Deukmejian's Aide Guilty of Leaking Rumor

Proof of sabotage to the former Democratic Lt. Gov. Kevin Deukmejian's 1980 election campaign surfaced this week, as it was revealed the Deukmejian for the powerful state position of finance director, Michael Franchetti, admitted to leaking a confidential state document in 1978 which contained the initials of how Deukmejian was to be victorious.

According to Associated Press, Franchetti, rather than a legislator, Mississippi Attorney General Evaxo Younger and presently serving as chairman of the state community college system under Deukmejian since 1979, denied having any input in the leak. As a member of the press corps, Franchetti maintained his innocence.

In the leak, Franchetti's aide released the leaked document as being false in an attempt to embarrass a rival candidate, the League of United Latin American Citizens.

Deukmejian's aide, however, is being investigated by the state attorney general's office.

The former aide, Edward J. Loertscher, has been the recipient of many awards during his career in public service, including the California Council of Government's Public Service Award in 1982.

Loertscher, who served as a member of the state Assembly, is expected to plead guilty to the charge of leaking a state document.

In the leaked document, Franchetti was accused of leaking a state document to a candidate to help him win the election.

The document was released to the press by a member of the League of United Latin American Citizens, who was later identified as Michael Franchetti.

Franchetti, who was serving as the chief of staff for Deukmejian at the time, was accused of leaking a confidential state document to a candidate to help him win the election.

The state attorney general's office is expected to file charges against Franchetti.

The leak of the confidential state document was first reported by the Los Angeles Times.

The Los Angeles Times, quoting unidentified sources, said the leak was made in an effort to embarrass Deukmejian before the November election in which he defeated Los Angeles Mayor Tom Bradley.

Supporters of Deukmejian were de­filed in 1978 by a group of Los Angeles residents who were active in the campaign.

Surely the Holy Spirit could be felt as the Celebrant, Pastor Jordan Copeland, opened the opening hymn, "Come Thou, O King," followed by Scripture reading and many beautiful songs which included "It Had Not Been For Thee," "The Lord Is Our Shepherd," "Through It All" and "Thank You for All the Blessings He Has bestowed upon us." Pastor Copeland spoke from St. Luke 7:31-35. The theme, "Grace Was Extended," was from the time when Jesus came into the city and ten people who had leprosy went to meet Jesus. Even though they had stood a distance away because of a contagious disease they were able to see Jesus and it was their desire to be healed. They begged to be healed. It is their desire to be healed. Jesus told them to rise and show themselves to the priests. The people heard it but did not do it. Even as they traveled along the way they looked at each other and could see that their bodies were being healed. Only one of these returned to thank the Lord for healing him. The story of the Good Samaritan illustrates this concept.

ences the many myths and inaccuracies that are abound. In these mis­conceptions, we must create a void between the real and hearing com­munities.

The Center for Serv­ices for the Deaf Person has been established to pro­
vide awareness regarding deafness and to provide service to the deaf and our community. It is our purpose to educate and familiarize our neigh­bors that communication is not speech.

Funding for the Center is at an all-time low. Your tax deductible donation is im­

GTE new area codes go into effect

What do you get when you add up all the telephone customers, in all or portions of eight California counties? 619

That's the new area code slated to go into effect on November 6, 1982, according to M. King, General Telephone of California.

The state's largest area code, 714, is being divided into two new codes to make room for the new 619 area code since Bernardino County, Inyo County, Mono County and to the 619 area code.

General Telephone of California. and include most of San Diego County, Imperial about 1.2 million customers will retain the 714 area telephone company forecasts showed the exiting 714 small areas of Tulare and Kern Counties. "We are not changing anyone's seven-digit number," King said.

The 714 area code will be retained in an area including most of Orange County, eastern Riverside County, southwestern San Bernardino County and a small portion of eastern Los Angeles County.

The rest of the old 714 area code will become the 619 area code and include most of San Diego County, Imperial County, eastern Riverside County, most of San Bernardino County, Inyo County and Kern County and small areas of Tulare and Kern Counties.

"By carrying out the smallest 714 area code in much the same way as you do now, we can significantly reduce the number of people affected by the area code change," King said.

Telephone company statistics show a significant number of calls are made back and forth between Orange and Los Angeles Counties. With the change, about 2.2 million customers will retain the 714 area code and more than 1.7 million customers will convert to the new 619 area code.

