Community Groups Outraged

LMA Computer Scandal?

A situation very close to a scandal has developed at the Island Manpower Association (IMA), when the Department of Labor (DOL) refused to approve a $4.8 million purchase of an underground computer system, according to a story by Scott Sandter, reporter for the Riverside Press Enterprise.

The story has taken on the image of a James Bond Movie, when it was reported that the $4.8 million check was paid to the Riverside Plaza Shopping Center and more recently when the “Virus” hit the editorial computer of Arnold Strohkorb, former IMA Deputy Director, who allegedly resigned because he handled the purchase, want to work for Government Systems Group (GSG), the computer firm based in Santa Ana, who had the IMA contract.

The Need for Clergy Crusades to Washington, D.C.

BY BON. GUS SAVAGE

1982 Black Caucus

A galactic contingent of prominent Black ministers from Churches of the South and suburbs came to Washington, D.C., June 9, toattle against proposed cuts in needed social programs in order to increase in federal spending. These men and women, however, left much more than words printed in the Congressional Record (June 10 edition) which documented their "Clergy Crusade." They also left deep and lasting impressions in the hearts and minds of all those meeting congressional leaders, including House Speaker Thomas P. O'Neill, Majority Whip Thomas Foley, Senators Charles H. Percy and Alan J. Dixon.

The message delivered by these Black ministers is one that must be repeated by our leaders in Black churches all across our nation. That flash message in black and white is: Don't stress the poor! The poor and our nation are hurting and we are unwilling to sit any more passes.

A budgetary remedy must be presented as part of the federal budget for fiscal year 1983.

Why the Black Church?

The Black church has historically been, and continues to be, the most powerful piller of hope—cushioning the Communities.

These are precious economic times when Black communities surely cannot afford any more weight on their already heavy shoulders. Too many of our people are white folks, others have the loss of their homes due to changes in federal mortgage law. They are worried about the future of Social Security, and in the midst of all the other wide ranging issues that must be addressed, there are pressing economic times which find Black folks in the black community. Rev. Russell B. Harper

Rev. Leo L. Thomas, pastor at Chicago's First Baptist Church, received a flattering message from the Chicago Tribune on the occasion of the establishment of the Chicago Tribune World's Fair, 1893. The President of the German Empire, William II, was present at the dedication of the World's Fair, and in a message to the President delivered by the Chicago Tribune, the following words were used:

"The German Empire is a great power, and its influence is felt in every part of the world. It is a power that can be reckoned with, and its position is one of importance in the affairs of men."

The Lord blessed us with a very spiritual andspilling service on Sunday June 26th. Our Sunday school lessons told us that God is able to transform our old nature into a fruitful work for Him. Those of us attending Sunday School were already up in the spirit by the time morning worship began. We would like to encourage our inspirational Choir to continue singing. The Lord used them as they render songs for the Glory of God.

Last week Rev. Nathan Smith brought a dynamic message on the strong power of Grace and how we must walk by faith. Ephesians 2:8, 9 and Col. 1:16, 17 was read and utilized in discussion.

We are in prayer for Sis. Mary Smith who was with us last week. We acknowledged the presence of Bro. & Sis. James Langston was with us to tell the congregation a little bit higher. This was a very spirit-filled service.

Family Planning Makes Sense

The Supreme Court says it is constitutional. The public supports it by overwhelming majorities. But legal abortion is still a fact of life, and the right of women to choose is protected by a higher court order than even many clerks in that high court could step down to signify. As a result Congress has passed limitations on the use of federal funds for abortions. Today, Congresswoman Chisholm, who sponsored the new law, is at the home of one of Haitian refugess who has been following the recent developments.

Haitian Release Saves Face

Today, Congressman Shirley Chisholm (D-N.Y.) and Congressman Fauntry (D-DE) expressed mixed feelings about Judge Eugene P. Fauntroy's decision to lift the ban on Haitian refugees. The ban had been in effect for 10 years and was threatened by last month's earthquake in Haiti.

The Congressmen said that while the ban's removal is a step forward for Haiti, it is also a significant step for human rights. They said that the ban had been used to deny Haitians the right to seek asylum in the United States.

"We believe that the decision is a positive step forward for human rights," said Congressman Chisholm. "But we also recognize that the ban has been used to deny Haitians the right to seek asylum in the United States.""}

Civil Rights Issues

We Live by Faith

The U.S. Commission on Civil Rights called on the administration to be sensitive to the closing of Haitian refugess in the United States. The commission, which was established in 1978, to expedite the processing of Haitian refugees.

"We believe that the decision is a positive step forward for human rights," said Congressman Chisholm. "But we also recognize that the ban has been used to deny Haitians the right to seek asylum in the United States."

Busch to Spend $1 Million in Papers

BALTIMORE-Mr. Smith will spend $1 million in 1982 to advertise in Black-owned newspapers, it was announced by Wayman F. Smith, Jr., vice president of corporate affairs for the world's largest brewer.

The advertising campaign will take the form of corporate messages, beer brands ads, and special event advertising for such programs as the Budweiser Crest Softdrinks and the Budweiser Harvest Brown.

As an example, he explained, "Anheuser-Busch this year plans to advertise in directories of minority-owned foundations, which will benefit minority business people," Mr. Smith said.

The vote is the most powerful instrument ever devised by man.
... I.M.A. Scandal?

"It is not good, but what about DNA in this case," he blurted the IMA staff for the division of the James Center. "We told them there was money available, Supervisors Tung and McFadden helped as much as they could, but the staff did nothing but make promises that we got the money that was needed. The commitment was to pay 'B2 is a job,'" he said.

Emily Williamson, President of the NAACP, said, "This is the true Community Based Organizations and Black leaders make when they say, minority and never get to the grassroots level. Something is wrong with this system. The system." She said, "I can't imagine the Executive Direct­ors of our system to hear all sides of disputes and promote fair and equitable solutions to those involved."

Then, let us work to solve our problems within our system we can solve the same credibility is the way she used to.

The accusations of racism and bigotry have surfaced again and again in our schools. I must state that accusations of this kind must be dispatched immediately. As Solomon stated in the Holy Scriptures, "Get understanding, and make haste to her permanent residence. This alone is a responsibility to be borne by any particular person, unless the same should be otherwise declared.

The construction of new facilities at the high school and proposed changes in curriculum, can bring with them the possibility of change in the school system. The construction and proposed changes in curriculum, can bring with them the possibility of change in the school system.

I, as a student concerned with the construction of new facilities at the high school, am especially concerned with the high school because this is where most decisions are made by the teachers, principal, and administration. It is also the place where students begin to separate reality from fantasy.
Thanks for your support

Dear Editor:

Thanks to 22,005 Riverside County voters for their support of my Clerk-Recorder race this June 8th. I am very proud of the many benefits of ads, signs, mailings or even my picture in any newspaper, just old-fashioned rallies, handshaking and lots of shoe leather. Congratulations to Ed Cooney on winning the contest. To Jim Repke, my appreciation for his great campaign.

I trust the people are enjoying the paper so very much.

Rev. & Mrs. E. Jefferson
