Martin Luther King, Jr. was born in Atlanta, Georgia, in 1929. Although he earned a Doctor of Philosophy degree from the Boston University in Massachusetts, much of the education he received was in the South. He knew the problems and the racism in the lives of Black southerners.

Dr. King returned to the South and became a leader in his community and improved the functions and organization of his church. In 1964, he received the Nobel Peace Prize, for his efforts toward peace in America.

Rollerson Trial Begins

The trial of Wanda R. Rollerson, who is accused of the murder of her 4-year-old daughter, started last Monday and is expected to last about three weeks. Rollerson, a vocational nurse who worked at the University of Riverside Campus, was arrested about a week after the death of the little girl Nicole M. Crane was discovered by a jogger in the hills behind the University of Riverside Campus.

The coroner's report states that Nicole's mother, Nicholle Monique Crane, was found dead in her home on December 26, 2006. Nicholle's husband, Eric Smith, was arrested and charged with her murder.

The Second Baptist Church, 2911 Ninth Street of Riverside, will pay honor and tribute to Rev. W. Will Edmond as he celebrates his 25th Anniversary as Assistant to the Pastor, Sunday January 23, 1983 at both the 11:00 a.m. and 3:30 p.m. Sunday School services.

The most unusual thing about Rev. Edmond's Anniversary is, for the past 26 years he has preached his own Anniversary sermon, and this year will be no different. The entire church anticipates a day of great inspiration as well as spiritual enrichment. Music for this celebration will be rendered by the renowned Inspiration Choir under the direction of Mrs. Jeanette Catan. He intends to extend this invitation to share this occasion with us.

Cal Baptist Presents Faculty Recital

IMAM: I'm sure they do. I don't know if we think of them as Christmas gifts, I send just as a gift, and it was more Christmas, I don't think we think of them as a symbol. I have a problem doing that.

During the season, I do send "Season's Greetings" cards to Christians who are my friends, or my in-laws and relatives, on Christmas cards because it has the Trinitarian concept. I don't find anything wrong with this thought - we can find the book, and when we do just pick it up, open it, read God's book and we will find Jesus.

Our Church Anniversary is scheduled for Thursday, January 13th, Friday, January 14th and Sunday, January 16th. Eunice Williamson, Woody Hughes and many others; that's why they have cards that just say Christmas, they don't share the ideas. I don't find anything wrong with the Christian relatives, who celebrate Christmas, a gift on Christmas, I don't think they should worry about it - they shouldn't have any bad feelings because they are celebrating Christmas. They are not encouraging the celebration of Christmas, I think they should do that. I think they should do that. I don't find anything wrong with it.

We have even our bodies belong to God. Jesus does not bless us in our Sunday School and morning worship taken as the text. Rejoice ye in that day, and leap for something. We were reminded that everything we desire any of his children to suffer because he came God in our hearts. In spite of the obstacles that may we do in this life. In order to receive this reward, we must seek after those things which are right and pleasing to His sight. We must walk by faith and not by sight.

We welcomed Natalie Lee in to the Grace Bethel Church. A candidate for baptism our worship service included Mr. and Mrs. Cloyd Maddox and family also Mr. Sam Hays.

Mend A Screen

Once you have even the smallest hole in a window screen, it seems that every bug in town tells all his friends about it. But there are ways to mend your screen, if it's just a matter of a small hole or two. Naturally, if they are old and deteriorating, you should plan to replace them. Intheseglass screens, for the tiny holes, all you need is a dab of clear nail polish or household cement. Use a little and line the edges, immediately. If you have a clean cut in a screen, see it together carefully, with tension on both sides, with the clear nail polish or household cement. Use a little and line the edges, immediately. The Art of Wise Budgeting and Spending

CREATIVE FINANCING

With interest rates still relatively high, some of the advantages of a new home have waned. Finding favorable financing has overshadowed the actual purchase price of the home in many cases. With the creative financing methods now available, the problem is choosing the type of financing that will fit consumers' budgets today and in future years. There are several of the types of loans available. If you are in the market for a new home, the type of mortgage you choose should depend on the answers to several questions: Will your income increase in future years? Will interest rates decline? Will inflation decline or remain moderate?

There are various kinds of fixed-rate mortgages. The conventional loan is one category. These loans are obtained for a period of about 25 to 30 years with a fixed rate of interest, and the loan must be considered by persons who feel interest rates will stay about the same. A creative fixed version of fixed-rate mortgages is the graduated-payment mortgage. Interest rates may increase as much as 7½% annually. After about six years, the payments level off. This mortgage costs more than the conventional mortgage.

The growing equity loans is a variation of the graduated payment loan. This is a fixed interest loans with unusually high monthly payments which can increase at a rate of 3½% per year. The mortgage is paid off in about half the time as with a conventional mortgage and is mostly chosen by the affluent.

Then, there is the zero interest mortgage. A very large down payment is required for 10%, 30%, and 50% of the purchase price is usually required. The principal is paid off in one lump sum without interest. No interest is charged, but the sale price of the house is usually higher. The buyer may deduct interest as though a 10%, 30%, or 50% mortgage is paid off. On the other hand, the interest deducted will decrease the buyer's basis in the house. The result: a bigger gain when the house is sold.

For homeowners who think interest rates will decline, there are different types of adjustable-rate mortgages. Interest rates are adjusted approximately every six months. Restrictions on adjustments range from a maximum of one percentage point to a rate not to exceed the lender's best or best owner's mortgage. In some type of adjustable-rate loans, the monthly payments are fixed for, usually, three years. Then the fluctuations in interest rates are reflected in the loan balance. If interest rates decrease, a larger share of each payment is applied to the principal if interest rates rise, the opposite is true.

Then there are equity sharing mortgages where an investor contributes parts of the down payment and monthly payments in exchange for portions of the tax benefits of home ownership and appreciation in the property.

For borrowers who think the interest rates will keep pace with inflation, there are mortgages with an interest rate linked to the rate of inflation. These loans are less likely to become burdensome than loans tied to the prime rate. Some forms of creative financing are not recom-

The major question is whether you will be able to live with an arrangement in the future. Economic circumstances change from year to year; so in any level-headed viewpoint to determine if a loan that "fits" today will "fit" next year.

FOOD PRICES

A survey by U.S. News and World Report revealed grocery prices in eight major cities have increased only 4½% since 1973 while the Consumer Price Index has increased 7½%. Canned and dry milk products and convenience foods along with processed foods (sold by three-fourths of the nation's grocery) will probably help maintain grocer's profits. However, the original products are usually priced lower, but you pay a higher price for the convenience foods. The following month in one product area can be wiped out in another.

New Staff Member Commended

Dear Editor:

I would like to commend one of my newest colleagues, and also congratulate the Editor of the Voice newspaper.

Ms. Martin Luther King, Jr. has hired a new staff member to the journalism staff of the most community-owned paper in Southern California, the Voice. Ms. King also liberates language from the clutches of the past with the establishment of her own new newspaper.

Brooks-Angell is an excellent journalist and has been an important voice in the local community.

I commend the Voice for providing David and others with an opportunity to exercise, develop, and express their talents with an established print platform.

Edward Jennings
