Another employee in Southern California has come forth to make the same claim. Kaiser Preventive Services, the government’s subject employees to a hostile work environment. An unnamed employee has filed a charge with the United States Equal Employment Opportunity Commission. According to the employee she was called a "F*cking Black B*tch" by a coworker and when she complained, she was further subjected to racial harassment. The employee reports that Kaiser not only took no action, but retaliated against the offending co-worker in the same department with her. As a result of the alleged realization, the employee’s charges are blatant discrimination denial of her rights to transfer, easing jobs for White and Asian employees, denial of shift assignments, violation of the union contract; denial of union leadership; failure to provide her with a pay raise; refusal to process her grievance, ignoring union rules. She and other African American employees and forcing her to work with someone who called her racist names.

West Coast Black Publishers have reviewed a rash of complaints against Kaiser for similar offenses.

Donna Shalala Visits SB Health Programs

"This is the first baby I’ve had being born free. My cousin makes the first baby to be born in Broward County in the Fontana Kaiser. Kaiser was the first hospital in Broward County where babies were born," Shalala stated. The hospital has been the first hospital in Broward County where babies were born. "I’m very proud of the work that Kaiser has done, but we have to do more to ensure that babies, as well as their mothers and families, receive the care they need," Shalala added. Congresswoman Maxine Waters brought the key message and participate in a spady burning ceremony for the Black and White Rights Project and is participating in this weekend’s "Get Out The Vote" effort at the request of her good friend and colleague Congressman George Brown.

Roderoy Slater Promises More Help to Area

Roderoy Slater stands in front of the St. Francis Hospital in Los Angeles and a large crowd of people.

"We have a lot of work to do, but we have to keep working," Slater said. "There is still much more to be done, but we have to keep working and we have to keep on our goals so we can make significant progress.

In an obvious attempt to smear the good name of Native Americans, and specifically the San Manuel Band of Mission Indians, the San Manuel Band of Mission Indians" 5 campaign backed by the money of Las Vegas operated a commercial demeaning the lives and spending a purported $1 million per member, the San Manuel tribe currently has only 25 members, thus when in truth there are 16,387 registered tribal members. We are proud that our reservation is growing in membership. Indian gaming has provided our tribe with hope that we can replenish our members and still provide for their future well being. Ten years ago the majority of our members were unemployed and without health care coverage," stated Audrey Martinez, Secretary/Treasurer of the San Manuel Band of Mission Indians. "My generation grew up in a world of challenges, and are the future of all Native American children," added Martinez. "The revenue sharing fund is guaranteed to all the tribes. Nevada interests will go to length to make this work for Native American gaming." "Proposition 5 provides the fairest method of sharing revenues with all the people of California including the non-gaming tribes. It is all about protecting the future of all Native American children," added Martinez. "Revenue sharing fund is guaranteed to all the tribes. Nevada interests will go to length to make this work for Native American gaming.

Recent locally 7600 (Fontana) held an information picket for usable labor force and for firing employees who were legally off work, if they didn’t have the time on the books. The company sort declared and the company itself, the management of the Fontana facility took it upon themselves to change the union contract without their (union’s) knowledge. Kathy Shears, President of 7600 was helpful in her objections to the administration. Kaiser has repeatedly said they do not condone discrimination of any kind in their company.

The Black Voice News has run numerous stories and editorials on candidates in the past, but we feel that the best elected government officials should be recognized and endorsed by The Black Voice News. Don’t forget to take a copy of the Black Voice News recommendations to the polls.

PROPOSITIONS

YES ON 1A. As the conditions of our schools get worse, the passage of this proposition is critical to the education of our children. We must give our children and the educational staff a better environment in which to teach and learn. We are recommending a YES ON 1A.

YES ON 2 will help protect our great highway system and stop the bureaucrats from siphoning off previously allocated funds for some other projects. With the increased traffic in the Inland Empire we need highway improvement in our community. We are recommending a YES ON 2.

NO RECOMMENDATION ON 3.

YES ON 4. Current law authorized the use of specified traps to capture or kill certain fur-bearing and nongame mammals. This measure will place new restrictions on the use of traps and poisons. If you know anything about hunting, I’m sure you have seen or even set one of those steel jawed traps that when tripped closes tightly around the animals leg. Some animals will even chew their leg off to get away.

YES ON 5. The Indian Self-Reliance Initiative is as American as apple pie. These individuals who oppose it want Native Americans to continue to rely, as in past years on the man for their livelihood. History tells us that the Indian Nations were relegated to land with limited natural resources by the U.S. Government. For over two hundred years the many treaties signed by our government with the Indians have been broken because of the almighty dollar. We, Black Americans, know about broken promises, we remember the forty acres and a mule, and now that the gaming industry has corrected the poverty rate of the Indian nation, you guessed it, the government wants to regulate it and take it over. We must join in the efforts of our Native American brothers and sisters to support this measure and say YES ON 5.

