Fireball kicks off . . .

A dunking concession, with family members as targets, is one of the numerous activities at Cal State, San Bernardino’s festival for all ages, Fireball ’75, Saturday and Sunday, May 3 and 4.

Cal State students are inviting the community to join in the two-day spring event, which features a variety of attractions, including food and game booths, exhibits, sports competition and dancing. An ice cream tent in the gymnasium has been set aside for the let’s-get-acquainted funfest.

Starting time both days is 10 a.m., with Saturday activities scheduled through 1 p.m. the following morning and Sunday events continuing until 5 p.m.

Saturday highlights are a 5 p.m. barbecue, for which tickets at $1.50 must be purchased in advance, and a dance from 5 p.m. until 1 a.m. Performing will be Dr. Demento and the Roto Rooter Good Time Christmas Band.

Exhibits from various academic departments at the college will be set up in the gym (Room 129). They will open at 10 a.m. each day. The student-planners feel the presentation will give the community plus students from high schools and community colleges an opportunity to see the broad curriculum offered at Cal State.

Game booths will open at 10 a.m. also. Both the games and the academic exhibits are scheduled to continue through 5 p.m., Saturday; and 10 a.m. to 5 p.m., Sunday.

Certain games, such as “hole-in-one,” archery and horseshoes, will be open from 9 a.m. to 5 p.m., Saturday and 1 to 4 p.m., Sunday.

Saturday special events include a karate demonstration at 1 p.m. and a tug-of-war at 4 p.m. A band contest is planned for 12 noon until 5 p.m. Saturday as part of the “bring-your-own-tent” free swim period from 1 to 4 p.m. Visitors may also swim Sunday during those hours.

Special Sunday events will be a softball tournament at 3 p.m. and a folk dance demonstration and participation at 3 p.m.

Competing in the softball tournament are Riverside City College, University of California at Riverside, San Bernardino Valley College and Cal State.

Fireball ’75 is sponsored by the Cal State Inter-Organizational Council. The Associated Student Body is sponsoring the dance.

Volunteers are needed to help run booths and for other jobs. Interested call the Activities office at 867-7409.

. . . And Cinco de Mayo too

A two-day Cinco de Mayo celebration, Fiesta de la Revolucion, will be held May 5 and 6 at Cal State, San Bernardino under the sponsorship of Mecha, a Chicano student organization.

The public is invited to enjoy the speakers, dancers, mariachi, and theatrical groups, say the Mecha sponsor, Concession, and other pre-school age children also are invited to attend. Free snow cones will be provided for the tiny participants, in addition to the contents of the pinata.

The Cal State Folklorico, dancers from a physical education class, will be on stage at 11:30 a.m., May 6. They will be followed by a speaker, Emilio Benavides from San Bernardino, and another theatrical group at 12:45 p.m. and a Farm Workers speaker at 2 p.m. Mariachi will conclude the day’s programming.

All proceeds will go to the United Farm Workers in San Bernardino, according to the sponsors.

New complaints procedure set up

On the A.S.B. election ballot there is a measure asking students to ratify an amendment passed by the A.S.B. senate, that allows student to arbitrate disputes involving students and A.S.B. officers or employees.

This constitutional revision, engineered by the Chief Justice of the Judicial Board Dave Fowler, will give back to the Judicial Board the power to discipline A.S.B. officers or employees who purposely misuse their offices.

The Judicial Board is the means by which an individual student can present a problem about another student government which is a good thing.

If any student would like to be considered for a position on the Board, he or she should contact the A.S.B. office and fill out a petition for the basis of the written statements. If either party requests a hearing, then the Board will decide what action to take on the basis of the written statement. If the measure is passed by a majority of the five Board members, however, if the Board feels that the person who is misusing funds.

Currently an executive order from the Chancellor’s office, supported by former governor Reagan, prohibits students from handling any discipline problems, except those occurring in the dorms.

Dave feels “that the Judicial Board operating under the proposed amendment will enforce a little responsibility in student government which is a good thing.

Dave feels that there has been a need for the new regulation several times this year. "It took 6 months to organize the board this year because the A.S.B. officers there were elected in spring of last year failed to push the Board and get it going. I applied to be appointed to the Board working in March of this year."

ASB Elections will be held on Wednesday and Thursday, April 30th and May 1st. Pictures and statements by candidates on pages 4 and 5.
George Wallace poses threat to U.S. stability

If you think that George Wallace doesn't have a chance in the '76 election because of his recent wheelchair, his Southern drawl, the erroneous assumption that he has no intellectual ability, and a host of race relations, his romance with Ted Kennedy, he and his gold brick ing constituents deserves serious attention as to their potential for power to this country.

