A Victorious Homecoming

by Elrond Lawrence
Cal State, San Bernardino ushered its first homecoming weekend in with a howl, topping it off with a Coyote sweep of a basketball doubleheader Saturday night.

Dances and dinner also marked the celebration, which began Valentine's Day with a 7 p.m. pep rally in the Serrano Village quad area. However, the main event was clearly the basketball doubleheader, which pitted the men's and women's teams against the forces of Whittier College and UC San Diego, respectively.

The Coyotes responded to the challenge—quite vigorously, one might say. While the men's team enjoyed a resounding victory over Whittier, 85-78, the women's team was no slouch either, taking care of UCSD with a score of 67-51.

Before the games, the Cal State Alumni Association sponsored a spaghetti dinner in the Commons, beginning at 4:30 and lasting until 5:45 p.m.

While the second game was just kicking off, 8 p.m. saw the Commons playing host to yet another event—a dance sponsored

by the Alpha Phi sorority. From 8-10 p.m., the Alpha Phis played host to both the Delta Sigma Phi and Sigma Chi Omicron fraternities, the final cap to their Feb. 10-14 "Sweeties Week".

The night ended with a pair of dances, as the Greek dance was opened up to the CSUSB community, while elsewhere in the SUMP, the Gay and Lesbian Union celebrated homecoming with a dance of their own.

The Coyotes matches were the last two home games of the 1986 season.

Newsbriefs

Teacher Workshop

At long last student teachers will have an opportunity to find out what happens in the interview with school district personnel. The Placement Center is proud to announce that they will sponsor a Teacher Interviewing Workshop in the Lower Commons (104) on Thursday, February 27, 1986. The speaker will be Dr. Dan King, Director of Certificated Personnel for the San Bernardino City Unified School District. He will discuss what personnel people look for in an interview, what

questions are asked during the interview and what makes him remember a candidate. He will also give two or three mock interviews and field a question and answer session.

This is a special chance for student teachers and those about to become student teachers to save up all their questions and come ask them anonymously. Don't miss this terrific opportunity to get ahead in the job market.

If you have any questions about the workshop, call Lynn Moss at 887-7551.

Foreign and Domestic Teachers Needed

The Foreign and Domestic Teachers Organization needs teacher applicants in all fields from Kindergarten through College to fill over six hundred teaching vacancies both at home and abroad. Presently, about 200-250 teachers are needed to fill positions in the Mid-West, West and overseas.

Since 1968, the organization has been finding vacancies and

locating teachers both in foreign countries and in all fifty states. We possess hundreds of current openings and have all the information as to scholarships, grants, and fellowships.

Should you wish additional information about the Foreign and Domestic Teacher Organization, you may write The National Teacher's Placement Agency, Universal Teachers, Box 5231, Portland, Oregon 97208.

Gay Studies Class

Dr. Craig Henderson will again be teaching the Gay Studies class, "The Psychology of Gays and Lesbians." Many areas of psychology, sociology, anthropology, history, law, religion, media and literature will be covered. It is based on discussion and interaction. More than just an academic class, it's also a growth experience.

The class will be held in the spring quarter, beginning March 31 to June 13, Monday and Wednesday evenings, 8-10 p.m.

ALPACA Field Trip

ALPACA, the campus Anthropology Club, took its first overnight field trip on January 18 and 19 to the Valley of Fire State Park, Nevada. While there, the group took day hikes to see and photograph the extensive rock art present in the area. In addition, a side trip was made to the Lost City Museum where artifacts of prehistoric and historic cultures were on display.

ALPACA has plans for several

exciting field trips in the near future, among them a special tour of the Southwest Museum in Los Angeles, a day at the early man site at Calico, and a weekend in Flagstaff, Arizona with a guided tour of the Museum of Northern Arizona. ALPACA also has regular monthly meetings in the lower commons with interesting speakers and ethnic refreshments. All are welcome! For additional information contact the Anthropology Office, SS-139.

Dracula Subject of Foreign Film

The 1922 silent film "Nosferatu" and its 1982 German language remake, "Nosferatu the Vampyre," will be shown at 7:00 p.m., Saturday, Feb. 22 in the Lecture Hall of the Physical Sciences Building as part of the university's foreign film series. The event is free.

Dr. Jorum Johns (German) will

discuss the films at the conclusion of the program. According to Dr. Johns, "Nosferatu" was the first film screen version of "Dracula," the one on which all later film adaptations were based. The film was called "Nosferatu" and not "Dracula" because the director, F.W. Murnau, did not want to pay royalties to the estate of Bram Stoker, author of "Dracula".

other features.

In conjunction with this tour, the Council is sponsoring a drawing on March 11; the prize is a Scandinavian Capitals trip for two. Drawing ticket donations are \$10 each. If you would like to purchase tickets for the drawing or would like information on this exciting trip, please call the Alumni Office at x7811 or stop by the office in SS-161.

Innovative Ideas Winners

by Jackie Wilson

This month's Innovative Ideas Contest Winners are:

John Tibbals, librarian. His suggestion was to place carefully worded signs at all of the library entrances to reduce frustration. Mr. James Urata, Director of Plant Operations will soon erect new signs. Mr. Tibbals will be asked to help with the wording of the new sign.

Ann Niemeyer, secretary. Her suggestion was to have something done about the clear pipes in the Biology building. It seems that unidentified objects float through these pipes during classes, causing distraction. Urata will have these pipes painted.

Dr. Bob Lee, professor of

Education. On the 5th floor of the library there are some faculty offices. The lights in those offices flash on and off in accordance with the other floors' lights to indicate to the library patrons that the library is closing. This causes accidents when people try to locate the light switch. Mr. Urata will install a separate light switch for the 5th floor.

Linda Schwartz, secretary. Her suggestion was to have the sign in the science parking lot changed. It seems it is 10 years out of date and causes misinterpretations on the part of people who park in that lot. A solution is being looked into.

Jill Miller, student. Her suggestion was to have more lights installed to insure the safety of students and faculty who have to

be on the campus in the evenings. There will be a mass increase in lighting very soon.

Peter Schroeder, English department chair. His suggestion was to change the ways financial aid checks are distributed. Starting with early registration next fall, the financial aid checks will be distributed in a better way.

Thanks to those who have suggested ideas for improving Cal State. Please keep them coming! This month's winners will receive hamburgers and tacos. Also, if you have any suggestions for prizes, write them on the Innovative Ideas form and we will see what can be done. The food coupons may be picked up at the Advising Center in PL-107.

Delta Sigma Phi Welcomes New Pledges

by Joel Geeson

Ladies and Gents, guys and gals, porpoises and Saran Wrap—These are the pledging fraternity men of the 1986 Winter Quarter. These are the future members of CSUSB's Fun Bunch. These are the men who will make a difference in your lives—so stay

intact. Do not explode. Do not think about Bill Bixby, because these pledges are going to enhance Delta Sigma Phi's sparkling spirit. If you find this to be a quagmire, then you are obviously being misled, for the brothers of Delta Sig are indeed the artery of Coyote spirit. If you find me articulating a rather bias point of view, then why don't you stop by one of the

Coyote's basketball games. I shall say no more, for my thumb is on my forehead and I am awaiting a response. Delta Sigma Phi salutes their new pledges: Brett Bayless, Shawn Broiles, Tim Irelan, Dave Greco, Will Hart, Anthony Hernandez, Vince Laster, Dan Payne, Steve Penn, and Ken Phillips. A great big thanks to the Alpha Phi's for their continued support.