"We are not changing anyone's seven-digit local telephone number only the area code," said King. "We will maintain special ad

National Bar Awarded $275,000 to help Minorities

The Commerce Department's Minority Business Development Agency (MBDA) today announced that the award of a $275,000 grant to the National Bar Association to develop and implement a special program for the delivery of legal services to the minority business community.

Under the grant, the Washington, D.C.-based trade association will operate a National Lawyers Referral & Information Center which provides legal services to minority entrepreneurs who are in need of competent legal services. "The National Bar Association maintains a reputable image in the legal profession and the services will be greatly beneficial to the minority business community," the said.

At Bourns, we don't offer equal opportunity. We guarantee it.

The Equal Employment Opportunity Commission defines Equal Employment Opportunity as "the right of all persons to work and to advance, without regard to race, color, creed, national or ethnic origin, or sex." We at Bourns, however, feel that a more precise definition is required to advance the cause of justice.

The open-ended definition by the federal government is subject to interpretation. The American Bar Association, through its Committee on Professional Responsibility, has developed a more precise definition. We consider them a commitment to justice.

A commitment to justice that we believe in and support with our actions. To us at Bourns, these words are more than just a definition. We consider them a commitment to you, and all of our employees. That if you have the desire and the ability to advance, we will guarantee you the opportunity to prove yourself.

Moving Industry Victim of Economic Crunch

Before Moving & Van Lines like all other carriers across the country is suffering under the current economic crunch. Although they are many industrial parks being built which means moving business, a substantial portion of revenue is tied to both the construction and sale of homes. The construction of new homes slowed down. And while the van lines exist at 2600 California Avenue, Arizona, Texas and Florida are experiencing growth which translates into moving business, this business is in a serious downturn which helps only move from the area where the moves originated. The van lines exist in California.

Bekins Southern California District Manager, Clark Burton indicated that in the 20 years with the company the 1980's have been the worst industry wise. According to a recent industry report, Mobility, Transfering the number of Americans who change their place of residence each year has declined from 20% of the population in 1960 to 17.5% in 1982. Innovation and rapid adjustment to the changing economic conditions may very well be the margin of difference between a company merely cutting back or going out of business.

Bekins is a substantial player in their competition in the survival of the moving industry. If human sell there is no more available to pay for a move. Many companies in case severe economic measures are not moving employed at the pre-recession pace. According to Clark Burton, Bekins is operating in the economy over 20% ago and to stay competitive target measures to find out just what

cutbacks would mean in terms of lesser customers. But another reason can be found in the high interest rates foreign and domestic, went under because of the charging only when you personalize them by adding

budapest to the "average" balance in their competition. At the same time they are locked ness concerns the bankers as well as the customers. FDIC, 550 17th Street, Northwest, Washington DC

The number of bank closings is hardly epidemic, the minimum balance ($300 to $500 typically) level, or

public wall looking for from a mover. Also, anticipating the deregulation of the moving industry, Bekins predicted correctly many new opportunities in the money industry to market. Correct assessment of market trends and opportunities resulted in a successful 3 phase market plan.

In Phase I, Bekins incorporated in March of, the "No Excuse Move," guaranteeing pickup and delivery, and instituting a penalty of $10 per day if the company failed. Phase II was the "ALL AROUND Protection," that is, increased insurance coverage. The enhancement was full replacement value with no depreciation.

Phase III was the guaranteed price based on volume and not weight on iterative moves. Phase IV was an Bekina insurance-quality assurance group to ensure.

In the final Phase V we introduced the settlement in-service. Here is an attempt to help the prospective customer adjust to their new environment by having advanced information compiled and sent to them prior to their leaving their origin. This phase also helps the operative who is doing it being transferred to locate a job in the new area. Also, Bekins will assist in selling and buying a new home.

With these new and innovative concepts, Bekins has weathered the economic storm. Many of it's competitors have had the board wagon and many of Bekins innovations.

According to Burton, "Aside from cut-rate rate reductions, the only true way to stay in business is to give your quality service at a fair price to our consumer. That's what we sell at Bekins. Price Value."
People Outside the Church, trying to set Policy

We get a lot of complaints from some community people, who don't belong to the church and don't believe in the church. But these people are always requesting and demanding that the church provide leadership and take on the role of Civic Right leaders.

Those some people have no pastor, isn't a member of a church, pay no tithe, support church activities neither make any free will donations and expects the church to take direction from them, in what they (the church) should be doing.

