One Year leave for UCLA

Dr. Murray to Study Black Students and Teacher Expectations....

Riverside-Studies indicating that low expectations of Black students by White teachers may contribute to poor performance by the students have earned a Ford Foundation grant for a UC Riverside researcher.

Dr. Carolyn B. Murray, assistant professor of psychology at UCR, will take a year's leave of absence during the 1985-86 academic year for postdoctoral study at UCLA. She will collaborate with Dr. Halford Fairchild, an expert in race relations at UCLA, and Dr. Bernard Weiner, an expert in applied attribution theory.

The Ford Foundation grant is to be administered through the National Research Council and will consist of a \$20,000 stipend plus up to \$2,500 in expenses.

The new studies are an outgrowth of Murray's doctoral research at the University of Michigan in which she found that a prevailing attitude exists among White teachers who expect Black students to perform poorly, or less well than White students. And when the Black students excel or do not conform to low teacher expectations, Black students are not given the same recognition for success as White students.

In followup research, Murray will examine what effect low teacher expectations have on Black students. She found initially that Black students resort to what she terms self-handicapping strategies (withdrawal of effort) to coincide with low teacher expectations.

Her studies have found that instead of giving reinforcement for successful academic performance, many white teachers typically respond with subtle resentment that Black students readily recognize.

Ironically, more important to many Black students than academic success is whether the teacher likes him or her, Murray says. When high achievement results in a negative response, the Black student seems to stop trying, sensing the teacher will like him better.

"Kids want to be liked," says Murray, "so if the teacher won't like them if they are performing well, there will be a lower performance to appease the teacher."

Murray's newest research takes the assumption that students who are expected to perform poorly by their teachers having received different treatment than those stu-

Dr. Carolyn Murray

dents expected to do well, will infer an inadequacy or inability in themselves from the labels and treatment received from the teacher.

Her initial study concluded that when socio-economic factors and academic history were constant for Blacks and White students, teachers had "significantly lower expectations for Blacks than Whites." In examining the attitude of teachers, Murray found that race was "more salient than actual academic history of the students" in attributing success and failure.

Black students were seen as most responsible for their failure and least responsible for their success. White students, on the other hand, were seen as least responsible for their failures and most responsible for their successes.

Her research discovered a sense among teachers that "bright and Black don't go together and middle class and Black don't go together."

When Black students performed well, Murray found that teachers still maintained low expectations and attributed the high performance "to something other than the student's ability -- such as her own ability as a teacher or thinking the student plagiarized."

And when Black students didn't fit the low expectations of the teachers, rather than reverse their attitudes of low expectations and extend praise, the typical attitude was, "I didn't like him anyway."

She cited the example of a Black student who was exceptional in mathematics, whizzing through class assignments ahead of classmates and always getting the right answers. Bored and restless after completing the lessons, he would get up from his seat and walk around the classroom, creating, as the teacher would say, "a disturbance."

But instead of assigning more difficult work, advancing the student into an accelerated program, or putting the student to work helping classmates, the teacher branded the Black student a troublemaker.

The response, says Murray, is the consequence of the teacher's low expectation of Black students and an inability to accept Black achievement. "Blacks aren't supposed to be good at math," says Murray, explaining the stereotyped reaction she found.

The aim of Murray's post-doctoral study will be to determine to what extent withdrawal of effort exists, whether it is more for Blacks than Whites, and how is it expressed in the academic environment. If proven, she hopes to devise an intervention program to correct the problem or head it off before it develops among Black children.

Senator Robert Presley

Bi-Partisan Committee Formed as Presley Runs For Re-Election

Clayton Record and Robert Elliott announced the formation of a Bi-Partisan group called the Alliance for Legislative Excellence to re-elect Senator Robert Presley.

Record and Elliott believe Senator Presley is an individual who fairly represents all of his constituents, regardless of their party affiliation.

They said Presley is recognized as a conservative, independent, and hard working legislator who consistently sees to it that all of the citizens of his district are heard and represented in Sacramento. He has built an excellent reputation by attending to the legislative and social needs of the elderly and the young, the rich and the poor, women, ethnic minorities, small and large business alike.

Record and Elliott point out that Senator Presley won overwhelming bi-partisan support in his 1982 re-election to the senate. The note he has once again done an outstanding job and has accomplished it with a degree of excellence rarely seen in elected officials.

