**Voting Rights Act Extended**

The Voting Rights Act extension passed the Senate unanimously yesterday and will be signed before going to the President, and Congresswoman Steven Brown. This is a major victory for minorities and civil rights groups.

G.E. Receives $4.8 Million - More Jobs

The General Electric plant located in Valley, California has received a $4.8 million grant for the repair and overhaul of the Air Force C-5 plane, announced Congressman Brown. Tuesday, Congresswoman Brown told the "Vote" the measure "brings a new job for people" in the Congressional District and welcomed it as an area of major plant changes.

**Voting Rights Act Extended**

When 11:21 a.m. arrived in Washington, this was the historic march by Japanese-Americans who fought in World War II but were broken by those who were "over-rotated," said Congresswoman Brown.

**Allen Chapel Choir Dinner**

Celebrating our 10th Year

**Sickle Cell Dinner**

Win Free $100.00 Ticket to Bradley Fund Raiser

**Perris High School Student Wins $1,000 Scholarship**

Candace A. Washington

Craig Johnson, son of Bobbi High School, was second place scholarship winner. He received a large trophy and all other participants received plaques and were presented on awards night at their respective high schools by Elsie Motes, 30 students from several local high schools participated in the scholarship competition. Students were judged on the following criteria: School and community participation, written and oral examinations, and career and academic progress.

Shelton J. Woods

Wood's Mission: Appalachian

Airline: United Airways

Of all the airlines, this is the one to look for. It is the most reliable and has the best service. The pilots are all highly skilled and have many years of experience. The planes are all well-maintained and the baggage handling is efficient. The meals are also excellent, with a wide variety of choices. Overall, United Airways is a great choice for anyone looking for a reliable and comfortable flight experience.

Ken O'Farrell

Tragedy Averted

A tragedy was averted only because of our "watchful" God! Ken O'Farrell said he and Rose Marie held on to the window of the car they were in. Suddenly, the car hit a tree and then it was over. O'Farrell said he was lucky to be alive.

Fearing was gone through the window of the car, but he didn't do anything after knowing about it. James Waters said, "The first thing I saw" ISRAEL SAYS ABOUT BLACK PROTESTS IN THE STREETS. "I'm just going to pass it by and hope it goes away."

The Need for Clergy Crusades to Washington, D.C.

BY HON. GUS SAVAGE

A gallant contingent of prominent Black ministers from Chicago's South Side made its way to Washington, D.C., June 9, to battle against proposed cuts in social service programs to allow increases in defense spending.

These men and women, however, left much more than words printed in the Congressional Record (June 10 edition) which documented their "Clergy Crusade." They left behind lasting impressions in the hearts and on the minds of millions of Black Americans, including Illinois Speaker Thomas O'Neill, Majority Whip Thomas Foley, Senators Charles H. Percy and Alan J. Dixon.

The ministers addressed by these Black ministers is one that must be repeated by our leaders in Black church all across our nation. That blunt message is this: the Black poor and the poor of our nation are hurting and we are unwilling to allow any more pain.

A budgetary remedy must be presented as part of the federal budget for fiscal year 1983. Why the Black Church?

The Black church has historically been, and continues to be, the voice and plow of hope—winning Black communities.

These are precisely cosmic truths which find Black communion nearly sempre with the weight of a severe loss of their homes due to changes in federal mortgage programs. We are in the midst of a federal budget for fiscal year 1983.

Thomas P. O'Neill, Majority House Whip Thomas Foley, and ranking congressional leaders, including House Speaker Thomas Foley, traveled to Washington, D.C., June 8-9, to battle against proposed cuts in needed social programs to allow increases in defense spending.

It was a very spirit-filled afternoon.

Congratulations to our graduates who saw Sunny G., Givens, Deonne J., Johnson and Vincent Baum. We are proud of their achievements, and had a special speaker for nursing service on May 21. At 3 p.m., Rev. James Walls, Marketing Manager of "Triumphant Rent A Car Systems was with us in the gladness and say congregations some of his experiences and encouragement with us.

