Van Andrews on trial - part II

commentary

By Peggy O'Malley

Amid the music of Mozart and much clearing of throats, Van C. Andrews was arrested Sunday night, February 11, on Cal Straight's campus.

Following his suspension Friday evening, February 9, Van was forbidden to reenter the lovely grounds of Cal Straight. The suspension was preceded by a blood-and-threat trial that lasted four-and-one-half hours, 3:30 - 7:30, on Friday afternoon. Informed sources indicate that the reason for Van's suspension may be that Van allegedly made a non-verbal threat on a certain professor at the college.

Before speaking of the intricacies of the trial, the details of the arrest of Van C. Andrews may be of interest. Van, as many of the students at Cal Straight realize, has been known for displaying unusual dress habits (i.e. long white robes and lace tablecloths draped in fishnet), for effect while he is in the process of protesting. Sunday night Van may have been striving for more than effect. He was struggling to keep his freedom. Wearing a bushy grey wig and other unrecorded items, Van C. Andrews paraded up and down the aisles of the Mozart concert whispering "Shhh!" at the audience. It is reported that an intermission President Pfau "...put the finger on Van Andrews."

It cannot be said at this time whether Van was in violation of the Rules of Suspension, whether he was disturbing the peace, or both, in determining the cause of his arrest.

Peggy O'Malley of the Pawprint staff has presented me with a series of questions regarding a hearing recently conducted on this campus. I regret very much that both the California Education Code and Title 5 of the California Administrative Code prohibit my discussing such matters publicly. Under the circumstances, and upon the advice of attorney, I can make no comments at this time.

The College has the right to comment on a personnel matter only if the individual involved makes public the confidential record or reports of the proceedings.

To date, I have no evidence that such a public revelation has been made.

SUBJECT: INTERVIEW WITH PRESIDENT PF AU
RE: OUTCOME OF VAN ANDREWS TRIAL
INTERVIEWER: PEGGY O'MALLEY

TITLE: ACTIVITIES EDITOR
QUESTIONS: 1. According to Executive Order No. 148, under Section entitled “Authority of the President,” the President is accorded final campus authority, established pursuant to Section 41304, Title 5, of the California Administrative Code, in all disciplinary procedures. In accordance with above, did you order the immediate suspension of Van C. Andrews? 2. In a meeting with Nancy Saunders, Editor-in-Chief of the Pawprint, on a preceding Friday afternoon, Nancy indicated that in the Publications Code of the college, the President of said college shall be permitted the opportunity to defend his actions to the college faculty and/or student body, if he so wishes. Would you like to present a supporting statement of your disciplinary actions in the Van C. Andrews trial? Certainly any other comments presented to the Pawprint by the President of the college will be welcome. Thank you, sir.
The middle finger

To Our Editor —

The recent middle-finger gesture of the Van Andrews affair is one that Van Andrews appears a reaction of at most, frustrated, ego. Andrews, a student of long-standing, is now playing a dramatic, more or less transparent, role in student government. He's keen at his crusading so long that the administration won't ignore him any longer. (Especially considering people are beginning to believe him.) They can't fire him so they decided to arrest him. What surprises me is the length to which President Pfau has pushed the administration.

The other night Van Andrews was arrested at the Mozart concert and charged with the ghastly crime of being on the property. However, Pfau made a phone call and one of the police officers was released on his word. The police complied. (Use radium mind control) The police have cast doubt on the administration's just and righteous position in the most mental way.

Now, if my assumptions of President Pfau are not correct, I'm sure I don't have a real job. If this is a procedural censure. But, if I'm not correct, President Pfau, how do you justify your actions?

Van would make a most peculiar martyr, but I can think of a more effective one than the administrations method.

Rob Blakeley, Student

A sandbox for the administration

I can remember it all now, that day in the music house. We had all finished doing what we normally do on days like that. I was at that particular moment that Van decided we had all waited long enough, and he proceeded to tell us all the story of his arrest. All about how he had decided to go to the Mozart concert and call for his release the evening before. And how that evening changed his life.

At the end of the Mozart concert, Van had been arrested notice that he had been suspected of being on the property and not allowed to set foot on college property until special permission was obtained. Van insisted he go to the concert and see the concert, so he proceeded to his bedroom and took disguise (grey wig and mouse ears) to the concert and called for his release immediately and at his own will. Van Andrews assured us that it was time that we go to the concert and called for his release.

The results of this action are now only being made available to the public. The fact that Van may never be known is this modest demonstration of the broad aspects and implications of the death of Truth at CSCSB. This is not a vivid, but an ADVERSITY to underhanders, chicanery, opportunists, and misdeeds as compiled by the Foul Administration. Adhering to the concept of FUNKIFIZATION at this college, the minions of the Great Lord Foul nowhere and everywhere, except in the Great Dictum: A Lie in Defense of Truth.

SINCE VAN ANDREWS was the duly-elected ASB President, a coup d'état without the slightest taint of Administration was impossible. Levege provided the tool for the first step in the circuitous road which led to the downfall of Van Andrews.

