TASK FORCE COMPLETES REPORT ON EDUCATIONAL GOALS AND PROGRAMS

The President's Task Force to Review Educational Goals and Programs submitted its report to President Pfau last week.

The report, entitled "The Changing College," contains a series of recommendations directed to the Faculty Senate, various schools, departments and administrative offices.

The President has expressed his thanks and congratulations to the committee for a "first rate job." He added, "Anyone reading the report cannot help but recognize the magnitude of your efforts as well as the excellence of your judgment. I am confident that this will prove to be one of the most significant documents in the history of the College. As we pursue the committee recommendations, the campus will surely become a better place in which to learn and live."

The 85-page report was prepared by faculty and administrators Ralph Petrucci, Richard Switzer, Alfred Egge, Ernest Garcia, Virginia Ingersoll, Roger Lintault, Kent Schofield, Robert Stein, Carl Wagoner, Harvey Wichman, Edward White, and students Donald Blish, Rick Bradley and Christopher Gray.

Dr. Egge, Chairman of the Committee, expressed belief that "The Task Force report represents an excellent team effort and a great deal of cooperation from the entire academic community. I think it is an objective report without bias. I hope it will serve as a catalyst for active and constructive change on this campus."

Copies of the report are available at the Library (Ref: LD/729/C96/ A56). The President's office also has a limited number of office copies for reference purposes.
