The Black Voice News
We take this time to vote for those in the 21st century. We should do it with a bang. We should protect the predictors of a few very short.

For the Riverside City Unified we want to recommend Aryn Terrell. Aryn is seeking the position for the first time and will bring a wealth of community involvement to the board. Her experience as a Social Worker and youth advocate will be a great resource to her colleagues. She understands the grassroots issues of homelessness, HIV, addiction and drugs, all issues facing our school-aged children. Aryn is a mother-grandmother and long time resident of this community. She will add to the diversity of views and ideas to a much needed school board.

We therefore recommend Aryn Terrell for Riverside Unified School Board.

San Bernardino Unified School Board are recommending Danny Tillman re-election. He has shown exceptional leadership in an area that few boardmembers have any knowledge. That area is with the budget. His expertise led to the discovery of over $40 million dollars being carried as high. He helped to highlight that a contractor was awarded a contract worth four million dollars for only 2,500 square feet, without public input or knowledge. As a result of his questions the budget was open to the public. Danny has also insisted that all schools be audited for high technology regardless of the school's graduation rates for advanced American students continue to rise as do the test scores. We therefore recommend Danny Tillman for San Bernardino School Board.

For Riverside City Unified we are recommending as an alternate candidate, Megan Caner. She studied multicultural education and has an understanding of how to appeal to the minority community as well as the majority community.

For Riverside City Unified we are recommending Aynslie H. High. Aynsley is seeking re-election to the board in order to continue her work on the Superintendent search committee and to continue the growth and development of the Superintendents. The board has placed women to lead high schools and there they served as Co-Director with the United States Peace Corps.

We therefore recommend High. Aynsley for re-election to the Riverside City School Board.

We are recommending as an alternate candidate, Draymond Crawford II. He studied multicultural education and has an understanding of how to appeal to the minority community as well as the majority community.

For Riverside Community College Board of Trustees we are recommending one of our Black Voice Foundation, Inc. Women Achievers Program. Mary Figueroa has shown leadership in the community through her teaching and her work at Riverside City College. We truly appreciate her success of her efforts. She was not in condition to be re-elected to the board this time. She has the potential and the fortitude to be involved in the community and in education in the future. Mary Figueroa will make a great asset to the board.

We therefore recommend Mary Figueroa for re-election to the Riverside Community College Board of Trustees.

For Riverside City Council 1st ward we are recommending the re-election of Chuck Beaty. Chuck has been valuable to the city of San Bernardino in various academic disciplines throughout the city. He is well respected in the community and in the board.

We therefore recommend Chuck Beaty for re-election for Councilman 1st Ward.

We are recommending as an alternate candidate, Yolanda Williams. She has taken every step to make sure the community is aware of the issues and the Board, for example, our classroom awareness program that within itself is enough reason for us to support Chuck Beaty.

We are recommending Vernecia Green-Jordan for Mayor of Perris. Vernecia is a leading advocate for the education of the young people of Perris. She is the only African-American woman in our county and has run a long list of community involvement and accomplishments with her. She is involved in our community and is a great community leader. We therefore recommend Vernecia Green-Jordan for Mayor of Perris.
Dear Dr. Levister:

I have viral hepatitis C. How long will I live?

BB

Dear BB:

Infection with hepatitis C virus is no longer a death sentence. There are five types of viral hepatitis. As a group this represents the second most common infectious disease, behind the college of viruses that cause the common cold. At present some four million people are infected with the Hepatitis C Virus (HCV). 20% of the American population is infected. The disease is found in greater numbers in individuals between ages 30 to 49. African Americans have HCV in far greater numbers than White Americans. Males are infected twice as frequently as females. The main method of transmission is sharing needles and unprotected anal and vaginal sexual transmission. Transmission of the virus to health care workers by patient contaminated needle sticks is common. We have been able to test for the HCV antibody since 1980. Blood from the National Red Cross is therefore 99% safe. HCV related deaths is now running about 10,000 per year. The figure is expected to be more than 22,000 per year by 2008. This is greater than the corresponding death rate from AIDS.

