CSUSB
ASI president calls for constitutional reform

By William Lundquist
Staff Writer

A personal dispute between President Aaron Watson, President of Associated Students, Inc., and Robert Sadlak, ASI Legislative Director, has led to Watson's call for constitutional reform.

"The personal conflicts were never an issue that I brought up," said Watson. He has no plans to ask for Sadlak's resignation, but he said, "The question is what the president, any president, can do."

Sadlak, as CSUSB's representative to the California State Student Association, believes that one thing the ASI president cannot do is remove him from office.

At the heart of the conflict is an ambiguous ASI bylaw that allows the president to appoint the legislative director, but says nothing one way or the other about removal.

Watson feels that the right to remove implies the right to appoint, much as the President of the United States can fire a Cabinet member.

Sadlak interprets the bylaw as not allowing removal by the president, since it does not outline such removal. He sees the appointment process more like that of a Supreme Court Justice, who once in office is beyond the scope of the executive government.

Sadlak believes that CSSA must remain independent from ASI, since CSSA representatives must occasionally disregard the wishes of their president or student association to pass legislation that benefits students statewide.

Watson thinks a ruling must be handed down from the ASI Review Board to determine what the president, aity president or student leader Mikhail Gorbachev spoke at CSUSB on Nov. 14. He has no plans to seek re-election.

Sadlak's resignation, but he said, "The question is what the president, any president, can do."

Break-in rekindles safety issue

By Kim Kelley
Staff Writer

On Friday, Nov. 3, between midnight and 7:15 a.m., faculty offices 528 and 541 in the library were broken into.

Ralph Nichols, professor of communications, and Tony Huff were the victims of the theft. An Apple Macintosh Plus computer, an external hard drive and back pack were stolen from Nichols’ office. The items were valued at $2,400. To date the report does not include amount for Huff.

The crimes were reported by the custodian in the early morning, according to Public Safety Chief, Ed Harrison. “It has been established that the culprit moved a table to the wall of offices and jumped over the open portion of the partitions. There was no sign of forced entry,” Harrison said.

“The partitions don’t extend to the ceiling so there is easy access over the top into the offices and Jumped over the partitions don’t extend to the ceiling so there is easy access over the top into the offices and the double doors at that point are remain locked,” Harrison said. “An officer checked the areas near the double doors at that point and if anyone out of the area usually makes sure the exterior doors are locked. Public Safety officers then check them later in the evening.”

“An officer checked the door at 11 p.m. that evening,” Harrison said. “It was listed as checked in the officer’s log.”

“I am extremely disappointed about the theft,” Nichols said. “My biggest question is why or how someone has access inside the double doors at that hour. The campus police should be responsible for checking that the doors remain locked.”

According to Harrison the case has become inactive because there are no leads.

“We still need to get information from Mr. Nichols and Mr. Huff regarding serial numbers to put in a statewide computer system,” he said.

**KSSB Program Schedule**

**Wednesday:**
- noon - 2 p.m.: John Grifone, Alternating Rock
- 2 p.m. - 4 p.m.: Dr. Chao, Alternating Rock
- 4 p.m. - 6 p.m.: Ralph Nichols, Alternating Rock

**Thursday:**
- noon - 2 p.m.: Tony Huff, Alternating Rock
- 2 p.m. - 4 p.m.: Mike Bucur, Alternating Rock
- 4 p.m. - 6 p.m.: Penny Drake, Alternating Rock

**Friday:**
- noon - 2 p.m.: Bad Billy, Folk Music
- 2 p.m. - 4 p.m.: John Shafter, Alternating Rock
- 4 p.m. - 6 p.m.: Penny Drake, Alternating Rock

**Saturday:**
- noon - 2 p.m.: John Shafter, Folk Music
- 2 p.m. - 4 p.m.: Penny Drake, Alternating Rock
- 4 p.m. - 6 p.m.: Penny Drake, Alternating Rock

**Sunday:**
- noon - 2 p.m.: John Shafter, Folk Music
- 2 p.m. - 4 p.m.: Penny Drake, Alternating Rock
- 4 p.m. - 6 p.m.: Penny Drake, Alternating Rock

**Monday:**
- noon - 2 p.m.: Penny Drake, Alternating Rock
- 2 p.m. - 4 p.m.: Penny Drake, Alternating Rock
- 4 p.m. - 6 p.m.: Penny Drake, Alternating Rock

**Tuesday:**
- noon - 2 p.m.: Penny Drake, Alternating Rock
- 2 p.m. - 4 p.m.: Penny Drake, Alternating Rock
- 4 p.m. - 6 p.m.: Penny Drake, Alternating Rock

**CALENDAR**

**Today**
- ASI Finance Board - Will meet from 10:30 a.m. to noon in the Student Union Senate. For more information: Ms. Majala, ext. 5940.

