Dr. Samuel M. Plaut
Heads Two Clinics

By MICHAEL ZLAKET

Dr. Samuel M. Plaut, M.D., is the head of CSCSB's Student Health Center. He was educated at the University of Chicago. In 1949, he received his B.A. from the University of Colorado; in 1951, his M.D. from the University of Illinois. He is a member of several medical associations including pediatrics' association.

In 1960 Dr. Plaut moved to San Bernardino. He has been the head of the Inland Adolescent Health Clinic of which he is still director.

The Adolescent Health Center offers a multi-discipline approach to adolescent health, medical, social, and school problems of adolescents ages 12 through 19. It is funded by fees and a subsidy from the United Community Services. It is staffed by professionals including physicians, nurses, secretaries, and social workers.

These people are volunteers. The clinic also contains secretaries and nurses. Adolescents coming to the clinic either come on their own or are referred by other agencies or professional people.

Funds Will Enable
4,000 Additional Enrollment

LOS ANGELES — Funding projections were announced today that will enable The California State University at San Bernardino to admit an estimated 4,000 additional students during the winter and spring terms.

The funds, totaling an estimated $1.3 million, were made available through internal changes within the college's budget and from fee income expected to be generated in the additional students.

Of the total, approximately $800,000 is in the process of being allocated to the campuses with the approval of the State Department of Finance, Harry E. Ehrkebuhl, Executive Vice Chancellor, said.

This approximate $800,000 is from excess salary savings reported in the campuses, from funds budgeted in Plant Operation not previously allocated, and from changes, from revenue generated by a recent change in application fees.

At San Bernardino, $600,000 is expected for use by the campuses if the projected enrollment increases the number of students.

In line with Chancellor Glenn Rehring's announcement, colleges are being asked to restrict admission of new students to the number of transfer students and to accept the maximum number of junior and senior transfers from California Community Colleges.

Chemist Speaks
"Science & Consumer Protection"

A visiting chemist with a deep interest in consumer problems and the relationship between science and technology began his tour here at 10 a.m. in B101.

He is Dr. Aaron J. Ihde from the University of Wisconsin, who will be on campus to consult with faculty and students and to give the two lectures to which the public is invited.

Bust to be Purchased
By BSU

By NANCY SAUNDERS

The BSU, CSCSB, is sponsoring a drive to collect funds toward the purchase of a bust of Dr. Martin Luther King. The drive began January 10, the anniversary of the birth of the civil rights worker, but was delayed publication in the Pawprint because of a loss of copy.

The bust will be dedicated to the library April 4, 1970, the date of Dr. King's birthday.

Any person willing to contribute $1 or more to help forward it to Robert Sherman, Deacon Blakely, or leave it with the EOP office, L120, in the library.

Apparitions Seen

Fidder Jones, Russian Sonja, The Village Athlete, Rosie Roberts, Barney Hainsfeather, Daisye Fraser, Hamilton Greene, and Mrs. Purkapile are dead!

For free details write to Mrs. Daisey Fraser, Hamilton Greene, and Mrs. Purkapile are dead!

Drama, however, is not DEAD as Parkinson's, the EOP office, L120, in the library.

Financial Aid Available At CSCSB

Dr. Plaut, professor of chemistry and history of science and integrated liberal studies, has done considerable work in the area of composition of food, food legislation and the history of chemistry. He has a long interest in consumer problems, having served 13 years on the Wisconsin Food Standards Advisory Committee.

"Science and Consumer Protection" is the theme of the lecture, in which the chemist will depict part of the consumer's role in the Food and Drug Administration in attempting to protect the consumer and to the introduction of new chemicals into agriculture, medicine and textiles without adequate testing.

Anyone interested is invited to join the CSCSB science clubs in meeting with Dr. Ihde at this time. For information contact Ralph Potrecel, chairman of the Division of Natural Sciences.

Both an interest in science as part of an integrated liberal arts curriculum, Dr. Ihde will be an important part of the college's General Studies program.

Policy Established

After change of editorialship of any newspaper, a policy formate should be stated to all readers, advertisers, and other interested persons.

Let it be understood from the beginning: this paper is the voice of, and shall be responsible to, California State College, San Bernardino.

It shall be the policy of this student publication to provide up-to-date news, to feature stories on a variety of college personalities and activities, and to publish editorials that are based with facts and express the views of this paper.

It shall provide news for the majority of the readers, including students (of all ages), professors, staff, people within the community, and advertisers.

