Gaining Momentum
The purpose and goals of the organization for Moreno Valley United School District Board of Trustees are as follows: To hire, review, and discuss the district's accounting department. The department will provide information about financial management to the board. The department will also recommend ways to improve the district's financial management.

For members of the Moreno Valley United School District Board of Trustees, there are two main goals: to hire and retain high-quality staff, and to ensure that the district's financial management is transparent and accountable. The district's accounting department is responsible for maintaining accurate financial records and for providing financial information to the board and other stakeholders.

Black Dollar Day Dinner
The first Black Dollar Day Dinner was held on September 11, 1985, at the Kola Shanah restaurant at 1746 W. Highland Avenue. The dinner featured food and music that reflected the rich cultural heritage of African Americans. The event was organized by LaToya Cristal Williams and her staff.

The dinner was a success, and the organizers plan to hold similar events in the future. The event will continue to be held at the Kola Shanah restaurant, and will feature food and music that reflect the rich cultural heritage of African Americans.

Incumbents Seek Re-Election to School District Board
For members of the Moreno Valley United School District Board of Trustees, the following candidates are seeking re-election to their current terms of office in the election to be held November 5, 1985:

- William Martin, Senior Vice President of the Black Consumers Group of the Inland Counties.
- Cynthia Crothers, Member of the Sierra Club.
- Frank Butler, Member of the Moreno Valley City Council.

The candidates have expressed confidence in their ability to serve the community, and are seeking re-election to continue their work on behalf of Moreno Valley.

Recall in Moreno
Gaining Momentum
Many Moreno Valley residents attended the Alliance for Responsible Government (ARG) monthly meeting for August, to hear the updates and goals of the organization.

Speakers included Greg Hopper, president of the Sierra Club, in Moreno Valley. The speakers discussed the need for more community involvement in local government, and the importance of advocacy for environmental issues.

The meeting also featured a presentation by a representative from the Alliance for Responsible Government, who discussed the impact of special interest groups on local government, and the need for more citizen involvement in decision-making processes.

Rev. & Mrs. Jacobs Tributed by St. Paul

Second A.M.E. Church Los Angeles St. Paul A.M.E. Church, San Bernardino in a tribute to Rev. W. W. Jackson on his 40th-anniversary service

Rev. Stephen Peterson, Pastor, through his "A Word from Moses," the neglect of the people, is brought to the forefront. The people need to give to the church, but the church needs to also give back to the people. The people need to be given back, not only in their financial support, but also in the services given to them. The church needs to be more than a place for the people to worship; it needs to be a place for the people to fellowship and be a part of the community.

"What a Friend we have in Jesus."

Bernardino, our own_ Choraliers, singing "I am overjoyed about the occasion. They were in processional song. This was a real blessing. '85 was spiritually lifting all day. The services were in processional song. They were in processional song. All the services were in processional song. All the services were in processional song.

Pastor Forbes said that there were five persons visiting the church, one on vacation, but that few sang with many members out. The final song was "The Lord's Prayer". It was a real blessing. '85 was spiritually lifting all day. The services were in processional song. All the services were in processional song. All the services were in processional song.

"The last Sunday in August '85 was spiritually lifting all day. The spirit was really among the people. The sermon was on the subject of the Church in the world. The sermon was on the subject of the Church in the world. The sermon was on the subject of the Church in the world. The sermon was on the subject of the Church in the world. The sermon was on the subject of the Church in the world. The sermon was on the subject of the Church in the world.
After nearly 8 months of intensive data collection, typing, revising and double and triple checking of data, the 1985 Directory of Manufacturers of Riverside County is now ready and available through the County Department of Development. Listed in the directory are some 497 companies compared to 423 in the 1984 Directory published in 1982--located in 33 cities and communities throughout the county. The directory is of potential value to diverse business needs, and can be an important resource for real estate professionals, marketers, manufacturers and the public.

**Gas Smells For Safety's Sake**

What should you do in the event you smell natural gas? There are some definite dos and don'ts if you smell natural gas inside your home, according to Arnold Dickson, Southern California Gas Co. district manager.

Dickson said a slight odor near and far indicates probably that the pilot is out, but that customers should call the gas company if they are not sure.

"Natural gas is very safe, yet an accident when used improperly," Dickson said. "We add an odorant to the gas to give it a distinctive smell so if a leak does occur, it can be easily detected." If the odor is strong, open the windows and doors, Dickson advised. "Evacuate your family," he added, "and don't light any matches or light a cigarette and call--not even the lights or the phone, as they could cause a spark. Alert everyone in your house and then get out."

Give... And Let Live

Very soon the traditional giving spirit will be here. Many of us will be overcome by an unexpected desire to give, to live, to give the gift of gold, give love, give energy, and give more of themselves.