Financial Aid Info.

March 1 is the priority filing date for financial aid for the 1986-87 academic year. Students who file a SAAC (Student Aid Application for California) by that date and submit the additional requested documents by May 1 will be considered first for the available aid.

FMA Sponsors B of A Tour

On Monday, February 24th, the Cal State Financial Management Association will sponsor a tour of the Bank of America Area headquarters at 303 North "D" Street in San Bernardino. Mrs. Judy Maudsley, Vice President and Manager will personally conduct the tour which will include brief talks by

managers of each department. "This tour will provide valuable information for those interested in careers in banking and for those who just want to know more about how banks operate," said Mike DeGrasse, FMA president.

Please stop at the Financial Aid Office in the Student Services Building 143 for the forms and information.

For more information, and to sign up for this tour, please call Linda in the Department of Accounting and Finance, 887-7676.

Round Table On Civil Rights

"The Civil Rights Movement from a Non-Black Perspective" will be addressed in a Round Table discussion at noon, Thursday, Feb. 20 in the SUMP. The first of a two-part discussion, the forum is part of the university's observance of Black History Month.

Moderated by Dr. Mildred Trustee Thomas Bernard Visits CSUSB This Friday

CSU Trustee Thomas Bernard will tour the campus and meet with administrators and academic deans from 10:00 a.m. to 2:30 p.m., Friday, Feb. 21. He is founder and chairman of Tomar Financial Corporation in Fresno and chairman of the board of First

Henry (Education), the panel will be comprised of a San Bernardino minister, the Rev. Gertude Whetzel, and three other faculty members: Dr. Irvin Howard (Education), Dr. Thomas Meisenhelder (Sociology) and Dr. Louise Burton (Education). A subsequent Round Table discussion of "The Civil Rights

Investors Bancor. He holds several other top administrative positions with financial concerns. An alumnus of Cal State, Fresno, Bernard holds a term as a trustee until 1989. His appearance is part of the university's effort to acquaint CSU trustees with CSUSB.

Early Music Academy Concert February 24, 1986

A concert of early music played on period instruments using authentic, early performance techniques will be presented by the Early Music Academy at 8:15 p.m., Monday, Feb. 24 in the Recital Hall. Admission is \$5 for

the general public; \$3 for students and senior citizens.

Established in 1983, the Early Music Academy is a permanent orchestra of southern California musicians who try to match each work with the instruments and performing styles in use when the music was written.

GUADALAJARA SUMMER SCHOOL

University of Arizona offers more than 40 courses: anthropology, art, bilingual education, ESL, folk music and folk dance, history, political science, sociology, Spanish language and literature and intensive Spanish. Six-week session. June 30-August 8, 1986. Fully accredited program. Tuition \$480. Room and board in Mexican home \$520.

DANCE!!

There will be a dance on Friday, Feb. 21 from 9:00 p.m. to 1:00 here at CSUSB in the SUMP room located in the Student Union. The tunes will be provided by BEAT inc. and the dance is co-sponsored by The Players of the Pear Garden.

WIPE OUT COLLEGE DEBT

College debt, long a burden for young men and women who mortgage their futures to improve their education, can be virtually eliminated by the U.S. Army Loan Repayment Program.

Students in college or those who have attended an accredited university since October 1, 1975, on a National Direct Student Loan or a Guaranteed Student Loan, can get that loan repaid by the Army. For each year of service in the Army, the Army will reduce the indebtedness by one-third, or \$1,500 whichever is greater. A three-year enlistment will eliminate any outstanding student loan. The Army's exclusive active-duty enlistment of only two years will wipe out a \$3,000 loan.

By joining the Army Reserve, the Army will eliminate 15%, or \$500 (again, whichever is greater) of the loan for each year of

enlistment. In seven years of this part-time service, any loan will be fully paid back.

"Loan Repayment is one excellent way we hope to attract bright young adults who have made it a priority to seek a college education," says Lt. Col. William D. Bristow, Jr., commander of the Army's Santa Ana Recruiting Battalion. "They will find the U.S. Army an outstanding employer, one as sophisticated as any civilian employer."

A college education entitles a graduate to start at a higher rank with increased pay and responsibilities. Unlike an entry-level civilian position, the college-educated soldier starts immediately in a challenging job of leadership.

There are hundreds of Army skills to choose from, including the latest in high-tech opportunities.

Whatever the degree or area of interest, the Army has a related position, one of promise where the soldier continues to learn day-to-day from other enlisted experts.

Of course, the college graduate will be able to take advantage of the Army's unmatched benefits program. The new job comes with room and board, quick promotions, complete medical and dental plans, insurance, on base college-accredited courses, a chance to travel overseas, and, most important a new challenge every day.

But the benefits can start immediately for a student still in college. He or she can enlist for active duty starting after graduation. The few short years spend in the Army will provide service to country, and elimination of college debt.

Can Anyone Make A Fortune In Mail Order?

by Greg Timpany

On February 26, the Cal State Marketing Association will be presenting a discussion by Dr. William A. Cohen. The direct marketing industry will be the topic of Dr. Cohen's discussion. Dr. Cohen is a professor of marketing at California State University, Los Angeles. In addition to teaching, he has served successfully in private industry and

books. His books include *Building A Mail Order Business*, now in its second edition, *Direct Response Marketing*, and *The Executives Guide To Finding A Superior Job*. He is currently series editor, with John Wiley and Sons, for a new series on business strategy.

Dr. Cohen received a BS in engineering from the United States

consulting. He also manages his own direct marketing business.

Dr. Cohen is currently the Director of the Small Business Institute at CSU Los Angeles. In this capacity he has supervised consulting for more than 300 businesses. One of his consulting engagements received national recognition by the Small Business Administration.

As an author, Dr. Cohen has published more than 100 professional papers and twelve

Military Academy. He later received an MBA from the University of Chicago. He also holds an MA and Ph.D. in Management from the Claremont Graduate School.

The presentation will take place on February 26, at noon in the Student Union Multi-Purpose Room. It is open to students, faculty, campus personnel, and the general public. For more information contact Ms. Grace Fernandez at 370-3854.

Million Dollar Grant Awarded To CSUSB Teacher Training

California State University, San Bernardino, was awarded \$990,381 by the State Board of Education to establish a Summer Technology Training Institute for elementary teachers this coming summer.

The award, the largest grant received by the university, will fund two consecutive four-week Summer Technology Training Institute sessions to train more than 200 elementary school teachers and curriculum specialists in methods of effectively integrating microcomputer and other technologies into classroom instruction.

"The grant will have a major impact on the use of technology and educational practices in elementary classrooms throughout the state," said Dr. Craig Blurton, assistant professor in the School of Education and project director.