KNOWING VAN BETTER than themselves, all Administration minions did their worst to influence the departure of Mr. Levege. Van Andrews did not consider professional professors have a habit of disappearing from this college. Like Mr. Levege, Mr. Pfau was a member of the Foul regime fully supports the concept of FUNKIFIZATION at this institution. With the Foul regime fully supports the concept of FUNKIFIZATION at this institution.

Andrews character reference

Van Andrews' dealings with the law have been quite exemplary. He has had no arrests or charges, other than in the college police. He was described by Walter Kadyk, chief of college police as a police officer of the highest order. We have been discussing the details of commendation exercises and all related problems. The discussions have been quite lively as there are certain factions who are opting for a more lenient approach.

Son of daily Pawprint

The concern back of support for Van Andrews has reached its all time high radical, gad fly, philosophy in the Foul Administration. It was a matter of the utmost importance that Van Andrews was not allowed to disrupt the college police. Therefore, the king of the Foul Administration, Justice, I can only offer this advice to the administration. You can only quietly accede to the inevitable obeying of apathy. Van Andrews, theRV, will faithfully follow yet another CSCSB dictum, not because you consciously want to but because you are forced to. We have been discussing the details of commendation exercises and all related problems.

Letters to the Editor

From a thankful student

This is to let you know that the great March 11th letter from Mr. Andrews may soon be over, thanks to our wonderful wizard of a president.

I, the most humble, most loyal, most devoted student have the utmost respect and admiration for President Pfau and his staff. I am deeply grateful for their help and support in the face of the many difficulties we have faced.

Stokely Carmichael on Pan Africanism recorded by Kent Grant 17 Feb. 73 at the Watts Mental Health Clinic in Los Angeles...

... For a revolution to be successful all the people must be totally involved in struggle twenty-four hours every day. A revolutionary must look at the problems, analyze them, and then pose solutions to the people, who have to then understand in order to fight. There is no mysticism involved.

Pan Africanism is dealing with World Revolution of Africans all over the world. We are here all Africans — Africans born in the U.S. And we here have the same problems that the black man in Bermuda, Algeria, Brazil, Johannesburg, and on, and we all have to get our house together before we can help each other. The Chinese contributed to world culture and civilization for thousands of years. Our problem here, is that we don't equate richness with humanity, but with technology — big cars.

Revolution only succeeds if the principles are just; ours are on the side of justice. After we beat the white man, we'll give the red man back his land, and we'll go home!...appuise.

There are two groups of Africans. The first were taken away from their land and the second had their land taken away from them. When organized and powerfully united, Africa will be one. And man, she's gigantic. Africa is gigantic — from Cape Town to Egypt. When one African speaks, millions of Africans around the world will have understood. It has to be clear.

This system this society has built is backwards. The cities are breaking down. It takes you twice as long to drive to and from work than it took ten years ago. Now you tell me, that's progress; And you might lose your life with the lunatics you have to drive with on the freeway. We have to change our society.

In this society, money is more important than man. No doubt about it! This element from wall street has infiltrated into our communities. It's the worker, the pimp. Man is the most essential element, not money. It's the man who makes the money, not money that makes the man. Money must not dominate man but man must dominate it (It's intelligent use). We have to keep saving, Man is more important than money. Man is more important than money!

Individualism is less important than the rights of the people. The only way we can raise ourselves is by working together. A few people (individuals) who own property called capitalist, exploit labor and then use the money to do whatever they want with it. To be a capitalist you must own the means of production. That's why there are no black capitalists and very few capitalists all told. What we do have are plenty of house servants. Man calls them "running dog lackeys" serving the interest of the capitalist. They are aspiring to be capitalist but they'll never make it 'cause they're being exploited systematically. It's the house nigger who'll be working twice as hard as the master to put out the master's burning house.

It costs the capitalist who manufactures one dollar, including the fifty cents he pays you, to make a shirt. Then this capitalist sells the shirt to the store for four dollars. When you go to buy the shirt it's gone cost you five dollars. Now you tell the man that you gone strike unless you get a dollar fifty. So he says, O.K., and gives you the dollar fifty. Then he sells the shirt to the store for six dollars and you have to buy it at eight — spiralling
CLASS SCHEDULE -SPRING '73

Quarter's credit by comp. exam

The traditional walls of the college classroom are being pounded away in face of seeking new ways of learning. The most distinctive innovations in testing knowledge and giving credit is being pioneered at the State College, San Bernardino. It will provide the opportunity to get a full unit of credit through one examination.

The brainchild of Dr. Leslie Van Marter, director of philosophy of the proposed program is formally entitled, "Comprehensive Examinations: A New Approach to Multi-Course Classroom Instruction."

In layman’s language, it means that a student may take one examination over the content covered in three courses and if he passes, earn 15 quarter units of credit instantly.

One of the significant factors in the program, which will be tested during spring quarter, will be to determine whether students can be motivated to undertake more responsibility for their own learning.

Dr. Van Marter and his colleagues have identified several reasons why a student might opt out of a traditional classroom. He would have the freedom to spend 12 hours a week in a time and resources needed, in addition to written materials that will check the students along the way will be speed progress through the program.

