A situation very close to a scandal has developed at the Island Man-
power Association (IMA), when the Department of Labor (DOL) refused to approve the $260,000 purchase of an unprocessed computer. According to a story by Sentor Sanders, reporter for the Riverside Press Enterprise.

The story has taken on the image of a James Bond movie. What it was expected that the DOL computer, which was reported to be the Riverside Plaza Shopping Center and was recently when the “voice” heard of the Arnold Strohkorb, former IMA Deputy Director, who allegedly resigned because he handled the purchase, went to work for Government Systems Group (GSG) the computer firm based in San Ana. He had the contract.

The Need for Clergy Crusades to Washington, D.C.

BY DON GUSAVAGE

Black Journal ever elected to Congress

A gallant contingent of prominent Black ministers from Chicago's Southside and South suburbs came to Washington, D.C., June 8-9, to battle against proposed cuts in needed social programs to allow increases in federal spending.

These men and women, however, left much more than words printed in the Congressional Record (June 10 edition) which documented their "Clergy Crusade." They also left deep and lasting impressions in the hearts and on the minds of ranging congressmen and women, including House Speaker Thomas P. O'Neill, Majority Whip Thomas Foley, Senators Charles H. Percy and Alan J. Dixon.

The mission accomplished by these Black ministers is one that must be repeated by our leaders in Black churches all across our nation. That point blank message is: our people and the poor of our nation are hurting, and we are avoiding our sin any more now.

A budgetary remedy must be presented as part of the federal budget for fiscal year 1983. Why the Black Church?

The Black church has historically been, and continues to be, the moral and spiritual home of millions of oppressed Americans. Too many of our people are without jobs, others have the loss of their homes due to changes in federal mortgage regulations, many of our seniors turn to the poor because they need health care and they are worried about the future of Social Security, and in the midst of all the other worse aggravating factors to social programs, many of our young people have given up colleges for plural due to student reductions.

As the ministers from the Chicago area noted in a statement: "The General Convention of this great nation stated that our country was formed to insure domestic tranquility and to promote the general welfare, among other things of all its people. We come to ask you to study your own power and to live up to this mandate by the federal government." The ministers outlined themselves on the front line of the battle of the budget. The Republicans are working hard for their budget proposal, and so are the Democrats for the House- Senate-Black Community Initiative Act. The budget proposal offered by the Congressional Black Caucus was based on the Chicago Covenant, which was signed by many Black leaders. Unfortunately, the Black Caucus' proposal removed the smallest number of votes.

We, the ministers who are committed of the dear Black are well aware of the reality that the budgetary war is under siege here. Congress in Washington will consist of many battles. Down the road in order to fight better, we need more troops. We need more ministers to come to Washington, D.C., to raise the banner of hope and goodwill, and to promote the use of our collective power.

Millions of Black Americans are seeking spiritual shelter today, so they struggle for survival in these times. Now the time has come for the pastors to act for their congregations.

They must come to Washington, D.C., with the understanding that it is vital for a nation to resource to ensure that a sufficient number of people to further what can it be. We must not allow our communities to be involved in a war that we are not made to experience. As Black ministers we all are part of the Black church is a place of assurance, peace and, to know the difference.

Without faith it is impossible to please God. We are praying for the sick among us. Mother Fulcher, Mother Lee, Sis. Cooper, Sis. Coleman. We are praying for the sick among us: "I am what I am," and He said, thus shalt thou say unto the children of Israel, "I am what I am." Our leaders wish to thank everyone who helped to make Ascension Day a huge success and a Spiritual Feast was received by everyone who attended. Mrs. Albright, first lady of Bethel A.M.E. Church, Forestville will be guest speaker for Women's Day at the evening service Sunday, June 26, 1982.

The Washington Post was aware of the total political damage to be done, on the theme, "Having Faith to God?" found in the Bible, Mark 11:22-24. He states that Jesus always giveth this credit to his power. He never boasted, he kept the faith. As we call out to God, God is always ready to come to our aid.

When we pray, do we have the faith in believing our prayers will be answered. We should have a banner of hope to live by, to help us bear up and carry on. As Christians we should grow in the work of the Lord. Mrs. Alice Scott and son also Eric Mitchell and Crystal Mitchell dedicated their lives to Christ and was welcomed by the Pastor, officers and ministers. Mrs. Lillian Roberson welcomed all visitors along with Pastor Thomason.

Mrs. Gertrude Spears, president of the Congressional Choir wishes to thank everyone who helped to make Ascension Day a huge success and a Spiritual Feast was received by everyone who attended. Mrs. Albright, first lady of Bethel A.M.E. Church, Forestville will be guest speaker for Women's Day at the evening service Sunday, June 26, 1982.

We were happy to have with us, Mr. Maurice Roberson, Senator for the district, and Mr. Phil Harris, director of what the children are learning in the school. We are praying for the sick among us: "I am what I am," and He said, thus shalt thou say unto the children of Israel, "I am what I am."

The Black church has historically been, and continues to be, the moral and spiritual home of millions of oppressed Americans. Too many of our people are without jobs, others face the problem of not being able to pay their bills and are struggling for survival in these times. Now the time has come for the pastors to act for their congregations.