"We are going to train educators to use the latest techniques and methodologies to integrate microcomputers, instructional television, and other aids into their daily lesson plans."

"Participants also will be taught to be effective trainers of other educators in school districts in their region of the state. During the following year, they will be responsible for training hundreds of other educators in the same techniques. This should extend the impact of the institutes to classrooms throughout the state," Dr. Blurton added.

The grant will be administered by the School of Education. Dr. Ernest Garcia, dean of the school, commented: "We are very excited by this opportunity. For a long time, the School of Education has taken a leadership role in the education and training of

California's teachers. With this grant, we reaffirm that we will continue to lead, teaching educators how to integrate modern technologies into the educational process."

Dr. Robert Detweiler, vice president for academic affairs, expressed the university's pleasure with the project. "I am delighted that our university has been selected to direct this important project, which will enhance the quality of elementary school teachers. Professor Craig Blurton and his colleagues are to be congratulated for winning the funds to support this project and for adding to the prestige of our excellent School of Education."

Further information about the Cal State institute is available from Dr. Blurton in the School of Education at (714) 887-7571.

Future Teachers Meeting Held

Ms. Robin Valles, principal of Trapp Elementary School, Rialto Unified School District and an alumni of CSUSB receiving a bachelors and master's degree as well as three credentials, addressed the Future Teacher's Club Mon. Feb. 10 at noon. To introduce her topic "Hiring Teachers-A Principal's View", she stated "I'm looking for the qualities of the \$100,000 employee who will work for \$25,000; not for the individual with minimal qualifications for the job." "As your administrator, I will cover

you and work with you if you are not totally prepared or doing your work at the highest level, but you need to be prepared as possible and have a commitment to teaching beyond the paycheck." "Teaching is more than a 8-3:30 p.m. job. There is a missionary quality to it." She raised the question "do you have a strong enough ego to be a good teacher and know you can make the difference in a child's life rather than say it is impossible with problem children."

In discussing the candidate

interview, Ms. Valles emphasized the importance of grooming, displaying you can think, meeting the needs of children, keeping track of responsibilities, and being flexible. She concluded her talk by emphasizing the importance of discipline and classroom management.

The next meeting of the Future Teachers will be held Mon. February 24 at noon with Dr. Klein discussing the newer credentialing requirements. All those interested in teaching as a career are invited.

Can you afford to gamble with the LSAT, GMAT, GRE, or MCAT?

COYOTES SWEEP DOUBLEHEADER

by Steve Karen

Cal State's first homecoming was a big success, as both the men's and women's basketball teams romped their opponents to gain victory.

The women beat UC San Diego 67-51 while the men defeated Whittier College 85-71 before a packed auditorium. The Lady Coyotes dominated UCSD from the beginning in a victory that coach Jo Anne Bly attributed to teamwork. High scorers were Lori Dietsche, (with 18 points) and Robbyn Gee and Sayori Baldwin (both with 13 points each). UCSD rallied in the second quarter to pull within three points at the half, with a score of 25-28.

However, many turnovers and some aggressive playing by the

with a team-high 18 points—faulted their efforts. The men's

(previously held by Jeff Ames) by scoring 32 points in the game. It was a close game at the half, 37-32, but Whittier never seemed to pose any threat.

During half-time of the women's game, a T-shirt was presented to a Cal State Alumni. The cheerleading squad entertained the crowd during the men's halftime with a dance routine, and afterwards a group of preschoolers seized the court to play basketball and were cheered on by the crowd. To conclude Cal State's first homecoming, Alpha Phi sorority held a dance in the upper commons from 10 p.m.-1 a.m.

Edwin Wimby Sets A New Team Record

Coyotes—and an especially strong second half by center Lorie Dietsche, who finished the game

game was total wipeout as they won by 14 points, 85-71. Edwin Wimby set a new team record

Tennis Season Underway

by Steve Karen

This year's tennis season is already underway, with the men's team current record at 1-1, and the women's 2-1. This is the second year of tennis here at Cal State, and Jim Ducey's (the head coach of both the men's and women's teams) main goal for this season is to have his players finish the season as better players than when they started it.

The men's team lost their first match 2-7 against Cal State Fullerton, but they came back to win their next match 8-1 against Whittier. According to Ducey, the

two top returning players on the men's team are Tim Streck and Richard Blackey. The women lost 3-6 to UNLV, won by forfeit against Cal State Fullerton, and beat Whittier 7-2. The top two women's returning players (also according to Ducey) are Stephanie Camadena and Carrie Riddler. Tough matches for the women would come against the University of Redlands and Claremont Mudd. Here is a list of the men's and women's home tennis matches for the rest of the 1986 season.

Mensa Sponsors Scholarship Contest

Mensa, the international high IQ society, is offering scholarships of \$1,000, \$500, and \$200 to Southern California students. Applicants need not be members of Mensa but should be scheduled to attend a college or university next fall. High school seniors and college students are eligible.

The scholarships will be awarded on the basis of essays of about 500 words submitted by the applicants explaining their goals and how the scholarships will help them reach those goals. There are no restrictions as to race, sex, age, or financial status.

In addition to 36 national awards and several local awards, there are two additional special awards. The Rita Levine

Memorial Scholarship will award \$600 to a woman returning to school after an absence of seven or more years and the Howard A. Turney Financial Aid Program will provide \$1,000 to a recipient who qualifies for Mensa membership for study in medicine, mathematics or the sciences.

To be eligible, applications must be postmarked by March 1. To obtain an application form, contact Stephen Chris, 6655 Palm Avenue 110, Riverside CA 92506. A stamped, self-addressed envelope must accompany requests for applications.

Mensa is an international organization whose members have achieved scores on a standard intelligence test higher than 98% of

The Chronicle Announces "Name That Face" Contest Winner.

The Chronicle's debut of the "Name That Face" contest solicited many guesses from various campus departments, as well as students. However, not one of the entries was completely successful in answering our

question - Name that face, or more accurately faces.

Fortunately, there were many entries naming 2 of the 3 partially pictured faces. It was from this lot, we picked our winner Bill Swanson of the CSUSB personnel

staff. Bill correctly guessed the middle of our face, that of Chuck the Wonder Dog, and the bottom of our face, Jo Ann Von Wald. The top of our face was the Dean of Students Peter Wilson.

Michelangelo Would Have Loved It

The popular annual Renaissance Festival and dinner hosted by the Music Department and university Chamber Singers, will recreate the life and times of Michelangelo March 13-15.

A multi-course Italian gourmet feast will be accompanied by music from the late 15th and early 16th centuries. Some of the lyrics and poetry were written by Michelangelo. The Commons will be decked in Italian Renaissance villa decor to set the mood for the dinner theatre. Decorations will include reproductions from the ceiling of the Sistine Chapel in the Vatican. Patrons will be greeted by performers from the Chamber Singers who represent characters from the era, such as Lorenzo the Magnificent and Pope Julius II.

Tickets are \$25 per person for the popular event, which traditionally sells out. Seating is limited to 90 diners each evening. More information is available by calling the Music Department at Ext. 7454 between 9:00 a.m. and 4:00 p.m., Monday-Friday.

Health Corner

THINKING ABOUT DRINKING??