The student who has a strong background in a particular field of study and has great potential for the student, is working with a program which represents so radical a departure from traditional learning patterns is not a simple task. Dr. Van Marter and his colleagues have been working during the two quarters of the academic year. First, they had to identify the courses which would adapt to such a program. Now they are developing the course sequences which are part of the mandatory core curriculum for all majors. Dr. Mortenson is developing the upper division sociology courses and Dr. Cleaves is combining upper and lower division psychology courses. As a second aspect of the psychology major, Dr. Mortenson also is preparing a comprehensive test based on a number of upper-division courses.

Dr. Zorecklein is inventing an upper-division general education comprehensive examination, modeled on specific courses but organized into larger areas in the liberal arts. Dr. Taylor is deciding whether to construct a single comprehensive test based on a core of upper-division courses or to cover one specific area of biology.

"We hope this program will motivate students to want to take the mandatory core away at one crack. The core will not be presented as three, disconnected study guides but as one integrated, interconnected learning experience which will develop a student's ability to synthesize information from various disciplines and present it in a coherent format."

"The program is not designed to be an Oxford tutorial, with frequent personal contact with a professor," he added.

The study aids and materials, organized in proper sequence so as to be pretty self sufficient, will be handed out to the students at the beginning of the term. Some existing resources will be used, as well as those prepared specifically for this program. Both audio and visual resources, in addition to written guides, will be available to the student. Sample tests to be taken along with the way will check the student's level of competency as he progresses.

"In our pilot program this coming quarter, we will need more feedback from the student and the program director. Later, the amount of contact will be less."

One of the criteria imposed by the Chancellor's Office in granting Dr. Van Marter funds for his project was that it must be "exportable." The professor and his colleagues have identified several reasons why a student might opt out of a traditional classroom. He would have the freedom to spend 12 hours a week in a classroom. Rather, he would have the choice to stay at home to class.

Dr. Van Marter also is preparing a catalog of the course sequences which are part of the mandatory core curriculum for all majors. Dr. Mortenson is developing the upper division sociology courses and Dr. Cleaves is combining upper and lower division psychology courses. The student who has a strong background in a particular field of study could speed progress through the program.

Failure to meet these requirements could cause a delay in registration. It is being conducted this term, students will be notified of the results of the examinations that they will be required to take. Further, the student who registers will receive detailed instructions, study guides, and other materials to help him guide himself during preparation for the rest of the student's schedule. It ultimately could speed progress through the program and have it too."

As part of an experimental study being conducted this term, students will have new opportunities to spend a full quarter out of the classroom while preparing for comprehensive examinations that serve as an alternative to regular course instruction. Because comprehensive examinations will be conducted this term, students will be required to take the examinations. Further, the student who registers will receive detailed instructions, study guides, and other materials to help him guide himself during preparation for the rest of his schedule. It ultimately could speed progress through the program.

Summer study in Europe

Bob Turley, Assistant Professor of Sociology at Santa Barbara Valley College, and Anne Turley, are planning to go to Europe by other than during the 4:30 to 6:30 period on March 29 or the 4:15 to 5:00 p.m. period on March 30.

Library

"rap rack"

Because students traditionally are too hurried to spend idle, those perusing the regional press, the Library staff has erected a "rap rack" on the main floor of the Library next to the Circulation Desk. Each week a limited number of projects and faculty will be clipped from regional newspapers and posted there. And two months — a faculty member — feels strong enough about any item posted, he or she is encouraged to submit his opinions for posting.

Please submit your written comments to a member of the Library staff at the Reference Desk or drop them in a book drop addressed to Rap Rack. Please limit your response to only those items posted, and keep the wording to a 5" x 7" card or an 8" x 11" piece of paper for both of which are available on the Rap Rack. Comments must be signed and will remain posted for one week.

Any comments on library services, suggestions and/or complaints will be welcomed. Those directed to library services will be answered and will appear on the Rap Rack. The Library will be responding to the recently circulated Library questionnaire. Students' responses will appear on the Rap Rack.

The Rap Rack was designed to be an informal point of pertinent current information in these Groves of Academe. Make it a habit to look it over.

SCHOOLS OF EDUCATION

The student may earn a minimum of three transferable credits in Sociology from Valley College, while visiting London, Amsterdam, Munich, East and West Berlin, Vienna, Belgrade, Yugoslavia, Athens, Rome, Florence, Montreux, Switzerland, and Paris.

The six-week tour will leave Los Angeles on July 15 and return August 19. Total all-inclusive tour cost of $1,195.00 covers all transportation (jet, train, steamer, boat, bus) on the tour. Mr. and Ms. Turley are planning to go to Europe by other than during the 4:30 to 6:30 period on March 29 or the 4:15 to 5:00 p.m. period on March 30.