HCV is the most common indicator of HIV disease. A positive antibody test (HCV) by itself can not mean that the person has HCV infection. It is necessary to do a HCV viral load test to check for actual presence of the virus. The test must be done at least once every five years.

Dr. Levister welcomes readers mail concerning their bodies but suggests that he is unable to answer individual letters. Your letters will be incorporated into the columns as space permits. You may direct your letters to Dr. Levister in care of Voice News, P.O. Box 1851, Riverside, CA 92502.

The reason for getting an education is because it leads to an understanding. Understanding leads to more options. We turn, for example, that a dog searches for special food. The dog is not a case. More options lead to more alternative solutions for a given problem. More alternative solutions lead to more chances for success. However, just as different young, because of inherent factors, gain understanding in different ways, so do different cultures, because of a learned different value system. The Basic Value System for White Mainstream Americans is Money and Power. Via Individuality and Competition. By contrast, The Basic Value System that Originated in Ancient Africa and can be seen today in most African American subgroups is having the right relations with, and behaviors toward, other people. Because of these incompatible value systems, much education should be plans to correct up to five more in 1999. Labor to build Habitat included all of the people, including the people who will live in it. Those first seven include the children for the families of Dominguez will be on hand to answer questions. Application deadline is January 5, 2000.

Applications are only accepted when Habitat has acquired the property and are in a position to begin building. For each of its locations, the City of Riverside donated the property and the portrait.

MWD of SC Donates Toilets to Habitats for Humanity

The Riverside County affiliate of Habitat for Humanity is used to donations of building materials. This week, however, it received one of its more unique contributions: 16 toilets from the Metropolitan Water District of Southern California. "We had 16 ultra-low-flush toilets which we had tested the tank-flapper mechanism for efficiency," said Barbara Nadon, Metropolitan's conservation programs manager. "After the testing, we wanted to give them in a worthy cause, and Habitat for Humanity—the national nonprofit group that builds homes for deserving families—was the obvious choice," Nadon said.

Metropolitan had offered the toilets to the nine Habitat affiliates surrounding the district's water quality laboratory in La Verne where they were tested, and the Riverside affiliate was the first to respond. "We were delighted to see such an offer," said Ms. "Pete" Delozier, executive director of the Riverside affiliate. "Each of these fixtures will be installed in a home built for

Amputees who have a frequent cause based on a legal doctrine is a known to any pre-low student -- a developer. The Army must certainly have time even before filing the charges.

Since then, prosecutors have been working to determine an illegible evidence that would allow them to prove that the Patterson disposed of a major victory in the 6-month-old case. In the words of Carroll's attorney, Dr. Rex J. Beatie, the expansive prosecution appeared to be collapsing under its own weight.

Several of the charges against the Patterson family, including former KCRW host, Carroll, have already been dismissed by the court and late last month, the court ruled that significant portions of the evidence prosecutors sought to admit are improper and cannot be admitted. In addition to the Patterson dismissal, Carroll maintains that he too is innocent. It is my hope to expose the motivation of his fundage, car, and trucking firm.

"The court is slowly but surely coming to appreciate that this prosecution was legally and factually dishonest and unquestionably out-of-reach in its attempt to pin the charges against Carroll," says Beatie.

The next meeting will be held November 17, 1999 at 8:30 a.m. at the Sheriff Training Center on March Air Force Base.

The decision will be made by two county supervisors, two city council members from the cities of Riverside, Moreno Valley, and Perris, California.

Perris is nearly 100 percent African-American. It is a known to any pre-low student -- a developer. The Army must certainly have time even before filing the charges.

According to Beatie, County Executive Director of UEDC, his firm is to use the delay and the accruing to trap truck drivers to fill the demand that exists for professional drivers. The normal education these jobs pay $45,000 a year.

