## My Life during Covid-19 Year 2020

This year has not only been a blessing but a cursed this year I had life changing things happen and I am here to tell you what they were.

It all started with a parent's worst nightmare we found out our daughter need surgery to remove abnormal cells that were forming into cancer. Thankfully everything came out okay and she recovered quickly.

In February of 2019 my Fiancé and I decided to set a wedding date for March of 2020. We had a big wedding planned with all of our close friends and family but a week before our wedding the whole country shut down. It forced us to cancel our venue, but we decided to go through with the ceremony and get married regardless of what was going on in the world because you just never know if tomorrow is guaranteed. We had been looking forward to that day for a long time and we did not want Covid-19 to ruin that for us.

## My Life during Covid-19 Year 2020

We also found out that we were pregnant with our second baby January of 2020 and delivered a beautiful healthy baby girl on September 9<sup>th</sup> 2020

Lastly, I found out I got accepted to Cal State in February which I couldn't believe because I just never thought I would be so close to getting my BA.

This year had very amazing things, but it all happened during the worst time and it has made everything very stressful. I would want my two daughters to be able to look back at this and see what we went through during this crazy year of ups and downs. I think dark times makes us stronger we need to fight this darkness and we will see better days.