NO ON 6. There is currently no law on the books in California at the present time that prevents the killing of horses for human consumption. This proposition will prohibit both the killing of horses for eating by the abattoir and selling them to other states for the same purpose. We are not up against eating horse meat, but if you are power to you.

YES ON 7. We have had cleaner air in the past several years and if you would like to see that trend continue you will vote for this proposition. Even though it allocates $218 million dollars for the replacement of older vehicles and put in place new ways to get rid of agricultural waste it will be worth the cost. If you have asthma or any respiratory problems you will appreciate the passage of this Air Quality Improvement Act.

NO ON 8. When I found out that Pete Wilson was behind this proposition I knew it would not be good for Blacks in California. It talks about class size reduction, a new credentialing process for teachers and a estimated cost of $64 million dollars per year to start. It also will place too much authority in this Governor appointed position and take it from your local elected school board members.

NO ON 9. Seldom do we set and opportunity to have a direct vote to help ensure lower rates for our utilities. A No vote on 9 will help maintain progress already made with rate reduction and continuity with other service currently provided. It is estimated that if this proposition is passed taxpayers would have to pick up a previously added tax of $6 billion dollars. I’m sure none of us have that kind of money to throw around. Vote for your pocket like never before.

YES ON 10. The passage of Proposition 10 will more than double the funding for anti-tobacco advertising to help fight teen smoking. More money will be made available for breast cancer research and it will not take anything away from our schools as stated by the people in opposition.

EVIL PEOPLE

To be our best, we must illuminate a path of moral goodness. The most difficult tasks are those that are accomplished with love, discipline, and understanding. Our actions are influenced by our thoughts and beliefs, which in turn shape our behavior. Our beliefs and actions determine our character, and our character determines our fate.

Proposition 9 Spells All Pain, No Gain!

We've been here for more than a century. We've been here for you, and we'll be here for generations to come.

We're Southern California Edison. And electricity has always been our business... but that's not all we do. We do more than light up your home, workplace, and school.

We help make dreams come true throughout our community with support in education, arts, job training, and economic development.

Southern California Edison — quality service backed by a century of experience... and more.

Corporation Domains are provided by the shareholders of Edison International and its subsidiaries.

We are the largest independent provider of dialysis services, with over 455 facilities in the United States and around the world. Valley View Dialysis Center, a Total Renal Care Facility, is located at 2060 Cactus Avenue.

Electricity has always been our business... but it's not our only business.
Young Leaders Conference is attending the conference from Zamora will be among 350 potential and scholastic merit. who have demonstrated leadership program for high school students who have demonstrated leadership potential and scholastic merit. Zamora will be among 350 outstanding National Scholars attending the conference from across America.

The theme of the National Young Leaders Conference is the Leaders of Tomorrow Meeting the Leaders of Today. Throughout the six-day conference, Zamora interacted with other leaders and newsmakers from the three branches of government, the media and the diplomatic corps.

Highlights of the program included welcoming remarks from the Floor of the United States House of Representatives and a panel discussion with prominent journalists at the National Press Club. Scholars visited foreign embassies and received policy briefings from senior government officials. Zamora also met with his Secretary.

REGENCY

Amos Temple CME Church has been well represented in Sunday worship services and a place to call home for many of the city's earliest citizens have retained faithful and steadfast devotion to it and are sustained in their love for God and He has been faithful to them. Amos joyfully moves into the new sanctuary located at 5660 Allison Avenue, Riverside, this Sunday.

Pastor Terry T. Tapley and the members of the Temple will host their opening celebration services for this new sanctuary during the month of November each Sunday afternoon at 3:00 p.m.

For information, contact the church office at (909) 552-4496.
Hallelujah Night at Book of Acts

Upon entry into the Hallelujah Night, participants will have a variety of cultural events to attend, free health care, care information, entertainment for all ages and food and drinks.

The Book of Acts Church is located at 5440 Sterling Avenue, San Bernardino, California. For more information, contact (909) 884-8241. The Book of Acts is pastors by Pastor Harvey Jones.

WHATEVER HAPPENED TO COMMON SENSE?

Take a close look at what’s in Pete Wilson’s latest scheme - Proposition 8:

Mounds of new red tape that will take critical dollars out of the classroom--dollars intended to educate our children.

A chief inspector “czar” for all California schools who is appointed by the governor for 10 years and will cost California taxpayers over $60 million

8,000 separate and different sets of standards and curricula across the state -- determined by local site councils--without regard to newly adopted standards.

