Greeks gain risk management policy

The Interfraternity Council (IFC) and Panhellenic Council at CSUSB have policy and a resolution stating that the organizations (little sister chapters) that involve alcohol will be bought by the chapter or the fraternity. These recent legislative moves follow the adoption of a comprehensive and expanded hazing policy that is provided to all men and women who decide to go through fraternity or sorority rush. The new risk management policy prohibits the purchase of alcohol by chapter funds. This means that there will also be no communal containers (kegs), and alcohol will be provided at rape, and stinging social commentary to teach what she calls "grace."

Anthony Evans, CSUSB President, introduced her as an "extraordinary person, with an extraordinary level of achievement." He described her talents as the broadest of any guest he has ever introduced here. Angelou is considered a successful poet, educator, historian, author, actress, playwright, civil rights activist, and producer, and director. She has been nominated for a National Book Award, a Pulitzer Prize, a Tony Award, and an Emmy Award. In her performance, she extolled the virtues of Black American Poetry, a literature she says "puts starch in your backbone," and "will make you cry, put you to sleep, wake you up, and make you laugh." And she put in the audience. Shewasslated with an extraordinary level of accomplishment. Besides the literature of black America, she advised. Besides the literature of black America, she recommended works from many diverse nations and cultures as being indispensable to a true education, and suggested that librarians can guide one through it.

By William Lundquist

"I teach, that's what I do," Maya Angelou told a capacity audience in the CSUSB gymnasium last Thursday evening. Her lessons were unlike any ever experienced by CSUSB students. Angelou used song, poetry, comedy, and singing social commentary to teach what she calls "grace."

Anthony Evans, CSUSB President, introduced her as an "extraordinary person, with an extraordinary level of achievement." He described her talents as the broadest of any guest he has ever introduced here. Angelou is considered a successful poet, educator, historian, author, actress, playwright, civil rights activist, and producer, and director. She has been nominated for a National Book Award, a Pulitzer Prize, a Tony Award, and an Emmy Award. In her performance, she extolled the virtues of Black American Poetry, a literature she says "puts starch in your backbone," and "will make you cry, put you to sleep, wake you up, and make you laugh." And she put in the audience. Shewasslated with an extraordinary level of accomplishment. Besides the literature of black America, she advised. Besides the literature of black America, she recommended works from many diverse nations and cultures as being indispensable to a true education, and suggested that librarians can guide one through it.

"Be so imbued with the love of learning, that you will continue to learn," she told students. Speaking for her generation, she told them "You are all we have. You have all there is."

Her presentation ended as it had begun, with an immediate standing ovation from the audience. She was slated to sign autographs for about a half hour, but she asked to be excused as she was not well, and had appeared here against her doctor's advice.

Members of the audience who had just witnessed her dynamic performance could not believe that Angelou lacked energy. She was still signing autographs in the midst of a seething crowd more than 30 minutes later. Angelou's visit was sponsored by the Intellectual Life and Visiting Scholars Committee, the Library Associates, and Associated Students, Inc.

By William Lundquist

Students last week voted against the referendum to increase Associated Students, Inc. (ASI) fees. ASI asked for $14 more per year to fund the move to Division II athletics, and for several other ASI projects. The vote on this campus resulted in a tie, but voters at the Coachella Valley Center cast enough no ballots to defeat the referendum. The final tally was 412 no, 362 yes. Seven percent of the student body voted on the referendum, which is below the twelve percent turnout expected for a general election at CSUSB, but above the six percent turnout in the last election at CSUSB Fullerton.

Speaking for the CSUSB administration, Randy Harrell, of the Student Life Office, said "The results are regrettable. Student athletes deserve recognition for the hours they contribute to the university. They compete for love of the game they play, and also to represent the institution."

He added "ASI believes that they are in need of additional funding to adequately meet the needs of our student body, and the result of this referendum denies them the ability to meet those needs."

The Student Life Office administered the balloting both at CSUSB and at the Coachella Valley Center. David Suenram, CSUSB Athletic Director, said "Naturally, we're disappointed. We regard it as a setback, but nothing we can't overcomes. You learn something from each of these experiences."

Suenram expressed his gratitude to ASI for submitting the referendum to the students. He hopes the funding will be given a second chance. Next time, he will definitely hold an informational session at the Coachella Valley Center. In the meantime, Suenram will put "plan B" into operation. Despite increased fund raising activities in the community, and on campus, CSUSB will have to face up to a pared down entry into Division II athletic competition. The basketball programs for both the men's and the women's teams will move forward at full funding. The success of those teams in Division II is critical to building community support. Suenram believes the community will respond if the program is brought along on campus.