Columnists have the right to express their views and opinions, and any person who disagrees with anything printed by this paper has the right to answer in the "Letters to the Editor" column.

This paper is printed with Associated Student Body funds and advertisers' revenue. Therefore, these people deserve new, fresh content today and also tomorrow.

Who disagrees with the paper's policy of news and comments for "all" are welcome and encouraged to respond. This is a newspaper for the reader.

To Keep Record Straight

Often during the hurry of life people overlook the most important things. This reporter would like to take this moment to express sincere regrets that the Black Student Union article was misplaced before ever reaching the editor's hands.

That article appears on page one of this issue. Let it be known now that the editor of this publication noted: "Due to the fact that one article referring to black students was printed, the article about the funds drive for the purchase of a bust of Martin Luther King, the second would not appear in the January 16 issue."

This newspaper is for all readers, and there will be no censoring because of race. The purpose of a paper is to run up to date news, and provide people with facts—not to criticize constructive efforts made by members of the community.

Grand Theft Auto

This is not the place to leave your car unlocked.

A student left his auto locked, but with one of the better locks. Campus Police later found the car in the front parking lot of the college, from where it had been taken.

Other students have been so lucky, unfortunately. Last year some $3,500 worth of personal property was lost or stolen from this campus. Grand theft auto has taken place more than once.

A seat located in the student lounge was recently stripped of the remailer, changer, base, cover, and carriage, Total loss: $150.

The College Police are here to protect the interests of students, but they are not omnipotent. If you value your possessions, you would be wise to lock your vehicle and roll down the windows. Do not leave valuables where they are unprotected. Do not invite trouble.

By Nacy Sanders

In case you haven’t noticed, there is a sneaky, tricky, quivery, hippy, plinko movement moving secretly around the campus. Several students have been reported to have organized their efforts to bomb the administration building and establish an anarchy. It’s only a joke, OFFICIALDOM, please laugh.

In reality, with my carnal humor left behind, there is a committee that is itself up immediately following Christmas vacation and is called “The New Daisy Committee.” It does not plan any bombings or other actions. All people who are active in ASB government simply began to wonder what it all for.

The intense apathy that reeks in the air over CSCSB has men questioned the validity of the ASB function. As a result of this mutual dissatisfaction, two petitions are currently being circulated for an ASB election to make the $6.50 student activity fee, and the other is to hold an election to decide whether or not the ASB should be abolished altogether.

If you have not signed, please try your hardest to do so. The very least that the students on this campus could do is sign their name and enable the ASB to hold this election. You won’t be signing your life away or joining the Communist Party. A specified time limit BE, and if you have any problems with your conscience bothering you, write me at care of the "Pawprint" and I will be happy to let you know how to become one.

Letters to The Editor

Dear Editor:

I would like to express our thanks to the students and faculty of CSCSB for their interest and support during our recent few days of recruiting here. A special thanks to Mr. Doyle Stanal, Director of Placement, for his cooperation and arrangement of transportation and facilities. Anyone who is interested in the Peace Corps at a later date and who wishes an application or an interview is invited to contact us at our office.

Connie Swonger

Letters to the Editor

Editorial: A month ago the Board of Trustees voted to extend the deadline for the Petitions to the students and faculty of California State College, San Bernardino. The petitions are currently being circulated for the purposes of an ASB election to make the $6.50 student activity fee, and the other is to hold an election to decide whether or not the ASB should be abolished altogether.

If you have not signed, please try your hardest to do so. The very least that the students on this campus could do is sign their name and enable the ASB to hold this election. You won’t be signing your life away or joining the Communist Party. A specified time limit BE, and if you have any problems with your conscience bothering you, write me at care of the "Pawprint", and I will be happy to let you know how to become one.

An artistic person interested to expand your meditative horizons? Get back in touch with your feelings! Trust someone while your eyes are shut.

The members of the group are so attuned and conditioned to relaxation that it happens almost as soon as they walk into the room.

The College Police are here to protect the interests of students, but they are not omnipotent. If you value your possessions, you would be wise to lock your vehicle and roll down the windows. Do not leave valuables where they are unprotected. Do not invite trouble.
Seven faculty members at California State College, San Bernardino, have received promotions for the coming academic year, President John M. Pfau announced today.

Promoted to full professorships were: Dr. Ernest Garcia of Rialto, a native of the San Bernardino area; Dr. Charles F. Schofield, history, history, All India; and Dr. Edward Sanford from the Journal of Business Administration.