Presley sits on the Senate budget and fiscal review committee, the judiciary, agriculture and water, toxics and safety management, and is chairman of the Natural Resources and Wildlife Committee. In addition Senator Presley is Chairman of a Budget Subcom-

mittee that decides the level of expenditures for the State's Criminal Justice and Courts System (including the Department of Corrections), the Food and Agriculture Department, the Energy Commission, Department of Forestry, Department of Fish and Game, Department of Parks and Recreation, the Coastal Commission, the Coastal Conservancy and several other smaller departments such as the Lands Commission, and the Department of Conservation.

Presley also is chairman of the Senate's select committee on children and youth and the joint legislative committee on prison construction and oversight.

Presley has the best record in the Senate on the number of proposals to get through the legislative process and to the governor's desk. He is considered by many capitol observers as one of the hardest working members of the Senate and has a perfect attendance record during his 11 years of legislative service. This is further reflected in his casting the highest number of overall votes in the legislature on all issues in the last two years.

The Alliance For Legislative Excellence urges all residents in the 36th Senatorial District to write to them or send a postcard indicating their support for Senator Presley to: The Alliance For Legislative Excellence, P.O. Box 56262, Riverside, CA. 92517.

An awards luncheon will highlight the activities scheduled to celebrate Minority Enterprise Development Week, October 6-12.

KHJ-TV vice president Fernando Del Rio will serve as master of ceremonies for the event which focuses on the accomplishments of the minority enterprise community.

Two awards will be presented during the luncheon, to be held Oct. 11 at the Public Enterprise Center in San Bernardino. The Inland Empire MED Week committee will honor the Gannett Co. for its outstanding support of minority enterprise development and Paul Delgado as Regional Minority Contractor of the Year.

The Gannett Co. has jointly published a tabloid for the past three years with Black Voice News, American News, Precinct Reporter and El Chicano in observance of Minority Enterprise Development. The purpose of the publication was to create more awareness of minority businesses and their accomplishments and to work on a joint project which shows the cooperative spirit in highlighting the importance of MED Week.

Paul Delgado owns Delgado & Sons Inc., a general engineering company in Yucaipa. The Minority Business Development Agency has recently named him as Regional Minority Contractor of the Year as part of its national observance of MED Week '85. MED Week '85 is celebrated on both the national and local levels under the charter of a proclamation by President Ronald Reagan to pay tribute to minority enterprise and its contribution to American's economy. A number of activities have been scheduled in the nation's capital.

In addition to the luncheon, the Inland Empire observances will include a tabloid, a reception and proclamations from Riverside and San Bernardino counties and cities in the Inland Empire.

Open houses will be held at the following locations: San Bernardino county Purchasing, Oct. 8; Riverside County Purchasing, Oct. 22; Continental Telephone, Oct. 23; General Telephone, Oct. 17; and TRW Inc., Oct. 18.

Questions & Answers
by Pastor Woods

When People Pray
And Get No Answer?

Question:
Dear Pastor Woods,
What do I as a Christian say when people ask about how they have prayed and obeyed God, but they never receive?

Response:
Diane Burns, S. Bdn
Never is a big word. They probably have received from God before but are stuck in a few areas. If they never receive from God, its because they are not saved (born again). If they are having a few problems receiving in some areas its probably because they are not truly believing. God does not answer shaky prayers. Many Christians are "a hopin" and "a prayin" that God answers their pray. Prayers filled with doubt don't get answered. The Bible says in Matthew 21:22 "And all things, whatsoever you shall ask in prayer, "Believing" you shall receive." It does not say you will receive whatever you want. Only that which you really believe. I would

encourage you to encourage your friend to examine their faith level. True there are times* that people don't receive also because they ask for ridiculous things with ridiculous motives, the Bible says. All in all, God wants to answer his children's prayers. Lets be faithful in reading His Word so that we can intelligently ask of god and then receive!
If you have a question that you would like answered, write: Pastor Reginald Woods, Life Changing Ministries, P.O. Box 449, San Bernardino, CA. 92404.

General Foods Announces Ad. Campaign to Promote Black Colleges

Washington, D.C., Sept. 25

General Foods Vice President for Urban Affairs Lee A. Archer today announced that the company is underwriting a national advertising campaign to promote historically Black colleges and universities. The campaign will consist of a series of four print ads that will begin running October 28 in more than 100 local newspapers serving the Black community throughout the country. The cost of the campaign is \$1.3 million.

