COLLEGE PERSONNEL Staff employees of CSCSB are permitted to enroll
CAN TAKE COURSES in no more than one course per term, during their
normal working hours, provided that such atten-
dance does not disrupt the operation concerned and that the employee
make up the time spent away from the job.

Staff members who wish to enroll in a CSCSB course during their
normal working hours must request authorization to do so, in writing,
before enrolling in the course. Authorization can be granted by the
following individuals: Business Manager, Executive Dean, Dean of
Students, Vice President for Academic Affairs, or President.

Request for authorization to enroll in a course should include
a statement by the staff member's supervisor explaining why the
enrollment will not cause disruption of services, how the services
will be performed during the time the staff member is attending
class, and in what way the time will be made up. When the course
is offered by the College during the evening hours, daytime staff
members should plan to enroll at that time.

Under a new ruling by the Administrative Council, staff employ-
ees are allowed to enroll in College courses on a full-time basis
outside their normal working hours. This policy does not apply to
Student Assistant employees, who are not authorized to become full-
time employees while taking a full course load.
