This year marks the seventy-first year of the American Seventh-day Adventist Church in the Empire Island Chinese Church, and the church will hold camp meeting. The camp meeting is a time of family reunion, spiritual and physical health, and speculating about life and death. It is a religious event in the traditional of the Israelsite camps. People will be here from all over California, from Arizona, and Oregon, their families, along with普通话, Pastor President for Black Ministers of the Southern California Conference.

This year's theme is “Fit For His Coming.” We plan to have seminars on teaching, training, social, mental, andphysical part of life until Christ returns.”

He said that for end of the year, we will hold a Black Business and Health Expo on November 15th, and the coordinator, Economic Development, showcases African America’s contribution to the quality of life. We have many Black business owners who need to get the message of these goods and services as we need to support Black businesses in our communities can be viable. To this end we are opening our doors to anyone who has a business that doesn’t conflict with the teachings of the church,” he said. Booths are available and everything from books, food, clothing, are available.

Also, Advent are known to live 7 years longer than the non Advent population that the importance of lifestyle and diet. "It is our goal to make sure that Black health promotes our lifestyle. We plan to offer information that will enhance every dimension of a healthy lifestyle,” said Painter.

For the first time the camp meeting will be held in the locations Drayton Centers, 100,000 sq. physical fitness center, which is for the King. They are excited that the building will be opened for the first time.

The facilities will be open for a small fee for everyone to use.

Robbie Kennedy was forced to attend the meeting when he said that he was feeling better in the court.

At the height of the civil rights movement in the early 1960s, activists encountered violence when they protested hard for reform, even as government officials had to be stopped.

Faced with growing criticism, Smith, a Congress of Racial Equality member, said that the whites had become more bold and heated, and a number of friends of scared mixer, Baldwin.

Among them played playwright Lanford Hunt, psychologist Kenneth Clark, singer Harry Belafonte and Lena Horne and actor B.B. King. There are many issues confronting the African American community throughout the nation and in local communities that are critical to our program as a whole. The great divide of Secretary Parker and the ranks that President Clinton spoke about recently addressed the great divide that exists between blacks and whites. For example, it was reported in a recent Conson Daily report that the White middle household net worth is a $45,000 as compared to $4,758 for Black. This disparity is worse than it was in the 1980s. Dan White wants to address the confidence flag in public now as this was not the rhetoric they have used in the public forum. We have corporate America downplaying the stated purpose of reducing cost to stay competitive but the result costs Black’s jobs. The passing of Proposition 209 in 1995 to remove Affirmative Action as a remedy to delineate past race discrimination as a criteria in college enrollment, has resulted in only one Black being enrolled at the University of California Berkeley, Rich Law School in 1997.

These issues and others like the crisis at San Bernardino Community Hospital closing, the racial disparity in the Riverside Police Department, drug, crack babies and boys having babies, is disastrous. But, the latest one involving the San Bernardino NAACP and Status Brothers market takes the cake.

Several Black men employees of Status Market Inc., the local chapter of the NAACP to seek help is investigating employment practices they believe to be discriminatory. The NAACP accepted these allegations on the spot and after a brief investigation. The president of Status Brothers Market, Jack Brown (no relation) then contacted local Black business leaders to do business with and requested of them to call a joint meeting with the NAACP to discuss these charges. Status Brothers Market, Inc. is the same company that he told us everything is O.K., at Status Brothers as it relates to their treatment of Black employees. The president of NAACP agreed to meet where he reviewed their policies and then re-filed a press release that said everything was O.K. at Status Brothers. Well, the sub-committee members of the NAACP said to their president that this is not the way things are done in this country. It is against all policies. A statement that indicated that they had investigated the complaint but could not confirm the policies and procedures.

My question is why?

The history of this great conundrum.

