Students To Attend
Conference in Reno

Five CSCSB students will attend the National Student Association's Far Western Area Conference on "Higher Education Reform" May 2, 3, and 4, being held at the University of Nevada in Reno. The NSA has invited five delegates from various western colleges to participate in a series of ten seminars or workshops concerning student involvement in higher education. Representing CSCSB for the three day conference, will be Jerry Rhode - ASS President, Barry Thompson - ASS president - elect, Cy Smith - ASS V.P. - elect, Tom McBride, - coordinator for the Community University, and Dave Combs representing the Pawprint.

The purpose, as stated by the regional headquarters of the NSA at UCLA, is to re-emphasize the educational purpose of student power, to provide an experience in cross-fertilization of ideas and programs, and to create skills and establish a situation in which at least some student leaders can learn to organize for reform.

Out of the following ten seminars, each delegate will select three to participate in throughout the conference: Experimental Colleges, Student Legal Rights, Ethnic Studies Programs, Politics of Confrontation, Change through the System, Innovative Freshman Orientation Programs and Seminars, Student Initiated Curricula, Student Community Action Involvement, Uses of Political and Educational Campus Media, and Alternative Collegiate Structures and Education. Each seminar will feature a leader to direct the discussions who has had experience in the specific field.

LPA 69-70 Format

By ERIC ROMS TAD

The Lecture and Public Affairs Format for the Fall, Winter, and Spring quarters of '69-70 has been approved by the Lectures and Public affairs committee and the Finance Board. The new program, composed mainly by Mr. Haney Guttmacher On Population

Dr. Alan F. Guttmacher, well-known authority on planned parenthood, will lecture on "The World Population Problem: How Does it Effect You?" next Monday at 3:30 p.m. in P.S. 10.

Guttmacher, president of the Planned Parenthood - World Population Board, is also a faculty member of the Albert Einstein School of Medicine and is emeritus professor of obstetrics and gynecology at the Mount Sinai School of Medicine.

He is the author of many scientific and popular books and articles on contraception, infertility, and related subjects.

He is a native of Baltimore and a graduate of the Johns Hopkins School of Medicine where he later was associate professor of obstetrics and gynecology.

He was chairman of the medical committee of the International Planned Parenthood Federation from 1963 through 1968.

Assistant Professor of Art, promises to be one of the finest cultural programs ever presented at CSCSB. Next year's program differs radically from the one presented this year in that each quarter a package program of film and lectures will be centralized around one theme.

Beginning with the Fall quarter '69, the theme will be "Blackness in America," centering around civil strife and unrest, of some of the events scheduled are: a personal appearance by Mrs. Moger Evers, a music and black poetry program, and a lecture either by Dick Gregory or Floydl McClaskl. The theme for the Winter quarter will be "Ecology-Environment Earth" and some of the events planned are: a lecture by Mr. Palmer of CSBSC on Ecology, video tapes from N.B.C. and C.B.S., and an Energy Field Environment by Ross Drago. The theme for the Spring quarter will be "Experimental Music and Theater." Some of the events planned are: The illegitimate Theater, Paradise Now or 16mm Tapes, Indian Music Program, and BEHAVIORAL MODIFICATION. One of the events scheduled for '69-70 the program will cost a total of $4,903.00 for all three quarters.

A great deal of thought and planning has gone into the creation of this program and this will be a fantastic opportunity for the students of CSCSB to broaden their understanding of contemporary issues and of contemporary art.

Dr. Schaefer To Speak On 'Behavioral Modification'

By DON LANNON

"Behavioral Modification" will be the topic discussed by Dr. Halmuth H. Schaefer, internationally acclaimed psychologist, on Monday, May 5, at 3:30 p.m. in PS-10.

Dr. Schaefer, a frequent public speaker, has taught at the University of Chicago, Loyola University, University of Pittsburgh, Claremont Graduate School, and Loma Linda University.

