CSUSB
Coyotes take giant step, move up in Fall of '91

by Kerlia R. Horney
Editor-in-Chief

CSUSB will be making its entrance into Division II athletics, and the California Collegiate Athletic Association conference, in the Fall of 1991.

Dr. Judith Rymer, Vice-President of University Relations, made the announcement in an afternoon press conference Monday.

"This is a big day for us," said Rymer. "This is a major step forward for our institution, for our athletic program, for our student athletes, and for the community." SERIOUS DISCUSSION ABOUT THE MOVE

Serious discussion about the move began in April when Dave Suenram was named the new Athletic Director. Suenram pushed hard for the move to Division II, and initiated conversations with various campus and community groups, as well as the director of the CCAA.

The prime reason for the move was the university's lack of a conference affiliation. CSUSB's lack of affiliation has been the major reason for the lack of post-season competition by the Coyotes. CSUSB teams with outstanding records have been denied, while teams with poorer records, but with conference titles, have been advanced.

"Being an independent in California is not a desirable position to be in," said Suenram. "There are only 12 schools in the state left in Division III and we are the only school in the CSUSB system left in the division.

The major question raised by the move comes from the ability of Division II schools to offer athletic scholarships. Serious debates on where the monies necessary for scholarships will come from have raged during the past few weeks. While a small minority of students have voiced their lack of support for a referendum to increase student fees to pay for part of the scholarships, most school administrators and faculty committees have given their support to the referendum.

It has been projected that CSUSB will need about $200,000 per year to pay for athletic scholarships. The scholarships would fall somewhere around $5390 per student athlete, per year.

"[The Associated Students Inc.] are endorsing the move to Division II," said ASI President Aaron Watson. "We are presently working on the wording of the referendum as to the amount of funding ASI is willing to put forward.

Presently, the referendum is at the forefront of a woman's mind. Women in particular, are concerned about walking from their classes to the parking lot after nightfall.

The very distance a student must walk just to get to their class is incredulous and inconvenient, much less to walk it at night.

"Passing the library on the way out is when I really begin to feel tense. I feel that if I were to scream and something really happened, no one would know," Dallas said. "I think it's neat how the parking lot is so damn convenient for the teachers when the students are the ones who make the school. Without us there wouldn't be on. We get treated like it doesn't matter and we're the ones who pay. The school seems like it was built by a rapist.

In this decade, safety is at the forefront of a woman's mind. They think about it whenever they're alone and even when they're not.

CSUSB student Shoshana Johnson said, "Now days it doesn't seem to matter if you're walking in pairs or not. People don't care anymore.

"Though many students fear for their lives each time they walk to their car, some say that it doesn't bother them at all.

Student of CSUSB, Lucy Sanchez said, "If feel that if I'm alert and paying attention then I don't need to worry. I also pray that God will protect me and his angels be with me while I'm walking alone.

Student Chris Molkenkamp said that he thought that other campuses were worse as far as places for people to lurk about. "I think that the blue-lighted emergency phones really help," said Molkenkamp.

With the fear of evil that the darkness brings, what do people do to ease their minds?

CSUSB student Carolyn Tacklind said, "I carry an anti-rape whistle on a key-chain.

Dallas said that she set up a partner to walk out to her car with and then she drives her to her car before she leaves. "I think that all night teachers should have to tell all their students to get partners to walk out with at night because it's hard to do yourself when you don't no anyone," Dallas said.

Special to the Chronicle

Joann Bates brings more than a back pack to school every morning. Along with her red back pack full of books and anytime snacks, she also brings her 3-year-old son, Ryan.

Joann isn't the only student in the family who attends Cal State San Bernardino. Ryan is also a full-time student.

He attends CSUSB's Children Center located at the north end of the campus along with more than 100 other children.

According to Kimberly Harris, the Children's Center director, the center's greatest asset to the campus is the convenience it offers Cal State students.

The center accommodates not only full-time day students, but also part-time evening students.

Lisa Willis, a student and single mother, brings her son and daughter to the center two nights a week.

The use of the center allows Harris to continue her education which otherwise not be possible.

"This is a big day for us," said Rymer. "This is a major step forward for our institution, for our athletic program, for our student athletes, and for the community." SERIOUS DISCUSSION ABOUT THE MOVE

Serious discussion about the move began in April when Dave Suenram was named the new Athletic Director. Suenram pushed hard for the move to Division II, and initiated conversations with various campus and community groups, as well as the director of the CCAA.

