESTM 510 or consent of program coordinator
Assessment principles and techniques in STEM classrooms or workforce development/training with a focus on developing and using assessment instruments resulting in valid and reliable information for and of learning.

ESTM 623. Teaching Physical Science in STEM Education. 4 Units.
Examine, develop, and apply physical science and learning reflected through STEM Education.

ESTM 624. Teaching Elementary Mathematics in STEM Education. 4 Units.
Prerequisites: ESTM 510, ESTM 511, MATH 115 or equivalent, MATH 301A, MATH 301B, MATH 301C, and MATH 308 or consent of program coordinator
Advanced models for mathematics teaching and learning in elementary schools, including how students learn mathematics, and technology and resources to facilitate mathematics learning.

ESTM 625. Teaching Algebra in STEM Education. 4 Units.
Prerequisites: ESTM 510, ESTM 511, and ESTM 624 or consent of program coordinator
Topics building on college algebra courses, methods of teaching algebraic skills, procedures and concepts, and technology and resources to facilitate algebra learning.

ESTM 626. Teaching Geometry in STEM Education. 4 Units.
Prerequisites: ESTM 510, ESTM 511, ESTM 624 and ESTM 625 or consent of program coordinator
Topics in Euclidean and non-Euclidean geometry. Technology and resources to facilitate geometry learning and fostering geometric thinking among K-8 students.

ESTM 628. The Integrated STEM Curriculum. 4 Units.
Prerequisites: ESTM 510, ESTM 623, ESTM 624, ESTM 625, and ESTM 626 or consent of program coordinator
Cumulating course in the STEM education program that examines the development of integrated STEM education curricular units.

ESTM 634. Research in STEM Education. 4 Units.
Prerequisites: ESTM 510 or consent of the instructor
Focus on advanced research and implications on STEM Education.

ESTM 644. Inquiry in STEM Education. 4 Units.
Examine, develop and apply strategies for inquiry teaching and learning in STEM Education.
ESTM 647. Teaching Earth/Space Science in STEM Education. 4 Units.
Examine develop and apply earth science and space science teaching and learning reflected through STEM Education.

ESTM 648. Teaching Life Science in STEM Education. 4 Units.
Examine, develop and apply life science teaching and learning reflected through STEM Education.

ESTM 680. STEM Education: Integration Seminar I. 4 Units.
Prerequisites: ESTM 510 or consent of program coordinator
Interdisciplinary discussion of Science, Technology, Engineering, and Mathematics (STEM) education topics and issues, presentation of STEM projects.

ESTM 681. STEM Education: Integration Seminar II. 4 Units.
Prerequisites: ESTM 510 and ESTM 680 or consent of program coordinator
Leadership development, utilizing a cross-disciplinary approach in Science, Technology, Engineering, and Mathematics (STEM) education requiring presentations and leading discussions in STEM related projects.

ESTM 690. STEM Education: Advanced Research. 4 Units.
Prerequisites: ESTM 510, 511, and 512 or consent of program coordinator
Advanced techniques in both quantitative and qualitative research methods, introduction to regression analysis, Excel spreadsheets, and SPSS conducting research in Science, Technology, Engineering, and Mathematics (STEM) education. Provides students with the knowledge and skills to complete their own research work. (4 units).

ESTM 692. STEM Education: Service Learning Fieldwork. 4 Units.
Prerequisites: ESTM 613 or consent of program coordinator
Application of STEM education in field settings. Service learning in an educational setting - e.g., K-12, continuing education, professional development, and adult education. Requires a written agreement with a sponsoring agency and departmental approval of that agreement.

ESTM 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
ESTM 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 699. STEM Education: Master's Thesis/Project. 4 Units.
Prerequisites: ESTM 690, advancement to candidacy, approval of thesis/project by the student's advisory committee
Independent graduate research or projects conducted under the direction of thesis or project committee.

ESTM 999. STEM Education: Comprehensive Examination. 0 Units.
Prerequisites: ESTM 680, completion of course work in the master's program, advanced to candidacy, approval of the department, and in good academic standing
Corequisites: ESTM 681
An assessment of the student's ability to integrate the knowledge of STEM education, show critical and independent thinking and demonstrate mastery of the subject matter.

Education-Science Education (EDSC)

Courses

EDSC 623. Teaching Physical Science in Stem Education. 4 Units.
Examine, develop and apply physical science learning in inquiry-based and problem-based activities that reflect perspectives of STEM Education.

EDSC 634. Research in Mathematics and Science Education. 4 Units.
Focus on current research in mathematics and science education.

EDSC 643. Assessment in the Science Classroom. 4 Units.
Assessment techniques in science education including the development of assessment tools to obtain reliable and useful information about student achievement in science.

EDSC 644. Inquiry in the Mathematics and Science Classroom. 4 Units.
Introduction to inquiry teaching and learning in mathematics and science. Focuses on the design of classroom learning experiences to support mathematical and scientific investigation, and the use of appropriate classroom teaching and learning strategies, materials and assessment to guide mathematics and scientific investigation.

EDSC 647. Teaching Earth/Space Science in Stem Education. 4 Units.
Examine, develop and apply earth science and space science learning in inquiry-based and problem-based activities that reflect perspectives of STEM Education.

EDSC 648. Teaching Life Science in Stem Education. 4 Units.
Examine, develop and apply life science learning in inquiry-based and problem-based activities that reflect perspectives of STEM Education.

EDSC 699. Masters Degree Project. 4 Units.
Prerequisites: advancement to candidacy
Development and completion of masters thesis/project.

EDSC 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, completion of course work in the program and in good academic standing
An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.
Education-Secondary Education (ESEC)

Courses

ESEC 200. Introduction to Careers in Secondary Education. 2 Units.
Perspectives on public school teaching for potential secondary teachers (grades 6-12). Early field experience activities including planned observations, instruction and tutoring provide students with the opportunity to link undergraduate subject matter coursework with classroom experience. Enrollment requires a Certificate of Clearance. Includes a minimum of eight hours of field experience in an approved setting.

ESEC 333. Curriculum and Instruction for a Diverse Society. 4 Units.
Prerequisite/Corequisite: ESEC 321. (For CLAD Certificate candidates only: EESL 536 may be substituted for ESEC 321
Overview of the social, theoretical, classroom and policy perspectives used to explain the school performance of English language learners. Includes historical, legal, and educational foundations of bilingual education; first and second language acquisition; structure of language; nonverbal communication; English language development; specially designed academic instruction in English; assessment and placement issues; and an examination of the role of verbal interaction in learning. Requires a ten-hour field component in an approved setting).

ESEC 405. Introduction to Secondary School Culture. 4 Units.
Prerequisites: admission to the program
Examines the importance of students as the center of school culture.
Analyzes a broad range of issues and theories that serve as the foundation to the profession of teaching in a diverse society.

ESEC 407. Secondary School Teaching. 4 Units.
Prerequisites: admission to the program
Comprehensive and balanced view of teaching and all its complexities.

ESEC 410. Adolescent Development and Learning. 4 Units.
Prerequisites: admission to the program
In-depth understanding of the developmental characteristics of early, middle and late adolescence as applicable to teaching in the secondary school settings and teaching.

ESEC 413. Language Interaction in the Classroom. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director
Examines the philosophy, design, goals and characteristics of school-based organizational structures designed to meet needs of English language learners (ELLs).

ESEC 417. Educational Psychology: Instructional Theory, Assessment and Classroom Management. 4 Units.
Prerequisites: knowledge of the Single Subject Program or consent of program director
Examines psychological principles applied to instructional theory and practice. Develops skills and classroom management for the multicultural, single subject classroom.

ESEC 419. Literacy Across the Curriculum. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director
Acquire and demonstrate research-based instruction that provides for teaching effective strategies and methods for guiding and developing the content based reading and writing abilities of all students, including students of varied reading levels and language backgrounds.

ESEC 502. Special Topics for Undergraduates in Secondary Education. 2 Units.
Issues and techniques in selected topics current in secondary education.
This course is designed for the Integrated Teaching Track students.
Senior status in the degree program is required.

ESEC 506E. Curriculum and Instruction in the Content Areas: English. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director. Formerly ESEC 505 and ESEC 508
Accessibility of secondary school content to all students from varied populations. Student evaluation, assessment and practice that provides equal access to content areas in the secondary schools. Reviews and reflects on application of methodologies and strategies through micro-teaching.

ESEC 506F. Curriculum and Instruction in the Content Areas: Foreign Language. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director. Formerly ESEC 505 and ESEC 508
Accessibility of secondary school content to all students from varied populations. Student evaluation, assessment and practice that provides equal access to content areas in the secondary schools. Reviews and reflects on application of methodologies and strategies through micro-teaching.

ESEC 506L. Curriculum and Instruction in the Content Areas: Life and Physical Science. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director. Formerly ESEC 505 and ESEC 508
Accessibility of secondary school content to all students from varied populations. Student evaluation, assessment and practice that provides equal access to content areas in the secondary schools. Reviews and reflects on application of methodologies and strategies through micro-teaching.
ESEC 506M. Curriculum and Instruction in the Content Areas: Mathematics. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director. Formerly ESEC 505 and 508
Accessibility of secondary school content to all students from varied populations. Student evaluation, assessment and practice that provides equal access to content areas in the secondary schools. Reviews and reflects on application of methodologies and strategies through micro-teaching.

ESEC 506P. Curriculum and Instruction in the Content Areas: Physical Education. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director. Formerly ESEC 505 and ESEC 508
Accessibility of secondary school content to all students from varied populations. Student evaluation, assessment and practice that provides equal access to content areas in the secondary schools. Reviews and reflects on application of methodologies and strategies through micro-teaching.

ESEC 506S. Curriculum and Instruction in the Content Areas: Social Sciences. 4 Units.
Prerequisites: admission and good standing in the program or consent of program director. Formerly ESEC 505 and 508
Accessibility of secondary school content to all students from varied populations. Student evaluation, assessment and practice that provides equal access to content areas in the secondary schools. Reviews and reflects on application of methodologies and strategies through micro-teaching.

ESEC 510. Teaching English as a Second Language in Secondary Schools. 4 Units.
Prerequisites: ESEC 321 and 333
Offers a broad overview of approaches and methods used in language teaching, but will focus specifically on practices that can support the development of English language proficiencies needed for success in secondary schools.

ESEC 511. Theory and Practice for English Language Development (ELD). 4 Units.
Prerequisites: EELB 312, EESL 536 or ESEC 321; and EELB 313 or ESEC 333
Study and practice of the design, implementation, and assessment of a communication-based curriculum for the English language learners in all stages of second language development. Includes selection and use of appropriate ELD strategies and materials.

ESEC 512. Assessment Seminar: Designing Instruction. 2 Units.
Prerequisites: admission and good standing in the program or consent of program director
Teaching Performance Assessment Task 2 Designing Instruction which consists of an assessment of Teaching Performance Expectations 1, 4, 6, 7, 8, 9 and 13. Graded credit/no credit.

ESEC 513. Assessment Seminar: Assessment Learning. 2 Units.
Prerequisites: admission and good standing in the program as well as concurrent enrollment in Student Teaching or Internship Teaching Supervision
Teaching Performance Assessment Task 3 - Assessing Learning which consists of assessment of Teaching Performance Expectations 3, 5, 7, 8, 9, and 13. Graded Credit/no credit.

ESEC 514. Assessment Seminar: Culminating Teaching Experience. 2 Units.
Prerequisites: admission and good standing in the program
Corequisites: enrollment in Student Teaching or Internship Teaching Supervision
Teaching Performance Assessment Task 4 - Culminating Teaching Experience which consists of an assessment of Teaching Performance Expectations 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 13. Graded credit/no credit.

ESEC 515. Issues and Trends in Secondary Education. 2 Units.
Prerequisites: consent of advisor
Examination of issues and trends in secondary education. May be repeated with consent of advisor.

ESEC 520A. Teaching Performance Assessment: Subject Specific Task 1. 1 Unit.
Prerequisites: admission, good standing in the program and have successfully completed ESEC 407, ESEC 410, and ESEC 413 with a grade of "B" or better
Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit. Graded credit/no credit.

ESEC 520B. Teaching Performance Assessments: Designing Instruction Task 2. 1 Unit.
Prerequisite/Corequisite: ESEC 417, ESEC 506, ESEC 550A or ESEC 555 with a "B" or better. Corequisite: ESEC 550B or ESEC 570B
Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit. Graded credit/no credit.

ESEC 520C. Teacher Performance Assessments Assessing Learners Task 3. 1 Unit.
Prerequisite/Corequisite: ESEC 419 with a "B" or better. Corequisite: ESEC 550C or ESEC 570C
Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit. Graded credit/no credit.

ESEC 520D. Teacher Performance Assessment Culminating Teaching Experiences Task 4. 1 Unit.
Prerequisite/Corequisite: ESEC 419 with a "B" or better. Corequisite: ESEC 550C or ESEC 570C
Seminar focused on candidate proficiency for Teaching Performance Expectations. Graded credit/no credit. Graded credit/no credit.
ESEC 520E. Assessment Seminar: TPA Cycle 1. 4 Units.
Activity and supervision class focusing on knowledge, skills and dispositions required for first year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and students with special needs, and preparation to document parts of teacher performance expectations 1-6. TPA Cycle 1. Graded Credit/No credit.

ESEC 520F. Assessment Seminar: TPA Cycle 2. 4 Units.
Activity and supervision class focusing on knowledge, skills and dispositions required for first year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and students with special needs, and preparation to document parts of teacher performance expectations 1-6. TPA Cycle 2. Graded Credit/No credit.

ESEC 523. Mainstreaming Exceptional Students in the Secondary Classroom. 2 Units.
Addresses the needs of exceptional students in the mainstreamed secondary school classroom. Current research, practice and legislation will be examined as they apply to the secondary school teacher and students.

ESEC 542A. Seminar in Secondary Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESEC 542B. Seminar in Secondary Education. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESEC 542C. Seminar in Secondary Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESEC 542D. Seminar in Secondary Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESEC 545. Adolescents Literacy Tutoring. 4 Units.
Prerequisites: consent of instructor
Tutor training for students to work with low literacy and at-risk adolescents in reading. Topics include literacy methods, multicultural issues, learning disabilities and use of educational software. 20 hours lecture and 48 hours of tutoring an adolescent in a field-based setting.

ESEC 550A. Student Teaching Experience. 2 Units.
Prerequisites: must be enrolled in a single subject program or consent of program director
Full-time teaching in a single subject setting at a public school. Student teaching candidates are required to conduct observations and complete fieldwork assignments from the various program courses. In addition, student teaching candidates are required to tutor a designated English Language Learner and a student with special needs. (100 hours).

ESEC 550B. Student Teaching II. 4 Units.
Prerequisites: successful completion of ESEC 407, ESEC 410, ESEC 413 and ESEC 550A
Full-time teaching in a single subject setting at a public school. Graded credit/no credit.

ESEC 550C. Student Teaching III. 8 Units.
Prerequisites: successful completion of ESEC 550B
Full-time teaching in a single subject setting at a public school. Graded credit/no credit.

ESEC 555. Internship Seminar I. 2 Units.
Seminar for interns, focusing on knowledge, skills and attitudes required for a first year teacher. Graded credit/no credit.

ESEC 556. Internship Seminar II. 2 Units.
Seminar for Secondary interns, focusing on knowledge, skills and attitudes required of a first year teacher. Graded credit/no credit.

ESEC 560. Study Skills for Secondary School. 4 Units.
Programs, methods and materials for teaching study skills to exceptional junior and senior high school students. Study strategies include: note taking, organization, memory devices, study contracts and preparation for examinations.

ESEC 570A. Intern Supervision I. 6 Units.
Prerequisites: enrollment in Single Subject Program and meeting Intern requirements
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 422.

ESEC 570B. Intern Supervision II. 6 Units.
Prerequisites: satisfactory completion of ESEC 570A and consent of program coordinator
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 422.

ESEC 570C. Intern Supervision III. 6 Units.
Prerequisites: satisfactory completion of ESEC 570B
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 422.

ESEC 570D. Intern Supervision IV. 6 Units.
Prerequisites: satisfactory completion of ESEC 570C
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 422.

ESEC 570E. Intern Supervision V. 6 Units.
Prerequisites: satisfactory completion of ESEC 570D
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 422.
ESEC 570F. Intern Supervision VI. 6 Units.
Prerequisites: satisfactory completion of ESEC 570E
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 422.

ESEC 602. Special Topics in Secondary Education. 2 Units.
Exploration, demonstration and application of issues and techniques in selected topics of current concern in secondary education (such as, inquiry-discovery teaching, simulations and games, alternate education programs, consumer education, team teaching, career education, teacher as counselor). May be repeated for credit as topics change.

ESEC 605. Curriculum for Specially Designed Academic Instruction in English (SDAIE). 2 Units.
Prerequisites: EELB 312, EESL 536, or ESEC 321; EELB 333 or ESEC 333; and EELB 511 or ESEC 511
Study and practice of the design, implementation, and assessment of specially designed academic instruction in English (SDAIE). Includes selection and use of appropriate SDAIE strategies and materials. (Also offered as EELB 605. Students may not receive credit for both.)

ESEC 622. Practicum in Middle Grade Education. 4 Units.
Prerequisites: ESEC 443, 617 and 621
Practicum for middle grade philosophies, objectives, and functions. Formerly ESEC 522.

ESEC 623. Foundations of Middle School Education. 4 Units.
History and philosophical foundations of middle school education; examination of theories and research related to middle school students, curriculum, programs and practices.

ESEC 666. Techniques and Applications of Mathematics Education. 4 Units.
Applications of theory in mathematics teaching including materials development in the design and implementation of mathematics instruction, audiovisual technology, computer-assisted instruction, and nontraditional curricula. Focus on techniques in pre-algebra, algebra, geometry, analytic geometry, trigonometry and pre-calculus.

ESEC 672. Educational Assessment in Mathematics Teaching. 4 Units.
Program and learner assessment in mathematics using curriculum evaluation, testing, and evaluation systems for the purpose of improving instruction through problem diagnosis, intervention and redesign.

ESEC 678. Mathematics Clinic for Secondary Education. 4 Units.
Administration of diagnostic instruments and assessment procedures to secondary school students followed by prescription and initiation of remedial instruction to strengthen mathematics skills.

ESEC 680. Practicum in Teaching English as a Second Language. 4 Units.
Prerequisites: (for M.A. in Education, Teaching English as a Second Language Option) consent of advisor; (for CLAD certificate program only) EELB 312, or EESL 536, or ESEC 321; EELB 313 and 511 or ESEC 333 and 511. May be taken concurrently with ESEC 605
Simulation and classroom-based practice in teaching methods and materials to include planning, teaching performance, classroom organization, student management, and evaluation competencies.

ESEC 697. Implementing Educational Change. 4 Units.
Prerequisites: completion of all COE core courses; curriculum and instruction core courses, eight units of emphasis area and appropriate elective units
Seminar examining the relationships and techniques involved when teachers plan for educational change. The emphasis will be on change theory in the K-12 school setting. (Also offered as EELB 697. Students may not receive credit for both.)

Social Sciences (SSCI)

Courses

SSCI 100. Introduction to the Social Sciences. 4 Units.
Introduction to the different disciplines within the social sciences and their corresponding research methodologies. Incorporates elements of anthropology, economics, political science, sociology, history, psychology, and geography. Presents a unified approach to the issues within social sciences.

SSCI 165. Regions and Peoples of the World. 4 Units.
(GE=D3)
Survey of major regions of the world using general physical and cultural concepts to explain patterns and problems of human activities in relation to natural environments.

SSCI 300. Nonwestern World. 4 Units.
Prerequisites: junior or senior standing
(GE=D5)
Historical, political, social, geographic and economic aspects of nonwestern societies.

SSCI 304. Contemporary Latin America. 4 Units.
Prerequisites: junior or senior standing
(GE=D5)
Social, economic and political conditions and institutions in contemporary Latin America.
SSCI 306. Expository Writing for the Social Sciences. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement and a minimum of 90 quarter (60 semester) units of college credit.
Writing on topics related to the social sciences, including documented research reports, summaries and analytical papers. Revision and rewriting will be required. Course fulfills the graduation requirement in writing proficiency. No more than one of the expository writing courses (EDUC 306, ENG 306, HUM 306, MGMT 306, NSCI 306, SSCI 306) may be taken for credit. Students who have received a grade of no credit in any combination of the expository writing courses two or more times must meet with the 306 coordinator or designee to design a developmental writing plan as a condition for enrolling for a third quarter. All students must obtain junior status at the time of registration or their course request will be cancelled. Formerly SSCI 495. Graded A, B, C/no credit.

SSCI 309. Family, School and Culture. 3 Units.
Prerequisites: EELB 310 and HD 315
An overview of family, culture and social stratification and the implications of such for educational settings (including curriculum content and instructional practices). Home-school relations will be discussed. Skills needed for effective communication with diverse families and communities will be included. Five hours field work component required.

SSCI 315. Cultural Adaptation: The Quest for Survival. 4 Units.
Prerequisites: junior or senior standing
(GE=D5)
An interdisciplinary inquiry into diverse cultural solutions to universal human problems. Topics include alternative cultural provisions for satisfying economic, social, political and religious needs.

SSCI 316. Race and Racism. 4 Units.
Prerequisites: junior or senior standing
(GE=D5, G1)
An interdisciplinary and cross-cultural examination of the concepts of race, ethnic group, prejudice and racism which includes studies of changing prejudiced attitudes.

SSCI 320. Understanding Capitalism. 4 Units.
Prerequisites: junior or senior standing
(GE=D5)
Exploration into the origins and nature of capitalism. Focus on the historical development and contemporary structure of the social, political and economic institutions of capitalism.

SSCI 321. Urbanization and the Urban Environment. 4 Units.
Prerequisites: junior or senior standing
(GE=D5)
Patterns and processes of urban growth. Major emphasis on reasons for growth of cities; economic, social, political and structural changes in urban areas which accompany urbanization; and a cross-cultural analysis of urban problems.

SSCI 325. Perspectives on Gender. 4 Units.
Prerequisites: junior or senior standing
(GE=D5, G1)
This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender roles in Western culture are established, maintained and changed. (Also offered as HUM 325 and NSCI 325. Students may receive credit for only one of these courses.)

SSCI 345. Religious Expression in America. 4 Units.
Prerequisites: junior or senior standing
(GE=D5)
Interdisciplinary social science analysis of the relationship among religious belief, religious practices and secular society in American culture.

SSCI 350. Roots of Modern Racism in America. 4 Units.
Prerequisites: junior or senior standing
(GE=D5, G1)
An interdisciplinary exploration of the roots of modern racism in America in the decades following the Civil War. The course will focus on the experiences of ethnic men and women and on the concurrent anti-Semitic, anti-Catholic and Americanization movements. The course will focus on the dynamics of these intergroup relations and their legacy for contemporary America.

SSCI 368. MARC Seminar I. 2 Units.
A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 368, PSYC 368, and SSCI 368 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

SSCI 468. MARC Seminar II. 2 Units.
Prerequisites: NSCI 368, PSYC 368 or SSCI 368
A selected examination of original research articles in behavioral and biomedical sciences focusing on improving scientific writing skills, shaping long-term research projects, and the development of research funding proposals. Offered as NSCI 468, PSYC 368, and SSCI 468 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

SSCI 499. Senior Seminar. 4 Units.
Prerequisites: senior standing
Assessment of the students' academic progress through the preparation and submission of a portfolio of completed course work. Students also compose a research essay in one of the social science fields, in consultation with the instructor.

SSCI 515. Model United Nations. 4 Units.
An analysis of the role of the United Nations in world politics to prepare students for the national United Nations competition. May be repeated for credit. A total of eight units may be applied towards graduation. Formerly PSCI 515.

SSCI 516. Model Arab League. 4 Units.
An analysis of the role of the Arab League in world politics to prepare students for the national Arab League competition. May be repeated for credit. A total of eight units may be applied towards graduation.
SSCI 575D. Social Science Internship. 4 Units.
Prerequisites: consent of the internship coordinator or department chair/coordinator
Supervised work and study in work situations involving social science skills. May be repeated once for credit. Graded Credit/no credit.

SSCI 590. Seminar in the Social Sciences. 4 Units.
An intensive study of various multidisciplinary issues within the social sciences. May be repeated for credit as topics change. A total of eight units may be applied toward graduation.

SSCI 595D. Social Science Independent Study. 4 Units.
Prerequisites: consent of the department chair/coordinator, filed in advance of the quarter in which the course is to be taken
Special topics in social science research. A total of four units in SSCI 595D may be applied toward the SSCI major and be applied toward graduation.

SSCI 600. Social and Cultural Perspectives in the Social Sciences. 5 Units.
The relationship of values, behavior, social setting, and environment in the analysis of human interaction. Both intracultural and crosscultural perspectives will be addressed in light of sociological and anthropological theories. Substantive and methodological contributions will be presented. Laboratory will provide students with hands-on research skills component.
Four hours lecture and two hours laboratory.

SSCI 695A. Directed Graduate Studies. 1 Unit.
Graduate-level independent study for students in the Master of Arts in Interdisciplinary Studies; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

SSCI 695B. Directed Graduate Studies. 2 Units.
Graduate-level independent study for students in the Master of Arts in Interdisciplinary Studies; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

SSCI 695C. Directed Graduate Studies. 3 Units.
Graduate-level independent study for students in the Master of Arts in Interdisciplinary Studies; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

SSCI 695D. Directed Graduate Studies. 4 Units.
Graduate-level independent study for students in the Master of Arts in Interdisciplinary Studies; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

SSCI 695E. Directed Graduate Studies. 5 Units.
Graduate-level independent study for students in the Master of Arts in Interdisciplinary Studies; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

SSCI 695F. Directed Graduate Studies. 6 Units.
Graduate-level independent study for students in the Master of Arts in Interdisciplinary Studies; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies.

SSCI 697. Comprehensive Examination. 2 Units.
Prerequisites: approval of the department, completion of a minimum of two thirds of the course work in the master's program, and in good academic standing
Assessment of the student's ability to apply the theories, methods and understanding of the social sciences to the phenomena of globalization.

SSCI 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
SSCI 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 699. Graduate Project or Thesis. 4 Units.
Prerequisites: advancement to candidacy and consent of program coordinator
Independent graduate project or research conducted under guidance of the major advisor culminating in a written project or thesis.

Social Work (SW)

Courses

SW 200. Introduction to Social Work. 4 Units.
Introductory survey of levels of social work practice and fields of practice. Review of NASW professional code of ethics and social work resources.

SW 300A. Social Welfare Policy I. 4 Units.
Prerequisites: admission to B.A. in Social Work
History of social work, development of structures of social welfare services and the role of policy in service delivery.

SW 300B. Social Welfare Policy II. 4 Units.
Prerequisites: SW 300A
II: Frameworks for policy analysis of social welfare policies and social service delivery in organizational, local, state, national and international settings. Introductory social work policy practice skills.
SW 301. Social Work Research. 6 Units.
Prerequisites: SW 300B and SW 302B
Social Work approaches to qualitative and quantitative research that builds knowledge for social work practice. Interpreting and applying social work practice research to students own practice. Skills needed to implement a social work research project in a social work setting. Four hours lecture and six hours laboratory.

SW 302A. Human Behavior and the Social Environment I. 4 Units.
Prerequisites: admission to B.A. in Social Work
Theories and knowledge of human bio-psycho-social development from birth to young adulthood, including theories and knowledge about the range of social systems in which individuals live (families, groups, organizations, institutions and communities). Interactions between and among human biological, social, psychological and cultural systems as they affect and are affected by human behavior.

SW 302B. Human Behavior and the Social Environment II. 4 Units.
Prerequisites: SW 302A
Theories and knowledge of human bio-psycho-social development in relation to adulthood and aging. Includes theories and knowledge about the range of social systems in which individuals live (families, groups, organizations, institutions and communities). Interactions between and among human biological, social, psychological and cultural systems as they affect and are affected by human behavior.

SW 320. Child Welfare Services. 4 Units.
Prerequisites: SW 300B and SW 302B
Public child welfare services and issues from a beginning generalist perspective. Prepares social work students for beginning level evidence-based, culturally competent, family-focused, strength-based, and outcome-oriented child welfare practice.

SW 325. Social Work Interventions in Substance Abuse. 4 Units.
Prerequisites: SW 300B and SW 302B
A comprehensive and systems-based examination of substance abuse and dependence. Prepares students with beginning skills for effective substance abuse intervention. Formerly a topic under SW 590.

SW 400A. Social Work Practice I. 4 Units.
Prerequisites: SW 301
Individuals. Theories, models and skills for social work interventions with individuals using a generalist model of social work practice. Designed to run concurrently with the field placement education.

SW 400B. Social Work Practice II. 4 Units.
Prerequisites: SW 400A
Families and Groups. Theories, models and skills for social work interventions with families and groups using a generalist model of social work practice. Designed to run concurrently with the field placement education.

SW 400C. Social Work Practice III. 4 Units.
Prerequisites: SW 400B
Organizations and Communities. Theories, models and skills for social work interventions with organizations and communities using a generalist model of social work practice. Designed to run concurrently with the field placement education.

SW 401A. Field Work. 4 Units.
Prerequisites: SW 301
Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Field placement hours (160) and monthly seminar. Graded credit/no credit.

