The Lord is my Shepherd; I shall not want. This beautiful passage was one of verses in the Sunday School lesson. Rev. Smith did a beautiful job as he reviewed our lesson today. The Lord is our shepherd and we are His sheep. We would like to acknowledge the presence of Tyrese Blue in our Sunday School.

For a text, the third verse was used which reads, All therefore whatsoever they bid you observe, that observe and do, as they do not do after their words, for they say so, and do the contrary. Sis. As leaders, we must be mindful that God holds us all accountable when we neglect to let the word abide in us. We shall not want. This beautiful passage was one of verses in the Sunday School lesson. Affirmative Action Under The Gun

Now it is likely that offenders won't be cut off from lucrative federal contracts and the EEOC may return to the policy of emphasizing individual complaints, even though it is clear that it would have the resources to handle them spontaneously. Importantly, the EEOC's administrative structure, its main impact is in streamlining the work of the private sector's technology-oriented assessors. A federal slowdown could only encourage the use of the private sector that would prefer not to put in equal employment opportunity..

The rationale for the federal slowdown is found in the administration's deregulation regulations it says harmonizing private efficiency and economic development. That's an important issue because it would just not be dealt with where applied by equal employment. Suppose, if anything, a firm regulatory bend encourages private employers to act in their own best interests, helping them overcome racism within their communities.

Thens in the civil rights laws and regulations, many American companies have been able to overcome discriminatory hiring practices and to take advantage of all the human resources our society has to offer. That is no accident. Companies with strong affirmative action programs are also leaders in our industries and among the most efficient and profitable companies.

Many of them will continue to implement affirmative action programs, regardless of contrary signals from Washington. But companies whose hiring records are still not as good as they should be will still face pressure from labor unions and some of the congressional committees.

The ERA is for White women, Betty. It ain't for Black women. The real issue is an issue of Black women's equality. The exact intentional wording of the bill under debate by the women's alliance, the ERA in this form will, for Black women, forever give the concept of the ERA to be about the rights of the man as well as the woman. It's only hope that new Roy Wilkinses will emerge to lead that struggle.

Local 2869 Vote To Unanimously Support Solidarity Day

Pomona, Frank Anglin, President of Local 2869 of the United Brotherhood of Carpenters and Joiners of America, representing workers at Fontana's Kaiser Steel plant, has announced his lead union's "full support" for the Solidarity Day march in Riverside on September 19. Anglin reported that the union voted unanimously to sponsor the event and endorse the rally's program, and later twice voted to donate union money toward the expenses of the march.

"Unions are under attack," states Anglin. "I believe in unions - what other organization does the worker have to defend him? We will be showing up on September 19th at 10:00 a.m. in Riverside City Hall to show that we have allies in the community, and bold soliders that were deterred to defend the union movement." From City Hall the march will proceed 10th Avenue, and a program of music and later speeches, including Rep. Bob Litt and others, will be held.