General Foods made the announcement at a luncheon at the Mayflower Hotel here honoring several distinguished Black Americans who are alumni of Black colleges and who will appear in one of the ads in the series. They represent a broad spectrum of American life. Attending the luncheon were many presidents of historically Black colleges and universities.

Outstanding Black Americans participating in the add campaign are: Dr. Marva Collins, Earl Graves, Dr. Benjamin Hooks, and Earl Monroe.

In honoring distinguished participants in the "Salute to Black Colleges" campaign, Mr. Archer said: "These eminent leaders have long served as role models for our young people. Now, in lending their support to the recognition of historically Black colleges, they are demonstrating that the highest levels of achievement can be attained through a quality education at one of these schools."

General foods has for many years shown its commitment to education through numerous endowments and contributions to schools, especially in the field of food science and nutrition. Earlier this summer, for example, GF presented in the name of Bill Cosby a grant of \$50,000 to Temple University, his alma mater; at the same time the company provided \$50,000 in the name of Camille Cosby, his wife, to Tougaloo College. The company has also been a corporate sponsor of the United Negro College Fund for decades. And Meharry Medical College in Nashville was also the recipient of \$100,000 from General Foods between 1982 and 1984.

In recent years, through its Maxwell House Division, GF has added to its support of education within the Black community by sponsoring fairs at which Black colleges recruit interested students in northern cities. As part of that program, it has provided scholarships to outstanding students who go on to attend a college participating in the program.

"Our new national advertising campaign is a natural expansion

of our previous efforts," said Mr. Archer. "We expect that it will help build awareness and appreciation of historically Black colleges among students and their families who previously may not have considered the Black college alternative."

"We are especially pleased to undertake these effort because we feel there is a real need for such sponsorship," Mr. Archer continued. "Recent studies, such as that of Dr. Jacqueline Fleming, titles Blacks in College, indicate that Black students do better academically and socially at historically Black colleges. We were further impressed by statistics showing Black colleges and universities actually graduate a higher percentage of Black enrollees than other institutions."

In closing, he added: "General Foods recognizes the unique experience that Black colleges and universities offer and further acknowledges the need of Black colleges and universities to remain an integral part of the American educational community."

SAN BERNARDINO COUNTY Supervisor, Barbara Riordin and San Bernardino School Board Member, Hardy Brown, flash happy smiles of the joyous occasion with Art Forbes.

Mayor Simon, a strong supporter of IECHC, congratulates Executive Director Forbes for a job well done.

STATE ASSEMBLYMAN Jerry Eaves and Mayor Simon engage IECHC Executive Director Art Forbes in IECHC future development talk.

DR. RAYMOND KAY and Helen Chettle, are greeted by Executive Director Art Forbes and Eva Cruz, IECHC receptionist, at the open house.

Vikes Luck Runs Out As Rams Defense Holds...

Vikes luck runs out as Rams defense holds on to a 13 to 10 win.

With on second left in the game, The Minnesota Viking's head coach Bud Grant went for the win instead of sending it in to overtime. The L.A. Rams defense saved the game by stopping the Vikings running back Darren Nelson at the one yard line to add excitement to what was basically a dull game.

The Rams offense seemed to go through slow motion drills with an Eric Dickerson touchdown run and three Mike Lanford field goals. The Rams defense gave

up its first touchdown by the run this season but got their revenge on the last play of the game.

Next week it's Tampa Bay on the tube.

From the Bench: the raiders are in a 1st place tie in the AFC West with a 19 to 10 win over the Kansas City Chiefs. Raiders quarter back Mark Wilson hobbled by a sore ankle threw for 240 yards with 1 touch down pass to Jim Smith. Marcus Allen rushed for 126 yards.

Next week its the New Orleans Saints at the Coliseum.

Coors Donates 25,000 to UNCF

Golden, Colo.--Seven predominantly Black universities recently received \$10,000 each from Adolph Coors Company. This, in addition to Coors' recent \$25,000 donation to the United Negro College Fund (UNCF), brings the company's support of Black educational institutions to nearly \$100,000 during 1985.

Presentation of the \$10,000 checks was made to the college presidents and other representatives of the seven schools in New Orleans of Sept. 26.