There are many reasons why students drink. Some drink to be more at ease at parties. Others drink to relieve stress or to have fun. At most schools, drinking is taken for granted as part of college life, so why not? Alcohol can be harmless and even enjoyable, if taken in moderation. Drinking responsibly means that the drinking should occur along with other activities, instead of using alcohol for its own sake. Responsible drinking also implies that the drinking occurs with other people. It also implies that intoxication is avoided by drinking slowly, with food in the stomach, and with careful attention to your reactions. Unfortunately, alcohol abuse is a common problem among university students, and those who abuse alcohol suffer in many ways. Social conflicts, poor health, damaged reputations, poor grades, and automobile accidents are just a few of the results of abusive drinking.

"Why so many problems with drinking?"

Why so many problems with drinking? Because there are many wrong ideas about drinking customs. Here are some of the myths associated with drinking. The more you know about it, the

better you can handle it and decide where, when, how, with whom, why, and how much to drink.

Myth: Getting drunk is funny.

Fact: Maybe in the movies, but getting drunk is a form of getting sick. It is no funnier than indigestion, or the flu, or constipation.

Myth: Drinking black coffee will help to sober you up.

Fact: Black coffee will only make you a wide awake drunk. The liver can burn up only 1/2 ounce of alcohol an hour.

Myth: "What a man! He can really hold his liquor."

Fact: It is no more masculine to drink a lot or smoke a lot. There is no reason to envy someone who has drunk so much he has built up a tolerance to alcohol. When you

stop thinking it's manly to overdrink, you are growing up.

Myth: You're not an alcoholic unless you drink a pint a day.

Fact: There's no simple rule of thumb. Experts have concluded that how much one drinks may be far less important than when he drinks, how he drinks, and why he drinks.

And Remember, It Is Always Okay Not To Drink If You So Choose. Also, If You Do Drink, Don't Drive!!

If you are interested in additional information about dealing with a drinking problem, your own or a family member's contact the Health Center (887-7641) or the Counseling Center (887-7437).

THE TEST OF YOUR LIFE.**

You Wanted To Know About UFOs

1986 is proving to be a newsworthy year for Astronomy and the space sciences, with the tragedy of Challenger balanced only by the success of Voyager II around Uranus, and the worldwide search to see Halley's Comet.

With all the recent emphasis on the exploration of space, it seems proper that 1986 should be the year the world focuses its attention on life beyond earth.

Robert Hastings, a recognized lecturer and researcher on UFOs visited Cal State last Fall Quarter and delivered...a 90 minute lecture-presentation, "UFOs: The Hidden History", which turned out to be a very effective expose' on the U.S. government's policy of secrecy and systematic debunking of the existence of UFOs.

Ever since the incident in 1962 when Mr. Hastings worked as an air traffic controller at Malstrom

Air Force Base in Montana when five UFOs were tracked on radar near nuclear missile silos, and then tracked moving away at 4,800 miles per hour, he has intensively researched UFOs, particularly concentrating on the massive government cover-up of the phenomenon.

Included in the presentation was a slide show which displayed copies of various previously classified documents from the CIA, FBI, NSA (National Security Agency), and the Air Force, most of which were acquired by lawsuits filed by Dr. Bruce Maccabee of the U.S. Navy and W. Todd Zechel, a former NSA employee and founder of Citizens Against UFO Secrecy (CAUS).

Contained within these official de-classified U.S. documents were amazing details of incidents that, if they had been reported by the average citizens, would have been

publicly dismissed by the government as man-made objects, or as intoxication-caused hallucinations.

Obviously, as revealed by this evidence the government has striven so hard to suppress that it took an act of Congress and legal action to get it out in the open. Something very extraordinary has been going on and Uncle Sam does not want us to know about it. What follows are some examples that Mr. Hastings has provided the students of CSUSB-courtesy of Uncle Sam.

An FBI memorandum dated March 22, 1950 concerning information obtained from an Air Force "informant" (quotes by Mr. Hastings) by a Special Agent whose name was censored by the FBI when this document was de-classified, reporting the recovery by the Air Force of three objects, each 50 feet in diameter that

apparently crashed in the vicinity of a high powered radar installation in New Mexico (location still classified as far as is known). Within each were found "THREE BODIES OF HUMAN SHAPE BUT ONLY 3 FEET TALL..." They were dressed in a metallic material of "...very fine texture." They also wore an undergarment that was superficially similar to blackout suits being worn by test pilots of the time. It goes on to say that there was speculation that the radar caused the crashes by interfering with the UFOs "controlling mechanism".

On the night of Nov. 7, the following reports were logged. (note: the numbers in parenthesis with a Z for "Zulu" represent the time of day in military terminology)

7 Nov. 75 (1035Z)-Received a call from 341st Strategic Air

Command Post (SAC CP), saying the following missile locations reported seeing a large red to orange to yellow object: M-1, L-3, LIMA, and L-6 (M-1, L-3, & L-6 are specific missile silos). The general object location would be 10 miles south of Moore, Montana, and 20 miles east of Buffalo, Montana; Commander and Deputy for Operations (DO) informed.

7 Nov. 75 (1203Z)-SAC advised that the LCF (Launch Control Facility) at Harlowton, Montana, observed an object which emitted a light which illuminated the site driveway.

7 Nov. 75 (1319Z)-SAC advised K-1 (silo). Says very bright object to their east is now southeast of them and they are looking at it with 10 X 50 binoculars. Object seems to have lights (several) on it, but no distinct pattern. The orange/gold object overhead also has small lights on it. SAC also advises female civilian who reports having seen an object bearing south from her position six miles west of Lewiston.

7 Nov. 75 (1327Z) L-1 (silo). Reports that the object to their northeast seems to be issuing a black object from it, tubular in shape.

7 Nov. 75 (1327Z) L-1 (silo). Reports that the object to their northeast seems to be issuing a black object from it, tubular in shape.

8 Nov. 75 (0635Z)-A security camper team at K-4 (silo) reported UFO with white lights, one red light 50 yards behind white light. Personnel at M-1 (silo) seeing same object.

8 Nov. 75 (0645Z)-Height personnel (radar) picked up objects 10-13,000 feet (military jargon concerning track followed). Objects as many as seven, as few as two. (jets later scrambled to intercept)

8 Nov. 75 (0915Z)-From SAC CP: From four different points: Observed objects and fighters; when fighters arrived in the area, the lights went out; when fighters departed, the lights came back on; to NCOC (notification).

And finally this from Sept. 23, 1976 Tehran, Iran, before the fall of the Shah, a State Department cable reporting an extraordinary "dogfight" between F-4 fighters and a UFO. It is a lengthy and detailed account but no less a spectacular one. In a nutshell it goes as follows: Following reports of a bright light in the sky, Shahrokh Air Force Base launched an F-4 to investigate. When within 25 nautical miles of the objects the pilot lost power to all his instruments and communications. When he turned away from the object, he immediately regained his instruments and communications.

FREE o.b.

Tuck away the best protection against accidents.

When you first switched from pads to tampons, you probably used an applicator brand. Because mom did. Or your older sister. Or your best friend.