George Wallace has always campaigned on the platform that he is a populist candidate who understands who is concerned about the common person, the farmer, the truck driver, the school teacher, the lowly employee.

But upon closer analysis, this myth is quickly dispelled. He has always promised on the national campaign trial tax reform that will benefit the "little person".

Veterans' Corner

by Hank White

UK Veterans, it’s time for, are you ready to find out what Marvel’s DO YOU KNOW SHOW. Sponsored by the Veterans Who Cars Knock and the Get our Checks Back from the Vet Rep who’s Touring the Bahamas’ Society.

As we tune into the station we find that the show has been censored and interrupted by re-runs of the 1970 Microwave Super Show and finally replaced by World War II Educational Films. So, all that’s left of the program is the quiz that follows the show. Let’s take the quiz and see what we’ve missed, if anything.

Do you know how many U.S. are in Mississippi after the 1970 census?

Do you know that T.U. should be used instead of?

Do you know that even if you’ve used your VA once before to buy a home, you may be able to buy another using the VA?

Do you know that if you can’t find the Vet Rep in his office you can find him at the nearby Coke machine?

Do you know that within a year from separation, honorably discharged Vietnam-era veterans with no more than 14 years of education may be hired in civil service at grades 1 through 5. And one yellow one?

Do you know that free tutorial help is available?

Do you know that rabbits don’t use calculators to multiply?

Do you know that you can have your Discharge upgraded?

Do you know that you can obtain a VA loan to purchase a mobile home and land to put it on?

Do you know that the African Golden frog has?

Do you know that there are VA agencies that can provide job assistance?

Do you know that if you are disabled you may be eligible for Vocational Rehabilitation Benefits?

Do you know that you’re just as sick of writing these “do you know” questions as you are of reading them?

So, I’m going to stop now. If by any chance you answered “no” to any of the above questions, feel free to stop in the Veterans Affairs Office and we will try to answer any question you may have. We’re just dying to try out some of our new lines on some.

Letter to the Editor

To the Editor:

For sheer misunderstanding and a short corporate income taxes, higher property taxes for small land owners, tax exemp­tions for charitable, Alabama’s state and local tax burden per $1,000 of income — for $100, employment benefits remain among the lowest in the nation. Alabama’s national ranking in per capita income has dropped from forty-seventh to forty-eighth since Wallace came to power. Among Southern states, per capita income in Alabama is the lowest, below the average. The workers in Alabama earned 22 percent less than the national average, 31 percent of the people in the state live below the poverty level. Wallace is presently under a Federal court order to improve care for patients in state mental hospitals and for retarded children in state schools.

All allegations also have been raised that Wallace has used the powers of the governorship for his personal advantage. It has been reported that Wallace has received kickbacks from the liquor in­dustry, whose sales are closely regulated by the state, asphalt companies, engineering companies, legal fees of lawyers doing work for the state and other firms that deal with the state government.

In his meeting with George Wallace on July 4, 1973, Ted Kennedy said: "We don’t compile lists of enemies ... For if there is one thing George Wallace stands for, it is the right of every American to speak his or her mind and be heard." Those of us who remember George Wallace’s pledge to use his presidential imminence to run over Vietnam war protesters would probably differ with Senator Kennedy on the nature of Wallace’s devotion to the First Amendment.

Wallace will attempt to use the smoke screen “I’ve mishandled” in his bid for the President’s job in ’76. However as the evidence presented shows, George Wallace has not mishandled. He is still the man who swore in 1956 that Alabama would be segregated for ever.

The Alumni Association of Cal-State, San Bernardino offers best wishes to the CSCSB community on the event of the college’s 10th birthday.

Where’s the aid in finance?

The dark cloud of confusion that surrounds people trying to make sense out of financial aid applications can be cleared up by students themselves.

Hearings are going to be held in Los Angeles on May 9 by student groups who want to gather evidence on problems people experience in learning about, applying for, and obtaining financial aid.

Kim Kavrell, Hearings Coordinator, emphasized that they are looking for "any student off the street who has a problem with financial aid," to testify. She added, "The success of our hearings depends on getting real students to talk about their real problems and to recommend changes." Kavrell noted that very few mechanisms exist to appeal financial aid decisions but "this is certainly one of them."

The California hearings will be part of a nation-wide series sponsored by the College Scholarship Service Educational Fund. Other hearings will focus on all other monetary aid programs including state scholarships, grants, Basic Opportunity Grants, loans and work-study.