Sin is a very annoying thing that try to root out our very being. But through the Blood of Jesus, we can overcome this thing. It’s a thing that will destroy and all its ugliness of strife. Sin can only come in every home.

By the precious Blood of Jesus we will overcome. Sin will destroy our very being.

You children and young people.

The Blood of Jesus will make us strong. Sin will destroy the very life of one.

But the Blood of our Savior will cleanse us from all sins, and will save us from the power of this world so long as we believe and have faith in the precious Blood of our Lord Jesus.

We who look for a life to come, will not sin anymore, but to do will of him that is pleasing and dear.

That when we shall appear, we shall as he is without spot or wrinkle, we will be cleansed by the Precious Blood of Jesus.

The month ahead will be filled with many important activities for the mission. I haven't had such a good time at a concert in weeks and days. Last Monday we were the guest of Ollie Collins Jr., the month of July, we plan to celebrate in the name of the Lord.

I have been in the Baptist Church in Riverside, CA (688-8800), for 6 years. I have received a diploma in Business Administration from the Riverside Community College. I have attended several seminars on spiritual and educational subjects.

The month will be filled with many important activities for New Hope Missionary Baptist Church. Last Sunday, June 20, we celebrated our Fourth Anniversary, Sunrise Service at 7:00 a.m. and Sunset Service at 7:00 p.m.

Family Planning Makes Sense

The Supreme Court says it is constitutional. The public supports it overwhelmingly. Major, but legal abortion is still illegal in 42 states. It is therefore surprising that from a highly volatile minority that wants to outlaw abortions, there has come the strongest anti-abortion drive we have seen in recent history.

As a result Congress has passed limitations on the use of federal funds, something that essentially puts in jail those who choose to do the procedure. The regulations also try to rewrite the rules to make it not only not the principal opponents of abortion, but also those who regard sexual activity as an art that the government should support.

It is clear that the same men who carry at least the dangers of big government by contraception is favoring government action to regulate private conduct. Some who see good examples as civil invasion of the government into the sexual area see nothing wrong with pushing federal ways to laboratories and doctors to ensure their own moral norms of behavior.

One of the more curious outcroppings of this view was the Department of Health and Human Resources decision to amend regulations for family planning services.

Under the proposed new rules, most people under the age of 18 coming to family planning clinics for birth control prescriptions of drugs would be continued to be served only after their parents are notified.

There is no way of changing the distant-parent relationship by the federal government, and the warped practice of turning public health providers into government informants, the rule that would serve the purpose of legislations.

The purpose of the intention is to discourage teenage pregnancy by dissuading distribution of birth control devices. But if it is not to be informed, this would probably go to the state for birth control and family planning. The information is all that is needed to be known by women.

We handle the details. With 20 strokes, we can take over the troubling details of funeral arrangements if you desire. We are the experts. We are the experts. We are the experts.

The U.S. Commission on Civil Rights called on the administration to act immediately to ban the evening rule at which blacks are being forced to leave their farms. The need for Federal intervention is immediate, says the Commission in its report. The decision by Black Farming in America, released February 9.

The Commission said that the displacement from the land seems to be a threat to small farmers, "land has been lost that never among black farmers operates," for example, over the last decade the number of Black-operated farms declined by 17 percent, a rate of two to one and a half times that of white-operated farms. Only 272,101 Black-operated farms remained in 1970, compared to the approximately 620,000 farms operated by blacks in 1960. The Commission asserts that the "social and economic ceiling of displacement of black farmers.....

For whites: Don't suppress that is useful for historians, but a beginning to realize a marvelous future, even in the forward movement.

For blacks: Don't mistake walking a day in the sun for being a hero, but it is only too often a contradiction with the moral and with current parole practices, encouraged for children.

This fresh attempt to hinder family planning clinics is part of a larger campaign to make abortion illegal. The bill does not perform abortions, but can refer patients to places that do.

In any situation concerned with the fate of unwanted children, the rule would achieve the opposite of its

perspective.

Students, administrators, teachers and parents must be involved in this stage of development and be aware of the needs of the students. While attending the graduation of the sixth grade class, the state which needs quality for some kind of in-service training, (Deborah Huddleston). I experienced a warm feeling of wanting to be with the bright-eyed, smiling youngsters, and truly understand their beautiful accomplishment. I could understand the depths of love felt by the proud fathers. I knew the meaning of the qual that clearly marked the smiles of relief that emanated from scared mothers and teachers.

As I allowed myself to be taught up in the custodian and happiness of the moment, my feelings of empathy went for a few painful moments, replaced, by those of sympathy. I became acutely aware that past historical and current events have left us with the desire of many reasons of some of these precious children will not feel what it feels like to graduate from high school. The construction of new facilities at the high school and proposed changes in curriculum, can bring with them the opportunity for us to make our school system one of the most efficient and productive in the country.

I am especially concerned with the high school which is where most decisions are made by students or parents. It is also the place where students begin to separate reality from fantasy.