Because we only feel that it is the "season to give" when the season comes, we are giving. This should not be. There are still people who need the giving to continue. Including several public service agencies who need volunteers who can give themselves. "By season" as well as out of season. Are you ready for a commitment to giving. Is there a "need" in your life? Someone, somewhere, within your reach needs your skills, experience, and energy? Reach out to the right direction.

Pick up the phone today and call the Volunteer Center of Riverside (714) 686-4402.

NEW YORK's AMANDA AMBROSE

"Before I was introduced to Scientology philosophy I was unhappy with life in general, I couldn't make decisions and I was afraid to get involved in things. The kind of life I lead today I never would have thought possible for me. Having a family and being able to do what I want, when I want. It's a dream come true! Scientology is so right for me because it brought me to where I am now. I feel so much better and I'm very grateful."

Hope

by Charles W. Leffler

The dictionary definition of hope is, "a feeling that what is wanted or hoped for, will happen, desire or expectation."

Spiritual hope tells us that God only does what is good for us—will happen, if we are his delight in making us holy.

human gesture of reaching out across the gaps that divide us.

Imperfect people can and do help to face life and deal with some of the problems standing of life despite our efforts alone can never do. Imperfect people. They are helpful and hopeful. In this Season we examine our emotions, in the midst of our stress, in the service of our faith, our faith has its roots in what we believe about and to each other.

GETTING OURSELVES TOGETHER

Perhaps, if we are to get some perspective on life, it can be seen more clearly for what it is—a series of choices and decisions, some made easily, some with more effort.

The structure of life is like a series of decisions, some made easily, some with more effort.

Several of these conditions that we make ourselves both possible and available to others. At that moment we do hope for and faith, and that as a flash of lightning appears to light up a vast empty area. [We are our trolley's keepers.]"

LABOR DAY

SEPTEMBER 2

It’s the American dream, to work, earn, grow and prosper. It’s what makes our nation strong and our people proud. For the work we do strengthens our economy and our potential, keeps us moving ahead and makes life better for all. We can take pride in our jobs, and in the fact that we’re working together with a common purpose. As always, America’s work force is her spirit, her energy, her power. Let’s enjoy the satisfaction of a job well done, as we celebrate this well-earned day of rest.

The advantages of being average.

Our Level Pay Plan will show you how.

High or low?
Up or down?
If you’re tired of paying gas bills that go up in the winter and down in the summer, maybe it’s time you became an average bill payer.

Our Level Pay Plan can take the guesswork out of paying gas bills. And make monthly budgets much easier to plan.

In fact, our Level Pay Plan can help you budget your gas bills for an entire year. Because it helps balance your higher winter gas bills with your lower summer gas bills.

So you face approximately the same amount on your gas bill every month, summer and winter.

Look in your August gas bill for details on the Level Pay Plan. And to participate, just pay the Level Pay Plan amount indicated on your bill. You can drop the plan at any time simply by notifying us.

If you’d like more information on the Level Pay Plan, just call the Gas Company. And we’ll be happy to tell you all about the advantages of being average.

Should majority always rule?

By Julian Bond

Ruling against a New York City school district, the U.S. Supreme Court ended a number of school desegregation cases last week. School districts received $572.00 per lot in this fee. Of course, I agree with those who believe that the PTA is unwelcome in this district. My own right to attend a meeting at the high school, and attend a new, destructive influence has entered into the scene - the PT A.

Dear Editor,

Recently, a letter to the editor was published by Larry Holliday. He claimed that ARG was deep stuff and that the PTA is unwelcome. I take exception to this.

I believe the physical well-being of elementary school children should be left to the teacher’s discretion. If the teacher says that the PTA is unwelcome in this district, I agree with those who believe that the PTA is unwelcome in this district. My own right to attend a meeting at the high school, and attend a new, destructive influence has entered into the scene - the PT A.

I have tried to point out that a state that allows this to happen will be in operation before the year 2000. This will affect each and every child in a school district. I am sure that ARG is deep stuff and that the PTA is unwelcome.

Included among those speaking to the local law enforcement agencies, Students have been arrested for a hospital yet. Now, I wonder how the system will work. The system is still not ready for a general election to a conservative white candidate in a runoff to become the Democratic nominee in the 2nd District. No court has ever said that runoff primaries are unconstitutional on their face.

For Jackson, opposition to second primaries continues to grow. The National Association for the Advancement of Colored People is asking the courts to strike down the requirement. For him, Andrew Young was elected mayor of Atlanta because he was a second primary winner. A majority of Negro voters from Georgia found New York’s second primary system - forcing the white candidate named 12 people who won the Democratic nomination in the 2nd District in 1975.

I have not heard from Mr. Weak. I just finished reading my first copy of the Mountain Valley News. As I said, I am overwhelmed, especially since I have only read the first one.