In the past, hearings have centered on questions of financial aid programs, the lack of appeals mechanisms, and problems students have with specific programs, such as qualifying for loans.

The results of the Hearings will be reports recommending changes and improvements. They will be times to coincide with the development of a master plan for student aid in the state which will be written this summer. The national report will be sent to Congress before the completion of the 1976-77 legislative session.

The California hearings will be in the form of a legislative hearing. Witnesses will be asked to present written testimony, make an oral statement to the panel of students and policy-makers, and then answer questions on their own experiences.

All CSUSB students who are interested in trying to do something positive to shed light on financial aid dilemmas are most welcome to come and testify.

Metropolitan is looking for students

Invitations to meet with recruiters from Metropolitan Life, Property, and Liability Companies on May 8th are going to selected students of the CSUSB campus. However, any student interested in exploring career opportunities as a field representative of Metropolitan is still free to schedule an appointment with the recruiters.

Metropolitan, which has been in the life insurance business for over a century, has long offered health insurance and pensions in addition to its basic life programs. However, the company is currently moving in new directions and expanding its automobile and homeowners coverage. Consequently, a number of new openings exist which offer enhanced income benefits leading to management positions, if desired.

Metropolitan also offers its new representatives an intensive training program designed to lift their knowledge and skills to professional levels in basic areas within the relatively short period of one year.

Further information may be obtained by contacting the Placement Office, Room 5-122, or phone 887-7551.

A series of joint sponsored Quit Smoking Clinics is planned for May by the American Cancer Society and the San Bernardino County Heart Association.

Susan Harris, Education Director, the American Cancer Society, and Joan Kozel, Education Director with the Heart Association, are working together to bring a new concept in stop-smoking programs to the San Bernardino Valley. Based on the national Quit Smoking program of the Cancer Society, this free pilot program will feature the group method approach to the problem. There will be no physical conditioning, but participants will outline their reasons for smoking and enumerate resources for helping individuals quit the habit.

Persons interested in taking such a program are asked to call Ms. Harris at 882-2371, or Ms. Kozel at 882-2241.

"If enough people are interested," Ms. Harris said, "programs will be scheduled at their convenience. We hope to have from four to eight programs during May, but where and when will depend on the calls we receive from people interested in quitting smoking. Call now to get on the list."

Ms. Kozel added that if this program is successful in San Bernardino Valley, it may be expanded countywide. "Age is not a factor in our program," Ms. Kozel said. "We are interested in reaching anyone who wants to quit."

The Paw Print, April 29, 1975 page 3
A.S.B. ELECTIONS

Wed. & Thurs., April 30 & May 1, DON'T FORGET TO VOTE!

Raul Ceja
A.S.B. President

I'm Raul Ceja and I'm a candidate for the office of A.S.B. President. I am deeply concerned about the student's problems at Cal-State. During this past year, I have worked very closely with the president of the Associated Student Government to help solve their problems. I have witnessed several instances of abuse on the part of this college administration. I believe that the students deserve a better future. I believe that this college needs to take steps to prevent such abuse from happening again. I will make myself available to the students and work with them to achieve their goals.

Kevin Gallagher
A.S.B. President

My name is Kevin Gallagher and I am running for A.S.B. President. This year I have the pleasure to serve as A.S.B. Vice President. This experience has helped me more than anything else, become aware of A.S.B.'s strengths and shortcomings. As A.S.B. Vice President this year I have organized and run the A.S.B. Book Co-op. The Book Co-op enables students to buy and sell textbooks at better prices than are had at the College Bookstore. I have organized and staffed the A.S.B. Off-Campus Housing, supported by Pat Eggetter, to the A.S.B. Constitution. This amendment, if adopted, will create a real and powerful judiciary for students with grievances against A.S.B. Government and Students are the seeds to a prosperous and representational governmental body. These things have been lacking and I intend to do something about that!!

The following is a list of specific things that I, Raul Ceja, A.S.B. President, will initiate during the 1975-76 school year.

1. Child Care Center - This service should be offered for all students who have dependent children at a reduced rate.

2. Less money for A.S.B. Government - Presently, the A.S.B. Government has been budgeted approximately $10,000. My feeling is that students are not being benefited by the services that are being provided at this time.

3. Tutorial Program - One of the new programs that should be initiated is a tutorial program for the students who need help with specific classes on a one-to-one basis.

4. Evening Students - An increase in the services offered for a substantial segment of our student body; the evening students.

5. Rapport between A.S.B. Government and Students - Explanation of all facets of planning should be made available for all students at Cal-State. After all, you do have a vested interest.

