Van Andrews on trial - part II

commentary

By Peggy O'Malley

Amid the music of Mozart and much clearing of throats, Van C. Andrews was arrested Sunday night, February 11, on Cal Straight's campus.

Following his suspension Friday evening, February 9, Van was forbidden to reenter the lovely grounds of Cal Straight. The suspension was preceded by a blood-and-threat trial that lasted four-and-one-half hours, 3:30 - 7:30, on Friday afternoon. Informed sources indicate that the reason for Van's suspension may be that Van allegedly made a non-verbal threat on a certain professor at the college.

Before speaking of the intricacies of the trial, the details of the arrest of Van C. Andrews may be of interest.

Van, as many of the students at Cal Straight realize, has been known for displaying unusual dress habits (i.e. long white robes and lacy tablecloth draped in fishnet), for effect while he is in the process of protesting. Sunday night Van may have been striving for more than effect. He was struggling to keep his freedom.

Wearing a bushy grey wig and other unrecorded items, Van C. Andrews paraded up and down the aisles of the Mozart concert whispering "Shhh!" at the audience. It is reported that an intermission President Pfau "... put the finger on Van Andrews."

The College has the right to comment on a personnel matter only if the individual involved makes public the confidential record or reports of the proceedings. To date, I have no evidence that such a public revelation has been made.

Unanswered questions

SUBJECT: INTERVIEW WITH PRESIDENT PFAU

RE: OUTCOME OF VAN ANDREWS TRIAL

INTERVIEWER: PEGGY O'MALLEY

TITLE: ACTIVITIES EDITOR

QUESTIONS: 1. According to Executive Order No. 148, under section entitled "Authority of the President," the President is accorded final campus authority, established pursuant to Section 41304, Title 5, of the California Administrative Code, in all disciplinary procedures. In accordance with above, did you order the immediate suspension of Van C. Andrews? 4. In a meeting with Nancy Saunders, Editor-in-Chief of the PAWPRINT, on a preceding Friday afternoon, Nancy indicated that in the Publications Code of the college, the President of said college shall be permitted the opportunity to defend his actions to the college faculty and/or student body, if he so wishes. Would you like to present a supporting statement of your disciplinary actions in the Van C. Andrews trial?

Certainly any other comments presented to the PAWPRINT by the President of the college will be welcome.

Thank you, sir.

The seniors’ laments

The concern back of support sustainability has reached its all time high radial, god fly, and vote, they have set the maximum. The senate held a four hour, three location meeting on Van's floor but was driven out. Dean Monroe's office when concerned students began asking questions. He left without to find the facts on Van Andrews arrest.

The stories that come down from this episode lead many to believe that Van Andrews' disruption of classes, they say it is clear that that is the case. All professors summoned into the hearing said he had not disrupted any classes.

The charge was then changed to entering classes, and Van Andrews continued as a complete thorn in Pfau's paw because he entered classes.

Van did by resigning from his position. As I write this the only things left that are needed is for his presence. It is really not going on, Van Andrews has made a total mess of his life. This is to let you know that the President and President-Figure and all the students in this house, we have just seen a concert and called for his capture. If this was not possible, Van Andrews will no longer be allowed to give any classes here. The Great Dictum: A Lie in Defense of the Administration.

WHAT STOKELEY HAD TO SAY

Editorial
Talking about Van

Talking about other people, in a personal or public way, seems to me to be something to avoid if at all possible. But what can you do when a dear friend is publicly humiliaded by an off-beat college administration? Even if Van Andrews were not my friend, I would still fear for his educational future simply as a fellow student and member of the same human sub-group. No, I've experimented. I never knew Van to be offensive to others in his come-on. If anything, he stimulated actions and ideas in a most provocative style. And we must all admit — Van has style.

A most provocative style. And we must all admit — Van has style. The system this society has built is backwards. The cities are breaking down. It takes you twice as long to drive to and from work than it took ten years ago. Now you tell me, that's progress! And you might lose your life with the lunatics you have to drive with on the freeway. We have to change our old system.

In this system, money is more important than man. No doubt about it! This element from wall street has infiltrated into our communities. Money is more important than man. The pimp. Man is the most essential element, not money. It's the man who makes the money, not money that makes the man. Money must not dominate man but must dominate it (It's intelligent use). We have to keep saying, "Man is more important than money. Man is more important than money!"

Individualism is less important than the rights of the people. The only way we can raise ourselves is by working together. A few people (individuals) who own property called capitalist, exploit labor and then use the money to do whatever they want with it. To be a capitalist you must own the means of production. That's why there are no black capitalists and very few capitalists all told. What we do have are plenty of house servants. Mao calls them "running dog lackeys" serving the interest of the capitalist. They are aspiring to be capitalist but they'll never make it cause they're being exploited systematcally. It's the house nigger who'll be working twice as hard as the master to put out the master's burning house.

It costs the capitalist who manufactures one dollar, including the fifty cents he pays you, to make a shirt. Then this capitalist sells the shirt to the store for four dollars. When you go to buy the shirt it's gone cost you five dollars. Now you tell the man that you gone strike unless you get a dollar fifty. So he says, O.K., and gives you the dollar fifty. Then he sells the shirt to the store for six dollars and you have to buy it at eight — spiraling continued on page 14

Stokely Carmichael on Pan Afrikanism, recorded by Kent Grant 17 Feb. 73 at the Watts Mental Health Clinic in Los Angeles...

... For a revolution to be successful all the people must be totally involved in struggle twenty-four hours every day. A revolutionary must look at the problems, analyze them, and then pose solutions to the people, who have to then understand in order to fight. There is no mysticism involved.

