Chavez speaks out for Proposition 14

Cesar Chavez, leader of the United Farm Workers (UFW), spoke before the St. Edwards Church mass which was held in his honor last week, Oct. 28.

In his effort to promote a "yes" vote on Proposition 14 in the Nov. 2 election, Chavez said, "There's only one real issue on Proposition 14 — whether or not the workers will have a guaranteed right to have a union — to make sure that the workers have the law and the money to operate a union."

He added that a yes on 14 would infringe on the growers' property rights. "Proposition will stabilize the relations of the new workers and the growers," he said.

"There is a connection between you in the audience and the workers," Chavez continued. "Every time you sit at the table and eat three times a day, the food you eat has been touched and contributed to by men, women and children. The terrible irony is: how can it be that they who are the instruments to feed all of us, go hungry!"

Also speaking was Bishop Chavez, who had recently returned from Ecuador. "Let us participate in the vision of Cesar, which is really the vision of Jesus," the Bishop said, "Let us struggle for the success of Proposition 14."

Father Pat Guillaum of the St. Edwards Church declared, "All men are God's children. We are to comfort the afflicted and to afflict those who are too comfortable at the expense of the afflicted."

By Ray Byers

The Veterans Administration (VA) has released information which could save the informed veteran a little money and make life a little more meaningful.

On June 30, 1976, President Ford signed into law the Veterans Housing Amendments Act. Under this law, beginning Oct. 1, 1978, "peace-time" veterans, who served at least 180 days, will become eligible for VA guaranteed home loans. Eligibility is also extended to the unremarried widows of veterans who served in the pacetime period if the veteran died while on active duty or as the result of a service-connected disability.

A VA home loan guarantee under the Veterans Housing Amendments Act may be used to buy, build, repair, alter or improve a home; buy a residential unit in certain condominium projects; or buy a mobile home, with or without a lot.

For conventional homes and condominium units, the VA can guarantee the lender 60 percent of the amount a veteran borrows, up to a maximum of $17,500. The new law establishes the VA's loan guarantee for mobile homes and lots at 50 percent of the unpaid balance up to a maximum of $12,500 on single wide units and $20,000 on double wide units.

A new VA information booklet, "Lending Policies of the Veterans Administration about the New VA Benefits," was made available last July. The booklet reveals that large numbers of World War II veterans have not heeded the warnings of the Veterans Administration about the heavy premium increases they will pay, unless they convert their term policies into permanent plans.
Health services to expand

By Cheryl Brown

An expanded health service will benefit students at Cal. State San Bernardino in the near future. Groundbreaking for the new Student Health Center is tentatively set for January or February of 1977, with an opening planned for the beginning of next school year.

The new center will be located north of the present Commons, and will occupy approximately 10,000 square feet. Dr. Joseph K. Thomas, Vice President for Administration, said, "It will have all the equipment that modern health centers have. We feel that it will be a nice addition to the campus." He also said that the new facility will accommodate the student population up to 10,000.

Architects are doing working drawings of the center at the present time. Dr. Thomas stated that advertising for construction bids will begin in December or January. Actual work on the new building will start in January or February. Construction time will be approximately nine months.

The cost of the new building is estimated at $850,000.

Dr. Ross Ballard, director of Student Health Services, has contributed much to the design and planning of the new center. Dr. Ballard stated that the new health center will be run like a clinic in the community. "The new health facility has four private examining rooms that are not shared, with more space for the health center."

The current health service also provides diabetic and hypertension screening tests, weight reduction counseling, birth control counseling, family counseling. These services are provided to students at no cost, as they are covered by part of the student services fee. This plan also covers 24-hour emergency care at any facility plus ambulance charges. The college offers another extensive array of medical expenses that protects the student and the dependent.

The new health center will provide all of the aforementioned services as well as doing its own lab work, having a pharmacy, and providing much more room for private examination and minor surgery.