On behalf of the community church members who have to listen to these requests, we say, the ministers and churches are taking direction and fulfilling the motto that our church doctrines dictate and until those who are outside the church, join the church, we say, don't demand of us what our ministers and churches should be doing. Each church we know, keeps it's doors open every Saturday or Sunday, whenever we can join just as they are. You are always welcome, made to feel at home and once you do can sit around the table of decision making and give the necessary direction and make the request yourself.

Assembly District to hold Caucus

Assemblyman Wes Goggins (D-San Bern), has announced that Democrats who reside in the 56th Assembly District will convene a caucus Sunday, December 5th, 1982, at 1:00 p.m. at Kola, 1746 North Mt. Vernon Ave., San Bernardino, to hold Caucus according to Bob Parker at 884-1241. Any registered Democrat who resides within the 56th Assembly District, should take out filing papers at Assemblyman Goggins District Office, 29 North "D" Street, San Bernardino, and submit them to him prior to December 1, 1982. Mr. Parker explained that an Assembly District Caucus is a unique opportunity for Democrats to participate in the party structure. We are looking forward to an exciting and productive convention that will begin party mobilization for the 1984 Democratic presidential election, concluded Parker.

For more information about the 56th Assembly District Caucus, contact Bob Parker at 884-1241.

A Time to say Thanks

We have a lot to be thankful for the mere fact that we are here to complain about the things we don't like is a reason to be thankful.

I can never truly say that I was thankful for the way people and events have been, but I'm thankful to God they went away. I cannot say I'm thankful when a friend or someone close goes and says I'm thankful when they return home.

My God wants all peoples to be happy and well adjusted. When they are not contented and don't seem to adjust to life's situation I think it's the wrong of the devil.

My Thanksgiving message is: I thank God for all the good things in life. I think when something goes wrong, it is because I did not follow the directions. The objectives are found in the Bible. Happy Thanksgiving to all Black Voice readers especially readers of my columns, may the Lord Bless You.

Report from 12th Black Caucus Weekend

Continued from last week

Other legislation affecting minority businesses in the Second Session includes:

- P.L. 97-219, The Small Business Innovation and Development Act of 1982 was enacted on July 22, 1982. This law will become effective on October 1, 1982. All Federal agencies with a research budget of $100 million or more must establish a Small Business Innovation Research Program. These agencies must also set aside 2.5% of their research budgets for small businesses. At least $300 million in contract and grant dollars will go to small businesses. This Act has enormous potential for the development of Black research oriented firms.

- P.L. 97-771, The Prompt Payment Act was enacted on May 31, 1982. By law, agencies are now required to pay businesses in a timely manner. If this is not done, businesses will be able to receive an interest penalty on the delinquent contract price.

- During the summer of 1982, Congressman Mitchell and several other Congressional Black Caucus Members headed a delegation of Black Caucus Members headed by Vice President Mondale. The failure of agencies to pay Black businesses in a timely manner prompted this item of the meeting. President Carter ordered all agencies to make prompt payments. P.L. 97-177 helped to improve the cash flow of many businesses during this difficult economic period.

- H.R. 592, This bill was introduced by Congressman Mitchell, and is pending before the Government Operations Committee. If enacted, H.R. 592 would eliminate the outmoded practices of retainers. Retainers are Federal Government policies in which 10 percent of a contractor's contract price are withheld until the contract is complete; it also is an add-on to the bonding requirements. Currently, there are some minority-owned businesses with annual sales ranging from $250 thousand to $1.5 million showed $475 thousands in losses for periods of up to 1-14 years.

- H.R. 443 and H.R. 624, Congressmen Mitchell recently introduced two bills. The first bill (H.R. 443) deals with SBA's Hajj program. The bill requires that if a firm's Hajj business plan must contain targets, objectives, and timetable designed to overcome the firm's economic disadvantage status. The plan also contains predetermined "criteria of competitiveness" for financial, marketing and marketing functions so that the progress toward competitiveness can be measured and an estimated post-Hajj contribution date computed. The second bill, H.R. 624, is entitled the "Small Business Administration Personnel Reform Act of 1982." The bill is an attempt to decrease the personnel requirements that SBA has been subjected to by Congress. Another key change of H.R. 624 is its requirement that the Office of the Administrator reduce its top-heavy staff.