Paula Pete, Coors' assistant national program manager, presented the donations for the following school: Fisk University, Nashville, Tenn.; Florida A & M University, Tallahassee, Fla.; Morehouse College, Atlanta, Ga.; Grambling University, Grambling, La.; Morgan State University, Baltimore, MD.; Spellman College, Atlanta, Ga.; and Texas Southern University, Houston, Texas.

"Coors is proud to be able

reserved seats for all nine events are being offered for a limited time on a subscription basis only at a single price of \$26.00 per seat. This is a 50% discount off of the full admission price for each event. A season ticket order form, along with further information about the series, may be obtained by telephoning the University Theatre Box Office at 714/598-4546 weekdays between 1:00 and 5:00 p.m. or by writing to Performing Arts Tickets, Cal Poly between 1:00 and 5:00 or by writing to Performing Arts tickets, Cal Poly Drama, 3801 West Temple Avenue, Pomona, California, 91768.

to contribute to these outstanding universities in order to help enhance education for Black students," said Pete. The donations, she said, also represent an example of Coors' commitment to continue providing meaningful opportunities for the Black Community.

Pete also presented each of the college heads with original sculptures of famous Black Americans. Coors commissioned sculptor Ed Dwight to create the pieces. Coors' contribution to the seven schools follows its donation in July of \$25,000 to the UNCF. The UNCF is the largest Black fundraising organization in the country, representing 42 predominately Black private and fully-accredited colleges and universities that provide education to nearly 45,000 students. Coors has been involved with the UNCF since 1979 through donations and sponsorship of special events. Last year, the UNCF also received \$25,000 from Coors.

In addition to supporting educational institutions, Coors has expanded its commitment to the Black community through other programs that include stepped-up hiring and promotion of Black employee; increased business associations with Black vendors and financial institutions; as well as the contribution of a minimum of \$500,000 per year to the Black community.

Therefore if any man be in Christ he is a new creature: old things are passed away; behold, all things are become new.

Robinson Passes Bryant as Winningest Coach

Last week Grambling's coach Eddie Robinson passed Paul "Bear"

Bryant and now holds the title of "Winningest Coach" in the nation.

Robinson has 324 wins to Bryant's 323. He has always been respected as a top coach in the Black school and now he exceeds that with overall excellence in his ability.

The team beat Prairie View (1-5) before 36,652 fans.

Now all the attention has focused on the man of the hour, Eddie Robinson.

GOLDEN, COLO.--IVAN BURWELL, right, national program manager of Adolph Coors Company, Congratulates Lonnie Smith on his new WBC Super Lightweight Champion title following his defeat of Bill Costello in August. Smith was honored at a reception in Denver sponsored by Coors and KDKO Radio to celebrate his new title. Smith is a native and resident of Denver.

Lions Club Quest Program: I spoke at the "Lake Village Club House," October 2, located in Rancho Temecula, CA. My topic was, "The Lions Clubs Quest Program," which is designed to combat drug abuse. An audience of about twenty Lions Club Presidents heard about a drug awareness program which is sponsored by Lions Clubs International. It is our goal to provide assistance to schools through out America in their battle against the use of illegal drugs. I am available to any group interested in helping to combat this plague. Perhaps "Bruce Springsteen" is the image our children need to focus on.

L.A. Rams have a New End:

STOP - LOOK - AND LISTEN....

For the Young at Heart and Teenagers....

Dear Tabitha,

I am a young wife with 3 small children of stair-step ages. My husband and I both work and that seems to be all I do, work and keep up the babies.

I have a few friends and yet I really don't feel gratified. I am just being ungrateful?

Mom

Dear Mom,

I am aware that there are countless mothers as yourself, both young and older, in the same frame of mind and situations.

Yes, we still have to work and keep house and family, but there is one area I feel we as working mothers the majority of the time neglect, that is making quality contact with others especially with the family in extra curriculum events and also with out side people sharing interests such as a night out with the bowling team or attending a retreat just for women the different churches so often sponsor. I realize that men have these same feelings also and need to do likewise.

Most of all you need to make

I spoke to my nephew, Dennis Harrison number 68 last Wednesday night. He had called home while I was out on a speaking engagement. As soon as he gets his family settled, he will be out to see us. My family will see him play Sunday, I will not be able to go, I've got a duty to perform. This campaigning for the School Board keeps me busy. It's worth it.

