The Black Voice News

Dr. David L. Long, Superintendent-Blc of the Riverside Unified School District, has announced that Diora Valdez-Yeager will serve as Assistant Superintendent for Countywide Special Services. Dr. Long was elected Riverside County Superintendent of Schools in 1995.

Valdez-Yeager currently is Executive Assistant to the Superintendent for the Antelope Valley Union School District in Lancaster, where she has been for two years. She is a native of Riverside. She has been an Administrative Assistant to Ron Loveridge, Mayor of Riverside, and served on the Riverside County Office of Education, announced that Roner Goss will hold investigative hearings on a Los Angeles based ballerina. A memorial service was held Nov. 23 for Joseph Breland, a former reporter and editor for The Black Voice News. 

‘Chloroquine’ is a trade name of chloroquine, a medication used to treat malaria. The drug ‘Chloroquine’ is used to treat and prevent malaria caused by certain kinds of mosquito bites. Chloroquine is also used to treat certain kinds of blood and bone marrow disorders. The drug ‘Chloroquine’ is also used to treat certain kinds of blood and bone marrow disorders.

New Orleans Newspaper

John Jones Dies at 81

News

A memorial service was held Nov. 23 for Joseph Madison "Scopie" Jones, Jr., a renowned newspaper publisher and correspondent. He was born on November 12, 1939, in New Orleans. He was a journalist for over 30 years. Jones was a member of the NAACP's Board of Directors in 1967. He was also a member of the NNPA Board of Directors.

The Black Voice News

Jones agreed to buy Mobil for $5.7 billion Tuesday. A deal that would create the largest corporation in the world and put back together two of the biggest pieces of the world's energy jigsaw. Jones said he would sell the Standard Oil. The deal would be the largest in the company's history. Jones was also a University of California, Berkeley, graduate. He has served on the California School Board Assembly and the Board of Directors of the Children's Foundation Board of Directors, Riverside County's Counselor Board of Directors and YWCA Board of Directors. He has served in the Los Angeles Unified School Board.

The Black Voice News

Jones was said to be a member of the Black community. Mr. Jones launched the Data News Weekly in 1967, a newspaper for the Black community. He is survived by his wife, Agatha Randolph Jones; a son, Joseph Madison "Scopie" Jones, Jr.; and five grandchildren.

Commentary

"I was surprised at the number of companies that were interested in the Black community. Mr. Jones launched the Data News Weekly in 1967, a newspaper for the Black community. He is survived by his wife, Agatha Randolph Jones; a son, Joseph Madison "Scopie" Jones, Jr.; and five grandchildren."

"What happened to the Black community?" Mr. Jones said. "Every time a new company comes on board, it's like a new tide. The new tide is being pushed out by the old tide."

"The Black community is undercounted. We need to face some facts. The world has changed," Mr. Jones continued. "The world has changed. The world has changed. The world has changed."
Counting By The Numbers

By the time this letter reaches you, October 6, 1998 -- a day, a year, a century, no more than a month old. For me, the first two weeks after being shot were long and dangerous. I'm grateful to the Riverside County Hospital, receiving expert treatment and care for my injuries caused by bullets. While my memory of those days, particularly following the surgeries, is somewhat blurred, what is very clear is the critical impact of the hundreds of flowers, gift baskets, cards, letters, and visits I received. I'm convinced that without your support and your prayers, my recovery would not be proceeding as well as it is.

We have much to be grateful for, beginning with the series of heroic actions by public safety officials, paramedics, and other city employees. Their quick, intelligent response in dangerous and uncertain circumstances gave all who were involved a fighting chance to live. The fact that a hospital trauma unit was only five blocks from City Hall was another contributing factor to the miracles that occurred on Main Street that day.