Admission to the credit program is limited to register in any of the following courses and in any course:

- Educational Foundations of Education
- Sociology of Education
- Teaching English as a Foreign Language
- Urban Education
- The Arts and Ideas
- The Psychology of Education

The first meeting for all who are interested will be held on Thursday, February 15, at 7:30 in the Fountain Room. Featured will be Mr. Hans Kolb of Study Tours, Chicago, who will show slides and answer any questions regarding the tour. Mr. Turley will be available to see Mr. Turley at Valley College in Liberal Arts-143 or give phone number 1650-2502.

Veteran Information

Veterans who have used their G.I. loan can have their eligibility restored and get another VA-guaranteed loan under some conditions. Gordon R. Elliott, Director of Southern California's VA Regional Office, reminded veterans.

Some of the reasons for which property may be disposed of and entitlement restored by VA are:

1. Transfer of a serviceman by his employer.
2. Reduction of employment from one locality to another by an employer.
3. Destruction of home by fire or natural hazard.

Voluntary change of employment to another locality offering more income and opportunity for advancement.

- VA-guaranteed home loans are available to eligible veterans and servicemen with at least 90 days of active duty during World War II and the Korean Conflict, or at least 181 days in the Vietnam Era. Loan benefits are available to eligible widows, and wives of servicemen going in action or prisoners of war for more than 90 days.

UCLA seeks minorities

The demand for minority personnel in social work is considerable and UCLA's School of Social Welfare is seeking qualified students wishing to enter a graduate school program leading to the master's or doctoral degree, according to Dean Maurice F. Conway.

Admissions for next fall are open until March 15.

"The reason we are encouraging minority students to consider social work as a profession is that there is a real need for minority graduates in the field, particularly Spanish-speaking students," Dean Connery said.

The educational background of Boys, Chicago, Indian and Asian students will be evaluated in the light of the opportunities available to them, Mr. Connery determined admissions, Dean Connery added. Special counseling will be available at the School from 9 to 3 p.m. on Thursday, February 22 and March 2 and 9.

Some students may be eligible for financial assistance under current programs. Anyone interested in learning more about the social program should call the School of Social Welfare at 822-7737 or 822-1953.

PAWPRINT
Summer program in nuclear energy

A training program for undergraduate students on the application of nuclear energy to problems of the environment, medicine, and biology will be sponsored this summer by the Laboratory of Nuclear Medicine and Radiation Biology at UCLA. Scheduled for June 25 - August 31, the program will be open to qualified students in mathematics, science of engineering. Applicants should have completed at least one year of college by June.

Application deadline is March 15, and successful applicants will be notified by April. Trainees will receive a monthly stipend of $360 if they come from within 100 miles of UCLA and $400 if from farther away. Funding of the program is through National Science Foundation funds to UCLA and generous grants from Western Universities, which is supported by the Division of Nuclear Education and Training of the Atomic Energy Commission.

Trainees will participate in summer research programs in nuclear fields of cooperating UCLA faculty. Lectures and demonstrations on environmental problems, medical and biological applications of nuclear fields of cooperating universities, and related subjects will be included.

Program supervisor will be Dr. Mark E. Scham. For further information contact him at the Department of Physics, California State University, Los Angeles, 515 State University Drive, Los Angeles 90032.

CSUS student in ROTC Honored

WASHINGTEOK, D.C. (APRINO) - Charles R. Gurnam, son of Mr. and Mrs. R. Gurnam, 1247 Gila Ave., San Diego, Calif., was among some 320 ROTC cadets and midshipmen who were special guests at the Reserve Officers Association's Mid-Winter Conference in Washington, D.C., last week (Feb. 15-16).

A member of the Army Reserve Officers' Training Corps (ROTC) at California State College at San Bernardino, Gurnam is a junior majoring in business administration.

The cadets, representing Air Force, Navy and Marine as well as Army ROTC campus groups, were guests of the Reserve Officers Association (ROA) and the Department of Defense. They came from schools in 38 states.

Headquartered at the Washington Hilton Hotel, the conference featured the cadets' visits to Capitol Hill, the Pentagon, the ROA Minute Man Memorial Building and Ft. Myer, Va., as well as discussions on military and social functions.

Highlighting the two-day meet was the National Council banquet, which drew some 2000 persons, including Department of Defense and Congressional leaders as well as top personnel from all branches of the Service.

Senator Henry M. "Scoop" Jackson (D-Wash.) was named Man of the Year, and the award went to "the Citizen who has contributed most to National Security in these times."

Cader, Grimm is a member of Alpha Kappa fraternity.

**Human Sexuality**

Biology 355 - Biological Aspects of Human Sexuality, will be offered Spring term by Dr. Taylor. The purpose of this course is to help students in all major fields gain a better understanding of biology's role in human sexuality. In so doing, it is hoped that the student will gain a better understanding of his or her own sexual needs and sexual behavior and will be more accepting of other people whose sexual needs and behavior are somewhat different. Another objective of the course is to help students to make the wisest possible decisions in matters of human sexuality. We are being called upon today to make decisions regarding contraceptive techniques, abortion, venereal disease, the roles of male and female in society, etc. These are decisions that may affect ourselves, our families and possibly even the structure and behavior of society.