SW 401B. Field Work. 4 Units.
Prerequisites: A comprehensive and systems-based examination of substance abuse and dependence. Prepares students with beginning skills for effective substance abuse intervention. Formerly a topic under SW 590. Prerequisites: SW 301
Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Field placement hours (160) and monthly seminar. Graded credit/no credit. (4 units).

SW 401C. Field Work. 4 Units.
Prerequisites: admission to B.A. in Social Work, SW 401B, completion of all courses below the 400-level and consent of instructor
Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Graded credit/no credit.

SW 590. Special Topics. 4 Units.
Prerequisites: admission to the B.A. program or consent of instructor.
Special topics in social work. May be repeated for credit with consent of instructor as topics change.

SW 595A. Independent Study. 1 Unit.
Prerequisites: consent of instructor
Special topics involving library and/or field research. May be repeated for credit.

SW 595B. Independent Study. 2 Units.
Prerequisites: consent of instructor
Special topics involving library and/or field research. May be repeated for credit.

SW 595C. Independent Study. 3 Units.
Prerequisites: consent of instructor
Special topics involving library and/or field research. May be repeated for credit.

SW 595D. Independent Study. 4 Units.
Prerequisites: consent of instructor
Special topics involving library and/or field research. May be repeated for credit.

SW 597. Social Work Honors Project. 4 Units.
Prerequisites: SW 301 and consent of instructor
Original in-depth research in an area of social work practice.

SW 602A. Foundation Micro Practice I. 4 Units.
Prerequisites: classified graduate standing in the MSW program and consent of department
Introduction to generalist model of practice with individuals, families and groups, comparative theories of micropractice, introductory intervention skills. Overview of generalist model and history.
SW 602B. Foundation Micro Practice II. 4 Units.
Prerequisites: SW 602A, classified graduate standing in the MSW program and consent of department
Introduction to generalist model of practice with individuals, families and groups, comparative theories of micropractice, introductory intervention skills. Comparative theories and models.

SW 602C. Foundation Micro Practice III. 2 Units.
Prerequisites: SW 602B, classified graduate standing in the MSW program and consent of department
Introduction to generalist model of practice with individuals, families and groups, comparative theories of micropractice, introductory intervention skills. Introductory intervention skills.

SW 604A. Human Behavior in the Social Environment I. 4 Units.
Prerequisites: classified graduate standing in the MSW program and consent of department
Critical appraisal and review of individual development from infancy through old age, from biological, sociological, cultural and psychological perspectives. Birth through adolescence.

SW 604B. Human Behavior in the Social Environment II. 4 Units.
Prerequisites: SW 604A, classified graduate standing in the MSW program and consent of department
Critical appraisal and review of individual development from infancy through old age, from biological, sociological, cultural and psychological perspectives. Adulthood and aging.

SW 606A. Foundation Macro Practice I. 4 Units.
Prerequisites: classified graduate standing in the M.S.W. program and consent of department
Introduction to generalist model of practice with organizations and communities including policy practice in both arenas. Theories of power and leadership. Introductory skills in task groups, leadership and collaboration. Overview.

SW 606B. Foundation Macro Practice II. 4 Units.
Prerequisites: SW 606A, classified graduate standing in the M.S.W. program and consent of department
Introduction to generalist model of practice with organizations and communities including policy practice in both arenas. Theories of power and leadership. Introductory skills in task groups, leadership and collaboration. Practice theory and models.

SW 606C. Foundation Macro Practice III. 2 Units.
Prerequisites: SW 606B, classified graduate standing in the M.S.W. program and consent of department
Introduction to generalist model of practice with organizations and communities including policy practice in both arenas. Theories of power and leadership. Introductory skills in task groups, leadership and collaboration. Practice theory and models. Introductory intervention skills.

SW 608A. Field Work. 4 Units.
Prerequisites: classified graduate standing in the MSW program and consent of department
Advanced practice experience in public and private agencies with individuals, families, groups, formal organizations and communities. Field Placement hours (160) and monthly seminar. Graded credit/no credit.

SW 608B. Field Work. 4 Units.
Prerequisites: SW 608A, classified graduate standing in the MSW program and consent of department
Advanced practice experience in public and private agencies with individuals, families, groups, formal organizations and communities. Field Placement hours (160) and monthly seminar. Graded credit/no credit.

SW 608C. Field Work. 4 Units.
Prerequisites: SW 608B, classified graduate standing in the MSW program and consent of department
Advanced practice experience in public and private agencies with individuals, families, groups, formal organizations and communities. Field Placement hours (160) and monthly seminar. Graded credit/no credit.

SW 608D. Field Work. 4 Units.
Prerequisites: SW 608C, classified graduate standing in the MSW program and consent of department
Advanced practice experience in public and private agencies with individuals, families, groups, formal organizations and communities. Field Placement hours (200) and monthly seminar. Graded credit/no credit.

SW 608E. Field Work. 4 Units.
Prerequisites: SW 608D, classified graduate standing in the MSW program and consent of department
Advanced practice experience in public and private agencies with individuals, families, groups, formal organizations and communities. Field Placement hours (200) and monthly seminar. Graded credit/no credit.

SW 608F. Field Work. 4 Units.
Prerequisites: SW 608E, classified graduate standing in the MSW program and consent of department
Advanced practice experience in public and private agencies with individuals, families, groups, formal organizations and communities. Field Placement hours (200) and monthly seminar. Graded credit/no credit.

SW 612. Social Work Research I. 4 Units.
Prerequisites: classified graduate standing in the MSW program and consent of department. Prerequisite: SW 604B
Theory, practice and methods of data collection and analysis. An examination of the role of research in the development of social work.

SW 613. Social Work Research II. 4 Units.
Prerequisites: SW 612
Further examination of the role of research in the development of social work theory, practice and methods of data collection and analysis.

SW 614. Child Abuse and Neglect. 4 Units.
Prerequisites: SW 604B
Critical analysis of child maltreatment and neglect, focusing upon recent research and treatment innovations. Satisfies California LCSW and MFCC requirements.

SW 615. Domestic Violence. 4 Units.
Prerequisites: SW 604B
An introduction to the knowledge, skills, and values utilized in direct social work practice with victims and perpetrators of domestic violence.
SW 618. Mental Health Seminar. 1 Unit.
Required for students who have been awarded the CALSWEC stipend. Includes CALSWEC competencies, addressing micro practice, cultural competence, HBSE, research, and workplace management.

SW 620. Social Work with Alcohol and Drug Abuse. 4 Units.
Prerequisites: SW 604B
An examination of theories, research and treatment regarding alcohol and drug abuse. Satisfies California LCSW and MFCC requirement.

SW 621. Group Work with Alcohol and Drug Abuse. 4 Units.
Training in group work with persons affected by chemical dependency. Course includes group communication theory, a study of behaviors common to chemical dependency, and assessment and techniques of group intervention.

SW 625A. Research Project I. 2 Units.
Prerequisites: 613
A culminating graduate experience in which a practice issue specific to the students field setting and specialization is objectively evaluated and presented orally and in writing. Students gather data and complete initial stages of implementation of research project.

SW 625B. Research Project II. 2 Units.
Prerequisites: SW 625A
Culminating graduate experience in which a practice issue specific to the students field setting and specialization is objectively evaluated and presented orally and in writing. Students complete data analysis, write the research report and present findings.

SW 633. Social Work Intervention with the Elderly and Their Families. 4 Units.
Prerequisites: SW 604B
Intervention with the elderly and their families. Case management functions of social work practice with the elderly and their families as well as clinical interventions in problems often troubling the elderly.

SW 637. School Social Work. 4 Units.
Prerequisites: SW 604B
Addresses competences such as social work with students and teachers in the classroom setting; social work with students and their families around learning issues and family problems; the application of learning theory to students school experience; social work with diverse student populations; case management of services both inside and outside the school site; and social work in the community setting to promote student learning.

SW 638. Public Child Welfare: Policy and Practice. 4 Units.
Public child welfare services and issues from an advanced generalist perspective. Prepares social work students for evidence-based, culturally competent, family-focused, strength-based, and outcome-oriented child welfare practice.

SW 645. Social Work Advanced Micro Practice I. 4 Units.
Prerequisites: SW 602C
Theories and models of practice learned in Foundation year curriculum are applied to the acquisition of practice skills that can be applied to work with individuals, groups and families within specific social work practice settings. Formerly SW 640.

SW 646. Social Work Advanced Micro Practice II. 4 Units.
Prerequisites: SW 645
Models of practice relating to skills and competencies such as case management, inter-agency collaboration and advanced multi-system assessment are addressed.

SW 647. Social Work Advanced Micro Practice III. 2 Units.
Prerequisites: SW 646
Social work practice with individuals, families and groups in specific populations commonly served by social workers. This includes an understanding of the various roles a social worker might play with this client population including, therapist, case manager, medication manager, protective services worker, substance abuse specialist, researcher, educator, etc.

SW 655. Social Work Advanced Macro Practice I. 4 Units.
Prerequisites: SW 606C
Theories and models of community practice and organizational/agency development that have been learned in the Foundation year are applied to the development of specific skills while working with organizations/ agencies and communities in social work settings. This includes social planning, community development, political advocacy, and social action. Formerly SW 650.

SW 656. Social Work Advanced Macro Practice II. 4 Units.
Prerequisites: SW 655
Strategies for organizational and community change including policy practice in both organizational/agency and community settings, coalition building, program development, budgeting, grant writing and interagency networking. Formerly SW 651.

SW 657. Social Work Advanced Macro Practice III. 2 Units.
Prerequisites: SW 656
Leading organizational/agency development and change. Social work roles addressed include supervisor, trainer/mentor, team leader and program evaluator. Formerly SW 652.

SW 660. Advanced Practice Integrative Seminar. 2 Units.
Prerequisites: SW 646 and SW 656, current enrollment in SW 647 and SW 657
Integration of content learned in the micro and macro sequences through the use of case studies and a seminar model of learning.

SW 690. Advanced Topics in Social Work. 4 Units.
Prerequisites: classified graduate standing in the MSW program or consent of instructor
An intensive study of some aspect of social work. May be repeated for credit as topics change.
SW 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
SW 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies. Independent study leading to the completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 699. Thesis Research. 4 Units.
Prerequisites: classified graduate standing and consent of department. Preparation of a thesis for the Master of Social Work degree program under the direction of a students thesis committee.

SW 999. Graduate Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the Masters program and in good academic standing. Required for the Pupil Personnel Services Credential, Social Work only.
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Sociology (SOC)

Courses

SOC 100. The Study of Society. 4 Units.
(GE=D4)
Survey of the basic characteristics and dynamics of society and culture from the sociological perspective.

SOC 110. Choices in the Life Course. 2 Units.
(GE=E2)
Utilization of social research in helping students make choices about life course events, such as career, education and family.

SOC 180. Critical Thinking about Social Problems. 4 Units.
(GE=A4)
Critical thinking skills are developed through a comparison of common sense and social scientific analyses of contemporary social problems. Focus on causal reasoning, common logical fallacies and the distinction between belief and knowledge.

SOC 301. Qualitative Research. 4 Units.
Prerequisites: SOC 100
Examines social problems and issues using various qualitative research methods such as focus groups, participant observation and in-depth interviews.

SOC 307. Social Research I. 5 Units.
Prerequisites: SOC 100
Basic concepts and techniques used by sociologists in conducting research. Four hours lecture and two hours laboratory.

SOC 309. Social Research II. 5 Units.
Prerequisites: SOC 307 and MATH 110, MATH 115 or MATH 120 or equivalent.
Application of social measurement techniques, including data collection, data entry and the use and interpretation of the methods of data presentation with the utilization of statistical routines. Involves the use of computers and statistical software in the development of research reports, sociological analysis and modeling. Four hours lecture and two hours laboratory.

SOC 311. Sociological Theory. 4 Units.
Prerequisites: SOC 100.
Sources of sociological theory and current trends in sociological analysis.

SOC 330. Social Gerontology. 4 Units.
Issues facing individuals, families and communities in a rapidly aging world. Social, psychological, physical and economic aspects of lifelong aging are discussed along with theories and myths of aging, coping with life adjustments, health and social services and careers in aging. Prerequisite: SOC 100.

SOC 335. Population and Society. 4 Units.
Examines social and political problems that are influenced by population, population distributions, and population dynamics. The fundamental demographic processes of fertility, mortality, and migration are discussed.

SOC 336. Black Women and Feminism. 4 Units.
Black women in America and their activities on behalf of women's rights; the interplay of racism and sexism within the women's movement. Prerequisite: SOC 100.

SOC 339. Socialization. 4 Units.
Theories, goals and processes of childhood socialization and, to a lesser extent, adult socialization. Emphasis on organized social roles as they are mediated through the norms and patterned interactions of institutions; that is, the family, peer groups and the schools. Prerequisite: SOC 100.

SOC 340. Sociology of the Family. 4 Units.
A systematic and comparative analysis of family structure and change: marriage, reproduction, childrearing, marital problems. Prerequisite: SOC 100.

SOC 341. Marriage and Family Among Blacks. 4 Units.
Forces affecting the black family, with emphasis on the roles assigned to individual members. Prerequisite: SOC 100.

SOC 342. The Chicano Family. 4 Units.
Consideration of the traditional and changing Mexican-American family patterns. Regional and social class variations. Influence of the family on Mexican-American personality development from a social-psychological perspective. Prerequisite: SOC 100.

SOC 343. Sociology of Family Violence. 4 Units.
The occurrence, causes and effects of family violence as a social phenomenon. Formerly SOC 320. Prerequisite: SOC 100.
SOC 344. Sociology of LGBT Families. 4 Units.
Social forces affecting lesbian, gay, bisexual, and transgender families (LGBT) families, with emphasis on the open, socially constructed ways in which people in this category create and define families. Discussion of legal issues, as well as fertility and parenting concerns.

SOC 350. Criminology. 4 Units.
Causes of crime with emphasis on sociological factors. Prerequisite: SOC 100.

SOC 352. Juvenile Offender. 4 Units.
Causes of juvenile delinquency, types of juvenile offenders, the juvenile court, legal aspects of delinquency and methods of rehabilitation. Prerequisite: SOC 100.

SOC 354. Deviant Behavior. 4 Units.
Deviant modes of human adjustment to modern society; processes of personal-social interaction in development of individual and group deviation. Prerequisite: SOC 100.

SOC 355. Medical Sociology. 4 Units.
Patients self concept from the pre-patient stage to the post-patient state and the relationship to the social system. Developmental stages in the sick role in contemporary society are emphasized. Prerequisite: SOC 100.

SOC 356. Sociology of Mental Illness. 4 Units.
Cultural variations in definitions of mental health and illness; social processes involved in defining, labeling and treating mental illness; stigmatizing effects of being labeled mentally ill; relationship of the incidence and treatment of mental illness to class, ethnicity and other sociological categories. Prerequisite: SOC 100.

SOC 358. Punishment and Corrections. 4 Units.
History and theories of punishment and treatment in dealing with criminals, sociological analysis of institutional systems and community based systems, work release programs and pre-release guidance centers.

SOC 360. Social Psychology. 4 Units.
The study of social interaction as it influences the development of self, role behavior, attitudes and values. Emphasis on symbolic interaction as a school of thought. Prerequisite: SOC 100.

SOC 363. Sociology of Mass Communication. 4 Units.
Study of symbolic and organizational aspects of mass communication systems. Special attention to attitudes and beliefs as influenced by the mass media.

SOC 375. Sociology of Sport. 4 Units.
A sociological study of the relationship of sport to the structure of human societies. Analysis of the role of sport in childhood and adult socialization, and in the defining of social groups, neighborhoods, schools, cities, regions and nations.

SOC 380. Sociology of Religion. 4 Units.
Theoretical analysis of religion as a social institution in complex societies. Structure and functioning of religious organizations, roles and role relationships; types of religious organizations and leadership; relationships of religion to other social institutions; religion and social change. Prerequisite: SOC 100.

SOC 381. Women and Religion. 4 Units.
Social forces affecting women's experiences in religious institutions in the U.S. and globally.

SOC 410. Sociology of Race and Ethnicity. 4 Units.
Social inequality, including gender and class variations in racial and ethnic socialization, experienced by members of racial and cultural groups in the United States. Prerequisite: SOC 100.

SOC 418. Sociology of Social Welfare. 4 Units.
Survey of the development and implementation of social welfare policies. Analysis of the impact of different public welfare programs on contemporary social problems. Formerly SOC 318. Prerequisite: SOC 100.

SOC 420. Social Movements. 4 Units.
Study of collective behavior and social movements with application of theory to historical and contemporary cases to understand emergence, mobilization, culture, and consequences.

SOC 422. Sociology of Work. 4 Units.
Prerequisites: SOC 100
The study of the nature of work under capitalism, the consequences emerging from such work, and alternatives to capitalist relations in production.

SOC 424. Social Capital and Social Networks. 4 Units.
Prerequisites: SOC 100
Study of social capital and social networks with an emphasis on community, resources, and the causes, qualities, and consequences of those ties connecting us together.

SOC 425. Asian Americans: Origin and Ethnicity. 4 Units.
Examines the origin countries, immigration patterns, adaptation to government policies, discrimination, and contemporary ethnic identity of Asians and Asian Americans. Formerly a topic under SOC 590. Prerequisite: SOC 100.

SOC 430. Urban Sociology. 4 Units.
Nature, causes and consequences of urbanization; metropolitan areas; location and types of cities; social and demographic characteristics of urban populations. Prerequisite: SOC 100.

SOC 432. Political Sociology. 4 Units.
Examination of political process from the perspective of sociology, exploring in depth the nature, distribution and exercise of power, and related areas of interest. Prerequisite: SOC 100.

SOC 434. Community Organization. 4 Units.
Programs of action, operative and proposed, for the organization of the community and the solution of its problems. Prerequisite: SOC 100.

SOC 436. Group Dynamics. 4 Units.
Dynamics of primary group relationships, including psychotherapy groups. Prerequisite: SOC 100.

SOC 440. Social Class. 4 Units.
Study of social class systems with particular reference to race, ethnicity and gender.
SOC 441. Black Social Stratification. 4 Units.
Caste in America, comparison of black and white stratification, black social mobility. Prerequisite: SOC 100.

SOC 442. Chicano Social Stratification. 4 Units.
Variables affecting the social status of the Mexican-American in society, Mexican-American social mobility, social class differences in Mexican-American communities. Prerequisite: SOC 100.

SOC 444. Sociology of Gender. 4 Units.
Social inequality, including class and racial/ethnic variations in sex-role organization, in the roles of women and men in contemporary U.S. society. Prerequisite: SOC 100.

SOC 445. Latino Health. 4 Units.
Current research issues, methodologies, and theoretical approaches concerning the health of the Latino community in the U.S.

SOC 450. White Collar Crime. 4 Units.
Study of America's most costly form of crime and deviance. History, causes, consequences, prevention and explanations of economic crime and abuse of power in the corporate and business world, the professions, trades, the unions and government.

SOC 484. Social Casework. 4 Units.
Process of problem solving used by social work agencies to help individuals to cope more effectively with their problems in social functioning. Prerequisite: SOC 100.

SOC 525. Indian Nations and Native America. 4 Units.
Reviews the 500 years of conquest, genocide, resistance, and survival, including the contemporary realities of indigenous peoples. Formerly a topic under SOC 590. Prerequisite: SOC 100.

SOC 540. Sociology of Education. 4 Units.
Sociological analysis of educational organizations, the relationship of such organizations to culture, social class and power, and the roles of teachers, students and administrators. Prerequisite: SOC 100.

SOC 545. Indigenous Peoples. 4 Units.
Sociological study of Indigenous Peoples from the local to the global. Formerly a topic under SOC 590.

SOC 575. Internship in Sociology. 4 Units.
Supervised work and study in private or public organizations. A total of eight units may be applied toward the major; 12 units may be applied toward graduation requirements. Graded credit/no credit. Prerequisites: SOC 100.

SOC 590. Seminar in Sociology. 4 Units.
Prerequisites: SOC 307 and consent of instructor. Prerequisite: SOC 100, SOC 307, SSCI 306 and consent of instructor
An intensive study of some phase of sociology to be developed by the instructor with the class. May be repeated for credit as topics change.

SOC 595B. Independent Study. 2 Units.
Prerequisites: senior or graduate standing, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in SOC 595 may be applied toward graduation. Prerequisite: SOC 100.

SOC 595C. Independent Study. 3 Units.
Prerequisites: senior or graduate standing, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in SOC 595 may be applied toward graduation. Prerequisite: SOC 100.

SOC 595D. Independent Study. 4 Units.
Prerequisites: senior or graduate standing, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in SOC 595 may be applied toward graduation. Prerequisite: SOC 100.

SOC 595E. Independent Study. 5 Units.
Prerequisites: senior or graduate standing, a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving library and/or field research. A total of 10 units in SOC 595 may be applied toward graduation. Prerequisite: SOC 100.

SOC 597. Senior Honors Project. 5 Units.
Prerequisites: formal application approved by department chair
Original research in an area of sociology, culminating in a major research report. The research project may be a quantitative or qualitative nature. Enrollment limited to students whose formal application for departmental honors is approved.

SOC 600. Proseminar in Sociology. 4 Units.
Prerequisites: consent of instructor.
Survey of the concepts and ideas that sociologists employ to study, describe and analyze globalization.

SOC 606. Sociology of Terrorism. 4 Units.
Ideology, causes, development and sociological effects of terrorism in society. Also included are the histories of terrorist groups, social-psychological profiles of members, technology and modus operandi.

Spanish (SPAN)

Courses

SPAN 101. College Spanish I. 4 Units.
Fundamentals of pronunciation, structure and Hispanic culture designed to develop the ability to use and understand basic spoken Spanish. Students who have not taken Spanish at California State University, San Bernardino, must take a placement test before registration. Contact department office for details.

SPAN 102. College Spanish II. 4 Units.
Further study of the fundamentals of pronunciation, structure and Hispanic culture designed to develop the ability to use and understand basic spoken Spanish. Continuation of SPAN 101. Students who have not taken Spanish at California State University, San Bernardino, must take a placement test before registration. Contact department office for details.
SPAN 103. College Spanish III. 4 Units.
(GE=C3)
Emphasis on oral and written competency at the intermediate level in a cultural context. Students who have not taken Spanish at California State University, San Bernardino, must take a placement test before registration. Contact department office for details. Formerly SPAN 150.

SPAN 201. Intermediate Spanish I. 4 Units.
Prerequisites: SPAN 103 or equivalent
First course in an intermediate-level sequence in Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures.

SPAN 202. Intermediate Spanish II. 4 Units.
Prerequisites: SPAN 201 or equivalent
(GE=C3)
Second course in an intermediate-level sequence in Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures.

SPAN 203. Intermediate Spanish III. 4 Units.
Prerequisites: SPAN 202 or equivalent
(GE=C3)
Third course in an intermediate-level sequence in Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures.

SPAN 214. Conversation. 4 Units.
Prerequisites: SPAN 103 or equivalent
(GE=C3)
Practice of oral Spanish stressing the discussion of current topics, panel discussions, debates, and oral presentations for students who have formally learned the language in a classroom setting and not in a Spanish-speaking environment (outside the classroom).

SPAN 251. Intermediate Healthcare Spanish I. 4 Units.
Prerequisites: SPAN 103 or equivalent
First course in an intermediate-level sequence in Healthcare Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures with particular attention to healthcare related vocabulary, concepts, and situations.

SPAN 252. Intermediate Healthcare Spanish II. 4 Units.
Prerequisites: SPAN 251 or equivalent
Second course in an intermediate-level sequence in Healthcare Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures with particular attention to healthcare related vocabulary, concepts, and situations.

SPAN 253. Intermediate Healthcare Spanish III. 4 Units.
Prerequisites: SPAN 252 or equivalent
Third course in an intermediate-level sequence in Healthcare Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures with particular attention to healthcare related vocabulary, concepts, and situations.

SPAN 290. Spanish and Latin American Literature in English. 4 Units.
(GE=C3)
Introduction to Hispanic literature read in English translation.

SPAN 295. Intermediate Skills Assessment. 1 Unit.
Assessment of the student's knowledge of the five basic language skills (listening, speaking, reading, writing and culture) based on defined performance standards. Satisfactory completion will be required for enrollment in all upper-division courses in Spanish (excluding SPAN 435). A student who fails SPAN 295 twice will not be permitted to participate in the Spanish major, minor, certificate programs, or upper-division classes required in the Liberal Studies, Spanish Studies program. Formerly SPAN 395. Graded credit/no credit.

SPAN 302. Theory and Practice in Composition. 4 Units.
Prerequisites: SPAN 203 and SPAN 295 or equivalent
Extensive practice in composition and style. Graded A, B, C/no credit.

SPAN 312A. Techniques for Professional Interpreting and Translating in Spanish. 4 Units.
Prerequisites: SPAN 302 and 395
Literature. Oral and written practice and methods of translation from Spanish to English and English to Spanish. May be repeated as topics change.

SPAN 312B. Techniques for Professional Interpreting and Translating in Spanish. 4 Units.
Prerequisites: SPAN 302 and SPAN 395
Public Services. Oral and written practice and methods of translation from Spanish to English and English to Spanish. May be repeated as topics change.

SPAN 312C. Techniques for Professional Interpreting and Translating in Spanish. 4 Units.
Prerequisites: SPAN 302 and 395
Law. Oral and written practice and methods of translation from Spanish to English and English to Spanish. May be repeated as topics change.

SPAN 314. Advanced Conversation. 4 Units.
Prerequisites: SPAN 302 and SPAN 395
Intensive practice of oral Spanish at the advanced level leading to fluency, to the development of a comprehensive, practical vocabulary and to public speaking skills for students who have formally learned the language in a classroom setting and not a Spanish-speaking environment (outside the classroom).

SPAN 316A. Spanish for the Professions: Communications. 4 Units.
Prerequisites: SPAN 302 and SPAN 295
Oral and written practice in terminology used in various professions. May be repeated as topics change.

SPAN 316B. Spanish for the Professions: Health Science. 4 Units.
Prerequisites: SPAN 302 and SPAN 295
Oral and written practice in terminology used in various professions. May be repeated as topics change.
SPAN 316C. Spanish for the Professions: Education. 4 Units.
Prerequisites: SPAN 302 and 295
Oral and written practice in terminology used in various professions. May be repeated as topics change.

SPAN 316D. Spanish for the Professions: Business. 4 Units.
Prerequisites: SPAN 302 and 295
Oral and written practice in terminology used in various professions. May be repeated as topics change.

SPAN 316E. Spanish for the Professions: Criminal Justice. 4 Units.
Prerequisites: SPAN 302 and 295
Oral and written practice in terminology used in various professions. May be repeated as topics change.

SPAN 318. Techniques of Literary Study and Analysis. 4 Units.
Prerequisites: SPAN 302 and SPAN 395
Techniques of literary study and analysis through readings from Spanish and Latin American literature. Formerly SPAN 216.

SPAN 320. Special Problems in Spanish Grammar. 4 Units.
Prerequisites: SPAN 212, 302 and 395
Intensive study of selected grammatical problems in Spanish. Three hours lecture and two hours laboratory.

SPAN 321. Spanish in the United States. 4 Units.
Prerequisites: SPAN 302 and SPAN 395
Intensive study of contemporary spoken and written Spanish in the United States, including analysis of forms and functions within selected social, political and educational contexts.

SPAN 322. Origin and Contemporary Role of Hispanic Dialects. 4 Units.
Prerequisites: SPAN 302 and 395
History and description of existing Spanish dialects in Spain, North America, the Caribbean, Central and South America. Emphasis on forms, sound systems and functional meanings in various social contexts.

SPAN 351. Culture, Health, and Food in Latin America. 4 Units.
Prerequisites: SPAN 203 or 253 or equivalent
This course develops students' knowledge of culture as related to healthcare practices and nutrition in Latin America and Spanish-speaking communities in the US.

SPAN 370. Literature of the Conquest. 4 Units.
Prerequisites: SPAN 302, SPAN 318 and SPAN 395
Readings from Latin American literature from the fifteenth through the seventeenth centuries.

SPAN 371. Spanish Peninsular Literature from the Middle Ages to the Seventeenth Century. 4 Units.
Prerequisites: SPAN 302, 318 and 395
Readings from the origins of Spanish literature through the Golden Age.

SPAN 372. Modern Peninsular Literature. 4 Units.
Prerequisites: SPAN 302, SPAN 318, and SPAN 395
Readings in Spanish peninsular literature from the eighteenth century to the present.

SPAN 373. Modern Latin American Literature. 4 Units.
Prerequisites: SPAN 302, SPAN 318, and SPAN 395
Readings in Latin American literature from the eighteenth century to the present. Formerly SPAN 392.

SPAN 394A. Practicum: Dramatic Production. 2 Units.
Prerequisites: SPAN 302 and SPAN 395
Participation in departmental cultural activities. May be repeated for a total of four units. Generally assumes 30 hours of work/study per unit of credit. Graded credit/no credit.

SPAN 394B. Practicum: Student/Faculty Journal. 2 Units.
Prerequisites: SPAN 302 and SPAN 395
Participation in departmental cultural activities. May be repeated for a total of four units. Generally assumes 30 hours of work/study per unit of credit. Graded credit/no credit.

SPAN 394C. Practicum: Tutoring Center. 2 Units.
Prerequisites: SPAN 302 and SPAN 395
Participation in departmental cultural activities. May be repeated for a total of four units. Generally assumes 30 hours of work/study per unit of credit. Graded credit/no credit.

