TRUSTEES APPROVE CSCSB MASTER PLAN REVISION

The Board of Trustees of the CSUC took action at its July 11, 1973 meeting to approve revision of the Campus Master Plan for the College. The new Master Plan establishes a projected peak enrollment of 12,000 F.T.E., updating the 20,000 F.T.E. figure originally set for the College in 1962. The revision is the result of a system-wide review of enrollment ceilings conducted by the Chancellor's Office.

According to Joseph K. Thomas, Vice President for Administration, the revised figures will enable the College to acquire additional facilities at an earlier date than heretofore possible, by using the 12,000 F.T.E. as a maximum figure and 5,000 F.T.E. as an immediate figure, up to 1980.

"Under the new policy the Trustees now are able to round out and balance the campus with facilities that we have not had previously. The revision permits addition of the Creative Arts Building which was approved because of the new Trustee policy of providing balanced facilities on campuses throughout the state.

"The only other facility we will lack is an administration building which we are tentatively scheduled to realize by 1979 or 1980, perhaps sooner, depending upon the enrollment picture," Dr. Thomas continued. "The physical size of the campus will remain intact. The curriculum will continue to expand and if the need arises to add to our facilities due to an increase in enrollment, we will still have 430 acres to work with."

VICE CHANCELLOR OUTLINES STATUS OF SALARY INCREASES

In a letter dated July 18, 1973, Vice Chancellor for Faculty and Staff Affairs, C. Mansel Keene, reports on the status of processing salary increases for 1973-74 for CSUC employees. He states that payment is "subject to certification of funds by Department of Finance and the potential of challenges to our salary program by the Cost of Living Council, since our average requests exceeded the current standard of 5.5%.

(Continued on Page 2)

**NOBODY ELSE TELLS
YOU THESE THINGS:**

PAYDAY IS TUESDAY, JULY 31.

SALARY INCREASES - (Cont'd) . . . "On July 6, the Governor received a wire from the Office of Wage Stabilization stopping temporarily the payment of any salary increases to State Civil Service employees. However, we did not consider that The California State University and Colleges was covered by this 'stop order' and so advised the Office of Wage Stabilization, pointing out that the Trustees had their own salary setting authority, their own salary increase appropriation, and their own personnel regulations which are separate and apart from State Civil Service.

"At this point we have not received a challenge to our submission. However, we are expecting to hear at any time from the Office of Wage Stabilization. We will keep you apprised of the status of this matter as soon as we have additional information.

"You should know, also, that the Department of Finance has not at this time certified availability of funds for our increases.

"In light of all these factors, there is reason to believe that all negotiations will not be completed in time to have the increases reflected in the August 1 salary checks. We would appreciate your providing this information to all your faculty and staff."