The prime reason for the move was the university's lack of a conference affiliation. CSUSB's lack of affiliation has been the major reason for the lack of post-season competition by the Coyotes. CSUSB hosts Small Business Seminar

A seminar entitled “Small Business Management Strategies for 1990s” will be held at CSUSB on Feb. 20 from 7:30 a.m. - noon in the Sycamore Room, Lower Commons.

The seminar is aimed at increasing the small business owners' and managers' awareness of today's market and to introduce them to a wide range of managerial, marketing, and financial strategies for success. Topics will include: how to analyze and forecast market changes in the 1990s; how to prepare and meet consumer needs; how to create a business plan, operating plan and cash flow project; advertising methods and costs; and ways bankers can assist small business entrepreneurs.

One of the seminar leaders is David Maupin, master business counselor with General Business Services, Inc., a nationwide small business counseling firm specializing in taxes, records organization and profit management.

MBA gains new concentrations

Two new concentrations in taxation and professional accountancy are being added to the graduate program in business administration at CSUSB. The concentrations consist of five courses each, which, coupled with the seven core classes required of all MBA students, will total the 48 units necessary for the master's degree.

Preparation for the concentrations began in 1987, following research in 1985, which showed a demand for these specific areas within the MBA program. At present, the university offers concentrations in finance, general management, industrial relations and personal management, information management, and marketing management.

The first of these new classes will be offered through the Accounting and Finance Department in fall quarter, 1990. For more information, call (714) 880-5730 or (714) 880-5770.

Should crime rates go public

Congress this month will consider a bill that would force colleges to report campus crime rates. Many school administrations oppose the bill because it could make their schools look bad. A group of college security experts resolved Jan. 12, 1990, to oppose the bill because it would be impossible to force all colleges to release crime statistics.

“We're not in favor of the law because it's not policeable,” said Jan Sherrill of the Center for the Study and Prevention of Campus Violence (CSPCV).

The major supporters of the bill are students, parents and faculty members who say they need to know about local crimes in order to protect themselves.

Currently, only 352 of the average 3,200 two- and four-year colleges in the country bother to report crimes to the Federal Bureau of Investigation. While one school may report a crime committed on what is legally a city-owned curb near the school, another school may decide not to report it as a "campus" crime. Consequently, the college reporting the incident may appear to be more dangerous than the school not reporting the crime. While they may, in fact, have similar crime rates.

“Students often have a false sense of security on college and university campuses,” said Rep. Bill Goodling (R-Pa.), who in September introduced the federal bill that would require college crime statistics to be made available to the public.
'Ethel' back and even better

By Larry Rlppee
Staff Writer

"Ethel", the one-woman musical based on the life of famed blues singer and Broadway actress, Ethel Waters, returned to the CSUSB stage Jan.26.

This restaging of "Ethel" is a somewhat revised version of the play that made its debut at CSUSB earlier last year.

"Ethel" was an instant success when it opened as part of CSUSB's Black History Month celebration.

Local theater critics were impressed, calling the performance "dynamic and inspired".

Although basically the same show, a number of changes have been made. New, more elaborate costumes have been added. The opening of the second act has been reworked and an additional five songs have been included.

The result is a faster paced, more polished show. Overall, the new "Ethel" is a more professional, pleasing production.

The show is co-authored and performed by Val Li-mar, a CSUSB senior theater arts major. The other half of the writing team is theater arts professor William Slout, who also directed the play.

Significant contributions were made by choreographer Warren Juba Lucas, musical director Frank Jansen, with costumes designed by Margaret Perry. Some impressive lighting effects are achieved by Philip West.

The play follows the life of Ethel Waters from a Philadelphia ghetto to her successes as a singer working with such blues and jazz greats as Duke Ellington, Louis Armstrong, and Fletcher Henderson to ultimately becoming the first black woman to star on Broadway.

The play is simply structured with Li-mar as Waters talking directly to the audience. Most of her costume changes are done on stage behind a dressing room screen.

On stage, Li-mar is backed by a trio consisting of David Williams on piano, Art Espa ranza on saxophone and clarinet, and—this time around—Glenn Mitchel on drums.

The drums are a valuable addition to the musical accompaniment serving to pull the ensemble together, giving the music a fuller sound.