**BSU Meeting** - Will meet from 3 to 4 p.m. in the Student Union Rooms A & B. For more information: Ms. Majala, ext. 5940.

**LBSA Meeting** - Will meet from 3 to 4 p.m. in the Student Union Senate. For more information: Ms. Majala, ext. 5940.

**Ethnic Cultural Committee Meeting** - Will meet from 4:15 to 5:30 p.m. in the SUMP and Student Union Senate. For more information: Ms. Majala, ext. 5940.

**Women’s Basketball vs. CSUDH** - Game will begin at 7:30 p.m. in the Large Gym. For more information: Ms. Romono, ext. 5011.

**Monday**
- International Students Meeting - Will meet from 1 to 2 p.m. in the Student Union Senate. For more information: Ms. Majala, ext. 5940.

**Tuesday**
- ASI Computer Demonstration - Will begin at 8 a.m. to 8 p.m. in the SUMP. For more information: Ms. Majala, ext. 5940.

**Marine Corps Recruiting Visit** - Will begin at 9 a.m. to 2 p.m. at the lower steps of the Student Union Library. For more information: Mr. Thomson, ext. 5236.

**AS BOD** - Will meet from 10 a.m. to noon in the Student Union Senate. For more information: Ms. Majala, ext. 5940.

**AS Cabinet Meeting** - Will meet from 1 to 2 p.m. in the Student Union Senate. For more information: Ms. Majala, ext. 5940.

**SPEEDY RESEARCH**
- Reports: $4.00 per page
- Over 50,000 topics and clippings
- Materials for research
- 9 a.m. to 5 p.m., Monday through Friday
- 6546 Hollywood Blvd., 2nd Floor, Room 209
- Los Angeles, CA 90028
- Hours: Mon- Fri 10:30-6:30
- Sat 11:00-4:00
- Call Toll Free: (818) 463-1257

**BRIEFS**

**CSSA Trip** - Students interested in joining the CSSA Lobbying Trip to Sacramento should pick up applications at the ASI office in the Student Union. The trip includes a visit to the state capitol, the California Museum of Science and Industry, and a meeting with members of the California State Senate and Assembly. For more information: Mr. Nichols and Mr. Huff regarding serial numbers to put in a statewide computer system, he said.

**STATE Work-Study Funds Now Available** - The California State Work-Study Program can offer career related jobs with employers in the community. Students who are California residents and are receiving financial aid should make an appointment with Kevin Baker or Sandy Weiser at the Financial Aid Office to determine their eligibility.

For further information, contact Kevin Baker or Sandy Weiser at the Financial Aid Office, 880-5222.

**Coyote Forensic Team** - The Forensic team recently placed second out of 28 colleges and universities in a tournament held at Cal State Northridge. Lisa Sneli saw that third place in open persuasion bring her closer to the nationals. The next trip for the team will be to the Governor’s Cup Tournament held the last weekend of January in Sacramento.

**MECCH MEETING** - Will meet from 3 to 4 p.m. in the Student Union Senate. For more information: Ms. Majala, ext. 5940.
Have you heard the one about the cow, the Frenchman, and the bottle of Budweiser?

It goes something like this.

In 1872, a Frenchman by the name of Louis Pasteur discovered a way of keeping bottled beer fresh for an indefinite period of time. He called the process "pasteurization." A year later, an American brewer by the name of Adolphus Busch got wind of the idea and he soon began using it to bottle his own beer. Together they started a revolution in the packaging of fresh goods. In fact, 22 years later the dairy industry would jump on the wagon. That's where the cow fits in.

It's an old story, but an important one. Because every time you pop open a cold Bud, you know you can count on a fresh tasting beer. One made with no additives, no preservatives. And with quality in mind. And that's no joke.

Pasteurization. It's just one of the reasons why Budweiser has remained the King of Beers, for over 110 years.
Safety up in lights

By Kim Kelley
Staff Writer

In 1981, a large project to conserve energy was conducted on campus which reduced the level of illumination of campus lighting. Because lighting has been a big concern among the campus community, a phased program to improve lighting was implemented on campus.

This program is in its third year, or phase, and is an ongoing program, according to David DeMaura, director of the Physical plant at CSUSB.

All exterior lights on campus use a high pressure sodium bulb. "This bulb gives us the lowest operating cost," said DeMaura. "In comparison to an incandescent bulb it is seven times better operating cost because of the amount of time the bulbs last as well as the amount of electricity they burn," DeMaura added.

There is a bulb which is more cost effective called the low pressure sodium, but it was felt that this bulb was of poor quality.

The high pressure sodium bulb is what gives the lights their yellow glare.

To determine the amount of illumination and positioning of lighting on campus both safety and cost are taken into consideration. "It is basically a balance of both of these things that we consider. The students safety is important as well as being cost effective," DeMaura said.

