Proof of sabotage to the former Democratic Lt. Gov. Deukmejian's 1978 re-election campaign surfaced this week, as it was revealed, the Democratic campaign, for the powerful state position of finance director, Michael Franchetti, admitted to leaking a confidential state document in 1978 which contained the letter rumor that Deukmejian was about to be indicted.

According to Associated Press, Franchetti, then a legislative assistant to Republican Attorney General Evelle Younger and presently serving as administrative assistant to the department presently under Deukmejian since 1979, said he was asked to make an apology to the former Democratic campaign aides. Franchetti rejected the suggestion and resigned his position.

The minister's bias on the Christian responsibility to the community.

Recently the IAMA was criticized in the "Voice" but not doing anything. Their response, published in the "Voice", made much of the community at bay and made major topic on their new accomplishments, from being in their own pockets helping to help and legalizing that will build more community spirit.

Looking at their interesting program on VOYAM, Sunday at 2:00 P.M.

Deukmejian's Aide Guilty of Leaking Rumor

District Director Appointed

Mervyn Dymally

Former Lt. Gov.

Kansas Ave. SDA Tribute to the "Golden anniversary of the Bible" will pay tribute to the "Golden Anniversary of the Bible". The event will be held on Saturday, November 25 at 27 Kansas Ave. SDA Church. The tribute will feature several speakers. The keynote address will be given by Dr. Robert L. Fairley, who will discuss the importance of the Bible and its impact on society. The event will also include a performance by the New Hope Baptist Church choir, led by Pastor Norman D. Copeland. The choir will sing a mix of traditional and contemporary songs, including "Hark! The Herald Angels Sing," "Joy to the World," and "Amazing Grace."

The celebration will be held in the morning, with the main event taking place at 11:00 a.m. There will be a special message delivered by Dr. Fairley, followed by a 40-minute program that includes music, prayer, and testimonials. The event will conclude with a cake-cutting ceremony to mark the 200th anniversary of the Printing of the Bible in the United States. In honor of the anniversary, the church will open its doors to the public for a special Divine Service at 8:00 a.m., 11:00 a.m., and 6:00 p.m.

The event is open to the public and is free of charge. The church is located at 27 Kansas Ave. SDA Church, Riverside, CA. For more information, contact the church at (714) 847-7520.
The Mayor's Prayer Breakfast is open to anyone who Breakfast included an annual Revolutionary event for 30 years. For Rev. Byng it is being run for the 2nd year. Rev. Byng arranged the event with a new format. The Mayor's Prayer Breakfast was the first event of the evening and set a tone that was more informal and conversational. The event is dedicated by the Ushers was put to use as Rev. Byng pointed out, the Mayor's Prayer Breakfast is set to begin the evening's schedule. Byng then introduced Mrs. John Onze who should be the focus of the evening's events.

We began our day rejoicing in the Lord for all of His goodness and blessings. As we celebrate on Thanksgiving Day we will continue to be grateful to the Lord for keeping us through this past year and allowing us to witness more of His mighty works. We were reminded in our Sunday School lesson this morning that many of us are like the children of Israel because we tend to forget what He has done for us or what things we should be able to see and understand in the word. God blessed the Adult Choir as they sang about God's love and mercy. Christ has done it all for you. We have a wonderful message of hope and encouragement in the Youth Choir's performance of "Without Him," and "If It's Truly Interfaith," as it is in "Message of Concern to the American People!"

Chicago, IL

Sunday, November 21, 1982 was youth in action as youth of Park Avenue Baptist Church sang. Rev. Byng, recalling thefamous "Spirituals," reminded us of our common heritage. The preacher, Rev. Moss, pointed out that the name of the Lord is good. Christ has done it all for you. We have a wonderful message of hope and encouragement in the Youth Choir's performance of "Without Him," and "If It's Truly Interfaith," as it is in "Message of Concern to the American People!"

PHYSICAL CONDITIONING: A new facility has opened at March AFB for active duty and retired military personnel. The center opens Wednesday of every week. The former military personnel in the area will have access to an outstanding, well-managed facility available.

MORENO VALLEY: LAIDIES: We would like to present a San Claus class project. Chairman Donna Pitts needs volunteers to help with the project. If you are interested contact 609-5803.

Love: If a child witnesses loving relationships in the home, their chances of maturing into a well-adjusted, loving person in much better.

NOTE: Be careful when you teach hate. Disturbed children have been known to attack it’s trainer.

SOMETHING TO THINK ABOUT: If we meet and you forget you have less noise, but if you meet Jesus Christ and you forget you have lost everything.

That was the inscription inside a card given to me by brand.