The musical content ranges from bawdy and risque tunes such as "My Handy Man Ain't Handy No More", and "Shake That Thing," to the sorrowful and soulful "Supper Time". Perhaps the finest piece was Li-mar's stunning rendition of "Stormy Weather". Dramatically, Li-mar easily moves from humor to pathos and back again.

Many of the vignettes are quite funny, such as her portrayal of a dishonest, cigar-chomping theatrical agent. Her characterization of a fundamentalist preacher delivering a fire and-brimstone sermon is brilliant.

Overall, "Ethel" is a well-handled, thoughtfully executed piece of work that is truly funny, moving, and entertaining.

Those who missed this even better second run of "Ethel" will have one more opportunity to see it—but a journey to Santa Barbara will be required.

"Ethel" has been nominated to compete in the western regional American College Theatre Festival, Feb. 16 and 17, in Santa Barbara.

The play is one of seven finalists chosen from 153 entries.

"Ethel" is the first one-person show ever to be selected to compete in the western regions.

The show could advance to the national competition held at the Kennedy Center in Washington, D.C.

ARMY ROTC
THE SMARTEST COLLEGE COURSE YOU CAN TAKE.
Caffeine critic concerned with consumption

By Jill Bonanno
Staff Writer

College is fun and interesting, but college is also challenging, and it can result in hectic schedules for family, and of course, love. I can understand an occasional sleepy-eyed student, or one whose head softly bops against the classroom wall (or desk) to the rhythm of tapping chalk (up all night studying no doubt)—but, for the life of me, I have trouble understanding those college caffeine junkies.

I'm talking about those people you see who exit the Biology building (or library basement for that matter), with eyes bugging out to Timbuktu, cokes or coffee in hand, and numerous Snickers bars and M&M's in pocket. And off to class they go (test time).

Now, don't get me wrong. I enjoy an occasional cup of freshly brewed exotic coffee in the morning. My family has been known to celebrate birthdays with tiny cups overflowing with little candies and nuts, and my Christmases are always filled with Hershey's kisses, Andes mint bars, and of course, peppermint sticks galore.

But, what about that college caffeine junkie? The one you see running up three flights of stairs, two steps at a time, in order to experience that needed bladder pressure relief just minutes before class starts?

So much for fair class involvement, sharing, open communication, and active listening. We know who's going to be doing the "caffeine ramble" during this class.

And what about those hours of personal study (both desperate and devoted) deep within the library cubicles? You could hear a pin drop, and surely you would, if it wasn't for the silence being interrupted by the occasional cracks of cola cans (illegal, mind you!).

Just what is it about the caffeine? Why does it in "caffeine ramble" during this class?

Financial Aid Workshop

Need money to attend college?

Students are invited to attend a financial aid workshop presented by the Financial Aid Office. The workshop will provide information on the various forms of financial aid available, the 1990-91 application process deadlines, and scholarships awarded by CSUSB. Students are encouraged to have reviewed the 1990-91 college scholarship service (CSS) student aid application for California (SAAC) prior to attending the workshop.

DATE: Monday, Feb. 12, 1990
TIME: 5:30 - 7:30 p.m.
LOCATION: Panoramas Room C-104

DATE: Thursday, Feb. 15, 1990
TIME: 1 - 3 p.m.
LOCATION: Panorama Room C-104

Think of the six women closest to you.
Now guess which one will be raped this year.

One out of six college women will be sexually assaulted this year. Don't change the subject. Don't try to avoid talking about it. We're trying to prevent situations that leave you or your friends vulnerable. For starters, follow security guidelines. Don't prep yourself for danger. Walk with a friend after dark. Just be sure that you have a way to communicate on college campuses. With 91% of these rapes unreported, don't.

Think twice the next time you reach for those cans of Coke, or those candy bars, the choice is yours—is it really worth the perk?
Know When To Say When

...A Campaign for Responsible Drinking

For most adults, having a drink is a way to relax and enjoy the company of family and friends. Only when alcoholic beverages are abused do they pose a danger, leading to drunk driving and other serious problems.

Anheuser-Busch and your local distributor are proud of the products we sell... the world's greatest family of quality beers. We want you to enjoy our fine products but to remember to drink sensibly and to know your personal limits.

That's why we're encouraging consumers to “Know When To Say When” in a campaign to promote greater awareness of the responsibilities associated with drinking. So, enjoy your favorite beverage... responsibly. Please, Know When To Say When.