Ed Harrison, Campus Safety Police Chief, said "more activities are held at night, so there is a higher possibility for crime at that time."

The recent faculty burglaries took place during the evening hours. "That's why most officers are staffed at night," Harrison said.

The decision for additional lighting involves several areas of input: the physical plant, public safety, students, the administration, and others. The monies for existing lighting are distributed by DeMaura each year.

The students feel the safety is important as well as being cost effective. "The students feel there is a need for more lighting in the evenings," said Ed Harrison.

"It is basically a balance of both night and day," Harrison said.

Adams: an example to be followed

By Richard Kontra
Staff Writer

Whether he's on or off the court, Troy Adams is always moving. He can be dribbling past opponents on his way to the basket, or walking past students on his way to his classes. However the case may be, Adams knows what he's doing.

Adams is a senior and points guard on the Coyote basketball team. Adams knows his role on the court very well. He received the coaches award last year for his role, as he says, in "keeping up morale." After four successful years at Rubidoux High School, Adams is leaving for college. All Citrus Belt League Player for his final two years and was four time Most Inspirational Player. It was clear that his leadership qualities were important.

As well as being a team leader, Coach Jim Ducey says, "He works as hard or anybody and leads by example." Ducey, after observing Adams for the past four years, sees that Adams' ball handling and shooting have improved.

Adams has come to terms and realized that basketball is not his whole life. He is a very much a family man and participates whole-heartedly in his family's go-cart business. Adams is the track manager and says his job is to assist. "Keeping maintenance up," His family has owned and operated the track for over thirty years.

Adams is a marketing major and hopes to own his own business one day. He realizes, being a senior, that his day as a high school player is no more than now ever before.

Adams also sees the need for positive role models in today's society. He believes people need to focus on where they want to be in the future.

Adams wants to be able to project a positive image on younger people and he thinks it is important to have a positive outlook.

For now, Troy Adam's is looking toward the upcoming basketball season with eagerness.

Civic Light Opera provides meeting place for art devotees

By Jen Fairfield
Staff Writer

The Civic Light Opera is a place for art devotees. Indeed, lovers of square-dancing, "Stinger" covers mostly middle eights-style music, and it's a hoot to see those senior citizens fox-trotting to "Like a Virgin".

The club also sponsors scholarships for music-minded youths.

Opinion

Is this page a waste of space?

By Kevin R. Homey
Editor-in-Chief

If you look around this story, the rest of the page is pretty much devoid of anyone else's opinion. Below this story is an editorial cartoon, displaying the opinion of a Chronicle staff artist. To the left is The Chronicle's staff box. Where's the student's opinion? Where's the heated arguments and rebuttals over hot ideological topics? This page is labeled the opinion page for a reason. This page is set up to allow you, the typical college student an opportunity to sound your voice on topics that you feel strongly about. It's a page to gripe about parking, about safety, about the person behind you in PS 10 spilling a coke and soaking your books and backpack. It's a place to bring up the topic of abortion, of date rape, of racism. It's a place to write rebuttals to others' opinions, and to read their responses. In general, it's a place to not only learn how other students actually write in to the newspaper is when they feel insulted or cheated. Why is this campus devoid of an opinion for 360 days of the year, and then suddenly explodes virtually overnight?

I'm not going write an editorial, nor assign an editorial to be written solely to insult or aggravate people into responding. That's not my style, nor is it the style of this newspaper. What I'm trying to do is to simply entice opinionated members of this university to inform the rest of us how they feel on issues and occurrences in their everyday lives. I sit every day in the Pub and eat my lunch. Every day I hear comments about this, comments about that, why doesn't someone do something about this or that? People come up to me as I walk across campus and agree or disagree with my commentaries, and they go into some incredible detail as to what they think or believe about it, but come the deadline for submissions and nothing at all comes in.

According to others in the student services field, the apathy in wide spread. Associated Students, Inc. has several boards and committees that are inactive this year because no students have wanted to get involved. In fact, most students who get involved get involved in several different capacities because they are in such high demand.

The elected officials of ASI have exhausted all of their recruitment ideas and have all but given up on trying to fill these positions.

The problem is simple, but so is the solution. If you want something changed, tell the appropriate people. If you want more parking, tell the administration, not the students you eat lunch with. A letter to the editor will not only inform your lunch-mates and the administration of your opinion, but will form part of the rest of the student body. Your letter just might cause other concerned students to write in as well.

As Johnathan Murtagh wrote in his parking editorial, "not one letter does a change make." We need to use the power of the students' voices. My comments about any of these matters will not cause anything to happen, but if every twenty letters (that's slightly over 1 percent of the student population here) has a much greater chance.

Please, use this page. Spend an hour a week, or a month, and write a letter. You will, in some small way, contribute to the educational process of your fellow students. Their responses to your letter can do the same for you as well. Let's make some changes and work together to do something for this university.