SPAN 394D. Practicum: Media Center Service. 2 Units.
Prerequisites: SPAN 302 and SPAN 395
Media Center Service Participation in departmental cultural activities. May be repeated for a total of four units. Generally assumes 30 hours of work/study per unit of credit. Graded credit/no credit.

SPAN 394E. Practicum: Writing Center. 2 Units.
Prerequisites: SPAN 302 and 395
Writing Center Participation in departmental cultural activities. May be repeated for a total of four units. Generally assumes 30 hours of work/study per unit of credit. Graded credit/no credit.
SPAN 398A. Survey of Classical and Contemporary Hispanic Films from Spain. 4 Units.
Prerequisites: SPAN 302 and 395, or consent of instructor
Analysis of selected classical and contemporary Hispanic films from production of major studios to avant-garde artists. Explores important themes as well as significant directors and their unique use of photography, music, literature, and scripting. Each topic may be taken once for credit. Three hours lecture and two hours activity.

SPAN 398B. Survey of Classical and Contemporary Hispanic Films: Films from Latin America. 4 Units.
Prerequisites: SPAN 302 and 395, or consent of instructor
Analysis of selected classical and contemporary Hispanic films from production of major studios to avant-garde artists. Explores important themes as well as significant directors and their unique use of photography, music, literature, and scripting. Each topic may be taken once for credit. Three hours lecture and two hours activity.

SPAN 398C. Survey of Classical and Contemporary Hispanic Films: Classical and Contemporary Films from Spain, La. 4 Units.
Prerequisites: SPAN 302 and 395, or consent of instructor
Analysis of selected classical and contemporary Hispanic films from production of major studios to avant-garde artists. Explores important themes as well as significant directors and their unique use of photography, music, literature, and scripting. Each topic may be taken once for credit. Three hours lecture and two hours activity.

SPAN 398D. Survey of Classical and Contemporary Hispanic Films: Films from Spain and Latin America. 4 Units.
Prerequisites: SPAN 302 and 395, or consent of instructor
Analysis of selected classical and contemporary Hispanic films from production of major studios to avant-garde artists. Explores important themes as well as significant directors and their unique use of photography, music, literature, and scripting. Each topic may be taken once for credit. Three hours lecture and two hours activity.

SPAN 398E. Survey of Classical and Contemporary Hispanic Films: Significant Director or Theme of Hispanic Film. 4 Units.
Prerequisites: SPAN 302 and 395, or consent of instructor
Analysis of selected classical and contemporary Hispanic films from production of major studios to avant-garde artists. Explores important themes as well as significant directors and their unique use of photography, music, literature, and scripting. Each topic may be taken once for credit. Three hours lecture and two hours activity.

SPAN 399. Departmental Service Project. 1 Unit.
Prerequisites: SPAN 302 and SPAN 395 and consent of instructor
Credit for performing academically related tasks within the Department of World Languages and Literatures. No more than six units of credit for Departmental Service Project courses may be applied toward degree requirements. Graded credit/no credit.
SPAN 443. Literature of the Caribbean. 4 Units.
Prerequisites: SPAN 302, 318, 395 and one class from the SPAN 370 series
Survey of the literature of the Spanish-speaking Caribbean region from the sixteenth century to the present.

SPAN 445. The Narrative of Spanish America. 4 Units.
Prerequisites: SPAN 302, 318, 395, and one class from the SPAN 370 series
Survey of the narrative of Spanish America from the nineteenth century to the present.

SPAN 446. Literature of the Renaissance and the Spanish Golden Age. 4 Units.
Prerequisites: SPAN 302, SPAN 318, SPAN 395, and one class from the SPAN 370 series
Survey of Spanish peninsular literature from the fifteenth through the seventeenth century.

SPAN 447. Romanticism and Realism in Spain. 4 Units.
Prerequisites: SPAN 302, 318, 395, and one class from the SPAN 370 series
Survey of Spanish peninsular literature of the nineteenth century.

SPAN 448. Twentieth Century Spanish Literature. 4 Units.
Prerequisites: SPAN 302, 318, 395, and one class from the SPAN 370 series
Survey of contemporary Spanish fiction, poetry and essay.

Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spain. May be repeated as topics change.

SPAN 515D. Seminar in Spanish Peninsular Literature, Culture or Film: Essay. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spain. May be repeated as topics change.

SPAN 515E. Seminar in Spanish Peninsular Literature, Culture or Film: Author. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spain. May be repeated as topics change.

SPAN 515F. Seminar in Spanish Peninsular Literature, Culture or Film: Culture. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spain. May be repeated as topics change.

SPAN 515G. Seminar in Spanish Peninsular Literature, Culture or Film: Film. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spain. May be repeated as topics change.

SPAN 516A. Seminar in Spanish American Literature, Culture or Film: Prose Fiction. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.

SPAN 516B. Seminar in Spanish American Literature, Culture or Film: Poetry. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.

SPAN 516C. Seminar in Spanish American Literature, Culture or Film: Drama. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.
SPAN 516D. Seminar in Spanish American Literature, Culture or Film: Essay. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.

SPAN 516E. Seminar in Spanish American Literature, Culture or Film: Author. 4 Units.
Prerequisites: SPAN 302, 318, 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.

SPAN 516F. Seminar in Spanish American Literature, Culture or Film: Culture. 4 Units.
Prerequisites: SPAN 302, SPAN 318, SPAN 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.

SPAN 516G. Seminar in Spanish American Literature, Culture or Film: Film. 4 Units.
Prerequisites: SPAN 302, SPAN 318, SPAN 395; one class from the SPAN 370 series; and one class from the SPAN 440 series
Advanced study of the literature and culture of Spanish America. May be repeated as topics change.

SPAN 517A. Seminar in Hispanic Linguistics: Grammar. 4 Units.
Prerequisites: SPAN 302, SPAN 395, SPAN 415, and SPAN 416
Advanced study of Spanish language and linguistics. May be repeated as topics change.

SPAN 517B. Seminar in Hispanic Linguistics: Dialectology. 4 Units.
Prerequisites: SPAN 302, 395, 415, and 416
Advanced study of Spanish language and linguistics. May be repeated as topics change.

SPAN 517C. Seminar in Hispanic Linguistics: Language in Society. 4 Units.
Prerequisites: SPAN 302, 395, 415, and 416
Advanced study of Spanish language and linguistics. May be repeated as topics change.

SPAN 517D. Seminar in Hispanic Linguistics: Teaching Methodology. 4 Units.
Prerequisites: SPAN 302, 395, 415, and 416
Advanced study of Spanish language and linguistics. May be repeated as topics change.

SPAN 575A. Internship in Service Learning. 1 Unit.
Prerequisites: SPAN 302 and SPAN 395
Supervised intensive work that requires advanced skills in oral and/or written Spanish in private or public organizations. A total of eight units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

SPAN 575B. Internship in Service Learning. 2 Units.
Prerequisites: SPAN 302 and SPAN 395
Supervised intensive work that requires advanced skills in oral and/or written Spanish in private or public organizations. A total of eight units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

SPAN 575C. Internship in Service Learning. 3 Units.
Prerequisites: SPAN 302 and SPAN 395
Supervised intensive work that requires advanced skills in oral and/or written Spanish in private or public organizations. A total of eight units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

SPAN 575D. Internship in Service Learning. 4 Units.
Prerequisites: SPAN 302 and SPAN 395
Supervised intensive work that requires advanced skills in oral and/or written Spanish in private or public organizations. A total of eight units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

SPAN 575E. Internship in Service Learning. 5 Units.
Prerequisites: SPAN 302 and SPAN 395
Supervised intensive work that requires advanced skills in oral and/or written Spanish in private or public organizations. A total of eight units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit. Graded credit/no credit.

SPAN 606. Research Methods. 4 Units.
Prerequisites: graduate standing or consent of the graduate committee
Introduction to bibliography, research techniques, professional discourse styles, analysis and application of methods of contemporary literary theory and criticism. This course is a prerequisite to all 600-level courses in the M.A. in Spanish.

Diachronic study of the development of Spanish from Latin to modern varieties of the language. In-depth analysis of phonological, morphological, and syntactic changes related to relevant events of Spanish and Spanish American history. Formerly SPAN 605.

SPAN 612. Studies in Hispanic Cultures. 4 Units.
Prerequisites: graduate standing or consent of the graduate committee
Intensive study of significant cultural aspects of Spanish and Spanish-American cultures.

SPAN 615. Second Language Acquisition in Spanish. 4 Units.
Prerequisites: graduate standing, SPAN 320 or equivalent and SPAN 606; or consent of the graduate committee
Study and application of current techniques and approaches in second language acquisition, including outcomes assessment.
SPAN 620A. Spanish Linguistics. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Sociolinguistics of the Hispanic World. Intensive study of contemporary issues in Spanish linguistics. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 620B. Spanish Linguistics. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Spanish Dialectology. Intensive study of contemporary issues in Spanish linguistics. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 620C. Spanish Linguistics. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Spanish in the United States. Intensive study of contemporary issues in Spanish linguistics. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 620D. Spanish Linguistics. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Seminar in Spanish Phonetics and Phonology. Intensive study of contemporary issues in Spanish linguistics. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 625A. Spanish Peninsular Literature and Culture: Prose Fiction. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish Peninsular literature and culture. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 625B. Spanish Peninsular Literature and Culture: Poetry. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish Peninsular literature and culture. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 625C. Spanish Peninsular Literature and Culture: Drama. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish Peninsular literature and culture. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 625D. Spanish Peninsular Literature and Culture: Essay. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish Peninsular literature and culture. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 625E. Spanish Peninsular Literature and Culture: Authors. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish Peninsular literature and culture. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 625F. Spanish Peninsular Literature and Culture: Culture. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish Peninsular literature and culture. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 630A. Spanish-American Literature and Culture: Prose Fiction. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 630B. Spanish-American Literature and Culture: Poetry. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 630C. Spanish-American Literature and Culture: Drama. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 630D. Spanish-American Literature and Culture: Essay. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 630E. Spanish-American Literature and Culture: Author. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. A maximum of 12 units may be applied toward the M.A. in Spanish.
SPAN 630F. Spanish-American Literature and Culture: Latino Cultures. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. A maximum of 12 units may be applied toward the M.A. in Spanish.

SPAN 650A. The Spanish Golden Age: Don Quixote. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the Spanish sixteenth- and seventeenth centuries. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 650B. The Spanish Golden Age: Drama. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the Spanish sixteenth- and seventeenth centuries. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 650C. The Spanish Golden Age: Prose. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the Spanish sixteenth- and seventeenth centuries. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 650D. The Spanish Golden Age: Poetry. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the Spanish sixteenth- and seventeenth centuries. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 651A. Studies in Spanish American Literature: Colonial. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of Spanish America from the colonial period to the present. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 651B. Studies in Spanish American Literature: Nineteenth Century. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of Spanish America from the colonial period to the present. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 651C. Studies in Spanish American Literature: Twentieth Century. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of Spanish America from the colonial period to the present. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 651D. Studies in Spanish American Literature: Contemporary Women Writers. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of Spanish America from the colonial period to the present. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 651E. Studies in Spanish American Literature: Regional and Indigenous Literatures. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of Spanish America from the colonial period to the present. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 652A. Seminar in Spanish-American Civilization: Surrealism. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 652B. Seminar in Spanish-American Civilization: Post-modernist Literature. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 652C. Seminar in Spanish-American Civilization: African Influences in Literature. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 652D. Seminar in Spanish-American Civilization: The Novel of the Dictator. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.
SPAN 652E. Seminar in Spanish-American Civilization: The Neo-Picaresque Novel. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 652F. Seminar in Spanish-American Civilization: Neo-Colonialism. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 652G. Seminar in Spanish-American Civilization: Contemporary Film. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of an important contemporary aspect of Spanish-American culture and literature. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 653. Contemporary Chicano/Latino Literature in Spanish. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Intensive analysis of works by Chicano and Latino writers in Spanish in the United States.

SPAN 654A. Modern Spanish Peninsular Literature: Nineteenth Century. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the nineteenth and twentieth centuries in Spain. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 654B. Modern Spanish Peninsular Literature: Twentieth Century. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the nineteenth and twentieth centuries in Spain. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 654C. Modern Spanish Peninsular Literature: Contemporary Women Writers. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of the graduate committee
Advanced study of the literature of the nineteenth and twentieth centuries in Spain. A maximum of eight units may be applied to the M.A. in Spanish.

SPAN 655A. Seminar in Applied Linguistics: Translation Techniques. 4 Units.
Prerequisites: SPAN 606, and graduate standing; or consent of the graduate committee
Study and discussion of current issues in Hispanic applied linguistics relevant to the following professions: Spanish teachers, translators, bilingual administrators, bilingual media specialist. A maximum of 12 units may be applied toward the M.A. in Spanish. 8 units may be repeated for credit as topics change.

SPAN 655B. Seminar in Applied Linguistics: Spanish for the Professions. 4 Units.
Prerequisites: SPAN 606, and graduate standing; or consent of the graduate committee
Study and discussion of current issues in Hispanic applied linguistics relevant to the following professions: Spanish teachers, translators, bilingual administrators, bilingual media specialist. A maximum of 12 units may be applied toward the M.A. in Spanish. 8 units may be repeated for credit as topics change.

SPAN 655C. Seminar in Applied Linguistics: Language and Media. 4 Units.
Prerequisites: SPAN 606, and graduate standing; or consent of the graduate committee
Study and discussion of current issues in Hispanic applied linguistics relevant to the following professions: Spanish teachers, translators, bilingual administrators, bilingual media specialist. A maximum of 12 units may be applied toward the M.A. in Spanish. 8 units may be repeated for credit as topics change.

SPAN 655D. Seminar in Applied Linguistics: Applied Spanish Grammar. 4 Units.
Prerequisites: SPAN 606, and graduate standing; or consent of the graduate committee
Study and discussion of current issues in Hispanic applied linguistics relevant to the following professions: Spanish teachers, translators, bilingual administrators, bilingual media specialist. A maximum of 12 units may be applied toward the M.A. in Spanish. 8 units may be repeated for credit as topics change.

SPAN 656. Seminar in Spanish Semantics and Pragmatics. 4 Units.
Prerequisites: graduate standing and SPAN 606, or consent of graduate committee
Study of noun and verbal systems of the Spanish language, as found in a variety of discourses, and analysis of forms and functional meaning in social contexts.

SPAN 696. Graduate Portfolio. 2 Units.
Preparation and submission of a portfolio with appropriate reflective writing samples and experiences of Spanish language instruction at the college level. Includes a discussion of current instructional methodology for foreign languages and a field component consisting of observation and teaching of college level Spanish language classes. Graded credit/no credit.
SPAN 697. Comprehensive Examination. 0 Units.
Prerequisites: must be taken in the last quarter before graduation
Written and oral examination covering Spanish linguistics, peninsular
literature and culture, Spanish-American literature and culture, and
Latino cultures in the United States. Examination is based on the core of
required classes for the M.A. in Spanish as well as a reading list. Student
must pass exam and any retests within one year of completion of the core
elective courses. Exam may be repeated once, and only the sections
failed will be retested.

SPAN 698A. Continuous Enrollment for
Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

SPAN 698B. Continuous Enrollment for
Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

SPAN 698C. Continuous Enrollment for
Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

SPAN 698D. Continuous Enrollment for
Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

SPAN 698E. Continuous Enrollment for
Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.

SPAN 698F. Continuous Enrollment for
Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program
graduate coordinator or, if an interdisciplinary studies major, consent of
the Dean of Graduate Studies
Independent study leading to completion of requirements (other than
course work) for the master's degree. To retain classified standing in
the master's program, a student must enroll in 698 each quarter until
the project or thesis is accepted or the comprehensive examination
passed. Students who enroll in 698 through the university have full use
of all university facilities. See Culminating Experience: Exam, Thesis, or
Project in Graduate Degree and Program Requirements section of the
Bulletin of Courses. 698 is a variable unit course, see fee schedule in the
Financial Information section of the Bulletin of Courses. Earned units are
not degree-applicable nor will they qualify for financial aid.
SPAN 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Education-Special Education (ESPE)

Courses

ESPE 350. Introduction to Special Populations for General Education Teachers. 4 Units.
Introduction to special populations in the mainstream classroom for general educators. Development of basic skills for teaching special populations in the general education classroom including differentiated instructional strategies within the core curriculum, roles of general education teachers, and creating a positive inclusive climate of instruction for exceptional learners. A minimum of three hours of fieldwork is required.

ESPE 514. Curriculum and Methods for Diverse Learners with Disabilities. 4 Units.
Prerequisites: ESPE 530, ESPE 531, and ESPE 611, and admission to the Special Education program
Specialized assessment, instructional planning and teaching methods for English language acquisition. Consideration given to cultural characteristics of students, cultural transmission, and acculturation. Practicum in approved settings required. Formerly ESPE 614.

ESPE 530. Introduction to Special Education. 4 Units.
Characteristics and educational implications of physical, intellectual, social and emotional deviations among exceptional individuals. Ethical and legal aspects of special education. Observations in educational settings.

ESPE 531. Methods and Procedures in Special Education. 4 Units.
Prerequisite/Corequisite: ESPE 530
Introductory teaching methods in special education. Policies and procedures related to the implementation of federal and state legislation governing the delivery of special education services. Formerly ESPE 529.

ESPE 538. Introduction to Teaching the Gifted and Talented. 4 Units.
Prerequisites: consent of instructor
Definition, characteristics and development of the gifted and talented individual. Identification procedures. Current legislation and educational practices. Eight hours of class and activities weekly.

ESPE 539. Programs for Teaching the Gifted and Talented. 4 Units.
Prerequisites: ESPE 538 and consent of instructor
Development of school programs for gifted and talented: identification, objectives, scheduling, curriculum, materials and program assessment.

ESPE 542A. Seminar in Special Education. 1 Unit.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESPE 542B. Seminar in Special Education. 2 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESPE 542C. Seminar in Special Education. 3 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESPE 542D. Seminar in Special Education. 4 Units.
Prerequisites: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor.

ESPE 600. Master of Science in Special Education Project. 4 Units.
Prerequisites: Advancement to candidacy and consent of the department
Independent graduate research conducted under the guidance of the major advisor and resulting in a written project.

ESPE 601. Legal and Historical Foundations of Special Education. 4 Units.
Prerequisites: Classified admission to Master of Science in Special Education program
Legal, historical, and ethical foundations of special education including legislation, regulations and case law that govern the provision of special education.

ESPE 602. Research in Special Education. 4 Units.
Prerequisites: Classified admission to Master of Science in Special Education program
Introduction to qualitative and quantitative research methods, including single subject design. Formulation of research questions and preparation of research documents. Understanding descriptive and Inferential statistics in education research. Reading and understanding current research in special education.

ESPE 603. Critical Issues in Special Education. 4 Units.
Prerequisites: Classified admission to Master of Science in Special Education program
Critical trends and issues in special education affected by current social, political, and economic conditions. Readings and discussions focus on education reform, multicultural and language issues, inclusion, access to core curriculum, and transition.
ESPE 610. Introduction to Autism Spectrum Disorders. 4 Units.
Prerequisites: ESPE 530 and ESPE 531 and admission to the Special Education program; or admission to the Autism Added Authorization program and concurrent enrollment in ESPE 623A

ESPE 611. Assessment Methods in Special Education. 4 Units.
Prerequisites: ESPE 530 and ESPE 531 and admission to the Special Education Program
Data collection methods for eligibility for special education services, program planning, and program evaluation in the areas of academics, language, and social-emotional. Formerly ESPE 637.

ESPE 612. Supportive Learning Environments for Students with Disabilities. 4 Units.
Prerequisites: ESPE 530 and ESPE 531; admission to the Special Education Program
Strategies for managing diverse special education classroom and service delivery settings. Planning and implementing positive behavior support and maintaining a supportive learning environment. Practicum in approved settings required. Formerly ESPE 624.

ESPE 613. Seminar in Literacy Learning for Students with Disabilities. 4 Units.
Prerequisites: ESPE 530, ESPE 531, and ESPE 611, and admission to the Special Education program
Differentiated teaching methods and specialized assessment in literacy learning for students with special needs, including English learners. Practicum in approved settings required. Formerly ESPE 655.

ESPE 615. Seminar on Language and Literacy in Early Childhood Special Education. 4 Units.
Prerequisites: ESPE 530, ESPE 531 and admission to the Special Education Program
An intensive study of early language and literacy skills including English language development, assessment, instruction, and curriculum guidelines as related to infants, toddlers, and preschool age children with disabilities. Formerly ESPE 515.

ESPE 620A. Supervised Student Teaching in Special Education I: Mild/Moderate Disabilities. 8 Units.
Prerequisites: classified admission to the Special Education credential program. Formerly ESPE 609A
Prerequisite/Corequisite: ESPE 642 (for Preliminary credential candidates); ESPE 530, ESPE 531, ESPE 611 and ESPE 612, EELB 315 or EELB 423 (for Level I credential candidates)
Supervised full time student teaching in a special education setting at a public school designated by topic area. Experiences in general education, grade/age levels, federal disability categories, and the continuum of services outlined by the credential authorization will be documented. Apply for admission to Supervision one quarter in advance of enrollment. Graded credit/no credit.

ESPE 620B. Supervised Student Teaching in Special Education I: Moderate/Severe Disabilities. 8 Units.
Prerequisites: classified admission to the Special Education credential program. Formerly ESPE 609C
Prerequisite/Corequisite: ESPE 662 (for Preliminary credential candidates); ESPE 530, ESPE 531, ESPE 611 and ESPE 612, EELB 315 or EELB 423 (for Level I credential candidates)
Supervised full time student teaching in a special education setting at a public school designated by topic area. Experiences in general education, grade/age levels, federal disability categories, and the continuum of services outlined by the credential authorization will be documented. Apply for admission to Supervision one quarter in advance of enrollment. Graded credit/no credit.

ESPE 620C. Supervised Student Teaching in Special Education I: Early Childhood Special Education. 8 Units.
Prerequisites: classified admission to the Special Education credential program. Formerly ESPE 609D
Prerequisite/Corequisite: ESPE 672
Supervised full time student teaching in a special education setting at a public school designated by topic area. Experiences in general education, grade/age levels, federal disability categories, and the continuum of services outlined by the credential authorization will be documented. Apply for admission to Supervision one quarter in advance of enrollment. Graded credit/no credit.

ESPE 621A. Supervised Student Teaching in Special Education II: Mild/Moderate. 8 Units.
Prerequisites: grade of credit in ESPE 620A; completion of required credential coursework in the same quarter
Prerequisite/Corequisite: ESPE 643 (for Preliminary credential candidates); ESPE 613 (for Level I credential candidates)
Supervised full time student teaching in a special education setting at a public school designated by topic area. Grade/age level experience must be different from the first supervised student teaching experience. Experiences in general education, federal disability categories, and the continuum of services outlined by the credential authorization will be documented. Transition plan for induction will be developed. Admission to Supervision as a student teacher required; apply for Supervision one quarter in advance of enrollment. Graded credit/no credit. Formerly ESPE 679A.

ESPE 621B. Supervised Student Teaching in Special Education II: Moderate/Severe Disabilities. 8 Units.
Prerequisites: grade of credit in ESPE 620B; completion of required credential coursework in the same quarter
Prerequisite/Corequisite: ESPE 663 (for Preliminary credential candidates); ESPE 662 (for Level I credential candidates)
Supervised full time student teaching in a special education setting at a public school designated by topic area. Grade/age level experience must be different from the first supervised student teaching experience. Experiences in general education, federal disability categories, and the continuum of services outlined by the credential authorization will be documented. Transition plan for induction will be developed. Admission to Supervision as a student teacher required; apply for Supervision one quarter in advance of enrollment. Graded credit/no credit. Formerly ESPE 679C.
ESPE 621C. Supervised Student Teaching in Special Education II: Early Childhood Special Education. 8 Units.
Prerequisites: grade of credit in ESPE 620C; completion of required credential coursework in the same quarter
Prerequisite/Corequisite: ESPE 673
Supervised full time student teaching in a special education setting at a public school designated by topic area. Grade/age level experience must be different from the first supervised student teaching experience. Experiences in general education, federal disability categories, and the continuum of services outlined by the credential authorization will be documented. Transition plan for induction will be developed. Admission to Supervision as a student teacher required; apply for Supervision one quarter in advance of enrollment. Graded credit/no credit. Formerly ESPE 679F.

ESPE 622A. Supervised Intern Teaching in Special Education: Mild/Moderate Disabilities. 8 Units.
Prerequisites: Education Specialist Intern Credential in Mild/Moderate Disabilities; consent of Intern Coordinator
Full time teaching on an Education Specialist Internship credential in a special education public school setting designated by credential authorization. Admission to the designated Education Specialist Internship Program required. Must be repeated with a grade of Credit during each quarter of the Internship program until completion of credential objective for a minimum of 24 units. Graded credit/no credit. Formerly ESPE 680A.

ESPE 622B. Supervised Intern Teaching in Special Education: Moderate/Severe Disabilities. 8 Units.
Prerequisites: Education Specialist Intern Credential in Moderate/Severe Disabilities; consent of Intern Coordinator
Full time teaching on an Education Specialist Internship credential in a special education public school setting designated by credential authorization. Admission to the designated Education Specialist Internship Program required. Must be repeated with a grade of Credit during each quarter of the Internship program until completion of credential objective for a minimum of 24 units. Graded credit/no credit. Formerly ESPE 680B.

ESPE 622C. Supervised Intern Teaching in Special Education: Early Childhood Special Education. 8 Units.
Prerequisites: Education Specialist Intern Credential in Early Childhood Special Education; consent of Intern Coordinator
Full time teaching on an Education Specialist Internship credential in a special education public school setting designated by credential authorization. Admission to the designated Education Specialist Internship Program required. Must be repeated with a grade of Credit during each quarter of the Internship program until completion of credential objective for a minimum of 24 units. Graded credit/no credit. Formerly ESPE 680C.

ESPE 623A. Education Specialist Added Authorization Practicum: Autism Spectrum Disorders I. 4 Units.
Prerequisites: admission to the designated Education Specialist Added Authorization program
Corequisites: ESPE 610
Observation and participation in selected programs for exceptional individuals required in addition to weekly seminars. Implementation of strategies and methods learned in corequisite coursework. Must be repeated for credit each quarter required in the designated Added Authorization program.

ESPE 623B. Education Specialist Added Authorization Practicum: Autism Disorders II. 4 Units.
Prerequisites: admission to the designated Education Specialist Added Authorization program. Prerequisites: a grade of "B-" or better in ESPE 610 and ESPE 623A
Corequisites: ESPE 627
Observation and participation in selected programs for exceptional individuals required in addition to weekly seminars. Implementation of strategies and methods learned in corequisite coursework. Must be repeated for credit each quarter required in the designated Added Authorization program.

ESPE 623C. Education Specialist Added Authorization Practicum: Early Childhood Special Education I. 4 Units.
Prerequisites: admission to the designated Education Specialist Added Authorization program
Corequisites: ESPE 672
Observation and participation in selected programs for exceptional individuals required in addition to weekly seminars. Implementation of strategies and methods learned in corequisite coursework. Must be repeated for credit each quarter required in the designated Added Authorization program.

ESPE 623D. Education Specialist Added Authorization Practicum: Early Childhood Special Education II. 4 Units.
Prerequisites: admission to the designated Education Specialist Added Authorization program. Prerequisites: grade of "B-" or better in ESPE 672 and ESPE 623C
Corequisites: ESPE 673
Observation and participation in selected programs for exceptional individuals required in addition to weekly seminars. Implementation of strategies and methods learned in corequisite coursework. Must be repeated for credit each quarter required in the designated Added Authorization program.

ESPE 625. Collaboration and Consultation in Special Education. 4 Units.
Prerequisites: ESPE 530, ESPE 531, ESPE 611, and ESPE 612, and admission to the Special Education program
Competencies and skills for collaborative and consultative roles to develop partnerships with students, professionals, paraprofessionals, families, and community service personnel.
ESPE 627. Education of Students with Autism Spectrum Disorders. 4 Units.
Prerequisites: ESPE 530, ESPE 531, ESPE 610, ESPE 611, and ESPE 612, and admission to the Special Education program; or ESPE 610 and ESPE 623A, admission to the Autism Added Authorization program, and concurrent enrollment in ESPE 623B.
Evidence base for methods used in educational settings for students in early childhood through grade 12 with autism spectrum disorders. Planning, implementing, and evaluating methods to teach social, language, behavioral, and learning skills.

ESPE 630A. Topics in Research in Teaching and Learning: Gifted and Talented. 4 Units.
Prerequisites: consent of instructor
Survey of current research in teaching and learning.

ESPE 630B. Topics in Research in Teaching and Learning: Special Education. 4 Units.
Prerequisites: consent of instructor
Survey of current research in teaching and learning.

ESPE 633. Reflective Inquiry Seminar and Induction Plan. 4 Units.
Prerequisites: completion of Level I requirements and consent of program coordinator
Initial professional Level II course for the special education credential. Designed to culminate the content completed in Level I courses and to establish the induction plan; the concluding activity is the Individualized Induction Plan (IIP). The IIP is completed in collaboration with student, university, and local education agency. Twenty hours of fieldwork required.

ESPE 634. Reflective Inquiry: Seminar for Clear Induction Planning. 4 Units.
Prerequisites: Education Specialist Preliminary Credential
Designed to extend and contextualize the content completed in the preliminary credential program and to establish the Individual Induction Plan (IIP). The IIP is the culminating activity in this course and is completed in collaboration with student, university, and local education agency.