Where are we going? When the campuses of our nation are used for child care and a place for the drug dealer to push their garbage there is definite conflict that can cripple us, all of us! Mr. Bob Anderson, a fellow Lion and I met last week brought this subject up after my talk. He works for CYA (Calif. Youth Auth.). He said it takes about \$30,00 to \$35,00 a year to maintain one young prisoner and \$70 plus per bed if there is a drug problem. We spend less than \$10,000 per year to educate our youth.

When are we going to wake up and stop allowing the future of our country to be destroyed. We must invest more money in a valid educational program. We can defeat the drug problem if we work together, and raise the standard of living for everyone. As a member of the Moreno Valley School Board, this will be one of my objectives.

contact with God's son Christ, in your quiet time to enable you to make confident and wise choices when you begin to make contact with others outside your family.

Tabitha,

Bruce Herschensohn Attends Fundraiser in Moreno...

by Mary Faust

Mr. and Mrs. Albert Webb hosted a fundraising reception for their son Matt Webb. Matt Webb is the cousin of Stephen C. Webb, who is currently being recalled by the citizens of Moreno Valley, along with Marshall C. Scott and J. David Horspool.

All three were in attendance at this affair members of Moreno Valleys Planning Commission, Harley Knox, Robert Wolf were also in attendance, Buch Johns was also among the guests and a familiar face Beverly Buchley, who spoke eloquently in favor of Mr. Johns apartment project at the last planning commission meeting on Sept. 26. Approximately 350 persons attended this event. Guest of honor, Bruce Herschensohn, who announced he is running for State Senate, against Allen Cranston and he feels his place at the Geneva Summit will help (his assignment from ABC) him with the needed exposure to get him elected.

Mr. Dave Kelley who Steve Clute beat out described a move to take over many current seats held by Democrats, to put in Republicans.

The rapid growth was hailed as making Sacramento take notice of Riverside, Steve was referred

to as a disgrace to politics.

Riverside Mayor Ab Brown and two of his council persons were in attendance.

Others notably there to hob-nob were like a whos who, of the development business - In addition to Buch Johns, Mac Odonnell from Warmington, and Jerry Stephens of Westenland Profiles and John Paul Stark, who described himself as the man always running against George Brown.

Highlight of this event, for this reporter, who happens to be a staunch Democrat, was an interviewer with Janet Goeske who wants the public to be aware of the Founders Day Activities at the Janet Goeske Center at 5257 Sierra Blvd, Riverside near Sears. The crowning of the two oldest persons in Riverside on October 9, by Mayor Ab Brown, a woman of 105 and a gentleman of 102 will be the stars of this event. Janet also says, they will be selling lottery tickets on Oct. 3

Janet gained recent notariety when she moved her bank account from where, she would not say, to Inland Empire bank, she says she did so because she was unrecognized after 45 years with that banking establishment, and she now heads an advisory committee on aging?

19. And if a man cause a blemish in his neighbor; as he hath done, so shall it be done to him; 20. Breach for breach, eye for eye, tooth for tooth; as he hath caused a blemish in a man so shall it be done to him again.

Holy Bible: Leviticus 24:19,20

The recent bombing of PLO Headquarters in Tunisia by the Israeli government can only be regarded as a cold calculated act of terrorism. No individual or nation has the political or moral right to unlawfully take the lives of so many in retaliation for just a few. The Law of Equality as stated in all scriptures is specific in detailing

the limits of compensation and in preventing man from exceeding the bounds of justice. If Jews, Christians and Muslims were to practice the dictates of their books, their problems would be solved overnight.

Nor take life - which God has made sacred - except for just cause. And if anyone is slain wrongfully, We have given his heir authority (to demand Qisas or to forgive): But let him not exceed bounds in the matter of taking life; for he is helped (by the Law).

Heating your home in winter can cost less if you use natural gas.

Consumers can save money directly with natural gas. Heating customers pay on a nationwide average 30 percent more for heating oil, three times more for electric resistance heating, and twice as much for heat from an electric pump than for heat generated from natural gas.

According to energy guide label ratings of the Department of Energy, efficient gas water heaters can save a consumer several hundred dollars per year over the cost of operating an electric water heater.

The American Gas Association is one of the organizations in the forefront of industry efforts to continue the development of even more efficient appliances. Pulse combustion furnaces are a new breed of gas heating equipment that are 97 percent fuel efficient.

