The Recipe for Success

The shams, the oaks, the dogwood, the trees, and the rich quick schemes have infiltrated the realm of insurance which many church goers. Alcoholics, narcotics of all kinds are on the minds of the weak Christians. When you put these two together, the enforcement of the strong Church and the financial press of the weak Christianity, you have a set, unstable, frightened, and perhaps, the weak church. This spends most of its time in money collection, and has people claiming for power that ought to be God's - who in turn appears and dictate to his pastors as they might lead the flock of the living God in this materialistic world. The church finds itself in a most devasting dilemma.

Hubbard's Cupboard CLOSED

Let the Christians now acclaim their rightful place in society with a powerful song, strong convictions towards God and worship by making a commitment and being dedicated. If any Christian is failing in pros­perity or in health or in spiritual growth, it is solely and without a doubt because of lack of dedication. One is no good without the other. The commitment means that you have decided to do something for Christ. The Declaration reads: "God knows that you diligently and persistently do it day in and day out, and use it in the church and when you don't feel like doing it. This is the recipe for success for you as a Christian.

Let this be a reminder that the Solomon's 31:13 is true: "The fear of God is the beginning of wisdom." God has given the human being a thorough knowledge, and the ability to make intelligent decisions. To know someone to accept our religious ideas and beliefs is against the spirit of God which created man. A man who sincerely believes in the spirit of goodness and gave him the freedom to accept or reject his commands.

Amos Temple Pastor's Appreciation A Success

Amos Temple Pastor's Appreciation Service was held August 7, 1985.

During the special prayer, Amos Temple Church family set aside time in prayer to show appreciation to our shepherd and leader, Rev. C.B. Tollette.

Mrs. Tollette was escorted by Joy Braswell and Miss Stevenson with a tribute by Leslie Carver. Following the prayer service were Grace Bethel, Rev. Wm. Stevenson, pastor, who delivered an inspired message. Mark Hamer served as MC. The Voices of Hope, along with Chapel of the Cross Unitarian Church, led the choir. Mrs. Tollette was then presented with a beautiful tiara and a bouquet of flowers.

The appreciation ended on Sunday with presentations to our pastor and wife. At 3:30 p.m. Rev. C. Glusman, our guest speaker, his choir and congregation sang a song in support of a touching tribute by Rev. Kenneth Green to Mrs. Shirley Tollette and Charles Green to Mrs. Charles B. Tollette.

State Officials Join In DFEH Open House and Forum

Morris Johnson, President of the National Education Association, announced today that the local area chapter of the National Education Association in association with the Department of Fair Employment and Housing Commission, San Bernardino, would be holding a forum called "Operation Fair Share" that aims to obtain equalities in economic opportunity and justice for Blacks with the community. The forum should be recast back into a major city as part of an attempt to provide the economic foundation needed to help the people.

S. Bono, DFEH Launches "Operation Fair Share"

L. R) Carol Schiller, Assistant Deputy Director, John Stalifi, District Administrator, Shirley Olson, Secretary, State and Consumer Services Agency.

Mr. Johnson said that "Blacks are not asking for a hand-out, a hand-up," that he has put his basic principles of equality and opportunity in this program. To implement the new program, the San Bernardino Board of Education formed a "Operation Fair Share" council to work with Blacks.

The following programs will focus on development and implementation of meaningful action within areas such as: equal employment opportunity, purchasing power, and price discrimination.

A full-time staff in Denver, with Black businesses, including contractors and bailment of contractors, lawyers, accountants, construction firms, etc. increased benefits for Blacks and Hispanics.

Mr. Johnson said that the "Operation Fair Share" program is the "first step" in the right direction to get the business community to be fair and exchange in concept of corporate responsibility to reverse the continuing exclusion of Blacks from the economic mainstream.

Citizenship in a democracy is the right to be heard, to vote, to have a voice. Our democratic process is under attack, not only because of who is elected but because of what they do once they are elected. It is the responsibility of all citizens to participate in the democratic process and ensure that our elected officials represent the interests of all citizens. We must work together to preserve our democratic values and ensure that our government remains responsive to the needs of all citizens.

A Tribute to Special People

This morning, I will have the honor of addressing 8,000 of my colleagues in the education system. These are the people who work in schools every day, who not only make headlines, but who make students lives better. These are the people who know what students need to realize their full potential, the people who know what works in classrooms-and all America's children.

Thank you. My debt to these remarkable people can never be repaid. These are the people who have dedicated their energy, their talents, and their lives to the success of our children. They've been elected from farm and suburb and metropolis. They've been moved by the love I've seen, by the dedication of parents who have worked tirelessly to transform those promises into reality. And that is why, today, dramatic change is possible.

Drug Pushers Beware!

Community residents on Gilbert and Fifteenth Street in San Bernardino are coming out for a meeting because they are tired of the drug sales on their street and in the community.

They are angry about the pushers returning to their streets after the election of a new Mayor.

They are angry with neighbors who allow their homes to be used to harbor these drug dealers on society.

They push the pushers, but are responsible for the increase in thefts in the community, they bring in people who steal from senior citizens, push drugs to children, have the younger ones throw off the police by taunting them to sell common grass as Marijuana, using the off-beat background.

The community is tired and is putting those who are involved in drugs on notice. You are unconvicted and you will leave.

The present mood of the people is, maybe it’s time to take a closer look at the Philadelphian Plan (bolstering the L.A. Plan, (Battering Ram) or other legally sanctioned alternative.