ESPE 635. Effective Communication with Professionals and Families. 4 Units.
Prerequisites: Level I Preliminary Education Specialist Instruction Credential and ESPE 633
Develop effective communication skills to foster an atmosphere of collaboration among professionals and families, to support quality programs for students with disabilities. Models for collaboration and consultation will be explored.

ESPE 636. Assessment, Curriculum, Instruction: Culturally/Linguistically Diverse Students with Disabilities. 4 Units.
Prerequisites: Successful completion of ESPE 634 and ESPE 696A
Course provides instruction in the concepts of second-language acquisition, diversity, cultural transmission, and the acculturation process. Students will learn how to appropriately assess students and plan instructional programs for culturally and linguistically diverse students with special needs. Legal issues, IEPs and teaching responsibilities for English language learners (ELLs) with disabilities will be addressed. In addition, information regarding effective collaboration with paraprofessionals and parents of ELLs will be included.

ESPE 642. Methods in Mild/Moderate Disabilities I. 4 Units.
Prerequisites: ESPE 610, ESPE 611, ESPE 612, ESPE 613, and ESPE 614
Methods and differentiated instruction for students with mild to moderate disabilities including learning disabilities, language development, and data based decision-making.

ESPE 643. Methods in Mild/Moderate Disabilities II. 4 Units.
Prerequisites: ESPE 642
Strategies, methods, and materials as well as curriculum modification in subject matter content areas for students with mild to moderate disabilities.

ESPE 649. Curriculum and Methods in Special Education: Secondary Transition and Career/Vocational Preparation. 4 Units.
Prerequisites: Level I Preliminary Education Specialist Credential and ESPE 633
Methods, materials and strategies for facilitating career, vocational and adult skills development in learners with disabilities. Interfacing with agencies and other support providers in the transition from secondary programs to adult life.

ESPE 652. Applied Curricular Strategies for Students with Moderate/Severe Disabilities. 4 Units.
Prerequisites: Preliminary Level I Education Specialist Credential: Moderate/Severe and ESPE 633
Principles of systematic instruction to community-based instruction, functional academics, language training, and social skills training. Application of computer and other technology to learners with severe handicaps. A 20-hour practicum will be required.

ESPE 653. Seminar on Moderate/Severe Disabilities. 4 Units.
Prerequisites: ESPE 530, ESPE 531, ESPE 611, ESPE 612, ESPE 651, and ESPE 652
Advanced seminar designed to study current issues and empirical research findings relating to the education of students with moderate and severe disabilities.
ESPE 656. Curriculum and Methods in Special Education: Core Subjects. 4 Units.
Prerequisites: Preliminary Level I Education Specialist Credential: Mild/Moderate
Methods, materials and strategies for designated subject areas with particular emphasis on adapting and modifying curriculum from general education frameworks for students with mild/moderate special needs. Formerly ESPE 684C.

ESPE 657. Seminar on Mild/Moderate Disabilities. 4 Units.
Prerequisites: ESPE 530, ESPE 531, ESPE 611, ESPE 612, ESPE 613 and ESPE 656
Synthesis and application of information on assessment, instruction, development and delivery of quality instruction, providing instruction and appropriate support for use in regular education settings.

ESPE 658. Seminar on Moderate/Severe Disabilities. 4 Units.
Prerequisites: ESPE 529, 530, 624, 637, 651, and 652
Advanced seminar designed to study current issues and empirical research findings relating to the education of students with moderate and severe disabilities.

ESPE 662. Methods for Students with Moderate/Severe Disabilities I. 4 Units.
Prerequisites: ESPE 610 and ESPE 611
Characteristics of students with moderate to severe disabilities and their implications for education; assessments for positive behavior support, instructional planning and progress monitoring; evidence-based instructional strategies for communication, social skills, and the core curriculum. Formerly ESPE 651.

ESPE 663. Methods for Students with Moderate/Severe Disabilities II. 4 Units.
Prerequisites: ESPE 662
Movement, sensory, and specialized healthcare needs; augmented and alternative communication methods; transition planning and implementation strategies; case management for students with moderate to severe disabilities.

ESPE 662. Methods in Early Childhood Special Education I. 4 Units.
Prerequisites: ESPE 610, ESPE 611, and ESPE 612 and admission to the Special Education program; or admission to the Early Childhood Special Education Added authorization program and concurrent enrollment in ESPE 623C
Contemporary theoretical, philosophical, legal, and empirical influences in Early Intervention and Early Childhood Special Education. Screening and assessment of development and behavior for program development and instructional planning. Consideration of the rights and roles of the family, the needs of children with low incidence disabilities, and English learners in assessment and planning. Formerly ESPE 650.

ESPE 672. Methods in Early Childhood Special Education II. 4 Units.
Prerequisites: ESPE 610, ESPE 611, and ESPE 612 and admission to the Special Education program; or admission to the Early Childhood Special Education Added Authorization program and concurrent enrollment in ESPE 623D
Intervention and instructional strategies that are responsive to the individual needs of students between the ages of birth and six years with disabilities (including children at risk and with low incidence disabilities). Special consideration of family concerns and priorities, models of service delivery, collaboration, and supportive learning environments. Formerly ESPE 665.

ESPE 665. Advanced Behavior Management. 4 Units.
Prerequisites: ESPE 530, ESPE 611, ESPE 620, ESPE 635, ESPE 640, ESPE 679A, ESPE 679C, or consent of instructor
Advanced techniques for teaching students with serious problem behaviors including crisis management and other interventions derived from psychodynamic, psychoeducational, behavioral, cognitive and social learning theory. Field study experience required.

ESPE 661A. Issues and Trends in Special Education: Current Issues. 4 Units.
Prerequisites: ESPE 530, 531, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 661B. Issues and Trends in Special Education: Collaboration and Consultation. 4 Units.
Prerequisites: ESPE 530, 531, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 661C. Issues and Trends in Special Education: Early Childhood. 4 Units.
Prerequisites: ESPE 530, 531, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 661D. Issues and Trends in Special Education: Instructional Technologies. 4 Units.
Prerequisites: ESPE 530, 531, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 661E. Issues and Trends in Special Education: Administration. 4 Units.
Prerequisites: ESPE 530, 531, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 661F. Issues and Trends in Special Education: Historical. 4 Units.
Prerequisites: ESPE 529, 530, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.
ESPE 691G. Issues and Trends in Special Education: Special Populations. 4 Units.
Prerequisites: ESPE 529, 530, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 691H. Issues and Trends in Special Education: Transition. 4 Units.
Prerequisites: ESPE 529, 530, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 691J. Issues and Trends in Special Education: Post Secondary. 4 Units.
Prerequisites: ESPE 529, 530, 611, and 612
Specialized in-depth study of selected topics in special education. Field study experience included.

ESPE 694. Special Education Leadership Evaluation and Outcomes II. 4 Units.
Prerequisites: California Preliminary Specialist Credential in the same credential area, completion of Level II coursework, or completion of program requirements for the Mild to Moderate Intern Program, and consent of the Program Director. Eligibility: students who developed an induction plan and have implemented that plan for a minimum of 18 months are eligible. The Individual Induction Plan, Professional Development Portfolio, and non-University activities will be evaluated. May be repeated for credit by students in the Mild to Moderate Disabilities Intern Program and by candidates seeking an additional authorization. Candidates who participated in an approved Induction Program and/or seeking a first Specialist Credential should take ESPE 694 Preparation of the Professional Development Portfolio demonstrating that the candidate has met the California Commission on Teacher Credentialing (CTC) Standards for a Clear Professional Specialist Credential.

ESPE 695. Special Education Clear Induction Outcomes. 4 Units.
Prerequisites: Preliminary Education Specialist Credential, successful completion of ESPE 615, ESPE 634, ESPE 696A, and ESPE 696B Assessment of Participating Teachers’ Education Specialist Clear Induction Program Professional Development Portfolio. Candidates will refine and update the approved Individual Induction Plan (IIP); apply conceptual knowledge into practice; build upon the foundation of the Preliminary Credential program; submit a professional portfolio, including evidence of the implementation of the IIP as well as meeting all Education Specialist Clear Induction Standards.

ESPE 696A. Induction Support I. 2 Units.
Course provides support to participating teachers (PTs) in the Education Specialist Clear Induction Program. PTs will learn how to gather information about their students, school, district, and community and determine its impact on teaching and learning. PTs will also assess their teaching practice as it relates to the California Standards for the Teaching Profession (CSTPs) and Induction Standards. Graded credit/no credit.

ESPE 696B. Induction Support II. 1 Unit.
Prerequisites: Grade of credit in ESPE 696A
Course provides support to participating teachers (PTs) in the Education Specialist Clear Induction Program. PTs will learn how to create an inquiry to assess their teaching practice and student academic achievement. PTs will also analyze and reflect on evidence from their inquiry and its impact on teaching practice and student academic achievement. Graded credit/no credit.

ESPE 696C. Induction Support III. 1 Unit.
Prerequisites: Grade of credit in ESPE 696A and ESPE 696B
Course provides support to participating teachers (PTs) in the Education Specialist Clear Induction Program. PTs extend their experience to create an inquiry to assess their teaching practice and student academic achievement. PTs will also analyze and reflect on evidence from their inquiry and its impact on teaching practice and student academic achievement. Graded credit/no credit.

ESPE 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing.
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Supply Chain Management (SCM)

Courses

SCM 304. Principles of Supply Chain Management. 4 Units.
Prerequisites: ADMN 210
Introduction to supply chain management concepts and techniques. Methods that aid the manager in making rational decisions in manufacturing and service industries are discussed. Emphasis is on the application of models to managerial decision making. Formerly MSCI 304 and OM 304.

SCM 305. Enterprise Resource Planning. 4 Units.
Prerequisites: SCM 304 or consent of instructor
Foundation for enterprise resource planning and implementation, including supply chain and transportation management modeling and operations planning. Configuration and application of an enterprise system. Formerly SCM 205. (Also offered as IST 305. Students may not receive credit for both.)

SCM 350. Decision Making in Supply Chain and Transportation Management. 4 Units.
Prerequisites: SCM 304
Decision making process used by supply chain and transportation managers. Different perspectives of individual and organizational decision making, and analysis and interpretation of data to make effective decisions.
SCM 440. Transportation Systems Management. 4 Units.
Prerequisites: SCM 304
Analysis of alternative transportation modes, carriers, services, rates and policies as related to overall operation of an organization's shipping and/or traffic departments. Formerly MKTG 452.

SCM 445. International Logistics. 4 Units.
Prerequisites: SCM 304
Logistics management involving goods and services in different countries. International business environment, international transportation, intermediaries, import/export regulations, payment and risks, and cultural differences of the global supply chain.

SCM 466. Operations Planning and Control. 4 Units.
Prerequisites: SCM 304
Analytical approach to traditional and modern concepts in operations analysis and planning. Includes application of techniques to accomplish the organization's mission by using productive resources. Formerly OM 466.

SCM 470. Supply Chain Management. 4 Units.
Prerequisites: SCM 304
Comprehensive study of all activities and processes to supply products or services to final customers. Topics include purchasing, logistics and supply chain optimization, inventory control, warehouse and distribution management. Formerly OM 470.

SCM 475. Business Analytics Practicum/Practices. 4 Units.
Prerequisites: SCM 305, SCM 350, IST 282, and IST 274
Comprehensive practice of the Business Analytics process, including data extraction, analytical modeling, detailed analysis, and reporting utilizing business cases.

SCM 480. Quality Management. 4 Units.
Prerequisites: SCM 304
Description and analysis of quality assurance programs and techniques and their many applications in supply chain and transportation from a total quality management perspective. Topics include quality planning, statistical quality control, quality design and measurement, and management of six sigma quality and inspection. Formerly OM 480.

SCM 490. Logistics Strategy. 4 Units.
Prerequisites: the upper division writing requirement and completion of all other courses in concentration program or consent of instructor Development, implementation and integration of strategies in supply chain and transportation management. Capstone course for the fields of supply chain and transportation management. Includes case studies and use of current technology.

SCM 505. Advanced Enterprise Resource Planning. 4 Units.
Prerequisites: SCM 304 or SCM 607
Advanced study of enterprise systems planning in different stages of organizational operations. Students use enterprise planning technology to examine cases in different organizational settings. (Also offered as IST 505. Students may not receive credit for both.) Formerly SCM 405.

SCM 515. Project Management. 4 Units.
Developing and implementing a plan that completes a project on time, under budget, and meets project objectives. Topics include: project feasibility, risk analysis, resource allocation, control with earned value, managing project stakeholders, and project management tools. Formerly SCM 615.

SCM 575. Internship. 4 Units.
Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 575 courses may be applied toward graduation. Graded credit/no credit.

SCM 590. Seminar in Supply Chain Management. 4 Units.
Prerequisites: the upper-division writing requirement
An intensive study of some phase of supply chain management to be developed by the instructor. May be repeated for credit as topics change. Formerly MSCI 590.

SCM 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application file in advance of the quarter in which the course is to be taken Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

SCM 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the College of Business and Public Administration on a standard application file in advance of the quarter in which the course is to be taken Special topics involving library and/or field research. A total of 10 units in any College of Business and Public Administration 595 may be applied toward graduation. Marketing (1-5 units).

SCM 607. Managing the Supply Chain. 4 Units.
Integration and application of analytical techniques used in logistics and supply chain management. Concepts of decision models are examined for planning, control, forecasting, scheduling, and analysis within an enterprise. Formerly OM 607.

SCM 611. Global Supply Chain Management and Logistics. 4 Units.
Prerequisites: SCM 607
Development, implementation and integration of global supply chain management and operations management strategy with business and other functional strategies of an organization. Topics include: decisions involving positioning, structuring and managing for superior competitive performance.
SCM 614. Advanced Quality Management. 4 Units.
Prerequisites: SCM 607
Technical and managerial issues for implementing total quality management in operations, supply chain and logistics. Topics include the management of quality planning, organizing, motivation and control; employee involvement teams for total quality; the quality of product design; management of quality and reliability; management of inspection and measurement. Formerly OM 614.

SCM 649. Business Analytics. 4 Units.
Introduction to business analytics including querying large datasets, predictive analytics, data visualization using dashboards, decision making under uncertainty/risk, and application of optimization decision analysis tools. Focus is on data manipulation, use of univariate and multivariate statistical methods to analyze data, sensitive analysis, goal seeking, random variables, simulations, queueing, and the use of Excel Power Business Intelligence Tools for modeling and decision support. Formerly OM 650.

SCM 650. Information Decision Systems. 4 Units.
Prerequisites: INFO 609 and SCM 607
Concepts, principles, practices and tools needed to support the management decision making process. Both static and dynamic models of information management related to decision making will be explored. Specific topics include risk management, incident handling, threat assessment, allocating resources and system certification. (Also offered as INFO 650. Students may not receive credit for both.) Formerly OM 650.

SCM 660. Transportation and Supply Chain Management. 4 Units.
Prerequisites: SCM 607
Comprehensive study of managing transportation and the supply chain. Logistics of managing the pipeline of goods from initial contracts with suppliers and control of work-in-process to the movement of finished goods through the channels of distribution. Formerly OM 660.

SCM 675. Internship. 4 Units.
Prerequisites: consent of instructor and department’s internship coordinator
Supervised work and study in private or public organizations. May be repeated once for credit. A total of two College of Business and Public Administration 675 courses may be applied toward graduation. Graded credit/no credit.

SCM 690. Seminar in Supply Chain and Transportation Strategy. 4 Units.
Capstone course on supply chain strategic planning, key strategic decisions, industrial and consumer supply chain cases, field trips to local companies, and discussions with professionals.

SCM 695. Graduate Project. 4 Units.
Prerequisites: advancement to candidacy, written approval of student's graduate project committee and graduate director
Independent graduate research in supply chain management, transportation and logistics. Project will be under direction of a faculty member.

SCM 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.
SCM 698D. Continuous Enrollment for Graduate Candidacy Standing. 4 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 698E. Continuous Enrollment for Graduate Candidacy Standing. 5 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 698F. Continuous Enrollment for Graduate Candidacy Standing. 6 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Theatre Arts (TA)

Courses

TA 130. Computer Applications for Technical Theatre. 1 Unit.
Introduction to computer programs and techniques with applications for theatrical design and production. May be repeated for credit.

TA 131. Makeup for Stage and Screen. 3 Units.
Theory and application of makeup for theatre, television and film.

TA 160. World Drama. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement or equivalent (GE=C2)
Selected readings of dramatic literature (in translation) from the 5th century B.C. to the present. (Offered as ENG 160 and TA 160. Students may not receive credit for both.)

TA 212. Oral Interpretation of Literature. 4 Units.
(GE=C2)
Literary and aesthetic analysis of poetry, prose or drama through performance techniques of oral interpretation.

TA 221. Theatre Laboratory: Performance. 1 Unit.
Students direct, choreograph or perform in student-initiated productions, including student-written one-act plays, dance concerts and special performance-art pieces under the guidance of a faculty supervisor. A maximum of five units of TA 221 may be used to satisfy graduation requirements.

TA 223. Audition/Interview Preparation. 1 Unit.
Students select and prepare material for acting auditions and technical interviews, both for inter-college competition and professional theatre/film work. Two hours activity.

TA 225. Festival Production. 1 Unit.
Remounting and reconfiguring University production for touring to national and international festivals and venues. Two hours activity.
TA 231. Sound for Stage and Screen. 3 Units.
Basic design theories of stage and screen sound, production techniques, instrumentation and control equipment.

TA 232. Lighting for Stage and Screen. 3 Units.
Basic electrical theory of stage lighting, production techniques, instrumentation and control equipment.

TA 233. Costume Construction. 3 Units.
Costume techniques including basic pattern drafting, cutting, fitting and construction.

TA 235. Fundamentals of Stage Design. 4 Units.
Study of the elements of color, line and texture as they relate to visual analysis of dramatic literature, through two- and three-dimensional projects in set, costume and lighting design. Three hours lecture and two hours activity.

TA 239. Stagecraft. 3 Units.
Introduction to the theory and practice of scenery and prop construction including the use of tools, materials, techniques and drafting required in execution of designs.

TA 240. Improvisation. 3 Units.
A beginning course in improvisational techniques for the actor and for those who will use drama as an educational tool.

TA 245. Beginning Theatre Movement. 2 Units.
Beginning theory and fundamentals of specialized stage movement.

TA 251. Acting I: Games and Exercises. 3 Units.
Foundation training for actors through theatre games, improvisation and exercises for developing expressive freedom, creativity, relaxation and concentration.

TA 252. Acting II: Creating a Role. 3 Units.
Prerequisites: TA 251
Fundamentals for creating a role methodically. Improvisational exercises and textual performances exploring the use of such elements as objectives, given circumstances, character analysis and conflict.

TA 253. Voice for the Stage. 2 Units.
Theory and practice of vocal techniques for the actor, including voice production, diction, flexibility, projection, and voice care.

TA 260. Introduction to Theatre. 4 Units.
(GE=C1)
Introduction to the art of Theatre, including the nature of theatrical presentation and the contributions of the playwright, actor, director, designer, technician and audience to the process of theatrical making. Students will authentically experience this process as production crew or audience members.

TA 302A. Analysis of Drama. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Analysis. Literary analysis of selected plays with special emphasis on how to write about dramatic literature. Formerly TA 302. (Also offered as ENG 302A. Students may not receive credit for both.).

TA 302B. Analysis and Writing of Drama. 4 Units.
Prerequisites: satisfaction of the GE written communication (A1) requirement
Analysis and Writing. Literary analysis of selected plays with special emphasis on how to write about dramatic literature, as well as integrated practice in writing for performance. (Offered as ENG 302B and TA 302B. Students may not receive credit for both.).

TA 320A. Performance Practicum: Main Stage. 2 Units.
Main Stage students experience role preparation, rehearsal and acting before an audience; Imagination Players gain touring experience in rehearsal and performance of children's literature, readers theatre style; Touring Theatre students experience rehearsal and performance of adult dramatic material; special projects students experience production of student-developed projects; dance performance students experience choreography development, rehearsal and dancing before an audience. Open to all students. No more than eight units of Performance Practicum may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Each topic may be repeated for credit.

TA 320B. Performance Practicum: Imagination Players. 2 Units.
Main Stage students experience role preparation, rehearsal and acting before an audience; Imagination Players gain touring experience in rehearsal and performance of children's literature, readers theatre style; Touring Theatre students experience rehearsal and performance of adult dramatic material; special projects students experience production of student-developed projects; dance performance students experience choreography development, rehearsal and dancing before an audience. Open to all students. No more than eight units of Performance Practicum may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Each topic may be repeated for credit.

TA 320C. Performance Practicum: Touring Theatre. 2 Units.
Main Stage students experience role preparation, rehearsal and acting before an audience; Imagination Players gain touring experience in rehearsal and performance of children's literature, readers theatre style; Touring Theatre students experience rehearsal and performance of adult dramatic material; special projects students experience production of student-developed projects; dance performance students experience choreography development, rehearsal and dancing before an audience. Open to all students. No more than eight units of Performance Practicum may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Each topic may be repeated for credit.
TA 320E. Performance Practicum: Dance Performance. 2 Units.
Main Stage students experience role preparation, rehearsal and acting before an audience; Imagination Players gain touring experience in rehearsal and performance of children's literature, readers theatre style; Touring Theatre students experience rehearsal and performance of adult dramatic material; special projects students experience production of student-developed projects; dance performance students experience choreography development, rehearsal and dancing before an audience. Open to all students. No more than eight units of Performance Practicum may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Each topic may be repeated for credit.

TA 320F. Performance Practicum: Dance Performance. 2 Units.
Main Stage students experience role preparation, rehearsal and acting before an audience; Imagination Players gain touring experience in rehearsal and performance of children's literature, readers theatre style; Touring Theatre students experience rehearsal and performance of adult dramatic material; special projects students experience production of student-developed projects; dance performance students experience choreography development, rehearsal and dancing before an audience. Open to all students. No more than eight units of Performance Practicum may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Each topic may be repeated for credit.

TA 320G. Performance Practicum: Puppetry Performance. 2 Units.
Main Stage students experience role preparation, rehearsal and acting before an audience; Imagination Players gain touring experience in rehearsal and performance of children's literature, readers theatre style; Touring Theatre students experience rehearsal and performance of adult dramatic material; special projects students experience production of student-developed projects; dance performance students experience choreography development, rehearsal and dancing before an audience. Puppetry students gain touring experience in the performance of puppetry. Open to all students. No more than eight units of Performance Practicum may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Each topic may be repeated for credit.

TA 321A. Technical Practicum. 1 Unit.
Application of scenery, costumes, makeup, lighting, sound or stage management theories and techniques to live performance before an audience. Open to all students. No more than 10 units of TA 321 may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Formerly TA 320D. May be repeated for credit.

TA 321B. Technical Practicum. 2 Units.
Application of scenery, costumes, makeup, lighting, sound or stage management theories and techniques to live performance before an audience. Open to all students. No more than 10 units of TA 321 may be counted toward fulfilling course requirements in the theatre arts major. No more than four units of TA 320 and 321 may be counted toward fulfilling course requirements in the theatre arts minor. No more than 20 units of TA 320 and 321 may be used to satisfy graduation requirements. Formerly TA 320D. May be repeated for credit.

TA 331. Theatre Management. 4 Units.
Prerequisites: junior standing or consent of instructor
Survey of fine arts management principles as they apply to theatre.

TA 332. Stage Lighting Design. 3 Units.
Prerequisites: TA 232 and TA 235
Lighting design theories and emerging technologies. Light plots for various theatrical styles will be developed. May be repeated for credit.

TA 333. Stage Sound Design. 3 Units.
Prerequisites: TA 231 and 235 or consent of instructor
Advanced theories and applications of sound design for the theatre with an emphasis on the integration of prerecorded sound effects with vocal reinforcement in a live performance environment.

TA 334. Theatrecrafts. 3 Units.
Prerequisites: TA 235 or consent of instructor
Theory and application of a theatrecraft such as: stage management, shop crafts, scene painting, millinery, pattern drafting, rendering. Experience with the craft will be provided. May be repeated for credit as topics change.

TA 337. Design: Costume Design. 3 Units.
Prerequisites: TA 233 and 235 or consent of instructor
Advanced projects in the design of costumes with an emphasis on rendering techniques and stylization. May be repeated for credit.

TA 338. Design: Scene Design. 3 Units.
Prerequisites: TA 235 and 239 or consent of instructor
Advanced projects in scene design, using both renderings and models. Concentration on an exploration of design styles. May be repeated for credit.

TA 340. Singing for Musical Theatre. 2 Units.
Solo and choral singing from the American Musical Theatre canon.

TA 345. Advanced Voice and Movement. 2 Units.
Prerequisites: TA 245 and 253 or consent of instructor
Advanced theory and practice of voice and movement techniques for the actor.

TA 346. Directing I. 3 Units.
Prerequisites: TA 235 and TA 252 or consent of instructor
Fundamentals of play directing through theory and practice.

TA 347. Playwriting. 4 Units.
Prerequisites: one course from ENG 302A, ENG 302B, TA 302A, TA 302B; or consent of instructor
Fundamentals of play development, including plot, character, structure, and theme. Classroom exercises will culminate in students creating their own dramatic scenes and short plays. (Also offered as ENG 347. Students may not receive credit for both.)
TA 351. Acting III: Scene Study. 3 Units.
Prerequisites: TA 252
Application of acting techniques through scene study of plays in the contemporary repertory. At the close of this course students will be placed in advanced acting courses by departmental examination.

TA 352. Acting IV: Modern Repertory. 3 Units.
Prerequisites: TA 351
Continued scene study with an emphasis on plays in the modern classical repertory (for example, Ibsen, Chekhov, Shaw). May be repeated once for credit.

TA 353. Acting V: Styles of Acting. 3 Units.
Prerequisites: TA 351
Studies and performance of selected styles in theatre from classical times to the nineteenth century. May be repeated once for credit.

TA 354. Acting VI: Acting Shakespeare. 3 Units.
Prerequisites: TA 351
Concentrated study on performing Shakespeare, with emphasis on voice, movement, and textual meaning. May be repeated once for credit.

TA 355. Acting VII: Acting Musicals. 3 Units.
Prerequisites: TA 351
Concentrated study on performing musical theatre, with an emphasis on voice, dance and character development. May be repeated once for credit.

TA 356. Puppetry. 3 Units.
Survey of the field of puppetry, including an overview of puppet forms and practitioners from an international perspective. Includes an introduction to puppet design, construction, and manipulation. Six hours activity.

TA 357. Acting for the Camera. 3 Units.
Prerequisites: TA 351 or TA 385
Study and application of acting techniques unique to film and video. May be repeated for credit.

TA 358. Puppetry for the Camera. 3 Units.
Prerequisites: TA 356 or 486
Study and application of puppeteering techniques unique to film and video. Six hours activity.

TA 361. Theatre History I: Origins Through Medieval. 4 Units.
Prerequisites: junior standing or consent of instructor
Consideration of theatre architecture and theatre practices for the purpose of understanding the major trends in the development of theatre arts. Representative examples of dramatic literature will be read to illustrate those trends.

TA 362. Theatre History II: Renaissance Through Eighteenth Century. 4 Units.
Prerequisites: junior standing or consent of instructor
Consideration of theatre architecture and theatre practices for the purpose of understanding the major trends in the development of theatre arts. Representative examples of dramatic literature will be read to illustrate those trends.

TA 363. Theatre History III: Nineteenth Century to the Present. 4 Units.
Prerequisites: junior standing or consent of instructor
Consideration of theatre architecture and theatre practices for the purpose of understanding the major trends in the development of theatre arts. Representative examples of dramatic literature will be read to illustrate those trends.

TA 385. Acting for Non-Majors. 4 Units.
Introduction to acting through exercises, improvisations and scene study. Not open to theatre arts majors.

TA 401. History of Musical Theatre. 4 Units.
History of musical theatre literature and production. Also offered as MUS 401; students may not receive credit for both.

TA 423. Studies in Dramatic Literature. 2 Units.
Intensive study of a selected topic in dramatic literature within historical and/or cultural contexts. May be repeated as topics change.

TA 445. The Camera Eye. 4 Units.
Film as a creative art medium. Such topics as art direction and production design for film, sex and violence in film, and film and television lighting will be offered. May be repeated for credit as topics change.

TA 446. Directing II. 3 Units.
Prerequisites: TA 346
Advanced studies in play directing.

TA 450. Classical Drama. 4 Units.
Development of comedy and tragedy in Greece and Rome.

TA 451. Mystery to Melodrama. 4 Units.
Development of drama from medieval passion plays to late nineteenth century villain-hissing melodramas. Emphasis on either comedy or tragedy.

TA 455. Modern Drama I. 4 Units.
European, British and American realism.

TA 456. Modern Drama II. 4 Units.
European, British and American anti-realism.

TA 457. Theatre of the Avant-Garde. 4 Units.
Exploration and analysis of performance traditions from Dada to performance art.

TA 458. Theatre for Youth: History and Literature. 4 Units.
Exploration and analysis of the history and literature of performance for young audiences, from its origins to current trends.

TA 459. Performance for New Media. 3 Units.
Prerequisites: TA 357. May be repeated for credit
Advanced study and application of acting techniques for emerging media forms.