The 15 other sports at CSUSB will not fare as well. Some, like soccer and baseball, may find it possible to raise adequate funding, but most sports have been hurt by the referendum defeat. Suenram still believes CSUSB can be competitive when it enters Division II athletics in Fall, 1991. "We're not going to jump to Division I and be immediately competitive, but in a few years, we will be." He felt the Women's basketball team would have played well in Division II this year. Tied in with the athletic funding, was a $6 increase for other ASI projects. Aaron Watson, ASI president, was not overly concerned with the defeat. "I think the students have spoken," said Watson. "Obviously, the students don't support rating fees."

In my opinion, ASI will be no worse off next year than it was this year."

He added that the defeat showed "ASI hasn't been doing a good enough job filling needs at the Coachella Valley Center."

Referendum defeated by 50 in Coachella

Know When To Say When

...A Campaign for Responsible Drinking

For most adults, having a drink is a way to relax and enjoy the company of family and friends. Only when alcoholic beverages are abused do they pose a danger, leading to drunk driving and other serious problems.

Anheuser-Busch and your local distributor are proud of the products we sell... the world's greatest family of quality beers. We want you to enjoy our fine products but to remember to drink sensibly and to know your personal limits.

That's why we're encouraging consumers to "Know When To Say When" in a campaign to promote greater awareness of the responsibilities associated with drinking. So, enjoy your favorite beverage... responsibly. Please, Know When To Say When.

Anheuser-Busch, Inc.
Lecture on Christian-Jewish relations comes to CSUSB

The Office of Extended Education at CSUSB is proud to present the Third Annual Morrow-McCombs Memorial Lecture to be held on Tuesday, March 27, 1990 at 7:30 p.m. in the Bectal Hall.

Dr. Eugene J. Fisher, Executive Secretary of the Secretariat for Catholic-Jewish Relations of the National Conference of Catholic Bishops in Washington, DC is the featured speaker this year. Dr. Fisher's presentation will be free and open to the public with a reception immediately following the lecture.

On Wednesday, March 28, a special Institute for Clergy and Religious Educators will be hosted by Our Lady of the Rosary Church in San Bernardino. The ecumenical program, designed to bring together clergy and religious educators from across the Los Angeles Basin, will be held from 11:45 a.m. to 2:00 p.m., and will include lunch and a second lecture by Dr. Fisher.

For more information, call the Office of Extended Education at (714) 880-5875.

Palm Desert branch stresses fall registration deadline

CSUSB's Palm Desert branch advises would-be students for the fall quarter to apply no later than April 6.

By meeting this deadline, students not only enjoy the convenience of mail-in registration, but are assured of first priority in selection of classes. The fall quarter starts September 27.

According to Dean Catherine Gannon, additions to the 15 on-going programs at the local campus are a special Institute for Clergy and Religious Educators will be hosted by Our Lady of the Rosary Church in San Bernardino. The ecumenical program, designed to bring together clergy and religious educators from across the Los Angeles Basin, will be held from 11:45 a.m. to 2:00 p.m., and will include lunch and a second lecture by Dr. Fisher.

For more information, call the Office of Extended Education at (714) 880-5875.

RISK

Continued from front page

The Sigma Chi fraternity to date has served food for the Salvation Army, helped set up for the Senior Citizen Olympics, put on a puppet show for the CSUSB Children's Center, and the Cleo Wallace Center. The Tau Kappa Epsilon fraternity has established a successful tutoring program at the Bonnie Oehl Elementary School and has already put in over 217 hours of tutoring. This year TKE sponsored a 50 mile chariot pull and raised over $1,000 for the Special Olympics. In the future, TKE is looking forward to working with the San Bernardino Police Department on an anti-drug campaign.

These are but a few of the areas in which the Greeks at CSUSB have made contributions to the community and university this year, and with the colonization of a new fraternity on campus, Sigma Nu, these contributions in man hours and money should increase.

For more information, contact Chris Ahearn, IFC Public Relations Chairman, at 880-2327, or Rick Morait, Greek Advisor, at 880-5234.
Have You Tried

AUTOpheresis?

You'll be surprised how much you like it!

During your 35 to 60 minute plasma donation you'll be free to read, study or plan that next vacation. The money you save from your donations will help you make your dreams come true. And at the same time, you'll have the satisfaction of knowing your plasma donation can help patients in need and save lives.

There's only one product proven to grow even one of these.