At the present time, very little lab work is performed at the health center. Many students needing lab work done must be referred elsewhere, with the exception of women needing pregnancy tests. The new laboratory facilities will enable the staff to perform needed tests, run them, and obtain the results themselves.

A new pharmacy has also been added. Students will be able to obtain prescription drugs at a discount with the pharmacy maintaining these drugs at 10 percent of the actual costs. The current method of dispensing drugs is for the doctors and nurses to write prescriptions, and then a prescription is written, and the student must take it to a regular pharmacy.

A variety of services are available to registrants through the Placement Office. Among them include: job announcement postings, placement file service, assistance in resume writing, advice on job interview techniques, career advice and counseling (in cooperation with the Counseling and Testing Office), and a Graduate School Reference Service in addition. "Job News," a newsletter published approximately twice a month, is sent to registrants seeking positions in business, industry, or government. For educational placement registrants, a special phone service is available which enables them to call in a receive current openings in the teaching profession.

Current senior students not presently registered with the Placement Office are encouraged to do so as soon as possible. No charge is assessed for registering, and the registration process itself is not time-consuming. The Placement Office is located in the Student Services Building, Room 122. Please schedule an appointment to register with Mrs. Marge Watson, department secretary, either in person or by phone (607-7551).

The health center staff presently includes two doctors. Dr. Ballard, one of three residents (on a rotating schedule) from the Loma Linda University School of Medicine, and two nurses. The Health Center hours are from 8 a.m. to 5 p.m. five days a week, with each doctor taking a four hour shift. When asked about night services, Dr. Ballard replied, "We are trying to institute night services, but not services." The health center staff is open from 5 to 7 p.m. These services would be primarily for evening and dorm students, but night services would benefit all students who could not get to the health center during the day time.

Correction

In the Sept. 21 issue of the "Pawprint," the word, "credentialed," was erroneously used referring to the new women's studies program. It should have stated that Cal State, San Bernardino will offer a designated subject certificate (not credential) for vocational teachers.

Services offered by placement office

Current senior students not presently registered with the Placement Office are encouraged to do so as soon as possible. No charge is assessed for registering, and the registration process itself is not time-consuming. The Placement Office is located in the Student Services Building, Room 122. Please schedule an appointment to register with Mrs. Marge Watson, department secretary, either in person or by phone (607-7551).

"Job News," a newsletter published approximately twice a month, is sent to registrants seeking positions in business, industry, or government. For educational placement registrants, a special phone service is available which enables them to call in a receive current openings in the teaching profession.

The Placement Office also makes arrangements for campus recruitment interviews. Interview times are available only to registrants. Please sign up for an interview time in S5-122 at least two days in advance of the scheduled campus visit. The campus recruitment schedule for October and early November is as follows:

Veteran Fair

Virginia Mae Days, director of the State Department of Veterans Affairs, announced that the Inland Empire's Veterans Opportunity Fair is being co-sponsored with the Riverside County Veteran Service Office. The Fair will be held at the San Bernardino Convention Center, 301 North E Street, San Bernardino, today, 3 p.m. to 9 p.m., and tomorrow, 9 a.m. to 3 p.m.
On becoming involved

By Francesco X. Siqueiros

I will never forgive the old and new faces on this campus of ours... indeed!

Something mentioned to me, "You know... it's only the beginning. Everybody is feeling things out, it's just a matter of time before people start getting something going..." BULLSHIT!!

There were no significant changes in the school community during the last school year -- most old faces seem to be as alien as last year. So, I decided to say something at the beginning of this school year.

I think most everybody would know what I am talking about. Many a time, I see us as self-conscious walking sticks, maybe realizing the "block" but afraid to open up. For some reason, there is a distinct possibility that I am projecting (that is, attributing my own hang-ups to others) like crazy, or that I represent a small minority with a small voice, but whatever, I am writing this "whatever" to whatever; get some energy, and believe you me that its energy, and believe you me that just a matter of time before people start getting something going, and..."