6. Monthly Open Door Policy - As a student body president, I will hold monthly meetings with any student who has a concern about the school and or the policies of the A.S.B. Government. I will make myself available to you and responsible to your need.

If you agree with what I see as imperative for the Associated Student Body, please vote for Raul Ceja on April 30 or May 1, 1975. A vote for me is a vote for you.

Arnoldo Resendez
John D'Silva
A.S.B. President

A great decision will have to be made on April 30 or May 1 of this college on election day: to elect John D'Silva, A.S.B. President, or the candidate of the Associated Student Body Officers which would lead to the continuation of an inefficient Student Government. It is my belief that this student does not understand the needs of all the students at this college.

Centralize A.S.B. Services - A.S.B. offers such services as car pooling, Housing Referral, Student Teacher Evaluations, etc. Unfortunately these services are conducted by various A.S.B. offices and agencies. I propose to centralize these services under a Board of Directors, which would provide free advertising in our newspaper and distribute to all students a list of participating merchants.

Publicity office - One of A.S.B.'s most obvious problems is a lack of communication. I propose to create a Publicity Office. The sole function of this office will be to publicize widely anything of interest that is happening on, or off campus.

Publicizing Service - Many college merchants are not aware of what is going on at the college and are not participating in the college activities. This is why it is important to have a Publicity Office. It will be the responsibility of the Publicity Office to publicize widely anything of interest that is happening on, or off campus.

Student discounts at Area Merchants - In the San Bernardino area there are approximately 20,000 students. This represents a lot of buying power. A.S.B. should encourage other colleges in the area to unite and approach area merchants. Merchants would benefit from A.S.B. students who patronize their businesses.

Other things that need more student input and pressure concern registration and scheduling, and also the expanding of the Biology Building parking lot which is obviously too small.

As A.S.B. Vice President I was the only one on the Executive Board to have the percent attendance record. As A.S.B. President I would continue to concern myself first and fundamentally with what next year's budget request by some student officer would provide free advertising in our newspaper and distribute to all students a list of participating merchants.

Your Vote For Me Will Be A Vote For Better Government.
Stephen Waterbury  
Senior Class  
President

Although only current Juniors may vote for next years Senior Class officers, this position entails membership in the general A.S.B. Executive Board, thus affecting the total student body. In addition to several programs geared specifically to Seniors, I would continue to work on projects I began as A.S.B. Senator-at-large. Hopefully, interest in Student Government will continue to increase as more programs and services are offered to the general student. I appreciate your interest and continued support. Thank you.

Horace Finkleberg  
Junior Class  
Sergeant at Arms

So, vote on April 30th for Paul Martinez, the Candidate who believes in a Unified and fully represented class.

Paul Martinez  
Sophomore Class  
President

Hello, my name is Paul G. Martinez and I am an eligible candidate for the office of Sophomore Class President for the year 1975-1976. Through my work in the Student Government for the past two years, I have gained experience in the functioning and involvement, as well as responsibility of maintaining an A.S.B. office. As President I would continue the fight for A.S.B. Government affairs and meetings.

Judy Bain  
Senior Senator

By electing me A.S.B. President the Student Body will be electing a very capable leader dedicated to the goals, and interests of the students, and the College. I, therefore, focus here on the needs, concerns, and problems of this College.

Within one month of office there will be a productive change in the Student Government, and the College as a whole will come to the full realization of a new creativity, and revitalization.

The California State College at San Bernardino will be known by other colleges in the State as the College whose student leaders take an abounding interest in the students of that College.

I ask for your support on election day (April 30, and May 1) to vote for me, John D' Silva, for A. S. B. President. With your support the full potential of this college's Student Government can be achieved. Thank You.

Pat Egetter  
A.S.B. Vice  
President

As an A.S.B. Vice Presidential candidate I am aware of the duties of the office I would fill upon my election. The main duty of the Vice President is to preside over the A.S.B. Senate and be responsible for communication between the Senate and Executive Cabinet. The office of Vice President requires approximately 20 hours a week to spend on A.S.B. Government affairs and meetings.

In this past, I have been a senator in the A.S.B. Senate with perfect attendance at all meetings. Several times in the absence of the Vice President I presided over the Senate. As a leader I am serving on several important committees. I am the Chairman of the Appropriations committee which reviews money expenditure before their presentation to the Senate. I also am a member of the Senate Rules committee for which I wrote the Graduate Amendment to the Constitution and all necessary Bylaw changes involved with this Amendment. Another major item which I worked on was the Judicial Board Amendment to the Constitution. I also wrote a resolution detailing operating costs for the Student Union and the Student Union Building thereby guaranteeing the bond which would be sold for the Building. The resolution does not guarantee the construction of the Student Union, but will help to bring it to reality when the trustees meet in May for the final decision before construction.