From the time you first started losing your hair, you've wished for something that could somehow reverse the balding process. Now, The Upjohn Company has developed Rogaine, the first and only product that's proven to grow hair. The fact is, Rogaine is not a cosmetic or conditioner; it's a prescription treatment for male pattern baldness of the crown of the head that's available only with a prescription written by your doctor.

Two million men just like you have used Rogaine.

Today, two million men worldwide have seen their doctor and begun treatment with Rogaine. And for good reason. Rogaine works for many men. That's not a claim, it's a proven fact. Proven in clinical tests conducted by dermatologists at medical centers across the country. Proven by results that are simply unprecedented.

In a year-long test involving almost 1,500 men, only 16% reported no new growth. Virtually half (48%) saw at least moderate growth with Rogaine. With normal minimal growth. Generally, it took four months before hair began growing again. The side effects were minimal. The most common, itchy scalp, occurred in only 5% of the men.

The sooner you get your prescription for Rogaine, the sooner you could be growing hair again.

For more information and a certificate worth $10 as an incentive to visit your doctor (sorry, this offer is available for men only), call the toll-free number below or send in this coupon.

Your doctor has the proof. And the prescription.

Your dermatologist or family physician will tell you what Rogaine can do for you. So see your doctor now. The sooner you get your prescription for Rogaine, the sooner you could be growing hair again.

For more information contact a physician in the CSUSB Student Health Center.

Exchange programs offer intense study in Japanese

Japanese is the foreign language rising fastest in popularity among college students today, and for good reason. Japanese offers riches to young Americans, fascinating history, elegant traditions, booming economic frontiers, and a culture unique in its blend of oriental and western ways.

From July 23 to August 15, 1989, Susquehanna University, at Selinsgrove, PA, will offer an intensive program in Japanese language and culture. Sixty hours of elementary and intermediate language instruction will be provided for four transferable credit hours. An American instructor and a native instructor will co-teach the daily classes using progressive, dynamic methods and materials.

Language learning will be complemented by presentations on the culture behind the language. In addition, side trips will focus on Japanese culture in the United States.

American students will share a residence hall with Japanese students from Tokyo's Senshu University, who will be studying English language and American culture. Contact with Japanese students will provide unlimited opportunities to make friends for a lifetime.

A fee of $1630 includes 60 hours of instruction, lodging in a residence hall, three meals a day and side trips.

For further information and application forms, contact:

Janie Yeager, Program Director, Department of Continuing Education, Susquehanna University, Selinsgrove, PA 17870-1001. (717) 732-4354. Applications are due by June 22, 1990.

The Chronicle

welcome new students on the loose. But you have no need to be frightened, because this is a friendly coyote. He was hired as an assistant by CSUSB's campus tours to welcome everyone here at CSUSB. In addition, they will arrange personal appointments for students to meet with a professor of their major.

Tour guides are Greg Shaughnessy, Jason Mindle, Liz Maudsley, Cheryl Osborne, and Leticia Romero. All are students here on campus.

If you know of any prospective students, or are currently attending CSUSB but are unfamiliar with all of our facilities, call us today at 880-5188 (or come in to SS-103). They can arrange a personal, motorized campus tour for you. And remember, the next time you see Wylie Coyote, smile and give him a friendly wave!

Opinion

Student praises Pub workers' dedication

They feed hundreds daily, preparing the soups, salads, sandwiches and beverages consumed by students, faculty and visitors. For little more than minimum wage, deficient benefits, and inadequate facilities, the service persons of Willey Pub faithfully serve the hungry hordes of CSUSB.

When next you harbor criticisms of the service or personnel, it would be judicious to know certain facts.

First of all, the twelve people making up the Pub staff share a common concern, to provide patrons with quick service and good food. Despite a cramped and ill-equipped working area from which to serve the bustling student body, they take pride in what they do and actually enjoy the job for the most part. Every member expresses surprisingly warm cohesive factors among the crew. As three-year veteran Debbie Lant said, “We’re all like a family.”

What are some of the obstacles that prevent the Pub persons from providing the best possible service? Lead person Nancy Garrett has been working at the Pub for eight years. She thinks it is unrealistic to expect to be able to serve so many with one toaster, one microwave, one drink dispenser and all the running back and forth to the Commons for supplies.

Marnie L. Kimberlin would like to have an “automatic coffee maker that makes it before we run out.” Loretta Shaw pointed out that there isn’t even a garbage disposal.

The work area is poorly vented and several degrees warmer than most of the room. Keep this in mind on those miserably hot days of spring and summer.