Appointed to the California Research Committee in 1964, he is a member of the American Psychological Association, American Association for the Advancement of Science, and the New York Academy of Sciences.

Schaefer's presentation, sponsored by the Psychology Club, will be accompanied by a series of slides.

Rhode Relevant

During the ASB offices candidates’ speeches, and in a letter to the editor published last week in the Pawprint, Jerry Rhode, current ASB President, called attention to the lack of an invitation to attend a conference with Governor Reagan. The accusers claimed Rhode had been irresponsible, had undermined the image of the college, and had "... undone all the work he has put into communicating with the public."

Specifically, the charges referred to an article appearing in the Sun-Telegram, entitled “State College Student Leaders Snub Reagan.” Though the author of the article displayed some flair for alliteration, his slanted interpretation and selection of facts are obviously aimed at stirring the reactions of the same conservative element which killed Proposition 3.

Considering the source of the article should be enough to invalidate its intended slur of Rhode or his motives. However, those who felt compelled to believe the implied crap and throw it back in Rhode’s face undoubtedly took far more of a chance when they realized that when it comes to the feasibility of ANY student in California actually communicating with Reagan or the state legislators, Reagan is a shrewd politician who knows how to play both ends against the middle, and many of his critics are screwing students and education. Witness the $20.5 million he cut from the 1969-1970 support budget of the State College System; the fact that he rode into office largely on the tide of the public backlash against student dissent; and his open statements supporting more pigs on campus and tighter regulations regarding student freedoms.

Eight CSBST students experienced first-hand knowledge of just how hopeless is the communication gap that separates contemporary student values and concerns from the fifty and sixty year old politicians who make the decisions concerning our lives. When Rhode, Barry Thompson, Mark Michael, Jim Piccinni, Al Coffeeen, Sam Houston and Mike Clark attended the CSSTA conference in Sacramento, they scheduled two interview sessions with Senator Combs and Cologne’s administrative assistants. During these sessions, it was all our representatives could do to keep from throwing up. By and large, the first postulate of the legislatures is that the present “Established Order” is the only solution to society’s ills. If one could put the feelings of total frustration and nausea from meeting these politicians into a world, it would come close to “Blechhh!”

All factors considered, the most relevant, constructive move that Rhode could have made was just what he did: turn Reagan’s tokenistic gesture down. If a progressive change is to be achieved in the present educational system it certainly cannot be accomplished by rapping with the one man who stands for repression of student power and freedom.

If the Sun-Telegram had entitled the article, “Rhode Rejects Reagan as Relevant Recourse,” it would have been more to the point of accuracy. Anyway, alliteration is fun.

Fall Quarter

Counselors Needed For Orientation

Planning for the fall freshmen and new students orientation program gets underway this week. The three day live-in will take place 19-21 September, at an as yet undisclosed location, in the San Bernardino Mountain Resort area. About 20 student counselors will be needed to aid in the orientation program. Each counselor will be responsible for leading discussions, coordinating activities and programs, and in general helping the new students get acquainted with himself to CSBST counselors. Must be available to attend a workshop the week prior to the live-in and should also be able to help in the on-campus orientation program. Counselors must have been in residence at CSBST for at least one quarter. All students are urged to apply for a counselor position. Transportation, room and board will be furnished each counselor.

Application may be picked up in the Dean’s Activities and Housing Office of the Associated Student Body offices in BS 22. Deadline for application is May 20, 1969.

Letters

Cinco de Mayo

Voigt is “Cinco de Mayo”? Why the shout, “Viva Juarez!” The celebration of the 5th of May brings about in Mexico and in the Southwestern United States the commemoration of the famous raising of arms by the Mexican people against the regime of the Austrian “Buenaventura Maximilian,” who was appointed by Napoleon III and was used as a “puppet” for Napoleon and France.

Benito Juarez, the President who lead the Mexican people in the struggle for the republic during the "war of the reform" against the conservatives and Maximillian, is remembered for his great deed during the “Cinco de Mayo" celebration. A man, who like Abraham Lincoln had almost no advantages but genetic ones, and like George Washington raised “a standard to which the brave and the honest can repair.”

