Earthquake Awareness Week Begins APRIL 16

California recently entered a period of increased seismic activity with more earthquakes above Richter magnitude 6 occurring in the past two years than in the previous two decades. Because preparedness is essential for safety and survival in the event of a major earthquake, the Governor has declared the week of April 15-20, 1985, as "Earthquake Preparedness Week" in California.

In response to the Governor’s proclamation, California University, San Bernardino, will present two public programs on earthquake awareness and disaster preparedness. The dates and topics of the two programs are as follows:

1. April 16, 8:00 p.m., CSUSB Recital Hall, Creative Arts Building: San Bernardino’s Earthquake Problem—Where Lies the Fault? presented by Dr. Clarence Allen, Seismological Laboratory, California Institute of Technology.

"Planning and Emergency Services personnel will be present to answer questions from the audience following Dr. Allen’s presentation.

II. April 17, 12:30 p.m., CSUSB Student Union, Rooms A & B; Earthquake Preparedness—What You Can Do to Prepare for an Earthquake. Slide-tape and video presentations and informative pamphlets will be available.

"Members of the University’s Public Safety Office and Environmental Studies Program will be present to supply additional information and answer questions.

San Bernardino is located adjacent to the San Andreas Fault and sits over several fault systems and potential earthquake hazards will be discussed by Dr. Allen. The earthquake occurring either on the south-central or southern segment of the San Andreas Fault is high. Some experts estimate from this fault a magnitude 8 earthquake occurring in the future will be the equivalent to the Great San Francisco earthquake of 1906 which occurred along a fault segment between Palmdale and Cajon Pass sometime before the end of this century. However, this disaster may not wait until then. It could happen today, next week or 50 years from now; and, the loss of life, property damage and social disruptions produced in this region could be of catastrophic dimensions never before seen in North America.

The potential hazards and degree of damage resulting from a major earthquake will be determined by the following factors:

1. the magnitude of the earthquake (energy released & displacement);
2. the proximity to or distance from the focus of the earthquake (where the fault releases its stored energy);
3. the type, depth and stability of earth surface materials at a particular location (what kind of ground on which you reside);
4. the design and materials of buildings and other structures;
5. the time of day and day of the week on which the quake occurs; and
6. the level of family, neighborhood and community preparedness.

The first CSUSB Earthquake Awareness program, presented by Dr. Allen at 8 p.m. on April 16, will evaluate the nature of San Bernardino’s earthquake problem by addressing several of the factors listed above. Local fault systems and potential earthquake hazards will be discussed by Dr. Allen.

At the University President Anthony Evans and Associate President Sheryl Hammer will meet on Wednesday, April 17th with as many students as possible to discuss current campus issues. The forum will take place from noon to 1:15 p.m. in the Student Union Lounge. All students are invited to stop by to participate in this unique opportunity to be heard. Light refreshments will be served.

The presidents will answer a few questions, ask a few of their own, and respond to comments. One of the objectives of the forum is for students—who may never have had the chance otherwise—to meet the presidents and to explore issues rarely touched on in the classroom.

"I am concerned about many issues affecting students which they are unaware of,” said President Hammer. "Many students attend classes and do not affiliate with any other activities or issues dealing with the campus. I am strongly pushing for more student involvement in the University budget process; more student participation in the actual decision making. I want to see more students concerned about Associated Students which is supported by student fees." Hammer continued. "One major issue which concerns students now is financial aid and the possibility of it being cut back if President Reagan’s budget proposal is to pass. Unless students band together to form a strong voice, they will not be heard,” President Hammer stressed the need for students to get active. "They can get involved by being active in the A.S. government and other committees on campus. The only way for A.S. to try and improve campus life, services available to students, activities, and special events on campus is by encouraging feedback from students who feel there is need for improvement in these areas.

"I strongly believe that CSUSB is a wonderful campus. Its educational standards are high and it offers students a rare opportunity to enjoy closer faculty/student relationships due to the small size of the campus. For this same reason, even one student can have an impact on the University," she stated. "On Wednesday I want to meet all the students who feel they want to have a say in what’s going on at the University. President Evans was unavailable for comment.

WORKING TOWARD A GOAL

CAN WE BE FRATERNITY BOYS?

