Malathion panel offers many questions, few answers

By William Lundquist
Staff Writer

An evening that began with the burning of the California State Flag by an environmental activist calling himself "Agent Orange" did little to calm fears over malathion spraying. The medfly panel discussion, held May 24 in the CSUSB Upper Commons, pitted Dr. Peter Kurtz and California Department of Food and Agriculture (CDFA) against Dr. Jorge Mancillas of UCLA, and Dr. David Polcyn of CSUSB. The forum was sponsored by the League of Women Voters and the CSUSB Department of Biology.

Backed up Mancillas and Polcyn was an audience of nearly one hundred members of the CSUSB, San Bernardino, and Riverside communities. No one present would admit to being in favor of spraying malathion to eradicate medflies. By the end of the evening it was clear that a lot of contradictory information was given out.

Either the medfly panel will cost California one out of every four jobs, or a worst case scenario would cut agricultural profits by a mere 6 percent.

It was also shown that, either spraying does not kill other, non-targeted insects, or it decimates their populations. Therefore, either the lack of predators to control this year's aphid infestation is caused by malathion spraying, or by cold weather.

According to Wasbauer, and Governor Deukmejian, a state of emergency exists in Southern California. Polcyn said what we have in "A Chicken Little campaign." As for Deukmejian, either Ortho, Black Flag, and Chevron manufacture malathion and have contributed heavily to his past campaigns for governor, or malathion is only produced by an eastern company that has no connection with California politics.

For those worried about detrimental effects of malathion spraying on human health, there are either no studies that show it to be harmful, or there are 1,003 studies that do.

Polcyn was an audience of nearly one hundred members of the CSUSB, San Bernardino, and Riverside communities. No one present would admit to being in favor of spraying malathion to eradicate medflies. By the end of the evening it was clear that a lot of contradictory information was given out.

Purple reign falls

By Jeff Kabel
Staff Writer

Nothing lasts forever. Not even the Purple Reign.

Almost every Lakers fan expected the team to post another championship banner at the Forum this year. The Phoenix Suns extinguished that dream. It is hard to swallow but it is true. The Suns advanced to the NBA Western Conference Finals by out hustling, outrebounding and plain out-shooting the Western champs.

The Suns burned the nets. The Lakers uncharacteristically chipped the rims. That was it.

As I watched the Lakers’ season come to an abrupt halt last week, I realized that this L.A. steamroller had run out of gas.

During the past decade, the Lakers have dominated their opponents. Yet, I still heard proclamations of “Lakers choked” and “Worthy strains.” Well, those weren’t the exact words. But it just goes to show you how much pressure the Lakers shouldered from the press and the fans.

Lakers’ fans are demanding. They want an NBA title every year like kids crave a new Nintendo game every month.

We are spoiled and admit it. Lakers fans. I’m one of those spoiled fans. But consider the Lakers dominance in the 1980s; they have won five championships and made eight Finals appearances.

Most fans in other areas would be happy just to see their team post a winning record. But we should not take for granted the Lakers accomplishments.

However, the Lakers decline was inevitable. Most of the Lakers’ starters have played in the league over five years while Magic Johnson and Michael Cooper have played 10 and 11 years, respectively.

The Phoenix Suns deserve some well earned praise. They beat a team that owned the NBA’s best record at 63-16. They beat a team that owned the NBA’s best record at 63-16. They beat a team that owned the NBA’s best record at 63-16. The Suns advanced to the NBA Western Conference Finals by out hustling, outrebounding and plain out-shooting the Western champs.

Golf expects a storm at Nationals

By Jeff Kabel
Staff Writer

While the CSUSB golf squad competes this week in the Division III National Golf Championships in Jekyll Island, Ga., the Coyotes might have to contend with mother nature as well as 21 other opponents.

“We’re taking our umbrellas with us,” said CSUSB Head Coach Dr. Greg Price.

Price and five players will sport rain gear for this week’s competition. Senator Chris Armitage and juniors Steve Lynch, Brad Rastorph, Wade McMullen, and Charles DeLorey come in and pitched six and a third innings, allowing only four hits and no runs, to get the victory.

In the third and final game the Coyotes jumped out to a early June before falling behind in the third. 5-8. In the later innings CSUSB fought back to win, 11-8.

“We were all confident we were going to come back and win,” said CSUSB second baseman Brian Love.

Main and Salazar each pounded out three hits at the plate in the second game for CSUSB. Darren Kay came in and pitched six and a third innings, allowing only four hits and no runs, to get the victory.