New Energy Services Manager for Riverside
Judy L. Carlyc, new director of Energy Man-ager for the City of River­side. Dairon Dunn, program coordinator for the energy efficiency program at the city of Riverside said the new manager will be responsible for the city's energy efficiency program. Carlyc has been with the city of Riverside for 16 years.

Carlyc was the past Execut­ive Director of the Ener­gy Consumers Help Off­ice (ECHO). While there the administration con­sidered regulations targeted at utilities and residents and senior cit­izens. She also served as an Assistant Director and Executive Director for California Energy Commission.

Carlyc holds a B.A. in Business Administration from a university in San Diego State University.

New Laws to Protect Children
Youngsters gain two important protections as the result of motor vehicle legislation which became effective Jan. 1, 1983. The laws will have an impact on the energy-use habits of vehicle owners.

A public education campaign under way in California is the first effort to implement a law designed to force public consumption and conservation.

The commissioner noted that the law compels the energy manager to help educate the public on the impact of the rules. The campaign is intended to help energy managers meet the goal of reducing energy use by 15%.

The commissioner said that the law "responds to the extreme danger created by the trucking industry by requiring enforcement of the law at the back of open trucks, including pickups."

The law requires that the back of an open truck, including pickups, be used for transporting the child under four or weighing less than 40 pounds must be secured by an approved child restraint. (The restraint law permits peace officers to give parents warnings any time they witness an open truck with a child inplace.)

We are a city government newspaper interested in our public's ideas and needs. Without the input of our readers, we are unable to obtain the information we need to make informed decisions. In addition, we are unable to serve the community with the growing.

Our editor's door is always open to new suggestions and ideas and we may better serve the commu-

**Osby, Bourn Data Entry Operator Speaks of her Future**

Marie F. Osby, is a Data Entry Operator and works in the BCG, Data Processing Department of Bourn. She operates the input machine CRT and the IBM 129.

"I like it [my work] very much," said Marie, when interviewed by Black Voice News recently. However Marie is not satisfied with staying in that position. "My goal right now is to further my education to go up the ladder to become a Computer Programmer," she said.

"Not just a dream, Marie has put her goal in perspective. She will soon go to Anaheim for orientation with Central Data.

The orientation will test for the knowledge of the field, as well as discuss how much money, and time it will take.

At the top of her list for reasons to work at Bourn, she told the "Voice," she enjoys "the three-month interchangeable dialing period during which customers will be directed to a recording reminding the caller to redial the number using the correct area code. However, by early February of next year, calls not preprogrammed with the correct area code will be directed to a recording reminding the caller to redial the number using the correct area code.

Kong said the area code change will affect not only current local free dialing areas nor will the conversion have any direct impact on local telephone rates. However the 714 area code would run out of available three-digit numbers by the end of next year. The 714 area code will be retained in an area including most of Orange County, western Riverside County, southwestern San Bernardino County and a small portion of western Los Angeles County. The rest of the old 714 area code will become the 619 area code and include most of San Diego County, Imperial County, Eastern Riverside County, most of San Bernardino County, Inyo-California, Nevada County and a small part of Tulare and Kern Counties.

"By carrying out the smaller 714 area code in such a manner, we can significantly reduce the number of people affected by the area code change," said Jack M. King, General Telephone's Eastern Area Manager. "It would be a three-month interchangeable dialing period during which customers would run out of available three-digit numbers, but we are not changing anyone's seven-digit telephone number. In all or portions of eight California counties, including most of Orange County, western Riverside County, southwestern San Bernardino County and a small portion of eastern Los Angeles County, the 714 area code will be retained in an area area code in that area we can significantly reduce the number of people affected by the area code change."

Engineers to help us maintain our leadership on the basis of merit, and ability and potential. We consider them a commitment to as "the right of all persons to work and to advance, we'll guarantee you the opportunity to prove yourself. **National Bar Awarded $275,000 to help Minorities**

The Commerce Department's Minority Business Development Agency (MBDA) today announced the award of a $275,000 grant to the National Bar Association to develop and implement a special program for the delivery of legal services to the minority business community.

Under the grant, the Washington, D.C.-based trade association will operate a National Lawyer Referral & Information Center which provides free legal services to minority entrepreneurs who are in need of competent legal services. "The National Bar Association maintains a reputable image in the legal profession and will serve as a gateway to the minority business community," the said.

The association also will maintain special advisory committees and legal education seminars to promote the interests of minority business development in the private and public sectors.

MBDA Director Victor M. Rivera said this award is significant to minority entrepreneurs who are in need of competent legal services. "The National Bar Association maintains a reputable image in the legal profession and will serve as a gateway to the minority business community," the said.