TA 461. American Drama. 4 Units.
Survey of the American theatre and its drama (Dunlap to Odets) as they reflect the changing patterns of American society.
TA 462. African-American Theatre and Drama. 4 Units.
(GE=G2)
A survey of the African-American theatre from its African origins in the oral tradition through contemporary trends, including issues of politics, race and gender in terms of the American theatre in general. Emphasis on African-American playwrights, companies and performers within their social and historical contexts.

TA 463. Asian Theatre. 4 Units.
(GE=G2)
Survey of significant Asian theatre forms from Indian dance-drama to Indonesian wayang kulit. Emphasis on how performance reflects and shapes both culture and identity.

TA 464. Theatre in the Post-Colonial World. 4 Units.
Dramatic literature and theatre of countries and cultures seeking to redefine their identity in a post-colonial world. Includes study of plays from India, Africa, Canada, South America, Asia and the Pacific Rim.

TA 465. Ethnic Films and Film Makers. 4 Units.
Analysis, overview and exploration of performers, directors, screenwriters, and designers of films of a particular ethnic group. Emphasis on the artistic contributions of a particular ethnic group to the cinematic art form. May be repeated for credit as topics change.

TA 466. Issues in Gay, Lesbian, Bisexual, and Transgender Theatre. 4 Units.
An examination of the culturally diverse body of theatre work dealing with Gay/Lesbian/Bisexual/Transgender issues.

TA 468. Chicana/o and U.S. Latina/o Theatre. 4 Units.

TA 475. Shakespeare I. 4 Units.
Prerequisites: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B; or consent of instructor
Comedies and history plays. (Also offered as ENG 475. Students may not receive credit for both.).

TA 476. Shakespeare II. 4 Units.
Prerequisites: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B; or consent of instructor
Tragedies and romances. (Also offered as ENG 476. Students may not receive credit for both.).

TA 479. Theatre in the Elementary Classroom. 3-4 Units.
Comprehensive overview of methods of Theatre creation, performance, and production with young children in a public school setting. Includes standards-based approaches to teaching Theatre, cross-curricular applications, and assessment strategies. Formerly TA 579.

TA 481. Creative Drama in the Classroom. 3 Units.
Introduction to theory and practice of creative drama. Concentration, imagination and self-expression are emphasized in lesson planning as creative drama is used as a teaching tool across the curriculum. Designed in accordance with California and National standards for the arts. Two hours lecture and two hours of fine arts activity.

TA 483. Childrens Theatre. 4 Units.
Theory and techniques of selecting, directing and creating plays for young audiences. Course includes script analysis and directing from text as well as developing plays based on childrens literature. The course presents approaches to childrens theatre in community and educational settings.

TA 484. Readers Theatre in the Classroom. 3 Units.
Theory and techniques of selecting, directing and creating plays for young audiences. Course includes script analysis and directing from text as well as developing plays based on childrens literature. The course presents approaches to childrens theatre in community and educational settings.

TA 501. Media Performance Practicum. 4 Units.
Practical application of writing, performance, and production skills. The practicum course is designed for students interested in writing scripts, performing, and producing for radio shows, online and other social media outlets. The course can be taken twice for credit as ENG 501 or TA 501 (cross-listed as ENG 501). Graded Credit/No Credit.

TA 505. Criticism of Theatre in Performance. 4 Units.
Prerequisites: TA 302, ENG 306 or consent of instructor
Critical analysis of public theatrical performance with an emphasis on the journalistic review. Textual analysis, artistic perception and aesthetic evaluation of acting, directing and design. Both individual and class attendance at several theatrical performances outside of regular meeting times will be required.

TA 510. Studies of Major Figures and Genres. 4 Units.
Advanced study of a selected theatre topic. May be repeated for credit as topics change.

TA 520. Theatre Seminar. 4 Units.
Literature and theory relative to topics such as: aesthetics, theatre history, drama, dramatic criticism and design. May be repeated for credit as topics change.

TA 526. Puppetry Workshop. 3 Units.
Prerequisites: TA 356 or 486
Advanced study of a selected puppetry topic, including but not limited to: puppet design, puppet construction, puppetry performance, directing puppetry, and international puppet traditions. May be repeated for credit. Six hours activity.
TA 535A. Independent Project. 1 Unit.
Prerequisites: consent of instructor
Advanced individual project in any aspect of departmental productions. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 535B. Independent Project. 2 Units.
Prerequisites: consent of instructor
Advanced individual project in any aspect of departmental productions. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 535C. Independent Project. 3 Units.
Prerequisites: consent of instructor
Advanced individual project in any aspect of departmental productions. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 535D. Independent Project. 4 Units.
Prerequisites: consent of instructor
Advanced individual project in any aspect of departmental productions. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 555A. Independent Study. 1 Unit.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 555B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 555C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 555D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 555E. Independent Study. 5 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 555F. Independent Study. 6 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. A total of six units may apply toward the major, a total of 12 units may apply toward graduation.

TA 575A. Internship in Theatre Arts. 1 Unit.
Prerequisites: consent of internship coordinator
Supervised study in private or public organizations. A total of 12 units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit.

TA 575B. Internship in Theatre Arts. 2 Units.
Prerequisites: consent of internship coordinator
Supervised study in private or public organizations. A total of 12 units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit.

TA 575C. Internship in Theatre Arts. 3 Units.
Prerequisites: consent of internship coordinator
Supervised study in private or public organizations. A total of 12 units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit.

TA 575D. Internship in Theatre Arts. 4 Units.
Prerequisites: consent of internship coordinator
Supervised study in private or public organizations. A total of 12 units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit.

TA 575E. Internship in Theatre Arts. 5 Units.
Prerequisites: consent of internship coordinator
Supervised study in private or public organizations. A total of 12 units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit.

TA 575F. Internship in Theatre Arts. 6 Units.
Prerequisites: consent of internship coordinator
Supervised study in private or public organizations. A total of 12 units may be applied toward graduation. Generally assumes thirty hours of work/study per unit of credit.

TA 580. Advanced Creative Drama in the Classroom. 4 Units.
Prerequisites: TA 481
Advanced methods of teaching across the curriculum using process-oriented creative drama techniques. Course concentrates on fostering imagination and self-expression through pantomime, improvisation and play making. Course includes developing creative drama/educational units and lesson plans as well as practical experience in an educational setting. Requires a six hour field component including observation and participation in teaching at an approved setting.
TA 581. Theatre in the Secondary Classroom. 4 Units.
Prerequisites: TA 302 or ENG 302, and TA 481 or 484
Integrating aesthetic perception with creative expression in the secondary classroom through the application of theatrical performance and production techniques. This course includes 15 service learning hours in which students actually direct and create theatre within a secondary school classroom under the supervision of course instructor and classroom teacher.

TA 585. Senior Assessment. 1 Unit.
Prerequisites: senior status; must be taken in winter quarter immediately prior to graduation
Student preparation of portfolio and self-critiques of artistic/research projects which document academic progress. Formal presentation of this collected material to be evaluated by peers and faculty. Two hours activity. Graded credit/ no credit.

TA 600. Research Methods in Theatre. 4 Units.
A survey of methods commonly used in theatrical criticism and their application to research questions including the systematic collection of bibliographic, dramaturgical and aesthetic information to formulate theses, organize and write research papers, or to develop conceptual approaches to production.

TA 602. Seminar in Dramatic Literature for Stage and Film. 4 Units.
Prerequisites: ENG 600 or consent of instructor
Advanced study in particular kinds of dramatic literature and film with special focus on generic problems and issues. May be repeated for credit as topics change. (Also offered as ENG 602. Students may not receive credit for both.)

TA 620A. Applied Theatre Practicum. 1 Unit.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620B. Applied Theatre Practicum. 2 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620C. Applied Theatre Practicum. 3 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620D. Applied Theatre Practicum. 4 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620E. Applied Theatre Practicum. 5 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620F. Applied Theatre Practicum. 6 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620G. Applied Theatre Practicum. 7 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 620H. Applied Theatre Practicum. 8 Units.
Advanced study and application of techniques and technologies used in the creation of theatre.

TA 633. Seminar in Theory and Criticism. 4 Units.
Major theories which have influenced and motivated theatre practice in western and non-western civilization throughout its development, with an emphasis on the relationship between theory and theatrical performance.

TA 646. Graduate Directing. 4 Units.
Advanced studies in play directing, with a special emphasis on directing the high school performer.

TA 650. Seminar in Dramatic Production. 4 Units.
Advanced studies in theatrical production theories and methods, with special focus on generic issues or problems encountered when transferring dramatic literature to the stage. May be repeated for credit as topics change.

TA 681. Graduate Creative Drama. 4 Units.
Studies in the theory and practice of creative drama with emphasis on drama structures, lesson and unit planning, and creative drama facilitation. Designed in accordance with California and National standards for the arts.

TA 683. Advanced Studies in Theatre for Youth. 4 Units.
Prerequisites: consent of instructor
Advanced study of a selected theatre topic, including but not limited to: readers theatre, theatre outreach, Theatre-in-Education (T.I.E.), theatre for social change, playwriting for and with youth, and puppetry. May be repeated for credit as topics change.

TA 684. Graduate Readers Theatre. 4 Units.
Studies in the theory and techniques of adapting, directing and performing non-dramatic children's literature for oral presentation and limited staging. Includes preparation and performance of scripts to be used for reading enhancement and interdisciplinary studies. Additional focus on teaching elementary, middle, and high school students how to develop Readers Theatre scripts and performances. Designed in accordance with California and National standards for the arts.

TA 686. Graduate Puppetry. 4 Units.
Overview of puppetry as an interdisciplinary teaching tool in a variety of educational settings. Emphasis on lesson planning and performance techniques for teachers and arts educators.

TA 694A. Graduate Project Preparation. 1 Unit.
Prerequisites: advancement to candidacy, approval of graduate coordinator, and good academic standing
Design and implementation of an advanced individual project on a specific topic relevant to student's program of study. Done under direct supervision. May be repeated for credit.
TA 694B. Graduate Project Preparation. 2 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, and good academic standing
Design and implementation of an advanced individual project on a specific topic relevant to student's program of study. Done under direct supervision. May be repeated for credit.

TA 694C. Graduate Project Preparation. 3 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, and good academic standing
Design and implementation of an advanced individual project on a specific topic relevant to student's program of study. Done under direct supervision. May be repeated for credit.

TA 694D. Graduate Project Preparation. 4 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, and good academic standing
Design and implementation of an advanced individual project on a specific topic relevant to student's program of study. Done under direct supervision. May be repeated for credit.

TA 694E. Graduate Project Preparation. 5 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, and good academic standing
Design and implementation of an advanced individual project on a specific topic relevant to student's program of study. Done under direct supervision. May be repeated for credit.

TA 695A. Advanced Project. 1 Unit.
Prerequisites: advancement to candidacy
Advanced individual project on a specific topic relevant to the student's program of study. Done under direct supervision.

TA 695B. Advanced Project. 2 Units.
Prerequisites: advancement to candidacy
Advanced individual project on a specific topic relevant to the student's program of study. Done under direct supervision.

TA 695C. Advanced Project. 3 Units.
Prerequisites: advancement to candidacy
Advanced individual project on a specific topic relevant to the student's program of study. Done under direct supervision.

TA 695D. Advanced Project. 4 Units.
Prerequisites: advancement to candidacy
Advanced individual project on a specific topic relevant to the student's program of study. Done under direct supervision.

TA 695E. Advanced Project. 5 Units.
Prerequisites: advancement to candidacy
Advanced individual project on a specific topic relevant to the student's program of study. Done under direct supervision.

TA 696A. Advanced Internship. 1 Unit.
Prerequisites: advancement to candidacy
Supervised internship experience with a theatre organization, such as a youth theatre, youth outreach program, professional theatre, or other appropriate arts agency.

TA 696B. Advanced Internship. 2 Units.
Prerequisites: advancement to candidacy
Supervised internship experience with a theatre organization, such as a youth theatre, youth outreach program, professional theatre, or other appropriate arts agency.

TA 696C. Advanced Internship. 3 Units.
Prerequisites: advancement to candidacy
Supervised internship experience with a theatre organization, such as a youth theatre, youth outreach program, professional theatre, or other appropriate arts agency.

TA 696D. Advanced Internship. 4 Units.
Prerequisites: advancement to candidacy
Supervised internship experience with a theatre organization, such as a youth theatre, youth outreach program, professional theatre, or other appropriate arts agency.

TA 696E. Advanced Internship. 5 Units.
Prerequisites: advancement to candidacy
Supervised internship experience with a theatre organization, such as a youth theatre, youth outreach program, professional theatre, or other appropriate arts agency.

TA 697A. Thesis Preparation. 1 Unit.
Prerequisites: advancement to candidacy, approval of graduate coordinator, good academic standing
Preparation for independent graduate research in theatre arts including proposal development and research. May be repeated for credit.

TA 697B. Thesis Preparation. 2 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, good academic standing
Preparation for independent graduate research in theatre arts including proposal development and research. May be repeated for credit.

TA 697C. Thesis Preparation. 3 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, good academic standing
Preparation for independent graduate research in theatre arts including proposal development and research. May be repeated for credit.

TA 697D. Thesis Preparation. 4 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, good academic standing
Preparation for independent graduate research in theatre arts including proposal development and research. May be repeated for credit.

TA 697E. Thesis Preparation. 5 Units.
Prerequisites: advancement to candidacy, approval of graduate coordinator, good academic standing
Preparation for independent graduate research in theatre arts including proposal development and research. May be repeated for credit.
**TA 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

**TA 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.**
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. TA 698Z. Continuous Enrollment for Graduate Candidacy Standing. 0 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

TA 699. Thesis. 4 Units.
Independent graduate research in theatre arts culminating in a written thesis.

TA 999. Comprehensive Examination. 0 Units.
Prerequisites: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the areas, show critical and independent thinking and demonstrate mastery of the subject matter.

University Studies (USTD)

Courses

USTD 25A. Academic Study Skills: English 85. 2 Units.
Prerequisites: consent of Learning Center program coordinator
Designed for the student who needs to work on an independent basis in reading or writing with a developmental specialist or tutor. The course will emphasize comprehension, vocabulary and the writing process after diagnosis of students needs. Units awarded are not applicable to a baccalaureate degree. May be repeated for credit as topics change. Graded credit/no credit.

USTD 25B. Academic Study Skills: English 95. 2 Units.
Prerequisites: consent of Learning Center program coordinator
Designed for the student who needs to work on an independent basis in reading or writing with a developmental specialist or tutor. The course will emphasize comprehension, vocabulary and the writing process after diagnosis of students needs. Units awarded are not applicable to a baccalaureate degree. May be repeated for credit as topics change. Graded credit/no credit.

USTD 25C. Academic Study Skills: English 107. 2 Units.
Prerequisites: consent of Learning Center program coordinator
Designed for the student who needs to work on an independent basis in reading or writing with a developmental specialist or tutor. The course will emphasize comprehension, vocabulary and the writing process after diagnosis of students needs. Units awarded are not applicable to a baccalaureate degree. May be repeated for credit as topics change. Graded credit/no credit.

USTD 25D. Academic Study Skills: English 306. 2 Units.
Prerequisites: consent of Learning Center program coordinator
Designed for the student who needs to work on an independent basis in reading or writing with a developmental specialist or tutor. The course will emphasize comprehension, vocabulary and the writing process after diagnosis of students needs. Units awarded are not applicable to a baccalaureate degree. May be repeated for credit as topics change. Graded credit/no credit.

USTD 25E. Academic Study Skills: General. 2 Units.
Prerequisites: consent of Learning Center program coordinator
Designed for the student who needs to work on an independent basis in reading or writing with a developmental specialist or tutor. The course will emphasize comprehension, vocabulary and the writing process after diagnosis of students needs. Units awarded are not applicable to a baccalaureate degree. May be repeated for credit as topics change. Graded credit/no credit.

USTD 27A. Individualized Study Contract. 1 Unit.
Designed for the student who needs to work on an independent basis under the direction of a study specialist in order to improve skills such as handwriting or spelling. May be repeated. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.

USTD 27B. Individualized Study Contract. 2 Units.
Designed for the student who needs to work on an independent basis under the direction of a study specialist in order to improve skills such as handwriting or spelling. May be repeated. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.

USTD 27C. Individualized Study Contract. 3 Units.
Designed for the student who needs to work on an independent basis under the direction of a study specialist in order to improve skills such as handwriting or spelling. May be repeated. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.

USTD 36. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator
Independent study leading to completion of requirements (other than course work) for the master’s degree. To retain classified standing in the master’s program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

USTD 37. Introduction to College Study Skills. 2 Units.
Introduction to skills needed for success in college, focusing on study strategies such as: time management, listening, note taking and learning from text. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.

USTD 40. Topics in Advanced Notetaking and Organization. 2 Units.
Prerequisites: consent of S.A.I.L. (Student Assistance in Learning) Program
Instruction in adaptation of note taking skills across the curriculum with emphasis on editing, organizing and combining notes from text, class, lab, field and library. Organization of content to enhance concentration and memory and improve test taking ability. Units awarded are not applicable to a baccalaureate degree. My be repeated as topics change. Graded credit/no credit.

USTD 45. College Reading. 2 Units.
Prerequisites: consent of the SAIL (Student Assistance in Learning) Program, UH-386
Instruction in reading comprehension improvement, vocabulary development and some speed reading techniques. May be repeated. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.
USTD 77. Adjunct for Specific Subjects. 2 Units.
Prerequisites: consent of SAIL (Student Assistance in Learning) Program, UH-386
Taught as a support to specifically designated general education courses in mathematics, social and behavioral sciences and communication studies. The courses emphasize mastery of lecture and textbook content, study skills, and test preparation. May be repeated for credit as topics change. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.

USTD 99. Reading Enhancement. 2 Units.
Designed for academically prepared students for advanced instruction in the areas of reading comprehension, vocabulary development and speed reading techniques improvement. May include preparation for reading portions of standardized tests such as the CBEST and GRE. May be repeated. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit.

USTD 100A. First Year Seminar: Freshman Seminar. 2 Units.
Introduction to the university's history and its mission to enhance the intellectual, cultural and personal development of each student. Application of the First-Year Student Success principles which include: developing academic and intellectual competence; establishing and maintaining interpersonal relationships; developing personal identity; deciding on a major, career and lifestyle; maintaining personal health and wellness; developing an integrated multicultural philosophy of life. Students will develop necessary academic and practical skills through use of university support facilities; learning campus policies and procedures; strengthening study skills; understanding the community service learning concept; and developing responsible academic and personal attitudes for student success. Graded A, B, C/no credit. May be taken only by new freshman students during their first term of attendance. May not be repeated for credit.

USTD 100B. First Year Seminar: Transfer Student Seminar. 2 Units.
Introduction to the university's history and its mission to enhance the intellectual, cultural and personal development of each student. Application of the First-Year Student Success principles which include: developing academic and intellectual competence; establishing and maintaining interpersonal relationships; developing personal identity; deciding on a major, career and lifestyle; maintaining personal health and wellness; developing an integrated multicultural philosophy of life. Students will develop necessary academic and practical skills through use of university support facilities; learning campus policies and procedures; strengthening study skills; understanding the community service learning concept; and developing responsible academic and personal attitudes for student success. Graded A, B, C/no credit. May be taken only by transfer students during their first term of attendance. May not be repeated for credit.

USTD 200. Sophomore Year Success Seminar. 2 Units.
Learn to maximize use of university resources, prepare for post-baccalaureate work and facilitate graduation. Explores the subject matter of university success and overcoming the challenges of career and life decision adjustments. Graded A, B, C/no credit.
California State University, San Bernardino

Faculty

Outstanding Professor

Dr. Eugene Wong, Professor of Psychology
Psychology Professor Eugene Wong, who joined CSUSB in 1991, is the 2016-17 Outstanding Professor. He has received recognition in teaching in both graduate and undergraduate courses. He has taught 22 different courses at CSUSB, served as a committee member or chair on 50 master's thesis/doctoral dissertation committees, and has supervised many independent studies. He is only the fourth CSUSB faculty member to receive both of CSUSB's top faculty awards - the Outstanding Professor and the Golden Apple in 2005. (79)

For more information visit CSUSB News. (http://news.csusb.edu)

Golden Apple Award for Teaching Excellence

Dr. David Polcyn, Professor of Biology
Biology Professor David Polcyn is the 2016-17 Golden Apple Award winner for Teaching Excellence. Polcyn has taught at CSUSB for 28 years and has had an immense impact at all levels of education at the university from lower division to graduate level courses. It also includes his leadership in changing the culture of teaching at CSUSB as a founding participant in developing the interdepartmental Faculty Learning Community and as a leader in bringing evidence-based learning techniques and concepts to faculty. (80)

For more information visit CSUSB News. (http://news.csusb.edu)

Outstanding Lecturer

Susan Jindra, Lecturer in Education
Susan Jindra, a full-time instructor in CSUSB's Educational Leadership and Technology Department, is the university's 2016-17 Outstanding Lecturer. She joined CSUSB in 2008. Prior to that, she taught for 13 years in the Riverside Unified School District and served 21 years as an administrator in the Jurupa, Yucaipa-Calimesa, Moreno Valley, and Perris Union School districts. Along with teaching, Jindra is coordinator of the educational administration program and has attended conferences on subjects such as educational leadership and curriculum development. (79)

Current Faculty

Nancy Acevedo-Gil, 2014
Assistant Professor of Education
B.A. 2006, University of California, Berkeley
M.A. 2009, San Jose State University

Helena Addae, 2014
Associate Professor of Management
B.A. 1980, Ph.D. 2003, Concordia University
M.B.A. 1983, McGill University, Montreal

Richard Addante, 2016
Assistant Professor of Psychology
B.A. 2005, Florida Atlantic University
Ph.D. 2011, UC Davis

Susan L. Addington, 1988
Professor of Mathematics
B.S. 1976, Marlboro College
M.A. 1978, Ph.D. 1981, State University of New York at Stony Brook

Mark D. Agars, 1999
Professor of Psychology
B.A. 1992, Sienna College
M.S. 1996, Ph.D. 1999, Pennsylvania State University

Joyce C. Ahlgren, 2003
Lecturer in Mathematics
B.A. 1972, University California at Santa Barbara
M.A. 2003, California State University, San Bernardino

Jeremy Aikin, 2014
Assistant Professor of Mathematics
B.S. 2003, University of California, Riverside
M.S. 2005, Ph.D. 2009, Louisiana State University

Lasisi Ajayi, 2014
Associate Professor of Education
B.A. 1983, M.S. 1989, Obafemi Awolowo University, IFE
Ph.D. 1996, Literacy-University of Ibadan

Jennifer Diane Alford, 2017
Assistant Professor of Geography and Environmental Studies
B.A. 2003, North Carolina State University
M.A. 2005, Ph.D. 2014, University of North Carolina at Greensboro

Ece Algan, 2006
Associate Professor of Communication Studies
B.S. 1994, Istanbul Teknik University
M.A. 1996, Marmara University-Istanbul
Ph.D. 2003, Ohio University

Rachel Allinson, 2006
Lecturer in Social Work
B.A. 1994, University of California, Los Angeles
M.S.W. 1996, The Ohio State University

Dionisio Amodeo, 2016
Assistant Professor of Psychology
B.A. 2006, CSU San Bernardino
M.A. 2009, CSU San Bernardino
Ph.D. 2015, University of Illinois at Chicago

Jennifer L. Andersen, 1996
Professor of English
B.A. 1988, University of California, Los Angeles
M.A. 1991, Ph.D. 1996, Yale University

Jonathan Anderson, 2011
Professor of Public Administration, Chair
B.A. 1974, Colorado State University
M.P.A. 1978, American University, Washington
Ph.D. 1997, Indiana University, Bloomington

Annika Anderson, 2015
Assistant Professor of Sociology
B.A. 2006, Pennsylvania State University
M.A. 2010, Washington State University
Ph.D. 2015, Washington State University

Laura Ashcroft, 2003
Lecturer in Education
B.A. 1986, M.A. 1987, Sonoma State University
Ph.D. 2002, University of San Francisco

Richard Ashcroft, 1989
Professor of Education
B.S. Ed. 1966, East Stroudsburg State University
M.A. Ed. 1981, Sonoma State University
Ed.D. 1990, University of San Francisco

Parviz Asheghian, 1991
Professor of Economics
B.A. 1971, Iranian Institute of Advanced Accounting
M.B.A. 1973, University of Detroit
M.A. 1976, University of Florida
Ph.D. 1980, Georgia State University

Manijeh Badiee, 2013
Assistant Professor of Psychology
B.A. 2002, Austin College
M.A. 2007, Saint Edward's University
Ph.D. 2012, University of Nebraska-Lincoln

Eun-OK Baek, 2002
Professor of Education
B.A. 1987, M.Ed. 1993, Chinju National University, Korea

C. Mo Bahk, 2001
Professor of Communication Studies
B.A. 1980, Yonsei University, Seoul, Korea
M.A. 1983/1990, State University of New York, Albany
Ph.D. 1994, Michigan State University

Robert Bailey, 2007
Lecturer in Education
B.A. 1975, M.A. 1982, California State University, San Bernardino
DED 1997, University of Laverne

Melissa Bakeman, 1999
Lecturer in Management
B.A. 1996, M.A. 2001, California State University, San Bernardino
David L. Baker, 2005
Professor of Public Administration
Ph.D. 2004, Arizona State University

Maria V. Balderrama, 1994
Professor of Education
B.A. 1978, Wellesley College
M.A. 1988, San Jose State University

Terry Ballman, 2013
Professor of Spanish, Dean
Ph.D 1985, University of Texas

Russell J. Barber, 1984
Professor of Anthropology
B.A. 1972, University of Vermont
M.A. 1974, Ph.D. 1979, Harvard University

Armando Barragan, 2015
Assistant Professor of Social Work
B.A. 2006, University of California, Los Angeles
M.S.W. 2009, University of California, Berkeley
Ph.D. 2015, University of Southern California

Lisa Bartle, 1999
Librarian
B.A. 1990, University of California, Santa Barbara
M.A. 1993, University of California, Riverside
M.L.I.S. 1997, University of California, Los Angeles

Mohammad Bazaz, 2011
Professor of Accounting and Finance
B.A. 1972, Advanced School of Accountancy, Iran
M.A. 1973, National Iranian School of Accountancy, Iran
Ph.D. 1984, University Of Oklahoma

Monideepa Becerra, 2014
Associate Professor of Health Science and Human Ecology
B.S. 2008, University of California, Riverside
M.P.H. 2011, D.PH. 2014, Loma Linda University

Francisca Beer, 1990
Professor of Accounting and Finance, Associate Dean
B.A. 1982, M.A. 1983, University of Catholique de Mons
Ph.D. 1990, Catholic University of Louvaiain

Mariam Betlemidze, 2016
Assistant Professor of Communication Studies
B.A. 2007, Tbilisi State University Georgia
M.S. 2010, University of Utah-Salt Lake
Ph.D. 2016, University of Utah-Salt Lake

Andreas Beyersdorf, 2016
Assistant Professor of Chemistry and Biochemistry
B.A. 2001, Chapman University
M.S. 2007, Ph.D. 2007, UC Irvine

Gisela Bichler, 2000
Professor of Criminal Justice
B.A. 1994, Simon Frazier University
M.A. 1996, Ph.D. 2000, Rutgers University

Jessica Block-Nerren, 2017
Lecturer of Communication Studies
B.A. 2004, Pitzer College
M.A. 2005, California State University Fullerton

Dawn Blue, 2016
Assistant Professor of Nursing
B.S.N. 2002, CSU San Bernardino
D.N.P. 2015, Brandman University

Andrew Bodman, 2009
Professor of Geography
Ph.D. 1978, The Ohio State University

Mary Boland, 2001
Professor of English
B.A. 1984, State University of New York, Albany
M.A. 1996, Ph.D. 2002, University of Rochester

Fabian Borges, 2015
Assistant Professor of Political Science
B.A. 2005, Universidad de Costa Rica
M.A. 2008, Georgetown University
Ph.D. 2014, University of Southern California

Nicole Bournias-Vardiabasis, 1987
Professor of Biology
B.S. 1975, University of California, Irvine
Ph.D. 1978, University of Essex, United Kingdom

Cheryl Brandt, 2016
Associate Professor of Nursing
B.S.N. 1979, Southwest Missouri State University
M.S.N. 1982, University of Minnesota
Ph.D. 2005, University of Minnesota

Diane K. Brantley, 2003
Professor of Education
B.A. 1985, San Diego State University
M.A. 1997, California State University, San Bernardino
Ph.D. 2001, University of Nevada, Las Vegas

Nicholas Bratcher, 2017
Assistant Professor of Music
B.A. 2008, M.A. 2009, Coastal Carolina University
Ph.D. 2015, University of Georgia

Haakon Brown, 2009
Associate Professor of Marketing
B.S. 1995, Columbia University
M.B.A. 2001, Massachusetts Institute of Technology
Ph.D. 2009, Northwestern University

Annie Buckley, 2011
Associate Professor of Art
B.A. 1990, University of California, Berkeley
M.F.A. 2003, Otis College Of Art Design

Terese Burch, 2017
Professor of Nursing, Chair
B.S.N. 1974, Loyola University
M.S. 1977, Rush University
Ph.D. 1989, University of Illinois at Chicago
Ruth E. Burke, 1989
Associate Professor of World Languages and Literatures
B.A. 1972, Loma Linda University
M.A. 1975, Ph.D. 1984, University of California, Riverside

Sidney Burks, 2014
Lecturer in Education

Cesar Caballero
University Librarian, Dean, Pfau Library
B.B.A. 1972, University of Texas, El Paso
MLS 1974, University of Texas, Austin

Sara Callori, 2015
Assistant Professor of Physics
B.A. 2007, New York University
M.A. 2009, Ph.D. 2013, Stony Brook University

Kelly Campbell, 2008
Associate Professor of Psychology
B.A. 2000, M.A. 2003, University of British Columbia
Ph.D. 2008, University of Georgia

David Carlson, 2001
Professor of English, Chair
B.A. 1992, Colgate University
M.A. 1994, Ph.D. 2000, Indiana University

Kerry Cato, 2016
Assistant Professor of Geological Sciences
B.S. 1982, Texas Tech University
M.S. 1985, Ph.D. 1991, Texas A&M University

Alexandra Cavallaro, 2015
Assistant Professor of English
B.A. 2008, Kutztown University Of Pennsylvania
M.A. 2009, Ph.D. 2015, University Of Illinois, Urbana

Janet C. Chang, 1999
Professor of Social Work
B.A. 1998, Ewha Women's University, Seoul, Korea
M.A. 1995, California State University, Los Angeles
M.S.W. 1993, Ph.D. 1998, University of California, Los Angeles

Michael Y. Chao, 2005
Professor of Biology and Biochemistry, Chair
B.S. 1993, National Taiwan University
Ph.D. 2001, University of Texas Southwestern Medical Center

Joseph D. Chavez, 1987
Professor of Mathematics
B.S. 1982, University of San Francisco
M.S. 1985, Ph.D. 1987, University of California, Riverside

David V. Chavez, 1988
Professor of Psychology
A.B. 1982, Harvard
M.A. 1986, Ph.D. 1993, University of California, Berkeley

Rong Chen, 1992
Professor of English
B.A. 1979, Xian Foreign Language Institute
M.A. 1986, Ph.D. 1990, Ball State University, Muncie, Indiana

Zeng-yin Chen, 2001
Professor of Sociology
B.A. 1981, Beijing Normal University
M.A. 1988, Dartmouth College
M.S. 1993, Ph.D. 1994, Stanford University

Zhaojing Chen, 2017
Assistant Professor of Kinesiology
B.S. 2011, Shanghai University of Sport
M.A. 2013, Ph.D. 2017, University of Oklahoma

Dorothy C. Chen-Maynard, 1992
Associate Professor of Health Science and Human Ecology, Chair
B.S. 1978, University of Southern California
M.S. 1981, California State University, Los Angeles
Ph.D. 1994, University of California, Davis.

