WELCOME HOME

Is Learning Lab For You?

With a new quarter beginning, naturally all of us are looking forward to that wonderful moment when our favorite professor beams at us and announces: "Well, for the next week's assignment, read the first five hundred pages of your text and explicate on the third word of the sixth paragraph in a concise paper of no more than twenty pages." As your heart sinks, you realize you need help, and fast. But where to go? Fortunately there is a place that can help you and it is right here on campus.

Officially its title is the Learning Lab, and it is downstairs in the library building, room L.C. 17. The lab, which is open Monday through Friday from 10 to 3, is the pet project of Dr. Helene Koon, who is a member of the English Department faculty. Recently I met with Dr. Koon, and we toured the lab facilities. Designed on a "walk-in" basis, the lab is open to any and all students who have a reading and/or writing problem. According to Dr. Koon, "the lab was opened last Spring, and we then had only two or three students coming in per week. Right now (the beginning

of Fall quarter) we have about twenty-five per week."

The lab is operated by the English Department and the Audio-Visual Department, with assistance from other divisions as needed, making it one of the best examples of inter-discipline cooperation on campus. Most of the work is done by two CSCSB students, Dianna Pelletier, a graduate student in English, and Frank Bennet, representing A-V. If a student comes into the lab, he is asked to sign up for their files, so that a record may be kept, and then Dianna and Frank talk with him or her to ascertain which of the many audio-visual aids would be best suited to aid the student in improving work. The A-V Dept. furnishes an incredible variety of machines to aid the student in whatever problem may exist. These include tapes on any and all grammatical or spelling problems, visual aids on the proper organization of papers, tapes on how to improve reading skills, in short a huge battery of aids that are designed to cope with any problem you may have. Many of the machines and tapes may be checked out, so that if you can't

handle the hours the lab is open you still have the opportunity to use the facilities. While the lab emphasizes self-tutoring, there are, of course, times when a personal touch is needed. For this the lab has the services of tutors from the Methods and Materials classes who are available in case the need arises.

One of the things the lab is attempting to concentrate on is aiding students in Freshman Composition who must deal with fundamental preparation of a paper, and with students who are on academic probation. This year, all students on Probation receive letters from the lab informing them of its existence, and inviting its aid. In addition, the Lab works in conjunction with the Freshman Composition teachers to aid those students who are experiencing problems.

In sum, the Learning Lab is there for YOU. If you need help, there is no better place on campus to obtain it. Of course, if you'd rather just struggle on your own with the 500 pages and the explication papers, well, that's cool — but none of us is that stupid — are we?

College Wide Seminar Set For January 16

Jim Murphy and Denis Lichman invite all interested students and faculty to a college-wide seminar to discuss Jay W. Forrester's World Dynamics Computer Model. This model interrelates population, capital investment, geographical space, natural resources, pollution and food production on a world level as growth overloads the environment.

The first few meetings of the seminar will be devoted to a discussion of the assumptions used in constructing the model and an examination of the computer program. The rest of the seminar will be devoted to computer runs in which the initial rates will be varied in an attempt to determine the validity of the basic assumptions as well as to what extent the countervailing forces of demographic, industrial and agricultural systems are interrelated.

The first meeting will be Tuesday, January 16, 1973, at 3:00 p.m. on LC 52. We will use as a reference Jay W. Forrester's WORLD DYNAMICS, Wright-Allen Press, Cambridge, Mass., 1971.

Free "VD" Counseling

NEED V.D. COUNSELING? TESTING? WOULD YOU KNOW IF YOU HAD IT? WHAT WOULD YOU DO IF YOU DID HAVE IT?

THE COLLEGE HEALTH SERVICE IS OFFERING FREE COUNSELING AND TESTING JANUARY 9 THROUGH THE 15TH TO ALL STUDENTS WHO DESIRE IT. THE SERVICES ARE ADMINISTERED BY QUALIFIED PHYSICIANS AND NURSES.

One incidental note: 20% of all reported VD cases on State College campuses are non-symptomatic. That is, the people have VD but there are no tell-tale signs.

Can you afford to take a chance? Do you really know anyone who can?

Call or go into the Campus Health Center and make an appointment today.

Happy New Year
Everyone

FROM US TO YOU.

financial aid
information New

Student Loan Program Developed

The National Association of College Students together with Citizens Savings and Loan Association are jointly announcing a new privately Insured Student Loan Program. It is designed to accommodate those students who will be in a payback position in thirteen (13) months from the date of the loan. A fixed amount of \$1375 will be distributed in equal monthly installments for the first twelve months of the loan. Repayment will begin on the 13th month and continue through the 48th month. Interest is 9% per annum.