Anyone who has been offended by lectures, discussions, chalkboard drawings, films, slides or book illustrations of explicit human anatomy and functions is requested not to enroll in this course (even though the instructor is firmly convinced that these are the people most likely to profit).

**Student presidents conference reported**

By ASB PRESIDENT, BRUCE PRESCOTT

The conference began at 11:00 a.m. Saturday, February 17th. The main items on the agenda consisted of reports from the various committees formed by the association. The State budget for this school year is already set. From the report from the Student Senate it was learned that Reagan has over $80 million dollar surplus, and that many programs are going to be offered. Contact Anthropology Department.
**Study Abroad**

An opportunity for study abroad is available from the Rotary Foundation of Rotary International to outstanding young men and women who are interested in world affairs and who can fulfill a dual role of student and "ambassador of good will." Rotary Foundation Graduate Fellowships, Undergraduate Scholarships, Technical Training and Teachers Awards offer qualified students, technicians and teachers of the handicapped an opportunity to contribute to better understanding between the peoples of their home and host countries while pursuing their own career interests.

An award covers round trip transportation, educational, living and miscellaneous related expenses for one academic year, plus in certain cases, a period of intensive language training in the study country prior to the commencement of the regular academic year. Awards are made for study in most any field and are tenable in countries in which there are Rotary clubs.

Application deadline is March 15, but interested students should make initial application right away. For additional information contact Mr. Doyle Stansel in the Office of Financial Aid before March 8.

**RENAISSANCE DANCE WORKSHOPS**
The College will offer two special weekend workshops in Renaissance Dance during the spring quarter. The instructor will be Mrs. Luba Blumberg of Berkeley, California. Students may enroll in either session A or B for one unit credit or in both sessions for the equivalent of two units. Non-matriculated individuals may enroll as extension students (call the Office of Continuing Education, ext. 594, for details). The workshops are open to all students; no previous dance experience is required.

**Welcome & Best Wishes to the Students & Faculty at Cal State**
In which case you will not only forget the Bar Exam but you will be too busy shaking hands.

The PsyCh group has got ya some real甜 talk on how to handle the analysis of dry maths. Yes, the PsyCh club is a real trip as any bros of an upright atheist will tell ya. Frizz your out your hair, grab a chair board and get on down to some bad matter. The Psychology's library, the Dept's don't didn't. That's a pity. If a brother Mark is running a special.

SCUBA DIVES — Here at the State's Capital you might enjoy the pleasant facilities of PS-224. Scuba the in our own heated, free of fungus pool. Relatively sounding like an advertisement for Ben Hur's Holiday Shows advertisements for Sun City's beautiful Lake Mojave, Avenue of Palms and Jellyfish Jim are gonna bring you some alright easy living in the pool. Shover facilities are free too.

SPANISH & SWISS TUTORING SESSIONS — The Comay you are kicking and come, so spanish your way across the board. They run Tuesdays, Fridays, 9:00 - 1:00 p.m. in LC-1. Cesar Chavez is dawin' on you.

WANT TO JOIN... Thursday, 1st & 3rd of the month, 3:00 - 5:00, in LC-3 building. We are at the nearest desert then follow the tour. You'll be there. Bring your dirty socks and crumple your sweatshirts at the greater. Term papers and spring launch throughout our PE department. The $500 question is: Why does Cal State not have inter-collegiate sports? Ask President Plus for the 50 cent solution.

STUDENT COUNCIL FOR JUNIOR CHILDREN, Thursdays, 12:00 - 1:00 p.m., in PS-224. Warm a little place in the heart of the student council. You might find something under a change in values. Ask that daffy dawdled of the Extension advisor, Monterd. Dr. Steve Morris, what his uptight is all about. He can get it togerh.

FOR MARCH 30. Catch 'em, they're a quick get. (That's in the U.S. of A., bros and sis.)

FOREIGN FLICKS ON MARCH 17 — Cubavera, oh reb! PS-10 at 8:00, Fri. nite, where it's at. Public peoples must dish out a 50 cent piece for the deal.

FAVORITE LUNCHEON: SATURDAY, March 5, 12:00 - 1:00 p.m. President's Club Luncheon, C-105. The workers are singin' a song. (That's not the Inland Science Fair.) Bring your dirty socks and crumple your sweatshirts at the greater. Term papers and spring launch throughout our PE department. The $500 question is: Why does Cal State not have inter-collegiate sports? Ask President Plus for the 50 cent solution.

HAPPENINGS HAPPENING
March 5 - Dept. Chair meet, 11:00 in loco LS-500.
March 5 - World Affairs Division, 10:00 a.m., in Mothear.
March 7 - French, 8:00, in PS-224.
March 8 - GREEK & RUSSIAN PLACEMENT EXAMS in PS-224.
March 9 - SUBWAY RIDE, 6:00, in PS-224.
March 10 - Teen Center, Fishl. 10:00 a.m., in the Upper Commons.
March 10 - Drama, 7:00, in PS-224. (That's in the U.S. of A., bros and sis.)