Tai-Yin Chi, 2016
Lecturer of Information and Decision Sciences
B.A. 1996, Taichung Taiwan
M.B.A 2002, California State University, San Bernardino

Yuchin Chien, 1989
Professor of Psychology, Associate Chair
B.S. 1975, Chengchi University (Taiwan Intl.)
M.S. 1979, Ph.D. 1983, Cornell University

Steven Childs, 2016
Assistant Professor of Political Science
B.A. 2005, University of Southern California
M.A. 2009, Claremont Graduate University
Ph.D. 2011, Claremont Graduate University

Jane Chin Davidson, 2013
Associate Professor of Art
Ph.D. 2007, University of Manchester

Rueyling Chuang, 2000
Professor of Communication Studies, Associate Dean
B.A. 1987, Tamkang University, Taiwan
M.S. 1992, California State University, Hayward
Ph.D. 1996, Ohio University, Athens

John P. Clapper, 2002
Professor of Psychology
B.A. 1983, State University of New York at Buffalo
Ph.D. 1988, Stanford University

Mark T. Clark, 1990
Professor of Political Science
B.A. 1984, California State Polytechnic University
M.A. 1986, Ph.D. 1989, University of Southern California

Breena Coates, 2009
Professor of Management
B.A., Calcutta University: M.A. 1993, Ph.D. 1999, University of Pittsburgh

Debra Cohen, 2007
Lecturer in Nursing
B.S.N. 2003, M.S.N. 2005, University of Phoenix
Ted Coleman, 2006
Professor of Health Science and Human Ecology
B.A. 1979, M.H.Ed. 1980, Brigham Young University
Ph.D. 1983, Purdue University

Kimberly Collins, 2009
Associate Professor of Public Administration
B.A. 1991, University of California, San Diego
M.A. 1994, San Diego State University
Ph.D. 2006, El Colegio de la Frontera Norte

Kurt Collins, 1998
Professor of Art
B.A. 1995, University of Colorado
M.S. 1996, Ferris State University

Ed Colom, 2016
Professor of Sociology
Chair
B.S. 1992, UC Riverside
M.A. 1996, UC Riverside
Ph.D. 2001, UC Riverside

Arturo I. Concepcion, 1990
Professor of Computer Science and Engineering
B.S. 1969, University of Santo Tomas, Manila
M.S. 1981, Washington State University
Ph.D. 1984, Wayne State University, Detroit

Marissa Congdon, 2013
Assistant Professor of Education
B.A. 1999, University of Miami
M.Ed. 2009, Pennsylvania State University
Ph.D., 2013, University of Washington

Meredith Conroy, 2013
Assistant Professor of Political Science
B.A. 2005, Whittier College
M.A. 2007, Purdue University
Ph.D. 2010, University of California, Santa Barbara

Rafael E. Correa, 1985
Professor of World Languages and Literatures
B.A. 1973, M.A. 1976, Ph.D. 1984, Rutgers University

Thomas Corrigan, 2012
Associate Professor of Communication Studies
B.A. 2005, M.S. 2007, Florida State University
Ph.D. 2012, Pennsylvania State University

Kimberly A. Costino, 2002
Professor of English, Director of Quarter to Semester
B.A. 1993, Ursinus College
M.A. 1996, Villanova University
Ph.D. 2002, University of Massachusetts

Cynthia Cotter, 1998
Lecturer in English
B.A. 1983, M.A. 1991, California State University, San Bernardino

Anthony Coulson, 2001
Professor of Information and Decision Sciences
B.A. 1992, M.B.A. 1993, California State University, San Bernardino
Ph.D. 2002, Claremont Graduate School

Janet Courts, 2005
Lecturer in Accounting and Finance
B.S. 1985, M.B.A. 1990, California State University, San Bernardino

Kimberley R. Cousins, 1991
Professor of Chemistry and Biochemistry
B.S. 1984, Duke University
Ph.D. 1991, University of Texas, Austin

Cynthia A. Crawford, 1996
Professor of Psychology
B.A. 1985, Washington University
M.A. 1989, Ph.D. 1992, University of Kentucky

Robert G. Cupp, 2006
Lecturer in Psychology
B.A. 1986, M.A. 1989, California State University, San Bernardino

Justine D’Arrigo-Patrick, 2016
Assistant Professor of Education
B.A. 2006, Biola University
M.A. 2010, Pepperdine University
Ph.D. 2014, Loma Linda University

Nicole Dabbs, 2013
Associate Professor of Kinesiology
B.S. 2008, M.S. 2010, California State University, Fullerton
Ph.D. 2013, University of Mississippi - Main Campus

Carol Damgen, 2011
Lecturer in Theatre Arts
B.A. 2003, M.A. 2006, California State University, San Bernardino
M.F.A. 2014, University of California, Riverside

Susan Daniels, 2000
Professor of Education
B.A. 1980, Barat College
M.A. 1990, Northeastern Illinois University
Ph.D. 1995, University of Wisconsin-Madison

Matthew Davidson, 2001
Professor of Philosophy
B.A. 1994, University of Illinois
M.A. 1997, University of Notre Dame
Ph.D. 2000, University of Wisconsin

Thomas D. Davis, 2002
Professor of Social Work
B.A. 1976, M.S.W. 1998, California State University, Long Beach
Ph.D. 2001, University of Washington

Claudia Davis, 2012
Associate Professor of Nursing
B.S.N. 1986, Niagara University
M.S.N. 1995, University of California, Los Angeles
Ph.D. 2013, University of California, Los Angeles
Juan Delgado, 1987
Professor of English
B.A. 1983, California State University, San Bernardino
M.F.A. 1985, University of California, Irvine

Foad Derakhshan, 1985
Professor of Management
B.S. 1973, Tehran College of Business Sciences
M.B.A. 1976, Ph.D. 1979, Louisiana State University

C. Bibiana Diaz, 2012
Assistant Professor in World Languages and Literatures
B.S. 1998, Universidad de la Saban
M.A. 2005, California State University, Long Beach
Ph.D. 2014, University of California, Irvine

Ismael Diaz, 2015
Assistant Professor of Psychology
B.A. 2008, University of California, Riverside
M.S. 2011, Ph.D. 2013, Texas AM, College Station

Donald A. Drost, 1987
Professor of Management
B.A. 1975, M.B.A. 1977, California State University, Fullerton
Ph.D. 1984, Virginia Polytechnic Institute and State University

Corey M. Dunn, 2006
Professor of Mathematics
B.S. 2000, Pacific Lutheran University
M.S. 2002, Ph.D. 2006, University of Oregon

Nadia Dyakevich, 2002
Professor of Mathematics
M.Sc. 1997, Moscow State Institute of Electronics and Mathematics
M.S. 1998, University of Southwestern Louisiana: Ph.D. 2002, University of Louisiana at Lafayette

Harold Dyck, 1989
Professor of Information and Decision Sciences
B.A. 1975, University of Kansas
M.S. 1977, Ph.D. 1982, Purdue University

Carolyn R. Eggleston, 1991
Professor of Education
Ph.D. 1989, Virginia Commonwealth University

Kathryn Ervin, 1989
Professor of Theatre Arts
B.F.A. 1978, Wayne State University
M.F.A. 1980, Illinois State University

Guillermo Escalante, 2014
Assistant Professor of Kinesiology
B.S. 1997, M.B.A. 1999, University of LaVerne, CA
D.S.C 2012, Rocky Mountain University of Health Professions

James Estes, 2005
Professor of Accounting and Finance
B.A. 1968, M.B.A. 1973, California State University, Fullerton
Ph.D. 1998, California Coast University

Christine N. Famega, 2002
Associate Professor of Criminal Justice
B.A. 1993, University of Manitoba
M.A. 1996, Minot State University
Ph.D. 2003, University of Cincinnati

Evangeline Fangonil-Gagalang, 2015
Lecturer in Nursing
A.S. 1998, Pasadena City College
B.S.N. 2001, University of Phoenix
M.S.N. 2005, California State University, Fullerton

Kamvar Farahbod, 1991
Professor of Information and Decision Sciences
B.A. 1976, University of Tehran
M.S. 1979, Ph.D. 1986, Oklahoma State University

Parastou Feiz, 2007
Associate Professor of English
B.A. 1998, Shahid Beheshti University, Iran

Yasemin Dildar, 2016
Assistant Professor of Economics
B.A. 2007, M.S. 2009, Middle East Technical University
Ph.D. 2015, University of Massachusetts

Paul K. Dixon, 1992
Professor of Physics, Chair
B.S. 1983, University of Michigan
M.A. 1985, Ph.D. 1990, University of Chicago

Teresa Dodd-Butera, 2008
Professor of Nursing
B.S.N. 1981, Downstate Medical Center
M.S. 1995, San Diego State University
Ph.D. 2008, Union Institute and University of Ohio

Jeremy Dodsworth, 2014
Assistant Professor of Biology
B.S. 2000, University of Wisconsin, Madison
Ph.D. 2006, University of Washington

John R. Dorocak, 1991
Professor of Accounting and Finance
A.B. 1973, Xavier University, Cincinnati, Ohio
J.D. 1977, Case Western Reserve University, Cleveland, Ohio
D.B.A. 1990, University of Florida

Dany Doueiri, 2006
Associate Professor in World Languages and Literatures
B.S. 1989, California Polytechnic University, Pomona
M.S. 1991, University of California, Davis
Ph.D. 1996, University of California, Los Angeles

James Estes, 2005
Professor of Accounting and Finance
B.A. 1968, M.B.A. 1973, California State University, Fullerton
Ph.D. 1998, California Coast University

Christine N. Famega, 2002
Associate Professor of Criminal Justice
B.A. 1993, University of Manitoba
M.A. 1996, Minot State University
Ph.D. 2003, University of Cincinnati

Evangeline Fangonil-Gagalang, 2015
Lecturer in Nursing
A.S. 1998, Pasadena City College
B.S.N. 2001, University of Phoenix
M.S.N. 2005, California State University, Fullerton

Kamvar Farahbod, 1991
Professor of Information and Decision Sciences
B.A. 1976, University of Tehran
M.S. 1979, Ph.D. 1986, Oklahoma State University

Parastou Feiz, 2007
Associate Professor of English
B.A. 1998, Shahid Beheshti University, Iran
Hajrudin Fejzic, 1994  
Professor of Mathematics  
B.S. 1987, University of Sarajevo, Sarajevo, Bosnia and Herzegovina  
Ph.D. 1992, Michigan State University

James V. Fenelon, 1999  
Professor of Sociology  
B.A. 1978, Loyola Marymount University  
M.A. 1981, M.A. 1983, School of International Training  
Ph.D. 1995, Northwestern University

Arturo Fernández-Gilbert, 2001  
Professor of World Languages and Literatures  
B.A. 1988, M.A. 1991, Universidad Complutense de Madrid  
Ph.D. 2001, University of New Mexico, Albuquerque

James A. Ferrari, 1990  
Professor of Biology  
B.A. 1975, Queens College, City University of New York  
M.S. 1979, Ph.D. 1985, University of California, Riverside

Antony Field, 2011  
Assistant Professor of Political Science  
B.A. 2000, University of Hull, England  
M.S. 2002, Missouri State University  
Ph.D. 2010, University of Warwick

Jay Fiene, 2009  
Professor of Education  
Dean  
Ph.D. 1995, University of Missouri-Columbia, Columbia

Geraldine Fike, 2014  
Assistant Professor of Nursing  
B.S.N. 1998, M.S.N. 2002, California State University, Dominguez Hills  
Ph.D. 1995, University of Missouri-Columbia, Columbia

Davida D. Fischman, 1994  
Professor of Mathematics  
B.S. 1976, M.S. 1978, Ph.D. 1989, Ben Gurion University

Patrick Flaherty, 2015  
Lecturer in Management  
MBA 1985, California State University, San Bernardino

Kirsten Fleming, 2012  
Professor of Mathematics  
Ph.D. 1989, University of Birmingham

Barbara M. Flores, 1987  
Professor of Education  
B.A. 1970, California State University, Hayward  
M.A. 1976, California State University, Sacramento  
Ph.D. 1982, University of Arizona

Mary Fong, 1992  
Professor of Communication Studies  
Coordinator  
B.A. 1981, University of Southern California  
M.A. 1984, California State University, Long Beach  
Ph.D. 1992, University of Washington

Stacy Forcino, 2017  
Assistant Professor of Psychology  
B.A. 2003, University of California, Los Angeles  
M.S. 2008, Ph.D. 2010, Idaho State University

Sherri Franklin-Guy, 2007  
Professor of Education  

Catherine (Stacey) Fraser, 2007  
Professor of Music  
B.M. 1994, University of Toronto  
M.M. 1996, Manhattan School of Music  
D.M.A. 2003, University of California, San Diego

Joan E. Fryxell, 1989  
Professor of Geological Sciences  
B.A. 1977, Earlham College  
M.A. 1980, University of Texas  
Ph.D. 1984, University of North Carolina

Marc Fudge, 2011  
Associate Professor of Public Administration  
B.A. 1992, Howard University  
M.P.A. 1999, Fairleigh Dickinson University  
Ph.D. 2011, Rutgers University

Shuryo Fujita, 2016  
Assistant Professor of Criminal Justice  
B.S. 2000, Southeast Missouri State University  
M.A. 2003, California State University, San Bernardino  
Ph.D. 2011, Rutgers-State University of New Jersey

Jordan Fullam, 2016  
Assistant Professor of Education  
B.A. 2006, Montclair State University  
M.A. 2007, University of Chicago  
Ph.D. 2016, New York University

Larry K. Gaines, 1998  
Professor of Criminal Justice, Chair  
B.S. 1971, M.S. 1972, Eastern Kentucky University  
Ph.D. 1975, Sam Houston State University

Liliana Gallegos, 2015  
Assistant Professor of Communication Studies  
M.A. 2008, California State University, San Diego  
Ph.D. 2013, University of California, Santa Barbara

M. Antonietta Gallegos-Ruiz, 1990  
Professor of World Languages and Literatures  
B.A. 1976, M.A. 1979, California State University, Los Angeles  
Ph.D. 1987, University of Southern California

Beverly Gallo, 1989  
Lecturer in Philosophy  
B.A. 1971, M.A. 1984, San Jose State University  
Ph.D. 1989, University of California, Riverside

Donna Garcia, 2009  
Associate Professor of Psychology  
B.A. 1999, Wilfrid Laurier University  
M.A. 2001, University of Guelph  
Ph.D. 2006, University of Kansas
Maria Garcia-Puente, 2013  
Assistant Professor in World Languages and Literatures  
B.A. 2005, Santiago Compostela  
M.A. 2007, Ph.D. 2014, University of Kansas

Thom G. Gehring, 1991  
Professor of Education  
B.A. 1972, Trenton State College  
M.Ed. 1975, Ph.D. 1987, Virginia Commonwealth University

Christopher Gentry, 2014  
Assistant Professor of Kinesiology  
B.S. 2005, M.S. 2011, Southern Illinois University  
Ph.D. 2014, University of Illinois

George M. Georgiou, 1992  
Professor of Computer Science and Engineering  
B.S.E.E. 1985, Louisiana Tech University  
M.S.E.E 1987, M.S. 1988, Louisiana State University  
M.S. 1990, Ph.D. 1992, Tulane University

Kareen Gervasi, 2006  
Associate Professor of World Languages and Literatures  
B.A. 1992, Pontifical Catholic University of Peru  
M.A. 1994, Ph.D. 2000, University of Southern California

Janelle Gilbert, 1994  
Associate Professor of Psychology  
B.A. 1988, New York University  
M.A. 1990, Ph.D. 1994, George Mason University

Donald Girard, 2013  
Lecturer in Communication Studies  
B.A. 1973, M.B.A., 1979, Ohio University - Main Campus

Carl Goetz, 2014  
Assistant Professor of Psychology  
B.S. 2006, University of California, Los Angeles  
Ph.D. 2014, University of Texas, Austin

Brett Goforth, 2013  
Assistant Professor of Geography and Environmental Studies  
B.S. 2001, California State University, Polytechnic, San Luis Obispo  
Ph.D., 2009, University of California, Riverside

Ernesto Gomez, 2000  
Professor of Computer Science and Engineering  
B.A. 1969, Cornell University  
M.S. 1975, Universidad de Puerto Rico  
Ph.D. 2005, University of Chicago

Ed Gomez, 2016  
Assistant Professor of Art  
B.F.A. 1999, Arizona State University  
M.F.A. 2003, Otis College of Art and Design

Donna Gotch, 2002  
Lecturer in Communication Studies  
B.A. 1984, M.A. 1986, California State University, Los Angeles

Jo Anna Grant, 2003  
Professor of Communication Studies  
B.A. 1988, M.S. 1990, Texas Christian University  
Ph.D. 1996, University of Oklahoma, Norman

Katherine Gray, 2007  
Professor of Art  
B.A. 1989, Ontario College of Art  
M.F.A. 1991, Rhode Island School of Design

Marsha Greer, 2001  
Associate Professor of Health Science and Human Ecology  
B.A. 1973, University of Northern Colorado  
M.S. 1977, Washington State University  
M.U.P. 1990, University of Oregon  
Ph.D. 1995, Oregon State University

Wilbert Greer, 2014  
Assistant Professor of Education  
B.A. 2001, University of California, Riverside  
M.A. 2007, California State University, San Bernardino  
Ph.D. 2013, Claremont Graduate University

Kevin Grisham, 2010  
Associate Professor Geography and Environmental Studies, Chair  
B.A. 1997, California State University, San Bernardino  
M.A. 2005, Ph.D. 2009, University of California, Riverside

Mark Groen, 2006  
Professor of Education  
B.A. 1981, California State University, Northridge  
M.A. 1992, University of Southern California  
Ph.D. 2002, University of California, Riverside

Liang Kevin Guo, 2013  
Associate Professor of Accounting and Finance  
B.A. 2002, Peking University  
M.S. 2006, Boston University  
Ph.D., 2013, University of Texas - San Antonio

Vipin Gupta, 2010  
Professor of Management  
B.A. 1988, Shri Ram College of Commerce, Delhi University  
M.B.A. 1990, Indian Institute of Management, Ahmedabad  
Ph.D. 1998, Wharton School, University of Pennsylvania

Amy Gusick, 2015  
Assistant Professor of Anthropology  
B.A. 1997, Seton Hall University  
M.A. 2007, University of California, Santa Barbara  
Ph.D. 2012, University of California, Santa Barbara

Juan M. Gutierrez, 1987  
Professor of Education  
B.A. 1972, California State University, San Bernardino  

Matthew Habich, 2015  
Lecturer in Management  
M.S. 1995, Golden Gate University

Bryan Haddock, 2001  
Professor of Kinesiology, Chair  
B.A. 1986, The Master’s College  
M.S. 1988, Ph.D. 1998, Loma Linda University
Brandy Hadley, 2015
Assistant Professor of Accounting and Finance
B.S. 2009, Appalachian State University
MBA 2011, Appalachian State University
Ph.D. 2015, University Of Tennessee-Knoxville

Essia Hamouda El Hafi, 2017
Assistant Professor of Information and Decision Sciences
B.S. 1986, Ohio State University
M.S. 1989, Ecole National d' Ingenieurs
M.S. 1994, University of Florida
Ph.D. 2006, University of California, Riverside

Ilseop Han, 2001
Professor of Mathematics
B.A. 1986, M.S. 1988, Korea University
Ph.D. 1999, University of California, San Diego

Joyce A. Hanson, 1998
Professor of History
B.A. 1990, Central Connecticut State University
M.A. 1992, Ph.D. 1997, University of Connecticut

Andre Harrington, 2006
Associate Professor of Theatre Arts
B.S. 1986, University of Maryland, College Park
M.F.A. 2005, The University of Iowa, Iowa City

Shyra Harris, 2014
Lecturer in Social Work
B.A. 2009, California State University, San Bernardino
M.S.W. 2011, California State University, San Bernardino

Zahid Hasan, 1985
Professor of Mathematics
B.S. 1973, M.S. 1976, University of Punjab, Pakistan
Ph.D. 1982, University of Birmingham, England

Christina Hassija, 2013
Associate Professor of Psychology
B.A. 2004, M.A. 2006, California State Univerisy, Northridge
Ph.D., 2011, University of Wyoming

Lorraine Hedtke, 2012
Professor of Education
B.A. 1978, University of Redlands
M.S.W. 1985, Arizona State University
Ph.D., 2003, University of California, Los Angeles

Brian Heisterkamp, 2001
Professor of Communication Studies
B.A. 1989, Arizona State University
M.A. 1997, Loma Linda University
Ph.D. 2000, Arizona State University

Nicole Henley, 2015
Assistant Professor of Health Sciences
B.B.A. 1997, University of Wisconsin-Whitewater
M.B.A. 2000, University Of Wisconsin-Whitewater
Ph.D. 2007, University of California, Los Angeles

Holly Henry, 2000
Professor of English
B.A. 1987, M.A. 1992, Bucknell University
Ph.D. 1999, Pennsylvania State University

Guy Hepp, 2016
Assistant Professor of Anthropology
B.A. 2004, University of Colorado at Boulder
M.A. 2007, Florida State University
Ph.D. 2015, University of Colorado at Boulder

Carol Hood, 2012
Associate Professor of Physics
B.S. 2004, Virginia Polytechnic Institute
M.S. 2007, Ph.D. 2011, University of California, Irvine

Angela Horner, 2013
Assistant Professor of Biology
B.S. 2000, Centre College
M.S. 2005, University of Cincinnati
Ph.D., 2010, Ohio University - Main Campus

Yunfei Hou, 2016
Assistant Professor of Computer Science
B.A. 2009, Xi'an Jiaotong University
M.S. 2011, Saint Cloud State University
Ph.D. 2016, University of Buffalo

Kathryn Howard, 2012
Associate Professor of Education, Chair
B.A. 1990, University of Oregon
M.A. 1997, Ph.D. 2003, University of California, Los Angeles

Catherine Hsieh, 2013
Student Services Professional
Ph.D., 2012, University of Missouri - Columbia

Isabel Huacuja Alonso, 2016
Assistant Professor of History
B.A. 2005, Cornell University
M.A. 2009, Ph.D. 2015, University of Texas at Austin

Joe S. Hughes, 1998
Assistant Professor of Health Science and Human Ecology
B.A. 1978, George Washington University
M.S. 1985, Ph.D. 1989, Washington State University

Jacqueline Hughes, 2013
Professor of Education
Ph.D. 1996, Arizona State University

Andrew Hughes, 2016
Assistant Professor of Education
B.S. 2006, California University of Pennsylvania
M.S. 2008, Illinois State University
Ed.D. 2015, Northern Carolina State University

Sung-Kyoo Huh, 1987
Professor of Accounting and Finance
B.E. 1977, Korea University
M.B.A. 1982, State University of New York, Buffalo
D.B.A. 1988, Kent State University
Arianna Huhn, 2015
Assistant Professor of Anthropology
B.A. 2002, University of California, Berkeley
M.A. 2005, George Washington University
Ph.D. 2013, Boston University

Heather L. Hundley, 1999
Professor of Communication Studies
Assistant Dean
B.A. 1992, M.A. 1994, California State University, Sacramento
Ph.D. 1998, University of Utah

Young Suk Hwang, 2000
Professor of Education
B.A. 1989, Chongshin University, Korea
M.Ed. 1993, Ph.D. 1998, Auburn University, Alabama

Sung-Heh Hyon, 1994
Professor of English
B.A. 1989, University of California, San Diego
Ph.D. 1995, University of Michigan

Fred E. Jandt, 1983
Professor of Communication Studies
B.A. 1966, Texas Lutheran College
M.A. 1967, Stephen F. Austin State University
Ph.D. 1970, Bowling Green State University

Yongseok Jang, 2015
Assistant Professor of Management
B.A. 2001, Inha University
M.A. 2004, University of Florida
Ph.D. 2009, University of Florida

Brian P. Janiskee, 1998
Professor of Political Science, Chair
B.A. 1989, Western Michigan University
M.A. 1992, Michigan State University
Ph.D. 1996, Michigan State University

Carmen Jany, 2007
Professor of World Languages and Literatures
B.A. 2004, University of California, Santa Barbara
Ph.D. 2001, University of Zurich, Switzerland

Todd E. Jennings, 1990
Professor of Education
M.A. 1989, Ph.D. 1991, Claremont Graduate University

Jesus D. Jerez-Gomez, 2006
Professor of World Languages and Literatures
B.A. 1998, Universidad de Granada, Spain
M.A. 2000, Kansas State University
Ph.D. 2006, University of California, Davis

Erik Jester, 2011
Assistant Professor of Music
B.M. 2005, M.M. 2008, Pennsylvania State University Main Campus
D.M.A., University Of Wisconsin, 2011

Joseph Jesunathadas, 1989
Professor of Education
B.S. 1973, Kerala University
M.S. 1985, Ed.D. 1990, Utah State University

Madeleine Jetter, 2007
Professor of Mathematics
B.A. 1999, Columbia University
Ph.D. 2001, Ph.D. 2007, University of California, Los Angeles

John Jin, 2009
Professor of Accounting and Finance
B.A. 1979, M.B.A. 1981, Yon-Sei University
M.S. 1984, University of Illinois at Urbana-Campaign
Ph.D. 1989, University of Arizona

Susan Jindra, 2007
Lecturer in Education
B.A. 1972, Columbia University
MILS, 1974, DED 2001, University of Southern California

Todd Johnson, 2006
Professor of Music
B.M./B.S. 1988, Central Michigan University
M.M. 1989, Northwestern University
D.M.A. 1999, University of Oklahoma

Ann Marie Johnson, 2013
Assistant Professor of Public Administration
Ph.D., 2011, University of Delaware

Corryn Johnson, 2014
Assistant Professor of Mathematics
B.S. 2009, University of Redlands
Ph.D. 2014, Colorado State University

Richard M. Johnston, 1990
Professor of Art
B.A. 1966, California State University, Long Beach
M.F.A. 1968, Cranbrook Academy of Art

Tiffany Jones, 2007
Associate Professor of History, Chair
B.A. 1999, M.A. 2000, Dalhousie University
Ph.D. 2004, Queen's University, Canada

Rigaud Joseph, 2017
Assistant Professor of Social Work
B.S. 2011, M.S.W. 2012, Florida Atlantic University
Ph.D. 2017, Florida International University

Yuichiro Kakihara, 2000
Professor of Mathematics
B.S. 1974, M.S. 1976, Dr. Sci. 1985, Tokyo Institute of Technology,
Tokyo, Japan

Rajrani Kalra, 2008
Associate Professor of Geography and Environmental Sciences
M.A. 2003, University of Akron
Ph.D. 2007, Kent State University

Joseph Jesunathadas, 1989
Professor of Education
B.S. 1973, Kerala University
M.S. 1985, Ed.D. 1990, Utah State University

Madeleine Jetter, 2007
Professor of Mathematics
B.A. 1999, Columbia University
Ph.D. 2001, Ph.D. 2007, University of California, Los Angeles