The program is designed for those students who could get neither a Federally Insured Student Loan nor a National Direct Student Loan, although those receiving a FISL or NDSL will be considered. For further information, contact the Financial Aid Office, Room SS-118, Student Services Building.

* * *

Students under 22 years of age, whose parent or parents are deceased or totally disabled may be eligible for Social Security benefits. If this applies to you, contact the Social Security Administration, 2110 E. Highland Avenue, San Bernardino. Telephone: 714/862-9111.

* * *

A representative from the Department of Vocational Rehabilitation will be on campus each Wednesday, 1:30 - 2:30 p.m. in room 127, Student Services Building. If you have a physical or emotional handicap which would limit your vocational choice, Rehabilitation may be able to pay for some educational expenses (books, supplies, and fees). For further information, contact the Financial Aid Office.

* * *

Applications for financial aid will be accepted January 1 until April 15, 1973. Students may pick up application forms now at the Financial Aid Office. Scholarship candidates should apply and complete processing early.

Lost and Found

If you have lost anything on campus this year, check with the Lost and Found at the College Police office. A large number of books, articles of clothing, and jewelry will soon be disposed of in accordance with the College's Lost and Found Policy, so be sure to inquire about items as soon as possible.

Graduate

Awards Available at U.C.L.A.

The Graduate Advancement Fellowship Program at UCLA has a variety of awards available, consisting of stipends, work study and loans. Applicants must have completed the baccalaureate degree, and have been admitted to Graduate Status before the Fall quarter 1973 in order to be eligible for these awards, which provide the following:

For graduate students pursuing the MASTER'S or DOCTORAL degree in all areas of study except Business Administration, Dentistry, Engineering, Law, Medicine, Nursing, Public Health and Social Welfare. The awards consist of stipend, work study and loan totaling \$2,200 at the masters level and \$2,600 at the doctoral level per academic year, plus registration and non-resident tuition fees. No provision is made for the Education Fee of \$120.00 per quarter. Awards are for one academic year and are renewable upon application to the Program. U.S. Citizenship is required.

"Pawprint" Plans Activities Calendar

Are you a fox? Do you have a beautiful body? Or even just a body? Do ladies lose their cool around you? Become one of twelve Pawprint's "Men of the Month." The "Pawprint" will soon be putting out CSCSB's very first activities calendar for only one dollar, and to adorn the subject, there will be photos of great guys like you on every month. If you would like to become one of the "Pawprint's Man of the Month, simply fill out the application form below and return to the Pawprint Office behind Admissions & Records (you can return it through the mail if you are shy). You can also return your application to Nancy Saunders or Renee DeShane, if you are not shy. The calendars should be ready sometime in late January, so hurry. If anyone has activities they would like included, please contact the Pawprint Office or staff.

from the editor's desk

1973 Is The Year To Get Involved!

Welcome back to Tumbleweed Tech. The wind has blown in the new year and us — back to school after a blissful and much-needed vacation. Let's not permit this sudden change in environment to dampen enthusiasm for the happenings. The "Pawprint" is happening once again and we are truly in need of staff members — reporters to do feature stories in particular. If you don't believe me, come in to the office next door to E.O.P. in the Student Services Building and find only myself or very few others hanging around the typewriters, suspended like animated icons between the greyest walls you'll ever see. I have a feeling that the new Journalism course offered this quarter should instigate some interest in the operation of the "Pawprint." My office hours will be afternoons, approximately 1-3, and I invite anyone and everyone to come in and talk about whatever may be occupying the space between the shoulders (you can also view the real-life animated action of the campus newspaper crew).

In spite of tradition, things are happening around Cal State — student government, activities, plans for a Day Care Center on campus — 1973 is a year which will see extreme growth on this campus. Be a part of it! The newspaper can be the foremost means of communication on campus, but only your life and interest will help in creating that channel. My own hope for 1973 is that the "Pawprint" may become a viable force in shaping the current of change and growth. Watch us work. We're for you... and welcome back to whatever it is that we are doing here. May we do it well in '73.

Your lady - editor - in - waiting -
for - some - new - hot - blood - to -
make - the - newspaper - thrive!
Nancy Saunders

Letters to the Editor

Dear Nancy,

We've just read your review and it was very interesting, informative, and we appreciated it.