Keep these facts in mind this winter. They may help you feel warm all over.

greetings and let new teachers know they can receive their continuing education classes on campus.

Frank Stallworth, of Senator Ayala's office and Elvin Ricks from Assemblyman Eaves office, brought greetings and both agreed, said it was encouraging to know that this time would be set aside to welcome new teachers.

San Bernardino Board members Eliza Diaz and Marlin Brown were pleased with the event and said this time set aside was important because it showed the new teachers friendships and focused on their importance in the education of children.

Neal Roberts introduced the many managers who attended and gave a few words of wisdom, when he told new teachers of his high expectations, and said if you are not committed to hard work, high expectations, he quipped, "make this your first and last year with the District."

Master of ceremonies Trustee Hardy Brown, founder thanked the co-sponsors and all who attended and said "San Bernardino is a great place to live, a great place to work and educate your children."

We Endorse Jack Clarke For Second Ward Councilman

It is often said that people sometime confuse methods with objectives, in other words, if two people want to get to Los Angeles from Riverside one might decide to travel by bus another by car. They should not sever their relationship just because one prefers the bus over the car. Their attention should always be focused on their objective, getting to Los Angeles.

Well, the same is true on electing Jack Clarke as Riverside Second Ward City Councilman. Through out my traveling in the second ward I've heard some Black individuals say he's not Black enough; to that I respond, was Ed Shepard. He has not been involved in the Black struggle. To them I ask where were you during the sixties when Jack Clarke was involved with NAACP - Urban League - standing with the large crowds at the University of Riverside? Where were you when the Rev. Jesse Wall and others were fighting for equal rights and intergration of the Riverside School system?

Where were you when Jack was confronting our State Correctional system about discrimination? I don't recall seeing some of you but I do recall seeing Mr. Jack Clarke.

Clarke was there in the 70's through the apathy of people and in the 80's as an elected official, making decisions affecting students, employees and taxpayers in Riverside County.

Jack Clarke has been able to be involved in all of the above related issues without alienating the persons or institutions in which he encountered, but yet he got results. This takes a unique talent and skill. The same kind of tools that are now required in being elected the first Black to the City Council.

No candidate in the race comes close to possessing the public knowledge, background, experience or relationship with various diverse cultures as Jack Clarke.

Jack is currently serving on the Riverside County Board of Education. In that capacity Jack is responsible for Blacks access to jobs and business contracts.

It is this paper's observation that Jack Clarke is the most qualified candidate for City Council, and the only candidate who can represent all of the 2nd Ward citizen effectively.

We recommend Jack Clarke be elected to the Second Ward City Council seat in November.

Jack Clarke For City Council, Ward 2!!!

Jack Clarke, candidate for Riverside City Council, Ward 2 has received endorsements from four major employee groups as of this date according to the Committee to Elect Jack Clarke.

Endorsing associations include the Public Employees Association of Riverside County, Riverside Firemen's Benefit Association, Riverside and San Bernardino Counties AFL-CIO COPE, and Associated Teachers of Metropo-

litan Riverside with includes Alvord Unified, Moreno Valley, Riverside Unified and NEA Jurupa Chapter.

"I am delighted to know that the public employees, unions, teachers and firemen have all expressed their confidence in me and are supporting me for the City Council," Clark said.

"I am deeply concerned about the apathy of the public when it comes to voting. I encourage every registered voter to take time to vote on November 5."

Ledbetter for Moreno Valley School Board

Charles Ledbetter, a retired military man and currently an educator with the Perris School District, is an outstanding choice for the citizens of Moreno Valley to select as their representative on the Moreno Valley School Board.

"Charlie" his friends call him, is a strong advocate for education. He is also an advocate of children with learning disabilities, not because he is a special education instructor, but because he believes all children can learn and deserves a quality education.

Charlie is also an advocate for community involvement and pride in your community. He keeps in touch with the Community and informed on issues by attending community meetings. As President of the Lion Club, he demonstrates his ability to get things done. With Moreno Valley's rapid growth, the Board of Education is in need of representation and the caliber of Charles Ledbetter.

As a former school board member he has knowledge of the interworkings of the district.

Experience, leadership, compassion and a willingness to serve sums up the qualities which make us say, vote for Charles Ledbetter, Moreno Valley School District, November 2.