Anheuser-Busch, Inc.
Dear Editor:

I'd like to say a few words about how the average student feels about what is going on at this university as of late. We're upset and the Chronicle welcomes views from readers on a wide variety of topics. Letters and commentaries may be sent to the editorial office at 500 University Parkway. Letters must be typed and signed and must include phone number, class standing and student I.D. number. Faculty or staff members must include job titles. All letters should be as brief as possible and are subject to editing for purposes of condensation and layout.

I attended the Associated Students Board of Directors meeting on January 30 only to find that I was the only student there who had anything to say in regards to the proposed change to Division II. Oh, yea, I take that back. The athletes and coaches who would benefit from the proposed change were there to give their "yes" stamp. So the question arises - why were there no other students there? Because the Associated Students made no effort to get the message out that a meeting was being held. No flyers. No announcement in the school newspaper. And they accuse us of being apathetic? It can't be that the faculty doesn't have an opinion on this matter or were they also not informed? Maybe they (athletics and ASI) didn't notify anyone so that they could build up the measure through.

When I went to this meeting, I found out that the discussion raised the referendum proposals would be used to fund athletic scholarships. Are they telling me that I have to pay for some athlete's education? That's what it sounds like to me. Not only that, but the standards that I have to meet to receive a scholarship. Athletes only have to have a 2.0 GPA, whereas, the average student has to have a 3.0 GPA to receive a scholarship. As the soccer coach explained it, most campuses use this method. I really don't care what other schools use as their criteria for awarding athletic scholarships. I think that athletes should have to meet the same academic standards as anyone else who would receive a scholarship. The purpose of college is an education, at least it was the last time I checked. What if the referendum doesn't pass? As the referendum is being worded now, for every one dollar the goes towards ASI programs that will benefit the average student, two dollars will go to athletes who would not have to meet the same academic standards.

Morgan McCoom
But, is it right?

Dear Mr. Editor,

I have read the rebuttals to my letter on homosexuality which I wrote a couple of weeks ago. I would like to say this to all the gay professors and gay people who read my article. I did not mean to come across as being condemning or judgmental. If I did come across that way to you, for that I apologize. However, I do not apologize for God's word. The fact is that, like it or not, the truth doesn't change.

In the 1940s and 50s there was a clear definition of what is right and wrong in America. With the 60s and 70s there came a muddling of these two extremes. There is so much gray area today that it's hard to tell what is black and white anymore. This in turn has caused me to anguished by my letter label me as dogmatic and intolerant. May I ask you, do you think a person can be dogmatic and intolerant? I am here to say that there is still a right and a wrong whether you choose to recognize it or not.

You are right in one sense that Jesus Christ did not come to condemn the world. 'For God did not send the Son into the world to judge the world, but that the world should be saved through Him,' John 3:17. However, He also said through His servant, Paul, the following, 'Or do you not know that the unrighteous shall not inherit the kingdom of God? Do not be deceived; neither fornicators, nor idolaters, nor adulterers, nor homosexuals, nor thieves, nor drunks, nor revilers, nor swindlers, shall inherit the kingdom of God.' 1 Corinthians 6:9-10. I would like to know why is it that when homosexuals or lesbians express their freedom of speech on campus (i.e. sporting rallies, etc.), no one lifts a finger. However, when Christians try to exercise that same right to stand up for the truth, all hell breaks loose. You can't try to muddle and twist the truth of God's word. I am not ashamed of it. Morally I ashamed of being a lover of Jesus Christ. "Jesus Christ is the same yesterday and today and for ever." There is still a right and a wrong and I am determined to stand up for what is right...

But now I am still concerned,

John Kocher
Community service opportunities available for personal growth

Become more involved through the Community Service Program (CSP) at CSUSB. CSP provides student volunteers opportunities to enhance their education, lifelong experiences, and personal growth.

Michael Serna, a senior at CSUSB, is a great example of a volunteer at work. He has shown great commitment and enthusiasm—he has been part of CSP for three consecutive years. During his sophomore and junior years, he was an assistant at the Fourth Youth Program in San Bernardino County. He is currently working at the Riverside County Marshal's Office.

CSP has gained more participants during Fall of '89 and is rapidly growing in numbers. The program has over 40 volunteers and this figure reflects the first two weeks of fall quarter. Students are becoming more aware of the Community Service Program and its many advantages.