Upon hearing the tapes after the concert, we agree with you about the first half of it. We believe we did some good work toward the end of the evening — we don't know whether you stayed for the whole show or not. We would like to state that the tapes George heard were of two of us playing, one of us playing, three of us, and five of us. I told him there were anywhere from two to seven people in the group. It is true that we expected two other members to be with us that night, but they didn't make it back that we had a job to do. But the implication that we misrepresented ourselves is untrue. We, of course, are sorry that we did badly at first — some of it technical, some emotional, etc., but as I said we feel that we vindicated ourselves before the night was through. We will be playing in the area again in January and will contact you as to where and when and hope you will be able to attend and that you enjoy the show at that time. P.S. Read your article on herbs. For your further information, there is an excellent herb company here in the states. The Indiana Botanic Gardens, Hammond, Indiana. Their herbs are fresh, economical, and their formulas excellent. If you write to them, they'll send you their catalog and their Herbalist Almanac — both of which are really informative and free. Hope to make it up to you, Arol

Dear Miss Saunders:

Upon returning to my office recently I had a copy of your "Pawprint" dated October 20, 1972, on my desk.

You were indeed generous in publishing my photograph on the front page and want you to know how much I appreciate your fine support on behalf of the men and women of the San Bernardino County Sheriff's Department.

Gratefully,
Frank Bland,
Sheriff

HOW TO OBTAIN AND PRESERVE A BEAUTIFUL COMPLEXION

1. The great secret in acquiring a bright beautiful skin is, temperance, exercise and cleanliness.
2. High living and late hours will destroy the most beautiful complexion.
3. Those who desire to be beautiful should never drink strong coffee or eat warm bread and butter, or very much fat meat.
4. Moderate diet and frequent bathing will insure a healthy and a beautiful face.
5. If you desire your skin to be perfectly clean and white, bathe it in warm water and bran, adding a few drops of bay rum.
6. To keep the skin and face perfectly soft, take the whites of four eggs boiled in rose water, one-half ounce of alum, and one-half ounce of sweet almonds; beat the whole together till it assumes the consistency of paste. Spread this on a cloth and wear it on the face during the night.
7. Another good preparation to produce a soft and beautiful skin is, to take a small piece of the gum of benzoin and boil it in spirits of wine till it becomes a rich tincture. Fifteen drops of this, poured into a glass of water, will

produce a mixture which will look like milk, and it also has an agreeable perfume. This will give the face a rich flesh color.

8. A lady who possesses a beautiful face should preserve it by wearing a veil or other covering on going into the open air or sunlight.

9. Do not use strong cosmetics, paints or pastes for adorning the face. They will ruin the best and most beautiful complexion in the world.

10. To powder and paint the cheek of beauty, is a ridiculous and culpable practice. There are many good remedies to produce a good healthy and natural complexion; that is all that is necessary. There is no such beauty as a rosy cheek which nature paints.

Pearl Powder for the Complexion

1 lb. white bismuth
1 oz. starch powder
1 oz. orris powder
Mix and sift through lawn. Add a drop of otto of roses or neroli.

A Cure for Sunburn

This may occur in grade from a light reddening of the face to an inflammation attended with blistering. Use soothing applications and avoid the sun until well.

How to Remove Freckles

They are always developed on the parts of the body most exposed to the sun, and on some persons disappear in winter. They seldom appear on children before the age of five, and usually disappear in old age.

Remedy:

4 ounces of rose water,
40 grains of borax,
¼ ounce of dilute acetic acid,
6 grains of corrosive sublimate.
Apply with a soft brush or rag every morning and evening, and continue until the freckles disappear.

Caution, Avoid the sun as much as possible during the treatment. Avoid all blistering compounds.

Another Remedy for Freckles

Sulpho-carbonate of zinc, 1 ounce,
Glycerine, 12 ounces,
Rose water, 12 ounces
Alcohol, 3 ounces
Spirit of neroli, ½ drachm.
Mix them. To be applied twice a day, leaving on from half an hour to one hour; then wash off and protect the face with a veil on exposure to strong light.

How to Cure Blackheads

Blackheads are not worms as many suppose. They consist of the hardening of the oil in the glands of the skin, and the dust collecting and adhering to the surface gives them a black appearance.

Remedy. Press them out with a hollow key or with the thumb and fingers, and apply a mixture of sulphur and cream every evening. Wash every morning with the best toilet soap, or wash the face with hot water with a soft flannel at bedtime.

How to Remove Tan

Lemon juice, ½ ounce,
New milk, ½ pint,
Brandy, ½ ounce.
Mix, and boil and skim off the skum. Apply every night and morning. Or, take a lemon, cut it in two, and rub it over the face. Wash it off and apply magnesia moistened in water and let it dry on the face. When dry, wash it off. Repeat this three or four times successively.