Bekins Moving & Van Lines like all other carriers across the country is suffering under the current economic crunch. Although there are many industrial parks being built which means moving business, a substantial source of revenue is tied to both the construction and sale of homes. The construction of new homes is slowing. And while the sun belt states (e.g., California, Arizona, Texas and Florida) are experiencing growth which translates into moving business, this growth is offset in some cases by the fact that many banks are reducing interest rates on home equity loans, which helps home buyers remain in their homes. The increasing impersonality of the banking business is a significant factor in these cases, because most banks are in the business of making loans to customers without much personal contact. This is particularly true in the survival of the moving industry. If home owners don't sell their homes, there is no money available to pay for a move. Many companies in the moving industry are not making enough money to operate, relying on cash flow generated by past moves. In these types of cases, the banks are most interested in the amount of their charges. Some banks make a profit on the amount of their charges, whether they are paid or not. In fact, banks are forced to pay in fighting The increasing impersonality of the banking business is a significant factor in these cases, because most banks are in the business of making loans to customers without much personal contact. The safety of your deposits

The safety of your deposits

The agency of bank failures is hardly predictable, yet even the few percent are very expensive. The reason for so many closures is simply that an unusually large number of banks have been failure-prone. The foreign and domestic banks went under because of the high interest rates that couldn't be paid off in a lump sum when the customers withdrew this money and put it into high-yield investments. With this "float" gone, the free ride was eliminated. Any loans that were made on the basis of the "float" are at risk. The banks are working hard to keep their customers from withdrawing their money, but there is a limit to what they can do. There are several ways to keep bank charges at a minimum, or even eliminate them entirely in some cases. You can pay all your bills at the bank and keep the highest balance minimum ($300 to $500 typically), avoid over a bank that uses the "float" balance, figuring out the amount of its charges. Some banks make money on the amount of their charges, whether they are paid or not. In fact, banks are forced to pay in fighting The increasing impersonality of the banking business is a significant factor in these cases, because most banks are in the business of making loans to customers without much personal contact. This is particularly true in the survival of the moving industry. If home owners don't sell their homes, there is no money available to pay for a move. Many companies in the moving industry are not making enough money to operate, relying on cash flow generated by past moves. In these types of cases, the banks are most interested in the amount of their charges. Some banks make a profit on the amount of their charges, whether they are paid or not. In fact, banks are forced to pay

The safety of your deposits

The safety of your deposits

The agency of bank failures is hardly predictable, yet even the few percent are very expensive. The reason for so many closures is simply that an unusually large number of banks have been failure-prone. The foreign and domestic banks went under because of the high interest rates that couldn't be paid off in a lump sum when the customers withdrew this money and put it into high-yield investments. With this "float" gone, the free ride was eliminated. Any loans that were made on the basis of the "float" are at risk. The banks are working hard to keep their customers from withdrawing their money, but there is a limit to what they can do. There are several ways to keep bank charges at a minimum, or even eliminate them entirely in some cases. You can pay all your bills at the bank and keep the highest balance minimum ($300 to $500 typically), avoid over a bank that uses the "float" balance, figuring out the amount of its charges. Some banks make money on the amount of their charges, whether they are paid or not. People Outside the Church, trying to set Policy

We get a lot of complaints from some community people, who don't belong to the church and don't believe in the church. But these people are always requesting and demanding that the church provide leadership and take on the role of Civil Rights leaders.

Those same people have no pastor, isn't a member of a church, pay no tithe, supports church activities never any free will donations and expects the church to take direction from them, in what they (the church) should do.

On behalf of the community church members who have to listen to these requests, we say, the ministers and churches are taking direction and fulfilling the mission that our church doctrines dictate and until churches are taking direction and making the necessary direction and make the request yourself.

Assembly District to hold Caucus

Assemblyman Cervantes, has announced that Democrats who reside in the 66th Assembly District will convene a caucus Tuesday, December 5th, 1982, 1:00 p.m. at Kato Shabazz, 1760 North McVernon Ave., San Bernar-
dino. He announced that Demo- crats who reside within the 66th Assembly District will convene a caucus to all Black Voice readers especially readers of my column, may the Lord Bless You.

A Time to say Thanks

We have a lot to be thankful for the mere fact that we are here to complain about the things we don't like as a reason to be thankful.

I can never truly say that I was thankful for the worse and peace I've had, but I'm thankful for God to sent away.

I cannot say I'm thankful when a friend or someone close goes away, but I'm thankful when they retain home.

My God wants all people to be happy and well adjusted. When they are not contented and don't seem to adjust to life's situation I think it's the work of the devil.

My Thanksgiving message is, I thank God for all the good-things in life, I think when something goes wrong, it is because I did not follow the direction. The objectives are found in the Bible. Happy Thanksgiving to all Black Voice readers especially readers of my column, may the Lord Bless You.