When a large business attempts to seek out and use their business relationship with other Black businessmen in order to avoid a lawsuit by not being investigated, it gives us great confidence. It gives the impression that money can keep some Black footsies off of other Black suits. It gives the impression without evidence that the complaints are wrong. Corporate America has come to believe that they would believe Status over the Black men without investigating the allegation. It is sad. This is not the way corporate America is run. They have not even sought or sought to resolve the complaint with an interview will lead other Blacks to not treat the NAACP. I am glad to see that those sub-committee members who have experienced the ugly situations of discrimination are still active to provide council to the youth leadership. These seasoned members know the price that can be paid when you do not pull your punches and try to kick off the farm tomorrow. “They know that some things are not safe."
Carpal Tunnel Syndrome (CTS) is an entrapment and compression of the median nerve due to a structural and positional misalignment brought about by overworked and overstretched muscles of the arms and hands, leading to a muscle strength problem. Persons who perform continuous repetitive movements are at high risk to develop CTS. A carpal tunnel syndrome workshop will be held on July 17, 1997 from 12:00 p.m. to 1:15 p.m. at 3551 Main Street, Riverside. If you know of anyone or believe that you may be suffering from carpal tunnel, then you want not to miss this informative seminar. In school, teachers put things in our way to teach us how to think well. In math, a problem is a statement requiring a solution; in logic, a proposition requiring something be done. In psychology, a work characteristic is to be discovered. If asked "What is a problem?" I would say it is a question or a problem-solving approach that would be used to use the "I" Concept with spiritual problems or the horizontal破碎者 and worldly problems (vertical relative) faith. A spiritual problem example would relate to moral standards — "Should I do what others are doing or do what is right?" In dealing with worldly problems I would use the Life Triangle Concept that subdivide nature, people, things, and work or get into other some activity. Do the personally for work. Minority-Owned Banks Form Joint Partnership

Sumitomo Bank of California announced that it is reaching out to California's diverse communities by investing $400 million in Founders National Bank in South Los Angeles, the only African-American-owned bank in California. In exchange for the investment, Sumitomo will receive 4,000 shares of Founders' preferred stock.

"Today is merely the first step in coming to what we expect to be a long and fruitful partnership," said Tsuneo Onda, president and chief executive officer of Sumitomo Bank. "Our investment provides Founders with the capital they need to grow, and gives Sumitomo a chance to increase its interaction with California's diverse population."

The infusion of cash will expand Founders' lending ability and provide Sumitomo with a chance to partner with Founders on a number of ventures.

"We are already evaluating a number of possible joint programs that will benefit both banks, including co-lending arrangements, cross-cultural and cross-training programs between our banks and correspondent banking arrangements," Onda said.

Carlon Jenkins, president and chief executive officer of Founders National Bank, lauded the investment. "Sumitomo's historic investment of $400 million gives Founders an additional capacity of $6 million, which translates into more services for our customers," Jenkins said.

"In addition, joint partnerships with Sumitomo will allow Founders to be more competitive and aggressive on the $1 million-plus deals," Jenkins added. "Sumitomo's actions are a clear indicator of their commitment to a continually diversifying community," Jenkins said. "We look forward to a mutually beneficial venture."

The partnership with Founders Bank is only the latest community commitment Sumitomo has made this year. In March, Sumitomo Bank officials announced that they were doubling the bank's community-reinvestment commitment from $500 million to $1 billion by the year 2003.

Colman Peterson Elected as Trustee of NAACP

Colman Peterson, Senior Vice President People Division/Commt Wal-Mart Stores, Inc., was welcomed as a new trustee of the NAACP Special Contributions Fund (SCF) by its Chairman Lenny Jackson during a recent Board of Directors meeting in Arlington, Texas. According to Chairman Jackson, Colman Peterson represents the type of leadership important to the goals of NAACP and a corporate partnership with the African American communities.

As a senior executive, Peterson is responsible for the growth and cultural development of over 700,000 associates throughout the Wal-Mart organization.

A Bill of Divorce

**Questions & Answers**

**QUESTION: Door Painter Wood**

What is a "Bill of Divorce"? A "Bill of Divorce" is a legal document that a man gives to his wife when he no longer wants to marry her. Can you explain this practice?