"The public is invited to attend the meeting," the Sheriff Training Center on March Air Force Base. The decision will be made by two county supervisors, two city council members from the cities of Riverside, Moreno Valley, and Perris, California.

Vernicia Green Jordan Runs For Mayor Of Perris

Vernicia Green Jordan, 37, resident of Perris and an elected member of the Perris Elementary School District is running for Mayor. When asked why she entered the race, she said, "I have a stake in this community and I have many good ideas that will benefit it in the future." Jordan feels she has the expertise of her skills in grants and proposals. Right now she said they are turning back some money because they do not have the matching funds. Shefaults the Mayor Al Landers and Custodians Sam Tolosa for not looking after the interests of Perris in the March Air Force Base Bond

Power Authority, the reunion commission. They said she changed their mind didn't get anything for Perris. Part of the Base is located in Perris. This is a deplorable area and we can qualify for either state or federal expansion zones. We can get $100 million dollars over 10 years time. "I've been working on it for two years. I spoke in front of President Clinton. Al Gore, Congressman, Calvert and others in leadership about it and they understood this is my favorite comm. to me." Jordan feels she wants to get rid of the city's contracted services. With between: mismanagement of Redevelopment and the outrageous dollars spent on the City Manager, City Attorney, Engineer, Sheriff, and financial contractors. She said, the city pays $142,000 a year for the low fees. They pay, at City Manager

The public is invited to participate in this multi-cultural discussion. For more information on the discussion, contact Black Voice News at (909) 682-6070.

UNITED STATES: On Sunday, April 17, 1994, the family moved to Detroit, Michigan. The move was influenced by the presence of her husband, Alvin Smith, who was working in the area. Following graduation, she won a scholarship to attend the University of Michigan, where she studied vocal performance and music theory. During her time at the university, she was a member of the university choir and performed in various concerts and recitals. She also became involved in the university's community service, volunteering at local hospitals and schools.

The Delta Mothers and Sponsors of Epsilon Psi Chapter, an organization of women who have made significant contributions to the community, honored Mrs. Smith in 2000, recognizing her achievements and contributions. She was presented with an award for her dedication to the community and her commitment to empowering young women. The award was presented in recognition of her work in promoting education, leadership, and service among young women.

Mrs. Smith was very active in her church, serving as the minister of music and directing the church choir. She was also involved in community service, volunteering at local hospitals and schools.

Green Bay's coach, Ray Rhodes, after getting off to a slow start in the new-Packers' coach, has gotten the Pack back on track.

Huskies, Rebels and Willingham Shine

MOVING ON UP: Not quite ready for prime-time, the Riverside North Huskies started the season 0-5. With a host of new players on offense and a tough non-conference schedule, the defending Ivy League champions were floundering early in the season. However, the Ivy League has proven to be a panacea tor the Huskies, as they are now 2-0 in League with a showdown coming this Friday against Riverside Poly. (Standing l-r) Desmond Daniels, Joe Tamayo, Randy Ayala, Dan Gonzalez, Steve Kendrick, Ron Harvey Jr., Rocky Avatongo, Jayson Boyd and Alex Cruz. (kneeling l-r) Edgar Cruz, Nick Neal, Apolo Montenegro, Aaron Matteson and Doron Carroll.

PAC-10 LEADERS: Stanford coach, Tyron Wiliham, has put his team in prime position to become the Pac-10 representative in the Rose Bowl. The Cardinal is undefeated in league play after beating USC in the Coliseum.

Runnin' Rebels

CITY RIVALS: Fontana A.B. Miller beat Citrus Belt League rival Fontana, 24-21. The win was the first for Miller over Fontana in the 11-year history of the contest. Miller's record now stands at 2-0 in League and 5-2 overall. It took a 40-yard run by former Riverside North star Tyrone Ervin, with only 37 second left in the contest, to earn the win for The Rebels.

