Governor Pete Wilson has signed Governor Pete Wilson's abolishing set asides for minorities. He did and if you have a lot of talent, I like it."

Once again the national media in their effort to "get President Bill Clinton," jumped the gun. Daily papers, weeklies over the nation headlined "President is a Liar." The latest comes from a so-called insider Kathleen Willey.

Every talk show condemned the President based on her word. She is a Democrat with no ax to grind. She is believable. They either ignore her telling B.B. Randle 60 Minutes that she was deserted. Her husband was in financial trouble and ultimately she is responsible for those debts.

Now it is revealed from Associated Press that Willey had been seeking a $300,000 book deal for her autobiography before she went on 60 Minutes to make the charge President Clinton made unwelcome sexual advances in the Oval Office to her. Further that Willey's husband the late Attorney Edward Willey committed suicide in 1993. On the same day the distraught Willey met with President Clinton her husband committed suicide. He was being sued for $275,000 by a client whose $275,000 judgement was spent by attorney Willey to pay his own back debts to IRS. Both the Willey's co-signed a note to pay the client back the $275,000. So Willey the person with no ax to grind goes after the President of the United States and because Sam Donaldson, and religious right leadership won't him to be President they want him to fight them with innuendo, half truths and outright lies.

We're tired of this so-called credible news media bolstering up part of the story of the headlines. Tired of talking shows blaming the President for the actions of the others. We're tired of reading and forcing our children to read about oral sex and where she says the President told her to put her hand. There is no fact, and no reason to continue this kind of coverage without some kind of proof. Right now it's her word against his.

Historians say, no civilization has been able to last more than 1000 years if it has to have wars, we will have to destroy ours, the new ponders and enemies of President Clinton will help destroy it from the inside. Think about it, everyday for hundreds of days since Clinton won the Presidency, Bush Limbaugh and others disparaged Chelsea Clinton, the President had to stop that, the attention is now on Mrs. Clinton; the President had to stop that. The savage attacks continue on him. We need to stop the madness, so we can begin to understand. So our kids don't lose respect for the democratic process.

To Be Equal

The Emancipation Proclamation by President Abraham Lincoln that freed the slaves of the southern states in 1863 is still deeply engrained in the consciousness and spirit of what these United States are/always have been/always will be.

The Act of Congress that abolished slavery was passed over 100 years ago. The victories of the Civil Rights Movement are now being challenged from all sides.

A harsh Senate bill that would treat children as young as 14 like hardened adult criminals by losing them in adult jails, has a serious chance of becoming national law this year unless the community takes action.

Senators Bill 10 (S.10) threatens to wipe out more than two decades of progress in protecting children from adults in jail. The Children's Defense Fund's (CDF) work in the early 1970's to expose the horrors faced by children locked in adult jails, helped pass the Juvenile Justice and Delinquency Act which guaranteed that children would be separated from adult prisoners.

Now politicians are poised to remove those safeguards. The House has already passed a companion bill to S.10 and election-year politics could put this misguided, mean-spirited bill into law.

Besides subjecting children as young as 14 to adult jails, the bill will treat nonviolent offenders unfairly by allowing them to be locked up for up to 14 days, and held in adult jails up to 24 hours. Of all the bases in use by black children are arrested for violent offenses like vandalism and theft. The current politically driven games do not only the strategic decisions drop in crime, juvenile crime, and homicides, and ignores the lessons of the past decade on how to reduce crime," says CDF Assistant General Counsel Kim Wade.

"There's clear evidence that S.10 poses a serious danger to our young people. Children jailed with adults are eight times more likely to commit suicide, five times more likely to be assaulted by prison staff. This bill will make an already unfair system even tougher on black children. Even though black children comprise 15 percent of all children in the United States, they constitute more than half of all children transferred to adult courts. Even when prior records are similar, black youths are more likely than White youths to be arrested, tried as adults, convicted and imprisoned. This bill does nothing to address the higher rate of minority youth confinement.

"One in 20 arrested, only one in 20 is for a violent crime...the bill will treat nonviolent offenders in a predatory way by allowing them to be locked up for up to 14 days, and held in adult jails up to 24 hours to reduce crime," says CDF Assistant General Counsel Kim Wade.

Down to Business: Ron Clay: An Innovator for the New Millennium

By John William Templeton

A venture industry-innovator reception marked the opening of the exhibition, "Turning the Century: African-American Innovators in the New Millennium and at the Dawn of the Industrial Age" in San Jose, Calif. recently.

Honorary co-chairs of the event were Jay T. Harris, owner of KNTV-11 in San Jose and Karu Noguchi, owner of Connecters Inc.

The special honoree for the evening was Roy Clay, chairman of Red-L Electronics, which makes the only Underwriters Laboratories certified high pot test equipment for consumer electronics. As head of computer R&D for Hewlett-Packard in the early 1960s and as a consultant to major computer ventures, Clay helped "green light" some of Silicon Valley's largest companies.

Ironically, a major aircraft company in St. Louis told Clay, a mathematics graduate of St. Louis University, that it had "no jobs for professional Negroes" in 1951. Five years later, he was programming the company's first computer. In 1956, he undertook similar work at Lawrence Livermore Laboratories. By 1961, Clay headed Control Data's programming language development and four years later, he became the first manager of H-P's computer development, working closely with Tom Perkins, later to found Kleiner Perkins Caufield and Byers venture capital firm.

Clay's staff built the first "fault-tolerant" computer system, now a backbone of most worldwide service and financial applications. After leaving H-P in 1971, and before he launched Red-L Electronics, Clay provided technical evaluation that helped venture managers decide where to place their investments.

The stories of Clay and 40 other contemporary and 19th century pioneers are displayed at Lawrence Livermore Laboratories.

Executive Summary: The electrical utility industry in California is changing, by opening up to competition. But while not to worry, the change will not affect the reliability of your electric service.

The Ebony Fashion Fair will be held on Friday, April 3, 1998 at the California Theatre of Performing Arts at 8:00 p.m. The Ebony Fashion Fair is an exciting and entertaining fashion experience, but since its inception in 1985 it has donated more than $44 million to charitable organizations and travels to nearly 200 cities around the world. Mrs. Emmalouise W. Johnson, a premier fashion authority, is the producer and director.

All of the energy of a flapper’s 40’s show plus a jazzy expression of fashions by the world’s most talented designs makes Ebony Fashion Fair’s 40th Anniversary Jazz Age of Fashions an event that must be experienced.