Now you know a lot more about yourself. And you're ready to choose a tampon that's right for your lifestyle.

Try o.b. It's designed to simplify your life.

o.b. is simply the best protection against accidents. That's because o.b. was designed by a woman gynecologist who understood your needs. o.b. Tampons expand gently as your flow demands to keep you protected and worry-free.

And you can hide o.b. in your pocket or tiniest purse! o.b. is all protection, without the applicator. So there's nothing bulky to carry around and nothing to throw away. It's so simple!

o.b.

It
Simplifies
Your
Life.

o.b.® TAMPONS FREE SAMPLE MAIL-IN CERTIFICATE

HURRY before this offer expires. Send for your **FREE** sample of o.b. Tampons regular absorbency. Simply fill out the information below and mail it to the address indicated.

All promotional costs paid by manufacturer. Limit one sample per name and address. No group or organization request will be honored. This certificate may not be mechanically reproduced and must accompany your order. Offer not available outside the U.S. Void where taxed, prohibited or otherwise restricted. Offer expires March 31, 1986. Requests postmarked after March 31, 1986 will not be honored. Allow 8-10 weeks delivery.

DEAR MABLE,

Dear Mable:

I just found out that my boyfriend is going out on me. He tells me that he is not, but I have caught him in compromising situations more than once. I have tried to give him the benefit of the doubt on each occasion, but last Friday he was seen at Cracker Jacks with another female friend. My friends say that they were acting like "good" friends (kissing among other things). The whole situation is as embarrassing as it is painful. How do I tell him this is not OK? I care for him but his constant lying is wearing thin on me.

Sign me-
Habitually Hurt

Dear Hurt

If you have talked with him about this and how it makes you feel (his behavior as well as his lying) dump him.

If you have not talked with him openly about this, I suggest you do. Sitting and stewing about this will only build resentment within you. Resentment that in time will change the way you feel for him. If you care enough about him to protect your relationship and your feelings for him, be honest with him. It would be tragic if he jeopardized your relationship without realizing the risks he was taking.

Mable

Dear Mable:

Because of my classes I have a hard time making meals at the commons. I have been offered sack lunches that are totally unacceptable. The sandwiches are always dry and along with the fruit, usually crushed by the drinks they invariably put on top.

Is there any possibility that we could get meal tickets for the snack bar so we could get hot/decent

meals when we can't make it to the commons? As it is now I am never able to use all of the meals I am forced to pay for living here.

Sign me
Ketosis Kid
Dear Kid:

I talked with Chris Berger in the commons yesterday. She agrees the sack lunches leave something to be desired, but hang on, she is working on improving them. We

won't be able to interchange the meal plan between the commons and the snack bar because they are covered by two different contracts. One possibility is to ammend the contracts upon renewal, but that will be in approximately two years. Maybe we can make life a little better for those who follow us.

Mable

Dear Mable:

I've heard rumors of numerous assaults on campus, in Pfau and in the parking lots. Are they true? And if so, what can be done to avoid a possible attack?

Sign me-
Worried night student

Dear Worried:

I have also heard the rumors.

Yours is not the first letter I have received concerning this subject. While I am in the process of gathering information about these incidents, please take these precautions:

1st Use a buddy system when walking to and from classes, especially at night.
2nd Be aware. If you see someone or something suspicious, call

campus police. It is their job to check out suspicious characters. 3rd When it is not possible for you to walk back with a friend the campus police does provide an escort service. Use them.

I hope to have more information on this threatening situation in the next issue.

Mable

Dear Mable:

I, along with other residents in my suite are facing a difficult problem and we really don't know what to do.

We have, for lack of a better word, a thief living amongst us. For a long while we were not sure who was responsible for the thefts and because at first they were small, we really didn't care. But the thefts have gone from laundry soap and toothpaste to money and even someones wedding ring.

What can we do? We suspect one individual because he has been seen inside someone elses room, but we really don't have any proof. We don't want him thrown out of the university but we want the thefts to stop.

Sign me
Fed up in the Village

Dear Fed up:

Go to the campus police with your suspicions and lodge a complaint. Nothing can be done without proof but at least the guilty party will know that you are serious and that if he is ever caught there may be a prior complaint against him. Nobody should have to live under those conditions. You owe it to yourself, the others in your suite, and eventually him to put a stop to these thefts. Good luck.

Mable

To write to "Dear Mable", drop your letters off at the Chronicle office. Although "Dear Mable" sometimes offers helpful advice, responses are not the work of a professional and do not necessarily represent the views of the Chronicle.

THE BROADWAY ALBUM; Barbara Streisand

If there is anyone out there who has not yet heard Barbara Streisand's newest work, The Broadway Album, your missing a hit. The medley of Pretty Women/The Ladies Who Lunch from the Broadway play Company is excellent. She breathes new life into the works of Stephen Sondheim from West Side Story to Sweeney Todd. This is a must hear from Columbia.

MABLE'S TURNTABLE

PROMISE; Sade

Next time you are in the music store pick up Sade's (pronounced SHAR-DAY) newest album, Promise. While it does not have the slick rhythmic polish of her first album its still well worth getting. She has not lost touch with her musical roots though this second album strikes me as more commercial. She still expresses herself in the polished style that made her first work so successful.

ISLAND LIFE; Grace Jones

Hey folks! Grace Jones, actress, recording artist, model has a fabulous new album out titled Island Life. It includes many of her best hits such as I Need a Man and Pull Up to the Bumper. Along with these classics are newer tunes. One I especially like is La Vie en Rose, a french song with a driving beat. All these and more combine to make this a dynamite album.

THURSDAY

MEETINGS

- Uni Phi Club meets from 11am-Noon in the S.U. Senate Chambers
- Cal State Organization for College Women meets from Noon-1pm in the Student Union Senate Chambers
- Psi Chi meets from Noon-1pm in PS-105
- Baha'i Club meets from 1-2pm in S.U. room "B"
- Criminal Justice Association meets from 4-6pm in the S.U. Senate Chambers

DISCUSSION

- Round Table-Black History "The Civil Rights Movement From A Non-Black Perspective" Panelists: Dr. Louise Burton, Dr. Irvin Howard, Dr. Thomas Meisenhelder, and Rev. Gertude Whetzel. From Noon-1:30pm in the SUMP

SPORTS/LEISURE

- Intramural Wrestling starts at 7pm, small gym

FACULTY PROFILE:

Dr. Darleen Stoner Advocates Science Education

Mothers' attitudes are the single most important factor in the development of children's interest and achievements in science, according to new evidence garnered by Dr. Darleen Stoner, assistant professor of education at CSUSB, and advocate of science education in public schools.

"It does not seem to matter whether mothers work full-time or not," she said, explaining new insights she has gained since her investigation of fifth and tenth grade students' attitudes toward science for her doctoral dissertation. "We also did not find much on stereotyping, although boys seemed to be slightly more inclined toward the subject if their

fathers were. Actually the second biggest influence was teacher perceptions.

"Any activity that parents can do to foster an appreciation of science, whether it's a trip to the museum or a walk in the woods, can have a great impact on children's achievements later on," she added, indicating that another researcher's study done in the 1960s revealed that the interest in science occurs in children before the age of 12.