Sporting Stein's Way

Chargers’ give aways accepted happily by Green Bay

SAN DIEGO - Anytime the Green Bay Packers come to a city in the National Football League, it's an event. The Packers paid a visit to the San Diego Chargers and the occasion was indeed overtime.

The cityscape unloaded by the 68,274 in attendance at Qualcomm Stadium was not only a result of a visit from one of the most storied franchises in the NFL's history, the Packers, but the moment was heightened by the fact the visiting Chargers came into the contest with a 4-1 record and were stringing firmly on top of the AFC West Division.

As the two squads entered the stadium, only the sixth time they have met in a regular season game (the Chargers held a 5-1 advantage), Green Bay had history on its side. It also had what looked to be over 30,000 cheerleaders, garbed in yellow and green. As times during the contest it was hard to tell who was the home team.

Riding the enthusiastic wave of fan support, the Pack came on strong early taking a 14-0 lead late into the second quarter. However, as has been the case all season for the tough Chargers, they gained it out and moved the ball up and down the field on Green Bay, but could not overcome six interceptions and two fumbles in a 31-3 self-inflicted loss.

"Our defense played great," said-Pack quarterback Brett Favre, who passed for 173 yards on 12 completions. "We scored points, but they (the defense) made six picks and got no great field position. What more can an offense ask for?"

The Chargers found themselves inside the Packers' 10-yard line, the last six minutes of this second quarter. However, all they had to show for these gallant efforts was a John Carson field goal. San Diego had the ball on the Packers 9 and 10 in the second quarter. If one was to make a look at the statistics, would not have been prepossessing to suggest the Chargers were soundly beating the Packers (4-2).

"Yeah, the Chargers were playing good football and moved the ball on us some," said Green Bay linebacker Brian Williams. "The bottom line is the victory."

"Besides, it was a total team effort. I don't think the Chargers played so bad, as we put up the kind of pressure on them that caused many of the turnovers."

San Diego held the ball for 22:06 minutes compared to 7:54 for the Packers in this game. The Chargers ran 50 plays to 19 for the Packers and they had a total yards advantage of 166 to 112. There were seven turnovers. All the numbers that generally denote a team is winning the football contest.

The Chargers came out in the third quarter and drove to the Packers' 3 only to see quarterback Erik Kramer throw his second interception inside the 5. The ball was picked off by Tyron Wiliham at the 5.

The old saying, "Let sleeping dogs lie," was the Charger's undoing. They had home field and the Green Bay players all over the field, but they could not supply the power punch. When the sleeping pack stepped the Chargers again, it seemed to awaken slumbering Green Bay.

The Chargers' three-time MVP quarterback, Favre, reassessed his team and set sail on a 99-yard drive that was vintage Favre. Back Dorey Levens carried the ball seven times during the drive, which included a third and 20 screen that netted 25-yards to the Chargers' S. Favre finished the drive with a 5-yard pass to the receiver Antonio Freeman for a 28-3 lead. The Pack never looked back after that drive.

TANDEM: Green Bay MVP quarterback Brett Favre (44) and Dorsey Levens (92) proved the Packers with the type of pass and run balance that any NFL team would envy.

Zakes Celebrates 65th Birthday in Las Vegas

"Cry Freedom," "Outbreak" and "Rage in Harlem." Most recently, Zakes has turned his talents to directing. He studied drama at the American Conservatory Theatre and is a directing fellow of the American Film Institute. In talking about their dream of a foundation, Mandy said, "Our foundation is to help teenagers when they leave foster care. These teens, who are often lacking in life skills, become depressed and unhappy. They are often homeless and frustrated. We hope to improve their lives by assisting them with training and mentoring to help them become productive, civic-minded young adults." The Mokae Foundation is a support system willing to help teens make the transition to young adulthood and prepare for independent living. Anthony Seunstuck is president of the Foundation and Amnath Shaweef is the secretary and treasurer.