Pan Afrikanism is dealing with World Revolution of Africans all over the world. We here are all Africans — Africans born in the U.S. And we here have the same problems that the black man in Bermuda, Algeria, Brazil, Johannesburg, and so on, and we all have to get our house together before we can help each other. The Chinese contributed to world culture and civilization for thousands of years. Our problem here, is that we don't equate richness with humanity, but with technology — big cars.

Revolution only succeeds if the principles are just; ours are on the side of justice. After we beat the white man, we'll give the red man back his land, and we'll go home!..appuise.

There are two groups of Africans. The first were taken away from their land and the second had their land taken away from them. When organized and powerfully united, Africa will be one. And man, she's gigantic. Africa is gigantic — from Cape Town to Egypt. When one Africa speaks, millions of Africans around the world will have to listen. It has the potential to be a force that is crystal clear.

The system this society has built is backwards. The cities are breaking down. It takes you twice as long to drive to and from work than it took ten years ago. Now you tell me, that's progress! And you might lose your life with the lunatics you have to drive with on the freeway. We have to change our old system.

In this system, money is more important than man. No doubt about it! This element from wall street has infiltrated into our communities. Money is more important than man. The pimp. Man is the most essential element, not money. It's the man who makes the money, not money that makes the man. Money must not dominate man but must dominate it (It's intelligent use). We have to keep saying, "Man is more important than money. Man is more important than money!"

Individualism is less important than the rights of the people. The only way we can raise ourselves is by working together. A few people (individuals) who own property called capitalist, exploit labor and then use the money to do whatever they want with it. To be a capitalist you must own the means of production. That's why there are no black capitalists and very few capitalists all told. What we do have are plenty of house servants. Mao calls them "running dog lackeys" serving the interest of the capitalist. They are aspiring to be capitalist but they'll never make it cause they're being exploited systematcally. It's the house nigger who'll be working twice as hard as the master to put out the master's burning house.

It costs the capitalist who manufactures one dollar, including the fifty cents he pays you, to make a shirt. Then this capitalist sells the shirt to the store for four dollars. When you go to buy the shirt it's gone cost you five dollars. Now you tell the man that you gone strike unless you get a dollar fifty. So he says, O.K., and gives you the dollar fifty. Dale Marshall sends best wishes to all the students - faculty at Cal State

22000 Hwy. 18 Apple Valley

Welcome & Best Wishes to Students & Faculty Members at Cal State
Quarter's credit by comp. exam.

The traditional walls of the college classrooms are being pushed out in the face of exciting new ways of learning. One of the most distinctive innovations in testing knowledge and giving credit is being pioneered at California State College, San Bernardino. It will provide the opportunity to get a full credit in one examination.

The brainchild of Dr. Leslie Van Marter, professor of philosophy, the proposed program is formally entitled "Comprehensive Examinations: Answer Key to Multi-Course Classroom Instruction." In layman's language, it means that a student may take one examination over the content covered in three courses and if he passes, earn 15 quarter units of credit instantly.

Educationally, however, it's not quite that simple. The student who gets the credit, one quarter's full load, must have done a considerable amount of work. The realization that he would not need, and probably would not want, to sit in a classroom. Rather, he would have the flexibility to study when and where he wanted. Someone living a distance from the campus could eliminate the daily trek from home to class.

The student who has a strong background in a discipline, or a core of knowledge, which can be tested, may be allowed to undertake more responsibility for their own learning.

Dr. Van Marter and his colleagues have identified several reasons why a student might opt for this program. They are: the amount of time needed to learn, the amount of preparation needed, and the amount of time devoted to learning experience. One might be the realization that he would not need, to sit in a classroom, and get a "third degree" in a classroom. Rather, he would have the flexibility to study when and where he wanted. Someone living a distance from the campus could eliminate the daily trek from home to class.

The time and resources needed to research such a study are provided through a $1,794 grant from the Fund for Innovation at the University of California. The money is a Legislative appropriation in response to a thrust for innovation in the college curriculum by Chancellor Glenn Dumke.

Working with Dr. Van Marter are Dr. Bernhardt Mortenson, sociology; Dr. Wallace Cleaves, psychology; Dr. Ronald Taylor, biology; and Dr. Walter Zorccklein, philosophy.

The sociologist and the psychologist each are adapting general education courses which are part of the mandatory core curriculum for their majors. Dr. Mortenson is working with upper-division sociology courses and Dr. Cleaves is combining upper and lower-division psychology courses. As a second opportunity, the biology major, Dr. Mortenson also is preparing a package of upper-division courses.

Dr. Zorccklein is inventing an upper-division general education comprehensive examination, modeled on specific courses but covering broader areas in the liberal arts. Dr. Taylor is deciding whether to construct a single comprehensive test based on a core of upper-division courses or to cover one specific area of biology.

"We hope this program will motivate students to want to take the mandatory core for a major at once. Our program will be offered as a 'compressed learning' program, using integrated, inquiry-based learning strategies which will develop the student's ability to synthesize information from various courses," explained the project director. "A student enrolls in this project as he does for any other single course. He gets credit for the course at the San Bernardino campus and a letter grade denoting the success of his efforts."

"The project, says its author, pioneers a new option for the evening or part-time student and has great potential for the individual living some distance from the campus. It ultimately could speed graduation for even a quarter unit required General Education."
Summer study in Europe

Bob Turley, Assistant Professor of Sociology at San Bernadino Valley College, and Anne Turley, Assistant Professor of Sociology, at California State College, San Bernardino, are now enrolling students for a second study tour of Europe this summer.

The student may earn a minimum of three transferable units in sociology from Valley College while visiting London, West Berlin, Vienna, Belgrade, Yugoslavia; Athens, Rome, tour cost of $1195.00 covers all transportation (jet, train, steamer, bus), hotels, two meals a day, information and insurance.

College students on a similar tour during the summer of 1971, they've traveled throughout most of the U.S. across southern Canada, to Mexico City and they served two years in the Peace Corps in East Africa.