In the third and final game the Coyotes jumped out to a early lead and never looked back behind the pitching of Brooks Peters, who improved his record on the mound to 7-1. The highlight of the game was when catcher Bret Parrick, who didn’t play in the second game due to back spasmns, hit a solo home run in the sixth inning to widen the Coyotes lead.

“The score of the third game was 6-4. “Brooks really pitched a good game, he had to really dig deep for this one,” Deagle said.

Numerous players were selected to the All-Tournament team. Gonzales (first base), Love (second base), Salazar (third base), Aaron Marcarelli (shortstop), Jeff Bremen (outfield), Parrick (catcher), Main (designated hitter), Peters and Seward (pitchers) were all named to the team.

Salazar was named the tournament MVP. During the series he went 9-for-11 with four RBIs, three runs, and two homrners. “Throughout this series everyone out there was playing good baseball,” Gonzales said. This will be Deagle’s second trip to the Series, having taken the University of Redlands in 1985. Also Love, who transferred from Williams Penn College in Iowa, has been to the series and knows what it’s like.

“I don’t care how many times you go (to the series) you never get used to it,” said Love.

With the high level of confidence on the field, the Coyotes seem to be peaking at the right time. “This group is unique, they have really come together as a team,” Deagle said. Gonzales put it into perspective after the third game of the series. “Hey, right now we are a good team.”

Maybe good enough to beat a clean path to a Division III National Championship.
20th Student Art Show opens June 8

By Kathleen Whisler
Staff Writer

The 20th Student Art Show will open June 8 at the University Art Gallery with a reception from 7 to 9 p.m. by the Art Department.

Visitors can view the exhibition from June 8 to July 20 at the University Art Gallery.

The art show is open to all CSUSB students who enrolled in art classes during the 1989-90 school year. The deadline for submitting work for the show is tomorrow.

The art show will consist of seven divisions: painting/drawing, sculpture, woodworking, photography, ceramics/glass, graphic design and printmaking. Participants can submit no more than five items in each division they enter.

Art professors decide Friday which items will be placed in the art show. Student artwork which was not selected for the show will be showcased in various studios in the visual arts building during the reception and open house.

Two awards will be presented as part of the art show reception: the San Bernardino Art Association Award for $50 and the Thomas Award in Woodworking for $100 for the best wood piece submitted to the show. CSUSB is not presenting any awards. Danny Redfern, gallery director, organized the show.

Students will prepare the food for the reception. Hors d'oeuvres and beverages will be served and a live band will perform.

Approximately 50 students participate in the art show each year. This is a voluntary activity and is not a requirement for a class grade.

Tragedy Remembered

One year ago, May 25, 1989, a gas line ruptured, killing 3 and throwing the small neighborhood of Duffy Street. Pictured here are the remains of one house across the street from the site of the blast.

Circle K
Int'l club seeks new members

The Circle K International Club will meet Tuesday, June 5 in the Senate room at the Student Union. The time of the meeting is 4-6 p.m. All those who have been former Key Club members, those interested in becoming a part of Kiwanis's sponsored club that is of service to the community, PLEASE COME. We need input as to the projects that you would like to accomplish. Leadership and service within the campus community that is of service both to the community and the campus helps expand your horizons, and be of service of a kind that makes you feel good about yourself and others.

All students are invited to participate. See you at the Senate Room on June 5. Our faculty advisor is Tapie Rohm of the Information Decision Sciences Department on campus. Any questions you may call Tapie Rohm 880-5723; Tim Liossis (619) 949-4976; or Barbara Stefky (714) 875-8847.

Forest Service, U.S.D.A.
This year's graduates at the Palm Desert campus of CSUSB will be honored at a reception on Wednesday, May 30, from 5:00 to 6:00 p.m. The 130 students, their families and friends will hear brief remarks by Dr. Anthony Evans, president of CSUSB and Dr. David George, president of College of the Desert. Other CSUSB and College of the Desert administrators and faculty are expected to attend. Interim director, Susan Summers of the Palm Desert campus will name those graduating with honors. She reports that last year's graduates numbered just 75 and that the university is very pleased with the steady growth of the local campus. The reception, with refreshments, will be held on the grounds of the Cal State complex at the College of the Desert campus.

Acting is child's play to CSUSB's Matt Webster

Matt Webster, left, plays the role of Tartuffe in the upcoming CSUSB production. By John Fitch Staff Writer

Most people get into drama hoping one day to make it big in Hollywood or on Broadway. Matt Webster, however, has different ideas. Webster, a theatre arts major, plays the lead role of Tartuffe in CSUSB's upcoming production of Moliere's "Tartuffe."