John Jin, 2009
Professor of Accounting and Finance
B.A. 1979, M.B.A. 1981, Yon-Sei University
M.S. 1984, University of Illinois at Urbana-Campaign
Ph.D. 1989, University of Arizona

Susan Jindra, 2007
Lecturer in Education
B.A. 1972, Columbia University
MILS, 1974, DED 2001, University of Southern California

Todd Johnson, 2006
Professor of Music
B.M./B.S. 1988, Central Michigan University
M.M. 1989, Northwestern University
D.M.A. 1999, University of Oklahoma

Ann Marie Johnson, 2013
Assistant Professor of Public Administration
Ph.D., 2011, University of Delaware

Corryn Johnson, 2014
Assistant Professor of Mathematics
B.S. 2009, University of Redlands
Ph.D. 2014, Colorado State University

Richard M. Johnston, 1990
Professor of Art
B.A. 1966, California State University, Long Beach
M.F.A. 1968, Cranbrook Academy of Art

Tiffany Jones, 2007
Associate Professor of History, Chair
B.A. 1999, M.A. 2000, Dalhousie University
Ph.D. 2004, Queen's University, Canada

Rigaud Joseph, 2017
Assistant Professor of Social Work
B.S. 2011, M.S.W. 2012, Florida Atlantic University
Ph.D. 2017, Florida International University

Yuichiro Kakihara, 2000
Professor of Mathematics
B.S. 1974, M.S. 1976, Dr. Sci. 1985, Tokyo Institute of Technology,
Tokyo, Japan

Rajrani Kalra, 2008
Associate Professor of Geography and Environmental Sciences
M.A. 2003, University of Akron
Ph.D. 2007, Kent State University
N. Laura Kampfner, 1984
Professor of Psychology
B.S. 1976, San Diego State University
M.S. 1979, University of California, Davis
Ph.D. 1984, Michigan State University

Yasha Karant, 1989
Professor of Computer Science and Engineering
B.A. 1975, Immaculate Heart/Cal Tech
M.S. 1978, Ph.D. 1981, University of California, Berkeley

Ryan Keating, 2013
Assistant Professor of History
B.S. 2008, University of California, Davis
M.S. 2012, University of New Mexico
Ph.D., 2013, Fordham University

Rachel Keener, 2007
Student Services Professional
Psy.D. 2006, Fuller Graduate School of Psychology

Dong Man Kim, 1990
Professor of Accounting and Finance
B.S. 1978, So Gang University
M.B.A. 1984, West Georgia College
Ph.D. 1990, Arizona State University

Yu Jung Kim, 2006
Associate Professor of Chemistry and Biochemistry
B.S. 1995, M.S. 1995, Ph.D. 2002, University of California, Riverside

Younglee Kim, 2015
Assistant Professor of Nursing
B.S. 1998
MSN 2009, California State University, San Bernardino
Ph.D. 2014, Azusa Pacific University

Jemma Kim, 2016
Assistant Professor of Education
Ph.D. 2013, University of California, Los Angeles

Taewoo Kim, 2016
Assistant Professor of Accounting and Finance
B.A. 2000, Sungkyunkwan University
M.S. 2002, Sungkyunkwan University
Ph.D. 2013, State University of New York at Buffalo

Yeon Kim, 2016
Assistant Professor of Nursing
B.S.N. 1991, Seoul National University
M.S.N. 2011, CSU Dominguez Hills
D.N.P. 2015, CSU Fullerton

Paul Kirwan, 2008
Lecturer in Management
Ph.D. 2008, University of Twente, the Netherlands

Robert J. Knop, 2004
Professor of Music
B.M. 1971, Roosevelt University
M.M. 1998, Northern Illinois University
D.A. 2002, University of Northern Colorado

Michal Kohout, 2003
Professor of Geography and Environmental Studies
B.A. 1993, University of Western Ontario
M.A. 1996, Southwest Texas State University
Ph.D. 2004, Clark University

Karen Kolehmainen, 1988
Professor of Physics
B.S. 1977, Michigan State University
Ph.D. 1983, State University of New York at Stony Brook

Leslie M. Kong, 1990
Librarian
B.A. 1975, San Francisco State University
M.L.S. 1977, University of California, Berkeley
M.B.A. 1987, California State University, Sacramento

Melilka Kordrostami, 2017
Assistant Professor in Marketing
B.S. 2006, MBA 2009, Sharif University of Technology
Ph.D. 2017, Iowa State University

Hideya Koshino, 1994
Professor of Psychology
B.A. 1983, M.A. 1985, International Christian University, Tokyo
Ph.D. 1994, University of Kansas

Janet L. Kottke, 1984
Professor of Psychology
B.A. 1978, Wartburg College
M.S. 1981, Ph.D. 1985, Iowa State University

Kurt Kowalski, 2003
Professor of Education
B.A. 1990, Ph.D. 1995, Arizona State University

Janine Kremling, 2008
Associate Professor of Criminal Justice
B.A. 2001, University of Leipzig
M.A. 2004, Ph.D. 2010, University of South Florida

Rishab Kumar, 2017
Assistant Professor of Economics
M.A. 2010, Jawaharlal Nehru University
Ph.D. 2016, The New School of Social Research

Andrew Kwok, 2016
Assistant Professor of Teacher Education and Foundations
B.S. 2007, Ph.D. 2016, University of Michigan

Michelle Kwok, 2016
Lecturer in Education
B.A. 2005, CSU Long Beach
M.A. 2010, Ph.D. 2015, University of Michigan

Deirdre Lanesskog, 2016
Assistant Professor in Social Work
B.A. 1993, University of Illinois at Urbana-Champaign
Ph.D. 2016, University of Illinois at Urbana-Champaign
Codi Lazar, 2015  
Assistant Professor of Geological Sciences  
B.A. 1995, University of Florida  
M.A. 2001, Columbia University  
Ph.D. 2010, University of California, Los Angeles

W. Brit Brateman, 1987  
Associate Professor of Geological Sciences  
B.A. 1981, Weber State College  
M.S. 1984, Ph.D. 1987, Ohio State University

Amy S.C. Lea, 1998  
Professor of Education  
B.A. 1981, Providence College, Taiwan  

Lesley Leighton, 2016  
Lecturer of Music  
B.A. 1984, Loyola Marymount University  
M.M. 1991, University of Southern California  
D.M.A. 2012, University of Southern California

Brian Levin, 1999  
Professor of Criminal Justice  
B.A. 1989, University of Pennsylvania  
J.D. 1992, Stanford Law School

Michael Lewin, 1995  
Professor of Psychology  
B.A. 1983, State University of New York, Albany  
M.S. 1987, Ph.D. 1992, Oklahoma State University

Lucy Lewis, 2014  
Assistant Professor of Music  
B.M./B.S. 2008, Andrews University  
M.M. 2011, University of Cincinnati  
D.M.A. 2014, University of Iowa

Jiong Li, 2007  
Assistant Professor of Art  

Su Liang, 2010  
Associate Professor of Mathematics  

Frank M. Lin, 1991  
Professor of Information and Decision Sciences, Chair  
Associate Dean  
B.S. 1981, Tatung Institute of Tech  
at Buffalo

Kate Liszka, 2015  
Assistant Professor of Egyptology/History  

Patricia Little, 1993  
Assistant Professor of Sociology  
B.S. 1977, Oregon State University  
B.A. 1986, M.A. 1990, Ph.D. 1994, University of California, Riverside

Brenda Littleton, 2007  
Lecturer in Education  
B.A. 2001, M.A. 2005, California State University, San Bernardino

Xiang Liu, 2009  
Professor of Accounting and Finance  
B.A. 1998, Beijing Foreign Studies University  
M.B.A. 2004, University of Washington  
Ph.D. 2009, University of North Texas

Yu Liu, 2015  
Assistant Professor in Accounting Finance  
B.E. 2003, Huazhong University  
M.B.A. 2010, Southern New Hampshire University  
Ph.D. 2016, Georgia State University

Erica Lizano, 2014  
Assistant Professor of Social Work  
B.A. 2005, California State University, Fullerton  
M.S. 2007, University of Southern California  
Ph.D. 2014, University of Southern California

Giovanna Llosent, 2007  
Associate Professor of Mathematics  
B.A. 1999, University of Costa Rica  
M.S. 2006, Ph.D. 2007, University of Iowa

Min-Lin Lo, 2004  
Professor of Mathematics  
B.S. 1997, National Tsing-Hua University, Hinchu, Taiwan  
M.A. 2000, Ph.D. 2004, State University of New York at Buffalo

Matthew Logan, 2015  
Assistant Professor of Criminal Justice  
B.A. 2009, University of Western Ontario  
M.A. 2011, University of Western Ontario  
Ph.D. 2015, University of Cincinnati

Thomas Long, 2006  
Professor of History  
B.A. 1993, Sonoma State University  
M.A. 2001, California State University, Fullerton  
Ph.D. 2006, University of California, Riverside

Angela Louque, 2000  
Professor of Education, Chair  
B.A. 1983, University of California, Los Angeles  
M.A. 1986, Loyola Marymount  
Ed.D. 1995, Pepperdine University

Chad Luck, 2008  
Associate Professor of English  
B.A. 1994, University of Washington  

Jessica Luck, 2008  
Associate Professor of English  
B.A. 1996, M.S. 1997, University of Tennessee  
M.A. 1999, Wake Forest University  
Ph.D. 2006, Indiana University

Risa Lumley, 2011  
Associate Librarian  
B.A. 1985, University of California, Riverside  
M.A. 1989, University of Iowa
Dale Lund, 2009
Professor of Sociology
B.S. 1973, M.S. 1976, Ph.D. 1979 University of Utah

Cherstin Lyon, 2006
Professor of History
Ph.D. 2006, University of Arizona

Nicole Lylte-Koscola, 2006
Lecturer of Information and Decision Sciences
B.A. 2002, California State Polytechnic University, Pomona

Daniel MacDonald, 2013
Assistant Professor of Economics
B.A. 2007, Seton Hall University
Ph.D., 2013, University of Massachusetts Amherst

Stacy Magedanz, 2000
Librarian
B.A. 1990, M.A. 1992, University of Nebraska-Lincoln
M.A. 1996, University of Missouri-Columbia

Jeremy Mallari, 2015
Assistant Professor of Chemistry and Biochemistry
B.A. 2000, B.S. 2003, California State University, San Francisco
Ph.D. 2008, University of California, San Francisco

Oraib Mango, 2011
Associate Professor of World Languages and Literatures
B.A. 1992, University of Jordan, Amman

Jason Mann, 2015
Assistant Professor of Theatre Arts
B.A. 1994, Gettysburg College
MFA 2001, George Washington University

Alemayehu Mariam, 1989
Professor of Political Science
B.A. 1974, Augusta College
M.A. 1975, University of Northern Iowa
Ph.D. 1984, University of Minnesota
J.D. 1988, University of Maryland

David Marshall, 2007
Professor of English, Director of CSUSB Honors Program
B.A. 1993, College of the Holy Cross
M.A. 1998, University of York
Ph.D. 2007, Indiana University

Nerea Marteache, 2013
Associate Professor of Criminal Justice
B.A. 2002, ESADE University of Spain
B.A. 2008, University of Barcelona
M.A. 2006, University of Barcelona
M.A. 2010, Rutgers School of Criminal Justice
Ph.D. 2013, Rutgers School of Criminal Justice

Elizabeth Martin, 2007
Professor of World Languages and Literatures
B.A. 1981, Ball State University
M.A. 1984, Middlebury College
Ph.D. 1998, University of Illinois

Edna Martinez, 2014
Assistant Professor of Education
B.S. 2005, M.Ed. 2007, University of Texas, El Paso
Ph.D. 2014, Clemson University

Marcia Marx, 1995
Professor of Sociology
B.A. 1984, California State Polytechnic University, Pomona
M.A. 1987, Ph.D. 1993, University of California, Riverside

David F. Maynard, 1993
Professor of Chemistry and Biochemistry
B.S. 1976, California State University, San Bernardino
M.S. 1988, California State University, Long Beach
Ph.D. 1992, University of California, Riverside

Carolyn McAllister, 2008
Associate Professor of Social Work
B.A. 1996, University of California, Davis
M.S.W. 1999, University of California, Los Angeles
Ph.D. 2003, Michigan State University

Oraib Mango, 2011
Associate Professor of World Languages and Literatures
B.A. 1992, University of Jordan, Amman

Marcia Marx, 1995
Professor of Sociology
B.A. 1984, California State Polytechnic University, Pomona
M.A. 1987, Ph.D. 1993, University of California, Riverside

David F. Maynard, 1993
Professor of Chemistry and Biochemistry
B.S. 1976, California State University, San Bernardino
M.S. 1988, California State University, Long Beach
Ph.D. 1992, University of California, Riverside

Carolyn McAllister, 2008
Associate Professor of Social Work
B.A. 1996, University of California, Davis
M.S.W. 1999, University of California, Los Angeles
Ph.D. 2003, Michigan State University

Sanders McDougall, 1991
Professor of Psychology
B.A. 1979, M.A. 1981, West Washington University
Ph.D. 1988, University of Kentucky

Sally McGill, 1991
Professor of Geological Sciences, Interim Chair
A.B. 1985, Harvard and Radcliffe
M.S. 1989, Ph.D. 1992, California Institute of Technology

Thomas McGovern, 2000
Professor of Art, Interim Chair of World Languages and Literatures
B.A. 1988, Empire State College, New York
M.F.A. 2000, California State University, Fullerton

Shawnee L. McMurrin, 2000
Professor of Mathematics
B.S. 1985, M.S. 1987, Ph.D. 1991, University of California, Riverside

Connie McReynolds, 2008
Professor of Education
B.S. 1982, Oklahoma City University
M.S. 1988, Emporia State University
Ph.D. 1998, University of Wisconsin-Madison

Norman Meek, 1989
Professor of Geography and Environmental Studies, Chair
B.A. 1982, University of Kansas
M.A. 1984, Michigan State University
Ph.D. 1990, University of California, Los Angeles
Erik B. Melchiorre, 2002
Professor of Geological Sciences
B.S. 1990, University of Southern California
M.S. 1993, Arizona State University
Ph.D. 1998, Washington University

Josephine G. Mendoza, 1984
Professor of Computer Science and Engineering
B.S. 1974, M.Eng. 1977, University of the Philippines
Ph.D. 1984, University of Illinois

Allen Menton, 2012
Associate Professor of Music
B.M. 2001, California State University, Long Beach
M.M. 2003, University of Southern California
Ph.D. 2009, University of California, Los Angeles

Anthony E. Metcalf, 1999
Professor of Biology
B.A. 1977, Simon Fraser University
B.S. 1988, Ph.D. 1998, University of California, Riverside

C. Rod Metts, 2002
Associate Professor of Communication Studies
B.A. 1984, M.A. 1988, San Francisco State University
Ph.D. 1994, The Ohio State University

Jeff Meyer, 2016
Assistant Professor of Mathematics
B.S. 2007, University of Chicago
Ph.D. 2013, University of Michigan

Jeannine Meza, 2013
Lecturer in Social Work
B.A. 1999, University of California, Los Angeles
M.S.W. 2004, University of Southern California

Larry M. Mink, 1992
Professor of Chemistry and Biochemistry
B.S. 1984, Hebrew University of Jerusalem
M.S. 1986, Ph.D. 1990, University of California, Riverside

Aaron C. Moffett, 2005
Associate Professor of Kinesiology
B.A. 1999, George Washington University
M.A. 2001, University of Texas, Austin
Ph.D. 2005, Michigan State University

Rafik Mohamad, 2015
Professor of Sociology
Dean
B.S. 1992, George Washington University
M.A. 1996, University of California, Irvine
Ph.D. 2002, University of California, Irvine

Ahlam H. Muhtaseb, 2003
Professor of Communication Studies
B.A. 1994, Hebro University
M.A. 2000, Ph.D. 2004, University of Memphis

John Mumma, 2012
Assistant Professor of Philosophy
B.A. 1996, Cornell University

Vishal Munsif, 2011
Associate Professor of Accounting and Finance
B.B.A. 2007, M.A.C.C. 2007, Northern Kentucky University
Ph.D. 2011, Florida International University

Enrique Murillo, 1999
Professor of Education
B.A. 1988, University of California, Los Angeles
M.A. 1995, California State University, Los Angeles
Ph.D. 1999, University of North Carolina Chapel Hill

Owen J. Murphy, 1990
Professor of Computer Science and Engineering
B.A. 1979, Holy Cross
M.S. 1982, Worcester Polytechnic Institute
Ph.D. 1985, Syracuse University

Jeremy Murray, 2011
Associate Professor of History
B.A. 2001, SUNY at Albany
M.A. 2004, Columbia University in the City of New York
Ph.D. 2011, University of California, San Diego

José Muñoz, 2011
Associate Professor of Sociology
B.A. 1995, University of California, Irvine
M.A. 1998, California State University, Dominguez Hills
Ph.D. 2008, State University of New York, Stony Brook

Kathleen M. Nadeau, 1999
Professor of Anthropology
B.S. 1976, Fitchburg State University
M.A. 1980, University of San Carlos
Ph.D. 1995, Arizona State University

Sang Seok Nam, 2006
Professor of Education
B.Ed. 1984, M.A. 1987, Taegu University
Ph.D. 1996, Arizona State University

Chris Naticchia, 1995
Professor of Philosophy
B.A. 1985, Cornell University
M.A. 1987, New York University, New York
Ph.D. 1995, University of Virginia, Charlottesville

Gary A. Negin, 1985
Professor of Education
B.A. 1971, University of Notre Dame
M.Ed. 1974, Florida Atlantic University
M.A. 1988, Marquette University
Ph.D. 1977, University of Minnesota

Terri J. Nelson, 1995
Professor of World Languages and Literatures
B.S. 1982, B.A. 1987, University of Utah
M.A. 1988, Middlebury College
Ph.D. 1995, Northwestern University, Illinois

Robert (Brett) Nelson, 2007
Professor of Education
B.A. 1976, Appalachian State University
M.A. 1980, Georgia State University
Ph.D. 1992, University of Colorado-Boulder
Vincent Nestler, 2014
Assistant Professor of Information and Decision Sciences
B.A. 1991, SUNY College at New Paltz
M.A.T. 1993, Columbia University
M.S. 2004, Capitol College, Laurel
Ph.D. 2012, University of Idaho, Pocatello

Brian W. Newberry, 2003
Professor of Education
B.A. 1985, Southern Illinois University of Edwardsville
M.S. 1993, Northern Arizona University
Ph.D. 2003, University of Kansas

Laura Newcomb, 2007
Professor of Biology
B.S. 1995, University of Wisconsin, Milwaukee
Ph.D. 2001, University of Wisconsin, Madison

Professor of Marketing
B.S. 1991, MBA 1992, University of Montana
Ph.D. 2001, Washington State University

Jason Ng, 2015
Assistant Professor in Kinesiology
B.S. 2009, M.S. 2011, California State University, Fullerton
Ph.D. 2015 The University of Alabama

Ya (Anna) Ni, 2007
Associate Professor of Public Administration
B.A. 1993, University of Beijing, China
M.A. 2001, Iowa State University
Ph.D. 2007, Syracuse University

Daniel Nickerson, 2015
Assistant Professor of Biology
B.S. 2000, Kenyon College
Ph.D. 2008, University Of Colorado at Boulder

Wesley A. Niewoehner, 2001
Professor of Anthropology
B.A. 1982, Colorado College
M.A. 1990, Colorado State University
Ph.D. 2000, University of New Mexico

Eric Nilsson, 1989
Professor of Economics
A.B. 1979, University of California, Berkeley
Ph.D. 1989, University of Massachusetts, Amherst

James A. Noblet, 2003
Professor of Chemistry and Biochemistry
B.S. 1983, University of California, Los Angeles
M.S. 1991, California State University, Long Beach
Ph.D. 1997, University of California, Los Angeles

Alexis Norris, 2014
Assistant Professor of Criminal Justice
B.A. 2005, Hampton University
M.A. 2008, Ph.D. 2014, Michigan State University, Lansing

Andrew Oakes, 2014
Assistant Professor of Art
B.A. 1997, California State University, San Bernardino
M.F.A. 2014, Azusa Pacific University

Hyun-Kyoung Oh, 2006
Associate Professor of Kinesiology
B.S. 1998, Dongduk Women's University, Seoul, Korea
M.S. 2000, Seoul National University, Seoul, Korea
Ph.D. 2006, Indiana University, Bloomington

Paulchris Okpala, 2015
Assistant Professor of Health Science and Human Ecology
B.S. 2005
M.S. 2007
DPH 2010

Paul M. Orwin, 2003
Professor of Biology
B.S. 1991 Harvey Mudd College
Ph.D. 2001, University of Minnesota

Bradford (Kensil) Owen, 2007
Associate Professor of Communication Studies, Interim Chair
B.A. 1979, Loyola Marymount University

Tomasz Owercowicz, 2011
Associate Professor of Biology

Julie Paegle, 2006
Professor of English

Yumi Pak, 2014
Assistant Professor of English
B.A. 2004, M.A. 2009, University of California, Santa Cruz
Ph.D. 2012, University of California, San Diego

Deborah A. Parsons, 1996
Associate Professor of Criminal Justice
B.A. 1990, University of California, Irvine
M.S. 1992, California State University, Long Beach
Ph.D. 1996, University of California, Irvine

Shawn Patrick, 2015
Associate Professor of Special Education, Rehabilitation and Counseling
B.S. 1995, Saint Louis University
M.A. 1997, University of South Dakota
Ph.D. 2002, Northern Illinois University

Gary D. Patterson, 1987
Professor of Management
B.A. 1973, B.S. 1973, California State University, Fresno
M.A. 1976, Indiana University, Bloomington
J.D. 1983, Western State University, Fullerton
Hang Pei, 2016
Assistant Professor of Accounting and Finance
B.A. 2007, Beihang University
Ph.D. 2016, The George Washington University

Kathie Pelletier, 2008
Professor of Management
B.A. 1982, San Diego State University
M.S. 1998, California State University, San Bernardino
Ph.D. 2009, Claremont Graduate University, CA

Ronald K. Pendleton, 1981
Professor of Education
B.A. 1964, California State College, Humboldt
M.A. 1978, California State University, Long Beach
Ph.D. 1981, Arizona State University

Jason Magabo Perez, 2016
Assistant Professor of English
B.A., 2003, University of California, San Diego
M.F.A., 2006, New College of California
Ph.D. 2016, University of California, San Diego

Margaret A. Perry, 1987
Professor of Theatre Arts
B.A. 1975, M.F.A. 1985, San Diego State University

Bonnie L. Petry, 1992
Librarian
B.A. 1979, California State University, Sacramento
M.L.S. 1989, University of California, Los Angeles

Kathleen M. Phillips, 2001
Lecturer in Education
B.A. 1987, Michigan State University
M.A. 1994, California State University, San Bernardino

Renee Pigeon, 1990
Professor of English
B.A. 1978, University of California, Santa Barbara
M.A. 1984, Ph.D. 1988, University of California, Los Angeles

David Polcyn, 1988
Professor of Biology, Associate Chair
B.A. 1981, California State University, Fullerton
M.A. 1983, Ph.D. 1988, University of California, Riverside

Matthew Poole, 2015
Professor of Art, Chair
B.F.A. 1996, Ruskin School of Fine Art, University of Oxford
M.F.A. 1997, University of Northumbria, Newcastle-Upon-Tyne

Shelly Pope, 1993
Counselor
B.S. 1981, M.S. 1989, California State University, San Bernardino

Mihaela Popescu, 2006
Associate Professor of Communication Studies
B.A. 1994, University of Bucharest, Romania
M.A. 1995, Central European University
M.A. 2001, Ph.D. 2008, University of Pennsylvania

Thomas E. Provenzano, 1992
Professor of Theatre Arts
B.A. 1978, University of California, Berkeley
M.F.A. 1992, University of California, Los Angeles

Lynne (Susie) Pryor, 2017
Associate Professor of Management
B.A. 1995, M.B.A. 1999, MidAmerica Nazarene University
Ph.D. 2006, University of Nebraska

Timothy E. Pytell, 2003
Professor of History
B.A. 1985, Colorado Springs College
M.A. 1990, Ph.D. 1999, New York University

Haiyan Qiao, 2007
Associate Professor of Computer Science and Engineering
B.S. 1993, M.S. 1996, Huanzhong University, China
M.S. 2002, North Dakota State University
Ph.D. 2007, University of Arizona

Ranfeng Qiu, 2010
Associate Professor of Management
B.S. 2000, University of International Business and Economics
M.A. 2005, Indiana University at Bloomington
Ph.D. 2010, Rutgers University, New Jersey

Barbara A. Quarton, 1999
Librarian
B.A. 1977, University of San Diego
M.L.I.S. 1999, San Jose State University

James V. Radomski, 1994
Professor of Music
B.M., B.A. 1976, Oberlin College
M.A. 1981, University of California, Berkeley
Ph.D. 1992, University of California, Los Angeles

Alison Petty Raggouette, 2006
Associate Professor of Art
B.F.A. 1997, Concordia University
M.F.A. 2004, California College of the Arts

Luz Ramirez, 2001
Professor of English
B.A. 1991, Tulane University
M.A. 1994, Ph.D. 1998, University of Texas, Austin

Jason Reimer, 2001
Professor of Psychology
B.A. 1993, M.A. 1996, University of Nebraska at Omaha
Ph.D. 2001, University of Nebraska-Lincoln

John Reitzel, 2014
Assistant Professor of Criminal Justice
B.A. 2001, SUNY, Cortland
M.A. 2003, Ph.D. 2006, University of Florida, Gainesville

Paul A. Renteln, 1991
Professor of Physics
B.A. 1981, University of California, Berkeley
Ph.D. 1988, Harvard University
Ernesto M. Reza, 1987
Professor of Management
B.A. 1977, Pitzer College
M.A. 1982, Ph.D. 1992, University of Michigan

David Rhoads, 2013
Assistant Professor of Biology
B.S. 1994, Pennsylvania State University
Ph.D., 1992, Michigan State University

Robert B. Ricco, 1992
Professor of Psychology, Chair
B.A. 1980, New York University
Ph.D. 1987, Temple University

Greg Richey, 2006
Lecturer in Accounting and Finance
B.A. 1991, University of California, Riverside
M.B.A. 2001, California State University, San Bernardino

David M. Riefer, 1985
Professor of Psychology, Assistant Dean
B.A. 1975, University of California, Los Angeles
Ph.D. 1981, University of Illinois, Urbana-Champaign

Matt L. Riggs, 2005
Professor of Psychology
B.A. 1979, Bethany College, KS
M.S. 1986, Ph.D. 1989, Kansas State University

Iris Riggs, 1988
Professor of Teacher Education and Foundations
B.A. 1980, Bethany College
M.S. 1986, Kansas State University
Ph.D. 1988, Kansas State University

Basemeh Rihan, 2015
Lecturer in Communications Studies
B.A. 2006, California State University, San Marcos
M.A. 2008, California State University, San Bernardino

Jose Rivera, 2013
Lecture in Communication Studies
M.A. 2011, California State University, San Bernardino

Terry L. Rizzo, 1988
Professor of Kinesiology
B.A. 1973, Northeastern Illinois University
M.Ed. 1974, University of Arizona
Ph.D. 1983, University of Illinois, Urbana-Champaign

Peter Robertshaw, 1989
Professor of Anthropology, Chair

Stacie Robertson, 2016
Associate Professor of Education
B.S. 1998, Illinois State University
M.S. 1995, University of Illinois
Ph.D. 2003, Penn State University

Karen Robinson, 2014
Assistant Professor of Sociology
B.A. 1998, University of California, Los Angeles
Ph.D. 2011, University of California, Irvine

Louie Rodriguez, 2009
Associate Professor of Education
B.A. 1998, California State University, San Bernardino
E.D.M. 1999, Ph.D. 2005, Harvard University

Alexandru Roman, 2013
Associate Professor of Public Administration
Ph.D., 2013, Florida Atlantic University

Jenevieve Roper, 2015
Assistant Professor of Kinesiology
B.S. 2009, University Of Nevada
M.S. 2010, University Of Nevada, Las Vegas
Ph.D. 2015, University Of New Mexico

Lawrence Rose, 2011
Professor of Accounting and Finance
Dean
B.S. 1976, Bradley University
M.A. 1978, Northern Illinois University
Ph.D. 1985, Texas A and M

Karen Rowan, 2008
Assistant Professor of English
B.A. 1996, Guilford College
Ph.D. 2005, University of Albany

Tony D. Roy, 1992
Professor of Philosophy
B.A. 1979, M.A. 1988, University of California, San Diego
Ph.D. 1991, University of California, Davis

DeShea R. Rushing, 1985
Lecturer in English
B.A. 1981, California State University, Long Beach
M.A. 1983, California State University, San Bernardino

John Russell, 2013
Assistant Professor of Music
Ph.D., 2013, University of Southern California

Jason Ryan, 2011
Professor of Marketing
B.A. 1995, Swarthmore College
M.B.A. 2000, Washington University
A.M. 2002, Washington University
Ph.D. 2007, University College Dublin

Amanda Rymal, 2014
Assistant Professor of Kinesiology
B.A. 2005, Laurentian University, Ontario
M.A. 2007, Ph.D. 2011, University of Ottawa