Three facts: the SPANISH PLACEMENT EXAM - aw, come on now, it's just a test. That's all. The test is over. It's not off in LC-227. Both testin' is at 10:00 a.m. But no, we do have a VD Clinic. If you read that distant say that you will discover that the Student Health Center has got ya in for bad scenes and bad news. Bootstrap ya don't got their shots. So Da Clinic says cruise on by and take five before you're too busy shaking hands.

And doncha forget your foreign flick, Fidelio.

March 8 - Student Affairs meet, SS-144, 1:30 p.m., in the Social Community College Liaison in Room C-1648. It's a trip...

March 10 - Chorus Recital Rehearsal at 12:30 in PS-10 and sing on.

March 11 - Sun, 8:15, Student Recit revin up, PS-10.

March 12 - Fri & Sat, CUBA, 7:00, PS-10. Practice yore ill voices out.

March 17 — Also a groove in the music. The workers are singin' a song. (That's not the Inland Science Fair.) Bring your dirty socks and crumple your sweatshirts at the greater. Term papers and spring launch throughout our PE department. The $500 question is: Why does Cal State not have inter-collegiate sports? Ask President Plus for the 50 cent solution.

THANKS FOR YOUR FRIENDS
March 19 & 20 — Science Fair all day again in the Great Gym. Grab your parametrum aurelia and caudatum and get hustlin'.

March 22 — Friday's a day to remember in da courts for inter-collegiate sports? Ask that daffy dawdled of the Extension advisor, Monterd. Dr. Steve Morris, what his uptight is all about. He can get it togerh.

March 24 & 25 — Swim them rockets and shoot against LOVE this time, teehina fans, for it's the SAN BERNARDINO TENNIS OPEN happens in da courts for two whole days until and at the end of the month, 40-LOVE is where you want to be.

March 29 — yes, no, yes it is another President's Club Luncheon in (5). Let's hope the poor Presidents aren't livin' on ham salad and rye. No wonder it's so tough to make all those nasty decisions.

March 31 — Sat, and March is blown away. It's the end of the month meet of the SAN BERNARDINO TENNIS OPEN, lasting through Sunday PM. Wind up your arms and shine your tennis shoes, the TENNIS OPEN is another where it's at.

Note to a CAMPUS SECURITY POLICE OFFICER, in the phrase, "Get movin!" a pleasant way to greet a student exiting from the car? You could at least brush up on your manners, guys.

Don't be hesitant to answer. Anonymous letters to the editor that have something to say are as good as any.

YOU KNOW WHO YOU ARE

Flow - you stifled words!
Let me interpret all within.
Let me envision meaning and ideal
So that I may picture them in words.
Then you may understand.

You are the barriers that are erected
Against impression -
You bring me no more than vague descriptions
That have been warped by distorted minds -
You bring me the whisper
That emerges from a darkness
Deeper than mere moonless nights.

I listen to your voice and
I hear the faint rustle of dry leaves
in a breeze,
And I watch the cloudiness of your unperturbed face
Painted in the distant blue of a slate,
And drift with the somnolence
Of a deafened moment.

TO ENSNARED

Adulterous eyes,
green with envy,
directed towards my virtue,
extended by jealousy,
authorised by Satan;

For you are indifferent to the strength of our need.
You care neither for the boundaries of our scope.
Nor do you heed the plaint of our disbelief.

Is it an unappetised hunger that has thrust
Your caustic humor into sentence?
Alas, you need not tell
For you could not speak without the weakness of verbosity.

Here are the things of which I would write.
These are the throbs of tired minds.
That inspiration seeks bravely
Know that you are a cheater of dreams,
And a pestilence that gorges on your impotent waves
While we wait
For an angry ocean of power
To build a life.

TO MY TEACHER

The golden* eyes swallowed in grey hair
double talk (smile) know nothing
con man trickery (rape) games,
with, perverted sexual activities (hidden) as motive.

(Open mouth, vomit for words,
spin for mind, fear of truth, lies as air, oil for tongue.)

They'll never know.
Hate my mind, my wants, for yourself,
use mind hypnosis to pervert it,
you hard to destroy it;
its existence sees through you, is put together by God.

MONDAY ON 40TH STREET

SAN BERNARDINO

I met you on a Monday and my heart stood still,
day doo run run day day doo run run.

Something told me that your name was Bill,
but I don't believe it; it doesn't matter.
I never tell the truth anyway. I ask you
"how do you get high?" and you say "I don't,
I'm depressed all the time."