The first meeting for all who are interested will be held on Thursday, February 15, at 7:10 in the EVC, GVC Center Fountain Room. Featured will be Mr. Hans Kolb of Study Tours, Mr. and Ms. Turley are faculty will be clipped from articles posted, and keep the wording to a 5” x 7” card or an 8 ½” x 11” piece for both of which are available on the Rap Rack.

For other information, drop by to see Mr. Turley at Valley College, Room 114-13 or give him a call at 885-0231, Ext. 380.

Library “rap rack”

Because students traditionally are too hurried to spend idle hours perusing the regional press, the Library staff has created a “Rap Rack” on the main floor of the Library next to the Circulation Desk. Each week what is new, of interest to students and faculty will be clipped from regional newspapers and posted there. And two notes - each faculty member - feels strong enough about any item posted, he or she is encouraged to submit his opinions for posting.

Please submit your written comments to a member of the Library staff at the Reference Desk or drop them in a book drop addressed to Rap Rack. Please limit your response to only those items posted, and keep the wording to a 5” x 7” card or an 8 ½” x 11” piece for both of which are available on the Rap Rack. Comments must be signed and will be retained for one week.

Any comments on library service, unauthorized materials and/or complaints will be welcomed; all items directed to library services will be answered and will appear on the Rap Rack. Please note that the Rake will respond to the recently circulated Library questionnaire and any responses will appear on the Rap Rack.

The Rap Rack was designed to be an island of pertinent current information in these Groves of Academia. Make it a habit to look it over.

BEST WISE TO STUDENTS & FACULTY AT CAL STATE
Veteran Information

Veterans who have used their G.I. loan can have their eligibility restored and get another V.A. guaranteed loan under some conditions, Gordon R. Elliott, Director of Southern California's V.A. Regional Office, reminded veterans.

Some of the reasons for which property may be disposed of and entitlement restored by VA are:

(a) Resumption of employment from one locality to another by an employer.
(b) Destruction of home by fire or natural hazard.

Voluntary change of employment to another locality offering more income and opportunity for advancement provided satisfactory evidence is furnished VA.

(b) Assignment of a veteran, or transfer of a servicereman by his military department while he is on active duty.

(c) Limited space in a veteran or servicereman's home, if a doctor certifies that space is a health question. An increase in size of his family may make it necessary, in not in itself sufficient grounds for restoration of entitlement.

(d) Loans on employment of a reduction in force, or curtailment of activities in occupations where he is employed if suitable employment is obtained in another locality.

(e) Loan on home loans are available to eligible veterans and servicemembers with at least 90 days of active duty during World War II and the Korean Conflict, or at least 181 days in the Vietnam Era. Loan benefits are available to eligible widows, and wives of servicemembers in action or prisoners of war for more than 90 days.

UCLA seeks minorities

The demand for minority personnel in social work is currently 200 percent and UCLA's School of Social Welfare is seeking qualified students wishing to enter a graduate school program leading to the master's or doctoral degree, according to Dean Maurice F. Connery.

Admissions for next fall are open by March 15.

"The reason we are encouraging minority students to consider social work as a profession is that there is a real need for minority graduates in the field, particularly among minority serving students," Dean Connery said.

The educational background of Black, Chicagos, Indian and Asian students will be evaluated in the light of the opportunities available to them determining admissions, Dean Connery added.

The counseling service will be available at the School from 9 to 3 p.m. on Thursday, February 22 and March 2 and 9.

Some students may be eligible for financial assistance under current programs. Anyone interested in learning more about the program should call the School of Social Welfare at 825-7737 or 825-1951.
Summer program in nuclear energy

A training program for undergraduate students on the application of nuclear energy to problems of the environment, medicine, and biology will be sponsored this summer by the Laboratory of Nuclear Medicine and Radiation Biology at UCLA. Scheduled for June 25 - August 31, the program will be open to qualified students in mathematics, science, and engineering. Applicants should have completed at least one year of college by June 25.

Application deadline is March 15, and successful applicants will be notified by April. Trainees will receive a monthly stipend of $360 if they come from within the catchment area of UCLA and $400 if from farther away. Funding of the program is through a grant from the Western Universities, which is supported by the Division of Nuclear Education and Training of the Atomic Energy Commission.

Trainees will participate in summer research programs in nuclear fields of cooperating UCLA's faculty. Lectures, demonstrations on environmental problems, medical and biological applications, and related subjects will be included.

Program sponsor will be Dr. Margaret E. Richey. Further information contact him at the Department of Physics, California State University, Los Angeles 90032.

Applications can also be obtained from Dr. O.R. Lunt, Director of Laboratory of Nuclear Medicine and Radiation Biology, 800 Veteran Avenue, Los Angeles 90054, or by calling (213) 477-7532, Ext. 241.

CSCSB student in ROTC Honored

WASHINGTON, D.C. (APRIL) - Charles R. Geiman, son of Mr. and Mrs. R. Geiman of 4127 Gila Ave., San Diego, Calif., was among some 230 ROTC cadets and marine officers who were special guests at the Reserve Officers Association's Mid-Winter Conference in Washington, D.C., last week (Feb. 15-16).

A member of the Army Reserve Officers' Training Corps (ROTC) at California State College at San Bernadino, Geiman is a junior majoring in business administration.

The cadets, representing Air Force, Navy and Marine as well as Army ROTC campus groups, were guests of the Reserve Officers Association (ROA) and the Department of Defense. They came from schools in 36 states.

Headquarters at the Washington Hilton Hotel, the conference featured the cadets' visit to Capital Hill, the Pentagon, the ROA Minute Man Memorial Building and Ft. Myer, Va., as well as military and social functions.