Join the Black American Political Association, the San Francisco Black Leadership Forum, the Fresno NAACP, the California Teachers Association, the Democratic Party, and the PTA in opposing Proposition 8.

WE DO NOT NEED ANY MORE RED TAPE!

VOTE NO on PROP. 8

Paid for by Page Two Committee of San Bernardino Teachers Association #031474
This November marks another election year for all American citizens. Do your civic duty, make your voice heard in Congress.

Proposition 9 would be a big step backwards for California...

All we'd have to look forward to is higher electric rates and higher taxes.

It's rare that a ballot measure comes along that creates so much opposition from so many different people and groups.

But Proposition 9 would be such a big step backwards in so many ways it's not surprising it has drawn so many opponents.

Some are concerned about the negative impact of Proposition 9 on electric rates. Others are concerned about the huge taxpayer costs resulting from Proposition 9. And still others worry about the fact that Proposition 9 threatens funding for environmentally friendly energy sources.

The bottom line is, Proposition 9 is a backwards step in many, many ways. Between now and the election, look into the facts. When you do, we think you'll join us in voting No on 9.

Everyone knows the Indian tribes of this nation have been treated unfairly and forced to survive on reservations and broken promises.

The Indian tribes' struggle for equality is not unlike the dream of civil rights: equal employment opportunities, fair housing, education without discrimination, and all the privileges afforded to American citizens.

Today, California's Indian tribes — left to survive on honor, pride, and self-reliance — have kept alive the promise and dream of quality life through Indian gaming on reservations. Indian gaming has allowed California Indian tribes to provide jobs, build schools, and generate tax dollars that benefit all Californians. That's why over one million voters signed the petition to put the "California Indian Self-Reliance Initiative" — Proposition 5 — on the November 3 ballot.

Those who oppose Proposition 5 include Nevada casinos and back room power brokers whose self-interested attempts to defeat this initiative would create major setbacks to the California Indian tribes and continue a history of broken promises.

Many of us know the feeling of unfair treatment, and we all know the Indian tribes have a history of being treated unfairly. On November 3, a "Yes" on Prop 5 is a "Yes" for fairness. Keep the promise. Keep the dream.
Campaining in the Inland Empire

As the political season opens up many activities took place. Looking back, Congressman George Brown invited local ministers to his home and spoke of the importance of this vote. Brown said it was not his purpose to sell them who or what party to vote for but that it is important to get out and inform your neighbors what Brown's program is and what his focus was in getting people voting early.

In town to campaign for Brown was Congresswoman Hazel McDonald. Secretary of Labor Rodney Slater was the keynote speaker at a reception held in his honor as was Secretary of Health Donna Shalala.

McDonald works at St. Paul AME Church. Shalala spoke at the home of Dr. and Mrs. Willie Roberts and Slater was the guest of honor at a reception held at the Hilton Hotel.

One vote can change history.
One vote per neighborhood gave John F. Kennedy victory over Richard Nixon in 1960.
One vote decided if America would speak English or German in 1776.
One vote made Adolph Hitler head of the Nazi Party in 1937.

How Operation HOPE got business leaders to lend more than an ear.

In response to the 1992 riots in Los Angeles, a young banker named John Bryant founded Operation HOPE, a non-profit organization dedicated to the rebuilding and development of underserved areas of Los Angeles. To encourage investment, Operation HOPE began a now legendary tradition of Bankers' Bus Tours. Semi-annually, a group of the area's top banking executives is assembled and, with John Bryant as guide, shown the viability of investing in these underserved communities.

It's working. To date, Operation HOPE has helped bring over $33 million in "micro-financing" and economic education to L.A.'s inner-city areas.

Now this micro-financing approach will be implemented around the globe. This November 9 in Lyon, France, the United Nations Conference on Trade and Development will open a landmark, four-day discussion on its "Partners for Development" initiative. During this international summit, heads of state, world leaders and private sector CEOs will work together to find new ways to assist developing countries and communities around the world. Operation HOPE, along with other micro-financing successes such as Grameen Bank, Bancosol in Bolivia and Accion Internacional, will serve as the model in this worldwide "profit and development" enterprise.

Be part of this social and financial opportunity that allows companies to do well by doing good. After all, you're not just lending money; you're giving hope.

For more information on how to invest in the emerging micro-financing market, contact Operation HOPE by phone: (213) 892-2906, fax: (213) 489-7511 or e-mail: hopela@aol.com. For information on the United Nations summit in Lyon, visit the Partners for Development Web site at: http://www.unctad.org. Or contact Zoraa Amije by phone: 41 22 907 4532/50 or e-mail: zoraa.amije@unctad.org.