You're lying,
you're a college bound tom cat who daydreams by the strength of the sun and the long wind
of college professors, bloating with the wisdom of nighttime
finds you sneaking around patterns,
sniffing out the warm to dry your rain skin

We never make decisions and don't think
on Sundays, but I know you're dying to prove
you've a man; and baby if you make my heart
stand still you better be ready to sprint down
the assignments of my soul cuz I'll study you
until you whist the adrenaline in hot circles
and make an "A" and get stoned on life and stop
lyric proven and dreaming and fantasizing,
until spring brings out the flowers on Little Mountain,
the truth out of lies, the truth
that makes men out of tom-cats
and make an "A" and get stoned on life

men never tell the truth anyway. I ask you
"Who are you?";

Attention women

Introducing: ALLSISTERS: women's poetry, short stories, cartoons, photographs, letters. A place that's warm and vulnerable — angry and cold — emotional and defensive. ALLSISTERS is a women liberation group. ALLSISTERS hopes that all women will contribute to this section. Leave work in the Activities Office marked ALLSISTERS. Entries are due February 9th, 1973. The program is in the very earliest stages and interested students are invited to submit requests for courses they would want to take (whether it's in your major or even a minor in Women's Studies). I personally look forward to hearing from you. I had always looked with nostalgia to the past, 1920, 1940 or even 1939. The program is still so utterly feminine and I am unafraid though the path is long, the journey foggy and the golden age is still waiting for the man to act and one was simply born to one's pleasures. I am living, watching and being a part of a new age. I am becoming the new woman. I am unafraid though the path is foggy and the journey long. I may have to walk alone much of the time. I can do all of these things not that I perhaps embarrass people or that men are frightened of me because they don't need them anymore and if they still want me to know they must come to me on a new and equal basis.

picking academic credit for something I would be doing anyway! I hope every woman who is interested will make herself known and will support the program with her time and effort as well as sympathy. And, hopefully, by this quarter next year we will have a full-fledged Women's Studies Program.

battis Darrell and Gloria Cows in Psychology are trying to get a Women's Studies Program going here at State. The program is in the very earliest stages and really need student help with it. They particularly would like interested students to submit requests for courses they would want to take (whether it's in your particular field or not), preferably in petition form with signatures of other students who are interested in it. These will be used when the whole program and the specific courses given will be presented for approval. They also need help with jobs like stuffing envelopes which are very boring and not in the least bit glamorous, but which need to be done if we are to have any program at all. They are also interested in talking to women in any major who would like to participate in the program or even do a minor in Women's Studies. I personally look forward to getting academic credit for something I would be doing anyway! I hope every woman who is interested will make herself known and will support the program with her time and effort as well as sympathy. And, hopefully, by this quarter next year we will have a full-fledged Women's Studies Program.

I've just realized today February 9th 1973 that I'm glad I'm living now rather than in the past.

I had always looked with nostalgia to the past, 1920, 1940 or even 1939. When it was still innocent to be bourgeois and one was simply born to one's pleasures, but then I forgot that I have no ancient titled ancestors that I know of and I would most probably have been a peasant, worked all my life, raped by the lord of the manor on my marriage night or by the master's son in whose house I served, or perhaps not so dramatically just beaten by my husband with no way of escaping.

I'm glad I'm living now that in this, my 25th year, I could leave my husband, find a job and a place to live, and learn to be independent ... that I could decide intellectually that I would be bi-sexual and refuse to accept the traditional guilt laden lesbians have always faced and feared ... that I could accept my own sexuality and ask a man into my bed instead of having to wait and silently hope he would notice my coy behavior and then afterwards act innocent and surprised and passive ... that I can write and in doing so tear down the taboos placed on my body to talk of my period and being fertile.

fellt –

during the day when a typewriter isn't near poetry grows in my mind well, at least buds of opening lines, but they flower and slip away like the other thoughts of the day and somehow get lost in the jumble of buses to catch and dogs fed, and by the time I sit with this machine before me my mind is a blank and I end up writing poems about writing poems and wonder what the hell I'm doing anyway ...

Credibility gap entertains
At C.S.C.S.B.

Last Friday night, Cal State College San Bernardino was graced with the presence of the 'Credibility Gap' and singer Penny Nichols. The two showings had sold out crowds. Penny Nichols started the show by explaining she was misnamed a comedy singer, but 'Credibility Gap' and singer Penny College San Bernardino was serious songwriter and singer. She wanted to be known as a singer and songwriter.

On a lazy summer night, 'Neath the soft moonlight, the moon shoe will know we made love..."
The 'Credibility Gap' consisting of Harry Shearer, David Lander, Mike McKean, and Richard Belzer, began with a skit on daytime TV host shows. Danny Wave's TV Show had Batman and Superman playing their new comic books war on drugs. Superman told a story of how he'd had LSD put in his drink at a party, and ended up in a K Mart with his pants down. Batman found Robin lying on the floor of the Bat Cave with a hypodermic in his arm, and a reefer in his mouth. It wasn't his fault though. A gang of "toughs" wanted a joy ride in the Bat Car, and doped Robin up.

One hilarious scene involved a "Smiling Kop" commercial complete with machines gun for Columbia School of Security. "...Write in for your free matchbook cover to channel your creative killing instincts..." The last scene, and one of the best was a take off on the Osmund Brothers. The Osmund Brothers sing one of their new hits "You Can't Judge a Book By the Way it Wears Its Hair." The 'Credibility Gap' proved its claim to satire when they badly lipsinked the story of how he'd had LSD put in his drink at a party, and ended up in a K Mart with his pants down. Batman found Robin lying on the floor of the Bat Cave with a hypodermic in his arm, and a reefer in his mouth. It wasn't his fault though. A gang of "toughs" wanted a joy ride in the Bat car.
Van Andrews, also according to informed sources, presented various threats to the college, and claimed that Van Andrews is emotionally disturbed. According to this report, a tribunal of faculty were in essence asking very leading questions of Van during the trial. They are: Dean Monroe, Dean Perry, Professor Greathouse, and Professor McDonald.