Advanced to assistant to associate professor are: Dr. Robert E. Goodman, political science; Dr. Matthew K. Schofield, history, history. All are natives of foreign countries, with Dr. Khare coming from India and Dr. Schofield from Russia.

The seven men have come to CSCSB from a cross-section of educational institutions and with varying backgrounds in teaching and professional experience. Two are natives of foreign countries, with Dr. Khare coming from India and Dr. Schofield from Russia.

Schofield has the longest tenure at CSCSB, arriving in 1966. Dr. Goodman came a year later.

**Congressman Brown Air Views**

U.S. Representative George Brown, a Democrat from District 26, spoke to approximately 75 students at CSCSB yesterday morning. Originally, Rep. Brown had planned a forum on Asia, but the event was expanded to include a question-and-answer session in which Rep. Brown made known his position on a number of issues.

Brown believes "Tunney is trying to paint my picture as too extreme." He pointed out the fact that he has been a dove on the Vietnam war since 1963. Brown said that he was pleased that President Nixon "has awakened to the realities of the war," but believes that Nixon's efforts to end American involvement in Vietnam are proceeding at a "snail's pace."

Brown does not consider Gov. Reagan or Sen. Murphy conservatives, for as he puts it, "Conservatives want to save and protect what's good in society — the (Reagan and Murphy) want to get rid of the good and save the bad."

Brown was critical of House of Representatives Speaker John McCormack, saying that he is "fifty years out of date."

Brown has consistently supported admission of Red China to the United Nations, civil rights, and the legalization and the right of the right to organize labor, and has, consistently opposed loyalty oaths.

On the issue of poverty spending, Brown said the problem involves more than the lack of money. He feels that citizens must be made to see that they are a constructive part of society and called for an end to the "infusion" of poverty dollars into bureaucracy.

**Special Student Auto Insurance**

An average of 43% savings on all auto insurance is realized by participating qualified students.

EXAMPLE

(21 YEAR OLD SINGLE MALE STUDENT RIVERSIDE COUNTY, STATE REQUIRED MINIMUM LIMITS OF LIABILITY.)

COMPANY A \$134, YEARLY

CSIS STUDENT PROGRAM \$ 94, YEARLY

SAVINGS: $40.

**Even Greater Savings for Married and Female Students.**

- Placement GUARANTEED regardless of driving record.
- Payment Plans to fit YOUR budget.
- NO Additional liability charge for SPORTS CARS.
- NO MEMBERSHIP FEE required.
- Licensed by the State of California Dept. of Insurance.
Rangel Heads Financial Aid Division

BY MICHAEL ZLAKET

Gilbert R. Rangel, CSCSB’s Financial Aid Coordinator is a native of Arizona. He is from a pioneer family; grand parents on one side of the family came to Arizona before the turn of the century. Rangel was educated at the Arizona State University. He taught high school for four years. In Phoenix, Rangel joined the Foreign Service in 1961, and worked in the United States Information Agency. After undergoing three months of training at the Foreign Service Institute at Arlington, Virginia, he was assigned a post in Leon, Nicaragua. There, he was an active director of the Bi-National Center operated by the USAID and was also a student affairs officer for the American Embassy.

In 1965, he was transferred to Managua, to capital of Nicaragua, as student affairs officer. His responsibility during the five years he spent in Nicaragua was to coordinate and initiate educational programs of the USIA with that country’s two universities. In the latter part of 1966, Rangel was transferred to Tegucigalpa, Honduras, where he served as an assistant cultural affairs officer in charge of youth affairs.

During his stay in South America, much of Rangel’s efforts were concerned with scholarship programs, organizing educational programs, and arranging educational travels for Latin America students. He also taught English at some of the universities there. He also served as a field representative in Central America for the American Field Service.

From February to June of 1969, Rangel traveled in the United States. Last July, Rangel took his present position at CSCSB.

Although he has resigned from the Foreign Service, Rangel is still involved in Latin America for two reasons. First, there are still some students in the U.S. because of Rangel’s efforts to obtain scholarships for them; there are also two students still to be brought here. Secondly, Rangel is a numismatist who still corresponds with friends and students there. His friends in Latin America are many, as he is familiar with all of Central America and all of the South American countries on the Pacific Coast.

We need help making the world turn.

Like it or not, money is what makes things happen in this world. In business. In government. In all the worldly affairs of man.

