Brown Requests Briefing On Railroad Disaster

Representative George E. Brown, Jr. (D-San Bernardino, Riverside, Ontario) has asked the National Transportation Safety Board (NTSB) to schedule at their earliest possible convenience a briefing on the possible causes of the May 12th train derailment which claimed four lives and destroyed homes in San Bernardino.

In the NTSB investigation into this terrible tragedy continues into the months ahead, there are several questions which I believe must be addressed,” says Brown. “I would like to know if the Cajon Pass has previously been cited as a dangerous area by railroad safety groups. Have federal railroad regulations been adequately enforced in this area? Do we need new regulations? What about hazardous materials? Are they permitted on this rail line?”

The NTSB hopes to share their findings with Brown following the return of its eight-member investigatory team from the accident site. According to the NTSB the Cajon Pass train derailment occurred February 28, 1989. There is still no determination of the cause in that case.

**Prostate Cancer**

Dear Dr. Levitt: My doc­tor told me there is a hard area in my prostate. What does this mean? Worried Male

Medicated Male

Prostate symp­toms from cancer of the pro­state occur. The key to early diagnosis is a yearly rectal exami­nation.

If your physician finds an irregular or hard area it may mean that cancer of the prostate has started. He will probably refer you to a Urologist who may take a sample of the tissue surgically to detect the presence of cancer cells.

Prostate cancer grows slowly, therefore, early detec­tion enhances the probability of a cure.

If the cancer is confined to the prostate gland and has not spread beyond its confines, treatment is either surgery or radiation therapy. Up to 70 per­cent of these patients survive at least five years.

Once the cancer has spread outside of the prostate gland the Urologist may use the combina­tion of surgery, a hormone treatment, and hormones.

Cancer can be stimulated by testosterone. Some times your surgeon will remove the testicles in a pro­cedure called an orchietomy to remove this hormonal stimula­tion.

Testosterone levels can also be reduced by administration of androgens, diethylstilbestrol (DES) and other hormones.

Those patients who have metastatic disease to the bone may see an improvement after hormonal administra­tion is in process.

Early diagnosis and management by a Urologist is appropriate. Once you have hit 50 have your yearly exam.

Citrus Valley Youth Ushers Hold Annual Day

I. Introduction

Citrus Valley Youth Ushers from Usher's Day presented. Hear the service, Word and prayer. Hardy Brown, president of the Citrus Valley Youth Ushers, led in prayer. He said to put God first (Matthew 6:33) and to love Him above anything else. Adam, God provided Sabbath to set aside an entire day to worship of God and put Him above everything else. He said to put Him first every day of the week. Space does not permit a longer article because God has already given us the best we have to base our spiritual lives on. How to break the cycle of bondage, how to live free from worry, and how we can get the blessings instead of the crumbs, but rather learn how to obtain the blessings instead of the crumbs. We fill up the name of Jesus through things and promises in our holy name. We have women of God speak to our group each week with spirit filled messages. Women are invited to come out and receive the blessing that God has for you.

II. Main Body

A. Questions & Answers

1. Should We Observe Sabbath?

2. How Do We Observe Sabbath?

3. Should We Observe a Day of Rest?

4. What Does It Mean to Rest or Cessation?

B. New Christian Pre-School Opens

The New Testament Church of God is pleased to announce the opening of their new Christian Pre-School for ages 2-6. The group was founded May 26, 1988 by Sis. Aaliyah Abdullah in San Bernardino. The New Testament Church of God ended His work which He had made. If God needed the Sabbath, He would not have added it to the Ten Commandments. Genesis 2:2 says, "And on the seventh day God ended his work which he had made." If God needed the rest, we surely do.

C. Questions & Answers

1. Why did God name the Sabbath day? The Sabbath day was named after the Lord. The Sabbath is a day of rest, a day to set aside to exclusively worship God. We need this time with God. Our bodies also need rest. The Sabbath is a day to rest.

2. Even though the Sabbath is so important, some people still find it difficult to observe. How can we make sure we are setting aside the Sabbath properly?

III. Conclusion

Let us conclude by saying that we absolutely should observe a time of rest dedicated to worshiping God. It’s pitiful when Christians cannot even envision two hours to God,-shance, shares! Our worship of God should be our top priority. He said to put Him first (Matthew 6:33) and to love Him above anything else. Observing the Sabbath is only the beginning. We should worship God and put Him first every day of the week.
