The BULLETIN

October 5, 1973

STUDENT POPULATION MAY REACH 3,000 BY CENSUS DATE

is expected that by census date, October 17, this will have increased to 2,550, which represents a 10% increase in the F.T.E. over last Fall's figure and a 13% increase in the student body count.

Assoc. Dean H. Stephen Prouty states that "this could well reach 3,000 by census date."

COLLEGE RECEIVES \$64,000 FOR UPWARD BOUND PROJECT

The College has been awarded \$64,000 by the U.S. Office of Education to establish the Upward Bound Project, effective with the current academic year. A project director, Gilbert Lara, has been appointed and is starting work on the program, which will see the College directing its efforts toward 10th and 11th grade high school students who have not had the opportunity to demonstrate their talents educationally.

Initially there will be 60 students in the program, ten recruited from six high schools in the area.

UPWARD BOUND DIRECTOR STARTS WORK ON PROJECT

Gilbert Lara has been appointed to the position of Director of Upward Bound Program. The former District Executive of the San Bernardino Boy Scouts of America is enthusiastic about the opportunity he will have to bring high school students from all ethnic backgrounds into the program and expose them to a small college. "The project is geared to preparing the students to overcome educational difficulties with the ultimate objective of giving them the opportunity to attend college," he states.

Mr. Lara was involved with a para-professional program to bring minority executives into the Boy Scouts; is currently in the Mayor's Interdepartmental Cooperative Committee; is Vice President and Executive Board member of Kiwanis Club of Greater San Bernardino; Vice President of Los Padrinos; on the Executive Board of La Confederacion; Explorer Advisor to Post 888, Boy Scouts of America. A native of Arizona, Mr. Lara received his B.S. in Business Administration from Arizona State University, Tempe.

GRANTS OF \$103,000 AND
\$5,000 RECEIVED FOR
TRIBOLIUM CENTER RESEARCH

Word was recently received from the U.S. Army Research Center in Durham, N.C. that the College has been awarded a grant of \$103,000 for a three-year period beginning with the current year, for a research project entitled "Genetic Control of Tribolium." Alexander Sokoloff, Professor of Biology, will serve as Principal Investigator for the project.

Dr. Sokoloff has also recently been notified by the National Science Foundation that the project, "Maintenance of the Tribolium Stock Center" has been awarded an additional \$5,000. Dr. Sokoloff is Director of the project. Funds awarded under the grant now total \$46,000.