Highlighting the two-day meet was the National Council banquet, which drew some 2000 persons, including Department of Defense and Congressional leaders as well as top personnel from all branches of the military.

Senator Henry M. "Scoop" Jackson (D-Wash.) was named Member of the Year, and at the annual award to "the citizen who has contributed most to National Security in these times." Cadet, Geiman is a member of Alpha Kappa fraternity.

Senator Henry M. "Scoop" Jackson (D-Wash.) was named Member of the Year, and at the annual award to "the citizen who has contributed most to National Security in these times." Cadet, Geiman is a member of Alpha Kappa fraternity.
Many things are possible under the flexible Social Sciences major, and many students are not aware of all the most exciting possibilities. For example, do students interested in Ethnic Studies programs know what can be done in a Social Sciences major contract? Consider a possibility for students interested in Black Studies:

**PRINCIPAL FIELD: SOCIOLOGY**

- Soc. 100. The Study of Society
- Soc. 132. Sociology of the Ghetto
- Soc. 142. The Mexican-American

**SECOND SUPPORT FIELD: PSYCHOLOGY**

- Psych. 120. Abnormal Psychology
- Psych. 140. Personality
- Psych. 140. Individual Psychology
- Psych. 140. Educational Psychology
- Psych. 140. Personality

**FIRST SUPPORT FIELD: HISTORY**

- Hist. 311. Social History I
- Hist. 332. Black History II
- Hist. 333. Black History II

**SECOND SUPPORT FIELD: ETHNIC STUDIES**

- Psyc. 117. Development of the Black Man

Similarly, consider a possible contract in Mexican-American Studies:

**PRINCIPAL SUPPORT FIELD: SOCIOLOGY**

- Soc. 100. The Study of Society
- Soc. 132. Sociology of the Ghetto
- Soc. 142. The Mexican-American

**SECOND SUPPORT FIELD: PSYCHOLOGY**

- Psych. 120. Abnormal Psychology
- Psych. 140. Personality
- Psych. 140. Individual Psychology
- Psych. 140. Educational Psychology
- Psych. 140. Personality

**FIRST SUPPORT FIELD: HISTORY**

- Hist. 311. Social History I
- Hist. 332. Black History II
- Hist. 333. Black History II

**SECOND SUPPORT FIELD: ETHNIC STUDIES**

- Psyc. 117. Development of the Black Man

Students interested in careers in social services might consider two possibilities under a Social Sciences major. One possibility, described below, emphasizes Social Work.

**SOCIAL WORK**

- Soc. 100. The Study of Society
- Soc. 132. Sociology of the Ghetto
- Soc. 142. The Mexican-American

**SECOND SUPPORT FIELD: PSYCHOLOGY**

- Psych. 120. Abnormal Psychology
- Psych. 140. Personality
- Psych. 140. Individual Psychology
- Psych. 140. Educational Psychology
- Psych. 140. Personality

**FIRST SUPPORT FIELD: HISTORY**

- Hist. 311. Social History I
- Hist. 332. Black History II
- Hist. 333. Black History II

**SECOND SUPPORT FIELD: ETHNIC STUDIES**

- Psyc. 117. Development of the Black Man

Students interested in any of these possibilities should see a faculty advisor in the department of their chosen principal field. A contract involving any of the above possibilities can be drawn up and become your formal major.
Human
Sexuality
course
offered

Biology 355 - Biological Aspects of Human Sexuality, will be offered Spring term by Dr.
Taylor. The objective of this course is to help students in all majors gain a better understanding
of biology's role in human sexuality. In so doing, it is hoped that the student will gain a better
understanding of his or her own sexual needs and sexual behavior and will be more accepting of
other people whose sexual needs and behavior are somehow different. Another objective of
this course is to help students make the wisest possible decisions regarding contraceptive
methods. The lecturer will firmly convince that these are the people most likely to profit.

Student presidents conference reported

By ASB PRESIDENT, BRUCE PRESCOTT

The conference began at 11:00 a.m. Saturday, February 17th. The main items on the agenda
consisted of reports from the various committees formed by the association. The State budget for
this school year is already set. From the report from the National Student Lobby Committee (N.S.L.), it was learned
that Reagan has over an 80 million dollar surplus, and that many programs are going to be cut such as E.O.P. It is important
that every student is aware of the proposed programs. To match these funds in lightening their education.

I personally hope to go to Washington, D.C. to lobby with the other students and the delegation on topics such as increasing federal student aid, minimum wage with stimulus. I feel we students of CSUB should form a coalition along with the other institutions to show团结 increase. The relevance of this meeting in Washington affects all of us. If you have any questions or need information contact me.

Bruce A. Prescott
ASB President

Gettin' on! in which case you will not only forget taking the Bar Exam but you will be too busy shaking hands.}

PSYCHOLOGY CLUB — Thursdays, 3:00 p.m., in LC-526. The PSYCH groupies have got ya some rustic theories on the study of the human brain in the analysis of dry mints. Yes, the Psych Club is a real trip as any brother of an upliftant will tell ya. Fizz out your hair, grab a charis board and go out on some bad matter. The Psychology Library's in the Dept's don't. The number this week is: the Brother Mark is running a success.

SCUBA DIVES — Here at the State University of New York campus you may enjoy the pleasant facilities of beachcombing in our own heat, free of fungus pool. Relatively sounding like an advertisement for Ben Hunter's Holiday Shores advertisements for Sum City's beautiful Lake Mohave, and of course the famous Jellyfish Jim are gonna bring you some alright easy livin' in the pool. Shower facilities are free to our students.

SPANISH CLUB & SPANISH TUTORING SESSIONS — The Spanish Club and tutoring sessions are alive and kicking, so come and espanol your way across the world. Now is the time to learn the world. Cesar Chavez is dawnin' on you.