Yvette Saavedra, 2016
Assistant Professor of History
B.A. 2001, Pitzer College
M.A. 2003, University of Texas at El Paso
Ph.D. 2013, University of Texas at El Paso
Michael Salvador, 2012  
Professor of Communication Studies, Chair  
Ph.D., University of Utah, 1989  

Richard Samuelson, 2007  
Associate Professor of History  
B.A. 1992, Bates College  
M.A. 1995, Ph.D. 2000, University of Virginia  

Pedro Santoni, 1988  
Professor of History  
B.A. 1978, University of Notre Dame  
J.D. 1981, University of Puerto Rico  
Ph.D. 1987, El Colegio de Mexico  

Ghulam Sarwar, 2006  
Professor of Accounting and Finance  
B.S. 1980, University of Faisalabad  
M.S. 1984, University of Philippines  
Ph.D. 1989, University of Nebraska, Lincoln  
Ph.D. 1997, University of Missouri-Columbia  

Joseph A. Scarcella, 1998  
Professor of Education  
Ph.D. 1997, University of Missouri-Columbia  

Gina Schlesseleman-Tarango, 2014  
Librarian  
B.A. 2007, Drake University  
M.S. 2012, University of Colorado at Denver  
M.L.I.S. 2014, University of Denver  

Terry Schmitt, 2006  
Student Services Professional in Student Health Center  
B.A. 1972, M.A. 1974, Ph.D. 1978, University of California, Riverside  

Donna L. Schnorr, 1998  
Professor of Education  
B.A. 1984, Flagler College  
M.A. 1986, Boston University  
Ph.D. 1998, George Mason University  

Andrea Schoepfer, 2007  
Associate Professor of Criminal Justice  

Pamela J. Schram, 1998  
Professor of Criminal Justice  
B.S. 1988, Loyola University of Chicago  
M.A. 1990, Rutgers University  
Ph.D. 1996, Michigan State University  

Cynthia Schreihans, 2006  
Lecturer in Management  
B.A. 1998, M.B.A. 2000, California State University, San Bernardino  
Ph.D. 2006, University of La Verne  

Lynn Scow, 2016  
Assistant Professor of Mathematics  
B.A. 2004, UC Berkley  
Ph.D. 2010, UC Berkley  

Craig Seal, 2011  
Professor of Management, Assistant Dean  
B.A. 1991, Santa Clara University  
M.A. 1995, Boston College  
Ph.D. 2007, George Washington University  

Victoria A. Seitz, 1991  
Professor of Marketing, Chair  
B.S. 1978, Kansas State University  
M.S. 1984, Ph.D. 1987, Oklahoma State University  

David Senteney, 2014  
Associate Professor of Accounting and Finance  
B.S. 1980, Eastern Illinois University  
M.A.S. 1983, Ph.D. 1987, University Of Illinois, Urbana-Champaign  

Lisa Shamansky, 1989  
Professor of Chemistry and Biochemistry  
B.S. 1980, Indiana University, Bloomington  
Ph.D. 1986, University of Illinois, Urbana  

Conrad Shayo, 1994  
Professor of Information and Decision Sciences  
B. of Commerce 1981, University of Dar-Es-Salaam, Tanzania  
M.B.A. 1985, University of Nairobi, Kenya  
Ph.D. 1995, Claremont Graduate University  

Donna Shea, 2006  
Lecturer in Education  
B.A. 1998, M.A. 2000, California State University, San Bernardino  

Lane Shafter Bishop, 2015  
Assistant Professor in Communications Studies  
B.A. 1989, University Of California, Santa Barbara  
MFA 1993, University of Southern California  

Astrid Sheil, 2008  
Professor of Communication Studies  
B.S. 1977, Georgetown University  
M.S. 1998, University of Tennessee  
Ph.D. 2003, University of Tennessee  

Herbert P. Shon, 2004  
Assistant Professor of Social Work  
B.A. 1987, California State University, Los Angeles  
M.S.W. 1991, University of California, Los Angeles  
Ph.D. 2001, University of California, Los Angeles  

Kenneth S. Shultz, 1992  
Professor of Psychology  
B.A. 1984, State University of New York, College at Potsdam  
M.A. 1987, Ph.D. 1992, Wayne State University  

Shannon R. Siegel, 2005  
Associate Professor of Kinesiology  
B.A. 1989, University of California, Santa Cruz  
M.A. 1995, University of Texas, Austin  
Ph.D. 1999, Michigan State University  

Anthony Silard, 2016  
Assistant Professor of Public Administration  
B.A. 1989, UC Berkley  
M.P.P. 1995, Harvard JFK School of Government  
Ph.D. 2016, IESE Business School
James Simon, 2017
Assistant Professor of Social Work
B.A 2004 California State University Northridge
M.S.W 2006, University of California, Los Angeles
Ph.D. 2016, University of Southern California

Brent Singleton, 2002
Librarian

Barbara Sirotnik, 1980
Professor of Information and Decision Sciences
A.B., B.S. 1973, M.S. 1979, Ph.D. 1980, University of California, Riverside

John Skillman, 1998
Professor of Biology
B.S. 1988, Oregon State University
Ph.D. 1994, Duke University

Alan L. Smith, 2000
Professor of Geological Sciences, Chair
B.Sc. 1963, University of London (Kings College)
Ph.D. 1968, University of California, Berkeley

Douglas C. Smith, 1995
Professor of Chemistry and Biochemistry
B.A. 1988, Wittenburg University, Ohio
Ph.D. 1994, Purdue University

Johanna L. Smith, 2000
Professor of Theatre Arts
B.A. 1994, Miami University, Ohio
M.F.A. 1998, Arizona State University

Laurie Smith, 2002
Professor of Social Work, Director
B.A. 1980, Michigan State University
M.S.W. 1990, University of Minnesota
Ph.D. 1999, University of California, Los Angeles

Terry D. Smith, 2006
Professor of Theatre Arts
B.F.A. 1974, Virginia Commonwealth University, Richmond
M.A. 1993, California State University, Northridge
Ph.D. 1996, University of Washington, Seattle

Hosung So, 2002
Professor of Kinesiology
B.S. 1993, M.S. 1995, Chug-Ang University, Seoul Korea
Ph.D. 2002, University of Nevada, Las Vegas

Joon Son, 2012
Assistant Professor of Information and Decision Sciences
B.S. 1994, University of California, Berkeley
M.S. 2008, University of Minnesota Twin Cities
Ph.D. 2008, University of Idaho

Chano Song, 2015
Assistant Professor of Marketing
B.S. 2004
M.B.A. 2010, University of California, San Diego
Ph.D. 2015, Kent State University

Eva Marie Sorrell, 2005
Associate Librarian
B.A. 1995, University of California, Riverside
M.L.I.S. 2001, University of California, Los Angeles

Shannon Sparks, 2016
Assistant Professor of Special Education, Rehabilitation and Counseling
B.S. 2006, University of Nevada, Las Vegas
M.A. 2007, University of Nevada, Las Vegas
Ph.D. 2013, University of Nevada, Las Vegas

Brad Spence, 2006
Professor of Art
B.A. 1990, University of Florida
M.F.A. 1996, California Institute of the Arts

Catherine E. Spencer, 2000
Lecturer in Education
B.A. 1983, California State University, Fullerton
M.A. 1998, California State University, San Bernardino
Ph.D. 2007, University of California, Riverside

Brett J. Stanley, 1994
Professor of Chemistry and Biochemistry, Chair
B.S. 1987, University of Pittsburgh
Ph.D. 1992, Utah State University

Charles S. Stanton, 1987
Professor of Mathematics, Chair
A.B. 1977, University of California, Berkeley
M.A. 1980, Ph.D. 1982, University of Wisconsin, Madison

Beth Steffel, 2007
Assistant Professor of Art
B.F.A. 2004, University of Akron
M.F.A. 2006, University of Cincinnati

Daniel Stewart, 2013
Lecturer in Education
Ph.D., 2012, Universidad Central de Nicaragua

Walter T Stewart, Jr., 1984
Professor of Information and Decision Sciences
B.A. 1976, M.A. 1979, Brigham Young University
Ph.D. 1984, Ohio University

Deborah E. Stine, 1999
Professor of Education
B.A. 1969, Lake Erie College
M.Ed. Lynchburg College
M.A. 1993, California State University, San Bernardino
Ph.D. 1999, University of California, Riverside

Michael Stull, 2006
Professor of Management, Chair
B.A. 1988, M.B.A. 1989, California State University, San Bernardino
EDM 2005, Case Western Reserve University
Becky Sumbera, 2017
Lecturer of Educational Leadership and Technology
B.A. 1986, Pepperdine University
B.S. 1990, California State University Sacramento
M.A. 2002, National University
Ph.D. 2016, Pepperdine University

Stuart S. Sumida, 1992
Professor of Biology
B.A. 1981, M.A. 1983, University of California, Los Angeles
Ph.D. 1987, University of California, Los Angeles

Dianne Swanson, 2012
Student Services Professional
M.S. California State University, San Bernardino, 2002

Stanley L. Swartz, 1989
Professor of Education
A.B. 1970, Findlay College
M.Ed. 1972, Ph.D. 1976, Bowling Green State University

Dwight P. Sweeney, 1990
Professor of Education
A.B. 1970, University of Notre Dame
M.A. 1971, Ph.D. 1981, University of Michigan

J. Chad Sweeney, 2011
Associate Professor of English
B.A. 1993, University of Oklahoma Norman Campus
M.F.A. 2006, California State University, San Francisco
Ph.D. 2011, Western Michigan University

Judith Sylva, 2006
Professor of Education
B.A. 1992, University of California, Irvine
Ph.D. 1999, University of California, Riverside

Dimitri Tamalis, 2016
Professor of Health Sciences and Human Ecology
Chair
B.S. 1990, McPherson College
Ph.D. 1997, Kansas State University

Jeff Andreas Tan, 2008
Student Services Professional
B.A. 1996, University of California, San Diego
M.S. 2004, Ph.D. 2005, University of Missouri

John Tate, 1989
Associate Professor of Chemistry and Biochemistry
B.Sc. 1979, Ph.D. 1982, University of Sheffield, England

Julie Taylor, 2016
Assistant Professor of Communication Studies
B.A. 2008, Colorado State University
M.A. 2010, Colorado State University
Ph.D. 2014, University of Utah, Salt Lake

Ballman Terry, 2013
Professor of Spanish
Ph.D. 1985, University of Texas

Mary Texeira, 1994
Professor of Sociology

Stephen G. Tibbetts, 2000
Professor of Criminal Justice
B.A. 1991, University of Florida
M.A. 1994, Ph.D. 1997, University of Maryland

Javier Torner, 1985
Professor of Physics
Director
B.S. 1978, J.P.M. Mexico
M.S. 1972, Ph.D. 1985, Illinois Institute of Technology

Nena M. Torrez, 1996
Professor of Education
A.B. 1972, University of California, Berkeley
J.D. 1975, California Western School of Law
M.A. 1980, California State University, Dominguez Hills
Ph.D. 1988, Claremont College

Mayo Toruño, 1983
Professor of Economics, Chair
B.A. 1974, B.A. 1975, M.A. 1976, California State University, Los Angeles
M.A. 1979, Ph.D. 1983, University of California, Riverside.

Rolland Trapp, 1994
Professor of Mathematics
B.A. 1984, Knox College
M.A. 1985, Ph.D. 1990, Columbia University

David A. Turner, 2001
Professor of Computer Science and Engineering
B.S. 1980, Wichita State University
M.S. 1983, University of Massachusetts
Ph.D. 2001, Institute Eurecom, Sophia Antipolis, France

Jodie B. Ullman, 1996
Professor of Psychology

Timothy D. Usher, 1990
Professor of Physics
B.S. 1981, Appalachian State University
Ph.D. 1990, University of South Carolina

Elsa O. Valdez, 1993
Professor of Sociology

Amy van Schagen, 2016
Assistant Professor of Psychology
B.S. 2007, University of North Carolina at Greensboro
M.S. 2013, University of North Carolina at Greensboro
Ph.D. 2016, University of North Carolina at Greensboro

William Vanderburgh, 2014
Professor of Philosophy
B.A. 1993, University of Western Ontario
M.A. 1994, University of Western Ontario
Ph.D. 2001, University of Western Ontario
Maiyoua Vang, 2014
Assistant Professor of Education
B.A. 1995, M.A. 2004, California State University, Fresno
D.E.D. 2008, University of California, Davis

Montgomery VanWart, 2005
Professor of Public Administration
B.A. 1973, Franklin College, PA
M.A. 1981, Lewis and Clark College
Ph.D. 1990, Arizona State University

Javad Varzandeh, 1987
Professor of Information and Decision Sciences
B.S. 1974, National University, Iran
M.S. 1976, St. Mary's University
Ph.D. 1981, Oklahoma State University

Jill Vassilakos-Long, 1999
Librarian
B.A. 1990, Stanford
M.L.S. 1992, San Jose State University

Teresa Velasquez, 2012
Assistant Professor of Anthropology
Ph.D., University of Texas at Austin, 2012

Belisario Ventura, 1989
Professor of Mathematics
Licent. 1976, University of del Valle, Guatemala
M.A. 1978, Ph.D. 1984, University of California, Berkeley

Michael Verdi, 2001
Professor of Education
B.S. 1985, University of Notre Dame
M.S. 1986, Northwestern University
Ph.D. 1994, Arizona State University

Angie Verissimo, 2014
Assistant Professor of Health Science
B.A. 2005, University of Redlands
M.P.H. 2007, Ph.D. 2011, University of California, Los Angeles

Caroline H. Vickers, 2004
Professor of English
B.A. 1994, University of Georgia
M.S. 1997, Georgetown University
Ph.D. 2004, University of Arizona

J. Paul Vicknair, 1982
Professor of Mathematics
B.S. 1974, M.S. 1978, Ph.D. 1982, Louisiana State University

Christina Villegas, 2015
Assistant Professor of Political Science
B.A. 2003, California State University, San Bernardino
M.A. 2006 University of Dallas
Ph.D. 2013, University of Dallas

Eric Vogelsang, 2015
Assistant Professor of Sociology
B.S. 1996, Syracuse University
M.S. 2011, University Of Wisconsin, Madison
Ph.D. 2015, University Of Wisconsin, Madison

Kerstin Voigt, 1994
Professor of Computer Science and Engineering, Director
Vordiplom 1981, Johann-Wolfgang-Geoth University of Frankfurt, Germany
M.S. 1984, Ph.D. 1994, Rutgers University

Laura J. Wallace, 2000
Professor of Mathematics
B.S. 1991, California State Polytechnic University, Pomona
M.S. 1992, Ph.D. 1998, University of California, Riverside

Wenxiang Wang, 1994
Professor of Mathematics
B.A. 1982, Tsinghua University, Beijing, China
M.A. 1984, Ph.D. 1988, Princeton University

Zhonghui Wang, 2017
Assistant Professor of Management
B.E. 1991, Northern Jiaotong University
M.B.A. 2004, Georgia Institute of Technology
M.S.F. 2008, Boston College
Ph.D. 2013, Purdue University

Sharon L. Ward, 1999
Professor of Psychology
B.A. 1993, California State University, San Bernardino
Ph.D. 1998, University of California, Riverside

Andrew Nick Watson, 2002
Lecturer of Social Work
B.A.S.W. 1982, San Diego State University
M.S.W. 1984, San Diego State University

Sang Ouk Wee, 2017
Assistant Professor of Kinesiology
B.S. 2000, Korea University
M.E. 2004, Auburn University
M.S. 2012, California State University Northridge
Ph.D. 2017, University of Illinois at Chicago

Douglas Weiss, 2014
Assistant Professor of Criminal Justice
B.S. 2002, Illinois Institute of Technology
M.A. 2008, University of Southern Carolina
Ph.D. 2014, University of Maryland

Joseph Wellman, 2014
Assistant Professor of Psychology

Dudley J. Wiest, 1993
Professor of Education
B.S. 1979, Concordia College
M.A. 1983, California State University, Northridge
Ph.D. 1992, Claremont Graduate University

Amanda S. Wilcox-Herzog, 1999
Professor of Psychology
B.A. 1988, University of California, Irvine
M.Ed. 1992, Chapman University
M.A. 1995, Ph.D. 1999, Purdue University
Kimberlyn Williams, 2001
Professor of Biology
B.A. 1979, University of California, Davis
Ph.D. 1987, Stanford University

Peter D. Williams, 1983
Professor of Mathematics
Interim Dean
B.S. 1979, Ph.D. 1983, University of St. Andrews, Scotland

Doris Wilson, 2008
Associate Professor of Education
B.S. 1964, Southwest Missouri State University
M.S. 1971, Azusa Pacific College
Ed.D. 1975, University of Southern California

John M. Winslade, 2003
Professor of Education
B.A. 1973, M.A. 1990, University of Auckland
Ph.D. 2003, University of Maikato

Aurora Wolfgang, 1992
Professor of World Languages and Literatures
B.A. 1984, University of California, Santa Cruz
M.A. 1986, Ph.D. 1993, New York University

Eugene H. Wong, 1994
Professor of Psychology
B.A. 1986, University of California, Los Angeles
M.A. 1989, Ph.D. 1991, University of California, Riverside

Laura M. Woodney, 2005
Professor of Physics
B.A. 1993, John Hopkins University
M.S. 1997, Ph.D. 2000, University of Maryland

Randall L. Wright, 2003
Professor of Education
Ph.D. 2001, University of Calgary

John Wu, 2008
Professor of Information and Decision Sciences
Ph.D., 1995, Penn State University

Bo Xu, 2008
Associate Professor of Geography and Environmental Sciences
B.S. 1998, Beijing Normal University
M.S. 2001, East China Normal University
M.S. 2007, Ph.D. 2008, University of Georgia

David N. Yaghoubian, 2003
Professor of History
B.A. 1989, University of California, Santa Cruz
M.A. 1994, Ph.D. 2000, University of California, Berkeley

Priyanka Yalamanchili, 2015
Assistant Professor of Special Education, Rehabilitation and Counseling
B.A. 2006
M.A. 2008
Ph.D. 2014, Southern Illinois University, Carbond

Shumei Yang, 1997
Professor of Chemistry and Biochemistry
B.S. 1982, Zhengzhou University, P.R. China
Ph.D. 1991, Iowa State University

Taewon Yang, 2002
Associate Professor of Accounting and Finance, Chair
B.S. 1993, Hankuk Aviation University
M.B.A. 1996, Ohio State University
Ph.D. 2002, University of Massachusetts

King-To Yeung, 2014
Assistant Professor of Sociology
B.A. 1996, University of Guam
M.A. 1998, Texas Tech University
Ph.D. 2007, Rutgers University

Xinying Yin, 2013
Assistant Professor of Education
Ph.D., 2013, Indiana University - Bloomington

Laura H. Young, 1995
Associate Professor of Education

Tong L. Yu, 1986
Professor of Computer Science and Engineering
B.S. 1977, Chinese University of Hong Kong
M.S.E. 1982, Ph.D. 1986, Johns Hopkins University

Kay Zemoudeh, 1990
Professor of Computer Science and Engineering
B.S. 1981, M.S. 1984, University of Southwestern Louisiana
Ph.D. 1990, University of South Carolina

Scot J. Zentner, 1993
Professor of Political Science
B.A. 1988, California State University, San Bernardino
M.A. 1991, Michigan State University
Ph.D. 1994, Michigan State University

Renwu Zhang, 2011
Associate Professor of Chemistry
B.S. 1988, Anhui Normal University
M.S. 1993, University of Science China
Ph.D. 2002, University of Missouri

Jing Zhang, 2016
Assistant Professor of Management
B.A. 2009, Shandong Normal University
M.A. 2014, University of Houston
Ph.D. 2016, University of Houston

Jun (Jake) Zhu, 2002
Professor of Information and Decision Sciences, International Associate Dean
B.A. 1988, Hunan Educational Institute, China
M.A. 1991, University of Redlands
Ph.D. 1997, University of California, Riverside
Jenny Zorn, 1989
Professor of Geography and Environmental Studies
Associate Provost
B.A. 1980, Flagler College
M.A. 1982, Ph.D. 1990, Ohio State University

Professor, Kinesiology. Emeritus, 2010

Gary R. Griffing  
Professor, Mathematics. Emeritus, 2015

Richard Griffiths  
Professor, Education. Emeritus, 2000

Jeffrey D. Hackel  
Professor, Geography. Emeritus, 2011

Diane F. Halpern  
Professor, Psychology. Emeritus, 2001

Lee W. Hanson  
Emeritus, 2011

Dalton Harrington  
Professor, Biology. Emeritus, 1994
Robert R. Harrison
Professor, Art. Emeritus, 1972

Charles V. Hartung
Associate Professor, English. Emeritus, 1977

Carol P. Haviland
Professor, English. Emeritus, 2009

Melvin G. Hawkins
Professor, Social Work. Emeritus, 1992

Frederick Hebein
Student Services Professional, Marketing. Emeritus, 2004

John Heeren
Professor, Sociology. Emeritus, 2007

Beverly L. Hendricks
Emeritus, 2000

Linvol Henry
Professor, Accounting. Emeritus, 2004

Mildred M. Henry
Professor, Education. Emeritus, 1983

Jose S. Hernandez
Professor, Education. Emeritus, 2009

Philip L. Herold
Associate Professor, Psychology. Emeritus, 1992

Charles D. Hoffman
Professor, Psychology. Emeritus, 2008

Irvin Howard
Professor, Education. Emeritus, 2004

Sherry M. Howie
Professor, Education. Emeritus, 2003

Dennis Ikenberry
Professor, Computer Science. Emeritus, 2000

Harold A. Jambor
Lecturer, Sociology. Emeritus, 1980

Jotindar S. Johar
Professor, Marketing. Emeritus, 2010

Kenneth Johns
Professor, Education. Emeritus, 2004

Jorun Johns
Professor, World Languages. Emeritus, 2000

Dorothy Johnson
Professor, Nursing. Emeritus, 1983

Paul J. Johnson
Professor, Philosophy. Emeritus, 1994

Marshall Jung
Professor, Social Work. Emeritus, 2000

Julius D. Kaplan
Professor, Art. Emeritus, 2003

Albert K. Karnig
Professor, Political Science. Emeritus, 2012

Martha Kazlo
Emeritus, 2004

Sant K. Khalsa
Professor, Art. Emeritus, 2013

Rauf A. Khan
Professor, Accounting. Emeritus, 2001

Brij B. Khare
Professor, Political Science. Emeritus, 1999

Nikolai E. Khokhlov
Professor, Psychology. Emeritus, 1992

Jeanne King
Professor, Management. Emeritus, 2007

Adria Klein
Professor, Education. Emeritus, 2000

Barry Knight
Professor, Accounting. Emeritus, 2000

Kazim Konyar
Professor, Economics. Emeritus, 2016

Nathan Kravetz
Professor, Education. Emeritus, 1985

Guenther G. Kress
Professor, Public Administration. Emeritus, 2005

Joan Kritzberg
Professor, Management. Emeritus, 2000

Ellen Kronowitz
Professor, Education. Emeritus, 2004

Kevin Lamude
Professor, Communication Studies. Emeritus, 2004

Kenneth E. Lane
Professor, Education. Emeritus, 2006

Barbara D. Larrivee
Professor, Education. Emeritus, 2011

Robin Larsen
Professor, Communication Studies. Emeritus, 2010

Janice Layton
Professor, Nursing. Emeritus, 2010

Lynne Leach
Professor, Nursing. Emeritus, 2011

Robert A. Lee
Professor, English. Emeritus, 1992
Michael LeMay
Professor, Political Science. Emeritus, 2004

Steven M. Levy
Professor, Management. Emeritus, 2000

Eldon Lewis
Professor, Accounting. Emeritus, 2001

Richard Lillie
Associate Professor, Accounting. Emeritus, 2013

Roger Lintault
Professor, Art. Emeritus, 2000

Robert H. London
Professor, Teacher Education and Foundations. Emeritus, 2016

Janice Loutzenhiser
Associate Professor, Management. Emeritus, 2008

Joseph E. Lovett
Professor, Health Science. Emeritus, 2006

Lee A. Lyons
Professor, Theatre Arts. Emeritus, 2008

Loralee MacPike
Professor, English. Emeritus, 1997

Sarojam Mankau
Professor, Biology. Emeritus, 1994

Kenneth A. Mantei
Professor, Chemistry. Emeritus, 2005

Norton E. Marks
Professor, Marketing. Emeritus, 2005

Carolyn Martin
Professor, Kinesiology. Emeritus, 2004

Nancy Mary
Professor, Social Work. Emeritus, 2007

Audrey Mathews
Professor, Public Administration. Emeritus, 2006

Camille Mayers
Assistant Professor, Education. Emeritus, 2013

Clark Mayo
Professor, English. Emeritus, 2001

Ward M. McAfee
Professor, History. Emeritus, 2002

Rosemary McCaslin
Social Work.

Jack McDonnell
Professor, Information. Emeritus, 2000

Theodore R. McDowell
Professor, Geography. Emeritus, 2008

Larry E. McFatter
Professor, Music. Emeritus, 2010

Susan J. McGee-Stehsel
Assistant Professor, Nursing. Emeritus, 2016

George McGinnis
Professor, Art. Emeritus, 2010

Mary L. McGregor
Associate Professor, Nursing. Emeritus, 1992

Patrick McInturff
Professor, Management. Emeritus, 2016

Susan Meisenhelder
Professor, English. Emeritus, 2006

Thomas Meisenhelder
Professor, Sociology. Emeritus, 2004

Lal S. Mian
Professor, Health Science. Emeritus, 2016

Randi L. Miller
Professor, Sociology. Emeritus, 2009

Steven Mintz
Professor, Accounting. Emeritus, 2003

Mary E. Molle
Professor, Nursing. Emeritus, 2010

Clark Molstad
Professor, Management. Emeritus, 2010

Kenton L. Monroe
Professor, Psychology. Emeritus, 1988

Thomas E. Moody
Associate Professor, Philosophy. Emeritus, 2012

Thelma Moore-Steward
Professor, Educational Leadership and Technology. Emeritus, 2016

Joseph R. Moran
Professor, Art. Emeritus, 2003

Teresa Morris
Social Work.

Bernhardt L. Mortensen
Associate Professor, Sociology. Emeritus, 1978

Richard Moss
Professor, Education. Emeritus, 2002

T. Patrick Mullen
Professor, Education. Emeritus, 2002

James Mulvihill
Professor, Geography. Emeritus, 2007

Jamal Nassar
History.
Art Nelson
Librarian. Emeritus, 1991

Frederick A. Newton
Professor, Psychology. Emeritus, 2005

Ruth A. Norton
Professor, Education. Emeritus, 2010

David H. Null
Professor, Physical Education. Emeritus, 1977

C. Michael O’Gara
Professor, Kinesiology. Emeritus, 1977

James S. Okon
Professor, Mathematics. Emeritus, 2012

Shari Oliver
Student Services Professional. Emeritus, 2006

Walter Oliver
Emeritus, 2001

Theron Pace
Professor, English. Emeritus, 2006

E. Phillip Page
Professor, English. Emeritus, 2006

Elinore H. Partridge
Associate Professor, English. Emeritus, 2003

Mary G. Patterson
Professor, Nursing. Emeritus, 1985

Gordon Patzer
Professor, Accounting. Emeritus, 2004

Cynthia Paxton
Professor, Health Science. Emeritus, 2007

Clifford T. Paynton
Professor, Sociology. Emeritus, 1992

M. Jean Peacock
Professor, Psychology. Emeritus, 2013

Lloyd E. Peake
Professor, Management. Emeritus, 2010

Dennis M. Pederson
Professor, Chemistry. Emeritus, 2010

Stuart M. Persell
Professor, History. Emeritus, 2002

John M. Pfau
Professor, History. Emeritus, 1982

Thomas J. Pierce
Professor, Economics. Emeritus, 2016

James C. Pierson
Professor, Anthropology. Emeritus, 2005

Bonnie J. Piller
Associate Professor, Education. Emeritus, 2012

Lee Porter
Dean, Extended Education. Emeritus, 1998

Chetan Prakash
Professor, Mathematics. Emeritus, 2013

Gregory L. Price
Professor, Kinesiology. Emeritus, 2009

Reginald Price
Professor, Kinesiology. Emeritus, 2005

Jerrold Pritchard
Professor, Music. Emeritus, 2004

Johnnie Ann Ralph
Emeritus, 2007

Nabil Y. Razzouk
Professor, Marketing. Emeritus, 2011

Cheryl A. Riggs
Professor, History. Emeritus, 2013

Dan C. Rinne
Professor, Mathematics. Emeritus, 2014

James Rogers
Professor, Management. Emeritus, 2001

Nancy E. Rose
Professor, Economics. Emeritus, 2010

Richard Rowland
Professor, Geography. Emeritus, 2007

Amanda Sue Rudisill
Professor, Theatre Arts. Emeritus, 1997

Treadwell Ruml, II
Professor, English. Emeritus, 2016

Mireille G. Rydell
Professor, World Languages. Emeritus, 1988

Elisabeth Ryland
Professor, Management. Emeritus, 2007

Judith M. Rymer
Professor, Education. Emeritus, 2002

Ralph Salmi
Professor, Political Science. Emeritus, 2007

Arthur Saltzman
Professor, Marketing. Emeritus, 2000

Ruth A. Sandlin
Professor, Education. Emeritus, 2012

Rowena Santiago
Professor, Education. Emeritus, 2011