The Lord blessed us with a very spiritual and uplifting service on Sunday, June 20. Our Sunday school lesson told us that God is able to transform our old nature into a fruitful nature. Those of us attending Sunday School were already uplifted in the spirit by the time morning worship began. We would like to encourage our Inspirational Choir to work for Him. Those of us attending Sunday School were already lifted up in the spirit by the time morning worship began.

We are in prayer for Sis. Mary Smith who was with us that day and was not feeling well.

Last week was Vacation Bible School. The classes were held from 10:00 a.m. to 2:00 p.m. and they ranged from ages three to senior citizen. Everyone who attended gained some spiritual and educational experiences and encouragement with us.

The Spirit was high as the choirs and congregation.

By Cheryl Brown

The Spirit was high as choirs participated in the Annual Choir Day at Allen Chapel A.M.E. Church, held from 6:00 p.m. to 8:00 p.m. and they ranged from ages three to senior citizen. Everyone who attended gained some spiritual and educational experiences and encouragement with us.
Family Planning Makes Sense

The Supreme Court says it is constitutional. The public supports it overwhelmingly. Major legal abortion is still a fact of life, with no one actively promoting from a high moral vantage point the idea of smaller families.

As a result Congress has passed limitations on the use of federal funds, something that allows only poor women some other way or gain private doctors to do what public clinics cannot do. The newly sustained supplies don’t exist.

And the regulations are also trying to rewrite the rules to actually not only the principal opponents of abortion but also those who want sexual activity as an end in itself the government should suppress.

It is clear that some of the people who carry at the behest of government’s by fiat or by threat financing government-sponsored programs, which as far as their devout sponsors are concerned are living in virtual isolation. Some who see real stand as an evil intrusion into the government into the economy see nothing wrong with putting federal cops in bedrooms and doctors’ offices to enforce their own narrow views of morality.

One of the more curious aspects of this view was the Department of Health and Human Resources’ decision to amend regulations for family planning services.

Under the proposed new rules, most people under the age of 18 coming to family planning clinics for birth control prescriptions of contraceptives continue to be served only after their parents are notified.

Aside from the obvious violation of the doctor-parent relationship by the federal government, and the warped practice of turning public health providers into government informants, the rule will force the equivalence of traditional legal rulings.

Probably the intention is to discourage teenage pregnancy by dissuading proliferation of birth control devices. It is not clear what the consequences will be. Persons will get information, presumably no one should not go to the birth control clinics for birth control information from sexual activity. At least that seems to be the thinking. Note that, as is applicable to women.

But is that is actually likely to happen?

Perspective/Opinion

Surely we know enough about human nature and needs and enough about society’s attitude toward sexual activity to realize that the end result is likely to be fewer young people taking advantage of family planning services and a more unwarranted teenage pregnancy.

If the authors of the rules wanted to assert the role of sources they needn’t have bothered to change the existing rules because if that family planning programs encourage only participation in the sexual practice. Instead of encouraging reproduction, contraception should be provided.

The proposed rule has resulted in a storm of protest from doctors from doctors, parents and young people. One young woman wrote:

“My baby will be three months old and I would not have allowed it to come to birth if not without taking any mother.”

It is difficult for me to comprehend that a family planning clinic is in part of a larger campaign to make abortion illegal. The clinic doesn’t perform abortions, but refer patients to places that do.

By making birth control available information they help young people realize they can control the couple and their children if and when and how many.

The abortion issue is probably the hottest issue around. By making birth control information available they help young people realize they can control the couple and their children if and when and how many.

With the new rule, parents who want their teenager to have an abortion will not be able to take the risk of making their daughter know about illegal abortion unless she is mature enough to make a decision for herself.

Nor is it sufficiently concerned with the fate of unwanted children. The Supreme Court says it is constitutional. The public supports it overwhelmingly, the law is still a fact of life, with no one actively promoting from a high moral vantage point the idea of smaller families.