On becoming a good student

By Dave Fowler

Had finished my homework, so I needed something to do. I called up Bill Roger and ad in the paper to kill some time before breaking. The former was doing fine, but the latter took a little longer.

At the Anamalgamated Social Biddles table in the basement pinball machines, I heard my friend Big Cheez's big round voice rattling at somebody. As the ASB communication among us on this campus of ours... indeed!

Liberalism is bankrupt

By Jim Austin

The liberal left — ideological movement is bankrupt, morally, intellectually, culturally, you name it, it is bankrupt. This may come as a surprise to inany of those on the right who have been intimidated by the left challenging the left on any major issue.

The reasons for the apparent failure are many. One does not need to search far to find a mass of examples in the television networks, national circulation magazines and newspapers. Liberals are just in the position of being the sole judge of what is considered "respectable opinion" in this country.

Nonetheless, as a political movement, liberalism is bankrupt. Its direction and movements can be explained by inertia, conditioned response and other random influences. There is little evidence of any conscious direction towards any goals. Those in the left-wing spectrum have long ago lost sight of their cause. They do not really have any ideological opposition, no intellectual is a matter of adopting certain behavior patterns, of acting smug, putting on airs, of being the latest fashionable causes, etc.

The students graduate knowing what that consists of. It is a drift. They are people who have no ideas, or who have ideas that are basically indifferent to the implications, workability or ultimate consequences of their proposals. Most of the liberal partisans are intellectual lightweights there is an election year. The Kazoo Band — the donkeys looked like they are people who have no ideas, or who have ideas that are basically indifferent to the implications, workability or ultimate consequences of their proposals. Most of the liberal partisans are intellectual lightweights.

The liberal left had its last intellectual fling in the 1930's with Bertrand Russell and some bankwiring study, Keynes; in sociology, its Max Weber and some bankwiring study, it constitutes "respectable opinion." Nonetheless, as a political movement, liberalism is bankrupt. Its direction and movements can be explained by inertia, conditioned response and other random influences. There is little evidence of any conscious direction towards any goals. Those in the left-wing spectrum have long ago lost sight of their cause. Letters on day care needed

Judy Calkins, director of the California State College, San Bernardino Day Care Center, says interested parents, students and all concerned citizens alike to petition Governor Jerry Brown to allot a 24 million dollar grant that has been recently given to the state by the federal government to be exclusively child care centers instead of being diverted to other state agencies.

Calkins reminds the readers that Assembly Bill 3790 (AB3790 authored by Vasconcellos, Fazio, Hart, Brown, Dunlap, and Petris) was signed by the governor because of the strong concerted efforts of students-parents and other concerned citizens.

"I think all of us would like to let the governor know through your letters that in this area there is a dire need for the establishment of an infant-care program. She said that the problem about infant care is received daily at the Center, which is located at the north end of Kendall School, room 1.

Sue Teele — new program administrator

Sue Teele, a former Rialto lecturer and Cal State, San Bernardino lecturer, has joined the staff of the college's Office of Lifetime Education as a program administrator.

In her new position, Teele will develop and administer educational, physical education extension courses and supervise the external and credential programs in education offered by the college in Riverside and San Bernardino communities.

Teele is prepared to bring education classes to any locality where sufficient interest is expressed.

Report to the coach immediately!

The Wells Fargo Stagecoach, that is. Because, for a dollar a month, you can have a student checking account at Wells Fargo Bank. There's no minimum balance required and you can write as many checks as you want. We'll even send you a statement every month.

The plan also has a built-in "see you in September" feature: If you don't write checks over the summer, we don't charge you, and we keep the account open until fall even if there isn't any money in it. Ask about our special Master Charge credit plan for sophomores, juniors, seniors and grad students. It provides extra money when you need it—a good way to build credit standing. Plus you can have overdraft protection on your checking account at no additional cost until you use it. Wells Fargo Bank. Because every college should have a good coach.

Student checking. $1 a month. Wells Fargo Bank.