It takes money to discover medicines, to rebuild ghettos, to educate children, to feed, clothe, and house humanity. Money is an essential ingredient in solving man’s day to day problems — and in promoting his century to century progress.

Like it or not, money is what makes things happen in this world. We’re the world’s largest bank and putting money to work is our business. We think it’s an important enough business to hire the best people we can find to run it.

A Bank of America personnel representative will interview students interested in applying for counselors at the Calamigos Star C Ranch located in Malibu. The camp will be in session for 10 weeks beginning June 26 thru September 4. For information regarding where to apply for this position contact the Placement Office, Library Annex 2B.

On February 4, Mr. Darow Milgrim will interview students interested in applying for counselors at the Calamigos Star C Ranch located in Malibu. The camp will be in session for 10 weeks beginning June 26 thru September 4. For information regarding where to apply for this position contact the Placement Office, Library Annex 2B.
J.C. Davis Plans Career Day

DAVIS — A special day to inform and inspire disadvantaged students about career opportunities in veterinary medicine was planned for the University of California, Davis.

The object of Career Day, on Jan. 31, is to provide information and qualified students how to proceed into the course of study at the only teaching veterinary school on the West Coast.

According to Bradford Smith, chairman of the Faculty-Student Committee for Recruitment of Socially and Economically Disadvantaged Students, the resulting education will qualify persons for careers not only as practicing veterinarians but also in public health, overseas assignments, drug industry research, and allied fields.

Smith is a senior in the UC Davis School of Veterinary Medicine.

In addition to a full program day, from 9 a.m. to 5:30, the committee is prepared of offer travel allowances and lodging in private homes.

Scheduled events on Jan. 31 include informal talks by minority practitioners, professors at UC Davis and researchers at UCD. The scholastic program will be explained and some course studies needed to fulfill requirements will be outlined. Additional information include discussion of scholarships and financial aid available.

There will be a tour of the new teaching hospital.

The feature screening film, "A Degree of Importance," which was produced by students in the School of Veterinary Medicine in 1968, will also be shown. This film gives a graphic understanding of the need for a D.V.M.

Students who desire further information on the veterinary medicine Career Day may contact Smith by writing him care of the UC Davis School of Veterinary Medicine, University of California, Davis, 95616 or by calling (916) 752-1360 from noon to 1 p.m. weekdays.

Financial Aid

(continued from page 1)

dependent students from low-income families. The qualification procedure is the same as for the NDSL program. This program contains a regulation which requires that its aid be matched by NDSL funds.

An example of this would be an aid packet of $500 from EOP funds matched by a $500 loan from NDSL, if the student’s need is determined to be $1,000. The total amount of aid from this program is limited to $1,000 per student.

The College Work Study Program allows up to fifteen hours of employment per week to students in families of very low or modest income.

A student may earn from $1.75 to $2.75 per hour, depending upon how many years he has received aid from this program. He must have average grades and be a U.S. citizen or an immigrant.

Applications for qualification are the same as for the other two programs. At present, the majority of positions available under this program are on campus, but Rangel noted that the program will expand into off-campus activities in the 1970-71 academic year.

Students who are in need of financial aid should pick up applications beginning the first week of February to meet the application deadline of May 1.

When asked his opinion of the success of these programs, Rangel said, "I think that the programs have been very successful at Cal State in that there are approximately 45 students who definitely would not have been able to attend college anywhere financial aid were not available."

Sensory Awareness

(continued from page 2)

relaxing, the group has non-verbal ways of reducing it.

Among the Gunther techniques used by the group is the "Trust Walk," in which one person closes his eyes and is led about the room or the house or yard by another group member. This is used during some group meetings as a getting acquainted technique and a way in which to build rapport and trust.

Corinne Schnur is now interested in starting a second group and feels that students have a limited amount of spare time, Miss Schnur states that this group is for those students who have very little time available, who have found the school with quarter, with the possibility of marathons being among some group meetings.

Anyone interested is invited to the first meeting, which will be held Thursday, Jan. 28, from 7:30 to 10:00 at Garver's home, 10660 Lind Ave., Loma Linda. If there is a large response, a group also could be started on another evening.

Please contact Corinne in A-148 for further information.
now heads a firm that develops a new kind of kit for field work. The new kit, he says, "is a small unit that we can take with us and use when we need it. It's compact, lightweight, and it works. We are constantly trying to improve the kit, and we hope to have it ready for field use soon."