Webster refers to Tartuffe as a "16th century Jim Baker" referring to the manipulation of his position of respect to take advantage of others. Webster, a 1984 graduate of Beaumont High School, has been acting at CSUSB for four years and says that Tartuffe is one of the favorite characters he has played.

"Tartuffe" director Ronald Barnes says Webster responds well to the needs of the production.

"In theatre there is a get together of many different artists. We depend on each other for eight weeks and Matt is a very giving person," Barnes said.

Webster hopes to keep on giving when his days at CSUSB are completed. Webster plans to use his acting skills as an educational tool in teaching children.

Webster currently performs with the Imagination Children's Players, a CSUSB drama club that performs children's stories and fables at various elementary schools.

"Children are a great audience; they tell you if you are great and they tell you if you stink. They are really a lot of fun," Webster said.

Eventually, Webster would like to start a children's theatre. "The kids enjoy it and have a lot of fun and after all, having fun is what it is all about," Webster said.

Tartuffe play schedule:
June 1 & 2
8:15 p.m.
June 6, 7, 8, 9
8:15 p.m.
June 10
2 p.m.

Trio adds their own style to KSSB programming

By Jeff Kabel Staff Writer

Radio disc jockey duos are common. Take Marc and Brian. Or Ken and Bob. But each Saturday from 9 a.m. - noon at KSSB, a trio of hosts combines to make waves on "The Weekend Radio Report," a Top 30 Alternative Rock countdown show.

Luke Hunt, Renee Formulak, and Robert Dunfee provide KSSB listeners with other features such as commentaries, spoof news, and movie reviews via regional dialects and celebrity impersonations.

Hunt's characters include surfer dude "I pshun Fit" with a surf report and Peter "Slasher" Hogan, (patterned after Paul Hogan) who relays concert dates and music news.

Formulak portrays I pshun Fit's sister, Hissy Fit, who reviews shopping centers, and also gives listeners make-up tips as "Landa Lovelace."

Dunfee's roles include a sports wrap-up show with "Howard Copell" and a fashion report delivered by "Peter Pastel."

The show's format consists of song countdowns, followed by news, character skits, and a continuation of the countdown. Each disc jockey carries their own radio tag name: Hunt is Sharkey Hunt, Formulak becomes Raunch E. Renee and Dunfee answers to Bobby Dee.

Dunfee feels that the show's satire with character stereotypes should be taken with a grain of salt. "We don't try to offend anybody," Dunfee said. "But some of those people (they portray on the show) exist."

Dunfee revealed that he prefers being part of a group effort in the studio.

"It's so much fun," Dunfee said. "You've got other people to interact with and it's so spontaneous."

In addition to their regular character skits, the trio also spoofs commercials for beer and used cars.

But Hunt maintains that the music is the focus for the show.

"The music takes up the majority of the time," Hunt said. "We want to add more music and commentary."

"Hey, there's some bogus waves out at Newport but there's some tubular ones at Huntington," Hunt also said that the show must have an open atmosphere of expression to make the program concept work.

"The kids enjoy it and have a lot of fun and after all, having fun is what it is all about," Webster said.

"The kids enjoy it and have a lot of fun and after all, having fun is what it is all about," Webster said.

"I just finished a workshop on stress. They suggested I buy a PS/2!"

How're you going to do it?
You see, the IBM Personal System/2® Model 30 286 makes it easy to manage work.
And that can help you manage stress. When you have a ton of work to do, the PS/2®
can speed you through it.
It comes with easy-to-use, preloaded software, an IBM
Mouse and color display. Just turn it on and it's ready to go.
No time lost installing programs.
And the special student price and IBM PS/2 Loan for
Learning can help take the stress out of paying for a PS/2.®

IBM PS/2 Model 30 286 (U21)
- 1MB memory
- 80286/10 MHz processor
- 20Mb fixed disk drive

Women's resource center gets new home

Trailer 11C, near the Child Care Center, has a new look. Inside the tiny room is a small (appropriately) library of resources available at CSUSB and its surrounding communities. These materials have been donated to the new Women's Resource Center by supportive CSUSB faculty and students alike.

Ideally, the Women's Resource Center is to be a place for women and all reentry students to find information from topics in Women's Studies to community help for battered women. One valuable source used in the center is the San Bernardino County Resource Guide. It lists many profit and non-profit agencies in our country that cater to the needs of the people.

