Speaker Willie Brown Wishes You Happy Holidays

The holiday season is well underway. It's a time when we come together with family and friends to celebrate and to look back over the past year. I hope each of you will enjoy the holiday time and New Year.

While I'm not sure how the celebrations will go for you on your own, I also hope you will look at the national situation from these angles and with some concern:

A NON-ALCOHOLIC HOLIDAY FAVORITE

During holiday parties, it's particu- larly important for those who are afraid of specific foods to be aware of self-contained meals. It is also important to make sure that all those who are not involved in the cooking of these new foods are aware of this concern.

ANHEUSER-BUSCH SCHEDULES MLK AWARDS LUNCHEON

ANHEUSER-BUSCH is making plans to honor an individual who has made a unique contribution to the betterment of the community and who truly exemplifies the character and philosophy of the great Dr. King. All nominees will be acknowledged for their special achievements. The Nomination Committee: Sponsored by 1417 (3 in 1) add: Joyce Akkinson, administrative assistant to Assemblywoman Gwen Magrann, M.D., R.D., registered dietitian and nutritionist; for The Vons Companies, Inc. With the average American eating in restaurants 12 ½ times a year, it is so important to know what to eat and how to enjoy yourself without adding pounds of fat. Magrann sug- gests the following restaurant survival techniques:

1. Don't enter a restaurant ravenously hungry. This can lead to over-ordering and over-eating. Before you leave, have a small snack to take the edge off the hunger.

2. Choose beverages wisely. Beverages can add calories as quickly as food does. Alcohol is a special problem since it not only adds calories, but also decreases your appetite. Your best bet is water.

3. Don't be shy about requesting foods to be prepared a special way. A survey conducted by the National Restaurant Association discovered that three out of four restaurants will alter the way they prepare food. Have it your way.

4. Order a la carte. Full course meals represent an extra dose of calories since the tendency is to eat out everything that is served. It makes calorie- sense to order exactly what you want and no more.

5. Eat slowly. Take time to enjoy the meal before you actually taste the food. Put the fork down between bites, chew the food well, and drink plenty of water. It takes about 20 minutes for the brain to let you know that you have eaten enough to stop eating.

6. Forget about the clean-up plate. The food you leave on your plate is not shipped to you. The food that you leave on your plate is not a small amount of calories that you burn to get rid of the calories.

For more information on dieting or any other aspect, write to Susan Magrann, M.D., R.D., by mail or over the phone.

For practitioners opting the terminate financial loss these permits bring. American consumers purchase billions of dollars worth of property and casualty insurance each year. Brown’s Christmas Message....

Continued from front page experience this year. 

These Californians must depend upon the rest of us for whatever matters holiday festivities we will enjoy. 

In many communities, gifts of toys and food to church and civic organizations are not downs. 

There are people who spend their lives with the new tax laws or with a sense of economic uncertainty about 1988. 

Whatever the reason, many California families will have a blank and very Christmas without our help. So please make some contributions, however small, so that our fellow citizens may share in some small part of the abundance the rest of us enjoy. 

So this holiday season, let's give to those who are not able to give in return. Let's give our time and money to those who are in need. 

Finally, as you make your New Year’s resolutions, remember to put an effort toward 1988 as fulfilling for California and all who live here.

My personal best wishes to you and your families for a joyous holiday season. 

Happy Holidays, 

William L. Brown Jr.,

**Overview of Asbestos:** Asbestos is the most serious threat to the lives and health of many Americans’ students and school employees. For the past 30 years, health experts and government officials have known that crumbly or friable asbestos that releases loose fibers into the air can cause illness and even lead to death.

Federal activities can increase (two kinds) of burdens on a school district. First, the presence of tax-exempt federal installations, such as military bases, government office buildings, industrial lands, or low rent housing, may make it impossible for a district to generate revenue from local sources. Second, federal services can bring about a service burden caused by an influx of federally connected children who must be served.

School districts that have suffered damage to their facilities from natural disasters also receive assistance under the Impact Aid program.

NEA Recommendations:
1. Provide adequate funding for all categories of students in federally affected school districts.
2. Provide 100 percent of entitlement for school districts which share boundaries with a federally operated facility.
3. Provide 100 percent of entitlement for school districts which share boundaries with a military reservation.
4. Forward find Impact Aid payment...