The Chronicle

Opinion Policies

The Chronicle welcomes views from readers on a wide variety of topics. Letters and commentaries may be sent to the editorial office at 5500 University Parkway. Letters must be typed, signed and must include phone number, class standing and student I.D. number. Faculty or staff members must include job titles. All letters should be as brief as possible and are subject to editing for purposes of condensation and layout.

sone kind of international knowledge, and exposure in addition to their functional discipline such as management, marketing, finance, etc...

Dr. El-Ahraf, associate vice-president of Academic Affairs, said, "I am inspired to study international students who study in large urban campuses such as UCLA, Berkeley, and Harvard. CSUSB Bonita don't have as much exposure to international students. There is a great number of international students at the larger campuses who provide students with exposure to different cultures.

The IP is a wonderful opportunity for students to take advantage of. Bussay said, "The Chancellor's Office is promoting the IP because of the vital necessity for the American college graduate to be aware of and sure to foreign culture due to the rapidly changing world market. For America to maintain a competitive edge while faced with increased worldwide competition: understanding and appreciation of other cultures is imperative."

LIGHTING

Continued from page 4

The parking lot that will soon be paved by the P.E. building will be an addition to the IP. The parking area seems to be the biggest cause for concern regarding lighting. "When the seasons change and the trees add more foliage, the lighting in the parking lot is going to be dimmer," DeMaura said.

If students have a concern regarding lighting on campus, CSUSB encourages them to call them at 880-5166.

Most students do not realize that the costs of study­ ing overseas are tangible. There are no overseas tuition or administrative costs, students, of course, current CSUSB campus fees, round­ trip transportation, and living expenses. Financial aid that is available on campus is applicable overseas.

To be eligible to study overseas a student must have a cumulative grade point average of 2.75 or 3.00, have upper division or graduate standing by the end of the spring quarter, and have the necessary prerequisites which include having college level foreign language in the chosen country. The deadline for application is Feb­ ruary 1, 1990.

For information and applications contact Dr. Bas­ sery at 887-6131, Coordinator of International Program campus coordinator Dr. Richard Rowland in FO205, students should contact Dr. deMaura in PL 107, ext. 5034. Brochures and information are available at the Student Union.

The biology building has a new spotlight and the li­ brary has 4 new spotlights which are all working. The Student Union lighting has been improved with one­ third more illumination. The Creative Arts building is also being improved and the Physical Education building is next to see additional lighting.

The parking lot will that be paved by the P.E. building will be provided with additional lighting. The parking area seems to be the biggest cause for con­ cern regarding lighting. "When the seasons change and the trees add more foliage, the lighting in the parking lot is going to be dimmer," DeMaura said.

If students have a concern regarding lighting on campus, CSUSB encourages them to call them at 880-5166.

Aussies beat Yotes at home
By Kevin R. Horney

CSUSB men’s basketball team got a good look at Australian ball as it dropped its opening home game to the Australian Men’s Youth Team, 89-88.

The Yotes entered the game Sunday night with a 1-1 record following the Master’s College tournament. CSUSB defeated Bethany Bible College 96-90, before being defeated by the tournament hosts 81-80.

CSUSB started off in a bad way as they threw the ball away several times. The Yotes had trouble getting anything going at all as their offense sputtered and their defense had trouble adjusting to the Australians’ outside shooting.

Dave Webb got the Yotes defense back on track with a three-point basket after two minutes of play. The Australians retaliated immediately with a three-pointer of their own, but Greg Rowe and Jim Falvey teamed up to continue the surge. Ron Ligon’s second basket brought the Yotes even with the Aussies, and Falvey’s three-pointer put the Yotes up by one; 23-22.

The Yotes defense sprang to life as Troy Adams and Ben Stokes came in from the bench. Adams and Stokes, both 5’10” guards, combined to force five Aussie turnovers in a one minute period. The second half proved worse for the Yotes as they went 0-5 from the field in the first 30 seconds. The Aussies were much more efficient as they stretched their lead to 36-30.

CSUSB runners finish season
By Orin Smith

The CSUSB cross country team ran their final race of the season on Nov. 12 in the Stater Bros. Shopping Center. The men’s team placed 19th in the nation. At Montana, Schwartz tallied a 69-42 record during his four years at the helm and was in and out of the top twenty in the nation.

Before Schwartz began his coaching career, he learned how to win on the court from personal experience. He moved to Boulder, Colorado, to the NAA playoffs and then continued his playing career in the professional leagues of the European International League, based in Iceland, and lead Iceland as he scored 38 points per game.

With his winning ways intact, both as coach and a player, Schwartz hopes to lead the lady coyotes to another winning season this year.

“Anytime you have a coach of that caliber, with a record like his, you know that he can win. He has changed losing programs into winning ones; he’s a winner,” said Dave Byer, CSUSB sports information director.