**A.J., Richwood**

**ANSWER: Deuteronomy**

24 - 1 - 4 and Matthew 19:3 - 9 speak of a "Bill of Divorce". A "Bill of Divorce" was the letter from the husband stating that he had divorced his wife and she was not to marry another man. Without a bill of divorce, the remarried, the new relationship would not be legally seen as a union by the church which carries a heavy penalty - death (Leviticus 20:10).

Jesus said it best, "Moses because of the hardness of our hearts allowed you to put away your wives, but from the beginning it was not so" (Matthew 19:8). It is God's will that a man and wife remain one till they both die, becoming one flesh' agreement.

Unfortunately, we live in a society that considers divorce. It is very, very simple to get a divorce in America. In America, many Christians have forsaken the moral standard of the Bible to satisfy the cravings and inclinations of their flesh. As a result, "What God has joined together let no man put asunder" (Matthew 19:6).

**Variation of Criminals Change under the Power of Christ**

By Cheryl Brown

Statistics show an increase in violent crimes in the coastal wards of the California Youth Authority. In fact wards throughout the former Harlem Youth Training School located in Los Angeles County say that the wards are coming in and younger and have committed more violent crimes.

Statistics from 1994 show 15% of wards are White, 30% are Black, 46% are Hispanic, 6% Asian, 1% Filipino, and 3% are Pacific Islander. It is said there are more Black or the men than in college. Getting in trouble and going into the Youth Authority determines the purpose of those who turn to a life of crime because they don't want to go to school. Guess who? They are all required to go to school before a least a GED and many have earned GEs and Mom's Degrees while there.

Statistics from the California Youth Authority is to protect the public from criminal activity by providing education, training and treatment services to help the development of state and local programs to prevent crime and delinquency.

To that end, Rev. Leonard Williams, Assistant Superintendent, answers a question, his mission is to serve in the wards of Jesus Christ. "I'm concerned about each of the wards who are here," said Rev. Banks, "I want them to have an experience what incarnation is like.

His words have not fallen on hard ground at least 300 charges have accepted the Lord. Beverly Woods, Black Youth News talked to several of the wards about their lives how they came to the facility and the message they shared can be shared and how of rebellion, going along with drugs, gangs and once they began to control their affairs. After the Lord changed and they became successful, they spoke with good from good families.

They came from different cities and states under different circumstances. "A "Bill of Divorce" of this subject. A "Bill of Divorce" was a letter from the husband stating that he had divorced his wife and she was not to marry another man. Without a bill of divorce, if she

Jackie Robinson Exhibit Headed for San Bernardino

A multi-media exhibit honoring Jackie Robinson on the 50th anniversary of his breaking major league baseball's color barrier is on its way to San Bernardino!

The educational and cultural exhibit will be shown at the San Bernardino Baseball Stadium from Sunday, July 20 through Friday, August 16 thanks to the Simon Westrud Museum of Tolerance in Los Angeles. Mayor Tom Mike and the City of San Bernardino Human Relations Commission collaborated with local educational and business sponsors including the San Bernardino City Unified School District, San Manuel Indian Bingo & Casino, Stampede Baseball, African American Museum of San Bernardino, San Bernardino Economic Development Agency, Inland Empire Busway, City Beverage Distributors, Westside Action Group, Southern California Gas Company and California State University-San Bernardino and Mega Force Security, to bring this attraction to town. Advertising support is being provided by The San Bernardino County Sun, KESQ, The San Bernardino Arts Chamber of Commerce, Terra Tech, the RedRover San Bernardino Committee, and others.

The exhibit entitled "Stealing Home: How Jackie Robinson Changed America" concluded a 3-month engagement at the Simon Westrud Museum on June 30th, and will begin a year long, nationwide tour with San Bernardino as one of the first cities on the tour. Baseball fans and historians are likely to attend the 1,000 square-foot exhibit which will be specially configured for the San Bernardino Station. Exposers and baseball fans will have the opportunity to see, up close, Robinson's uniform, bat, glove and shoes. "We're receiving calls daily from citizens seeking information about the exhibit and expressing their excitement that it is coming to San Bernardino," said Mayor Tom Mike. Pre-opening day events (including school group tours being planned by the city school district are in the works). For exhibit information, call the Human Relations Commission at (909) 384-5004.