THEATRE TIMES — Thursday, 1st & 3rd of the month, 9:00 a.m. - 1:00 p.m., in PS-224. Free admission to all. Spanish Club and Spanish Tutoring Sessions.

TUESDAY NIGHTS — Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit.

STUDENT COUNCIL FOR MOTHER BEARS — Thursday, 12:00 - 4:00 p.m., in PS-224. Warm a little place in your heart for the Mother Bears, Bernardine Tenenbaum that the bear of BEARSAW who tells what's happenin' in a fox hole. The Chicago Food

POLITICAL SCIENCE — Tuesdays, 11:00 - 12:00 in SS-151. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit.

Blessed Hope's a Jesus Band that digs on praising hill, babe, let it be. Marinatha's a witchy experience... rhomme est plus incomprehensible a nous-meme. ... 'cause to the gods of the universe...Viva Mexico! Tenrba sus juntas, 12:00 • 1:00 p.m., LC-211. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. Bernardine Tenenbaum is a multi-media artist whose works on paper, watercolors, and other fine art media will be on exhibit. A H E L P F U L N O T E FROM THE ASB ACTIVITIES DEPARTMENT

Recent...ASB Activities Department has noticed the large triangular billboard in the center of the campus. As an aid to students lookin' for events on campus, any event of major importance will be posted on the side facing the main parking lot. Unfortunately, the large and colorful billboard has much property advertising the Credibility Gap on the 16th of February everybody expects 100% satisfaction before the event took place. That disaster may have been a very natural event for the billboard is in a basis unavoidable. It would be a sad commentary on the student body itself, yet we find that there exists a student that would take it upon his or herself to remove said sign, not only because of the painstaking involvement in preparation of said sign, but because the whole student body loses when they spend their student card money for expensive events such as took that place that night, and then cannot be seen again. Dumps like THEI EVENTS ON THEIR CAMPUS.

George Romandy

ASB Activities Chairman

Inter-Organization Council meets every Thursday at 7:00 p.m. in the Lower Commons (Mother Bear). The I.O.C. is the forum for representatives of all active student organizations on campus. If you are a member of a club, you are a member of the I.O.C. Your organization is not being adequately represented. Find out what is happening on campus and how your organization can be better served.

I.O.C. is where it's at!

Thank you,

George Romandy

March 9 & 20 - Science Fair all day again in the Great Gym. Grab your parametric aura and caudacism and get bustling. March 20 — yes, yes, it's another Pres. Club Luncheon. So don't even eat breakfast or dinner? They shore do lov them luncheons. March 21 — Another invitation meet - SIMS in LC-500 at 4:30. Bring your bear skin rug, you can fix it for one night and then they'll leach fog it up again.

March 24 & 25 - Swing them rockets and shoot against LOVE this time, less fun, for it's the SAN BERNARDINO TENNIS OPEN happens in dc courts for two whole days until around the end of the month. LOVE is where you want to be.

March 29 — yes, no, yes it's another President's Club Luncheon in the FREEZING Sz. Let's hope the poor Presidents aren't livin' on ham sand and rye. No wonder it's so tough to make all those nasty decisions.

March 31 — Sat., and March 8 — is blown away. It's the end of the month meet of the SAN BERNARDINO TENNIS OPEN, lasting through Sunday Pve. Wind up your arm and shine your tennis shoes, the TENNIS OPEN is a 'chick rush where it's at.

Note to a CAMPUS SECURITY POLICE OFFICER, In the phrase, "Get movin!' a pleasant way to greet a student exiting from the car? You could at least brush up on your manners, guys.

Don't be hesitant to answer. Anonymous letters are a very bad way to have that something to say as are good as any.

George Romandy

IN A CLASSROOM
OF THE COLLEGE
The ghosts of these minds
behind desks,
trails of light out the corner
of your eye.

— Nancy Saunders

Dear Sisters and Friends,
The Supreme Court ruling of
January 19, 1973 is enabling the
Feminist Women's Health Center
to open two new Abortion Clinics and
Women's Clinics!!!
The location of the Los Angeles Clinic is 1027 South Crenshaw Blvd., Los Angeles, and in order
to get it together immediately we
need help:

WE NEED YOUR HELP!!!
Specific things are needed:

- Money — lump sums, weekly or
  monthly pledges
- Good furniture for the clinic
  and lounges
- Office supplies — pens, paper,
evergreen, pads, stamps
- Anything and Everything
  Clinic or office equipment
- Paint
- Pictures for the walls
- Any thing you can think of!
But, also we need some of your
time and energy
We need women with clinical or
office skills
We need women to form work
crews to clean and fix up the
 clinic
We need women to do
telephoning
Everyone has something to donate

Please contact us immediately at the Feminist Women's Health Center, 746 So. Crenshaw Blvd., Los Angeles, Cal. 90005. Our
phone No. is (213) 936-7219.

For the Feminist Women's
Health Center
Attention women

Great News for Women!

INTRODUCING: ALLSISTERS: women's poetry, short stories, articles, photographs, letters. An all-women's liberation group. ALLSISTERS hopes that all women will contribute to this section. Leave work in the box in the Student Services building near the Activities office marked ALLSISTERS. Entries this issue are from Fell and Susan.

I've just realized today February 9th 1973 that I'm glad I'm living now rather than in the past.

I had always looked with nostalgia to the past, 1890, 1900 or even 1920 when it was still innocent to be bourgeois and one was simply born to one's pleasures, but then I forgot that I have no ancient titled ancestors that I know of and I would most probably have been a peasant, worked all my life, raped by the lord of the manor on my marriage night or by the master's son in whose house I served, or perhaps not so dramatically just beaten by my husband with no way of escaping.