Eliza Diaz For School Board in San Bernardino

San Bernardino U.S.D has made substantial achievements over the past several years in providing a quality education to their children and maintaining an effective intergration program at the same time.

These accomplishments and others have been maintained for the mostpart because of the dedication and commitment of a highly motivated staff. Their job is made easier by a Board of Trustees who are committed to a philosophy "LET'S FIND A WAY," to get thing done.

Incumbent Eliza Diaz has played a major role in finding a way; in re-opening the old Franklin School and renaming it Dr. Martin Luther King, Jr; Diaz supported the establishment of an affirmative action officer's position within the district. She supported the ethnic recruitment team and consistently identifies colleges of high minority enrollment for recruitment sources. She is a strong supporter of Bilinqual Education and the Standardized English Program.

Her strongest commitment to the educational process of minority students, is that we cannot use low income, being poor, receiving aid, national origin or race as a reason for not learning.

Eliza Diaz has high expectations, and brings to the Board the Hispanic point of view. As a retired educator she brings a wealth of experience and knowledge to her position.

Join with Black Voice News and re-elect Eliza Diaz, Trustee of the San Bernardino Unified School District.

Metzger Supports Farrakhan

Los Angeles - A group of white supremacists, headed by former Ku Klux Klan member Thomas Metzger, gave Black Muslim leader Louis Farrakhan \$100 and information on Jewish activists when Farrakhan spoke in Los Angeles last month, he said yesterday.

In a telephone interview from his San Diego office yesterday morning, Metzger said he and nine other members of the White American Political Association were invited to attend a rally by officials of the Nation of Islam, Farrakhan's organization.

"WE have common respect for Farrakhan, who is doing things for his people on his side of the fence," Metzger said.

Metzger called the \$100 a "token donation."

"We see similarities in the principles that Louis Farrakhan is talking about - the exploitation of working people by an elitist group in Washington and by corporations and by the people who are their sponsors and masters," he said.

tion. Team members meet twice weekly during their lunch hour and once weekly after school. They

"We look at Farrakhan as a Black counterpart to what we are trying to do," Metzger said.

"It seems that pleading or trying to get something done through government about problems of working people is falling on deaf ears. We are seeing a tremendous housing shortage. We don't see government answering these things, they just talk about building more weapons and getting involved in Central America.

"Our association feels we must begin to work outside government with other cultural groups. There is a need to have dialogue about these similar problems," Metzger said.

It's a survivalist idea really. Farrakhan, we feel, has not sold out to the system. We feel most Black and most other white leaders have sold out to the system. We don't see any help coming from those areas," Metzger said.

But he denied there was a merger of the groups in the works. "There's no merger. We were treated very politely and with respect. I hope we can have a continuing dialogue. It's all informal."

will compete from 7:30 a.m. to 6:00 p.m. on November 16th.

Juanita Scott

Scott Receives Exceptional Performance Award

Juanita Scott, appointed in September by Mayor Evelyn Wilcox to the position of Affirmative Action Officer for the city of San Bernardino, recently returned from Washington where she received the **Exceptional Performance award** from the Department of Housing and Urban Development. Eighty-two individuals were nominated from ten regions within the United States to vie for this honor. In presenting the award, Janet Hale, acting General Deputy Assistant Secretary for the Federal Housing Commission, said

"Ms. Scott has continued to excel in her ability to motivate and manage available resources which has resulted in a harmonious team effort by her staff and area management brokers to accomplish the **very significant** sales and closing record during fiscal year 1984 and exceeding those previous records established through August of 1985." "She attained unexpected accomplishments through her innovative, enthusiastic, and forceful approach in listing, selling, closing and reducing the turnover rate from 36.5% to a rousing 5.3% by the end of Fiscal Year 1984," Hale stated.

Scott, in her previous position as Chief of Property Dispositions for the Department of Housing and Urban Development, achieved one of the highest net returns to HUD by establishing frequent industry meetings to familiarize our 600 brokers/salesmen with the bidding procedure so that sales would not slow down or stagnate because of the industry's failure to understand the program.

She is a current member of the city's Franchise Board and Northwest Redevelopment Project area committee and is past president of the League of Women Voters of San Bernardino and a past State Board Member of the League of Women Voters of California. She holds both masters and doctorate degrees in Urban Planning and formerly was the Housing Referral Officer at Norton Air Force Base.