The case rests almost entirely on the shoulders of Dean James Thomas, according to sources, who was allotted six (6) days to listen to the four-hour tape of the trial.

It was mentioned by a participant that Van is "... quite bright but spreading himself out too thin. He was pushing it last year when he touched too close to Pfau's and Monroe's nerves."

The irony of it all is that if Van went to a campus like Berkeley, he'd be just another one of the crowd.

Van Andrews, continued from front page

Bent over a Campus Security Police car, Van could not manage to remove his wig. It remained on his head until he reached the County Jail for booking, where officers were able to remove the wig before mug shots were taken.

Van was jailed from 11:00 p.m. to 2:00 p.m. the following afternoon. He was lucky enough to have a very good time, pleasantly slept through breakfast, and then was released at 2:00.

During the trial, Van was not represented by C.B. as he was in the preliminary hearing, as C.B. began receiving too many tickets from the Campus Security Police. Counsel kept attempting to pin Dean Monroe down to clarify the alleged threat made against a certain professor, but attempts appeared to be unsuccessful. Dean Monroe repeatedly slandered Van throughout the trial, alleging that Van made obscene phone calls to various high officials of the college at 12:00 midnight.

Senator introduces booze legislation

Sacramento — State Senator Mervyn M. Dymally re-introduced legislation to repeal the requirements that off-site sale of alcoholic beverages cannot be made within specified distances from college campuses.

"Each year this bill is killed by the opposition of a tiny group of liquor dealers who have previously obtained exemptions from the present limits, and want to keep everybody else from getting the same treatment," the Los Angeles Senator said.

The bill, Senate Bill 139, would apply only to package sales of beer, wine and liquor, and would not affect regulations dealing with on-site sale near colleges, Dymally pointed out. Sale would still be prohibited on campuses, or to anyone under 21.

The bill has the support of the UC Student Lobby.

The City Council of Davis will consider a resolution soon to support the bill. A representative of the Mayor's office pointed out that "it's not only students who are inconvenienced by the present law. Townspeople are inconvenienced by the dry zone, too."

"Current law says that package sales cannot be made within 1 1/2 miles of a college campus. But at least 25 exceptions and exemptions have been passed, varying the distance at different college sites," Dymally said. "And it is legal for a package store to deliver within the 1 1/2 mile zone."

"As a result, the present law is little more than a farce, one which gives special breaks to some stores and package firms, while discriminating against others," he added.

He pointed out that the student who wishes to purchase beer or liquor merely drives to the nearest package store and makes his purchase.

Dymally said his proposal is also in line with society's increasing recognition that college students are young adults, and should not be protected "as though they were children."

"The bill doesn't change the law which still prohibits sale to those under 21. It merely recognizes that many college students are over 21, married and with families, and resent being treated as though they were still immature youngsters," said Dymally.

How to Take Care of the Hands. To prevent chapping and roughness of the hands, soap should be used every morning and the hands should never be washed just before going out of doors. If the hands are allowed to be rough, it is best to use a little motion after each washing.

PRACTICAL HINTS FOR SHAVING.

Washes the hands in water containing a few drops of bay rum and ammonia. Or, take one half teaspoonful of rice flour and another of lemon juice; mix into it two cakes of Brown Windsor soap. Mix well and let it harden. This will be an excellent soap for whitening the hands.

To Whiten the Nails. Mix 2 ounces of dilute sulphuric acid, 1 fluid ounce of alcohol, and 1 ounce of water. Mix well and let it harden. This will be an excellent soap for whitening the hands.

Chapped Hands. Wash the hands in water as hot as can be borne, then apply a little of the above wash.

THE VULCANITE

Your way can cut one in touch with one's basic urges as well as in cycles. Astrology can provide the means for dealing with and understanding oneself so one can appear and reappear within an individual's particular birth phase.

The forecast is given for the sun in Pisces. From the 23rd of Feb. until the 26th of Feb. we will be in the first ten degree period of Pisces which is Pisces - Neptune. The inner sense is partly developed and one's feelings are very sympathetic. On the 26th the sun will move into the second degree of Pisces which is Pisces - Saturn. The individual will experience strong forces along with a keen imagination which can be felt from becoming obsessive. People who are born around today are particularly kind and loving, showing affection to others and personal things. Pisces are very much in touch with their feelings; and at times so subtle to what one feels and the ideas create a very interesting situation to the Piscean recipient. A-LEAGUE

After a shaky start at the beginning of the season, the Spades have vaulted to the top spot in league play. Moving into a tie for first place, the Spades edged by the Mother Truckers 69 - 66.

Robert Thomas and Michael Thomas combined for 41 of the team's 69 points in defeating the previously undefeated Mother Truckers. Saar was high man for Hickman while Nagel had 24 for the Honkies.