The new insights Dr. Stoner has gained from her continued research and work in science education are at the core of her endeavors to promote science and environmental education in

California public schools and at the university.

"Science education should be basic because it is so applicable to daily life. I like to say it should be the three r's and s: reading, riting, rithmetic and science," she stressed. "At the university, we are approaching science education in terms of environmental education because students and teachers who might otherwise be scared off by the word 'science' could be drawn into relevant discussion about toxins, land use and voting rights on such issues."

"Geographically, we are in an ideal location in terms of teaching environmental science concepts because we have the desert

mountains and we aren't far from the ocean," she continued. "With the rapidly changing population in the Inland Empire, we are on the threshold of deciding how our resources are used; how we will allocate land, green areas and spaces for wildlife. We still have time to consider our choices."

"I think part of the key is in having more required activity-based courses which can build interest. Making science an optional or elective course does not help to arouse students' curiosity in the subject. We also know that testing creates an awareness of the need for science education."

Dr. Stoner's interests and

expertise in science education broadened as she pursued her higher degrees. She obtained a B.A. in education, with several science teaching credentials, from Washington State University in 1967. She earned a master's in biological sciences from Cal Poly, Pomona in 1972 and a Ph.D. in education from Claremont Graduate School in 1981.

A resident of Pomona, Dr. Stoner maintains an interest in science and nature in her private life by keeping several parrots and tortoises. She pursues nature study, local history and music in her spare time with her husband, Martin, a biology professor at Cal Poly, Pomona.

Student Ambassadors Needed

Starting this month and continuing through mid-May, CSUSB will be hosting approximately 25 separate groups of high school students who have shown a strong interest in our university. These high schools will be largely from San Bernardino and Riverside Counties. Visiting groups could be as small as 10 or as large as 40, and will participate in a program from 9 a.m. to 1 p.m. either in the Commons or the Student Union.

CSUSB students: If you are alumni of these or other high schools, you are needed to act as volunteer "Ambassadors" to high schoolers only on the day your alma mater visits. Of course, if you wish to help with more than one program we will certainly welcome you. Even if you did not attend an area high school but would like to be an ambassador, you are most welcome to sign up as well.

Ambassadors will be needed to socialize, answer questions and help with the program. Hours required of ambassadors will be flexible between 8:45 a.m. and 1:30 p.m., but they will be especially needed to eat lunch with the students in the Commons. It is not necessary for ambassadors to be available for the entire length of the program.

The list of possible visiting high schools is posted in each of the dorms as well as at the Student Union front desk and the Relations With High Schools (RWHS) office. Please indicate your interest by signing up in your dorm or in the RWHS office, SS-1033, ext. 7897 or 7608.

The exact visitation dates have not yet been scheduled. More will be known about particular high schools as time goes on.

Contact Clare Sharafinski, SS-103, ext. 7897 for information.

Bring down the cost of your education.

PICKING THE BEST MOVIES OF 1985

by John Purcell

This year's box office smashes, *Back To The Future*, *Rambo*, and *Rocky IV*, were pretty much left out of the awards—the latter two rightly so. But *Back To The Future*, the sometimes poignant, always funny movie starring Michael J. Fox, did deserve a Best

Picture nomination. As always the best comedy of the year has been left out. Last year, you may remember, it was *All of Me*, the great comedy starring Steve Martin which was left out. If the academy doesn't consider comedies in the same light as films like this year's best, *Prizzi's*

Honor, it should develop a separate category for them.

The best direction award goes to Sydney Pollack, director of *Out of Africa* whose stunning shots of Africa, filmed around Meryl Streep, would have done more for the peace corps than any speech by any President.

The best actor Oscar goes to Jack Nicholson for his incomparable performance in *Prizzi's Honor*. An honorable mention should go to Kurt Russell for his performance in *The Mean Season*. How the academy could fail to nominate Russell is beyond my comprehension.

Best actress easily goes to Meryl Streep for *Out of Africa*.

The best supporting actor award goes to Robert Loggia, who played the almost crochety, old hat private detective employed by Glenn Close in *Jagged Edge*. His portrayal of the man who says exactly what he thinks made for a great film.

Finally, the best supporting actress award goes to Angelica Huston for her role as the plotting former lover of Jack Nicholson in *Prizzi's Honor*.

The top five films of the year are listed below:

1. *Prizzi's Honor*
2. *Out of Africa*
3. *Back To The Future*
4. *The Mean Season*
5. *Agnes of God*

Next week the Anti-Oscars!!

"ESCAPE" PROGRAM

by Jackie Wilson

Do you need to take a break from classes to relax? Would you like the chance to relax and enjoy while at the same time learn and enjoy a variety of activities? If your answer is yes to these questions, "Escape" will definitely provide the relaxation and enjoyment you crave.

The objective of "Escape", CSUSB's recreational program, is to help students escape from routine, classes, pressures, and workday existence. Their outings are planned for beginners as well as for those with experience in outdoor activities. The outing leaders are volunteers and that means the only charge to you is for tickets, transportation, or special equipment.

For the months of February and March, the following trips are being offered:

February 23-Whale watching at Dana Point. There will be a two-hour boat trip to whale watch. Registration will be on February 14 (first 20 to register). The cost is \$7.50 per person. Transportation will be provided by a CSUSB van and private cars. The bus will depart at 7 a.m. and return by 5 p.m.

March 9-Kings Hockey at the Forum. Registration will be on February 24 (first 14 to register). Cost is \$6.00 per person. The CSUSB van will depart the bus shed at 10:45 a.m.

March 22-23-Canoe trip down the Colorado River. Registration is March 7. The cost for this trip is \$40.00 for students and \$60.00 for non-students. This includes the canoe rental and transportation of canoe. The transportation is provided by you in addition to food, camping gear, and help with vehicle shuttle. This trip is open to the first 12 to register. Participants must be in good physical condition and have basic swimming skills.

All participants must pay in full when they register for a trip at the Student Union lobby desk. No refunds will be available. If you would like additional information, please contact the Activities Office in SS-122 or at 887-7407.

A timeless art ...

Photos by Elaine Patrick,

Story by Ed Garnett

"Glass, to me, is just like candy," said part-time instructor Ken Reed on the art of glass working -- it's irresistible.

Reed is currently teaching Art 483c, a course on ceramics and glass. The course includes both study and experimentation with two art forms, and is scheduled to be offered again spring quarter.

Reed has worked with glass for about eight years. He believes that glass blowing has a certain magnetism about it.

"It's such a pretty material," Reed said, "and exciting. It draws a crowd everytime you see it."

According to Reed, CSUSB has one of the most extensive glass programs in the California State University system. The facilities are equipped for techniques which include glass blowing, fused glass design, and sheet glass processing.