Most of all, and of particular interest, Juarez is remembered for the famous words he said, directing his thoughts to the tradition of so-called interference by European nations: “Entre los hombres como entre naciones, el respeto al derecho aeno es la paz.” “Among men as among nations, the respect to the rights of others is peace.”

The recognition and the traditional celebration which will take place in many cities and communities of the Southwest will be shared by this campus on Monday, May 5, when a Mexican Mariachi band is scheduled to perform between 12:00 and 1:00 p.m. in front of the cafeteria. Everyone is encouraged to wear any piece of authentic Mexican attire they have, even if just a "sombrero" or "huarache" (sandals). Ramon Ngarro, Student, CSBST.

At Swing

The Arrowhead Allied Arts Council of San Bernardino will present to the Inland Empire the Montreux Jazz Festival and the Cal Tjader Quintet in a jazz concert at Swing Auditorium, National Orange Show, 315 N. Seventh Street, San Bernardino, May 10 at 8 p.m.

Pianist Ramsey Lewis is the featured solo artist on the current scene and is the admitted "pace-setter for jazz groups throughout the nation. His recognition was capped when the National Academy of Recording Arts and Sciences awarded him a Grammy for his record, "The In Crowd." Backing him up and taking advantage of this chance, we have the opportunity to work toward our goals. But before we can begin this work, we must define those goals. We must have a direction. And once we find that direction, it is our responsibility to follow it.

Kris Sellers
Candidate for Soph. Sen.

Gluttons

Once again the quiet of our academic domicile is to be shattered May 25th by the annual shuffling and slopping of the Spring Cookout. The days activities are scheduled to begin at 2:00 p.m. in the gym area with a (Continued on page 3)

Direction

There is something wrong with the student attitude at CSBST. We have been told by "upper-classmen" that "nothing is happening." And at first, I thought they were right. I arrived on campus, went to class, and left. Then I became aware that something was happening. There are concerned people who are leading this campus. But leading it where? Where are we really going? Are we going to concern ourselves with representation? And if so, with representation of the majority, or of the minority, or of individuals only? Do we want to work on relevant, contemporary issues, or those which concern the future?

Here at CSBST, we are in an environment which few will ever have the chance to experience. That is, being members of a new school, where we have the chance to put into practice our ideas and beliefs, without being hampered by outmoded traditions and policies. The class of ‘73 has more than three years in which to take advantage of this chance; we have the opportunity to work toward our goals. But before we can begin this work, we must define those goals. We must have a direction. And once we find that direction, it is our responsibility to follow it.

Kris Sellers

Reports and facilities are available.

Tickets will be on sale next week in the cafeteria. As there are only 400 tickets to be sold you should get yours now.

Ticket prices are 50 cents for children, $1.00 for students, $1.50 for general public.

At 6 p.m. Chef O'Gara will have the钙e on the stage. The slopping and the slopping is to be done over Barbeque beef, corn on the cob, assorted salads and fat free, non-toxic pop. Thirty volunteers are needed to help with the serving. Anyone interested in working should contact Coach O'Gara or his secretary. All helpers will receive a free dinner.

As I See It...

Are Paid Toilets Next?

In an attempt to achieve greater economic efficiency within the College, the Physical Plant Director has allocated $280,000 for an "initial study in environmental relationships ... to be conducted on the San Bernardino campus," officials explained.

The project, to begin next year, is "specifically designed to reduce and control the $25,000 annual expenditure made in supplying the cafeteria with water." Officials said that the study will report on the practicality of "coordinating the efforts of the Campus Security Force, Maintenance Department, and the Biophysics and Chemistry Departments with those efforts of the cafeteria."

"In simplicity the project is a cost-reducing project was stressed. "The aforementioned College systems will function responsively with the natural environment, and the cafeteria," systems experts explained.