The Women's Resource Center began last year with the merging of ideas of concerned students and the guidance of Dr. Nancy Rose in the Economics Department.

Dean Beverly Hendricks of the School of Humanities has also shown her support by lending her extra office to create the center. However, the Women's Resource Center may lose this space come Fall of 1990 when offices are reassigned. In the meantime, Jenny Snyder, one of the centers initiators, and other involved students will be working hard at promoting and expanding the Women's Resource Center into a permanent fixture here at CSUSB.

The Women's Resource Center is staffed and open about 28 hours a week as follows:

Mon: 10:30-3:00, 4:00-4:30

Please see CENTER, page 13
Go climb a rock!

Center

“Go climb a rock! How about a climb to the top of San Jacinto Peak? Ahh! It’s only 10,831 feet high. Sound better? This makes the top, or you can bring a picnic lunch. There are also barbecue areas if you bring your own fuel, etc.

Why not come out and join us for some spectacular flora and fauna. And maybe none of them will become an onionskin.

Everyone is invited. We will be meeting at the tram at 9 a.m. You will need to be there at that time to get in for the prices listed.

We will be observing the geology of the mountain, as well as the flora and fauna.

There is a restaurant at the top, or you can bring a picnic lunch. There are also barbecue areas if you bring your own fuel, etc.

More volunteers and resources are needed. To volunteer, donate materials or find out more about the Center, call Jenny Snyder on Tuesday or Thursday, 8:00-4:00 at ext. 2376. On other days call the Women’s Resource Center directly at ext. 5646.

Think of the six women closest to you.

One out of six college women will be sexually assaulted this year. But you can change the odds of it happening. Simply by trying to avoid situations that leave you or your friends vulnerable.

For starters, follow security measures. Don’t keep evidence balls doors open. Walk with a friend after dark. And be aware that date rape is a major problem on college campuses. With 90% of these rapes involving drinking.

Then share these facts with six of your friends. And maybe none of them will become another statistic.

Craig, (A£) Congratulations on your initiation. I'm so proud of you!! I love you!! Nancy

Through, I would certainly rank individual members higher or lower, I think, as a body, the board deserves a "C+".

Overall, I'd say CSUSB student government averaged a "B". If that doesn't seem particularly high, remember, these people have lives of their own to lead. They put in time and effort to make improvements for all students. The rest of us, frankly, didn't. As for items not accomplished this year, well, there's always next year.

WHEE!

Continued from page 7

Those of you who never attended one of the regular Tuesday meetings passed up the entertainment bargain of the year. Of course, you had to catch the board on a good day, such as the proposed censure of President Watson, or during the vote on the budget.

Members did their best to emulate the political dealing and back stabbing of their more experienced peers in Sacramento and Washington. Mostly, they ended up stabbing each other in the front, but it was all fun.

You have every right to expect your partner to respect and protect your health. If you're having sex, be sure you're using a latex condom every time.

Rec Sports by Bob E

WISL

And then there were four...now there are only two. The season was a long hard fought battle between some geeks, geeks, and others (you pick which category you fall under). Now it is time to stand up and be counted, for this time, the victor becomes immortalized and receives the coveted intramural t-shirt. Team Mutt came into the playoffs with the best record in the WISL, and left with nothing as the ever-unpredictable 12 oz. Stammers whipped out 11 runs to the Mutts 3. Gt goes to show that cross-frat-breeding only produces a less-w team). The Mutts were favored to fair much better, but there is no telling how well the Stammers can play at any given moment. The Stammers will go on to meet Demolition in the WISL World Series today at the Bob E Memorial Stadium. DSP was on the verge of upsetting the league favorite Demolition as they opened up the game scoring a few runs while shutting off the power of the Demol's. The game got ugly as DSP catcher, Wendi Rainy Stormy was collided upon in a close play at the plate. The runner was called out, but tempers were on the rise in this emotion packed event. As DSP was getting worked up about Demolition's style of play, Demolition got worked up on the baseball, scoring more and more and eventually winning 10-5. Demolition and Stammers in the WISL World Series-Stammers are good, but they always choke; put your money on Demolition. *(1110 winner of the WISL will meet the Rec Sports staff next Friday, June 8th, for pizza and softball-fans encouraged; come out and meet Bob E, Joe Long, B. Aten, Mike D., and your other favorite heroes.)*

