BE CAREFUL OF MICROWAVE OVENS

In a television commercial advertising Pillsbury Brownies, children were shown standing in front of the microwave oven, wash ing the brownies cook. This is very dangerous, by law a certain amount of microwave radiation does not pose a problem if you stay away from the unit while it is on. The children were pressed up against the microwave oven while it was cooking. This advertisement essentially says there is no danger. That process is dangerous, and hazardous to your health.

The Increasing Problem Of AIDS Among Minority Children

According to the Centers for Disease Control (CDC), the number of AIDS cases in children has increased by 20 percent in twelve months ending in August. A large proportion of these cases are either Black or Hispanic. In conducting an analysis of reported cases between 1981 and 1986, CDC found that 58 percent of the cases were Black and 22 percent were Hispanic children. Ninety percent of these children acquired the disease from the mother. The primary cause for so many minority children to be infected with Human Immunodeficiency Virus (HIV) is the behavior of their parents. These parents have contracted the virus through sharing needles and syringes and for intravenous drug abuse, and by having unprotected sex with infected persons. The transmission of the disease from the infected mother to the unborn is extremely dangerous to the infant and in most cases fatal. The spread of AIDS can be prevented by not sharing needles and syringes and by having protected sex. The perception that AIDS is a problem of the White race is false. Among all the reported adult cases of AIDS between 1981 and 1986, 23 percent were Black and 14 percent were Hispanic. A concerted action is needed by both the Black and Hispanic communities to combat this problem that is affecting so many children.

The Los Angeles Chapter of the American Association of Blacks in Energy (AABE) will host Second Annual Scholarship Lunch and Fashion Show on November 16, at the Los Angeles Hilton Hotel, 930 Wilshire Blvd.

"Using the theme 'Energy Connections,' the Second Annual Scholarship Lunch will feature a fashion show for the first time, dynamic program which featured a fashion extravaganza which highlighted energy industry executives in a truly creative fashion display. More than 450 people attended last year's event," Hunter added.

Ours Your Salt

Dear Dr. Levitter: I have a strong family history of high blood pressure and several people have told me that salt is bad for my body. Why?

C.B.

Dear C.B.: In ancient times salt was held in high esteem as evidenced by its use as a medium of exchange and trade. Today with the advancement of knowledge and longevity, we recognize that salt enhances the taste of food and is an integral part of our body, but can be bad for our body.

Questions & Answers

Is Tithing Under the Law?

QUESTION: Dear Pastor Woods: Greetings! I am also a Pastor of a church, and I look forward to making your columns every week. I have made change in my church which has drawn some flack. You are only to begin to realize that taking 2 and 3 offerings every Sunday is no way to raise the necessary support for the church was vain and will ring. I see in the Bible where God's people are to bring tithes and offerings to church to support the work of the church. How can we change your thoughts on this law?

ANSWER: Dear Pastor: Tithing did not start with the institution of the Mosaic law. We see the first example of tithing when Abel and Cain brought their first fruits of their labor to God in Genesis 4:4-5.

The Rev. Nathaniel Harper was transferred from Johnson Chapel A.M.E. Santa Ana, Ca. to the Colorado Conference and stationed at Jordan Chapel A.M.E. Church. The Rev. Nathaniel Harper was transferred from St. James A.M.E. Los Angeles, Ca. to the Southern California Annual Conference.

Varnetta Honeywood's work.

The Guests were able to preview art by Black artists which included Famous Varnetta P. Honeywood, Annar Lee, Charles Bibbs, William Otos, and more. It is important that we (blacks) become aware of who our Black artists are. We need to know who are Black singers, our Black sports and movie stars - our Black artists are. We surely can name our Black singers, our Black sports and movie stars - we need to know who are Black artists are," stated Deborah Cooper.

"We also need to start buying Black art as an investment, while it's still affordable," commented Barbara Greene. Simply Art's grand opening was coordinated by Audree Taylor.

Eric Dickerson

Eric Dickerson, formerly of the Los Angeles Rams, signed this franchise in one of the biggest trades in National Football History. Sending Dickerson to the Indianapolis Colts, the Rams took in a sizable haul from the Colts and Buffalo Bills - three first-round draft picks, three second-rounders, and running backs Greg Bell and Owen Gill. With the Rams' Dickerson contract was worth $620,000 this season. The Colts are awarding him with a three-year contract, reportedly worth more than $1.5 million per year.