The care I received at Riverside Community Hospital was exceptional. From Jerry Baxter and the trauma team to Gary and Larry with the nursing staff, we've experienced in outstanding care. When the emergency and police ruled out any other possibility of a policy relationship between the Republicans and the Democrats, the question was refocused on the people who lived in the district.
Ministers Explode at Stewardship Explosion Experience

By Cheryl Brown

Preachers in the Inland Empire rarely preach the same Biblical doctrine on any subject, and rarely do they preach side-by-side as it is a special celebration like Christmas or Easter. Recently, 10 preachers from 7 denominations took part in a "Stewardship Explosion" at St. Paul AME Church in San Bernardino. Each had his own particular spin and interpretation of the scriptures each was right on target as they complemented each other's work and preaching. "Stewardship Explosion was a vision God had given me," said Pastor Al Smith of St. Paul AME. "The goal was to teach our congregation and create a bond of fellowship with ministers in the community who may have had more experience on the subject." he continued.

Each night during Stewardship Explosion, one minister was invited to preach while another was to teach. The lines were blurred no matter how they tried to stay within the particular disciplines and the congregation was blessed because of the help. Each allowed the Lord to use them as he saw fit and filled the need. Monday, Pastor Marc Woodward, Rainbow-Day Adventist Church and Pastor Joshua Buckley, Elsinore Christian Center, were the first on Friday with Rev. Percy Harper, St. Mark M.B.C. and De. Dr. Robert Fairley M.B.C. the work was existing. Some ministers who taught began with the classroom setting and carried it through the hands on. Soon the handouts led to the writings of Rev. Smith. The Holy Spirit took control and rich blessings went forth.

Rev. Morris Buchanan of Bethel AME, Fontana said: "I was excited about it (the explosion). It showed that stewardship is not just money but it is the first time you allow God to be in your life." Pastor Mark Woodward said: "I felt privileged and honored to be a part of such a cutting edge inspirational program. We believed at the beginning that was given for money. It was done from a spiritual context." Ministers all week spoke from different scriptures but one thing everyone had in common was: Malachi 3:8-10. Woodward said: in his teaching/preaching that we should be present when we give our money as the offering just like the caged and singing preachers.

Woodson said: he was so impressed he's looking forward to next year. Pastor Smith, his wife, Rev. Beulah Smith and Marvin Byrd a member of the church had been working on the plan for 6 months. "God wanted all faiths and all experiences," said Rev. Al Smith. "I have a few of God," said Rev. Raymond Turner of Temple Baptist Church. "It was innovative, it went beyond stewardship to crossed denominational boundaries and brought together brothers in Christ. It had to be Holy Ghost led — Alvis Smith is a bold fellow.

Turner's message came from Hab. 1:11. Consider your ways. Most ministers took the first part of Malachi 3:10-11. But others like Pastor E. Perle focused on Malachi 3:10-12. Pastor Perle expand on "How to Keep What You Have." You know what you have by giving of your time, talent and substance. God will bless you, protect those blessings and you will prosper. The blessing of all the ministers agreed upon was that you are checkpoint in God. Pastor also thought it (the explosion) was a positive ecumenical approach to develop knowledge and he commended Rev. Smith for bringing this new fresh approach for Stewardship.

Rev. Shermida Edgar said with many committee so involved as a result of the Stewardship Explosion means that people understand the concept because of the teaching/preaching. The commitment is in fruit of that response. "The more people get to understand the concept the more workshops were added to the program and we developed relationships that will be lasting in our community," said Smith. Every night a choir from one of the invited churches provided ministry in song.

Hardy Millender-McDonald spoke at Corporate luncheon on telecommunications ranging from 20 to 90 percent can apply for discounts capped at $2.25 billion annually. School and libraries provides telecommunications discounts for schools nationwide from a fund that is under the Telecommunications Act of 1996, the FCC Universal Service E-rate program. This benefit of technology to education and will result in the next 45 days. All 33 school districts in San Bernardino County submitted applications for the FCC E-rate discount program. This could mean up to $6.4 million in discounts for county school districts for the period of February 1998 through June 1999.

The 1998 San Bernardino County Christmas Tree Recycling Program will focus on the benefits of turning holiday trees into reusable mulch as an alternative to sending them to the landfills. Interested parties are invited to visit a tree location or call 1-800-722-8001 to hear ideas for reducing holiday waste and information on tree recycling and mulch availability in specific areas.