The requirements are simple: students are asked to complete 50 hours of volunteer work at a non-profit agency during a 10-week period and to attend a two-hour training session. Most students work five hours per week and are able to balance this with their class schedule. After completing the project and the training, all volunteers receive a grant and a mileage allowance for the time traveled to and from the agency. Student groups may also receive funds for doing service in the community.

For more information call 880-5237 or stop by the Student Life Office, SS-122.

Scholarships available

Scholarship applications are available for the 1990-91 academic year. Some of the scholarships will be awarded based on merit only, but most of the awards are based on financial need as well. To apply for the first list of scholarships:

1. You must have a grade point average of at least 3.0.
2. Complete the scholarship application available at the Financial Aid Office (SS-143).
3. Submit two letters of reference (at least one must be from a present or former instructor).
4. Submit a Student Aid Application for California State University (SAAC) if you are interested in the scholarships based on need as well as merit.

Scholarships are awarded to new and continuing students in accordance with the terms of the gift. Students will be considered for all scholarships for which they may be eligible.

The long awaited seventh issue of "The Pacific Review" is now available at the bookstore or by contacting the English Department. This issue of the magazine contains not only poetry and prose but a piece of drama as well. The outstanding visual art begins on the cover, with a reproduction of Polly Selby's "Waterfront L" and continues through-out the magazine. As a special treat, several pieces by the magazine's founder, are included.

'Pacific Review' available

Congratulations to my Iota sisters, Lourdes, and the rest of the Iota's. Heather, Natalie and Donna, you are the best family anyone could have. Alpha Phi Love, Kristi

Congratulations Iotas!! We're getting bigger and stronger everyday. Yeah! We love you all._alpha Phi Love, Caryl

To Holly P., the best big sis in the whole world! I love you so much! Thanks for everything. Alpha Phi Love, Heather

TO ALL JOB SEEKERS

THANK YOU.

Accepting manuscripts for the next Pacific Review though March 1st

The CSUSB literary magazine, "The Pacific Review," will be accepting manuscripts through March 1, 1990, for the May 1990 issue.

Manuscripts in a variety of genres are being solicited—prose, poetry, essays, book reviews, and drama, etc.

All manuscripts should include a stamped and self-addressed envelope. Manuscripts may be mailed to the English Department or hand delivered.

Although work by professional authors is considered, students are given special consideration during the selection process; therefore, please indicate if you are a student when submitting your work.
Softball looks for championship

By Jeff Zelenak
Staff Writer

As the winter sports come to an end, the softball team is already gearing up for their season. The Lady Coyotes will have a slightly different look this year, with the addition of head coach Sue Strain. Strain became the head coach following three successful years at San Bernardino Valley College where she guided her teams to the end of their respective seasons. The thought to the end of their respective seasons is brought to mind, the Strain became the head coach of CSUSB. She has been a successful coach at San Bernardino Valley College with an impressive 42-10 conference record. Along with the addition of Strain, there are some key returners for the Coyotes: seniors Anne Webb,刘婷婷, and Kevin Bower. "It’s good that I have a lot of returners coming back. My returners are great, this is the most team coach that I’ve ever had," said Strain. Besides the returners, Strain has talented group of freshmen (Jenifer Harral, Jennie Leongrange, and Tara Poole) that will make an impact.

Our goal is to make the regionals this year. The last couple of years (the team) has missed them," said Strain. "If we are ever going to gain back a state title, this group will do it this year. This group is great because everyone is in it for the team." The Coyotes’ record last year was 25-16 and with the help of nine players returning from last year’s squad the Coyotes will look toward the nationals this season.

The Coyotes open their season on Feb. 17 against Loyola Marymount at home. The Coyote team defeated San Diego Mesa College the following evening. The Coyote team defeated Whittier College and lost to NCAA Division II Cal Poly San Luis Obispo to round out Cal State’s schedule at the Christmas break.

"We were hoping to come back after the break fresh and ready to play," said assistant guard Ron Bettiga. It looked like CSUSB would do just that, defeating Loma Linda University handily in the first round of the Coyote Cage Classic. The Coyotes then went into a tailspin that looked as if it were irreversible, losing both Division I powers UC Riverside and Cal Poly Pomona. CSUSB pulled out of its slump with a 13 point victory over the Menlo College Owls. The Coyotes are now ranked 20-6 and received a bid from the NCAA Division II Cal Poly San Luis Obispo tournament.