San Bernardino PeaceBuilder Wins Trip to D.C.

Delta Air Lines has sponsored the PeaceBuilders® Program as part of their commitment to the community. Mosley Elementary (located at 2119 West Blake Street) was selected for this award by Mayor Tom Minor and the City Chamber of Commerce, City Beverage Distributors, The Black News, and Westside Story Newspaper.

As electifying hush fell over the students as they breathlessly waited in anticipation for the announcement of the winner of the PEACEBUILDERS® Drawing To Washington, D.C., sponsored by Delta Air Lines. Who would it be? The winner's name was called out amidst cheers and applause.

Her name is Jocelyn Castellon, a 5th grade student and the first student in San Bernardino county to win this drawing. "We are so excited. Nothing like this has ever happened to our family before," stated her father, Francisco Castellon, as he moved in emotion, with tears in his eyes. Mr. Castellon has worked hard as a construction worker to keep food on the table for his family of five children. Jocelyn, supervised, cried with tears of joy, as she was joined by her mother, Ana Hernandez and her father on stage to receive her award.

Morris Day and the Time LA a Taste of Cool

By Roberto Carlos Hernandez

If the goal of Club Benson & Hedges was to bring Los Angeles some of the most surprising R&B and funk acts of all times, then light upon another success for this show. Last Sunday, time did not stand still for either the crowd perched at Billboard Live as Morris Day and the Time, sound and deeper as ever, paved the stage with their style and flair.

The opening act was a surprise as many to the tastes, focused on Eddie Griffin and the Scattered Minds. Griffin, noted stand-up comedian and actor known for his current role on UPN’s “Malcolm and Eddie,” provided lead and backing vocals for the funk/R&B ensemble. With songs like “Feel Like Making Love,” “Ladies Love” and “Get Your Own Thing,” the Scattered Minds were all about scattering groove and light-hearted vibes to the crowd. Complete with drum solo, slinky guitar licks, and an extended bass jam that caused many heads to turn, the music was tight and the performance lean and snappy. The female saxophonist who manipulated notes of the sax and the drums made a brassy lead could have put a vocalist to shame while the lead guitar, “Bibi,” came through with enough Hendrix-inspired electric energy to lift the band to another level. Griffin’s banter and comments to the audience added to the loose, freestyle format of the evening created more than one person in the crowd to laugh and shout out a response. However, even though everything about the music was infectious enough for a dance jam, the crowd seemed reluctant to give in and move to the beat.

The sound quality for this Scattered Minds was superb, as every musician and instrument came through clear and distinct. As Eddie Griffin and the Scattered Minds brought a smooth, fresh and vibrant funk flavor to the stage, it was left for Morris Day and the Time to bring their stylized scandal and energy.

One of the few weak points of the show, after the first couple of songs. Apparently, the sound system for Day was slightly skewed and his microphone level was not adjusted properly because it was difficult at times to make out his vocals. The music and this often would momentarily draw out his vocal reflections. However, this was to say so, the sound, he more than made up in energy.

One could not watch Morris Day and Ignay even his father’s partner. Jerome Benton, who, towards the end, was singing a towel around, the audience to come up on stage. The Time opened part of the show was flair and the music and the dance. The keyboards and guitar were skilled, and the music and the dance.

As Eddie Griffin and the Time became evident after the first set, the front of the stage consisted of bodies swaying and moving to the rhythm laid down by guitarist Gary "Jellybean" Johnson and keyboardist Monte Moir. At one point, Day invited ladies from the audience to come up on to the stage and dance.

She fought for her country.

Now she’s fighting housing discrimination here at home.

Karen defended the red, white, and blue and then was turned down for housing because she’s Black. After meeting her, the rental agent told Karen that the apartment she wanted to see was rented — even though it was still available. Denying housing based on race or national origin is against the law.

The only way to stop housing discrimination is to fight it.