Districts Granted Telecommunications Discounts

Eleven San Bernardino County school districts received over $1.1 million in telecommunications discounts for schools nationwide from a fund that is capped at $2.25 billion annually. School and libraries can apply for discounts ranging from 20 to 90 percent on telecommunications service, internal access and internal connections. was the first of four waves to libraries nationwide between now and January. According to Los Pinos, director of Planning and Development for San Bernardino County Superintendent of Schools, it is anticipated that all funding applications submitted on behalf of the districts will be funded at 100 percent within the next 45 days. All 33 school districts in San Bernardino County submitted applications for the FCC E-rate discount program. This could mean up to $6.4 million in discounts for county school districts for the period of February 1998 through June 1999.

“ar’s a shot in the arm for school districts countywide. These telecommunications discounts help to spread the benefit of technology to education and will result in the opportunity to direct more technology dedicated resources into the classroom,” said Pinos.

Raiders’ Playoff Hopes Damaged by Miami

EX UCLA STAR ABDUL-JABBAR, MORENO AND DOLPHINS’ DEFENSE FUEL MIAMI’S 27-17 WIN.

By LELAND STEIN III
Wajeeh Ahmed is a photojournalist.

OAKLAND — The Oakland Raiders are far and away playing better than in 4-12 showing of last year, just three weeks ago the Raiders stood at 4-2. But backed toward the edge of a first playoff appearance since 1993. But after Sunday’s 27-17 loss to the Miami Dolphins at Oakland Stadium stands at 7-6 and is in danger of missing the postseason.

Quarterback Donald Hollas ended a rough day, throwing six interceptions while getting sacked eight times.

"After my sixth sack, I started to watch the seagulls flying above the stadium every time I was taken down," said Hollas. "I didn't want to watch the seagulls fly above the stadium every time I was taken down.

"I was real lucky. I've always been a great flier anytime you make a cut, you can always get back to the line of scrimmage.

"Miami’s defense forced another turnover on Oakland’s next possession as Linbeck’s Dwight Hollier recovered Harvey’s fumble in the end zone for a touchdown and a 3-0 lead on Jones' 14-yard interception return with 2:38 left before halftime. Miami’s first 24 points came off turnovers.

"The first run, the safety (Albert Lewis) was really lucky. It's always a great feeling anytime you make a

"Our defense was able to force them to make costly mistakes and our offense capitalized on that," said Miami quarterback Dan Marino. "We didn’t change anything offensively this week."

"We’re going through some stuff right now that every team does," Hallas said. "We’re going through some stuff right now that every team does. We’re going through some stuff right now that every team does."

"The difference was our defense. They just made play after big play. Usually when a team suffers a couple interceptions, the life just goes out of them and that’s what happened with the Raiders.

"The Dolphins scored 17 points in less than two minutes late in the second half and all the second half in the two-minute drill. You just can’t win a football game in that situation.”

"After my sixth sack, I started to watch the seagulls fly above the stadium every time I was taken down," Hallas said. "I didn’t want to watch the seagulls fly above the stadium every time I was taken down.

"It was real lucky. I’ve always been a great flier anytime you make a cut, you can always get back to the line of scrimmage.

When it comes to the changes in California's Electric Utility Industry for your business, **You have the power!**

**What has changed?**

Now you can choose your Electric Service Provider (ESP). The ESP is the company that generates the electricity you use. Because many new ESP companies have come into the state, tens of thousands of California electric consumers have already switched providers. As always, the California Public Utilities Commission (CPUC) is on the side of energy consumers, serving as the watchdog to protect you and your rights.

**When and why did this happen?**

Early in 1998, the electric utility industry opened to competition. This provides you with a choice that could potentially save Californians and YOUR small business money.

**How does this affect your small business?**

Small businesses can now negotiate for electricity rates like bigger companies, thanks to "aggregation." This is when your business joins with others to buy electricity as a group. You can contact any registered ESP and ask about aggregation.

**Where can you get a list of ESPs?**

For a list of providers, call 1-800-789-0550 or visit our web site at www.knowledgisOpen.org. The CPUC updates the list daily.

**Who can you turn to for more information?**

The CPUC has information to help you make the right choice for your small business. They have set up the Electric Education Call Center (EECC) and two web sites to give you objective, unbiased, and free information.

Small businesses can now
