John Breaux, the senator from Louisiana, is seeking a re-election victory but faces a tough challenge from his Republican opponent. The race has become a test of the candidates' ability to mobilize voters in a state that is often seen as a bellwether for national elections.

Breaux, who is seeking his third term, has held the seat since 1987. He has built a reputation as a moderate Democrat, working with Republicans on a variety of issues. His campaign has focused on his voting record and his efforts to cut taxes and reduce the federal deficit.

His Republican opponent, Rep. David Vitter, has criticized Breaux's leadership and his support for President Barack Obama's policies. Vitter has emphasized his conservative values and his opposition to government spending.

The race is expected to be closely contested, with both candidates seeking to appeal to moderate voters in a state that has a history of electing both Republicans and Democrats to its U.S. Senate seats.

In addition to the Senate race, Louisiana will also hold elections for its House delegation, as well as state and local offices. The state is also facing a budget crisis, with Governor Bobby Jindal proposing a series of cuts to state programs in order to balance the budget.

The election is expected to have implications for the national political landscape, with both parties hoping to gain ground in the Senate and House races.

The race will be watched closely by national and international observers, with many predicting that the outcome could have implications for the 2016 presidential election and beyond.
American
Muslim Mission
By:
REV. T.C. WILDER
With the name God, The Gracious, the Compassionate

Why do Muslim women cover their heads and wear long dresses? What is the significance of the Muslim dress code? To get a better understanding of the essential aspects and advantages of the Islamic dress standard, non-Muslims should have something about the significance of the mode of dress that they identify with.

The choice of clothing is to cover the body mostly by protecting it from various elements in the environment such as wind, rain, sun, and cold. Clothing also serves to protect the human being from diseases. If a person could not be protected by clothing, then he would die of exposure. For instance, the Muslim woman's burqa is not only a symbol of dignity but also a way to protect her from sickness.

Dress codes are important in maintaining cultural values. For example, in America, there are laws that prohibit displaying any parts of the body that are considered inappropriate. This is because Islam believes in the concept of modesty and considers the body to be a sacred temple.

The dress code is also a way to express one's identity. Muslims believe that their dress should reflect their religion and culture. Therefore, wearing a burqa is not only a way to protect the body but also a way to express the importance of one's identity.

The choice of clothing is also a way to show respect for others. Muslims believe in treating others with respect and understanding. Therefore, choosing a dress code that is respectful to others is a way to show that one values others.

In conclusion, the Muslim dress code is not just about clothing but also about protecting the body, maintaining cultural values, expressing identity, and showing respect to others. It is an integral part of the Muslim's way of life and a way to express their faith and beliefs.

WILDER AND JACKS
Guest For Annual Day
The Senior Choir of St. Mark Missionary Baptist Church in Central in San Bernardino, Ca. will hold their Annual Day Sunday evening, October 21, 1972. The theme is "His Loving Kindness Is Evermore." We will join with St. Mark Missionary Baptist Church in the city, Rev. H. Campbell, Pastor, Rev. T. C. Wilder, Pastor, and St. Andrews Universal Church of God in Riverside, Ps. Franklin White, Pastor and Dr. Paul A.M.E. church in San Ber-

Amos Temple
C.M.E.
Rev. V.J. Ender
Pastor

Our service for Sunday was "How strong is your faith." Text Genesis 22:1-7. The message centered around the faith Abraham had when God called him to sacrifice his son, Isaac. He did not need much, only on the altar, Abraham immediately made preparations knowing that God would provide the lamb. Ps. Tyron Thompson reminded us last Sunday and this year our members, Los Angeles City, Amos Temple, vitamins and medicines were often expensive. Our sick and shut-in are Mrs. Lill. Johnson at Loma Linda Hospital, Mrs. Olivia Simonnson at balloons, Rev. Buress Cooper at Medical Center, Mrs. Dunn will be married on Saturday evening at 4:30 p.m. at the Church.

Vernard Johnson

Every one in a while a recording artist will take his last put and it just was one for our convenience. Never in my life that I know and I am not too old to have a heart attack, it was one for the world. "The World's Greatest Gospel Singer.

The talent is truly in God's hand, and we have no reason to reach people through his unique ministry.

People throughout the Inland Empire respond to Vernard on a regular basis. I would say that he division "I Go Do God's Will" is one of the most popular selections in the area.

"Our Editor Meets the People"

"We are a community newspaper interested in local happenings. Why are you interested in politics, school board meetings or an event that directly affects our people? We will respect your answer. We want an informed citizenry, able to cope with the growing needs of our community and its problems. Our door is always open to new suggestions and ideas that will better serve the community.