The evening concluded with dinner and dancing.

He has his daddy's eyes and his momma's lungs.

Kyle is the spitting image of his father, but it's his mother he really takes after. Like his mother, Kyle has a terrible cough. She thinks coughing is normal for children. Kyle's age, she doesn't realize he is suffering from chronic respiratory problems caused by exposure to cigarette smoke at home. Unfortunately, Kyle's parents, like many other caring parents, are unaware of the very real dangers of secondhand smoke. If you smoke around your children, the secondhand smoke can cause serious respiratory problems, some of them fatal, as well as increased allergic reactions, ear infections and the symptoms. So, for your family's sake, please don't smoke.

Secondhand Smoke Kills.

"Master Harold and the Boys."

Earlier this month, celebrities, family and friends gathered in the elegant setting beneath glittering chandeliers to enjoy the festive occasion. Prominent among the roasters was movie, Broadway and TV star Danny Glover, who was one of the "boys" with Zakes on Broadway. The two became close friends and like brothers over the years. It was an international set that joined in wishing Zakes a happy birthday that included roasters Blossom Pegram, a South African poet; Harold Mason, film director and producer; and Bill Cobb, a fellow actor and former Cleveland, who got his start at Karamu. They came from London, England; South Africa; Nigeria; Canada; Seattle, Washington; New Jersey; Los Angeles and San Bernardino, CA; New York; and of course, Cleveland, Mokae's hometown.

Among the evening's highlights was the presentation of a special video depicting the film works of Zakes Mokae. The video, which was directed by Tony Happins. Mandy delighted the audience with her warm and humorous narration of the video. Zakes' film work includes "Roots" (Next Generation), "Law and Order,"

"Cry Freedom," "Outbreak" and "Rage in Harlem." Most recently, Zakes has turned his talents to directing. He studied drama at the American Conservatory Theatre and is a directing fellow of the American Film Institute. In talking about their dream of a foundation, Mandy said, "Our foundation is to help teenagers when they leave foster care. These teens, who are often lacking in life skills, become depressed and unhappy. They are often homeless and frustrated. We hope to improve their lives by assisting them with training and mentoring to help them become productive, civic-minded young adults." The Mokae Foundation is a support system willing to help teens make the transition to young adulthood and prepare for independent living. Anthony Seunstuck is president of the Foundation and Amnath Shafeeq is the secretary and treasurer.

The evening concluded with dinner and dancing.

The safety of our children during the annual Halloween "Trick or Treat" activities is foremost on our minds. To help assure the children's safety, Arrowhead Regional Medical Center Department of Medical Imaging is offering Halloween safety tours on Sunday, October 31 throughout the afternoon until 6:00 p.m. and all day Monday, November 1, 1999. According to Medical Imaging Supervisor Terri Haman, "the Arrowhead Regional Medical Center staff are ready to assist parents in making this the safest Halloween possible." Parents are pleased to offer this service to the community.

Arrowhead Regional Medical Center (ARMC) is the County of San Bernardino's state of the year to assume another identity for just one night. The Arrowhead Regional Medical Center Department of Medical Imaging is offering Halloween activities to children through their own contest with the physicians and staff at Arrowhead Regional Medical Center to be screened prior to allowing their child to eat it. The family-based activities, including complete medical services to children through adults of all ages.

Some important safety tips to keep in mind while trick or treating:

1. Be sure that your child does not eat candy before you have a chance to complete inspection.
2. Costume masks tend to hinder the child's ability to see clearly. Face paint makes for normal vision while enabling the child to be creative in preparing their scary face.
3. Carry and use a flashlight while walking.
4. Do not cross the road without insuring that traffic is not coming.
5. Drivers need to drive slower than normal and be vigilant for the children darting into traffic.

