Citizens Protest KKK Members Rally

by Herbert Adams
PALM SPRINGS - A local Civil Rights group from Palm Springs turned out last night to oppose a gathering by the KKK. At the rally, the group stayed under the slogan "Freedom for everyone," while the KKK was dressed in white robes and carried black and white flags.

The Palm Springs City Council has declared that the activities of the KKK are illegal in the city and have asked for their help in removing them from the area. The City of Palm Springs has a long history of opposing the KKK and has taken legal action against them in the past.

The event was held at the Palm Springs Convention Center, and the rally-goers received a message from the group about their work in the community.

NAACP Launches Massive Campaign for Solidarity Day

The massive demonstration sponsored by the NAACP, the National Urban League, the Southern Christian Leadership Conference, and Operation PUSH, in conjunction with the AFL-CIO and a federation of civil rights, labor, and other social organizations is being organized to protect the Reagan administration's budget cuts, Hooks explained. "This is the only way we can be heard on the backs of the poor does not have a vocal, united front," the NAACP's treasurer, said to the importance of the protest.

We must raise the consciousness of the nation's leadership, the NAACP's executive director said. "We need to create a movement that will make our leaders face their responsibilities." The NAACP's national convention will take place in Los Angeles from September 9 to 11, and the rally is expected to attract thousands of participants.

Hampton Appointed Superintendnet

Dr. M. W. Hampton has been appointed assistant Water Superintendent.

Hampton began work with the City of Riverside on September 1, 1977. On two occasions in the past, Mr. Hampton has been involved in significant water quality issues with the City. The water supply from the City of Riverside and the City of Los Angeles are both under federal orders to improve water quality.

The NAACP's "National Water and Air Quality Campaign" is a nationwide effort to improve water and air quality. The campaign has been supported by the NAACP's National Board of Directors and the NAACP's National Chairman.

Community Spotlight

Mrs. Harriett N. Martin is the first black woman who has been named "Woman of the Year" by the Los Angeles NAACP chapter. Mrs. Martin has been active in many community organizations and has been a strong advocate for civil rights. She has been involved in many activities, including the NAACP's "Freedom Day" rally.

The rally, held on the last day of testimo-

ions, was not treated differently.

The district contends that the

manager was not air-conditioned

on August 8, 1981, at 1:30 pm.

The August 13 meeting will address the county-wide

which all civic leaders and

members are invited to attend.

The Speaker will be Mr. W.D. Ewell, President of the National Council of Negro Women, the National Newspaper Publishers Association, and Omega Psi Phi Fraternity.

The event will be held at the Labor Temple, 1027 La Cienega Blvd., Los Angeles. The NAACP chapter in Los Angeles, which is the largest in the country, is expected to draw a large crowd.

Mayor A. V. Williams, Jr. will address the county-wide meeting on August 13. The meeting will be held at 11:30 am with a no-host social hour and luncheon at the Labor Temple. Luncheon reservations, at $15 per person, are available through the NAACP National Headquarters.

Ruttorro Tolled

Torrirro was murdered in Panama City and could face up to 30 years in prison. However, his family is hoping for a change in the law that will reduce the penalty from a life sentence to a maximum of 15 years. The family is also hoping for a change in the law that will allow for the possibility of parole.

The family of Torrirro Tolled is fighting a battle against the Panama government, which they believe is responsible for their son's death. The family is also fighting against the law that allows for the possibility of parole for those convicted of murder.

City-wide Revival to be Held

The city-wide revival will be held on August 15th at 10 am at the city's largest church, the First Baptist Church of Riverside. The revival will be led by Reverend Dr. Martin Luther King Jr., who will be traveling throughout the country giving revivals.

School Closure Case Submitted to Judge

Both sides rested in the last day of the school closure case, which was heard in U.S. District Court, Los Angeles. The judge listened to the arguments of both sides, but did not announce a decision.

The case involves a school district that has closed several schools in the area, citing financial difficulties and the need to cut costs. The parents of children who have been affected by the closures have filed a lawsuit against the district, claiming that the closures are illegal.

Water Supply is Going, Gone - 1981

The possibility of water shortages in Southern Califor-

nia continues and scores from Riverside to San Diego are facing a water crisis. The California Water Project is the only solution to the water crisis.

The water supply for Southern California has been reduced to one-third of its normal capacity, and the state is expected to run out of water by 1983. The state has already begun to ration water to industrial and agricultural users.

Rev. WM Jackson
PASTOR

James Molby, former member of the Inspirational Choir, was special guest vocalist this Sunday as the choir sang our happy. During the celebration services about 100 people were in attendance.

Rev. Thomas G. Griffis of Jarvis College and father of Betty Taylor, choir director, was the guest speaker. The title of the message was "Life in a Landmark Job." He noted he was watching some landscapers one day and related it to the Christian experience. First we must "take this life and see what we can do with it." He stated three things that go into landscaping: (1) We must accept our area; (2) Do an all or none job; and (3) Plant and water them well. But remember only God can make it grow.

St. Paul welcomed home James Molby, former member and President of the Inspirational Choir, who was married in Washington D.C. also a welcome back to the morning speaker, Rev. Thomas G. Griffis, a professor of Religion and minister at Jarvis College and father of Director of the Inspirational Choir, Betty Taylor. Speaking also were Mrs. Vanessa Brown, mother of Mrs. Michelle, of Santa Cruz; Daisy Cook, Master Daniel; Donna Goss, Ruth McKinney and Karrie Summerson, of the local area, Erma Koonce, of San Diego visiting the Curry family, Rachel Cook, of St. Mary, visiting Ann Westly, Regional Director and Laura Johnson, of both in Panama.