William Gary
Delivers Message

Once again we were privileged to hear William Gary, our Youth Minister deliver the message on last Sunday's service. His subject was: "Taking Inventory," spoken in I Timothy 4:8. Gary instructed the congregation to take inventory of themselves. It is always good to examine ourselves and make sure that we are doing the things that are pleasing in the sight of God. He also stated that the "foundation of God stands sure, having this seal, the Lord knoweth them that are his, and that all who call upon the name of Jesus Christ shall escape from us." If we profess by our Christian walk, we must not be out in the world committing some evil act.

The Lord continued to use these people this day. At 3:30 p.m., the members of Antioch and our invited guest celebrated the Fourth Anniversary of our pastor and wife. Rev. Canon of First Baptist Church was the guest speaker. Our theme for the afternoon was: "A Spirit-Filled Assembled Church." Rev. Ed. as the invitation was extended for the assembly to meet behind the Lord blessed with a candidate for pastor. A special closing prayer was given by Ed. Bishop, followed by distinguishing Munders.
The Youth Choir will be having their Annual Youth Day Celebration. The date is set, Oct. 28th at 3:30 p.m., and Oct. 31st at 3:30 p.m. Their theme is "Moving Together for Christ," Romans 15:20. Rev. Roosevelt, First Baptist Church of India will fellowship with us on Oct. 13th.

The Senior Choir will be with the Friendship Baptist Church Sunday on the 27th on our Annual Choir Day. The Youth and Young Adult will accompany Rev. Edward to First Baptist Church of Perris. Rev. Edward will be the guest speaker.

ROSE OLIVER

Oliver Seeks City Council Seat

I will be a friend to the City Government. I'll be accessible and I will be responsive. My fellow Riversideans, you are all about certainly working what this means to think that we and every other candidate for our City Council? Why should anyone vote for me? Any candidate who can answer "that question?" that should be a must. Your vote matters. Our Council is there for the City, it is there for the people. Please remember to visit and pray for your favorite candidate.

Rev. Thompson spoke on Sunday Morning from Acts 19:21. His subject was: "Your Power Source: The Holy Spirit." He told us of a few of the things the power comes in a way but then try to keep it. It is interesting to note that "The Holy Ghost stands on your right hand. He is there to help you." Rev. Thompson told us that the Lord will keep us away from prayer meeting. Once the Lord sees us, he wants us to have a prayer meeting, we need to live in our church. We need to view every opportunity that we come upon. If not we say not or we will go to do it. Voting with us is Ed. & Sara, Mrs. Matthew James, Rev. Doris, Rev. Ray Bowes, Mrs. Smith, Ms. Pat Patterson and Dr. Woods.

Sunday we are looking forward to a great time with Annual Choir Day. Everyone is invited.

This past Sunday both Choirs at the beautiful musical at Grand Baptist Church at La Sierra. The Lewis, Singers and Grace Church's choir sang out.

The Youth Choir did a magnificent job at the Trinity Church Christian Center Sunday evening. We are very proud of them.

Please remember to visit and pray for the ask and dole of Pastor Gay who is out this Sunday night. "Talk with me with tenderness" and that will better hold up the Father's unchangeable hand.

Brother David,

At Work Junging: It is time for some real life work now. The building of the homes and our citizens and to be a good parent. It is very important to understand the children of our own parents. We have to take a look at our own education. It is very important for parents in this. For example, it is very important for parents in the community of the child. But the child is the only thing that will help us to understand our own children and ourselves. We have to take a look at our own education. It is very important for parents in the community of the child. But the child is the only thing that will help us to understand our own children and ourselves. We have to take a look at our own education. It is very important for parents in the community of the child. But the child is the only thing that will help us to understand our own children and ourselves. We have to take a look at our own education. It is very important for parents in the community of the child. But the child is the only thing that will help us to understand our own children and ourselves.

Good News: Our House of the 80's recently opened in Perris, Ca. We hope for the social and influence of our boundaries in the community. We will also be held in the Moreno Valley School District board of all. Do we programs the purpose of this is to provide a place for them. We say a goal at the beginning of the term. Therefore, we have to look on this service and our goals. Mr. O.W. Miller, director of CADA, introduced a gentleman from the ministry who spoke about his service. It is called (STEP) Systematic Training For Effective Parenting. One of the purpose of this mission is to bring about an understanding of each child's personality and environment. We took it for granted that we must communicate with the love of our children and our families. We have to take a look at our own education. It is very important for parents in the community of the child. But the child is the only thing that will help us to understand our own children and ourselves. We have to take a look at our own education. It is very important for parents in the community of the child. But the child is the only thing that will help us to understand our own children and ourselves.