Two transfer students, Paul Feller, a freshman from USC and Bill Gropp, a junior from Cal State Northridge, are attempting to start social fraternities on campus. Feller is associated with Sigma Phi Epsilon Fraternity and Gropp is associated with Delta Sigma Phi Fraternity. Sigma Phi Epsilon is a national fraternity with over 180 chapters. Over 100,000 members have been initiated into Delta Sigma Phi. The fraternity encourages a balanced mix of academics, athletics, and leadership. The colors of the Delta Sigma Phi fraternity are Nile green and white with gold trim.

Both Feller and Gropp state that their respective fraternities have anti-hazing policies. Members and chapters who are found to have committed hazing activities are subject to expulsion and will lose all membership rights. Feller and Gropp strongly believe there is room for both fraternities on campus. The fraternity encourages a balanced mix of academics, athletics, and leadership. The colors of the Delta Sigma Phi fraternity are Nile green and white with gold trim.

"I am concerned about Associated Students which is supported by student fees," said Hammer. "Many students attend classes and do not affiliate with any other activities or issues dealing with the campus. I am strongly pushing for more student involvement in the University budget process; more student participation in the actual decision making. I want to see more students concerned about Associated Students which is supported by student fees." Hammer continued. "One major issue which concerns students now is financial aid and the possibility of it being cut back if President Reagan’s budget proposal is to pass. Unless students band together to form a strong voice, they will not be heard,” President Hammer stressed the need for students to get active. "They can get involved by being active in the A.S. government and other committees on campus. The only way for A.S. to try and improve campus life, services available to students, activities, and special events on campus is by encouraging feedback from students who feel there is need for improvement in these areas.

**Yes, There Is Help For Menstrual Cramps**

One problem that many women face is painful menstrual periods. Over the years, many theories have been developed to explain what causes these cramps, but until recently the true cause has not been known. Scientists have now discovered that a hormone called prostaglandin is the culprit. It causes the uterine muscles to contract which causes the cramping and pain. This hormone can also cause the nausea and diarrhea that is often associated with a women's menstrual period.

If the prostaglandin production can be blocked, pain receptors and muscle contractions in the uterus will be stopped and less pain will occur.

The Prostaglandin Blockers have as the active ingredient. 

- **Buprenorphine**
- **Mornin**
- **Ponstil**

These two compounds are the most commonly prescribed. We have been asked about the safety of these drugs. They are quiet safe and are not a narcotic, nor are they habit forming. The most common adverse reactions to these medicines are mild heartburn, upset stomach or stomach pain. If these symptoms occur, the medication should be taken with milk. If the symptoms persist, then stop taking the medication. The risk of serious overdosing with this medication is less than with aspirin or tylenol. Drowsiness and vomiting are the most common symptoms of an overdose. Individuals allergic to aspirin should not take the medication. Even though the ingredients are not the same, a reaction may occur.

If you have further questions, stop by the Health Center. We will be happy to help and prescribe the medication indicated.

This is a weekly column. If you have any questions that you would like answered, drop your questions in the box in the Health Center Lobby.

We are open from 8:5-5 Monday through Friday, and from 8:45-3:30 on Fridays. Only limited services are available from 12:30-1:30.

**NEWSBRIEFS**

**Book Co-Op**

Book Co-Op will be returning money April 15th-April 24th. This is a great time to return books if you should have any left from the spring. For further information, call 887-7494.

**Family & Comm. Violence**

Seminar program on Family and Community Violence will be held at Kaiser Permanente Medical Center Preventive Medicine Building No. 14 in Fontana, April 10th.

"Child & Sexual Abuse"; speaker: Guy Hortman M.D. April 17th "Domestic Violence"; speaker: Patricia Oron from Horse of Ruths. April 24th "Alcohol, Drugs & Violence"; speaker: Mary Ann Statius M.S.W. Call for more information at the member health education department, 829-5177.

---

**Tea Concert**

The "Tea Concert" Sunday April 14 will present Colene Schwantz, soprano in Concert. The afternoon long musical program is supported by the Museum and the Inland Master Chorale. This delightful musical program begins at 3 p.m. in the Hall of History, San Bernardino County Museum in Redlands.

Colene will sing Four Hymns by Ralph Vaughan Williams with Kimberly Smith at the piano and Lyndon Taylor playing the viola during the first part of the concert.

The next Tea Concert will be on April 28 when the collis consensus (Hill of Singers) of Soma Linda University will be performing Choral Theatre under the direction of Dam Comstock.

---

**College Bowl**

Spring Tournament Tuesday, April 16

Finals: 8 p.m.