As President I would continue the fight for a child care center service here on campus. If elected, I shall strive to be an active member and to represent the views of the student body.

Francie Marubayashi  
Sophomore Senator

The Vinyl Shortage

by John Woodhouse

Once there was a band called the Yardbirds which spawned a number of hitmakers like Jeff Beck, Eric Clapton, Jimmy Page and a singer, Keith Relf who after leaving the group went on to form the band's follow up band the Renaissance, later searched for three musicians to form a new, innovative band of talent. Armanddeth is the result of that quest, featuring musicians from Captain Beyond, Renaissance and the highly acclaimed (in England) Steamhammer.

Their name implies a powerful, monolithic force and their music reflects this image with little time spared for calm periods. Generally it's up front, razor edge hard rocking with roots firmly planted in 60's R&B. Relf's distinctive harmonica playing is the catalyst for this sound and when he opens up on 'Buzzard' it's straight back. He fears the dynamite boogie of "Five live Yardbirds." The arrangements are carefully structured with an eye to detail and through that tidal wave of sound is sometimes too enveloping, their dexterity as musicians always compensates.

Martin Pugh's lead guitar is one of the band's legendary assets. He whips them to incredible energetic highs and also carefully guides them through quieter, sultry numbers. "Silver Tightrope" is the one contender as to how light and tranquil sound and this masterful piece of drifting piece leaves me wishing that this could be expanded. This is an exemplar of why island compositions at greater length. But hard rock sound seems to be their forte and is, in a word, rousing. A roaring, crackling hard, pumping rock.

"Heavy Traffic" United Artists

Traffic could almost be submitted, "The best of the best" of Traffic's early excursions into producing superb and meticulous popular hit material. From a synthesis of jazz, R & B and some soul, four highly gifted musicians created some of the greatest and most tantalising music which was ever heard in the late 60's. Combine one of the finest white blues singers and organists, Stevie Winwood with an equally fine guitarist and song writer, Dave Mason and sheer excellence was the result.

The diversity of the material compiled here is staggering: there's the cool funk of "Medicated Geese;" the amusing non-dated homages to psychedelic flower power in "Paper Sun" and the beautiful, "Coloured Rain;" the power rock of "Deep Mr. Fantasy" and the whimsical mysticism of "4000 Headmen." Add Dave Mason's classic, "Feelin' Alright" and you have a priceless gem in your possession. Traffic has always been one of the best bands around and this album proves it.

Applause in San Berdo

Lawrence Kash, celebrated Tony Award-winning Broadway producer-director, will direct "Applause," starring Bernardino Calestow, in Civic Light Opera's final production of it's 17th Season. Kash shares the triumph of the Tony Award and Anglia Theatre Award for the marathon hit "Applause," which he originally co-produced on Broadway, "starring Karen Bacall.

"Applause," starring Yvonne De Carlo, the exciting film, stage and TV star, opens for a limited engagement, May 9 through May 17, at the California Theatre of Performing Arts in San Bernadino.

Kasha, who has been associated with such Broadway notables as Harold Prince, is returning to the CLO stage after a 12-year absence and a string of musical hits spanning from New York to London. The noted director staged Civic Light Opera's first production of "The Sound of Music." Since that time, Kasha has chalked up one success after another in New York and London. His most recent Broadway hit was "Seesaw," which he co-produced. In London, he directed "The Happy Strangers" in "Funny Girl," and the long-running Broadway hit, "Mame."

Tickets for "Applause" are now on sale and can be purchased at the Civic Light Opera Box Office, 207 North Third St., San Bernardino, phone 882-5545; Harris' San Bernardino, Redlands, and Riverside, all Mutual Agencies.

Children's Art Fair planned

Children from the ages of 3 through 10 will have an opportunity to paint, paste, sew or create their own projects during an Art Fair Saturday, May 9, at Cal State San Bernadino.

Twelve art projects will be provided for the youngsters by the sponsors, which include Cal State Faculty wives, the President's Club at the college and the Arrowhead Allied Arts Council. All children between the ages of 3 and 10 are invited to participate. Admission is 10 cents per child to cover the costs of some materials.

The only requirement imposed by the sponsors is that one adult must accompany each child. Tours of the campus will be available for parents while the children are in their projects.

Hours for the event, first held three years ago, are 1 to 3 p.m. The activities will be in the outdoor area between the Administration, Fine Arts and Student Services Buildings.