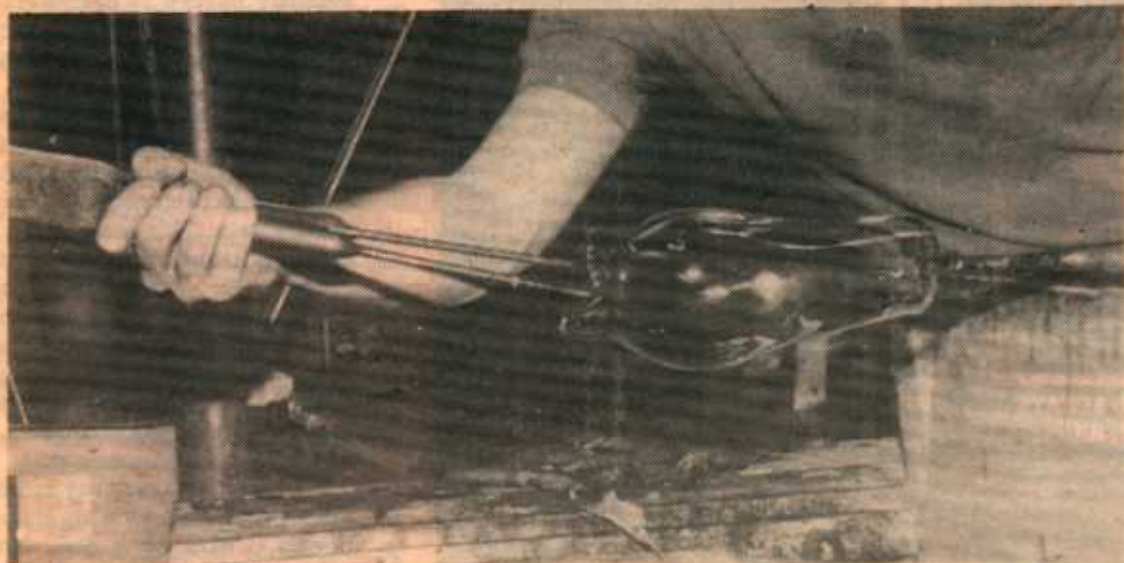

Blake Haralson is a ceramics major who has just started working with glass this quarter. Haralson is seen in the accompanying photos making a vase, a process which takes about 30 minutes.

Blake Haralson places the blowpipe and glass in the "glory hole" to make the glass pliable.

The hot glass is rolled on a cool marving table to put a "skin" on the outside, permitting greater control in shaping a vase.

...alive and enchanting

"Blade jacks" are used to make indentations in the glass.

finished vase

The Trials And Tribulations Of Repeating A Course

by Jackie Wilson

If you find that after having received your final grades this quarter, you have failed or have not received credit for a credit/no credit class, you may have to repeat the course. If you're wondering, here is the policy for the repeat of courses for undergraduates and graduates.

Students may repeat a course only once in order to have the first grade discounted and the grade from the second attempt used on their transcript. Subsequent repeats will be averaged when determining cumulative G.P.A. For undergraduates, the discounting of that grade is by petition only. Discounting means that when computing G.P.A. required for graduation, the

following will be excluded — units attempted, units passed (if any), and grade points (if any) for previous attempts.

No more than five different courses may be discounted by repeating them. A course may not be repeated for the purpose of removing an incomplete. Only incompletes that have changed to a letter grade or are not being counted as equivalent to an F may be discounted on repeat.

Students on dismissal may repeat courses through the CSUSB's Open University Program and petition to have the grade earned treated as though it were taken in residence.

If a course taken at CSUSB is department offering the course.

Classified and conditionally

repeated elsewhere, the grade will be averaged in determining a student's overall GPA. Repeating a course elsewhere will have no effect on a student's CSUSB GPA. Grades for courses taken other than at CSUSB and repeated at other than CSUSB will be averaged when determining a student's overall transfer GPA. The University will honor the repeat of course policy in effect at the institution issuing the transfer transcript. Students may repeat, at CSUSB, courses transferred from other institutions. The transfer grade will be discounted if provisions of the pertinent preceding guidelines are met. Course equivalency will be determined by the Admissions Office evaluators or the

classified graduate students may be permitted to repeat a course taken as an undergraduate for the purpose of removing a deficiency, with the approval of an advisor. A subsequent repeat must be approved by the school or department graduate committee. This credit will not be counted toward the units required for a master's degree. The last grade earned will apply toward the student's overall postbaccalaureate GPA and will not replace the grade in the undergraduate record.

Classified and conditionally classified graduate students may be permitted to repeat a course taken for graduate credit only by petition and approval of the school or department committee. Classified postbaccalaureate

students are included for the preceding repeat of a course policy.

Unclassified postbaccalaureate students may be permitted to repeat a course taken as an undergraduate only by petition and approval of the Associate Dean of Graduate Programs. The grade earned will not replace the grade in the undergraduate record. Courses taken for postbaccalaureate credit may be repeated only by petition and approval of the Associate Dean of Graduate Programs. In both cases, the last grade earned will apply to the student's overall postbaccalaureate GPA. Students should inquire at the Office of Records for a complete policy statement covering the repeat of courses.

Valentine's "Sweeties Week" Capped By Sorority's Homecoming Dance

by Elrond Lawrence

Ah, Homecoming.

Can't you sense it...A special feeling in the air, a kind of nervous excitement as the young and not-so-young prepare to usher in a true celebration of spirit and pride.

A special time...when the joys of the present merge with the glories of the past.

Last weekend's Homecoming came hot on the heels of another special time - Valentine's Day - and the Cal State, San Bernardino

community took full advantage of the moment. The Cal State Greek crowd was not one to let the moment go by, either, as the Alpha Phi sorority topped Saturday night by sponsoring a Homecoming Dance in the Commons.

The dance capped the sorority's "Sweeties Week", a week of "Secret Pal" activities put on by Alpha Phi for the Delta Sigma Phi and Sigma Chi Omicron fraternities. At 10 p.m., the dance

opened up to the CSUSB public—but the two hours prior to that all seemed Greek to any innocent passer-by.

Of course, it was. Take in the moment...a hall trimmed in red and white, hearts and flowers posed on table centers...the air filling with an excitement only thought to exist in fairy tales.

Couples dot the floor, their red-and-white fashions echoing the

Cupid-inspired scene. DJs play a mix of music ranging from the jazzy to the romantic—music that receives scant more attention than the layout of homecoming cake and punch.

And all the while, young men and women add to the warmth of the evening...and simply enjoy the thrill of life.

A night that is only making its debut, and already is a tradition. Ah, Homecoming.

National Student Exchange Wants You!!

ATTEND A UNIVERSITY IN ANOTHER STATE

From the looks of your backside, you're muu muu material.

If you've got an In-N-Out Bumpersticker stuck to the backside of your car, you're on your way to winning a Hawaiian vacation for two, including airfare and 6 nights at a great hotel.

Just come on in to In-N-Out, show us your rear end, and get yourself entered in the 6th Annual In-N-Out Bumpersticker Sweepstakes. (If by chance you don't already have a bumpersticker on your car, just ask.)

Then starting February 3rd, we'll be drawing 10 winners a week for 7 weeks. And if you've got the backside for it, you could easily end up sitting pretty on the sands of Waikiki.

Call 818-B-U-R-G-E-R-S for locations

Would you like to attend a college or university in another state and yet pay only CSUSB tuition fees? Do you like the idea of retaining your CSUSB student status while attending classes in Florida or Pennsylvania or New York or Montana or Oregon or Hawaii?