State School in Supernumerary:
Sunday at March AFB Chapel P. C. is "Our lives. Our lives were the 'outreach' of the community." It was held at the local Indian Hills Plaza, Perris, Ca.

Military and Civilian Friends to be held by the Riverside City Charterization. I am also running because I believe that every citizen should be moved to unity and move this community.

I have a B.A. in Political Science, have worked for 14 years for the Riverside Unified School District, and am a former Field Representative for Apprenticeship. Warren Ingals has been a very important and respected source in the community during the past few years.

It seems to me that we can do this. It is not enough to simply move more and toxic fumes into the community and is poisoning our minds However, we cannot begin to comprehend the scale of the problem.

One thing that we must do is to bring about some changes in local government. The community needs to work together to bring about some changes in local government. It is the responsibility of all community leaders to work together to bring about some changes in local government. It is the responsibility of all community leaders to work together to bring about some changes in local government. It is the responsibility of all community leaders to work together to bring about some changes in local government. It is the responsibility of all community leaders to work together to bring about some changes in local government.

"For those who are in the ministry, only a candidate receiving a majority of the total votes cast in the election must receive a majority of the total votes cast in the election to be elected. The City Council shall immediately notify the candidate who has been elected and the candidate who has been elected.

This means that two things we should take note of...

That the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right that the Riverside City Charterization recognize the right
Old people are more visible these days. No longer shunted out of sight and out of mind, the Senior Citizen is emerging as a strong social and political force in our society. During the '60s their consciousness was raised by 'radicals' like the Gray Panther, but their seniors in the '70's are looking for new avenues for enhancing their lives as well as political expression. One major factor in fostering the well image of the elderly person is the work of many non-profit organizations of older persons or those who work with or for older persons. Therefore, we urge you to learn more about what is being done in your area for the elderly. 

Several of these are: 

- **The Art of Macramé**: A book that is required reading for you. This is written by one of the Institute of Creative Aging (213) 829-4020, and Director, at (213) 931-8192 ......... or with her on “The Frankly Female Show” on Channel 9, Los Angeles every week, 6:00 a.m.

- **Sleep·Eze**: A gentle ingredient in rest. Sleep·Eze helps you get up refreshed. Use only as directed. 

The following is a list of useful suggestions for the community, at work, and through the various educational functions. 

- **In the past, a great deal of a person's education was obtained at home, with friends and neighbors in the community, at work, and through the television sets which were filled with news and current events.** 

In their efforts to spread their distorted message, some of these organizations are not present, and the lack of these needed conditions is not present, and the lack of these needed conditions are, therefore, cumulative. If they are not done, the consequences of these efforts are disastrous. Some of those organizations that are emerging as a strong social and political force in our society are, therefore, cumulative. If they are not done, the consequences of these efforts are disastrous. Some of those organizations that are emerging as a strong social and political force in our society are the Moral Majority and similar groups who seek to impose their interpretation of morality on the rest of us. 

President Giamatti made the important point that the tactics of such groups undermine the basic idea that we are all the same in our values and the idea that we are all the same in our values and the idea that we are all the same in our values. 

President Giamatti made the important point that the tactics of such groups undermine the basic idea that we are all the same in our values and the idea that we are all the same in our values. It is not enough to believe in traditional values, or to believe in the traditional values, or to believe in the traditional values. 

The Moral Majority and similar groups who seek to impose their interpretation of morality on the rest of us are emerging as a strong social and political force in our society.

WASHINGTON, D.C.— The plans to inaugurate a second U.S. Small Business Administration (SBA) announced under which banks will be permitted to make loans for small businesses. In a special program for liquidation decisions involving the successful financing of the program. Banks will be permitted to make loans for small businesses.

At the same time, SBA administrator Michael Cardenas said the agency was making efforts to expand the program. In 1979, SBA started, on a pilot basis with 29 banks, a program to promote home energy surveys and to encourage the use of energy efficient appliances.

Under this program, participants will be able to arrange for home energy surveys and energy efficient appliances. The local gas company is also marketing energy efficient appliances. The survey telephone number is 787-7452.

Cardenas says he expects that at least 30 percent of SBA business loan guarantee activity in Fiscal 1982 will be processed through the Certified Lenders Program and the pilot Preferred Lenders Program. The agency has been working with the Certified Lenders Program to meet the needs of the lenders who have been operating the program in the past.

Many forms of cancer are preventable by taking simple precautions. We are fortunate to have many good health indicators, such as blood donation, which is an excellent way to help others. The Blood Bank of San Angeles is behind the program called "Blood Donation in Los Angeles." The city's Health Energy Survey, which is an in-depth study of home energy use, is helping to identify ways to reduce energy bills. It is conducted by home owners or professionally trained home energy supervisors.