Playoffs: 24 p.m.

or 46 p.m.

in the SUMP

Get a team together now!

Sign up and info at the Student Union desk or call 887-7777. Deadline to sign up April 12, 5 p.m.

---

**Swim-A-Thon**

The Recreational Sports Department, with assistance from the Associated Students Sports Committee, and the Physical Education Majors Club, will be conducting a Swim-A-Thon on Friday, April 26, from 11:30 a.m. to 1 p.m. in the CSUSB pool. The purpose of the event is to raise money which would enable Department members to attend professional conferences and workshops.

If you are interested in participating, or would like to sponsor a swimmer, at a minimum of 50¢ per lap, please contact Greg Batten, Denise Gejonta, or Wendell Lake at 7564 or 7561, or Franz Bolowich at 7445.

National Recreational Sports Week Fact Sheet

When: April 14-20, 1985

Sponsored By: National Intramural-Recreational Sports Association (NIRSA) is a non-profit organization, founded in 1950, comprised of more than 1500 recreation professionals in educational, military, and community institutions.

What: A special week proclaimed by NIRSA and various state, local and federal government officials to promote an awareness of the value and importance of opportunities in recreational sports activities.

Where: Local recreation-oriented organizations can be contacted regarding programs available to the community.

Is The Marketing Association UNBEATABLE?

Did you really think that Villanova could beat the Georgetown champions? Did you ever believe that the mighty Hoyas would fall to a team that had never won a championship. Well, here’s your chance to see if the underdog can come out on top: the University is sponsoring another College Bowl tournament (by popular demand) and the Marketing Assoc. is the team to beat.

Victorious over the Math Dept. team at the Feb. 6 College Bowl finals, the Marketing Assoc. team went on to compete in the Collegiate Bowl tournament. Well, here’s a breakdown of the first round: the marketing Assoc. team went on to compete in the Collegiate Bowl tournament on March 9. As CSUSB’s first time ever team, they placed fourth in the competition. Is there any club, department team, or bunch of Trivial Pursuit fanatics that can beat them? Get a team together and give it a try. The winner will be going to the regional competition at Cal Poly Pomona on April 20. The College Bowl Spring Tournament will be held on Tuesday, April 16. There will be two rounds of playoffs to choose from: 2.4 p.m., or 4-6 p.m. Finals will be from 8-10 p.m. that night. All of the competition will take place in the SUMP. The sign up deadline is Friday, April 12 by 5 p.m. at the Student Union desk. Everyone is encouraged to form a team and give the first place title a shot. But if you’d rather sit back and cheer on your favorite team, you’re welcome to come and watch.

Here’s your turn to be the Villanovas of College Bowl! (Someone said after the NCA championship game “Where is Villanova, anyway?” Well, here’s the chance to put your group on the map; sign up at the Union Desk and take on the champions on April 16.

Hurry Now to Buy the COYOTE BANDANA!!

The Cal State University’s Pep Club is getting a headstart at waving the 1985-86 intercollegiate teams on to victory. The Pep Club is selling a collector’s item that is a must for all students, The Coyote Bandanna. The blue and brown bandanna is available in the Book Store or in the P.E. building (Room 113), for $3. Don’t miss out. Be sure to purchase your Coyote Bandanna.

The Uni Phi Club Awards Nomination Deadline is April 18th

You are invited to nominate individuals for the four Uni Phi Club awards. You do not have to be a member of Club to submit nominations. Please read the following description and forward as many nominations as you want to the Services to Students with Disabilities, Office, Pt 107. Nomination forms are available in the office. The deadline is Thursday, April 18. An Awards Committee will determine the 1984-85 recipients.

If you are a student, your attention is also directed to the Scholarships available. You do not have to be a Uni Phi Club member; dues are $2 per quarter and it is appropriate to join the club by paying $2 when you turn in your scholarship application. The applications must be returned to Pt 107 by Thursday, April 18.

Thank you for your interest and participation in the Uni Phi Club.

The Anita Hallberg Award

Student with a disability who has shown outstanding and consistent work behind the scenes and who has provided technical and/or adversarial support to the disabled students and whose voluntary efforts have reduced the educational, physical and interpersonal barriers thereby encouraging mainstreaming.

The Barbara Sovereign Award

CSUSB student with a disability whose creativity and leadership has produced unifying interaction and awareness between students with a disability and the campus community; whose personal achievements and personality have reflected and exemplified a positive image of the disabled person.