Goodling’s bill, the Crime Awareness and Campus Security Act of 1989, would make all campuses provide ‘timely notification’ of crimes and publicize their security policies.

"If details of crimes are not publicized, a student may unknowingly walk alone into a parking lot where several rapes occurred, or may grab a dorm door open unaware that burglars robbed students in other dorms where doors were left open. If these students were properly informed, they might have made different choices," Goodling said.

It’s our responsibility to get crime statistics out to students so that they can be aware," added Traci Bauer, editor of the Southwest Statesman at Southwest Missouri State University in Springfield. "People are so sure this campus is safe and don’t even hear about crime," Bauer added.

The College and Community Safety Act of 1990 describes the Safe Campus and dedicated to help promote the safety of college campuses.

The Coyotes included five seniors, including Dave Webb, Ron Bettiga and Greg Rowe who were starters on last year’s team that finished 20-6 and received a bid from the NCAA Division III tournament. The Coyotes started the year with a victory over Bethany Bible College in the first round of the Master’s College Tournament, only to lose to Master’s College by one point in the first round of the Coyote Cage Classic. The Coyotes defeated UC Santa Cruz the following night, and then lost the next week to UC San Diego, number 19 in the nation in Division III.

The Coyotes defeated UC Santa Cruz in the following night, but then lost the next week to UC San Diego, number 19 in the nation in Division III. CSUSB has two games remaining and has already filled both teams already this year. The Coyotes have virtually no hope of receiving a bid for the Division I playoffs, so they now play for pride and a winning season.

STEP Continued from front page calls for a fee increase of $12 per year. Of the $12, $8 will go to athletics and the remaining $4 would go to funding other ASI programs. Before the referendum is accepted, it will come up over the student body. We will march (the fee referendum) with monies from our current fund raisers," said Spennak. "We expect to have all of the sports receiving their full allotment of scholarships by 1993-94.

One of the factors in Spennak’s thinking was to be the school of this community and region, and nothing less than that," Spennak continued. "We know that we have a long way to go, but we have started.

Nothing could be better evidence of this than the coverage of the non-profit organization. Security on Campus, dedicated to help community fund-raising at other schools. Spennak has already begun exposing the San Bernardino community to the concept of the Coyotes as the home team. Our goal is, for CSUSB, to be the school of this community and region, and nothing less than that," Spennak continued. "We know that we have a long way to go, but we have started.

The Battle for the NCAA West Region

Friday, February 9 at 7:30 p.m.
Colorado College vs. CSUSB
"Tigers" "Lady Coyotes"

#1 in the West vs. #5 in the West

Come out and cheer on the CSUSB women's team as they seek a post-season playoff berth! FREE admission!

Special half-time pizza shoot! Be part of the group as we attempt to break the CSUSB women's basketball single game attendance record that night!

Streak reaches record 17

Coyotes defeat Eagles, 89-82

The Coyotes nearly gave up a 12 point second-half lead in the closing seconds, but were able to hold off Loma Linda University, 89-82, in the Coyote Den. Senior guards Greg Rowe and Dave Webb led the Coyotes in scoring with 22 and 16 points, respectively. Ron Ligon followed with 14 points, 11 rebounds, and a block with Steve Hickey finishing with 13.

The game was close throughout the first half as both teams exchanged leads. The Coyotes finally took the lead shortly before the end of the half on three-pointers by Webb and Rowe. Both guards finished with four three-pointers. The Coyotes entered the locker room up by five, 47-42.

The Totes extended their lead to 12 early in the second half and then simply exchanged baskets with the Golden Eagles. With five minutes remaining, however, the Golden Eagles had cut the lead in half.

Senior center Chris Melton was instrumental in maintaining the 'Yotes' advantage. He scored four points in the last four minutes and played aggressive defense despite having four fouls.

LLU's Daniel Chonkich sank a three-pointer with 10 seconds left to bring the Golden Eagles to within three. Webb was fouled immediately, but sank both free throws. Ron Bettiga sealed the victory with a key steal on LLU's next possession.

This was the Coyotes' second victory over LLU this season, and lead the series between the two schools 2-0. The victory improved the Coyotes' record to 8-13 overall, and will travel to Santa Cruz this Friday.

The Coyotes' next home game will be against Christian Heritage College next Tuesday. This will be their last home game of the season.