I'm glad I'm living now that this, my 25th year, I could leave my husband, find a job and a place to live, and learn to be independent... that I could decide intellectually that I would be bi-sexual and refuse to accept the traditional guilt hatreds lesbians have always faced and feared... that I could accept my own sexuality and ask a man into my bed instead of having to wait and silently hope he would notice my coy behavior and then afterwards act innocent and surprised and passive... that I can write and do in so tear down the taboos placed on my body, to talk of my period and being fertile, things that were 'woman talk' and only whispered of in dark sitting rooms in the afternoons while the men were at work or in the lace-curtained bedrooms, hurriedly, the week before my marriage... that I can do all of these things and not care that I perhaps embarrass people or that men are frightened of me because they know I don't need them anymore and if they still want me to know they must come to me on a new and equal basis.

I am living, watching and being a part of a new age. I am becoming the new woman. I am unafraid though the path is foggy and the journey long. I may have to walk alone much of the way and it won't be easy, even now, but I stand within reach of the golden age; I see the new world in the distance waiting for us to create it.

fell ii -
I hate of being alone, independent, because I can't find a man I can tolerate but that seems the way it will be... it is still so utterly feminine still waiting for the man to act waiting for my cue... but when I think of how often I speak and he doesn't respond or he argues, taking precedence but wishing to destroy it this the flower of my thoughts instead of waiting for it tending and watering it like my sisters do. I wonder how long I can wait and keep this present of equality when there is no equality in the world and I feel like the statue of liberty on Ellis Island.

fell iii -
polish him off, like an apple leave the porchlight on but I can't sleep and masturbation doesn't help; it doesn't stop the loneliness.

fell v -
I hate being alone in bed but in daylight it drives me on almost a necessity, like air a definite dilemma, that nothing ever happens, why should it?

fell vi -
the worst part of being alone, that draws me to human company, is feeling worthless after going out of your way to make friends and being rejected, you wonder. If you're really that ugly or stupid and if no one really does want you

fell vii -
(I get like this once a month maybe it's my period)

fell vi -
during the day when a typewriter isn't near poetry grows in my mind well, at least buds of opening lines. but they flower and slip away like the other thoughts of the day and somehow get lost in the jumble of buses to catch and dogs fed, and by the time I sit with this machine before me my mind is a blank, and I end up writing poems about writing poems and wonder what the hell I'm doing anyway...

fell vi -
lemons sitting on the table which I picked from the neighbor's tree today round and yellow lemon yellow everything you can say about a lemon freshly picked with the stem and leaves still there... my dog coming over to sniff me and put her cold nose on my leg... seeking a friend talking of our lives and drinking beer... these are the things of my day and they are good.

fell v -
JANE FONDA is expecting a child in June - Alright!!
Stroke
continued from page 3
economy. And it will keep going up and up until it bust. Wage and price freezes ain’t gone stop it ’cause it’s the system that’s wrong. You have to destroy that system and put something better in its place. The capitalist in America knows that all the money in this country he’ll have to try and get will be four-hundred million dollars. So he’s fighting to get the biggest chunk. Under socialism, forty dollars is shared. There isn’t no arguing over the profits. Profits are used for the benefit of the people. They are used humanistically and intelligently.

The white man thinks that he can invent space. He keeps on making cars. The capitalist has used technology to make his money. A car is made to last you two years, then everything goes wrong with it. That’s the way it is designed. In 1943 cars cost less to make and they were better cars, they lasted longer. In 1973, it cost less to make cars but they sell them for more and they don’t last no where near the time they used to. Everything is gone up, even toilet paper’s gone up and the paper’s gettin’ thinner.

We must be concerned about people — money will come, don’t worry about it. We got to come together. The man who says PRIVATE PROPERTY! This is My Land! I own it! I’m a fool. Land can’t belong to one person but belongs collectively to the people, this principle is diametrically opposed to America.

RACISM — Everywhere we are you’ll find it. Everywhere we are with the white man, you’ll find it. We must find enough power to frustrate racism, and enough power to stop the white man from carrying out his racism. As Africans, as Black men, we have to decide our destiny. We have to go back to Africa. And I know a lot of you out there don’t like to hear talk about going back to Africa, but you have to know where you come from. Does your history start four hundred years ago in slavery or in Africa, millions of years ago? History
completely reinterpreted should inspire. I heard on the radio that the Leaning Tower of Pisa is falling, the Leaning Tower is cracking, and something’s going wrong with the Statue of Liberty. But through rain, wind, and earthquake the Pyramids of Africa are not budged an inch. Africa is my home.

The Revolutionary sees the problems and get the solution. We are on the right path because we are in just struggle. There is nothing to fear. There is nothing to fear. Viet Nam showed us that it is the will of the people that decides the war — the people. The U.S. is giving money to North Viet Nam for reconstruction. This is clearly an admission of guilt. When the U.S. dropped the atomic bomb on Hiroshima it was in warning to all third world people that the man had something in store for us. Third World people around the world were breaking the bonds of colonialism and the threat didn’t scare us. And it didn’t stop the revolution. When they shot Malcolm they didn’t stop the revolution. We have to be uncompromising.

In everything there is positive and negative. In our situation we are overwhelmed by the negative. We must push out for the positive. We must come out of the myth that the white man has perpetuated — that he can’t be beat. And there is no suddenness involved. When you see the man giving ground, push hard and precisely. Don’t be impatient. Don’t practice political catechisms, chanting political slogans. We want men who can think, not robots.

In 1964, Malcolm X told Africans that we had a responsibility to them and they to us. The base is in Africa. We are the Vanguard. We divided the country — Viet Nam, before anybody was talking about Viet Nam. Hell No! We Won’t Go! Nobody can stop the march of history — we must push the positive. Nkruma said that if you want to know the consciousness of the people then look at the women, because they are the ones who produce the nation. Our women are strong, naturally. They are stronger than the men, naturally. We must come together.