The National Student Exchange program could be the answer for you! Consider these facts: a) 1 expensive out-of-state tuition by paying regular CSUSB fees; housing is your responsibility so you can stay in the college's residence halls or with relatives or whatever arrangements you want; coordinate your classes before you leave this campus so that the classes will count towards your CSUSB graduation.

The campus NSE coordinator is Dr. Theron Pace.

"Current freshmen and sophomores are the best candidates for this program. I would welcome questions—give me a call at 887-7662 or come by my office in PL-101. It is important for anyone interested in the 1986-1987 school year to contact me by March 1."

Dr. Pace stressed the idea that there is no obligation for asking questions!!

Before you make a long distance commitment, make sure you know what you're getting into.

If Fletcher Christian and Captain Bligh had known what being stuck in the same boat would mean, chances are neither would have set foot aboard.

And if you're stuck in the same boat with a long distance company that doesn't give you all the services you need, it's easy to harbor mutinous thoughts.

But when you pick AT&T as your long distance company, you know you're in for smooth sailing. You'll get trouble-free, reliable service. Immediate long distance connections—even at the busiest hours. And long distance operators to assist you with immediate

credit for wrong numbers and collect calling.

And you'll get discounts off our Day Rate on your state-to-state calls. With savings of over 50% during weekends until 5pm Sundays, or nights from 11pm to 8am, Sunday through Friday. And 40% discounts evenings between 5pm and 11pm, Sunday through Friday.

So when you're asked to choose a long distance company, sign aboard with AT&T. With AT&T Long Distance Service, you'll never be left stranded. Just call **1 800 222-0300** for more information or to choose AT&T. **Reach out and touch someone.**

AT&T

The right choice.

Opinion

"There is no escape from lines. They follow you everywhere."

by Sharon Stalcup

Lines. Think lines. Picture all imaginable lines. See straight forbidding lines, see curvy psychedelic lines. Cut white lines on a mirror and wear dark lines of concern. Feel streamlines, meet deadlines. Hurdle goal lines and cross double yellow lines. These crazy things surround us, taking on all forms. When was the last time you looked at a timeline or gazed up at the skyline? Writers are often concerned about their by-line. And aren't all Californians

worried about their tan lines?

Perhaps, with all the aforementioned examples in mind, you may observe this writer's intentions.

The other day, as I stood in a department store line, it occurred to me how much time contemporary man absurdly stands in line. Many people are unaware that lines are a delicate but important aspect of our lives.

There is no escape from lines. They follow you everywhere. If you travel, they are still with you.

In New York, there are chorus lines. In Las Vegas there are pay lines, pass lines. At ski resorts there are lift lines, timberlines, fall lines. Since baseball is so popular we must endure baselines and foul lines.

Even in everyday living there are lines. Power lines and pipelines clutter our world, and our lungs are clogged by invading smog lines. The newspapers are full of headlines. We can phone hotlines, or drop a line to a friend.

Even the clothes we wear are

filled with necklines, hemlines, waistlines-or pantyines. In Monopoly, \$200 will buy you the Short Line, and if you like Tv, there's *Firing Line* or Ted Koppel's *Nightline*.

If you walk the fine line on the hairline of insanity, then maybe, by now, you can understand how hopelessly encircled we really are. Even if we tried to elude lines, they would be there. We have to cross county lines and state lines, but even to do that, we have to take rail lines, cruise lines, airlines, or

buslines. We are defenseless on foot, madly seeking refuge from the existence of lines.

Let's sideline all of this just for a moment. Let's ask ourselves just how well we cope with lines.

Is there such a thing as a sanity line? What happens when we cross the die-line.

Since something less would not be a good storyline, here's the punchline: the inescapable lines in this linear universe often hinders man in his mad dash for the finish line.

AS ALWAYS, WE AT THE CHRONICLE ARE TRYING TO IMPROVE THE QUALITY OF YOUR STUDENT NEWSPAPER. YOUR INPUT IS HIGHLY VALUED, AND GREATLY APPRECIATED.

A.S. is looking for energetic students who want to get involved with Campus publications. The Chronicle needs an Editor-in-Chief for the 1986-1987 school year. The 1987 yearbook is announcing the position of yearbook coordinator. Lastly, the Media Commission needs a student representative. For applications and more details come to the A.S. Office in the Student Union.

FREEDOM GETS BELTED

Letter To The Editor:

Freedom, what is it, and when did we as Americans last take a close look at what we have left. The new seat belt law infringes on our personal freedoms. I agree that far too many people die on our roads and high-ways every year in the United States. We are constantly shown that Drinking and Driving causes death on the roads, and we have been shown that seat belts save lives. But have we as Americans slipped so far as for the law makers of this world of ours to legislate our choice, our freedom. It is your choice that you wear a seat belt. You know what is good for you and you basically know what is not good for you. Do you really need someone or

something else to tell you. No, you really don't. We all know that it is safer to wear them. But do we have to be told that. Have we gone so far in our Lazy ways that we need laws to tell us what is good for us. I, and many others in the sixteen states that have mandatory seat belt requirements, say we do not. Yes I know that my odds for survival on the roads will increase, yes I know that it is safer, But I do not want to be told that I have to do something. Stubborn, possibly, but it is my life and it is my choice. I am a firm believer in Freedom of Choice. When you lose some freedom, you will never get that slight bit of freedom back. It is a moral choice that we make that we either wear seat belts or that we do

not, I do not want my morality legislated or my freedom of choice taken away by others, especially others with different beliefs than myself. Once lost, it will not magically return. You out there as responsible Registered voters must make some decisions in the near future. What will be controlling your lives? Make up your mind. But keep an open mind to others. Evaluate the goods and the bads, and think about the loss of freedoms that it might entail, for yourself and others rights. Try not to be to hasty in making decisions that will solve short term symptoms, but try to think of long term solutions to the problems.

Advertising Features

The Basic Format

Depending on the space available, we will make every attempt to place your ad in the location you choose. Please Note: The Chronicle is a tabloid size publication

and total printing space available on a single page is 10x15 inches. Our columns are 2 inches wide. We request that all ad mats conform to multiples of our standard

column widths.

Ad billing is based on the number of square inches in the mat and the number of times the ad is run.

Total Inches	Cost per Inch
0-25	\$2.00
26-50	1.90
51-75	1.80
76-100	1.70
100-150	1.60
over 150	1.50

*Ask our sales representative about special discount package offerings that can yield substantial savings on advertising rates.

For example, billing on an ad 4" x 3" published in two issues would be computed as follows:

4" x 3" equals 12 sq. in.
12 sq. in. x 2 issues totals 24 sq. in.
24 sq. in. x \$2/in. totals \$48.00

Making The Most Of Ad Dollars

Our Graphic Arts and Design Department is available to assist clients who do not have camera ready copy. A small fee may be charged for this service.

Color can be included in any ad and is available at the rate of \$60 per color.

If color photographs are desired, please remember

that most plates are composed of four colors and require special negative resolutions. These resolutions will be billed at our cost.