TO REMOVE PIMPLES

Many pimples are removed by simply washing the face several times a day with warm water.
Sulphur water, 1 oz.
Liquor of potassa, ¼ oz.
White wine vinegar, 2 oz.
Distilled water, 2 oz.
Acetated liquor of ammonia, ¼ oz.

Apply twice a day.

To Remove Black Specks or "Fleshworms"

Wash, and rub thoroughly with a towel and then apply the following twice a day:
White Brandy, 4 oz.
Cologne, 2 oz.
Liquor of potassa, 1 oz.

To Remove Yellow Spots

Rubbing the face with common sulphur, will often cure the worst forms. If not, apply the following safe remedy:

Strong sulphur water, 1 oz.
Lemon juice, ¼ oz.
Cinnamon water, 1 drachm.

To Remove and Prevent Wrinkles

Put some powder of best myrrh upon an iron plate, sufficiently heated to melt the gum gently, and when it liquifies, cover your head with a napkin, and hold your face over the myrrh at a proper distance to receive the fumes without inconvenience.

How to Produce Beautiful Eyebrows and Lashes

The Circassian type of beauty is considered the finest. A preparation to promote the growth of the brows and lashes is made of the following ingredients:

Olive oil, ½ ounce
Oil of nutmeg, 12 drops
Oil of rosemary, 12 drops
Tincture of cantharides, 3 drachms.

Pearl Water for the Complexion

1 lb. castile soap,
1 gal. water
Dissolve, then add alcohol, one quart; oil of rosemary and oil of lavender, each 2 drachms. Mix well.

Sports

All-Star Intramural Football Team Announced

By BIFF BIZARRO

Cal State's intramural football season ended on December 1 as the Eastern League champion Derelicts pummeled the Western League's Chargers 41-6 to win the CSCSB championship. For the Derelicts, it was their fifteenth consecutive game played without a loss in three years of CSCSB football. It appeared as if the Chargers might be ready to break that skein as they held the Derelicts to a 13-6 halftime lead. The Chargers scored late in the first half on a 20-yard touchdown pass from Rick Allo to Dennis Fossett. The Derelicts scored on a Bill Mudge to Nick Ricci bomb and Mudge ran for the other touchdown. Tenacious defense by the Chargers, and a series of crippling penalties seemed to rattle the Derelicts throughout the first half.

The second half proved to be an entirely different game as the Derelicts overcame their first half jitters and methodically rolled over the outmanned Chargers. Halfbacks Nick Ricci and Steve Perlut continually rolled up big gains on the ground with Ricci rushing for over 100 yards. When the Derelicts weren't running the ball, quarterback Bill Mudge was completing 7 of his 12 pass attempts. In contrast, the Chargers' offense was completely stymied by the Derelicts defensive unit. The Chargers were intercepted four times and managed to complete only 3 of 17 pass attempts. Coming up with interceptions for the Derelicts were all-star cornerback Jim Casady with two, one for a touchdown, Doug Ardema, one for a touchdown also, and middle linebacker Bill Mudge with one interception. In this exceptionally hard-hitting game, good performances were turned in by the Chargers' brother combination of Jim and Rick Allo, as well as Derelicts' Harold Day, Kenny Romo, and Stan Kielman.

It is this writer's opinion that the sports program at Cal State has taken a decided turn for the better during this fall quarter. In accordance with this belief the "Pawprint" now feels that the sports program has advanced to a point where serious newspaper coverage of all campus sports activities will be a feature in every issue. Following this line, the "Pawprint" is pleased to announce its selections for the CSCSB All-Star Intramural Football Team:

OFFENSE

Receiver — Randy Swaboda — Los Carnales
Receiver — Don Berge — O.D.'s
Center — Alan Coffeen — Derelicts
Halfback — Nick Ricci — Derelicts
Halfback — Dave Hirsch — Dildos
Quarterback — Bill Mudge — Derelicts

DEFENSE

Lineman — Harold Day — Derelicts
Lineman — Jim Allo — Chargers
Lineman — Michael Thomas — Spades
Defensive Back — Julio Silva — Los Carnales
Defensive Back — Jeff Mezzetti — O.D.'s
Defense Back — Jim Casady — Derelicts
Congratulations to all the fine players who participated in this Fall's Intramural program — watch the "Pawprint" for upcoming Sports events. — ed.

(201) 575-9430 ask for either Mr. Jonas or Mr. Reid.