FISL

So who are the better athletes-tennis players, or soccer players? If softball is any indication, then the tennis players are (though I disagree, I used to play futbol). The session of the Creatures was a close one over the hurdles of the Pedestrians. Don't let the blame on Todd Mapes (though he did walk about fifty players), the Pedestrians were just not playing "their" game. The Pedestrians had the opportunity to open the scoring early, but Capt. Lars ran home from second, later realizing that he was supposed to tag up first. Lars and Todd did make up for the misgivings by scoring three runs a piece in their losing effort. The Pedestrians were favored but just couldn't manage much off pitcher, Tim "Wylo" Watkins, the winning pitcher with a final line score of 13-11. The Creatures move onto the FISL World Series. Demolition and Delta Sig were both fighting for the other birth in the FISL World Series, and what a game this was. Neither team managed to score in the first three innings (this has to be an FISL record). It wasn't until Demolition scored three in the fourth that this game began to become active. It looked as Demolition would go on to win, and become Series contenders in both the WISL and FISL; but Delta Sig wasn't about to roll over. The Sigs came up in the sixth to score four and go on to win this close fought battle 4-3, and put themselves in the World Series scheduled for this Friday against the Creatures. This will be a close game. I'll say the Creatures will score 8 runs, but Delta Sig will double that (18-6 Sigs, call Vegas oddsmakers now). Special congrats to Cal State's Men's baseball team-World Champs in my book.

CAR RALLYE RESULTS

Oops, I lost the results. Actually, the results are not lost for good, just when I was writing this page. Congrats to Art Paz and his partner (whose name I forgot) for most accurately following the given directions and finishing closest to the prescribed time. There were other participants, whose names I'd like to mention but forgot (next week). Finishing with the worst ever recorded time were Ted "Grim" Fisher and Penth Pneuvak. At last report, these two were somewhere near Needles.

Big Events this Saturday

Four Person football and Inertube Water Polo is scheduled for this Saturday. I know you're not doing anything this weekend, so get out there. I recall that TKE was the only frat to show up for Super Teams; lots see some of you other guys, and you dorm (dormant) people. The weather will be great. I called Fritz Colanan, and he promised clear skies and temps in the high 80's. This is your last chance to win the coveted intramural, 100% all cotton t-shirt. See the intramural board in the PE building or call Joe at 880-5235 (x5235).

The Recreational Sports Department is brought to you by the Student Life Organization and funded through the A.S. and private contributions from Amanda Marcos, Nelson Mandela, Donald Trump, Rowdy Roddy Piper, Mickey Mouse, and that guy who sells flowers by the Paradise Lounge. No, the grandstands behind the Health Center are not the long awaited baseball stadium for our homeless CSUSB World Series contenders-it's Commencement Time (at least there won't be any more long-winded speeches from that EX-Chancellor).
Baseball eliminated from championship

By Jeff Zelenski
Staff Writer

The CSUSB baseball ended its hopes for a National Championship with a loss during a third round game in the Division III world series to North Carolina Wesleyan, 10-6. The Coyotes compiled a 1-2 record in the tournament. Last Friday they lost to Eastern Connecticut State 8-4, but bounced back to eliminate Montclair 17-3 the following day before being ousted from the play on Sunday.

The Coyotes ended their season at 29-14 and Western Region Champions. Their appearance in the playoffs was the first time in CSUSB four year history.

Dorm Wiffle-Ball league going strong

By Jacob Powell
Staff Writer

The residents of Tokay dorm in Serrano Village have decided to alleviate their boredom through the formation of a Wiffle Ball League. A Wiffle ball is made of tough plastic, is lightweight, and comes in three different sizes. These sizes are junior, baseball, and softball. The reason that this ball is used for small baseball type games is because it cannot be thrown or hit any great distance, which makes it ideal for around the dorm buildings. The revolutionary design of the Wiffle Ball is that half of the ball is solid, while the other half has eight holes in the plastic. These holes allow the ball to be thrown in three different ways. Depending upon how it is held. These ways are curved, straight, and slider. Because these balls are so light, they curve with ease and seem to float through the air towards an awaiting batter.

The residents have devised their own rules for the game. Their playing field consists of a mini version of a baseball diamond, in which the infield is an out if the batter hits a ground ball. Because of the fallibility of pitchers from the other team, those at bat are allowed as many pitches as they want - as long as they don't get three strikes. There are usually four team members: a catcher, a pitcher, and two outfielders. The players in the field may get a baserunner out throwing the ball at him, but more often than not this ends up in an overthrow ball. These games average about nine innings but can go into overtime quite often.