A tripartite procedure has been proposed: (1) The Maintenance Department and Campus Security Force will — at fixed intervals — be assigned to collect a specific number of plants, and animals, of all which will be captured in environmental studies, and (2) those organisms will then be selectively distributed to the Biology and Psychology departments for experimental use. Upon completion of their experiments, both departments will supply the Cafeteria with the organisms used, (3) The Cafeteria will then prepare and hand out the organisms for consumption.

The Biology Department will thus provide such delicacies as "snake, frog's legs, lizard, snails, wild asparagus, mushrooms, and squab (a.k.a. quail)," systems experts explained.

"We Shall Overcome"

I would like to formally extend my hearty thanks to the two lighting up boys for all the hours and work they put in to keeping the lights on. I would also like to extend a very hearty thank you to my two roommates for really being active in school affairs. We all rush tippy-toed, and promise next year to place those who are. I say this with solemnity, that's what it all must be an educational force, and to carefully examine it in the light of our very pre-educated and googly-eyed to be looking into the social circle culminating probably remember the longest. The study will be conducted on the West Campus and also, more money for Players would be reversed — work hard to

Trueblood Lectures

Professor K.N. Trueblood, chairman of the chemistry department at UCLA, will give two lectures on "Cultural Life" Wednesday and Thursday in B.S. 101 on X-ray studies of the molecular structure. Wednesday's lecture, at 7:00 p.m., will begin with an introduction into the nature of crystals and their symmetry. Wednesday, at the same time, Trueblood will direct a more complex analysis.

Trueblood was graduated magna cum laude from the University of Pennsylvania in 1941. In 1947 he was granted a Ph.D. in chemistry from the California Institute of Technology, and in 1965 he spent a postdoctoral fellowship under the Fulbright Grant in crystal chemistry at Oxford University from 1947-49. He has been chairman of the UCLA chemistry department since 1965.

His lectures are sponsored by the CSCSB chemistry club.

Students Speak Out

Recently, some of the candidates for ASB office mentioned the area of financial management, saying that ASB fees could be used more efficiently to provide more and better services than those currently offered. The ASB fee, $6.50, is assessed each student for each quarter of attendance. Presently, $22,424 of the $26,025 ASB budget comes from the cafeteria, and the remaining $3,500 provides for such things as government, activities, committees, and various publications.

This question was randomly posed to students: "Do you think that ASB fee money could be better used than it presently is?"

SUMMER-SESSION CANDIDATES FOR THE Bachelor of Arts degree will be allowed to march in CSCSB commencement exercises this June, but for the last time.

Starting in June, 1970, only actual graduates, who have already received their B.A., will be allowed to march. This ruling was made by the Academic Council last week.

Commencement exercises have been set for Friday, June 13, at 8 p.m. in the CSCSB Gym. Details of ticket distribution will be announced soon. Academic caps and gowns can be rented or bought in the Bookstore.

Phonetic Mix' Draws 50
By MIKE ZAKET

On Wednesday, April 30, there was a presentation of Phonetic Mix, of international poetry reading by students and faculty members of CSCSB. The poems were the works of famous authors all over the world, and they are presented in their original languages.

Bob Geis gave a German presentation of a poem by Brecht. Mr. Ivanagia gave two presentations: one, in Spanish, of a poem by Lorca, and one in Portuguese. Mary Whitby gave a Spanish presentation of another of Lorca's poems. Dr. Rydell and David Combs gave French presentations of three poems by Jacques Prevert. Munir Hanafi gave an Arabic presentation from the Bible. Ridge Rowley sang a French song, "Fille au Roi du France." Dr. Markov presented a modern Dravidian chant. Dravidian is one of the five languages from northern India.

Richard Siegel, Sergio Rizondo, and Anastasia Fauzio also made presentations. There were also some presentations in Latin.

The emphasis, in all of the presentations, was on the beauty of the literary works in their respective languages. To help the audience better understand the poems, translations and explanations were given. This was a very unique experience, of which there ought to be more.