San Bernardino Office, 334 West Third Street, San Bernardino
Once a year, the ASB is required to have its financial affairs audited. Here and on page eight is the auditors report for the monies spent by the ASB last year, for those people who are remotely interested in where all that money went.

Certain administrators were anxious to inform students that the $12,771 figure in parenthesis in the "Budget" column, Exhibit "B," page eight) represents money carried over from the previous year rather than a budget deficit.

The ASB budget was audited by Eadie and Payne, certified public accountants, 330 North D St., P.O. Box 1199, San Bernardino, Cal. 92402.

Child Care law passed

Governor Edmund G. Brown, Jr., signed into law Assembly Bill 3790 which allocated $500,000 to the Superintendent of Public Instruction for the expansion and maintenance of child care services on public and private college campuses. This appropriation will provide matching funds (three to one state-local match) which will be used to subsidize parent user fees for low income parents.

Sociology Club meet

The Sociology Club will meet Thursday, Oct. 7th, 12 noon in the Lower Commons meeting room. This group is open to all Social Work, Criminal Justice and Ethnic Studies students within the Sociology major.

Input from Sociology majors, is needed to plan programs geared toward future job possibilities and information related to our field of study, so please come for this meeting.

The College Plan.

The College Plan gives you a lot of bank. You get unlimited checkwriting all year long. But you only pay for nine months.

There's no minimum balance required. You get our monthly Timesaver® Statement. And at many offices near major college campuses you get Student Representatives to help solve your banking problems.

You pay just $1 a month for the nine-month school year. And there's no service charge at all for June, July, August, or for any month a balance of $300 or more is maintained.

During the summer it's absolutely free. Write all the checks you want. Your account stays open through the summer, even with a zero balance, saving you the trouble of having to close it in June and reopen it in the fall.

You get more. You get overdraft protection. and Student BankAmericard® if you qualify. We offer educational loans and many different savings plans to choose from. And we serve you with more than twice as many offices as any other California bank. So if you move, your account can move with you, to a new office that's more convenient. We also offer several free booklets including helpful information on saving money, establishing credit, and finding a job after graduation.

The College Plan Checking Account is what you want. Why not stop by and find out more about it. And let $1 a month buy all the bank you need.

Depend on us.
More California college students do.

BANK OF AMERICA
Nationally known speed reading course to be taught here in San Bernardino

SAN BERNARDINO — United States Reading Lab will offer a 4 week course in speed reading to a limited number of qualified people in the San Bernardino area. This recently developed method of instruction is the most innovative and effective program available in the United States. Not only does this famous course reduce your time in the classroom to just one class per week for 4 short weeks, but it also includes an advanced speed reading course on cassette tape so that you can continue to improve for the rest of your life.

If you are a student who would like to make A's instead of B's and C's, or if you are a business person who wants to stay abreast of today's ever-changing, accelerating world, then this course is an absolute necessity.

In a few months, some students are reading 25-30 times faster, attaining speeds that approach 6,000 words per minute. Our average graduate should be reading 23-30 times faster, attaining speeds that approach 6,000 words per minute.

Are you the type of person who wants to read faster and understand more in English? Phone the office now and reserve your place in the course. The registration fee is $74.383. There will be a limited number of students admitted to the course.

The expiration of the United States requirement for speed reading skills is already being felt by many of the students who have already completed the course. The reading speeds they have attained are so high that they are now competing for jobs in the rapidly expanding field of speed reading.

This course is open to all fields who are not less than 23 years of age. Employees of the Federal Government are not eligible, with the exception of career armed services personnel.

Requests for applications for next year's program must be postmarked not later than November 1, 1976, Application forms and additional information can be obtained by sending a post card to the President's Commission on White House Fellowships, Washington, D.C. 20415.

4,126 bodies registered

According to "The Bulletin," a flyer published by the Office of College Relation, there were a total of 4126 students registered for fall classes on the second day of registration. This figure contains a 6.9 percent increase over the fall of 1975 for the same period.

It is expected that the actual count and the FTE will increase by more than 100 by October 15, for that same period.