The Frank Lootens Award

CSUSB staff, student or faculty member who has done outstanding and consistent work behind the scenes and who has provided technical and/or adversarial supportive assistance to the disabled students and whose voluntary efforts have reduced the educational, physical and interpersonal barriers thereby encouraging mainstreaming.

The Dr. Fred Kellers Award

This award is designed for a CSUSB faculty member who has been respectfully sensitive to the needs of students with disabilities and who has appropriately adapted and modified teaching techniques and materials in the classroom situation to promote and equalize educational opportunity.

For example, calling on an ad 4" x 3" published in two issues would be computed as follows:

4" x 3" equals 12 sq. in.
12 sq. in x 2 Issues totals 24 sq. in.
24 sq. in x $2.00/ln. totals $48.00

CANDIDATES

Joani George
President

I am presently a sophomore at CSUSB and am a Business Administration major. During the two years that I have attended this university, I have been quite active on campus. I have worked as a student leader for Freshman Orientation and am now instructing periodic periods for all the student body. I have served as Publicity Chairperson and am now one of the Activities Chairpersons for Associated Students. These positions have greatly familiarized me with our student government. I know how this organization functions. From first-hand experience, I am aware of areas where improvement. I feel that I have the knowledge and ability to ensure that these improvements take place. If I were elected as Associated Students President, I will be sure that Associated Students is an organization that can be proud of. The main purpose of Associated Students is to represent YOU, the student body. I will not forget this.
David Swedlove
Board of Directors, School of Humanities

I will make this short and to the point. I am running for representative for the School of Humanities. Why should you vote for me? Because I'm cute, sweet, and hugable? No.

The real reason is that I have the appropriate experience and leadership skills to be a good representative for students and their concerns. This year I have represented the School of Education. I am running for the School of Humanities post in 1985-86 because I changed my major to Communication and I know what the organization's concerns are.

So vote on April 16 or 17 for David Swedlove, AS Board Directors Representative, School of Humanities. Thank you.

Joe Cortez
A.S. B.O.D. for Undeclared Majors

My name is Joe Cortez and I am a candidate for the Associated Students Board of Directors representing Undeclared Majors. I am a freshman commuter student from Ontario and have been involved with A.S. since Fall quarter, holding the positions of Office Assistant, the Executive Cabinet, Typewriter, and Book Co-Op Assistant.

I feel that because of my experience with A.S. this year, I now have the ability to be a strong, knowledgeable, and effective representative for Undeclared Majors on the A.S. Board. I have been involved in A.S. at the "grass roots" level and I know what the organization's concerns are.

Also enhancing my ability to serve on the Board is the fact that I am a former Serrano Village resident. Because I now commute, I have experienced the concerns of both dorm residents and commuting students.

As a member of the Board, I hope to see a greater involvement by students in A.S. sponsored activities and a greater awareness of those activities throughout the San Bernardino community.

Remus Haste
Director from the School of Administration

Hi. My name is Remus Haste and I am running for the position as director from the School of Administration. I am currently A.S. Vice President and chairman of the A.S. Board as well as a member of many other boards and committees designed to voice student concerns and assist in the development of the campus.

Next year, I plan to strive to improve current programs, activities and services in addition to the development of new programs and services which will be of a direct benefit to students at Cal State. As the School of Administration representives to the A.S. Board, I intend to advocate and voice the concerns of my constituent body on the various boards and committees which make decisions on student development.

Elva Baeza
Board of Directors of Natural Sciences

I'm Elva Baeza. I am running for a position on the Board of Directors of Natural Sciences. I am a sophomore/junior majoring in mathematics. I am presently involved in Associated Students activities as Co-Chair of Community. Therefore, I have some background in our student government. Working in A.S. has given me experience and knowledge for this position. That is why I feel I am capable of this position. So don't forget to vote on April 16th and 17th.
What Happened to the Humanities?

by Greg Timpany
As of late there has been much concern over the quality of education at colleges and universities around the country. Many educators and administrators believe that students are receiving too narrow an education. Courses in the humanities have been neglected in favor of more technical courses in business and engineering etc.

In March 1984 a study group, under the direction of Dr. William J. Bennett, consisting of thirty-one prominent scholars, administrators, and other authorities on higher education was formed. The group was formed to study the teaching and learning of humanities at the baccalaureate level. The study group held three public meetings during the spring and summer of 1984.