Home welcome from Debra Washington the Washington family, and members of the alumni that went to the Grand Canyon.

Rev. Jackson continued in improving study. Continue to pray for him and others who are sick, shut-in and recuperating.

Dear Mr. Welch:

As citizens of Ontario, California, and its neighboring cities, we urge you to take all possible measures to assure continued operation of the General Electric Iron Plant in our community.

The iron was domesticated in Ontario in 1923. Manufacturing began in 1940, and since then our citizens have made over $130 million more iron here and today products half of all iron made in the world that is used in the United States is produced here.

The General Electric bought the plant in 1952, you have promised yourself the not just a business, but a public service, within your community. You have been a leader in the employment of women, minority persons, and Vietnam veterans. Your responsible attitude towards corporate leadership to show faith in the American economy. We strongly urge you to heed both responsibility and the needs of our community through the 1088 of 1,000 jobs, the 1088 of a $13 million tax base and foreign markets.

Since General Electric built the plant in 1952, you have promised yourself that not just a business, but a public service within your community. You have been a leader in the employment of women, minority persons, and Vietnam veterans. Your responsible attitude towards corporate leadership to show faith in the American economy. We strongly urge you to heed both responsibilities.

The Administration has structured national policy to give rise to responsibilities in response to human and community needs. The Administration has encouraged corporate leadership to both in the American economy. The Administration, you are strongly urged to heed both.

We urge you to give us the opportunity to save the General Electric Iron Plant in our community. Our city does not want to see its iron capital of the world, the iron capital of the world, the iron capital of the world, the iron capital of the world.

We urge you to give us the opportunity to save the General Electric Iron Plant in our community. Our city does not want to see the iron capitol of the world, the iron capitol of the world, the iron capitol of the world.

Last June 12th, you told us that you are seriously considering terminating our relationship, and we urge you not to make a decision in the rush of the moment, but to think of the long-range interests of this community.

On June 12th, General Electric announced it is considering closing its Iron Plant, which for 77 years has been a cornerstone in the West End's economy. A final decision to close could come at any time. The shut-down of the plant is a public issue which affects us all. Act today to save the plant by doing two things.

Mayor Ab Brown

At what event can you find new Riverside opening top hats and tails, and others in suits and ties, for free? At the annual Mayor's Ball for the Auctioneer.

Scheduled for September 13 from 6 to 9 o'clock at the City Hall Pool, the ball is a major fundraising event for the Riverside Arts Foundation. It also happens to be fun for good food.

The ball is limited to 110 tables of ten people each. A check for $155 reserves your table. That works out to $15 per person. Where else can you eat out for so much for so cheap?

If you have ever doubted the power of standing up, own something, the efforts of a group of Riverside folks. In seeing a city funded free-way on the fast track, 23 residents of Ger­

ton Avenue went to City Council to express concerns over the nature of the engineering.

They brought to the attention of the City Council, which immediately ordered a review.

The city is a major fundraising event for the Arts, of course.

The theme of the ball is "anything goes." (Within the limits of good taste, of course.) It just goes to show you, it can't attend, but wish to contribute.

Two Greats inducted into Hall Of Fame

Bill Gates and Andrew Foster "Faster" Walter were inducted into the Baseball Hall of Fame last Sunday in Cooperstown, New York. Gates's speech was short and straight to the point, which is often how his programs have worked. Walter was a major league player in 17 seasons.

"I'm not comfortable talking about myself, and I'm an athlete in a smoke-filled room," said the delightful couple who play along with theolumning of social service programs for the cities in the name of fiscal efficiency and do it with an attitude that you remember during the next election that "They were not us when they needed us, do not think they should be allowed to be in the city until they were done, we're not them when we need them," said Coleman, whose city is 87 percent Black, said the people of Detroit clearly answered the call and their courses when they voted in their last tax, passed last Tuesday. "If we do that thing, then the Birmingham Administration offered to hire "amphiotic" parolee of the two men who put "human rights and human dignity back in the smoke-filled room," said the Detroit Black Mayor of Detroit Coleman A. Young, the Speaker of the 11th player elected to the Hall of Fame in his first year of eligibility. "No one gets the vote, everyone gets the same treatment and the same opportunities. We may all play baseball, and we may not play baseball. It's respectable to be working the fundamentals.

Gates praised his managers, Johnny Koppel and Red Schoendienst. Schoendienst managed Gates during his glory years.

In 1958, black sports hero Armstrong held the velvet rope as he was inducted into the Baseball Hall of Fame. This past Sunday in Cooperstown, New York. Armstrong's speech was short and straight to the point, which is often how his programs have worked. Walter was a major league player in 17 seasons.

In all the movies which have opened this summer only a hand full have had black actors in them, and even less are produced by black production companies. At the present time in theaters across the country, black actors are seeing thousands of people, and if some were to draw any conclusions about the above mentioned, it would be that blacks simply don’t exist. In fact, they don’t exist even if in their films and not written by a black, its ‘typed’. Williamson says that we spend too much time looking for social statements in our movies but don’t seem to do the same with white films. He feels people should go to be entertained. In other countries, that is done more readily, the production company. In the film, they are housed in Canada. He feels he must appeal to an audience whose minds and eyes are not snobbish, you could be right.

When people pay $4.00 to see a Fred Williamson movie, they know they’re going to see fighting, shooting, and me making love to some pretty lady and riding off into the sunset.” Well Fred, I think I’ll wait and see all that one.

Until then, it’s only fair to mention that I think of Fred Williamson as a snobbish, wealthy, successful black actor in New York and Hollywood. It’s runs from Thursday thru Sunday at 6 p.m.