Credibility gap entertains
At C.S.C.S.B.

Last Friday night, Cal State College San Bernardino was graced with the presence of the 'Credibility Gap' and singer Penny Nichols. The two showings had sold out crowds. Penny Nichols started the show by explaining she was misnamed a comedy singer, but 'Credibility Gap' and singer Penny Nichols was a serious songwriter and singer. She wanted to be known as a singer and songwriter.

On a lazy summer night
'Neath the soft moonlight,
the moon shoe will know we made love
The 'Credibility Gap' consisting of Harry Shearer, David Lander, Mike McKean, and Richard Belzer, began with a skit on daytime TV host shows. Danny Wayne's TV Show had Batman and Superman plugging their new comic books war on drugs. Superman told a story of how he'd had LSD put in his drink at a party, and ended up in a K Mart with his pants down. Batman found Robin lying on the floor of the Bat Cave with a hypodermic in his arm, and a reefer in his mouth. It wasn't his fault though. A gang of "toughs" wanted a joy ride in the Bat car, and doped Robin up.

On the moon's surface
a take off on the Osmond Brothers. The Osmond Brothers, who were one of their new hits "You Can't Judge a Book by the Way It Wears Its Hair." The 'Credibility Gap' proved its claim to satire when they badly lipsinked the story of how he'd had LSD put in his drink at a party, and ended up in a K Mart with his pants down. Batman found Robin lying on the floor of the Bat Cave with a hypodermic in his arm, and a reefer in his mouth. It wasn't his fault though. A gang of "toughs" wanted a joy ride in the Bat car, and doped Robin up.

One hilarious scene involved a "Smiling Kop" commercial with macho gun for Columbia School of Security. "... Write in for your free matchbook cover to channel your creative killing instinct..." The last scene, and one of the best was when he take off on the Osmond Brothers. The Osmond Brothers revealed one of their new hits "You Can't Judge a Book by the Way It Wears Its Hair." The 'Credibility Gap' proved its claim to satire when they badly lipsinked the story of how he'd had LSD put in his drink at a party, and ended up in a K Mart with his pants down. Batman found Robin lying on the floor of the Bat Cave with a hypodermic in his arm, and a reefer in his mouth. It wasn't his fault though. A gang of "toughs" wanted a joy ride in the Bat car, and doped Robin up.

SAN BERNARDINO
Van Andrews, continued from front page

Bent over a Campus Security Police car, Van could not manage to remove his wig. It remained on his head until he reached the County Jail for booking, where officers were able to remove the wig before mug shots were taken.

Van was jailed from 11:00 p.m. to 2:00 p.m. the following afternoon. He was lucky enough to have a very good time, pleasantly slept through breakfast, and then was released at 2:00.

During the trial, Van was not represented by C.B. as he was in the preliminary hearing, as C.B. began receiving too many tickets from the Campus Security Police.

Counsel kept attempting to pin Dean Monroe down to clarify the alleged threat made against a certain professor, but attempts appeared to be unsuccessful. Dean Monroe repeatedly slandered Van throughout the trial, alleging that Van made obscene phone calls to various high officials of the college at 12:00 midnight.

Dean Monroe, also according to informed sources, presented various threats to the college, and claimed that Van Andrews is emotionally disturbed.

According to this report, a tribunal of faculty were in essence asking very leading questions of Van during the trial. They are Dean Monroe, Dean Perry, Professor Greathouse, and Professor McDonald.

The case rests almost entirely on the shoulders of Dean James Thomas, according to sources, who was allotted six (6) days to listen to the four-hour tape of the trial.

It was mentioned by a participant that Van is "... quite bright but spreading himself out too thin. He was pushing it last year when he touched too close to Pfau's and Monroe's nerves."

The irony of it all is that if Van went to a campus like Berkeley, he'd be just another one of the crowd.

Sacramento — State Senator Mervyn M. Dymally re-introduced legislation to repeal the requirements that off-site sale of alcoholic beverages cannot be made within specified distances from college campuses.

"Each year this bill is killed by the opposition of a tiny group of liquor dealers who have previously obtained exemptions from the present limits, and want to keep everybody else from getting the same treatment," the Los Angeles Senator said.

The bill, Senate Bill 139, would apply only to package sales of beer, wine and liquor, and would not affect regulations dealing with on-site sale near colleges, Dymally pointed out. Sale would still be prohibited on campuses, or to anyone under 21.

The bill has the support of the UC Student Lobby.

The City Council of Davis will consider a resolution soon to support the bill. A representative of the Mayor's office pointed out that "it's not only students who are inconvenienced by the present law. Townspeople are inconvenienced by the 'dry zone,' too."

"Current law says that package sales cannot be made within 1/2 miles of a college campus. But at least 25 exceptions and exemptions have been passed, varying the distance at different college sites," Dymally said. "As a result, the present law is little more than a farce, one which gives special breaks to some stores and package firms, while discriminating against others," he added.

He pointed out that the student who wishes to purchase beer or liquor merely drives to the nearest package store and makes his purchase.

He added that "The underage student who is going to make an illegal purchase, is not going to be deterred by having to go beyond the 1/2 mile distance from campus."

Dymally said his proposal is also in line with society's increasing recognition that college students are young adults, and should not be protected "as though they were children."

"The bill doesn't change the law which still prohibits sale to those under 21. It merely recognizes that many college students are over 21, married and with families, and resent being treated as though they were still immature youngsters," said Dymally.

1890

PRACTICAL HINTS FOR SHAVING.

How to Sharpen a Razor. Keep the Face Smooth. Care for the Beard, Cure Pimples, and Various Preparations.

1. To Make a Good Razor-hone, take a piece of an old leather bill, which has been used on some sharpening machine or farrier machine, put it narrow and oil it well. No better sharpening is possible.