Response

FROM: Ernie Garcia, Virginia Ingersoll

RE: "NO ONE from the Task Force talked with anyone from this department . . ." Weiny, Pawprint, December 1, 1972

Bob Stein, Ginny Ingersoll, and Ernie Garcia, members of the Task Force met with the P.E. Staff in the Spring to discuss the sports program at CSCSB. Weiny is right . . . it wasn't much of a discussion because there was no opportunity for inquiry as to how the program could be improved. The Task Force report recommends that a consideration of views beyond those held by the P.E. faculty be part of any investigation. That is why the recommendation reads . . . "there is an alternative to a major sports program which should be investigated thoroughly to determine community support and expense to the college."

Communication is indeed needed, but it will require a willingness to listen to others even at the risk of gaining a new perspective.

Special:

Wholesale Warehouse Group Purchase Plan

For **Washington State Notary Association**

(Not Available to the General Public)

SPECIAL ARRANGEMENTS have been made with all Capitol Tire Sales/Warehouses, Inc. (in the United States) whereby you may make special wholesale warehouse purchases on new premium tires, shock absorbers, automotive batteries, chrome wheels, mufflers, auto stereo and other products.

STATEMENT OF QUALITY

All tires shown in this confidential price schedule are premium* and first line quality only. (Absolutely no seconds, blemished tires, used tires, retreads, or recaps are sold.) Your safety necessitates this policy! All tires in the Capitol warehouses are from factories of the most well known and respected manufacturers in the industry, and all tires are manufactured under the most rigid quality controls. See U.S. Govt. required Coding System and Tire Guide Reference Book at your Capitol Warehouse.

WHY YOU CAN SAVE SO MUCH

Many products Capitol offers are manufactured under private brand names. The savings made from factory direct purchases without national advertising, are passed on to you. Also, because Capitol is not in the retail business, and because they sell only to members of select groups, they are not dependent upon costly newspaper, television and radio advertising. Additional savings are passed on to you because of their cash-and-carry policy plus their ability to purchase in railroad car lots.

CAPITOL'S EXCLUSIVE "NO TIME LIMIT" GUARANTEE

WORKMANSHIP AND MATERIAL — If any tire sold by Capitol fails due to defects in workmanship and material during the first 25% of tread wear, it will be replaced free of charge. Failures beyond 25% of tread wear will be replaced on the basis of tread wear, prorated on the purchase price plus Federal Excise Tax.

ROAD HAZARD — Any failure that occurs due to road hazards will be replaced on the basis of tread wear, prorated on the purchase price plus Federal Excise Tax. Repairable punctures not included.

NO TIME LIMIT WEAR GUARANTEE — Capitol guarantees the original purchaser will receive full mileage paid for or be given prorata credit on a new tire, based on the purchase price prorated on the basis of mileage.

EXAMPLE: If a \$20.00 tire with a 30,000 mile guarantee wears smooth at 15,000 miles, the cost of a new tire is \$10.00 plus Federal Excise Tax.

Capitol's tread wear guarantee is predicated on proper wheel alignment and normal driving conditions at normal speeds. Correct inflation pressures, frequent rotation of tires and general good vehicle maintenance will assist in achieving greater tire mileage, and promote safety in driving.

Excessive speed, overloading, fast starts and quick stops adversely affect tire mileage. Safe driving habits promote longer tire life — as well as your own.

COMPLETE CUSTOMER SATISFACTION — This guarantee covers tires used in normal passenger-car service to original purchaser only, but does not cover: mileage on front wheel drive vehicles, pickup trucks, campers, special type vehicles, buses or travel trailers, tires used in any form of racing, including drag strips, tires damaged by willful abuse, fire, collision, mechanical defects on vehicles, theft, or passenger tires used in commercial service on trucks or taxicabs. Defective tires must be returned to any Capitol Tire Sales/Warehouse for adjustment under this exclusive guarantee.

California State College now qualifies for WHOLESALE TIRE PROGRAM.

Capitol Tire Sales/Warehouses, Inc. Group Wholesale Purchase Plan is now available to you as student, faculty or staff member.

This plan has been available to large select groups in California, Oregon and Washington for 4 years. Capitol is a creditable company and backs up all merchandise sold with their own famous "Complete Customer Satisfaction" guarantee, in writing.

Many thousands of tire buyers have benefited with savings substantially up to 50% or more on purchases of premium grade tires, batteries, shock absorbers, mufflers, stereo car radios plus many more products and services.

Since Capitol is a closed door facility, not open to the general public, identification is required before purchase can be made.