Celebrate Halloween at Fantasy Springs

Start your Halloween celebration early, and get in on some great opportunities to win cash prizes for your best costume. A contest will be held on Halloween night, and prizes of $250, $150 and $100 will be awarded for the top three costumes. The costume contest begins at 8 p.m. with final judging at 11 p.m. for the winners.

Fantasy Lanes will be hosting its own Halloween bash during Saturday laser bowling. The costume contest for patterns 18 years of age and up will award $250, $150 and $100. Kids can enter their own contest with prizes of Fantasy Lanes laser bowling passes or other Fantasy Lanes gifts going to the top three winners. Due to security regulations, no masks will be permitted in the casino or Fantasy Lanes. The Halloween fun continues in the Fantasy Springs Card room where players deal a card with a "goblin" on it in "$21" will receive extra cash prizes of $10 or $20. When the dealer gets the "goblin" card, everyone's a winner.

Fantasy Springs Casino is located just north of I-10 at Willow Road in Alpine, the outlet center will also be the ghoulish home to a haunted house on both Friday and Saturday nights from 5-9 p.m. Admission will be $1 for children and $2 for adults.

The outlet center will also be the ghoulish home to a haunted house on both Friday and Saturday nights from 5-9 p.m. Admission will be $1 for children and $2 for adults.

Feeling about the safety of their children during this holiday because Puente Hills Mall offers the community a variety of programs in a safe and fun environment.

On Sunday, October 31 from 3:00 p.m. to 4:00 p.m., with a lively puppet and music show performed by child entertainer, Mark Beckwith, Halloween comedy mixed with haunting songs makes this a show to be shared by the entire family. Following the performance, from 4:00 p.m. to 6:00 p.m., its trick-or-treating time throughout the mall with various merchants running their own contests. Puente Hills Mall is located in the City of Industry off the 60 Freeway at the Arma Avenue Exit. The shopping center is open Monday through Saturday and 10:00 a.m. to 9:00 p.m. on Sunday.

The physicians and staff at Arrowhead Regional Medical Center extend to you and your family a happy and safe Halloween.

Viejas Outlet: Safe Family Halloween Fun

The carnival -- with free admission -- takes place from noon - 9:00 p.m. on Saturday and includes game booths, food, a costume contest, live music, a cake walk and candy stations. The outlet center will also be the ghoulish home to a haunted house on both Friday and Saturday nights from 5-9 p.m. Admission will be $1 for children and $2 for adults.

Halloween Magic at Feldheym Central Library

Feldheym Central Library.

IT'S THE SAME ENERGY.
The Congressional Medal of Honor Society was chartered by an act of Congress and is comprised exclusively of living Medal of Honor recipients.

The purpose of the Society is to:
- Form a bond of friendship and camaraderie among holders of the Medal of Honor.
- Protect, uphold and preserve the dignity of the medal at all times.
- Provide an appropriate name and an appropriate address for the United States in peace as they did in war.
- Foster and perpetuate Americanism.
- Serve the United States in peace as they did in war.
- Inspire and stimulate the nation’s youth to become worthy citizens of the United States.

The Medal of Honor is the highest military award that can be given to any individual in the United States Armed Forces. The Medal of Honor is awarded for conspicuous gallantry at the risk of life above and beyond the call of duty. The Medal of Honor does not require that the act involve the risk of life; and it is not subject to any margin of error in regulation, requiring that the act be clear and compelling.

The Medal of Honor is given to the individual who most signally merited by the performance of acts of gallantry and the risk of life above and beyond the call of duty in connection with service in an action against an armed enemy.

Medal of Honor recipients are not required to have been killed in action to receive the Medal of Honor. The Medal of Honor is awarded for acts of gallantry and risk of life above and beyond the call of duty in connection with service in an action against an armed enemy. The Medal of Honor is the highest award that can be given to an individual in the United States Armed Forces for acts of gallantry and risk of life above and beyond the call of duty in connection with service in an action against an armed enemy.