The Commission said that while displacement from the land seems as a threat to small farmers, “The law has occupied most recently among black operators of farms, in particular a large number of black-owned farms declined by 17 percent, a rate of loss twice as large as that for white-owned farms. Only 27,271 black-operated farms remained in 1978, compared to the approximately 60,000 farms operated by blacks in 1960.”

The Commission asserts that the “social and economic exclusion of displacement of black farm families, ... the need to increase the number of farm families to be greater than the cost of assisting these families to be self-sufficient and to be able to sustain their land. We will have a greater call on our resources to assist these families. To continue our activities in accordance with the principles and practice of our faith, we will have to rely on the support of friends, families, foundations, and government.”

Haitian Release Saves Face

The Supreme Court of California, in a decision that will save face by not being racial, upheld the decision of the Superior Court of Riverside County.

The U.S. Commission on Civil Rights called on the administration to do something about the thousands of Haitians being housed in Army barracks in Florida. The Haitian program, the Commission says, is a “power greater than all of us.”

More than anything else, however, we want to please him, whether in our homes or here. For all of us must appear before him to be judged by him. Each one will receive what he deserves, according to his works. He is the judge of all the work of faith, and we can. We must recognize, praise and thank the magnificent persons we are. In the Bible, and mentioned in his second letter to the Corinthians, Col. 5:10, for our life is a matter of faith, out of sight. We are full of courage and would much rather to leave our home in the body and be at home with the Lord. More than anything else, however, we want to please him, whether in our homes or here. For all of us must appear before him to be judged by him. Each one will receive what he deserves, according to his works. He is the judge of all the work of faith, and we can. We must recognize, praise and thank the magnificent persons we are.

A summer swimming program for children and adults, from beginning to advanced, runs June 30 at Riverside City College. This year, Busch to Spend $1 Million in Papers

BALTIMORE — Anheuser-Busch will spend $1 million in 1982 in advertising in Black-owned newspapers, it was announced by Wayne F. Smith, III, vice president of corporate affairs for the world's largest brewer.

The advertising program is a sound investment in your media as well as in our communities. Your publications are an effective way to reach consumers, and Black newspapers play an important role in community life. Your readers support community-based nonprofit organizations through direct charitable contributions and as customers of the corporation.

As an example, Mr. Smith said that Anheuser-Busch continues to explore opportunities to expand the number of minority-owned distributors and hire and promote minorities throughout the organization.

A program of which Anheuser-Busch is particularly proud, Mr. Smith said, is the Anheuser-Busch Foundation, Inc., which will raise over $8 million this year to support 53,000 children in 42 United Negro College Fund member institutions.

The Affair is a project of the OIC Alumni Association. Tickets are $5.00 advance and $6.00 at the door. For more information call 656-7755.

We are a community newspaper interested in news that affects our community. Our news is focused on topics that directly affect our people, and we will report on it. We want to inform citizens, give it voice, and make the news accessible to all.

Questions Answers

By Clancy Blumberg

Assistant Professor of Accounting

the University of California

In recent years there have been several advances in the field of accounting, but little has been done to promote awareness of these advances. This is especially true in the area of financial management.

The good news is that financial management is becoming more and more important to business people. However, the bad news is that many business people are not aware of the importance of financial management.

The purpose of this paper is to provide some information about the importance of financial management and how it relates to business people.

The first section of the paper will discuss why financial management is important. The second section will discuss how financial management relates to business people. The third section will provide some tips on how to improve financial management skills.

Thanks for your support
Dear Editor:

Thanks to 22,000 Riverside County voters for their support of my Clerk-Recorder race. We have the benefit of ads, signs, mailings or even any picture in my newspaper just as fashioned rallies, handshaking and beds of rose afterbed. Congratulations to Ed Cooney for winning the second. To Jim Cannon, my appreciation for a great campaign.

I trust the people are satisfied that the important elective post remains in Riverside.

Sincerely,

S.B. Area experience not required.

For more information about the Riverside Police Department, contact Officer Jim Cannon (714) 787-7540.

For Rancho Mirage...