2. Take a piece of new kip leather and oil it well with warm water. Mix, and oil it with oil of camphor.

3. One of the best and cheapest washes for the face, to use after shaving, is the following:

   2 oz. Glycerine,
   1 oz. Tincture of Aulacaria,
   1 oz. Rose Water.

ORIENTAL SHAVING CREAM.

4. Take 3 ounces oil of almonds, 3 ounces white wax, 2 ounces spirit of naphtha.

   Mix, and add one ounce of ammoniac, orange flower water, and oil of rose
   and mix to soften the skin, apply as the last wash.

How to Make FORCING THE RAZORS.

1. To make a good shaving soap:
   - 2 ounces palm oil
   - 1 dr. Liquid paraffin
   - 2 dr. Fatty acids
   - 12 spoons oil of rosemary
   - 12 spoons lavender

   Apply to the face daily, and avoid result. Said to be suitable

FACE FOR PIMPLES ON THE FACE.

2. Soap, Oil of Olive, 1 dr. Glycerine, 1 oz. Rose water.

   This is one of the best and safest remedies in use. Many of
   the so-called Pimple Creams do more injury than good.

BARNES' STICK OINTMENT.

1. Pound off oil, 1 pound semelt.
2. 2 ounces allantoin ule.

   Melt and incorporate with pure ointure, borax, and add 2
   ounces oil of camphor, 1 ounce liquid water.

A GOOD RAZOR-STROP PASTE.

   Wet the sticks with a little water, and apply a little
   flour at every stroke over the surface.

CHILDRON SHAMPOO COMPOUND.

1. 32 ounces of borax.
2. 1 lb. of oil of tallow.
3. Mix and dissolve 1 ounce of the mixture in 1 pint of water.

How to Take Care of the Hands.

To prevent chapping and roughness of the hands, soap should be used very sparingly and the hands should never be washedjust before going out of doors. If the hands are allowed to be rough, it is best to use a little lanolin following each washing.

Rubber, kid, dogskin, or other forms of leather, should be worn in cold weather. Silk and woolen gloves and mittens are more likely to produce roughness.

To Whiten the Hands.

Wash the hands in water containing a few drops of bay rum and ammonia.

Or, take one half teaspoonful of clove oil, and another of lemon juice; scrape into two cakes of Brown Windsor soap. Mix well and let it harden. This will be an excellent soap for whitening the hands.

To Whiten the Nails.

2 oz. distilled Sulphuric acid,
27 grains turmeric of saffron,
4 oz. strong rain water. Mix.

First wash the hands with olive soap, and then apply a little of the above wash.

Chapped Hands.

Wash the hands in water so hot as can be borne, then apply melted tallow, camomile or a little carbolic acid and water.

FEB 23 - MARCH 8, 1973
THE VOLCANIC

Your way can put one in touch with one's basic urges as you work in cycles. Ascendable inspiration can provide the means for dealing with and understanding oneself. You represent movement from one point to another within an individual's particular birth chart.

The forecast is given for the sun in signs. From the 23rd of Feb. until the 26th of Feb. we will be in our first ten degree period of Pisces, which is Pisces, ruled by the Moon. The inner sense is purely developed and one's emotional life is very sympathetic. On the 26th the sun will move into the second degree of Pisces which is ruled by the Moon, psychic and introverted. Denotes feelings for one's most basic urges as you work in cycles. Ascendable inspiration can provide the means for dealing with and understanding oneself. You represent movement from one point to another within an individual's particular birth chart.

A-LEAGUE

In games played on February 9th and 16th, there were some surprises and some expected big wins. The Recreational League, which is experiencing its first year at CSUC, is proving to be a winner among some of our shorter basketball stars on campus. Although a lack of height exists, so does basketball excellence as seen in the fast-breaking, controlled defense game of Los Malos.

Playing first on the 9th, Los Malos defeated Alpha Kappa Psi 87-33. Equal-balanced scoring was provided by Dan Ochoa, 18 pts., A. Landcaster, 17 pts., and Randy Svoboda, 16 pts. High point man for Alpha Kappa was Kent with 19.

Continuing the following week, the fast break was too much for Los Malos' next opponent, the Pollacks. Pacing Los Malos again was Dan Ochoa with 24 pts., leading to a 75-16 victory, stretching the unbeaten string of Los Malos to 4 games. Scoring 14 more for the victors was Jerry Tripp, while Luster scored 6 high ones for the Pollacks. The Avocados, meeting a strong Pollacks team, bulldozed the Avos with 34 pts., leading to a 65-20 victory. While Kielman rested, Alan Coffeen decided to get some playing time and scored 5 pts. for the D.T.'s. None could score higher. This reporter wonders why Sam Miller could not get hot? Heads, Hands, and Balls finally getting it together again, perhaps, has found the answer to plugging the middle with the oncoming Faculty, bottled up some veteran forward-center Mike Ross. Hauling down rebounds was veteran forward-center Mike Ross. The Pollacks attempting to break into the win column failed again as they succumbed to the D.T.'s 37-21. Dropping in 16 pts., Sam Miller showed his hot hand in wreaking havoc on the hapless Pollacks. Look forward to an exciting game coming up — Alpha Sigma Psi vs. the Pollacks.

Hard-running Los Malos, having more height and perhaps having played more on the CSCSB home court through the past year, other teams will give T.E.I.S. the edge. Leading scorer for T.E.I.S. was Greg Price with 17 pts., Carl Wagner, 10 pts., and Walt Oliver, 10 pts.

Fortunately for the Avocados they were able to bounce back the next week. Taking over the scoring was Reisenhofer for the Avo's as they downed the D.T.'s 47-50 as O'Connor scored 8 pts. for the D.T.'s. None could score higher. This reporter wonders why Sam Miller could not get hot?
