oct. 15 war moratorium: cal state metamorphosis

photos by burt chowning
intrinsic value can be opinion, such an act can only repetitious charade. In my damage any favorable position we cannot see where anything of might achieve at the bargaining political science: "i am against involvement. It all boils down to what you believe in — i feel that a warm controversy. One of the cause; and vice versa. I think the cause was more important than the school administrations are perpetuated the racist atmosphere; by knowing and understanding people from all walks of life in knowing and understanding can be involved in, and that is the situation that the average in the community, i think the boycott is in support of a protest is the boycott of classes, union. I would like to hope that students for their violence, hatred and alienation from other human beings not of their own righteous and upstanding group. This hard-core racist faction of society has the gall to say that "they (the Chicanos and Blacks) want everyone to realize the problems that they themselves created. There is a racist-oriented society and in turn a racist-oriented
chancellor's office issues dismissal of classes directive

"Dismissal of classes as a demonstration in support of particular social or political movements or goals does not fall in the above category. Such dismissal constitutes unwarranted and unprofessional interference with the academic freedom of the student, depriving him of his expected academic situation and forcing him to support political or social goals with which he may not sympathize."

The "mile of signatures" gathered by CAN will be a "mile of action," according to Bernaldo County Supervisor Nancy E. Smith. It is being sponsored by CALIFORNIA PEOPLE'S LITIGATION (TAP), residents of KERNO (1240). Anyone who desires extra petitions to circulate in their neighborhood may pick them up at the station located at 990 W. Colton Ave., S.B., at any time from 9 A.M. to 5 P.M., until October 19.

People's Lobby, Inc. is an organizing circulation two petitions. The first petition is for an abatement of air pollution in which no one has the right to pollute this state's air, land or water. Also, the primary responsibility for the abatement of air pollution falls upon people, businesses, and industries producing pollutants; the individual shall not be recipient of the emission control either by excessive taxes or exorbitant profiteering. This is an initiative measure; this petition will provide that all industries which must publish a record of emitted pollutants, within the same manner that their annual measure's passage, and continue to do so monthly thereafter. Up on request of the People's Lobby, the state will require an industry or manufacturer to control air pollutants by 1% in 5 years on a sliding scale. Motor vehicles must, by 1972, have anti-pollution equipment which meets prescribed standards. Both petitions, for the same general amendment and law, may be carried only by registered voters, and may be signed by any people who are registered voters in the same county as that of the carrier.

I am circulating these petitions for the People's Lobby. The Lobby is endorsed by three technical organizations, two legal organizations and a few of this writer's best friends.

The People's Lobby feels that effective action can be achieved through the initiative, which is the people's direct voice rather than through legislature. They feel that through this mechanism of action there also led sooner. This organization must work fast in order to meet the June, 1970 deadline by which their measures may qualify for the ballot; therefore, interested persons are urged to help within the next few weeks. The measures were drawn up chiefly by attorney Roger Diamond, along with other lawyers and scientists. Petitions on this issue will be sponsored by a number of attorneys, including Muler Hanafi. Anyone interested should contact him or the other contact persons listed below. His phone is 787-6879, or his address is 255 Koenig St., for the next few weeks. The deadline for new signatures or for those who still must sign, is November 19.

The success of the newspaper, like most other things in our society, is dependent very much upon its numerical status. The traditional way for a publication to eke out an existence is through the medium of ballyhooing.

Unlike many other publications, the PAWPRINT is very much aware of the indigence of students (naturally due to their niggardly position in society mercifully doled out by the same) and are extending a special invitation to these unhappies and their coterie to participate in the medium of ballyhooing. The tariff for this venture is only $1.50 per column inch for regular ballyhooing and if you desire to participate for four issues or more the remittance of a mere $1.25 per column inch per issue will suffice. If you desire your ballyhooing to come under the area of Classified you need remit only one dollar per column inch per issue. And to aspiring political candidates on the local scene there is an especial rate of .75 per column inch with special ballyhooing counseling available free of charge.

R.S.V.P. by Tuesday, prior to each publication. Mamie, leave message in PP office or for the less energetic phone Ext. 233.