Several Key Players Return To RCC

The Riverside City College Tigers managed to go more than 40 years last year in the past decade, by hitting second place in the Mission Conference. The real run success comes under Head Coach Barry Meier, who came to RCC last year from Riverside Poly.

RCC will reconvene 1/13 of last year's starters in the 1981 roster. Among them is defensive tackle Gino Taitum, from Iona, who has paid off in a big way by a big move. His performance has been a good season quicker now, and he is looking forward to another one.

"I know this will be a successful season," says Taitum. "The defense looks stronger than it did last year, and we started lifting weights earlier, so we have less injury. There is more competition in the squad for starting positions this year."

Another defensive force for the Tigers is returning strong safety Lou Panere, who played at Fontana High School and returned All-Citrus, All-Citrus for his junior season. "If we stay healthy, we have confidence in our defense. We have some very good athletes and all are in good shape. We have a good summer program," says Panere. Standing 6'1" the second-time All-Conference safety says he lost a little weight from last year, now on at 184 pounds, but says he is faster and stronger than last season.

Expected to be in the Mix of the No. 1-2 men in the secondary is Patrone. Ken McGee, 20, of Riverside City College says he enjoyed the experience of a lifetime. "I've never really done that about the trip," according to his mother, Blaire Roberts, who had to remain at home with none of John's younger brothers and sisters. "What astonished John the most was the manner in which the foreign athletes communicated. Each country has its own style of a sign language, but he understood everything.

A 1977 graduate of California School for the Deaf in Riverside, Roberts participated actively there as a member of the football, basketball and track teams. The 5'11" 180 pound athlete has always been interested in sports, his mother recalls, "John has always liked sports and has always excelled at them. Even when he was in junior high school he played on the varsity teams. He loves basketball and at the south coast for a while. He always enjoys playing in basketball tournaments."

John and the other participants had an opportunity to get in some leisure hours while in Germany, John said, "we found that was the way to go another day."

In Germany, the foreign athletes were taken to Portugal for some vacation fun. John noticed that some of the players were upset because the action inside made it uncertain as to when they could return home.

"It was a second year at RCC, Mrs. Roberts said that "John is enjoying school more than ever. It provides a solid social and educational base for him."

New Oral Drug Treats Valley Fever Effectively Without Side Effects

BY LUCINDA NICHOLS

The new drug for treatment of Valley Fever and several drug to treat Valley Fever Janssen Pharmaceuticals, a breakthrough drug to treat Valley Fever and other internal fungal diseases. The drug has been developed by Dr. James Burk, an infectious disease specialist at the University of California, Los Angeles. The drug, called Nizoral, is currently undergoing clinical trials in the United States and Europe.

The drug, which is a broad-spectrum antifungal agent, has been shown to be effective in treating a variety of fungal infections, including Valley Fever. It works by inhibiting the growth of fungal spores, preventing their development into new infections. The drug is administered orally and is generally well tolerated, with few side effects.

Janssen Pharmaceuticals has invested millions of dollars in the development of Nizoral, and the company is confident that it will be a significant advance in the treatment of fungal infections. The drug is expected to be approved by the U.S. Food and Drug Administration (FDA) within the next few months, and it is expected to be available on the market soon after that.

The drug's potential impact on the treatment of Valley Fever is significant, as there is currently no effective treatment for the disease. Valley Fever, also known as Coccidioidomycosis, is a fungal infection that is endemic to the Western United States, particularly in the southwestern states of Arizona, California, New Mexico, and Texas. Each year, thousands of cases are reported, and the disease is often difficult to treat due to the development of drug resistance.

Nizoral's effectiveness in treating Valley Fever is particularly encouraging, as it has been shown to be effective against a wide range of fungal species, including those that are resistant to other antifungal drugs. The drug's broad-spectrum activity makes it a valuable addition to the armamentarium of antifungal agents, providing patients with a new and effective treatment option.

Janssen Pharmaceuticals is currently conducting additional clinical trials to further evaluate the safety and efficacy of Nizoral in treating Valley Fever. The company is also exploring the potential use of the drug in treating other fungal infections, such as candidiasis and aspergillosis.

In conclusion, the development of Nizoral represents a significant advance in the treatment of fungal infections, particularly Valley Fever. The drug's effectiveness, safety, and broad-spectrum activity make it a valuable addition to the armamentarium of antifungal agents, providing patients with a new and effective treatment option. As additional clinical trials are conducted, it is expected that the drug will continue to demonstrate its potential impact on the treatment of fungal infections.
