"Gospel" For Religious Freedom

In Hollywood, Religious freedom and the freedom to worship was the message from gospel singer and message at the First AME Church's "Hallelujah Night." The music and art forms were presented as part of a program to promote the value of religious freedom and urge people to urgently support efforts to protect this freedom.

MAABLE KING: Internationally known gospel singer, Broadway, and television star was held at "Hallelujah Night" held at the Celebrity Center sponsored by the Religious Freedom Crusade. The message of the evening was Religious freedom needs to be protected for all religions.

Marble King: Internationally known gospel singer, Broadway, and television star was recently declared a mistrial - as the message from gospel singer and message at the First AME Church's "Hallelujah Night." The music and art forms were presented as part of a program to promote the value of religious freedom and urge people to urgently support efforts to protect this freedom.

The evening's entertainment was held at the Church of Scientology's Celebrity Center in Hollywood and was sponsored by the Religious Freedom Crusade, and part of the event was a celebration of a $30 million campaign to eradicate the Church of Scientology in South Africa as well as the obligatory ban against Scientology, provided funds to help the policies and regulations of the Church of Scientology in America. Also the attempting helping hand of the Church of Scientology, which was recently declared a misread mental organization.

Hubbard's Cupboard Opened.....

By Dr. H. Hubbard, Rebuild Community Baptist Church

Am I a warrior or a scientist? Am I fighting the good fight of faith? Who will say that I was good and faithful and fruitful? Have you had enough?

It is the duty of the Christ's soldiers to be spiritual warriors. Not only speak out but to yell at our children regarding the very slave-like prejudice treatment that our country has in the past on those who have been forced to live in South Africa as well as the other countries in the world, especially in the liberation of the poor. God commands all the people to help the poor and in this instance, all the people in America. Also the attempting helping hand of the Church of Scientology, which was recently declared a misread mental organization.

Every area of life has been improved with the help of Government. United States is miracle improved if it were not for the Government's protection and for a better and a second African SA guard bullet? When one has done anything and is sincerely followed by another, that's considered money.

To take away the existing food program from our imprisoned and poor leaves them starving and dying to me that money. Denying proper nutrition to the aged and medical assistance while they live is an age-inappropriate way - to me that money. If we begin speaking against that God's will, we have more than physical strength. The song is written for our presidents with fear and without hate, with grace prevailing someday will be done. If we fail to speak up for freedom, if we fail to stand up or if we question our spiritual freedom, we are doing an injustice to our brothers who are being maltreated. Home is the key to reason. Then when that reason is saying you are wrong, the government keeps saying "They shall love you as the brother." Stand up and speak out.

The Developmental essence of a person's life is the essence of a person. However as a Biological and social creation, it does not end there. It is possible to maintain an ongoing sense of growth even in the creation process of life. The text is: To be human is to be fallible; humans have free will.

QUESTION: What should I consider when purchasing clothes for Back-to-School? ANSWER: August is the month when parents and children make their annual back-to-school purchases. Remember: children's clothes must meet a variety of needs - some clothes are bought for comfort, some for play activities, some look cute and present, some are too tight. Parents and children must be involved in choosing their clothes.

Clothing has many meanings. Clothes give children the means to be like other children, develop a sense of ownership and responsibility, gain self-confidence and independence, and acquire freedom of activity (by relation to growth stages), and see their imagination.

Nothing is neutral in the universe. It either contributes or detracts costs. It is either part of the solution or part of the problem.

If a relationship is ever going to work in terms of its life, in terms of supporting each other in loving, we must surrender to each other. If you talk up surrender, you will find that the fraction of their coupling will be less than what they individually started with. To other words, the relationship will only diminish. It will be a source of constant and further dissatisfaction. It will not add to the quality of their experience, it will detract from it.

A.H.B.A.I Held Successful Meeting in Palm Springs

When a small select, powerful group of men and women came together in Palm Springs recently, the effects were heard all over the nation and they decided to recapture their share of the market in Black hair care.

The group was the American Health and Beauty aides mid-winter conference, who met at the St. Regis Hotel, in Palm Springs, California.

A.H.B.A.I. is a consortium of Black-owned health and beauty products, directed by BFJ Lafayette, Jr.

The group met for a general overview of the ethnic health and beauty aides market, the present trends in the industry and for what they should prepare.

James Jackson, Mr. John Johnson, publisher and others spoke to the group of attendees.

Jackson's message was clear: We must educate the younger generation to the ethnic loyalty to translate into economic development at the marketplace. "It is our responsibility to educate them to our own values.

Jackson's message was followed the next afternoon by Mr. John Johnson, who said to the audience, the best way we can help our people is by making more money. He refused to go on a guilt trip about being rich. He said, "Let anyone make you feel bad about being rich."

He also said the important roles for community based organization and said they should be combined with a businesses roles. Each is important in their own area and to keep them they [people] I'm a community organization. I'm a business," he said to be successful Black leaders must be able to do themselves.