This fall, the Lectures and Public Affairs Committee and the Players of the Pear Garden will present a series of plays, musical programs, lectures, and films emphasizing Black Expression. All programs will be open to the general public with the exception of the two films, which will be presented for students only. We hope you will take advantage of these fantastic opportunities to get in closer contact with your environment.

PLAYS (Productions by Players of the Pear Garden)

8:00 p.m., October 28
FILMS
"The Troublemakers & the Jungle"
8:00 p.m., November 10
"A Program of Grove Press Shorts"
8:00 p.m., November 21
The annual conference of the Student Personnel Assn. of the California State Colleges will be held Oct. 23-25 at the Hollywood Roosevelt Hotel.

Attendees will be students, affairs professionals within the state college system, including deans of students and their staffs, members in the areas of activities, financial aid, educational opportunity programs, housing, admissions, counseling, international students.

Three major professionals in higher education will address the group. They are Dr. Alvin Marks, state-wide dean of students; Dr. Paul Holan, dean of students at the University of Southern California; and Dr. John Searle, professor of philosophy at the University of California, Berkeley.

Dr. Marks has returned to the post of dean for the California State Colleges after serving as president of the board of Skywarn Airlines. He was deputy director of the state's Cooperative Extension Service, Higher Education from 1965-67.

The USC dean is president of the American College Personnel Assn. and chairman of the Academic Council for the College Student Personnel Institute in Claremont.

Dr. Searle, special assistant to the chancellor for student affairs, has played an active role in student matters on the Berkeley campus, leading the faculty group during the 1965 Free Speech Movement. A Rhodes scholar, Dr. Searle has published articles on the subject of student activism including "A Scenario for Student Revolts," "The Revolution in Berkeley" and "Freedom and Order in the University."

prickly pear slated bi-annual

The Prickly Pear (remember, it's that magazine that came out last June, uh-huh) is going to be published twice this year. The Summer — Fall issue will be available the week before Thanksgiving.

The PP is still considering all submissions by students, faculty, and administrative assistants. There is still space to be filled that would best be filled with works rather than drawings. So if you have written something that you cherish with all your heart, give a typed written copy to the Prickly Pear (leave it in the PP box in the Humanities Division office. We cannot be responsible for lost manuscripts, so always keep a copy) and we'll see if we like it too. When we run out of room for this issue there will be forty more pages to fill in the Winter — Spring installment, so please don't hold back to the last moment.

Deadline for manuscripts for the Summer — Fall issue is Friday, November 14. We will accept anything written in a creative vein, from poetry and short stories to criticism (including criticism of the last PP) and articles. So, as Milton said, "Till we meet again in Paradise, folks, keep those cards and letters coming in."

milton brown and other students

EXPERIENCE ISRAELI LIVING

11 week program open only to students. Includes Europe and Mediterranean cruise. Call 1-662-3773 after 7 p.m.

FOR SALE: '69 VW Bug Low mileage, rebuilt engine, Class C — $550.00. Contact Steve Imtiaz, Pawprint Office — ext. 233

will

I, Pat Clayton, being of sound mind and body, do hereby bequest all my worldly possessions to my parents to distribute equally among my surviving brothers and sisters in the inevitable event of my untimely demise.

Final Instructions: My gas mask, medical bills, and my dust are to be spread throughout the office of the State Smog Control Board.

S E N I O R S

Representative of San Bernardino County Personnel Department will be on campus October 28 to present wide range of employment opportunities to graduating seniors, any major. Contact Campus Placement Office for appointment.

H A L L O W E E N  C A R N I V A L

I.C.C. is sponsoring CSCSB's annual Halloween Carnival. Friday, October 31. The carnival will be held from 12:30-3:30 in the Quad area. There will also be a dance in the gym Monday, October 30 at 8:30 p.m. "Horror movies will be presented following the dance; "Bougaville," "Phantom of the Zombies," and the silent film, "Phantom of the Opera."

Students are invited to participate in a booth activity. Please fill out the forms you received in the mail concerning the reservation of a booth. There are a total of ten booths and they are reserved first for charter clubs. If all ten booths are not asked for by Monday, October 20, they will be opened to other groups. Any questions can be answered by Richard Bennecke in L-111.