Add to this the hot uniforms and hats they are required to wear, long hours on their feet, irregular shifts, occasional customers lack of respect or appreciation, and the task is discernible as the chore.

However, the staff wished to express their feeling of positive rapport with clientele. Peggy Westmoreland, two years on the job, said, “Customers are friendly and understanding.”

Jamie Gerke said, “Some customers just know how to brighten up my evenings by making me laugh.”

The employees also got along surprisingly well with their manager, Kevin Kane. Melissa Stamps said, “...my employer has been generous with food ... and days needed off.”

Night lead, Carlos Bolaños agreed. He likes the opportunity to “get to know people,” the flexible hours, and being able the work on campus.

Lisa Steele enjoys the “music, TV, constant variety and action.” Her only complaint is that employees are not able to wear shorts. The Pub is a relaxed place. We should be comfortable, too.

Despite legitimate gripes and dealing with the inadequacies, those who work behind the bar and count the find the Pub an enjoyable place to work.

We can make their job easier by showing some respect, offering a warm smile, and picking up after ourselves.

Two members of the staff were unavailable for comment but deserve mentioning. They are Yvonna “Jes­sica” Mejía and Denise Groseman. Hats off to them and the others who provide the simple haven of food and drink we all know as the Pub.

The Chronicle opinion policies

The Chronicle welcomes views from readers on a wide variety of topics. Letters and commentaries may be sent to the editorial office at 5500 University Parkway. Letters must be typed and signed and must include phone number, class standing and student ID number. Faculty or staff members must include job titles. All letters should be as brief as possible and are subject to editing for purposes of condensation and layout.
Weber becomes first All American swimmer at CSUSB

By Jeff Zelenaski
Staff Writer

Senior freestyler Susan Weber has become the first swimmer in CSUSB school history to receive NCAA Division III All-American honors.

Weber and head coach John Christie traveled to Willimantown, Mass. to compete in the Nationals.

Weber had qualified in the 50, 100, 200 freestyles back in January and ranked in the top ten in the nation going into competition.

"We had some great expectations. We left hoping she would win one or more of her events because she was a senior," said Christie.

On the first day of competition she swam the 50 free. Her preliminary time was 24.75 and her final time was 25.01, which placed eleventh. The second day she swam the 200 free 1:56.80 in the prelims and 1:57.06 in the consolation to finish eleventh. She received an All-American Honorable Mention in both events.

In her favorite event, the 100 free, she swam the prelim in 53.20 and the final in 53.16, which was good enough for seventh place and All-American status.

"She was leading her 100 free race, but ended up seventh. The times between the 3rd and 7th places was only decided by a few hundredths of a second," said Christie.

Christie was very pleased with the performance of all his swimmers.

"We had bettered our times overall, so we are happy with that. Ending the season as we did will help with our recruiting for next year," said Christie.

"This is only our fourth year if the swimming program, we have come along way. One thing that really need is to get more swimmers from our campus to keep up our success."

Coyote Sports Briefs

Softball defeats visiting Whittier in doubleheader

The CSUSB softball team scored big as they defeated visiting Whittier College in both games of the doubleheader 8-0.

Sophomore Tanna Cash pitched the first shut out, giving up only one hit over seven innings. Junior Marrie La Fleur sparked the Lady Coyote offense with a two-run double, and then followed it up by scoring later in the contest.

La Fleur pitched the second game and allowed five hits over six innings. Senior second baseman Tammy Shearer hit a homerun, drove in two runs, and scored twice.

The win boosted the Lady Coyotes' record to 10-6. They are at the beginning of a four-game homestand. They play Pacific University (from Oregon) this Friday at 2 p.m., Augsburg College (from Minnesota) on Sunday at noon, and they finish up with Claremont College on March 29 at 2 p.m.

Rocky Ray's pitching rocks Biola, baseball record improves to 9-7.

Freshman right-hander Rocky Ray struck out 10, in his first start, as the Coyotes crushed visiting Biola University 14-3.

Junior Sal Herrera doubled, drove in three runs, and scored twice to pace the Coyote offense. Senior Ryan Love tripled, picked up two RBIs, and scored twice as well. All together, the Coyotes combined for 14 hits over eight innings.

Defensively, Ray gave up three hits, walked four, and allowed two runs on bails over seven innings. Dan Blancett pitched the final two innings in relief, giving up a sole hit in the ninth.

The Coyotes are now 9-7 on the season and currently ranked 23rd in the nation. They will host George Fox University of Oregon tomorrow at 7 p.m. at Fiscalini Field.