In November 1984, the National Endowment for the Humanities published a report on the Humanities in Higher Education. To Reclaim a Legacy, by Dr. Bennett, the secretary of Education. The study uncovered many interesting facts. A student can obtain a bachelor's degree from 75% of all American colleges and universities without having studied European History. In 72% of the colleges and universities a student can graduate without studying American literature or history, and from 86% without studying the civilizations of classical Greece and Rome.

Dr. A.R. Bhatia, who is the chair of CSUSB's Committee on General Education, will be chairing a faculty forum on Thursday or Friday, May 9 or 10. The forum will be open to students, and staff, as well as all faculty. The purpose of the forum is to analyze the Bennett Report and how it relates to the teaching of humanities here at CSUSB.

“Be A Part Of The Spring Roundtable Discussion Series”

Want a change from the usual nighttime crowd at the Commons or the Union? Want to hear Cal State faculty and visiting guests speak on politics and current research? You can. Bring your lunch over to the Student Union, Rooms A & B, and be a part of the Spring Roundtable Discussion Series. This new series begins Thursday, April 11 at noon, with Dr. Renate Nummela, Education, and Dr. Fred Newton, Psychology, talking about the new research on the human brain and the effect this research is having on teaching and learning. Dr. Tennes Rosegren of the Alvord Unified School District will be guest panelist. Future roundtable talks are “Northern Ireland: The Orange and Green Battleground,” with Dubliner Dr. Michael Clarke, Public Administration, Dr. Robert Blackey, History, and Angus Mackay, Public Affairs Officer from the British Consulate in Los Angeles. Come hear from both sides of this heated issue on April 30. On May 5, Drs. Mayo Turuno, Economics, Tom Meisenhelder, Sociology, and Marjorie Bray of CSULA's Latin American Studies Center, will discuss “Central America: The Roots of Revolution.” Recent slides taken in Central America will be shown, and the history behind the current political situation will be discussed. The final roundtable, on May 29, will look at education and social change. Contrary to popular belief, the Women’s Rights and the Black Rights movements of the 19th century were not in harmony. Dr. Linda Perkins from the Claremont Colleges, who has done extensive research on Black education, will be guest speaker. Dr. Roberta Statkus-Ochola, Academic Programs, will moderate, with CSUSB faculty members responding.

The purpose of this series is to get students, faculty, and staff together to discuss events and ideas. This is strictly informal; so grab a taco and join us in the Union, Rooms A & B at noon. If you've got a roundtable topic in mind, call me, Joanna Roche at 887-7405, and we can organize one.

SIGN UP NOW!
Sign up information and event details are now available at:

Sign-ups for Co-Rec Volleyball will take place:
DATE: April 1-15, 1985
PLACE: P.E. Building

Pzi Chi Sponsors a Seminar on Divorce

On Friday, April 19, Psi Chi will be sponsoring a day-long seminar on divorce and its effect on family members. Richard A. Gardner M.D. will be leading the seminar. Dr. Gardner is a child psychiatrist and adult psychoanalyst at Columbia University.

The seminar is designed for professionals and students in psychology, nursing, corrections, education, social work, psychology, and family counseling. The seminar is approved for continuing education credit. The fee for the seminar is $35. If credit is desired, an additional fee of $15.00 must be paid at the door. Early registration for the seminar ends Monday, April 15th. Checks may be sent to Psi Chi, C/o Psychology Department CSU, 5500 University Pkwy. San Bernardino, CA 92407-2397.

The seminar will be held in the John H. Mooney Arts Recital Hall. The program will begin at 8 a.m. with registration, and will continue to 4:30 p.m. Further information may be obtained by calling 797-0629.

discussed. Dr. Allen is one of the world's preeminent specialists on regional fault systems and earthquake prediction research. In addition, he is a member of the National Academy of Sciences, has served on the Board of Directors of the Earthquake Engineering Research Institute. Dr. Allen has concentrated his research on regional fault systems and earthquakes in several countries, including China, Chile, Japan and Turkey, among others. He is especially familiar with San Bernardino's "faults" and earthquake hazards since he was a member of the faculty at California Institute of Technology's Seismology Laboratory since the mid-1960's. Dr. Allen also has a strong interest in geologic hazards and geophysical hazards with the cost of printing and expenses. It is distributed free to students and the community. The responsibility of the editor is governed by the Cal State Chronicle. classified ads
